

2019. This extension will allow NASA to continue existing EUL arrangements and to make progress on developing new arrangements that are currently underway.

I urge my colleagues to vote yes and pass S. 7, the “NASA Enhanced Use Lease Extension Act of 2018.”

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, S. 7.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. MASSIE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

NATIONAL INTEGRATED DROUGHT INFORMATION SYSTEM REAUTHORIZATION ACT OF 2018

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (S. 2200) to reauthorize the National Integrated Drought Information System, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 2200

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “National Integrated Drought Information System Reauthorization Act of 2018”.

SEC. 2. NATIONAL INTEGRATED DROUGHT INFORMATION SYSTEM PROGRAM.

(a) IN GENERAL.—Section 3 of the National Integrated Drought Information System Act of 2006 (15 U.S.C. 313d) is amended—

(1) in subsection (b)—

(A) in paragraph (1)(A), by striking “in order to make usable, reliable, and timely forecasts of drought, including” and inserting “, including precipitation, soil moisture, and evaporative demand, in order to make usable, reliable, and timely forecasts of drought and”; and

(B) in paragraph (3), by inserting “watershed,” after “regional,”;

(C) in paragraph (4)—

(i) by inserting “, through interagency agreements” after “integrate”; and

(ii) by inserting “information” after “warning”;

(D) by amending paragraph (5) to read as follows:

“(5) utilize existing forecasting and assessment programs and partnerships, including forecast communication coordinators and cooperative institutes, and improvements in seasonal precipitation and temperature, sub-seasonal precipitation and temperature, and low flow water prediction; and”; and

(E) in paragraph (6), by inserting “the prediction,” after “relating to”;

(2) by redesignating subsections (c) through (e) as subsections (d) through (f), respectively;

(3) by inserting after subsection (b) the following:

“(c) PARTNERSHIPS.—The National Integrated Drought Information System may—

“(1) engage with the private sector to improve drought monitoring, forecast, and

communication if the Under Secretary determines the partnership is appropriate, cost-effective, and beneficial to the public and decisionmakers described in subsection (b)(2)(A);

“(2) facilitate the development of 1 or more academic cooperative partnerships to assist with National Integrated Drought Information System functions; and

“(3) utilize and support, as appropriate, monitoring by citizen scientists, including by developing best practices to facilitate maximum data integration.”;

(4) in subsection (d), as redesignated, by inserting “and sustainment” after “development”; and

(5) by striking subsection (f), as redesignated, and inserting the following:

“(f) SOIL MOISTURE.—Not later than 1 year after the date of enactment of the National Integrated Drought Information System Reauthorization Act of 2018, the Under Secretary, acting through the National Integrated Drought Information System, shall develop a strategy for a national coordinated soil moisture monitoring network.”.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 4 of the National Integrated Drought Information System Act of 2006 (15 U.S.C. 313d note) is amended to read as follows:

“SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to carry out this Act—

“(1) \$13,500,000 for fiscal year 2019;

“(2) \$13,750,000 for fiscal year 2020;

“(3) \$14,000,000 for fiscal year 2021;

“(4) \$14,250,000 for fiscal year 2022; and

“(5) \$14,500,000 for fiscal year 2023.”.

SEC. 3. REAUTHORIZATION OF TITLE II OF THE WEATHER RESEARCH AND FORECASTING INNOVATION ACT OF 2017.

(a) REAUTHORIZATION OF TITLE II OF THE WEATHER RESEARCH AND FORECASTING INNOVATION ACT OF 2017.—Section 1762 of the Food Security Act of 1985 (15 U.S.C. 8521) is amended—

(1) by amending subsection (j) to read as follows:

“(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out the activities under this section—

“(1) \$26,500,000 for fiscal year 2019;

“(2) \$27,000,000 for fiscal year 2020;

“(3) \$27,500,000 for fiscal year 2021;

“(4) \$28,000,000 for fiscal year 2022; and

“(5) \$28,500,000 for fiscal year 2023.”; and

(2) by adding at the end the following:

“(k) DERIVATION OF FUNDS.—Amounts made available to carry out this section shall be derived from amounts appropriated or otherwise made available to the National Weather Service.”.

(b) UNITED STATES WEATHER RESEARCH AND FORECASTING IMPROVEMENT.—Section 110 of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8519) is amended to read as follows:

“SEC. 110. AUTHORIZATION OF APPROPRIATIONS.

