# Congressional Record

PROCEEDINGS AND DEBATES OF THE 116<sup>th</sup> CONGRESS, SECOND SESSION

Vol. 166

WASHINGTON, TUESDAY, JUNE 30, 2020

No. 120

## House of Representatives

The House met at 9 a.m. and was called to order by the Speaker pro tempore (Mr. CUELLAR).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,

June 30, 2020.

I hereby appoint the Honorable HENRY CUELLER to act as Speaker pro tempore on this day.

NANCY PELOSI,

*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 7, 2020, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 9:50 a.m.

### RECOGNIZING DR. DONALD MOORE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX of North Carolina. Mr. Speaker, I rise to recognize Dr. Donald Moore of Madison, North Carolina. For over 40 years, Dr. Moore has served as a physician at Western Rockingham Family Medicine.

Dr. Moore understands that God humbly uses him as an instrument to care for those who are entrusted to him, and he believes each patient is an

extension of his own family. That mindset, Mr. Speaker, encapsulates the true essence of a servant's heart.

After graduating from Madison-Mayodan High School with the title of valedictorian, Dr. Moore attended the University of North Carolina at Chapel Hill where he majored in biology. Dr. Moore was then accepted at Bowman Gray Wake Forest School of Medicine.

Upon graduation, Dr. Moore had many opportunities presented to him that might have awarded him more comfort and stability in life, but for him, this was not the primary goal.

Instead, he turned his gaze to returning home to care for the teachers, family members, and friends who had loved him and equipped him with the necessary tools to pursue medicine.

Mr. Speaker, it is clear to see that Dr. Moore not only possesses a servant's heart, but he also understands that service to a community is intrinsic to bettering the lives of those around us. His daughter Lindsay describes him as: "A man who knows that he's made in the image of God, and he understood at a young age what it meant to be a servant leader in the community he so loves."

Dr. Moore's wife, Sue, and three daughters believe that he is more than just a father; he is a healer, a teacher, and a hero to the countless people he has cared for.

Mr. Speaker, may God continue to bless Dr. Moore and his family as he enters retirement. I have no doubt that Dr. Moore's legacy, as well as his future service, will continue to impact the lives of those in the community.

### CONGRESS MUST SEIZE THIS OPPORTUNITY TO END CLIMATE CHANGE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. CASTEN) for 5 minutes.

Mr. CASTEN of Illinois. Mr. Speaker, in 1896 Svante Arrhenius hypothesized

that carbon dioxide pollution would trigger a greenhouse effect.

Since then, we have emitted 1.4 trillion tons of carbon dioxide, and it has gotten hotter.

In 1987, the Reagan administration crafted the Montreal Protocol to close the ozone hole. It used market tools to solve environmental problems, and it worked.

The Kyoto Protocol was supposed to apply that logic to carbon dioxide. But as many of you know, we then decided to just go collectively crazy. Scientific truths got politicized. Crackpot theories got weaponized. Meanwhile, it got hotter.

Today, the Select Committee on the Climate Crisis will release a comprehensive report with a roadmap to turn this ship around. It provides policy recommendations to reduce carbon dioxide emissions by almost 90 percent, save our country \$9 trillion, and save 62,000 lives per year by 2050.

It goes further than that. It identifies negative emission tools to take us back to the sustainable carbon dioxide levels we had in 1985. 1985 by the way, is that point in history where prior to that point we had emitted 50 percent of all the CO<sub>2</sub> emissions as a species we have emitted up to this point. Back to the future indeed.

I urge my colleagues to seize this opportunity. This is an opportunity to grow the economy and to protect the environment, but more importantly, it is an opportunity to tell your children that when the times called on you to act, you rose to that challenge.

Please. Seize this opportunity.

### CELEBRATING INDEPENDENCE DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Alabama (Mr. BYRNE) for 5 minutes.

Mr. BYRNE. Mr. Speaker, this week-end America will celebrate its 244th

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Printed on recycled paper.

H2675

birthday. Unfortunately, we do so in a time of pandemic, a struggling economy, and violent protests. But it is still our birthday, and we should both commemorate and celebrate it.

We usually do a good job in our celebration, although this year will be different since social distancing means we will be in smaller groups, and public fireworks displays have been canceled. I suspect most of us will find a way to gather with family and close friends to cook out and show the red, white, and blue.

But a commemoration is more than that. Merriam-Webster defines “commemorate” as “to call to remembrance” or “to serve as a memorial of.” How many of us will stop and remember what it meant for the Second Continental Congress to not only declare our independence from Britain, but also to state our reasons for doing so in majestic language positing the highest ideals?

Let me make a suggestion: This Fourth, get a copy of the Declaration and read it. My extended family and friends usually get together and have several of us read the various portions of the Declaration out loud and then we talk about its meaning. It doesn't take much time, and we always experience a renewed appreciation for the gift that is our country. This year we will do it virtually, in smaller groups.

The Declaration was meant to be read out loud. Indeed, on July 4, Congress not only voted to accept it but also provided for its distribution to the States and to the Continental Army.

On July 6, John Hancock as president of Congress, sent letters to the States and to General Washington enclosing broadsides of the Declaration requesting that they have it “proclaimed.” It was read out loud to celebrations in dozens of cities and towns in July and August and to the Continental Army on July 9 as it prepared for the British invasion of New York.

To some extent these events were meant to inform and inspire the people of a newly independent Nation. But then, and now, the Declaration is a defining document. It not only said we were an independent Nation, but also who we aspire to be. Freedom and equality were to be at the heart of the Nation's character. And the rights stated in the Declaration, life, liberty, and the pursuit of the happiness, are clearly labeled gifts from God himself to all of us.

The story of our country is really the unfolding of the efforts to live up to these aspirations. President Lincoln used it as a primary basis for arguing against slavery, as in the Gettysburg Address where he famously said: “Four score and 7 years ago our Fathers brought forth, on this continent, a new Nation, conceived in liberty, and dedicated to the proposition that all men are created equal.” As a result of the Civil War these ideals were enshrined in the 13th, 14th, and 15th Amendments to the Constitution.

Martin Luther King used it in his 1963 “I Have A Dream” speech, referring to the Declaration and to the Constitution as a promissory note to all Americans, which he and others of the civil rights movement called upon the Nation to honor. As a result of the movement, Congress passed the 1964 Civil Rights Act and in 1965 the Voting Rights Act.

I know it is fashionable now among our Nation's elites to view America as evil from our birth, evil in our institutions, and evil in our character. That view is a myth untethered to the reality of our history. This myth is just a false preamble to lay the groundwork for their efforts to radically reorganize our society and have government run every detail of our lives all the while piling tax upon tax upon us. Isn't this type of government what caused the Founders to declare independence in the first place? These elites call themselves “progressive,” but their plan is actually a regression to a tyrannical central government taxing us against our will.

Despite our faults, some of which have been grievous, we are a Nation established upon the highest ideals which has the strength of its character and institutions to self-correct as we strive toward those ideals. Our history repeatedly demonstrates that is who we are.

David McCullough, the Pulitzer Prize winning author and historian, several years ago told a gathering of those of us in Congress that Americans would be more hopeful if we only knew our history. How true. Complicated and contradictory, yes, but it is also a history of spectacular success and of a major force for good here and abroad.

So this week let's celebrate and commemorate who we are. Let's pause in the middle of our present troubles to renew our pride as Americans and draw lessons from our founding and history for the resolution of the issues of the day. And let us, like our Founders, “mutually pledge to each other our lives, our fortunes, and our sacred honor.”

#### ALL AMERICANS DESERVE ACCESS TO CLEAN AIR, CLEAN WATER, AND A PLANET FREE FROM TOXIC POLLUTION

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Oregon (Ms. BONAMICI) for 5 minutes.

Ms. BONAMICI. Mr. Speaker, the coronavirus pandemic, racial violence, and the climate crisis have all highlighted systemic and pervasive inequalities in our country, especially for Black communities and other people of color. Racial, economic, and climate justice are intrinsically linked.

As a member of the Select Committee on the Climate Crisis, I am pleased to stand with my colleagues this morning to release our climate action plan. It is centered on the principles of justice and equity because all

people deserve access to clean air, clean water, and a planet free from toxic pollution.

After more than a year of hearings, round table discussions, and feedback from people and groups across the country, we have a bold, science-based, comprehensive plan to address the climate crisis. It sets our Nation on a path to reach net-zero emissions no later than mid-century and net-negative thereafter. Our plan focuses on the needs of frontline communities, accelerating our transition to a 100 percent clean-energy economy, and opportunities to create good-paying jobs. Climate solutions are economic solutions.

The climate crisis is an existential threat, and we cannot wait to act. In the Pacific Northwest, climate change is already our reality. Raging wildfires each summer result in hazy skies, smoky conditions, and hazardous air quality comparable to some of the most polluted places on the planet. Decreased snowpack in the winter is upending the outdoor recreation industry. Our ocean is absorbing carbon dioxide and becoming more acidic, devastating commercial fisheries. Warmer water temperatures in the Columbia River are further endangering salmon, which are a fundamental part of the identity and culture of northwest Tribes. Droughts and extreme weather jeopardize the livelihoods of our specialty crop farmers who were already struggling to make ends meet. Despite these conditions, there are reasons to remain hopeful.

As I travel across northwest Oregon, I have visited with constituents who are already hard at work to protect our planet. At 46 North Farms near the majestic Oregon coast, Teresa Retzlaff and her CSA members are using dry farming practices to provide sustainable food and beautiful flowers for their community. In Hillsboro, Oregon, First Tech Community Credit Union constructed its headquarters out of cross-laminated timber, which creates an airy and healthy workplace and is an example of how we can reduce emissions with our choice of building materials while helping to revitalize rural communities.

In Astoria, more than 100 people filled a community room on a Friday afternoon to hear from scientists about how the climate crisis is affecting the health of our ocean. TriMet and Portland General Electric launched the region's first battery electric bus powered by 100 percent renewable wind energy.

In Portland, workers at Vigor constructed a massive wave energy buoy that was deployed off the coast of Hawaii to capture the power of our ocean in generating clean energy.

And to mark the 50th anniversary of Earth Day, I joined environment and labor leaders to discuss a green road to recovery that creates good-paying jobs. These examples, and so many more, informed our work on the select committee.

Our climate action plan is a comprehensive road map for Congress to build a healthy, resilient, and just America. By enacting our recommendations, we would achieve net-zero carbon pollution by no later than mid-century, save more than 60,000 lives each year from reduced air pollution, and generate health and climate benefits that would help save close to \$8 trillion.

I am also pleased to see many of our recommendations, included in H.R. 2, the Moving Forward Act.

As a leader on the Education and Labor Committee and the granddaughter of a coal miner, I know the way we transition to a clean energy economy and support workers is as important as the transition itself.

□ 0915

At a time when more than 47 million workers are unemployed, our recovery package must focus on creating and restoring good-paying jobs. We have the opportunity to incorporate investment in climate resilience and clean energy in the process.

As co-chair of the House Oceans Caucus and the Congressional Estuary Caucus, I am pleased that our climate action plan recognizes the power of the ocean to be part of the solution.

The climate action plan calls for the conservation of at least 30 percent of our ocean by 2030 to help preserve and protect blue carbon ecosystems that can help serve as a natural climate solution by absorbing carbon dioxide from the atmosphere.

Our plan provides solutions to protect the planet and make it more resilient for future generations. It will result in communities and an economy that is stronger, healthier, and fairer.

Now, we must turn this roadmap into action.

Mr. Speaker, I thank Chair CASTOR and the select committee staff for their tireless work.

#### CONGRATULATING DALE WATTS

The SPEAKER pro tempore. The Chair recognizes the gentleman from South Carolina (Mr. NORMAN) for 5 minutes.

Mr. NORMAN. Mr. Speaker, I rise today to celebrate the service and accomplishments of Dale Watts, a resident of Tega Cay, South Carolina.

Dale and his wife, Barbara, and family have been a part of the greater Fort Mill-Tega Cay community for over 40 years.

Dale began his career in medical sales, and after retiring after 30 years, he entered the field of real estate with his wife, Barbara, where he successfully owns and manages commercial and residential properties.

Dale's involvement in the community is legendary, as he has volunteered for numerous groups and civic organizations, including joining the Tega Cay Fire Department No. 56, where he became a certified firefighter;

joining the Tega Cay Lions Club, where he served as president for three terms; his tireless work with the Lake Wylie Lutheran Church Community Cafe; his activities as a member of Grace Presbyterian Church, where he was active with the Meals on Wheels program, the Senior Citizens Christmas Party, the International Student Exchange, and the Tega Cay Community Service Committee; and the list goes on and on.

As a result of his tireless efforts, he received numerous awards, including Firefighter of the Year in 1990, Tega Cay Voluntary Fire Department Officers Award in 2009, the Fire Chief's Award in 2010, and the Melvin Jones Fellow Humanitarian Award in 1995. He was inducted into the South Carolina Lions Hall of Fame in 2018 and was named the Tega Cay Citizen of the Year in 2005–2006.

Dale has been married to his wife, Barbara, for 41 years and has five children and five grandchildren.

In the words of many friends in the Tega Cay-Fort Mill community, "If you need something done, just call Dale."

Dale Watts has dedicated his entire life in service to others and exemplifies the slogan "Service Above Self." As a result of his tireless work, the community, the State, and the Nation are a better place to live and raise a family.

#### SETTING U.S. ON PATH TO REACH NET-ZERO GREENHOUSE GAS EMISSIONS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Ms. BROWNLEY) for 5 minutes.

Ms. BROWNLEY of California. Mr. Speaker, in December 2017, the Thomas fire destroyed over 280,000 acres, with almost all of it in my district in Ventura County. It is the second largest wildfire in all of California's recorded history.

The day it started, my constituents Trisha and Jed received a terrifying call. Evacuation orders were just issued. A wildfire was fast approaching their home, and their children were put in a car and whisked away.

It was an unbearable week for Trisha and Jed. They couldn't stop thinking of what might have happened to their children, all while mourning the loss of their home that was burned to the ground, including the invaluable keepsakes Jed had just moved to the house after his father's passing.

Natural disasters like these are becoming all too common, not only in Ventura County, but throughout California and the Western States.

Floods, tornadoes, and hurricanes, from Texas to Florida and all along the East Coast, are increasing with alarming frequency. Glaciers in the Arctic are melting faster than ever before. Ocean temperatures have increased in the last three decades at a pace greater than recorded history. Sea level rise is accelerating. Atmospheric temperatures are also on the rise.

These are facts. They are destroying homes. They are taking lives. They are wreaking havoc on our communities and communities across the planet.

Over the last year and a half, the Select Committee on Climate Crisis has been tasked with finding bold and transformative solutions to tackle this global emergency.

This report, the most comprehensive report on the impact of climate change and how to address it in the history of Congress, lays out policies, legislation, and a roadmap that will put the brakes on global warming while creating equitable, good-paying jobs of the future, and, at the same time, putting American innovation and ingenuity first.

The select committee has written a report that identifies 12 pillars on which Congress can make actionable changes and sets the U.S. on a path of reaching net-zero greenhouse gas emissions by 2050.

The report takes a deep and wide dive into all the sectors of our economy that contribute to climate change, from agriculture and transportation to how we build our buildings; to water, electric, and telecommunications infrastructure; to energy production, manufacturing, tax policy, and national security.

The impact of climate change is broad, and it can be addressed only through comprehensive and bold solutions.

I am very proud that the select committee offers up so many of those solutions, and where solutions don't exist, it lays out the challenge that American ingenuity can and will overcome.

Today, we face what appears to be an even more imminent crisis: a pandemic that has crushed the global economy and taken almost 130,000 American lives and half a million lives worldwide.

We are struggling with long, deep racial injustice and how to address it. But we will rise from this darkness, and how we rise from it will impact everyone on the planet, not only alive today, but for generations to come.

I hope that we will search for solutions that draw on the ideals that created this great Nation: equity, justice, and ingenuity.

As we rebuild our economy, let's do so by investing in the technologies, practices, and methods for the future and with the urgency of now that our changing climate demands.

As we seek to right injustice and inequity, let's not forget the role the rise of American industry played in creating some of that injustice and inequity, as it did with the climate crisis we have before us, and let's choose a path forward that rights that ship.

We are suffering now, but we should, we must, rise up with a clearer vision for a better future.

Climate change provides the greatest existential threat to human existence, but it also offers the greatest opportunity for mankind and womankind to meet that threat and to beat it.

I know that everyone in this Chamber came here to make their mark, to better their communities, to strengthen our Nation. We must seize this moment. We must seize it for Trisha and Jed. We must seize it for their children. We must seize it for their children's children.

We must show the Nation that Congress is up to the task that is before us now. We must and will act now.

#### RECOGNIZING INDEPENDENT COMMUNITY BANKERS ASSOCIATION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Arkansas (Mr. HILL) for 5 minutes.

Mr. HILL of Arkansas. Mr. Speaker, I rise today to recognize the Independent Community Bankers Association and Little Rock's Venture Center. Together, they have renewed their partnership and commitment to the ThinkTECH Accelerator program for an additional 3 years.

The ThinkTECH Accelerator brings community banks and fintech innovators together to develop new technologies specifically for community banks and the customers they serve. Not only has it received high praise from local government and top business leaders, but this renewal will keep tech entrepreneurs coming back to Arkansas for mentorship and much-needed capital.

I look forward to working alongside the ICBA, the Venture Center, State leaders, and our entrepreneurs to continuously aid our small banks and enhance our economy here at home.

#### RECOGNIZING KAYLE BROWNING

Mr. HILL of Arkansas. Mr. Speaker, I rise today to recognize Ms. Kayle Browning's great achievement of representing Arkansas and the United States of America at the Tokyo Olympics as a part of Team USA's Olympic trap team.

Kayle is from Wooster, Arkansas, and graduated from Greenbrier High School. She went on to attend the University of Central Arkansas.

Kayle started shooting at the young age of 8 in the yard with her dad, who is also an avid sporting clay shooter.

She began her target shooting career in sporting clay and then made the All-America Team at the age of 12. Kayle also represented Arkansas and Team USA as an alternate in the 2012 Olympics in London.

Kayle has shown dedication and determination over the years, and I am proud to have her represent our State on the national stage as an Olympian.

I congratulate her on her achievement of joining Team USA's Olympic trap team.

#### RECOGNIZING COACH MARCUS DAVIS

Mr. HILL of Arkansas. Mr. Speaker, I rise today to recognize Coach Marcus Davis on his recent retirement from the Little Rock School District.

Coach Davis has been an integral member of the Little Rock School Dis-

trict for 36 years, 33 of which were spent at Cloverdale Middle School.

In his tenure in the Little Rock District, Coach Davis has served as the head boys basketball coach, head girls volleyball coach, and the head girls track coach. In addition, Coach Davis taught both physical education and health education.

The lasting connections Coach Davis made with his athletes and students over the course of nearly four decades is truly inspirational.

On behalf of all Arkansans, I thank Coach Davis for his devotion to educating and coaching our youth, and I congratulate him on a terrific career and a well-deserved retirement.

#### CONGRATULATING LITTLE ROCK ON BICYCLE FRIENDLY AWARD

Mr. HILL of Arkansas. Mr. Speaker, I rise today to recognize and congratulate the city of Little Rock, Arkansas, for being awarded the Bronze-level Bicycle Friendly Community Award from the League of American Bicyclists.

As a biker and former board member of Bicycle Advocacy for Central Arkansas, I am pleased that my hometown was honored for its commitment to improving biking and safer streets for everyone.

The Bronze-level Bicycle Friendly Community Award recognizes the city of Little Rock for creating transportation and recreational resources that benefit its residents of all ages and abilities while encouraging healthier and more sustainable transportation choices.

Mr. Speaker, I thank the League of American Bicyclists for highlighting Little Rock's efforts to make biking a safe, accessible option for people whether they are commuting to essential jobs or simply enjoying our growing, amazing network of trails.

#### SUPPORT STRUCTURAL CHANGE IN CRIMINAL JUSTICE SYSTEM

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. FOSTER) for 5 minutes.

Mr. FOSTER. Mr. Speaker, on Thursday of last week, I was proud to join my colleagues to vote for the historic George Floyd Justice in Policing Act.

This legislation represents the first of many steps we need to take to achieve structural change in our criminal justice system, our police, and our society. The American people are demanding action, and they are not interested in more studies or talking points or half measures.

I have been inspired by what I have seen in the Illinois communities that I represent, in places like Naperville, Aurora, and Joliet, where people of all backgrounds have come together to say enough is enough. I have been proud to stand with those in my district and across the country who are calling for change, and I am proud to help amplify their voices.

We are all frustrated that prior action was not taken to prevent the hor-

ror that we have witnessed far too often of Black Americans being unjustly killed at the hands of law enforcement.

For a lot of people, the video of George Floyd being killed when a Minnesota police officer knelt on his neck for nearly 9 minutes was shocking and put this problem front and center, as did the senseless and brutal killing of Breonna Taylor in Louisville.

But for Black Americans, this is not a new problem. It is just more of the same, more senseless, unjust killings of Black Americans by abusive police officers, who often seem to be protected by law enforcement systems plagued by structural racism.

Black Americans shouldn't have had to wait this long for Congress to take action. They deserve a Congress that is responsive to this longstanding crisis, and they deserve a President who wants to lead our Nation to a more just place for people of color instead of the opposite.

□ 0930

No, Mr. President, white power is nothing to celebrate.

So I am proud that the House took action and a step in the right direction with the Justice in Policing Act, which includes key reforms like banning chokeholds and no-knock warrants, mandating the use of body cameras, ending racial and religious profiling by the police, demilitarizing the local police departments, and strengthening accountability measures to hold abusive police officers accountable for their actions.

Most Members of this House can share stories of similar incidents in their own districts, often leading to the deaths of their constituents that should have been prevented. And I know that my colleagues join me in honoring the memory of Black lives that have been unjustly lost to police brutality.

As I cast my vote, I carried with me with one of Naperville's very own, Sandra Bland. Sandra grew up in Naperville before moving to Texas to pursue her education and earn a degree in agriculture. She then returned to Illinois, where she was a brave activist who worked for social justice and community engagement.

A few days after celebrating the Fourth of July with her family back in Naperville, Sandra went back to Texas to begin a job at her alma mater, Prairie View A&M, a historically Black State university.

On July 10, 2015, she was pulled over on an empty suburban street for failing to signal a lane change. She was arrested and 3 days later found hanged to death in her jail cell.

Sandra Bland should never have been arrested. She should be alive today and looking forward to celebrating another Fourth of July with her family this weekend, just like George Floyd, Breonna Taylor, and the countless Black Americans who have been the

victims of discrimination and brutality throughout the history of our country.

Two months before her death, Sandra Bland posted a video raising awareness about this important and deadly issue. “Black lives matter,” she said. “They matter. In the news that we’ve seen as of late,” Sandra said, “you could stand there, surrender to the cops, and still be killed.” That is what Sandra said 2 months before it happened to her.

Well, I am here on the floor of the House to say that Sandra Bland’s life mattered, George Floyd’s life mattered, Breonna Taylor’s life mattered, and Black lives matter, and it is past time that the laws of our Nation reflect it.

#### HONORING GROCERY AND CONVENIENCE STORE WORKERS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, America found itself in the middle of the COVID-19 pandemic. It is a crisis, the likes of which many have not experienced in their lifetimes. There are those who run from the crisis, those who run toward it, and those who find themselves right in the middle without any say in the matter.

Today, many of those in the middle are the men and women stocking, sanitizing, and serving our communities in grocery and convenience stores throughout our country. These employees are among the unsung heroes in the fight against COVID-19 who have been overlooked not only in appreciation, but also in our support.

Grocery stores and convenience stores play a critical role in our Nation’s food supply chain, and reliable access to healthy foods is essential for all Americans, as we have seen throughout this crisis.

To thank them for working around the clock and putting themselves at risk throughout the pandemic, I would say that the employees working our grocery stores and our convenience stores have probably had more exposure to the public than any other position out there.

To thank them for what they do, I have introduced the Giving Retailers and Our Convenience Employees Relief Act, or the GROCER Act. The GROCER Act would alleviate the Federal tax burden for grocery store and convenience store workers from February 15, 2020, to June 15, 2020, for individuals making less than \$75,000 a year. The bill also gives the Treasury Secretary discretion to extend this benefit for an additional 3 months.

The hardworking men and women stocking our shelves are among the unsung heroes during the COVID-19 pandemic. These frontline workers are putting in overtime to ensure that we have the resources we need to weather this storm.

In times of crisis like these, we learn to fully appreciate these workers who

play a valuable role in our food supply chain. Food is something that connects all of us, and access to food is something we all depend upon.

I am proud that this is a bipartisan bill, and I would like to thank my colleague, Congressman DWIGHT EVANS from Philadelphia, for joining me to lead this effort.

The GROCER Act is a simple way to say thank you to these workers who leave their families each day, risking exposure to the virus, in order to ensure that our families and constituents have access to the food and resources we need. Without these workers, millions of Americans would struggle to access necessities.

The GROCER Act is a commonsense way to compensate and support our grocery and convenience store workers. The Federal tax holiday for these workers would put more of their hard-earned money back into their pockets to support themselves and their families.

I would like to urge my colleagues to join me in thanking these frontline workers by supporting and cosponsoring the GROCER Act.

#### REBUILDING AND RENEWING AMERICA

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Mr. Speaker, people every day are struggling to make sense of the most challenging times our Nation has seen in more than a century, and that is saying something.

A hundred years ago, we were recovering from the Spanish flu pandemic that hit America hard and people around the globe. Ten years later, we had the stock market crash, the Great Depression, and massive unemployment.

But today, we have all of those circumstances and more. We are in the middle of a pandemic. We have the resulting economic upheaval. We reached near depression-era levels of unemployment, and rather than take 3 years, as happened in the 1930s, it has happened in a matter of 3 weeks.

We have the climate crisis which my colleagues have addressed so eloquently today both in terms of the challenge and what we can do about it. Luckily, the world is finally acknowledging that, but it is still too slow to respond.

We have some lessons that we, I think, have learned from what we quaintly called the Great Recession of 10 years ago. As somebody who was legislating in the middle of it and watching the impact in my community and around the country, it seemed horrific. But it pales by comparison with what people are facing today and the demands for racial justice.

My colleagues in introducing their handiwork of the Select Committee on

the Climate Crisis all acknowledged that that is at the forefront of our thinking. There is a recognition that demands for racial justice, long overdue and now widely acknowledged, is more than just law enforcement and criminal justice reform.

Racial justice means addressing the dramatic health disparities that have been put in the spotlight as a result of the COVID-19 disaster. It means they must address the housing defunction in this country, the lack of affordable housing, a crisis of homelessness, people on the verge of losing their homes to eviction, and foreclosure that is looming on the horizon.

We need more affordable housing and we need more of it if we are going to deal with those demands for racial justice. We need safer, sustainable communities and economic justice and opportunities.

Luckily, the House this week is dealing with ways to advance a vision that addresses all of those. The climate blueprint that has been acknowledged, the hard work of the Select Committee on the Climate Crisis to protect the climate, protect the planet, also has embedded in it: opportunities to improve the quality of life in every community, new economic opportunities that will be widely shared, reducing costs for families, and strengthening the capacity of local government to meet their climate challenge.

H.R. 2, the handiwork of my friend and colleague, PETER DEFazio, the chair of the Transportation and Infrastructure Committee, is a modest 1,067 pages. It is full of opportunities to rebuild and renew America in a sustainable fashion, to share economic opportunity, to have a low-carbon future, energy efficiency, and electrification of the transportation system. Part of it rescues the post office, replacing hundreds of thousands of their vehicles with electric cars which will help build the platform for further electrification.

These are a variety of elements that, woven together, is a new vision for Congress and this country. It can start yet before we adjourn this Congress. I hope that we will have some bipartisan cooperation to embrace these critical principles and move that forward.

But the extent to which there is delay, we are setting the stage for the next Congress, for the next administration being able to engage people around the country with a new way of rebuilding and renewing America, making our families safer, healthier, and more economically secure.

#### RECOGNIZING KIM CHAMBERLAIN

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. LAMALFA) for 5 minutes.

Mr. LAMALFA. Mr. Speaker, I rise this morning to recognize my good friend Kim Chamberlain for her service to Shasta County.

Kim was born and raised in a pear orchard just out of Seoul, South Korea,

during the Korean war. She is a refugee and a survivor of the war. Kim eventually married a U.S. Army medic, Paul Chamberlain, and came to the United States in 1971.

As a new resident, Kim's goals in America were to learn English, drive an automobile, and get a job. After working as a strawberry trimmer at Lassen Canyon Nursery for several years, Kim went to school and earned her cosmetology license in 1978. In 1981, Kim opened a beauty salon, a shop she owned until 2012. I wish it were still open right now.

In 2012, Kim was diagnosed with breast cancer, but she is a fighter and a survivor in getting through it—very admirable. After entering remission, Kim became a local cancer awareness activist, helping others and meeting with other breast cancer survivors for encouragement and support.

As the wife of a veteran and a war survivor, you won't find a bigger champion for veterans' issues than Kim Chamberlain. I don't know of anybody who works harder to advance the causes for our veterans and be sure they are properly honored on Veterans Day and Memorial Day.

She is one of the fiercest advocates for bringing a veterans clinic, a veterans cemetery, and a veterans home to northern California in Shasta County. She helped raise funds for an endowment that actually pays for landscaping at the Northern California Cemetery and served on a nonprofit board that built a memorial chapel there.

A 29-year member of both the VFW Auxiliary and Northern California Korean War Veterans chapter, Kim hosts an annual luncheon to honor and thank Korean war veterans in the area. They come from far and wide to be part of this. I have taken part in several of those.

2020 marks the seventieth anniversary of the beginning of the Korean war, and this year would have been the 30th annual luncheon Kim would have hosted to show appreciation for the Korean war veterans. Unfortunately, this is yet another event that has been wiped out by the coronavirus pandemic.

Kim's work on behalf of veterans has been recognized by the city of Anderson, the Anderson Chamber of Commerce, Shasta County, and even the Prime Minister of South Korea.

Kim's story embodies the American Dream. She has worked hard and is always working to help her community many, manifold over.

More than her contribution to local veterans or support of local cancer survivors, Kim is a wonderful friend to me, to many, all who come in contact with her. She, indeed, is a blessing to us who know her and those who have come in contact with her and have been helped by her.

I wish her all the best, and God's blessing upon Kim in everything she does as a neighbor in northern California.

#### CLEAN ENERGY

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. LEVIN) for 5 minutes.

Mr. LEVIN of California. Mr. Speaker, as a freshman Member of Congress, it has been an honor and a privilege to get to serve on the Select Committee on the Climate Crisis, and I am so grateful for that opportunity. I commend Speaker PELOSI and Chair CASTOR for their outstanding leadership.

Long before I pursued public office, I was a proud clean energy advocate, and I knew then, as I know now, that solutions to the climate crisis could also be solutions to many economic challenges we face.

We have seen that come true in my home State of California where we have embraced ambitious measures to combat climate change and have seen strong economic growth, particularly in the clean energy sector.

Last year, California supported more than half a million clean energy jobs in areas such as energy efficiency, renewable energy, and clean vehicles. Through 2019 job growth was nearly 10 percent annually.

Clean energy technology, clean domestic manufacturing, and environmental restoration is already putting Americans to work.

Our report highlights a number of ways that we can combat the climate crisis and create more jobs at the same time. For example, the report includes bipartisan legislation I introduced to reduce our dependence on fossil fuels by promoting environmentally responsible development of renewable energy on public lands.

We can expand those technologies and grow our economy by extending important tax credits like the solar investment tax credit which drives job creation, reduces greenhouse gas emissions, and helps level the playing field for clean energy. We will also create jobs with strong Federal funding for infrastructure, investments in new and retooled domestic manufacturing facilities, new buy clean procurement rules, expanded loan opportunities for decarbonization technologies, and the creation of a civilian conservation corps and a climate resilience service corps.

Alternatively, if we fail to act, we will allow other countries to take the lead on developing clean technologies. China, India, and nations in Europe will reap the economic rewards, and we will find ourselves purchasing foreign products that should have been made right here in America.

Some might take issue with the perceived cost of climate action, but it is also important to note the cost of inaction. My friend, Marshall Burke, a researcher at Stanford University, has studied this extensively and found that if we don't take substantial action to mitigate the climate crisis, it will cost the U.S. economy \$25 to \$35 trillion over the coming decades.

That is why we must act. I have a 6-year-old and an 8-year-old at home, and, like any parent, there is a lot that I worry about for their future; but I am most concerned about the planet that we are going to leave behind for them and for their children. The path we are on right now leads to a grim future for our planet. Our report charts a new hopeful course for the future.

Mr. Speaker, I thank my colleagues and the outstanding staff who made this report possible. Now let's get to work.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 10 a.m. today.

Accordingly (at 9 o'clock and 47 minutes a.m.), the House stood in recess.

□ 1000

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. TAKANO) at 10 a.m.

#### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:

God of us all, thank You for giving us another day. Coronavirus diagnoses and deaths continue to mount throughout our Nation. Please bless with healing and comfort those whose lives have been so severely disrupted. Continue to protect and empower those who tend to the sick and those who seek medical solutions to this dangerous pandemic.

Unfortunately, there are many other issues pressing upon us. Bless the Members of the people's House whose responsibilities press them to address such seemingly overpowering challenges. Help them and help us all to trust that You have not abandoned us but are with us now, as You have been throughout American history.

We thank You for those who live heroic lives during this time. Give them strength and perseverance in their service. May all that is done this day be for Your greater honor and glory.

Amen.

#### THE JOURNAL

The SPEAKER pro tempore. Pursuant to section 4(a) of House Resolution 967, the Journal of the last day's proceedings is approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Pennsylvania (Mr. THOMPSON) come forward and lead the House in the Pledge of Allegiance.

Mr. THOMPSON of Pennsylvania led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### COMMUNICATION FROM THE SERGEANT AT ARMS

The SPEAKER pro tempore laid before the House the following communication from the Sergeant at Arms of the House of Representatives:

OFFICE OF THE SERGEANT AT ARMS,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, June 26, 2020.

Hon. NANCY PELOSI,  
Speaker, House of Representatives,  
Washington, DC.

DEAR MADAM SPEAKER: Pursuant to section 1(b)(2) of House Resolution 965, following consultation with the Office of Attending Physician, I write to provide you further notification that the public health emergency due to the novel coronavirus SARS-CoV-2 remains in effect.

Sincerely,

PAUL D. IRVING,  
Sergeant at Arms.

### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

### COMMEMORATING THE LIFE AND LEGACY OF RIK PAULSEN

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, today, I rise to commemorate the life and legacy of Rik Paulsen.

Rik Paulsen was a committed community leader, a dedicated sailor, and a dear friend of mine for many years. He passed away on Sunday, May 24, at the age of 78.

Mr. Speaker, a graduate of the U.S. Merchant Marine Academy, Rik truly lived up to the academy's motto, *Acta Non Verba*, or Deeds Not Words.

I have had the pleasure of working with Rik as he served on the Service Academy Selection Board in my district for more than 30 years. It was an honor to have his input and his help while choosing the best and brightest men and women to nominate for service to our Nation's Armed Forces. Rik was truly passionate about service and was committed to helping these students fulfill their dreams of serving this country.

Mr. Speaker, Rik's wife, Pamela, and the rest of the Paulsen family are in my thoughts and prayers. He will truly be missed.

### ACT NOW TO SAVE OUR ESSENTIAL WORKERS

(Mr. ROSE of New York asked and was given permission to address the House for 1 minute.)

Mr. ROSE of New York. Mr. Speaker, over 125,000 Americans dead, economic destruction all around us, and cases spiking across the country.

