19 ability Office (GAO–18–307) found that the Federal
20 Government could play an important role in helping
21 realize the full innovation and market potential of
22 sustainable chemistry technologies, including
23 through a coordinated national effort on sustainable
24 chemistry and standardized tools and definitions to

20 ing, or otherwise at risk under such Act. To the maximum
21 extent practicable, the regulatory standards and criteria
22 shall maximize available credits and opportunities for miti-

7 **SEC. 326. OFFSHORE WIND ENERGY DEVELOPMENT,**
8 **MORRO BAY, CALIFORNIA.**

9 (a) FINDINGS.—Congress makes the following find-
10 ings:

11 (1) Since 2016, the Department of Defense and
12 Department of the Navy have been working with
13 State and Federal stakeholders to determine wheth-
14 er a commercial lease for the development of renew-
15 able energy off the coast of Morro Bay, California
16 could be developed in a manner that is compatible
17 with the training and readiness requirements of the
18 Department of Defense.

19 (2) Military readiness and the ability to conduct
20 realistic training are critical to our national security;
21 however, energy security and other ocean uses are
22 also important. These interests should be balanced
23 to the extent practicable when analyzing offshore en-
24 ergy proposals.

1 (3) In August 2019, Members of Congress, the
2 Assistant Secretary of Defense for Sustainment, sen-
3 ior officials from other Federal agencies, and state
4 and local elected representatives met to discuss a
5 path forward to accommodate wind energy develop-
6 ment off the Central Coast of California while ensur-
7 ing the Department of Defense was able to continue
8 meeting its testing, training, and operational re-
9 quirements.

10 (4) Following the initial meeting in August
11 2019, the stakeholder group continued meeting at
12 roughly monthly intervals through 2019 and into
13 2020 to discuss options and work towards a mutu-
14 ally agreeable solution for renewable energy develop-
15 ment and continued military testing, training, and
16 operational requirements off the Central Coast of
17 California.

18 (5) In May 2020, the Assistant Secretary of the
19 Navy for Energy, Installations, and Environment
20 notified stakeholders that despite the previous year
21 of negotiations, it was his view any wind energy de-
22 velopments off the Central Coast of California may
23 not be viewed as being compatible with military ac-
24 tivities. This unilateral decision was made abruptly,
25 without providing any supporting analysis or ac-

1 knowledge of the progress and commitments
2 made during previous negotiations, and was not in
3 the spirit of cooperation and collaboration that had
4 driven the previous 9 months of stakeholder engage-
5 ments.

6 (6) Stakeholder confidence in the Department
7 of Defense review process is paramount. Abrupt and
8 unilateral changes of course erode confidence and
9 undermine the State, local, and industry trust in a
10 fair, transparent, and predictable adjudication of po-
11 tential conflicts.

12 (7) In early 2019, in order to create continuity
13 between the offshore and terrestrial processes, the
14 Department of Defense consolidated its review of
15 proposed energy development projects so that off-
16 shore energy proposals were now included in the
17 Military Aviation and Installation Assurance Clear-
18 inghouse (the Clearinghouse). The Clearinghouse
19 has a proven record for reviewing proposed energy
20 development projects through a fair and transparent
21 process. The Morro Bay proposal pre-dates this con-
22 solidation but underwent a similar Department of
23 Defense led compatibility review.

24 (8) Congress has generally supported the trans-
25 parent and fair Clearinghouse review process, as well

1 as all efforts between the Department of Defense
2 and other stakeholders to reach solutions that allow
3 for the development of energy projects in a manner
4 that is compatible with military testing, training,
5 and operational requirements.

6 (9) Legislating a solution to a specific energy
7 development proposal should only be reserved for
8 rare occasions. Due to Navy's abrupt and unilateral
9 decision to walk away from productive negotiations,
10 after months of good-faith efforts by other stake-
11 holders and public engagement, the threshold for
12 congressional intervention has been reached.

13 (b) RESPONSIBILITY.—All interaction on behalf of
14 the Department of the Navy with the California Energy
15 Commission, Federal agencies, State and local govern-
16 ments, and potential energy developers regarding proposed
17 offshore wind energy off the central coast of California
18 shall be performed through the Office of the Under Sec-
19 retary of Defense for Acquisition and Sustainment.

22 the date of the enactment of this Act, the Secretary
23 of Defense shall provide to the Committees on
24 Armed Services and the Committee on Natural Re-
25 sources of the House of Representatives a briefing

1 on status of the review by the Offshore Energy
2 Working Group of the request to locate at least two
3 offshore wind lease areas proximate to and within
4 the Morro Bay Call Area. Such briefing shall in-
5 clude—

6 (A) a detailed map that shows any areas
7 identified;

8 (B) proposed mitigations that would enable
9 compatible development in the areas identified;

10 (C) any unresolved issues; and

11 (D) any other terms of the agreement
12 reached with the California Energy Commis-
13 sion, other Federal agencies, State and local
14 governments, and potential energy developers.

15 (2) LIMITATION.—The Secretary of Defense
16 may not issue a final offshore wind assessment that
17 proposes wind exclusion areas and may not object to
18 an offshore energy project in the Central Coast of
19 California that has filed for review by the Military
20 Aviation and Installation Assurance Clearinghouse
21 until the Secretary provides the briefing required
22 under paragraph (1).

23 (d) LIMITATION ON USE OF FUNDS.—Of the
24 amounts authorized to be appropriated by this Act or oth-
25 erwise made available for the Department of Defense for

1 fiscal year 2021, not more than 75 percent may be obli-
2 gated or expended for the Office of the Assistant Secretary
3 of the Navy for Energy, Installations, and Environment
4 until the date that is 30 days after the date on which the
5 briefing required under subsection (c)(1) is provided.

14 out under conditions that represent a vari-
15 ety of environments with different physical
16 conditions and market constraints; and

17 (ii) ensure an appropriate balance
18 of—

19 (I) larger, operationally-scaled

4 used; and

7 COVID–19 pandemic and associated challenges with
8 investments in domestic sources.

9 **SEC. 828. SENSE OF CONGRESS ON THE PROHIBITION ON**
10 **CERTAIN TELECOMMUNICATIONS AND VIDEO**
11 **SURVEILLANCE SERVICES OR EQUIPMENT.**

12 (a) FINDINGS.—Congress finds the following:

13 (1) Prohibiting the use of telecommunications
14 and video surveillance products or services from cer-
15 tain Chinese entities within the Federal Govern-
16 ment’s supply chain is essential to our national secu-
17 rity.

18 (2) Section 889 of the John S. McCain Na-
19 tional Defense Authorization Act for Fiscal Year
20 2019 (Public Law 115–232; 132 Stat. 1917; 41
21 U.S.C. note prec. 3901) restricts Federal agencies
22 from procuring, contracting with entities that use, or
23 funding the purchase of certain telecommunications
24 products of Chinese companies determined by Con-

gress to pose a substantial threat to the security of our communication infrastructure.

(3) Specifically, section 889(a)(1)(B) of such Act, effective August 13, 2020, will prohibit Federal agencies from entering into, extending, or renewing a contract with an entity that uses covered telecommunications and video surveillance equipment or services from designated Chinese companies, including Huawei and ZTE, in their supply chains.

