

Ms. KLOBUCHAR, Mr. MARKEY, Mr. MENENDEZ, Mr. MERKLEY, Ms. MURKOWSKI, Mrs. MURRAY, Mr. SCHATZ, Mr. SCHUMER, Ms. WARREN, and Mr. HELLER) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 530

Whereas the people of the United States join together each May to pay tribute to the contributions of generations of Asian Americans and Pacific Islanders who have enriched the history of the United States;

Whereas the history of Asian Americans and Pacific Islanders in the United States is inextricably tied to the story of the United States;

Whereas the Asian American and Pacific Islander community is an inherently diverse population, comprised of over 45 distinct ethnicities and over 100 language dialects;

Whereas, according to the Bureau of the Census, the Asian American population grew faster than any other racial or ethnic group over the last decade, surging nearly 72 percent between 2000 and 2015;

Whereas there are approximately 21,000,000 residents of the United States who identify themselves as Asian and approximately 1,500,000 residents of the United States who identify themselves as Native Hawaiian or other Pacific Islander, making up nearly 6 percent of the total population of the United States;

Whereas the month of May was selected for Asian/Pacific American Heritage Month because the first Japanese immigrants arrived in the United States on May 7, 1843, and the first transcontinental railroad was completed on May 10, 1869, with substantial contributions from Chinese immigrants;

Whereas section 102 of title 36, United States Code, officially designates May as Asian/Pacific American Heritage Month and requests the President to issue an annual proclamation calling on the people of the United States to observe the month with appropriate programs, ceremonies, and activities;

Whereas 2018 marks several important milestones for the Asian American and Pacific Islander community, including—

(1) the 120th anniversary of United States v. Wong Kim Ark, 169 U.S. 649 (1898), a Supreme Court decision that determined that the 14th Amendment grants birthright citizenship to all persons born in the United States, regardless of the national origin of their parents;

(2) the 75th anniversary of the Act entitled “An Act to repeal the Chinese Exclusion Acts, to establish quotas, and for other purposes”, approved December 17, 1943 (commonly known as the “Magnuson Act of 1943”) (57 Stat. 600, chapter 344), which formally repealed the Act entitled “An Act to execute certain treaty stipulations relating to Chinese”, approved May 6, 1882 (commonly known as the “Chinese Exclusion Act of 1882”) (22 Stat. 58, chapter 126);

(3) the 30th anniversary of the passage of the Civil Liberties Act of 1988 (50 U.S.C. 4211 et seq.), which granted reparations to Japanese Americans incarcerated during World War II; and

(4) the 25th anniversary of the enactment of Public Law 103-150 (107 Stat. 1510), which acknowledged the 100th anniversary of the January 17, 1893, overthrow of the Kingdom of Hawaii and offered an apology to Native Hawaiians on behalf of the United States;

Whereas Asian Americans and Pacific Islanders have made significant contributions to the United States at all levels of the Federal Government and the United States Armed Forces, including—

(1) Daniel K. Inouye, a Medal of Honor and Presidential Medal of Freedom recipient who, as President Pro Tempore of the Senate, was the highest-ranking Asian American government official in the history of the United States;

(2) Dalip Singh Saund, the first Asian American Congressman;

(3) Patsy T. Mink, the first woman of color and Asian American woman to be elected to Congress;

(4) Hiram L. Fong, the first Asian American Senator; and

(5) Daniel K. Akaka, the first Senator of Native Hawaiian ancestry;

Whereas the Congressional Asian Pacific American Caucus, a bicameral caucus of Members of Congress advocating on behalf of Asian Americans and Pacific Islanders, is composed of 63 Members this year, including 17 Members of Asian or Pacific Islander descent;

Whereas, in 2018, Asian Americans and Pacific Islanders are serving in State and Territorial legislatures across the United States in record numbers, including in—

(1) the States of Alaska, Arizona, California, Connecticut, Georgia, Hawaii, Idaho, Illinois, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Texas, Utah, Virginia, Washington, and West Virginia; and

(2) the Territories of American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands;

Whereas the commitment of the United States to diversity in the judiciary has been demonstrated by the nominations of high-caliber Asian American and Pacific Islander jurists at all levels of the Federal bench;

Whereas there remains much to be done to ensure that Asian Americans and Pacific Islanders have access to resources and a voice in the government of the United States and continue to advance in the political landscape of the United States; and

Whereas celebrating Asian/Pacific American Heritage Month provides the people of the United States with an opportunity to recognize the achievements, contributions, and history of, and to understand the challenges faced by, Asian Americans and Pacific Islanders: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the significance of Asian/Pacific American Heritage Month as an important time to celebrate the significant contributions of Asian Americans and Pacific Islanders to the history of the United States; and

(2) recognizes that Asian American and Pacific Islander communities enhance the rich diversity of and strengthen the United States.

