

I congratulate Dylan on his outstanding achievements and willingness to give back to his community. I look forward to seeing his success in his future endeavors.●

#### TRIBUTE TO BRIGADIER GENERAL DOUGLAS ANDERSON

● Mr. ISAKSON. Mr. President, today I wish to honor BG Douglas Anderson, who has distinguished himself during his more than 37 years of service to the U.S. Army and this Nation. Throughout the duration of his career, Brigadier General Anderson has served in positions of increased responsibility and trust, culminating as the commanding general of the 9th Mission Support Command at Fort Shafter, HI.

As the commanding general of the 9th Mission Support Command in the Pacific, Brigadier General Anderson has commanded the missions of 31 diverse units, encompassing more than 3,400 soldiers and civilians in three countries, five States and Territories, and crossing seven time zones. In this role, he rapidly increased the organization's readiness level to the highest levels the organization had seen in decades.

During his tenure, Brigadier General Anderson served in leadership, staff, and command assignments in light, ranger, airborne, and mechanized infantry units; commanded a Logistics Support Battalion; was the senior adviser to an Infantry Brigade of the Iraqi Army; the division director of human resources; commanded a personnel services brigade; was the director of the 80th Training; Command Operations/Planning/Training; commanded the 97th Training Brigade; commanded the Great Lakes Training Division; served as the deputy commanding general for the 63rd Regional Support Command; and was the director of the Army Reserve Engagement Cell, and deputy commanding general of the U.S. Army Reserve, U.S. Army Pacific. He has also served in numerous joint and overseas deployments and assignments in Iraq and Republic of Korea.

Brigadier General Anderson was commissioned in May 1988 as a distinguished military graduate of the Reserve Officer Training Corps program at Washington State University. He is a graduate of numerous military courses, including Infantry Officer Basic Course, Armor Officer Advanced Course, Engineer Officer Advanced Course (Tactics), U.S. Marine Corps Amphibious Warfare School, Combined Arms and Services Staff School, U.S. Army Command and General Staff College, U.S. Army War College, Advanced Joint Professional Military Education Course, Canadian Security Studies Program, and United Nations Senior Mission Leader's Course. He is an Army joint planner and joint qualified officer.

Brigadier General Anderson holds a bachelor's degree in political science

and public administration, a master's degree in human resources management, and a master's degree in strategic studies.

Brigadier General Anderson's leadership provided direct and tangible benefits to the Army, government and contracted civilians, citizen soldiers, and their family members. His outstanding service and contributions, coupled with a tireless devotion to duty, a strong love for this country and the soldiers and civilians who protect it, will have an enduring impact.

Brigadier General Anderson is married and has three children. He calls Atlanta, GA, home. Our Nation thanks him and his family for their dedicated service.●

#### TRIBUTE TO PEG SEMINARIO

● Mrs. MURRAY. Mr. President, as ranking member of the Senate Committee on Health, Education, Labor, and Pensions, I rise to pay tribute to Peg Seminario, a fierce advocate for working people with more than 40 years leading the AFL-CIO and the labor movement in fighting for stronger protections and safer worker conditions for workers.

Peg has led the AFL-CIO's safety and health program since 1990 and throughout her career has played a leading role in the fight to promulgate strong health and safety standards pertaining to major hazards facing workers, including asbestos, lead, silica, noise, and ergonomics. In fact, she has had a hand in every major health and safety rule adopted since 1977—almost all of which were adopted since the inception of the Occupational Safety and Health Act, OSHA.

She has pushed Congress to protect and enhance the provisions of the OSH Act; to increase Federal funding for critical worker protection Agencies, including the Occupational Safety and Health Administration, the Mine Safety and Health Administration, and the National Institute for Occupational Safety and Health; and worked tirelessly to see that first responders who responded after the 9/11 attack and suffered illnesses as a result received the necessary medical care they need and deserve.

I hope my colleagues will join me in recognizing Mrs. Seminario's distinguished career and thanking her for her efforts to protect the health and safety of workers in America.●

#### TRIBUTE TO MICHAEL ASSANTE

● Mr. RISCH. Mr. President, today I wish to recognize Michael Assante, a leader, a visionary, and a patriot who has contributed so much to protect our Nation's critical infrastructure and our interests around the world.

Michael Assante began his impressive career as an intelligence officer in the U.S. Navy where he learned the intricacies of cyber security defenses. After leaving the Navy, Mike became

the chief information security officer at one of the largest U.S. utilities, American Electric Power. Mike continued to work in the private sector in the field of cyber security before he joined Idaho National Laboratory, INL, as a critical infrastructure protection specialist. At INL, Michael Assante assembled a unique team of computer experts, power engineers, control systems technicians, grid operators, infrastructure designers, law enforcement officials, and U.S. military special forces officers to tackle the most challenging cyber threats to critical infrastructure. This team has an impressive list of successes and its work continues to this day.

As Mike's accomplishments and recognition grew, he left INL and assumed senior positions at the North American Electric Reliability Corporation, the Council on CyberSecurity, the Center for Internet Security, NexDefense, the SANS Institute, and the Center for Strategic and International Studies. In all of these capacities, Michael Assante brought unique insights and strategies to the effort to protect our critical infrastructure from cyberattack. It was during this time that Mike became a resource to me and my staff, and he helped us better understand the magnitude of the cyber threat to our grid and opportunities for engineered solutions to interrupt the kill chain and mitigate the threat.

As a result of more than two decades of dedication, hard work, and impact, Michael Assante has a long list of noteworthy publications, collaborations, recognitions, and awards, but perhaps his greatest legacy is the thousands of professionals he trained to help protect our Nation's critical infrastructure.

Most Americans, including Mike's family and friends, will never know how much he did to protect U.S. national security interests. As a member of the Senate Select Committee on Intelligence, I can tell you that he is a giant in his field, and our country is safer because of his efforts. We are grateful for his many contributions.●

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-1719. A communication from the Administrator, Agricultural Marketing Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Irish Potatoes Grown in Colorado; Modification of the Handling Regulations for Area No. 2" ((7 CFR Part 948) (Docket No. AMS-SC-18-0067)) received in the Office of the President of the Senate on June 19, 2019; to the Committee on Agriculture, Nutrition, and Forestry.

EC-1720. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Melamine Formaldehyde Polycondensate Resin; Tolerance Exemption" (FRL 9994-34-OCSPP) received in the
