SENATE RESOLUTION 226—RECOGNIZING NATIONAL FOSTER CARE MONTH AS AN OPPORTUNITY TO RAISE AWARENESS ABOUT THE CHALLENGES OF CHILDREN IN THE FOSTER CARE SYSTEM, AND ENCOURAGING CONGRESS TO IMPLEMENT POLICY TO IMPROVE THE LIVES OF CHILDREN IN THE FOSTER CARE SYSTEM

Mr. GRASSLEY (for himself, Ms. STABENOW, Mr. JONES, Mr. TILLIS, Mr. CASSIDY, Mr. KING, Mr. SULLIVAN, Mr. BLUNT, Mr. LANKFORD, Mr. CRAPO, Mr. KAINE, Mrs. CAPITO, Mr. SCOTT of South Carolina, Mr. BLUMENTHAL, Mr. ROBERTS, Mr. PETERS, Mr. WYDEN, Mr. BROWN, Mr. CASEY, Ms. ROSEN, Ms. KLOBUCHAR, Ms. HASSAN, Mr. BARASSO, Mr. ENZI, and Mr. YOUNG) submitted the following resolution; which was considered and agreed to:

S. RES. 226

Whereas National Foster Care Month was established more than 20 years ago to—

(1) bring foster care issues to the forefront;

(2) highlight the importance of permanency for every child; and

(3) recognize the essential role that foster parents, social workers, and advocates have in the lives of children in foster care throughout the United States;

Whereas all children deserve a safe, loving, and permanent home;

Whereas the primary goal of the foster care system is to ensure the safety and well-being of children while working to provide a safe, loving, and permanent home for each child;

Whereas there are approximately 443,000 children living in foster care;

Whereas there were approximately 269,690 youth that entered the foster care system in 2017, while over 69,000 youth were eligible and awaiting adoption at the end of 2017;

Whereas the number of children living in foster care and entering foster care has increased dramatically in recent years;

Whereas over 96,000 children entered foster care in 2017 due to parental drug abuse;

Whereas children of color are more likely to stay in the foster care system for longer periods of time and are less likely to be reunited with their biological families;

Whereas foster parents are the front-line caregivers for children who cannot safely re-

main with their biological parents and provide physical care, emotional support, education and advocacy, and are the largely single source of families providing permanent homes for children leaving foster care to adoption;

Whereas children in foster care who are placed with relatives, compared to children placed with nonrelatives, have more stability, including fewer changes in placements, have more positive perceptions of their placements, are more likely to be placed with their siblings, and demonstrate fewer behavioral problems;

Whereas some relative caregivers receive less financial assistance and support services than do foster caregivers;

Whereas an increased emphasis on prevention and reunification services is necessary to reduce the number of children that are forced to remain in the foster care system;

Whereas almost 20,000 youth “aged out” of foster care in 2017 without a legal permanent connection to an adult or family;

Whereas children who age out of foster care lack the security and support of a biological or adoptive family and frequently struggle to secure affordable housing, obtain health insurance, pursue higher education, and acquire adequate employment;

Whereas foster care is intended to be a temporary placement, but children remain in the foster care system for an average of 20 months;

Whereas 35 percent of children in foster care experience more than 2 placements while in care, which often leads to disruption of routines and the need to change schools and move away from siblings, extended families, and familiar surroundings;

Whereas youth in foster care are much more likely to face educational instability with 34 percent of foster youth experiencing 5 or more school changes by the age of 18;

Whereas children entering foster care often confront the widespread misperception that children in foster care are disruptive, unruly, and dangerous, even though placement in foster care is based on the actions of a parent or guardian, not the child;

Whereas 30 percent of children in foster care are taking at least 1 anti-psychotic medication, and 34 percent of these children are not receiving adequate treatment planning or medication monitoring;

Whereas, due to heavy caseloads and limited resources, the average turnover rate for a child welfare worker is 30 percent;

Whereas States, localities, and communities should be encouraged to invest resources in preventative and reunification services and postpermanency programs to ensure that more children in foster care are provided with safe, loving, and permanent placements;

Whereas, in 2018, Congress passed the Family First Prevention Services Act, which provided new investments in prevention and family reunification services to help more families stay together and ensure more children are in safe, loving, and permanent homes;

Whereas Federal legislation over the past 3 decades, including the Adoption Assistance and Child Welfare Act of 1980 (Public Law 96-272), the Adoption and Safe Families Act of 1997 (Public Law 105-89), the Fostering Connections to Success and Increasing Adoptions Act of 2008 (Public Law 110-351), the Child and Family Services Improvement and Innovation Act (Public Law 112-34), and the Preventing Sex Trafficking and Strengthening Families Act (Public Law 113-183) provided new investments and services to improve the outcomes of children in the foster care system;

Whereas May 2019 is an appropriate month to designate as National Foster Care Month

to provide an opportunity to acknowledge the accomplishments of the child-welfare workforce, foster parents, advocacy community, and mentors for their dedication, accomplishments, and positive impact they have on the lives of children; and

Whereas much remains to be done to ensure that all children have a safe, loving, nurturing, and permanent family, regardless of age or special needs: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the designation of National Foster Care Month;

(2) recognizes National Foster Care Month as an opportunity to raise awareness about the challenges that children face in the foster care system;

(3) encourages Congress to implement policy to improve the lives of children in the foster care system;

(4) acknowledges the unique needs of children in the foster care system;

(5) recognizes foster youth throughout the United States for their ongoing tenacity, courage, and resilience while facing life challenges;

(6) acknowledges the exceptional alumni of the foster care system who serve as advocates and role models for youth who remain in care;

(7) honors the commitment and dedication of the individuals who work tirelessly to provide assistance and services to children in the foster care system;

(8) supports the designation of May 31, 2019, as National Foster Parent Appreciation Day;

(9) recognizes National Foster Parent Appreciation Day as an opportunity to recognize the efforts of foster parents to provide safe and loving care for children in need and raise awareness about the increasing need for foster parents to serve in their communities; and

(10) reaffirms the need to continue working to improve the outcomes of all children in the foster care system through parts B and E of title IV of the Social Security Act (42 U.S.C. 601 et seq.) and other programs designed to—

(A) support vulnerable families;

(B) invest in prevention and reunification services;

(C) promote adoption in cases where reunification is not in the best interests of the child;

(D) adequately serve those children brought into the foster care system; and

(E) facilitate the successful transition into adulthood for children that “age out” of the foster care system.
