TRANSMITTAL NO. 19-35

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The Multifunctional Information Distribution System (MIDS) Joint Tactical Radio (JTRS) is a software defined radio. The MIDS JTRS Programmable Secure Information Security Architecture Module (PSISAM) is Critical Program Information (CPI). The PSISAM is embedded in a MIDS JTRS Shop Replaceable Unit (SRU) and contains the information security hardware and cryptographic keys necessary to operate the terminal. MIDS JTRS contains embedded COMSEC and is capable of processing up to TOP SECRET information. Each MIDS JTRS contains an embedded SRU that is UNCLASSIFIED Controlled Cryptographic Information (CCI). Un-keyed terminals and de-energized terminals are UNCLASSIFIED CCI. When a terminal is operating on the host platform it is classified up to the level of data being transmitted.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems, which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Canada can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale supports the U.S. foreign policy and national security objectives as outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to Canada.

### ARMS SALES NOTIFICATION

Mr. RISCH. Madam President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

### POLICY JUSTIFICATION

Egypt—Follow on Technical Support (FOTS)

The Government of Egypt has requested a possible sale of Follow on Technical Support (FOTS) that provides for material and labor services in support of Oliver Hazard Perry Class Frigates (FFG-7 class ships), Fast Missile Craft (FMC), Mine Hunter Coastal (MHC) ships, Coastal Mine Hunter (CMH) ships, and 25 Meter and 28 Meter Fast Patrol Craft (FPC). The estimated cost is \$554 million.

This proposed sale will support the foreign policy and national security of the United States by helping to provide a strategic partner with critical support for multiple type ships responsible for Egypt's maritime security. The proposed sale is essential to main-

tain Egypt's national security, regional stability, and the free flow of worldwide commerce via the Suez Canal.

Egypt intends to use this technical maintenance and service support to ensure the Egyptian Navy is operationally capable of providing coastal defense and security. The proposed sale will increase the Egyptian Navy's material and operational readiness. Egypt will have no difficulties absorbing this support into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The prime contractor for Engineering Services Support will be VSE Corporation and U.S. Government activities will provide FOTS for Egypt. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require periodic trips to Egypt involving U.S. Government and contractor representatives for technical reviews, support, and oversight for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposal sale.
