AMENDMENT NO. 1 OFFERED BY MR. NOLAN

The Acting CHAIR. It is now in order to consider amendment No. 1 printed in part B of House Report 115-712.

Mr. NOLAN. Madam Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 5, line 13, after the dollar amount, insert “(increased by \$1,000,000)”.

Page 7, line 16, after the dollar amount, insert “(reduced by \$1,030,000)”.

The Acting CHAIR. Pursuant to House Resolution 923, the gentleman from Minnesota (Mr. NOLAN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. NOLAN. Madam Chair, I would like to begin by thanking Chairman SIMPSON and Ranking Member KAPTUR. I wish the whole country could be here to watch how hard you have worked, not just tonight, but throughout the year to bring this important legislation before us. It would give them great hope and faith in the process, and I commend both of you, your committee members, and your staff for the work that you are doing here.

Madam Chair, I will be brief. My amendment would add \$1 million to the U.S. Army Corps of Engineers' aquatic nuisance control program. In effect, it would double the annual funding to \$2 million for the important and critical research that is needed to combat some

1,500 terribly destructive invasive species in our lakes and waterways, including six new invasive species of foreign zooplankton that were just discovered in Lake Superior. I am not sure where it came from and what kind of damage it will do.

A little quick history here: I am only going to take a couple of minutes. My amendment to the 2014 water resources bill added fish and other aquatic creatures to the official definition of invasive species, a definition that had been previously reserved only to plants. So that opened the door for us to have a way to combat these aquatic species.

And in so doing, the Congress gave the Army Corps the authority to do the research to eradicate invasive species like Asian carp, zebra mussels, and so many hundreds of others that are causing so much damage to sport and commercial fishing, to shipping, navigation, and to harbor maintenance.

The aquatic nuisance control program is supposed to be leading the way with cutting-edge research, and it is doing a good job. But the fact is, it is terribly underfunded, leaving little resources to address the influx of the aquatic species.

As a result, the aquatic invasives like zebra mussels have infested more than 130 lakes in my own State and thousands of lakes across the country. To give you an idea of how fast these zebra mussels, for example, spread, a female zebra mussel can produce a half a million offspring each year.

And the simple truth is, the zebra mussels are just choking off all kinds of snails and clam and other native fishes—even bird species. In fact, they killed over 10,000 loons in Lake Erie alone because they ate something that had zebra mussels in them, and the zebra mussels had a botulism that killed 10,000 loons. That is how devastating these things can be.

□ 2045

For outdoor recreation, our people are getting their feet cut and getting all kinds of injuries by stepping on these zebra mussels. Thousands of good jobs and slowdowns of our economy are caused, delaying ships as they are painstakingly having to remove these zebra mussels. They are just one of more than 1,500 invasive species.

So I urge my colleagues to approve this amendment so the Army Corps can get to work cleaning up our lakes and waterways and putting an end to the invasive species that are causing so much costly damage and destruction to our lakes and waterways.

Madam Chairman, I yield to the gentlewoman from Ohio (Ms. KAPTUR).

Ms. KAPTUR. Madam Chair, I thank the gentleman from Minnesota (Mr. NOLAN) for yielding me the time.

Talk about working hard, you are here at 9 o'clock in Washington and the day started very early.

I thank the gentleman for being here and defending the Great Lakes. I support his amendment. I personally represent about 200 miles of Lake Erie's

coast, the shallowest and most abundant of the Great Lakes. We know what zebra mussels are and quagga mussels. We also know about aquatic plants like phragmites that are just invading and causing all kinds of problems along our shores.

The Aquatic Nuisance Species Research Program works on other species in other parts of the country, so I thank the gentleman for being a champion of the Great Lakes and a champion of so many important causes.

We know that in our Great Lakes we have about a \$6 billion fishery that we are trying to protect, but these quagga and zebra mussels are spreading rapidly. The gentleman is right. It is just an explosion. There is no other way to explain it. They came in in ballast water. We tried to adopt ballast water regulations so it has to be dumped when it is further up the Saint Lawrence Seaway before those ships come down. It didn't happen, so now we have this to contend with.

We are trying to keep these invasive species out of our lakes. We are threatened by the Asian carp. We are trying to fish those out temporarily while we try to find a more genetically impactful solution.

I want to thank the gentleman for transferring \$1 million from the Corps' operation and maintenance account to increase the Corps' Aquatic Nuisance Species Research Program. I commend the gentleman for that and thank him for working so late into the night.

Your constituents are lucky Congressman NOLAN is here.

Mr. NOLAN. Madam Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Minnesota (Mr. NOLAN).

The amendment was agreed to.

Mr. SIMPSON. Madam Chair, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. WEBER of Texas) having assumed the chair, Ms. TENNEY, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 5895) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2019, and for other purposes, had come to no resolution thereon.

The SPEAKER pro tempore. The question is on the passage of the bill.

The vote was taken by electronic device, and there were—yeas 210, nays 206, not voting 11, as follows:
