HONORING DR. STANLEY J. DUDRICK
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 19, 2019

Mr. MEUSER. Madam Speaker, it is with great respect and admiration that I rise today to recognize Dr. Stanley J. Dudrick and his many contributions to the field of medical science and to his home community in Northeast Pennsylvania.

Dr. Dudrick grew up in Nanticoke, a small Pennsylvania coal mining town, and through hard work and dedication, grew to become a prominent figure in the medical profession. His research led to the development of a technique that revolutionized patient care—the practice of total parenteral nutrition (TPN). TPN allows individuals who are unable to obtain adequate nutrition through the digestive tract to receive much-needed nutrition intravenously. The TPN method has helped save an estimated 10 million children and has been acknowledged as one of the most important advancements in surgery of the past century.

Dr. Dudrick's contributions to the medical profession extend beyond his pioneering research. He has published over 700 works related to the care and management of surgical patients and has authored or co-authored over 2,500 scientific referenced citations—the most for any general surgeon. In addition to serving the residents of Pennsylvania's Ninth Congressional District as the medical director of the physician assistant program at Misericordia University and professor of surgery at The Commonwealth Medical College, Dr. Dudrick is chairman emeritus in the Department of Surgery and director emeritus of Program in Surgery at Saint Mary's Hospital, and professor emeritus of surgery at the Yale University School of Medicine.

Advancements in medical research have allowed us to make important strides in increasing the quality of life for individuals who suffer from a variety of medical conditions, finding more effective and less invasive treatments, and most importantly, saving more lives. Dr. Dudrick is a pioneer in this regard, and his ingenuity, scientific prowess, and dedication to the human condition has made him a fixture in the medical community.

Dr. Dudrick, through his creative thinking and ground-breaking invention, has improved the health of millions around the world and contributed to the survival of countless more. Madam Speaker, I ask that my colleagues join me in recognizing and thanking Dr. Dudrick for his many contributions to the medical community.

RECOGNIZING GARY NEAL
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 19, 2019

Mr. WALDEN. Madam Speaker, I rise today to recognize my good friend, Gary Neal, for his many years of hard work and dedicated service to the Port of Morrow, Morrow County, and Eastern Oregon. Gary has served as Port Manager for nearly 30 years, and I would like to pay tribute to his leadership in the region. After five years as the Manager at the Port of Clarkston, Gary was hired in 1989 to manage the Port of Morrow. Since that time, and thanks to Gary's leadership, the Port has grown to be the second largest Port in the state of Oregon.

The Port now houses facilities for everything from value-added agriculture processing to high tech data centers. It serves the area as an economic powerhouse. In 2017 alone, the Port generated $2.7 billion of economic output and created nearly 8,500 jobs either directly or indirectly. From 2008 to 2013, the second worst economic downturn this country has experienced, the Port grew by 88 percent. All of this was driven by Gary's visionary leadership of the Port.

Despite the multitude of successes, Gary is humble about these achievements. While all the above mentioned statements are fact, Gary often refuses credit, and instead points to his commissioners and the community when explaining the success of the Port.

This focus on community is also evident in the Port's countless efforts to support community development projects. Whether it is parks, schools, or athletic facilities, the Port never hesitates to contribute to the growth of the community.

In addition to his commitment to the Port, Gary has served the community in many other ways. He currently serves on the board for The Bank of Eastern Oregon; Pacific Northwest Waterways Association; is past president of the Oregon Public Ports Association; served on the Infrastructure Finance Authority Board for the State of Oregon for eight years, and is an active committee member with several other groups.

This breadth of experience and involvement has made Gary a great asset to me on a variety of issues affecting the Port and the surrounding area. On everything from issues with the Navy’s Boardman Bombing Range and the Army’s Umatilla Chemical Depot, to river transportation and renewable energy, I’ve leaned upon Gary’s experience and ideas as we navigated toward solutions. As Gary begins his well-earned retirement, I know he is looking forward to spending time with his family. Gary and his wife Kathy have been married for 45 years and have two children. Their daughter Rochelle is married and works for Nike. Their son Ryan is taking over as the Manager of the Port of Morrow. The apple didn’t fall far from the tree.

