

national historical park, and allow other sites associated with the Defenses of Washington that are owned by the District or a unit of state governments to be affiliated with the national historical park through cooperative agreements. This bill would also require the Secretary of the Interior to facilitate the storied history of the Civil War for both the North and the South, including the history of the Defenses of Washington and the Shenandoah Valley Campaign of 1864, being assembled; arrayed and conveyed for the benefit of the public for the knowledge, education and inspiration of this and future generations. Last year, I was able to have a hearing on this bill. Although the National Park Service testified against this bill, I feel strongly that the Defenses of Washington need additional recognition and should be redesignated as a national historical park.

The Defenses of Washington were constructed at the beginning of the war, in 1861, as a ring of protection for the nation's capital and for President Abraham Lincoln. By the end of the war, these defenses included 68 forts, 93 unarmed batteries, 807 mounted cannons, 13 miles of rifle trenches and 32 miles of military roads. The major test of the Defenses of Washington came with the Shenandoah Valley Campaign of 1864, when Confederate Lieutenant General Jubal Early, directed by General Robert E. Lee, sought to attack the nation's capital from the north, causing Union forces threatening to attack Richmond, the capital of the Confederacy, to be withdrawn. General Early was delayed by Union Major General Lew Wallace at the Battle of Monocacy on July 9, 1864, and was stopped at the northern edge of Washington at the Battle of Fort Stevens on July 11–12, 1864. The Shenandoah Valley Campaign ended when Union Lieutenant General Philip Sheridan defeated General Early at the Battle of Cedar Creek, Virginia, on October 19, 1864.

Nearly all the individual forts in the Defenses of Washington—on both sides of the Potomac and Anacostia rivers—were involved in stopping General Early's attack, and the Battle of Fort Stevens was the second and last attempt by the Confederate Army to attack Washington.

Taken together, these battles were pivotal to the outcome of the war and the freedom and democracy that the war represented for this country. It is therefore fitting that we recognize these sites by redesignating them as a national historical park.

I urge my colleagues to support the bill.

IN HONOR OF THE HOUSING AUTHORITY OF THE CITY OF MILWAUKEE

HON. GWEN MOORE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Ms. MOORE. Madam Speaker, I rise today in honor of the 75th anniversary of the Housing Authority of the City of Milwaukee (HACM).

State Statute and then Common Council Resolution established the Housing Authority of the City of Milwaukee, on May 1, 1944, to address the need for affordable housing in Milwaukee.

Entering its 75th year, the Housing Authority of the City of Milwaukee provides affordable

housing to almost 11,000 households in the City of Milwaukee through its public and affordable housing programs and Housing Choice Voucher program. Its mission is to foster strong, resilient, and inclusive communities by providing a continuum of high-quality housing options that support self-sufficiency, good quality of life, and the opportunity to thrive.

During the past 75 years, the Housing Authority of the City of Milwaukee has provided stable affordable housing to thousands of families, seniors, persons with disabilities, and veterans. They first accomplished this by acquiring a city-built, WPA-assisted development, and subsequently by creating almost a thousand units of housing for veterans and building other innovative developments; including the first high-rise designated specifically for the elderly and one of the first housing authorities to develop public housing single-family homes.

The Housing Authority of the City of Milwaukee works with its residents to provide them a pathway to self-sufficiency through its many initiatives and collaborations in areas such as public safety, accessibility, job training and workforce development, educational support, energy efficiency, financial literacy, environmental stewardship, household savings and homeownership.

It has done this as a national leader in creating healthy, safe, vibrant, transit-oriented, sustainable, mixed-income communities of choice. They have transformed neighborhoods and continue to be innovative in their methods and services, as well as flexible in responding to the affordable housing needs in Milwaukee. The Housing Authority of the City of Milwaukee is a strong supporter of Emerging Business Enterprises, with over \$20 million dollars annually in contracts supporting minority and women-owned enterprises

The Housing Authority of the City of Milwaukee has partnered with multiple federal agencies to bring housing and services to its residents and has been awarded multiple federal competitive grants, resulting in new and revitalized developments, including the very first completion of a HOPE VI grant from the Department of Housing and Urban Development.

