BACKGROUND CHECKS WORK

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Mr. Speaker, today is a momentous day, one that makes me proud of this Chamber. After years of inaction, Congress is moving to address our country's gun violence problem.

We have seen some of the worst mass shootings in our Nation's history in just the past few years. Las Vegas, Thousand Oaks, Sutherland Springs, Parkland, Sandy Hook—these are only a few of the names that recently shocked us to the core. And, sadly, each time, Congress failed to act.

But today—today—we are offering more than thoughts and prayers. We are offering legislation. This bill has bipartisan support—finally, something we can all agree on.

Strengthening our background check system is a small but a very important first step. We simply cannot allow criminals to take advantage of loopholes.

Background checks work. They keep guns out of the hands of criminals, and background checks will save lives.

No more excuses. It is just common sense.

CLOSING BACKGROUND CHECK LOOPHOLE IS LIFE SUPPORT

(Mr. DOGGETT asked and was given permission to address the House for 1 minute.)

Mr. DOGGETT. Mr. Speaker, selling a gun to a convicted felon, to a perpetrator of domestic violence, to a fugitive from justice, merits a jail term, but those who oppose this reasonable background check bill are enabling just that.

Someone who couldn't buy a .22 inside a gun shop can, today, go outside that shop and buy a military-style killing machine and get away with it.

Doctors Seth Goldstein and Lisa Epstein, who visited my office this very week on behalf of Moms Demand Action, and 117 San Antonio physicians, they have a view that is different from Members of Congress concerning the result of gun violence. They witness this violence in the emergency room after young bodies are torn apart.

What a different view this debate would have if it were occurring amidst the pain, violence, and blood in a hospital emergency room, because closing this loophole is about life support.

We have got to end the trauma. Let's join the doctors who are out there seeking to save lives and do our part to save lives by passing this bill.

BACKGROUND CHECK BILL

(Mr. MICHAEL F. DOYLE of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. MICHAEL F. DOYLE of Pennsylvania. Mr. Speaker, more than 500 Pennsylvanians are murdered with guns each year, causing untold suffering and tearing our communities apart. Pennsylvanians are crying out for commonsense legislation to stop the bloodshed, legislation like H.R. 8, the bill before us today.

Now, nobody thinks that universal background checks would eliminate gun violence, but the facts suggest that they would reduce it.

In 2017, the Pennsylvania State Police ran over a million background checks on would-be gun purchasers. The vast majority of purchases were approved within a few minutes. But 13,000 were stopped, and the background checks led to the arrest of 150 wanted fugitives and the arrest and conviction of 500 other individuals for illegally attempting to obtain a firearm. Those background checks put some bad guys in jail, and they probably saved some lives as well.

Let's help our police enforce the laws that keep guns out of dangerous hands. Vote for the Bipartisan Background Checks Act of 2019.

BALANCING GUN RIGHTS WITH SAFE COMMUNITIES

(Ms. UNDERWOOD asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. UNDERWOOD. Mr. Speaker, I rise today to take a stand in support of H.R. 8, which takes a critical first step to ensure that every person who purchases a gun undergoes a background check.

People should have the right to feel safe from gun violence in their community, including at home, at work, and at school. Unfortunately, that is not the case today in our country. Time and time again, our communities have experienced gun violence due to the absence of commonsense gun safety measures.

Only 12 days ago, five people, four of whom were my constituents, left their homes for work at the Henry Pratt Company in Aurora, Illinois, and never returned. Their lives were taken by an unspeakably horrific act of gun violence.

It is time to take immediate action to help safeguard our communities from gun violence, and today, for the first time in more than two decades, the House of Representatives will vote on a major gun safety bill, and I will support it.

H.R. 8 is a strong step toward making our communities safer, and I look forward to continuing to work on commonsense legislation that balances gun rights with the safety of our communities.

GUN VIOLENCE PREVENTION

(Ms. SCHAKOWSKY asked and was given permission to address the House for 1 minute.)

Ms. SCHAKOWSKY. Mr. Speaker, I am so proud to stand here today as we work to pass gun violence prevention legislation.

I would like to share a letter from a fifth grader constituent of mine, Alex, from Northfield, Illinois, that perfectly explains why we must pass H.R. 8 and H.R. 1112.

Alex writes: "I don't want to see innocent people dying for no reason. I want all children to feel safe at school. I want all adults to feel safe at work. I want all people to feel safe in their city. I think stronger gun laws will help and also make sure that everyone that buys a gun has to have a thorough background check."

Well, Alex, you are absolutely right, and we are about to finally ensure that everyone who purchases a gun undergoes a comprehensive background check. The next step is banning assault weapons.

This fifth grader and students around the country are telling us to do something real to make them safer, and finally, at long last, the House of Representatives will take action today.

BEER CAN APPRECIATION/ ALUMINUM BILL

(Mr. BUCK asked and was given permission to address the House for 1 minute.)

Mr. BUCK. Mr. Speaker, I would like to recognize the critical role that brewers and beer importers play in our Nation's economy.

American beverage companies and brewers employ more than 2.2 million people nationwide, providing more than \$103 billion in wages and benefits. In my home State of Colorado, breweries have become a significant component of my State's culture and economy.

But in order to compete, American beverage companies and brewers need a fair and transparent pricing system for aluminum. That is why I along with my friend, Mr. LAWSON from Florida, are introducing legislation this week giving the U.S. Commodity Futures Trading Commission oversight authority of the aluminum market. These unfair market practices have not only cost the beverage and brewing industries hundreds of millions of dollars, they have also had harmful effects on consumers.

With the help of the CFTC, I hope we can resolve these pricing irregularities that have been plaguing the market so our Nation's beverage companies and brewers can continue to produce some of America's most popular beverages.
