erating picture from multidomain intelligence;
and the ability to direct effects on the battle-
field at machine-to-machine speeds from all of
the systems comprising the Advanced Battle
Management System; and

(8) for an effort as ambitious and complex as
the Advanced Battle Management System, the Sen-
ate encourages the Air Force to use existing acquisi-
tion authorities to begin a rapid prototyping effort to refine the requirements and software-intensive technologies that will be integral to the command and control capability of the Advanced Battle Management System.

SEC. 1041. DESIGNATION OF DEPARTMENT OF DEFENSE STRATEGIC ARCTIC PORTS.

(a) FINDINGS.—Congress makes the following findings:

(1) The strategic importance of the Arctic continues to increase as the United States and other countries recognize the military significance of the sea lanes and choke points within the region and understand the potential for power projection from the Arctic into multiple regions.

(2) On January 19, 2018, Secretary of Defense James Mattis released the document titled “2018
National Defense Strategy of the United States of America” in which the Secretary outlined the re-emergence of long-term, strategic competition by countries classified by the National Security Strategy as revisionist powers.

(3) Russia and China have conducted military exercises together in the Arctic, have agreed to connect the Northern Sea Route, claimed by Russia, with China’s Maritime Silk Road, and are working together in developing natural gas resources in the Arctic.

(4) The Government of the Russian Federation—

(A) has prioritized the development of Arctic capabilities and has made significant investments in military infrastructure in the Arctic, including the creation of a new Arctic Command and the construction or refurbishment of 16 deepwater ports and 14 airfields in the region;

(B) has approximately 40 icebreakers as of May 2019, including several nuclear-powered icebreakers, is currently constructing four icebreakers, and is planning to build an additional eight icebreakers; and
(C) conducted the largest military exercise since the 1980s, Vostok 2018, which included—

(i) 300,000 troops;

(ii) 1,000 aircraft;

(iii) 80 ships;

(iv) 36,000 vehicles; and

(v) notably, 3,200 Chinese troops, 30 Chinese rotary and fixed-wing aircraft, and 900 Chinese tanks.

(5) The Government of the People’s Republic of China—

(A) released, in January 2018, its new Arctic Strategy, the Polar Silk Road, in which it declares itself as a “near-Arctic state”, even though its nearest territory to the Arctic is 900 miles away;

(B) has publicly stated that it seeks to expand its “Belt and Road Initiative” to the Arctic region, including current investment in the natural gas fields in the Yamal Peninsula in Russia, rare-earth element mines in Greenland, and the real estate, alternative energy, and fisheries in Iceland; and

(C) has shown great interest in expanding its Arctic presence, including through—
(i) the operation of research vessels in the region;

(ii) the recent construction of the Xuelong 2, or Snow Dragon II, the only polar research boat vessel in the world that can break ice while going forward or backward;

(iii) a freedom of navigation operation in the Aleutian Islands in 2015; and

(iv) its recent plans to develop a 33,000 ton nuclear-powered icebreaker.

(6) The economic significance of the Arctic continues to grow as countries around the globe begin to understand the potential for maritime transportation through, and economic and trade development in, the region.

(7) The Arctic is home to 13 percent of the world’s undiscovered oil, 30 percent of its undiscovered gas, an abundance of uranium, rare earth minerals, gold, diamonds, and millions of square miles of untapped resources, including abundant fisheries.

(8) The Bering Strait is experiencing significant increases in international traffic from vessels transiting the Northern Sea Route, increases which
are projected to continue if decreases in sea ice coverage continue.

(9) Along a future ice-free Arctic shipping route, a ship sailing from South Korea to Germany would have an average travel time of just 23 days, compared to 34 days via the Suez Canal and 46 days via the Cape of Good Hope.

(10) In a speech at the Arctic Forum in September 2011, Russian Federation President Vladimir Putin highlighted the Northern Sea Route as a potential alternative to the Suez Canal and has publicly stated plans to invest $11,400,000,000 along the Northern Sea Route by 2024.

(11) Increases in human, maritime, and resource development activity in the Arctic region are expected to create additional mission requirements for the Department of Defense and the Department of Homeland Security, given—

(A) the strategic focus of the Government of the Russian Federation and the Government of the People’s Republic of China on the Arctic;

(B) overlapping territorial claims; and

(C) the potential for maritime accidents, oil spills, and illegal fishing near the exclusive economic zone of the United States.
The increasing role of the United States in the Arctic has been highlighted in each of the last four National Defense Authorization Acts.

Section 1095 of the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114–328; 130 Stat. 2438) required the Department of Defense to create criteria to designate a Department of Defense Strategic Arctic Port.

Section 122 of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91; 131 Stat. 1310) authorized the procurement of one polar-class heavy icebreaker vessel.

Section 151 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115–232) authorized the procurement of five additional polar-class icebreaker vessels and expressed that the Coast Guard should—

(A) maintain an inventory of not fewer than six polar-class icebreaker vessels;
(B) award a contract for the first new polar-class icebreaker not later than fiscal year 2019 and deliver the icebreaker not later than fiscal year 2023; and

(C) deliver the second through sixth polar-class icebreakers at a rate of one vessel per year in fiscal years 2025 through 2029.

(17) In January 2017, the Department of Defense released a report entitled “Report to Congress on Strategy to Protect United States National Security Interests in the Arctic Region” to update “the ways and means” the Department of Defense intends to use to achieve its objectives as it implements the 2013 National Strategy for the Arctic Region, including—

(A) enhancing the capability of United States forces to defend the homeland and exercise sovereignty;

(B) strengthening deterrence at home and abroad;

(C) preserving freedom of the seas in the Arctic; and

(D) evolving the infrastructure and capabilities of the Department in the Arctic consistent with changing conditions and needs.
(18) The United States Coast Guard Arctic
Strategic Outlook released in April 2019 states,
"Demonstrating commitment to operational pres-
ence, Canada, Denmark, and Norway have made
strategic investments in ice-capable patrol ships
charged with national or homeland security missions.
[The United States] is the only Arctic State that
has not made similar investments in ice-capable sur-
face maritime security assets. This limits the ability
of the Coast Guard, and the Nation, to credibly up-
hold sovereignty or respond to contingencies in the
Arctic”.

