

The Senate Managers encourage the Secretary to conduct a study on impediments to the U.S. Army Corps of Engineers' Water Infrastructure Finance and Innovation Act (33 U.S.C. 3901 et seq.) (WIFIA) program implementation. In the study, the Secretary should examine obstacles to the implementation of the Corps WIFIA program and to identify all projects that the Secretary determines are potentially viable to receive assistance. Additionally, the study should describe any amendments to the Act or other legislative or regulatory changes that would improve the Secretary's ability to implement the Corps' WIFIA program. The report should be submitted to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives no later than one year after enactment of AWIA 2018.

Water resources projects have historically not been able to be completed after construction commences due to the use of benefit-cost analyses in the budgeting of water resources development projects. During construction, costs accrue while benefits are not yet realized, which lowers the benefit-cost ratio stalling projects. The Senate Managers continue to be concerned with this matter, and ask that the Corps provide recommendations to Congress on how to address this concern within 180 days of enactment of this Act.

Several Chief's Reports were neither completed nor received by Congress before negotiations closed on AWIA, and the bill was passed by the United States House of Representatives. The final bill did not include these projects for that reason. The Senate Managers believe that the Corps should expedite the completion of these reports in an expedient manner so these projects can be included in the next Water Resources Development Act.

The Senate Managers believe that the Secretary should expedite the expected Chief's Report for the Souris River Basin, Minot, North Dakota, flood risk management project that was authorized by section 209 of the Flood Control Act of 1966 (80 Stat. 1423).

The Senate Managers believe that the Secretary should expedite the expected Chief's Report for the Delta Islands and Levees, California, ecosystem restoration project. It was authorized by a June 1, 1948, Committee on Public Works of the Senate resolution; the resolution adopted by the Committee on Public Works of the House of Representatives on May 8, 1948; and House Report 108-357 accompanying the Energy and Water Development Appropriations Act, 2004 (Public Law 108-137; 117 Stat. 1827).

The Senate Managers believe that the Secretary should expedite the expected Chief's Report for the Anacostia Watershed, Prince George's County, Maryland, for flood control, navigation, and ecosystem restoration. The project was authorized by a resolution adopted by the Committee on Public Works and Transportation of the House of Representatives on September 8, 1988.

The Senate Managers believe that the Secretary should expedite the expected Chiefs Report for the Hashamomuck Cove, New York, project for coastal storm risk management, which was authorized in title X of division A of the Disaster Relief Appropriations Act, 2013 (Public Law 113-2; 127 Stat. 23).

The Senate Managers encourage the Secretary to expedite the completion of the post authorization change report (PACR) for the Howard A. Hanson Dam, Washington project for water supply and ecosystem restoration. This project was authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 180) and modified by section 101(b)(15) of WRDA 1999.

The Senate Managers encourage the Secretary to expedite the completion of the PACR for the Port Pierce, Florida, shore protection and harbor mitigation project. The project was authorized by section 301 of the River and Harbor Act of 1965 (79 Stat. 1092), section 102 of the River and Harbor Act of 1968 (82 Stat. 732), and section 506(a)(2) of the Water Resources Development Act of 1996 (110 Stat. 3757), and modified by section 313 of the Water Resources Development Act of 1999 (113 Stat. 301).

The Senate Managers encourage the Secretary to expedite the completion of the PACR for the Port of Iberia navigation project, authorized by section 1001(25) of WRDA 2007 (121 Stat. 1053; 128 Stat. 1351).

The Senate Managers encourage the Secretary to expedite the completion of PACR for the Wrightsville Beach, North Carolina, hurricane and storm damage risk reduction project. It was authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1182) and section 501 of WRDA 1986 (100 Stat. 4135).

The Senate Managers also encourage the Secretary to expedite the completion of the PACR for the Carolina Beach, North Carolina, hurricane and storm damage risk reduction that was authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1182).

The Senate Managers note that a number of environmental infrastructure projects were unable to be included in the final text of AWIA due to the statutory requirements of the project vetting process established in WRDA 2014. As noted in the Joint Managers Statement on September 13, 2018, AWIA amends the WRDA 2014 project vetting process to allow for the consideration of environmental infrastructure projects prospectively. Although the requirements of WRDA 2014 limited the consideration of environmental infrastructure projects during the development of S. 3021, the Senate Managers encourage the Corps to vet such projects using the updated review process and resubmit them for inclusion in the next water resources authorization.

Though not authorized in S. 3021, the Senate Managers have also agreed to request and support a National Academies study on the Rio Grande River Basin. Such study should examine the Rio Grande River Basin as a holistic system to better understand how the Corps should manage this river system in the face of extreme weather events to better meet water needs of the region. The National Academies should conduct an evaluation of the capacity, operation and state of existing basin reservoirs; look for opportunities to promote water conservation through operation, regulation or physical improvements of the reservoirs; and examine the impacts of reservoir operation and management on species and habitats to the region. The study is expected to provide recommendations for future management scenarios and recommendations in accordance with the Rio Grande Compact to assist in establishing more flexible operation procedures to meet the water needs of the Rio Grande River Basin. The Corps is encouraged to initiate this study with the National Academies as soon as practicable.

Mr. BARRASSO. I yield the floor.

DESIGNATING THE UNITED STATES COURTHOUSE LOCATED AT 300 SOUTH FOURTH STREET IN MINNEAPOLIS, MINNESOTA, AS THE "DIANA E. MURPHY UNITED STATES COURTHOUSE"

The PRESIDING OFFICER. The clerk will report the unfinished business.

The bill clerk read as follows:

House message to accompany S. 3021, a bill to designate the United States courthouse located at 300 South Fourth Street in Minneapolis, Minnesota, as the "Diana E. Murphy United States Courthouse".

Pending:

McConnell motion to concur in the amendments of the House to the bill.

McConnell motion to concur in the amendment of the House to the bill, with McConnell Amendment No. 4048 (to the motion to concur in the amendment of the House to the bill), to change the enactment date.

McConnell Amendment No. 4049 (to Amendment No. 4048), of a perfecting nature.

The PRESIDING OFFICER. Under the previous order, all postcloture time on the motion to concur in the House amendments to S. 3021 has expired, and the motion to concur with further amendments is withdrawn.

The question occurs on agreeing to the motion to concur in the House amendments to S. 3021.

Mr. BARRASSO. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

The result was announced—yeas 99, nays 1, as follows:

[Rollcall Vote No. 225 Leg.]

YEAS—99

Alexander	Gardner	Murray

NAYS—1

Lee

The motion was agreed to.

VOTE ON S.J. RES. 63

The PRESIDING OFFICER (Mrs. ERNST). Under the previous order, all time on the joint resolution is considered expired.

The joint resolution was ordered to be engrossed for a third reading and was read the third time.
