

As a founder and cochair of the Congressional Caucus on Foster Youth, I would like to turn the spotlight on Becky's good works.

She was driven to find a forever family for every child. She was a problem solver brimming with energy. Her advocacy led to important reforms. She believed in miracles. She made every effort to work miracles for children and families.

Becky mentored foster youth and paved the way for kids to dream big. She gave them reason to hope that their dreams can come true.

I extend my condolences to Becky's family, friends, and loved ones.

At age 36, Becky lost a brave battle to cancer.

Her legacy will live on and bring joy to countless children and moms and dads where it matters the most: in a forever family united through the blessing of adoption.

On Saturday, December 15, a celebration of life will take place at the First Church of God in Becky's hometown of St. Joseph, MI.

On this day, her loved ones will celebrate the light, joy, and hope she brought to this world.

May the blessings of God's Heavenly embrace welcome Becky into her new forever home for life everlasting.

TRIBUTE TO CAROLYN E. BOLDEN

Mr. ALEXANDER. Mr. President, along with my colleague, the ranking member on the Health, Education, Labor and Pensions Committee, Senator MURRAY, I wish to pay tribute to Carolyn Bolden, a nondesignated employee on the HELP Committee staff. Ms. Bolden is retiring at the end of this month after more than 23 years of distinguished service to the Congress, including more than 12 years serving on the HELP Committee.

Ms. Bolden has served on the HELP Committee as an assistant editor on detail from the Government Publishing Office since September 2006, providing support in all aspects of editing and printing the committee's many documents.

Ms. Bolden is well-regarded on both sides of the aisle, having proven her professionalism, courtesy, and substantial expertise across four chairs and both parties. Without the support of Ms. Bolden and the rest of the nondesignated staff, the committee could not accomplish the important work the American people expect us to get done on their behalf. I, along with the ranking member and the rest of the committee's members, want to recognize Ms. Bolden for that tremendous contribution to the Committee as she exits her time in the Senate.

I would like to yield now to my colleague, the ranking member, Senator MURRAY, for her remarks.

Mrs. MURRAY. Mr. President, I thank Chairman ALEXANDER and join him in commending Ms. Bolden for her many years of dedicated and out-

standing service to the Government Publishing Office, the Congress, and the American people. I greatly appreciate the sacrifice that Ms. Bolden has made over the past 13 years in assisting the HELP Committee by applying her expertise in editing, printing, and memorializing our important work. We wish her and her family all the best in her well-deserved retirement.

We hope our colleagues will join us in thanking Ms. Bolden for her service.

TRIBUTE TO RICHARD B. PROVENCHER

Mr. RISCH. Mr. President, along with my colleagues Senator MIKE CRAPO and Representative MIKE SIMPSON, today I recognize and congratulate Mr. Richard B. Provencher on his upcoming retirement after more than 32 years of distinguished Federal service consisting of Active-Duty military service, service with the Nuclear Regulatory Commission, NRC, and more than 29 years of service with the U.S. Department of Energy, DOE.

Mr. Provencher began his Federal career in 1986 as a health physicist for the NRC Headquarters Office of Nuclear Material Safety and Safeguards. Rick transferred to NRC Region 1 in King of Prussia, PA, where he was a materials inspector. In 1990, he joined the DOE as a health physicist and began his Senior Executive Service career as deputy director at West Valley Demonstration Project in New York. In 1998, he served as the director of the Miamisburg Closure Project in Ohio.

In 2003, he transferred to the Idaho Operations Office in Idaho as the deputy manager for environmental management, where he had a profound impact on DOE's mission to address Idaho's environmental cleanup efforts. Mr. Provencher provided strong leadership to the Federal and contractor workforce, making Idaho's cleanup performance one of the most successful in the Nation.

Among his many accomplishments, Mr. Provencher was instrumental in negotiating and executing an agreement between the DOE and the State of Idaho to implement a cleanup plan for buried waste in the subsurface disposal area at the Idaho National Laboratory, INL, significantly reducing the scope of work from the original plan and saving taxpayers \$5 billion.

