

Committee on Energy and Natural Resources.

Mr. REED. Mr. President, today I am once again introducing, along with my colleagues Senator WHITEHOUSE, Senator BLUMENTHAL, and Senator MURPHY, legislation to designate river segments within the Wood-Pawcatuck watershed as part of the National Wild and Scenic Rivers System.

Following more than three years of intense study, this legislation would formally recognize the recreational, natural, and historical qualities of portions of the Beaver, Chipuxet, Green Fall-Ashaway, Pawcatuck, Queen-Usquepaugh, Shunock, and Wood Rivers that flow through Rhode Island and Connecticut while providing access to Federal resources and promoting strong partnerships for their restoration and protection.

The Wood-Pawcatuck watershed is a National treasure that not only holds natural and scenic value, but also is an important economic driver for the area. Indeed, the 12 local river communities experience direct economic benefits from their proximity to these rivers through increased recreation and tourism. The watershed provides many opportunities for visitors to explore history and experience nature, including viewing early industrial mill ruins, trout fishing, bird watching, and kayaking.

I have long been a supporter of protecting and restoring these special rivers, which is why I sponsored the Wood-Pawcatuck Watershed Protection Act in 2013. The process that was initiated by that law has been a critical tool for bringing together stakeholders from Rhode Island and Connecticut including representatives from State agencies, local governments, and conservation groups in order to develop a collaborative path forward. The resulting Stewardship Plan, which has been formally adopted by the study committee and is supported by all twelve local river communities, builds upon currently existing efforts to preserve and manage the river ecosystems while also considering what steps will need to be taken collectively in the future in order to protect them.

I would like to commend Representatives LANGEVIN, CICILLINE, and COURTNEY for again introducing companion legislation. In October 2018 we commemorated the 50th anniversary of the landmark Wild and Scenic Rivers Act, and I am proud that after all these years we are continuing our work to protect such extraordinary places. I look forward to working with all of my colleagues to pass this legislation so that we can preserve the rivers of the Wood-Pawcatuck watershed for the enjoyment of current and future generations.

S. RES. 11

Whereas January 8, 2019, marks the 150th anniversary of Fort Sill, a military installation operating in the Lawton-Fort Sill region of Oklahoma;

Whereas the site of Fort Sill was staked out on January 8, 1869, by Major General Philip H. Sheridan, and the garrison was first called “Camp Wichita”;

Whereas Fort Sill is named after Brigadier General Joshua W. Sill, who was killed in the American Civil War and was a friend to Major General Philip H. Sheridan;

Whereas the first post commander at Fort Sill was Brevet Major General Benjamin Grierson;

Whereas, in 1877, Lieutenant Henry O. Flipper, the first African American to graduate from West Point, was assigned to the 10th Cavalry Regiment at Fort Sill;

Whereas, in 1898, the Fort Sill garrison was down to 27 officers and soldiers as the cavalry left for battles in Cuba during the Spanish-American War, and Lieutenant Allyn Capron, Jr., who had joined the “Rough Riders”, was the first officer killed in Cuba;

Whereas the last Indian land in Oklahoma opened for settlement in 1901, and 29,000 homesteaders registered at Fort Sill during July of that year for the land lottery;

Whereas Fort Sill played a major role in expanding the nearby city of Lawton, which was named after Major General Henry W. Lawton, a Fort Sill quartermaster who was killed in the Philippines in 1899 and was a Medal of Honor recipient;

Whereas, on August 6, 1901, the town of Lawton was established and quickly grew to become the third largest city in Oklahoma, later becoming part of the greater Lawton-Fort Sill community;

Whereas, with the disappearance of the frontier, the mission of Fort Sill gradually changed from cavalry to field artillery, with the first artillery battery arriving at Fort Sill in 1902, and the last cavalry regiment departing in May 1907;

Whereas, the School of Fire for Field Artillery was founded at Fort Sill in 1911 and continues to operate as the United States Army Field Artillery School;

(7) the School of Fire (now known as the Field Artillery School); and

(8) the Air Defense Artillery School;

Whereas, in 1915, the first air unit in the history of the United States Armed Forces, the 1st Aero Squadron, was stationed at Fort Sill for experiments in the aerial observation of artillery fire and, in 1916, was sent into combat with General Jack Pershing on an expedition into Mexico;

Whereas, in 1917, the Henry Post Army Airfield was constructed for aerial artillery observation and spotting;

Whereas, with the start of World War I in 1918, the post expanded quickly, and the Army established Camp Doniphan on the northwest edge of Fort Sill in order to assemble, house, and train entire divisions before sending the divisions to Europe;

Whereas, during World War I, Fort Sill found itself with a unique new training mission, as the War Department was unprepared to train officers and soldiers for the threat of weapons of mass destruction posed by the wide-scale use of chemical weapons in Europe, and soldiers had to be equipped and trained for the new threat;

Whereas the 35th Division was constituted in 1917 as 1 of the 17 National Guard divisions authorized for service in World War I;

Whereas the 35th Division—

(1) was organized from the National Guards of Kansas and Missouri;

Whereas Major Orlando Ward, the next Director of the Gunnery Department after Major Carlos Brewer, developed the fire direction center to centralize command and control and to facilitate massing fire;

Whereas Major Brewer, Major Ward, and Lieutenant Colonel H.L.C. Jones encouraged replacing horses with motor vehicles for moving field artillery guns;

Whereas the 45th Infantry Division, made up of National Guardsmen from Oklahoma, Colorado, New Mexico, and Texas—

Whereas, in 1942, Fort Sill stood down the last horse-drawn field artillery unit, ending 73 years of the partnership between soldiers and horses that helped fuel the military strength of Fort Sill;

Whereas horses did not reappear at Fort Sill until 1963, when the commanding general authorized a special “Half Section of Field Artillery”, which names the horses after Fort Sill commanders;

Whereas, on July 10, 1943, the 45th Infantry Division, which trained at Fort Sill and was known as the “Thunderbirds”, participated in its first of 4 amphibious landings during World War II, landing in Sicily;

Whereas, although the Polar Bears unit was called “infantry”, it was a unique combined-arms team that included an armored tank company;

Whereas the high-profile Polar Bears unit participated in combined-arms live-fire exercises (the “CALFEX program”), which brought together infantry, armor, field artillery, and Air Force assets;

Whereas the CALFEX program was brought to an end by the drive for efficient use of money, with the end of the Polar Bears unit signaling the end of the high-profile CALFEX program;

Whereas, as of 2019, the Polar Bears unit has been reactivated with the 10th Mountain Division at Fort Drum, New York;

GOVERNMENT FUNDING

Mr. MERKLEY. Mr. President, I come to the floor tonight to talk about hostages, seven hostages—seven spending bills that have come through this Republican-led Chamber, bills the House is ready to move forward on that have, ironically, been taken hostage by the Republican leadership of the Senate and the President of the United States.

Those seven hostages, those spending bills, the House has said: Well, Mr. President, we have a difference of opinion that has to be worked out, and that is Homeland Security. So let's continue that debate while setting the other six free—freedom for six bills passed by the Republican-led Senate so we can put America back to work.

It sounds like a pretty good idea, but good ideas and common sense seem to be victims—victims of this Presidential temper tantrum over a symbol on the southern border. So it shut down nine Cabinet Departments: Agriculture, Commerce, Justice, Homeland Security, Housing, Interior, State, Transportation, and the Treasury—affecting all kinds of everyday functions for Americans.

The local schools keep functioning. They figure it out. The local city doesn't shut down. The county doesn't shut down. Has your State shut down? I don't think so. So why this childish behavior, why this incompetence, why
