Spring Creek	Scenery, Wildlife, Fish	Endemic snail species, northern Pacific pond turtle, possible dwarf western pearl shell mussel; diverse views due to diverse vegetation and geology; intact willow riparian habitat; native redband trout.
Elk Creek	Fish, Wildlife	Wild coho salmon, wild fall Chinook salmon, wild spring Chinook salmon, wild winter steelhead, wild summer steelhead, Roosevelt elk winter range.

ADDITIONAL STATEMENTS

TRIBUTE TO DR. BARDETT FAUSETT

• Mr. DAINES. Mr. President, today I have the honor of recognizing Dr. Bardett Fausett, of Missoula County, for his service in providing care and treatment to Montana mothers and babies.

Early in his career, Dr. Fausett made the decision to serve his country in the U.S. Air Force. After serving his country, he was able to afford to go to medical school and provide for his young family after college. After serving 25 years in the Air Force, Dr. Fausett retired from his military service earned a position at the Missoula Community Medical Center.

Dr. Fausett went to Missoula with the hope of serving the community and providing care and treatment for mothers and their babies. Fausett took up the challenge of handling mothers with very complicated pregnancies and medical issues.

As a maternal fetal medicine specialist, he focused on treating babies and mothers while the baby is still in the womb. Pregnant mothers from all over the region with complicated medical issues traveled to see Dr. Fausett with the hope that he could help their families.

In his 5 years in Missoula, Dr. Fausett has delivered about 1,200 babies.

His service to our Nation in the U.S. Air Force as well as his dedication to continue his service by providing care to Montana mothers and babies is exemplary of the Montana spirit. He has changed the lives of many families across Montana by giving them personal care through challenging times.●

RECOGNIZING EXPERTISE COSMETOLOGY INSTITUTE

• Ms. ROSEN. Mr. President, each week the U.S. Senate Committee on Small Business and Entrepreneurship recognizes one small business that exemplifies the hard work and perseverance of the American Dream and the American entrepreneur. The great State of Nevada is home to more than 250,000 small businesses of all types, from mom-and-pop shop bakeries to world renowned cyber security firms. Nevada's small businesses are the driving force behind our State's rapidly growing economy and the engine that powers our communities. It is therefore my honor to recognize Nevada's Expertise Cosmetology Institute, a small business with a strong and deep-rooted commitment to improving lives and a desire to give back to the community, for recently having been named the U.S. Senate Small Business of the Week.

Small businesses, especially minority-owned small businesses, are breaking down barriers in every corner of Nevada. Expertise Cosmetology Institute is the first African-American-

owned school of cosmetology in Nevada and helps many of their students receive degrees in cosmetology, hair design, nail technology, aesthetics, and barbering. Expertise Cosmetology Institute equips its students with the knowledge to thrive in the barbering and salon industry and ensures graduates have the skills necessary to succeed post-graduation. Students gain a comprehensive knowledge of State regulations, training on the latest trends, and most importantly, how to manage a small business of their own. Expertise Cosmetology offers financial aid to those students who qualify so no student with the desire to succeed in this industry is left behind.

I would also like to recognize Mrs. Gwen Braimoh who, in addition to managing Expertise Cosmetology, also runs the Expertise New Path program in Nevada. The Expertise New Path program helps women earn their cosmetology license while incarcerated at Florence McClure Women's Correctional Center in North Las Vegas, NV. Mrs. Braimoh's passion for helping the less fortunate and those who wish to build a better life for themselves is changing lives and improving our communities across the State of Nevada.

Small businesses truly are the driving force for development and growth not just in Nevada but across our entire Nation. Small businesses like Gwen's not only help our economy succeed, they also give back by uplifting our communities, inspiring others to
