SEC. 156. PRIORITY REVIEW OF CONSTRUCTION PROJECTS IN COLD WEATHER STATES.

(a) IN GENERAL.—The Administrator of the Federal Aviation Administration, to the extent practicable, shall schedule the Administrator's review of construction projects so that projects to be carried out in the States in which the weather during a typical calendar year prevents major construction projects from being carried out before May 1 are reviewed as early as possible.

SEC. 157. MINORITY AND DISADVANTAGED BUSINESS PARTICIPATION.

(a) FINDINGS.—Congress finds the following:

(1) While significant progress has occurred due to the establishment of the airport disadvantaged business enterprise program (sections 47107(e) and 47113 of title 49, United States Code), discrimination and related barriers continue to pose significant obstacles for minority- and women-owned businesses seeking to do business in airport-related markets across the Nation. These continuing barriers merit the continuation of the airport disadvantaged business enterprise program.

(2) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits. This testimony and documentation shows that race- and gender-neutral efforts alone are insufficient to address the problem.

(3) This testimony and documentation demonstrates that discrimination across the Nation poses a barrier to full and fair participation in airport-related businesses of women business owners and minority business owners in the racial groups detailed in parts 23 and 26 of title 49, Code of Federal Regulations, and has impacted firm development and many aspects of airport-related business in the public and private markets.

(4) This testimony and documentation provides a strong basis that there is a compelling need for the continuation of the airport disadvantaged business enterprise program and the airport concessions disadvantaged business enterprise program to address race and gender discrimination in airport-related business.

(b) PROMPT PAYMENTS.—

(1) REPORTING OF COMPLAINTS.—Not later than 120 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration shall ensure that each airport that participates in the Program tracks, and reports to the Administrator, the number of covered complaints made in relation to activities at that airport.

(2) IMPROVING COMPLIANCE.—

(A) IN GENERAL.—The Administrator shall take actions to assess and improve compliance with prompt payment requirements under part 26 of title 49, Code of Federal Regulations.

(B) CONTENTS OF ASSESSMENT.—In carrying out subparagraph (A), the Administrator shall assess—

(i) whether requirements relating to the inclusion of prompt payment language in contracts are being satisfied;

(ii) whether and how airports are enforcing prompt payment requirements;

(iii) the processes by which covered complaints are received and resolved by airports;

(iv) whether improvements need to be made to—

(I) better track covered complaints received by airports; and

(II) assist the resolution of covered complaints in a timely manner;

(v) whether changes to prime contractor specifications need to be made to ensure prompt payments to subcontractors; and,

(vi) whether changes to prime contractor specifications need to be made to ensure prompt payment of retainage to subcontractors.

(C) REPORTING.—The Administrator shall make available to the public on an appropriate website operated by the Administrator a report describing the results of the assessment completed under this paragraph, including a plan to respond to such results.

(3) DEFINITIONS.—In this subsection, the following definitions apply:

(A) COVERED COMPLAINT.—The term "covered complaint" means a complaint relating to an alleged failure to satisfy a prompt payment requirement under part 26 of title 49, Code of Federal Regulations.

(B) PROGRAM.—The term "Program" means the airport disadvantaged business enterprise program referenced in subsection (a)(1) of the FAA Modernization and Reform Act of 2012 (49 U.S.C. 47113 note).

(b) RULE OF CONSTRUCTION.—Nothing in this section or an amendment made by this section shall affect a change to a rate or other provision of a tax, fee, or charge under section 40116 of title 49, United States Code, that was enacted prior to the date of enactment of this Act. Such provision of a tax, fee, or charge shall continue to be subject to the requirements to which such provision was subject under that section as in effect on the day before the date of enactment of this Act.

GENERAL LEAVE

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this will be one of the last Transportation and Infrastructure bills this House will consider this Congress and the last during my chairmanship. I am extremely proud to bring a bill to the floor that has bipartisan and bicameral support today.

H.R. 302 includes the FAA Reauthorization Act, the Disaster Recovery Reform Act, the National Transportation Safety Board Reauthorization Act, and other priorities from multiple House committees.

The FAA Reauthorization Act provides for 5 years of critical stability for our aviation programs and infrastructure. This is the first time since 1982 that we will be passing a 5-year bill. Again, as I said, it brings the stability and certainty to the aviation industry that it needs to produce and perform the way it needs to.

This bill cuts red tape in the certification process, which means that our manufacturers of avionics and aviation airframes will be able to move forward

faster, bringing those products to market faster, quicker, and more efficiently.

It encourages American innovation and improves aviation safety, and it provides long-term funding to the Airport Improvement Program. Many Members’ small- and medium-sized airports are going to benefit greatly by this.

This bill also includes the Disaster Recovery Reform Act. It is the largest FEMA reform package since 2006 post-Katrina law. In particular, DRRF focuses on predisaster mitigation. Building better and building smarter before disasters strike is a wise use of our resources. This will save lives, will save money, and will bend the cost curve by spending a little bit of money up front to make sure these disasters don’t have the devastating effects that they possibly could have.

My mother used to say that an ounce of prevention is worth a pound of cure. That is what this bill does.

I want to thank the members of the Transportation and Infrastructure Committee and other committees who worked on this bill. I especially want to thank Chairmen LOBIONDO and BARLETTA, Ranking Members DEFAZIO, LARSEN, and TITUS, and Senators THUNE and NELSON for their hard work on this bill.

I, finally, want to thank the staff of the Transportation and Infrastructure Committee and the legislative counsel for working tirelessly for months and late nights, often on weekends, to complete this bill.

Mr. Speaker, I strongly urge my colleagues to support today’s legislation, and I reserve the balance of my time.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON HOMELAND SECURITY,
Washington, DC, September 26, 2018.

Hon. BILL SHUSTER,
Chairman, Committee on Transportation and Infrastructure, Washington, DC.

DEAR CHAIRMAN SHUSTER: I write concerning the House Amendments to the Senate Amendments to H.R.302, the “FAA Reauthorization Act of 2018”.

I appreciate you working with me to include matters in the House Amendments that fall within the Rule X jurisdiction of the Committee on Homeland Security. Several provisions included in the House Amendments will go a long way to better protect Americans and our Homeland.