(4) As of July 1, 2020, the Federal Acquisition Regulatory Council has yet to release a draft rule for public comment on the implementation of the prohibitions described in section 889(a)(1)(B) of such Act, leaving Federal agencies and contractors that provide equipment and services to the Federal Government without implementation guidance necessary to adequately plan for or comply with the prohibitions.

(5) Belated, and then hurried, implementation of this critical prohibition puts at risk the Federal Government's ability to acquire essential goods and services and increases vulnerability in the supply chain through inconsistent implementation.

(6) A senior Department of Defense leader testified on June 10, 2020, that, "I am very concerned

1 about being able to implement [the prohibition] in
2 August, as well as totally comply within two years
3 * * * I believe we need more time”.

4 (7) Subsequent to the enactment of the John S.
5 McCain National Defense Authorization Act for Fis-
6 cal Year 2019 (Public Law 115–232), Congress es-
7 tablished the Federal Acquisition Security Council
8 (FASC)—comprised of senior officials from the Of-
9 fice of Management and Budget, General Services
10 Administration, Department of Defense, Department
11 of Homeland Security and the intelligence commu-
12 nity—to streamline the Federal Government’s sup-
13 ply chain risk management efforts and develop cri-
14 teria and processes for supply chain information
15 sharing among executive agencies.

16 (b) SENSE OF CONGRESS.—It is the sense of Con-
17 gress that—

18 (1) successful implementation of the prohibition
19 on using or procuring certain telecommunications
20 and video surveillance equipment under section 889
21 of the John S. McCain National Defense Authoriza-
22 tion Act for Fiscal Year 2019 (Public Law 115–232;
23 132 Stat. 1917; 41 U.S.C. note prec. 3901) is crit-
24 ical to protecting the supply chain of the Federal
25 Government, and Federal agencies should draw upon

1 the expert resources available (such as the Federal
2 Acquisition Security Council established under sub-
3 chapter III of chapter 13 of title 41, United States
4 Code) to ensure implementation of such prohibition
5 is done in a comprehensive and deliberative manner;
6 and

7 (2) the Federal Acquisition Regulatory Council
8 shall ensure successful implementation of such pro-
9 hibition by providing sufficient time for public com-
10 ment and review of any related rulemaking.

17 gress that, consistent with any determinations made pur-
18 suant to section 101 of the Defense Production Act of
19 1950 (50 U.S.C. 4511), the refining of aluminum and the
20 development of processing and manufacturing capabilities

19 **SEC. 1242. SENSE OF CONGRESS REAFFIRMING THE COM-**
 20 **MITMENT OF THE UNITED STATES TO NATO.**

21 (a) FINDINGS.—Congress finds the following:

22 (1) On April 4, 1949, the North Atlantic Trea-
 23 ty Organization (NATO) was founded on the prin-
 24 ciples of democracy, individual liberty, and the rule

1 of law with the aim of promoting collective security
2 through collective defense.

3 (2) NATO has been the most successful mili-
4 tary alliance in history and, for over seven decades,
5 an example of successful political cooperation.

6 (3) NATO's commitment to collective defense is
7 essential to deter security threat against its mem-
8 bers.

9 (4) NATO strengthens the security of the
10 United States by enabling United States forces to
11 work by, with, and through a network of committed,
12 interoperable allies.

13 (5) NATO solidarity sends a clear collective
14 message to Russia that members of the alliance will
15 not tolerate aggressive acts that threaten their secu-
16 rity and sovereignty.

17 (6) In response to changing national security
18 threats, NATO continues to adapt to take on new
19 dynamics such as terrorism, hybrid warfare, the
20 spread of weapons of mass destruction, and cyber
21 attacks.

22 (b) SENSE OF CONGRESS.—It is the sense of Con-
23 gress that—

24 (1) the United States reaffirms its commitment
25 to the North Atlantic Treaty Organization as the

1 foundation of transatlantic security and defense , in-
2 cluding Article V of the North Atlantic Treaty; and

3 (2) NATO plays a critical role in preserving
4 peace and stability in the transatlantic region.

5 **SEC. 1243. SENSE OF CONGRESS ON SUPPORT FOR COORDI-**
6 **NATED ACTION TO ENSURE THE SECURITY**
7 **OF BALTIC ALLIES.**

8 It is the sense of Congress that—

9 (1) the continued security of the Baltic states
10 of Estonia, Latvia, and Lithuania is critical to
11 achieving United States national security interests
12 and defense objectives against the acute and formi-
13 dable threat posed by Russia;

14 (2) the United States and the Baltic states are
15 leaders in the mission of defending independence
16 and democracy from aggression and in promoting
17 stability and security within the North Atlantic
18 Treaty Organization (NATO), with non-NATO part-
19 ners, and with other international organizations such
20 as the European Union;

21 (3) the Baltic states are model NATO allies in
22 terms of burden sharing and capital investment in
23 materiel critical to United States and allied security,
24 investment of over 2 percent of their gross domestic
25 product on defense expenditure, allocating over 20

1 percent of their defense budgets on capital mod-
2 ernization, matching security assistance from the
3 United States, frequently deploying their forces
4 around the world in support of allied and United
5 States objectives, and sharing diplomatic, technical,
6 military, and analytical expertise on defense and se-
7 curity matters;

8 (4) the United States should continue to
9 strengthen bilateral and multilateral defense by,
10 with, and through allied nations, particularly those
11 which possess expertise and dexterity but do not
12 enjoy the benefits of national economies of scale;

13 (5) the United States should pursue consistent
14 efforts focused on defense and security assistance,
15 coordination, and planning designed to ensure the
16 continued security of the Baltic states and on deter-
17 ring current and future challenges to the national
18 sovereignty of United States allies and partners in
19 the Baltic region; and

20 (6) such an initiative should include an innova-
21 tive and comprehensive conflict deterrence strategy
22 for the Baltic region encompassing the unique geog-
23 raphy of the Baltic states, modern and diffuse
24 threats to their land, sea, and air spaces, and nec-
25 essary improvements to their defense posture, in-

1 including command-and-control infrastructure, intel-
2 ligence, surveillance, and reconnaissance capabilities,
3 communications equipment and networks, and spe-
4 cial forces.

5 **SEC. 1244. SENSE OF CONGRESS ON SUPPORT FOR ESTO-**
6 **NIA, LATVIA, AND LITHUANIA.**

7 (a) FINDINGS.—Congress finds the following:

8 (1) The Baltic countries of Estonia, Latvia, and
9 Lithuania are highly valued allies of the United
10 States, and they have repeatedly demonstrated their
11 commitment to advancing our mutual interests as
12 well as those of the NATO Alliance.

13 (2) Operation Atlantic Resolve is a series of ex-
14 ercises and coordinating efforts demonstrating the
15 United States' commitment to its European partners
16 and allies, including the Baltic countries of Estonia,
17 Latvia, and Lithuania, with the shared goal of peace
18 and stability in the region. Operation Atlantic Re-
19 solve strengthens communication and understanding,
20 and is an important effort to deter Russian aggres-
21 sion in the region.

22 (3) Through Operation Atlantic Resolve, the
23 European Deterrence Initiative undertakes exercises,
24 training, and rotational presence necessary to reas-

1 sure and integrate our allies, including the Baltic
2 countries, into a common defense framework.

