HON. ANN M. KUSTER  
OF NEW HAMPSHIRE  
IN THE HOUSE OF REPRESENTATIVES  
Tuesday, June 11, 2019  

Ms. KUSTER of New Hampshire. Madam Speaker, I rise today to honor the American Legion on their 100th birthday. The American Legion has been a leading voice in advocating for veterans, servicemembers, their families and communities.

The American Legion was chartered and incorporated by Congress in 1919 as a patriotic veterans’ organization devoted to mutual helpfulness. It is the nation’s largest wartime veterans service organization, committed to mentoring youth and sponsorship of community-based programs, advocating patriotism and honor, promoting strong national security, and continued devotion to fellow servicemembers and veterans.

The American Legion Department of New Hampshire was chartered on August 1, 1920. There are currently 107 American Legion Posts located throughout the Granite State, boasting nearly 18,000 members. American Legion members contribute significantly to their local communities. Members participate in blood drives, and contribute generously to scholarships, community projects, emergency aid and youth activities. Many of the Posts have halls, where community enjoy social functions for events throughout the year.

The American Legion works closely with the Veterans Administration to ensure that the veterans in New Hampshire and across our country are cared for following their service to the United States. New Hampshire leaders work closely with military organizations and are proud to have two military installations within the state serving thousands of military members and their families.

On behalf of my constituents in New Hampshire’s Second Congressional District, congratulations to the American Legion community for 100 years and all the best in the years to come.

HON. SHEILA JACKSON LEE  
OF TEXAS  
IN THE HOUSE OF REPRESENTATIVES  
Monday, June 10, 2019  

Ms. JACKSON LEE. Mr. Speaker, I rise in strong support of H.R. 542, the “Supporting Research and Development for First Responders Act of 2019.”

H.R. 542 amends the Homeland Security Act of 2002 to authorize the National Urban Security Technology Laboratory (NUSTL) within the Department of Homeland Security’s Science and Technology Directorate.

The National Urban Security Technology Laboratory (NUSTL) is charged with testing and evaluating emerging technologies and conducting research and development (R&D) to assist emergency response providers in preparing for, and protecting against, threats of terrorism.

It is critical that we better understand the technologies and research used to further develop and assist emergency response providers when dealing with threats of terrorism. This bill will allow the National Urban Security Technology Laboratory to—

1. Conduct tests, evaluations, and assessments of current and emerging technologies.
2. Also, conduct tests regarding cybersecurity of such technologies that can connect to the internet, for emergency response providers;
3. Conduct research and development on radiological and nuclear response and recovery;
4. carry out other such activities as the Secretary determines appropriate;
5. act as a technical advisor to emergency response providers.

When enacted, H.R. 542 will create a better understanding of the technical advisory services that are being used to help emergency response providers when dealing with threats of terrorism.

Mr. Speaker, I urge my colleagues to join me in supporting H.R. 542 to further evaluate emerging technologies as well as research radiological and nuclear response and recovery for the emergency response providers.
