

Southern hospitality. Beaumont Inn grew, both in physical size and in prestige, even earning inclusion onto the National Register of Historic Places. Some of the new buildings include the Greystone House, Bell Cottage, and Goddard Hall, which honors Beaumont's founder. Not only is the inn a charming destination, but it is also a museum filled with interesting artifacts of Kentucky and American history. Today, the inn is operated by the fourth and fifth generation of the Goddard family, Chuck and Helen Dedman and their son, Dixon.

It is beyond question that quality cuisine is a vital aspect of all Southern hospitality. As a pinnacle of a traditional Bluegrass experience, Beaumont Inn sets a high bar. Visitors are drawn to its main dining room by the famous "yellow-legged" fried chicken and 2-year-old Kentucky-cured country ham. The inn's cornmeal batter cakes are a breakfast favorite. In recognition of its culinary excellence, Beaumont Inn has earned some of the highest accolades in this field, including the America's Class Award from the James Beard Foundation. Visitors can also enjoy a Kentucky bourbon at the Owl's Nest lounge or at the Old Owl Tavern, named one of the best bourbon bars in America. As Kentucky leads the Nation in a bourbon revival, the inn has also become an official stop of the Kentucky Bourbon Trail. These amenities reaffirm the strong bonds between this historic institution and one of the Commonwealth's signature industries. In fact, the New York Times published an article about the storied history of Kentucky Owl Bourbon, recently revived by the Dedman family.

I look forward to my next visit to Beaumont Inn, and I would like to thank the Dedman family for their tireless efforts to preserve this Kentucky treasure. Their stewardship of this historic site and long-term vision helps connect our Commonwealth's past to its bright future. As Beaumont Inn celebrates 100 years of excellence, I would like to extend my best wishes to the Dedmans, the staff, and all who enjoy this beloved institution.

#### ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such

annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY  
COOPERATION AGENCY,  
Arlington, VA.

Hon. JAMES E. RISCH,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 19-08, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Japan for defense articles and services estimated to cost \$2.150 billion. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

CHARLES W. HOOPER,

Lieutenant General, USA, Director.

Enclosures.

TRANSMITTAL NO. 19-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Japan.

(ii) Total Estimated Value:  
Major Defense Equipment\* \$ .375 billion.  
Other \$1.775 billion.  
TOTAL \$2.150 billion.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):  
Two (2) AEGIS Weapon Systems (AWS).  
Two (2) Multi-Mission Signal Processors (MMSP).

Two (2) Command and Control Processor (C2P) Refreshes.

Non-MDE: Also included is radio navigation equipment, naval ordnance, two (2) Identification Friend or Foe (IFF) Systems, Global Command and Control System-Maritime (GCCS-M) hardware, and two (2) Inertial Navigation Systems (INS), U.S. Government and contractor representatives' technical, engineering and logistics support services, installation support material, training, construction services for six (6) vertical launch system launcher module enclosures, communications equipment and associated spares, classified and unclassified publications and software, and other related elements of logistical and program support.

(iv) Military Department: Navy (JA-P-NCO)

(v) Prior Related Cases, if any: None

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex

(viii) Date Report Delivered to Congress: January 29, 2019

\*As defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

##### Japan—AEGIS Weapon System

The Government of Japan has requested to buy two (2) AEGIS Weapon Systems (AWS), two (2) Multi-Mission Signal Processors (MMSP) and two (2) Command and Control Processor (C2P) Refreshes. Also included is radio navigation equipment, naval ordnance, two (2) Identification Friend or Foe (IFF) Systems, Global Command and Control System-Maritime (GCCS-M) hardware, and two (2) Inertial Navigation Systems (INS), U.S.

Government and contractor representatives' technical, engineering and logistics support services, installation support material, training, construction services for six (6) vertical launch system launcher module enclosures, communications equipment and associated spares, classified and unclassified publications and software, and other related elements of logistical and program support. The total estimated program cost is \$2.150 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a major ally that is a force for political stability and economic progress in the Asia-Pacific region. It is vital to U.S. national interests to assist Japan in developing and maintaining a strong and effective self-defense capability.

