SEC. 323. PROVISION OF UNCONTAMINATED WATER FOR AGRICULTURAL USE ON LAND CONTAMINATED BY PFOS AND PFOA USED ON MILITARY INSTALLATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) Perfluorooctanesulfonic acid (in this section referred to as “PFOS”) and perfluorooctanoic acid (in this section referred to as “PFOA”) are part of a class of man-made chemicals that have been used in a variety of industrial and consumer products to make the products resist heat, stains, water, and grease. Because PFOS and PFOA extinguish petroleum fires quickly, the Department of Defense and commercial airports began using aqueous film forming foam containing PFOS and PFOA in the 1970s.

(2) PFOS and PFOA can accumulate and stay in the body for long periods of time. Exposure to PFOS and PFOA may cause health problems, in-
cluding issues with the reproductive system, liver and kidney damage, developmental issues in children, and negatively impacted immune system, and cancer.

(3) A common method of human exposure to PFOS and PFOA is by consuming contaminated drinking water.

(4) The Environmental Protection Agency issued lifetime health advisories under the Safe Drinking Water Act for individual or combined PFOS and PFOA concentrations at 70 parts per trillion in 2016, but has not yet issued any guidance or regulation for groundwater or agricultural water.

(5) The Department of Defense has provided mitigations in many communities where drinking water has tested at or above the lifetime health advisory level, including bottled water and drinking water filtration systems. Due to the lack of regulatory guidance, these mitigations have not been mirrored in agricultural water systems.

(6) As a result, farmers located adjacent to military installations with PFOS and PFOA contamination that has migrated off-installation are potentially impacted, and in at least one case, such
contamination has had a serious impact on the livelihood of a dairy farmer.

(b) Authority to provide uncontaminated water for agricultural purposes.—

(1) In general.—If an area has been identified under paragraph (2), and a military installation has been determined to be the source of that contamination, the Secretary of Defense or the Secretary concerned may provide, for the purpose of producing agricultural products destined for human consumption—

(A) water sources uncontaminated with perfluoroalkyl and polyfluoroalkyl substances, including PFOA and PFOS, or

(B) treatment of contaminated waters.

(2) Identification of areas.—An area identified under this paragraph is an area for which the level of PFOA or PFOS contamination—

(A) is above the lifetime health advisory for contamination for such compounds as issued by the Environmental Protection Agency and printed in the Federal Register on May 25, 2016;

(B) is at or above a regulatory standard set by the Food and Drug Administration for
PFOA and PFOS in raw agricultural commodities and milk; or

(C) is at or above a duly promulgated, non-discriminatory standard promulgated by a State regulatory entity for PFOA and PFOS in raw agricultural commodities and milk.

(3) SOURCE OF FUNDS.—Amounts used to carry out this section shall be derived—

(A) in the case of amounts made available by the Secretary concerned, from amounts authorized to be appropriated for Operation and Maintenance for the military department concerned; or

(B) in the case of amounts made available by the Secretary of Defense, from amounts authorized to be appropriated for Operation and Maintenance, Defense-wide.

(c) SENSE OF CONGRESS REGARDING LAND ACQUISITION.—It is the sense of Congress that the Secretary concerned should explore authorities under which the Secretary could acquire land the land adjacent to military installations where the owners of the land have experienced impacts to their livelihood due to PFOS and PFOA contamination that has been verified to have been caused by
that installation, including the authorities under sections 2663, 2864a, and 2869 of title 10, United States Code.

SEC. 324. REMOVAL OF BARRIERS THAT DISCOURAGE INVESTMENTS TO INCREASE RESILIENCY TO CLIMATE CHANGE.

(1) identify and seek to remove barriers that discourage investments to increase resiliency to climate change;

(2) reform policies and programs that unintentionally increased the vulnerability of systems to related climate change risks; and

(3) develop, and update at least once every four years, an adaptation plan that assessed how climate impacts affected the ability of the department or agency to accomplish its mission, and the short-and long-term actions the department or agency can take to manage climate risks.

SEC. 325. OFFSHORE ENERGY DEVELOPMENT.

(a) PROHIBITION.—The Secretary of Defense shall not issue an offshore wind assessment that proposes wind exclusion areas and may not object to an offshore energy project filed for review by the Military Aviation and Installation Assurance Clearinghouse (in this section referred
to as the “Clearinghouse”) until 180 days after submitting
the report required under (b).

(b) Report Required.—The Secretary of Defense,
in coordination with the Secretaries of the military depart-
ments, shall submit a report to the congressional defense
committees on the process that will be used to by the
Clearinghouse to review proposed offshore lease blocks and
proposed offshore energy projects. At minimum, the report
should include the following elements:

(1) The process and metrics used in evaluating
proposed offshore lease blocks or specific offshore
energy projects for compatibility with, or unaccept-
able risk to, military operations and readiness.

(2) The process for coordinating with the De-
partment of Interior on assessing proposed offshore
lease blocks and military operations and readiness
activities that occur in those proposed lease blocks.

(3) The process for working with the proponent
of a proposed energy development to identify and
evaluate possible mitigations to enable energy develop-
opments that are compatible with military operations
and readiness.

title 10, United States Code, to enable the Clearing-
house to perform its new role in reviewing proposed
offshore lease blocks and offshore energy projects.

(1) a dedicated budget line item for adaptation
to, and mitigation of, climate-related risks to mili-
tary networks, systems, installations, facilities, and
other assets and capabilities of the Department of
Defense; and
(2) an estimate of the anticipated adverse im-

pacts to the readiness of the Department and the fi-

nancial costs to the Department during the year cov-
erved by the budget of the loss of, or damage to, mili-

tary networks, systems, installations, facilities, and

other assets and capabilities of the Department, in-
cluding loss of or obstructed access to training

ranges, as a result of climate change.

SEC. 853. REVISED AUTHORITIES TO DEFEAT ADVERSARY EFFORTS TO COMPROMISE UNITED STATES DEFENSE CAPABILITIES.

(a) Sense of Congress.—Congress finds that to comprehensively address the supply chain vulnerabilities of the Department of Defense, defense contractors must be incentivized to prioritize security in a manner which exceeds basic compliance with mitigation practices relating to cybersecurity risk and supply chain security standards. Defense contractors can no longer pass unknown risks on to the Department of Defense but should be provided with the tools to meet the needs of the Department with respect to cybersecurity risk and supply chain security. Incentives for defense contractors will help stimulate efforts within the defense industrial base to minimize vulnerabilities in hardware, software, and supply chain services. The Department of Defense must develop policies and regulations that move security from a cost that defense contractors seek to minimize to a key consideration in the award of contracts, equal in importance to cost, schedule, and performance. The Department of Defense must also develop policies to assist small- and medium-sized manufacturers that provide goods or services in the supply chain for the Department to adopt robust cybersecurity standards.

Such assessment shall include—
(A) a description of actions taken to mitigate potential vulnerabilities associated with the procurement; and

(B) a certification from the Secretary of the military department concerned or the Vice Chief of the Joint Chief of Staff (as appropriate) that the procurement will not interfere with the operations of the military department conducting the procurement.

SEC. 1099D. LANDS TO BE TAKEN INTO TRUST AS PART OF
THE RESERVATION OF THE LYTON
RANCHERIA.

(a) FINDINGS.—Congress finds the following:

(1) The Lytton Rancheria of California is a fed-
erally recognized Indian tribe that lost its homeland
after its relationship to the United States was un-
justly and unlawfully terminated in 1958. The Tribe
was restored to Federal recognition in 1991, but the
conditions of its restoration have prevented it from
regaining a homeland on its original lands.

(2) Congress needs to take action to reverse
historic injustices that befell the Tribe and that have
prevented it from regaining a viable homeland for its
people.

(3) Prior to European contact there were as
many as 350,000 Indians living in what is now the
State of California. By the turn of the 19th century,
that number had been reduced to approximately
15,000 individuals, many of them homeless and liv-
ing in scattered bands and communities.

(4) The Lytton Rancheria’s original homeland
was purchased by the United States in 1926 pursu-
ant to congressional authority designed to remedy
the unique tragedy that befell the Indians of Cali-
ifornia and provide them with reservations called
Rancherias to be held in trust by the United States.

(5) After the Lytton Rancheria lands were pur-
chased by the United States, the Tribe settled on
the land and sustained itself for several decades by
farming and ranching.

(6) By the mid-1950s, Federal Indian policy
had shifted back towards a policy of terminating the
Federal relationship with Indian tribes. In 1958,
Congress enacted the Rancheria Act of 1958 (72
Stat. 619), which slated 41 Rancherias in California,
including the Lytton Rancheria, for termination
after certain conditions were met.