Please place a copy of this letter and your response acknowledging our jurisdictional interest in the House Amendments in the Congressional Record during House Floor consideration of the “FAA Reauthorization Act of 2018”. I look forward to working with the Committee on Transportation and Infrastructure on additional legislative initiatives this Congress.

Sincerely,
MICHAEL T. MCCAUL,
Chairman.

COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE, HOUSE OF REPRESENTATIVES,
Washington, DC, September 26, 2018.

Hon. MICHAEL MCCAUL,
Chairman, Committee on Homeland Security,
Washington, DC.

DEAR CHAIRMAN MCCAUL: Thank you for your letter regarding the House Amend-

ments to the Senate Amendments to H.R.302, the FAA Reauthorization Act of 2018.

I acknowledge your committee’s jurisdictional interest in several provisions in the House amendment and appreciate your willingness to work with us on said provisions.

I will place a copy of your letter and our response in the Congressional Record during House Floor consideration of the FAA Reauthorization Act of 2018. I, too, look forward to working with the Committee on Homeland Security on additional legislative initiatives this Congress.

Sincerely,
BILL SHUSTER,
Chairman.

Mr. DEFAZIO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am going to talk quickly because I have got a lot of people who want to talk, and there are a lot of important things in this bill.

I want to thank the chairman—he has done an extraordinary job here—and Chairman LOBIONDO, both retiring, and we will miss them. I also want to thank my colleague Mr. LARSEN.

Now, there are many provisions that are very important. I won’t get to all of them here. But flight attendants, thanks to MICHAEL CAPUANO of Massachusetts, are going to get a 10-hour minimum rest period. They are safety-critical professionals. In the current rules, sometimes they are only getting 4 or 5 hours a night on certain routes. That is not right. That is long overdue.

We have to see whether or not we can actually meet the standard of evacuating a plane in 90 seconds as budget carriers and others cram more and more seats in that are narrower and narrower, less and less pitch. Can we still meet those standards? We are going to find out whether we can or not.

A provision later in the bill inserted by another of my colleagues, STEVE COHEN, will require the FAA, particularly if instructed by this study, to set minimum pitch width and length requirements for passenger seats.

The drones—we have 100 reports of drone sightings by pilots in controlled airspace being illegally operated every month. Sooner or later, one of those things is going to take down a jetliner with passengers on board. Until now, Congress has prohibited the FAA from regulating these drones because the model aircraft people think they are going to all be grounded. They are not going to be grounded. The FAA isn’t going to go after responsible operators.

You are going have to register. You are going to have to show that you understand the rules. But the model aircraft people already do. Many of these toy people, like the one who stopped firefighting in my district in August, are breaking the law; and we are going to know and be able to identify them, find them, fine them, jail them, whatever is necessary to stop these dangerous activities. So that is an incredibly important part of the bill.

There are certification reforms. Our manufacturers have been waiting for years. We need to maintain our lead in

aerospace. We are finally getting certification reform to make their production of new equipment, modern, state-of-the-art stuff, much easier.

We are also going to require the FAA to facilitate and defend their approvals overseas. No more Chinese aviation authority blackmailing our manufacturers into giving them proprietary information so they can sell their product in China. That has got to stop. We are going to make the FAA help our manufacturers over there.

We are going to have some passenger rights here. As I already talked about, STEVE COHEN with the seat pitch.

There are also consumer protections. We are going to have better identification of what is going to happen. They are going to have to post online, with mass cancellations, what they are going to do with people; permanent prohibition of cellphones in flight.

It did not, unfortunately, include a provision that Chairman LOBIONDO, DREW FERGUSON, and I authored to help the airline industry—or defend the airline industry—from following the cruise line model where all the crews are going to be foreign and not subject to U.S. law with flags of convenience. That is something that yet needs to be addressed.

It does not allow an increase in the passenger facility charge, which hasn't been updated in about 20 years, and yet airports do not have sufficient bonding capacity to make the improvements we need to make the airports flow more quickly and a better experience for passengers. The airlines should join me in that instead of opposing that.

It also has disaster recovery reform in there. We are going to do more investment in predisaster mitigation, which will save massive amounts of money for taxpayers.

We are going to require stronger building codes as we rebuild. It also has some important things for the State of Oregon that relate to earthquake early warning and mitigation regarding forest fires.

Finally, we are going to take money that is being stolen from passengers. Now we have a big fight over a passenger facility charge, yet the airlines did not raise a stink when the Republican Congress diverted—raised, twice—the passenger security fee and diverted the money to nonpassenger security issues, which is delaying the deployment of new, more efficient equipment by the TSA. We are going to finally end that practice, not soon enough, but perhaps we can amend that later.

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. FRELINGHUYSEN), who is the chairman of the Appropriations Committee.

Mr. FRELINGHUYSEN. Mr. Speaker, I thank the gentleman from Pennsylvania for yielding.

Mr. Speaker, I rise in support of H.R. 302.

Hurricane Florence struck North and South Carolina last week, leading to the loss of many lives and incredible hardship for thousands of families. This Chamber's thoughts are with those devastated by the storm, particularly those who lost their homes, their livelihoods, and their loved ones.

My thanks to the House Appropriations Committee's chairs, especially their dedicated appropriations staff for their quick action to provide this initial supplemental appropriation of \$1.68 billion included in this legislative package. They did the same good job on behalf of the residents of the Carolinas as they did for the victims of Harvey, Irene, and Maria, whose issues and crises we addressed last year.

Mr. Speaker, I strongly support the bill in all aspects.

Mr. DEFAZIO. Mr. Speaker, I yield 3 minutes to the gentleman from the State of Washington (Mr. LARSEN).

Mr. LARSEN of Washington. Mr. Speaker, I rise in support of this bipartisan, long-term measure to reauthorize the Federal Aviation Administration.

I want to thank Chairman SHUSTER, Chairman LOBIONDO, and Ranking Member DEFAZIO for all of the work that they have put into this bill for nearly 5 years now.