(19) On January 12, 2017, Secretary of De-
fense James Mattis stated, “The Arctic is key stra-
tegic terrain . . . Russia is taking aggressive steps
to increase its presence there . . . I will prioritize
the development of an integrated strategy for the
Arctic. I believe that our interests and the security
of the Arctic would benefit from increasing the focus
of the Department of Defense on this region”.

(20) On January 9, 2019, Secretary of the Air
Force Heather Wilson and Chief of Staff of the Air
Force General David Goldfein wrote, “. . . the Arc-
tic has become even more important to the nation.
Both a northern approach to the United States, as
well as a critical location for projecting American
power, its geo-strategic significance is difficult to
overstate”.

(21) On February 26, 2019, General John
Hyten, Commander of the United States Strategic
Command, stated, “In particular, the Arctic is an
area that we really need to focus on and really look
at investing. That is no longer a buffer zone. We
need to be able to operate there. We need to be able
to communicate there. We need to have a presence
there that we have not invested in in the same way
that our adversaries have. And they see that as a
vulnerability from us, whereas it is becoming a
strength for them and it is a weakness for us, we
need to flip that equation”.

(22) On February 26, 2019, General Terrence
O’Shaughnessy, Commander of the United States
Northern Command stated, “It has become clear
that defense of the homeland depends on our ability
to detect and defeat threats operating both in the
Arctic and passing through the Arctic. Russia’s
fielding of advanced, long-range cruise missiles capa-
ble of flying through the northern approaches and
striking targets in the United States and Canada
has emerged as the dominant military threat in the
Meanwhile, China has declared that it is not content to remain a mere observer in the Arctic and has taken action to normalize its naval and commercial presence in the region in order to increase its access to lucrative resources and shipping routes. I view the Arctic as the front line in the defense of the United States and Canada . . .”.

(23) On May 6, 2019, Admiral Karl Schultz, Commandant of the Coast Guard stated, “We talk about the Arctic as a competitive space. We’ve seen China, we see Russia investing extensively. China built icebreakers in the time since we updated our strategy. China’s been operating off the Alaskan Arctic for a good part of the last six years on an annual basis. [The Coast Guard is] championing increased capabilities in the Arctic . . . better communications, better domain awareness . . . . I want to see the Arctic remain a peaceful domain. China’s a self-declared Arctic state. They’re not one of the eight Arctic nations, so for me, for the service, its presence equals influence”.

(24) On May 6, 2019, Secretary of State Mike Pompeo stated that—

(A) the Arctic “has become an arena for power and for competition”, and the United
States is “entering a new age of strategic engagement in the Arctic, complete with new threats to the Arctic and its real estate, and to all of our interests in that region.”;

(B) “Arctic sea lanes could become the 21st century Suez and Panama Canals.”;

(C) “We’re concerned about Russia’s claim over the international waters of the Northern Sea Route, including its newly announced plans to connect it with China’s Maritime Silk Road.”;

(D) “In the Northern Sea Route, Moscow already illegally demands other nations request permission to pass, requires Russian maritime pilots to be aboard foreign ships, and threatens to use military force to sink any that fail to comply with their demands.”;

(E) there is a “pattern of aggressive Russian behavior here in the Arctic” and “we know Russian territorial ambitions can turn violent”; and

(F) we do not want “the Arctic Ocean to transform into a new South China Sea, fraught with militarization and competing territorial claims”, nor do we want “the fragile Arctic en-
vironment exposed to the same ecological devast-
tation caused by China’s fishing fleet in the
seas off its coast, or unregulated industrial ac-
tivity in its own country”.

(25) On December 6, 2018, Secretary of the
Navy Richard Spencer stated, “We need to have a
strategic Arctic port up in Alaska. We need to be
doing FONOPs in the northwest – in the northern
passage. . . . peace through presence with a sub-
marine is a little tough”.

(26) Meanwhile, the two closest strategic sea-
ports, as designated by the Department of Defense,
to the Arctic Circle are the Port of Anchorage and
the Port of Tacoma, located approximately 1,500
nautical miles and 2,400 nautical miles away, re-
spectively, and approximately 1,900 nautical miles
and 2,800 nautical miles respectively from Barrow,
Alaska.

(27) The distance from Bangor, Maine, to Key
West, Florida, is approximately 1,450 nautical miles.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) the Arctic is a region of strategic impor-
tance to the national security interests of the United
States and the Department of Defense must better
align its presence, force posture, and capabilities to meet the growing array of challenges in the region; and

(2) although much progress has been made to increase awareness of Arctic issues and to promote increased presence in the region, additional measures, including the designation of one or more strategic Arctic ports, are needed to show the commitment of the United States to this emerging strategic choke point of future great power competition.

(c) REPORT REQUIRED.—

(2) the Secretary of Defense should rapidly develop and deploy a persistent, space-based sensor architecture to ensure missile defenses of the United States are more effective against ballistic missile threats and more responsive to emergent threats from hypersonic and cruise missiles;

(3) the responsibility for developing and deploying a hypersonic and ballistic tracking space sensor should remain within the Director of the Missile Defense Agency; and

(4) the Director of the Missile Defense Agency should deploy a hypersonic and ballistic tracking space sensor constellation as soon as technically feasible.

(b) ASSIGNMENT OF PRIMARY RESPONSIBILITY FOR DEVELOPMENT AND DEPLOYMENT OF HYPERSONIC AND BALLISTIC TRACKING SPACE SENSOR.—Not later than 30 days after the date of the enactment of this Act, the Secretary shall—

(2) submit to the congressional defense commit-
tees certification of such assignment.

(c) Certification Regarding Funding of
Hypersonic and Ballistic Tracking Space Sensor
Program.—At the same time that the President submits
to Congress pursuant to section 1105 of title 31, United
States Code, the annual budget request of the President
for fiscal year 2021, the Under Secretary of Defense
Comptroller and the Director for Cost Assessment and
Program Evaluation shall jointly certify to the congres-
sional defense committees whether the hypersonic and bal-
listic tracking space sensor program is sufficiently funded
in the future-years defense program for the Missile De-
defense Agency.