(7) On August 1, 1961, the Federal Govern-
ment terminated its relationship with the Lytton
Rancheria. This termination was illegal because the
conditions for termination under the Rancheria Act
had never been met. After termination was imple-
mented, the Tribe lost its lands and was left without any means of supporting itself.

(9) The Stipulated Judgment provides that the Lytton Rancheria would have the “individual and collective status and rights” which it had prior to its termination and expressly contemplated the acquisition of trust lands for the Lytton Rancheria.

(10) The Stipulated Judgment contains provisions, included at the request of the local county governments and neighboring landowners, that prohibit the Lytton Rancheria from exercising its full Federal rights on its original homeland in the Alexander Valley.

(11) In 2000, approximately 9.5 acres of land in San Pablo, California, was placed in trust status for the Lytton Rancheria for economic development purposes.
(12) The Tribe has since acquired, from willing sellers at fair market value, property in Sonoma County near the Tribe’s historic Rancheria. This property, which the Tribe holds in fee status, is suitable for a new homeland for the Tribe.

(13) On a portion of the land to be taken into trust, which portion totals approximately 124.12 acres, the Tribe plans to build housing for its members and governmental and community facilities.

(14) A portion of the land to be taken into trust is being used for viniculture, and the Tribe intends to develop more of the lands to be taken into trust for viniculture. The Tribe’s investment in the ongoing viniculture operation has reinvigorated the vineyards, which are producing high-quality wines. The Tribe is operating its vineyards on a sustainable basis and is working toward certification of sustainability.

(15) No gaming shall be conducted on the lands to be taken into trust by this section.

(16) No gaming shall be conducted on any lands taken into trust on behalf of the Tribe in Sonoma County after the date of the enactment of this Act.
(17) By directing that these lands be taken into trust, the United States will ensure that the Lytton Rancheria will finally have a permanently protected homeland on which the Tribe can once again live communally and plan for future generations. This action is necessary to fully restore the Tribe to the status it had before it was wrongfully terminated in 1961.

(18) The Tribe and County of Sonoma have entered into a Memorandum of Agreement as amended in 2018 in which the County agrees to the lands in the County being taken into trust for the benefit of the Tribe in consideration for commitments made by the Tribe.

(b) DEFINITIONS.—For the purpose of this section, the following definitions apply:

(1) The term “broadband” means internet ac-
cess providing throughput speeds of at least 25 Mbps downstream and at least 3 Mbps upstream and having no data consumption caps.

(2) The term “unserved rural areas” means those rural census blocks reported by broadband providers as lacking access to broadband on the Federal Communications Commission’s Form 477.

SEC. 1099S. SENSE OF CONGRESS REGARDING MILITARY WORKING DOGS AND SOLDIER HANDLERS.

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) the 341st Training Squadron, 37th Train-
ing Wing at Lackland Air Force Base provides high-
ly trained military working dogs to the Department of Defense and other government agencies;

(2) in 2010, the operational needs of the Army for military working dogs increased without an increase in resources to train a sufficient number of dogs for the detection of improvised explosive devices at the 341st Training Squadron;

(3) the Army initiated the tactical explosive detection dog program in August 2010 as a nontraditional military working dog program to train and field improvised explosive device detection dogs for use in Afghanistan as part of Operation Enduring Freedom;

(4) the tactical explosive detection dog program was created to reduce casualties from improvised explosive devices in response to an increase in the use of asymmetric weapons by the enemy;

(5) the tactical explosive detection dogs were a unique subset of military working dogs because the Army selected and trained soldiers from deploying units to serve as temporary handlers for only the duration of deployment to Operation Enduring Freedom;

(6) the tactical explosive detection dogs and their soldier handlers, like other military working
dog and handler teams, formed strong bonds while training for combat and performing extremely dangerous improvised explosive device detection missions in service to the United States;

(7) the tactical explosive detection dog program was a nontraditional military working dog program that terminated in February 2014;

(8) at the termination of the tactical explosive detection dog program in February 2014, neither United States law nor Department of Defense policy established an adoption order priority, and Department of Defense policy only provided that military working dogs be adopted by former handlers, law enforcement agencies, and other persons capable of humanely caring for the animals;

(9) an August 2016 report to Congress by the Air Force entitled “Tactical Explosive Detector Dog (TEDD) Adoption Report” concluded that the Army had a limited transition window for the disposition of tactical explosive detection dogs and the lack of a formal comprehensive plan contributed to the disorganized disposition process for the tactical explosive detection dogs;
(10) the August 2016 report stated that, in 2014, the Army disposed of 229 tactical explosive detection dogs;

(11) 40 tactical explosive detection dogs were adopted by handlers, 47 dogs were adopted by private individuals, 70 dogs were transferred to Army units, 17 dogs were transferred to other government agencies, 46 dogs were transferred to law enforcement agencies, and 9 dogs were deceased;

(12) the disposition of tactical explosive detection dogs was poorly executed, proper procedures outlined in Department of Defense policy were ignored, and, as a result, the former soldier handlers were not provided the opportunity to adopt their tactical explosive detection dogs;

(13) the Army should have deliberately planned for the disposition of the tactical explosive detection dogs and provided appropriate time to review and consider adoption applications to mitigate handler and civilian adoption issues;

(14) section 342(b) of the National Defense Authorization Act for Fiscal Year 2016 (Public Law 114–92; 129 Stat. 793) amended section 2583(c) of title 10, United States Code, to modify the list of persons authorized to adopt a military animal and
prioritize the list with preference, respectively, to
former handlers, other persons capable of humanely
caring for the animal, and law enforcement agencies;

(15) since 2000, Congress has passed legisla-
tion that protects military working dogs, promotes
their welfare, and recognizes the needs of their vet-
eran handlers;

(16) Congress continues to provide oversight of
military working dogs to prevent a reoccurrence of
the disposition issues that affected tactical explosive
detection dogs;

(17) former soldier handlers should be reunited
with their tactical explosive detection dogs;

(18) congressional recognition of the military
service of tactical explosive detection dogs and their
former soldier handlers is a small measure of grati-
tude this legislative body can convey;

(19) over 4 years have passed since the termin-
ation of the tactical explosive detection dog pro-
gram;

(20) Congressman Walter B. Jones has been a
long-time advocate for military working dogs and
their handlers;
(21) Congressman Walter B. Jones has worked to ensure that handlers are given priority when their military working dogs reach retirement;

(22) Congressman Walter B. Jones was a strong proponent of the Wounded Warrior Service Dog program, which is a valuable program that helps wounded members of the Armed Forces manage and recover from post-traumatic stress;

(23) the advocacy of Congressman Walter B. Jones for military working dogs is well known throughout the nonprofit community that supports military working dogs;

(24) Congressman Walter B. Jones worked with the Department of Defense and the Senate to update the language in the Air Force Manual on Military Working Dogs to clarify that military working dogs are not equipment and to indicate the true level of appreciation and respect the Department of Defense has for these valuable members of the military team;

(25) Congressman Walter B. Jones was the chief legislative sponsor of the Military Working Dog Teams Monument, which was built with no taxpayer dollars but through corporate and private donations; and
(26) with the support of Congressman Walter B. Jones, the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181) authorized the Burnam Foundation to design, fund, build, and maintain the Military Working Dog Teams National Monument.

(b) SENSE OF CONGRESS.—It is the sense of Congress to—

(1) recognize the efforts of Congressman Walter B. Jones to promote military working dogs as unsung heroes on the battlefield and in helping wounded warriors recover from physical and mental injuries;

(2) recognize the service of military working dogs and soldier handlers from the tactical explosive detection dog program;

(3) acknowledge that not all tactical explosive detection dogs were adopted by their former soldier handlers;

(4) encourage the Army and other government agencies, including law enforcement agencies, with former tactical explosive detection dogs to prioritize adoption to former tactical explosive detection dog handlers; and
(5) honor the sacrifices made by tactical explosive detection dogs and their soldier handlers in combat.

(a) Sense of Congress.—It is the sense of Congress that—

(2) although much progress has been made to increase awareness of Arctic issues and to promote increased presence in the region, additional measures, including the designation of one or more strategic Arctic ports, are needed to show the commitment of the United States to this emerging strategic choke point of future great power competition.