States and cities are facing budget gaps that are going to force our essential workers to get kicked to the curb, all because MITCH MCCONNELL feels zero sense of urgency.

Rent and mortgage payments due tomorrow.

Taxes due in a few weeks.

Small businesses hanging on for their dear life.

And MITCH MCCONNELL, sitting on his hands, caring only about politics.

Mr. Speaker, what happened in my city is happening in Texas, Arizona, and Florida. These States need our help, too. This is about the people who saved our country, our essential workers, doctors, nurses, cops, firefighters.

We passed the HEROES Act. Where is your bill, MITCH? Do something. Do your job because the rest of America is doing theirs right now.

### MARKING TODAY'S PPP DEADLINE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I am grateful for the Paycheck Protection Program, PPP, which has been crucial to helping families, small businesses, and communities maintain and promote jobs.

President Donald Trump's leadership of achieving record job growth, and now job recovery, is appreciated.

This program has helped 4.4 million small businesses procure loans, and over \$511 billion has been processed in aid. The deadline to apply for the loans is today, and so far, these loans have been great news for small businesses making a difference for jobs. I am thankful that the Paycheck Protection Program has been so widely successful to support small businesses and maintain jobs in the midst of the global pandemic of the Wuhan virus.

Mr. Speaker, in conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

### CONGRESS NEEDS ANSWERS ON RUSSIAN BOUNTIES FOR U.S. TROOPS

(Mr. SCHNEIDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHNEIDER. Mr. Speaker, yesterday, it was reported that U.S. officials were aware more than a year ago of Russian bounties on the lives of our troops and, further, that President Trump received written intelligence in February, 4 months ago. If true, this represents a gross dereliction of duty.

I shudder at the idea that the men and women defending our Nation might not have the full confidence that their Commander in Chief has their back.

Mr. Speaker, I am the father of a young Navy officer. I represent Naval Station Great Lakes, where every en-

listee receives basic training on their journey from recruit to sailor. I feel a great personal responsibility for everyone who volunteers to risk their lives in service to our Nation. I wish I had confidence that the President felt the same.

Mr. Speaker, Congress needs answers as to the truth. Every Member of Congress needs to be briefed by the CIA and the intelligence community. With the truth, Congress can better protect our troops, fulfill America's role as a global leader, and make sure that Russia is held to account for their heinous actions.

### HIGHLIGHTING VOTER FRAUD AND ALL-MAIL BALLOTS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, voter fraud and all-mail ballots are going to be quite a problem this year if we don't have safeguards in place.

In my home State of California, more needs to be done in order to clean up the voter rolls. That doesn't mean voter suppression, as all the caterwauling we hear around here. It means that you are taking people off who are no longer at a particular address or deceased. That way, you will have more confidence in who is voting.

Look at what happened recently in Paterson, New Jersey, where voter fraud caused 19 percent of the ballots being tossed out, by four different people being involved with that, including a city council member.

So, what do we have? An issue where all-mail ballots are going to be the solution this year? No.

In many States, including my own, you can request an absentee ballot, but at least there is some type of a paper trail of a person asking for a ballot and receiving it, versus willy-nilly sending ballots to every name that is on the rolls that are not cleaned up.

If you have ever campaigned in an apartment complex, for example, so many people are no longer even at the name that is on the list on the door. So, you have ballots being sent in heaps to these areas where no one is even living anymore. So, you have a big problem with the availability of fraud when you have that.

### CALLING FOR IMPEACHMENT OF ATTORNEY GENERAL BARR

(Mr. COHEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COHEN. Mr. Speaker, we have been experiencing a very unusual pattern of behavior by the Attorney General of the United States, behavior that has scared many, and should scare all, for he has abused his power; he has obstructed justice; and he has violated the First Amendment.

He has destroyed almost every norm that existed for Attorneys General and their relationship to the rule of law, the rule of law that makes America stand out as the beacon on the hill to nations all over the world. No longer, for the rule of law has been diminished by his actions with Michael Flynn, a person who pled guilty twice, admitted to lying, and, yet, wanted to withdraw the prosecution. And the same for the change in the plea agreement for Roger Stone and that recommendation.

He violated the First Amendment at Lafayette Park when he cleared the park for a photo op for the President.

He abused his power in the Mueller report when he misled the people in what the Mueller report really said.

Mr. Speaker, for those reasons and others, I have been joined by 35 of my colleagues today in introducing a resolution calling for the impeachment of William Barr and calling on the Committee on the Judiciary to look into it.

### RECOGNIZING JUNETEENTH INDEPENDENCE DAY

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Mr. Speaker, I rise today to pass on the floor of the House H. Res. 1001.

If we can recall our history, we will know that 155 years ago, on June 19, General Gordon Granger rode into Galveston, Texas, and announced the freedom of the last American slaves, belatedly freeing 250,000 slaves in Texas, nearly 2.5 years after Abraham Lincoln signed the Emancipation Proclamation.

Mr. Speaker, I am very proud of the 200-plus Members of Congress who signed H. Res. 1001 that deals with recognizing June 19 as this year's observance of the historical significance of Juneteenth Independence Day.

The reading of this order ended shadow slavery, a form of perpetual servitude, and, as well, the 13th Amendment that then forever banned slavery in this Nation. That servitude held generations of Africans in bondage in the United States for 248 years and opened a new chapter in American history.

Mr. Speaker, it is America's original sin. I hope this legislation and the legislation to come will allow us to have a unified, dignified, peaceful discussion of race and systemic racism in this Nation, and Juneteenth will become a living symbol of freedom for people, including the proposed Juneteenth official Federal holiday.

Juneteenth remains the oldest known celebration or commemoration of slavery's demise.

### RECOGNIZING JUNE 19, 2020, AS THIS YEAR'S OBSERVANCE OF THE HISTORICAL SIGNIFICANCE OF JUNETEENTH INDEPENDENCE DAY

Ms. JACKSON LEE. Mr. Speaker, I ask unanimous consent that the Com-

mittee on Oversight and Reform be discharged from further consideration of H. Res. 1001 and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The text of the resolution is as follows:

#### H. RES 1001

Whereas news of the end of slavery did not reach frontier areas of the United States, and in particular the Southwestern States, for more than 2½ years after President Lincoln's Emancipation Proclamation, which was issued on January 1, 1863, and months after the conclusion of the Civil War;

Whereas, on June 19, 1865, Union soldiers led by Major General Gordon Granger arrived in Galveston, Texas, with news that the Civil War had ended and that the enslaved were free;

Whereas African Americans who had been slaves in the Southwest celebrated June 19th, commonly known as "Juneteenth Independence Day", as the anniversary of their emancipation;

Whereas African Americans from the Southwest continue the tradition of celebrating Juneteenth Independence Day as inspiration and encouragement for future generations;

Whereas for more than 150 years, Juneteenth Independence Day celebrations have been held to honor African-American freedom while encouraging self-development and respect for all cultures; and

Whereas the faith and strength of character demonstrated by former slaves remains an example for all people of the United States, regardless of background, religion, or race: Now, therefore, be it

*Resolved*, That—

(1) the House of Representatives—

(A) recognizes the historical significance of Juneteenth Independence Day to the Nation;

(B) supports the continued celebration of Juneteenth Independence Day to provide an opportunity for the people of the United States to learn more about the past and to better understand the experiences that have shaped the Nation; and

(C) encourages the people of the United States to observe Juneteenth Independence Day with appropriate ceremonies, activities, and programs; and

(2) it is the sense of the House of Representatives that—

(A) the celebration of the end of slavery is an important and enriching part of the history and heritage of the United States; and

(B) history should be regarded as a means for understanding the past and solving the challenges of the future.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1015

### PROVIDING FOR CONSIDERATION OF H.R. 2, INVESTING IN A NEW VISION FOR THE ENVIRONMENT AND SURFACE TRANSPORTATION IN AMERICA ACT

Mr. MORELLE. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1028 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

#### H. RES. 1028

*Resolved*, That upon adoption of this resolution it shall be in order to consider in the House the bill (H.R. 2) to authorize funds for Federal-aid highways, highway safety programs, and transit programs, and for other purposes. All points of order against consideration of the bill are waived. In lieu of the amendment in the nature of a substitute recommended by the Committee on Transportation and Infrastructure now printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 116-54, modified by the amendment printed in part A of the report of the Committee on Rules accompanying this resolution, shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any further amendment thereto, to final passage without intervening motion except: (1) two hours of debate equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure; (2) the amendments en bloc described in sections 2 through 7 of this resolution; (3) the further amendments described in sections 8 and 9 of this resolution; and (4) one motion to recommit with or without instructions.

SEC. 2. After debate pursuant to the first section of this resolution, it shall be in order for the chair of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part B of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for one hour equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 3. At the conclusion of the consideration of the amendment en bloc described in section 2 of this resolution, it shall be in order for the chair of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part C of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for 30 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 4. At the conclusion of the consideration of the amendment en bloc described in section 3 of this resolution, it shall be in order for the chair of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part D of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for 30 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 5. At the conclusion of the consideration of the amendment en bloc described in

section 4 of this resolution, it shall be in order for the chair of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part E of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for one hour equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 6. At the conclusion of the consideration of the amendment en bloc described in section 5 of this resolution, it shall be in order for the chair of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part F of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for 30 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 7. At the conclusion of the consideration of the amendment en bloc described in section 6 of this resolution, it shall be in order for the ranking minority member of the Committee on Transportation and Infrastructure or his designee to offer an amendment en bloc consisting of the further amendments printed in part G of the report of the Committee on Rules accompanying this resolution. The amendment en bloc offered pursuant to this section shall be considered as read, shall be debatable for 30 minutes equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure or their respective designees, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 8. At the conclusion of the consideration of the amendment en bloc described in section 7 of this resolution, each further amendment printed in part H of the report of the Committee on Rules accompanying this resolution shall be considered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

SEC. 9. (a) Prior to the offering of an amendment en bloc pursuant to sections 2 through 7 of this resolution, the chair of the Committee on Transportation and Infrastructure or his designee may designate amendments that shall not be considered as part of the amendment en bloc to be offered pursuant to such section.

(b) Any amendment designated pursuant to subsection (a) shall be in order at the conclusion of the consideration of the further amendments pursuant to section 8 of this resolution if offered by a Member designated in the report of the Committee on Rules accompanying this resolution, shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

(c) All points of order against amendments en bloc described in sections 2 through 7 of

this resolution, the further amendments described in section 8 of this resolution, and the further amendments described in this section are waived.

The SPEAKER pro tempore. The gentleman from New York is recognized for 1 hour.

Mr. MORELLE. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the distinguished gentleman from Georgia (Mr. WOODALL), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

#### GENERAL LEAVE

Mr. MORELLE. Mr. Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. MORELLE. Mr. Speaker, on Monday, the Rules Committee met and reported a rule, House Resolution 1028, providing for consideration of H.R. 2, the Moving Forward Act, under a structured rule.

The rule provides 2 hours of general debate on the bill, equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure.

The rule self-executes a manager's amendment offered by Chairman DEFAZIO, makes in order six en bloc amendments in total, and makes in order three further amendments.

Prior to the offering of an en bloc amendment, the chair of the Committee on Transportation and Infrastructure may designate amendments that shall not be considered as part of the en bloc and shall be considered separately.

And, lastly, the rule provides one motion to recommit, with or without instructions.

Mr. Speaker, the Moving Forward Act provides more than \$1.5 trillion to rebuild American infrastructure. The state of disrepair of our roads cost Americans \$160 billion in 2014, and 200,000 of our Nation's bridges are more than 50 years old.

Our aging water system loses trillions of gallons of treated water each year and leaves some families without clean water to drink at all.

Children across the Nation are trying to learn in classrooms that are falling apart, without climate control in extreme temperatures, and without reliable internet access.

At the same time, more than 200 million Americans are facing unemployment during a global pandemic.

Our Nation is facing long-term economic repercussions of our inability to stem the spread of COVID-19. We must do something.

Nearly a century ago, President Franklin Delano Roosevelt lifted this Nation up during the height of the Great Depression by putting Americans

back to work. By investing in good-paying jobs and public works to improve our communities across the Nation, we were able to provide direct help for working families and invest in much-needed infrastructure. This shaped the face of America for generations to come.

The time has come again to invest in desperately needed infrastructure projects that can put Americans to work right now in their own communities.

There has been tremendous bipartisan agreement from leaders at every level of government, from our village mayors to the President of the United States, that this country must invest in infrastructure that will carry the next generation. The Moving Forward Act is the first step in meeting that need.

With H.R. 2, we will be investing not only in transportation, housing, schools, and broadband, but in families, workers, and communities across this country. This legislation supports American manufacturing and ingenuity, and together we will create millions of jobs right here at home. We will secure the future of our children by forging a path toward zero carbon emissions, making our streets and transit safer, and bringing a better learning environment to every child.

This legislation provides more than \$300 billion to repair and upgrade existing roads and bridges, railways, and ports. We are going to provide \$100 billion to put zero-emission buses on American roadways, cutting congestion, providing new options for families and workers. We are working to make roads smarter and safer for all users, including children, pedestrians, and cyclists.

We will also provide over \$100 billion to create or preserve 1.8 million affordable homes, reducing housing inequality, creating local jobs, and increasing resiliency in the face of natural disasters.

I am proud to support provisions to triple funding for Amtrak to allow long-awaited upgrades and expansion of our Nation's passenger rail network. America has long lagged behind in accessible and efficient rail travel, and this funding will improve safety and assist local traffic congestion.

The Moving Forward Act represents a true partnership between the Federal Government and American States and localities.

The bill also permanently reinstates Build America Bonds and advance refunding bonds as well as increasing the issuance of private activity bonds, spurring private investment in community projects that our Nation desperately needs.

We have \$70 billion for clean energy and a plan to upgrade America's electrical grid to make it more efficient and more resilient.

H.R. 2 also delivers affordable high-speed internet access to all parts of the country by investing \$100 billion to

promote competition for broadband internet infrastructure to unserved and underserved rural, suburban, and urban communities.

□ 1030

As our Nation battles this global pandemic, and so many of our hospitals have been stretched to the brink, the Moving Forward Act invests \$30 billion to upgrade hospital facilities to increase capacity, strengthen care, and prepare for future health emergencies.

This bill invests \$25 billion to modernize postal infrastructure and operations, including a zero emissions postal vehicle fleet, and puts Americans to work strengthening our coast with a \$3 billion grant program for shovel-ready projects to restore Great Lakes, coastal habitats, and marine ecosystems.

As we discuss the far-reaching benefits of the Moving Forward Act, I would like to note the significance of one particular provision that I was proud to advocate for along with my colleagues in the Education and Labor Committee, the Reopen and Rebuild America's Schools Act.

Even before the COVID-19 pandemic, chronic neglect of America's public schools forced students and educators across the country to learn and work in outdated and hazardous school buildings. Now the pandemic is exacerbating this crisis and making abundantly clear how unprepared and under-resourced many of our Nation's school districts are.

The Reopen and Rebuild America's Schools Act takes great strides to move beyond the traditional brick and mortar school infrastructure to support schools and designing the types of building and classrooms needed to serve students, especially those from low income families. This critical legislation is needed now more than ever.

Today, we can work to not only help teachers and students get back to school, but commit serious investment in high poverty schools with facilities that pose health and safety risks to students and staff, expand access to high-speed broadband to ensure that all public schools have the reliable and high-speed internet access that students need for digital and distance learning.

This legislation, the Moving Forward Act, represents a significant step we must take to invest in the future of American infrastructure from our highway systems to our classrooms.

Mr. Speaker, I strongly urge my colleagues to support the rule and support H.R. 2.

Mr. Speaker, I reserve the balance of my time.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

I serve on the Transportation Committee as well as the Rules Committee, Mr. Speaker, so I always get excited when there is a transportation bill that is coming to the floor. I am less excited today.

My friend from New York is a wonderful leader for his constituents and a

wonderful bipartisan leader in this institution. I look forward to his time when we get to question witnesses in the Rules Committee because invariably he asks a question that I might have asked or should have asked, and invariably I learn something from the gentleman and his line of questions that I believe is going to benefit this institution and benefit the Nation.

And, candidly, as you know, Mr. Speaker, that is not always the way it is. Some folks are asking questions to get their next 30-second film clip so they can send it out on social media for purposes that perhaps are less valuable to the institution and to the Nation. And so I look forward to an opportunity to be down here and talk about a partnership issue, like transportation, with the gentleman from New York.

He mentioned that this bill is designed to be a partnership between the Federal Government and the States and localities. Sadly, I must tell you that is where any suspicion of partnership ends.

I went back and pulled the video from 2015 when we did our last transportation bill. As the gentleman from New York knows, we are assigned, so often, our Rules Committee legislation based on our other authorizing committee assignments, so I got to carry that bill back in 2015. I was reminded how long it has been since I got to tell the Speaker that I will, by order of the Committee on Rules, call up a resolution. I miss that opportunity. I hope to get that back in January.

But I had this big smile on my face, Mr. Speaker, because the speech that I got to deliver that day in 2015 was that the House was bringing the most open Transportation Committee bill in decades to the House floor. The bill I got to bring that day, Mr. Speaker, talked about how the bill passed out of committee on a voice vote, a voice vote, because Republicans and Democrats, as is so often true on the Transportation Committee, were arm-in-arm moving forward on an issue that is important to all of our constituencies.

I had not even finished my Rules debate time, these 30 minutes, before I had to offer an amendment to the rule to make even more amendments in order than the amendments we had already made in order. And then we came back the next day and made even more amendments in order. At that time, Mr. Speaker, having had a bill that was worked through the process in a bipartisan way, that passed out of committee on a voice vote, we then brought rules to the floor that made in order about equal number of Republican amendments, Democratic amendments, and bipartisan amendments. To be precise, it was 45 Democratic amendments, 47 Republican amendments, and 34 bipartisan amendments after the process had been worked in a bipartisan way already, after the bill had passed out of committee on a voice vote already.

Today, that is not the kind of rule we are bringing. And I recognize that COVID has made our voting requirements different today. But this bill didn't pass out of committee, the committee on which I sit, the Transportation Committee, on a voice vote with everybody in agreement. This bill passed out of committee on a strictly party line vote, because this bill, unlike the bill that had been worked through in a bipartisan way when last we reauthorized service transportation, this bill had been worked in a purely partisan way.

Mr. Speaker, I mentioned that at that time we made in order, roughly, a number of Republican amendments and Democratic amendments and bipartisan amendments. The rule before us today makes in order a roughly equal number of bipartisan amendments and Republican amendments, 17 bipartisan amendments and 19 Republican amendments. Less than half the number that we had made in order when last we worked this bill when we did it in a partnership way.

But while the bill makes in order an equal number of Republican amendments and bipartisan amendments, again, 19 Republican amendments, 17 bipartisan amendments, it makes in order 134 Democratic amendments. Now, mind you, Mr. Speaker, I tell you that this process has been a partisan process from the beginning in the Transportation Committee, meaning, it was worked entirely through on the Democratic side of the aisle. So as Republicans come to the floor, those Republicans who don't serve on the Transportation Committee for their only opportunity to influence this process, and I said it, and the gentleman from New York knows it to be true.

Back in 2015, I said what is wonderful about opening up the process is that every single one of us has something to contribute. The more than 700,000 people that sent each one of us here have something to contribute. The wonder and uniqueness of this institution comes from the variety of Members who come here to serve and the varied experiences that they bring.

Seventeen bipartisan amendments, 19 Republican amendments, and 134 Democratic amendments made in order by this rule. Even the Democrats were shut out of the partnership process, because any serious legislator on Capitol Hill knows the right time to get your language included isn't in an amendment on the House floor, it is by going to your chairman or your ranking member.

If I want to get something done on the Transportation Committee, I go to my ranking member, SAM GRAVES, and I talk to him about it, and he talks to the chairman about it, and then we get it done together because that is the partnership in which the committee works, or at least the way that it used to work.

It is unbelievable to me that in a time of great national distress that one

of the sole remaining vestiges of bipartisanship on Capitol Hill, the Transportation Committee, and one of the primary vehicles for moving those partnership ideas, the highway transportation bill, has devolved into the partisan exercise that we find ourselves in today. It is not too late to fix that.

Mr. Speaker, I will be urging defeat of this rule. If you listen to the reading clerk read it, you will know that if you have been watching this institution for any period of time, 2 years, 4 years, 8 years, 10 years, 20 years, 30 years, you have never heard a reading clerk read a rule that looks like this. We have just never seen one that looks like this.

So partisan have things become, Mr. Speaker, that the Rules Committee historically has offered en bloc authority to the chairman, because the chairman has been working in partnership with the ranking member. Because the way to dispose of amendments on the floor of the House in an expeditious manner, which we absolutely positively need in a COVID-19 environment, is through partnership. In this case the partnership never started.

I would like to tell you the partnership eroded, but that is just not true, the partnership never began. There was never an opportunity for erosion, and thus, we have the kind of en bloc authority that you see today, not designated to the chairman to enact, but created by the Rules Committee, and the chairman has an opportunity to oppose it if he would like.

Mr. Speaker, I am disappointed. But for my colleagues who are also disappointed, this doesn't have to be the end of the conversation. My ranking member—I haven't talked to him in the last 2 or 3 days, but when last I heard him speak—said he was still committed to working in a partnership way. That he was absolutely available. From day one, he said, make me a part of this conversation, don't rule anything out. In fact, the chairman said exactly that last night, that the ranking member approached him early on in the process, and said, don't count us out for anything, we want to work in a partnership fashion.

Mr. Speaker, we can defeat this rule. And defeating this rule isn't going to slow down surface transportation. Anybody who believes this bill is going anywhere is kidding themselves. This is a partisan messaging exercise. This is not legislating that we are doing here today, but we can move on to legislating. We can defeat this rule, and we can go back and—you know, just one crazy idea—we can make the Transportation Committee the partnership place it has always been.

We can make infrastructure the partnership issue it has always been. We can make a difference, instead of just making a point.

Mr. Speaker, I reserve the balance of my time.

Mr. MORELLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am always excited to be with my friend from Georgia, and we

do get to sit through long hours of the Rules Committee and question back and forth our witnesses. And he is right, I am not particularly media savvy, I have a face for radio, as they say. But we do find that time to be very informative. I struggle a little bit, I was not here in 2015, but I do know what has happened over the last 18 months or so.

First and foremost, I just note that in the midst of a pandemic, I think we can hardly be excused had we just done a closed rule. Put the bill before us for a vote without a structured rule, which is in front of us.

I also note, and this is one of the challenges of trying to engage in bipartisanship, which I am not only a big fan of, but I engaged in in my previous life as a member of the New York State Assembly where we had a Republican Senate and a Democratic House, much as we find ourselves in here today, and we worked across the aisle to find common ground when we could.

But I will say that I think that the difference between 2015 and now is the opposition of the minority, particularly as it related to a number of issues that dealt with climate change, and made it, as I understand listening to the chair of the Committee on Transportation and Infrastructure, effectively mitigated any chance of having a bipartisan agreement on this. But that is not to say that there aren't Republican amendments before us.

I know Ms. FOXX will have an amendment here later. The ranking member of the Education and Labor Committee on which I serve, as well as the ranking member of the Committee on Transportation and Infrastructure will advance an en bloc amendment. So there will be, and there continues to be an effort on our part to work across the aisle. But I do find it hard to be bipartisan, and I think if it was a voice vote, then I think there was general agreement. Clearly, there were differences of opinion here that we could not get past, and we felt the need very much to advance this.

Mr. Speaker, I also will say, just to note—and I hate to keep hearkening back to my experience in State government, but I will, nonetheless, even though I hate it, I will do that, which is to say, I served under Republican and Democratic Governors. And something that would have been this important would clearly have engaged the Governor of either party in discussions with the members of the legislature in both houses.

□ 1045

And I note that while the President has indicated support for an infrastructure bill, I think it was over a year ago, back in May of 2019, where the President hosted a meeting at the White House after having talked about a \$2 trillion infrastructure package and broke up the meeting in anger and left, and as far as I know has not engaged either House in substantive discussions moving forward.

So I don't disagree with my friend from Georgia. I know that he is profoundly interested in this institution and in working across the aisle, but there are times when, unfortunately, for various reasons that is not the case, and we have it in front of us today. And I feel compelled that we move forward on the Moving Forward Act because this is vital to the interests of the American public.

Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. MATSUI), a distinguished member of the Committee on Rules.

Ms. MATSUI. Mr. Speaker, I rise today in support of the rule for H.R. 2, the Moving Forward Act.

America cannot remain competitive in the 21st century without modern, efficient infrastructure. Unfortunately, our roads, bridges, airports, and schools are falling behind.

H.R. 2 makes transformational investments in our country's infrastructure that will revitalize America's backbone while improving safety, reducing pollution, and getting Americans back to work.

To address our crumbling roads, the bill provides \$300 billion for construction and maintenance of Federal highways and bridges. In Sacramento, my hometown, this will mean money for more projects like the new I Street Bridge that will help move people and goods safely and effectively.

H.R. 2 also provides provisions to reinforce our commitment to fighting the climate crisis. It provides more than \$70 billion to expand renewable energy sources and strengthen clean energy infrastructure.

Additionally, the State of California and transportation authorities in my district will benefit from this bill's funding to increase walking, biking, and public transit options, all with the goal of cleaning up our air and limiting human contributions to climate change.

H.R. 2 also accelerates the use of zero emission vehicles and ensures we keep up with demand by installing necessary charging infrastructure across the country.

In addition, to keep Americans connected to the internet, this bill provides broadband payment support for low-income households and the recently unemployed. The COVID-19 pandemic has required our schools to fundamentally change the way they engage with students, and H.R. 2 ensures children have access to digital equipment and affordable broadband options for remote learning.

For America to remain the global center of innovation and growth, we must have 21st century infrastructure. This bill makes the forward-looking investments to help get us there.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

I think my friend from New York is right that in the time of a healthcare pandemic that having a closed rule could have been a possibility. In fact, I

have no doubt that the only reason we have any amendments at all available on the floor of the House today is because my friend from New York, and particularly my chairman from Massachusetts, fought on behalf of having a more open process.

I have no doubt that there are folks all across this institution who would have loved to have shut out all the voices altogether. And had we moved this bill out of committee with my ranking member's consent on a voice vote the way we did it last time, I would have supported the majority in trying to be more expeditious on the floor, because when you move things in a bipartisan way you get bipartisan partnership to get them across the finish line. But that is not the way this bill has moved.

It is a valuable thing to be the chairman of a bipartisan committee, Mr. Speaker, and I would tell you it comes with a stewardship obligation to make sure it remains so.

I yield 5 minutes to the gentleman from Missouri (Mr. GRAVES), who will be the next chairman of the Transportation Committee, the current ranking member.

Mr. GRAVES of Missouri. Mr. Speaker, I wish I could say to my colleagues that we were putting our time to good use today, but we all know that we have an incredibly important obligation, and we have got a lot of work to do when it comes to infrastructure.

We need to pass a long-term surface transportation bill to provide States and local communities the certainty to plan and execute highway, bridge, and transit projects across this country.

If we don't do that, or if we pass short-term extensions, it throws their plans into chaos and it jeopardizes needed improvements.

But that is exactly what we are going to do because the infrastructure bill in this entire process got hijacked by a partisan agenda that has more to do with pushing the Green New Deal than it does fixing our infrastructure.

During all my time serving on the committee, Republicans and Democrats have always been able to work out their differences and find common ground to pass a surface transportation bill. We have always been able to do that.

It is the most important legislative product that we produce on the committee, and members have always treated it as such.

Time and again, that has been our committee's hallmark because that is the only road to actually getting something done for the good of our infrastructure, for transportation workers, and for the economy.

But on this bill, that didn't happen. And I can assure you that wasn't my choice. This hijacked process began with a \$500 billion my-way-or-the-highway bill developed exclusively by one party.

At a time when entire industries, workforces, and our States still face in-

credible uncertainty over the COVID pandemic, our committee passed a partisan bill to completely upend the functions and programs of the transportation system.

Then immediately after the committee approved the majority's bill along party lines just over a week ago, the Speaker took the bill and tripled the size with so many air-dropped provisions that the only thing that isn't included is the kitchen sink. But, please, don't quote me on that, Mr. Speaker, because as far as I know the kitchen sink could be funded in this, as well.

Although we do know one green thing that is not in this bill, and that is the money to pay for it. This \$1.5 trillion climate bill, camouflaged as an infrastructure bill, piles another mountain of debt onto the backs of future generations.

This irresponsible bill very well might pass the House, but that is as far as it is going to go. The Senate is never going to take up this unserious, progressive wish list. The Speaker may earn praise of her most liberal Members for this bill, but she is failing the American people and wasting the House's time on an issue that we all know could garner bipartisan support.

We could be getting something done to improve America's infrastructure and provide the stability and certainty that workers and stakeholders need right now, if only the Speaker of the majority hadn't unnecessarily chosen partisanship over partnership throughout this entire process.

Mr. Speaker, I would urge my colleagues to oppose this rule.

Mr. MORELLE. Mr. Speaker, I yield myself such time as I may consume.

Very briefly, I do note that we certainly could have entered into a bipartisan agreement if we didn't care about climate change, if we weren't interested in the greatest impact on our carbon footprint by transportation and automobiles, and we create a number of provisions in this bill which we could not get support on, which is why we had to go on our own way.

I do also note for my great friend from Georgia, 17 bipartisan amendments are included in this package. So there is bipartisanship, despite the feelings that the White House has given as it relates to this bill.

Before I yield, I insert in the RECORD a May 8 Industry Week article titled, "Crumbling Infrastructure Is Hurting America's Competitive Edge."

[From Industry Week]

CRUMBLING INFRASTRUCTURE IS HURTING  
AMERICA'S COMPETITIVE EDGE  
(By Michael McGarry)

With unemployment rates in the U.S. at historic levels due to the economic impact of the COVID-19 pandemic, it is more important than ever to invest in areas that help get more people back to work. Today, lawmakers should prioritize the passage and implementation of a comprehensive infrastructure program, as part of a future round of stimulus funding that would immediately

provide employment opportunities for many Americans.

Even before we started feeling the economic impacts of COVID-19, our country was in dire need of these upgrades. Data from the National Association of Manufacturers (NAM) reveals that underinvestment in U.S. infrastructure worsens by the year, and infrastructure investment before the pandemic was only one-third of what it was in 1960.

Manufacturers, who today continue to provide essential resources to the medical community and other front-line workers, are currently relying on outdated roads, bridges, waterways, ports, runways and drinking water systems, many of which are more than 50 years old. More than 54,000 bridges across the U.S. are rated "structurally deficient" according to NAM. Roadways, ports and waterways are in disrepair. The American Society of Civil Engineers (ASCE) released a report card in 2017 of infrastructure in the country and gave the nation a rating of D+. According to the U.S. Department of Transportation, 65% of major U.S. roads are rated as "less than good condition."

In addition to the challenges we will now face due to the current economic environment, these deficiencies take an additional toll on manufacturers' bottom lines, causing unreliable delivery times and increased fleet maintenance costs. Congested highway networks add \$74.5 billion to transportation costs for manufacturers moving goods and raw materials by truck, according to the American Transportation Research Institute.

In order for America to remain globally competitive now and after this pandemic, our leaders must be committed to improving our infrastructure. China's infrastructure investment is almost double the size of the infrastructure spending in the U.S., and India's infrastructure investments are growing at a rate that triples the infrastructure outlays of the U.S., Canada and Mexico combined. Manufacturing workers in the U.S., and all Americans, should refuse to settle for infrastructure that lags behind the rest of the world.

Many have acknowledged that the current economic challenges bring an opportunity to upgrade the nation's neglected transportation systems. Stay-at-home orders covering nearly the entire country in March and April kept Americans off the road, and gas tax revenues have plummeted as a result. According to the American Association of State Highway and Transportation Officials, state and local governments need \$50 billion to ensure that they can continue existing transportation construction and maintenance programs without disruption. The nation's airports also need a backstop to make up for lost user fees. Keeping current infrastructure projects afloat is only a start.

Our deteriorating national infrastructure is not solely a state or federal issue. It is not a small or large business issue. It is not a Democratic or a Republican issue. Infrastructure is an American issue that directly affects our ability to compete in the global marketplace and provide financial security for millions of American families.

Once it is safe to work, the U.S. government should mobilize to rebuild our nation's infrastructure. It would ensure that the nation emerges on the other side with a stronger, competitive economy. Infrastructure projects put people to work at high wages, create demand for materials and equipment and generate tax revenues for governments at all levels. They build systems of lasting public benefit, improving the safety, convenience and efficiency of commerce, communication and travel.

Making substantial investments in America's infrastructure will not only put Americans back to work, but it will improve the

lives of workers, while helping all manufacturers better serve their customers and communities. It will bolster the security of our nation, and it will strengthen the ties that bind us together as a country, improving commerce and communication and paving the way for the success of the next generation.

Congress must invest now. I urge our elected leaders to work together to prioritize a bold vision for improving infrastructure. Congress's next stimulus bill must include aggressive investments in infrastructure such as highways, bridges and airports. It's good for our citizens, our economy, and our country to remain globally competitive. We cannot afford to wait.

Mr. MORELLE. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Speaker, I thank the gentleman for yielding.

I think it is important for the American people to know that it has been 5 years since we have been able to put pen to paper and develop a massive infrastructure bill going out to desperate Americans who can't find good roads, who need mass transit, who need housing, need better schools, and, yes, even in urban areas like the one I represent that is a combination of urban and rural broadband.

When we went into COVID-19, our children in our school districts did not have access to be able to have online classes. Yes, we need the Moving Forward Act and I rise to support it. As well as I rise to support and thank the Rules Committee for my amendment dealing with asking the Federal Aviation Administration to deal with all of those satellite aspects of aviation that have not been helped by COVID-19 funding.

In particular, I know for a fact that the parking companies at the airports have not received any COVID-19-related funding and that requires prioritizing of funding to those areas. My amendment would ask them to report on those areas that have not gotten funding, like the parking areas where there are a lot of employees, but then to be able to prioritize those areas.

We are going to continue working, however, on some very vital issues that I believe are important. And those are, in particular, large highways that destroy minority and African American neighborhoods. For example, the I-45 extension in my community is about to destroy 158 houses, 433 apartments or condos, 486 public housing, 340 businesses, 5 churches, and 2 schools.

There must be the implementation of the requirements under the environmental aspects, and that is why I also support the climate change aspects in this bill. But the environmental aspects must be looked at as well as the historic aspects to ensure that when you build, you build with the involvement of the community. I will ensure that that is going to happen.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. MORELLE. Mr. Speaker, I yield an additional 30 seconds to the gentlewoman from Texas.

Ms. JACKSON LEE. My amendment creates a national program to reduce pedestrian-motor vehicle accidents by identifying locations where deaths have occurred and supports local efforts to address those conditions. It is very important to the Nation, very important to the State.

I look forward in going forward to be able to continue to work on these vital issues that were supported by any number of safety entities called under the umbrella of the road advocates. And I know that they will encourage us to work diligently on this.

To my constituents in Houston, we will work together on making sure that I-45 is not intrusive.

I support the Moving Forward Act.

Mr. Speaker, I include in the RECORD this particular Houston Chronicle article of June 9.

[From the Houston Chronicle, June 9, 2020]

INTERSTATE 45 REALIGNMENT WOULD CUT THROUGH A HISTORIC BLACK NEIGHBORHOOD IN HOUSTON

(By James Brasuell)

The construction of America's downtown highways destroyed thousands of black neighborhoods during the height of the urban renewal era in the 1940s and '50s—and a new impact study of a controversial highway project in Houston serves as a reminder that the racist policy never ended.