(d) Deployment Deadline.—Section 1683(a) of
the National Defense Authorization Act for Fiscal Year
2018 (Public Law 115–91; 10 U.S.C. 2431 note) is
amended—

serting the following:
“(a) Development, Testing, and Deploy-
ment.—
“(1) Development.—”; and
(2) by adding at the end the following new paragraphs:

**SEC. 1674. NONSTANDARD ACQUISITION PROCESSES OF MISSILE DEFENSE AGENCY.**

(a) **SENSE OF THE SENATE.**—It is the sense of the Senate that—

(1) the Department of Defense needs to provide capabilities at the speed of relevance that are more lethal, and to ensure acquisition processes fulfill the needs of members of the Armed Forces now and in the future;

(2) significant defense acquisition reforms enacted over the past three National Defense Authorization Acts have improved access to nontraditional and commercial innovation and to expanded flexible acquisition authorities in the development of alter-
native acquisition pathways to acquire critical na-
tional security capabilities;

(3) the Department appropriately recently rec-
ognized the Missile Defense Agency for its acquisi-
tion success by presenting it with the 2018 David
Packard Excellence in Acquisition Award for the de-
development of the Space-Based Kill Assessment
(SKAs) program and the Missile Defense Agency
should be commended for its numerous and rapid
acquisition successes;

(4) the recently completed Missile Defense Re-
view explicitly highlights, in stark terms, the threat
posed to the United States by ballistic and
hypersonic missile threats; and

(5) the Missile Defense Agency should maintain
its nonstandard acquisition authorities in order to
continue to rapidly design, test, and deliver critically
needed defensive capabilities to the warfighter.

(b) CHANGES TO NONSTANDARD ACQUISITION PROC-
ESSES AND RESPONSIBILITIES.—

(1) LIMITATION.—None of the funds authorized
to be appropriated by this Act may be obligated or

It is the Sense of the Senate that the Office of the Under Secretary of Defense for Research and Engineering, the Missile Defense Agency, the Office of the Director for Operational Test and Evaluation, the operational test agencies, the military departments, and warfighters should—

(1) be strongly commended for a highly successful 2018 flight test campaign, which consisted of 13 total flight test events including—

SEC. 6013. REPORT ON IMPACT OF LIBERIAN NATIONALS
ON THE NATIONAL SECURITY, FOREIGN POLICY, AND ECONOMIC AND HUMANITARIAN INTERESTS OF THE UNITED STATES AND A JUSIFICATION FOR ADJUSTMENT OF STATUS OF QUALIFYING LIBERIANS TO THAT OF LAWFUL PERMANENT RESIDENTS.

(a) FINDINGS.—Congress makes the following findings:

(1) In 1989, a seven-year civil war broke out in Liberia that—

(A) claimed the lives of an estimated 200,000 people;

(B) displaced over 1/2 of the Liberian population;

(C) halted food production; and

(D) destroyed the infrastructure and economy of Liberia.

(2) A second civil war then followed from 1999 to 2003, further destabilizing Liberia and creating more turmoil and hardship for Liberians.

(3) In total, the two civil wars in Liberia killed up to an estimated 1/4 million individuals.

(4) From 2014 to 2016, Liberia faced an Ebola virus outbreak that devastated the fragile health system of Liberia and killed nearly 5,000 individuals.
(5) As a result of these devastating events, thousands of Liberians sought refuge in the United States, living and working here under Temporary Protected Status (TPS) and Deferred Enforced Departure (DED), extended under both Republican and Democratic administrations beginning in 1991 with the administration of President George H. W. Bush.

(6) These law-abiding and taxpaying Liberians have made homes in the United States, have worked hard, played by the rules, paid their dues, and submitted to rigorous vetting. Many such Liberians have United States citizen children who have served in the Armed Forces, and in some cases have themselves served in that capacity.

(7) The Liberian community in the United States has also contributed greatly to private sector investment and socioeconomic assistance in Liberia by providing remittances to relatives in Liberia.

(8) While there was a positive development in 2017 with the first democratic transfer of power in more than 70 years, the Department of State has identified the capital and most populous city of Liberia, Monrovia, as being a critical-threat location for crime. Access to healthcare remains limited, critical
infrastructure is lacking, and widespread corruption coupled with low wages and a weak economic recovery has left the country vulnerable to civil unrest.

(b) REPORT.—

(1) IN GENERAL.—Not later than December 31, 2019, the Secretary of Defense, in consultation with the Secretary of State, shall submit to the congressional defense committees a report on the impact of Liberian nationals on the national security, foreign policy, and economic, and humanitarian interests of the United States and a justification for adjustment of status of qualifying Liberians to that of lawful permanent residents.

(2) ELEMENTS.—The report required by paragraph (1) shall include the following:

(A) The number of current or former Liberian nationals and their children who have served or are currently serving in the Armed Forces.

(B) The amount of remittances sent by current or former Liberian nationals to relatives in Liberia and an assessment of the impact on the economic development of Liberia if these remittances were to cease.
(C) The economic and tax contributions that Liberian nationals and their children have made to the United States.

(D) An assessment of the impact on the United States of adjusting the status of Liberian nationals who have continuous physical presence in the United States beginning on November 20, 2014, and ending on the date of the enactment of this Act, or for adjusting the status of the spouses, children, and unmarried sons or daughters of such Liberian nationals.

(c) QUALIFYING LIBERIAN.—

(1) IN GENERAL.—In this section, the term “qualifying Liberian” means and alien (as defined in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)) who—

(A)(i) is a national of Liberia; and

(ii) has been continuously present in the United States during the period beginning on November 20, 2014, and ending on the date of the enactment of this Act;

(B) is the spouse, child, or unmarried son or daughter of an alien described in subparagraph (A);
(C) is otherwise eligible to receive an immigrant visa; and

(D) is admissible to the United States for permanent residence, except that the grounds of inadmissibility specified in paragraphs (4), (5), (6)(A), and (7)(A) of section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182(a)) shall not apply.

