OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 19, 2019

Ms. STEVENS. Madam Speaker, I rise today to recognize Henry Graham Winterhalter and his baptism on Sunday, May 12, 2019.

I have the honor of being the Godmother to Henry and the lifelong friend of his parents Lindsay and Brian Winterhalter. On May 12th we gathered at St. Paul's Lutheran Church, a religious institution open to all children to witness Henry's baptism. Born on June 28, 2018, Henry is now freed from sin and baptized to Christ.

Without shedding a tear, and symbolizing his gentle heart and growing mind, Henry was baptized by Pastor John Spangler.

As his sponsor, I promised before friends and family to nurture Henry Graham in the Christian faith and to serve as a role model throughout his life. His life a blessing, we are inspired by all Henry will become, a true gift from God.

Let us all reflect on this as we work to make this country a better country for Henry.

Madam Speaker, I ask my colleagues to join me in reflecting on another milestone in the life of Henry Graham Winterhalter and his bright future.

THE AMERICAN LEGION
CENTENNIAL CELEBRATION

HON. ANN M. KUSTER

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 19, 2019

Ms. KUSTER of New Hampshire. Madam Speaker, I rise today to honor the American Legion on their 100th birthday. The American Legion has been a leading voice in advocating for veterans, servicemembers, their families and communities.

The American Legion was chartered and incorporated by Congress in 1919 as a patriotic veterans' organization devoted to mutual helpfulness. It is the nation's largest wartime veterans service organization, committed to mentoring youth and sponsorship of community-based programs, advocating patriotism and honor, promoting strong national security, and continued devotion to fellow servicemembers and veterans.

The American Legion Department of New Hampshire was chartered on August 1, 1920. There are currently 107 American Legion Posts located throughout the Granite State, boasting nearly 18,000 members. American Legion members contribute significantly to their local communities. Members participate in blood drives, and contribute generously to scholarships, community projects, emergency aid and youth activities. Many of the Posts have halls, where community enjoy social functions for events throughout the year.

The American Legion works closely with the Veterans Administration to ensure that the veterans in New Hampshire and across our country are cared for following their service to the United States. New Hampshire leaders work closely with military organizations and are proud to have two military installations within the state serving thousands of military members and their families.

On behalf of my constituents in New Hampshire's Second Congressional District, congratulations to the American Legion community for 100 years and all the best in the years to come.

DEPARTMENTS OF LABOR,
HEALTH AND HUMAN SERVICES,
AND EDUCATION, AND RELATED
AGENCIES APPROPRIATIONS
ACT, 2020

SPEECH OF

HON. BRADLEY SCOTT SCHNEIDER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 18, 2019

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2740) making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2020, and for other purposes:

Mr. SCHNEIDER. Madam Chair, I rise in support of the amendment offered with my colleague from New Hampshire, Congresswoman ANNIE KUSTER.

Department of Defense leadership is needed to develop lead-free electronics to solve a pressing defense industrial base supply chain issue.

Throughout the world, the commercial electronics industry converted to lead-free component technology years ago. However, the defense electronics industry here at home remains reliant on lead-based assembly technology.

That's because Defense electronics in a fighter jet have different performance requirements than commercial electronics such as in an iPhone. These defense platforms require a much longer lifespan and the ability to perform in extreme environments.

Our amendment seeks to address the difficulty and cost DOD has experienced in trying to source lead-free electronic technologies, which will only increase as time goes on.

Additionally, without research and investment, our defense industrial base will continue to face challenges incorporating newly developed technologies, ultimately adversely affecting our military readiness.

I urge my colleagues to back our amendment to bolster U.S. efforts to develop lead-free defense electronics and look forward to working with Rep. KUSTER and the defense subcommittee on this issue.

HONORING LINK STRATEGIC PARTNERS

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 19, 2019

Ms. NORTON. Madam Speaker, I rise today to ask the House of Representatives to join me in congratulating LINK Strategic Partners on becoming the 2019 District of Columbia Small Business of the Year. This distinction is awarded as part of our 22nd annual District of Columbia Small Business Fair, at the Walter E. Washington Convention Center.

This year, we are proud to honor LINK Strategic Partners, a national strategic communications and stakeholder engagement firm headquartered in Washington, D.C. LINK provides strategic communications and "hyperlocal" community engagement. With a radically different approach to the communications and public relations industry, LINK puts people, relationships and communities first.

LINK began in 2012 with two full-time employees sharing a small office in the Greater Washington Urban League building in the heart of Washington, D.C. In the seven years since then, the firm has grown tenfold in staff, expanded across the nation and opened its first international location. With team members in St. Louis, New York, Phoenix, Maine and Paris, LINK has grown to 300+ clients, \$15 million in awarded contract value and pro bono work of over \$1 million.

LINK specializes in helping clients build mutually beneficial relationships with local communities. Over the past seven years, LINK has evolved its social impact lens, focusing on the power of human connection and supporting clients in connecting with their constituents in ways that will improve the communities they serve. LINK has also demonstrated the value of investing in team members, offering competitive salaries, benefits and professional development opportunities.

Our fair highlights the importance of small businesses to the District's economy. It provides critical information, counseling and resources to aspiring and current D.C. small business owners. Small businesses are a crucial lifeline in our local economy, and the District thrives because of the expanding success of small businesses throughout the District. We thank the Washington Convention Center for hosting us again this year, the workshop experts who are providing valuable information and assistance to aspiring and current small business owners, and, of course, all the participants.

Madam Speaker, I ask the House of Representatives to join me in congratulating LINK

Strategic Partners, as well as in celebrating small businesses across the District. In the District and in districts around the country, small businesses continue to make indispensable contributions to our economies and communities.