The latest estimates of the human cost of the Interstate 45 project reveal that the highway expansion would require the destruction of 158 houses, 433 apartments or condos, 486 public housing units, 340 businesses, five churches and two schools; the Houston Chronicle reported. The buildings that the Texas Department of Transportation seeks to demolish are disproportionately located in low-income communities of color, including many within the borders of Texas's first black-formed municipality, Independence Heights, a region of major historic significance.

BIPOC activists have long cited displacement and the destruction of black communities in their fight against the \$7 billion megaproject, which would functionally rebuild most of the downtown freeway system in the process of expanding and rerouting the interstate. But the scale of the estimated destruction hits particularly hard after a week of civil unrest and consequent police brutality in response to the killing of George Floyd by Minneapolis police. The Black Lives Matter movement is demanding that cities across the country defund their bloated law enforcement budgets and make reparative investments in black communities—precisely the opposite of projects like the I-45, which would raze black neighborhoods and destroy black wealth.

The relationship between highways and racial injustice exemplifies the kinds of systemic issues that many protesters are now seeking to challenge. Linda Poon wrote at Citylab last week. Policies that on their face may have appeared to be about easing transportation barriers and revitalizing cities were—and still are—often rooted in long-standing racial prejudice, and carried with them cascading effects that worsened pre-existing inequalities.

The highway would almost certainly result in an increase in traffic violence, too—a phenomenon that disproportionately impacts black communities. Black drivers are at serious risk, as well; three of Houston's highways already ranked among the most dangerous roads in the nation in 2018. The state

of Texas itself warned that the I-45 project would cause disproportionate high and adverse impacts to minority or low-income populations; and that the project's [d]isplacement of bus stops could affect people who do not have access to automobiles or that are dependent on public transportation.

And that's not even to mention how the project will increase air pollution in black communities—a direct contributor to fatal COVID-19 outcomes that are contributing to the disproportionate death toll among black Americans—exacerbate flooding, and reinforce segregation, which Streetsblog has explored in depth in the past.

If the destructive potential of the I-45 project is all too clear, the benefits of it are dubious at best. Decades of studies of the effect of induced demand show that highway expansions do not relieve congestion or stimulate meaningful economic development—facts of which Houston advocates have been reminding officials since the earliest days of the project.

The I-45 project has always been a massive boondoggle that perpetuates structural racism—and our national conversation over the last week (and the much longer-standing conversation among BIPOC activists over the past decades) only underscores how deeply misguided it has always been. But as activists push to defund all the institutions that kill, harm, and destroy black communities and black lives, there is perhaps no better moment to stop it, once and for all.

Ms. JACKSON LEE. Mr. Speaker, as a senior member of this body and an original cosponsor of the legislation, I rise in strong and enthusiastic support of the rule governing debate of H.R. 2, the Moving Forward Act, and the underlying bill.

H.R. 2, the Moving Forward Act, is a more than \$1.5 trillion plan to rebuild American infrastructure—not only our roads, bridges, and transit systems, but also our schools, housing, broadband access, and so much more.

The bill makes a bold down payment on sound investments that address resiliency and climate change to address the impact of extreme weather events on a wide range of critical infrastructure.

By investing in families, workers, and communities across the country, we can support American manufacturing and ingenuity and create millions of jobs that cannot be exported, all while putting our country on a path toward zero carbon emissions, making communities and roads safer, and addressing long-standing disparities.

Mr. Speaker, this transformational legislation makes robust investments in the infrastructure necessary to support the well-being of all Americans and connect them with the services and opportunities needed to succeed in the global economy, which will create millions of American jobs rebuilding our country, so desperately needed in light of its wreckage by the COVID-19 pandemic.

It is way past time to act on a major effort to improve our nation's infrastructure.

The World Economic Forum ranked the United States is ranked thirteenth among nations with a score of 87.9 percent.

The infrastructure score is calculated based on the following factors: road connectivity index, quality of roads, railroad density, efficiency of train services, airport connectivity, efficiency of air transport services, linear shipping connectivity index, efficiency of seaport services, electrification rate, electric power transmission and distribution losses, and exposure to unsafe drinking water, reliability of water supply.

It is essential that our nation make investments in infrastructure because it enables trade, powers businesses, connects workers to employment, creates opportunities for struggling communities, protects the nation from an increasingly unpredictable natural environment, and allows the country to respond to the COVID-19 Pandemic.

Mr. Speaker, our nation's airports experienced a significant economic impact due to COVID-19 and the level of support to airports and airlines has been generous, but not enough, especially regarding what I have learned about airport parking service areas.

I thank the Rules Committee and the Committee on Transportation and Infrastructure for allowing the Jackson Lee amendment that requests a report on all areas at airports that have not received funding and asks that funding be prioritized for these areas, which include airport parking.

There are two Jackson Lee Amendments H.R. 2 that are important to the constituents I serve, so I will continue to work with the Committee and leadership as the bill moves through Congress to have these concerns addressed.

The Jackson Lee resolutions were intended to protect documented and locally recognized historic places in the areas planned for development in anticipation of the designation of a National Historic Trail that would traverse the area of Houston where planned I-45 construction will occur.

Earlier this year, H.R. 434, the Emancipation National Historic Trail Report Act became law and it paves the way for the establishment of only the second nationally, recognized historic trail that chronicles the experience of African Americans in their struggle for equality and justice.

The law directs the National Parks Service to conduct a study of 51 miles starting at the historic Osterman Building and Reedy Chapel in Galveston, Texas, the location where news spread of the Emancipation Proclamation finally freeing the last slaves in the United States.

The historic trail will follow a path along Highway 3 and Interstate 45, north to Freedmen's Town, which will include Independence Heights, and Emancipation Park in Houston, Texas where freed slaves settled.

Local preservationists have labored for generations to secure historic sites in and around the planned route of the proposed new national historic trail and have lost significant buildings to past highway projects, specifically to those projects related to past I-45 construction, which cuts through Independence Heights the first black town to receive a charter from the state of Texas.

The project, which has not begun yet is scheduled to begin in 2021 and is expected to cost at least \$7 billion and will rebuild most of the downtown freeway system along I-45, Interstate 10, Interstate 69 and Texas 288 and assorted ramps.

These plans for I-45 construction should trigger National Historic Preservation Act obligations because the National Parks Service has a Study to conduct regarding the history of the area.

Unfortunately, some may consider that once a historic place is removed, the ability of researchers, historians or preservationists to tell a complete history is limited-and in some essential ways they are correct.

History is best experienced and not just heard or read, which is why we must preserve and protect the places that are left for future generations.

I will continue to work with the Committee of Jurisdiction on the Jackson Lee Amendment that compliments the programs described in section 1619 Nationwide Road Safety Assessment of H.R. 2.

Section 1619 establishes a program for states to focus on the issue of pedestrian and bicycle safety.

The Jackson Lee Amendment seeks to include in this program a role for local governments who are foremost at the head of efforts to reduce pedestrian and bicycle deaths and injuries.

On a national basis, about 25 percent of pedestrian fatalities in 2018 occurred at intersections or were intersection-related.

Most pedestrian fatalities occurred at non-intersection locations.

The total number of pedestrian fatalities for the 10 largest cities increased by about 7 percent from 2017, with 613 fatalities to 2018 with 655 fatalities.

During the 10-year period 2009–2018 the number of pedestrian fatalities increased by 53 percent, while the number of all other traffic deaths increased by 2 percent.

On average, about 17 pedestrians and two cyclists were killed each day in crashes. Together they accounted for one-fifth of traffic deaths. (NYT)

The Jackson Lee Amendment broadens the section to address safety and the emerging popularity of other forms of personal transportation such as electric scooters.

The Jackson Lee Amendment supports local efforts to address the conditions that may contribute to deaths to improve pedestrian and bicycle safety.

A rough count by The Associated Press of media reports turned up at least 11 electric scooter rider deaths in the U.S. since the beginning of 2018.

In Austin, Texas, public health officials working with the Centers for Disease Control counted 192 scooter-related injuries in three months in 2018. Nearly half were head injuries, including 15 percent that were traumatic brain injuries like concussions and bleeding of the brain. Less than 1 percent of the injured riders wore a helmet.

According to a Consumer Reports survey conducted in March 2019, 22 percent of people who have spent time in an area where they saw e-scooters available for rent said they had used one at least once.

They found that many scooter riders (27 percent) are uncertain of the traffic laws they should follow.

Among people who have ridden an e-scooter, 51 percent ride on the sidewalk, 26 percent in a bike lane, and 18 percent in the street but not in a bike lane.

The role of local government is essential to addressing the problem of pedestrian and bicycle injuries and deaths.

This Jackson Lee Amendment is supported by: Advocates for Highway and Auto Safety, Transport Workers Union, Consumer Federation of America, Center for Auto Safety, Consumers for Auto Reliability and Safety, Truck Safety Coalition, Citizens for Reliable and Safe Highways, Parents Against Tired Truckers, and the Trauma Foundation.

More generally, I support the Moving Forward Act because it provides:

1. \$100 billion for affordable housing to create or preserve 1.8 million affordable homes;
2. \$10 billion for child care facilities, designed to generate additional state and private investments;

3. \$130 billion for school infrastructure targeted at high-poverty schools; and

4. \$30 billion for health care facilities, including hospitals, community health centers, and laboratories.

Mr. Speaker, the Moving Forward Act connects all Americans to essential services and economic opportunity by providing:

1. \$500 billion to rebuild and reimagine the nation's transportation infrastructure;

2. \$100 billion for affordable high-speed broadband internet for all Americans;

3. \$25 billion for the Drinking Water State Revolving Fund and other programs to provide clean drinking water; and

4. \$25 billion for the United States Postal Service to modernize postal infrastructure and operations.

All of this infrastructure funding I have fought for. Also, there are additional provisions in the bill that will help put us on the path to becoming a stronger, safer, better and more prosperous America, including:

1. Ameliorating hazardous living conditions and building a more environmentally sustainable housing stock;

2. Removing contaminants like PFAS from drinking water; and

3. Modernizing our energy infrastructure with an emphasis on renewable energy.

While this legislation would be necessary under any circumstances, the coronavirus crisis has magnified and accentuated the need for federal investments to put Americans back to work building a long-lasting foundation for a stronger and more equitable America.

I urge all Members to vote for the rule governing debate on H.R. 2 as well as the underlying bill.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

My friend from New York is absolutely right. There are 17 bipartisan amendments made in order to this bill that moved through committee in a completely partisan fashion.

When we did this bill last time around, the bill that passed on a voice vote because of its bipartisan nature coming out of committee, we made 34 bipartisan amendments in order to improve it further. The now chairman of the Transportation Committee, then the ranking member, said this about the rule as I was presenting it: "Mr. Speaker, in terms of what the gentleman from Georgia just said, I appreciate the fact that we are debating so many policy amendments. This is the way the process should work, both sides of the aisle contribute, and this is great." Stark contrast from what you heard from our ranking member today about the process.

At that time, the ranking member, now chairman, said: "I was willing to stay here later last night and stay here later tonight so that everybody who wanted an amendment could have a chance." That is not the process we have this year as voices are shut out one right after another, primarily Republican voices and bipartisan voices.

I yield such time as she may consume to the gentlewoman from Washington (Mrs. RODGERS), a great conservative leader in our conference who has never been afraid to reach across the aisle to get the work done, and she has done it successfully.

Mrs. RODGERS of Washington. Mr. Speaker, I thank the gentleman for yielding and for his leadership on this issue before us today.

I rise in strong opposition to the rule and the underlying bill. Unfortunately, this is another example of the Democratic majority putting politics over people. It is a missed opportunity to reach an agreement on many solutions that have bipartisan support.

The Energy and Commerce Committee on which I serve is historically the most bipartisan committee in Congress. Our record of results with both Chairman WALDEN and Chairman UPTON proves it. No other committee sent more bills to the President's desk than Energy and Commerce during their tenure.

This record of bipartisan results for the people has unfortunately faltered under this current majority. And the process and the politics of H.R. 2 are a perfect example of why.

It is hard, it is actually impossible, for this historic results-oriented committee to reach an agreement when there is no regular order and we, the minority, are left out of the process.

It is easy to pass a partisan wish list for my friends across the aisle to campaign on when you don't expect that they are going to become law.

Instead of using the committee process to advance solutions like rural broadband deployment, vehicle safety improvements, and American leadership in clean energy, the majority is continuing to take the easy way out and is more interested in scoring political points.

□ 1100

We see the continued consolidation of power and decisionmaking within the Speaker's office.

Last Congress, this House unanimously passed the SELF DRIVE Act—unanimous—which would have ensured the most important vehicle safety technology of our lifetime is deployed here in America.

Autonomous vehicles have the potential to save tens of thousands of lives, restore independence to our seniors and people with disabilities, and create a cleaner environment with less road congestion.

Autonomous vehicles are our future. America could lead, America should lead in this new era, but sadly, the majority is content to let other countries lead. In fact, the U.S. has fallen behind since our work on the SELF DRIVE Act. We will continue to fall behind because we lack a national strategy and a viable path to deployment.

Other countries, like China, are not waiting for us. They are moving full speed ahead with testing, and it is happening in our own backyard.

Last Congress, every single Democrat on the Energy and Commerce Committee agreed that we needed to modernize the SAFETEA Act, to lead on this transformative technology. What has changed?

If the majority was serious about addressing the nearly 40,000 deaths on our roads each year, they would tell the well-funded trial bar enough is enough and pursue meaningful legislation to unleash American innovation in our auto sector, a part of a new era of American innovation. But, no. They are more concerned with the trial bar and their special interest groups.

Mr. Speaker, I urge my colleagues on the other side of the aisle to abandon this partisan messaging exercise and work with us for a new era of innovation that will help save lives.

Mr. MORELLE. Mr. Speaker, I would just note that bipartisanship is a two-way street. While some may suggest that the majority is at fault, I would argue that there was a lack of a good-faith effort on the part of the minority to engage in meaningful dialogue on things like climate change and the importance of making sure we have infrastructure investments in our schools and in our healthcare systems.

Mr. Speaker, I yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Speaker, I rise in strong support of H.R. 2, which reflects years of hard work with my staff, with hundreds of advocates, innovators, and local officials to deal with the challenges of a sustainable transportation future, especially in a time of upheaval. I appreciate the committee and staff reflecting these opportunities.

It includes a national clearinghouse to research the secondary impacts of autonomous vehicles that my friend from Washington just talked about.

It adds bikeshare as an eligible expense for CMAQ funding.

It provides Federal funds for cities and States to establish and implement Vision Zero plans to protect quality of life and reduce the carnage on the highways.

It increases funding for State road user charge pilot projects that is the vision for the future of how to fund transportation.

It increases small starts reauthorization.

It increases the volume cap on private activity bonds issued for surface transportation.

It increases the value of the historic tax credit and makes it more accessible for different types of projects.

Most critically, when we are dealing with renewable energy projects, it provides for direct payment in lieu of tax credits for renewable energy projects at a time when there is less appetite for traditional tax credits.

It clarifies that energy storage projects qualify for investment tax credits to spur the development.

It increases the value of section 179D energy efficient commercial buildings

that we have worked on with them for years.

It reinstates the bicycle commuter tax, increases the value of the benefits, and allows them to be used with transit funds.

These are the nuts and bolts of often technical elements that form the basis for action and progress in the future.

I look forward to working with the vast array of stakeholders that are counting on us to make this visionary document a reality.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I encouraged my colleagues to defeat the rule so we could have a bipartisan process here, but if we defeat the previous question, I will offer an amendment to the rule to make in order H. Res. 1031.

The resolution expresses a sense of the House of Representatives condemning the cyberattacks perpetrated by China and other rogue states on American institutions in an effort to disrupt our response to COVID-19 by stealing our economic property that could be used for treatments and vaccines.

Mr. Speaker, I ask unanimous consent to insert the text of my amendment into the CONGRESSIONAL RECORD immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. WOODALL. Mr. Speaker, we have talked so much about bipartisanship. This is a chance to actually do something in a bipartisan way.

Mr. Speaker, I yield 5 minutes to the gentleman from Texas (Mr. MCCAUL), the former chairman of the Homeland Security Committee and the current ranking member of the Foreign Affairs Committee, to discuss the amendment.

Mr. MCCAUL. Mr. Speaker, I thank the gentleman from Georgia (Mr. WOODALL) for yielding time.

We have known for years that the Chinese Communist Party has been conducting cyberattacks on the United States aimed not only at stealing vital data but also at destabilizing our economy.

Recently, the FBI and DHS discovered that the CCP has taken their cyberattacks to a new low by attempting to hack into U.S. research facilities, in an effort to steal COVID-19 vaccine research.

In other words, Mr. Speaker, at a time when scientists around the world are working together in an epic race against time to develop a lifesaving vaccine to rescue the world from the grips of the coronavirus, the CCP is trying to steal that research for their own selfish purposes.

This news comes when the evidence has shown that the Chinese Communist Party is responsible for allowing this virus to spread into a pandemic.

The House Foreign Affairs Committee Republicans spent the last several months investigating the origins

of this pandemic, in the hopes of learning vital lessons that would help us prevent the next one. This report details how the CCP chose to cover up the virus and lie to the world at every turn, allowing the coronavirus to spread not only throughout their own country, Mr. Speaker, but around the world in a global pandemic.

They silenced doctors trying to sound the alarm about the virus and disappeared journalists who were reporting the truth about Wuhan. They shut down laboratories and ordered that virus samples be destroyed. They repeatedly lied about the virus spreading human to human, that it was transmitted human to human, that it was contagious. They allowed mass travel throughout China and internationally despite knowing that the virus was spreading human to human.

Mr. Speaker, this week has served as a bleak reminder of what the Chinese Communist Party really is. Last night, the CCP sham legislature passed its so-called national security law for Hong Kong, destroying their autonomy and oppressing a freedom-loving people and violating the Sino-U.K. treaty. Yesterday, the world was made aware that the CCP is using forced sterilization, forced abortion, and coercive family planning against ethnic minorities, including the Uighur Muslims.

These disturbing realizations are unfolding as the world is still grappling with the coronavirus pandemic that the CCP helped create.

Now that millions of people around the world have been infected and more than half a million have died, we learned that the CCP isn't helping to fix the pandemic they are responsible for creating. Instead, Mr. Speaker, according to the FBI and Department of Homeland Security, they are conducting cyberattacks on American scientific organizations and hospitals in an attempt to steal research being used to develop a vaccine for the virus.

In other words, they are trying to steal our research to develop a vaccine to save the world from the very pandemic that they created. This is absolutely unacceptable and must be condemned.

So, today, Mr. Speaker, I ask that you join me in opposing the previous question so we can consider the Kinzinger resolution to do just that.

My colleagues on both sides of the aisle should come together and say, in one united voice, that we condemn these attacks by the Chinese Communist Party and that we believe that those who are responsible should be held accountable.

This is the issue of our time, so let's move forward together on calling out the CCP for their continued outrageous and dangerous misbehavior.

Mr. Speaker, I urge a "no" vote on the previous question.

Mr. MORELLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I do note, while this is certainly a very, very important issue,

cyberattacks on the United States, both on government and our private sector, I think what is equally troubling are physical attacks and bounties placed by Russian leaders on U.S. soldiers in Afghanistan. I don't see any note of that in the resolution.

But the bigger issue here is that we have a \$1.5 trillion infrastructure bill in front of us. I would certainly join with my colleagues in any resolutions on Chinese and Russian interference in American activities. The work in front of us, however, is a \$1.5 trillion transportation bill desperately needed for American citizens throughout this country.

Mr. Speaker, I yield 3 minutes to the gentlewoman from Pennsylvania (Ms. SCANLON), a distinguished member of the Rules Committee.

Ms. SCANLON. Mr. Speaker, I thank Mr. MORELLE for yielding to me, and I second his remarks regarding Russian bounty. I am proud to rise in support here today of H.R. 2.

H.R. 2 will make meaningful, long-overdue investments in our roads, bridges, airports, ports, and transportation systems. It will invest billions in zero-emission, and modernize road systems to reduce gridlock, something we can all cheer about in my district.

This is game-changing, economy-altering legislation. So when I hear my colleagues talk about the price tag on a bill like this, I have to wonder where exactly they think this money is going. This bill invests directly in American families, in workers, and in the communities in which we live.

Stakeholders in my district have been crying out for a comprehensive infrastructure bill for years. I represent Pennsylvania's Fifth District, which is the gateway to the Philadelphia region. My district is home to the Philadelphia port and shipyard, home to one of the busiest airports in the country, home to the Eastern Seaboard's passenger and freight rail lines, plus commuter rails, streetcars, subways, and a network of interstate bridges and roads, all of which are in serious need of upkeep.

But this bill is not just about the concrete that will be poured to fix potholes or the steel used to renovate a bridge. It is an investment in the American people at a time when it is needed most.

H.R. 2 will provide good-paying, stable jobs that can support American workers and their families. At a time when we are facing double-digit unemployment in the United States, a massive investment in our people is exactly what we need.

This bill will put people back to work, prevent further erosion of our environment, and give children and families the support they desperately need.

In doing so, this bill lays down the important principle that when we invest in our infrastructure and our economy, we must do so in a way that builds for the 21st century and beyond

rather than trying to re-create an unsustainable or inequitable past.

H.R. 2 also includes one of my priorities, the Reopen and Rebuild America's Schools Act, which will invest \$130 billion into rundown, obsolete, and often dangerous school facilities that pose risks for students, teachers, and staffs.

Many of the communities I represent are in dire need of these funds, and I would be willing to bet that many of your communities are as well.

This isn't an urban vs. rural issue. Public schools nationwide have been underfunded for decades, and our children have paid the price.

In the last 18 months and before being sworn in, in my prior career, I had visited far too many schools that lack basic facilities, like working water fountains, space for physical education, or a library. I have visited schools that have crumbling plaster and lead paint on the walls and asbestos in the insulation, schools that have exposed radiators and pipes in classrooms that can give a child second-degree burns. This legislation is critical, and I am proud to support it.

□ 1115

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, to be fair, this bill is not about us investing in the future; it is about us borrowing money from our children to invest in the future.

I will read from the current chairman of the Transportation Committee. These were his comments during our last reauthorization. He says: "... the biggest and most glaring omission by the Rules Committee is of not allowing any attempt by this House to fund the bill."

At that time, you remember, Mr. Speaker, we only provided 3 years of funding for a 6-year bill. We went back and found the remaining 3 years later.

He goes on to say: "The U.S. Chamber of Commerce supports an increase in the user fee." That is the gas tax. "The American Trucking Association supports an increase in the user fee. We are virtually being begged by interest groups out there representing consumers and commercial users of the system to do something, vote on something."

I talked about all of the differences between the way we handled the process last time and the way we handled the process this time, Mr. Speaker. I will note that there are also differences in the way that the chairman wanted to handle the process last time, which is voting to fund this bill. When we funded half of it, he wanted to fund all of it. This time we are funding none of it, Mr. Speaker. That is the heavy lifting that needs to be done, and it can only be done in a bipartisan way.

I reserve the balance of my time.

Mr. MORELLE. Mr. Speaker, I just note that in the last Congress, the majority invested \$2 trillion in a tax cut

that 83 percent went to the wealthiest 1 percent of Americans, and despite that, we see no lasting benefit of that. It has added substantially to the deficit of the United States, to the tune of over \$1.3 trillion. We prefer to make these investments in American families and in American jobs.

Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. BARRAGÁN).

Ms. BARRAGÁN. Mr. Speaker, for too long, communities of color, Black and Brown communities, have suffered environmental injustice.

For too long, these same communities have been on the front lines of environmental air pollution that has caused higher rates of cancer and asthma and, with COVID-19, more deaths. For too long, these communities have literally said: I can't breathe.

My very own district is surrounded by three freeways and the Port of Los Angeles. Ports are critical jobs. They provide movement of goods. They are a huge economic engine. But they also are the cause of air pollution on the docks, not to mention the truck traffic that goes to and from ports.

Today, I am proud to say that my bill, the Climate Smart Ports Act, is included in this infrastructure package. It will make a significant difference to air quality in my district and for the 40 percent of Americans who live near a port.

This bill will invest billions in zero-emission technology at ports and clean trucks that go to and from ports. That is right, zero emissions.

Bottom line is it will save lives, create jobs, and fight the climate crisis. Today I ask you to join me in voting for H.R. 2: to invest in our Nation's infrastructure, to invest in greening our ports, to invest in fighting the climate crisis, and to invest in improving air quality for the people.

Mr. WOODALL. Mr. Speaker, I reserve the balance of my time.

Mr. MORELLE. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. THOMPSON).

Mr. THOMPSON of California. Mr. Speaker, I rise today in strong support of H.R. 2. This vital legislation rebuilds our Nation's infrastructure, invests in American workers, and bolsters our Nation's economy, all at a critical juncture in our fight against COVID-19.

This pandemic has cost thousands of Americans their lives and many more millions their jobs. It is essential that we do everything in our power to drive investment and boost our economy, and this bill does just that.

I am particularly pleased that H.R. 2 includes my legislation, the GREEN Act, which invests over \$150 billion in reducing car emissions and expanding clean energy technologies. That bill extends and expands Federal tax incentives, promoting investment in solar, wind, geothermal, and fuel cell technologies, all with the goal of decarbonizing our atmosphere.

The bill also increases Federal support for energy efficiency, including in

commercial buildings, and revives the energy manufacturing credit, a successful Recovery Act program designed to spur investment in renewable energy jobs.

Mr. Speaker, H.R. 2 represents the kind of bold, forward-thinking investment our planet and our economy desperately need.

I urge everyone to vote for this bill.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. WOODALL. Mr. Speaker, I share with my friend from New York that I don't have any speakers remaining, and I am prepared to close.

Can I ask how much time is remaining, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from Georgia has 5½ minutes remaining.

The gentleman from New York has 5 minutes remaining.

Mr. WOODALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am a positive guy. I love coming down here and talking about the great things we are doing as a country, the amazing steps forward that we are making, the way we are exceeding the expectation of our constituents, and that was the speech I got to give when Republicans were in the majority and I got to bring the bipartisan package.

At that time, Janet was sitting to my left and Caitlin would have been sitting right behind Mr. MCGOVERN. A lot of things haven't changed much since that time. But some things have.

One of the things that has changed is COVID-19 is ravaging the Nation, and I want to say to my Rules Committee friends, because we have got a lot of work left to do in this cycle, I recognize that there is an inclination among some in leadership in this House to shut down this process, to keep folks off the floor, to keep votes from happening with great frequency, all in the name of public health.

I would tell you that may protect the health of the Members generally, but it undermines the health of the institution specifically. And I am grateful to my friends on the Rules Committee for fighting those urges and advocating for a more open process on the floor of the House.

Again, I know I can attribute that sentiment to my friend from New York, and I know I can attribute that sentiment to the chairman, the gentleman from Massachusetts (Mr. MCGOVERN).

But the transportation bill, Mr. Speaker, is different from most of what we do. I hope we will have an opportunity to bring a bipartisan bill to the floor, and then we can have that bipartisan conversation about limiting debate so that we can move the bipartisan idea forward so that we can get a signature on the President's desk.

Mr. Speaker, every good thing you heard mentioned that this bill does on the other side of the aisle today, every good thing you have heard mentioned,

I want to stipulate that the bill absolutely does that. And I ask my friends to stipulate that the bill has absolutely no chance of ever becoming the law of the land, so none of those things are ever going to happen.

Hear me, Mr. Speaker, it does every single one of those things if it becomes law, but because it is moved in a partisan process when we have bipartisan government, it will never become law and it will never happen. Not one of those things that my colleagues earnestly believe their constituencies need and are demanding is going to be delivered.

Mr. Speaker, I don't want to make the point. I do want to make the difference. I recognize that in divided government sometimes you have to put out the party line. Sometimes you have to stand up and say, "This is where I am; now let's figure out where you are," and then the negotiation happens later.

That happens on a lot of bills in this institution. It doesn't usually happen on transportation, it doesn't usually happen on infrastructure, because the way transportation and infrastructure usually happen is we partner from day one.

In the last Congress, Mr. Speaker, last time we moved this bill, roughly an equal number of Republican ideas, Democratic ideas, and bipartisan ideas were considered to improve the bill. This time around, Mr. Speaker, we will consider 17 bipartisan amendments, 19 Republican amendments, and 134 Democratic amendments. Last time around, roughly one to one; this time around, seven Democratic ideas for every one Republican idea.

Last time around, the bill was crafted in a partnership way so that more ideas and everyone was included in the beginning. This time around, the bill moved in a strict party-line vote.

I understand we can't be the best version of ourselves as an institution every day of the week, Mr. Speaker. I recognize that. And it is not even our goal every day of the week. Sometimes we have a partisan priority, an itch that needs to be scratched. But good habits are hard to keep; bad habits are easy to make.

There is a reason the Transportation and Infrastructure Committee is special. There is a reason Mr. DEFAZIO stood in line so long waiting on his opportunity to lead. It is a special place where you can make a huge difference on behalf of not just your community, but your country.

We are squandering that opportunity today. There were lots of good ideas that we could have moved forward in a partnership way.

I hope that the extraordinary partisanship that represents a dramatic change from anything that we have ever done in this transportation environment before is the aberration, and that as soon as that partisan itch gets scratched, my colleagues will then turn their attention to being able to get

something done. Because when my friends talked about road safety and the needs America has, they were right. When my friends talked about crumbling infrastructure and the needs America has, they were right. When my friends talked about investing in us as a nation, my friends were right.

I want to join with them to make those things happen; but today, Mr. Speaker, I encourage my colleagues to vote “no” on the previous question and to vote “no” on the rule.

I yield back the balance of my time. Mr. MORELLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me begin by thanking my colleague and friend on the Rules Committee (Mr. WOODALL), who is really one of the thought leaders in this Chamber and has always committed to bipartisanship, always committed to what is best for our Nation and for the people blessed to call this Nation home. I want to thank him, as always, for his partnership and his hard work in his diligence to the cause.

I take a slightly different view of what we do here today than my friend because this isn't, in my view, strictly a partisan issue or a party issue or a platform issue or a messaging issue. This is an issue of what we value as Americans, what we believe and what the majority believes is important to the citizens of this country.

We do face, as Mr. WOODALL notes, the greatest pandemic this country has faced in at least a century. We have 125,000 Americans who have lost their lives to it. So this is an extraordinary time, and it calls for extraordinary measures and a \$1.5 trillion plan to move America forward to address our transportation crisis, to address our climate change crisis, to address our healthcare crisis, to address the challenges brought on by crumbling schools across this country.

One of the learnings of this pandemic, in my view, has been the digital divide. Whether it is in telehealth, in telemedicine, we know that those communities of color that already face disparities face even greater disparities. So the broadband initiative included in this is so vitally important to all of us.

We see that when it comes to distance learning in our schools. Crumbling schools, yes, but the inability of schoolchildren to get to online classes and distance learning because of broadband challenges is great, as well, and we need to do everything we can to limit those disparities.

And those are the great learnings, perhaps, of this pandemic and things we can do about it.

□ 1130

That is why we believe so strongly in investing those dollars in meeting the challenge of climate change, the defining challenge of our time. Transportation is the leading cause of U.S. carbon pollution. So these are the values we embrace.

While certainly I take as an article of faith what Mr. WOODALL said, which is,

perhaps it is not likely this bill, every word and every comma will become law unless, all of a sudden, there is enlightenment in the United States Senate, which I frankly have some doubt about. But make no mistake, much of what is in here will become law because it is important to us as a majority and it is important to the American people.

We are going to continue to stand and fight for these things in the midst of these great crises because they are important, we need to put Americans back to work to build our infrastructure and to build an infrastructure for the next generation. This isn't about now. This isn't about digging a hole and filling it back up, digging another hole and filling it back up. These are great needs. They are needs that we have, frankly, ignored for decades now. The time has come to address them.

So this is a question of values. It is a question of what we believe Americans need, what our families need, and what our communities need.

We will get there. I have faith that we will negotiate a bill, and much of what is included today, hopefully, will pass, will be included in the final package, and will be signed by the President because it is too important for America not to do.

Mr. Speaker, I thank all my colleagues for their words in favor of H.R. 2, the Moving Forward Act.

Mr. Speaker, I urge a “yes” vote on the rule and a “yes” vote on the previous question.

The material previously referred to by Mr. WOODALL is as follows:

#### AMENDMENT TO HOUSE RESOLUTION 1028

At the end of the resolution, add the following:

SEC. 10. Immediately upon adoption of this resolution, the House shall proceed to the consideration in the House of the resolution (H. Res. 1031) condemning the cyber attacks on American persons and organizations conducting research related to COVID 19 and expressing the sense of the House of Representatives that those responsible for perpetrating such belligerent acts should face consequences. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and preamble to adoption without intervening motion or demand for division of the question except one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Foreign Affairs. Clause 1(c) of rule XIX shall not apply to the consideration of House Resolution 1031.

Mr. MORELLE. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WOODALL. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3 of House Resolution 965, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 230, nays 180, not voting 20, as follows:

[Roll No. 130]

□ 1255

Ms. KAPTUR changed her vote from “nay” to “yea.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Ms. GRANGER. Mr. Speaker, I missed votes due to circumstances beyond my control. Had I been present, I would have voted “nay” on rollcall No. 130 and “nay” on rollcall No. 131.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for a period of less than 15 minutes.

Accordingly (at 12 o'clock and 58 minutes p.m.), the House stood in recess.

□ 1312

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. CUELLAR) at 1 o'clock and 12 minutes p.m.

## INVESTING IN A NEW VISION FOR THE ENVIRONMENT AND SURFACE TRANSPORTATION IN AMERICA ACT

Mr. DEFAZIO. Mr. Speaker, pursuant to House Resolution 1028, I call up the bill (H.R. 2) to authorize funds for Federal-aid highways, highway safety programs, and transit programs, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 1028, in lieu of the amendment in the nature of a substitute recommended by the Committee on Transportation and Infrastructure, printed in the bill, an amendment in the nature of a substitute consisting of the text of Rules Committee Print 116-54, modified by the amendment printed in part A of House Report 116-438, is adopted, and the bill, as amended, is considered read.

The text of the bill, as amended, is as follows:

### H.R. 2

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

*This Act may be cited as the "Moving Forward Act".*

#### SEC. 2. TABLE OF CONTENTS.

*The table of contents for this Act is as follows:*

- Sec. 1. Short title.
- Sec. 2. Table of contents.
- Sec. 3. References.

#### DIVISION A—FEDERAL SURFACE TRANSPORTATION PROGRAMS FOR FISCAL YEAR 2021

- Sec. 100. Short title.
- Sec. 101. Extension of Federal surface transportation programs.
- Sec. 102. Federal Highway Administration.
- Sec. 103. Federal Transit Administration.
- Sec. 104. National Highway Traffic Safety Administration.
- Sec. 105. Federal Motor Carrier Safety Administration.
- Sec. 106. Definitions.

#### DIVISION B—SURFACE TRANSPORTATION

- Sec. 1001. Applicability of division.

#### TITLE I—FEDERAL-AID HIGHWAYS

##### Subtitle A—Authorizations and Program Conditions

- Sec. 1101. Authorization of appropriations.
- Sec. 1102. Obligation limitation.
- Sec. 1103. Definitions and declaration of policy.
- Sec. 1104. Apportionment.
- Sec. 1105. Additional deposits into Highway Trust Fund.
- Sec. 1106. Transparency.
- Sec. 1107. Complete and context sensitive street design.
- Sec. 1108. Innovative project delivery Federal share.
- Sec. 1109. Transferability of Federal-aid highway funds.
- Sec. 1110. Tolling.
- Sec. 1111. HOV facilities.
- Sec. 1112. Buy America.
- Sec. 1113. Federal-aid highway project requirements.
- Sec. 1114. State assumption of responsibility for categorical exclusions.
- Sec. 1115. Surface transportation project delivery program written agreements.
- Sec. 1116. Corrosion prevention for bridges.
- Sec. 1117. Sense of Congress.