The Housing Authority of the City of Milwaukee has been recognized locally, nationally, and even internationally with dozens of awards for both its buildings and its services from organizations such as the American Planning Association, U.S. Green Building Council, Governor's Council on Financial Literacy, the Ash Center for Democratic Governance and Innovation at Harvard University, Congress for New Urbanism, the State & Local Energy Report, The Environmental Protection Agency's Sustainable Communities Program, Wisconsin Department of Public Instruction, National League of Cities and the Sierra Club.

Madam Speaker, for these reasons I am pleased to honor the Housing Authority of the City of Milwaukee. This agency continues to be an innovative leader in affordable housing and makes the 4th Congressional District a better place to live and work.

PERSONAL EXPLANATION

HON. ANTHONY G. BROWN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. BROWN of Maryland. Madam Speaker, on roll call no. 437, I mistakenly voted “nay” when I intended to vote “aye.” I was a co-sponsor of H.R. 1044 in this and the previous Congress. I firmly believe that our immigration system needs comprehensive reform and this legislation is a small but important first step to alleviate the decades-long backlogs in our outdated employment and family-based immigration systems.

CONGRATULATING SHANE
JOHNSON FOR HIS SERVICE**HON. MICHAEL K. SIMPSON**

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. SIMPSON. Madam Speaker, I rise today to offer my appreciation and commendation to Shane Johnson who will be leaving the Department of Energy’s Office of Nuclear Energy after thirty years of service and success.

When you have the honor of representing Idaho’s Second Congressional District and the Idaho National Laboratory, you learn a lot about nuclear energy and the important role the federal government plays researching, developing and deploying this amazing technology. Another part of that education is collaborating with the people at the Department of Energy who oversee the labs and these programs. It is in that capacity that I was able to see Shane Johnson lead the Office of Nuclear Energy on multiple occasions with extreme professionalism and vision.

If you go back and look at the major programs and accomplishments of the DOE Office of Nuclear Energy, you will see Shane Johnson’s fingerprints all over the place. When DOE helped industry get two advanced light water reactor designs licensed by the Nuclear Regulatory Commission, Shane was there; when DOE worked with industry to get the first small modular reactors ready for deployment, in Idaho, Shane was there; when the Office of Nuclear Energy set up a robust university program to educate and graduate the next generation of nuclear scientists and engineers, Shane was there; when the Office of Nuclear Energy made its labs and facilities available to industry and universities to support technology development, Shane was there; and, when the Office of Nuclear Energy and the Nuclear Regulatory Commission began working together to use lab developed codes to enhance reactor safety and security, Shane was there again. At the end of the day, when you look at Shane’s career and you see significant impacts and lasting contributions. A “thank you,” and a “job well done is deserved.”

While Shane’s accomplishments are real and impactful, his leadership of the Office of Nuclear Energy and his stewardship of the Idaho National Laboratory deserve special recognition. As administrations and initiatives come and go, it is the enduring leadership of the federal staff that keep our government op-

erating. In his career at the Office of Nuclear Energy, incoming administrations have asked Shane to lead the office and the staff to keep our fundamental goals and objectives in sight. Shane excelled in this role and when he came before my Energy and Water Appropriations Subcommittee, you could see the confidence and pride his colleagues had in his leadership.

As he leaves federal service, I want to thank Shane for his outstanding contribution at the Office of Nuclear Energy and wish him and his wife, Susan, all the best in the future. His service will benefit generations of Americans to come.

HONORING THE BERETTA FAMILY

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. THOMPSON of California. Madam Speaker, I rise today with the Honorable Jared Huffman to honor the Beretta Family as the recipient of the 2019 Sonoma County Farm Bureau Luther Burbank Conservation Award, which recognizes an individual, business, or family that is committed to environmental stewardship. The Beretta Family Dairy has become increasingly environmentally friendly over the last 70 years.

The Beretta Family started focusing on their farm’s impact on the environment in the 1950s. They stopped using chemical fertilizers, focused on pasture management, and committed to growing as much of their own feed as possible to reduce the amount of food that had to be trucked long distances. They currently produce 60 percent of the feed required for their 350 dairy cows, which not only helps the environment, but reduces the cost of feed as well. Starting in 1981, the Beretta family has used recycled water from the City of Santa Rosa to water the hay and silage on their 200 acres. By using recycled water, the family is conserving the groundwater in the aquifer underneath the Santa Rosa Plains. In 1992, the Beretta Family developed their