(B) an evaluation of the amount of sufficient and suitable space needed to create capacity for equipment and fuel storage, technological infrastructure, and civil infrastructure to
support military and civilian operations, including—

(i) aerospace warning;

(ii) maritime surface and subsurface warning;

(iii) maritime control and defense;

(iv) maritime domain awareness;

(v) homeland defense;

(vi) defense support to civil authorities;

(vii) humanitarian relief;

(x) oil spill response;

(xi) medical stabilization and evacuation; and

(xii) meteorological measurements and forecasting;

(C) an identification of proximity and road access required to an airport designated as a commercial service airport by the Federal Aviation Administration that is capable of supporting military and civilian aircraft for operations designated in subparagraph (B);
(D) a description of the requirements, to include infrastructure and installations, communications, and logistics necessary to improve response effectiveness to support military and civilian operations described in subparagraph (B);

(E) an identification of the sites that the Secretary recommends as potential sites for designation as Department of Defense Strategic Arctic Ports;

(F) the estimated cost of sufficient construction necessary to initiate and sustain expected operations at such sites; and

(G) such other information as the Secretary deems relevant.

(e) DESIGNATION OF STRATEGIC ARCTIC PORTS.—Not later than 90 days after the date on which the report required under subsection (b) is submitted, the Secretary of Defense, in consultation with the Chairman of the Joint Chiefs of Staff, the Commanding General of the United States Army Corps of Engineers, the Commandant of the Coast Guard, and the Administrator of the Maritime Administration, may designate one or more ports as Department of Defense Strategic Arctic Ports from the sites identified under subsection (b)(2)(E).
(d) RULE OF CONSTRUCTION.—Nothing in this section may be construed to authorize any additional appropriations for the Department of Defense for the establishment of any port designated pursuant to this section.

(e) ARCTIC DEFINED.—In this section, the term “Arctic” has the meaning given that term in section 112 of the Arctic Research and Policy Act of 1984 (15 U.S.C. 4111).

SEC. 1099U. FUNDING LIMITATION FOR THE ERIE CANALWAY NATIONAL HERITAGE CORRIDOR.

Section 810(a)(1) of the Erie Canalway National Heritage Corridor Act (Public Law 106–554; 114 Stat. 2763A–303) is amended, in the second sentence, by striking “$12,000,000” and inserting “$14,000,000”.

SEC. 1099V. INSPECTION OF FACILITIES USED TO HOUSE, DETAIN, SCREEN, AND REVIEW MIGRANTS AND REFUGEES.

The Secretary of Defense, in coordination with the Comptroller General of the United States and the Secretary of Health and Human Services shall establish a process under which the Comptroller General and the Inspector General of Health and Human Services, as appropriate, may be provided with access to Government-owned or Department of Defense-owned installations where there are facilities used to house, detain, screen, or review mi-
grants, refugees, or other persons recently arriving in the United States for purposes of conducting surprise inspections of such facilities.

SEC. 1099W. SENSE OF CONGRESS REGARDING THE 2001 AUTHORIZATION FOR USE OF MILITARY FORCE.

(a) FINDINGS.—Congress makes the following findings:

(1) The Authorization for Use of Military Force (referred to in this section as the “2001 AUMF”) (Public Law 107–40; 50 U.S.C. 1541 note) was passed by Congress in 2001 after the terrorist attacks of September 11, 2001, to authorize the use of force against those responsible for the attacks of September 11, 2001.

(2) The 2001 AUMF is one of the only modern authorizations for the use of force in the history of the United States that included no limitation in time, geography, operations, or a named enemy.

(3) The 2001 AUMF has been cited 41 times as the legal basis for the use of force in 19 countries.

(4) Article I, Section 8 of the Constitution provides Congress with the sole authority to “declare war”.

HR 2500 PCS
(b) Sense of Congress.—It is the sense of Congress that—

(1) the use of the 2001 AUMF has been well beyond the scope that Congress initially intended when it was passed on September 14, 2001;

(2) nearly 18 years after the passage of the 2001 AUMF, it has served as a blank check for any President to wage war at any time and at any place; and

(3) any new authorization for the use of military force that replaces the 2001 AUMF should include—

(A) a sunset clause and timeframe within which Congress should revisit the authority provided in the new authorization for use of military force;

(B) a clear and specific expression of mission objectives, targets, and geographic scope; and

(C) reporting requirements to increase transparency and ensure proper Congressional oversight.

(b) Waiver.—The President may waive the prohibition in subsection (a) for any instance of license denial or suspension that shall result in a cost to the Federal Government.

**Subtitle I—North Korea Nuclear Sanctions**

**SEC. 1099Z–1. SHORT TITLE.**

This subtitle may be cited as the “Otto Warmbier North Korea Nuclear Sanctions Act of 2019”.

**SEC. 1099Z–2. FINDINGS.**

The Congress finds the following:
(1) On June 1, 2016, the Department of the Treasury’s Financial Crimes Enforcement Network announced a Notice of Finding that the Democratic People’s Republic of Korea is a jurisdiction of primary money laundering concern due to its use of state-controlled financial institutions and front companies to support the proliferation and development of weapons of mass destruction (WMD) and ballistic missiles.

(2) The Financial Action Task Force (FATF) has expressed serious concerns with the threat posed by North Korea’s proliferation and financing of WMD, and has called on FATF members to apply effective counter-measures to protect their financial sectors from North Korean money laundering, WMD proliferation financing, and the financing of terrorism.

(3) In its February 2017 report, the U.N. Panel of Experts concluded that—

(A) North Korea continued to access the international financial system in support of illicit activities despite sanctions imposed by U.N. Security Council Resolutions 2270 (2016) and 2321 (2016);
(B) during the reporting period, no mem-
ber state had reported taking actions to freeze
North Korean assets; and

(C) sanctions evasion by North Korea,
combined with inadequate compliance by mem-
ber states, had significantly negated the impact

(4) In its September 2017 report, the U.N.
Panel of Experts found that—

(A) North Korea continued to violate fi-
nancial sanctions by using agents acting abroad
on the country’s behalf;

(B) foreign financial institutions provided
correspondent banking services to North Ko-
rean persons and front companies for illicit pur-
poses;

(C) foreign companies violated sanctions by
maintaining links with North Korean financial
institutions; and

(D) North Korea generated at least $270
million during the reporting period through the
violation of sectoral sanctions.

(5) North Korean entities engage in significant
financial transactions through foreign bank accounts
that are maintained by non-North Korean nationals,
thereby masking account users’ identity in order to access financial services.

(6) North Korea’s sixth nuclear test on September 3, 2017, demonstrated an estimated explosive power more than 100 times greater than that generated by its first nuclear test in 2006.

(7) On February 23, 2018 the Department of the Treasury announced its largest-ever set of North Korea-related sanctions, with a particular focus on shipping and trading companies, and issued a maritime advisory to highlight North Korea’s sanctions evasion tactics. On May 9, 2019, the United States seized a North Korean ship, the Wise Honest, which had previously been detained by Indonesia for carrying coal in violation of United Nations sanctions.

(8) According to the March 2019 Final Report of the U.N. Panel of Experts, “The nuclear and ballistic missile programmes of the Democratic People’s Republic of Korea remain intact and the country continues to defy Security Council resolutions through a massive increase in illegal ship-to-ship transfers of petroleum products and coal. These violations render the latest United Nations sanctions ineffective by flouting the caps on the import of petroleum products and crude oil by the Democratic
People’s Republic of Korea as well as the coal ban, imposed in 2017 by the Security Council in response to the country’s unprecedented nuclear and ballistic missile testing.”.

(9) The U.N. Panel of Experts further concluded: “Financial sanctions remain some of the most poorly implemented and actively evaded measures of the sanctions regime. Individuals empowered to act as extensions of financial institutions of the Democratic People’s Republic of Korea operate in at least five countries with seeming impunity.”.

(10) North Korea has successfully tested short-range, submarine-launched, and intercontinental ballistic missiles, and is rapidly progressing in its development of a nuclear-armed missile that is capable of reaching United States territory.

“(b) WAIVER.—The President may waive subsection (a) for up to 180 days at a time with respect to a foreign government if the President reports to Congress that—

“(2) the foreign government is taking effective
steps to prevent recurrence of such failure; or
“(3) such waiver is vital to the national security
interests of the United States.”.
(b) EXPORT-IMPORT BANK.—Section 2(b) of the Ex-

SEC. 1224. PROHIBITION ON PROVISION OF WEAPONS AND OTHER FORMS OF SUPPORT TO CERTAIN ORGANIZATIONS.

None of the funds authorized to be appropriated by this Act or otherwise made available to the Department of Defense for fiscal year 2020 may be used to knowingly provide weapons or any other form of support to Al Qaeda,
the Islamic State of Iraq and Syria (ISIS), Jabhat Fateh al Sham Hamas, Hizballah, Palestine Islamic Jihad, al-Shabaab, Islamic Revolutionary Guard Corps, or any individual or group affiliated with any such organization.