Most recently, Mr. Provencher served as the Office of Nuclear Energy Manager for Idaho Operations Office and Contractor Assurance, responsible for overseeing the INL—our Nation's flagship nuclear energy laboratory. This responsibility includes managing over 200 Federal technical personnel and oversight of over 6,000 contractor employees with an annual budget in excess of \$1 billion. Under his leadership, the INL completed major infrastructure improvements and significantly improved research and development capabilities with state-of-the-art equipment and facilities that will ensure a bright future for the laboratory.

Mr. Provencher's remarkable ability to foster collaboration has strengthened partnerships internal and external to DOE. He repeatedly demonstrated his ability to build coalitions through his interactions with the State of Idaho and other elected officials regarding the operation of the INL. With multiple Departmental organizations present on the site, as well as many strategic partners across the government, it is a testament to Rick's leadership that all the various business functions are seamlessly integrated to support the INL's missions.

Mr. Provencher's performance has improved public trust and confidence in the DOE's mission work. He has partnered with environmental cleanup and laboratory participants in carrying the message of cleanup success, laboratory growth, and contributions to the region which have improved public perception of the INL and overall DOE mission work.

Through his years of dedicated service, Mr. Provencher exemplifies the best qualities of Idaho. Senator CRAPO, Representative SIMPSON, and I thank Rick for his service and wish him well in all of his future endeavors.

TRIBUTE TO JOHN OSCAR "JOHNNY" JONES

Mrs. HYDE-SMITH. Mr. President, I am pleased to commend Mr. John Oscar "Johnny" Jones, who is retiring from U.S. Department of Agriculture Rural Development after 37 consecutive years of service to the Nation.

Raised in Coffeetown, MS, Johnny joined USDA in 1980 as a student trainee in the Coffeetown Farmers Home Administration Office. In pursuing a career with USDA, Johnny followed in the footsteps of his father, William Woodrow Jones, and brother, William Woodrow "Woody" Jones, Jr., who both made significant contributions to American agriculture and rural economies throughout Mississippi as lifelong USDA employees.

Following his graduation from Mississippi State University in 1982, Johnny was promoted to the position of assistant county supervisor, ACS, for Webster County in Eupora, MS, with responsibility for Webster and Choctaw Counties. In 1985, he was promoted to county supervisor for Attala County. In 1990, Johnny was selected to serve as a rural housing specialist in the State Farmers Home Administration Office in Jackson. Seven years later, Johnny became the State program director for Single Family Housing for Rural Development in Mississippi, a position he has ably held for 21 years.

Working his way up from the Farmers Home Administration Office in his hometown to the State office in Jackson, Johnny not only gained exceptional knowledge and expertise, but he also contributed unique perspective to his work. Johnny understood the needs

of rural Americans, as well as the challenges rural communities must overcome to gain accessibility to the quality of life standards afforded to urban America. Applying his knowledge, expertise, and competence, Johnny devoted himself to making a positive difference in the lives of Mississippians.

Johnny's contributions to the people of Mississippi have been notably remarkable. Throughout his tenure as program director of the Single Family Housing program in Mississippi, he assisted nearly 50,000 families in achieving the American dream of home ownership. Whether a family needed a home or an impoverished elder required emergency home repairs, Johnny effectively managed USDA home loan and repair programs to assure the well-being of people he served, and in the process, he helped them improve themselves and their families.

Johnny Jones made the mission of his profession to selflessly and honorably serve others. He has directly contributed to improving the quality of life of literally tens of thousands of Mississippians. Few individuals have the opportunity through their careers to hold such distinction. On the occasion of his retirement, it is an honor to recognize Johnny Jones for his dedicated service to his State and to the country.

ADDITIONAL STATEMENTS

RECOGNIZING HIGH DESERT MILK

• Mr. RISCH. Mr. President, agriculture has always been of outsized importance to my home State of Idaho. Dairy farming has always had a presence in the State and has grown considerably over the past several years, and agricultural co-ops play a vital role in making sure our State's agricultural products make it to market. As the chairman of the Senate Committee on Small Business and Entrepreneurship, it is my distinct privilege to recognize High Desert Milk as the Small Business of the Month for December 2018. High Desert Milk is committed to building longlasting relationships and providing opportunities for dairy farmers across, southern Idaho.

