TSA NATIONAL DEPLOYMENT
FORCE ACT

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 4, 2018

Ms. JACKSON LEE. Mr. Speaker, I rise today in support of H.R. 6461, the "TSA National Deployment Force Act".

At a time when the aviation transportation sector is undergoing substantial changes, it is crucial that we take steps to ensure the Transportation Security Administration is able to protect the skies.

Any holes or deficiencies in the security of our aviation sector pose a great risk to the traveling public.

As a tireless advocate for public safety, I am pleased to see that this bill would establish a National Deployment Office within TSA that has the ability to help fill security gaps.

Because of the nature of air travel, the security risks posed to the aviation sector are constantly changing. These shifting risks can depend on a number of various factors, and it is important that TSA have the capacity to adapt in a flexible way to changing circumstances.

The National Deployment Office will allow TSA to deploy additional security officers when:

Airports request them due to emergencies, staff difficulties, or other unforeseen issues.

Special events that may potentially affect National Security are occurring.

A natural disaster or weather event occurs, and additional security staff are needed.

It is absolutely critical that TSA has adequate resources to ensure that the traveling public is both protected, and confident in the safety of air travel.

To that end, this measure emphasizes the importance of a flexible approach that will give TSA greater capabilities for rapid response to a security risk.