“(a) IN GENERAL.—There are authorized to be appropriated to the Office of Oceanic and Atmospheric Research to carry out this title—

“(1) \$136,516,000 for fiscal year 2019, of which—

“(A) \$85,758,000 is authorized for weather laboratories and cooperative institutes;

“(B) \$30,758,000 is authorized for weather and air chemistry research programs; and

“(C) \$20,000,000 is authorized for the joint technology transfer initiative described in section 102(b)(4);

“(2) \$148,154,000 for fiscal year 2020, of which—

“(A) \$87,258,000 is authorized for weather laboratories and cooperative institutes;

“(B) \$40,896,000 is authorized for weather and air chemistry research programs; and

“(C) \$20,000,000 is authorized for the joint technology transfer initiative described in section 102(b)(4);

“(3) \$150,154,000 for fiscal year 2021, of which—

“(A) \$88,758,000 is authorized for weather laboratories and cooperative institutes;

“(B) \$41,396,000 is authorized for weather and air chemistry research programs; and

“(C) \$20,000,000 is authorized for the joint technology transfer initiative described in section 102(b)(4);

“(4) \$152,154,000 for fiscal year 2022, of which—

“(A) \$90,258,000 is authorized for weather laboratories and cooperative institutes;

“(B) \$41,896,000 is authorized for weather and air chemistry research programs; and

“(C) \$20,000,000 is authorized for the joint technology transfer initiative described in section 102(b)(4); and

“(5) \$154,154,000 for fiscal year 2023, of which—

“(A) \$91,758,000 is authorized for weather laboratories and cooperative institutes;

“(B) \$42,396,000 is authorized for weather and air chemistry research programs; and

“(C) \$20,000,000 is authorized for the joint technology transfer initiative described in section 102(b)(4).

“(b) LIMITATION.—No additional funds are authorized to carry out this title and the amendments made by this title.”.

SEC. 4. EARTH PREDICTION INNOVATION CENTER.

(a) WEATHER RESEARCH AND FORECASTING INNOVATION.—Section 102(b) of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8512(b)) is amended by adding at the end the following:

“(4) Advancing weather modeling skill, reclaiming and maintaining international leadership in the area of numerical weather prediction, and improving the transition of research into operations by—

“(A) leveraging the weather enterprise to provide expertise on removing barriers to improving numerical weather prediction;

“(B) enabling scientists and engineers to effectively collaborate in areas important for improving operational global numerical weather prediction skill, including model development, data assimilation techniques, systems architecture integration, and computational efficiencies;

“(C) strengthening the National Oceanic and Atmospheric Administration’s ability to undertake research projects in pursuit of substantial advancements in weather forecast skill;

“(D) utilizing and leverage existing resources across the National Oceanic and Atmospheric Administration enterprise; and

“(E) creating a community global weather research modeling system that—

“(i) is accessible by the public;

“(ii) meets basic end-user requirements for running on public computers and networks located outside of secure National Oceanic and Atmospheric Administration information and technology systems; and

“(iii) utilizes, whenever appropriate and cost-effective, innovative strategies and methods, including cloud-based computing capabilities, for hosting and management of part or all of the system described in this subsection.”.

(b) UNITED STATES WEATHER RESEARCH PROGRAM.—Section 108(a) of the National Oceanic and Atmospheric Administration Authorization Act of 1992 (15 U.S.C. 8520(a)) is amended—

(1) in paragraph (10), by striking “; and” and inserting a semi-colon;

(2) in paragraph (11), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(12) carry out the activities of the Earth Prediction Innovation Center as described in section 102(b)(2) of the Weather Research and

Forecasting Innovation Act of 2017 (15 U.S.C. 8512(b)(2)).”.

SEC. 5. COMPUTING RESOURCES PRIORITIZATION.

(a) IN GENERAL.—Section 108 of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8518) is amended to read as follows:

“SEC. 108. COMPUTING RESOURCE EFFICIENCY IMPROVEMENT AND ANNUAL REPORT.

“(a) COMPUTING RESOURCES.—

“(1) IN GENERAL.—In acquiring computing capabilities, including high performance computing technologies and supercomputing technologies, that enable the National Oceanic and Atmospheric Administration to meet its mission requirements, the Under Secretary shall, when appropriate and cost-effective, assess and prioritize options for entering into multi-year lease agreements for computing capabilities over options for purchasing computing hardware outright.

“(2) ACQUISITION.—In carrying out the requirements of paragraph (1), the Under Secretary shall structure multi-year lease agreements in such a manner that the expiration of the lease is set for a date on or around—

“(A) the expected degradation point of the computing resources; or

“(B) the point at which significantly increased computing capabilities are expected to be available for lease.

“(3) PILOT PROGRAMS.—

“(A) IN GENERAL.—In order to more efficiently and effectively meet the mission requirements of the National Oceanic and Atmospheric Administration, the Under Secretary may create 1 or more pilot programs for assessing new or innovative information and technology capabilities and services.