I am pleased that we have come to a bipartisan and bicameral agreement to raise the bar on aviation safety, improve the experience for the traveling public, better prepare and diversify the aviation workforce, increase the global competitiveness of U.S. aerospace manufacturers, and pave the way for advanced drone operations in U.S. airspace.

Many reforms included in this bill have an immediate impact and benefits in Washington State where I am from. It is a leader in U.S. aviation and aerospace. General aviation contributes an estimated \$3.6 billion to our economy and supports more than 30,000 jobs a year.

Improving the FAA's certification processes for aircraft and other aviation and airspace products allows U.S. manufacturers like the smaller contractors and suppliers throughout my district to get newer and safer products to market faster. The bill's certification reforms will better enable U.S. aviation manufacturers to compete globally.

H.R. 302 also recognizes the importance of recruiting, training, and developing the next generation of aviation workforce. The bill creates a task force to develop recommendations on encouraging young people to pursue careers in aviation maintenance, manufacturing, and engineering through apprenticeships, as well as two new grant programs to support pilot education and recruitment of aviation maintenance workers.

In addition, the legislation includes strong consumer protections like establishing minimum seat dimensions, prohibiting airlines from involuntarily

bumping passengers who have cleared the gate, and designating nursing rooms for mothers in each terminal.

I have advocated, as well, to better address the needs of passengers with disabilities while traveling. This measure makes significant improvements by requiring the FAA to study lavatory access for passengers with disabilities and increases civil penalties for damaging passengers' wheelchairs or mobility aids.

Importantly, the agreement also protects the safety of our flight attendants by mandating 10 hours of rest for flight attendants, a requirement that has not been updated in two decades and is long overdue.

The bipartisan legislation lays the groundwork for the safe and swift integration of drones into the national airspace, and advanced drone operations like package delivery.

If the U.S. cannot accommodate the growing drone industry, Congress has been told the innovation and economic benefits would move abroad. This long-term FAA reauthorization ensures these jobs stay in the United States.

Further, the bill reauthorizes the TSA. This language is particularly important to me as, less than 2 months ago, an airline employee stole an aircraft and engaged in an unauthorized flight, which could have had devastating impacts in communities in northwest Washington State. To help ensure a similar incident does not happen again, the bill requires the TSA to work with industry to evaluate security gaps and how to make industry improvements.

This moment has been a long time in the making. I am proud to have worked with the Transportation and Infrastructure Committee members and the staff on this milestone. I would like to give special thanks to my retiring colleagues, Chairman BILL SHUSTER and Chairman FRANK LOBIONDO for their years of service, dedication, and, most importantly, their friendship.

The long-term FAA reauthorization bill is a strong, bipartisan effort that will propel the aviation industry, ensure the safety of the traveling public, and support economic growth.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. SMITH), who is the chairman of the Science, Space, and Technology Committee.

□ 1415

Mr. SMITH of Texas. Mr. Speaker, I thank Chairman SHUSTER for yielding, and I congratulate him on successfully advancing a 5-year FAA reauthorization.

H.R. 302 includes the Science Committee's research and development title, the FLIGHT R&D Act. Title 7 includes our priority that 70 percent of annual FAA research and development funding be for safety research, up from less than 60 percent today. It establishes a new FAA Associate Administrator for Research and Development.

And it includes the Geospatial Data Act.

Another provision provides for specified aircraft operations of space support vehicles licensed under the U.S. space code. Another establishes a DOT Office of Spaceports and a national spaceport policy report.

Mr. Speaker, I appreciate the chairman's work on this bill. I strongly support it.

Mr. DEFAZIO. Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. HOYER), the Democratic whip.

Mr. HOYER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in strong support of BILL SHUSTER. I am also supporting the bill. But I want to thank BILL for being a person who is constructive, visionary, and works across the aisle with constructive ideas. He has made a difference in this House. His father made a difference in this House. I thank him for his service.

Mr. Speaker, I rise in support of this bill. It includes key changes to the Stafford Act that I have been working on with Mr. MCCARTHY and Mr. BISHOP for many, many months. I have advocated for over the past year to permit Federal disaster aid funding to be used to not only reconstruct what stood before, but to build to 21st century standards.

Importantly, the bill puts an emphasis on pre-disaster mitigation. The emphasis is on actions taken to lessen the impact of future disasters. Last year, natural disasters cost the Nation a record \$306 billion, eclipsing the previous record of \$265 billion set in 2005.

If we fail to do this, if we fail to mitigate, then we will have forsaken the lessons of Hurricanes Katrina, Sandy, Maria, and now Florence, or the devastating wildfires of the West. For every dollar spent in mitigating future disasters, we save between \$4 and \$8 in avoided future recovery efforts. This just makes sense.

Last year, when I traveled with Majority Leader MCCARTHY to Puerto Rico and to the U.S. Virgin Islands with Mr. BISHOP, the chairman of the committee, to see the aftermath of Hurricanes Maria and Irma, I saw Americans struggling without power, access to clean water, basic health services, or shelter over their heads.

The majority leader and I came away from that visit determined to help these communities. Chairman BISHOP joined with us. So I thank the committee.

I want to thank Mr. DEFAZIO, too, who like Mr. SHUSTER is a constructive, positive Member who wants to make a difference for our country. My constituents thank him, and the country thanks him.

I come to support a bill that was fashioned by two people who wanted to make sure that we did positive things in this House. The American people can be proud of our work today.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from New

Jersey (Mr. LOBIONDO), the chairman of the Subcommittee on Aviation.

Mr. LOBIONDO. Mr. Speaker, this is a day we should all celebrate. It is not that often we have an opportunity to have a bipartisan, bicameral bill that does so much to help America.

There are a lot of thank yous to go around. You have heard about the particulars of the bill. I want to thank BILL SHUSTER, who has been a very good friend and has put his faith and trust in allowing me to chair the Aviation Subcommittee 6 years. I thank PETER DEFAZIO and RICK LARSEN for their help. RICK has been a partner with me on Coast Guard and aviation issues.

Also, the staff doesn't get enough thanks for the time and energy and work they put into it. I thank Holly Lyons, Naveen Rao, and Hunter Presti for all they have done over the years to make this committee move forward. And very special thanks to Geoff Gosselin, who was my legislative director for a number of years and has been a part of the major committee staff for a long time.