(2) EXCEPTIONS.—The term “qualifying Liberian” does not include any alien who—

(A) has been convicted of any aggravated felony;

(B) has been convicted of 2 or more crimes involving moral turpitude (other than a purely political offense); or

(B) ensure that their maritime claims are consistent with international law; and

lead Inspector General may—

“(aa) conduct an independent inves-
tigation of an allegation described in sub-
clause (I); or

“(bb) request that an Inspector Gen-
eral specified in subsection (c) conduct
such investigation.”; and

(2) by adding at the end the following:

TITLE LXVI—STRATEGIC PROGRAMS, CYBER, AND INTELLIGENCE MATTERS

SEC. 6601. ANNUAL REPORT ON DEVELOPMENT OF GROUND-BASED STRATEGIC DETERRENT WEAPON.

(a) Report Required.—Not later than February 15, 2020, and annually thereafter until the date on which the ground-based strategic deterrent weapon receives Milestone C approval (as defined in section 2366 of title 10, United States Code), the Secretary of the Air Force, in coordination with the Administrator for Nuclear Security and the Chairman of the Nuclear Weapons Council, shall submit to the congressional defense committees a report describing the joint development of the ground-based strategic deterrent weapon, including the missile developed by the Air Force and the W87–1 warhead modification program conducted by the National Nuclear Security Administration.

(b) Elements.—The report required by subsection (a) shall include the following:

(1) An estimate of the date on which the ground-based strategic deterrent weapon will reach initial operating capability.
(2) A description of any development milestones for the missile developed by the Air Force or the warhead developed by the National Nuclear Security Administration that depend on corresponding progress at the other agency.

(3) A description of coordination efforts between the Air Force and the National Nuclear Security Administration during the year preceding submission of the report.

(4) A description of any schedule delays projected by the Air Force or the National Nuclear Security Administration, including delays related to infrastructure capacity and subcomponent production, and the anticipated effect such delays would have on the schedule of work of the other agency.

(5) Plans to mitigate the effects of any delays described in paragraph (4).

(6) A description of any ways, including through the availability of additional funding or authorities, in which the development milestones described in paragraph (2) or the estimated date of initial operating capability referred to in paragraph (1) could be achieved more quickly.
(c) FORM.—The report required by subsection (a) shall be submitted in unclassified form, but may include a classified annex.

SEC. 6602. SENSE OF SENATE ON SUPPORT FOR A ROBUST AND MODERN ICBM FORCE TO MAXIMIZE THE VALUE OF THE NUCLEAR TRIAD OF THE UNITED STATES.

(a) FINDINGS.—The Senate makes the following findings:

(1) Land-based intercontinental ballistic missiles (in this section referred to as “ICBMs”) have been a critical part of the strategic deterrent of the United States for 6 decades in conjunction with air and sea-based strategic delivery systems.

(2) President John F. Kennedy referred to the deployment of the first Minuteman missile during the Cuban Missile Crisis as his “ace in the hole”.

(3) The Minuteman III missile entered service in 1970 and is still deployed in 2019, well beyond its originally intended service life.

(4) The ICBM force of the United States peaked at more than 1,200 deployed missiles during the Cold War.

(5) The ICBM force of the United States currently consists of approximately 400 Minuteman III
missiles deployed across 450 operational missile
silos, each carrying a single warhead.

(6) The Russian Federation currently deploys
at least 300 ICBMs with multiple warheads loaded
on each missile and has announced plans to replace
its Soviet-era systems with modernized ICBMs.

(7) The People’s Republic of China currently
deploys at least 75 ICBMs and plans to grow its
ICBM force through the deployment of modernized,
road-mobile ICBMs that carry multiple warheads.

(8) The Russian Federation and the People’s
Republic of China deploy nuclear weapons across a
variety of platforms in addition to their ICBM
forces.

(9) Numerous countries possess or are seeking
to develop nuclear weapons capabilities that pose
challenges to the nuclear deterrence of the United
States.

(10) The nuclear deterrent of the United States
is comprised of a triad of delivery systems for nu-
clear weapons, including submarine-launched bal-
listic missiles (in this subsection referred to as
“SLBMs”), air-delivered gravity bombs and cruise
missiles, and land-based ballistic missiles that pro-
vide interlocking and mutually reinforcing attributes that enhance strategic deterrence.

(11) Weakening one leg of the triad limits the deterrent value of the other legs of the triad.

(12) In the nuclear deterrent of the United States, ICBMs provide commanders with the most prompt response capability, SLBMs provide stealth and survivability, and aircraft armed with nuclear weapons provide flexibility.

(13) The ICBM force of the United States forces any would-be attacker to confront more than 400 discrete targets, thus creating an effectively insurmountable targeting problem for a potential adversary.

(14) The size, dispersal, and global reach of the ICBM force of the United States ensures that no adversary can escalate a crisis beyond the ability of the United States to respond.

(15) A potential attacker would be forced to expend far more warheads to destroy the ICBMs of the United States than the United States would lose in an attack, because of the deployment of a single warhead on each ICBM of the United States.

(16) The ICBM force provides a persistent deterrent capability that reinforces strategic stability.
(17) ICBMs are the cheapest delivery system for nuclear weapons for the United States to operate and maintain.

(18) United States Strategic Command has validated military requirements for the unique capabilities of ICBMs.

(19) In a 2014 analysis of alternatives, the Air Force concluded that replacing the Minuteman III missile would provide upgraded capabilities at lower cost when compared with extending the service life of the Minuteman III missile.

