

EXTENSIONS OF REMARKS

TRIBUTE TO REVEREND TROY PERRY

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. SCHIFF. Mr. Speaker, I rise today to recognize Reverend Troy D. Perry of Los Angeles, California, founder of the Metropolitan Community Church (MCC) which this year celebrates its 50th Anniversary. Today, we celebrate his commitment to MCC and the Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Community.

Rev. Troy Perry has been a force and pioneer for LGBTQ human rights, advocating for legal, spiritual, and social equality. As the founder of the Metropolitan Community Church in 1968, he created the first church designed to minister to the needs of its LGBTQ members. What began as a small gathering in his apartment, blossomed into the flourishing organization of the MCC with churches across the country. The MCC created a safe space for members of the LGBTQ community to congregate.

Along with establishing the MCC, Rev. Perry was one of the founders of the first gay pride event in Los Angeles in 1970. With the goal of commemorating the Stonewall uprising of 1969, he collaborated with other community leaders to create Christopher Street West, the organization that held its first gay pride parade on June 28, 1970. Because of his visionary and inspiring actions, LA PRIDE continues today under the auspices of Christopher Street West. Rev. Perry continued his advocacy for gender and sexual equity and became the first openly gay person to serve on the Los Angeles County Commission on Human Relations in 1973. In recognition of his vital work for LGBTQ rights, Rev. Perry was invited to the White House by President Jimmy Carter to discuss his civil rights work. Rev. Perry continued his advocacy on the national stage, being appointed as an official delegate to the White House Conference on Hate Crimes and the White House Conference on AIDS by President Bill Clinton.

Rev. Troy Perry has been honored by many esteemed institutions over the years for his work on behalf of the LGBTQ community. Rev. Perry received the Humanitarian Award from the American Civil Liberties Union, Lesbian and Gay Rights Chapter and has been honored by the Gay Press Association for his advocacy and work establishing progressive and inclusive communities of faith.

I ask all Members to join me in congratulating Reverend Troy Perry, a paramount voice for peace, tolerance, and understanding for his lifetime of outstanding service to the LGBTQ community and to our nation.

HONORING NATHAN DAVIS AND CHILDREN'S CARDIOMYOPATHY AWARENESS MONTH

HON. TOM COLE

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. COLE. Mr. Speaker, I rise today to honor one of my constituents, Nathan Davis of Norman, Oklahoma, and in support of Children's Cardiomyopathy Awareness Month.

As an infant, Nathan had a virus which caused his heart to develop dilated cardiomyopathy, a life-long and degenerative heart disease that thins the heart muscle. The heart virus also caused Nathan to have a seizure that lasted three days. He survived against the odds but was left with long-term effects of cardiomyopathy and his seizures. Nathan grew up in a town that focused heavily on sports but was never able to play. His seizures caused short-term memory loss, exacerbated by his daily heart medications. These life challenges have also caused Nathan to suffer from mental health illnesses. His daily prayer is that with increased awareness and funding for cardiomyopathy that eventually a cure can be found.

September is Children's Cardiomyopathy Awareness month, which helps to raise the profile and spread information about cardiomyopathy and the effects it can have on children and their families. As in the case of Nathan, cardiomyopathy can lead to life-long difficulties, or, tragically, death. It is a leading cause of sudden cardiac arrest, particularly among young people, and is the leading cause of heart transplants for children over one year of age. Because symptoms are not always obvious, cardiomyopathy can easily remain undetected, with often fatal consequences. The mortality rate for pediatric cardiomyopathy exceeds that of all childhood cancers combined, and yet there is a shocking lack of both awareness and research on this terrible disease.

I urge my colleagues to join me in honoring Nathan Davis and his fight to raise awareness for cardiomyopathy.

RECOGNIZING THE MONTH OF SEPTEMBER AS NATIONAL RICE MONTH

HON. GREGG HARPER

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. HARPER. Mr. Speaker, today I rise in honor of the numerous rice farming-families and industry stake-holders across Mississippi and the five other major rice growing states. The month of September does not only mark the beginning of harvest season across the hundreds of rice farms in my home state, but it also marks National Rice Month. We recog-

nize the American families and over 125,000 individuals that grow, harvest, mill, and process this important crop.

In my home state of Mississippi, 2,194 jobs are supported by these farmers, generating \$110.9 million in total labor income. The rice production system, from start to finish, contributes more than \$302 million to the state's economic output.