CONGRATULATING THE ROCK ENERGY COOPERATIVE ON 83 YEARS OF SERVICE TO ITS MEMBERS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 19, 2019

Mrs. BUSTOS. Madam Speaker, I rise today to recognize the Rock Energy Cooperative for celebrating 83 years of service. Since they were founded, they have only continued to grow and expand their services.

The Rock Energy Cooperative’s articles of incorporation were first filed in 1936 and has been bringing electricity to homes across our region ever since. Starting out with 199 members, it has since expanded to draw thousands of members. In 2007, Rock Energy Cooperative expanded their operations to Illinois when they acquired South Beloit Water, Gas & Electric from Alliant Energy. Following this addition to their service, the membership increased by ten thousand and now reached across two states, Wisconsin and Illinois. However, electricity is not the only service they deliver as they also provide natural gas to people across Illinois. Throughout all of their years of service and powering homes across our region, they have consistently met their member’s needs, especially those living in rural areas.

It is because of businesses such as the Rock Energy Cooperative that I am especially proud to serve Illinois’ 17th Congressional District. Madam Speaker, I would like to again formally congratulate the Rock Energy Cooperative on its 83 years of service to the community.

RECOGNIZING SECOND BAPTIST CHURCH OF ELGIN
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 19, 2019

Mr. KRISHNAMOORTHI. Madam Speaker, today I rise to honor Second Baptist Church of Elgin, a spiritual pillar of the Elgin, Illinois African-American community for over 150 years. During Black History Month, I want to celebrate the beginnings of this vibrant congregation and the important contributions it has made over its long and rich history.

The first African-American residents of Elgin, former slaves who sought shelter with Union Troops after the battle of Shiloh, arrived in 1862. These newly freed citizens, regarded as “contraband” property seized by Union armies, were sent north in Union railway cars.

Congratulations to my good friend Gary Neal on a much respected and successful career. I ask my colleagues to join me in wishing him well as he pursues his next adventure.
With the assistance of clergy from First Baptist Church of Elgin, they settled in the area to form the cornerstone of a new African-American community. Desirous of having a place of worship they could call their own, the newcomers founded Second Baptist Church of Elgin on December 2, 1866.

Under the leadership of Reverend Dr. Nathaniel Edmund, affectionately known as Pastor Nate, Second Baptist Church honors the determination and courage of its founders with its sacred presence and community involvement. The church is a spiritual home to thousands of worshipers, and in 2008 expanded its capacity to serve with the construction of an award-winning multi-purpose building adding classrooms, a nursery, a welcome center, and a recreation and performance auditorium to its campus. In recent years, Second Baptist Church has broadened its reach through initiatives including the Prison Ministry, the “Operation Joshua” street ministry, and the SAFE Ministry to break the cycle of domestic violence. The church partners with Sheridan Elementary School and Larsen Middle School to mentor and tutor students identified as at-risk youth and has hosted numerous summits on issues of concern to the community. And emblematic of the church’s outward focus, Pastor Nate has served on boards or in other capacities for a variety of important organizations in the Elgin area, including the Alignment Collaborative for Education, Advocate Sherman Hospital, the United Way of Elgin, Judson University, U-46 School District, the NAACP of Greater Elgin, and the African-American Christian Ministers Alliance of Elgin.

The ministry of Second Baptist Church is not limited to the local community, and an important part of its mission is to provide comfort and support wherever the need is most urgent. In the aftermath of Hurricane Katrina, Second Baptist Church rallied to aid families rendered homeless by the storm’s devastation and adopted survivors who resettled in the Elgin area. In 2007, as part of its effort to support the ongoing ministry of World Vision, the church extended its generosity and compassion to a community in Tanzania, helping to build a housing complex for teachers and port the ongoing ministry of World Vision, the African-American Christian Ministers Alliance of Elgin.

I believe the newly emancipated founders of Second Baptist Church would be deeply gratified by the congregation they established, now spanning three centuries of service. Madam Speaker, I want to recognize this profoundly American story of faith, determination, and good works, and acknowledge the tireless service of Second Baptist Church of Elgin to our community in the 8th Congressional District, as well as to all in need throughout the world.
February 19, 2019  CONGRESSIONAL RECORD — Extensions of Remarks  E191

squadron. He flew 27 successful missions over Europe as an officer and navigator.

