

secured language in H.R. 2500 that extends the Defense Advisory Committee on Investigation, Prosecution, and Defense of Sexual Assault (DAC-IPAD) for an additional 5 years and expands its mandate to cover restorative justice models and interpretation of the Rules for Courts-Martial 1001(c) that affect sexual assault survivors. I also fought for and passed a provision to direct the Department of Defense to provide a report on how the Department can establish a clear standard for victims and victims' counsel to have access to all non-privileged court filings and related materials derived directly from and pertaining directly to the victim such that victims' rights can be enforced. Additionally, I am proud to have sought language to address the issue of protective orders—the FY 2020 NDAA now requires unit commanders to notify civilian authorities of the issuance of a military protective order against a member of the Armed Forces and would require unit commanders to notify a receiving unit of the issuance of a military protective order in the event a member is transferred to another unit. And I am happy to have helped secure language to create the new Defense Advisory Committee for the Prevention of Sexual Misconduct and I cosponsored an adopted amendment that prohibits the Department of Defense from contracting with companies that do not have a sexual harassment policy that penalizes instances of sexual harassment.

Another key challenge H.R. 2500 tackles is climate change. I am grateful that language I requested to have the Department of Defense explore the possibility of maintaining plug-in hybrid and electric government vehicle fleet on defense installations and building a microgrid infrastructure to support them was included in the bill. The Department of Defense must do its part to reduce greenhouse gas emissions and this language moves the Department in that direction. I am also pleased that the bill includes provisions to require all proposals for military construction projects to consider long-term changes in environmental conditions, mandate the Department of Defense to report on progress towards meeting the goal of 25 percent renewable energy for military facilities by 2025, and direct the Secretary of Defense to develop a climate vulnerability and risk assessment tool.

Puerto Rico recently felt the impact of climate change's most severe forces in Hurricane Maria, and I am proud to have cosponsored language led by Representative Nydia Velázquez that was included in H.R. 2500 that will support Puerto Rico's recovery by increasing the value of Puerto Rican subcontractors in the federal government's contracting goal. Increasing the value of Puerto Rican subcontractors will incentivize the contracting and subcontracting of Puerto Rican businesses—supporting the Puerto Rican economy and business as it recovers from Hurricane Maria.

H.R. 2500 also includes language to help shape a foreign policy that is consistent with American values. I was happy to work with my colleagues to increase oversight and transparency of civilian casualties resulting from strikes outside areas of active hostilities and direct the Department of Defense to work with a federally funded research and development center to conduct an independent assessment of processes and procedures related to civilian casualties. Additionally, I was proud to cosponsor adopted amendments that tackled priority foreign policy challenges that our nation

faces. These amendments reasserted congressional authority to authorize the use of force, including vis-à-vis Iran, and called for an end of war declaration and peace agreement that will formally and responsibly end the Korean war.

I would also like to note that the FY 2020 NDAA includes important education related provisions. I am grateful to see the amendment I cosponsored with several of my colleagues to enable the Secretary of Defense to make grants to Department of Defense schools or those with Junior Reserve Officer Training Corps programs to support world language study was included in the bill. I am also proud to have secured language in the bill to direct the Secretary of Defense to explore how the Department may carry out a program under which the Secretary makes grants, on a competitive basis, to eligible entities to carry out STEM educational events for military communities across the United States.

In conclusion, Madam Speaker, H.R. 2500 is a strong defense bill that supports our troops, protects our nation, and reflects American values. I was proud to vote in favor of this bill and encourage my colleagues in the House and Senate to maintain these important provisions through the conference process.

COMMEMORATING THE ONE HUNDREDTH ANNIVERSARY OF THE TOWN OF NORTH HARMONY

---

**HON. TOM REED**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, July 15, 2019*

Mr. REED. Madam Speaker, I rise today to commemorate the one hundredth anniversary of the Town of North Harmony.

The original town of Harmony was the largest town in Chautauqua County, comprised of approximately eighty-six square miles. In order to ensure the efficient administration of the town's affairs, the County saw fit to create a new town. On December 19, 1918, the Chautauqua County Board of Supervisors passed an act to establish the Town of North Harmony. The Town became official on January 1, 2019, dividing the original town of Harmony in two.

Whether they are lifelong residents or new in town, the citizens of North Harmony love their town. When asked for their favorite memories of the town, they provided a variety of answers. Some recalled fun times spent on Lake Chautauqua, while others recounted community celebrations like Asheville Days. For some, growing up in North Harmony brought back fond memories spent with family and tractor rides with a grandparent.

One hundred years as a community and a town is certainly a cause for celebration. I congratulate the Town of North Harmony for withstanding the tests of time and look forward to many more years of North Harmony providing a community for our friends and neighbors.

Given the above, I ask that this Legislative Body pause in its deliberations and join me to celebrate the Town of North Harmony's one hundredth anniversary.

SUPPORT OF H.R. 2500, THE NATIONAL DEFENSE AUTHORIZATION ACT

**HON. PETER A. DeFAZIO**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Monday, July 15, 2019*

Mr. DEFAZIO. Madam Speaker, last Friday I voted in support of H.R. 2500, the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020.

While I have consistently opposed this legislation in previous years and still have concerns about a number of provisions included in this year's legislation—including yet another spending increase to an already bloated Pentagon budget—this legislation also contains numerous policy priorities that I strongly support and which have not been included in recent Republican-led NDAs.

First, this legislation grants our men and women in uniform a well-deserved pay raise of 3.1 percent—the largest pay raise for our troops since the last Democratic House majority in 2010. Those who serve in uniform continue to make extraordinary sacrifices for our country and the very least we can do is grant them a pay raise.

I am pleased that this legislation also includes numerous provisions that require the Department of Defense (DoD) to address the existential threat of climate change, including updating military construction standards to promote energy and climate resilience. It also requires DoD to report on its progress towards meeting the goal of 25 percent renewable energy for military facilities by 2025.

Additionally, I am pleased that this legislation prevents the president from diverting defense funding to pay for an unnecessary border wall, prohibits funding for the deployment of dangerous low-yield nuclear weapons, nullifies President Trump's discriminatory military transgender ban, and helps protect our veterans from being taken advantage of by predatory, for-profit colleges. Moreover, it ends the unfair Survivor Benefit Plan (SBP)/Indemnity Compensation (DIC) offset—which currently reduces spouse survivor benefits by an average of \$1,250 per month. I am also strongly supportive of the inclusion of twelve weeks of paid family and medical leave for all federal employees.

This legislation also includes several provisions to strengthen our national security, including requiring the DoD to enhance our election security, countering Russian aggression and election interference, enhancing security cooperation with our allies in Europe and Asia, and protecting against the increasing risk of cyber attacks.

I have always advocated for strengthening Congress's constitutional authority to declare war and limiting the president's authority to engage in armed conflict without the consent of Congress. That's why I voted in support of amendments to prevent the president from using unauthorized force against Iran, to prohibit U.S. support to and participation in the Saudi-led coalition's military operations in Yemen, and to repeal the long-outdated 2002 authorization for the use of military force (AUMF) in Iraq. I am proud that these amendments passed with bipartisan support.

This year I have once again introduced legislation to amend the War Powers Resolution