Rice production in America has grown tremendously over its 300-year history; almost 85 percent of the rice consumed by Americans is produced across these six states, and I am proud Mississippi is among them. In Mississippi, rice farmers on average harvest over 150,000 acres, producing more than 1.25 billion pounds of rice each year.

Along with feeding American families and exporting their crop to 120 countries, rice farmers are conservationists and stewards of the land. While increasing their yields by over 50 percent, American rice farmers have significantly reduced their energy, land, and water use over the last 20 years. By using 35 percent less land and 53 percent less water, rice farmers have cut costs, increased productivity, and created a more sustainable future for our American farmlands.

We take the time during the month of September to thank those farmers, millers, and merchants, and the lives that they impact; both as job creators, and as a group that feeds our families across the country and around the world.

CELEBRATING CHILDREN'S CARDIOMYOPATHY AWARENESS MONTH

HON. DAVID P. ROE

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. ROE of Tennessee. Mr. Speaker, I rise today in support of Children's Cardiomyopathy Awareness Month, and events such as AED Hunt on the Hill which raise awareness on the lifesaving value of AEDs.

According to the American Red Cross Organization, improved training and access to AEDs could save as many as 50,000 lives each year, and all Americans should be within 4 minutes of an AED and someone trained to use it. With an average response time of 8–12 minutes for first responders once 911 is called, it's a responsibility for all of us to prepare to help in the event of a cardiac emergency. Sudden cardiac arrest is one of the leading causes of death in the U.S. and for each minute defibrillation is delayed, the chance of survival is reduced by approximately 10 percent.

As a doctor, I've seen the value of accessible AEDs firsthand. Several years ago in 2011, I was grabbing coffee on a layover in Charlotte Douglas International Airport on the way to Washington, D.C. when I heard someone call out for a doctor. At that point, an individual had collapsed to the ground and was

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

not exhibiting a pulse. For 3–4 minutes I worked with a woman on hand to perform CPR until emergency services could arrive on the scene with a portable defibrillator.

September is Children's Cardiomyopathy Awareness Month. Cardiomyopathy is a chronic disease of the heart muscle that can present in a variety of forms and may, in severe cases, lead to heart failure or sudden death. It is the leading causes of sudden death in young people, and the primary cause of heart transplants in children over the age of one. Knowing your family's history and heart health, and discussing it with your doctor, can help determine whether you or a family member is at risk.

Once again, I applaud events like AED Hunt on the Hill, and all efforts to raise awareness during Children's Cardiomyopathy Awareness Month.

RECOGNIZING MR. JEFFREY C. GREENFIELD

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. CONNOLLY. Mr. Speaker, I rise to recognize Mr. Jeffrey C. "Jeff" Greenfield and to congratulate him on his recent retirement following 29 years of dedicated public service, including 24 years as an elected representative on the Fairfax City Council.

Jeff grew up in Fairfax City. He graduated from Fairfax High School, and earned both his Bachelor of Arts in political science and Master of Public Administration degrees at our very own George Mason University. He began his career in public service in 1989 when he was appointed to the Parks and Recreation Advisory Board. Five years later, Jeff was elected to the City Council, a position that he was re-elected to twelve times. By his own estimates, he has attended more than 850 City Council meetings and countless committee, neighborhood, and regional meetings.

My own start in public service came as President of my local citizens association followed by 14 years on the Fairfax County Board of Supervisors, the last 5 as Chair. My term taught me many things, but one of the enduring lessons I learned is that local government is truly where the rubber meets the road. It is the local governments that are often tasked with rolling up their sleeves and getting the problem solved. Partisan identification is irrelevant. One of the uniquely rewarding aspects of local government is the ability to leave a physical legacy in your community. Whether it be a crosswalk that you had installed, a traffic calming measure or perhaps even a new building, you can truly say that you made a difference in your community.

In addition to serving on the Fairfax City Council, Jeff has also served as a member of the Northern Virginia Transportation Commission, the Local Emergency Planning Committee and the Board of Directors for the Metropolitan Washington Council of Governments as well as its Policy and Human Service and Public Safety Committees. In each of these roles, he has worked to improve the lives of the residents of Fairfax City and Northern Virginia.

