HONORING THE PUEBLO OF LAGUNA FEAST DAYS

HON. DEBRA A. HAALAND

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Monday, October 21, 2019

Ms. HAALAND. Madam Speaker, I rise today to commemorate the Pueblo of Laguna for hosting annual Village Feast Days. I speak in honor of the Pueblo of Laguna, our tribal members and traditions. With Laguna Village's Saint Joseph Feast Day, celebrated on the 19th day of March and September. With Seam Village's Feast Day celebrated on July 26th. With Mesita Village's Feast Day celebrated on August 15th. With Encinal Village's Feast Day celebrated on September 8th. With Pagueate Village's Feast Day celebrated on September 25th. With Paraje Village's Feast Day celebrated on October 17th. Laguna Pueblo has six distinct villages, and they each celebrate respective feast days; expect for the September Saint Joseph's Feast day where all villages celebrate together.

Pueblo Feast Days commemorate the Catholic Saints that were given to each New Mexico pueblo when the Franciscan Priests descended upon the Pueblos beginning in the late 1500s. The Pueblo of Laguna feast is among the largest of Pueblo feast days in the Southwestern United States where thousands of people travel across New Mexico and the United States to attend. The Pueblo is located approximately forty miles west of Albuquerque.

The ancestors of the Pueblo of Laguna have occupied the region since at least 1300 A.D. When the Pueblo Indians migrated to the Rio Grande Valley from places such as Chaco Canyon, Mesa Verde and Bears Eats. Laguna is Spanish for "lago" or "lake" which is in reference to a small lake that was once located within the Pueblo. The Keres language is the Indigenous language that members of Laguna speak.

The Pueblo of Laguna feast days are times for members of the Pueblo of Laguna to celebrate our culture, heritage, art and traditions by members gathering on the pueblo village plaza for traditions by members gathering on the pueblo village plaza for traditional dances and opening our homes to visitors to share in traditional food. Feast days are open to the public, where visitors are given the opportunity to understand the Laguna peoples' traditions by observing ceremonial dances, cultural activities and purchasing arts and crafts.

The importance of understanding all native cultures cannot be understated. Diverse cultural understanding is in furtherance of a better-informed people and nation. Knowledge of Native American culture tears down racial and cultural barriers and promotes an inclusive society. An inclusive society is necessary to national progress and the prosperity of the people of the United States. Inclusion allows people to come together in support of each other,

promoting the well being of all people regardless of cultural and racial background.

Madam Speaker, today I request to honor the Pueblo of Laguna for hosting their annual Feast Days which are essential to the future of our community and the overall strength and resilience of all Native American people. I thank and honor the Pueblo of Laguna for their hard work and dedication to protecting their culture and traditions, which will stand for generations to come.

Anna was born to Mary and Giuseppe Tiano on February 5, 1928 in Derby, Connecticut. She grew up in Derby along with two sisters and eight brothers and attended Derby High School.

Anna, with her beloved husband Al, raised five loving children: MaryAnne Cort (Bill), Thomas Teodosio (Linda), Carol Anne Peter (Dave), Robert Teodosio (Tina), and Alex Teodosio (Stephanie).

INTRODUCTION OF THE COMBATING IMPLICIT BIAS IN EDUCATION ACT

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES

Monday, October 21, 2019

Ms. NORTON. Madam Speaker, today, I introduce the Combating Implicit Bias in Education Act. My bill would create a \$30 million grant program for schools to train teachers, principals and other personnel on implicit bias with respect to actual or perceived race, religion, sex (including sexual orientation and gender identity), disability, ethnicity and socioeconomic status.

This year, a report by the U.S. Commission on Civil Rights found that students of color with disabilities received far more severe and frequent punishment than their white counterparts. In December, the U.S. Secretary of Education Betsy DeVos eliminated the Obama Administration's guidance seeking to curb exclusionary discipline, undermining key steps toward dismantling discriminatory discipline practices in classrooms.

In 2017, the Georgetown Law Center on Poverty and Inequality released a report finding that people disproportionately think of Black girls as more adult-like and less innocent compared to their white peers. This bias has been linked to harsher treatment of Black girls in schools. Students experiencing implicit bias and even outright discrimination face far greater expulsion and suspension rates, fueling the school-to-prison pipeline and widening the student achievement gap.

This bill aims to reduce the effect of implicit bias on school discipline, academic achievement and academic attainment through research-based training for education personnel, and provides teachers with necessary tools to provide equal educational and constructive behavioral feedback.

Under my bill, the Institute of Education Sciences under the Department of Education would be tasked with evaluating and reporting on the effectiveness of the training.

I strongly urge my colleagues to support this legislation.