(20) The Minuteman III replacement program, known as the ground-based strategic deterrent, is expected to provide a land-based strategic deterrent capability for 5 decades after the program enters service.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) land-based ICBMs have certain characteristics, including responsiveness, persistence, and dispersal, that enhance strategic stability and magnify the deterrent value of the air and sea-based legs of the nuclear triad of the United States;
(2) ICBMs have played and continue to play a role in deterring attacks on the United States and its allies;

(3) while arms control agreements have reduced the size of the ICBM force of the United States, adversaries of the United States continue to enhance, enlarge, and modernize their ICBM forces;

(4) the modernization of the ICBM force of the United States through the ground-based strategic deterrent program should be supported;

(5) ICBMs have the lowest operation, maintenance, and modernization costs of any part of the nuclear deterrent of the United States; and

(6) unilaterally reducing the size of the ICBM force of the United States or delaying the implementation of the ground-based strategic deterrent program would degrade the deterrent capabilities of a fully operational and modernized nuclear triad and should not take place at the present time.

TITLE LXVIII—SANCTIONS WITH RESPECT TO FOREIGN TRAFFICKERS OF ILLICIT SYNTHETIC OPIOIDS

SEC. 6801. SHORT TITLE.

This title may be cited as the “Fentanyl Sanctions Act”.

SEC. 6802. FINDINGS.

Congress makes the following findings:

(1) The Centers for Disease Control and Prevention estimate that from September 2017 through September 2018 more than 48,200 people in the United States died from an opioid overdose, with synthetic opioids (excluding methadone), contributing to a record 31,900 overdose deaths. While drug overdose death estimates from methadone,
semi-synthetic opioids, and heroin have decreased in recent months, overdose deaths from synthetic opioids have continued to increase.

(2) Congress and the President have taken a number of actions to combat the demand for illicit opioids in the United States, including enacting into law the SUPPORT for Patients and Communities Act (Public Law 115–271; 132 Stat. 3894). While new statutes and regulations have reduced the rate of opioid prescriptions in recent years, fully addressing the United States opioid crisis will involve dramatically restricting the foreign supply of illicit opioids.

(3) The People’s Republic of China is the world’s largest producer of illicit fentanyl, fentanyl analogues, and their immediate precursors. From the People’s Republic of China, those substances are shipped primarily through express consignment carriers or international mail directly to the United States, or, alternatively, shipped directly to transnational criminal organizations in Mexico, Canada, and the Caribbean.

(4) The United States and the People’s Republic of China, Mexico, and Canada have made important strides in combating the illicit flow of opioids
through bilateral efforts of their respective law enforcement agencies.

(5) The objective of preventing the proliferation of illicit opioids though existing multilateral and bilateral initiatives requires additional efforts to deny illicit actors the financial means to sustain their markets and distribution networks.

(6) The implementation on May 1, 2019, of the regulations of the People’s Republic of China to schedule all fentanyl analogues as controlled substances is a major step in combating global opioid trafficking and represents a major achievement in United States-China law enforcement dialogues. However, that step will effectively fulfill the commitment that President Xi Jinping of the People’s Republic of China made to President Donald Trump at the Group of Twenty meeting in December 2018 only if the Government of the People’s Republic of China devotes sufficient resources to full implementation and strict enforcement of the new regulations. The effective enforcement of the new regulations should result in diminished trafficking of illicit fentanyl originating from the People’s Republic of China into the United States, so it is in the interests of both the United States and the People’s Republic
of China to support the effective enforcement of the regulations.

(7) While the Department of the Treasury used the Foreign Narcotics Kingpin Designation Act (21 U.S.C. 1901 et seq.) to sanction the first synthetic opioid trafficking entity in April 2018, additional economic and financial sanctions policy tools are needed to help combat the flow of synthetic opioids into the United States.

SEC. 6803. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States should apply economic and other financial sanctions to foreign traffickers of illicit opioids to protect the national security, foreign policy, and economy of the United States and the health of the people of the United States;

(2) it is imperative that the People’s Republic of China follow through on full implementation of the new regulations, adopted May 1, 2019, to treat all fentanyl analogues as controlled substances under the laws of the People’s Republic of China, including by devoting sufficient resources for implementation and strict enforcement of the new regulations; and

(3) the effective enforcement of the new regulations should result in diminished trafficking of illicit
fentanyl originating from the People’s Republic of China into the United States, so it is in the interests of both the United States and the People’s Republic of China to support full, effective, and strict enforcement of the regulations.

†S 1790 ES
Subtitle A—Sanctions With Respect to North Korea

SEC. 6911. FINDINGS.

Congress finds the following:

(1) Since 2006, the United Nations Security Council has adopted 10 resolutions imposing sanctions against North Korea under chapter VII of the United Nations Charter, which—

(A) prohibit the use, development, and proliferation of weapons of mass destruction by North Korea;

(B) prohibit the supply, sale, or transfer of arms and related materiel to or from North Korea;

(C) prohibit the transfer of luxury goods to North Korea;

(D) restrict access by North Korea to financial services that could contribute to nuclear, missile, or other programs related to the development of weapons of mass destruction;

(E) restrict North Korean shipping, including the registration, reflagging, or insuring of North Korean ships;
(F) prohibit, with limited exceptions, North Korean exports of coal, precious metals, iron, vanadium, and rare earth minerals;

(G) prohibit the transfer to North Korea of rocket, aviation, or jet fuel, as well as gasoline, condensates, and natural gas liquids;

(H) prohibit new work authorization for North Korean laborers and require the repatriation of all North Korean laborers by December 2019;

(I) prohibit exports of North Korean food and agricultural products, including seafood;

(J) prohibit joint ventures or cooperative commercial entities or expanding joint ventures with North Korea;

(K) prohibit exports of North Korean textiles;

(L) require member countries of the United Nations to seize, inspect, and impound any ship in its jurisdiction that is suspected of violating Security Council resolutions with respect to North Korea and to interdict and inspect all cargo heading to or from North Korea by land, sea, or air;
(M) limit the transfer to North Korea of refined petroleum products and crude oil;

(N) ban the sale or transfer to North Korea of industrial machinery, transportation vehicles, electronics, iron, steel, and other metals;

(O) reduce North Korean diplomatic staff numbers in member countries of the United Nations and expel any North Korean diplomats found to be working on behalf of a person subject to sanctions or assisting in sanctions evasion;

(P) limit North Korean diplomatic missions abroad with respect to staff size and access to banking privileges and prohibit commerce from being conducted out of North Korean consular or diplomatic offices;

(Q) require member states of the United Nations to close representative offices, subsidiaries, and bank accounts in North Korea;

(R) prohibit countries from providing or receiving military training to or from North Korea or hosting North Koreans for specialized teaching or training that could contribute to the
programs of North Korea related to the development of weapons of mass destruction;

(S) ban countries from granting landing and flyover rights to North Korean aircraft;

and

(T) prohibit trade in statuary of North Korean origin.