3 (4) All three Baltic countries contributed to the
4 NATO-led International Security Assistance Force
5 in Afghanistan, sending troops and operating with
6 few caveats. The Baltic countries continue to commit
7 resources and troops to the Resolute Support Mis-
8 sion in Afghanistan.

9 (b) SENSE OF CONGRESS.—Congress—

10 (1) reaffirms its support for the principle of col-
11 lective defense in Article 5 of the North Atlantic
12 Treaty for our NATO allies, including Estonia, Lat-
13 via, and Lithuania;

14 (2) supports the sovereignty, independence, ter-
15 ritorial integrity, and inviolability of Estonia, Latvia,
16 and Lithuania as well as their internationally recog-
17 nized borders, and expresses concerns over increas-
18 ingly aggressive military maneuvering by the Rus-
19 sian Federation near their borders and airspace;

20 (3) expresses concern over and condemns sub-
21 versive and destabilizing activities by the Russian
22 Federation within the Baltic countries; and

23 (4) encourages the Administration to further
24 enhance defense cooperation efforts with Estonia,
25 Latvia, and Lithuania and supports the efforts of

1 their Governments to provide for the defense of their
2 people and sovereign territory.

3 **SEC. 1245. SENSE OF CONGRESS ON SUPPORT FOR GEOR-**
4 **GIA.**

5 (a) FINDINGS.—Congress finds the following:

6 (1) Georgia is a valued friend of the United
7 States and has repeatedly demonstrated its commit-
8 ment to advancing the mutual interests of both
9 countries, including the deployment of Georgian
10 forces as part of the former International Security
11 Assistance Force (ISAF) and the current Resolute
12 Support Mission led by the North Atlantic Treaty
13 Organization (NATO) in Afghanistan and the Multi-
14 National Force in Iraq.

15 (2) The European Deterrence Initiative builds
16 the partnership capacity of Georgia so it can work
17 more closely with the United States and NATO, as
18 well as provide for its own defense.

19 (3) In addition to the European Deterrence Ini-
20 tiative, Georgia's participation in the NATO initia-
21 tive Partnership for Peace is paramount to inter-
22 operability with the United States and NATO, and
23 establishing a more peaceful environment in the re-
24 gion.

1 (4) Despite the losses suffered, as a NATO
2 partner, Georgia is committed to the Resolute Sup-
3 port Mission in Afghanistan with the fifth-largest
4 contingent on the ground.

5 (b) SENSE OF CONGRESS.—It is the sense of Con-
6 gress that the United States should—

7 (1) reaffirm support for an enduring strategic
8 partnership between the United States and Georgia;

9 (2) support Georgia’s sovereignty and territorial
10 integrity within its internationally-recognized bor-
11 ders, and does not recognize the independence of the
12 Abkhazia and South Ossetia regions currently occu-
13 pied by the Russian Federation;

14 (3) continue support for multi-domain security
15 assistance for Georgia in the form of lethal and non-
16 lethal measures to build resiliency, bolster deterrence
17 against Russian aggression, and promote stability in
18 the region, by—

19 (A) strengthening defensive capabilities
20 and promote readiness; and

21 (B) improving interoperability with NATO
22 forces; and

23 (4) further enhance security cooperation and
24 engagement with Georgia and other Black Sea re-
25 gional partners.

1 **SEC. 1246. SENSE OF CONGRESS ON BURDEN SHARING BY**
2 **PARTNERS AND ALLIES.**

3 (a) FINDINGS.—Congress makes the following find-
4 ings:

5 (1) The United States' alliances and other crit-
6 ical defense partnerships are a cornerstone of De-
7 partment of Defense (DOD) efforts to deter aggres-
8 sion from our adversaries, counter violent extre-
9 mism, and preserve United States national security
10 interests in the face of challenges to those interests
11 by Russia, China and other actors.

12 (2) The North Atlantic Treaty Organization
13 (NATO) is the most successful military alliance in
14 history, having deterred war between major state
15 powers for more than 70 years.

16 (3) Collective security and the responsibility of
17 each member of the security of the other members
18 as well as the alliance as a whole is a pillar of the
19 NATO alliance.

20 (4) NATO members other than the United
21 States collectively expend over \$300,000,000,000 in
22 defense investments annually and maintain military
23 forces totaling an estimated 1,900,000 service mem-
24 bers, bolstering the alliance's collective capacity to
25 counter shared threats.

1 (5) At the NATO Wales Summit in 2014,
2 NATO members pledged to strive to increase their
3 own defense spending to 2 percent of their respective
4 gross domestic products and to spend at least 20
5 percent of their defense budgets on equipment by
6 2024 as part of their burden sharing commitments.

7 (6) Since 2014, there has been a steady in-
8 crease in allied defense spending, with 22 member
9 countries meeting defense spending targets in 2018
10 and having submitted plans to meet the targets by
11 2024.

12 (7) In addition to individual defense spending
13 contributions, NATO allies and partners also con-
14 tribute to NATO and United States operations
15 around the world, including the Resolute Support
16 Mission in Afghanistan and the Global Coalition to
17 Defeat the Islamic State in Iraq and Syria (ISIS).

18 (8) South Korea hosts a baseline of 28,500
19 United States forces including the Eighth Army and
20 Seventh Air Force.

21 (9) South Korea maintains Aegis Ballistic Mis-
22 sile Defense and Patriot Batteries that contribute to
23 regional Ballistic Missile Defense, is a participant in
24 the Enforcement Coordination Center, and is a sig-

1 nificant contributor to United Nations peacekeeping
2 operations.

3 (10) South Korea is an active consumer of
4 United States Foreign Military Sales (FMS) with
5 approximately \$30,500,000,000 in active FMS cases
6 and makes significant financial contributions to sup-
7 port forward deployed United States forces in South
8 Korea, including contributions of \$924,000,000
9 under the Special Measures Agreement in 2019 and
10 over 90 percent of the cost of developing Camp
11 Humphreys.

12 (11) Japan hosts 54,000 United States forces
13 including the Seventh Fleet, the only forward-de-
14 ployed United States aircraft carrier, and the United
15 States Marine Corps' III Marine Expeditionary
16 Force.

17 (12) Japan maintains Aegis Ballistic Missile
18 Defense and Patriot Batteries that contribute to re-
19 gional Ballistic Missile Defense, conducts bilateral
20 presence operations and mutual asset protection
21 missions with United States forces, and is a capacity
22 building contributor to United Nations peacekeeping
23 operations.

24 (13) Japan is an active consumer of United
25 States FMS with approximately \$28,400,000,000 in

1 active FMS cases and makes significant financial
2 contributions to enable optimized United States mili-
3 tary posture, including contributions of approxi-
4 mately \$2,000,000,000 annually under the Special
5 Measures Agreement, \$187,000,000 annually under
6 the Japan Facilities Improvement Program,
7 \$12,100,000,000 for the Futenma Replacement Fa-
8 cility, \$4,800,000,000 for Marine Corps Air Station
9 Iwakuni, and \$3,100,000,000 for construction on
10 Guam to support the movement of United States
11 Marines from Okinawa.

