HONORING HEZEKIAH WATKINS

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 11, 2019

Mr. THOMPSON of Mississippi. Madam Speaker, I rise today to honor a valiant and selfless community servant, Hezekiah Watkins.

In the summer of 1961, Hezekiah Watkins sought out to see the Freedom Riders make history at the Greyhound bus station in Jackson, Mississippi. Though his mother warned him of his potential demise, their home being burned, and other risks of activism; Watkins couldn't be dissuaded from watching the protesters combat segregated public transportation up close and personal.

At age 13, Watkins's life changed forever when he was pushed into the bus station, mistaken for an "outside agitator," and sent to Parchman Farm, the Mississippi State Penitentiary. While incarcerated, Watkins was celled with two inmates convicted of murder, who tormented, molested, and physically abused him. They also stole his food leaving him with only scraps of fat, syrup and a biscuit. He was returned to his mother in Jackson five days later, who anticipated identifying his remains.

Hearing of Watkins' incarceration, James Bevel, a prominent civil rights leader, visited Watkins' home in Jackson. While Watkins still had no intentions of joining the movement, Bevel insisted he was needed. After hearing Bevel deliver a powerful sermon at church, Bevel gained the trust of both Watkins and his mother, who believed Bevel was a God-sent man. She allowed Watkins to join the Freedom Riders under the sole condition that Bevel would keep him safe, which he did.

Watkins participated in the 1964 Mississippi Summer Project, also known as Freedom Summer, where he and other activists worked to increase the black voter turnout in Mississippi. They also instituted Freedom Schools which worked to academically empower black students by offering free summer classes.

Today, Watkins can be found at the Mississippi Civil Rights Museum in Jackson, not as a part of a display, but as an employee, sharing his story to daily visitors.

PREVENTING CHILD MARRIAGE IN
DISPLACED POPULATIONS ACT

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, June 10, 2019

Ms. JACKSON LEE. Madam Speaker, I rise in strong support of H.R. 2140, the "Preventing Child Marriage Act of 2019."

H.R. 2140 calls for an adoption by the United Nations of a definition of "child marriage" and develop a comprehensive strategy through the United States Permanent Representative to the United Nations to address child marriage in refugee settlements administered by the United Nations.

Child marriage occurs when a formal marriage or informal union takes place in which at least one person is younger than age 18.

Illegal child marriage arises when a formal marriage or informal union involving at least one person younger than age 18 that is illegal under the laws of the country in which the child marriage occurs.

It is critical that we better understand the presence of child marriages within refugee settlements in order to assess how they intersect with the rates of violence against girls including young children and infants.

This bill calls upon the United Nations to adopt a comprehensive strategy including:

Collecting and reporting data related to the number of known or suspected child marriages taking place inside each such settlement;

Protocols for United Nations personnel regarding prevention and monitoring of child marriages inside each such settlement;

A description of programs administered at such settlements that provide—

(A) physical, mental, and emotional rehabilitation and support to children who have extricated themselves from child marriage; and

(B) alternatives to child marriage, such as education initiatives; and

Protocols regarding how United Nations personnel should—

(A) report adults participating in illegal child marriages in each such settlement;

(B) monitor the prosecution of such adults by the authorities of the country in which the 2 settlement at issue is located.

When enacted, H.R. 2140 will develop a framework in gaining data on child marriages globally as well as create effective strategies to combat them in refugee settlements.

Madam Speaker, I urge my colleagues to join me in supporting H.R. 2140 to confront child marriages which pose a strong threat to young children especially girls living within these settlements.

AMERICAN LEGION CENTENNIAL
 CELEBRATION

HON. ANN M. KUSTER

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 11, 2019

Ms. KUSTER of New Hampshire. Madam Speaker, I rise today to honor the American Legion on their 100th birthday. The American Legion has been a leading voice in advocating for veterans, servicemembers, their families and communities.

The American Legion was chartered and incorporated by Congress in 1919 as a patriotic veterans' organization devoted to mutual helpfulness. It is the nation's largest wartime veterans service organization, committed to mentoring youth and sponsorship of community-based programs, advocating patriotism and honor, promoting strong national security, and continued devotion to fellow servicemembers and veterans.

The American Legion Department of New Hampshire was chartered on August 1, 1920. There are currently 107 American Legion Posts located throughout the Granite State, boasting nearly 18,000 members. American Legion members contribute significantly to their local communities. Members participate in blood drives, and contribute generously to scholarships, community projects, emergency aid and youth activities. Many of the Posts have halls, where community enjoy social functions for events throughout the year.

The American Legion works closely with the Veterans Administration to ensure that the veterans in New Hampshire and across our country are cared for following their service to the United States. New Hampshire leaders work closely with military organizations and are proud to have two military installations within the state serving thousands of military members and their families.

On behalf of my constituents in New Hampshire's Second Congressional District, congratulations to the American Legion community for 100 years and all the best in the years to come.

SUPPORTING RESEARCH AND DEVELOPMENT FOR FIRST RESPONDERS ACT

SPEECH OF

HON. SHEILA JACKSON LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, June 10, 2019

Ms. JACKSON LEE. Mr. Speaker, I rise in strong support of H.R. 542, the "Supporting Research and Development for First Responders Act of 2019."

H.R. 542 amends the Homeland Security Act of 2002 to authorize the National Urban Security Technology Laboratory (NUSTL) within the Department of Homeland Security's Science and Technology Directorate.

The National Urban Security Technology Laboratory (NUSTL) is charged with testing and evaluating emerging technologies and conducting research and development (R&D) to assist emergency response providers in preparing for, and protecting against, threats of terrorism.

The National Urban Security Technology Laboratory (NUSTL) conducts nuclear and radiological R&D in support of response and recovery as well as providing technical advisory services to emergency response professionals.

It is critical that we better understand the technologies and research used to further develop and assist emergency response providers when dealing with threats of terrorism.

This bill will allow the National Urban Security Technology Laboratory to—

1. Conduct tests, evaluations, and assessments of current and emerging technologies.
2. Also, conduct tests regarding cybersecurity of such technologies that can connect to the internet, for emergency response providers;
3. conduct research and development on radiological and nuclear response and recovery;
4. carry out other such activities as the Secretary determines appropriate;
5. act as a technical advisor to emergency response providers.

When enacted, H.R. 542 will create a better understanding of the technical advisory services that are being used to help emergency response professionals.

Mr. Speaker, I urge my colleagues to join me in supporting H.R. 542 to further evaluate emerging technologies as well as research radiological and nuclear response and recovery for the emergency response providers.