SENATE RESOLUTION 531—EXPRESSING SUPPORT FOR THE DESIGNATION OF MAY 2018 AS “NATIONAL BRAIN TUMOR AWARENESS MONTH”

Mr. DAINES (for himself, Mr. MARKEY, Ms. COLLINS, and Mr. VAN HOLLEN) submitted the following resolution; which was considered and agreed to:

S. RES. 531

Whereas an estimated 78,980 new cases of primary and non-malignant tumors in the brain and central nervous system are expected to be diagnosed in the United States during calendar year 2018;

Whereas up to 500,000 individuals were diagnosed with metastatic brain tumors that were the result of cancer spreading from another part of the body to the brain in 2016;

Whereas pediatric brain tumors are the leading cause of death from cancer in children under the age of 19;

Whereas the average survival rate in the United States for all malignant brain tumor patients is only 34.9 percent;

Whereas an estimated 16,616 people in the United States will lose their battle with a primary brain tumor during calendar year 2018;

Whereas brain tumors may be malignant or benign, but can be life-threatening in either case;

Whereas nearly 700,000 people in the United States are currently living with a brain tumor;

Whereas treatment of brain tumors is complicated by the fact that there are more than 130 different types of tumors;

Whereas the treatment and removal of brain tumors present significant challenges because of the uniquely complex and fragile nature of the brain;

Whereas brain tumors affect the primary organ in the human body that not only controls cognitive ability, but the actions of every other organ and limb in the body, leading to brain tumors being described as a disease that affects the whole individual;

Whereas brain tumor research is supported by a number of private, nonprofit research foundations, and by institutes at the National Institutes of Health, including the National Cancer Institute and the National Institute for Neurological Disorders and Stroke;

Whereas basic research advances may fuel research and development of new treatments for brain tumors;

Whereas there remain challenging obstacles to the development of new treatments for brain tumors, and there are no strategies for screening or early detection of brain tumors;

Whereas, despite the number of people newly diagnosed with a brain tumor every year, and their devastating prognoses, there have only been 4 drugs and 1 device approved by the Food and Drug Administration to treat brain tumors during the preceding 30 years;

Whereas the mortality rates associated with brain tumors have changed little during the past 30 years;

Whereas there is a need for greater public awareness of brain tumors, including the difficulties associated with research on those tumors and the opportunities for advances in brain tumor research and treatment; and

Whereas May 2018, when brain tumor advocates nationwide unite in awareness, outreach, and advocacy activities, is an appropriate month to recognize as “National Brain Tumor Awareness Month”: Now, therefore, be it

Resolved, That the Senate—

(1) supports the designation of May 2018 as “National Brain Tumor Awareness Month”;

(2) encourages increased public awareness of brain tumors to honor those who have lost their lives to that devastating disease or are currently living with a brain tumor diagnosis;

(3) supports efforts to develop better treatments for brain tumors that will improve the quality of life and the long-term prognosis of those individuals diagnosed with a brain tumor;

(4) expresses its support for those individuals who are battling brain tumors, as well as the families, friends, and caregivers of those individuals; and

(5) urges a collaborative approach to brain tumor research, which is a promising means of advancing understanding of, and treatment for, brain tumors.

Mr. DAINES. Mr. President, I am glad to introduce a resolution to designate May 2018 "National Brain Tumor Awareness Month." It is my hope that this resolution will show our support for the patients battling brain tumors, as well as their families, and friends who fight alongside them. It is estimated that 78,980 new cases of primary and non-malignant tumors in the brain and central nervous system will be diagnosed and 16,616 people in the United States will lose their battle with a primary brain tumor this year alone. This resolution will increase public awareness and honor those who have suffered, or are suffering from a brain tumor, while encouraging researchers to redouble their efforts in the search for a cure. I thank Senator MARKEY and our bipartisan colleagues for their support for this important cause.