12 (b) SENSE OF CONGRESS.—It is the sense of Con-
13 gress that—

14 (1) the United States Government should focus
15 on United States national security requirements for
16 investment in forward presence, joint exercises, in-
17 vestments, and commitments that contribute to the
18 security of the United States and collective security,
19 and cease efforts that solely focus on the financial
20 contributions of United States allies and partners
21 when negotiating joint security arrangements;

22 (2) the United States must continue to
23 strengthen its alliances and security partnerships
24 with like-minded democracies around the world to
25 deter aggression from authoritarian competitors and

1 promote peace and respect for democratic values and
2 human rights around the world;

3 (3) United States partners and allies should
4 continue to increase their military capacity and en-
5 hance their ability to contribute to global peace and
6 security;

7 (4) NATO allies should continue working to-
8 ward their 2014 Wales Defense Investment Pledge
9 commitments;

10 (5) the United States should work with the
11 Governments of South Korea and Japan respectively
12 to reach fair and equitable Special Measures Agree-
13 ments that reflect the critical security relationships
14 between both countries and the United States;

15 (6) the United States should maintain forward-
16 deployed United States forces in order to better en-
17 sure United States national security and global sta-
18 bility;

19 (7) alliances and partnerships are the corner-
20 stone of United States national security and critical
21 to countering the threat posed by malign actors to
22 the post-World War II liberal international order;
23 and

1 (8) the United States and NATO allies should
2 prioritize at each NATO Summit deterrence against
3 Russian aggression.

4 **SEC. 1247. SENSE OF CONGRESS ON NATO’S RESPONSE TO**
5 **THE COVID-19 PANDEMIC.**

6 (a) FINDINGS.—Congress finds the following:

7 (1) The North Atlantic Treaty Organization
8 (NATO) has been working with allies and partners
9 to provide support to the civilian response to the
10 Coronavirus Disease 2019 (commonly referred to as
11 “COVID-19”) pandemic, including logistics and
12 planning, field hospitals, and transport, while main-
13 taining NATO’s operational readiness and con-
14 tinuing to carry out critical NATO missions.

15 (2) Since the beginning of the pandemic, NATO
16 allies and partners have completed more than 350
17 airlift flights, supplying hundreds of tons of critical
18 supplies globally, have built nearly 100 field hos-
19 pitals and dedicated more than half a million troops
20 to support the civilian response to the pandemic.

21 (3) NATO’s Euro-Atlantic Disaster Response
22 Coordination Centre has been operating 24 hours, 7
23 days a week to coordinate requests for supplies and
24 resources.

1 (4) The NATO Support and Procurement
2 Agency's Strategic Airlift Capability and Strategic
3 Airlift International Solution programs have char-
4 tered flights to transport medical supplies between
5 partners and allies.

6 (5) NATO established Rapid Air Mobility to
7 speed up military air transport of medical supplies
8 and resources to allies and partners experiencing a
9 shortage of medical supplies and personal protective
10 equipment.

11 (6) In June 2020, NATO Defense Ministers
12 agreed to future steps to prepare for a potential sec-
13 ond wave of the COVID-19 pandemic, including a
14 new operation plan, establishing a stockpile of med-
15 ical equipment and supplies, and a new fund to ac-
16 quire medical supplies and services.

17 (b) SENSE OF CONGRESS.—It is the sense of Con-
18 gress that—

19 (1) NATO's response to the COVID-19 pan-
20 demic is an excellent example of the democratic alli-
21 ance's capacity tackling overwhelming logistical chal-
22 lenges through close collaboration;

23 (2) the United States should remain committed
24 to strengthening NATO's operational response to
25 the pandemic; and

1 (3) the United States should fulfill its commit-
2 ments made at the 2020 NATO Defense Ministerial
3 and continue to bolster the work of the Euro-Atlan-
4 tic Disaster Response Coordination Centre, the
5 NATO Support and Procurement Agency’s Strategic
6 Airlift Capability and Strategic Airlift International
7 Solution programs, and other efforts to utilize
8 NATO’s capabilities to support the civilian pandemic
9 response.

9 partner countries; and

10 (C) ensures a persistent, predictable

1 (4) consistent with the Taiwan Relations Act,
2 the United States should strongly support the acqui-
3 sition by Taiwan of defense articles and services
4 through foreign military sales, direct commercial
5 sales, and industrial cooperation, with an emphasis
6 on anti-ship, coastal defense, anti-armor, air defense,
7 defensive naval mining, and resilient command and
8 control capabilities that support the asymmetric de-
9 fense strategy of Taiwan;

10 (5) the President and Congress should deter-
11 mine the nature and quantity of such defense arti-

24 change the status quo with respect to Taiwan by
25 force;

1 (13) the increasingly coercive and aggressive
2 behavior of China towards Taiwan, including grow-

1 **SEC. 1260B. SENSE OF CONGRESS ON CROSS-BORDER VIO-**
2 **LENCE BETWEEN THE PEOPLE'S REPUBLIC**
3 **OF CHINA AND INDIA AND THE GROWING**
4 **TERRITORIAL CLAIMS OF CHINA.**

5 (a) FINDINGS.—Congress makes the following find-
6 ings:

7 (1) Since a truce in 1962 ended skirmishes be-
8 tween the People's Republic of China and India, the
9 countries have been divided by a 2,100-mile-long
10 Line of Actual Control.

11 (2) In the decades since the truce, military
12 standoffs between the People's Republic of China
13 and India have flared; however, the standoffs have
14 rarely claimed the lives of soldiers.

15 (3) In the months leading up to June, 15,
16 2020, along the Line of Actual Control, the People's
17 Republic of China's military—

18 (A) reportedly amassed 5,000 soldiers; and

19 (B) is trying to redraw long-standing set-
20 tled boundaries through the use of force and
21 aggression.

22 (4) On June 6, 2020, the People's Republic of
23 China and India reached an agreement of de-esca-
24 late and disengage along the Line of Actual Control.

25 (5) On June 15, 2020, at least 20 Indian sol-
26 diers and an unconfirmed number of Chinese sol-

1 diers were killed in skirmishes following a weekslong
2 standoff in Eastern Ladakh, which is the de facto
3 border between India and the People’s Republic of
4 China.

5 (b) SENSE OF CONGRESS.—It is the sense of Con-
6 gress that—

7 (1) there is significant concern about the con-
8 tinued military aggression by the Government of the
9 People’s Republic of China along its border with
10 India and in other parts of the world, including with
11 Bhutan, in the South China Sea, and with the
12 Senkaku Islands, as well as the Government of the
13 People’s Republic of China’s aggressive posture to-
14 ward Hong Kong and Taiwan; and

15 (2) the Government of the People’s Republic of
16 China should work toward de-escalating the situa-
17 tion along the Line of Actual Control with India
18 through existing diplomatic mechanisms and not
19 through force.

20 **SEC. 1260C. SENSE OF CONGRESS ON UNITED STATES COM-**
21 **MITMENTS TO PACIFIC ALLIES.**

22 It is the sense of Congress that—

23 (1) the United States affirms the strategic im-
24 portance of the United States commitments to allies
25 such as the Republic of Korea and Japan;

1 (2) the United States remains committed to the
2 mutually-beneficial relationships with the Republic of
3 Korea and Japan and welcomes the strong leader-
4 ship of those countries in the Indo-Pacific region;
5 and

6 (3) as the United States seeks to strengthen
7 longstanding military relationships and encourage
8 the development of a strong defense network with al-
9 lies and partners, the United States reaffirms the
10 United States commitments to maintaining the pres-
11 ence of the United States Armed Forces in the Re-
12 public of Korea and Japan.