SEC. 1225. RULE OF CONSTRUCTION RELATING TO USE OF MILITARY FORCE AGAINST IRAN.

Nothing in this Act or any amendment made by this Act may be construed to authorize the use of military force against Iran.

SEC. 1226. SENSE OF CONGRESS ON SUPPORT FOR MINISTRY OF PESHMERGA FORCES OF THE KURDISTAN REGION OF IRAQ.

It is the sense of Congress that—

(1) the United States led coalition and coalition enabled partner forces, including Ministry of Peshmerga forces of the Kurdistan Region of Iraq and Iraqi Security Forces (ISF), have made significant gains in liberating all territory in Iraq from Islamic State of Iraq and Syria (ISIS) control and disrupting ISIS safe havens and networks;

(2) nevertheless, ISIS is regenerating key functions and capabilities in Iraq, and ISIS elements will continue to exist in Iraq for the foreseeable future;

(3) ISIS will attempt to rebuild combat power through clandestine networks providing sanctuary,
and ISIS will continue to attempt to conduct insurgent-type activities while simultaneously recruiting and training fighters, establishing facilitation networks, and attempting to remain relevant in the information domain;

(4) the Ministry of Peshmerga forces of the Kurdistan Region of Iraq made significant contributions and sacrifices in the United States-led campaign to degrade, dismantle, and destroy ISIS; and

(5) the Department of Defense and the Department of State should continue to work with and support the non-partisan forces of the Ministry of Peshmerga of the Kurdistan Region of Iraq in order to continue to develop their capabilities, promote security sector reforms, and enhance sustainability and interoperability with the other elements of the Iraqi security forces in order to provide for Iraq’s lasting security against terrorist threats.

SEC. 1227. SENSE OF CONGRESS ON SUPPORTING THE RETURN AND REPATRIATION OF RELIGIOUS AND ETHNIC MINORITIES IN IRAQ TO THEIR ANCESTRAL HOMELANDS.

(a) FINDINGS.—Congress finds that—

(1) the Nineveh Plain and the wider region have been the ancestral homeland of Assyrian
Chaldean Syriac Christians, Yazidis, Shabak, and other religious and ethnic minorities, where they lived for centuries until the Islamic State of Iraq and Syria (ISIS) overran and occupied the area in 2014;

(2) in 2016, then-Secretary of State John Kerry announced, “In my judgment Daesh is responsible for genocide against groups in areas under its control, including Yezidis, Christians, and Shia Muslims. Daesh is genocidal by self-proclamation, by ideology, and by actions—in what it says, what it believes, and what it does. Daesh is also responsible for crimes against humanity and ethnic cleansing directed at these same groups and in some cases also against Sunni Muslims, Kurds, and other minorities.”;

(3) these atrocities were undertaken with the specific intent to bring about the eradication and displacement of Christians, Yazidis, and other communities and the destruction of their cultural heritage, in violation of the United Nations Convention on the Prevention and Punishment of the Crime of Genocide signed by the United States on December 11, 1948;
(4) in 2016, the House of Representatives passed H. Con. Res. 75 expressing the sense of the House of Representatives that the atrocities perpetrated by ISIS against religious and ethnic minorities in Iraq and Syria include war crimes, crimes against humanity, and genocide;

(5) through joint efforts of the United States and 79 allies and partners, ISIS has been territorially defeated in Iraq and Syria;

(6) in July 2018, under the direction of Vice President Pence, the Genocide Recovery and Persecution Response Program partnered with the Department of State, the United States Agency for International Development, and local faith and community leaders to rapidly and directly deliver aid to persecuted communities, beginning with Iraq;

(7) Christians in Iraq once numbered over 1.5 million in 2003 and have dwindled to less than 200,000 today;

(8) armed militia groups linked to Iran, operating systematically in Sinjar and the Nineveh Plains, have harassed and intimidated religious and ethnic minorities thereby destabilizing northern Iraq and preventing local and indigenous minorities to return to their homelands;
(9) Iraqi religious minorities have faced challenges in integrating into the Iraqi Security Forces and Kurdish Peshmerga;

(10) over 500 acres of productive agricultural lands in eastern Ninevah Governate have been burned in cases of arson in May 2019 alone, destroying significant wheat and barley cultivation areas;

(11) these agricultural resources are critical to northern Iraq's livelihood, especially that of minority populations, and continued crop arson prevents safe and prosperous return of minority populations as well as complicates stabilization efforts; and

(12) facilitating the success of communities in Sinjar and the Nineveh Plains requires a commitment from international, Iraqi, Kurdish, and local authorities, in partnership with local faith leaders, to promote the safety and security of all people, especially religious and ethnic minorities.

(b) Sense of Congress.—It is the sense of Congress that—

(1) it should remain a policy priority of the United States, working with international partners, the Government of Iraq, the Kurdistan Regional Government, and local populations, to support the
safe return of displaced indigenous people of the
Nineveh Plain and Sinjar to their ancestral homel-

(2) it should be a policy priority of the Govern-
ment of Iraq, the Kurdish Regional Government, the
United States, and the international community to
guarantee the restoration of fundamental human
rights, including property rights, to genocide victims,
and to see that ethnic and religious pluralism sur-
vives in Iraq;

(3) Iraqi Security Forces and the Kurdish
Peshmerga should work to more fully integrate all
communities, including religious minority commu-
nities, to counter current and future terrorist
threats; and

(4) the United States, working with inter-
national allies and partners, should continue to lead
coordination of efforts to provide for the safe return
and future security of religious minorities in the
Nineveh Plain and Sinjar.

SEC. 1228. REPORT ON THE STATUS OF DECONFLICTION

5 quired by subsection (a) shall include the following:
6
7 (1) The status of United States military-to-mili-
8 tary deconfliction channels with Iran to prevent mili-
9 tary and diplomatic miscalculation.
10
11 (2) The status of United States diplomatic
12 deconfliction channels with Iran to prevent mis-
13 calculation, define ambiguities, and correct mis-
14 understandings that could otherwise lead to unin-
15 tended consequences, including unnecessary or
16 harmful military activity.
17
18 (3) An analysis of the need and rationale for bi-
19 lateral and multilateral deconfliction channels, in-
20 cluding an assessment of recent United States expe-
21 rience with such channels of communication with
22 Iran.
23
24 SEC. 1229. PROHIBITION OF UNAUTHORIZED MILITARY
25 FORCE IN OR AGAINST IRAN.
26
27 (a) FINDINGS.—Congress finds the following:
28
29 (1) The acquisition by the Government of Iran
30 of a nuclear weapon would pose a grave threat to
31 international peace and stability and the national se-
curity of the United States and United States allies, including Israel.

(2) The Government of Iran is a leading state sponsor of terrorism, continues to materially support the regime of Bashar al-Assad, and is responsible for ongoing gross violations of the human rights of the people of Iran.

(3) Article I of the United States Constitution requires the President to obtain authorization from Congress before engaging in war with Iran.

(b) Clarification of Current Law.—Nothing in the Authorization for Use of Military Force (Public Law 107–40; 50 U.S.C. 1541 note), the Authorization for Use of Military Force Against Iraq Resolution of 2002 (Public Law 107–243; 50 U.S.C. 1541 note), or any other provision of law enacted before the date of the enactment of this Act may be construed to provide authorization for the use of military force against Iran.

(c) Prohibition of Unauthorized Military Force in or Against Iran.—

(1) In General.—Except as provided in paragraph (1), no Federal funds may be used for any use of military force in or against Iran unless Congress has—

(A) declared war; or
(B) enacted specific statutory authorization for such use of military force after the date of the enactment of this Act that meets the requirements of the War Powers Resolution (50 U.S.C. 1541 et seq.).

(2) EXCEPTION.—The prohibition under paragraph (1) shall not apply to a use of military force that is consistent with section (2)(c) of the War Powers Resolution.

(d) RULES OF CONSTRUCTION.—(1) Nothing in this section may be construed to prevent the President from using necessary and appropriate force to defend United States allies and partners if Congress enacts specific statutory authorization for such use of force consistent with the requirements of the War Powers Resolution (50 U.S.C. 1541 et seq.).

(2) Nothing in this Act may be construed to relieve the executive branch of restrictions on the use of force, reporting, or consultation requirements set forth in the War Powers Resolution (50 U.S.C. 1541 et seq.).

