

successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

Mr. SMITH of New Jersey. Mr. Speaker, I do urge the Speaker, respectfully, and the majority leader to bring the bill up quickly.

MULTIPLE SCLEROSIS SUPPORT GROUP OF HUDSON COUNTY

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Madam Speaker, I rise today to celebrate the launch of a wonderful new group in my district, the Multiple Sclerosis Support Group of Hudson County.

Multiple sclerosis is a progressive immune disorder. For people with MS, the internal systems designed to keep their bodies healthy wind up attacking other parts of their body. Their immune system eats away at the protective covering of their nerves.

Severe cases of MS result in paralysis, vision loss, and diminished brain function. Nearly a million people in the United States are living with multiple sclerosis.

The MS Support Group of Hudson County aims to bring people together to help support, encourage, and uplift people who are diagnosed with MS, as well as their caregivers, friends, and families.

I am proud of my constituents' work on behalf of the people in their community. Groups like this serve an important role in society, and I am honored by their commitment to helping one another.

READ ACROSS AMERICA DAY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, Saturday kicked off Read Across America Day and officially began National Reading Month.

The National Education Association celebrates readers, authors, and stories annually during March. For the past 20 years, NEA's Read Across America Day is a nationwide reading celebration that takes place annually on March 2, which is Dr. Seuss' birthday.

Across the country, thousands of schools, libraries, and community centers participate by bringing together kids, teens, and books to celebrate reading with young people. The message is clear: Through the magic and wonder of books, you can be anything and go anywhere. This month helps make students excited and engaged in reading.

Children across the country have celebrated Read Across America Day,

and I hope they keep it going for 365 more days because, as the beloved Dr. Seuss said: "The more that you read, the more things that you will know. The more that you learn, the more places you'll go."

FAIRNESS FOR HIGH-SKILLED IMMIGRANTS

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Madam Speaker, we often hear about the immunotherapy revolution, medicine's next frontier, which is right now, for extending or even saving lives. Dr. Sadhak Sengupta and his wife, Sudarshana, two talented scientists from Rhode Island, are on the cutting edge of this research.

Dr. Sengupta is the director of brain tumor immunotherapy research at Rhode Island Hospital and an assistant professor at Brown University. He has been working as a scientist in the United States since 2002, and he holds numerous patents.

Despite these achievements, Dr. Sengupta has been unable to get a green card simply due to the country of his birth, India. For years, we have reached the per-country cap on employment-based green cards for India, and the current backlog is, right now, measured in decades.

Sadhak and Sudarshana dream of launching a startup, but 17 years after moving to this country, they still live in uncertainty. Madam Speaker, that is why I support the Fairness for High-Skilled Immigrants Act, a bill to remove per-country green card caps and treat all immigrants equally.

It is the right thing to do for the Senguptas and for all Americans and their families who will benefit from their research and their greatness of spirit.

HONORING THE LIFE AND LEGACY OF FAITH CHRISTINE BARCROFT

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute.)

Mr. WILLIAMS. Madam Speaker, I would like to take this time to honor the life and legacy of my good friend, Jack Barcroft's wife, Faith Christine Barcroft.

Mrs. Barcroft resided in Gatesville, in the 25th District of Texas that I represent. At the young age of 39, she passed away on February 20, 2019, from glioblastoma.

Glioblastoma is a very aggressive cancer that can occur in the brain or spinal cord. It is the most common type of brain cancer, and almost 200,000 people die of it each year. Madam Speaker, this number is far too high, and it breaks my heart that my dear friend fell victim to it.

Before and after her diagnosis, Faith was a loving wife, mother, and daughter. She was often described as adven-

turous, welcoming, and she always put her family's well-being above her own. This family has experienced an immeasurable loss, and the entire Gatesville community and I are praying for them.

While we cannot bring Faith back, we can continue to raise awareness for glioblastoma and the pain it causes families like the Barcrofts. Unfortunately, there is no known way to prevent this type of cancer, but we must not give up. We must bring attention to this unforgiving diagnosis and pray that one day, research will uncover a cure.

Please keep this loving family in your prayers.

May God bless the Barcrofts.

In God we trust.

OUR POLITICAL SYSTEM IS RIGGED

(Ms. WILD asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WILD. Madam Speaker, constituents, Democrats, Republicans, and Independents alike, have told me that they feel that our political system is rigged against working, middle-class, and low-income Americans. And in many ways, they are right.

It is rigged by politicians who make it harder to vote, and it is rigged by massive corporations that fund candidates who will give them tax breaks and access to Washington.

H.R. 1 will move our country forward. It will ensure every American can cast a ballot, end partisan gerrymandering, and reduce the influence of the ultrawealthy, corporations, and special interests. And it will allow us to finally get to work on the issues that matter most to my constituents: creating an economy that works for all, providing healthcare to all, and combating climate change.

As part of this effort, I am proud to introduce a bill that will help working Americans make it to the voting booth. By requiring every State to hold at least 15 days of early voting, this measure will raise turnout and make our elections fairer and more representative of our people.

Let's return government to the people. Let's pass H.R. 1 right away.

HONORING THE FIRST RESPONDERS TO THE RECENT FLOODING IN TENNESSEE

(Mr. GREEN of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. GREEN of Tennessee. Madam Speaker, I rise today to honor the first responders who have been working around the clock tirelessly since the recent flooding in Tennessee.

Last week, I visited a few counties to see the damage and hear from the local officials firsthand. The damage to our infrastructure, homes, and businesses
