Amend the title so as to read:

A bill to establish the Stop, Observe, Ask, and Respond to Health and Wellness Training Program to address human trafficking in the health care system.

PURPOSE AND SUMMARY

H.R. 767 was introduced on January 31, 2017, by Rep. Steve Cohen (D-TN). The bill expands and further codifies the Stop, Observe, Ask, and Respond (SOAR) training program at the Administration for Children and Families, Office on Trafficking in Persons, which provides health care professionals training on how to identify and appropriately treat human trafficking victims.

BACKGROUND AND NEED FOR LEGISLATION

According to the International Labour Organization (ILO), nearly 21 million people worldwide are victims of human trafficking, forced labor, or sexual exploitation. Many of these unidentified victims come into contact with health care professionals during their captivity. These professionals may be the only people that a victim has an opportunity to speak to, but may be ill-equipped to recognize victimization or to respond in an appropriate manner.

The Stop, Observe, Ask, and Respond pilot initiative was originally launched in 2013 by the Administration for Children and Families, Office on Trafficking in Persons to enhance the health care system's response to trafficking. Training is currently a three-hour course delivered either in-person or through a webinar. Given that health professionals are in a unique position on the front lines to assist to human trafficking victims, enhancing SOAR program training to help them recognize the signs of exploitation and provide trauma-informed, culturally-appropriate care will help increase opportunities to offer trafficked victims help and ultimately save lives.

H.R. 767—SOAR to Health and Wellness Act of 2017

Summary: H.R. 767 would require the Department of Health and Human Services (HHS) to establish a pilot program called Stop, Observe, Ask, and Respond (SOAR) to Health and Wellness Training.

CBO estimates that implementing the legislation would cost \$17 million over the 2017–2022 period, assuming appropriation of the specified amounts. Enacting the bill would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

CBO estimates that enacting H.R. 767 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2028.

H.R. 767 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

Estimated cost to the Federal Government: The estimated budgetary effect of H.R. 767 is shown in the following table. The costs of this legislation fall within budget function 500 (education, training, employment and social services).

	By fiscal year, in millions of dollars—						
	2017	2018	2019	2020	2021	2022	2017–2022
INCREASES IN SPENDING SUBJECT TO APPROPRIATION							
Authorization Level	0	4	4	4	4	4	20
Estimated Outlays	0	2	3	4	4	4	17

Basis of estimate: For this estimate, CBO assumes that H.R. 767 will be enacted near the start of 2018 and that the specified amounts will be appropriated for each year. The estimated outlays reflect historical spending patterns for similar programs administered by HHS.

H.R. 767 would authorize the appropriation of \$4 million for each of fiscal years 2018 through 2022 for HHS to provide grants for training health care providers on how to identify and care for the victims of human trafficking. The program would continue the functions of an existing pilot program, provide additional technical assistance, and seek to improve data collection.

CBO estimates that implementing the legislation would cost \$17 million over the 2018–2022 period, assuming appropriation of the specified amounts; the remainder would be spent in the years after 2022.

Pay-As-You-Go considerations: None.

Increase in long-term direct spending and deficits: CBO estimates that enacting H.R. 767 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2028.

Intergovernmental and private-sector impact: H.R. 767 contains no intergovernmental or private-sector mandates as defined in UMRA.

Estimate prepared by: Federal costs: Tia Caldwell; Impact on state, local, and tribal governments: Zach Byrum; Impact on the private sector: Amy Petz.

Estimate approved by: H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

FEDERAL MANDATES STATEMENT

The Committee adopts as its own the estimate of Federal mandates prepared by the Director of the Congressional Budget Office pursuant to section 423 of the Unfunded Mandates Reform Act.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII, the general performance goal or objective of this legislation is to expand and further codify the SOAR program by allowing the program to provide grants to health care sites and health care professional organizations that support training to recognize and respond to human trafficking. The legislation also requires the program, in conjunction with stakeholders, to develop training modules, provide technical assistance to health education programs and professional organizations, help disseminate best practices, and develop data collection and reporting on the number of trafficking victims served in health care settings.

DUPLICATION OF FEDERAL PROGRAMS

Pursuant to clause 3(c)(5) of rule XIII, no provision of H.R. 767 is known to be duplicative of another Federal program, including any program that was included in a report to Congress pursuant to section 21 of Public Law 111-139 or the most recent Catalog of Federal Domestic Assistance.

COMMITTEE COST ESTIMATE

Pursuant to clause 3(d)(1) of rule XIII, the Committee adopts as its own the cost estimate prepared by the Director of the Congressional Budget Office pursuant to section 402 of the Congressional Budget Act of 1974.

EARMARK, LIMITED TAX BENEFITS, AND LIMITED TARIFF BENEFITS

Pursuant to clause 9(e), 9(f), and 9(g) of rule XXI, the Committee finds that H.R. 767 contains no earmarks, limited tax benefits, or limited tariff benefits.

DISCLOSURE OF DIRECTED RULE MAKINGS

Pursuant to section 3(i) of H. Res. 5, the Committee finds that H.R. 767 contains no directed rule makings.