(3) Nothing in this Act may be construed to authorize the use of military force.
Subtitle D—Matters Relating to Russia

SEC. 1231. PROHIBITION ON THE USE OF FUNDS TO SUSPEND, TERMINATE, OR WITHDRAW THE UNITED STATES FROM THE OPEN SKIES TREATY.

(a) FINDINGS.—Congress finds the following:

(1) Since 1992, the United States has supported the Open Skies Treaty with dedicated aircraft and observation mission teams, conducting several hundred training and observation missions with other countries.

(2) This commitment by the United States has helped to confirm and refine operational procedures, to improve implementation and effectiveness of the Open Skies Treaty, and provide United States leadership and engagement opportunities that have supported broader objectives and improved European transparency.

(3) The Open Skies Treaty provides signatories with the ability to gather information through aerial imaging on military forces and activities of concern to them which contributes to greater transparency and stability in the Euro-Atlantic region, which ben-
efits both the United States and United States allies and partners.

(4) In order to maximize United States benefits from the Open Skies Treaty, the United States needs to recapitalize and modernize its aircraft and sensors, and the ongoing work to certify the Digital Visual Imaging System and the new effort for the Open Skies Treaty Aircraft Recapitalization (OSTAR) are critical to United States leadership and involvement in the Treaty.

(5) The current 1960s-era United States aircraft used with respect to the Open Skies Treaty are ill-suited to extreme operating environments in Russia and experience regular, unplanned maintenance issues, often resulting in mission delays or cancellations.

(6) The OSTAR effort will provide a United States aircraft capability that allows the United States to fully implement the goals and objectives of the Open Skies Treaty.

(7) The United States also demonstrated in December 2018, along with United States allies of Canada, the United Kingdom, France, Germany, and Romania, that Open Skies Treaty mechanisms can be used during times of crisis.
(8) Following Russia’s unprovoked attack on Ukrainian vessels near the Kerch Strait, the United States and United States allies conducted an “extraordinary” Open Skies Treaty observation mission over Ukraine to reaffirm commitment to Ukraine.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should forcefully address Russian violations of its obligations under the Open Skies Treaty; and

(2) due to the significant benefits that observation missions under the Open Skies Treaty provide to the United States and United States allies, the United States should commit to continued participation in the Treaty.

(c) PROHIBITION.—

(1) IN GENERAL.—Except as provided in paragraph (2), none of the funds authorized to be appropriated by this Act or otherwise made available to the Department of Defense for fiscal year 2020 may be obligated or expended to take any action to suspend, terminate, or withdraw the United States from the Open Skies Treaty.

(2) EXCEPTION.—The prohibition in paragraph (1) shall not apply if the Secretary of Defense and
the Secretary of State jointly determine and certify
to the congressional defense committees, the Com-
mittee on Foreign Affairs of the House of Rep-
resentatives, and the Committee on Foreign Rela-
tions of the Senate, that—

(A) Russia is in material breach of its obli-
gations under the Open Skies Treaty and is not
taking steps to return to compliance with such
obligations, and all other state parties to the
Open Skies Treaty concur in such determina-
tion of the Secretaries; or

(B) withdrawing from the Open Skies
Treaty would be in the best interests of United
States national security and the other state
parties to the Open Skies Treaty have been con-
sulted with respect to such withdrawal.

SEC. 1266. RULE OF CONSTRUCTION RELATING TO USE OF MILITARY FORCE AGAINST VENEZUELA.

Nothing in this Act or any amendment made by this Act may be construed to authorize the use of military force against Venezuela.

SEC. 1267. SENSE OF CONGRESS ON ACQUISITION BY TURKEY OF PATRIOT SYSTEM.

(a) Findings.—Congress finds the following:

(1) The Government of Turkey has indicated in a communication to Congress that there remains an opportunity to meet Turkey’s requirement for an air
and missile defense capability through the acquisition of the Patriot system from the United States.

(2) The acquisition of the Patriot system could remove the need to acquire the S–400 air and missile defense system from Russia, which is incompatible with the integrated air and missile defense system of the North Atlantic Treaty Organization (NATO) and should preclude Turkey’s participation in the F–35 Joint Strike Fighter (JSF) consortium program with the United States.

(b) SENSE OF CONGRESS.—Congress—

(1) supports the efforts of the United States Government to achieve a satisfactory arrangement with Turkey by which Turkey acquires the Patriot system to defend its airspace, which would preserve Turkey as a production partner in the F–35 JSF consortium program;

(2) encourages the Department of Defense to secure the deployment of a Patriot system to Turkey, under United States or NATO operational control, for the purpose of providing Turkey with an interim capability to address urgent vulnerabilities in Turkey’s air and missile defense during the period in which an agreement is reached for Turkey’s acquisition of the Patriot system; and
(3) notes that any such deployment of the Patriot or a NATO interoperable system in the interim is contingent on Turkey’s commitment to cancel the S–400 air and missile defense system acquisition.

(5) further, in lieu of withdrawing from the INF Treaty, the United States should look at options to expand arms control treaties to include China in an effort to limit its short- and intermediate-range missiles.

(b) PROHIBITION.—None of the funds authorized to be appropriated by this Act or otherwise made available for the Department of Defense for fiscal year 2020 may be made available for the research, development, testing,

need to pursue to offset the additional Russian
capabilities, and at what cost;

ments will be met by INF Treaty-type systems;
and
(E) details regarding ramifications of a collapse of the INF Treaty on the ability to generate consensus among States Parties to the NPT Treaty ahead of the 2020 NPT Review Conference, and assesses the degree to which Russia will use the United States unilateral withdrawal to sow discord within the NATO alliance.

(2) A copy or copies of at least one Memorandum of Understanding from a NATO or Indo-Pacific ally that commits it to host deployment of any such ballistic or cruise missile system on its own territory, and in the case of deployment on the European continent, has the concurrence of the North Atlantic Council.

(3) An unedited copy of an analysis of alternatives conducted by the Chairman of the Joint Chiefs of Staff and the Director of Cost Assessment and Program Evaluation that considers other ballistic or cruise missile systems, to include sea- and air-launched missiles, that could be deployed to meet current capability gaps due to INF Treaty restrictions, and further to include cost, schedule, and operational considerations.

SEC. 1293. GUIDANCE RELATING TO THE MINING SECTOR OF BURMA.

(a) FINDINGS.—Congress finds the following:

(1) In 2015, the nongovernmental organization Global Witness estimated that the value of total production of jade in Burma in 2014 was $31,000,000,000, almost 48 percent of the official
gross domestic product of Burma. As much as 80 percent of that jade sold is smuggled out of Burma.

(2) Burma’s military and associated entities, including companies owned or controlled by Myanmar Economic Corporation and Myanmar Economic Holding Limited, their affiliated companies, and companies owned or controlled by current and former senior military officers or their family members, are linked to the mining sector, including the gemstone industry, and benefit financially from widespread illegal smuggling of jade and rubies from Burma.

(3) Illegal trafficking in precious and semiprecious stones from Burma, including the trade in high-value jade and rubies, deprives the people of Burma and the civilian government of critical revenue and instead benefits military-linked entities, non-state armed groups, and transnational organized criminal networks.

(4) In 2016, the Government of Burma began to take steps to reform aspects of the mining sector, but the Gemstone Law adopted in January 2019 does not adequately address corruption and tax avoidance, conflicts of interest, or the factors fueling
conflict in Kachin State and other gemstone mining areas.

(5) The lifting in October 2016 of United States sanctions on the importation of jade and jadeite and rubies from Burma allowed such gemstones to legally enter the United States market, but some retailers have refrained from sourcing gemstones of Burmese origin due to governance and reputational concerns.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) notwithstanding Burma’s “Trafficking in Persons” ranking, the President should continue to provide assistance to Burma, pursuant to the waiver authority under section 110(d)(4) of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7107(d)(4)), in order to re-engage with the Government of Burma with respect to the mining sector and should make available technical, capacity-building and other assistance through the Department of State or the United States Agency for International Development to support the Government of Burma in efforts to reform the gemstone industry; and

(2) companies that seek to import to the United States gemstones or minerals that may be of Bur-
HR 2500 PCS

mese origin or articles of jewelry containing such
gemstones should—

(A) obtain such materials exclusively from
entities that satisfy the transparency criteria
described in subsection (d)(2) or from third
parties that can demonstrate that they sourced
the materials from entities that meet such cri-
teria; and

(B) undertake robust due diligence proce-
dures in line with the “Due Diligence Guidance
for Responsible Business Conduct” and “Due
Diligence Guidance for Responsible Supply
Chains of Minerals from Conflict-Affected and
High-Risk Areas” promulgated by the Organi-
zation for Economic Cooperation and Develop-
ment.