“(B) PROGRAM REQUIREMENTS.—Any program created under paragraph (3) shall assess only those capabilities and services that—

“(i) meet or exceed the standards and requirements of the National Oceanic and Atmospheric Administration, including for processing speed, cybersecurity, and overall reliability; or

“(ii) meet or exceed, or are expected to meet or exceed, the performance of similar, in-house information and technology capabilities and services that are owned and operated by the National Oceanic and Atmospheric Administration prior to the establishment of the pilot program.

“(C) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated, out of funds appropriated to the National Environmental Satellite, Data, and Information Service, to carry out this paragraph \$5,000,000 for fiscal year 2019, \$10,000,000 for fiscal year 2020, and \$5,000,000 for each of fiscal years 2021 through 2023, to remain available until expended.

“(b) REPORTS.—Not later than 1 year after the date of enactment of the National Integrated Drought Information System Reauthorization Act of 2018, and triennially thereafter until the date that is 6 years after the date on which the first report is submitted, the Under Secretary, acting through the Chief Information Officer of the National Oceanic and Atmospheric Administration and in coordination with the Assistant Administrator for Oceanic and Atmospheric Research and the Director of the National Weather Service, shall produce and make publicly available a report that explains how the Under Secretary intends—

“(1) to continually support upgrades to pursue the fastest, most powerful, and cost-effective high performance computing technologies in support of its weather prediction mission;

“(2) to ensure a balance between the research to operations requirements to develop the next generation of regional and global models as well as highly reliable operational models;

“(3) to take advantage of advanced development concepts to, as appropriate, make next generation weather prediction models available in beta-test mode to operational forecasters, the United States weather industry, and partners in academic and Government research;

“(4) to use existing computing resources to improve advanced research and operational weather prediction;

“(5) to utilize non-Federal contracts to obtain the necessary expertise for advanced weather computing, if appropriate;

“(6) to utilize cloud computing; and

“(7) to create a long-term strategy to transition the programming language of weather model code to current and broadly-used coding language.”.

(b) TABLE OF CONTENTS.—Section 1(b) of the Weather Research and Forecasting Innovation Act of 2017 (Public Law 115-25; 131 Stat. 91) is amended by striking the item relating to section 108 and inserting the following:

“Sec. 108. Computing resource efficiency improvement and annual report.”.

SEC. 6. SATELLITE ARCHITECTURE PLANNING.

Section 301 of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8531) is amended by adding at the end the following:

“(c) NEXT GENERATION SATELLITE ARCHITECTURE.—

“(1) IN GENERAL.—The Under Secretary shall analyze, test, and plan the procurement of future data sources and satellite architectures, including respective ground system elements, identified in the National Oceanic and Atmospheric Administration’s Satellite Observing System Architecture Study that—

“(A) lower the cost of observations used to meet the National Oceanic and Atmospheric Administration’s mission requirements;

“(B) disaggregate current satellite systems, where appropriate;

“(C) include new, value-adding technological advancements; and

“(D) improve weather forecasting and predictions.

“(2) QUANTITATIVE ASSESSMENTS AND PARTNERSHIP AUTHORITY.—In meeting the requirements described in paragraph (1), the Under Secretary—

“(A) may partner with the commercial and academic sectors, non-governmental and not-for-profit organizations, and other Federal agencies; and

“(B) shall, consistent with section 107 of this Act, undertake quantitative assessments for objective analyses, as the Under Secretary considers appropriate, to evaluate relative value and benefits of future data sources and satellite architectures described in paragraph (1).

“(d) ADDITIONAL FORMS OF TRANSACTION AUTHORIZED.—

“(1) IN GENERAL.—Subject to paragraph (2), in order to enhance the effectiveness of data and satellite systems used by the National Oceanic and Atmospheric Administration to meet its missions, the Under Secretary may enter into and perform such transaction agreements on such terms as the Under Secretary considers appropriate to carry out basic, applied, and advanced research projects to meet the objectives described in subparagraphs (A) through (D) subsection (c)(1).

“(2) METHOD AND SCOPE.—

“(A) IN GENERAL.—A transaction agreement under paragraph (1) shall be limited to research and development activities.

“(B) PERMISSIBLE USES.—A transaction agreement under paragraph (1) may be used—

“(i) for the construction, use, operation, or procurement of new, improved, innovative, or value-adding satellites, instrumentation, ground stations, and data;

“(ii) to make determinations on how to best use existing or planned data, systems, and assets of the National Oceanic and Atmospheric Administration; and

“(iii) only when the objectives of the National Oceanic and Atmospheric Administration cannot be met using a cooperative research and development agreement, grants procurement contract, or cooperative agreement.

“(3) TERMINATION OF EFFECTIVENESS.—The authority provided in this subsection terminates effective September 30, 2023.