##### Subtitle B—Programmatic Infrastructure Investment

- Sec. 1201. National highway performance program.
- Sec. 1202. Increasing the resilience of transportation assets.
- Sec. 1203. Emergency relief.
- Sec. 1204. Railway crossings.
- Sec. 1205. Surface transportation program.
- Sec. 1206. Transportation alternatives program.
- Sec. 1207. Bridge investment.
- Sec. 1208. Construction of ferry boats and ferry terminal facilities.
- Sec. 1209. Highway safety improvement program.
- Sec. 1210. Congestion mitigation and air quality improvement program.
- Sec. 1211. Electric vehicle charging stations.
- Sec. 1212. National highway freight program.
- Sec. 1213. Carbon pollution reduction.
- Sec. 1214. Recreational trails.
- Sec. 1215. Safe routes to school program.
- Sec. 1216. Bicycle transportation and pedestrian walkways.

##### Subtitle C—Project-Level Investments

- Sec. 1301. Projects of national and regional significance.
- Sec. 1302. Community transportation investment grant program.
- Sec. 1303. Grants for charging and fueling infrastructure to modernize and reconnect America for the 21st century.
- Sec. 1304. Community climate innovation grants.
- Sec. 1305. Metro performance program.
- Sec. 1306. Gridlock reduction grant program.
- Sec. 1307. Rebuild rural grant program.
- Sec. 1308. Parking for commercial motor vehicles.
- Sec. 1309. Active transportation connectivity grant program.

##### Subtitle D—Planning, Performance Management, and Asset Management

- Sec. 1401. Metropolitan transportation planning.
- Sec. 1402. Statewide and nonmetropolitan transportation planning.
- Sec. 1403. National goals and performance management measures.
- Sec. 1404. Transportation demand data and modeling study.
- Sec. 1405. Fiscal constraint on long-range transportation plans.

##### Subtitle E—Federal Lands, Tribes, and Territories

- Sec. 1501. Territorial and Puerto Rico highway program.

- Sec. 1502. Tribal transportation program.
- Sec. 1503. Tribal High Priority Projects program.
- Sec. 1504. Federal lands transportation program.
- Sec. 1505. Federal lands and Tribal major projects program.
- Sec. 1506. Office of Tribal Government Affairs.
- Sec. 1507. Alternative contracting methods.
- Sec. 1508. Divestiture of federally owned bridges.
- Sec. 1509. Study on Federal funding available to Indian Tribes.
- Sec. 1510. GAO study.

##### Subtitle F—Additional Provisions

- Sec. 1601. Vision zero.
- Sec. 1602. Speed limits.
- Sec. 1603. Broadband infrastructure deployment.
- Sec. 1604. Balance Exchanges for Infrastructure Program.
- Sec. 1605. Stormwater best management practices.
- Sec. 1606. Pedestrian facilities in the public right-of-way.
- Sec. 1607. Highway formula modernization report.
- Sec. 1608. Consolidation of programs.
- Sec. 1609. Student outreach report to Congress.
- Sec. 1610. Task force on developing a 21st century surface transportation workforce.
- Sec. 1611. On-the-job training and supportive services.
- Sec. 1612. Work zone safety.
- Sec. 1613. Transportation education development program.
- Sec. 1614. Working group on construction resources.
- Sec. 1615. Numbering system of highway interchanges.
- Sec. 1616. Toll credits.
- Sec. 1617. Transportation construction materials procurement.
- Sec. 1618. Construction of certain access and development roads.
- Sec. 1619. Nationwide road safety assessment.
- Sec. 1620. Wildlife crossings.
- Sec. 1621. Climate resilient transportation infrastructure study.
- Sec. 1622. Elimination of duplication of environmental reviews and approvals.
- Sec. 1623. AMBER Alerts along major transportation routes.
- Sec. 1624. Natural gas, electric battery, and zero emission vehicles.
- Sec. 1625. Guidance on evacuation routes.
- Sec. 1626. High priority corridors on National Highway System.
- Sec. 1627. Guidance on inundated and submerged roads.
- Sec. 1628. Dry bulk weight tolerance.
- Sec. 1629. Highway use tax evasion projects.
- Sec. 1630. The United States opposes child labor.

#### TITLE II—PUBLIC TRANSPORTATION

##### Subtitle A—Federal Transit Administration

- Sec. 2101. Authorizations.
- Sec. 2102. Chapter 53 definitions.
- Sec. 2103. General provisions.
- Sec. 2104. Miscellaneous provisions.
- Sec. 2105. Policies and purposes.
- Sec. 2106. Fiscal year 2022 formulas.
- Sec. 2107. Metropolitan transportation planning.
- Sec. 2108. Statewide and nonmetropolitan transportation planning.
- Sec. 2109. Obligation limitation.
- Sec. 2110. Public transportation emergency relief funds.
- Sec. 2111. General provisions.
- Sec. 2112. Certification requirements.
- Subtitle B—Improving Frequency and Ridership
- Sec. 2201. Multi-jurisdictional bus frequency and ridership competitive grants.
- Sec. 2202. Incentivizing frequency in the urban formula.

Sec. 2203. Mobility innovation.  
 Sec. 2204. Formula grants for rural areas.  
 Sec. 2205. One-stop paratransit program.  
 Subtitle C—Buy America and Other Procurement Reforms  
 Sec. 2301. Buy America.  
 Sec. 2302. Bus procurement streamlining.  
 Sec. 2303. Bus testing facility.  
 Sec. 2304. Repayment requirement.  
 Sec. 2305. Definition of urbanized areas following a major disaster.  
 Sec. 2306. Special rule for certain rolling stock procurements.  
 Sec. 2307. Certification requirements.  
 Subtitle D—Bus Grant Reforms  
 Sec. 2401. Formula grants for buses.  
 Sec. 2402. Bus facilities and fleet expansion competitive grants.  
 Sec. 2403. Zero emission bus grants.  
 Sec. 2404. Restoration to state of good repair formula subgrant.  
 Subtitle E—Supporting All Riders  
 Sec. 2501. Low-income urban formula funds.  
 Sec. 2502. Rural persistent poverty formula.  
 Sec. 2503. Demonstration grants to support reduced fare transit.  
 Subtitle F—Supporting Frontline Workers and Passenger Safety  
 Sec. 2601. National transit frontline workforce training center.  
 Sec. 2602. Public transportation safety program.  
 Sec. 2603. Innovation workforce standards.  
 Sec. 2604. Safety performance measures and set asides.

 TITLE I—AUTHORIZATIONS  
 Sec. 9101. Authorization of appropriations.  
 Sec. 9102. Passenger rail improvement, modernization, and expansion grants.  
 Sec. 9103. Consolidated rail infrastructure and safety improvement grants.  
 Sec. 9104. Railroad rehabilitation and improvement financing.  
 Sec. 9105. Buy America.  
 Sec. 9106. Rail network climate change vulnerability assessment.  
 TITLE II—AMTRAK REFORMS  
 Sec. 9201. Amtrak findings, mission, and goals.  
 Sec. 9202. Amtrak status.  
 Sec. 9203. Board of Directors.  
 Sec. 9204. Amtrak preference enforcement.  
 Sec. 9205. Use of facilities and providing services to Amtrak.

Sec. 9206. Prohibition on mandatory arbitration.

Sec. 9207. Amtrak ADA assessment.

Sec. 9208. Prohibition on smoking on Amtrak trains.

Sec. 9209. State-supported routes operated by Amtrak.

Sec. 9210. Amtrak Police Department.

Sec. 9211. Amtrak food and beverage.

Sec. 9212. Clarification on Amtrak contracting out.

Sec. 9213. Amtrak staffing.

Sec. 9214. Special transportation.

Sec. 9215. Disaster and emergency relief program.

Sec. 9216. Recreational trail access.

Sec. 9217. Investigation of substandard performance.

Sec. 9218. Amtrak cybersecurity enhancement grant program.

Sec. 9219. Amtrak and private cars.

Sec. 9220. Amtrak Office of Community Outreach.

#### TITLE III—INTERCITY PASSENGER RAIL POLICY

Sec. 9301. Northeast Corridor Commission.

Sec. 9302. Northeast Corridor planning.

Sec. 9303. Protective arrangements.

Sec. 9304. High-speed rail funds.

#### TITLE IV—COMMUTER RAIL POLICY

Sec. 9401. Surface Transportation Board mediation of trackage use requests.

Sec. 9402. Surface Transportation Board mediation of rights-of-way use requests.

Sec. 9403. Chicago Union Station improvement plans.

#### TITLE V—RAIL SAFETY

##### Subtitle A—Passenger and Freight Safety

Sec. 9501. National Academies study on safety impact of trains longer than 7,500 feet.

Sec. 9502. GAO study on changes in freight railroad operating and scheduling practices.

Sec. 9503. FRA safety reporting.

Sec. 9504. Waiver notice requirements.

Sec. 9505. Notice of FRA comprehensive safety assessments.

Sec. 9506. FRA accident and incident investigations.

Sec. 9507. Rail safety improvements.

Sec. 9508. Annual review of speed limit action plans.

Sec. 9509. Freight train crew size safety standards.

Sec. 9510. Safe cross border operations.

Sec. 9511. Yardmasters hours of service.

Sec. 9512. Leaking brakes.

Sec. 9513. Annual report on PTC system failures.

Sec. 9514. Fatigue reduction pilot projects.

Sec. 9515. Assault prevention and response plans.

Sec. 9516. Critical incident stress plans.

Sec. 9517. Study on safety culture assessments.

##### Subtitle B—Grade Crossing Safety

Sec. 9551. Grade crossing separation grants.

Sec. 9552. Rail safety public awareness grants.

Sec. 9553. Establishment of 10-minute time limit for blocking public grade crossings.

Sec. 9554. National strategy to address blocked crossings.

Sec. 9555. Railroad point of contact for blocked crossing matters.

Sec. 9556. National highway-rail crossing inventory review.

Sec. 9557. Counting railroad suicides.

#### DIVISION E—AVIATION

##### TITLE I—AIRPORT AND AIRWAY INFRASTRUCTURE

Sec. 10101. Airport planning and development and noise compatibility planning and programs.

Sec. 10102. Supplemental funding for airports.

Sec. 10103. Airport resiliency projects.

Sec. 10104. FAA air traffic control facilities.

Sec. 10105. Airport innovative financing techniques.

Sec. 10106. Small airport letters of intent.

Sec. 10107. Minority and disadvantaged business size standards.

#### TITLE II—ENVIRONMENT

Sec. 10201. Alternative fuel and low-emission aviation technology program.

Sec. 10202. Expansion of voluntary airport low emission program.

Sec. 10203. Study and development of sustainable aviation fuels.

Sec. 10204. Center of excellence for alternative jet fuels and environment.

Sec. 10205. National evaluation of aviation and aerospace solutions to climate change.

#### DIVISION F—INVESTMENT IN WATER RESOURCES AND WATER-RELATED INFRASTRUCTURE

Sec. 20001. Short title.

##### TITLE I—CRITICAL WATER RESOURCES INVESTMENTS

Sec. 21001. Use of Harbor Maintenance Trust Fund to support navigation.

Sec. 21002. Annual report to Congress.

Sec. 21003. Harbor Maintenance Trust Fund discretionary spending limit adjustment.

Sec. 21004. Appropriations for Construction, Inland Waterways, Operation and Maintenance.

##### TITLE II—CRITICAL CLEAN WATER INVESTMENTS

##### Subtitle A—Water Quality Protection and Job Creation Act

Sec. 22101. Short title.

Sec. 22102. Wastewater infrastructure workforce investment.

Sec. 22103. State management assistance.

Sec. 22104. Watershed, wet weather, and resiliency projects.

Sec. 22105. Pilot program for alternative water source projects.

Sec. 22106. Sewer overflow and stormwater reuse municipal grants.

Sec. 22107. Reports to Congress.

Sec. 22108. Indian Tribes.

Sec. 22109. Capitalization grants.

Sec. 22110. Water pollution control revolving loan funds.

Sec. 22111. Allotment of funds.

Sec. 22112. Reservation of funds for Territories of the United States.

Sec. 22113. Authorization of appropriations.

Sec. 22114. Technical assistance by Municipal Ombudsman.

Sec. 22115. Report on financial capability of municipalities.

Sec. 22116. Emerging contaminants.

##### Subtitle B—Local Water Protection

Sec. 22201. Nonpoint source management programs.

##### Subtitle C—Critical Regional Infrastructure Investments

Sec. 22301. Reauthorization of Chesapeake Bay Program.

Sec. 22302. San Francisco Bay restoration grant program.

Sec. 22303. Puget sound coordinated recovery.

Sec. 22304. Great Lakes Restoration Initiative Reauthorization.

Sec. 22305. National Estuary Program reauthorization.

Sec. 22306. Lake Pontchartrain Basin Restoration Program reauthorization.

Sec. 22307. Long Island Sound Program Reauthorization.

Sec. 22308. Columbia River Basin Restoration Program Reauthorization.

##### TITLE III—RESILIENCE REVOLVING LOAN FUND

Sec. 23001. Short title.

Sec. 23002. Grants to entities for establishment of hazard mitigation revolving loan funds.

#### TITLE IV—SPORTS FISHING

Sec. 24001. Short title.

Sec. 24002. Division of annual appropriations.

Sec. 24003. Recreational boating access.

Sec. 24004. Wildlife Restoration Fund administration.

Sec. 24005. Sport fish restoration and boating trust fund.

#### TITLE V—CLIMATE SMART PORTS

Sec. 25001. Short title.

Sec. 25002. Climate Smart Ports Grant Program.

Sec. 25003. Energy Policy Act of 2005 authorization of appropriations for port authorities.

#### DIVISION G—ENERGY AND COMMERCE

##### TITLE I—BROADBAND INFRASTRUCTURE

Sec. 31001. Definitions.

Sec. 31002. Sense of Congress.

Sec. 31003. Severability.

##### Subtitle A—Digital Equity

Sec. 31100. Definitions.

CHAPTER 1—OFFICE OF INTERNET CONNECTIVITY AND GROWTH

Sec. 31101. Establishment of the Office of Internet Connectivity and Growth.

Sec. 31102. Duties.

Sec. 31103. Streamlined applications for support.

Sec. 31104. Coordination of support.

Sec. 31105. Rule of construction.

Sec. 31106. Funding.

##### CHAPTER 2—DIGITAL EQUITY PROGRAMS

Sec. 31121. State Digital Equity Capacity Grant Program.

Sec. 31122. Digital Equity Competitive Grant Program.

Sec. 31123. Policy research, data collection, analysis and modeling, evaluation, and dissemination.

Sec. 31124. General provisions.

##### CHAPTER 3—BROADBAND SERVICE FOR LOW-INCOME CONSUMERS

Sec. 31141. Additional broadband benefit.

Sec. 31142. Grants to States to strengthen National Lifeline Eligibility Verifier.

Sec. 31143. Federal coordination between Lifeline and SNAP verification.

##### CHAPTER 4—E-RATE SUPPORT FOR WI-FI HOTSPOTS, OTHER EQUIPMENT, AND CONNECTED DEVICES

Sec. 31161. E-Rate support for Wi-Fi hotspots, other equipment, and connected devices.

##### Subtitle B—Broadband Transparency

Sec. 31201. Definitions.

Sec. 31202. Broadband transparency.

Sec. 31203. Distribution of data.

Sec. 31204. Coordination with certain other Federal agencies.

Sec. 31205. Broadband consumer labels.

Sec. 31206. Appropriation for Broadband DATA Act.

##### Subtitle C—Broadband Access

CHAPTER 1—EXPANSION OF BROADBAND ACCESS

Sec. 31301. Expansion of broadband access in unserved areas and areas with low-tier or mid-tier service.

##### CHAPTER 2—BROADBAND INFRASTRUCTURE FINANCE AND INNOVATION

Sec. 31321. Definitions.

Sec. 31322. Determination of eligibility and project selection.

Sec. 31323. Secured loans.

Sec. 31324. Lines of credit.

Sec. 31325. Alternative prudential lending standards for small projects.

Sec. 31326. Program administration.

Sec. 31327. State and local permits.

Sec. 31328. Regulations.

Sec. 31329. Funding.  
 Sec. 31330. Reports to Congress.

CHAPTER 3—WI-FI ON SCHOOL BUSES

Sec. 31341. E-rate support for school bus Wi-Fi.

Subtitle D—Community Broadband

Sec. 31401. State, local, public-private partnership, and co-op broadband services.

Subtitle E—Repeal of Rule and Prohibition on Use of NPRM

Sec. 31501. Repeal of rule and prohibition on use of NPRM.

Subtitle F—Next Generation 9-1-1

Sec. 31601. Sense of Congress.  
 Sec. 31602. Statement of policy.  
 Sec. 31603. Coordination of Next Generation 9-1-1 Implementation.  
 Sec. 31604. Savings provision.

TITLE II—MOTOR VEHICLE SAFETY

Sec. 32001. Safety Warning for occupants of hot cars.

Sec. 32002. Protecting Americans from the Risks of Keyless Ignition Technology.

Sec. 32003. 21st Century Smart Cars.

Sec. 32004. Updating the 5-star safety rating system.

Sec. 32005. Advanced Drunk Driving prevention technology.

Sec. 32006. Limousine compliance with Federal Safety Standards.

TITLE III—ENERGY AND ENVIRONMENT INFRASTRUCTURE

Subtitle A—Infrastructure

CHAPTER 1—DRINKING WATER

SUBCHAPTER A—PFAS INFRASTRUCTURE GRANT PROGRAM

Sec. 33101. Establishment of PFAS Infrastructure Grant Program.

Sec. 33102. Definition.

SUBCHAPTER B—EXTENSIONS

Sec. 33103. Funding.

Sec. 33104. American iron and steel products.

CHAPTER 2—GRID SECURITY AND MODERNIZATION

Sec. 33111. 21st Century Power Grid.

Sec. 33112. Energy efficient transformer rebate program.

Sec. 33113. Interregional transmission planning report.

Sec. 33114. Promoting grid storage.

Sec. 33115. Expanding access to sustainable energy.

Sec. 33116. Interregional transmission planning rulemaking.

CHAPTER 3—CONTROLLING METHANE LEAKS FROM PIPELINES

Sec. 33121. Improving the natural gas distribution system.

CHAPTER 4—RENEWABLE ENERGY

Sec. 33131. Grant program for solar installations located in, or that serve, low-income and underserved areas.

CHAPTER 5—SMART COMMUNITIES

Sec. 33141. 3C energy program.

Sec. 33142. Federal technology assistance.

Sec. 33143. Technology demonstration grant program.

Sec. 33144. Smart city or community.

Sec. 33145. Clean cities coalition program.

CHAPTER 6—BROWNFIELDS

Sec. 33151. Brownfields funding.

CHAPTER 7—INDIAN ENERGY

Sec. 33161. Indian energy.

Sec. 33162. Report on electricity access and reliability.

CHAPTER 8—HYDROPOWER AND DAM SAFETY

Sec. 33171. Hydroelectric production incentives and efficiency improvements.

Sec. 33172. FERC briefing on Edenville Dam and Sanford Dam failures.

Sec. 33173. Dam safety conditions.

Sec. 33174. Dam safety requirements.

Sec. 33175. Viability procedures.

Sec. 33176. FERC dam safety technical conference with States.

Sec. 33177. Required dam safety communications between FERC and States.

CHAPTER 9—LOAN PROGRAM OFFICE REFORM

Sec. 33181. Loan program office title XVII reform.

Subtitle B—Energy Efficiency

CHAPTER 1—ENERGY EFFICIENCY RETROFITS

SUBCHAPTER A—HOMES

Sec. 33201. Definitions.

Sec. 33202. Establishment of Home Energy Savings Retrofit Rebate Program.

Sec. 33203. Partial system rebates.

Sec. 33204. State administered rebates.

Sec. 33205. Evaluation reports to Congress.

Sec. 33206. Administration.

Sec. 33207. Authorization of appropriations.

SUBCHAPTER B—PUBLIC BUILDINGS

Sec. 33211. Energy efficient public buildings.

SUBCHAPTER C—SCHOOLS

Sec. 33221. Energy retrofitting assistance for schools.

Sec. 33222. Grants for energy efficiency improvements and renewable energy improvements at public school facilities.

CHAPTER 2—WEATHERIZATION

Sec. 33231. Weatherization assistance program.

Sec. 33232. Report on waivers.

CHAPTER 3—ENERGY EFFICIENT CONSERVATION BLOCK GRANTS

Sec. 33241. Energy Efficiency and Conservation Block Grant Program.

CHAPTER 4—FEDERAL ENERGY AND WATER MANAGEMENT PERFORMANCE

Sec. 33251. Energy and water performance requirement for Federal facilities.

Sec. 33252. Federal Energy Management Program.

Subtitle C—Vehicles

CHAPTER 1—DERA

Sec. 33301. Reauthorization of diesel emissions reduction program.

CHAPTER 2—CLEAN COMMUTE FOR KIDS

Sec. 33311. Reauthorization of Clean School Bus Program.

CHAPTER 3—REFRIGERATED VEHICLES

Sec. 33321. Pilot program for the electrification of certain refrigerated vehicles.

CHAPTER 4—EV INFRASTRUCTURE

Sec. 33331. Definitions.

Sec. 33332. Electric vehicle supply equipment rebate program.

Sec. 33333. Expanding access to electric vehicles in underserved communities.

Sec. 33334. Ensuring program benefits for underserved and disadvantaged communities.

Sec. 33335. Model building code for electric vehicle supply equipment.

Sec. 33336. Electric vehicle supply equipment coordination.

Sec. 33337. State consideration of electric vehicle charging.

Sec. 33338. State energy plans.

Sec. 33339. Transportation electrification.

Sec. 33340. Federal fleets.

Sec. 33341. Domestic Manufacturing Conversion Grant Program.

Sec. 33342. Advanced technology vehicles manufacturing incentive program.

Subtitle D—Buy American and Wage Rate Requirements

Sec. 33401. Use of American iron, steel, and manufactured goods.

Sec. 33402. Wage rate requirements.

TITLE IV—HEALTH CARE INFRASTRUCTURE

Sec. 34101. Hospital infrastructure.

Sec. 34102. Community Health Center Capital Project Funding.

Sec. 34103. Pilot program to improve laboratory infrastructure.

Sec. 34104. 21st century Indian health program hospitals and outpatient health care facilities.

Sec. 34105. Pilot program to improve community-based care infrastructure.

DIVISION H—ADDITIONAL PROGRAMS

Sec. 40001. National scenic byways program.

Sec. 40002. Authorization of appropriations for Department of Veterans Affairs.

DIVISION I—ZERO-EMISSION POSTAL FLEET AND OTHER MATTERS

Sec. 50001. Authorization of appropriation for United States Postal Service for modernization of postal infrastructure.

Sec. 50002. Electric or zero-emission vehicles for United States Postal Service fleet.

Sec. 50003. Clarification of authority of District of Columbia to carry out Long Bridge project.

DIVISION J—COMMITTEE ON FINANCIAL SERVICES

Sec. 60001. Short title.

Sec. 60002. Findings.

Sec. 60003. Public Housing Capital Fund.

Sec. 60004. Rural Multifamily Preservation and Revitalization Demonstration Program.

Sec. 60005. Flood Mitigation Assistance Grant Program.

Sec. 60006. Housing Trust Fund.

Sec. 60007. Single-Family Housing Repair Loans and Grants.

Sec. 60008. Native American Housing Block Grant Program.

Sec. 60009. HOME Investment Partnerships Program.

Sec. 60010. Program for supportive housing for persons with disabilities.

Sec. 60011. Program for supportive housing for the elderly.

Sec. 60012. Capital Magnet Fund.

Sec. 60013. Community development block grant funding for affordable housing and infrastructure.

Sec. 60014. Inclusion of minority and women's business enterprises.

Sec. 60015. Reports on outcomes.

DIVISION K—REOPEN AND REBUILD AMERICA'S SCHOOLS ACT OF 2020

Sec. 70000. Short title; table of contents.

Sec. 70001. Definitions.

TITLE I—GRANTS FOR THE LONG-TERM IMPROVEMENT OF PUBLIC SCHOOL FACILITIES

Subtitle A—Reservation and Allocation of Funds

Sec. 70101. Purpose and reservation.

Sec. 70102. Allocation to States.

Subtitle B—Grants to Local Educational Agencies

Sec. 70111. Need-based grants to qualified local educational agencies.

Sec. 70112. Allowable uses of funds.

Sec. 70113. Prohibited uses.

Sec. 70114. Requirements for hazard-resistance, energy and water conservation, and air quality.

Sec. 70115. Green Practices.

Sec. 70116. Use of American iron, steel, and manufactured products.

Sec. 70117. Prohibition on use of funds for facilities of for-profit charter schools.

Sec. 70118. Prohibition on use of funds for certain charter schools.

Subtitle C—Annual Report and Authorization of Appropriations

Sec. 70121. Annual report on grant program.

Sec. 70122. Authorization of appropriations.

**TITLE II—OTHER REPORTS, DEVELOPMENT OF STANDARDS, AND INFORMATION CLEARINGHOUSE**

Sec. 70201. Comptroller general report.  
 Sec. 70202. Study and report physical condition of public schools.  
 Sec. 70203. Development of data standards.  
 Sec. 70204. Information clearinghouse.  
 Sec. 70205. Sense of Congress on Opportunity Zones.

**TITLE III—IMPACT AID CONSTRUCTION**

Sec. 70301. Temporary increase in funding for impact aid construction.

**TITLE IV—ASSISTANCE FOR REPAIR OF SCHOOL FOUNDATIONS AFFECTED BY PYRRHOTITE**

Sec. 70401. Allocations to States.  
 Sec. 70402. Grants to local educational agencies.

Sec. 70403. Definitions.  
 Sec. 70404. Authorization of appropriations.

**DIVISION L—PUBLIC LANDS, TRIBAL COMMUNITIES, AND RESILIENT NATURAL INFRASTRUCTURE**

Sec. 80000. Table of contents.

**TITLE I—WATER RESOURCES INFRASTRUCTURE**

Subtitle A—Water Settlements Infrastructure  
 Sec. 81101. Reclamation water settlements fund.  
 Sec. 81102. Conveyance capacity correction project.  
 Sec. 81103. Funding parity for water management goals and restoration goals.

Subtitle B—FUTURE Western Water Infrastructure and Drought Resiliency

Sec. 81201. Short title.  
 Sec. 81202. Definitions.

**CHAPTER 1—INFRASTRUCTURE DEVELOPMENT**

Sec. 81211. Competitive grant program for the funding of water recycling and reuse projects.  
 Sec. 81212. Storage project development reports to congress.  
 Sec. 81213. Funding for storage and supporting projects.  
 Sec. 81214. Extension of existing requirements for grandfathered storage projects.  
 Sec. 81215. Desalination project development.  
 Sec. 81216. Assistance for disadvantaged communities without adequate drinking water.

**CHAPTER 2—IMPROVED TECHNOLOGY AND DATA**

Sec. 81221. Reauthorization of water availability and use assessment program.  
 Sec. 81222. Renewal of advisory committee on water information.  
 Sec. 81223. Desalination technology development.  
 Sec. 81224. X-prize for water technology breakthroughs.  
 Sec. 81225. Study examining sediment transport.  
 Sec. 81226. Determination of water supply allocations.  
 Sec. 81227. Federal priority streamgages.  
 Sec. 81228. Study examining climate vulnerabilities at federal dams.  
 Sec. 81229. Innovative technology adoption.

**CHAPTER 3—ECOSYSTEM PROTECTION AND RESTORATION**

Sec. 81231. Waterbird habitat creation program.  
 Sec. 81232. Cooperative watershed management program.  
 Sec. 81233. Competitive grant program for the funding of watershed health projects.  
 Sec. 81234. Support for refuge water deliveries.  
 Sec. 81235. Drought planning and preparedness for critically important fisheries.  
 Sec. 81236. Aquatic ecosystem restoration.  
 Sec. 81237. Reauthorization of the Fisheries Restoration and Irrigation Mitigation Act of 2000.

**CHAPTER 4—WATER JOB TRAINING AND EDUCATION**

Sec. 81241. Water resource education.

**CHAPTER 5—MISCELLANEOUS**

Sec. 81251. Offset.  
 Sec. 81252. Delayed water project recommendations.

**Subtitle C—Western Water Security**

Sec. 81301. Definitions.

**CHAPTER 1—INFRASTRUCTURE AND WATER MANAGEMENT IMPROVEMENT**

Sec. 81311. Watersmart extension and expansion.

Sec. 81312. Emergency drought funding.  
 Sec. 81313. Rio Grande Pueblo Irrigation Infrastructure Reauthorization.

**CHAPTER 2—GROUNDWATER MANAGEMENT**

Sec. 81321. Reauthorization and expansion of the Transboundary Aquifer Assessment Program.

Sec. 81322. Groundwater management assessment and improvement.

Sec. 81323. Surface and groundwater water availability and the energy nexus.

**CHAPTER 3—WATER CONSERVATION AND ENVIRONMENTAL RESTORATION**

Sec. 81331. Definitions.  
 Sec. 81332. Water acquisition program.  
 Sec. 81333. Middle Rio Grande Water Conservation.

Sec. 81334. Sustaining biodiversity during droughts.

Sec. 81335. Reauthorization of cooperative watershed management program.

**CHAPTER 4—EFFECT ON EXISTING LAW**

Sec. 81341. Effect on existing law.

**Subtitle D—Water Resources Research Amendments**

Sec. 81411. Water Resources Research Act amendments.

**Subtitle E—Ground Water Recharge Planning**

Sec. 81511. Ground water recharge planning.

**Subtitle F—Tribal Water Infrastructure**

Sec. 81611. Finding.  
 Sec. 81612. Indian Health Services Sanitation Facilities Construction Program funding.

**Subtitle G—Navajo Utah Water Rights Settlement**

Sec. 81711. Purposes.  
 Sec. 81712. Definitions.  
 Sec. 81713. Ratification of agreement.  
 Sec. 81714. Navajo water rights.  
 Sec. 81715. Navajo trust accounts.  
 Sec. 81716. Authorization of appropriations.  
 Sec. 81717. Conditions precedent.  
 Sec. 81718. Waivers and releases.  
 Sec. 81719. Miscellaneous provisions.  
 Sec. 81720. Relation to allottees.  
 Sec. 81721. Antideficiency.

**TITLE II—NATIONAL PARKS, FORESTS, AND PUBLIC LANDS**

**Subtitle A—Public Lands Telecommunications**

Sec. 82101. Definitions.  
 Sec. 82102. Collection and retention of rental fees associated with communications use authorizations on Federal lands and Federal land management agency support for communication site programs.

Sec. 82103. Cooperative agreement authority.

**Subtitle B—Outdoors for All**

Sec. 82201. Definitions.  
 Sec. 82202. Grants authorized.  
 Sec. 82203. Eligible uses.  
 Sec. 82204. National park service requirements.  
 Sec. 82205. Reporting.  
 Sec. 82206. Revenue sharing.

**Subtitle C—Updated Borrowing Authority**

Sec. 82301. Presidio Trust borrowing authority.

**Subtitle D—Forest Service Legacy Roads and Trails Remediation Program**

Sec. 82401. Forest Service Legacy Roads and Trails Remediation Program.

**Subtitle E—Long Bridge**

Sec. 82501. Authorization of National Park Service conveyances.

**TITLE III—OCEANS AND WILDLIFE**

**Subtitle A—Coastal and Great Lakes Resiliency and Restoration**

Sec. 83101. Shovel-Ready Restoration and Resiliency Grant Program.

Sec. 83102. Living Shoreline Grant Program.

**Subtitle B—Wildlife Corridors Conservation Act**

Sec. 83201. Definitions.

**CHAPTER 1—NATIONAL WILDLIFE CORRIDOR SYSTEM ON FEDERAL LAND AND WATER**

Sec. 83211. National wildlife corridors.

Sec. 83212. Administrative designation of national wildlife corridors.

Sec. 83213. Management of national wildlife corridors.

**CHAPTER 2—WILDLIFE CORRIDORS CONSERVATION**

**SUBCHAPTER A—NATIONAL WILDLIFE CORRIDOR SYSTEM ON FEDERAL LAND AND WATER**

Sec. 83311. Collaboration and coordination.  
 Sec. 83312. Effect.

**SUBCHAPTER B—TRIBAL WILDLIFE CORRIDORS**

Sec. 83321. Tribal Wildlife Corridors.  
 Sec. 83322. Protection of Indian Tribes.

**SUBCHAPTER C—WILDLIFE MOVEMENT GRANT PROGRAM ON NON-FEDERAL LAND AND WATER**

Sec. 83331. Wildlife movements grant program.  
 Sec. 83332. National Coordination Committee.  
 Sec. 83333. Regional wildlife movement councils.

**SUBCHAPTER D—NATIONAL WILDLIFE CORRIDORS DATABASE**

Sec. 83341. National wildlife corridors database.

**CHAPTER 3—FUNDING**

Sec. 83401. Wildlife corridors stewardship fund.  
 Sec. 83402. Authorization of appropriations.

**TITLE IV—ENERGY**

**Subtitle A—Establishment of Federal Orphaned Well Remediation Program**

Sec. 84101. Establishment of federal orphaned well remediation program.

Sec. 84102. Federal bonding reform.

**Subtitle B—Surface Mining Control and Reclamation Act Amendments**

Sec. 84201. Abandoned Mine Land Reclamation Fund.  
 Sec. 84202. Emergency Powers.  
 Sec. 84203. Reclamation fee.

**Subtitle C—Revitalizing the Economy of Coal Communities by Leveraging Local Activities and Investing More**

Sec. 84301. Economic revitalization for coal country.

Sec. 84302. Technical and conforming amendments.

Sec. 84303. Minimum State payments.

Sec. 84304. GAO study of use of funds.

Sec. 84305. Payments to certified States not affected.

**Subtitle D—Public Land Renewable Energy Development**

Sec. 84401. Definitions.

Sec. 84402. Land use planning; supplements to programmatic environmental impact statements.

Sec. 84403. Environmental review on covered land.

Sec. 84404. Program to improve renewable energy project permit coordination.

Sec. 84405. Increasing economic certainty.

Sec. 84406. Limited grandfathering.

Sec. 84407. Renewable energy goal.

Sec. 84408. Disposition of revenues.

Sec. 84409. Promoting and enhancing development of geothermal energy.

Sec. 84410. Facilitation of coproduction of geothermal energy on oil and gas leases.

Sec. 84411. Noncompetitive leasing of adjoining areas for development of geothermal resources.

Sec. 84412. Savings clause.

*Subtitle E—Offshore Wind Jobs and Opportunity*

Sec. 84501. Offshore Wind Career Training Grant Program.

*Subtitle F—Community Reclamation Partnerships*

Sec. 84601. Reference.  
Sec. 84602. State memoranda of understanding for certain remediation.  
Sec. 84603. Clarifying State liability for mine drainage projects.  
Sec. 84604. Conforming amendments.

**TITLE V—LABOR STANDARDS**

Sec. 84701. Labor standards.

**DIVISION M—REVENUE PROVISIONS**

Sec. 90001. Short title; etc.