This proposed sale will provide the Government of Japan with an enhanced capability against increasingly sophisticated ballistic missile threats and create an expanded, layered defense of its homeland. Japan, which already has the AEGIS in its inventory, will have no difficulty absorbing this system into its armed forces.

The proposed sale of this equipment and support does not alter the basic military balance in the region.

The prime contractor for the Aegis Weapon System and Multi-Mission Signal Processors will be Lockheed Martin Rotary and Mission Systems, Washington, DC. The Command and Control Processor Refresh will be provided by General Dynamics, Falls Church, VA.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Japan involving U.S. Government and contractor representatives for technical reviews, support, and oversight for approximately eight years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 19-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AEGIS Weapon System (AWS) is a multi-mission combat system providing integrated Air and Missile Defense for surface ships. This sale consists of the modified J7 Foreign Military Sales (FMS) baseline (AWS Baseline 9.C2 along with Ballistic Missile Defense (BMD) 5.1 capability). No integrated Anti-Air Warfare capability will be provided. AWS Software, documentation, combat system training and technical services will be provided at the classification levels up to and including SECRET within approved release and disclosure guidelines. The manuals and technical documents are limited to those necessary for operational use and organization maintenance.

2. Hardware includes AWS Computing Infrastructure Equipment, including Blade Processors, Fire Control System (FCS) MK 99, Vertical Launching System (VLS) MK 41, combat system support equipment, logistics support equipment, and the Digital Signal Processing Group. The Digital Signal Processing group will be derived from the Multi-Mission Signal Processor and will be integrated with Lockheed Martin's Solid State Radar (SSR) which is being procured by Japan via Direct Commercial Sale contract. The Digital Signal Processing Group will be capable of BMD mission only. The hardware is UNCLASSIFIED.

3. The AN/UYQ-120(V) Command and Control Processor (C2P) System is a Tactical

Data Link (TDL) message distribution system that provides real-time control and management of Tactical Digital Data Links (TADILs) in support of all major surface ship and shore Command, Control, and Communications (C3) systems. The C2P is a follow-on Technical Refresh (TR) upgrade for the legacy AN/UYQ-86(V) variants 1 through 7 of the Common Data Link Management system (CDLMS). The AN/UYQ-120(V) C2PS has three variants depending on the host site in which it is installed and only uses trusted software. The highest classification of the hardware and software to be exported is SECRET. Identification and security classification of classified equipment, major components, subsystems, software, technical data, documentation, training devices and services to be conveyed with the proposed sale.

4. If a technologically advanced adversary obtained knowledge of the specific hardware or software in the proposed sale, the information could be used to develop countermeasures which might reduce weapons system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Japan can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to Japan.

#### TRIBUTE TO ROBERT CARDILLO

Mr. BLUNT. Mr. President, I take this opportunity to honor the work and career of Mr. Robert Cardillo. On February 7, 2019, Robert Cardillo will conclude nearly 36 years of service with the U.S. intelligence community, ending as Director of the National Geospatial-Intelligence Agency, or NGA.

In 1983, Robert began his career at the Defense Intelligence Agency, or DIA, as an imagery analyst. He served in a multitude of positions for DIA and NGA, to include Acting Director of Intelligence for the Joint Staff, in which he supported the Chairman of the Joint Chiefs of Staff, which is the first time a civilian has ever held that position. He was then selected by the Director of National Intelligence, the DNI, to be the first ever Deputy Director for Intelligence Integration. In that capacity, he was responsible for vastly improving intelligence integration, the principal mission of the DNI as established under the Intelligence Reform and Terrorism Prevention Act. As a critical additional duty, Robert also served as the primary briefer for the President's daily brief at the White House.

From 2014 to 2019, Mr. Cardillo then led NGA as its Director. Under his guidance and direction, NGA provided much lauded geospatial intelligence support to U.S. and allied combat operations in Southwest Asia and around the globe, assisting in the fight against militant extremists. NGA also conveyed key indications and warning during crises in Northeast Asia, the Mid-

dle East, North and Central Africa, Eastern Europe, and elsewhere.