Located on the banks of the Snake River in Burley, ID, High Desert Milk is a cooperative partnership, committed to serving its farmer-owners while also remaining flexible in a competitive market. Founded in 2001, High Desert sought to create a more efficient dairy market for local farmers. In 2008, High Desert opened a purpose-built milk dehydration plant which is capable of processing up to 2.2 million pounds of milk per day. In 2013, the company was able to expand its operations and began producing butter to meet increased demand in the United States. From an initial team of 30 employees, High Desert Milk has grown into a multimillion-dollar operation

with over 150 full-time employees. In 17 short years, High Desert Milk has become a fixture in the community by providing reliable milk pickup services and professional milk marketing.

Presently, High Desert Milk works with 23 family-owned dairies across 70,000 acres of southern Idaho farmland. The company's operations support more than 1,000 related dairy jobs in the area. Annually, the company produces almost 60 million pounds of powdered milk, more than 40 million pounds of butter, and 4 million pounds of buttermilk powder. High Desert Milk's products are shipped all across the country and all over the world. The company has a reputation for meeting and even exceeding U.S. Department of Agriculture and customer standards due to careful technician monitoring during processing. High Desert Milk has been named one of the top 100 dairy operations in the United States due to its cleanliness, high quality control standards, and good relationships with its members.

Despite its worldwide presence, High Desert Milk is still a local Idaho company with close ties to Burley and rural southern Idaho. High Desert Milk has a positive presence in the area and takes an active role in its community. The company hosts several annual charity fundraisers, including an annual fundraiser for the American Cancer Society. The company also supports local 4-H and Future Farmers of America clubs and even sponsors an annual high school-age rodeo. These community-building practices aim to encourage youth to take an interest in their local communities and to encourage them to seek careers in Idaho's vibrant agricultural industry. Each year, High Desert Milk presents talented local high school students with scholarships to continue their education. The generous scholarship program encourages students to excel in the fields of agribusiness and dairy science. Scholarships are also made available to High Desert employees who want to continue their studies.

High Desert Milk's tenacious commitment to its member-farmers and community is preparing the way for a new generation of Idaho dairy farmers and entrepreneurs. The company's commitment to quality and efficiency while building a positive relationship with their members and community is a perfect example of Idaho's entrepreneurial spirit. The company has become an economic anchor in southern Idaho, creating new market opportunities for local farmers and providing jobs for local community members.

I would like to extend my sincere congratulations to High Desert Milk and all its farmer-members for being named the Small Business of the Month for December 2018. I wish you all the best of luck, and I look forward to watching your continued growth and success.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Ridgway, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and a withdrawal which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 10:58 a.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bill, without amendment:

S. 245. An act to amend the Indian Tribal Energy Development and Self Determination Act of 2005, and for other purposes.

The message further announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 3008. An act to authorize the Secretary of the Interior to conduct a special resource study of the George W. Bush Childhood Home, located at 1412 West Ohio Avenue, Midland, Texas, and for other purposes.

H.R. 5513. An act to provide for an exchange of lands with San Bernardino County, California, to enhance management of lands within the San Bernardino National Forest, and for other purposes.

H.R. 6108. An act to provide for partnerships among State and local governments, regional entities, and the private sector to preserve, conserve, and enhance the visitor experience at nationally significant battlefields of the American Revolution, War of 1812, and Civil War, and for other purposes.

H.R. 6118. An act to authorize the Secretary of the Interior to annually designate at least one city in the United States as an "American World War II Heritage City", and for other purposes.

H.R. 6665. An act to amend the Outer Continental Shelf Lands Act to apply to territories of the United States, to establish offshore wind lease sale requirements, to provide dedicated funding for coral reef conservation, and for other purposes.

H.R. 6893. An act to amend the Overtime Pay for Protective Services Act of 2016 to extend the Secret Service overtime pay exception through 2020, and for other purposes.

H.R. 7213. An act to amend the Homeland Security Act of 2002 to establish the Countering Weapons of Mass Destruction Office, and for other purposes.

The message also announced that the House has passed the following bill, with an amendment, in which it requests the concurrence of the Senate:

S. 2248. An act to amend title 38, United States Code, to authorize the Secretary of Veterans Affairs to provide certain burial benefits for spouses and children of veterans who are buried in tribal cemeteries, and for other purposes.

The message further announced that the House has passed the following bill, with an amendment, in which it requests the concurrence of the Senate:
