

CONGRATULATING THE JOHNSON
FAMILY ON RECEIVING THE
LEOPOLD CONSERVATION
AWARD

HON. DUSTY JOHNSON

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 22, 2019

Mr. JOHNSON of South Dakota. Madam Speaker, today I rise to highlight the Johnson farm in Frankfort, South Dakota as the recent recipients of the state's Leopold Conservation Award.

Alan and Mickie Johnson, with their son Brian and his wife Jamie, farm 1,800 acres of cropland and 500 acres of grassland in Spink County.

Using various techniques and technologies, the Johnsons intend to leave the landscape in better shape than they received it. Working with Natural Resource Conservation Service, they have incorporated no-till farming practices and switched to a variable rate fertilizer system.

Using farm bill programs such as EQIP, CRP and CSP, the Johnson family has demonstrated that you can do the right thing for the environment while remaining productive and economical.

As this body debates solutions to environmental challenges, we should reflect on the accomplishments of those hard-working individuals who achieve conservation on the ground.

I commend the Johnson Family on their achievement as stewards of the land as they raise nutritious food that many of us take for granted every day.

RECOGNIZING STOP THE BLEED DAY

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 22, 2019

Mr. THOMPSON of California. Madam Speaker, I rise to recognize today as Stop the Bleed Day. For four years, the American College of Surgeons Committee on Trauma has been leading the way on training folks in our communities about how to safely stop traumatic bleeding.

I was honored to host a Stop the Bleed training here on Capitol Hill where we trained almost 100 people on how to save the lives of others and themselves. Because of this training, these folks are equipped and empowered to assist someone before a trained medical professional can take over.

Whether as a result of a gunshot, traffic accident, or other injury, traumatic bleeding can be life threatening. Like with CPR training, the hope is that the training will never be put into use. However, should a tragedy occur, those who have taken the Stop the Bleed training just might save a life.

I hope all of my colleagues here today will join me in recognizing Stop the Bleed Day, commending the American College of Surgeons, and think about hosting training sessions in their communities.