This is really important to me. Aviation and the FAA has been a passion for me for all of my years in Congress. I have the honor of representing the Federal Aviation Administration's crown jewel technical center, which is in my district. The technical center is the heartbeat of aviation and the FAA in America. It is, as I said, the crown jewel for safety and security, and for keeping our Nation safe with the greatest aviation system in the world.

But it is not because of the sophisticated laboratories and equipment. Yes, we have all that. It is the thousands of men and women who work there who put their heart, soul, energy, and enthusiasm into the dedication of making sure that our aviation system in the United States of America is the finest and the best. This bill will give the certainty and stability for them to do their job for 5 years.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. SHUSTER. Mr. Speaker, I yield the gentleman an additional 15 seconds.

Mr. LOBIONDO. As you heard Chairman SHUSTER say, this has not happened since 1982. So for the men and women of the tech center, for the heart and soul that you have put into our system, God bless you and thank you for doing the great job that you do.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentleman from Illinois (Mr. LIPINSKI), a member of the committee.

Mr. LIPINSKI. Mr. Speaker, I would like to thank both Chairman SHUSTER and Ranking Member DEFAZIO for their work in crafting this compromise bill and for including some of my provisions in the bill.

Mr. DEFAZIO did an excellent job of going over pros and cons in this bill, so let me talk about a few provisions I have in here.

One requires the GAO to quantify the cost to passengers of every airline computer failure since 2014, including the one that just occurred last night. I am hopeful this report will spur Congress to take further action to ensure better passenger protections. Other provisions will improve transparency in ticket sales and help develop the aviation workforce's next generation.

The bill also has other wins for the traveling public, airline workers, and residents around airports. For example, the bill directs the FAA to be more responsive to community noise issues, including residents who live near airports such as Midway in my district.

Finally, this bill will help our aviation system remain the gold standard for safety, including some of those things Mr. DEFAZIO talked about in regard to drones.

I thank Chairman SHUSTER for his work on this bill, for all his work as chairman of the committee for 6 years, and for everything he has done in Congress. I urge my colleagues to support this bill.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. BARLETTA), the chairman of the Economic Development, Public Buildings, and Emergency Management Subcommittee.

Mr. BARLETTA. Mr. Speaker, I rise today in support of H.R. 302, which includes my bill, the Disaster Recovery Reform Act.

In 2017, 8 percent of the United States population, that is 26.4 million Americans, were affected by at least one disaster. This year, we have already seen tragedy strike in our communities.

For example, in July and August, Pennsylvania was devastated by widespread flooding that destroyed homes and businesses and, tragically, cost lives.

In Hershey, Pennsylvania, Swatara Creek crested at over 17 feet, the second highest level since the weather service began keeping records. As we speak, the Carolinas continue to recover from Hurricane Florence, which took the lives of more than 40 Americans. It is clear that these reforms are needed now more than ever.

I thank Chairman SHUSTER for his support in getting this bill over the finish line.

Mr. Speaker, I include in the RECORD an op-ed I coauthored with former FEMA Administrator David Paulison.

AS MILLIONS RECOVER FROM FLORENCE, CONGRESS HAS A CHANCE TO ENACT DISASTER REFORM

(By Rep. Lou Barletta (R-Pa.) and R. David Paulison, 09/25/18)

Last fall, the United States was devastated by an unprecedented string of natural disasters: hurricanes Harvey, Irma and Maria. These stain's now account for three of our country's five most expensive hurricanes on record, causing a combined \$265 billion in damages. Even worse, the storms tragically took the lives of countless Americans.

With painful memories of these disasters still fresh, the Atlantic hurricane season is once again at its peak in 2018. Hurricane

Florence made landfall in the Mid-Atlantic as a record-breaking storm, causing destruction like we have never seen in the region. While the communities affected by Florence will undoubtedly demonstrate American resolve and bounce back, they are serving as unfortunate reminders of the need to overhaul and improve our nation's disaster readiness. As we help those impacted by Florence continue to recover, it is more important than ever that we work to ensure that they are fully prepared for when the next disaster strikes.

Over the course of our careers in and around emergency management, we have seen the direct impact pre-disaster mitigation can have on protecting local infrastructure, preserving property, and saving lives. Whether dealing with the aftermath of Hurricane Andrew in 1992, Katrina in 2005, or the increasingly costly storms from more recent years, the primary lesson from these events is that there is no substitute for pre-disaster mitigation and resilient infrastructure. It could not be clearer: America needs a better system that saves lives and taxpayer dollars by building smarter and stronger before disaster strikes.

These life-saving efforts can also provide massive savings to taxpayers. Expert research has consistently supported this assertion, with one recent study finding that every \$1 invested up front in mitigation efforts can save as much as \$8 on future costs. With the cost of these storms in the hundreds of billions, the savings pre-disaster mitigation can provide are invaluable.

But despite the devastation caused by previous storms and the ongoing havoc of Florence, the United States continues to drag its feet when it comes to disaster preparedness. Many states still do not incentivize the use of certain safety standards, and the federal government wastes billions on reactive post-disaster spending instead of focusing on proactive investment in disaster preparedness.

Fortunately, there is already a solution on the table that would provide both much-needed relief for Americans and an investment in a stronger future. The Disaster Recovery Reform Act of 2018 (DRRA), which has passed the House twice and is currently under consideration in the Senate, would go a long way toward accomplishing the goals of investing in pre-disaster mitigation and creating a more resilient America.

Importantly, this bill would increase the amount of money available for pre-disaster mitigation following major disasters. By arming communities with the necessary resources to strengthen their infrastructure against hurricanes and other disasters, those affected across the country will be better equipped for the next inevitable disaster. With the DRRA, Congress has an opportunity to enact real disaster reform.