HONORING ROSEMARY PARGA DURAN

HON. JIM COSTA

OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Monday, October 21, 2019

Mr. COSTA. Madam Speaker, I rise today to honor Dr. RoseMary Parga Duran as she retires from her position as Superintendent of Merced City School District. Throughout her 43 years in education, Dr. Parga Duran has made a positive impact on countless Merced schools and students.

Dr. Parga Duran earned her associate degree from Merced College and completed her bachelor's degree from California State University, Fresno (Fresno State). After graduating from Fresno State in 1977, she returned to Merced County to begin her teaching career at Planada Elementary School. Later in her career, she received a master's degree from California State University, Stanislaus

and a doctorate from the University of Southern California.

In 1985, she started her career with Merced City School District as a teacher and would later become an assistant principal, principal, and in 2002 was named the district's Associate Superintendent of Educational Services. Six years later, Dr. Parga Duran became Merced City School District's first female superintendent.

As the leader of Merced County's largest school district, Dr. Parga Duran has worked tirelessly to address the challenges facing the 18 schools in the district. She began her job as superintendent during the great recession and led the district through this period without any employee layoffs, while keeping the district's budget fiscally solvent. Dr. Parga Duran was an advocate for the successful passage of Measure M, a bond which provided funds for school campuses to modernize and receive necessary safety upgrades.

Under Dr. Parga Duran's leadership, Merced City School District received two Golden Bell Awards from the California School Boards Association for their STEAM (science, technology, engineering, arts, math) and preschool programs. She also oversaw the opening of Rivera Middle School and their STEAM Center. It is evident that Dr. Parga Duran's contributions to Merced City School District will continue to have an impact on our educators and future generations of leaders long after her retirement.

Madam Speaker, I ask my colleagues to join me in honoring the career and accomplishments of Dr. RoseMary Parga Duran. It is both fitting and appropriate that we honor her and the positive impact she has made in the lives of students and staff as she celebrates her retirement. I wish Dr. Parga Duran, her family, and Merced City School District the best as she retires at the end of this year.

RECOGNIZING DR. MICHAEL CALIGIURI FOR HIS GROUNDBREAKING CONTRIBUTIONS TO THE FIELD OF MEDICINE

HON. BRIAN HIGGINS

OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Monday, October 21, 2019

Mr. HIGGINS of New York. Madam Speaker, I rise today to recognize the exemplary career of Dr. Michael Caligiuri who has been elected to the National Academy of Medicine's Class of 2018, one of the single highest honors in the field of medicine and healthcare.

Dr. Caligiuri spent his formative years in Kenmore, New York, where he attended St. Joseph's Collegiate Institute. He then enrolled at the University at Buffalo to earn his undergraduate degree, and subsequently attended Stanford College for Medical School where he obtained his M.D.

Dr. Caligiuri utilized his education to the best of his ability to become a leader in his profession. He served as the CEO of The James Cancer Hospital and Solove Research Institute, and he also directed The Ohio State University Comprehensive Cancer Center for fourteen years. In addition, he is the Immediate Past President of the American Association for Cancer Research, of which he was recently named a fellow.

Dr. Caligiuri has served as chairperson, or in other advisory capacities, for countless research organizations in addition to conducting several of his own research protocols. His groundbreaking research focused on the development and activation of human natural killer cells and their modulation to help treat diseases like leukemia and brain cancer. Since these discoveries, over one thousand patients with cancer have been treated with clinical protocols that were conceived in Dr. Caligiuri's laboratory.

In 2018, Dr. Caligiuri was named the President of the City of Hope in Los Angeles, a leading cancer research and treatment center. He conducted rigorous research and combined that with an inclusive leadership style to connect other healthcare institutions together in order to ensure the highest quality patient experience and care.

Dr. Caligiuri's breakthrough discoveries in NK leukemia and cutaneous T cell lymphoma has helped get him elected to the National Academy of Medicine, which according to The New York Times is, "the United States' most esteemed and authoritative adviser on issues of health and medicine, and its reports can transform medical thinking around the world".

The incredible distinction of election to the National Academy of Medicine has only been awarded to just over two thousand medical experts since 1970. Members are elected based on their professional achievement and commitment to service, and they do their selfless and consequential work without any compensation. No more than eighty members are elected annually. This speaks to Dr. Caligiuri's passion for healthcare, commitment to community service, and his overall talent as a medical professional. Complimenting the extraordinary accomplishments achieved during his career, Dr. Caligiuri is also a loving husband and a devoted father of three children.

Today we recognize Dr. Michael Caligiuri for becoming an innovative and influential leader both in the United States and around the world in not only engaging in exemplary research and treatment practices, but also advocating for the many people whose lives have been affected by the devastating reality of cancer.
