

broadband industry used tortured logic to defend the repeal of net neutrality and reclassification of broadband.

I also organized an amicus brief with 100 other Members of the Senate and House in defense of the net neutrality rules. I am confident we will prevail in court. Net neutrality is just another way of saying nondiscrimination, just another way of saying big companies can't discriminate against small companies; that big companies can't discriminate against small individuals; that they have equal access to the internet. They don't have to pay extra to gain access. Net neutrality means nondiscrimination. Those are the rules we need for the internet in order to see explosive economic growth because of the new ideas that are able to be introduced and at the same time so democracy can flourish because every voice is treated equally on the internet.

So whether it is in the Halls of Congress or in the courts, we will not stop fighting until net neutrality is fully restored. We are on the right side of history, and we will not give up this fight until we have won.

I thank you for the time.

At this point, I yield the floor.