Encouragingly, there have been recent signs that our national approach to disaster response, recovery, and mitigation is trending in the right direction. Earlier this year, the House of Representatives included a cost share incentive provision designed to greatly enhance state resiliency in the Bipartisan Budget Reform Act that was signed into law by President Trump. FEMA, in addition to its extraordinary work done regularly in responding to disasters, is taking steps to ensure that this law is implemented effectively and efficiently. The Trump administration has provided strength in its response to those suffering from recent disasters, with Vice President Pence telling a community wracked by Hurricane Harvey that they would work to "[rebuild] all of Texas bigger and better than ever before." However, these actions are only the beginning of the required wholesale shift in our

national disaster framework. It is up to Congress to continue this momentum and enact meaningful reforms that will save lives, property and taxpayer dollars.

Including the record-breaking 2017 season, disaster spending continues to be an ever-expanding cost category for the United States. With another tumultuous hurricane season underway, it is time for lawmakers to act. Safer, stronger communities mean a safer, stronger country. If members of Congress are serious about serving their constituents, then senators must finish the important work the House started and pass the Disaster Recovery Reform Act now.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentleman from Tennessee (Mr. COHEN), an esteemed member of the committee.

Mr. COHEN. Mr. Speaker, I thank Ranking Member DEFAZIO and Chairman SHUSTER for their excellent efforts to work out this compromise on the FAA reauthorization and finding consensus with our Senate counterparts. I am glad to have successfully included four important measures in the final package.

Special thanks to Senator NELSON and Ranking Member DEFAZIO for keeping in many key Democratic priorities that support labor, airports, and consumers; and, most notably, preserve the safety of the flying public.

I should comment that the SEAT Act, which I am most proud of, a 3-year effort that I worked on with ADAM KINZINGER, was accepted by voice vote in committee. I thank Mr. SHUSTER for that. It is a watershed moment for safety for the flying public. We have never before been forced to regulate seat sizes, but the reality is, the safety of the flying public is at risk unless we do.

Representative KINZINGER and I worked on this to see to it that we put an end to the shrinking sizes of seats on airplanes through the SEAT Act, or the Safe Egress in Air Travel Act, so it would become law.

Americans have become larger. Seats have become smaller. They have become more dangerous. There needs to be a study on the width and the pitch of seats to make sure that they are safe to be evacuated within the approximate 90 seconds they are supposed to be able to evacuate a plane. Flyers Rights and the National Consumers League also supported this.

I would like to thank Senators BLUMENTHAL, MARKEY, WARNER, and WHITEHOUSE, and others. I look forward to voting for this bill, and I encourage everybody to vote for it.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from Missouri (Mr. GRAVES), chairman of the Highway Subcommittee, a great ally and someone who understands the aviation industry and general aviation like nobody else in Congress.

Mr. GRAVES of Missouri. Mr. Speaker, as one of the only professional pilots in Congress, I rise today in strong support of the long-awaited FAA reauthorization bill. I was happy to work

closely with the chairman, ranking member, and all of our Senate counterparts to reach the compromise legislation that we have today.

We are finally providing our aviation programs the much-needed, long-term certainty that they desire, and I am excited about a number of policies included in the bill that I advocated for.

Just quickly, I secured language to prevent new taxes targeting consumers who rent cars at the airport. My aviation workforce development bill to encourage people to pursue careers in aviation as technicians and mechanics is included. I secured fixes on how the FAA regulates Living History Flight Experience flights. We finally ended the egregious FAA fees on large aviation events, such as Sun 'n Fun and Oshkosh air shows. We extended aircraft registration from 3 to 7 years. We directed the FAA to restore the "all makes and models" certificate for experimental aircraft. Building an aircraft in your hangar now will be considered an aeronautical use of that hangar.

There are many other things I can't include in my limited amount of time.

As we approach key milestones in the program in 2020 and beyond, my colleagues and I on the committee will remain committed to holding the FAA accountable and ensuring the goals of NextGen are achieved.

Mr. Speaker, I could go on, but, obviously, time does not allow.

Mr. Speaker, as one of the only professional pilots in Congress, I rise today in strong support of the long awaited FAA Reauthorization bill.

I was happy to work closely with the Chairman and Ranking Member, and our Senate counterparts to reach the compromise legislation before us today.

We will finally be providing our aviation programs some much needed long term certainty.

I am very excited about a number of policies included in the bill that I advocated for.

Just to go over them quickly:

I secured language to prevent new taxes targeting consumers who rent cars at the airport;

My aviation workforce development bill to encourage people to pursue careers as aviation technicians and mechanics;

I secured fixes to how FAA regulates living history flight experience flights;

We are finally ending the egregious FAA fees on large aviation events;

We extended aircraft registration from 3 years to 7 years;

Directed the FAA to restore the 'all makes and models' certificate for experimental aircraft;

Building an aircraft in your hangar will now be considered 'aeronautical use' of that hangar;

And many others that I can't cover in my limited time.

As we approach key milestones in the program in 2020 and beyond, my colleagues and I on the committee remain committed to holding FAA accountable and ensuring the goals of NextGen are achieved.

Mr. Speaker, I could go on and on when it comes to all the aviation policy in this bill that excites me.

But I'll save some time for my other colleagues.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentlewoman from Nevada (Ms. TITUS), a member of the committee.

Ms. TITUS. Mr. Speaker, I am proud to stand with my colleagues on the Transportation and Infrastructure Committee today in support of this bill, which is the result of a lot of hard work over many years and includes a number of important wins for my constituents in Nevada and for users of our aviation system all around the world.

As chair of the House Travel and Tourism Caucus, I am happy to see provisions to improve our airport infrastructure; protect air travelers; and support our pilots, flight attendants, and aviation professionals. In addition, I am glad the bill includes an important extension of the work being done at the Nevada UAS Test Site, which will allow critical research being carried out with NASA and FAA to advance low-altitude air traffic management vital to the success of the commercial drone industry.

As ranking member of the Economic Development Subcommittee, I am also pleased to report that the bill includes the Bipartisan Disaster Recovery and Reform Act. These critical reforms will help communities become more resilient and better prepared to deal with the impacts of global climate change.

With our neighbors in the Carolinas reeling from the impacts of Hurricane Florence, our fellow citizens in Puerto Rico and the Virgin Islands still rebuilding from last year's devastating hurricanes, and numerous communities in the West facing wildfires, this can't come soon enough.

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the gentleman from Louisiana (Mr. GRAVES), who truly is an expert when it comes to emergency management and disaster recovery.

