So the Journal was approved.  
The result of the vote was announced as above recorded.

**REQUEST TO CONSIDER H.R. 962, BORN-ALIVE ABORTION SURVIVORS PROTECTION ACT**

Mr. DAVID P. ROE of Tennessee. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of H.R. 962, the Born-Alive Abortion Survivors Protection Act, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. Under guidelines consistently issued by successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

Mr. DAVID P. ROE of Tennessee. Mr. Speaker, if this unanimous consent request cannot be entertained, I urge the Speaker and the majority leader to immediately schedule the Born Alive bill, so we can stand up and protect the—

The SPEAKER pro tempore. The gentleman is not recognized for debate.

**HOUR OF MEETING ON TOMORROW**

Mr. PAYNE. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 9 a.m. tomorrow.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

**ALZHEIMER'S IS A PUBLIC HEALTH CRISIS**

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, Alzheimer's is a public health crisis. It is fitting that today, the second day of

National Public Health Week, the Alzheimer's Association held their annual Day on the Hill. That is why I am wearing purple, to help raise awareness about Alzheimer's.

Someone new develops Alzheimer's every 65 seconds in the United States. The cost of caring for those with Alzheimer's and other dementias is around \$290 billion a year in the United States. That cost is only going to get higher.

In New Jersey alone, there are 180,000 people over the age of 65 who suffer from Alzheimer's. Each year, nearly 3,000 of them die from Alzheimer's.

Mr. Speaker, I ask that my colleagues join me to raise awareness on Alzheimer's. But raising awareness is not enough. We need to increase research funding, commit to a public health response to Alzheimer's, and support Alzheimer's planning and care services under Medicare.

**RECOGNIZING WORLD AUTISM AWARENESS DAY AND WORLD AUTISM MONTH**

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today, on World Autism Day, to recognize and support all children or adults with autism spectrum disorder.

In 2018, an estimated 1 in 59 children in the United States was diagnosed with some form of autism spectrum disorder. Notwithstanding these diagnoses, Americans with autism make exceptional contributions across our Nation and around the world.

Each April Autism Speaks celebrates the start of its signature campaign, Light It Up Blue. Light It Up Blue is a unique global campaign to increase understanding and acceptance for people with autism.

Today we celebrate World Autism Awareness Day, and this month is World Autism Month.

Mr. Speaker, let's renew our commitment to support the entire international autism community, including children and adults with autism, their families, and caregivers.

Together, we can increase access to information, encourage heightened understanding of autism, promote respect and dignity, and support the services that assist people with autism to reach their full potential.

**RELEASE PETER BIAR AJAK AND ALL OTHER POLITICAL PRISONERS IN SOUTH SUDAN**

(Ms. DEAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DEAN. Mr. Speaker, I rise today to speak, once again, about Peter Biar Ajak, a renowned peace activist unlawfully detained in South Sudan.

In July of 2018, Peter was arrested by South Sudan's security forces. He has

been held without charge or trial ever since, and has been frequently denied access to his family, to counsel, to care, and to adequate food.

Peter was one of Sudan's "Lost Boys," he resettled in Philadelphia, and attended La Salle University, where I taught for 10 years. I knew Peter as a brilliant student and a leader. He later went on to Harvard and to Cambridge.

He is a dedicated peace activist who co-founded South Sudan Young Leaders Forum. In his work, he has criticized South Sudan's leaders for failing to secure a permanent peace for their people.

Incredibly, Peter is now under investigation for crimes including treason and terrorism. If charged and convicted, Peter could be sentenced to death. In reality, he is being persecuted for his speech.

I call on President Kiir to release Peter and all other political prisoners in South Sudan.

#### RECOGNIZING THE SERVICE OF RICHARD D. WESLEY

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today to recognize Mr. Richard D. Wesley, who retired from being a Savannah River pilot after over 40 years of guiding ships to port through the Savannah River.

This expertise cannot be overstated. An incredible asset to our economy in coastal Georgia, river pilots risk their lives by jumping onto moving container ships, and then guiding them safely into harbor, keeping the ship itself, the cargo on board, and the entire area's economy moving forward.

A graduate of the Maine Maritime Academy in 1976, Mr. Wesley has piloted over 11,000 ships safely in and out of Savannah River. These trips included nearly any situation you could imagine; for example, Coast Guard visits that discovered stowaways, along with previously undiscovered contraband.