9 **LENCE IN THE GALWAN VALLEY AND THE**
10 **GROWING TERRITORIAL CLAIMS OF THE**
11 **PEOPLE'S REPUBLIC OF CHINA.**

12 (a) FINDINGS.—Congress makes the following find-
13 ings:

14 (1) Since a truce in 1962 ended skirmishes be-
15 tween India and the People's Republic of China, the
16 countries have been divided by a 2,100-mile-long
17 Line of Actual Control.

18 (2) In the decades since the truce, military
19 standoffs between India and the People's Republic of
20 China have flared; however, the standoffs have rare-
21 ly claimed the lives of soldiers.

22 (3) In the months leading up to June, 15,
23 2020, along the Line of Actual Control, the People's
24 Republic of China—

25 (A) reportedly amassed 5,000 soldiers; and

1 (B) is believed to have crossed into pre-
2 viously disputed territory considered to be set-
3 tled as part of India under the 1962 truce.

4 (4) On June 6, 2020, the People’s Republic of
5 China and India reached an agreement to deescalate
6 and disengage along the Line of Actual Control.

7 (5) On June 15, 2020, at least 20 Indian sol-
8 diers and an unconfirmed number of Chinese sol-
9 diers were killed in skirmishes following a weeks-
10 long standoff in Eastern Ladakh, which is the de
11 facto border between India and the People’s Repub-
12 lic of China.

13 (6) Following the deadly violence, Prime Min-
14 ister Narendra Modi of India stated, “[w]henever
15 there have been differences of opinion, we have al-
16 ways tried to ensure that those differences never
17 turned into a dispute”.

18 (b) SENSE OF CONGRESS.—It is the sense of Con-
19 gress that—

20 (1) India and the People’s Republic of China
21 should work toward deescalating the situation along
22 the Line of Actual Control; and

23 (2) the expansion and aggression of the Peo-
24 ple’s Republic of China in and around disputed terri-
25 tories, such as the Line of Actual Control, the South

1 China Sea, the Senkaku Islands, is of significant
2 concern.

3 **SEC. 1283. ENHANCING ENGAGEMENT WITH THE CARIB-**
4 **BEAN.**

5 It is the sense of Congress that—

6 (1) the prosperity and security of the Caribbean
7 region is a matter of significant importance for the
8 United States, and promotion of such should be a
9 component of United States policy;

10 (2) the United States and the Caribbean region,
11 due to both geographic proximity and close societal
12 ties, are bound together by a variety of shared inter-
13 ests, including with respect to—

14 (A) enhancing mutual resiliency and pre-
15 paredness for natural disasters;

16 (B) coordinating humanitarian responses
17 to such disasters;

19 exchange, and other cooperative efforts between

22 and safeguarding territorial sovereignty, includ-
23 ing from risks related to predatory financing;

1 (E) strengthening the rule of law, sup-
2 porting civil society, and upholding human
3 rights;

4 (F) addressing other mutual challenges, in-
5 cluding hemispheric efforts to combat the
6 coronavirus pandemic; and

7 (G) countering drug trafficking;

8 (3) in furtherance of these and other shared in-
9 terests, the United States should strengthen its en-
10 gagement with the Caribbean region; and

11 (4) the Department of State's and the Depart-
12 ment of Defense's facilitation of such engagement is
13 essential, given the role of the various agencies of
14 the United States government in coordinating hu-
15 manitarian responses and United States national se-
16 curity.

**TITLE XIII—COOPERATIVE

5 2022, and 2023.

6 **SEC. 1302. SENSE OF CONGRESS REGARDING BIOLOGICAL**
7 **THREAT REDUCTION AND COOPERATIVE BIO-**
8 **LOGICAL ENGAGEMENT OF THE COOPERA-**
9 **TIVE THREAT REDUCTION PROGRAM.**

10 It is the sense of Congress that—

11 (1) keeping Americans safe means ensuring
12 that global health security is prioritized as a na-
13 tional security issue;

14 (2) as highlighted by the 2017 National Secu-
15 rity Strategy of the United States, biological threats,
16 whether “deliberate attack, accident, or a natural
17 outbreak”, are growing threats and “require actions
18 to address them at their source” through programs
19 carried out by cooperative engagement, such as
20 working “with partners to ensure that laboratories
21 that handle dangerous pathogens have in place safe-
22 ty and security measures”;

23 (3) the 2017 National Security Strategy of the
24 United States appropriately affirms the importance
25 of supporting advancements in biomedical innovation

1 while mitigating harm caused by advanced bio-
2 weapons and capabilities;

3 (4) the intrinsically linked nature of biological
4 threats, whether naturally occurring, accidental, or
5 deliberate, underscores the relationship between the
6 Global Health Security Strategy of the United
7 States and the National Biodefense Strategy, and
8 the national security tools used to prevent and miti-
9 gate these threats must be similarly connected;

10 (5) biological threats are a critical emerging
11 threat against the United States and addressing
12 these threats through cooperative programs is an op-
13 portunity to achieve long-standing nonproliferation
14 goals;

15 (6) cooperative programs to address biological
16 threats through improved global capacity in the
17 areas of biosafety, biosecurity, bio-surveillance, re-
18 search oversight, and related legislative and regu-
19 latory frameworks have become even more important
20 as the world faces increasing availability of and ad-
21 vancements in biotechnology, which has broad dual-
22 use and proliferation implications;

23 (7) under the Cooperative Threat Reduction
24 Program of the Department of Defense established
25 under the Department of Defense Cooperative

1 Threat Reduction Act (50 U.S.C. 3701 et seq.),
2 Congress authorized the Secretary of Defense to ad-
3 dress such threats through activities to prevent, de-
4 tect, and report on highly pathogenic diseases or
5 other diseases, “regardless of whether such diseases
6 are caused by biological weapons”;

7 (8) in 2014, President Obama declared the
8 Ebola virus disease epidemic a national security pri-
9 ority and exercised the authority under such Pro-
10 gram to build capacity that mitigated the imminent
11 threat posed by the Ebola virus disease and estab-
12 lished capabilities required to prevent future out-
13 breaks;

14 (9) many of the prevention, detection, and re-
15 sponse capacities built in response to the Ebola virus
16 disease epidemic are also those used to prevent, de-
17 tect, and respond to the use of biological weapons
18 abroad;

19 (10) continuing to use cooperative engagement
20 programs is in the national security interests of the
21 United States because of the important relationships
22 established between the United States and partner
23 countries, which are based on ideals such as trans-
24 parency, information sharing, and a shared responsi-
25 bility in advancing global security;

1 (11) the recent coronavirus disease 2019
2 (COVID–19) global pandemic has illustrated the
3 dire consequences resulting from a single disease
4 that knows no boundaries, impacting the United
5 States economy and the health of United States citi-
6 zens and members of the Armed Forces, both do-
7 mestically and abroad;

8 (12) in light of the impacts caused by COVID–
9 19, and following two congressionally mandated re-
10 ports that call for better implementation of the bio-
11 logical cooperative engagement programs of the
12 United States and the National Biodefense Strategy
13 (the report published by the Government Account-
14 ability Office on March 11, 2020, titled “National
15 Biodefense Strategy: Opportunities and Challenges
16 with Early Implementation” and the report pub-
17 lished by the National Academies of Sciences, Engi-
18 neering, and Medicine on April 14, 2020, titled “A
19 Strategic Vision for Biological Threat Reduction:
20 The U.S. Department of Defense and Beyond”), it
21 is of utmost importance that such programs are
22 given due and increased prioritization for national
23 security purposes; and

24 (13) the Secretary of Defense and the Secretary
25 of State should make every effort to prioritize and

1 advance the determination, concurrence, and notifi-
 2 cation processes under the Department of Defense
 3 Cooperative Threat Reduction Act (50 U.S.C. 3701
 4 et seq.) to provide for necessary new country deter-
 5 minations in a timely manner and be responsive to
 6 emerging biological threats.

