

and enjoy a delicious meal prepared on the farm.

I am grateful to Goers Family Dairy for hosting the 2019 Shawano County Brunch on the Farm. One hundred and fifty years ago, Goers Family Dairy was established in the town of Herman. Brothers Jeff and Matt Goers, fifth-generation farmers, currently operate the dairy and milk over 200 cows. The milk generated by the dairy's cows is sent to Saputo Cheese in Black Creek and made into a variety of cheeses. It is evident the agricultural community greatly respects the Goers' contributions to the dairy industry as Matt was recently honored by the Shawano Area Agricultural Society as Shawano County's Outstanding Young Farmer of the Year.

The Shawano County Farm Bureau organizes the annual Brunch on the Farm by recruiting host farms, sponsors, and volunteers to support this terrific event. Comprised of farmers and agribusiness professionals, the Shawano County Farm Bureau promotes agricultural education, leadership and awareness within the community.

Madam Speaker, I urge all members of this body to join me in commending the efforts of Brunch on the Farm to educate the community through this time-honored tradition. Thank you to Goers Family Dairy, the Shawano County Farm Bureau, and the countless sponsors and volunteers for their continued support of Wisconsin's dairy industry.

INTRODUCTION OF THE FEDERAL
POLICE CAMERA AND ACCOUNT-
ABILITY ACT OF 2019

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 19, 2019

Ms. NORTON. Madam Speaker, today, Representative DONALD S. BEYER, Jr. and I introduced the Federal Police Camera and Accountability Act of 2019. This bill would require uniformed federal law enforcement officers to wear body cameras and marked police vehicles to have dashboard cameras. It would also require the Government Accountability Office to conduct a study on federal police officers' training, vehicle pursuits, use of force and interaction with citizens.

On November 17, 2017, Bijan Ghaisar was fatally shot in his car by uniformed U.S. Park Police officers in Fairfax County, Virginia; after a vehicle pursuit on the George Washington Memorial Parkway. Video of this shooting only became available through a camera in a Fairfax County Police Department patrol car that was providing backup. Had it not been for that footage, which was recorded and released by that local police department, the public would not have had access to the circumstances surrounding Mr. Ghaisar's death. Moreover, the footage revealed concerns about the Park Police's pursuit and engagement policies.

Body-worn and dashboard cameras for federal law enforcement officers are particularly important for the officers stationed in the nation's capital, where Park Police and the uniformed division of the U.S. Secret Service have full local police powers. Many other federal police also have local police powers near their respective agency buildings in the District of Columbia. Cameras can increase transparency for individual interactions with police, strengthen public trust and even deter future criminal behavior. For example, when criminals know that they are being recorded by a dashboard camera, they may be less likely to flee the scene of a traffic accident because
