

institutions to take more responsibility to address college affordability and student loan debt and improve student outcomes. I urge my colleagues to cosponsor this bill and look forward to working with them to include it and other key reforms in the upcoming reauthorization of the Higher Education Act.

By Mr. REED (for himself, Mr. CASEY, and Mr. COONS):

S. 969. A bill to improve quality and accountability for educator preparation programs; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, we know that the quality of teachers and principals are two of the most important in-school factors related to student achievement. Yet the pipeline into the profession is in disrepair. A report from the American Association of Colleges of Teacher Education showed that the number of education degrees awarded peaked at 200,000 per year in the 1970s and has dwindled to fewer than 100,000 today. This is at a time when all fifty States have reported experiencing statewide teacher shortages in at least one teaching area for the 2016–17 or 2017–18 school year. If we want to improve our schools, it is essential that we invest in the professional preparation of teachers, principals, and other educators. As such, today, I am reintroducing the Educator Preparation Reform Act with my colleagues Senators Casey and Coons to ensure that the Federal government continues to be a partner in addressing this critical national need.

The impact of educator shortages falls the hardest on our most vulnerable students in our highest need communities. Rhode Island is no exception, with Providence, the largest school district, facing an acute shortage of teachers certified to teach English language learners. My home State has also reported shortages in special education, science, math, world languages, and school nurses.

We cannot solve this problem without improving both teacher and principal preparation. We need to make sure that our educator preparation programs are worthy of the professionals entering the field and the students they will serve. The Educator Preparation Reform Act is a key part of the solution.

Our legislation builds on the successful Teacher Quality Partnership Program, which I helped author in the 1998 reauthorization of the Higher Education Act. It continues the partnership between high-need school districts, institutions of higher education, and educator preparation programs to reform pre-service programs based on the unique needs of the partners. Among the key changes are specific attention and emphasis on principals and the addition of a residency program for new principals. Improving instruction is a team effort, with principals at the

helm. This bill better connects teacher preparation with principal preparation. The Educator Preparation Reform Act will also allow partnerships to develop preparation programs for other areas of instructional need, such as for school librarians, counselors, or other academic support professionals.

The bill streamlines the accountability and reporting requirements for teacher preparation programs to provide greater transparency on key quality measures such as admissions standards, requirements for clinical practice, placement of graduates, retention in the field of teaching, and teacher performance, including student-learning outcomes. All programs—whether traditional or alternative routes to certification—will report on the same measures.

Under our legislation, States will be required to identify at-risk and low-performing programs and provide them with technical assistance and a timeline for improvement. States would be encouraged to close programs that do not improve.

Our legislation also makes important improvements to the TEACH Grants. It focuses the grants on the later years of teacher preparation, reducing the potential of the grants being converted to loans if a student decides to change majors. Additionally, it allows prorating the amount of grants converted to loans, giving teachers credit for partially completing the service requirement. Finally, it requires the Department of Education to establish an appeals process for grants wrongly converted to loans and to report to Congress annually on the number of conversions and appeals.

We have been fortunate to work with many stakeholders on this legislation. Organizations that have endorsed the Educator Preparation Reform Act include: the American Association of Colleges for Teacher Education, American Federation of Teachers, Higher Education Consortium for Special Education, Hispanic Association of Colleges and Universities, National Association of Elementary School Principals, National Association of Secondary School Principals, National Association of State Directors of Special Education, National Education Association, Public Advocacy for Kids, and the Teacher Education Division of the Council for Exceptional Children.

I look forward to working to incorporate this legislation into the upcoming reauthorization of the Higher Education Act. I urge my colleagues to join us in this effort and support this legislation.

SENATE RESOLUTION 133—HONORING THE LIFE AND LEGACY OF ELIZEBETH SMITH FRIEDMAN, CRYPTANALYST

Mr. WYDEN (for himself and Mrs. FISCHER) submitted the following reso-

lution; which was considered and agreed to:

S. RES. 133

Whereas Elizebeth Smith Friedman was born on August 26, 1892, in Huntington, Indiana;

Whereas, at 19 years of age, Friedman began to study Greek and English literature at Wooster College in Ohio and later graduated from Hillsdale College in Michigan after transferring there;

Whereas Friedman stumbled upon her career as a codebreaker by accident after assisting with cipher research at the Riverbank facility of businessman George Fabyan;

Whereas, in the 1920s, government agents recruited Friedman to break codes for the Coast Guard;

Whereas, based on her work, the Coast Guard subsequently asked Friedman to form a group to decrypt intercepts;

Whereas, in the early 1930s, Friedman created and managed the first codebreaking unit ever to be run by a woman;

Whereas, during World War II, Friedman and her team in the Coast Guard, working simultaneously with, but independently of, the well-known British codebreaking group led by Alan Turing, broke the Enigma G machine used by Germany, enabling the decryption of intercepted messages between German operatives in South America and their overseers in Berlin, thus stopping an alliance between Nazi Germany and countries in South America;

