STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. PORTMAN:

S. 1925. A bill to authorize State opioid response grants, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. PORTMAN. Mr. President, today I am here to continue the important conversation we had on this floor about the ongoing addiction crisis we face in this country. Over the past 2 years, I have come to the floor 57 times to talk about addiction, and usually it has been about opioids and the impact opioids are having—tearing our families apart, devastating our communities. There is certainly an opioid epidemic in this country with prescription drugs, fentanyl, heroin—it is true—but we also have to focus on the fact that we have a broader problem. That is what I am going to talk about today, along with what we can do about it.

Congress has done a lot in the last several years. When looking at what was proposed and what was passed, we put new policies in place at the Federal level to promote better prevention, better treatment programs, and better long-term recovery. We passed legislation to stop some of these deadly drugs from coming into our country. That has helped somewhat. Those legislative initiatives, such as the CARA Act, the 21st Century Cures Act, and the STOP Act, are starting to work.

Over \$3 billion of additional funds has been appropriated by this Congress just in the last 3 years alone to ensure that we have the ability to push back against this epidemic. In my home State of Ohio—one of the States hardest hit by this epidemic—we received nearly \$140 million from the CARA and Cures grants. It is going toward stuff that is working—evidence-based pre-

vention, innovative approaches to treatment and getting people into treatment, and closing some of the gaps in the continuum of prevention, treatment, and recovery. A lot of people were falling between the cracks. Closing those gaps has made a big difference in my State. We also equipped our first responders with what they need and the training they need to help push back.

The good news is, these programs are starting to work. Drug overdose deaths are still way too high, but for the first time in 8 years—8 years of increased overdose deaths every year—we are seeing a reduction in overdose deaths.

In my own State of Ohio, we have seen significant progress. We have had a 21-percent drop in our overdose deaths finally after 8 years of increases. This was the biggest drop in the Nation from July 2017 to June of 2018, according to the Centers for Disease Control National Center of Health Statistics. Nationally, again after 8 years of annual increased deaths, we have seen a leveling out—in fact, a very modest downturn. Between 2017 and 2018, overdose deaths fell from 73,000 to 71,000. In all, the overdose rate dropped in 21 States. Overall, there has been only about a 1-percent drop, so it is very modest but a lot better than the alternative we have seen for 8 years, which is increased deaths.

As we begin to turn the tide on the opioid epidemic, I am convinced that we would be doing even better if not for the influx of fentanyl. About 4 or 5 years ago, fentanyl came to our country in a big way—almost entirely from China and almost always through our own U.S. Postal Service, believe it or not—and it has caused all kinds of havoc. It is the deadliest of all the drugs. When you look at overdose deaths, the primary cause now is fentanyl. It is a synthetic drug that is 50 times more powerful than heroin.

We are beginning to push back again, including with our STOP Act, which has now been passed, which requires the post office to begin screening and stopping some of these packages from coming in. We will do a better job in working with China. We have commitments from them, and we hope they will follow through on them.

Even as this limited progress is being made on the opioid front, we have a new, growing danger. I have heard this over the past few years from law enforcement and from providers—from people on the frontlines of the drug epidemic. They are seeing a resurgence of what are called psychostimulants. Mostly it is pure, powerful methamphetamine from Mexico—crystal meth.

In the last couple of months, I have heard about this from the people in the trenches all over Ohio. I have talked to community leaders in Knox County; treatment providers in Southeast Ohio; service providers in Columbus; the ADAMHS Board in Adams, Lawrence, and Scioto Counties; the leadership of