8 engages in commercial terrestrial operations using the
9 1525–1559 megahertz band or the 1626.5–1660.5 mega-
10 hertz band unless the Secretary has certified to the con-
11 gressional defense committees that such operations do not
12 cause harmful interference to a Global Positioning System
13 device of the Department of Defense.

14 **SEC. 1609. PROHIBITION ON AVAILABILITY OF FUNDS FOR**
15 **CERTAIN PURPOSES RELATING TO THE**
16 **GLOBAL POSITIONING SYSTEM.**

17 (a) FINDINGS.—Congress finds the following:

18 (1) On April 19, 2020, the Federal Commu-
19 nications Commission issued an order and authoriza-
20 tion granting Ligado Networks LLC the authority to
21 operate a nationwide terrestrial communications net-
22 work using the 1526–1536 megahertz band, the
23 1627.5–1637.5 megahertz band, or the 1646.5–
24 1656.5 megahertz band.

25 (2) In an attempt to address interference to the
26 Global Positioning System operating near those

1 bands, Ligado Networks LLC has committed to as-
2 suming the costs mitigating any interference caused
3 by their network.

4 (3) In the approval order, the Federal Commu-
5 nications Commission directed that “Ligado takes
6 all necessary mitigation measures to prevent or re-
7 mediate any potential harmful interference to U.S.
8 Government devices, including devices used by the
9 military, that are identified both pre- and post-de-
10 ployment of Ligado’s network.”.

11 (4) In a letter to the Committee on Armed
12 Services of the House of Representatives dated May
13 21, 2020, Ligado Networks LLC reaffirmed the
14 commitment to bear the costs to the Department of
15 Defense, stating that the “FCC directed Ligado to
16 provide protections to GPS devices using its spec-
17 trum by imposing stringent coordination, coopera-
18 tion, and replacement obligations on Ligado, so that
19 Ligado bears the burden” and “Make no mistake:
20 the obligation is ours, and the burden falls solely on
21 our company.”.

22 (b) PROHIBITION.—Except as provided by subsection
23 (c), none of the funds authorized to be appropriated by
24 this Act or otherwise made available for fiscal year 2021
25 or any subsequent fiscal year for the Department of De-

1 fense may be obligated or expended to retrofit any Global
2 Positioning System device or system, or network that uses
3 the Global Positioning System, in order to mitigate inter-
4 ference from commercial terrestrial operations using the
5 1526–1536 megahertz band, the 1627.5–1637.5 mega-
6 hertz band, or the 1646.5–1656.5 megahertz band.

7 (c) ACTIONS NOT PROHIBITED.—The prohibition in
8 subsection (a) shall not apply to any action taken by the
9 Secretary of Defense relating to—

10 (1) conducting technical or information ex-
11 changes with the entity that operates the commercial
12 terrestrial operations in the megahertz bands speci-
13 fied in such subsection;

14 (2) seeking compensation for interference from
15 such entity; or

16 (3) Global Positioning System receiver upgrades
17 needed to address other resiliency requirements.

18 **SEC. 1610. REPORT ON RESILIENT PROTECTED COMMU-**
19 **NICATIONS SATELLITES.**

20 (a) FINDINGS.—Congress finds the following:

21 (1) The national command, control, and com-
22 munications system of the Department of Defense is
23 essential to the national security of the United
24 States.

1 (2) The Department of Defense requires the
2 space segments of such system to be resilient and
3 survivable to address advanced threats from Russia
4 and China.

5 (3) The next-generation overhead persistent in-
6 frared missile warning satellites are being upgraded
7 with enhanced resiliency features to make them

6 retary of Energy jointly.

7 “(2) The Council shall meet not less often than once

15 Section 179(g) of title 10, United States Code, is
16 amended to read as follows:

17 “(g) SEMIANNUAL UPDATES ON COUNCIL MEET-
18 INGS.—(1) Not later than February 1 and August 1 of
19 each year, the Council shall provide to the congressional

21 respect to the six-month period preceding the update—

22 “(A) the dates on which the Council met; and

23 “(B) except as provided by paragraph (2), a
24 summary of any decisions made by the Council pur-
25 suant to subsection (d) at each such meeting and

1 the rationale for and options that informed such de-
2 cisions.

3 “(2) The Council shall not be required to include in
4 a semiannual update under paragraph (1) the matters de-
5 scribed in subparagraph (B) of that paragraph with re-
6 spect to decisions of the Council relating to the budget
7 of the President for a fiscal year if the budget for that

5 **FORCE.**

6 Not later than 90 days after the date of the enact-
7 ment of this Act, the Secretary of the Air Force shall pro-
8 vide to the congressional defense committees a briefing on
9 the efforts by the Secretary to harden and modernize the
10 nuclear weapons storage and maintenance facilities of the
11 Air Force. The briefing shall include the plans of the Sec-
12 retary with respect to the following:

13 (1) Verifying that the Air Force is deploying
14 tested and field-proven physical security designs of
15 such facilities, including with respect to forced entry,
16 blast and ballistic resistant barrier systems, that in-
17 corporate multiple reactive countermeasures for pro-
18 tection against the dedicated adversary threat classi-
19 fication level.

20 (2) Streamlining the procurement of the infra-

2 used in awarding a contract for the physical security
3 design of such facilities that include a fair consider-
4 ation of such designs that are successfully used at
5 other similar facilities.

6 (4) Ensuring that the physical security design
7 for which such contract is awarded—

8 (A) meets the security requirements of all
9 planned modernization projects for the nuclear
10 weapons storage and maintenance facilities of
11 the Air Force; and

12 (B) do not result in higher and additional
13 costs to shore up existing infrastructure at such
14 facilities.

1 fense Authorization Act for Fiscal Year 2016 (Public Law
2 114–92; 129 Stat. 1144), is amended—

3 (1) in paragraph (1), by striking “through
4 2020” and inserting “through 2025”; and

5 (2) in paragraph (2)—

6 (A) by striking “through 2021” and insert-

8 (B) by adding at the end the following new
9 sentence: “In carrying out this subsection, the

20 Section 1676(b)(1) of the National Defense Author-
21 ization Act for Fiscal Year 2018 (Public Law 115–91; 10
22 U.S.C. 2431 note) is amended by striking “2021” and in-
23 serting “2023”.

1 **SEC. 1653. DEVELOPMENT OF HYPERSONIC AND BALLISTIC**
2 **MISSILE TRACKING SPACE SENSOR PAYLOAD.**

3 (a) FINDINGS; SENSE OF CONGRESS.—

4 (1) FINDINGS.—Congress finds the following:

5 (A) Subsection (d) of section 1683 of the
6 National Defense Authorization Act for Fiscal
7 Year 2018 (Public Law 115–91; 10 U.S.C.
8 2431 note), as amended by section 1683 of the
9 National Defense Authorization Act for Fiscal
10 Year 2020 (Public Law 116–92), requires the
11 Director of the Missile Defense Agency to de-
12 velop a hypersonic and ballistic tracking space
13 sensor payload to address missile defense track-
14 ing requirements.

