

nuclear tactical weapon system currently in service in the U.S. Navy and 29 other foreign nations. It provides a day, night, adverse weather, stand-off air-to-surface capability and is an effective Anti-Surface Warfare missile. The AGM-84L incorporates components that are considered sensitive. These elements are essential to the ability of the Harpoon missile to selectively engage hostile targets under a wide range of operations, tactical and environmental conditions. The version being sold to the Government of India is a Coastal Target Suppression land attack weapon. The following components being conveyed by the proposed sale are considered sensitive and are classified CONFIDENTIAL:

- a. The Radar Seeker.
- b. The GPS/INS System.
- c. Operational Flight Program Software.
- d. Missile operational characteristics and performance data.

2. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that India can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to further the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed on this transmittal have been authorized for release and export to the Government of India.

ARMS SALES NOTIFICATION

Mr. RISCH. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

POLICY JUSTIFICATION

United Arab Emirates (UAE)—Foreign Military Sales Order (FMSO) II Case

The Government of the United Arab Emirates has requested a Foreign Military Sales Order (FMSO) II to provide funds for blanket order requisitions under a Cooperative Logistics Supply Support Agreement (CLSSA) for common spares/repair parts to support the United Arab Emirates' fleet of AH-64 Apache, UH-60 Black Hawk, and CH-47 Chinook aircraft, additional support; and other related elements of logistics and program support. The estimated cost is \$150 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of an important partner in the region. This sale is consistent with U.S. initiatives to provide key partners in the region with modern systems that will enhance interoperability with U.S. forces and increase security.

The proposed sale will allow the UAE Joint Aviation Command to continue to purchase needed spare/repair parts to maintain UAE's fleet of AH-64 Apache, UH-60 Black Hawk, and CH-47 Chinook helicopters as part of the Cooperative Logistics Supply Support Agreement (CLSSA) program. The UAE will have no difficulty absorbing these defense articles and services into its armed forces.

The proposed sale will not alter the basic military balance in the region.

There are no principal contractors involved with this potential sale. There are no known offset agreements in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