“(e) TRANSPARENCY.—Not later than 60 days after the date that a transaction agreement is made under subsection (d), the Under Secretary shall make publicly available, in a searchable format, on the website of the National Oceanic and Atmospheric Administration all uses of the authority under subsection (d), including an estimate of committed National Oceanic and Atmospheric Administration resources and the expected benefits to National Oceanic and Atmospheric Administration objectives for the transaction agreement, with appropriate redactions for proprietary, sensitive, or classified information.

“(f) REPORTS.—

“(1) IN GENERAL.—Not later than 90 days after September 30 of each fiscal year through September 30, 2023, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the use of additional transaction authority by the National Oceanic and Atmospheric Administration during the previous fiscal year.

“(2) CONTENTS.—Each report shall include—

“(A) for each transaction agreement in effect during the fiscal year covered by the report—

“(i) an indication of whether the transaction agreement is a reimbursable, non-reimbursable, or funded agreement;

“(ii) a description of—

“(I) the subject and terms;

“(II) the parties;

“(III) the responsible National Oceanic and Atmospheric Administration line office;

“(IV) the value;

“(V) the extent of the cost sharing among Federal Government and non-Federal sources;

“(VI) the duration or schedule; and

“(VII) all milestones;

“(iii) an indication of whether the transaction agreement was renewed during the previous fiscal year;

“(iv) the technology areas in which research projects were conducted under that agreement;

“(v) the extent to which the use of that agreement—

“(I) has contributed to a broadening of the technology and industrial base available for meeting National Oceanic and Atmospheric Administration needs; and

“(II) has fostered within the technology and industrial base new relationships and practices that support the United States; and

“(vi) the total value received by the Federal Government under that agreement for that fiscal year; and

“(B) a list of all anticipated reimbursable, non-reimbursable, and funded transaction agreements for the upcoming fiscal year.

“(g) RULE OF CONSTRUCTION.—Nothing in this section may be construed as limiting the authority of the National Oceanic and Atmospheric Administration to use cooperative research and development agreements, grants, procurement contracts, or cooperative agreements.”.

SEC. 7. INTEGRATION OF OCEAN AND COASTAL DATA FROM THE INTEGRATED OCEAN OBSERVING SYSTEM.

(a) IN GENERAL.—Section 301(a)(2) of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8531(a)(2)) is amended—

(1) in subparagraph (A), by striking “; and” and inserting a semicolon;

(2) in subparagraph (B), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(C) support increasing use of autonomous, mobile surface, sub-surface, and submarine vehicle ocean and fresh water sensor systems and the infrastructure necessary to share and analyze these data in real-time and feed them into predictive early warning systems.”.

(b) COMMERCIAL WEATHER DATA; AUTHORIZATION OF APPROPRIATIONS.—Section 302(c)(3) of the Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8532(c)(3)) is amended—

(1) by striking “2017 through 2020” and inserting “2019 through 2023”; and

(2) by inserting “the” before “National”.

SEC. 8. IMPROVEMENTS TO COOPERATIVE OBSERVER PROGRAM OF NATIONAL WEATHER SERVICE.

(a) IN GENERAL.—The Under Secretary of Commerce for Oceans and Atmosphere, acting through the National Weather Service, shall improve the Cooperative Observer Program by—

(1) providing support to—

(A) State-coordinated programs relating to the Program; and

(B) States and regions where observations provided through the Program are scarce;

(2) working with State weather service headquarters to increase participation in the Program and to add stations in States and regions described in paragraph (1)(B);

(3) where feasible, ensuring that data streams from stations that have been contributing data to the Program for more than 50 years are maintained and continually staffed by volunteers;

(4) prioritizing the recruitment of new volunteers for the Program;

(5) ensuring that opportunities exist for automated reporting to lessen the burden on volunteers to collect and report data by hand; and

(6) ensuring that integrated reporting is available for qualitative observations that cannot be automated, such as drought conditions, snow observations, and hazardous weather events, to ensure that volunteers in the Program can report and upload observations quickly and easily.

(b) COORDINATION WITH STATES AND REGIONS.—Not less frequently than every 180 days, the National Weather Service shall coordinate with State and regional offices with respect to the status of Cooperative Observer Program stations.

(c) COORDINATION WITH FEDERAL AGENCIES.—The National Weather Service shall coordinate with other Federal agencies, including the Forest Service, the Department of Agriculture, and the United States Geological Survey, to leverage opportunities to grow the Cooperative Observer Program network and to more effectively use existing infrastructure, weather stations, and staff of the Program.

SEC. 9. HARMFUL ALGAL BLOOM AND HYPOXIA RESEARCH AND CONTROL.

(a) SHORT TITLE.—This section may be cited as the “Harmful Algal Bloom and Hy-

poxia Research and Control Amendments Act of 2017”.

