REMEMBERING CHARLES C. MYERS

Mr. TESTER. Mr. President, today I rise to honor the life of Charles C. Myers, a proud American and a decorated World War II veteran.

While Charles is no longer with us, his legacy lives on. On behalf of the U.S. Senate and all Americans, I would like extend our deepest gratitude for his service to this Nation.

Charles was born on November 19, 1926, in Bismarck, AR. He grew up on his family's farm in Hot Springs County, where he was raised by his mother and father, alongside two sisters and three brothers.

Charles had an unyielding sense of adventure, spending his youth hunting squirrels and riding horses. He quickly earned a reputation as an avid horseback rider, watchful older brother, and dutiful son.

Like many young men during the war, the Myers boys felt a strong obligation to defend their country. All four brothers joined the military throughout the course of the war, including Charles, whose determination to enlist knew no bounds. He falsified his age on his enlistment papers, enrolling into the Army as a paramedic. For Charles, this was a critical moment that filled him with a burgeoning sense of loyalty and honor.

After Charles completed his training at Fort Bliss, he was sent overseas, where he served as a highly respected combat medic in the 5th Cavalry Regiment 1st Cavalry Division of the Army, operating in the Pacific theater. There, the cross on the back of a combat medic eventually served as a conspicuous target for the enemy. Charles made the ultimate sacrifice while saving others, giving his life for our Nation's freedom.

I now have the profound honor of presenting Charles' family with his set of military honors. For his bravery in line of duty, Charles C. Myers received the Purple Heart Medal, Army Good Conduct Medal, Asiatic-Pacific Campaign Medal with 2 Bronze Service Stars, World War II Victory Medal, and Presidential Unit Citation, formerly Distinguished Unit Citation. These medals serve as a small token of our country's appreciation for Charles's service and his profound sacrifice. He is an American hero who has made our Nation proud.

NATIONAL GASTROPARESIS MONTH

Ms. BALDWIN. Mr. President, I would like to call attention to the estimated 5 million Americans suffering from gastroparesis and recognize the observance of National Gastroparesis Month, which takes place in August.

Gastroparesis is a chronic digestive disease caused by the stomach's inability to empty properly in the absence of any observable blockage. Symptoms of gastroparesis, which include nausea, vomiting, and the inability to finish a normal-sized meal, can lead to malnutrition, severe dehydration, and difficulty managing blood glucose levels. This debilitating and sometimes life-threatening disease affects people of all ages, including thousands of patients in my home State of Wisconsin, but it is four times more likely to affect women than men.

There is no known cure for gastroparesis, and the condition is poorly understood. Some treatments, such as dietary measures, medications, procedures to maintain nutrition, and surgery, can help reduce symptoms; however, patients often face delayed diagnosis and struggle to manage their gastroparesis and access treatment. Increases in related hospitalizations and emergency room visits can be linked to rising rates of this disease, which may negatively impact the capabilities of our health care community.

Nonprofit advocacy organizations like the International Foundation for Gastrointestinal Disorders, or IFFGD, are leading the charge to further research, raise awareness, and provide education and support to help those affected by gastroparesis. IFFGD was founded in my home state of Wisconsin, and I am proud of the work they do for gastroparesis patients across the country.

In an effort to improve our understanding and awareness of gastroparesis, I urge my fellow colleagues to join me in recognizing August as National Gastroparesis Awareness Month. Thank you.

TRIBUTE TO WILLIAM CRAIG

Mr. SHELBY. Mr. President, today I wish to honor the career of Dr. William "Bill" Craig, who retired on June 25, 2018, after 58 years of civilian service.

Dr. Craig served as the director of the Software Engineering Directorate SED for 30 years at Redstone Arsenal in Huntsville, AL. Through his direction, SED experienced significant growth not only within its customer base but also by expanding its facilities. He has provided decades of service to improve the development and fielding of numerous Army systems, as well as the quality of life in his community and across the State of Alabama.

Mr. Bill Craig is a native of Senatobia, MS, and he received a bachelor's degree in electrical engineering from Mississippi State University. His civil service career began in 1960 at Dr. Werhner von Braun's astronics laboratory. Ten years later, he moved to the Army Ballistic Missile Defense Agency. He later became a charter member to the Army Missile Command's Missile System Software Center in 1976.

Bill has earned many recognitions throughout his career, including an honorary doctorate degree from the University of Alabama in Huntsville. In 1985, he was awarded Supervisor of the Year by the North Alabama Chapter of Federally Employed Women. Bill was the first recipient of the Joseph C. Moquin Award given by the Huntsville Association of Technology Societies. Bill also received the Medaris Award from the Tennessee Valley National Defense Industrial Association, and he was inducted into the Alabama Engineering Hall of Fame, the Order of Saint Barbara, and the Ancient Order of Saint Barbara.

What is truly remarkable are Bill Craig's many contributions to the State of Alabama and the U.S. Army through his work at Redstone Arsenal. I am proud to take this time to recognize him for his service to the people of Alabama and the people of our country. Bill is a highly respected leader and visionary in the State, and I thank him for his commitment to Alabama.

TRIBUTE TO ANN RICHARDSON McNAIR

Mr. SHELBY. Mr. President, today I wish to honor the remarkable career of Ann Richardson McNair, who dedicated over 51 years of service to NASA's Marshall Space Flight Center and the Redstone Arsenal, both located in Huntsville, AL. Mrs. McNair was an acknowledged leader in both the engineering and institutional fields at Marshall. She held many significant positions and earned outstanding honors and recognitions during her tenure there. Mrs. McNair has provided decades of service to improve the quality of life in her community and across the State of Alabama, and her notable career has left a lasting mark on the space industry.

Mrs. McNair earned her bachelor's degree in mathematics and physics from the University of Alabama. In 1958, she began her career with the Army Ballistic Missile Agency at Redstone Arsenal. Mrs. McNair then moved