15 (B) The budget of the President for fiscal
16 year 2021 submitted under section 1105 of title
17 31, United States Code, did not provide any
18 funding for the Missile Defense Agency to con-
19 tinue the development of such sensor payload.

20 (2) SENSE OF CONGRESS.—It is the sense of
21 Congress that—

22 (A) regardless of the overall architecture
23 for a missile defense tracking space layer, the
24 Director of the Missile Defense Agency should
25 remain the material developer for the

1 hypersonic and ballistic tracking space sensor
2 payload to ensure that—

3 (i) unique hypersonic and ballistic
4 missile tracking requirements are met; and

5 (ii) the system can be integrated into
6 the existing missile defense system com-
7 mand and control, battle management, and
8 communications system; and

9 (B) the Secretary of Defense should ensure
10 transparency of funding for this effort to en-
11 sure proper oversight can be conducted on this
12 critical capability.

13 (b) LIMITATION.—Subsection (d) of section 1683 of
14 the National Defense Authorization Act for Fiscal Year
15 2018 (Public Law 115–91; 10 U.S.C. 2431 note), as
16 amended by section 1683 of the National Defense Author-
17 ization Act for Fiscal Year 2020 (Public Law 116–92),
18 is amended by adding at the end the following new para-
19 graph:

20 “(3) LIMITATION.—Of the funds authorized to
21 be appropriated by the National Defense Authoriza-
22 tion Act for Fiscal Year 2021 or otherwise made
23 available for fiscal year 2021 for operation and
24 maintenance, Defense-wide, for the Space Defense
25 Agency, not more than 50 percent may be obligated

1 or expended until the date on which the Secretary
2 submits the certification under paragraph (2)(B).”.

3 (c) COORDINATION.—Subsection (a) of such section
4 is amended by striking “the Commander of the Air Force
5 Space Command and” and inserting “the Chief of Space
6 Operations, the Commander of the United States Space
7 Command, the Commander of the United States Northern
8 Command, and”.

9 **SEC. 1654. ANNUAL CERTIFICATION ON HYPERSONIC AND**
10 **BALLISTIC MISSILE TRACKING SPACE SEN-**
11 **SOR PAYLOAD.**

12 (a) FINDING; SENSE OF CONGRESS.—

13 (1) FINDING.—Congress finds that the budget
14 submitted by the President under section 1105(a) of
15 title 31, United States Code, for fiscal year 2021
16 does not fully fund an operational capability for the
17 hypersonic and ballistic missile tracking space sensor
18 within the tracking layer of the persistent space-
19 based sensor architecture of the Space Development
20 Agency, despite such space sensor being a require-
21 ment by the combatant commanders and being high-
22 lighted as a needed capability against both
23 hypersonic and ballistic threats in the Missile De-
24 fense Review published in 2019.

1 (2) SENSE OF CONGRESS.—It is the sense of
2 Congress that the Missile Defense Agency
3 hypersonic and ballistic missile tracking space sensor
4 must be prioritized within the persistent space-based
5 sensor architecture of the Space Development Agen-
6 cy to ensure the delivery of capabilities to the
7 warfighter as soon as possible.

8 (b) ANNUAL CERTIFICATION.—Subsection (d) of sec-
9 tion 1683 of the National Defense Authorization Act for
10 Fiscal Year 2018 (Public Law 115–91; 10 U.S.C. 2431
11 note), as amended by section 1653, is further amended
12 by adding at the end the following new paragraph:

13 “(4) ANNUAL CERTIFICATION.—On an annual
14 basis until the date on which the hypersonic and bal-
15 listic tracking space sensor payload achieves full
16 operational capability, the Secretary of Defense,
17 without delegation, shall submit to the appropriate
18 congressional committees a certification that—

19 “(A) the most recent future-years defense
20 program submitted under section 221 of title
21 10, United States Code, includes estimated ex-
22 penditures and proposed appropriations in
23 amounts necessary to ensure the development
24 and deployment of such space sensor payload as

1 a component of the sensor architecture devel-
2 oped under subsection (a); and

3 “(B) the Commander of the United States
4 Space Command has validated both the ballistic
5 and hypersonic tracking requirements of, and
6 the timeline to deploy, such space sensor pay-
7 load.”.

8 **SEC. 1655. ALIGNMENT OF THE MISSILE DEFENSE AGENCY**
9 **WITHIN THE DEPARTMENT OF DEFENSE.**

10 (a) FINDINGS.—Congress finds the following:

11 (1) Since the Missile Defense Agency was
12 aligned to be under the authority, direction, and
13 control of the Under Secretary of Defense for Re-
14 search and Engineering pursuant to section 205(b)
15 of title 10, United States Code, the advanced tech-
16 nology development budget requests in the defense
17 budget materials (as defined in section 231(f) of
18 title 10, United States Code) have decreased by
19 more than 650 percent, from a request for
20 \$292,000,000 for fiscal year 2018 (the highest such
21 request) to a request for \$45,000,000 for fiscal year
22 2021.

23 (2) The overwhelming majority of the budget of
24 the Missile Defense Agency is invested in programs
25 that would be categorized as acquisition category 1

1 efforts if such programs were administered under
2 the acquisition standards under Department of De-
3 fense Directive 5000.

4 (b) SENSE OF CONGRESS.—It is the sense of Con-
5 gress that, in light of the findings under subsection (a),
6 upon the completion of the independent review of the orga-
7 nization of the Missile Defense Agency required by section
8 1688 of the National Defense Authorization Act for Fiscal
9 Year 2020 (Public Law 116–92; 133 Stat. 1787), the Sec-
10 retary of Defense should reassess the alignment of the
11 Agency within the Department of Defense to ensure that
12 missile defense efforts are being given proper oversight
13 and that the Agency is focused on delivering capability to
14 address current and future threats.

15 (c) REPORT.—Not later than February 28, 2021, the
16 Secretary of Defense shall submit to the congressional de-
17 fense committees a report on the alignment of the Missile
18 Defense Agency within the Department of Defense. The
19 report shall include—

20 (1) a description of the risks and benefits of
21 both—

22 (A) continuing the alignment of the Agen-
23 cy under the authority, direction, and control of
24 the Under Secretary of Defense for Research

1 and Engineering pursuant to section 205(b) of
2 title 10, United States Code; and

3 (B) realigning the Agency to be under the
4 authority, direction, and control of the Under
5 Secretary of Defense for Acquisition and
6 Sustainment; and

7 (2) if the Agency were to be realigned, the ac-
8 tions that would need to be taken to realign the
9 Agency to be under the authority, direction, and
10 control of the Under Secretary of Defense for Acqui-
11 sition and Sustainment or another element of the
12 Department of Defense.