**TITLE I—INFRASTRUCTURE FINANCING**

*Subtitle A—Bond Financing Enhancements*

Sec. 90101. Credit to issuer for certain infrastructure bonds.  
Sec. 90102. Advance refunding bonds.  
Sec. 90103. Permanent modification of small issuer exception to tax-exempt interest expense allocation rules for financial institutions.  
Sec. 90104. Volume cap on private activity bonds.  
Sec. 90105. Modifications to qualified small issue bonds.  
Sec. 90106. Expansion of certain exceptions to the private activity bond rules for first-time farmers.  
Sec. 90107. Exempt facility bonds for zero-emission vehicle infrastructure.  
Sec. 90108. Certain water and sewage facility bonds exempt from volume cap on private activity bonds.  
Sec. 90109. Qualified highway or surface freight transfer facility bonds.

*Subtitle B—School Infrastructure Bonds*

Sec. 90110. Application of Davis-Bacon Act requirements with respect to certain exempt facility bonds.  
Sec. 90111. Restoration of certain qualified tax credit bonds.  
Sec. 90112. School infrastructure bonds.  
Sec. 90113. Annual report on bond program.

*Subtitle C—Other Provisions Related to Infrastructure Financing*

Sec. 90121. Credit for operations and maintenance costs of government-owned broadband.  
Sec. 90122. Treatment of financial guaranty insurance companies as qualifying insurance corporations under passive foreign investment company rules.  
Sec. 90123. Infrastructure grants to improve child care safety.

**TITLE II—NEW MARKETS TAX CREDIT**

Sec. 90201. Improvement and permanent extension of new markets tax credit.

**TITLE III—REHABILITATION TAX CREDIT**

Sec. 90301. Increase in rehabilitation credit.  
Sec. 90302. Increase in the rehabilitation credit for certain small projects.  
Sec. 90303. Modification of definition of substantially rehabilitated.  
Sec. 90304. Temporary extension of period for completing rehabilitation.  
Sec. 90305. Elimination of rehabilitation credit basis adjustment.  
Sec. 90306. Modifications regarding certain tax-exempt use property.  
Sec. 90307. Qualification of rehabilitation expenditures for public school buildings for rehabilitation credit.

**TITLE IV—GREEN ENERGY**

Sec. 90400. Short title.

*Subtitle A—Renewable Electricity and Reducing Carbon Emissions*

Sec. 90401. Extension of credit for electricity produced from certain renewable resources.

Sec. 90402. Extension and modification of energy credit.

Sec. 90403. Extension of credit for carbon oxide sequestration.

Sec. 90404. Elective payment for energy property and electricity produced from certain renewable resources, etc.

Sec. 90405. Extension of energy credit for offshore wind facilities.

Sec. 90406. Green energy publicly traded partnerships.

*Subtitle B—Renewable Fuels*

Sec. 90411. Biodiesel and renewable diesel.

Sec. 90412. Extension of excise tax credits relating to alternative fuels.

Sec. 90413. Extension of second generation biofuel incentives.

*Subtitle C—Green Energy and Efficiency Incentives for Individuals*

Sec. 90421. Extension, increase, and modifications of nonbusiness energy property credit.

Sec. 90422. Residential energy efficient property.

Sec. 90423. Energy efficient commercial buildings deduction.

Sec. 90424. Extension, increase, and modifications of new energy efficient home credit.

Sec. 90425. Modifications to income exclusion for conservation subsidies.

*Subtitle D—Greening the Fleet and Alternative Vehicles*

Sec. 90431. Modification of limitations on new qualified plug-in electric drive motor vehicle credit.

Sec. 90432. Credit for previously-owned qualified plug-in electric drive motor vehicles.

Sec. 90433. Credit for zero-emission heavy vehicles and zero-emission buses.

Sec. 90434. Qualified fuel cell motor vehicles.

Sec. 90435. Alternative fuel refueling property credit.

Sec. 90436. Modification of employer-provided fringe benefits for bicycle commuting.

*Subtitle E—Investment in the Green Workforce*

Sec. 90441. Extension of the advanced energy project credit.

Sec. 90442. Labor costs of installing mechanical insulation property.

Sec. 90443. Labor standards for certain energy jobs.

*Subtitle F—Environmental Justice*

Sec. 90451. Qualified environmental justice program credit.

*Subtitle G—Treasury Report on Data From the Greenhouse Gas Reporting Program*

Sec. 90461. Report on Greenhouse Gas Reporting Program.

**TITLE V—DISASTER AND RESILIENCY**

Sec. 90501. Exclusion of amounts received from state-based catastrophe loss mitigation programs.

Sec. 90502. Repeal of temporary limitation on personal casualty losses.

**TITLE VI—HOUSING**

*Subtitle A—Low-income Housing Tax Credit Improvements*

Sec. 90601. Extension of period for rehabilitation expenditures.

Sec. 90602. Extension of basis expenditure deadline.

Sec. 90603. Tax-exempt bond financing requirement.

Sec. 90604. Minimum credit rate.

Sec. 90605. Increases in State allocations.

Sec. 90606. Increase in credit for certain projects designated to serve extremely low-income households.

Sec. 90607. Inclusion of Indian areas as difficult development areas for purposes of certain buildings.

Sec. 90608. Inclusion of rural areas as difficult development areas.

Sec. 90609. Increase in credit for bond-financed projects designated by housing credit agency.

Sec. 90610. Repeal of qualified contract option.  
Sec. 90611. Prohibition of local approval and contribution requirements.

Sec. 90612. Adjustment of credit to provide relief during COVID-19 outbreak.

Sec. 90613. Credit for low-income housing supportive services.

*Subtitle B—Neighborhood Homes Credit*

Sec. 90621. Neighborhood homes credit.

**TITLE VII—TRIBAL DEVELOPMENT**

Sec. 90701. Treatment of Indian Tribes as States with respect to bond issuance.

Sec. 90702. Treatment of Tribal foundations and charities like charities funded and controlled by other governmental funders and sponsors.  
Sec. 90703. New markets tax credit.

**TITLE VIII—HIGHWAY TRUST FUND AND RELATED TAXES**

Sec. 90801. Extension of Highway Trust Fund expenditure authority.

Sec. 90802. Extension of highway-related taxes.

Sec. 90803. Additional transfers to Highway Trust Fund.

**DIVISION N—RIGHTS FOR TRANSPORTATION SECURITY OFFICERS**

Sec. 91001. Short title.

Sec. 91002. Definitions.

Sec. 91003. Conversion of TSA personnel.

Sec. 91004. Transition rules

Sec. 91005. Consultation requirement.

Sec. 91006. No right to strike.

Sec. 91007. Rule of construction with respect to certain crimes relating to terrorism

Sec. 91008. Report by GAO regarding TSA recruitment.

Sec. 91009. Sense of Congress.

Sec. 91010. Assistance for Federal Air Marshal Service

Sec. 91011. Prohibition on certain social media application.

Sec. 91012. Veterans hiring.

Sec. 91013. Prevention and protection against certain illness.

**DIVISION O—AGRICULTURE INFRASTRUCTURE IMPROVEMENTS**

Sec. 92001. Reforestation Trust Fund.

**DIVISION P—BUDGETARY EFFECTS**

Sec. 93001. Budgetary effects.

**SEC. 3. REFERENCES.**

Except as expressly provided otherwise, any reference to “this Act” contained in any division of this Act shall be treated as referring only to the provisions of that division.

**DIVISION A—FEDERAL SURFACE TRANSPORTATION PROGRAMS FOR FISCAL YEAR 2021**

**SEC. 100. SHORT TITLE.**

This division and division B of this Act may be cited as the “Investing in a New Vision for the Environment and Surface Transportation in America Act” or the “INVEST in America Act”.

**SEC. 101. EXTENSION OF FEDERAL SURFACE TRANSPORTATION PROGRAMS.**

(a) EXTENSION OF FEDERAL SURFACE TRANSPORTATION PROGRAMS.—

(1) IN GENERAL.—Except as otherwise provided in this division, the requirements, authorities, conditions, eligibilities, limitations, and other provisions authorized under the covered laws, which would otherwise expire on or cease to apply after September 30, 2020, are incorporated by reference and shall continue in effect through September 30, 2021.

(2) AUTHORIZATION OF APPROPRIATIONS.—

(A) HIGHWAY TRUST FUND.—

(i) HIGHWAY ACCOUNT.—

(1) IN GENERAL.—Except as provided in subclause (II), there is authorized to be appropriated from the Highway Account for fiscal

year 2021, for each program under the covered laws with respect to which amounts are authorized to be appropriated from such account for fiscal year 2020, an amount equal to the amount authorized for appropriation with respect to the program from such account for fiscal year 2020.

(II) ADMINISTRATIVE EXPENSES.—Notwithstanding any other provision of this division, there is authorized to be appropriated from the Highway Account for fiscal year 2021—

(aa) \$502,897,049 for administrative expenses of the Federal Highway Administration, as described in section 104(a) of title 23, United States Code; and

(bb) \$30,086,000 for grant administrative expenses of the National Highway Traffic Safety Administration, as described in section 4001(a)(6) of the FAST Act (Public Law 114-94).

(ii) MASS TRANSIT ACCOUNT.—There is authorized to be appropriated from the Mass Transit Account for fiscal year 2021, for each program under the covered laws with respect to which amounts are authorized to be appropriated from such account for fiscal year 2020, an amount equal to the amount authorized for appropriation with respect to the program from such account for fiscal year 2020.

(B) GENERAL FUND.—

(i) IN GENERAL.—Except as provided in clause (ii), there is authorized to be appropriated for fiscal year 2021, for each program with respect to which amounts are authorized to be appropriated for fiscal year 2020 from an account other than the Highway Account or the Mass Transit Account under the titles described in subsection (b)(1), an amount not less than the amount authorized for appropriation with respect to the program under such titles for fiscal year 2020.

(ii) ADMINISTRATIVE EXPENSES.—Notwithstanding any other provision of this division, there is authorized to be appropriated from the general fund of the Treasury for fiscal year 2021 \$140,016,543 for administrative expenses of the Federal Transit Administration.

(3) USE OF FUNDS.—Except as otherwise provided in this division, amounts authorized to be appropriated for fiscal year 2021 with respect to a program under paragraph (2) shall be distributed, administered, limited, and made available for obligation in the same manner as amounts authorized to be appropriated with respect to the program for fiscal year 2020 under the covered laws.

(4) OBLIGATION LIMITATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), a program for which amounts are authorized to be appropriated under paragraph (2)(A) shall be subject to a limitation on obligations for fiscal year 2021 in the same amount and in the same manner as the limitation applicable with respect to the program for fiscal year 2020 under the Department of Transportation Appropriations Act, 2020 (Public Law 116-94), as in effect on December 20, 2019.

(B) FEDERAL-AID HIGHWAY AND HIGHWAY SAFETY CONSTRUCTION PROGRAMS.—

(i) IN GENERAL.—Notwithstanding any other provision of this division, section 1102 of the FAST Act (Public Law 114-94), or the Department of Transportation Appropriations Act, 2020 (Public Law 116-94), for fiscal year 2021, the obligations for Federal-aid highway and highway safety construction programs shall not exceed \$46,387,191,360.

(ii) LIMITATION ON FEDERAL HIGHWAY ADMINISTRATION ADMINISTRATIVE EXPENSES.—Notwithstanding any other provision of this division, of the amount described in clause (i), for fiscal year 2021 an amount not to exceed \$478,897,049, together with advances and reimbursements received by the Federal Highway Administration, shall be obligated for necessary expenses for administration and operation of the Federal Highway Administration.

(b) DEFINITIONS.—In this section, the term “covered laws” means the following:

(1) Titles I, III, IV, V, and VI of division A of the FAST Act (Public Law 114-94).

(2) Division A, division B, subtitle A of title I and title II of division C, and division E of MAP-21 (Public Law 112-141).

(3) Titles I, II, and III of the SAFETEA-LU Technical Corrections Act of 2008 (Public Law 110-244).

(4) Titles I, II, III, IV, V, and VI of SAFETEA-LU (Public Law 109-59).

(5) Titles I, II, III, IV, and V of the Transportation Equity Act for the 21st Century (Public Law 105-178).

(6) Titles I, III, and IV of the National Highway System Designation Act of 1995 (Public Law 104-59).

(7) Title I, part A of title II, title III, title IV, title V, and title VI of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102-240).

(8) Title 23, United States Code.

(9) Sections 116, 117, 330, and 5505 and chapters 53, 139, 303, 311, 313, 701, and 702 of title 49, United States Code.

#### SEC. 102. FEDERAL HIGHWAY ADMINISTRATION.

(a) ADDITIONAL AMOUNTS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—

(A) IN GENERAL.—In addition to amounts authorized under section 101, there is authorized to be appropriated from the Highway Account for fiscal year 2021, for activities under this section, \$14,742,808,640.

(B) CONTRACT AUTHORITY.—Amounts authorized to be appropriated under subparagraph (A) shall be available for obligation as if apportioned under chapter 1 of title 23, United States Code.

(2) OBLIGATION CEILING.—

(A) IN GENERAL.—Notwithstanding any other provision of law, for fiscal year 2021, obligations for activities authorized under paragraph (1) shall not exceed \$14,742,808,640.

(B) DISTRIBUTION OF OBLIGATION AUTHORITY.—

(i) IN GENERAL.—Of the obligation authority provided under subparagraph (A), the Secretary shall make available to States, Tribes, Puerto Rico, the territories, and Federal land management agencies, during the period of fiscal year 2021, amounts of obligation authority equal to the amounts described in subparagraphs (A) through (E) of paragraph (3), respectively.

(ii) FURTHER DISTRIBUTION.—Each State, each Tribe, Puerto Rico, each territory, and each Federal land management agency receiving funds under subparagraphs (A) through (E) of paragraph (3), respectively, shall receive an amount of obligation authority equal to the funds that it receives under any of such subparagraphs.

(C) REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.—

(i) IN GENERAL.—Notwithstanding subparagraph (B), the Secretary shall, after August 1 of fiscal year 2021—

(I) revise a distribution of the obligation authority made available under subparagraph (B) if an amount distributed cannot be obligated during that fiscal year; and

(II) redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under sections 144 (as in effect on the day before the date of enactment of MAP-21 (Public Law 112-141)) and 104 of title 23, United States Code.

(ii) ADMINISTRATION.—The Secretary shall administer a redistribution under clause (i) of obligation authority provided under subparagraph (B) in a similar manner as the standard August redistribution.

(iii) USE OF OBLIGATION AUTHORITY.—A State may use obligation authority that it receives pursuant to this subparagraph in the same manner that it uses obligation authority that it receives as part of the standard August redistribution.

(3) DISTRIBUTION OF FUNDS.—Amounts authorized to be appropriated for fiscal year 2021

under paragraph (1) shall be distributed as follows:

(A) \$14,384,629,710 to the States.

(B) \$167,481,814 to Tribes.

(C) \$52,400,251 to Puerto Rico.

(D) \$13,929,181 to the territories.

(E) \$124,367,684 to Federal land management agencies.

(4) STATE FUNDS.—

(A) DISTRIBUTION.—

(i) IN GENERAL.—Amounts made available under paragraph (3)(A) shall be distributed among the States in the same ratio as total State apportionments under section 104(c)(1) of title 23, United States Code, in fiscal year 2020.

(ii) SUBALLOCATION.—

(I) IN GENERAL.—Amounts distributed among the States under clause (i) shall be suballocated within the State to an area described in subclause (II) in the proportion that—

(aa) the total amount of funds suballocated to such area of the State as described in such subclause for fiscal year 2020; bears to

(bb) the total amount of funds apportioned to the State for the Federal-aid highway program under section 104 of title 23, United States Code, for fiscal year 2020.

(II) AREAS DESCRIBED.—The areas described in this subclause are—

(aa) urbanized areas of the State with an urbanized area population of over 200,000;

(bb) areas of the State other than urban areas with a population greater than 5,000; and

(cc) other areas of the State.

(B) TREATMENT.—Except as otherwise provided in this paragraph, amounts made available under paragraph (3)(A) shall be administered as if apportioned under chapter 1 of title 23, United States Code.

(C) USE OF FUNDS.—Amounts made available under paragraph (3)(A) may be obligated for—

(i) eligible projects described in section 133(b) of title 23, United States Code, subject to section 133(c) of such title; and

(ii) administrative expenses, including salaries and benefits, of—

(I) the State department of transportation;

(II) a local transportation agency; or

(III) a metropolitan planning organization.

(5) TRIBAL FUNDS.—

(A) TREATMENT.—

(i) IN GENERAL.—Except as otherwise provided in this paragraph, amounts made available under paragraph (3)(B) shall be administered as if made available under section 202 of title 23, United States Code.

(ii) NONAPPLICABILITY OF CERTAIN PROVISIONS OF LAW.—Subsections (a)(6), (c), (d), and (e) of section 202 of title 23, United States Code, shall not apply to amounts made available under paragraph (3)(B).

(B) USE OF FUNDS.—Amounts made available under paragraph (3)(B) may be obligated for—

(i) activities eligible under section 202(a)(1) of title 23, United States Code; and

(ii) transportation-related administrative expenses, including salaries and benefits, of the Tribe.

(6) FUNDS FOR PUERTO RICO AND THE TERRITORIES.—

(A) TREATMENT.—

(i) IN GENERAL.—Except as otherwise provided in this paragraph, amounts made available under paragraphs (3)(C) and (3)(D) shall be administered as if allocated under sections 165(b) and 165(c), respectively, of title 23, United States Code.

(ii) NONAPPLICABILITY OF CERTAIN PROVISIONS OF LAW.—Section 165(b)(2) of title 23, United States Code, shall not apply to amounts made available to Puerto Rico under paragraph (3)(C).

(B) USE OF FUNDS.—

(i) PUERTO RICO.—Amounts made available to Puerto Rico under paragraph (3)(C) may be obligated for—

(I) activities eligible under chapter 1 of title 23, United States Code; and

(II) transportation related administrative expenses, including salaries and benefits.

(ii) TERRITORIES.—Amounts made available to a territory under paragraph (3)(D) may be obligated for—

(I) activities eligible under section 165(c)(6) of title 23, United States Code, subject to section 165(c)(7) of such title; and

(II) transportation-related administrative expenses, including salaries and benefits.

(7) FEDERAL LAND MANAGEMENT AGENCY FUNDS.—

(A) DISTRIBUTION.—Amounts made available under paragraph (3)(E) shall be distributed among the Federal land management agencies as follows:

(i) \$99,494,147 for the National Park Service.

(ii) \$9,949,415 for the United States Fish and Wildlife Service.

(iii) \$6,301,296 for the United States Forest Service.

(iv) \$8,622,826 to be allocated to the applicable Federal land management agencies as described in section 203(b) of title 23, United States Code.

(B) TREATMENT.—Amounts made available under paragraph (3)(E) shall be administered as if made available under section 203 of title 23, United States Code.

(8) DISADVANTAGED BUSINESS ENTERPRISES.—Section 1101(b) of the FAST Act (Public Law 114–94) shall apply to additional amounts made available under paragraph (1).

(b) SPECIAL RULES FOR FISCAL YEAR 2021.—

(1) SUBALLOCATED AMOUNTS.—

(A) USE OF FUNDS.—Amounts authorized to be appropriated for fiscal year 2021 with respect to a program under section 101(a)(2)(A) that are suballocated pursuant to section 133(d)(1)(A) of title 23, United States Code, may be obligated for—

(i) eligible projects as described in section 133(b) of title 23, United States Code; or

(ii) administrative expenses, including salaries and benefits, of—

(I) a local transportation agency; or

(II) a metropolitan planning organization.

(B) OBLIGATION AUTHORITY.—

(i) IN GENERAL.—A State that is required to obligate in an urbanized area with an urbanized area population of over 200,000 individuals under section 133(d) of title 23, United States Code, funds apportioned to the State under section 104(b)(2) of such title shall make available during the period of fiscal years 2016 through 2021 an amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction programs for use in the area that is equal to the amount obtained by multiplying—

(I) the aggregate amount of funds that the State is required to obligate in the area under section 133(d) of title 23, United States Code, during the period; and

(II) the ratio that—

(aa) the aggregate amount of obligation authority distributed to the State for Federal-aid highways and highway safety construction programs during the period; bears to

(bb) the total of the sums apportioned to the State for Federal-aid highways and highway safety construction programs (excluding sums not subject to an obligation limitation) during the period.

(ii) JOINT RESPONSIBILITY.—Each State, each affected metropolitan planning organization, and the Secretary shall jointly ensure compliance with clause (i).

(2) FERRY BOAT PROGRAM.—Amounts authorized to be appropriated for fiscal year 2021 with respect to a program under section 101(a)(2)(A) that are made available for the construction of ferry boats and ferry terminal facilities under section 147 of title 23, United States Code, may be obligated—

(A) in accordance with sections 129(c) and 147 of title 23, United States Code;

(B) for administrative expenses, including salaries and benefits, of a ferry boat operator or

ferry terminal facility operator eligible for Federal participation under section 129(c) of title 23, United States Code; and

(C) for operating costs associated with a ferry boat or ferry terminal facility eligible for Federal participation under section 129(c) of title 23, United States Code.

(3) NATIONALLY SIGNIFICANT FREIGHT AND HIGHWAY PROJECTS.—In fiscal year 2021, the program carried out under section 117 of title 23, United States Code, shall, in addition to any otherwise applicable requirements, be subject to the following provisions:

(A) MULTIMODAL PROJECTS.—Notwithstanding subsection (d)(2)(A) of such section, the limitation for projects described in such subsection shall be \$600,000,000 for fiscal years 2016 through 2021.

(B) ADDITIONAL CONSIDERATIONS.—Notwithstanding subsection (h)(2) of such section, the Secretary shall not consider the utilization of non-Federal contributions.

(C) EVALUATION AND RATING.—To evaluate applications for funding under such section, the Secretary shall—

(i) determine whether a project is eligible for a grant under such section;

(ii) evaluate, through a methodology that is discernible and transparent to the public, how each application addresses the merit criteria established by the Secretary;

(iii) assign a quality rating for each merit criteria for each application based on the evaluation under clause (ii);

(iv) ensure that applications receive final consideration by the Secretary to receive an award under such section only on the basis of such quality ratings and that the Secretary gives final consideration only to applications that meet the minimally acceptable level for each of the merit criteria; and

(v) award grants only to projects rated highly under the evaluation and rating process.

(D) PUBLICATION AND METHODOLOGY.—In any published notice of funding opportunity for a grant under such section, the Secretary shall include detailed information on the rating methodology and merit criteria to be used to evaluate applications.

(E) REPEAT APPLICATIONS.—

(i) BRIEFING.—The Secretary shall provide to each applicant that applied for, but did not receive, funding under such section in fiscal year 2019 or 2020, at the request of the applicant, the opportunity to receive a briefing to—

(I) explain any reasons the application was not selected for funding; and

(II) advise the applicant on how to improve the application for resubmission in fiscal year 2021 under the application criteria described in this paragraph.

(ii) SUPPLEMENTARY APPLICATION.—

(I) IN GENERAL.—An applicant for funding under such section may elect to resubmit an application from a previous solicitation with a supplementary appendix that describes how the proposed project meets the requirements of section 117 of title 23, United States Code, and this paragraph.

(II) REQUIREMENTS.—The Secretary shall ensure that applications submitted under subclause (I), including the supplementary appendix, are evaluated based on such requirements.

(F) CONGRESSIONAL NOTIFICATION.—A notification submitted pursuant to subsection (m) of such section shall include—

(i) a summary of each application submitted and, at the request of either Committee, a copy of any application submitted;

(ii) a list of any projects the Secretary determined were not eligible for funding;

(iii) a description of the specific criteria used for each evaluation, including the quality rating assigned for each eligible application submitted;

(iv) a list of all projects that advanced to the Secretary for consideration; and

(v) a detailed justification of the basis for each award proposed to be selected.

(c) FEDERAL SHARE.—

(1) IN GENERAL.—Except as provided in paragraph (3) and notwithstanding section 120 of title 23, United States Code, or any other provision of this division, the Federal share associated with funds described in paragraph (2) that are obligated during fiscal year 2021 may be up to 100 percent.

(2) FUNDS DESCRIBED.—The funds described in this paragraph are funds made available for the implementation or execution of Federal-aid highway and highway safety construction programs authorized under title 23 or 49, United States Code, the FAST Act (Public Law 114–94), or this division.

(3) EXCEPTIONS.—Paragraph (1) shall not apply to amounts obligated under section 115 or 117 of title 23, United States Code, or chapter 6 of such title.

(d) ADMINISTRATIVE EXPENSES.—

(1) SELF-CERTIFICATION AND AUDIT.—

(A) IN GENERAL.—Prior to the obligation of funds for administrative expenses pursuant to paragraph (4)(C)(ii), (5)(B)(ii), (6)(B)(i)(II), or (6)(B)(ii)(II) of subsection (a) or paragraphs (1)(A)(ii) and (2)(B) of subsection (b), a State, a Tribe, Puerto Rico, or a territory, as applicable, shall certify to the Secretary that such administrative expenses meet the requirements of such paragraphs, as applicable.

(B) AUDIT.—The Secretary may conduct an audit to review obligations of funds and liquidation of such obligations for eligible administrative expenses described under subparagraph (A).

(2) PLANNING.—Notwithstanding any other provision of law, administrative expenses described in paragraph (1)(A) shall not be required to be included in a metropolitan transportation plan, a long-range statewide transportation plan, a transportation improvement program, or a statewide transportation improvement program under sections 134 or 135 of title 23, United States Code, or chapter 53 of title 49, United States Code, as applicable.

(e) DEFINITIONS.—In this section, the following definitions apply:

(1) STANDARD AUGUST REDISTRIBUTION.—The term “standard August redistribution” means the redistribution of obligation authority that the Secretary is directed to administer under—

(A) section 1102(d) of the FAST Act (Public Law 114–94); or

(B) any Act making appropriations for the Department of Transportation for fiscal year 2021.

(2) STATE.—The term “State” means the 50 States and the District of Columbia.

(3) TERRITORY.—The term “territory” means any of the following territories of the United States:

(A) American Samoa.

(B) The Commonwealth of the Northern Mariana Islands.

(C) Guam.

(D) The United States Virgin Islands.

(4) URBAN AREA; URBANIZED AREA.—The terms “urban area” and “urbanized area” have the meanings given such terms in section 101 of title 23, United States Code.

#### SEC. 103. FEDERAL TRANSIT ADMINISTRATION.

(a) ADDITIONAL AMOUNTS.—

(1) AUTHORIZATION OF APPROPRIATIONS FROM MASS TRANSIT ACCOUNT.—

(A) IN GENERAL.—In addition to amounts authorized under section 101, there is authorized to be appropriated from the Mass Transit Account for fiscal year 2021, for activities under this section, \$5,794,851,538.

(B) APPORTIONMENT.—Amounts authorized under subparagraph (A) shall be apportioned in accordance with section 5310, section 5311 (other than subsections (b)(3), (c)(1)(A), and (c)(2) of such section), section 5336 (other than subsection (h)(4) of such section), section 5337, and section 5340 of title 49, United States Code, except that funds apportioned under section 5337 of such title shall be added to funds apportioned

under section 5307 of such title for administration under section 5307 of such title.

(C) **ALLOCATION.**—The Secretary shall allocate the amounts authorized to be appropriated to sections 5307, 5310, 5311, 5337, and 5340 of title 49, United States Code, among such sections in the same ratio as funds are provided in the fiscal year 2020 appropriations.

(D) **OBLIGATION LIMITATION.**—Notwithstanding any other provision of law, for fiscal year 2021, obligations for activities authorized under this paragraph shall not exceed \$5,794,851,538.

(2) **AUTHORIZATION OF APPROPRIATIONS FROM GENERAL FUND.**—In addition to amounts authorized under section 101(a)(1)(B), there is authorized to be appropriated from the general fund of the Treasury—

(A) \$958,000,000 to carry out section 5309 of title 49, United States Code; and

(B) such sums as may be necessary to be made available as described in subsection (c) and that such sums shall be designated by the Congress as being for an emergency requirement pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985.

(3) **DISADVANTAGED BUSINESS ENTERPRISES.**—Section 1101(b) of the FAST Act (Public Law 114–94) shall apply to additional amounts made available under this subsection.

(b) **SPECIAL RULES FOR FISCAL YEAR 2021.**—

(1) **USE OF FUNDS.**—Notwithstanding 5307(a)(1) of title 49, United States Code, amounts made available under subsection (a)(1)(A) may be obligated for—

(A) operating expenses, including, beginning on January 20, 2020—

(i) reimbursement for operating costs to maintain service and offset lost revenue, including the purchase of personal protective equipment; and

(ii) paying the administrative leave of operations personnel due to reductions in service; and

(B) any other activity eligible under section 5307, 5310, 5311, or 5337 of title 49, United States Code.

(2) **CONDITIONS.**—Recipients use of funds under paragraph (1) shall—

(A) not require that operating expenses described in paragraph (1)(A) be included in a metropolitan transportation plan, long-range statewide transportation plan, a transportation improvement program, or a statewide transportation improvement program;

(B) meet the requirements of section 5333 of title 49, United States Code; and

(C) to the maximum extent possible, be directed to payroll and public transit service, unless the recipient certifies to the Secretary that such recipient has not furloughed any employees.

(3) **OVERSIGHT.**—

(A) Of the amounts made available to carry out this section, the percentages available for oversight in section 5338(f)(1) of title 49, United States Code, shall apply to the allocations of funds in subsection (a)(1)(C).

(B) **USE OF FUNDS.**—Amounts made available under subsection (a)(1)(A) shall be available for administrative expenses and program management oversight as authorized under sections 5334 and 5338(f)(2) of title 49, United States Code.

(4) **ADMINISTRATION OF GRANTS.**—Amounts made available under subsection (a)(1)(A) shall be administered, at the option of the recipient, as grants provided under the CARES Act (Public Law 116–136) are administered.

(c) **CIG COVID–19 EMERGENCY RELIEF PROGRAM.**—

(1) **IN GENERAL.**—From amounts made available under subsection (a)(2)(B) and notwithstanding section 5309(k)(2)(C)(ii), section 5309(a)(7)(B), or section 5309(l)(1)(B)(ii) of title 49, United States Code, at the request of a project sponsor, the Secretary shall use such sums as may be necessary to provide an additional 30 percent of total project costs for any project under—

(A) 5309(d) of title 49, United States Code, that has been approved for advancement into the engineering phase;

(B) 5309(e) of title 49, United States Code, that has entered into the project development phase or approved for advancement into the engineering phase;

(C) subsection (d) or (e) of section 5309 of title 49, United States Code, that has a full funding grant agreement entered into under either such subsection after January 1, 2017; and

(D) section 5309(h) of title 49, United States Code, that the Federal Transit Administration has a small starts grant award or agreement entered into after January 1, 2017, or that has been recommended by the Administration for an allocation of capital investment funds that were appropriated in fiscal year 2018, 2019, or 2020.

(2) **PROJECT ELIGIBILITY.**—From amounts made available under subsection (a)(2)(B), the Secretary shall use such sums as may be necessary for projects under section 5309 of title 49, United States Code, that—

(A) are not eligible for funds made available under paragraph (1); and

(B) have remaining scheduled Federal funds to be appropriated under a full funding grant agreement under such section.

(3) **DEFERRED LOCAL SHARE.**—The Secretary shall allow a project sponsor to defer payment of the local share for any project described in paragraphs (1) and (2).

(4) **TOTAL PROJECT COST.**—In this subsection, the term “total project cost” means the most recent total project cost stipulated in—

(A) the full funding grant agreement;

(B) the approval into project engineering;

(C) the project rating for a project not yet approved into project engineering;

(D) the small starts grant or grant agreement; or

(E) the project rating for a small starts project that has not yet been awarded a grant or grant agreement.

(5) **FEDERAL SHARE.**—The Federal share of the costs of a project under this subsection may not exceed 80 percent.

(6) **APPLICATION OF LAW.**—For purposes of paragraph (1), the Secretary shall apply section 7001(b) of this Act when providing the additional 30 percent of total project costs to any project that meets the criteria in such section.

(d) **FEDERAL SHARE.**—

(1) **IN GENERAL.**—Notwithstanding chapter 53 of title 49, United States Code, or any other provision of this division, the Federal share associated with funds described in paragraph (2) that are obligated during fiscal year 2021 may be up to 100 percent.

(2) **FUNDS DESCRIBED.**—The funds described in this paragraph are funds made available for the implementation of transit programs authorized by chapter 53 of title 49, United States Code, the FAST Act (Public Law 114–94), or this division, excluding funds made available to projects under section 5309 of title 49, United States Code.

(e) **CONDITION FOR APPORTIONMENT.**—No funds authorized in this division or any other Act may be used to adjust Mass Transit Account apportionments or withhold funds from Mass Transit Account apportionments pursuant to section 9503(e)(4) of the Internal Revenue Code of 1986 in fiscal year 2021.

#### **SEC. 104. NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION.**

(a) **SPECIAL FUNDING FOR FISCAL YEAR 2021.**—

(1) **IN GENERAL.**—

(A) **AUTHORIZATION OF APPROPRIATIONS.**—In addition to amounts authorized under section 101, there is authorized to be appropriated from the Highway Account for fiscal year 2021, for activities under this subsection, \$244,514,000.

(B) **CONTRACT AUTHORITY.**—Amounts authorized under subparagraph (A) shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code.

(C) **OBLIGATION LIMITATION.**—Notwithstanding any other provision of law, for fiscal year 2021, obligations for activities authorized under this paragraph and obligations for activities authorized under section 101(a)(2)(A)(i)(II)(bb) that exceed amounts authorized under section 4001(a)(6) of the FAST Act (Public Law 114–94) shall not exceed \$247,783,000.

(2) **DISTRIBUTION OF FUNDS.**—Amounts authorized to be appropriated for fiscal year 2021 under paragraph (1) shall be distributed as follows:

(A) \$105,000,000 for carrying out section 402 of title 23, United States Code.

(B) \$15,312,000 for carrying out section 403 of title 23, United States Code.

(C) \$19,202,000 for carrying out section 404 of title 23, United States Code.

(D) \$105,000,000 for carrying out section 405 of title 23, United States Code.

(b) **SPECIAL RULES FOR FISCAL YEAR 2021.**—

(1) **FEDERAL SHARE.**—Notwithstanding sections 120, 405(b)(2), 405(c)(2), 405(d)(2) and 405(h)(2) of title 23, United States Code, the Federal share of activities for fiscal year 2021 carried out under chapter 4 of title 23, United States Code and section 1906 of SAFETEA–LU (23 U.S.C. 402 note) shall be 100 percent.

(2) **PERIOD OF AVAILABILITY.**—Notwithstanding section 118(b) of title 23, United States Code, funds apportioned or allocated to a State in fiscal years 2017 and 2018 under sections 402 and 405 of title 23, United States Code, and section 1906 of SAFETEA–LU (23 U.S.C. 402 note), shall remain available for obligation in that State for a period of 4 years after the last day of the fiscal year for which the funds are authorized. Notwithstanding any other provision of law, this paragraph shall apply as if such paragraph was enacted on September 30, 2020.

(3) **MAINTENANCE OF EFFORT.**—Notwithstanding section 405(a)(9) of title 23, United States Code, the Secretary may waive the maintenance of effort requirements under such section for fiscal year 2021 for a State, if the Secretary determines appropriate.

(4) **IN-VEHICLE ALCOHOL DETECTION DEVICE RESEARCH.**—In carrying out subsection (h) of section 403 of title 23, United States Code, the Secretary may obligate from funds made available to carry out such section for fiscal year 2021 not more than \$5,312,000 to conduct the research described in paragraph (1) of such subsection.