Mr. GRAVES of Louisiana. Mr. Speaker, I first want to thank the chairman, the ranking member, and their staff for their perseverance on this legislation. This is really an amazing accomplishment that I think is going to transform how we plan for, how we prepare for, and how we respond to and recover from disasters.

Mr. Speaker, we spent more than \$1.5 trillion responding to 220 disasters that have cost our Nation more than \$1 billion each since 1980. We have this process in the Federal Government where we spend billions after a disaster rather than spending millions on the front-end actually preparing and making our communities more resilient. This bill begins to change that.

There are a number of very important lessons learned, commonsense provisions in this legislation. I want to highlight the duplication of benefits, section 1210, of this legislation that reverses this crazy Federal policy whereby it was incentivizing people to wait, to slow down recovery, while costing FEMA more dollars in temporary hous-

ing, eliminating this process whereby loans and grants were viewed as being duplicative.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentleman from North Carolina (Mr. PRICE), a key appropriator on these issues.

Mr. PRICE of North Carolina. Mr. Speaker, I want to rise in the wake of the devastation of Hurricane Florence to profoundly thank the bipartisan leadership of the Transportation and Infrastructure Committee, of the Appropriations Committee, and of the House for working with North Carolina's Governor and with our bipartisan congressional delegation to include \$1.68 billion in Community Development Block Grant Disaster Recovery funding to help communities in North Carolina, South Carolina, and across the country recover from natural disasters declared in calendar year 2018.

CDBG-DR funding is critical for restoring housing, business, and infrastructure affected by Hurricane Florence. These funds constitute a robust down payment, and I look forward to working with colleagues on both sides of the aisle to complete the job once full estimates are available.

Mr. Speaker, I just want to say it is very, very reassuring—it is heartening—to the people of North Carolina and South Carolina to have this commitment from the Congress of the United States as our long process of recovery begins.

Mr. SHUSTER. Mr. Speaker, I yield 30 seconds to the gentleman from Illinois (Mr. RODNEY DAVIS), a great friend and one of the hardest working members of the Transportation and Infrastructure Committee.

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, this bill includes my bill, the Disaster Declaration Improvement Act, which requires FEMA to place greater consideration on the severe localized impact of damage following a disaster.

I have fought for this critical disaster fairness legislation for years, and we finally have an opportunity to get it signed into law. Enacting this language will help level the playing field, help central and southern Illinois receive greater fairness when disaster happens.

Thank you, Chairman SHUSTER and Ranking Member DEFAZIO, for working to include this provision. I urge adoption of this legislation and this bill.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentleman from Mississippi (Mr. THOMPSON), my friend and ranking member of the Homeland Security Committee.

Mr. THOMPSON of Mississippi. Mr. Speaker, I appreciate the gentleman from Oregon yielding me the time.

Mr. Speaker, I rise in support of H.R. 302, a bill to make the Nation's transportation system more secure. Not only does H.R. 302 give needed attention to the security of air cargo, airport perimeters, and public areas of airports, as well as mass transit facilities, but for the first time since the 9/

11 Act, it directs TSA to put significant focus on bolstering surface transportation security.

H.R. 302 also does two important things for TSA frontline workers. It directs TSA to sit down with labor representatives to collaborate on long-overdue personnel reforms and authorize the TSA training academy.

Mr. Speaker, I am pleased to say that H.R. 302 includes every House-passed Democratic TSA bill, as well as language to right a wrong that has resulted in billions of dollars collected from the flying public for security being diverted from TSA security operations.

Mr. Speaker, I thank my colleagues for their collaboration and support.

Mr. SHUSTER. Mr. Speaker, I yield 30 seconds to the gentleman from North Carolina (Mr. ROUZER), a hard-working member of the Transportation and Infrastructure Committee.

Mr. ROUZER. Mr. Speaker, I want to thank the chairman here, the ranking member, and so many others who have worked so hard on this legislation, which, I might add, could not be more timely for the State of North Carolina.

I want to thank our leadership team in the House and so many who have worked with me and the North Carolina delegation to include the disaster relief funding specific to Hurricane Florence. This is a critical first step of additional support from this body and Congress as a whole, and I also want to commend my colleagues Senator BARR and Senator TILLIS on the other side of the Capitol for all their great work to get us to this point today as well.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Ms. VELAZQUEZ), ranking member on the Small Business Committee.

Ms. VELAZQUEZ. Mr. Speaker, I would like to take this opportunity to thank both the chairman and the ranking member for their important work on this legislation.

Mr. Speaker, a year ago, Hurricane Maria made landfall in my hometown of Yabucoa. The storm ravaged the island, and 115-mile-per-hour winds damaged hundreds of thousands of homes. The entire island lost power, and thousands would not regain electricity until 10 months later, the longest blackout in U.S. history.

Sadly, as this crisis unfolded, the President and the administration repeatedly claimed the Federal response was going well. As evidence, they pointed to an artificially low death toll that for months suggested only 64 people had perished. We know now that the true toll is closer to 3,000 lost lives.

We can never again allow an artificially low death toll to disguise how the local and the Federal Government failed American citizens. That is why I am pleased this bill contains my legislation, the COUNT Act, to establish Federal guidelines for disaster death counts.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. DEFAZIO. Mr. Speaker, I yield the gentlewoman from New York an additional 30 seconds.

Ms. VELAZQUEZ. Death tolls shape public opinion and, in turn, influence how resources are allocated in response. This new bill will make sure Congress and the American people have a clear picture of the severity of future catastrophes.

I thank the ranking member and the chairman for working to include my bill as a provision. I encourage my colleagues to vote "yes."

Mr. SHUSTER. Mr. Speaker, I yield 30 seconds to the gentleman from Kentucky (Mr. GUTHRIE).

Mr. GUTHRIE. Mr. Speaker, I congratulate the chairman not on just this but his entire chairmanship, for getting big things done.

Mr. Speaker, I want to speak on the underlying bill, the Sports Medicine Licensure Clarity Act. Currently, healthcare providers are licensed by their State. If a healthcare provider travels with a team—professional, college, high school—out of State to take care of the players that they are responsible for, they could be practicing out of the scope of their license since they are out of State.

