SA 1523. Mr. McCONNELL (for Mr. BLUNT) proposed an amendment to the bill S. 2321, to require the Secretary of the Treasury to mint a coin in commemoration of the 100th anniversary of the establishment of Negro Leagues baseball; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Negro Leagues Baseball Centennial Commemorative Coin Act”.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) The year 2020 marks the 100th anniversary of the establishment of the Negro National League, a professional baseball league formed in response to African-American players being banned from the major leagues.

(2) On February 13, 1920, Andrew “Rube” Foster convened a meeting of 8 independent African-American baseball team owners at the Paseo YMCA in Kansas City, Missouri, to form a “league of their own,” establishing the Negro National League, the first successful, organized professional African-American baseball league in the United States.

(3) Soon, additional leagues formed in eastern and southern States.

(4) The Negro Leagues would operate for 40 years until 1960.

(5) The story of the Negro Leagues is a story of strong-willed athletes who forged a glorious history in the midst of an inglorious era of segregation in the United States.

(6) The passion of the Negro Leagues players for the “National Pastime” would not only change the game, but also the United States.

(7) The creation of the Negro Leagues provided a playing field for more than 2,600 African-American and Hispanic baseball players to showcase their world-class baseball abilities.

(8) The Negro Leagues introduced an exciting brand of baseball that was in stark contrast to Major League Baseball.

(9) A fast, aggressive style of play attracted black and white fans who sat together to watch those games at a time when it was virtually unheard of to interact socially in such a way.

(10) Negro Leagues baseball would become a catalyst for economic development across the United States in major urban centers such as Kansas City, St. Louis, New York, Memphis, Baltimore, Washington, DC, Chicago, and Atlanta.

(11) The Negro Leagues pioneered “Night Baseball” in 1930, 5 years before Major League Baseball, and would introduce game-changing innovations such as shin guards and the batting helmet.

(12) The Negro Leagues helped make the National Pastime a global game as players from the Negro Leagues—

(A) were the first people from the United States to play in many Spanish-speaking countries; and

(B) introduced professional baseball to the Japanese in 1927.

(13) Jackie Robinson, a military veteran and former member of the Negro Leagues’ Kansas City Monarchs, would break Major

League Baseball’s color barrier on April 15, 1947, with the Brooklyn Dodgers, paving the way for other African-American and Hispanic baseball players.

(14) The Negro Leagues were born out of segregation yet would become a driving force for social change in the United States.

(15) The Negro Leagues produced future Major League Baseball stars, including Leroy “Satchel” Paige, Larry Doby, Willie Mays, Henry Aaron, Ernie Banks, and Roy Campanella.

(16) The Negro Leagues Baseball Museum was established in Kansas City, Missouri, in 1990—

(A) to save from extinction a precious piece of Americana and baseball history; and

(B) to use the many life lessons of the powerful story of triumph over adversity of Negro Leagues players to promote tolerance, diversity, and inclusion.

(17) In 2006, Congress granted National Designation to the Negro Leagues Baseball Museum, recognizing it as “America’s Home” for Negro Leagues baseball history.

SA 1524. Mr. McCONNELL (for Ms. ERNST) proposed an amendment to the bill S. 1757, to award a Congressional Gold Medal, collectively, to the United States Army Rangers Veterans of

World War II in recognition of their extraordinary service during World War II; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “United States Army Rangers Veterans of World War II Congressional Gold Medal Act”.

SEC. 2. DEFINITIONS.

In this Act—

(1) the term “Secretary” means the Secretary of the Treasury; and

(2) the term “United States Army Rangers Veteran of World War II” means any individual who—

(A) served in the Armed Forces—

- (i) honorably;
- (ii) in an active duty status; and
- (iii) at any time during the period beginning on June 19, 1942, and ending on September 2, 1945; and

(B) was assigned to a Ranger Battalion of the Army at any time during the period described in subparagraph (A)(iii).

SEC. 3. FINDINGS.

Congress finds the following:

(1) In World War II, the Army formed 6 Ranger Battalions and 1 provisional battalion. All members of the Ranger Battalions were volunteers. The initial concept of Ranger units drew from the British method of using highly trained “commando” units and the military tradition of the United States of utilizing light infantry for scouting and raiding operations.

(2) The Ranger Battalions of World War II consisted of—

(A) the 1st Ranger Infantry Battalion, which was activated on June 19, 1942, in Northern Ireland;

(B) the 2d Ranger Infantry Battalion, which was activated on April 1, 1943, at Camp Forrest, Tennessee;

(C) the 3d Ranger Infantry Battalion, which was—

(i) activated as provisional on May 21, 1943, in North Africa; and

(ii) constituted on July 21, 1943, and concurrently consolidated with the provisional unit described in clause (i);

(D) the 4th Ranger Infantry Battalion, which was—

(i) activated as provisional on May 29, 1943, in North Africa; and

(ii) constituted on July 21, 1943, and concurrently consolidated with the provisional unit described in clause (i);

(E) the 5th Ranger Infantry Battalion, which was activated on September 1, 1943, at Camp Forrest, Tennessee;

(F) the 6th Ranger Infantry Battalion, which was—

(i) originally activated on January 20, 1941, at Fort Lewis, Washington, as the 98th Field Artillery Battalion; and

(ii) converted and redesignated on September 26, 1944, as the 6th Ranger Infantry Battalion; and

(G) the 29th Ranger Infantry Battalion, a provisional Army National Guard unit that was—

(i) activated on December 20, 1942, at Tidworth Barracks, England; and

(ii) disbanded on October 18, 1943.