(5) **COOPERATIVE RESEARCH AND EVALUATION.**—Notwithstanding the apportionment formula set forth in section 402(c)(2) of title 23, United States Code, and section 403(f)(1) of title 23, United States Code, \$2,500,000 of the total amount available for apportionment to the States for highway safety programs under section 402(c)(2) of title 23, United States Code, for each of fiscal years 2016 through 2021, shall be available for expenditure by the Secretary, acting through the Administrator of the National Highway Traffic Safety Administration, for a cooperative research and evaluation program to research and evaluate priority highway safety countermeasures. This paragraph shall apply as if such paragraph was enacted on October 1, 2015.

#### **SEC. 105. FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION.**

(a) **SPECIAL FUNDING FOR FISCAL YEAR 2021.**—

(1) **AUTHORIZATION OF APPROPRIATIONS.**—

(A) **IN GENERAL.**—In addition to amounts authorized under section 101, there is authorized to be appropriated from the Highway Account for fiscal year 2021, for activities under this subsection, \$209,900,000.

(B) **OBLIGATION LIMITATION.**—Notwithstanding any other provision of law, for fiscal year 2021, obligations for activities authorized under this paragraph shall not exceed \$209,900,000.

(2) **DISTRIBUTION OF FUNDS.**—Amounts authorized to be appropriated for fiscal year 2021 under paragraph (1) shall be distributed as follows:

(A) Subject to section 31104(c) of title 49, United States Code—

(i) \$80,512,000 for carrying out section 31102 (except subsection (l)) of title 49, United States Code;

(ii) \$14,208,000 for carrying out section 31102(l) of title 49, United States Code; and

(iii) \$23,680,000 for carrying out section 31313 of title 49, United States Code.

(B) \$91,500,000 for carrying out section 31110 of title 49, United States Code.

(3) TREATMENT OF FUNDS.—Except as provided in subsection (b), amounts made available under this section shall be made available for obligation and administered as if made available under chapter 311 of title 49, United States Code.

(b) SPECIAL RULES FOR FISCAL YEAR 2021.—

(1) FINANCIAL ASSISTANCE AGREEMENTS FEDERAL SHARE.—Notwithstanding chapter 311 of title 49, United States Code, or any regulations adopted pursuant to such chapter, for the duration of fiscal year 2021 with respect to all financial assistance made available under subsection (a) and section 101, the Secretary of Transportation may—

(A) reimburse recipients under section 31104(b)(2) of title 49, United States Code, in an amount that is 100 percent of the costs described in such section; and

(B) waive the maintenance of effort requirement under 31102(f) of title 49, United States Code, for all States without requiring States to request a waiver.

(2) FINANCIAL ASSISTANCE AGREEMENTS PERIOD OF AVAILABILITY.—Notwithstanding section 31104(f) of title 49, United States Code, the Secretary shall extend the periods of availability described in such section by 1 year.

(3) ADMINISTRATIVE EXPENSES.—The Administrator of the Federal Motor Carrier Safety Administration shall ensure that funds made available under subsection (a)(2)(B) are used, to the maximum extent practicable, to support—

(A) the acceleration of planned investments to modernize the Administration's information technology and information management systems;

(B) the completion of outstanding statutory mandates required by MAP-21 (112-141) and the FAST Act (114-94); and

(C) a Large Truck Crash Causal Factors Study of the Administration.

#### SEC. 106. DEFINITIONS.

In this division, the following definitions apply:

(1) HIGHWAY ACCOUNT.—The term “Highway Account” means the portion of the Highway Trust Fund that is not the Mass Transit Account.

(2) MASS TRANSIT ACCOUNT.—The term “Mass Transit Account” means the portion of the Highway Trust Fund established under section 9503(e)(1) of the Internal Revenue Code of 1986.

(3) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

#### DIVISION B—SURFACE TRANSPORTATION

##### SEC. 1001. APPLICABILITY OF DIVISION.

(a) APPLICABILITY.—This division, including the amendments made by this division, applies beginning on October 1, 2021.

(b) REFERENCE TO DATE OF ENACTMENT.—In this division and the amendments made by this division, any reference to—

(1) the date of enactment of this Act;

(2) the date of enactment of a provision of this division;

(3) the date of enactment of a provision added to law by an amendment made by this division; or

(4) the date of enactment of the INVEST in America Act added to law by an amendment made by this division,

shall be treated as a reference to October 1, 2021.

(c) EXCEPTION FOR IMMEDIATE APPLICATION.—Subsections (a) and (b) shall not apply to section 1105 and the amendments made by such section.

#### TITLE I—FEDERAL-AID HIGHWAYS

##### Subtitle A—Authorizations and Program Conditions

##### SEC. 1101. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) FEDERAL-AID HIGHWAY PROGRAM.—For the national highway performance program under section 119 of title 23, United States Code, the pre-disaster mitigation program under section 124 of such title, the railway crossings program under section 130 of such title, the surface transportation program under section 133 of such title, the highway safety improvement program under section 148 of such title, the congestion mitigation and air quality improvement program under section 149 of such title, the national highway freight program under section 167 of such title, the carbon pollution reduction program under section 171 of such title, and metropolitan planning under section 134 of such title—

(A) \$55,022,048,429 for fiscal year 2022;

(B) \$55,980,646,776 for fiscal year 2023;

(C) \$57,095,359,712 for fiscal year 2024; and

(D) \$58,118,666,186 for fiscal year 2025.

(2) TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM.—For credit assistance under the transportation infrastructure finance and innovation program under chapter 6 of title 23, United States Code, \$300,000,000 for each of fiscal years 2022 through 2025.

(3) CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.—For construction of ferry boats and ferry terminal facilities under section 147 of title 23, United States Code, \$120,000,000 for each of fiscal years 2022 through 2025.

(4) FEDERAL LANDS AND TRIBAL TRANSPORTATION PROGRAMS.—

(A) TRIBAL TRANSPORTATION PROGRAM.—For the tribal transportation program under section 202 of title 23, United States Code, \$800,000,000 for each of fiscal years 2022 through 2025.

(B) FEDERAL LANDS TRANSPORTATION PROGRAM.—

(i) IN GENERAL.—For the Federal lands transportation program under section 203 of title 23, United States Code, \$550,000,000 for each of fiscal years 2022 through 2025.

(ii) ALLOCATION.—Of the amount made available for a fiscal year under clause (i)—

(I) the amount for the National Park Service is \$400,000,000 for each of fiscal years 2022 through 2025;

(II) the amount for the United States Fish and Wildlife Service is \$50,000,000 for each of fiscal years 2022 through 2025; and

(III) the amount for the United States Forest Service is \$50,000,000 for each of fiscal years 2022 through 2025.

(C) FEDERAL LANDS ACCESS PROGRAM.—For the Federal lands access program under section 204 of title 23, United States Code, \$345,000,000 for each of fiscal years 2022 through 2025.

(D) FEDERAL LANDS AND TRIBAL MAJOR PROJECTS GRANTS.—To carry out section 208 of title 23, United States Code, \$400,000,000 for each of fiscal years 2022 through 2025.

(5) TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.—For the territorial and Puerto Rico highway program under section 165 of title 23, United States Code, \$310,000,000 for each of fiscal years 2022 through 2025.

(6) PROJECTS OF NATIONAL AND REGIONAL SIGNIFICANCE.—For projects of national and regional significance under section 117 of title 23, United States Code—

(A) \$2,200,000,000 for fiscal year 2022;

(B) \$2,200,000,000 for fiscal year 2023;

(C) \$2,300,000,000 for fiscal year 2024; and

(D) \$2,350,000,000 for fiscal year 2025.

(7) COMMUNITY TRANSPORTATION INVESTMENT GRANTS.—To carry out section 173 of title 23, United States Code, \$600,000,000 for each of fiscal years 2022 through 2025.

(8) ELECTRIC VEHICLE CHARGING, NATURAL GAS FUELING, PROPANE FUELING, AND HYDROGEN FUELING INFRASTRUCTURE GRANTS.—To carry out section 151(f) of title 23, United States Code, \$350,000,000 for each of fiscal years 2022 through 2025.

(9) COMMUNITY CLIMATE INNOVATION GRANTS.—To carry out section 172 of title 23, United States Code, \$250,000,000 for each of fiscal years 2022 through 2025.

(b) ADDITIONAL PROGRAMS.—

(1) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(A) GRIDLOCK REDUCTION GRANT PROGRAM.—To carry out section 1306 of this Act, \$250,000,000 for fiscal year 2022.

(B) REBUILD RURAL GRANT PROGRAM.—To carry out section 1307 of this Act, \$250,000,000 for fiscal year 2022.

(C) PARKING FOR COMMERCIAL MOTOR VEHICLES.—To carry out section 1308 of this Act, \$250,000,000 for fiscal year 2023.

(D) ACTIVE TRANSPORTATION CONNECTIVITY GRANT PROGRAM.—To carry out section 1309 of this Act, \$250,000,000 for fiscal year 2024.

(E) METRO PERFORMANCE PROGRAM.—To carry out section 1305 of this Act, \$250,000,000 for each of fiscal years 2023 through 2025.

(2) TREATMENT OF FUNDS.—Amounts made available under subparagraphs (B) through (D) of paragraph (1) shall be administered as if apportioned under chapter 1 of title 23, United States Code.

(c) DISADVANTAGED BUSINESS ENTERPRISES.—

(1) FINDINGS.—Congress finds that—

(A) despite the real improvements caused by the disadvantaged business enterprise program, minority- and women-owned businesses across the country continue to confront serious and significant obstacles to success caused by race and gender discrimination in the federally assisted surface transportation market and related markets across the United States;

(B) the continuing race and gender discrimination described in subparagraph (A) merits the continuation of the disadvantaged business enterprise program;

(C) recently, the disparities caused by discrimination against African American, Hispanic American, Asian American, Native American, and women business owners have been further exacerbated by the coronavirus pandemic and its disproportionate effects on minority- and women-owned businesses across the nation;

(D) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and other investigative activities, scientific reports, reports issued by public and private agencies at every level of government, news reports, academic publications, reports of discrimination by organizations and individuals, and discrimination lawsuits, which continue to demonstrate that race- and gender-neutral efforts alone are insufficient to address the problem;

(E) the testimony and documentation described in subparagraph (D) demonstrate that discrimination across the United States poses an injurious and enduring barrier to full and fair participation in surface transportation-related businesses of women business owners and minority business owners and has negatively affected firm formation, development and success in many aspects of surface transportation-related business in the public and private markets; and

(F) the testimony and documentation described in subparagraph (D) provide a clear picture of the inequality caused by discrimination that continues to plague our nation and a strong basis that there is a compelling need for the continuation of the disadvantaged business enterprise program to address race and gender discrimination in surface transportation-related business.

(2) **DEFINITIONS.**—In this subsection, the following definitions apply:

(A) **SMALL BUSINESS CONCERN.**—The term “small business concern” (as the term is used in section 3 of the Small Business Act (15 U.S.C. 632)):

(B) **SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.**—The term “socially and economically disadvantaged individuals” has the meaning given the term in section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations issued pursuant to that Act, except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(3) **AMOUNTS FOR SMALL BUSINESS CONCERNS.**—Except to the extent that the Secretary of Transportation determines otherwise, not less than 10 percent of the amounts made available for any program under titles I, II, V, and VII of this division and section 403 of title 23, United States Code, shall be expended through small business concerns owned and controlled by socially and economically disadvantaged individuals.

(4) **ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.**—Each State shall annually—

(A) survey and compile a list of the small business concerns referred to in paragraph (3) in the State, including the location of the small business concerns in the State; and

(B) notify the Secretary, in writing, of the percentage of the small business concerns that are controlled by—

- (i) women;
- (ii) socially and economically disadvantaged individuals (other than women); and
- (iii) individuals who are women and are otherwise socially and economically disadvantaged individuals.

(5) **UNIFORM CERTIFICATION.**—

(A) **IN GENERAL.**—The Secretary of Transportation shall establish minimum uniform criteria for use by State governments in certifying whether a concern qualifies as a small business concern for the purpose of this subsection.

(B) **INCLUSIONS.**—The minimum uniform criteria established under subparagraph (A) shall include, with respect to a potential small business concern—

- (i) on-site visits;
- (ii) personal interviews with personnel;
- (iii) issuance or inspection of licenses;
- (iv) analyses of stock ownership;
- (v) listings of equipment;
- (vi) analyses of bonding capacity;
- (vii) listings of work completed;
- (viii) examination of the resumes of principal owners;
- (ix) analyses of financial capacity; and
- (x) analyses of the type of work preferred.

(6) **REPORTING.**—The Secretary of Transportation shall establish minimum requirements for use by State governments in reporting to the Secretary—

(A) information concerning disadvantaged business enterprise awards, commitments, and achievements; and

(B) such other information as the Secretary determines to be appropriate for the proper monitoring of the disadvantaged business enterprise program.

(7) **COMPLIANCE WITH COURT ORDERS.**—Nothing in this subsection limits the eligibility of an individual or entity to receive funds made available under titles I, II, V, and VII of this division and section 403 of title 23, United States Code, if the entity or person is prevented, in whole or in part, from complying with paragraph (3) because a Federal court issues a final order in which the court finds that a requirement or the implementation of paragraph (3) is unconstitutional.

(8) **SENSE OF CONGRESS ON PROMPT PAYMENT OF DBE SUBCONTRACTORS.**—It is the sense of Congress that—

(A) the Secretary of Transportation should take additional steps to ensure that recipients

comply with section 26.29 of title 49, Code of Federal Regulations (the disadvantaged business enterprises prompt payment rule), or any corresponding regulation, in awarding federally funded transportation contracts under laws and regulations administered by the Secretary; and

(B) such additional steps should include increasing the Department of Transportation's ability to track and keep records of complaints and to make that information publicly available.

(d) **LIMITATION ON FINANCIAL ASSISTANCE FOR STATE-OWNED ENTERPRISES.**—

(1) **IN GENERAL.**—Funds provided under this section may not be used in awarding a contract, subcontract, grant, or loan to an entity that is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

(A) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this Act;

(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a priority foreign country under subsection (a)(2) of that section; and

(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).

(2) **EXCEPTION.**—For purposes of paragraph (1), the term “otherwise related legally or financially” does not include a minority relationship or investment.

(3) **INTERNATIONAL AGREEMENTS.**—This subsection shall be applied in a manner consistent with the obligations of the United States under international agreements.

#### **SEC. 1102. OBLIGATION LIMITATION.**

(a) **GENERAL LIMITATION.**—Subject to subsection (e), and notwithstanding any other provision of law, the obligations for Federal-aid highway and highway safety construction programs shall not exceed—

- (1) \$62,159,350,954 for fiscal year 2022;
- (2) \$63,121,354,776 for fiscal year 2023;
- (3) \$64,346,443,712 for fiscal year 2024; and
- (4) \$65,180,125,186 for fiscal year 2025.

(b) **EXCEPTIONS.**—The limitations under subsection (a) shall not apply to obligations under or for—

- (1) section 125 of title 23, United States Code;
- (2) section 147 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 144 note; 92 Stat. 2714);

(3) section 9 of the Federal-Aid Highway Act of 1981 (95 Stat. 1701);

(4) subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982 (96 Stat. 2119);

(5) subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 198);

(6) sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991 (Public Law 102-240);

(7) section 157 of title 23, United States Code (as in effect on June 8, 1998);

(8) section 105 of title 23, United States Code (as in effect for fiscal years 1998 through 2004, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(9) Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century (112 Stat. 107) or subsequent Acts for multiple years or to remain available until expended, but only to the extent that the obligation authority has not lapsed or been used;

(10) section 105 of title 23, United States Code (as in effect for fiscal years 2005 through 2012, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(11) section 1603 of SAFETEA-LU (23 U.S.C. 118 note; 119 Stat. 1248), to the extent that funds obligated in accordance with that section were

not subject to a limitation on obligations at the time at which the funds were initially made available for obligation;

(12) section 119 of title 23, United States Code (as in effect for fiscal years 2013 through 2015, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(13) section 119 of title 23, United States Code (but, for fiscal years 2016 through 2021, only in an amount equal to \$639,000,000 for each of those fiscal years);

(14) section 203 of title 23, United States Code (but, for fiscal years 2022 through 2025, only in an amount equal to \$550,000,000 for each of those fiscal years); and

(15) section 133(d)(1)(B) of title 23, United States Code (but, for fiscal years 2022 through 2025, only in an amount equal to \$89,000,000 for each of those fiscal years).

(c) **DISTRIBUTION OF OBLIGATION AUTHORITY.**—Subject to paragraph (1)(B), for each of fiscal years 2022 through 2025, the Secretary of Transportation—

(1)(A) shall not distribute obligation authority provided by subsection (a) for the fiscal year for—

(i) amounts authorized for administrative expenses and programs by section 104(a) of title 23, United States Code;

(ii) amounts authorized for the Bureau of Transportation Statistics;

(iii) amounts authorized for the tribal transportation program under section 202 of title 23, United States Code; and

(iv) amounts authorized for the territorial and Puerto Rico highway program under section 165(a) of title 23, United States Code; and

(B) for each of fiscal years 2023 through 2025, in addition to the amounts described in subparagraph (A), shall not distribute obligation authority provided by subsection (a) for the fiscal year for amounts authorized for the metro performance program under section 1305 of this Act;

(2) shall not distribute an amount of obligation authority provided by subsection (a) that is equal to the unobligated balance of amounts—

(A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years, the funds for which are allocated by the Secretary (or apportioned by the Secretary under section 202 or 204 of title 23, United States Code); and

(B) for which obligation authority was provided in a previous fiscal year;

(3) shall determine the proportion that—

(A) the obligation authority provided by subsection (a) for the fiscal year, less the aggregate of amounts not distributed under paragraphs (1) and (2) of this subsection; bears to

(B) the total of—

(i) the sums authorized to be appropriated for the Federal-aid highway and highway safety construction programs, other than sums authorized to be appropriated for—

(I) provisions of law described in paragraphs (1) through (13) of subsection (b);

(II) section 203 of title 23, United States Code, equal to the amount referred to in subsection (b)(14) for the fiscal year; and

(III) section 133(d)(1)(B) of title 23, United States Code, equal to the amount referred to in subsection (b)(15) for the fiscal year; less

(ii) the aggregate of the amounts not distributed under paragraphs (1) and (2) of this subsection;

(4) shall distribute the obligation authority provided by subsection (a), less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under this Act and title 23, United States Code, or apportioned by the Secretary under section 202 or 204 of such title, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for the fiscal year; and

(5) shall distribute the obligation authority provided by subsection (a), less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the surface transportation program in section 133(d)(1)(B) of title 23, United States Code, that are exempt from the limitation under subsection (b)(15) and the amounts apportioned under sections 202 and 204 of such title) in the proportion that—

(A) amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to each State for the fiscal year; bears to

(B) the total of the amounts authorized to be appropriated for the programs that are apportioned under title 23, United States Code, to all States for the fiscal year.

(d) **REDISTRIBUTION OF UNUSED OBLIGATION AUTHORITY.**—Notwithstanding subsection (c), the Secretary of Transportation shall, after August 1 of each of fiscal years 2022 through 2025—

(1) revise a distribution of the obligation authority made available under subsection (c) if an amount distributed cannot be obligated during that fiscal year; and

(2) redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year, giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code.

(e) **SPECIAL LIMITATION.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), obligation limitations imposed by subsection (a) shall apply to contract authority for—

(A) transportation research programs carried out under chapter 5 of title 23, United States Code, and title V of this Act; and

(B) the metro performance program under section 1305 of this Act.

(2) **EXCEPTION.**—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(f) **LOP-OFF.**—

(1) **IN GENERAL.**—Not later than 30 days after the date of distribution of obligation authority under subsection (c) for each of fiscal years 2022 through 2025, the Secretary of Transportation shall distribute to the States any funds that—

(A) are authorized to be appropriated for the fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for the fiscal year because of the imposition of any obligation limitation for the fiscal year.

(2) **RATIO.**—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (c)(5).

(3) **AVAILABILITY.**—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

### SEC. 1103. DEFINITIONS AND DECLARATION OF POLICY.

Section 101 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (1), (2), (3), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23),

(24), (25), (26), (27), (28), (29), (30), (31), (32), (33), and (34) as paragraphs (2), (3), (4), (6), (8), (10), (11), (12), (13), (14), (16), (17), (18), (19), (20), (21), (23), (24), (25), (26), (28), (29), (32), (33), (34), (35), (36), (37), (38), (40), (41), (42), (43), and (44), respectively;

(B) by inserting before paragraph (2), as so redesignated, the following:

“(1) **ADAPTATION.**—The term ‘adaptation’ means an adjustment in natural or human systems in anticipation of, or in response to, a changing environment in a way that moderates negative effects of extreme events or climate change.”;

(C) by inserting after paragraph (4), as so redesignated, the following:

“(5) **CLIMATE CHANGE.**—The term ‘climate change’ means any significant change in the measures of climate lasting for an extended period of time, and may include major changes in temperature, precipitation, wind patterns, or sea level, among others, that occur over several decades or longer.”;

(D) in paragraph (6)(A), as so redesignated, by inserting “assessing resilience,” after “surveying.”;

(E) by inserting after paragraph (6), as so redesignated, the following:

“(7) **CONTEXT SENSITIVE DESIGN PRINCIPLES.**—The term ‘context sensitive design principles’ means principles for the design of a public road that—

“(A) provides for the safe and adequate accommodation, in all phases of project planning, design, and development, transportation facilities for users, including pedestrians, bicyclists, public transportation users, children, older individuals, individuals with disabilities, motorists, and freight vehicles; and

“(B) considers the context in which the facility is planned to be constructed to determine the appropriate facility design.”;

(F) by inserting after paragraph (8), as so redesignated, the following:

“(9) **EVACUATION ROUTE.**—The term ‘evacuation route’ means a transportation route or system that—

“(A) is used to transport—

“(i) the public away from an emergency event; or

“(ii) first responders and recovery resources in the event of an emergency; and

“(B) is identified, consistent with sections 134(i)(2)(I)(iii) and 135(f)(10)(C)(iii), by the eligible entity with jurisdiction over the area in which the route is located for the purposes described in subparagraph (A).”;

(G) by inserting after paragraph (14), as so redesignated, the following:

“(15) **GREENHOUSE GAS.**—The term ‘greenhouse gas’ has the meaning given the term in section 211(o)(1)(G) of the Clean Air Act (42 U.S.C. 7545(o)(1)(G)).”;

(H) by inserting after paragraph (21), as so redesignated, the following:

“(22) **NATURAL INFRASTRUCTURE.**—

“(A) **IN GENERAL.**—The term ‘natural infrastructure’ means infrastructure that uses, restores, or emulates natural ecological processes that—

“(i) is created through the action of natural physical, geological, biological, and chemical processes over time;

“(ii) is created by human design, engineering, and construction to emulate or act in concert with natural processes; or

“(iii) involves the use of plants, soils, and other natural features, including through the creation, restoration, or preservation of vegetated areas using materials appropriate to the region to manage stormwater and runoff, to attenuate flooding and storm surges, and for other related purposes.

“(B) **INCLUSION.**—The term ‘natural infrastructure’ includes green infrastructure and nature-based solutions.”;

(I) by inserting after paragraph (26), as so redesignated, the following:

“(27) **PROTECTIVE FEATURE.**—

“(A) **IN GENERAL.**—The term ‘protective feature’ means an improvement to a highway or bridge designed to increase resilience or mitigate the risk of recurring damage or the cost of future repairs from climate change effects, extreme events, seismic activity, or any other natural disaster.

“(B) **INCLUSIONS.**—The term ‘protective feature’ includes—

“(i) raising roadway grades;

“(ii) relocating roadways to higher ground above projected flood elevation levels or away from slide prone areas;

“(iii) stabilizing slide areas;

“(iv) stabilizing slopes;

“(v) lengthening or raising bridges to increase waterway openings;

“(vi) increasing the size or number of drainage structures;

“(vii) replacing culverts with bridges or upsizing culverts;

“(viii) installing seismic retrofits on bridges;

“(ix) scour, stream stability, coastal, and other hydraulic countermeasures; and

“(x) the use of natural infrastructure.”;

(J) by inserting after paragraph (29), as so redesignated, the following:

“(30) **REPEATEDLY DAMAGED FACILITY.**—The term ‘repeatedly damaged facility’ means a road, highway, or bridge that has required repair and reconstruction activities on 2 or more occasions due to natural disasters or catastrophic failures resulting in emergencies declared by the Governor of the State in which the road, highway, or bridge is located or emergencies or major disasters declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

“(31) **RESILIENCE.**—

“(A) **IN GENERAL.**—The term ‘resilience’ means, with respect to a facility, the ability to—

“(i) anticipate, prepare for, or adapt to conditions; or

“(ii) withstand, respond to, or recover rapidly from disruptions.

“(B) **INCLUSIONS.**—Such term includes, with respect to a facility, the ability to—

“(i) resist hazards or withstand impacts from disruptions;

“(ii) reduce the magnitude, duration, or impact of a disruption; or

“(iii) have the absorptive capacity, adaptive capacity, and recoverability to decrease vulnerability to a disruption.”;

(K) by inserting after paragraph (38), as so redesignated, the following:

“(39) **TRANSPORTATION SYSTEM ACCESS.**—The term ‘transportation system access’ means the ability to travel by automobile, public transportation, pedestrian, and bicycle networks, measured by travel time, taking into consideration—

“(A) the impacts of the level of travel stress for non-motorized users;

“(B) costs for low-income travelers; and

“(C) the extent to which transportation access is impacted by zoning policies and land use planning practices that effect the affordability, elasticity, and diversity of the housing supply.”;

and

(L) by adding at the end the following:

“(45) **TRANSPORTATION DEMAND MANAGEMENT; TDM.**—The terms ‘transportation demand management’ and ‘TDM’ mean the use of strategies to inform and encourage travelers to maximize the efficiency of a transportation system leading to improved mobility, reduced congestion, and lower vehicle emissions.

“(46) **TRANSPORTATION DEMAND MANAGEMENT STRATEGIES.**—The term ‘transportation demand management strategies’ means the use of planning, programs, policy, marketing, communications, incentives, pricing, and technology to shift travel mode, routes used, departure times, number of trips, and location and design work space or public attractions.”;

and

(2) in subsection (b)—

(A) in paragraph (1) by striking “Defense,” and inserting “Defense Highways.”;

(B) in paragraph (3)—

(i) in subparagraph (A) by striking “Century” and inserting “century”;

(ii) in subparagraph (G) by striking “; and” and inserting a semicolon;

(iii) in subparagraph (H) by striking “Century,” and inserting “century.”; and

(iv) by adding at the end the following:

“(I) safety is the highest priority of the Department of Transportation, and the Secretary and States should take all actions necessary to meet the transportation needs of the 21st century for all road users;

“(J) climate change presents a significant risk to safety, the economy, and national security, and reducing the contributions of the transportation system to the Nation’s total carbon pollution is critical; and

“(K) the Secretary and States should take appropriate measures and ensure investments to increase the resilience of the Nation’s transportation system.”; and

(C) in paragraph (4)(A) by inserting “while ensuring that environmental protections are maintained” after “review process”.

#### SEC. 1104. APPORTIONMENT.

(a) IN GENERAL.—Section 104 of title 23, United States Code, is amended—

(1) in subsection (a)(1) by striking subparagraphs (A) through (E) and inserting the following:

“(A) \$ 506,302,525 for fiscal year 2022;

“(B) \$ 509,708,000 for fiscal year 2023;

“(C) \$ 520,084,000 for fiscal year 2024; and

“(D) \$ 530,459,000 for fiscal year 2025.”;

(2) by striking subsections (b) and (c) and inserting the following:

“(b) DIVISION AMONG PROGRAMS OF STATE’S SHARE OF APPORTIONMENT.—The Secretary shall distribute the amount apportioned to a State for a fiscal year under subsection (c) among the covered programs as follows:

“(1) NATIONAL HIGHWAY PERFORMANCE PROGRAM.—For the national highway performance program, 55.09 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(2) SURFACE TRANSPORTATION PROGRAM.—For the surface transportation program, 28.43 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(3) HIGHWAY SAFETY IMPROVEMENT PROGRAM.—For the highway safety improvement program, 6.19 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—

“(A) IN GENERAL.—For the congestion mitigation and air quality improvement program, an amount determined for the State under subparagraphs (B) and (C).

“(B) TOTAL AMOUNT.—The total amount for the congestion mitigation and air quality improvement program for all States shall be—

“(i) \$2,913,925,833 for fiscal year 2022;

“(ii) \$2,964,919,535 for fiscal year 2023;

“(iii) \$3,024,217,926 for fiscal year 2024; and

“(iv) \$3,078,653,849 for fiscal year 2025.

“(C) STATE SHARE.—For each fiscal year, the Secretary shall distribute among the States the amount for the congestion mitigation and air quality improvement program under subparagraph (B) so that each State receives an amount equal to the proportion that—

“(i) the amount apportioned to the State for the congestion mitigation and air quality improvement program for fiscal year 2020; bears to

“(ii) the total amount of funds apportioned to all States for such program for fiscal year 2020.

“(5) NATIONAL HIGHWAY FREIGHT PROGRAM.—For the national highway freight program, 3.38 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(6) METROPOLITAN PLANNING.—

“(A) IN GENERAL.—For metropolitan planning, an amount determined for the State under subparagraphs (B) and (C).

“(B) TOTAL AMOUNT.—The total amount for metropolitan planning for all States shall be—

“(i) \$507,500,000 for fiscal year 2022;

“(ii) \$516,381,250 for fiscal year 2023;

“(iii) \$526,708,875 for fiscal year 2024; and

“(iv) \$536,189,635 for fiscal year 2025.

“(C) STATE SHARE.—For each fiscal year, the Secretary shall distribute among the States the amount for metropolitan planning under subparagraph (B) so that each State receives an amount equal to the proportion that—

“(i) the amount apportioned to the State for metropolitan planning for fiscal year 2020; bears to

“(ii) the total amount of funds apportioned to all States for metropolitan planning for fiscal year 2020.

“(7) RAILWAY CROSSINGS.—

“(A) IN GENERAL.—For the railway crossings program, an amount determined for the State under subparagraphs (B) and (C).

“(B) TOTAL AMOUNT.—The total amount for the railway crossings program for all States shall be \$245,000,000 for each of fiscal years 2022 through 2025.

“(C) STATE SHARE.—

“(i) IN GENERAL.—For each fiscal year, the Secretary shall distribute among the States the amount for the railway crossings program under subparagraph (B) as follows:

“(I) 50 percent of the amount for a fiscal year shall be apportioned to States by the formula set forth in section 104(b)(3)(A) (as in effect on the day before the date of enactment of MAP-21).

“(II) 50 percent of the amount for a fiscal year shall be apportioned to States in the ratio that total public railway-highway crossings in each State bears to the total of such crossings in all States.

“(ii) MINIMUM APPORTIONMENT.—Notwithstanding clause (i), for each fiscal year, each State shall receive a minimum of one-half of 1 percent of the total amount for the railway crossings program for such fiscal year under subparagraph (B).

“(8) PREDISASTER MITIGATION PROGRAM.—For the predisaster mitigation program, 2.96 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(9) CARBON POLLUTION REDUCTION PROGRAM.—For the carbon pollution reduction program, 3.95 percent of the amount remaining after distributing amounts under paragraphs (4), (6), and (7).

“(c) CALCULATION OF AMOUNTS.—

“(1) STATE SHARE.—For each of fiscal years 2022 through 2025, the amount for each State shall be determined as follows:

“(A) INITIAL AMOUNTS.—The initial amounts for each State shall be determined by multiplying—

“(i) the combined amount authorized for appropriation for the fiscal year for the covered programs; by

“(ii) the share for each State, which shall be equal to the proportion that—

“(I) the amount of apportionments that the State received for fiscal year 2020; bears to

“(II) the amount of those apportionments received by all States for fiscal year 2020.

“(B) ADJUSTMENTS TO AMOUNTS.—The initial amounts resulting from the calculation under subparagraph (A) shall be adjusted to ensure that each State receives an aggregate apportionment equal to at least 95 percent of the estimated tax payments attributable to highway users in the State paid into the Highway Trust Fund (other than the Mass Transit Account) in the most recent fiscal year for which data are available.

“(2) STATE APPORTIONMENT.—On October 1 of fiscal years 2022 through 2025, the Secretary shall apportion the sums authorized to be appropriated for expenditure on the covered programs in accordance with paragraph (1).”;

(3) in subsection (d)(1)(A)—

(A) in clause (i) by striking “paragraphs (5)(D) and (6) of subsection (b)” and inserting “subsection (b)(6)”;

(B) in clause (ii) by striking “paragraphs (5)(D) and (6) of subsection (b)” and inserting “subsection (b)(6)”;

(4) by striking subsections (h) and (i) and inserting the following:

“(h) DEFINITION OF COVERED PROGRAMS.—In this section, the term ‘covered programs’ means—

“(1) the national highway performance program under section 119;

“(2) the surface transportation program under section 133;

“(3) the highway safety improvement program under section 148;

“(4) the congestion mitigation and air quality improvement program under section 149;

“(5) the national highway freight program under section 167;

“(6) metropolitan planning under section 134;

“(7) the railway crossings program under section 130;

“(8) the predisaster mitigation program under section 124; and

“(9) the carbon pollution reduction program under section 171.”.

(b) FEDERAL SHARE PAYABLE.—Section 120(c)(3) of title 23, United States Code, is amended—

(1) in subparagraph (A) by striking “(5)(D).”;

(2) in subparagraph (C)(i) by striking “(5)(D).”.

(c) METROPOLITAN TRANSPORTATION PLANNING; TITLE 23.—Section 134(p) of title 23, United States Code, is amended by striking “paragraphs (5)(D) and (6) of section 104(b)” and inserting “section 104(b)(6)”.

(d) STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.—Section 135(i) of title 23, United States Code, is amended by striking “paragraphs (5)(D) and (6) of section 104(b)” and inserting “section 104(b)(6)”.

(e) METROPOLITAN TRANSPORTATION PLANNING; TITLE 49.—Section 5303(p) of title 49, United States Code, is amended by striking “section 104(b)(5)” and inserting “section 104(b)(6)”.

#### SEC. 1105. ADDITIONAL DEPOSITS INTO HIGHWAY TRUST FUND.

Section 105 of title 23, United States Code, is amended—

(1) in subsection (a) by striking “FAST Act” and inserting “INVEST in America Act”;

(2) in subsection (c)—

(A) in paragraph (1)(A) by striking “to be appropriated” each place it appears; and

(B) by adding at the end the following:

“(4) SPECIAL RULE.—

“(A) ADJUSTMENT.—In making an adjustment under paragraph (1) for an allocation, reservation, or set-aside from an amount authorized from the Highway Account or Mass Transit Account described in subparagraph (B), the Secretary shall—

“(i) determine the ratio that—

“(I) the amount authorized to be appropriated for the allocation, reservation, or set-aside from the account for the fiscal year; bears to

“(II) the total amount authorized to be appropriated for such fiscal year for all programs under such account;

“(ii) multiply the ratio determined under clause (i) by the amount of the adjustment determined under subsection (b)(1)(B); and

“(iii) adjust the amount that the Secretary would have allocated for the allocation, reservation, or set-aside for such fiscal year but for this section by the amount calculated under clause (ii).