(2) The Government of North Korea has threatened to carry out nuclear attacks against the United States, South Korea, and Japan.

(3) The Government of North Korea tested its sixth and largest nuclear device on September 3, 2017.

(4) According to a report by the International Atomic Energy Agency released in August 2018, “The continuation and further development of the DPRK’s nuclear programme and related statements by the DPRK are a cause for grave concern. The DPRK’s nuclear activities, including those in relation to the Yongbyon Experimental Nuclear Power Plant (5 MW(e)) reactor, the use of the building which houses the reported centrifuge enrichment facility and the construction at the light water reactor, as well as the DPRK’s sixth nuclear test, are clear violations of relevant UN Security Council resolu-
tions, including resolution 2375 (2017) and are deeply regrettable.”.

(5) In July 2018, Secretary of State Mike Pompeo testified to the Committee on Foreign Relations of the Senate that North Korea “continue[s] to produce fissile material” despite public pledges by North Korean leader Kim Jong-un to denuclearize.

(6) The 2019 Missile Defense Review conducted by the Department of Defense states that North Korea “continues to pose an extraordinary threat and the United States must remain vigilant. In the past, North Korea frequently issued explicit nuclear missile threats against the United States and allies, all the while working aggressively to field the capability to strike the U.S. homeland with nuclear-armed ballistic missiles. Over the past decade, it has invested considerable resources in its nuclear and ballistic missile programs, and undertaken extensive nuclear and missile testing in order to realize the capability to threaten the U.S. homeland with missile attack. As a result, North Korea has neared the time when it could credibly do so.”.

(7) Financial transactions and investments that provide financial resources to the Government of North Korea, and that fail to incorporate adequate
safeguards against the misuse of those financial re-
resources, pose an undue risk of contributing to—

(A) weapons of mass destruction programs

of that Government; and

(B) efforts to evade restrictions required

by the United Nations Security Council on im-
ports or exports of arms and related materiel,
services, or technology by that Government.

(8) The Federal Bureau of Investigation has
determined that the Government of North Korea
was responsible for cyberattacks against entities in
the United States, South Korea, and around the
world.

(9) In November 2017, President Donald
Trump designated the government of North Korea
as a state sponsor of terrorism pursuant to authori-
ties under the Export Administration Act of 1979
(50 U.S.C. App. 2401 et seq.), as continued in effect
at the time under the International Emergency Eco-

demic Powers Act (50 U.S.C. 1701 et seq.), the
Foreign Assistance Act of 1961 (22 U.S.C. 2151 et
seq.), and the Arms Export Control Act (22 U.S.C.
2751 et seq.);

(10) On February 22, 2018, the Secretary of
State determined that the Government of North
Korea was responsible for the lethal nerve agent attack in 2017 on Kim Jong Nam, the half-brother of North Korean leader Kim Jong-un, in Malaysia, triggering sanctions required under the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991 (22 U.S.C. 5601 et seq.).

(11) The strict enforcement of sanctions is essential to the efforts of the international community to achieve the peaceful, complete, verifiable, and irreversible dismantlement of weapons of mass destruction programs of the Government of North Korea.

SEC. 6912. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States is committed to working with its allies and partners to halt the nuclear and ballistic missile programs of North Korea through a policy of maximum pressure and diplomatic engagement;

(2) the imposition of sanctions, including those under this title, should not be construed to limit the authority of the President to fully engage in diplomatic negotiations to further the policy objective described in paragraph (1);
(3) the successful use of sanctions to halt the nuclear and ballistic missile programs of North Korea is part of a broader diplomatic and economic strategy that relies on effective coordination among relevant Federal agencies and officials, as well as with international partners of the United States; and

(4) the coordination described in paragraph (3) should include proper vetting of external messaging and communications from all parts of the Executive branch to ensure that those communications are an intentional component of and aligned with the strategy of the United States with respect to North Korea.

SEC. 6953. SENSE OF CONGRESS REGARDING CERTAIN ERISA PLAN INVESTMENTS.

It is the sense of Congress that—

(1) a fiduciary of an employee benefit plan, as defined in section 3(3) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(3)), may divest plan assets from, or avoid investing plan assets in, any person the fiduciary determines engages in investment activities described in section 6951(c), if—

(A) the fiduciary makes that determination using credible information that is available to the public; and

(B) the fiduciary prudently determines that the result of that divestment or avoidance of investment would not be expected to provide the employee benefit plan with—

(i) a lower rate of return than alternative investments with commensurate degrees of risk; or
(ii) a higher degree of risk than alternative investments with commensurate rates of return; and

(2) by divesting assets or avoiding the investment of assets as described in paragraph (1), the fiduciary is not breaching the responsibilities, obligations, or duties imposed upon the fiduciary by subparagraph (A) or (B) of section 404(a)(1) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1104(a)(1)).

SEC. 6954. RULE OF CONSTRUCTION.

Nothing in this subtitle, an amendment made by this subtitle, or any other provision of law authorizing sanctions with respect to North Korea shall be construed to affect or displace—

(1) the authority of a State or local government to issue and enforce rules governing the safety, soundness, and solvency of a financial institution subject to its jurisdiction; or

(2) the regulation and taxation by the several States of the business of insurance, pursuant to the Act of March 9, 1945 (59 Stat. 33, chapter 20; 15 U.S.C. 1011 et seq.) (commonly known as the “McCarran-Ferguson Act”).
Subtitle C—Financial Industry
Guidance to Halt Trafficking

SEC. 6961. SHORT TITLE.

This subtitle may be cited as the “Financial Industry Guidance to Halt Trafficking Act” or the “FIGHT Act”.

SEC. 6962. FINDINGS.