He has also seen the ships change dramatically over his tenure, going from 460 feet in length to around 1,200 feet in length. But, all of this accumulated experience over the years enabled him to mentor up-and-coming bar pilots through any situation, and to ensure that they are also going to have safe careers, which keep the economy of our State moving.

Thank you for your work, Mr. Wesley, and enjoy your retirement.

#### IF THIS LAWSUIT SUCCEEDS, CENTRAL VIRGINIANS WILL BE LEFT BEHIND

(Ms. SPANBERGER asked and was given permission to address the House

for 1 minute and to revise and extend her remarks.)

Ms. SPANBERGER. Mr. Speaker, last week the administration asserted that the Affordable Care Act should be invalidated in Federal court. If this effort succeeds, protections for those with preexisting conditions would vanish.

Approximately 51 percent of central Virginians under the age of 65 have a preexisting condition. If this effort succeeds, we would see the return of caps on lifetime coverage, and those over 65 could be forced to pay higher Medicare premiums.

If this effort succeeds, we would lose the ability to keep our children on our insurance plan until age 26. In Virginia, where we just saw Medicaid expansion become law, this would be upended as well.

If efforts to scrap our healthcare system succeed, Medicaid expansion would be completely gutted, and with it, our efforts and ability to deal with the opioid epidemic across our State.

Right now, we need a bipartisan effort to stabilize and fix our healthcare system, not a hyperpartisan lawsuit focused on settling old scores.

Central Virginians deserve better. We are here to solve problems, and if there is a problem with our healthcare system, we should fix it, not upend our system, not hurt those with preexisting conditions, not get rid of the prohibition on lifetime caps, not eliminate a provision that allows young people to stay on their parents' insurance.

This is why, among the other efforts we are making in this body, I am proud to cosponsor the Protecting Pre-Existing Conditions and Making Healthcare More Affordable Act of 2019.

#### HONORING CORPORAL HERMAN JENKINS TURNING 100 YEARS OLD

(Mr. SPANO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SPANO. Mr. Speaker, I rise today to honor Herman Jenkins, a native Floridian, African American, and World War II veteran who, today, turns 100 years old.

Mr. Jenkins enlisted in the United States Army in 1943 when he was 24 years old, was stationed in northern France, and fought to defend Western civilization against the Nazi regime.

He rose to the rank of corporal and received numerous recognitions, including the Conduct Medal, the American Theater Ribbon, and a World War II Victory Ribbon.

After being honorably discharged in 1946, he returned to Lakeland, Florida, where he married his wife, Essie Mae Bryant, and together gave birth to their daughter, Sheila.

Upon returning to Lakeland, Mr. Jenkins entered the retail industry and enjoyed a successful career as a manager of several stores in our community. He also owned his own photog-

raphy business and continues to be a skilled photographer, chef, and musician. However, his greatest passion is being a loving husband to his wife, Essie, daughter, Sheila, four grandchildren, and 11 great-grandchildren.

Mr. Jenkins has made a permanent and positive impact in defending our Nation and building our community, and for that, sir, I thank you. I wish you a very happy birthday and hope that your next 100 years are better than your last.

#### WE COULD LOSE THE AFFORDABLE CARE ACT

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, in the 2016 election, as the candidate who now is in the Oval Office said that ObamaCare is a disaster, the question was asked: What do you have to lose?

Well, now we know. It is the Affordable Care Act, which has provided 20 million Americans, for the first time, with security and peace of mind in healthcare.

I rise to support H. Res. 271, and I thank the gentleman from Texas, my colleague, COLIN ALLRED, because we know that the Texas case is the epicenter of destruction of the Affordable Care Act.

The administration's flip on us to now be against the position of survival of the Affordable Care Act tells us we have a lot to lose: 1.8 million Texans have gained coverage; 1.1 million Texans have purchased high-quality marketplace coverage; 913,000 individual Texans have received financial assistance.

More importantly, there are 1.1 million Texans who have insurance. If all the States adopted ACA's Medicaid, we would have that as well. We did not do it.

But, as well, Texans have no lifetime caps. They have the ability to have their children on their health insurance plans.

This is a tragedy. Mr. Speaker, I condemn the action of the administration in filing their opposition to the Affordable Care Act.

#### WE MUST VOTE TO PROTECT THE SANCTITY OF NEWBORNS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, I rise today to highlight the discharge petition that was signed by me today on this floor, as well as 189 total Members of this House, and a special thank you to Representative ANN WAGNER and Whip STEVE SCALISE for their great work on this issue.

This discharge petition is to force consideration of the Born-Alive Abortion Survivors Protection Act, known
