

fertigation system which combined the cows' manure with the recycled city water and kept the manure from contaminating waterways. After they started using this system, their crop yields increased by one ton per acre. The Beretta Family Dairy was one of the first farms to collaborate with the City of Santa Rosa and the Sonoma Resource Conservation District on a nutrient offset project. The Beretta Family has hosted students from the Sonoma Resource Conservation District's FARMS (Farming, Agriculture, and Resource Management for Sustainability) Leadership program. They have provided opportunities to students that otherwise may not get to experience a working dairy.

The Beretta Family Ranch is currently operated by Doug and Sharon Beretta and their children Jennifer, Lisa, and Ryan. Lisa's son Brayden has shown an affinity for agriculture and may be the fifth generation of the Beretta Family to continue the family dairy business. In 2015, Doug Beretta, and the whole Beretta Family, were given the Water Quality Stewardship Award by the North Coast Water Quality Control Board in recognition of the family's management of water and resources on their dairy. Doug Beretta is the current Director and past President of the Sonoma County Farm Bureau and the Sonoma County Fair and is a member of the 4H Replacement Heifer Committee and the Youth AG and Leadership Foundation.

Madam Speaker, the Beretta Family is dedicated to environmental stewardship and has worked to make their dairy environmentally friendly over the last 70 years. It is therefore fitting and proper that we honor them here today.

RECOGNITION OF MRIGLOBAL'S
75TH ANNIVERSARY

HON. EMANUEL CLEAVER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. CLEAVER. Madam Speaker, I rise today to honor the 75th anniversary of MRIGlobal in Kansas City, Missouri.

As World War II was ending, Americans were in awe of technology's role in ending the greatest global struggle in history. The quality of American science turned the tide of the war.

In order to harness further scientific advancements, create amazing new technologies, and employ returning veterans, Kansas City civic leadership founded MRIGlobal, an independent, not-for-profit research organization.

I am thankful that those civic leaders had the vision to create MRIGlobal and am pleased that Kansas City has remained its home.

Through the years, MRIGlobal has attracted top scientific talent, worked across disparate specialties, and addressed some of the world's most challenging problems. Their research and development have impacted a wide array of endeavors including: defense; infectious disease and biological threat detection; human health; pharmaceutical science; energy, in-vitro diagnostics; global health; and transportation.

MRIGlobal brings a significant share of Federal Research and Development investment to

the Kansas City region. Since 2013, MRIGlobal has been awarded more than \$495 million in applied R&D grants. Furthermore, MRIGlobal employs 288 dedicated individuals between its Plaza and North Kansas City campuses and 416 people nationwide.

MRIGlobal is a strong and active corporate citizen. They partner with regional Missouri and Kansas Universities and Colleges to develop scientific talent and secure qualified employees. MRIGlobal has been and remains one of the strongest supporters of Kansas City's science, technology, engineering and math education programs. For example, it proudly serves as the Presenting Sponsor for the Greater Kansas City Science and Engineering Fair. MRIGlobal is also a key civic contributor, supporting such organizations as BioNexus KC, The Civic Council of Greater Kansas City, KC Chamber of Commerce, Kansas City Area Development Council, Union Station Kansas City, the Nelson-Atkins Museum Business Council, the Animal Health Corridor, and the National World War I Museum.

Madam Speaker, I am honored to represent the employees of great non-profit companies like MRIGlobal. I ask my colleagues in the United States House of Representatives to join me in congratulating MRIGlobal on 75 years of progress and wishing them continued growth and success in the years ahead.

INTRODUCTION OF RESOLUTION
SUPPORTING THE NORTHERN
TRIANGLE

HON. J. LUIS CORREA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. CORREA. Madam Speaker, as the United States faces a humanitarian crisis at its southern border, we must reaffirm and restore our commitment to provide aid to our southern neighbors in the Northern Triangle.

We must recognize the impact of U.S. support in reducing corruption, crime, and drug trafficking in Guatemala, El Salvador, and Honduras. The resolution also recognizes that U.S. aid has spurred economic development and job growth in the Northern Triangle. Cutting funding for various preventative programs is not the answer.

Cutting foreign aid will undo the progress that has been made within the region and will make the root causes of migration greater, which in turn will force even more individuals to flee their home country. We must ensure that the United States remains committed to helping individuals in need.

HONORING THE LIFE OF MARY
LOUISE GAYLE

HON. ELAINE G. LURIA

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mrs. LURIA. Madam Speaker, I rise today to honor and recognize the late Mary Louise Gayle, who was senselessly murdered in the Virginia Beach Municipal Center shooting. Virginia Beach lost Mary Louise Gayle far too soon.

Mary Louise Gayle, also known as Mary Lou, worked as a right-of-way agent for the Department of Public Works for the City of Virginia Beach for 24 years. Friends described Mary Lou as happy, loving, and a good person. She was a dedicated mother and grandmother. Mary Lou's life of hard work and service to the community, as well as her cheerful attitude, will forever be remembered.

Mary Lou will be missed by all her loved ones. Hampton Roads significantly benefited from her presence; she made our community a better place. Today we remember and honor her life.

CONGRATULATIONS ON
RETIREMENT

HON. DANIEL WEBSTER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. WEBSTER of Florida. Madam Speaker, I rise today to commemorate the successful career of Dr. Judy Lynn Genshaft. After 19 years of service as President of the University of South Florida, Dr. Genshaft has retired. Under her leadership, USP has become a world-class institution of learning.

During Dr. Genshaft's tenure as President, she established the University of South Florida as one of the nation's top research universities. It now ranks ninth in size and is formally recognized as "top-tier" by the Carnegie Foundation for the Advancement of Teaching. Dr. Genshaft also raised the caliber of study at USF by creating the Honors College in 2002, which has flourished under her guidance. Earlier this year, Dr. Genshaft and her husband donated \$20 million of their own money to the Honors College—a generous gift that represents only a fraction of the care she has given the University over the last two decades. Her dedication to the University and the Tampa Bay area earned her the title of the 2008 Tampa Bay Business Journal Business Woman of the Year and an induction into the Tampa Bay Business Hall of Fame.

Dr. Genshaft's unwavering commitment will have a profound impact on generations of students and Floridians to come. I thank her for everything she has done for the University of South Florida, our region and our state. Sandy and I wish her well and congratulate her on her wonderful career.

INTRODUCTION OF THE PRIMARY
CARE ENHANCEMENT ACT OF 2019

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 11, 2019

Mr. BLUMENAUER. Madam Speaker, today I am pleased to introduce the Primary Care Enhancement Act of 2019, which would open up more access to affordable primary care.

Direct Primary Care (DPC) is a membership-based alternative payment model for primary care in which patients, employers, or health plans pay a DPC physician practice monthly or periodic fees directly for unlimited access to primary care and prevention services. DPC affords the patient more time with