For example, this April, when our Kentucky Wildcats go to Minneapolis for the Final Four, the physicians and healthcare people who travel with them need to be practicing within their licenses. It is clearly within the Commerce Clause for us to clarify this. It is important to do. I encourage the passage of this bill, this provision, and the overall bill.

Mr. DEFAZIO. Mr. Speaker, may I inquire as to the remaining time.

The SPEAKER pro tempore. The gentleman from Oregon has 3 minutes remaining. The gentleman from Pennsylvania has 9¼ minutes remaining.

Mr. DEFAZIO. Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield 30 seconds to the gentleman from North Carolina (Mr. HOLDING).

Mr. HOLDING. Mr. Speaker, Hurricane Florence devastated North Carolina. Historic levels of rainfall have upended countless families and destroyed crops, with flooding and debris strewn about unlike anything our communities have ever witnessed. The \$1.68 billion of disaster relief in this legislation is a much-needed first step in providing relief. I will continue to work with my colleagues on both sides of the aisle to provide for those in need.

Mr. SHUSTER. Mr. Speaker, I yield 30 seconds to the gentleman from New York (Mr. ZELDIN).

Mr. ZELDIN. Mr. Speaker, I thank the chairman for yielding and for supporting my proposal to require the FAA to reassess the North Shore helicopter route and address the noise impact on affected communities, improve altitude enforcement, and consider alternative routes, including an all-water route over the Atlantic Ocean.

The FAA will be required to hold a public hearing on the North Shore

route in impacted communities and open a public comment period, both of which the FAA has refused to do while renewing the route without consulting the public.

Mr. Speaker, I strongly urge a "yes" vote.

Mr. DEFAZIO. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. SPEIER).

Ms. SPEIER. Mr. Speaker, I have a brief 1 minute to say that San Francisco International Airport is in my district. We are being hounded by noise in the middle of the night at 1, 2, and 3 a.m. in the morning.

I convened a meeting with the FAA. They joined me at that meeting. They agreed to have a meeting with the airlines, and then the FAA here in Washington decided to renege.

This is a message to the FAA: You owe your obligation to all the people of this country, and when a Member of Congress seeks to have you at a meeting, you show up at a meeting. When you don't show up at a meeting, heads are going to roll.

Mr. SHUSTER. Mr. Speaker, I am prepared to close. I have no more speakers. I reserve the balance of my time.

Mr. DEFAZIO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I already thanked my colleagues, but I also want to thank some staff, particularly some of the staff on my side of the aisle. The staff on both sides worked hard: Alex Burkett; Rachel Carr; Kathy Dedrick; Janet Erickson; David Napoliello; Luke Strimer; Mike Tien; in RICK LARSEN's office, Alexandra Menardy; and special thanks, because they don't get thanked enough around here, to the people who put together legislation that actually works and do yeoman's work behind the scenes, legislative counsel Karen Anderson, Rosemary Gallagher, and Stephen Hagenbuch.

Again, this is a good bill. It shows what we can do here when we drop our partisan cloaks and work together for the good of the American people, both the flying public and the businesses that are dependent upon the aviation industry, and, also, the work we did in here on disaster mitigation, things that should have been done earlier, couldn't get done earlier.

But in a must-pass bill like this, we were able to come to consensus. This is a good day for the House of Representatives—unfortunately, a somewhat rare day.

Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself the balance of my time.

I want to thank the leader of the Democrats on the Transportation and Infrastructure Committee for his efforts and his willingness to work with me. Mr. DEFAZIO has been a great partner over the last 4 years. I want to thank him for that.

I also want to thank the chairman of the Subcommittee on Aviation, Mr.

LOBIONDO, and Ranking Member LARSEN, for their hard work and bipartisan efforts on this bill. I also want to thank Chairman BARLETTA, chairman of the Subcommittee on Economic Development and Emergency Management, and Ranking Member TITUS, again, with the DRRRA bill, working closely with those folks.

Also, we want to mention GARRET GRAVES, who really is a true leader and one of the true experts, not only in Congress but in the United States, when it comes to disaster recovery. I thank him for his efforts.

I also want to thank the Democratic staff for their efforts in working with our staff. I know it was a lot of late hours. I thank them so much for those efforts that they put in.

To my staff, T&I staff, they did an unbelievable job on a very, very complicated FAA bill, but they also were negotiating the disaster relief bill. There were many long nights. I can't thank them enough for their hard work and their intelligence and, many times, sort of making magic happen when we went through this. So I thank those folks for that effort.

Mr. Speaker, I include in the RECORD a list of all the staff whose great work got us to this point today:

Matt Sturges, Chris Vieson, Geoff Gosselin, Fred Miller, Holly Woodruff Lyons, Naveen Rao, Hunter Presti, Cameron Humphrey, Max Rosen, Avery Katz, Johanna Hardy, Pam Williams, Tyler Menzler, Kathy Dedrick, Alex Burkett, David Napoliello, Rachel Carr, Michael Tien, Luke Strimer, Janet Erickson, Nick Rossi.

Adrian Arnakis, Mike Reynolds, Simone Perez, Isaiah Wonnenberg, Misseye Brickell, Kim Lipsky, Christopher Day, Mohsin Syed, Tom Chapman, Christopher Mulkins, Alexia Noruk, Michael Lueptow, Barrett Percival, Karen Anderson, Rosemary Gallagher, Stephen Hagenbuch, Jaclyn Keshian, Hannah Matesic, Kathy Loden, Brittany Smith, Collin McCune.

I want to mention, call out here today, Aviation staff Holly Woodruff Lyons, Naveen Rao, Hunter Presti, Cameron Humphrey, Hannah Matesic, and Avery Katz for their efforts on this FAA bill, but also Johanna Hardy, Pam Williams, and Tyler Menzler for their efforts on the Disaster Recovery and Relief Act.

And on the full committee: Chris Vieson, Geoff Gosselin, Fred Miller, Kathy Loden, Brittany Smith, Jeff Urbanchuk, Justin Harclerode, and Nico Alcalde for their tireless efforts.