Congress finds the following:

(1) The terms “human trafficking” and “trafficking in persons” are used interchangeably to describe crimes involving the exploitation of a person for the purposes of compelled labor or commercial sex through the use of force, fraud, or coercion.

(2) According to the International Labour Organization, there are an estimated 24,900,000 people worldwide who are victims of forced labor, including human trafficking victims in the United States.

(3) Human trafficking is perpetrated for financial gain.

(4) According to the International Labour Organization, of the estimated $150,000,000,000 or more in global profits generated annually from human trafficking—
(A) approximately 2/3 are generated by commercial sexual exploitation, exacted by fraud or by force; and

(B) approximately 1/3 are generated by forced labor.

(5) Most purchases of commercial sex acts are paid for with cash, making trafficking proceeds difficult to identify in the financial system. Nonetheless, traffickers rely heavily on access to financial institutions as destinations for trafficking proceeds and as conduits to finance every step of the trafficking process.

(6) Under section 1956 of title 18, United States Code (relating to money laundering), human trafficking is a “specified unlawful activity” and transactions conducted with proceeds earned from trafficking people, or used to further trafficking operations, can be prosecuted as money laundering offenses.

SEC. 6963. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the President should aggressively apply, as appropriate, existing sanctions for human trafficking authorized under section 111 of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7108);
(2) the Financial Crimes Enforcement Network of the Department of the Treasury should con-
tinue—

(A) to monitor reporting required under subchapter II of chapter 53 of title 31, United States Code (commonly known as the “Bank Secrecy Act”) and to update advisories, as war-
ranted;

(B) to periodically review its advisories to provide covered financial institutions, as appro-
priate, with a list of new “red flags” for identi-
fying activities of concern, particularly human trafficking;

(C) to encourage entities covered by the advisories described in subparagraph (B) to in-
corporate relevant elements provided in the advisories into their current transaction and ac-
count monitoring systems or in policies, proce-
dures, and training on human trafficking to en-
able financial institutions to maintain ongoing efforts to examine transactions and accounts;

(D) to use geographic targeting orders, as appropriate, to impose additional reporting and recordkeeping requirements under section 5326(a) of title 31, United States Code, to
carry out the purposes of, and prevent evasions of the Bank Secrecy Act; and

(E) to utilize the Bank Secrecy Act Advisory Group and other relevant entities to identify opportunities for nongovernmental organizations to share relevant actionable information on human traffickers’ use of the financial sector for nefarious purposes;

(3) Federal banking regulators, the Department of the Treasury, relevant law enforcement agencies, and the Human Smuggling and Trafficking Center, in partnership with representatives from the United States financial community, should adopt regular forms of sharing information to disrupt human trafficking, including developing protocols and procedures to share actionable information between and amongst covered institutions, law enforcement, and the United States intelligence community;

(4) training front line bank and money service business employees, school teachers, law enforcement officers, foreign service officers, counselors, and the general public is an important factor in identifying trafficking victims;

(5) the Department of Homeland Security’s Blue Campaign, training by the BEST Employers
Alliance, and similar efforts by industry, human rights, and nongovernmental organizations focused on human trafficking provide good examples of current efforts to educate employees of critical sectors to save victims and disrupt trafficking networks;

(6) the President should intensify diplomatic efforts, bilaterally and in appropriate international fora, such as the United Nations, to develop and implement a coordinated, consistent, multilateral strategy for addressing the international financial networks supporting human trafficking; and

(7) in deliberations between the United States Government and any foreign country, including through participation in the Egmont Group of Financial Intelligence Units, regarding money laundering, corruption, and transnational crimes, the United States Government should—

(A) encourage cooperation by foreign governments and relevant international fora in identifying the extent to which the proceeds from human trafficking are being used to facilitate terrorist financing, corruption, or other illicit financial crimes;

(B) encourage cooperation by foreign governments and relevant international fora in
identifying the nexus between human trafficking and money laundering;

(C) advance policies that promote the cooperation of foreign governments, through information sharing, training, or other measures, in the enforcement of this subtitle;

(D) encourage the Financial Action Task Force to update its July 2011 typology reports entitled, “Laundering the Proceeds of Corruption” and “Money Laundering Risks Arising from Trafficking in Human Beings and Smuggling of Migrants”, to identify the money laundering risk arising from the trafficking of human beings; and

(E) encourage the Egmont Group of Financial Intelligence Units to study the extent to which human trafficking operations are being used for money laundering, terrorist financing, or other illicit financial purposes.

SEC. 9404. ENCOURAGING COOPERATIVE ACTIONS TO DETECT AND COUNTER FOREIGN INFLUENCE OPERATIONS.

(a) Findings.—Congress makes the following findings:

(1) The Russian Federation, through military intelligence units, also known as the “GRU”, and
Kremlin-linked troll organizations often referred to as the “Internet Research Agency”, deploy information warfare operations against the United States, its allies and partners, with the goal of advancing the strategic interests of the Russian Federation.

(2) One line of effort deployed as part of these information warfare operations is the weaponization of social media platforms with the goals of intensifying societal tensions, undermining trust in governmental institutions within the United States, its allies and partners in the West, and generally sowing division, fear, and confusion.

(3) These information warfare operations are a threat to the national security of the United States and that of the allies and partners of the United States. As Director of National Intelligence Dan Coats stated, “These actions are persistent, they are pervasive and they are meant to undermine America’s democracy.”.

(4) These information warfare operations continue to evolve and increase in sophistication.

(5) Other foreign adversaries and hostile non-state actors will increasingly adopt similar tactics of deploying information warfare operations against the West.
(6) Technological advances, including artificial intelligence, will only make it more difficult in the future to detect fraudulent accounts, deceptive material posted on social media, and malign behavior on social media platforms.

(7) Because these information warfare operations are deployed within and across private social media platforms, the companies that own these platforms have a responsibility to detect and remove foreign adversary networks operating clandestinely on their platforms.

(8) The social media companies are inherently technologically sophisticated and adept at rapidly analyzing large amounts of data and developing software-based solutions to diverse and ever-changing challenges on their platforms, which makes them well-equipped to address the threat occurring on their platforms.

