

authorities available to respond to Russia, they were told they weren't needed.

Russia has a whole-of-government approach to this problem, and I would urge us to work in a bipartisan way in the Defense Authorization Act to ensure that we are ready with our full authorities to defeat Russia and their efforts to interfere with our election.

HIGHLIGHTING THE STRUGGLE OF RAIL COMMUTERS IN NEW JERSEY'S SEVENTH CONGRESSIONAL DISTRICT

(Mr. MALINOWSKI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MALINOWSKI. Madam Speaker, today I rise to highlight the struggle that rail commuters in New Jersey's Seventh District face each day.

Public transportation is vital to my State, where twice as many of us depend on it than the national average.

Right now, though, the 23,000 people who rely on the main rail line that cuts through the heart of my district, the Raritan Valley Line, are the only commuters in northern New Jersey without one-seat ride access to Manhattan during peak hours. To get to New York, they must transfer to Newark, adding at least 25 minutes to their commutes.

Now, you might ask, why am I bringing this local issue to the House? Why can't New Jersey solve it by itself?

Well, I will tell you why. Because every rail passenger trying to get to work along this economic corridor that is so vital, not just to my State, but to the economy of the United States, must squeeze through a crumbling, 110-year old bottleneck of a tunnel under the Hudson River that is owned and operated by the Federal Government, and the Federal Government won't fix it.

The Raritan Valley Line Mayor's Alliance, representing over 30 mayors, has been working to get one-seat ride. We need to do our part by passing an infrastructure bill this year that will fund the Gateway tunnel.

HEALTHCARE PRICES

(Mrs. WAGNER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. WAGNER. Madam Speaker, I rise to support the Payment Commission Data Act, which would make prescription drug prices more transparent, and the BLOCKING Act, which would bring generic drugs to the market faster.

I also support the Protecting Consumer Access to Generic Drugs Act, which would prohibit drug companies from delaying the entry of generic drugs into the market.

Unfortunately, Madam Speaker, Democrats have packaged these bills together with poison pills that would

prevent States from offering lower cost healthcare plans.

Democrats want to increase ObamaCare enrollment regardless of cost, but ObamaCare is not affordable for many Americans. The average monthly premium for a family of four is over \$1,500, forcing Missourians to cut housing and child care so they can pay skyrocketing premiums. It is not a solution. We must take immediate action to allow States to promote choices and affordability.

BLUE WATER NAVY VETERANS

(Ms. SCANLON asked and was given permission to address the House for 1 minute.)

Ms. SCANLON. Madam Speaker, yesterday the House passed H.R. 299, the Blue Water Navy Vietnam Veterans Act of 2019. This long overdue legislation would finally provide disability benefits to veterans who served in the territorial seas surrounding Vietnam during the Vietnam war and were exposed to Agent Orange.

This change is long overdue but, sadly, thousands of brave Vietnam veterans have already suffered the consequences of Agent Orange-related illnesses.

A longtime resident of Media, Pennsylvania, John Bury, was a 22-year veteran of the Navy and a legendary advocate for sailors sickened by Agent Orange. He, himself, survived cancer six times related to Agent Orange, and knew firsthand the challenges of navigating the VA due to his service being on ships, rather than land.

John passed away in late 2016, but his memory and service will live on. Sailors like John are heroes and deserve to be treated as such by the VA.

I urge the Senate to quickly take up this legislation and send it to the President's desk so that thousands of others like John can get the care they deserve.

NATIONAL DRUG COURT MONTH

(Mr. ROGERS of Kentucky asked and was given permission to address the House for 1 minute.)

Mr. ROGERS of Kentucky. Madam Speaker, May is National Drug Court Month, and I rise to recognize these remarkable facilities on their 30th anniversary. Since 1989, drug courts have provided countless addicted Americans referral to treatment and a lifesaving alternative to incarceration.

When I first started Operation UNITE in my district in 2003, there were only five drug courts in the whole district of 30 counties. Today, we have one in all 30 counties, and those volunteer judges are changing more lives than ever before.

At this moment, drug courts are providing a new lease on life to 144,000 Americans around the country. Thank you to the countless professionals who

make up our 3,000 drug courts. We have got a long road ahead, but I look forward to ensuring drug courts remain a central part of that journey.