Whereas Friedman co-authored several of the Riverbank Publications, which became the “textbook” for training individuals in the United States on encryption and codebreaking from the 1930s to the 1950s;

Whereas J. Edgar Hoover of the Federal Bureau of Investigation took credit for the achievements of Friedman and her team, leaving her work widely unrecognized until after her death;

Whereas, in the 1990s, to honor the contributions of both Friedman and her husband, who was also a codebreaker, the National Security Agency renamed its auditorium as the William F. Friedman and Elizebeth S. Friedman Memorial Auditorium;

Whereas Elizebeth Smith Friedman continues to be a beacon of inspiration for women in the national security community and for women pursuing STEM-related fields;

Whereas the work of individuals such as Elizebeth Smith Friedman distinctly shows how strong encryption technology can change the course of history; and

Whereas Elizebeth Smith Friedman died on October 31, 1980, leaving behind a legacy of remarkable skill and technical ingenuity, woven together to solve the most complex secret messages in the world: Now, therefore, be it

*Resolved*, That the Senate honors the life and contributions of Elizebeth Smith Friedman, a pioneer in codebreaking.

(1) a determination of whether the covered legislation creates any new Federal program,

office, or initiative that would duplicate or overlap with any existing Federal entity with similar mission, purpose, goals, or activities; and

(2) a listing of all such instances of duplication or overlapping created by the covered legislation.

**SEC. 5006. BREAKDOWN OF COST ESTIMATES BY BUDGET FUNCTION.**

Any cost estimate prepared by the Congressional Budget Office shall specify the percentage of the estimated cost that is within each budget function.

**SEC. 5007. SENSE OF THE SENATE ON TREATMENT OF REDUCTION OF APPROPRIATIONS LEVELS TO ACHIEVE SAVINGS.**

(a) FINDINGS.—Congress finds the following:

(1) H. Con. Res. 448 (96th Congress), the concurrent resolution on the budget for fiscal year 1981, gave authorizing committees reconciliation instructions which amounted to approximately two-thirds of the savings required under reconciliation.

(2) The language in H. Con. Res. 448 resulted in a debate about how reconciling discretionary spending programs could be in order given that authorizations of appropriations for programs did not actually change spending and the programs authorized would be funded through later annual appropriation. The staff of the Committee on the Budget of the Senate and the counsel to the Majority Leader advised that upon consultation with the Parliamentarian, the original instructions on discretionary spending would be out of order because of the phrase, “to modify programs”. This was seen as too broad and programs could be modified without resulting in changes to their future appropriations.

(3) To rectify this violation, the Committee on the Budget of the Senate reported S. Con. Res. 9 (97th Congress), revising the congressional budget for the United States Government for fiscal years 1981, 1982, and 1983, to include reconciliation, which revised the language in the reconciliation instructions to change entitlement law and “to report changes in laws within the jurisdiction of that committee sufficient to reduce appropriations levels so as to achieve savings”.

(4) This was understood to mean changes in authorization language of discretionary programs would be permissible under reconciliation procedures provided such changes in law would have the result in affecting a change in later outlays derived from future appropriations. Further it was understood that a change in authorization language that caused a change in later outlays was considered to be a change in outlays for the purpose of reconciliation.

(5) On April 2, 1981, the Senate voted 88 to 10 to approve S. Con. Res. 9 with the modified reconciliation language.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that committees reporting changes in laws within the jurisdiction of that committee sufficient to reduce appropriations levels so as to achieve savings shall be considered to be changes in outlays for the purpose of enforcing the prohibition on extraneous matters in reconciliation bills.

**SEC. 5008. PROHIBITION ON PREEMPTIVE WAIVERS.**

In the Senate, it shall not be in order to move to waive or suspend a point of order under the Congressional Budget Act of 1974 (2 U.S.C. 621 et seq.) or any concurrent resolution on the budget with respect to a bill, joint resolution, motion, amendment, amendment between the Houses, or conference report unless the point of order has been specifically raised by a Senator.

**SEC. 5009. ADJUSTMENTS FOR LEGISLATION REDUCING APPROPRIATIONS.**

The Chairman of the Committee on the Budget of the Senate may revise the allocations in effect under section 302(a) of the Congressional Budget Act of 1974 (2 U.S.C. 633(a)) and the allocations of a committee or committees, aggregates, and other appropriate levels in this resolution for any bill or joint resolution considered pursuant to section 3001 containing the recommendations of one or more committees, or for one or more amendments to, a conference report on, or an amendment between the Houses in relation to such a bill or joint resolution, by the amounts necessary to accommodate the reduction in the amount of discretionary appropriations for a fiscal year caused by the measure.
