

Health and Human Services, Education, and Related Agencies, I would like to recognize a public servant deeply committed to protecting and improving the health of the American people, Ms. Anne Houser. Anne will retire in January, after a distinguished 48-year career at the National Institutes of Health, where she has for many years been the principal liaison with the Appropriations Committees.

Over the course of her career, Anne has worked for eight NIH Directors, performing the essential but often overlooked role of helping the committees understand the agency's research and funding needs. It is the kind of low-key work that takes place behind the scenes, but has been essential to building the case in Congress for sustained increased investment in medical research. No matter the issue, or the time of the day or night that it might arise, Anne has always been there, supporting the case for research that will help lead to cures. Her honest, thoughtful, and helpful advice has been valuable to me and to everyone with whom she worked. In short, Anne has set the gold standard for how agencies can most effectively work with the committees that oversee them.

Both within NIH and in Congress, Anne is recognized as a consummate professional and an independent thinker who understands the issues, gets to the bottom of problems, and communicates those issues clearly to Members of Congress, our staff, and to the researchers she works with. Thanks to the dedication of Anne, not only is the NIH working better, but Americans are better off as well. Her absence will be a loss for everyone who depends upon her, but I am glad that she will have more time to spend with her friends and family, and especially her grandson, Alex, of whom she is so proud.

ADDITIONAL STATEMENTS

TRIBUTE TO VETERANS OF THE 116TH COMBAT ENGINEER BATTALION

• Mr. CRAPO. Mr. President, my colleague Senator JIM RISCH joins me today in paying tribute to the veterans of the 116th Combat Engineer Battalion in recognition of the battalion's 50-year grand reunion.

In 1968, the 116th Combat Engineer Battalion deployed to Vietnam. The battalion was made up of approximately 800 Idaho National Guard soldiers from National Guard companies based in Idaho. The soldiers' tasks included clearing and repairing roads.

The soldiers who served in the 116th Battalion were an integral part of the war effort. They have been credited with swiftly and effectively reconstructing airfields, building bases, clearing thousands of acres of minefields and jungle, constructing thousands of square feet of buildings and bridges, moving critical supplies and

equipment, providing access to water, and more. Their legacy of outstanding, dedicated service remains a hallmark of the battalion.

Veterans who served in the battalion are gathering in Idaho Falls on September 14–15, 2018. As they join with their fellow veterans and family and share memories and life experiences, we thank them for their service to our Nation. We wish veterans of the 116th Combat Engineer Battalion, your families, and loved ones all the best for an enjoyable reunion and honor you for your remarkable service to our country.●

TRIBUTE TO CHARLES GARLAND SCHWAB

• Mr. DAINES. Mr. President, I have the honor of recognizing Charles Garland Schwab, a World War II Veteran, and a man who is ever grateful to celebrate his 100th birthday on October 6, 2018. Charles Garland Schwab was born to homesteaders in the Big Snowy Mountains, southeast of Lewistown, MT. He grew up on that homestead, and in 1940, he married his wife Thelma.

Charles was drafted into the U.S. Army in January of 1944. After basic training and a bout with pneumonia, he joined his fellow soldiers in France on the front lines during World War II. He was awarded the Bronze Medal, the American Theater Service Medal, the European, Africa, Middle East Theater Medal, a Good Conduct Medal, as well as several ribbons, including the Army Occupation Ribbon.

Upon returning to the United States, Charles was honorably discharged from the Army on May 2, 1946. Following his discharge from the Army, Charles and his wife purchased and operated the Lake View Cabins near St. Mary. During the off season, Schwab practiced his trade as an oil field pipefitter throughout Montana. He and his wife moved to Missoula in 1950, where they raised two daughters. He continued his pipefitter career and was instrumental in the process of bringing natural gas to the homes of the citizens of Missoula.

Charles' wife Thelma passed away after 55 years of marriage in 1995. Although Charles sold the Lake View Cabins after 20 years and is now a retired pipefitter, he continues to enjoy the company of his daughters, children, grandchildren, and friends and remains active in the community.

One of Charles' most treasured memories is that of the honor flight he took to Washington, DC, during the government shutdown in 2013. He will forever treasure the memories of that trip, his time as a private first class in the U.S. Army, and the opportunity to defend our great Nation during World War II.●

RECOGNIZING THE WINNETT LION'S CLUB

• Mr. DAINES. Mr. President, this week I have the honor of recognizing the Winnett Lion's Club for their impact on Petroleum County and surrounding communities.

Over the past 3 years, the Winnett Lion's Club has serviced rural communities through free visionary health screenings. This preventative care aids in catching Amblyopia, an easily treatable disease during childhood.

I just 3 years, the Winnett Lion's Club has served over 3,000 children and has traveled over 2,500 miles to help rural communities. The Winnett Lion's Club has served children from Headstart, Child Find programs, local public schools, colony-based schools, and business fairs. They have gone above and beyond to support the children in their surrounding communities.

I congratulate the Winnett Lion's Club for their dedication in serving their community and for leaving a positive impact on Petroleum County.●

REMEMBERING SHELDON S. COHEN

• Mr. VAN HOLLEN. Mr. President, I wish to pay tribute to my constituent and dear friend, Sheldon S. Cohen, who passed away earlier this week. Sheldon Cohen left an extraordinary legacy of accomplishment and service to our country.

A proud native Washingtonian and graduate of DC public schools, Sheldon was a World War II Navy veteran. One of the world's leading tax attorneys, he served as chief counsel and then Commissioner of the IRS under President Lyndon B. Johnson, becoming the youngest person to hold that position. Among his countless other accomplishments was his creation of the first Presidential blind trust. Significantly, the 1978 Ethics in Government Act made blind trusts the preferred vehicle for public officials who do not want to dispose of holdings that raise potential conflicts. In addition, he was instrumental in helping to computerize the IRS and in drafting an overhaul of the Federal income Tax Code. Following his government service, he had an extensive career in private practice, including founding the law firm of Cohen & Uretz. He served as general counsel to the Democratic National Committee and helped settle a civil case stemming from the break-in of DNC offices at the Watergate office complex by Nixon campaign operatives.

Sheldon Cohen's work was influential internationally as well. He advised many countries on their tax systems, was a founder of the Inter-American Center of Tax Administrations, and was a senior fellow of the National Academy of Public Administration. He participated on UN Special Missions to advise developing countries on tax systems, including meeting with Nelson Mandela. He vetted the tax returns of numerous Democratic Presidential and