(b) REFERENCES TO THE HARMFUL ALGAL BLOOM AND HYPOXIA RESEARCH AND CONTROL ACT OF 1998.—Except as otherwise expressly provided, wherever in this section an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Harmful Algal Bloom and Hypoxia Research and Control Act of 1998 (33 U.S.C. 4001 et seq.).

(c) INTER-AGENCY TASK FORCE.—Section 603(a) (33 U.S.C. 4001(a)) is amended—

(1) in paragraph (12), by striking “and” at the end;

(2) by redesignating paragraph (13) as paragraph (14); and

(3) by inserting after paragraph (12) the following:

“(13) the Army Corps of Engineers; and”.

(d) SCIENTIFIC ASSESSMENTS OF FRESHWATER HARMFUL ALGAL BLOOMS.—Section 603 (33 U.S.C. 4001) is amended—

(1) by striking subsection (f);

(2) by redesignating subsections (g), (h), (i), and (j) as subsections (f), (g), (h), and (i), respectively; and

(3) by amending subsection (g) to read as follows:

“(g) SCIENTIFIC ASSESSMENTS OF MARINE AND FRESHWATER HARMFUL ALGAL BLOOMS.—Not less than once every 5 years the Task Force shall complete and submit to Congress a scientific assessment of harmful algal blooms in United States coastal waters and freshwater systems. Each assessment shall examine both marine and freshwater harmful algal blooms, including those in the Great Lakes and upper reaches of estuaries, those in freshwater lakes and rivers, and those that originate in freshwater lakes or rivers and migrate to coastal waters.”.

(e) NATIONAL HARMFUL ALGAL BLOOM AND HYPOXIA PROGRAM.—

(1) PROGRAM DUTIES.—Section 603A(e) (33 U.S.C. 4002(e)) is amended—

(A) in paragraph (1), by inserting “, including to local and regional stakeholders through the establishment and maintenance of a publicly accessible Internet website that provides information as to Program activities completed under this section” after “Program”;

(B) in paragraph (3)—

(i) in subparagraph (B), by striking “; and” and inserting a semicolon;

(ii) in subparagraph (C), by inserting “and” after the semicolon at the end; and

(iii) by adding at the end the following:

“(D) to accelerate the utilization of effective methods of intervention and mitigation to reduce the frequency, severity, and impacts of harmful algal bloom and hypoxia events;”;

(C) in paragraph (4), by striking “and work cooperatively with” and inserting “, and work cooperatively to provide technical assistance to,”; and

(D) in paragraph (7)—

(i) by inserting “and extension” after “existing education”; and

(ii) by inserting “intervention,” after “awareness of the causes, impacts,”.

(2) NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION ACTIVITIES.—Section 603A(f) (33 U.S.C. 4002(f)) is amended—

(A) in paragraph (3), by inserting “, which shall include unmanned systems,” after “infrastructure”;

(B) in paragraph (5), by striking “and” at the end;

(C) in paragraph (6)(C), by striking the period at the end and inserting a semicolon; and

(D) by adding at the end the following:

“(7) use cost effective methods in carrying out this Act; and

“(8) develop contingency plans for the long-term monitoring of hypoxia.”.

(f) CONSULTATION REQUIRED.—Section 102 of the Harmful Algal Bloom and Hypoxia Research and Control Act of 2004 (33 U.S.C. 4001a) is amended by striking “the amendments made by this title” and inserting “the Harmful Algal Bloom and Hypoxia Research and Control Act of 1998”.

(g) HYPOXIA OR HARMFUL ALGAL BLOOM OF NATIONAL SIGNIFICANCE.—

(1) RELIEF.—

(A) IN GENERAL.—Upon a determination under paragraph (2) that there is an event of national significance, the appropriate Federal official is authorized to make sums available to the affected State or local government for the purposes of assessing and mitigating the detrimental environmental, economic, subsistence use, and public health effects of the event of national significance.

(B) FEDERAL SHARE.—The Federal share of the cost of any activity carried out under this paragraph for the purposes described in subparagraph (A) may not exceed 50 percent of the cost of that activity.

(C) DONATIONS.—Notwithstanding any other provision of law, an appropriate Federal official may accept donations of funds, services, facilities, materials, or equipment that the appropriate Federal official considers necessary for the purposes described in subparagraph (A). Any funds donated to an appropriate Federal official under this paragraph may be expended without further appropriation and without fiscal year limitation.

(2) DETERMINATIONS.—

(A) IN GENERAL.—At the discretion of an appropriate Federal official, or at the request of the Governor of an affected State, an appropriate Federal official shall determine whether a hypoxia or harmful algal bloom event is an event of national significance.