In 1944, his bomber was shot down under heavy enemy fire, and Mr. Firestone sustained serious injuries. He and his crew spent six days wandering through the Austrian Alps before being captured by local police and taken to a Nazi POW camp near the German-Polish border. As a prisoner of war, Mr. Firestone persevered despite access to little food, adequate clothing, heat and other basic necessities.

When his captors interrogated Mr. Firestone and asked him why he bombed Austria, he responded simply: "Ich bin Juden (I am a Jew)."

During a relocation march, Firestone and several other prisoners managed to escape and reunited several days later with American soldiers.

After returning home to the United States in 1945, Mr. Firestone studied at Northwestern University and became a certified public accountant. He married, had children and raised his family in Highland Park. He suffered life-long repercussions of his internment as a POW, seeking medical assistance from Hines VA Hospital near Chicago.

He is an active member of the American Legion, Jewish War Veterans, and Veterans of Foreign Wars. He also published a nonfiction book in 2002 about his experience in the war.

As he celebrates his 100th birthday, it is my great honor and privilege to recognize Nathan Firestone for his service to our country during World War II and his deep involvement in our community.

Ms. Wasserman Schultz. Madam Speaker, it is with great pleasure that I honor the distinguished career and retirement of Dr. Robert Atlas.

Dr. Atlas has served our nation for more than 40 years as a federal employee. He is the Deputy Director of NOAA's Atlantic Oceanographic and Meteorological Laboratory (AOML), where he has transformed AOML into a world class scientific organization focused on NOAA's mission and national needs.

Dr. Atlas received his Ph.D. in Meteorology and Oceanography in 1976 from New York University. Throughout his career, he has served our nation as head of the NASA Data Assimilation Office and as Chief Meteorologist at NASA GSFC. He was also a key member of the team that first demonstrated the significant impact of quantitative satellite data on numerical weather prediction.

Dr. Atlas has been committed to diversity, inclusion and equal opportunity, and under his leadership, AMOL has received several NOAA awards and is the most diverse of all NOAA laboratories.

I have had the pleasure of working directly with Dr. Atlas to inform the public of the upcoming Hurricane Season each year. His professionalism is unmatched, and I am grateful for his unwavering commitment to keeping Americans safe.

I am proud today to honor his leadership and wish him and his family well on his retirement.

RECOGNIZING JACOB JOSEPH ON HIS 100TH BIRTHDAY

HON. BRADLEY SCOTT SCHNEIDER
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 19, 2019

Mr. SCHNEIDER. Madam Speaker, I rise today to recognize Mr. Jacob Joseph, a World War II veteran and member of the greatest generation, ahead of his 100th birthday, which he will celebrate on April 3.

Mr. Joseph grew up in Knox, Indiana as one of five children. At age 17 he moved to Chicago and took a job working the soda fountain in the lobby of the Hotel Sherman, where he met an Army Lieutenant who encouraged him to enlist.

Mr. Joseph completed his basic training at Fort Sheridan in the Tenth District, and then was stationed in North Carolina and New York before shipping out to Europe. He served in the Seventh Army, which was the first U.S. field army to experience combat in World War II, as a Staff Sergeant in the 682nd Ordinance Ammunition unit. The Seventh advanced over 1,000 miles in nine months of continuous fighting, capturing Palermo and Messina, and liberating Marseilles and other cities during the course of the war.

Mr. Joseph worked supplying food to the armed forces. He received several awards for his service, including the Bronze Service Arrowhead and a Good Conduct Medal.

After the war ended, Mr. Joseph returned to Indiana and soon married his late wife, Bea. The couple then moved to Chicago, where they opened "Jake's," an innovative burger joint on Armitage Avenue. "Jake's" became a hometown favorite, and Mr. Joseph opened several other locations in the Chicago land area and in the Tenth District, as well as launched a retail line of frozen foods.

Eventually, Mr. Joseph and his wife moved to Northbrook to raise their two children. In Northbrook, Mr. Joseph continued to exercise his entrepreneurial spirit, receiving patents for designs of a paper towel holder and a napkin holder. He still enjoys creating and building replica models and spending time with his two grandchildren.

As he approaches his 100th birthday, it is my great honor and privilege to recognize Jacob Joseph for his service to our country and allies during World War II and his continued contributions to the Tenth District community.
