The SPEAKER pro tempore. Pursuant to House Resolution 445 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 3055.

The Chair appoints the gentleman from Oregon (Mr. BLUMENAUER) to preside over the Committee of the Whole.

□ 1537

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 3055) making appropriations for the Departments of Commerce and Justice, Science, and Related Agencies for the fiscal year ending September 30, 2020, and for other purposes, with Mr. BLUMENAUER in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. Pursuant to the rule, the bill is considered read the first time. General debate shall be confined to the bill and shall not exceed 1 hour equally divided and controlled by the chair and ranking minority members of the Committee on Appropriations.

The gentlewoman from New York (Mrs. LOWEY) and the gentlewoman from Texas (Ms. GRANGER) each will control 30 minutes.

The Chair recognizes the gentlewoman from New York.

Mrs. LOWEY. Mr. Chair, I yield myself such time as I may consume.

Mr. Chair, today we continue investing for the people with H.R. 3055, consisting of five fiscal year 2020 appropriations bills that offer a brighter future for American families and make American communities safer and stronger.

This legislation invests in America's infrastructure. It would provide billions for the roads, highways, and transit systems of tomorrow. It would strengthen and modernize public housing. It would expand programs that ensure every community has clean and safe drinking water, and it would help bring the promise of broadband to more rural communities.

This legislation would protect our environment and tackle the climate

change crisis. It rejects misguided cuts to the EPA and would expand climate research. And it would prioritize resilience to the effects of climate change in key Federal programs.

Finally, among many priorities, this legislation would strengthen our democracy. Strong funding increases would enable a thorough and accurate 2020 Census, improve civil rights enforcement, and help protect voting rights.

This legislation is the product of hard work and input from Members on both sides of the aisle. I am very proud of our talented Appropriations subcommittee chairs and our outstanding staff, and I look forward to discussing more about what this package does for the people.

Mr. Chair, I urge my colleagues to join me in support of this legislation, and I reserve the balance of my time.

Ms. GRANGER. Mr. Chairman, I yield myself such time as I may consume, and I rise today in opposition to H.R. 3055.

Unfortunately, this appropriations bill and the bill that just passed the House are written to an unrealistic top-line funding number, \$176 billion above the current budget caps.

We still do not have a consensus on a budget agreement for fiscal year 2020, which could lead to sequestration, resulting in devastating cuts to our military.

Moving this second appropriations package today as is is another wasted opportunity. The funding levels are far from what the President has requested and will support. Total discretionary funding in this bill is nearly 10 percent above the fiscal year 2019.

In addition, this package contains poison pill provisions that will likely lead to a veto and another government shutdown.

The package jeopardizes our Nation's security. Some of the most troubling provisions include: preventing funds from being used for the border wall or barriers; limiting the President's ability to respond to a national emergency; and allowing Guantanamo Bay detainees to be transferred to the United States.

The bill allows taxpayer dollars to be used to provide lawyers for migrants crossing the southern border and prohibits a question on citizenship to be added to the 2020 Census.

If this bill is enacted, industry would be burdened by more regulation. The bill allows the regulation of greenhouse gas emissions from livestock, as outlined in the Green New Deal; it supports the listing of sage-grouse under the Endangered Species Act, which would impact energy and mineral development in 11 Western States; and it includes three new regulations that would unfairly burden the trucking industry.

The bill also prohibits the administration from setting reasonable fuel efficiency standards, and the legislation attacks our Second Amendment rights