Mr. Speaker, this region is blessed to have a tremendous well of civic engagement and

community spirit present. That spirit is reflected in the service of citizens and elected representatives like Jeff Greenfield. Although he may be retired from the City Council, I am confident that he will continue to be involved in those issues that are important to him and his family. I thank him for his service to our community and thank his wife Lisa and daughter Alexandra for the sacrifices they have made. I ask my colleagues to please join me in congratulating Jeff and his family and in wishing them continued success.

REMEMBERING THE DESEGREGATION OF STRATFORD HIGH SCHOOL IN NASHVILLE, TENNESSEE

HON. JIM COOPER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. COOPER. Mr. Speaker, I rise today to remember Stratford High School and the Nashville community on the 55th anniversary of the school's desegregation. On that remarkable day, four twelve-year-old girls courageously walked into Stratford High School prepared to change history and open the doors of opportunity for all.

The lessons of Nashville's involvement in the Civil Rights Movement are still teaching us how to build a more perfect union. In a 1960 speech in Nashville, Dr. Martin Luther King, Jr. said, "I came to Nashville not to bring inspiration, but to gain inspiration from the great movement that has taken place in this community." Equal access to quality education, like that provided at Stratford, is vital to growing leaders who will inspire generations to come.

In 1963, just a few days after Dr. King spoke of a dream from the Lincoln Memorial, Bernadine Price [Rabathaly], Beverly Page [Ward], Brenda Harris [Haywood], and Pamela Franklin walked into school and trusted the content of their character. With the help, encouragement, and protection of the school's Assistant Principal, Ronald Webb, the students overcame obstacles that no students should face and helped change our nation forever.

As we reflect on the past, let us remember and thank these heroic individuals for their relentless efforts in making our community a stronger place, and realize we still have a lot of work to do.

HONORING FORMER CONGRESSMAN LEONARD BOSWELL

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 27, 2018

Mr. THOMPSON of California. Mr. Speaker, I rise today to honor former Congressman Leonard Boswell. I was good friends with Mr. Boswell, he was a fellow Blue Dog and we attended many events together over the years. I had the opportunity to visit his district and saw his passion for serving his constituents.

Mr. Boswell was one of the most highly decorated combat veterans in Congress. He

was in the United States Army for twenty years and served two tours of duty in Vietnam. While in Congress, he was highly regarded for his service to veterans and leaves behind a legacy of commitment to those who have served in uniform. I succeeded him on the Eisenhower Commission, where I was well informed of his great work and dedication.

Mr. Boswell was committed to the principles of fiscal responsibility and good governance. He considered it his duty to ensure that future generations would not be burdened with enormous debt and underfunded social programs.

Not only was Mr. Boswell an outstanding representative for his district, he was also one of the nicest and most unassuming Members with whom I have had the pleasure of serving.

PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 6157, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2019; PROVIDING FOR CONSIDERATION OF H. RES. 1071, RECOGNIZING THAT ALLOWING ILLEGAL IMMIGRANTS THE RIGHT TO VOTE DIMINISHES THE VOTING POWER OF UNITED STATES CITIZENS; AND PROVIDING FOR CONSIDERATION OF MOTIONS TO SUSPEND THE RULES

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 26, 2018

Ms. JACKSON LEE. Mr. Speaker, I rise in strong opposition to the rule governing debate for H.R. 6157, the "DOD and Labor HHS Appropriations Act for FY 2019."

I must oppose this rule and urge the defeat the previous question, not because we do not support the troops or our children, but because defeating the previous question will enable this House to consider and pass H.R. 6545, the "Violence Against Women Reauthorization Act of 2018."

This is an opportunity we do not want to squander.

The Violence Against Women Act (VAWA) is a landmark piece of legislation passed in 1994 following the Anita Hill moment that opened our eyes to the then overwhelming problems faced by victims of domestic violence, dating violence, sexual assault, and stalking.

By passing the VAWA, we can stop the re-victimizing, re-traumatizing and stigmatizing of sexual assault survivors.

Enough is Enough.

Science tells us that trauma severely impacts recall. So let us do our jobs and help them.

Women deserve to be respected, protected and NEVER neglected.

As we all know very clearly, VAWA is set to expire this week and millions of innocent lives are counting on us to get this right and reauthorize VAWA now.

Help women, men and children everywhere throughout our great country that have, are and will suffer at the hands of perpetrators that commit these violent and abusive crimes.

Clearly these victims deserve more than a mere 3 month expedient extension or piecemeal product to combat these challenges of monumental proportion.