13 **SEC. 1656. ANALYSIS OF ALTERNATIVES FOR HOMELAND**
14 **MISSILE DEFENSE MISSIONS.**

15 (a) ANALYSIS OF ALTERNATIVES.—

16 (1) REQUIREMENT.—Not later than 90 days
17 after the date of the enactment of this Act, the Di-
18 rector of Cost Assessment and Program Evaluation,
19 in coordination with the Secretary of the Navy, the
20 Secretary of the Army, and the Director of the Mis-
21 sile Defense Agency, shall conduct an analysis of al-
22 ternatives with respect to a complete architecture for
23 using the regional terminal high altitude area de-
24 fense system and the Aegis ballistic missile defense
25 system to conduct homeland defense missions.

1 (2) SCOPE.—The analysis of alternatives under
2 paragraph (1) shall include the following:

3 (A) The sensors needed for the architec-
4 ture described in such paragraph.

5 (B) An assessment of the locations of each
6 system included in the analysis to provide simi-
7 lar coverage as the ground-based midcourse de-
8 fense system, including, with respect to such
9 systems that are land-based, by giving pref-
10 erence to locations with completed environ-
11 mental impact analyses conducted pursuant to
12 section 227 of the National Defense Authoriza-
13 tion Act for Fiscal Year 2013 (Public Law
14 112–239; 126 Stat. 1678), to the extent prac-
15 ticable.

16 (C) The acquisition objectives for intercept-
17 tors of the terminal high altitude area defense
18 system and standard missile–3 interceptors for
19 homeland defense purposes.

20 (D) Any improvements needed to the mis-
21 sile defense system command and control, battle
22 management, and communications system.

23 (E) The manning, training, and
24 sustainment needed to support such architec-
25 ture.

1 (F) A detailed schedule for the develop-
2 ment, testing, production, and deployment of
3 such systems.

4 (G) A lifecycle cost estimate of such archi-
5 tecture.

6 (H) A comparison of the capabilities, costs,
7 schedules, and policies with respect to—

8 (i) deploying regional systems de-
9 scribed in subsection (a) to conduct home-
10 land defense missions; and

11 (ii) deploying future ground-based
12 midcourse defense systems for such mis-
13 sions.

14 (3) SUBMISSION.—Not later than 90 days after
15 the date of the enactment of this Act, the Secretary
16 of Defense shall submit to the congressional defense
17 committees a report containing—

18 (A) the analysis of alternatives under para-
19 graph (1); and

20 (B) a certification by the Secretary that
21 such analysis is sufficient.

22 (b) ASSESSMENT.—Not later than February 28,
23 2021, the Director of the Defense Intelligence Agency, and
24 the head of any other element of the intelligence commu-
25 nity that the Secretary of Defense determines appropriate,

1 shall submit to the congressional defense committees an
2 assessment of the following:

3 (1) How the development and deployment of re-
4 gional terminal high altitude area defense systems
5 and Aegis ballistic missile defense systems to con-
6 duct longer-range missile defense missions would be
7 perceived by near-peer foreign countries and rogue
8 nations.

9 (2) How such near-peer foreign countries and
10 rogue nations would likely respond to such deploy-
11 ments.

12 **SEC. 1657. NEXT GENERATION INTERCEPTORS.**

13 (a) NOTIFICATION OF CHANGED REQUIREMENTS.—
14 During the acquisition and development process of the
15 next generation interceptor program, not later than 7 days
16 after the date on which any changes are made to the re-
17 quirements for such program that are established in the
18 equivalent to capability development documentation, the
19 Director of the Missile Defense Agency shall notify the
20 congressional defense committees of such changes.

21 (b) BRIEFING ON CONTRACT.—Not later than 14
22 days after the date on which the Director awards a con-
23 tract for the next generation interceptor, the Director
24 shall provide the congressional defense committees a brief-

1 ing on such contract, including with respect to the cost,
2 schedule, performance, and requirements of the contract.

3 (c) REPORT ON GROUND-BASED MIDCOURSE DE-
4 FENSE SYSTEM.—

5 (1) REQUIREMENT.—Not later than 90 days
6 after the date of the enactment of this Act, the Sec-
7 retary of Defense, in coordination with the Under
8 Secretary of Defense for Policy, the Director of the
9 Missile Defense Agency, and the Commander of the
10 United States Northern Command, shall submit to
11 the congressional defense committees a report on the
12 ground-based midcourse defense system.

13 (2) MATTERS INCLUDED.—The report under
14 paragraph (1) shall include the following:

15 (A) An explanation of how contracts in ex-
16 istence as of the date of the report could be
17 used to reestablish improvements and
18 sustainment for kill vehicles and boosters for
19 the ground-based midcourse defense system.

20 (B) An explanation of how such system
21 could be improved through service life exten-
22 sions or pre-planned product improvements to
23 address some of the requirements of the next
24 generation interceptor by 2026, including an

1 identification of the costs, schedule, and any
2 risks.

3 (C) A description of the costs and schedule
4 with respect to restarting booster production to
5 field 20 additional interceptors by 2026.

6 (D) An analysis of policy implications with
7 respect to the requirements for the ground-
8 based midcourse defense system.

9 **SEC. 1658. OVERSIGHT OF NEXT GENERATION INTER-**
10 **CEPTOR PROGRAM.**

11 (a) FINDINGS; SENSE OF CONGRESS.—

12 (1) FINDINGS.—Congress finds that the Sec-
13 retary of Defense discovered major technical prob-
14 lems with the redesigned kill vehicle program, which
15 led to cancelling the program in August 2019 and
16 caused significant delays to the improved defense of
17 the United States against rogue nation ballistic mis-
18 sile threats and wasted \$1,200,000,000.

19 (2) SENSE OF CONGRESS.—It is the sense of
20 Congress that the Secretary of Defense should en-
21 sure robust oversight and accountability for the ac-
22 quisition of the future next generation interceptor
23 program to avoid making the same errors that were
24 experienced in the redesigned kill vehicle effort.

1 (b) INDEPENDENT COST ASSESSMENT AND VALIDA-
2 TION.—

3 (1) ASSESSMENT.—The Director of Cost As-
4 sessment and Program Evaluation shall conduct an
5 independent cost assessment of the next generation
6 interceptor program.

7 (2) VALIDATION.—The Under Secretary of De-
8 fense for Acquisition and Sustainment shall validate
9 the preliminary cost assessment conducted under
10 paragraph (1) that will be used to inform the award
11 of the contract for the next generation interceptor.

12 (3) SUBMISSION.—Not later than the date on
13 which the Director of the Missile Defense Agency
14 awards a contract for the next generation inter-
15 ceptor, the Secretary of Defense shall submit to the
16 congressional defense committees a report containing
17 the preliminary independent cost assessment under
18 paragraph (1) and the validation under paragraph
19 (2).

20 (c) FLIGHT TESTS.—In addition to the requirements
21 of section 2399 of title 10, United States Code, the Direc-
22 tor of the Missile Defense Agency may not make any deci-
23 sion regarding the initial production, or equivalent, of the
24 next generation interceptor unless the Director has—

1 (1) certified to the congressional defense com-
2 mittees that the Director has conducted not fewer
3 than two successful intercept flight tests of the next
4 generation interceptor; and

5 (2) provided to such committees a briefing on
6 the details of such tests, including with respect to
7 the operational realism of such tests.

8 **SEC. 1659. MISSILE DEFENSE COOPERATION BETWEEN THE**
9 **UNITED STATES AND ISRAEL.**

10 (a) SENSE OF CONGRESS.—It is the sense of Con-
11 gress that—

12 (1) the strong and enduring relationship be-