Highlighting the need to get unclassified data to the warfighter and our allies, Director Cardillo pushed hard for unclassified geospatial intelligence, or GEOINT, to exist in the open. He urged NGA to work in tandem with commercial satellite imagery providers and other unclassified industry partners. His support of innovation in artificial intelligence, automation and augmentation, and his focus on activity-based intelligence set NGA on a course to improve the speed and quality of geospatial and imagery analysis. His attention to the ebola crisis in West Africa and other humanitarian assistance and disaster response initiatives showed the value of human geography to the world.

Director Cardillo was equally successful at forging new multinational partnerships in Europe and Asia, and his outreach to industry, academia, think tanks, and other international partners led to an informal but increasingly thriving global GEOINT enterprise.

Mr. Cardillo was also the first NGA director to emphasize the importance of the Arctic and Antarctica and the first to take on the security, quality, and pedigree of imagery pixels and data, so that the GEOINT enterprise can continue to serve as a safe foundational frame of reference for the entire intelligence community.

Robert led NGA with integrity for more than 4 highly challenging and demanding years, to include the selection of a future headquarters site in St. Louis, MO. He laid the groundwork for a world-class building that will be designed to endure well into the 22nd century and to serve as the modern workplace that his workforce so richly deserves.

Director Cardillo will long be remembered as a relentless visionary who restructured the future of his field to embrace public and private partnerships, data science, and machine learning. His far-sighted vision will continue to drive requirements and ensure that NGA shows the way to a safer United States and a more secure world.

We thank him for his years of service to the intelligence community and to this country.

#### ADDITIONAL STATEMENTS

##### REMEMBERING ROGER DAVID MARSH

• Mr. BLUNT. Mr. President, I ask the Senate to join me today to support the posthumous promotion of U.S. Marine Corps SSgt Roger David Marsh to gunnery sergeant. Today I would like to recognize the distinguished service of Mr. Marsh, who passed away at the age of 72 on June 17th, 2008.

Mr. Marsh served honorably in the U.S. Marine Corps for 20 years with a superior record, including combat ac-

tions against enemy forces throughout his career in both Korea and Vietnam. Throughout his time in the Marine Corps, he received numerous awards and citations to include the bronze star with valor. Additionally, he made significant contributions to his community after his retirement from the Marine Corps by actively participating in the Veterans of Foreign Wars and American Legion, as well as his 30 years of exceptional service as chief of policy for Webb City, MO.

Prior to Staff Sergeant Marsh's retirement from the Marine Corps, he was selected for promotion to gunnery sergeant. He worked diligently for 8 years to get that promotion. Due to personal reasons, he chose to leave the Marine Corps prior to the 2-year obligation of service and therefore was not promoted. Forty-five years after his retirement, we can finally honor his service and legacy through a posthumous promotion.

The State of Missouri and our Nation were very lucky to have such a dedicated member to the community. Mr. Marsh's extraordinary service to the Marine Corps and time after his retirement were remarkable. His actions rise to the level of service that warrants this unique honor. Therefore, I ask my colleagues to join me in honoring Roger David Marsh's life and legacy with the distinction of gunnery sergeant. •

#### VERMONT STATE OF THE UNION ESSAY FINALISTS

• Mr. SANDERS. Mr. President, I ask to have printed in the RECORD some of the finalist essays written by Vermont High School students as part of the ninth annual State of the Union essay contest conducted by my office.

The essays follow, in alphabetical order according to the finalists' names. The material follows:

MEGAN BENWAY, MISSISQUOI VALLEY UNION  
HIGH SCHOOL, JUNIOR, FINALIST

A problem that is growing rapidly in our world would be the increase in children entering foster care due to the opioid crisis. The White House stated that "in 2016, more than two million Americans had an addiction to prescription or illicit opioids." This shows that there is a huge climb in the amount of people getting addicted. Emily Birnbaum and Maya Lora, writing for The Hill, reported that "the population of children in foster care had risen by 15 percent to 30 percent in just the last four years." This shows that due to opioid crisis, the foster care system is filling up, and they don't have enough homes for the children.

The first solution that could help would be to get more funding for the state to use on children and treatments. There has been funding given due to President Trump taking office; "more than \$1 billion in funding has been allocated or spent directly addressing the drug addiction and opioid crisis" (The White House). A couple ways the funding could be used for would be for hiring more social workers. A lot of the children don't get the attention they need because there are so many cases of children for one person to do.

The second solution would be to make getting treatment easier, not only getting more