(3) The first combat operations of Army Rangers occurred on August 19, 1942, when 50 Rangers took part in the British-Canadian raid on the French coastal town of Dieppe.

(4) The 1st Ranger Battalion, under the leadership of Major William O. Darby, was used in full strength during the landings at Arsew, Algeria, during the North African campaign. Due to the success of the Rangers in several difficult battles, particularly at El Guettar in March and April of 1943, 2 addi-

tional Ranger Battalions were organized in North Africa.

(5) During the North African campaign, the 1st Ranger Battalion was awarded battle honors for its actions in Tunisia. On March 20, 1943, the Battalion penetrated enemy lines and captured the position Djebel el Ank in a nighttime attack, taking more than 200 prisoners. Three days later, the battalion was attacked by the 10th Panzer division of the German Afrika Korps and, despite heavy losses, defended its position and inflicted considerable losses on the enemy. This engagement constituted what General Omar Bradley labeled “the first solid, indisputable defeat we inflicted on the German army in the war”. These actions demonstrated the ability of the Rangers to fight in difficult terrain and the courage to endure despite being outnumbered and exposed to heavy enemy fire.

(6) The 29th provisional Ranger Battalion was formed from volunteers drawn from the 29th Infantry Division stationed in England in the fall of 1942. The Battalion was activated on December 20, 1942, and accompanied British commandos on 3 small-scale raids in Norway. Nineteen members of the 29th Ranger Battalion conducted a raid on a German radar site in France on the night of September 3, 1943. After that raid, the 29th Ranger Battalion was disbanded because new Ranger units, the 2d and 5th Battalions, were being formed.

(7) During the summer and fall of 1943, the 1st, 3d, and 4th Ranger Battalions were heavily involved in the campaign in Sicily and the landings in Italy. The 1st and 4th Ranger Battalions conducted a night amphibious landing in Sicily and secured the landing beaches for the main force. The 3d Battalion landed separately at Licata, Sicily, and was able to silence gun positions on an 82-foot cliff overlooking the invasion beaches.

(8) During the invasion of Italy, the 1st, 3d, and 4th Ranger Battalions landed at Maiori with the mission of seizing the high ground and protecting the flank of the remainder of the main landing by the United States. Despite suffering from low ammunition and inadequate provisions and water, the Rangers fended off numerous enemy counterattacks against the mountain passes and via radio directed naval gunfire on the enemy forces approaching the beaches below.

(9) After the invasion of Italy, Rangers continued to be used, often in night attacks, to seize key terrain ahead of the advancing Allied forces. At the Anzio beachhead, the majority of the 1st, 3d, and 4th Ranger Battalions sustained heavy casualties after being cut off behind German lines. The Rangers had planned to infiltrate German positions under the cover of darkness and make a dawn attack on a critical road junction but were pinned down by enemy tanks and an elite German paratrooper unit. After 12 hours of desperate fighting and a failed relief attempt, the majority of the Ranger force was killed, wounded, or captured. Only 6 Rangers from the 1st and 3d Battalions, out of more than 767 men, returned to friendly lines. The 4th Battalion, which had been in reserve, also suffered 60 killed and 120 wounded out of 550 men. These 3 battalions were inactivated and the survivors were transferred to other units.

(10) In the United States, and later in Scotland, the 2d and 5th Ranger Battalions were formed to undertake operations in Western Europe. Those Battalions were engaged on D-Day, assaulting German positions at the Pointe du Hoc coastal battery, and remained in combat through September of 1944. Specifically, Rangers in the 2d Battalion, under the command of Lieutenant Colonel James E. Rudder—

(A) overcame mines, machine gun fire, and enemy artillery while scaling the 100-foot high cliffs at Pointe du Hoc;

(B) held against intense German efforts to retake the position; and

(C) after reaching the top of the cliffs, moved inland roughly 1 mile and sustained heavy casualties while searching for, and ultimately destroying, a German heavy artillery battery.

(11) During June, July, and August of 1944, the 2d and 5th Ranger Battalions were engaged in the campaign in Brest, which included close-range fighting in hedgerows and numerous villages. Later, in operations in Western Germany, the Battalions were frequently used to attack in darkness and gain vital positions to pave the way for the main Army attacks.

(12) During the final drive into Germany in late February and early March 1945, the 5th Ranger Battalion was cited for battle honors for outstanding performance. Under the cover of darkness the unit drove into German lines and secured the objective area blocking the main German supply route. The Germans attacked the position of the Rangers from both sides, resulting in heavy Ranger casualties during 5 days of fighting. As a result of the actions of the Rangers, the main Army attack was able to overcome German defenses more easily, occupy the vital city of Trier, and reach the Rhine River.

(13) The 6th Ranger Battalion operated in the Pacific. In the most notable exploit of the 6th Ranger Battalion, in January and February of 1945, the Battalion formed the nucleus of a rescue force that liberated more than 500 Allied prisoners, including prisoners from the United States, from the Cabanatuan prisoner of war camp in the Philippines. With the help of local Filipino guerrillas, the Rangers, led by Lieutenant Colonel Henry A. Mucci, demonstrated extraordinary heroism by infiltrating Japanese-held territory to reach the prisoners of war and prevent them from being killed by the Japanese. After a 25-mile march at night through the jungle, the unit killed all Japanese sentries with no loss of life of the prisoners of war. The unit successfully returned to American lines having lost only 2 soldiers killed and having another 2 wounded.

(14) The 1st Ranger Infantry Battalion—
(A) participated in the campaigns of—
(i) Algeria-French Morocco (with arrowhead);

(ii) Tunisia;
(iii) Sicily (with arrowhead);
(iv) Naples-Foggia (with arrowhead);