(c) List of Participating White-list Enti-
ties.—Not later than 120 days after the date of the en-
actment of this subtitle, and annually thereafter until the
date described in subsection (e), the Secretary of State

entity described in subsection (d)(1) that—

(1) participates in Burma’s mining sector;
(2) publicly discloses beneficial ownership, as such term is defined for purposes of the Myanmar Extractive Industry Transparency Initiative (‘‘Myanmar EITI’’);

(3) is not owned or controlled, either directly or indirectly, by the Burmese military or security forces, any current or former senior Burmese military officer, or any person sanctioned by the United States pursuant to any relevant sanctions authority; and

(A) Entities that produce or process precious and semiprecious gemstones.

(B) Entities that sell or export precious and semiprecious gemstones from Burma or articles of jewelry containing such gemstones.

(2) CRITERIA DESCRIBED.—The criteria described in this subsection are the following:

(A) The entity publicly discloses any politically exposed persons, officers, directors or ben-
oficial owners, as defined under the Myanmar
EITI.

(B) The entity publicly discloses valid au-

thorization, license, or permit to produce, proc-

ess, sell, or export minerals or gemstones, as

applicable.

(C) The entity publicly discloses payments
to the Government of Burma, including tax and
non-tax, license, or royalty payments, and other
payments or contract terms as may be required
under Myanmar EITI standards.

(D) The entity undertakes due diligence, in
line with the OECD Due Diligence Guidance
for Responsible Supply Chains of Minerals from
Conflict-Affected and High-Risk Areas, includ-
ing public reporting.

(e) PERIODIC UPDATING.—The Secretary shall peri-
odically update the publicly available version of the list de-
scribed in subsection (c) as appropriate.

(f) GUIDANCE AND WHITE-LIST ENTITIES.—The

supply-chain due diligence that are applicable to importa-
tion of gemstones or minerals that may be of Burmese
origin or articles of jewelry containing such gemstones, in-
cluding with respect to transactions with entities approved for inclusion in the list published pursuant subsection (e), in order to mitigate potential risks and legal liabilities associated with the importation of such items.

(2) Separate the commercial, regulatory, and revenue collection responsibilities within the Myanmar Gems Enterprise and other key state-owned enterprises to remove existing conflicts of interest.

(3) Monitor and undertake enforcement actions, as warranted, to ensure that entities—

(A) adhere to environmental and social impact assessment and management standards in
accordance with international responsible mining practices, the country’s environmental conservation law, and other applicable laws and regulations; and

(B) uphold occupational health and safety standards and codes of conduct that are aligned with the core labor standards of the International Labour Organisation and with domestic law.

(4) Address the transparent and fair distribution of benefits from natural resources, including through local benefit-sharing.

(5) Reform the process for valuation of gemstones at the mine-site, including developing an independent valuation system to prevent undervaluation and tax evasion.

(6) Require companies bidding for jade and ruby mining, finishing, or export permits to be independently audited upon the request of the Government of Burma and making the results of all such audits public.

(7) Establish credible and transparent procedures for permit allocations that are independent from external influence, including scrutiny of applicants that prevents unscrupulous entities from gain-
ing access to concessions or the right to trade in minerals or gemstones.

(8) Establish effective oversight of state-owned enterprises operating in such sector, including through parliamentary oversight or requirements for independent financial auditing.

(B) An examination, using appropriate analytical tools, of the approaches proposed by such studies and writings with respect to creating conditions of deterrence suitable for use in the space domain, including, at a minimum, an assessment of all aspects of deterrence in...
space, including varying classification, strategies to deny benefit or impose cost, and space mission assurance (including resilience, active defense, and reconstitution).

(C) A determination, made either by extending such studies and writings or through new analysis, of a holistic and comprehensive theory of deterrence in space appropriate for use in defense planning.

signal the intentions and capabilities of the
United States in an effective manner.

(c) BRIEFING.—Not later than 270 days after the
date of the enactment of this Act, the Secretary shall pro-
vide to the congressional defense committees, the Com-

SECTION 1683. REPEAL OF REQUIREMENT FOR COMMISSION ON ELECTROMAGNETIC PULSE ATTACKS AND SIMILAR EVENTS.

(a) FINDINGS.—Congress finds the following:

(1) On March 26, 2019, the President released the “Executive Order on Coordinating National Resilience to Electromagnetic Pulses”.

(2) The Executive order codifies policy, roles, and responsibilities within the executive branch in order to foster sustainable, efficient, and cost-effective approaches to improving the resilience of the United States to the effects of electromagnetic pulses.

(b) REPEAL.—Section 1691 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91; 131 Stat. 1786) is repealed.
SEC. 1684. CONVENTIONAL PROMPT GLOBAL STRIKE WEAPON SYSTEM.

(a) Sense of Congress.—It is the sense of Congress that—

(1) the Under Secretary of Defense for Policy has not adequately responded to Congress regarding the miscalculation and ambiguity risks posed by hypersonic weapons, specifically from submarine-launched platforms, including pursuant to the report required by section 1698 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115–232; 132 Stat. 2172); and

(2) the Secretary of Defense should coordinate technology maturation efforts to develop common technologies for hypersonics, and should leverage defense laboratories and university partners to lead foundational hypersonic research in areas the Secretary determines appropriate for the Department of Defense.

(b) Prohibition.—None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2020 for the conventional prompt global strike weapon system may be used for a submarine-launched conventional prompt global strike capability, including with respect to developing or testing such a capability—
(1) is transferrable to a surface-launched platform; and

(2) is not exclusive to submarines.

(c) REPORT.—Not later than 120 days after the date of the enactment of this Act, the Secretary of the Navy shall submit to the congressional defense committees a report on the programmatic changes required to integrate the conventional prompt global strike weapon system into the DDG–1000 program or other surface ships.

TITLE XVII—SANCTIONS WITH RESPECT TO FOREIGN TRAFFICKERS OF ILLICIT SYNTHETIC OPIOIDS

SEC. 1701. SHORT TITLE.

This title may be cited as the “Fentanyl Sanctions Act”.

SEC. 1702. FINDINGS.

Congress makes the following findings:

(1) The Centers for Disease Control and Prevention estimate that from September 2017 through September 2018 more than 48,200 people in the United States died from an opioid overdose, with synthetic opioids (excluding methadone), contributing to a record 31,900 overdose deaths. While drug overdose death estimates from methadone,
semi-synthetic opioids, and heroin have decreased in
recent months, overdose deaths from synthetic
opioids have continued to increase.

(2) Congress and the President have taken a
number of actions to combat the demand for illicit
opioids in the United States, including enacting into
law the SUPPORT for Patients and Communities
Act (Public Law 115–271; 132 Stat. 3894). While
new statutes and regulations have reduced the rate
of opioid prescriptions in recent years, fully address-
ing the United States opioid crisis will involve dra-
matically restricting the foreign supply of illicit
opioids.

(3) The People’s Republic of China is the
world’s largest producer of illicit fentanyl, fentanyl
analogues, and their immediate precursors. From
the People’s Republic of China, those substances are
shipped primarily through express consignment car-
rriers or international mail directly to the United
States, or, alternatively, shipped directly to
transnational criminal organizations in Mexico, Can-
ada, and the Caribbean.

(4) The United States and the People’s Repub-
lic of China, Mexico, and Canada have made impor-
tant strides in combating the illicit flow of opioids
through bilateral efforts of their respective law enforcement agencies.

(5) The objective of preventing the proliferation of illicit opioids through existing multilateral and bilateral initiatives requires additional efforts to deny illicit actors the financial means to sustain their markets and distribution networks.

(6) The implementation on May 1, 2019, of the regulations of the People’s Republic of China to schedule all fentanyl analogues as controlled substances is a major step in combating global opioid trafficking and represents a major achievement in United States-China law enforcement dialogues. However, that step will effectively fulfill the commitment that President Xi Jinping of the People’s Republic of China made to President Donald Trump at the Group of Twenty meeting in December 2018 only if the Government of the People’s Republic of China devotes sufficient resources to full implementation and strict enforcement of the new regulations. The effective enforcement of the new regulations should result in diminished trafficking of illicit fentanyl originating from the People’s Republic of China into the United States.
(7) While the Department of the Treasury used the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1901 et seq.) to sanction the first synthetic opioid trafficking entity in April 2018, additional economic and financial sanctions policy tools are needed to help combat the flow of synthetic opioids into the United States.

