

Salemhaven Skilled Nursing and Rehabilitation Center. A few days later, between 25 to 30 members of the cheerleading team gathered in the Salem High School parking lot, pom-poms in hand, to greet their fellow teammates from the safety of their cars and prepare for the procession to the nursing home.

The parade, which was carefully planned to ensure that all of the athletes were at least 6 feet away from one another and the residents, consisted of a line of cars where cheerleaders, one to a car, waved their pom-poms and blasted music to the delight of the residents.

I commend the members of the Salem High School cheerleading team for recognizing the importance of ensuring that those who are the most vulnerable to the virus feel supported and seen during this public health emergency. This is a difficult time for all Americans, which is why this straightforward act of kindness and recognition of community resonates with Granite Staters and all Americans and reflects the very best of our State.●

TRIBUTE TO DARREL ANDERSON

● Mr. RISCH. Mr. President, I rise today to honor an outstanding business leader from the great State of Idaho—Idaho Power CEO Darrel Anderson.

There are many ways to define an effective leader: by their vision, their passion, or their courage to do something bold. Mr. Anderson possesses all the necessary qualifications and more. His impeccable character, his authenticity, and his humility define his success not only as CEO but also as an upstanding Idaho citizen, family man and friend.

Mr. Anderson's tenure as president and CEO has been one for the records. He led Idaho Power's parent company, IDACORP, to a historic 12 consecutive years of earnings growth—an unprecedented achievement among investor-owned utilities in the United States. In 2019, the company saw the best employee safety results ever recorded in its history, something Mr. Anderson cares deeply about. Under his leadership, Idaho Power also experienced the highest customer satisfaction scores ever achieved.

Business results like these deserve recognition. But if you ask any one of Idaho Power's nearly 2,000 employees, they will tell you Mr. Anderson's legacy will not be the company's impressive numbers; it will be that he knew their name, showed up for them in good times and bad and encouraged them to make a commitment to one another every single day. Mr. Anderson made employees feel valued and respected. He acknowledged individual contributions and inspired employees to do the same.

On June 1, after nearly 24 years with the company and serving at its helm since 2014, Darrel Anderson is retiring. I send my sincerest congratulations to

my friend and wish him all the best on his well-deserved retirement. Idaho Power's reliable, affordable and clean energy helps make our great State the ideal place to live, and I am grateful for his exceptional leadership of this outstanding company.●

75TH ANNIVERSARY OF MISSION AVIATION FELLOWSHIP

● Mr. RISCH. Mr. President, for myself and Mr. CRAPO, I want to recognize a very special nonprofit organization in our State that is celebrating its 75th anniversary on May 20. Mission Aviation Fellowship, or MAF, headquartered in Nampa, ID, was formed on May 20, 1945, by veteran pilots who returned from World War II with a vision that airplanes could be used for peaceful means, bringing medicine, education, and the gospel to isolated people around the world.

One of their founding members, Betty Greene, served as their first pilot, becoming the first woman to fly over the Andes in South America and the first female pilot in Sudan as she traveled the world on behalf of MAF. Betty also received a Congressional Gold Medal for her wartime service as a women Airforce service pilot, WASP. She piloted MAF's very first flight from La Habra, CA, to Tuxpan, Mexico, and little did she know at the time that Mission Aviation Fellowship would eventually partner with over 500 organizations in 13 countries, delivering medical services and vaccines, assisting with disaster response, and offering physical help and spiritual hope for those living in the farthest reaches of the world.

Their work among the most isolated people on our planet often goes unnoticed, but in 1956, the world was captivated by the story of MAF pilot Nate Saint and four other missionaries who were martyred on the banks of the Curaray River in Ecuador at the hands of Waorani warriors. Undeterred, MAF continued to expand its operations around the world, and in 2006, they moved their headquarters to Nampa, ID, to provide their pilots with quality backcountry flight training, favorable weather, and lower cost of operations.

The Nampa headquarters hosts MAF's maintenance and training facility, along with all of the back-office functions for its programs around the world. The nearly 200 local employees and 300 volunteers support another 400 staff members in foreign countries. MAF has a fleet of 47 airplanes that includes 13 Kodiaks that are made in Sandpoint, ID, and are especially well-suited for the short, rugged mountain top and jungle landing strips in the areas they serve.

Throughout their 75-year history, MAF has brought physical help and spiritual hope to those living at the ends of the Earth—even in the midst of wars, disease, and natural disasters. They look to serve those that are forgotten by the rest of the world, and I

congratulate them on their 75 years of service and thank them for being there to provide hope and deliver needed resources in some of the world's most challenging places to reach.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Pate, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

PRESIDENTIAL MESSAGE

REPORT OF THE VETO OF S.J. RES. 68, A JOINT RESOLUTION TO DIRECT THE REMOVAL OF UNITED STATES ARMED FORCES FROM HOSTILITIES AGAINST THE ISLAMIC REPUBLIC OF IRAN THAT HAVE NOT BEEN AUTHORIZED BY CONGRESS—PM 54

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was ordered to be printed in the RECORD, spread in full upon the Journal, and held at the desk:

To the Senate of the United States:

I am returning herewith without my approval S.J. Res. 68, a joint resolution that purports to direct the President to terminate the use of United States Armed Forces in hostilities against Iran. This indefinite prohibition is unnecessary and dangerous. It would weaken the President's authority in violation of Article II of the Constitution, and endanger the lives of American citizens and brave service members.

This joint resolution is unnecessary because it rests upon a faulty premise. Due to my decisive actions and effective policies, the United States is not engaged in the use of force against Iran. As Commander in Chief, I will always defend our Nation against threats to our security.

In response to an escalating series of attacks by Iran and Iranian-backed militias on United States forces and interests in the Middle East, on January 2, 2020, United States Armed Forces eliminated Qassem Soleimani, the head of Iran's Islamic Revolutionary Guard Corps-Qods Force as he was traveling in Iraq. The purposes of this strike were to protect United States personnel, deter Iran from conducting or supporting further attacks against