“(B) ALLOCATIONS, RESERVATIONS, AND SET-ASIDES.—The allocations, reservations, and set-asides described in this subparagraph are—

“(i) from the amount made available for a fiscal year for the Federal lands transportation program under section 203, the amounts allocated for a fiscal year for the National Park

Service, the United States Fish and Wildlife Service, and the United States Forest Service;

“(ii) the amount made available for the Puerto Rico highway program under section 165(a)(1);

“(iii) the amount made available for the territorial highway program under section 165(a)(2);

“(iv) from the amounts made available for a fiscal year for the urbanized areas formula grants under section 5307 of title 49, the amounts allocated for a fiscal year for the passenger ferry grant program under section 5307(h) of such title;

“(v) from the amounts made available for a fiscal year for the formula grants for rural areas under section 5311 of such title, the amounts allocated for a fiscal year for public transportation on Indian reservations;

“(vi) from the amounts made available for a fiscal year for the public transportation innovation program under section 5312 of such title—

“(I) the amounts allocated for the zero emission vehicle component assessment under section 5312(h) of such title; and

“(II) the amounts allocated for the transit cooperative research program under section 5312(i) of such title;

“(vii) from the amounts made available for a fiscal year for the technical assistance and workforce development program of section 5314 of such title, the amounts allocated for the national transit institute under section 5314(c) of such title;

“(viii) from the amounts made available for a fiscal year for the bus and bus facilities program under section 5339 of such title, the amounts allocated for a fiscal year for the zero emission grants under section 5339(c) of such title;

“(ix) the amounts made available for growing States under section 5340(c) of such title; and

“(x) the amounts made available for high density states under section 5340(d) of such title.”;

(3) in subsection (d) by inserting “and section 5324 of title 49” after “section 125”;

(4) in subsection (e)—

(A) by striking “There is authorized” and inserting “For fiscal year 2022 and each fiscal year thereafter, there is authorized”; and

(B) by striking “for any of fiscal years 2017 through 2020”; and

(5) in subsection (f)(1) by striking “section 1102 or 3018 of the FAST Act” and inserting “any other provision of law”.

#### SEC. 1106. TRANSPARENCY.

(a) APPORTIONMENT.—Section 104 of title 23, United States Code, is amended by striking subsection (g) and inserting the following:

“(g) HIGHWAY TRUST FUND TRANSPARENCY AND ACCOUNTABILITY REPORTS.—

“(1) REQUIREMENT.—

“(A) IN GENERAL.—The Secretary shall compile data in accordance with this subsection on the use of Federal-aid highway funds made available under this title.

“(B) USER FRIENDLY DATA.—The data compiled under subparagraph (A) shall be in a user friendly format that can be searched, downloaded, disaggregated, and filtered by data category.

“(2) PROJECT DATA.—

“(A) IN GENERAL.—Not later than 120 days after the end of each fiscal year, the Secretary shall make available on the website of the Department of Transportation a report that describes—

“(i) the location of each active project within each State during such fiscal year, including in which congressional district or districts such project is located;

“(ii) the total cost of such project;

“(iii) the amount of Federal funding obligated for such project;

“(iv) the program or programs from which Federal funds have been obligated for such project;

“(v) whether such project is located in an area of the State with a population of—

“(I) less than 5,000 individuals;

“(II) 5,000 or more individuals but less than 50,000 individuals;

“(III) 50,000 or more individuals but less than 200,000 individuals; or

“(IV) 200,000 or more individuals;

“(vi) whether such project is located in an area of persistent poverty, as defined in section 172(l);

“(vii) the type of improvement being made by such project, including categorizing such project as—

“(I) a road reconstruction project;

“(II) a new road construction project;

“(III) a new bridge construction project;

“(IV) a bridge rehabilitation project; or

“(V) a bridge replacement project; and

“(viii) the functional classification of the roadway on which such project is located.

“(B) INTERACTIVE MAP.—In addition to the data made available under subparagraph (A), the Secretary shall make available on the website of the Department of Transportation an interactive map that displays, for each active project, the information described in clauses (i) through (v) of subparagraph (A).

“(3) STATE DATA.—

“(A) APPORTIONED AND ALLOCATED PROGRAMS.—The website described in paragraph (2)(A) shall be updated annually to display the Federal-aid highway funds apportioned and allocated to each State under this title, including—

“(i) the amount of funding available for obligation by the State, including prior unobligated balances, at the start of the fiscal year;

“(ii) the amount of funding obligated by the State during such fiscal year;

“(iii) the amount of funding remaining available for obligation by the State at the end of such fiscal year; and

“(iv) changes in the obligated, unexpended balance for the State.

“(B) PROGRAMMATIC DATA.—The data described in subparagraph (A) shall include—

“(i) the amount of funding by each apportioned and allocated program for which the State received funding under this title;

“(ii) the amount of funding transferred between programs by the State during the fiscal year using the authority provided under section 126; and

“(iii) the amount and program category of Federal funds exchanged as described in section 106(g)(6).

“(4) DEFINITIONS.—In this subsection:

“(A) ACTIVE PROJECT.—

“(i) IN GENERAL.—The term ‘active project’ means a Federal-aid highway project using funds made available under this title on which those funds were obligated or expended during the fiscal year for which the estimated total cost as of the start of construction is greater than \$5,000,000.

“(ii) EXCLUSION.—The term ‘active project’ does not include any project for which funds are transferred to agencies other than the Federal Highway Administration.

“(B) INTERACTIVE MAP.—The term ‘interactive map’ means a map displayed on the public website of the Department of Transportation that allows a user to select and view information for each active project, State, and congressional district.

“(C) STATE.—The term ‘State’ means any of the 50 States or the District of Columbia.”.

(b) PROJECT APPROVAL AND OVERSIGHT.—Section 106 of title 23, United States Code, is amended—

(1) in subsection (g)—

(A) in paragraph (4) by striking subparagraph (B) and inserting the following:

“(B) ASSISTANCE TO STATES.—The Secretary shall—

“(i) develop criteria for States to use to make the determination required under subparagraph (A); and

“(ii) provide training, guidance, and other assistance to States and subrecipients as needed to

ensure that projects administered by subrecipients comply with the requirements of this title.

“(C) PERIODIC REVIEW.—The Secretary shall review, not less frequently than every 2 years, the monitoring of subrecipients by the States.”; and

(B) by adding at the end the following:

“(6) FEDERAL FUNDING EXCHANGE PROGRAMS.—A State may implement a program under which a subrecipient has the option to exchange Federal funds allocated to such subrecipient in accordance with the requirements of this title for State or local funds if the State certifies to the Secretary that the State has prevailing wage and domestic content requirements that are comparable to the requirements under sections 113 and 313 and that such requirements shall apply to projects carried out using such funds if such projects would have been subject to the requirements of sections 113 and 313 if such projects were carried out using Federal funds.”;

(2) in subsection (h)(3)—

(A) in subparagraph (B) by striking “, as determined by the Secretary.”; and

(B) in subparagraph (D) by striking “shall assess” and inserting “in the case of a project proposed to be advanced as a public-private partnership, shall include a detailed value for money analysis or comparable analysis to determine”;

(3) by adding at the end the following:

“(k) MEGAPROJECTS.—

“(1) COMPREHENSIVE RISK MANAGEMENT PLAN.—To be authorized for the construction of a megaproject, the recipient of Federal financial assistance under this title for such megaproject shall submit to the Secretary a comprehensive risk management plan that contains—

“(A) a description of the process by which the recipient will identify, quantify, and monitor the risks, including natural hazards, that might result in cost overruns, project delays, reduced construction quality, or reductions in benefits with respect to the megaproject;

“(B) examples of mechanisms the recipient will use to track risks identified pursuant to subparagraph (A);

“(C) a plan to control such risks; and

“(D) such assurances as the Secretary determines appropriate that the recipient shall, with respect to the megaproject—

“(i) regularly submit to the Secretary updated cost estimates; and

“(ii) maintain and regularly reassess financial reserves for addressing known and unknown risks.

“(2) PEER REVIEW GROUP.—

“(A) IN GENERAL.—Not later than 90 days after the date on which a megaproject is authorized for construction, the recipient of Federal financial assistance under this title for such megaproject shall establish a peer review group for such megaproject that consists of at least 5 individuals (including at least 1 individual with project management experience) to give expert advice on the scientific, technical, and project management aspects of the megaproject.

“(B) MEMBERSHIP.—

“(i) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, the Secretary shall establish guidelines describing how a recipient described in subparagraph (A) shall—

“(I) recruit and select members for a peer review group established under such subparagraph; and

“(II) make publicly available the criteria for such selection and identify the members so selected.

“(ii) CONFLICT OF INTEREST.—No member of a peer review group for a megaproject may have a direct or indirect financial interest in such megaproject.

“(C) TASKS.—A peer review group established under subparagraph (A) by a recipient of Federal financial assistance for a megaproject shall—

“(i) meet annually until completion of the megaproject;

“(ii) not later than 90 days after the date of the establishment of the peer review group and not later than 90 days after the date of any significant change, as determined by the Secretary, to the scope, schedule, or budget of the megaproject, review the scope, schedule, and budget of the megaproject, including planning, engineering, financing, and any other elements determined appropriate by the Secretary; and

“(iii) submit to the Secretary, Congress, and such recipient a report on the findings of each review under clause (ii).

“(3) **TRANSPARENCY.**—Not later than 90 days after the submission of a report under paragraph (2)(C)(iii), the Secretary shall publish on the website of the Department of Transportation such report.

“(4) **MEGAPROJECT DEFINED.**—In this subsection, the term ‘megaproject’ means a project under this title that has an estimated total cost of \$2,000,000,000 or more, and such other projects as may be identified by the Secretary.

“(I) **SPECIAL EXPERIMENTAL PROJECTS.**—

“(1) **PUBLIC AVAILABILITY.**—The Secretary shall publish on the website of the Department of Transportation a copy of all letters of interest, proposals, workplans, and reports related to the special experimental project authority pursuant to section 502(b). The Secretary shall redact confidential business information, as necessary, from any such information published.

“(2) **NOTIFICATION AND OPPORTUNITY FOR COMMENT.**—Not later than 30 days before making a determination to proceed with an experiment under a letter of interest described in paragraph (1), the Secretary shall provide notification and an opportunity for public comment on the letter of interest and the Secretary’s proposed response.

“(3) **REPORT TO CONGRESS.**—Not later than 2 years after the date of enactment of the INVEST in America Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes—

“(A) a summary of each experiment described in this subsection carried out over the previous 5 years; and

“(B) legislative recommendations, if any, based on the findings of such experiments.

“(m) **COMPETITIVE GRANT PROGRAM OVERSIGHT AND ACCOUNTABILITY.**—

“(1) **IN GENERAL.**—To ensure the accountability and oversight of the discretionary grant selection process administered by the Secretary, a covered program shall be subject to the requirements of this section, in addition to the requirements applicable to each covered program.

“(2) **APPLICATION PROCESS.**—The Secretary shall—

“(A) develop a template for applicants to use to summarize—

“(i) project needs and benefits; and

“(ii) any factors, requirements, or considerations established for the applicable covered program;

“(B) create a data driven process to evaluate, as set forth in the covered program, each eligible project for which an application is received; and

“(C) make a determination, based on the evaluation made pursuant to subparagraph (B), on any ratings, rankings, scores, or similar metrics for applications made to the covered program.

“(3) **NOTIFICATION OF CONGRESS.**—Not less than 15 days before making a grant for a covered program, the Secretary shall notify, in writing, the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on the Environment and Public Works of the Senate of—

“(A) the amount for each project proposed to be selected;

“(B) a description of the review process;

“(C) for each application, the determination made under paragraph (2)(C); and

“(D) a detailed explanation of the basis for each award proposed to be selected.

“(4) **NOTIFICATION OF APPLICANTS.**—Not later than 30 days after making a grant for a project under a covered program, the Secretary shall send to all applicants under such covered program, and publish on the website of the Department of Transportation—

“(A) a summary of each application made to the covered program for the given round of funding; and

“(B) the evaluation and justification for the project selection, including all ratings, rankings, scores, or similar metrics for applications made to the covered program for the given round of funding during each phase of the grant selection process.

“(5) **BRIEFING.**—The Secretary shall provide, at the request of a grant applicant of a covered program, the opportunity to receive a briefing to explain any reasons the grant applicant was not awarded a grant.

“(6) **TEMPLATE.**—The Secretary shall, to the extent practicable, develop a template as described in paragraph (2)(A) for any discretionary program administered by the Secretary that is not a covered program.

“(7) **COVERED PROGRAM DEFINED.**—The term ‘covered program’ means each of the following discretionary grant programs:

“(A) Community climate innovation grants under section 172.

“(B) Electric vehicle charging and hydrogen fueling infrastructure grants under section 151(f).

“(C) Federal lands and tribal major projects grants under section 208.

“(D) Safe, efficient mobility through advanced technologies grants under section 503(c)(4).”

(c) **DIVISION OFFICE CONSISTENCY.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report that—

(1) analyzes the consistency of determinations among division offices of the Federal Highway Administration; and

(2) makes recommendations to improve the consistency of such determinations.

#### **SEC. 1107. COMPLETE AND CONTEXT SENSITIVE STREET DESIGN.**

(a) **STANDARDS.**—Section 109 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking “planned future traffic of the highway in a manner that is conducive to” and inserting “future operational performance of the facility in a manner that enhances”; and

(B) in paragraph (2) by inserting “, taking into consideration context sensitive design principles” after “each locality”;

(2) in subsection (b)—

(A) by striking “The geometric” and inserting “DESIGN CRITERIA FOR THE INTERSTATE SYSTEM.—The geometric”; and

(B) by striking “the types and volumes of traffic anticipated for such project for the twenty-year period commencing on the date of approval by the Secretary, under section 106 of this title, of the plans, specifications, and estimates for actual construction of such project” and inserting “the existing and future operational performance of the facility”;

(3) in subsection (c)(1)—

(A) in subparagraph (C) by striking “; and” and inserting a semicolon;

(B) in subparagraph (D) by striking the period and inserting “; and”;

(C) by adding at the end the following:

“(E) context sensitive design principles.”;

(4) by striking subsection (o) and inserting the following:

“(o) **COMPLIANCE WITH STATE LAWS FOR NON-NHS PROJECTS.**—

“(1) **IN GENERAL.**—Projects (other than highway projects on the National Highway System) shall—

“(A) be designed, constructed, operated, and maintained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards; and

“(B) take into consideration context sensitive design principles.

“(2) **DESIGN FLEXIBILITY.**—

“(A) **IN GENERAL.**—A local jurisdiction may deviate from the roadway design publication used by the State in which the local jurisdiction is located for the design of a project on a roadway (other than a highway on the National Highway System) if—

“(i) notification and justification of the deviation is provided to the Secretary and the State; and

“(ii) the design complies with all other applicable Federal laws.

“(B) **STATE-OWNED ROADS.**—In the case of a roadway under the ownership of the State, the local jurisdiction may only deviate from the roadway design publication used by the State with the concurrence of the State.

“(C) **PROGRAMMATIC BASIS.**—The Secretary may consider a deviation under this paragraph on a programmatic basis.”; and

(5) by adding at the end the following:

“(s) **CONTEXT SENSITIVE DESIGN.**—

“(1) **CONTEXT SENSITIVE DESIGN PRINCIPLES.**—The Secretary shall collaborate with the American Association of State Highway Transportation Officials to ensure that any roadway design publications approved by the Secretary under this section provide adequate flexibility for a project sponsor to select the appropriate design of a roadway, consistent with context sensitive design principles.

“(2) **POLICIES OR PROCEDURES.**—

“(A) **IN GENERAL.**—Not later than 1 year after the Secretary publishes the final guidance described in paragraph (3), each State shall adopt policies or procedures to evaluate the context of a proposed roadway and select the appropriate design, consistent with context sensitive design principles.

“(B) **LOCAL GOVERNMENTS.**—The Secretary and States shall encourage local governments to adopt policies or procedures described under subparagraph (A).

“(C) **CONSIDERATIONS.**—The policies or procedures developed under this paragraph shall take into consideration the guidance developed by the Secretary under paragraph (3).

“(3) **GUIDANCE.**—

“(A) **IN GENERAL.**—

“(i) **NOTICE.**—Not later than 1 year after the date of enactment of this subsection, the Secretary shall publish guidance on the official website of the Department of Transportation on context sensitive design.

“(ii) **PUBLIC REVIEW AND COMMENT.**—The guidance described in this paragraph shall be finalized following an opportunity for public review and comment.

“(iii) **UPDATE.**—The Secretary shall periodically update the guidance described in this paragraph, including the model policies or procedures described under subparagraph (B)(v).

“(B) **REQUIREMENTS.**—The guidance described in this paragraph shall—

“(i) provide best practices for States, metropolitan planning organizations, regional transportation planning organizations, local governments, or other project sponsors to carry out context sensitive design principles;

“(ii) identify opportunities to modify planning, scoping, design, and development procedures to more effectively combine modes of transportation into integrated facilities that meet the needs of each of such modes of transportation in an appropriate balance;

“(iii) identify metrics to assess the context of the facility, including surrounding land use or roadside characteristics;

“(iv) assess the expected operational and safety performance of alternative approaches to facility design; and

“(v) taking into consideration the findings of this guidance, establish model policies or procedures for a State or other project sponsor to

evaluate the context of a proposed facility and select the appropriate facility design for the context.

“(C) TOPICS OF EMPHASIS.—In publishing the guidance described in this paragraph, the Secretary shall emphasize—

“(i) procedures for identifying the needs of users of all ages and abilities of a particular roadway;

“(ii) procedures for identifying the types and designs of facilities needed to serve various modes of transportation;

“(iii) safety and other benefits provided by carrying out context sensitive design principles;

“(iv) common barriers to carrying out context sensitive design principles;

“(v) procedures for overcoming the most common barriers to carrying out context sensitive design principles;

“(vi) procedures for identifying the costs associated with carrying out context sensitive design principles;

“(vii) procedures for maximizing local cooperation in the introduction of context sensitive design principles and carrying out those principles; and

“(viii) procedures for assessing and modifying the facilities and operational characteristics of existing roadways to improve consistency with context sensitive design principles.

“(4) FUNDING.—Amounts made available under sections 104(b)(6) and 505 of this title may be used for States, local governments, metropolitan planning organizations, or regional transportation planning organizations to adopt policies or procedures to evaluate the context of a proposed roadway and select the appropriate design, consistent with context sensitive design principles.”.

(b) CONFORMING AMENDMENT.—Section 1404(b) of the FAST Act (23 U.S.C. 109 note) is repealed.

#### SEC. 1108. INNOVATIVE PROJECT DELIVERY FEDERAL SHARE.

(a) IN GENERAL.—Section 120(c)(3)(B) of title 23, United States Code, is amended—

(1) by striking clauses (i) and (ii) and inserting the following:

“(i) prefabricated bridge elements and systems, innovative materials, and other technologies to reduce bridge construction time, extend service life, and reduce preservation costs, as compared to conventionally designed and constructed bridges;

“(ii) innovative construction equipment, materials, techniques, or practices, including the use of in-place recycling technology, digital 3-dimensional modeling technologies, and advanced digital construction management systems;”;

(2) by redesignating clause (vi) as clause (vii);

(3) in clause (v) by striking “or” at the end; and

(4) by inserting after clause (v) the following:

“(vi) innovative pavement materials that demonstrate reductions in greenhouse gas emissions through sequestration or innovative manufacturing processes; or”.

(b) TECHNICAL AMENDMENT.—Section 107(a)(2) of title 23, United States Code, is amended by striking “subsection (c) of”.

#### SEC. 1109. TRANSFERABILITY OF FEDERAL-AID HIGHWAY FUNDS.

Section 126(b) of title 23, United States Code, is amended—

(1) in the heading by inserting “AND PROGRAMS” after “SET-ASIDES”;

(2) in paragraph (1) by striking “and 133(d)(1)(A)” and inserting “, 130, 133(d)(1)(A), 133(h), 149, and 171”; and

(3) by striking paragraph (2) and inserting the following:

“(2) ENVIRONMENTAL PROGRAMS.—With respect to an apportionment under either paragraph (4) or paragraph (9) of section 104(b), and notwithstanding paragraph (1), a State may only transfer not more than 50 percent from the amount of the apportionment of either such paragraph to the apportionment under the other such paragraph in a fiscal year.”.

#### SEC. 1110. TOLLING.

(a) TOLL ROADS, BRIDGES, TUNNELS, AND FERRIES.—Section 129 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—

“(A) AUTHORIZATION.—Subject to the provisions of this section, Federal participation shall be permitted on the same basis and in the same manner as construction of toll-free highways is permitted under this chapter in the—

“(i) initial construction of a toll highway, bridge, or tunnel or approach to the highway, bridge, or tunnel;

“(ii) initial construction of 1 or more lanes or other improvements that increase capacity of a highway, bridge, or tunnel (other than a highway on the Interstate System) and conversion of that highway, bridge, or tunnel to a tolled facility, if the number of toll-free lanes, excluding auxiliary lanes, after the construction is not less than the number of toll-free lanes, excluding auxiliary lanes, before the construction;

“(iii) initial construction of 1 or more lanes or other improvements that increase the capacity of a highway, bridge, or tunnel on the Interstate System and conversion of that highway, bridge, or tunnel to a tolled facility, if the number of toll-free non-HOV lanes, excluding auxiliary lanes, after such construction is not less than the number of toll-free non-HOV lanes, excluding auxiliary lanes, before such construction;

“(iv) reconstruction, resurfacing, restoration, rehabilitation, or replacement of a toll highway, bridge, or tunnel or approach to the highway, bridge, or tunnel;

“(v) reconstruction or replacement of a toll-free bridge or tunnel and conversion of the bridge or tunnel to a toll facility;

“(vi) reconstruction of a toll-free Federal-aid highway (other than a highway on the Interstate System) and conversion of the highway to a toll facility;

“(vii) reconstruction, restoration, or rehabilitation of a highway on the Interstate System if the number of toll-free non-HOV lanes, excluding auxiliary lanes, after reconstruction, restoration, or rehabilitation is not less than the number of toll-free non-HOV lanes, excluding auxiliary lanes, before reconstruction, restoration, or rehabilitation;

“(viii) conversion of a high occupancy vehicle lane on a highway, bridge, or tunnel to a toll facility, subject to the requirements of section 166; and

“(ix) preliminary studies to determine the feasibility of a toll facility for which Federal participation is authorized under this paragraph.

“(B) AGREEMENT TO TOLL.—

“(i) IN GENERAL.—Before the Secretary may authorize tolling under this subsection, the public authority with jurisdiction over a highway, bridge, or tunnel shall enter into an agreement with the Secretary to ensure compliance with the requirements of this subsection.

“(ii) APPLICABILITY.—

“(I) IN GENERAL.—The requirements of this subparagraph shall apply to—

“(aa) Federal participation under subparagraph (A);

“(bb) any prior Federal participation in the facility proposed to be tolled; and

“(cc) conversion, with or without Federal participation, of a non-tolled lane on the National Highway System to a toll facility under subparagraph (E).

“(II) HOV FACILITY.—Except as otherwise provided in this subsection or section 166, the provisions of this paragraph shall not apply to a high occupancy vehicle facility.

“(iii) MAJOR FEDERAL ACTION.—Approval by the Secretary of an agreement to toll under this paragraph shall be considered a major Federal action under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(C) AGREEMENT CONDITIONS.—Prior to entering into an agreement to toll under subparagraph (B), the public authority shall certify to the Secretary that—

“(i) the public authority has established procedures to ensure the toll meets the purposes and requirements of this subsection;

“(ii) the facility shall provide for access at no cost to public transportation vehicles and over-the-road buses serving the public; and

“(iii) the facility shall provide for the regional interoperability of electronic toll collection, including through technologies or business practices.

“(D) CONSIDERATION OF IMPACTS.—

“(i) IN GENERAL.—Prior to entering into an agreement to toll under subparagraph (B), the Secretary shall ensure the public authority has adequately considered, including by providing an opportunity for public comment, the following factors within the corridor:

“(I) Congestion impacts on both the toll facility and in the corridor or cordon (including adjacent toll-free facilities).

“(II) In the case of a non-attainment or maintenance area, air quality impacts.

“(III) Planned investments to improve public transportation or other non-tolled alternatives in the corridor.

“(IV) Environmental justice and equity impacts.

“(V) Impacts on freight movement.

“(VI) Economic impacts on businesses.

“(ii) CONSIDERATION IN ENVIRONMENTAL REVIEW.—Nothing in this subparagraph shall limit a public authority from meeting the requirements of this subparagraph through the environmental review process, as applicable.

“(E) CONGESTION PRICING.—

“(i) IN GENERAL.—The Secretary may authorize conversion of a non-tolled lane on the National Highway System to a toll facility to utilize pricing to manage the demand to use the facility by varying the toll amount that is charged.

“(ii) REQUIREMENT.—Prior to entering into an agreement to convert a non-tolled lane on the National Highway System to a toll facility, the Secretary shall ensure (in addition to the requirements under subparagraphs (B), (C), and (D)) that such toll facility and the planned investments to improve public transportation or other non-tolled alternatives in the corridor are reasonably expected to improve the operation of the cordon or corridor, as described in clauses (iii) and (iv).

“(iii) PERFORMANCE MONITORING.—A public authority that enters into an agreement to convert a non-tolled lane to a toll facility under this subparagraph shall—

“(I) establish, monitor, and support a performance monitoring, evaluation, and reporting program—

“(aa) for the toll facility that provides for continuous monitoring, assessment, and reporting on the impacts that the pricing structure may have on the operation of the facility; and

“(bb) for the corridor or cordon that provides for continuous monitoring, assessment, and reporting on the impacts of congestion pricing on the operation of the corridor or cordon;

“(II) submit to the Secretary annual reports of the impacts described in subclause (I); and

“(III) if the facility or the corridor or cordon becomes degraded, as described in clause (iv), submit to the Secretary an annual update that describes the actions proposed to bring the toll facility into compliance and the progress made on such actions.

“(iv) DETERMINATION.—

“(I) DEGRADED OPERATION.—For purposes of clause (iii)(III), the operation of a toll facility shall be considered to be degraded if vehicles operating on the facility are failing to maintain a minimum average operating speed 90 percent of the time over a consecutive 180-day period during peak hour periods.

“(II) DEGRADED CORRIDOR OR CORDON.—For the purposes of clause (iii)(III), a corridor or

cordon shall be considered to be degraded if congestion pricing or investments to improve public transportation or other non-tolled alternatives have not resulted in—

“(aa) an increase in person or freight throughput in the corridor or cordon; or

“(bb) a reduction in person hours of delay in the corridor or cordon, as determined by the Secretary.

“(III) DEFINITION OF MINIMUM AVERAGE OPERATING SPEED.—In this subparagraph, the term ‘minimum average operating speed’ means—

“(aa) 35 miles per hour, in the case of a toll facility with a speed limit of 45 miles per hour or greater; and

“(bb) not more than 10 miles per hour below the speed limit, in the case of a toll facility with a speed limit of less than 50 miles per hour.

“(v) MAINTENANCE OF OPERATING PERFORMANCE.—

“(I) IN GENERAL.—Not later than 180 days after the date on which a facility or a corridor or cordon becomes degraded under clause (iv), the public authority with jurisdiction over the facility shall submit to the Secretary for approval a plan that details the actions the public authority will take to make significant progress toward bringing the facility or corridor or cordon into compliance with this subparagraph.

“(II) NOTICE OF APPROVAL OR DISAPPROVAL.—Not later than 60 days after the date of receipt of a plan under subclause (I), the Secretary shall provide to the public authority a written notice indicating whether the Secretary has approved or disapproved the plan based on a determination of whether the implementation of the plan will make significant progress toward bringing the facility or corridor or cordon into compliance with this subparagraph.

“(III) UPDATE.—Until the date on which the Secretary determines that the public authority has brought the facility or corridor or cordon into compliance with this subparagraph, the public authority shall submit annual updates that describe—

“(aa) the actions taken to bring the facility into compliance;

“(bb) the actions taken to bring the corridor or cordon into compliance; and

“(cc) the progress made by those actions.

“(IV) COMPLIANCE.—If a public authority fails to bring a facility into compliance under this subparagraph, the Secretary may subject the public authority to appropriate program sanctions under section 1.36 of title 23, Code of Federal Regulations (or successor regulations), until the performance is no longer degraded.

“(vi) CONSULTATION OF MPO.—If a toll facility authorized under this subparagraph is located on the National Highway System and in a metropolitan planning area established in accordance with section 134, the public authority shall consult with the metropolitan planning organization for the area.

“(vii) INCLUSION.—For the purposes of this paragraph, the corridor or cordon shall include toll-free facilities that are adjacent to the toll facility.”;

(B) in paragraph (3)—

(i) in subparagraph (A)—

(I) in clause (iv) by striking “and” at the end; and

(II) by striking clause (v) and inserting the following:

“(v) any project eligible under this title or chapter 53 of title 49 that improves the operation of the corridor or cordon by increasing person or freight throughput and reducing person hours of delay;

“(vi) toll discounts or rebates for users of the toll facility that have no reasonable alternative transportation method to the toll facility; and

“(vii) if the public authority certifies annually that the tolled facility is being adequately maintained and the cordon or corridor is not degraded under paragraph (I)(E), any revenues remaining after funding the activities described in clauses (i) through (vi) shall be considered

surplus revenue and may be used for any other purpose for which Federal funds may be obligated by a State under this title or chapter 53 of title 49.”;

(ii) by striking subparagraph (B) and inserting the following:

“(B) TRANSPARENCY.—

“(i) ANNUAL AUDIT.—

“(I) IN GENERAL.—A public authority with jurisdiction over a toll facility shall conduct or have an independent auditor conduct an annual audit of toll facility records to verify adequate maintenance and compliance with subparagraph (A), and report the results of the audits to the Secretary.

“(II) RECORDS.—On reasonable notice, the public authority shall make all records of the public authority pertaining to the toll facility available for audit by the Secretary.

“(ii) USE OF REVENUES.—A State or public authority that obligates amounts under clauses (v), (vi), or (vii) of subparagraph (A) shall annually report to the Secretary a list of activities funded with such amounts and the amount of funding provided for each such activity.”;

(C) in paragraph (8) by striking “as of the date of enactment of the MAP-21, before commencing any activity authorized” and inserting “, before commencing any activity authorized”;

(D) in paragraph (9)—

(i) by striking “bus” and inserting “vehicle”; and

(ii) by striking “buses” and inserting “vehicles”; and

(E) by striking paragraph (10) and inserting the following:

“(10) INTEROPERABILITY OF ELECTRONIC TOLL COLLECTION.—All toll facilities on Federal-aid highways shall provide for the regional interoperability of electronic toll collection, including through technologies or business practices.

“(11) NONCOMPLIANCE.—If the Secretary concludes that a public authority has not complied with the requirements of this subsection, the Secretary may require the public authority to discontinue collecting tolls until the public authority and the Secretary enter into an agreement for the public authority to achieve compliance with such requirements.

“(12) DEFINITIONS.—In this subsection, the following definitions apply:

“(A) FEDERAL PARTICIPATION.—The term ‘Federal participation’ means the use of funds made available under this title.

“(B) HIGH OCCUPANCY VEHICLE; HOV.—The term ‘high occupancy vehicle’ or ‘HOV’ means a vehicle with not fewer than 2 occupants.

“(C) INITIAL CONSTRUCTION.—

“(i) IN GENERAL.—The term ‘initial construction’ means the construction of a highway, bridge, tunnel, or other facility at any time before it is open to traffic.

“(ii) EXCLUSIONS.—The term ‘initial construction’ does not include any improvement to a highway, bridge, tunnel, or other facility after it is open to traffic.

“(D) OVER-THE-ROAD BUS.—The term ‘over-the-road bus’ has the meaning given the term in section 301 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12181).

“(E) PUBLIC AUTHORITY.—The term ‘public authority’ means a State, interstate compact of States, or public entity designated by a State.

“(F) PUBLIC TRANSPORTATION VEHICLE.—The term ‘public transportation vehicle’ has the meaning given that term in section 166.

“(G) TOLL FACILITY.—The term ‘toll facility’ means a toll highway, bridge, or tunnel or approach to the highway, bridge, or tunnel constructed or authorized to be tolled under this subsection.”;

(b) REPEAL OF INTERSTATE SYSTEM RECONSTRUCTION AND REHABILITATION PILOT PROGRAM.—Section 1216 of the Transportation Equity Act for the 21st Century (23 U.S.C. 129 note), and the item related to such section in the table of contents in section 1(b) of such Act, are repealed.

(c) VALUE PRICING PILOT PROGRAM.—Section 1012(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (23 U.S.C. 149 note) is amended by adding at the end the following:

“(9) SUNSET.—The Secretary may not consider an expression of interest submitted under this section after the date of enactment of this paragraph.”;

(d) SAVINGS CLAUSE.—

(1) APPLICATION OF LIMITATIONS.—Any toll facility described in paragraph (2) shall be subject to the requirements of section 129(a)(3) of title 23, United States Code, as in effect on the day before the date of enactment of this Act.

(2) TOLL FACILITIES.—A toll facility described in this paragraph is a facility that, on the day prior to the date of enactment of this Act, was—

(A) operating;

(B) in the planning and design phase; or

(C) in the construction phase.

(e) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall submit to Congress a report on the implementation of the interoperability of toll collection as required under section 1512(b) of MAP-21, including an assessment of the progress in, and barriers on, such implementation.

#### SEC. 1111. HOV FACILITIES.

Section 166 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (4)(C)(iii) by striking “transportation buses” and inserting “transportation vehicles”; and

(B) in paragraph (5)(B) by striking “2019” and inserting “2025”;

(2) in subsection (d)(2)(A)(i) by striking “45 miles per hour, in the case of a HOV facility with a speed of 50 miles per hour or greater” and inserting “35 miles per hour, in the case of a HOV facility with a speed limit of 45 miles per hour or greater”;

(3) in subsection (d)(2)(B) by striking “morning or evening weekday peak hour periods (or both)” and inserting “peak hour periods”;

(4) in subsection (e)—

(A) by striking “Not later than 180 days after the date of enactment of this section, the Administrator” and inserting “The Administrator”;

(B) in paragraph (1) by striking “and” at the end;

(C) in paragraph (2) by striking the period at the end and inserting “; and”;

(D) by adding at the end the following:

“(3) not later than 180 days after the date of enactment of the INVEST in America Act, update the requirements established under paragraph (1).”;

(5) in subsection (f)—

(A) in paragraph (1)—

(i) by striking subparagraphs (C), (D), and (F); and

(ii) by redesignating subparagraphs (E), (G), (H), and (I) as subparagraphs (C), (D), (E), and (F), respectively; and

(B) in paragraph (6)(B)(i) by striking “public entity” and inserting “public transportation service that is a recipient or subrecipient of funds under chapter 53 of title 49”.

#### SEC. 1112. BUY AMERICA.

(a) IN GENERAL.—Section 313 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) by striking “Notwithstanding” and inserting “IN GENERAL.—Notwithstanding”;

(B) by striking “Secretary of Transportation” and inserting “Secretary”;

(C) by striking “the Surface Transportation Assistance Act of 1982 (96 Stat. 2097) or”; and

(D) by striking “and manufactured products” and inserting “manufactured products, and construction materials”;

(2) in subsection (b) by inserting “DETERMINATION.—” before “The provisions”;

(3) in subsection (c) by striking “For purposes” and inserting “CALCULATION.—For purposes”;

(4) in subsection (d)—  
 (A) by striking “The Secretary of Transportation” and inserting “REQUIREMENTS.—The Secretary”; and

(B) by striking “the Surface Transportation Assistance Act of 1982 (96 Stat. 2097) or”; and  
 (5) by adding at the end the following:

“(h) WAIVER PROCEDURE.—

“(1) IN GENERAL.—Not later than 120 days after the submission of a request for a waiver, the Secretary shall make a determination under paragraph (1) or (2) of subsection (b) as to whether subsection (a) shall apply.