SEC. 1703. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States should apply economic and other financial sanctions to foreign traffickers of illicit opioids to protect the national security, foreign policy, and economy of the United States and the health of the people of the United States;

(2) it is imperative that the People’s Republic of China follow through on full implementation of the new regulations, adopted May 1, 2019, to treat all fentanyl analogues as controlled substances under the laws of the People’s Republic of China, including by devoting sufficient resources for implementation and strict enforcement of the new regulations; and

(3) the effective enforcement of the new regulations should result in diminished trafficking of illicit fentanyl originating from the People’s Republic of China into the United States.

Funds are hereby authorized to be appropriated for fiscal years beginning after September 30, 2019, for the costs of acquisition, architectural and engineering services, and construction of facilities for the Guard and Reserve Forces, and for contributions therefor, under chapter 1803 of title 10, United States Code (including the cost of acquisition of land for those facilities), as specified in the funding table in section 4601.

SEC. 2607. REVIEW AND REPORT ON CONSTRUCTION OF NEW, OR MAINTENANCE OF EXISTING, DIRECT FUEL PIPELINE CONNECTIONS AT AIR NATIONAL GUARD AND AIR FORCE RESERVE INSTALLATIONS.

(a) Review Required.—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Air Force, in conjunction with the Defense Logistics Agency, shall complete a review considering—
(1) the need for, and benefits of, the construction of new, or maintenance of existing, direct fuel pipeline connections at Air National Guard and Air Force Reserve installations; and

(2) the barriers, including funding needs and any inconsistent guidance and consideration of such projects by the Air Force, that may impede such projects.

(b) ELEMENTS OF REVIEW.—The review required by subsection (a) shall include the following:

(1) An analysis of the extent that the Air Force and Defense Logistics Agency have identified direct fuel pipeline projects as an effective and efficient way to enhance the ability of regular component, Air National Guard, and Air Force Reserve installations, to improve the readiness of affected units and help them to meet their mission requirements, including an assessment of how the Air National Guard and Air Force Reserve facilities, across all States and territories, can leverage such connections to better support current and emerging air refueling requirements.

(2) An assessment of how direct fuel pipeline connections enhance the resiliency and efficiency of the installations and help meet existing Defense Lo-
logistics Agency requirements for secondary storage
and other fuel requirements.

(3) A list of Air National Guard and Air Force
Reserve installations that currently do not have a di-
rect connection pipeline but have access to such a
pipeline within reasonable proximity (less than five
miles) to the facility.

(4) An overview and summary of the current
process for considering such proposals, including the
factors used to consider requests, including the
weight provided to each factor and including a list
of Air National Guard and Air Force Reserve instal-
lations that have sought funding for projects to cre-
ate direct access to a national fuel pipeline or to
maintain access to such pipelines over the last five
years.

(5) A list of the total instances in the past five
years in which projects for direct fuel pipeline con-
nections have been approved for regular component,
Air National Guard, or Air Force Reserve install-
ations, including the costs of each project and the jus-
tification for such approval.

(6) A list of Air National Guard and Air Force
Reserve installations with current pipeline connec-
tions that the Air Force or Defense Logistics Agency
has determined should no longer be used, including—

(A) an analysis of the justifications for each such determination, such as decisions to switch from pipelines to using trucks as the primary fuel delivery method;

(B) an assessment of whether these determinations fairly weigh the costs and benefits of building or maintaining a pipeline tap as a practical primary or secondary fuel delivery method for the installation compared to railroad, barge terminal, or truck delivery; and

(C) an assessment of whether these determinations fairly consider or weigh how direct fuel pipeline connections increase security for the fuel supply by reducing the threat of interruption, enhance mission reliability by providing access to greater fuel storage capability, and the ability of such projects once completed to better support the domestic and global operations of the Air National Guard or Air Force Reserve installation.

(7) An assessment of how costs associated with each direct fuel pipeline connection project is considered by the Air Force or Defense Logistics Agency
and the weight given to such costs in the final analysis.

(8) An assessment of the effectiveness or usefulness of guidance or technical assistance provided to installations requesting or proposing direct fuel pipeline connection projects and recommend ways to provide additional assistance to ensure the Air Force and Defense Logistics Agency receive the most up to date information about the costs and benefits of proposed projects from installations.

(9) An assessment of the available funding sources though the Air Force, Defense Logistics Agency, other Department of Defense entities, or other mechanisms, such as a public-private partnership or enhanced use lease, that can support direct fuel pipeline connection projects either in whole or in part.

(10) An assessment of the extent to which direct fuel pipeline connection projects have been incorporated in any comprehensive plan the Air Force has developed or will develop regarding investments needed to improve Air National Guard, Air Force Reserve, and regular component installations to meet the Department’s needs.
(c) Final Report.—Not later than one year after the date of the enactment of this Act, the Secretary of the Air Force shall provide a final report to the Committees on Armed Services of the Senate and the House of Representatives containing the results of the review required by subsection (a) and recommendations from the review on how the Air Force can better expedite and support the use of fuel pipelines at Air National Guard and Air Force Reserve installations. Such recommendations shall include options for accelerating the development and consideration of such projects where most feasible and appropriate, including whether costs savings could be obtained by including such projects as part of other related projects already authorized at an installation.

“(A) the Secretary shall notify the Contractor and provide a reasonable opportunity for it to comply with the Operating Agreement;

“(B) the Secretary shall terminate the Operating Agreement if the Contractor fails to achieve such compliance; and

“(C) upon such termination, any funds obligated by the Agreement shall be available to the Secretary to carry out this chapter.

“(2) Early termination by a Contractor.—An Operating Agreement under this chapter shall terminate on a date specified by the Contractor if the Contractor notifies the Secretary, not fewer than 60 days prior to the effective date of the termination, that the Contractor intends to terminate the Agreement.

“(d) Nonrenewal for lack of funds.—If, by the first day of a fiscal year, sufficient funds have not been
appropriated under the authority provided by this chapter for that fiscal year for all Operating Agreements, then the Secretary shall notify the Committee on Armed Services and the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Armed Services of the House of Representatives that Operating Agreements authorized under this chapter for which sufficient funds are not available will not be renewed for that fiscal year if sufficient funds are not appropriated by the 60th day of that fiscal year. If only partial funding is appropriated by the 60th day of such fiscal year, then the Secretary, in consultation with the Operating Agency, shall select the vessels to retain under Operating Agreements, based on their determinations of which vessels are most useful for national security. In the event that no funds are appropriated, then no Operating Agreements shall be renewed and each Contractor shall be released from its obligations under the Operating Agreement. Final payments under an Operating Agreement that is not renewed shall be made in accordance with section 53206. To the extent that sufficient funds are appropriated in a subsequent fiscal year, an Operating Agreement that has not been renewed pursuant to this subsection may be reinstated if mutually acceptable to the Secretary, in consultation with the Operating Agency, and the Contractor, pro-
vided the vessel remains eligible for participation pursuant to section 53202, without regard to subsection 53202 (b)(3).

“(e) Release of Vessels From Obligations.— If funds are not appropriated for payments under an Operating Agreement under this chapter for any fiscal year by the 60th day of a fiscal year, and the Secretary, in consultation with the Operating Agency determines to not renew a Contractor’s Operating Agreement for a vessel, then—

“(1) each vessel covered by the Operating Agreement that is not renewed is thereby released from any further obligation under the Operating Agreement;

“(2) the owner or operator of the vessel whose Operating Agreement was not renewed may transfer and register such vessel under a foreign registry that is acceptable to the Secretary and the Operating Agency, notwithstanding section 56101 of this title; and

“(3) if chapter 563 of this title is applicable to such vessel after registration, then the vessel is available to be requisitioned by the Secretary pursuant to chapter 563.
§ 53205. Obligations and rights under operating agreements

(a) Operation of vessel.—An Operating Agreement under this chapter shall require that, during the period the vessel is operating under the Agreement, the vessel—

(1) shall be operated in the trade for Cable Services, or under a charter to the United States; and

(2) shall be documented under chapter 121 of this title.

(b) Annual payments by the Secretary.—

(1) In general.—An Operating Agreement under this chapter shall require, subject to the availability of appropriations, that the Secretary make payment to the Contractor in accordance with section 53206.

(2) Operating agreement is an obligation of the United States government.—An Operating Agreement under this chapter constitutes a contractual obligation of the United States Government to pay the amounts provided for in the Operating Agreement to the extent of actual appropriations.

(c) Documentation requirement.—Each vessel covered by an Operating Agreement (including an Agree-
ment terminated under section 53204(e)(2)) shall remain documented under chapter 121 of this title, until the date the Operating Agreement would terminate according to its own terms.