(B) CONSIDERATIONS.—In making a determination under subparagraph (A), the appropriate Federal official shall consider the toxicity of the harmful algal bloom, the severity of the hypoxia, its potential to spread, the economic impact, the relative size in relation to the past 5 occurrences of harmful algal blooms or hypoxia events that occur on a recurrent or annual basis, and the geographic scope, including the potential to affect several municipalities, to affect more than 1 State, or to cross an international boundary.

(3) DEFINITIONS.—In this subsection:

(A) APPROPRIATE FEDERAL OFFICIAL.—The term “appropriate Federal official” means—

(i) in the case of a marine or coastal hypoxia or harmful algal bloom event, the Under Secretary of Commerce for Oceans and Atmosphere; and

(ii) in the case of a freshwater hypoxia or harmful algal bloom event, the Administrator of the Environmental Protection Agency.

(B) EVENT OF NATIONAL SIGNIFICANCE.—The term “event of national significance” means a hypoxia or harmful algal bloom event that has had or will likely have a significant detrimental environmental, economic, subsistence use, or public health impact on an affected State.

(C) HYPOXIA OR HARMFUL ALGAL BLOOM EVENT.—The term “hypoxia or harmful algal bloom event” means the occurrence of hypoxia or a harmful algal bloom as a result of a natural, anthropogenic, or undetermined cause.

(h) AUTHORIZATION OF APPROPRIATIONS.—Section 609(a) (33 U.S.C. 4009(a)) is amended by inserting “, and \$20,500,000 for each of fiscal years 2019 through 2023” before the period at the end.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentlewoman from Oregon (Ms. BONAMICI) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on S. 2200, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 2200 has broad bipartisan support, and I urge all Members to support this legislation.

This bill reauthorizes and enhances priority NOAA programs, especially the Weather Research and Forecasting Innovation Act. The Weather Act, signed into law by President Trump 2 years ago, already has made tremendous advances in the accuracy and timeliness of weather forecasting and the rapid integration of the private sector.

S. 2200 accelerates advances in model development and data assimilation, increases the use of innovative computing technologies and leasing strategies, promotes targeted research for the next generation of weather satellites, and further engages the growing commercial weather industry through reauthorization of the Commercial Weather Data Pilot program.

I would like to thank Senate Commerce Chairman JOHN THUNE for his leadership on this bill, which enables NOAA to protect lives and property and advance the economy of the United States.

Mr. Speaker, I urge my colleagues to support this measure, and I reserve the balance of my time.

Ms. BONAMICI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 2200, the National Integrated Drought Information System Reauthorization Act of 2018.

The NIDIS program has grown tremendously since its creation in 2006, and this reauthorization will aid in continuing its mission to provide a drought early warning system by coordinating and integrating drought research through key Federal, State, local, and Tribal partnerships.

This bill also includes a reauthorization of the Harmful Algal Bloom and Hypoxia Research and Control Act, which Senator NELSON and I introduced this Congress with bipartisan support.

This bill provides valuable resources to better understand, detect, assess, monitor, and respond to both marine and freshwater harmful algal blooms and hypoxia events.

Updating this program and investing in research on harmful algal blooms

and hypoxia will help Oregonians and people across the country who are facing the dangerous effects of exposure to harmful algal blooms in drinking water sources, oceans, and lakes.

Recently, we have seen harmful algal blooms cut off access to clean drinking water for residents of Salem, Oregon, and they have stifled recreational activities on the Willamette River. Harmful algal blooms in the marine environment produce dangerous toxins that make Oregon's prized Dungeness crabs toxic and deprive fishing communities of income.

As co-chair of both the House Oceans Caucus and the House Estuary Caucus, I am pleased to reauthorize the research programs that help us better predict and guard against harmful algal blooms in marine and freshwater systems.

Additionally, this bill contains provisions to reauthorize funding for programs from the Weather Research and Forecasting and Innovation Act of 2017, which I fully support.

Other language in this bill regarding NOAA's Earth prediction innovation center, computing resources, and our next-generation satellite architecture, though valuable, is completely new to this body and is deserving of robust, discussion which has been missing.

Though I am supportive of the NIDIS, the algal blooms bill, and the Weather Act programs that are reauthorized in this legislation, I would like to note that we have not had a hearing, a markup, or any substantive discussion of these programs in the House of Representatives this Congress.

These critical issues do warrant such discussion, given the number of Americans affected by either drought or toxic algal blooms and hypoxia events, and all Americans benefit from NOAA programs that provide timely and accurate forecasts.

I look forward to the Science, Space, and Technology Committee providing a forum to discuss these significant issues next Congress.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, in closing, I would just like to thank the gentlewoman from Oregon (Ms. BONAMICI) for all of her good work on the Science, Space, and Technology Committee over several years' time.