GUN SHOPS SHOULD MEET MINIMUM SECURITY REQUIREMENTS

(Mr. MORELLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MORELLE. Madam Speaker, across our Nation, we face an epidemic. In schools, in churches, on our streets, Americans are dying from gun violence.

We have a moral responsibility to do everything in our power to prevent more people from suffering the loss of a loved one to the scourge of illegal guns. That is why I have introduced the Gun Theft Prevention Act.

Last year, more than 500 gun shops were burglarized nationwide, releasing thousands of deadly weapons onto our streets and into the hands of criminals. In my district, a single gun shop was broken into twice in the same week, seven times in the span of a decade.

Yet licensed gun dealers are not required to take even the most basic precautions, like locking their doors at night, to prevent these dangerous weapons from falling into the wrong hands.

My bill requires gun shops to meet minimum security requirements, like locked cabinets and video surveillance, creates strong enforcement mechanisms, requires reporting of stolen guns, and authorizes 650 new ATF inspectors.

This is commonsense legislation that will save lives, and I will work tirelessly to ensure its passage.

PEACE OFFICERS MEMORIAL DAY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, today is Peace Officers Memorial Day, when we pay tribute to local, State, and Federal law enforcement officers who serve and protect our communities.

Today is an extra special day for one of my constituents and his family: Sugarcreek Police Sergeant Anthony Gorman, who was shot April 4, 1997, while investigating a suspicious car in a parking lot in Franklin, Pennsylvania. He never fully recovered from his injuries.

In October of 2014, Sergeant Gorman died at the age of 72, more than 17 years after that initial gunshot. While his death was a direct consequence of the 1997 shooting, a doctor listed his cause of death as natural, which prevented him from being honored at the National Law Enforcement Officers Memorial here in Washington, D.C.

His son, Christopher, then embarked on a mission to have his dad's name

memorialized. After years of research, petitions, and advocacy, it is now engraved at the East Pathway of Remembrance at section 25, line 31.

Sergeant Gorman's family was here this week for the candlelight vigil held Monday on The Mall, and thanks to Christopher Gorman's determination, his dad's name is finally where he belongs.

The SPEAKER pro tempore. The gentlewoman from Pennsylvania is recognized for 1 hour.

Ms. SCANLON. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Oklahoma (Mr. COLE), pending which I yield myself such time

GENERAL LEAVE

Ms. SCANLON. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Pennsylvania?

There was no objection.

Ms. SCANLON. Madam Speaker, on Tuesday, the Rules Committee met and reported a rule, House Resolution 377, providing for consideration of H.R. 5 under a closed rule, with 90 minutes of debate equally divided and controlled by the Chair and ranking minority member of the Committee on the Judiciary.

The resolution also provides for consideration of H.R. 312 under a closed rule, with 1 hour of general debate equally divided and controlled by the Chair and ranking minority member of the Committee on Natural Resources.

Lastly, this resolution provides for consideration of H.R. 987 under a structured rule, with 90 minutes of general debate, 60 minutes equally divided and controlled by the Chair and ranking minority member of the Committee on Energy and Commerce and 30 minutes equally divided and controlled by the Chair and ranking minority member of the Committee on Education and Labor. Twenty-seven amendments are made in order.

Madam Speaker, we are here today to debate the rule for three important pieces of legislation: H.R. 987, H.R. 312, and H.R. 5.

H.R. 987 is the Strengthening Health Care and Lowering Prescription Drug Costs Act, a package of several bills, many of them bipartisan, that went through the House Energy and Commerce Committee under regular order. This bill combines three key bills to lower drug costs by promoting generic competition and four key bills to strengthen healthcare, reverse the sabotage of the ACA by this administration with respect to marketing and outreach, and rescind the Trump administration's efforts to promote junk plans that lack the protections of the Affordable Care Act.

The American people are justifiably demanding action by Congress to make prescription drugs more affordable. Prices are so high that recent data show 24 percent of Americans didn't fill a prescription in the past year due to high costs.

My constituents have been vocal in demanding action on drug pricing, patients like Bill, a senior with diabetes who attends my church, parents like Sarah with children who have special health needs. Folks like these need help now.

This package would lower costs by banning anticompetitive practices that large drug companies employ to keep generics off the market.

This bill will also tackle many of the reasons we have seen enrollment