“(d) NATIONAL SECURITY REQUIREMENTS.—

“(1) IN GENERAL.—A Contractor with respect to an Operating Agreement (including an Agreement terminated under section 53204(e)(2)) shall continue to be bound by the provisions of section 53207 until the date the Operating Agreement would terminate according to its terms.

“(2) CONTINGENCY AGREEMENT WITH OPERATING AGENCY.—All terms and conditions of a Contingency Agreement entered into under section 53207 shall remain in effect until a date the Operating Agreement would terminate according to its terms, except that the terms of such Contingency Agreement may be modified by the mutual consent of the Contractor, and the Operating Agency.

“(e) TRANSFER OF OPERATING AGREEMENTS.—Operating Agreements shall not be transferrable by the Contractor.

“(f) REPLACEMENT VESSEL.—A Contractor may replace a vessel under an Operating Agreement with another vessel that is eligible to be included in the Fleet under
section 53202(b), if the Secretary and the Operating Agency jointly determine that the replacement vessel meets national security requirements and approve the replacement.

“§ 53206. Payments

“(a) Annual Payment.—

“(1) In general.—The Secretary, subject to availability of appropriations and other provisions of this section, shall pay to the Contractor for an operating agreement, for each vessel that is covered by the operating agreement, an amount equal to $5,000,000 for each fiscal year 2021 through 2035.

“(2) Timing.—This amount shall be paid in equal monthly installments at the end of each month. The amount shall not be reduced except as provided by this section.

“(b) Certification Required for Payment.—As a condition of receiving payment under this section for a fiscal year for a vessel, the Contractor for the vessel shall certify that the vessel has been and will be operated in accordance with section 53205(a)(1) for 365 days in each fiscal year. Up to thirty (30) days during which the vessel is drydocked, surveyed, inspected, or repaired shall be considered days of operation for purposes of this subsection.
“(c) GENERAL LIMITATIONS.—The Secretary shall not make any payment under this chapter for a vessel with respect to any days for which the vessel is—

“(1) not operated or maintained in accordance with an Operating Agreement under this chapter; or

“(2) more than 40 years of age.

“(d) REDUCTIONS IN PAYMENTS.—With respect to payments under this chapter for a vessel covered by an Operating Agreement, the Secretary shall make a pro rata reduction for each day less than 365 in a fiscal year that the vessel is not operated in accordance with section 53205(a)(1), with days during which the vessel is drydocked or undergoing survey, inspection or repair to be considered days on which the vessel is operated as provided in subsection (b).

“§ 53207. National security requirements

“(a) CONTINGENCY AGREEMENT REQUIRED.—The Secretary shall include in each Operating Agreement under this chapter a requirement that the Contractor enter into a Contingency Agreement with the Operating Agency. The Operating Agency shall negotiate and enter into a Contingency Agreement with each Contractor as promptly as practicable after the Contractor has entered into an Operating Agreement under this chapter.

“(b) TERMS OF CONTINGENCY AGREEMENT.—
“(1) IN GENERAL.—A Contingency Agreement under this section shall require that a Contractor for a vessel covered by an Operating Agreement under this chapter make the vessel, including all necessary resources to engage in Cable Services required by the Operating Agency, available upon request by the Operating Agency.

“(2) TERMS.—

“(A) IN GENERAL.—The basic terms of a Contingency Agreement shall be established (subject to subparagraph (B)) by the Operating Agency.

“(B) ADDITIONAL TERMS.—The Operating Agency and a Contractor may agree to additional or modifying terms appropriate to the Contractor’s circumstances.

“(c) DEFENSE MEASURES AGAINST UNAUTHORIZED SEIZURES.—

“(1) The Contingency Agreement shall require that any vessel operating under the direction of the Operating Agency operating in area that is designated by the Coast Guard as an area of high risk of piracy shall be equipped with, at a minimum, appropriate non-lethal defense measures to protect the vessel and crew from unauthorized seizure at sea.
“(2) The Secretary of Defense and the Secretary of the department in which the Coast Guard is operating shall jointly prescribe the non-lethal defense measures that are required under this paragraph.

“(d) Participation After Expiration of Operating Agreement.—Except as provided by section 53205(d), the Operating Agency may not require, through a Contingency Agreement or an Operating Agreement, that a Contractor continue to participate in a Contingency Agreement after the Operating Agreement with the Contractor has expired according to its terms or is otherwise no longer in effect.

“(e) Resources Made Available.—The resources to be made available in addition to the vessel under a Contingency Agreement shall include all equipment, personnel, supplies, management services, and other related services as the Operating Agency may determine to be necessary to provide the Cable Services required by the Operating Agency.

“(f) Compensation.—

“(1) In general.—The Operating Agency shall include in each Contingency Agreement provisions under which the Operating Agency shall pay fair and reasonable compensation for use of the ves-
sel and all Cable Services provided pursuant to this section and the Contingency Agreement.

“(2) Specific Requirements.—Compensation under this subsection—

“(A) shall be at the rate specified in the Contingency Agreement;

“(B) shall be provided from the time that a vessel is required by the Operating Agency under the Contingency Agreement until the time it is made available by the Operating Agency available to reenter commercial service; and

“(C) shall be in addition to and shall not in any way reflect amounts payable under section 53206.

“(g) Liability of the United States for Damages.—

“(1) Limitation on the Liability of the U.S.—Except as otherwise provided by law, the Government shall not be liable for disruption of a Contractor’s commercial business or other consequential damages to a Contractor arising from the activation of the Contingency Agreement.

“(2) Affirmative Defense.—In any action in any Federal or State court for breach of third-party
contract, there shall be available as an affirmative
defense that the alleged breach of contract was
caused predominantly by action taken to carry out
a Contingent Agreement. Such defense shall not re-
lease the party asserting it from any obligation
under applicable law to mitigate damages to the
greatest extent possible.

§ 53208. Regulatory relief

“(a) Applicability of Coastwise Laws.—A vessel
covered by an Operating Agreement that is operating pur-
suant to a Contingency Agreement, shall not be subject
to the coastwise laws (46 U.S.C. 55101 et seq.).

“(b) Telecommunications Equipment.—The tele-
communications and other electronic equipment on an ex-
isting vessel that is redocumented under the laws of the
United States for operation under an Operating Agree-
ment under this chapter shall be deemed to satisfy all Fed-
eral Communication Commission equipment certification
requirements, if—

“(1) such equipment complies with all applica-
ble international agreements and associated guide-
lines as determined by the country in which the ves-
sel was documented immediately before becoming
documented under the laws of the United States;
“(2) that country has not been identified by the Secretary of the Department in which the Coast Guard is operating as inadequately enforcing international regulations as to that vessel; and

“(3) at the end of its useful life, such equipment shall be replaced with equipment that meets Federal Communication Commission equipment certification standards.

“§ 53209. Authorization of appropriations

“There are authorized to be appropriated for payments under section 53206, $10,000,000 for each of the fiscal years 2021 through 2035.”.

(b) CONFORMING AMENDMENT.—The table of chapters at the beginning of subtitle V of title 46, United States Code, is amended by inserting before the item relating to chapter 533 the following new item:

“532. Cable Security Fleet ..................................................53201”. 
DIVISION D—FUNDING TABLES

SEC. 4001. AUTHORIZATION OF AMOUNTS IN FUNDING TABLES.

(a) In General.—Whenever a funding table in this division specifies a dollar amount authorized for a project, program, or activity, the obligation and expenditure of the specified dollar amount for the project, program, or activity is hereby authorized, subject to the availability of appropriations.

(b) Merit-based Decisions.—A decision to commit, obligate, or expend funds with or to a specific entity on the basis of a dollar amount authorized pursuant to subsection (a) shall—

(1) be based on merit-based selection procedures in accordance with the requirements of sections 2304(k) and 2374 of title 10, United States Code, or on competitive procedures; and

(2) comply with other applicable provisions of law.

(e) Relationship to Transfer and Programming Authority.—An amount specified in the funding tables in this division may be transferred or reprogrammed under a transfer or reprogramming authority provided by another provision of this Act or by other law.

The transfer or reprogramming of an amount specified in
such funding tables shall not count against a ceiling on such transfers or reprogrammings under section 1001 or section 1512 of this Act or any other provision of law, unless such transfer or reprogramming would move funds between appropriation accounts.

(d) Applicability to Classified Annex.—This section applies to any classified annex that accompanies this Act.

(e) Oral and Written Communications.—No oral or written communication concerning any amount specified in the funding tables in this division shall supersede the requirements of this section.