I also want to express my appreciation to her for being instrumental in the number of bipartisan bills that the Science, Space, and Technology Committee has brought to the House floor. In fact, as of today, 33 of the 35 Science, Space, and Technology Committee bills that have passed the House floor have been bipartisan bills.

Ms. BONAMICI has worked on any number of those bills to help make sure that they are bipartisan, and to the extent that those bills have been changed, they have been improved because of her input. So I really want to

thank her for her friendship over the years and for her contributions on the Science, Space, and Technology Committee over the years.

Mr. Speaker, I reserve the balance of my time.

Ms. BONAMICI. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I do thank Chairman SMITH. I have been on the Science, Space, and Technology Committee my entire time in Congress, and I thank him for his years of leadership and service to the committee.

Even though Chairman SMITH and I have not always agreed on every issue, he has been always willing to listen and to work with me and my colleagues on my side of the aisle on bills like the Weather Research and Forecasting Innovation Act of 2017, which we worked on for several years together and is now law.

So, again, I thank Chairman SMITH for his years of service to the committee. I wish him well in the new chapter of his life.

Mr. Speaker, I urge my colleagues to support this bill, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, let me thank the gentlewoman from Oregon for those very nice comments. They are much appreciated.

I also want to take just a minute to thank the ranking member of the full committee, EDDIE BERNICE JOHNSON, my colleague and friend from Texas. We also would not be here without her effort over the many, many years and her help in making sure that 33 of the 35 bills that the Science, Space, and Technology Committee has passed on the House floor were, in fact, bipartisan.

I also want to congratulate her on being the next chairman of the Science, Space, and Technology Committee. I know she brings a lot of intelligence and a lot of commitment and will do great work on behalf of the country as chairman of the Science, Space, and Technology Committee.

Mr. Speaker, I yield back the balance of my time.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today in support of S. 2200, the "National Integrated Drought Information System Reauthorization Act of 2018". This bill also reauthorizes the "Harmful Algal Bloom and Hypoxia Research and Control Act," as introduced by Senator NELSON and my colleague on the Science Committee, Ms. BONAMICI. Both of these existing programs have years of successful accomplishments, and their reauthorization ensures that NOAA will be able to continue supporting communities that are dealing with the impacts of drought and toxic freshwater and marine harmful algal blooms and hypoxia events.

The Weather Research and Forecasting and Innovation Act that the House passed in a bipartisan fashion last year was a great accomplishment for the Science Committee, and I am happy to see the existing weather laboratories, cooperative institutes, joint technology

transfer initiative and research programs within NOAA's Office of Oceanic and Atmospheric Research will be reauthorized with this bill.

As Congresswoman BONAMICI mentioned earlier, this bill reauthorizes critical programs at NOAA that benefit countless Americans, which I fully support.

However, I am disappointed in the process used to bring NIDIS, HABHRCA, and the Weather Act to the floor today for reauthorization. The brand-new language in this bill related to NOAA's Earth Prediction Innovation Center, computing resources, and our next-generation satellite architecture has never gone through the standard committee process in either the House or the Senate. By not providing an opportunity for hearings, markups, or any debate on these key pieces of legislation we rob our colleagues of the opportunity to advocate for their constituents, and do not do justice to the importance of these provisions. I hope we will do better to abide by regular order next Congress, and it is my intention to do that on the Science Committee.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, S. 2200.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. AMASH. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

□ 1300

PERMISSION TO REDUCE TIME FOR ELECTRONIC VOTING DURING PROCEEDINGS TODAY

Mr. McHENRY. Mr. Speaker, I ask unanimous consent that, during further proceedings today in the House, the Chair be authorized to reduce to 2 minutes the minimum time for electronic voting on any question that otherwise could be subjected to 5-minute voting under clause 8 or 9 of rule XX.

The SPEAKER pro tempore (Mr. BOST). Is there objection to the request of the gentleman from North Carolina?

There was no objection.

STOP, OBSERVE, ASK, AND RESPOND TO HEALTH AND WELLNESS ACT OF 2018

Mr. GUTHRIE. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 767) to establish the Stop, Observe, Ask, and Respond to Health and Wellness Training pilot program to address human trafficking in the health care system.

The Clerk read the title of the bill.

The text of the Senate amendment is as follows:

Senate amendment:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Stop, Observe, Ask, and Respond to Health and Wellness Act of 2018" or the "SOAR to Health and Wellness Act of 2018".

SEC. 2. PROGRAM ESTABLISHMENT.

Part E of title XII of the Public Health Service Act (42 U.S.C. 300d-51 et seq.) is amended by adding at the end the following:

"SEC. 1254. STOP, OBSERVE, ASK, AND RESPOND TO HEALTH AND WELLNESS TRAINING PROGRAM.

