

The evidence is clear, Pakistani sponsorship of terrorism can be traced to the Soviet-Afghan war and Pakistan's ongoing conflict with India. After 9/11, Osama bin Laden and his ilk fled to Pakistan for a clear reason: because they knew it was a safe place for extremists.

For too long, we have fooled ourselves into thinking Pakistan is a responsible nation. During the Cold War we made a mistake identifying an Islamist state like Pakistan as an ally. They do not share our values and have inflamed conflict across South Asia for a long time. We have poured billions of dollars into Pakistan hoping it will change. When will we accept that it will not? That violent extremism and anti-Americanism is too deeply rooted and that paying them only rewards bad behavior.

Currently, we authorize roughly \$700 million every year in coalition support funds for Pakistan to fight terrorism and support our efforts in Afghanistan. We long suspected, however, they were only taking token steps to fool us. Starting in FY2016, to be eligible for half of the CSF money, Congress required the Secretary of Defense to certify that Pakistan is taking adequate steps to combat the Haqqani Network—one of the worst terrorist groups in the region. And to no surprise, the Pentagon has been unable to certify that Pakistan is meeting this requirement since it was put into law. Despite failing to meet this certification, \$350 million of the CSF money still goes to Pakistan. If it is clear that Pakistan is permitting terrorist groups to operate on its territory, why are we giving them any money at all?

The time has come to end our delusion that Pakistan will fulfill its responsibility in the fight against terrorism. We should not be paying Pakistan to betray us. They will do it for free. And that's just the way it is.

GUAM

**HON. MADELEINE Z. BORDALLO**

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

*Thursday, May 24, 2018*

Ms. BORDALLO. Mr. Speaker, I rise today to commend and congratulate the Guam Power Authority (GPA) as it celebrates its 50th anniversary of serving the people of Guam. The Guam Power Authority provides electrical services on Guam to residential, commercial, government, and military customers. GPA was created in 1968 as a public corporation and autonomous instrumentality of the Government of Guam, and since that time has maintained and expanded the island wide power system for the island of Guam. In its 50 years of serving the island, GPA has adapted to multiple changing conditions. It has progressed to have enhanced flexibility as a Guam-owned entity with the mission to provide safe, reliable, affordable, and environmentally responsible service to Guam's ratepayers.

GPA adds value to the services it provides through diversifying GPA's energy resources, and conducting maintenance throughout Guam's island wide power system. GPA also offers evolving online services for customers to conduct electric utility business at their convenience, all while continually upgrading its use of technology in all areas.

The agency has grown to meet the economic growth and rapid pace of technological advancements for the island. It has met the challenges of connecting all customers while aiming for superior customer service through accountability, efficiency and responsiveness. GPA has evolved from operating as an isolated power grid system to enhanced reliability with firm Integrated Resource Planning, optimizing energy production costs and forging beneficial public-private partnerships.

GPA has made great strides over the last 50 years to overcome obstacles and continue to grow. Today, the agency employs nearly 500 professional and technical individuals who bring electricity to the homes and businesses of Guam. These employees remain committed to providing energy service and solutions to the 52,000 customers of the Guam Power Authority.

Again, I commend and congratulate the Guam Power Authority (GPA) as it celebrates its 50th anniversary of serving the people of Guam. I commend the Guam Power Authority for their leadership in providing electricity to the local community. I recognize Mr. John M. Benavente, P.E., General Manager, the management team and all employees of the Guam Power Authority for their contributions to the success of GPA. I join the people of Guam in commending them for their service and growth over the last 50 years, and thanking them for their many contributions to our island. I look forward to many more years of success for the Guam Power Authority in support of improving the quality of life for the people of Guam.
