review required under subsection (d), the analyses per-
formed by the Secretary shall undergo an independent
peer review.

SEC. 9221. SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) Amtrak received $1,018,000,000 in aid from Congress as part of the CARES Act, to help Amtrak and its state partners respond to the drastic drop in demand caused by the coronavirus pandemic.

(2) The CARES Act also included a provision requiring that, for any employee who is furloughed as a result of the pandemic, Amtrak provide such employee the opportunity to return to the job as service ramps back up, thereby helping prevent the health crisis from being a reason to outsource work.

(3) Amtrak has requested additional funds to help it respond to the continued loss of passenger demand while also announcing plans to permanently cut 20 percent of its workforce, which could hinder its ability to serve the Amtrak national passenger rail system, including its long-distance routes, now and in the future.

(4) Additionally, Amtrak recently announced its intention to eliminate daily service on most of its long-distance routes, leaving only one long-distance route to operate daily. These reductions are set to begin October 1, 2020.
(5) Estimates indicate the plan to decrease service would drastically impact as many as 461 stations.

(6) If the service disruptions are implemented, the passengers served by these long-distance trains would be disconnected from a critical transportation option, and these communities would lose important economic contributions generated by this service. These cuts would also impact the lives of Amtrak employees whose work contributes to the operation of these trains.

(7) Amtrak has not provided Congress, the public at large, or its workforce, sufficient notice or explanation of its plan to restore service to communities served by long-distance routes.

(b) SENSE OF CONGRESS.—Congress is concerned by the recent announcements from Amtrak that it intends to reduce its workforce and its daily long-distance train service and calls on Amtrak to provide assurance about the future of the passenger rail network and its employees.

“(B) after holding the system of competitive bidding required by subparagraph (A), hold one or more systems of competitive bidding, in
areas not receiving awards under subparagraph (A), to award funds for projects in areas that are estimated to remain unserved areas, areas with low-tier service, or (to the extent permitted under this section) areas with mid-tier service, or (to the extent permitted under this section) for projects to offer broadband service to anchor institutions that are estimated to remain unserved anchor institutions, after the completion of the projects for which funding is awarded under the system of competitive bidding required by subparagraph (A) or any previous system of competitive bidding under this subparagraph.

“(4) Funds priority preference.—There shall be a preference in a system of competitive bidding for projects that would expand access to broadband service in areas where at least 90 percent of the population has no access to broadband service or does not have access to broadband service offered with a download speed of at least 25 megabits per second, with an upload speed of at least 3 megabits per second, and with latency that is sufficiently low to allow real-time, interactive applications. Such projects shall be given priority in such system of
competitive bidding over all other projects, regard-

“(B) Initial determination.—The Commission shall make an initial determination of the areas that are unserved areas, areas with low-tier service, and areas with mid-tier service and which anchor institutions are unserved anchor institutions not later than 270 days after the date of the enactment of this section.

“(C) Challenge of determination.—

“(i) In general.—The Commission shall provide for a process for challenging any initial determination regarding whether an area is an unserved area, an area with low-tier service, or an area with mid-tier service or whether an anchor institution is an unserved anchor institution that, at a minimum, provides not less than 45 days for a person to voluntarily submit information concerning—
“(I) the broadband service offered in the area, or a commitment to offer broadband service in the area that is subject to legal sanction if not performed; or

**DIVISION J—COMMITTEE ON**
**FINANCIAL SERVICES**

**SEC. 60001. SHORT TITLE.**

This division may be cited as the “Housing is Infra-
structure Act of 2020”.

**SEC. 60002. FINDINGS.**

The Congress finds the following:

(1) Residential segregation and systemic com-
munity disinvestment continue to disproportionately
affect the well-being and socioeconomic opportunity
of children, low-income residents, and people of
color.

(2) Affordable and accessible housing allows
people with disabilities to live independent lives and
supports aging in place, yet less than 2 percent of
the housing stock in the United States is accessible
for individuals with disabilities.

(3) Affordable housing is a critical part of the
national infrastructure of the United States but
there is a severe shortage of affordable housing in
the United States and the existing stock is badly in
need of repair.
(4) According to a 2010 study sponsored by the Department of Housing and Urban Development, there was a $26 billion backlog of capital needs for public housing; that figure is likely higher today, with some groups estimating the backlog of capital needs for public housing to be as high as $70 billion.

(5) There are 14,000 units supported by Rural Rental Housing Loans under section 515 of the Housing Act of 1949 and Farm Labor Housing Loans under section 514 of the Housing Act of 1949. According to National Rural Housing Coalition, it would take an estimated $1 billion in the Multi-Family Housing Revitalization Demonstration Program (MPR) funding to fully address the capital backlog for rural housing properties.

(6) Federal investment in housing helps to create jobs and stimulate the economy.

(7) When the American Recovery and Reinvestment Act of 2009 (Public Law 111–5) was enacted, which included funding for public housing, researchers found that for each $1.00 in direct spending on public housing, there was an additional $2.12 of indirect and induced economic activity nationwide for a total economic impact of $3.12 for each $1.00 in direct spending on public housing.
(8) According to the National Association of Home Builders, building 100 affordable rental homes generates $11.7 million in local income, $2,200,000 in taxes and revenue for local governments, and 161 local jobs.

(9) Researchers estimate that the growth in the gross domestic product from 1964–2009 would have been 13.5 percent higher if families had better access to affordable housing, which in turn could have led to an additional $1.7 trillion increase in income, equivalent to $8,775 in additional wages for each worker.

SEC. 60003. PUBLIC HOUSING CAPITAL FUND.

shall ensure that amounts provided pursuant to this sec-
tion shall serve to supplement and not supplant other 
amounts generated by a recipient of such amounts or 
amounts provided by other Federal, State, or local

Where a National Wildlife Corridor crosses federal land or water under the jurisdiction of several secretaries, then the Secretary must obtain concurrence from the applicable Secretaries before a National Wildlife Corridor may be designated.

(2) Federal land and water management.—The Secretaries shall consider the designation of National Wildlife Corridors in any process relating to the issuance, revision, or modification of a
managing plan for land or water under the respective jurisdiction of the Secretaries insofar as a corridor is consistent with the purpose of the plan.

(b) CRITERIA FOR DESIGNATION.—The regulations promulgated by the Secretary under subsection (a)(1) shall ensure that, in designating a National Wildlife Corridor, the Secretaries—

(1) base the designation of the National Wildlife Corridor on—

(A) coordination with existing—

and

(iii) Tribal Wildlife Corridors; and

(B) the best available science of—

(i) existing native species habitat; and

evant Secretaries shall coordinate with the Secretary of
Transportation and State, Tribal, and local transportation
agencies, as appropriate, to identify and implement vol-
untary environmental mitigation measures—

(1) to improve public safety and reduce vehicle
caused native species mortality while maintaining
habitat connectivity; and

(A) the construction, maintenance, or re-
placement of native species underpasses, over-
passes, and culverts; and

(B) the maintenance, replacement, or re-
moval of dams, bridges, culverts, and other