"(a) IN GENERAL.—The Secretary shall establish a program to be known as the Stop, Observe, Ask, and Respond to Health and Wellness Training Program or the SOAR to Health and Wellness Training Program (in this section referred to as the 'Program') to provide training to health care and social service providers on human trafficking in accordance with this section.

"(b) ACTIVITIES.—

"(1) IN GENERAL.—The Program shall include the Stop, Observe, Ask, and Respond to Health and Wellness Training Program's activities existing on the day before the date of enactment of this section and the authorized initiatives described in paragraph (2).

"(2) AUTHORIZED INITIATIVES.—The authorized initiatives of the Program shall include—

"(A) engaging stakeholders, including victims of human trafficking and Federal, State, local, and tribal partners, to develop a flexible training module—

"(i) for supporting activities under subsection (c); and

"(ii) that adapts to changing needs, settings, health care providers, and social service providers;

"(B) providing technical assistance to grantees related to implementing activities described in subsection (c) and reporting on any best practices identified by the grantees;

"(C) developing a reliable methodology for collecting data, and reporting such data, on the number of human trafficking victims identified and served by grantees in a manner that, at a minimum, prevents disclosure of individually identifiable information consistent with all applicable privacy laws and regulations; and

"(D) integrating, as appropriate, the training described in paragraphs (1) through (4) of subsection (c) with training programs, in effect on the date of enactment of this section, for health care and social service providers for victims of intimate partner violence, sexual assault, stalking, child abuse, child neglect, child maltreatment, and child sexual exploitation.

"(c) GRANTS.—The Secretary may award grants to appropriate entities to train health care and social service providers to—

"(1) identify potential human trafficking victims;

"(2) implement best practices for working with law enforcement to report and facilitate communication with human trafficking victims, in accordance with all applicable Federal, State, local, and tribal laws, including legal confidentiality requirements for patients and health care and social service providers;

"(3) implement best practices for referring such victims to appropriate health care, social, or victims service agencies or organizations; and

"(4) provide such victims with coordinated, age-appropriate, culturally relevant, trauma-informed, patient-centered, and evidence-based care.

"(d) CONSIDERATION IN AWARING GRANTS.—The Secretary, in making awards under this section, shall give consideration to—

"(1) geography;

"(2) the demographics of the population to be served;

"(3) the predominant types of human trafficking cases involved; and

"(4) health care and social service provider profiles.

"(e) DATA COLLECTION AND REPORTING.—

"(1) IN GENERAL.—The Secretary shall collect data and report on the following:

"(A) The total number of entities that received a grant under this section.

"(B) The total number and geographic distribution of health care and social service providers trained through the Program.

"(2) INITIAL REPORT.—In addition to the data required to be collected under paragraph (1), for purposes of the initial report to be submitted under paragraph (3), the Secretary shall collect data on the total number of facilities and health care professional organizations that were operating under, and the total number of health care and social service providers trained through, the Stop, Observe, Ask, and Respond to Health and Wellness Training Program existing prior to the establishment of the Program under this section.

"(3) ANNUAL REPORT.—Not later than 1 year after the date of enactment of this section, and annually thereafter, the Secretary shall submit an annual report to Congress on the data collected under this subsection in a manner that, at a minimum, prevents the disclosure of individually identifiable information consistent with all applicable privacy laws and regulations.

"(f) SHARING BEST PRACTICES.—The Secretary shall make available, on the Internet website of the Department of Health and Human Services, a description of the best practices and procedures used by entities that receive a grant for carrying out activities under this section.

"(g) DEFINITION.—In this section, the term 'human trafficking' has the meaning given the term 'severe forms of trafficking in persons' as defined in section 103 of the Trafficking Victims Protection Act of 2000.

"(h) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this Act, \$4,000,000 for each of fiscal years 2020 through 2024."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kentucky (Mr. GUTHRIE) and the gentleman from New Mexico (Mr. BEN RAY LUJÁN) each will control 20 minutes.

The Chair recognizes the gentleman from Kentucky.

GENERAL LEAVE

Mr. GUTHRIE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. GUTHRIE. Mr. Speaker, I yield 2 minutes to the gentleman from Montana (Mr. GIANFORTE), my good friend.

Mr. GIANFORTE. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, Montanans didn't send me here to shut down the government, but they also didn't send me here to let their priorities die in a lameduck session that is in every part lame. I stand here still urging this body to take up a public lands package and secure the border.

A public lands package should include the permanent reauthorization of the Land and Water Conservation Fund. A public lands package should include the Yellowstone Gateway Protection Act that permanently conserves public land in Paradise Valley. A public lands package should include