(9) Independent analyses confirmed Kremlin-linked threat networks, based on data provided by several social media companies to the Select Committee on Intelligence of the Senate, thereby demonstrating that it is possible to discern both broad patterns of cross-platform information warfare oper-
ations and specific fraudulent behavior on social
media platforms.

(10) General Paul Nakasone, Director of the
National Security Agency, emphasized the impor-
tance of these independent analyses to the planning
and conduct of military cyber operations to frustrate
Kremlin-linked information warfare operations
against the 2018 mid-term elections. General
Nakasone stated that the reports “were very, very
helpful in terms of being able to understand exactly
what our adversary was trying to do to build dissent
within our nation.”.

(11) Institutionalizing ongoing robust, inde-
pendent, and vigorous analysis of data related to
foreign threat networks within and across social
media platforms will help counter ongoing informa-
tion warfare operations against the United States,
its allies, and its partners.

(12) Archiving and disclosing to the public the
results of these analyses by the social media compa-
nies and trusted third-party experts in a transparent
manner will serve to demonstrate that the social
media companies are detecting and removing foreign
malign activities from their platforms while pro-
tecting the privacy of the people of the United
States and will build public understanding of the scale and scope of these foreign threats to our democracy, since exposure is one of the most effective means to build resilience.

(b) Sense of the Senate.—It is the sense of the Senate that—

(1) the social media companies should cooperate among themselves and with independent organizations and researchers on a sustained and regular basis to share and analyze data and indicators relevant to foreign information warfare operations within and across their platforms in order to detect and counter foreign information warfare operations that threaten the national security of the United States and its allies and partners;

(2) these analytic efforts should be organized in such a fashion as to meet the highest standards of ethics, confidentiality, and privacy protection of the people of the United States;

(3) these analytic efforts should be undertaken as soon as possible to facilitate countering ongoing Kremlin, Kremlin-linked, and other foreign information warfare operations and to aid in preparations for the United States presidential and congressional elections in 2020 and beyond;
(4) the structure and operations of social media companies make them well positioned to address foreign adversary threat networks within and across their platforms, and these efforts could be conducted without direct Government involvement, direction, or regulation; and

(5) if the social media industry fails to take sufficient action to address foreign adversary threat networks operating within or across their platforms, Congress would have to consider additional safeguards for ensuring that this threat is effectively mitigated.

(c) Authority to Facilitate Establishment of Social Media Data Analysis Center.—

(1) Authority.—The Director of National Intelligence, in coordination with the Secretary of Defense, may facilitate, by grant or contract or under an existing authority of the Director, the establishment of a Social Media Data Analysis Center with the functions described in paragraph (2) at an independent, nonprofit organization.

(2) Functions.—The functions described in this paragraph are the following:

(A) Acting as a convening and sponsoring authority for cooperative social media data
analysis of foreign threat networks involving social media companies and third-party experts, nongovernmental organizations, data journalists, federally funded research and development centers, and academic researchers.

(B) Facilitating analysis within and across the individual social media platforms for the purpose of detecting, exposing, and countering clandestine foreign influence operations and related unlawful activities that fund or subsidize such operations.

(C) Developing processes to share information from government entities on foreign influence operations with the individual social media companies to inform threat analysis, and working with the Office of the Director of National Intelligence as appropriate.

(D) Determining and making public criteria for identifying which companies, organizations, or researchers qualify for inclusion in the activities of the Center, and inviting entities that fit the criteria to join.

(E) Determining jointly with the social media companies what data and metadata related to indicators of foreign adversary threat
networks from their platforms and business operations will be made available for access and analysis.

(F) Developing and making public the criteria and standards that must be met for companies, other organizations, and individual researchers to access and analyze data relating to foreign adversary threat networks within and across social media platforms and publish or otherwise use the results.

(G) Developing and making public the ethical standards for investigation of foreign threat networks and use of analytic results and for protection of the privacy of the customers and users of the social media platforms and of the proprietary information of the social media companies.

(H) Developing technical, contractual, and procedural controls to prevent misuse of data, including any necessary auditing procedures, compliance checks, and review mechanisms.

(I) Developing and making public criteria and conditions under which the Center shall share information with the appropriate Government agencies regarding threats to national se-
curity from, or violations of the law involving, foreign activities on social media platforms.

(J) Developing a searchable, public archive aggregating information related to foreign influence and disinformation operations to build a collective understanding of the threats and facilitate future examination consistent with privacy protections.

(1) not later than March 1, 2020, submit to Congress a report on—

(A) the estimated funding needs of the Center for fiscal year 2021 and for subsequent years;

(B) such statutory protections from liability as the Director considers necessary for the Center, participating social media companies, and participating third-party analytical participants;

(C) such statutory penalties as the Director considers necessary to ensure against misuse of data by researchers; and
such changes to the Center’s mission to fully capture broader unlawful activities that intersect with, complement, or support information warfare tactics; and

(2) not less frequently than once each year, submit to the Director of National Intelligence, the Secretary of Defense, and the appropriate congressional committees a report—

(A) that assesses—

(i) degree of cooperation and commitment from the social media companies to the mission of the Center; and

(ii) effectiveness of the Center in detecting and removing clandestine foreign information warfare operations from social media platforms; and

(B) includes such recommendations for legislative or administrative action as the Center considers appropriate to carry out the functions of the Center.

(e) PERIODIC REPORTING TO THE PUBLIC.—The Director of the Center shall—

(1) once each quarter, make available to the public a report on key trends in foreign influence and disinformation operations, including any threats
to campaigns and elections, to inform the public of
the United States; and

(2) as the Director considers necessary, provide
more timely assessments relating to ongoing
disinformation campaigns.

(f) FUNDING.—Of the amounts appropriated or oth-
erwise made available to the National Intelligence Pro-
gram (as defined in section 3 of the National Security Act
of 1947 (50 U.S.C. 3003)) in fiscal year 2020 and 2021,
the Director of National Intelligence may use up to
$30,000,000 to carry out this section.