Also, not on our staff anymore, but I need to do a shout-out for him, is Matt Sturges, who was the staff director. He has gone down to be the Deputy Administrator at the FRA. Much of the legislation that we passed over the years wouldn't be possible without Matt's leadership and his hard, hard work, and I want to thank him for that.

□ 1445

Finally, I thank the leadership and their staff for working so closely with

us to get this long-term FAA bill, this disaster bill passed.

I thought this FAA bill would be the legislation that eluded me. In the last 5½ years, in a bipartisan way, the Transportation and Infrastructure Committee has enacted legislation on every mode of transportation, and, today, we are going to pass a 5-year bill, which I mentioned earlier. It hasn't been done since 1928.

But I would be remiss if I didn't point out and show the true competitive nature of the Shuster family. My father, Bud Shuster, the chairman in 2000, passed a 4½-year bill.

So, Dad, if you are watching, I just wanted to make sure that was in the RECORD.

Being chairman has been one of the great honors of my life, and I want to thank my Republican colleagues for putting their trust in me and electing me to be chairman of this committee.

Most importantly, I want to thank the people of the Ninth Congressional District for putting their faith in me. I would not be chairman today if they wouldn't have supported me as strongly as they did over the years, and I owe them this chairmanship. I thank them from the bottom of my heart.

I thank my family: my brother and three sisters; my two children, Ali and Garrett, for their love, support, and for tolerating me over the years. And, finally, to my mother, who passed away 2 years ago, we passed a WRDA bill the day she passed away. I can remember the ringing in my ears of her saying, "Go to work. Do your job." And I did just that.

And to my father, whom I mentioned earlier, I thank him and my mother for the love, the guidance they have given me and, most importantly, for the life that they gave me.

Mr. Speaker, I ask all my colleagues to support H. Res. 1082, and I yield back the balance of my time.

Mr. CARTWRIGHT. Mr. Speaker, I rise in strong support of H.R. 302, the FAA Reauthorization Act of 2018, as amended. For many years, aviation has been the safest form of transportation in the United States. This is by no means an accident, it is the result of a strong regulatory framework built over time, paired with an ongoing airline system safety culture that is one of the most ambitious in our nation's history.

Mr. Speaker, when this bill first came to the House floor as H.R. 4, I strongly opposed a provision that would establish a research and development program in support of single-piloted cargo aircraft assisted with remote piloting and computer piloting, and offered an amendment striking that section. Attempts to roll back safety regulations in this manner are counterproductive and compromise safety. I am pleased to see this provision stricken from the final bill text and urge all members to join me in voting to pass H.R. 302, the FAA Reauthorization Act of 2018.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, as a member of the Transportation & Infrastructure Committee, I'd like to express my support of H.R. 302 the Federal Aviation Administration Reauthorization Act of 2018.

Maintaining the safety of our national airspace is paramount, and I am pleased that the provision for Single-Piloted Commercial Cargo Aircraft was removed. Additionally, this bill also highlights a strong focus on airline passenger safety and consumer rights by emphasizing provisions such as minimum legroom, seat width and flight attendant rest mandates.

Finally, this legislation provides Hurricane Florence recovery funding, which emphasizes the importance of providing timely assistance to areas prone to natural disasters, similar to those in my home state of Texas.

Above all, this bill improves the airline passenger experience, provides long-term airport funding, improves disaster recovery, and ultimately strengthens the U.S. economy and aviation workforce.

Mr. BRAT. Mr. Speaker, I rise today to thank Chairman SHUSTER and Chairman THUNE for the inclusion of the Airport Investment Partnership Program and the removal of the "flags of convenience" language in H.R. 302, the FAA Reauthorization Act of 2018.

Similar to Brat 150, an amendment I filed to the Rules Committee on H.R. 4, this bill will improve the Airport Privatization Pilot Program by making it permanent, eliminating the numerical limits on airport participation, and providing grants to help with predevelopment planning costs. The new program will be called the Airport Investment Partnership Program. Airports that are looking to reorganize will soon be able to utilize this program as a viable option to achieve their goals. It is my hope and belief that through these changes, more airports will have an opportunity to increase profitability, efficiency, and improve the traveler experience.

In addition, I am pleased that the final language of H.R. 302 does not include so-called airline "flags of convenience" restrictions. The original language proposed was anticompetitive and would have threatened U.S. Open Skies agreements that have brought consumers more options and better prices. The fact is consumers want more choices, not less. That is why I introduced H.R. 5000, the Free to Fly Act. The Free to Fly Act would repeal an outdated regulation from the Great Depression-era which artificially caps foreign ownership in U.S. airlines at twenty-five percent. This regulation is among the strictest in the world, increases the cost of capital, and limits consumer choice. The Free to Fly Act would also require any foreign U.S. airline subsidiaries to be established and regulated under U.S. law, be based in the United States, and only employ American workers.

The Free to Fly Act has been endorsed by a wide array of organizations, from conservative groups such as the Club for Growth and FreedomWorks, business interests like the U.S. Travel Association, Airports Council International-North America, Travel Tech, and the Business Travel Coalition, taxpayer watchdogs like the National Taxpayers Union and Taxpayers Protection Alliance, and consumer groups such as Travelers United, FlyersRights.org, Air Travel Fairness, and Consumer Action for a Strong Economy. Both the travel industry and consumers recognize a need for such a change and for more competition.

I hope Congress will turn to the free market more as a solution for financing our infrastructure needs and improving the travel experience for all Americans, and I applaud Chair-

man SHUSTER and Chairman THUNE on the inclusion of the Airport Investment Partnership Program and the removal of the "flags of convenience" language in the FAA Reauthorization Act of 2018.

There was no objection.

Mr. FRELINGHUYSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it is my honor this afternoon to present the conference report for H.R. 6157. This conference report provides full-year funding for the Department of Defense and for the Department of Labor, Health and Human Services, Education, and Related Agencies. It also includes a continuing resolution through December 7, 2018, for Federal Government programs and agencies not covered by the enacted appropriations legislation.

Congress has no greater duty than to provide for our common defense. This legislation fulfills this constitutional responsibility. The Department of Defense is now set to receive its full funding on time for the first time in over 10 years.