“(2) PUBLIC NOTIFICATION AND COMMENT.—

“(A) IN GENERAL.—Not later than 30 days before making a determination regarding a waiver described in paragraph (1), the Secretary shall provide notification and an opportunity for public comment on the request for such waiver.

“(B) NOTIFICATION REQUIREMENTS.—The notification required under subparagraph (A) shall—

“(i) describe whether the application is being made for a determination described in subsection (b)(1); and

“(ii) be provided to the public by electronic means, including on the public website of the Department of Transportation.

“(3) DETERMINATION.—Before a determination described in paragraph (1) takes effect, the Secretary shall publish a detailed justification for such determination that addresses all public comments received under paragraph (2)—

“(A) on the public website of the Department of Transportation; and

“(B) if the Secretary issues a waiver with respect to such determination, in the Federal Register.

“(i) REVIEW OF NATIONWIDE WAIVERS.—

“(1) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, and at least every 5 years thereafter, the Secretary shall review any standing nationwide waiver issued by the Secretary under this section to ensure such waiver remains justified.

“(2) PUBLIC NOTIFICATION AND OPPORTUNITY FOR COMMENT.—

“(A) IN GENERAL.—Not later than 30 days before the completion of a review under paragraph (1), the Secretary shall provide notification and an opportunity for public comment on such review.

“(B) MEANS OF NOTIFICATION.—Notification provided under this subparagraph shall be provided by electronic means, including on the public website of the Department of Transportation.

“(3) DETAILED JUSTIFICATION IN FEDERAL REGISTER.—After the completion of a review under paragraph (1), the Secretary shall publish in the Federal Register a detailed justification for the determination made under paragraph (1) that addresses all public comments received under paragraph (2).

“(j) REPORT.—Not later than 120 days after the last day of each fiscal year, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Appropriations of the House of Representatives, the Committee on Environment and Public Works of the Senate, and the Committee on Appropriations of the Senate a report on the waivers provided under subsection (h) during the previous fiscal year and the justifications for such waivers.”.

(b) SAFETEA-LU TECHNICAL CORRECTIONS ACT OF 2008.—Section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (23 U.S.C. 313 note) is repealed.

#### SEC. 1113. FEDERAL-AID HIGHWAY PROJECT REQUIREMENTS.

(a) IN GENERAL.—Except as otherwise provided in subsection (b), notwithstanding any other provision of law, the Secretary shall require recipients of assistance under title 23, United States Code, and title I of division B this Act and the amendments made by this Act to comply with subsection (a) of section 113 of title 23, United States Code, with respect to all construction work, in the same manner that recipients of assistance under chapter 1 of such title are required to comply with such subsection for construction work performed on highway projects on Federal-aid highways.

struction work, in the same manner that recipients of assistance under chapter 1 of such title are required to comply with such subsection for construction work performed on highway projects on Federal-aid highways.

(b) TREATMENT OF CERTAIN PROJECTS.—The Secretary shall apply the requirements of section 1306(l) of this Act and sections 117(k), 172(j), and 173(k) of title 23, United States Code, to a project funded with a grant under such sections.

#### SEC. 1114. STATE ASSUMPTION OF RESPONSIBILITY FOR CATEGORICAL EXCLUSIONS.

Section 326(c)(3) of title 23, United States Code, is amended—

(1) by striking subparagraph (A) and inserting the following:

“(A) except as provided under subparagraph (C), have a term of not more than 3 years;”;

(2) in subparagraph (B) by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(C) for any State that has assumed the responsibility for categorical exclusions under this section for at least 10 years, have a term of 5 years.”.

#### SEC. 1115. SURFACE TRANSPORTATION PROJECT DELIVERY PROGRAM WRITTEN AGREEMENTS.

Section 327 of title 23, United States Code, is amended—

(1) in subsection (c)—

(A) by striking paragraph (5) and inserting the following:

“(5) except as provided under paragraph (7), have a term of not more than 5 years;”;

(B) in paragraph (6) by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(7) for any State that has participated in a program under this section (or under a predecessor program) for at least 10 years, have a term of 10 years.”;

(2) in subsection (g)(1)—

(A) in subparagraph (C) by striking “annual”;

(B) in subparagraph (B) by striking “and” at the end;

(C) by redesignating subparagraph (C) as subparagraph (D); and

(D) by inserting after subparagraph (B) the following:

“(C) in the case of an agreement period of greater than 5 years under subsection (c)(7), conduct an audit covering the first 5 years of the agreement period; and”;

(3) by adding at the end the following:

“(m) AGENCY DEEMED TO BE FEDERAL AGENCY.—A State agency that is assigned a responsibility under an agreement under this section shall be deemed to be a Federal agency for the purposes of all Federal laws pursuant to which the responsibility is exercised.”.

#### SEC. 1116. CORROSION PREVENTION FOR BRIDGES.

(a) DEFINITIONS.—In this section:

(1) APPLICABLE BRIDGE PROJECTS.—The term “applicable bridge projects” means a project for construction, alteration, or maintenance work, other than de minimus maintenance or repair work as determined by the applicable State department of transportation, on a bridge or overpass structure funded under title 23, United States Code.

(2) CERTIFIED CONTRACTOR.—The term “certified contractor” means a contracting or subcontracting firm that has been certified by a third party organization that evaluates the capability of the contractor or subcontractor to properly perform one or more specified aspects of applicable bridge projects as defined in subsection (b)(2).

(3) QUALIFIED TRAINING PROGRAM.—The term “qualified training program” means a training program in corrosion control, mitigation and prevention, that is either offered or accredited by an organization that sets industry corrosion

standards or is recognized in corrosion management transportation structures by the Department of Transportation, for the purposes of controlling, mitigating and preventing corrosion, or a program registered under the Act of August 16, 1937 (29 U.S.C. 50 et seq.) (commonly known as the “National Apprenticeship Act”) that meets the requirements of parts 29 and 30 of title 29, Code of Federal Regulations, as in effect on January 1, 2020.

(b) APPLICABLE BRIDGE PROJECTS.—

(1) QUALITY CONTROL.—A certified contractor shall carry out aspects of an applicable bridge project described in paragraph (2).

(2) ASPECTS OF APPLICABLE BRIDGE PROJECTS.—Aspects of an applicable bridge project referred to in paragraph (1) include—

(A) surface preparation or coating application on steel or rebar of an applicable bridge project;

(B) removal of a lead-based or other hazardous coating from steel of an existing applicable bridge project;

(C) shop painting of structural steel or rebar fabricated for installation on an applicable bridge project; and

(D) the design, application, installation and maintenance of a cathodic protection system on an applicable bridge project.

(3) CORROSION MANAGEMENT SYSTEM.—A State transportation department shall—

(A) implement a corrosion management system that utilizes industry-recognized standards and corrosion mitigation and prevention methods to address—

(i) surface preparation;  
 (ii) protective coatings;  
 (iii) materials selection;  
 (iv) cathodic protection;  
 (v) corrosion engineering;  
 (vi) personnel training; and  
 (vii) best practices in environmental protection to prevent environmental degradation and uphold public health;

(B) require certified contractors that employ appropriately trained and certified coating applicators to carry out aspects of applicable bridge projects as described in paragraph (2); and

(C) use certified cathodic protection professionals for all aspects of applicable bridge projects that require knowledge of the design, installation, monitoring, or maintenance of a cathodic protection system.

(c) TRAINING PROGRAM.—As a condition of entering into a contract for an applicable bridge project, each certified contractor shall provide training, through a qualified training program, for each applicable craft or trade classification of employees that the certified contractor intends to employ to carry out aspects of applicable bridge projects as described in subsection (b)(2).

#### SEC. 1117. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) States should utilize life-cycle cost analysis to evaluate the total economic cost of a transportation project over its expected lifetime; and

(2) data indicating that future repair costs associated with a transportation project frequently total more than half of the initial cost of the project, and that conducting life-cycle cost analysis prior to construction will help States identify the most cost-effective option, improve their economic performance, and lower the total cost of building and maintaining the project.

#### Subtitle B—Programmatic Infrastructure Investment

#### SEC. 1201. NATIONAL HIGHWAY PERFORMANCE PROGRAM.

Section 119 of title 23, United States Code, is amended—

(1) by striking subsection (b) and inserting the following:

“(b) PURPOSES.—The purposes of the national highway performance program shall be—

“(1) to provide support for the condition and performance of the National Highway System,

consistent with the asset management plans of States;

“(2) to support progress toward the achievement of performance targets of States established under section 150;

“(3) to increase the resilience of Federal-aid highways and bridges; and

“(4) to provide support for the construction of new facilities on the National Highway System, consistent with subsection (d)(3).”;

(2) in subsection (d)—

(A) in paragraph (1)(A) by striking “or freight movement on the National Highway System” and inserting “freight movement, environmental sustainability, transportation system access, or combating climate change”;

(B) in paragraph (1)(B) by striking “and” at the end;

(C) in paragraph (2)—

(i) in subparagraph (G)—

(I) in clause (i) by inserting “and” at the end;

(II) in clause (ii) by striking “; and” and inserting a period; and

(III) by striking clause (iii);

(ii) in subparagraph (I) by inserting “, including the installation of safety barriers and nets on bridges on the National Highway System” after “National Highway System”; and

(iii) by adding at the end the following:

“(Q) Projects on or off the National Highway System to reduce greenhouse gas emissions that are eligible under section 171, including the installation of electric vehicle charging infrastructure.

“(R) Projects on or off the National Highway System to enhance resilience of a transportation facility, including protective features.

“(S) Projects and strategies to reduce vehicle-caused wildlife mortality related to, or to restore and maintain connectivity among terrestrial or aquatic habitats affected by, a transportation facility otherwise eligible for assistance under this section.

“(T) Projects on or off the National Highway System to improve an evacuation route eligible under section 124(b)(1)(C).

“(U) Undergrounding public utilities in the course of other infrastructure improvements eligible under this section to mitigate the cost of recurring damages from extreme weather events, wildfire or other natural disasters.”; and

(D) by adding at the end the following:

“(3) a project that is otherwise eligible under this subsection to construct new capacity for single occupancy passenger vehicles only if the State—

“(A) has demonstrated progress in achieving a state of good repair, as defined in the State’s asset management plan, on the National Highway System;

“(B) demonstrates that the project—

“(i) supports the achievement of performance targets of the State established under section 150; and

“(ii) is more cost effective, as determined by benefit-cost analysis, than—

“(I) an operational improvement to the facility or corridor;

“(II) the construction of a transit project eligible for assistance under chapter 53 of title 49; or

“(III) the construction of a non-single occupancy passenger vehicle project that improves freight movement; and

“(C) has a public plan for maintaining and operating the new asset while continuing its progress in achieving a state of good repair under subparagraph (A).”;

(3) in subsection (e)—

(A) in the heading by inserting “ASSET AND” after “STATE”;

(B) in paragraph (4)(D) by striking “analysis” and inserting “analyses, both of which shall take into consideration climate change adaptation and resilience”; and

(C) in paragraph (8) by striking “Not later than 18 months after the date of enactment of the MAP-21, the Secretary” and inserting “The Secretary”; and

(4) by adding at the end the following:

“(k) BENEFIT-COST ANALYSIS.—In carrying out subsection (d)(3)(B)(ii), the Secretary shall establish a process for analyzing the cost and benefits of projects under such subsection, ensuring that—

“(1) the benefit-cost analysis includes a calculation of all the benefits addressed in the performance measures established under section 150;

“(2) the benefit-cost analysis includes a consideration of the total maintenance cost of an asset over the lifecycle of the asset; and

“(3) the State demonstrates that any transportation demand modeling used to calculate the benefit-cost analysis has a documented record of accuracy.”.

#### SEC. 1202. INCREASING THE RESILIENCE OF TRANSPORTATION ASSETS.

(a) PREDISASTER MITIGATION PROGRAM.—

(1) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by inserting after section 123 the following:

##### “§ 124. Predisaster mitigation program

“(a) ESTABLISHMENT.—The Secretary shall establish and implement a predisaster mitigation program to enhance the resilience of the transportation system of the United States, mitigate the impacts of covered events, and ensure the efficient use of Federal resources.

“(b) ELIGIBLE ACTIVITIES.—

“(1) IN GENERAL.—Subject to paragraph (2), funds apportioned to the State under section 104(b)(8) may be obligated for construction activities, including construction of natural infrastructure or protective features, and the development of such projects and programs that help agencies to—

“(A) increase the resilience of a surface transportation infrastructure asset to withstand a covered event;

“(B) relocate or provide a reasonable alternative to a repeatedly damaged facility;

“(C) for an evacuation route identified in the vulnerability assessment required under section 134(i)(2)(I)(iii) or section 135(f)(10)(C)—

“(i) improve the capacity or operation of such evacuation route through—

“(I) communications and intelligent transportation system equipment and infrastructure;

“(II) counterflow measures; and

“(III) shoulders; and

“(ii) relocate such evacuation route or provide a reasonable alternative to such evacuation route to address the risk of a covered event; and

“(D) recover from incidents that significantly disrupt a regions transportation system including—

“(i) predisaster training programs that help agencies and regional stakeholders plan for and prepare multimodal recovery efforts; and

“(ii) the establishment of regional wide telework training and programs.

“(2) INFRASTRUCTURE RESILIENCE AND ADAPTATION.—No funds shall be obligated to a project under this section unless the project meets each of the following criteria:

“(A) The project is designed to ensure resilience over the anticipated service life of the surface transportation infrastructure asset.

“(B) The project is identified in the metropolitan or statewide transportation improvement program as a project to address resilience vulnerabilities, consistent with section 134(j)(3)(E) or 135(g)(5)(B)(iii).

“(C) For a project in a flood-prone area, the project sponsor considers hydrologic and hydraulic data and methods that integrate current and projected changes in flooding based on climate science over the anticipated service life of the surface transportation infrastructure asset and future forecasted land use changes.

“(3) PRIORITIZATION OF PROJECTS.—A State shall develop a process to prioritize projects under this section based on the degree to which the proposed project would—

“(A) be cost effective;

“(B) reduce the risk of disruption to a surface transportation infrastructure asset considered critical to support population centers, freight movement, economic activity, evacuation, recovery, or national security functions; and

“(C) ease disruptions to vulnerable, at-risk, or transit-dependant populations.

“(c) GUIDANCE.—The Secretary shall provide guidance to States to assist with the implementation of paragraphs (2) and (3) of subsection (b).

“(d) DEFINITIONS.—In this section:

“(1) COVERED EVENT.—The term ‘covered event’ means a climate change effect (including sea level rise), an extreme event, seismic activity, or any other natural disaster (including a wildfire or landslide).

“(2) SURFACE TRANSPORTATION INFRASTRUCTURE ASSET.—The term ‘surface transportation infrastructure asset’ means a facility eligible for assistance under this title or chapter 53 of title 49.”.

(2) CONFORMING AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 123 the following:

“124. Predisaster mitigation program.”.

(b) METROPOLITAN TRANSPORTATION PLANNING.—

(1) AMENDMENTS TO TITLE 23.—

(A) CLIMATE CHANGE AND RESILIENCE.—Section 134(i)(2) of title 23, United States Code, is amended by adding at the end the following:

“(I) CLIMATE CHANGE AND RESILIENCE.—

“(i) IN GENERAL.—The transportation planning process shall assess strategies to reduce the climate change impacts of the surface transportation system and conduct a vulnerability assessment to identify opportunities to enhance the resilience of the surface transportation system and ensure the efficient use of Federal resources.

“(ii) CLIMATE CHANGE MITIGATION AND IMPACTS.—A long-range transportation plan shall—

“(I) identify investments and strategies to reduce transportation-related sources of greenhouse gas emissions per capita;

“(II) identify investments and strategies to manage transportation demand and increase the rates of public transportation ridership, walking, bicycling, and carpools; and

“(III) recommend zoning and other land use policies that would support infill, transit-oriented development, and mixed use development.

“(iii) VULNERABILITY ASSESSMENT.—A long-range transportation plan shall incorporate a vulnerability assessment that—

“(I) includes a risk-based assessment of vulnerabilities of critical transportation assets and systems to covered events (as such term is defined in section 124);

“(II) considers, as applicable, the risk management analysis in the State’s asset management plan developed pursuant to section 119, and the State’s evaluation of reasonable alternatives to repeatedly damaged facilities conducted under part 667 of title 23, Code of Federal Regulations;

“(III) identifies evacuation routes, assesses the ability of any such routes to provide safe passage for evacuation and emergency response during an emergency event, and identifies any improvements or redundant facilities necessary to adequately facilitate safe passage;

“(IV) describes the metropolitan planning organization’s adaptation and resilience improvement strategies that will inform the transportation investment decisions of the metropolitan planning organization; and

“(V) is consistent with and complementary of the State and local mitigation plans required under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165).

“(iv) CONSULTATION.—The assessment described in this subparagraph shall be developed

in consultation with, as appropriate, State, local, and Tribal officials responsible for land use, housing, resilience, hazard mitigation, and emergency management.”.

(B) **RESILIENCE PROJECTS.**—Section 134(j)(3) of title 23, United States Code, is amended by adding at the end the following:

“(E) **RESILIENCE PROJECTS.**—The TIP shall—  
“(i) identify projects that address the vulnerabilities identified by the assessment in subsection (i)(2)(I)(iii); and

“(ii) describe how each project identified under clause (i) would improve the resilience of the transportation system.”.

(2) **AMENDMENTS TO TITLE 49.**—

(A) **CLIMATE CHANGE AND RESILIENCE.**—Section 5303(i)(2) of title 49, United States Code, is amended by adding at the end the following:

“(I) **CLIMATE CHANGE AND RESILIENCE.**—

“(i) **IN GENERAL.**—The transportation planning process shall assess strategies to reduce the climate change impacts of the surface transportation system and conduct a vulnerability assessment to identify opportunities to enhance the resilience of the surface transportation system and ensure the efficient use of Federal resources.

“(ii) **CLIMATE CHANGE MITIGATION AND IMPACTS.**—A long-range transportation plan shall—

“(I) identify investments and strategies to reduce transportation-related sources of greenhouse gas emissions per capita;

“(II) identify investments and strategies to manage transportation demand and increase the rates of public transportation ridership, walking, bicycling, and carpools; and

“(III) recommend zoning and other land use policies that would support infill, transit-oriented development, and mixed use development.

“(iii) **VULNERABILITY ASSESSMENT.**—A long-range transportation plan shall incorporate a vulnerability assessment that—

“(I) includes a risk-based assessment of vulnerabilities of critical transportation assets and systems to covered events (as such term is defined in section 124 of title 23);

“(II) considers, as applicable, the risk management analysis in the State’s asset management plan developed pursuant to section 119 of title 23, and the State’s evaluation of reasonable alternatives to repeatedly damaged facilities conducted under part 667 of title 23, Code of Federal Regulations;

“(III) identifies evacuation routes, assesses the ability of any such routes to provide safe passage for evacuation and emergency response during an emergency event, and identifies any improvements or redundant facilities necessary to adequately facilitate safe passage;

“(IV) describes the metropolitan planning organization’s adaptation and resilience improvement strategies that will inform the transportation investment decisions of the metropolitan planning organization; and

“(V) is consistent with and complementary of the State and local mitigation plans required under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165).

“(iv) **CONSULTATION.**—The assessment described in this subparagraph shall be developed in consultation, as appropriate, with State, local, and Tribal officials responsible for land use, housing, resilience, hazard mitigation, and emergency management.”.

(B) **RESILIENCE PROJECTS.**—Section 5303(j)(3) of title 49, United States Code, is amended by adding at the end the following:

“(E) **RESILIENCE PROJECTS.**—The TIP shall—

“(i) identify projects that address the vulnerabilities identified by the assessment in subsection (i)(2)(I)(iii); and

“(ii) describe how each project identified under clause (i) would improve the resilience of the transportation system.”.

(c) **STATEWIDE AND NONMETROPOLITAN PLANNING.**—

(1) **AMENDMENTS TO TITLE 23.**—

(A) **CLIMATE CHANGE AND RESILIENCE.**—Section 135(f) of title 23, United States Code, is amended by adding at the end the following:

“(10) **CLIMATE CHANGE AND RESILIENCE.**—

“(A) **IN GENERAL.**—The transportation planning process shall assess strategies to reduce the climate change impacts of the surface transportation system and conduct a vulnerability assessment to identify opportunities to enhance the resilience of the surface transportation system and ensure the efficient use of Federal resources.

“(B) **CLIMATE CHANGE MITIGATION AND IMPACTS.**—A long-range transportation plan shall—

“(i) identify investments and strategies to reduce transportation-related sources of greenhouse gas emissions per capita;

“(ii) identify investments and strategies to manage transportation demand and increase the rates of public transportation ridership, walking, bicycling, and carpools; and

“(iii) recommend zoning and other land use policies that would support infill, transit-oriented development, and mixed use development.

“(C) **VULNERABILITY ASSESSMENT.**—A long-range transportation plan shall incorporate a vulnerability assessment that—

“(i) includes a risk-based assessment of vulnerabilities of critical transportation assets and systems to covered events (as such term is defined in section 124);

“(ii) considers, as applicable, the risk management analysis in the State’s asset management plan developed pursuant to section 119, and the State’s evaluation of reasonable alternatives to repeatedly damaged facilities conducted under part 667 of title 23, Code of Federal Regulations;

“(iii) identifies evacuation routes, assesses the ability of any such routes to provide safe passage for evacuation and emergency response during an emergency event, and identifies any improvements or redundant facilities necessary to adequately facilitate safe passage;

“(iv) describes the State’s adaptation and resilience improvement strategies that will inform the transportation investment decisions of the State; and

“(v) is consistent with and complementary of the State and local mitigation plans required under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165).

“(D) **CONSULTATION.**—The assessment described in this subparagraph shall be developed in consultation with, as appropriate, State, local, and Tribal officials responsible for land use, housing, resilience, hazard mitigation, and emergency management.”.

(B) **RESILIENCE PROJECTS.**—Section 135(g)(5)(B) of title 23, United States Code, is amended by adding at the end the following:

“(iii) **RESILIENCE PROJECTS.**—The STIP shall—

“(I) identify projects that address the vulnerabilities identified by the assessment in subsection (i)(10)(B); and

“(II) describe how each project identified under subclause (I) would improve the resilience of the transportation system.”.

(2) **AMENDMENTS TO TITLE 49.**—

(A) **CLIMATE CHANGE AND RESILIENCE.**—Section 5304(f) of title 49, United States Code, is amended by adding at the end the following:

“(10) **CLIMATE CHANGE AND RESILIENCE.**—

“(A) **IN GENERAL.**—The transportation planning process shall assess strategies to reduce the climate change impacts of the surface transportation system and conduct a vulnerability assessment to identify opportunities to enhance the resilience of the surface transportation system and ensure the efficient use of Federal resources.

“(B) **CLIMATE CHANGE MITIGATION AND IMPACTS.**—A long-range transportation plan shall—

“(i) identify investments and strategies to reduce transportation-related sources of greenhouse gas emissions per capita;

“(ii) identify investments and strategies to manage transportation demand and increase the rates of public transportation ridership, walking, bicycling, and carpools; and

“(iii) recommend zoning and other land use policies that would support infill, transit-oriented development, and mixed use development.

“(C) **VULNERABILITY ASSESSMENT.**—A long-range transportation plan shall incorporate a vulnerability assessment that—

“(i) includes a risk-based assessment of vulnerabilities of critical transportation assets and systems to covered events (as such term is defined in section 124 of title 23);

“(ii) considers, as applicable, the risk management analysis in the State’s asset management plan developed pursuant to section 119 of title 23, and the State’s evaluation of reasonable alternatives to repeatedly damaged facilities conducted under part 667 of title 23, Code of Federal Regulations;

“(iii) identifies evacuation routes, assesses the ability of any such routes to provide safe passage for evacuation and emergency response during an emergency event, and identifies any improvements or redundant facilities necessary to adequately facilitate safe passage;

“(iv) describes the State’s adaptation and resilience improvement strategies that will inform the transportation investment decisions of the State; and

“(v) is consistent with and complementary of the State and local mitigation plans required under section 322 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5165).

(D) **CONSULTATION.**—The assessment described in this subparagraph shall be developed in consultation with, as appropriate, State, local, and Tribal officials responsible for land use, housing, resilience, hazard mitigation, and emergency management.”.

(B) **RESILIENCE PROJECTS.**—Section 5304(g)(5)(B) of title 49, United States Code, is amended by adding at the end the following:

“(iii) **RESILIENCE PROJECTS.**—The STIP shall—

“(I) identify projects that address the vulnerabilities identified by the assessment in subsection (i)(10)(B); and

“(II) describe how each project identified under subclause (I) would improve the resilience of the transportation system.”.

#### SEC. 1203. EMERGENCY RELIEF.

(a) **IN GENERAL.**—Section 125 of title 23, United States Code, is amended—

(1) in subsection (a)(1) by inserting “wildfire,” after “severe storm,”;

(2) by striking subsection (b);

(3) in subsection (c)(2)(A) by striking “in any 1 fiscal year commencing after September 30, 1980,” and inserting “in any fiscal year”;

(4) in subsection (d)—

(A) in paragraph (3)(C) by striking “subsection (e)(1)” and inserting “subsection (g)”;

(B) by redesignating paragraph (3) as paragraph (4); and

(C) by striking paragraphs (1) and (2) and inserting the following:

“(1) **IN GENERAL.**—The Secretary may expend funds from the emergency fund authorized by this section only for the repair or reconstruction of highways on Federal-aid highways in accordance with this chapter.

“(2) **RESTRICTIONS.**—

“(A) **IN GENERAL.**—No funds shall be expended from the emergency fund authorized by this section unless—

“(i) an emergency has been declared by the Governor of the State with concurrence by the Secretary, unless the President has declared the emergency to be a major disaster for the purposes of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) for which concurrence of the Secretary is not required; and

“(ii) the Secretary has received an application from the State transportation department that

includes a comprehensive list of all eligible project sites and repair costs by not later than 2 years after the natural disaster or catastrophic failure.

“(B) **COST LIMITATION.**—The total cost of a project funded under this section may not exceed the cost of repair or reconstruction of a comparable facility unless the Secretary determines that the project incorporates economically justified betterments, including protective features to increase the resilience of the facility.

“(3) **SPECIAL RULE FOR BRIDGE PROJECTS.**—In no case shall funds be used under this section for the repair or reconstruction of a bridge—

“(A) that has been permanently closed to all vehicular traffic by the State or responsible local official because of imminent danger of collapse due to a structural deficiency or physical deterioration; or

“(B) if a construction phase of a replacement structure is included in the approved statewide transportation improvement program at the time of an event described in subsection (a).”;

(5) in subsection (e)—

(A) by striking paragraph (1);

(B) in paragraph (2) by striking “subsection (d)(1)” and inserting “subsection (c)(1)”; and

(C) by redesignating paragraphs (2) and (3), as amended, as paragraphs (1) and (2), respectively;

(6) by redesignating subsections (c) through (g), as amended, as subsections (f) through (j), respectively; and

(7) by adding at the end the following:

“(g) **IMPOSITION OF DEADLINE.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary may not require any project funded under this section to advance to the construction obligation stage before the date that is the last day of the sixth fiscal year after the later of—

“(A) the date on which the Governor declared the emergency, as described in subsection (d)(2)(A)(i); or

“(B) the date on which the President declared the emergency to be a major disaster, as described in such subsection.

“(2) **EXTENSION OF DEADLINE.**—If the Secretary imposes a deadline for advancement to the construction obligation stage pursuant to paragraph (1), the Secretary may, upon the request of the Governor of the State, issue an extension of not more than 1 year to complete such advancement, and may issue additional extensions after the expiration of any extension, if the Secretary determines the Governor of the State has provided suitable justification to warrant such an extension.

“(h) **HAZARD MITIGATION PILOT PROGRAM.**—

“(1) **IN GENERAL.**—The Secretary shall establish a hazard mitigation pilot program for the purpose of mitigating future hazards posed to Federal-aid highways.

“(2) **DISTRIBUTION OF FUNDS.**—

“(A) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated such sums as may be necessary for the pilot program established under this subsection.

“(B) **CALCULATION.**—Every 6 months, the Secretary shall calculate the total amount of outstanding eligible repair costs under the emergency relief program under this section, including the emergency relief backlog, for each State, territory, Tribal government, or other eligible entity.

“(C) **DISTRIBUTION.**—Any amounts made available under this subsection shall be distributed to each State, territory, Tribal government, or other eligible entity based on—

“(i) the ratio of the total amount of outstanding eligible repair costs as described under subparagraph (B); bears to

“(ii) the total amounts appropriated for the purposes described in this subsection.

“(D) **LIMITATION.**—The distribution described under subparagraph (C) shall not exceed 5 percent of the amount described in subparagraph (B).

“(3) **ELIGIBLE ACTIVITIES.**—Amounts made available under this subsection shall be used for protective features or other hazard mitigation activities that—

“(A) the Secretary determines are cost effective and that reduce the risk of, or increase the resilience to, future damage to existing assets as a result of natural disasters; and

“(B) are eligible under section 124.

“(4) **REPORT.**—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate an annual report detailing—

“(A) a description of the activities carried out under the pilot program;

“(B) an evaluation of the effectiveness of the pilot program in meeting purposes described in paragraph (1);

“(C) policy recommendations to improve the effectiveness of the pilot program.

“(5) **SUNSET.**—The authority provided under this subsection shall terminate on October 1, 2025.

“(i) **IMPROVING THE EMERGENCY RELIEF PROGRAM.**—Not later than 90 days after the date of enactment of the INVEST in America Act, the Secretary shall—

“(1) revise the emergency relief manual of the Federal Highway Administration—

“(A) to include and reflect the definition of the term ‘resilience’ (as defined in section 101(a));

“(B) to identify procedures that States may use to incorporate resilience into emergency relief projects; and

“(C) to encourage the use of context sensitive design principles and consideration of access for moderate- and low-income families impacted by a declared disaster;

“(2) develop best practices for improving the use of resilience in—

“(A) the emergency relief program under section 125; and

“(B) emergency relief efforts;

“(3) provide to division offices of the Federal Highway Administration and State departments of transportation information on the best practices developed under paragraph (2); and

“(4) develop and implement a process to track—

“(A) the consideration of resilience as part of the emergency relief program under section 125; and

“(B) the costs of emergency relief projects.

“(j) **DEFINITIONS.**—In this section:

“(1) **COMPARABLE FACILITY.**—The term ‘comparable facility’ means a facility that meets the current geometric and construction standards required for the types and volume of traffic that the facility will carry over its design life.

“(2) **CONSTRUCTION PHASE.**—The term ‘construction phase’ means the phase of physical construction of a highway or bridge facility that is separate from any other identified phases, such as planning, design, or right-of-way phases, in the State transportation improvement program.

“(3) **OPEN TO PUBLIC TRAVEL.**—The term ‘open to public travel’ means with respect to a road, that, except during scheduled periods, extreme weather conditions, or emergencies, the road—

“(A) is maintained;

“(B) is open to the general public; and

“(C) can accommodate travel by a standard passenger vehicle, without restrictive gates or prohibitive signs or regulations, other than for general traffic control or restrictions based on size, weight, or class of registration.

“(4) **STANDARD PASSENGER VEHICLE.**—The term ‘standard passenger vehicle’ means a vehicle with 6 inches of clearance from the lowest point of the frame, body, suspension, or differential to the ground.”.

(b) **CONFORMING AMENDMENTS.**—

(1) **FEDERAL LANDS AND TRIBAL TRANSPORTATION PROGRAMS.**—Section 201(c)(8)(A) of title

23, United States Code, is amended by striking “section 125(e)” and inserting “section 125(g)”.

(2) **TRIBAL TRANSPORTATION PROGRAM.**—Section 202(b)(6)(A) of title 23, United States Code, is amended by striking “section 125(e)” and inserting “section 125(d)”.

(c) **REPEAL.**—Section 668.105(h) of title 23, Code of Federal Regulations, is repealed.

#### SEC. 1204. RAILWAY CROSSINGS.

(a) **IN GENERAL.**—Section 130 of title 23, United States Code, is amended—

(1) in the section heading by striking “**Railway-highway crossings**” and inserting “**Railway crossings**”;

(2) in subsection (a)—

(A) by striking “Subject to section 120 and subsection (b) of this section, the entire” and inserting “**IN GENERAL.**—The”;

(B) by striking “then the entire” and inserting “the”; and

(C) by striking “, subject to section 120 and subsection (b) of this section.”;

(3) by amending subsection (b) to read as follows:

“(b) **CLASSIFICATION.**—

“(1) **IN GENERAL.**—The construction of projects for the elimination of hazards at railway crossings represents a benefit to the railroad. The Secretary shall classify the various types of projects involved in the elimination of hazards of railway-highway crossings, and shall set for each such classification a percentage of the total project cost that represent the benefit to the railroad or railroads for the purpose of determining the railroad’s share of the total project cost. The Secretary shall determine the appropriate classification of each project.

“(2) **NONCASH CONTRIBUTIONS.**—

“(A) **IN GENERAL.**—Not more than 5 percent of the cost share described in paragraph (1) may be attributable to noncash contributions of materials and labor furnished by the railroad in connection with the construction of such project.

“(B) **REQUIREMENT.**—The requirements under section 200.306 and 200.403(g) of title 2, Code of Federal Regulations (or successor regulations), shall apply to any noncash contributions under this subsection.

“(3) **TOTAL PROJECT COST.**—For the purposes of this subsection, the determination of the railroad’s share of the total project cost shall include environment, design, right-of-way, utility accommodation, and construction phases of the project.”.

(4) in subsection (c)—

(A) by striking “Any railroad involved” and inserting “**BENEFIT.**—Any railroad involved”;

(B) by striking “the net benefit” and inserting “the cost associated with the benefit”; and

(C) by striking “Such payment may consist in whole or in part of materials and labor furnished by the railroad in connection with the construction of such project.”;

(5) by striking subsection (e) and inserting the following:

“(e) **RAILWAY CROSSINGS.**—

“(1) **ELIGIBLE ACTIVITIES.**—Funds apportioned to a State under section 104(b)(7) may be obligated for the following:

“(A) The elimination of hazards at railway-highway crossings, including technology or protective upgrades.

“(B) Construction (including installation and replacement) of protective devices at railway-highway crossings.

“(C) Infrastructure and noninfrastructure projects and strategies to prevent or reduce suicide or trespasser fatalities and injuries along railroad rights-of-way and at or near railway-highway crossings.

“(D) Projects to mitigate any degradation in the level of access from a highway-grade crossing closure.

“(E) Bicycle and pedestrian railway grade crossing improvements, including underpasses and overpasses.

“(F) Projects eligible under section 22907(c)(5) of title 49, provided that amounts obligated under this subparagraph—

“(i) shall be administered by the Secretary in accordance with such section as if such amounts were made available to carry out such section; and

“(ii) may be used to pay up to 90 percent of the non-Federal share of the cost of a project carried out under such section.

“(2) **SPECIAL RULE.**—If a State demonstrates to the satisfaction of the Secretary that the State has met all its needs for installation of protective devices at railway-highway crossings, the State may use funds made available by this section for other highway safety improvement program purposes.”;

(6) by striking subsection (f) and inserting the following:

“(f) **FEDERAL SHARE.**—Notwithstanding section 120, the Federal share payable on account of any project financed with funds made available to carry out subsection (e) shall be up to 90 percent of the cost thereof.”;

(7) by striking subsection (g) and inserting the following:

“(g) **REPORT.**—

“(1) **STATE REPORT.**—

“(A) **IN GENERAL.**—Not later than 2 years after the date of enactment of the INVEST in America Act, and at least biennially thereafter, each State shall submit to the Secretary a report on the progress being made to implement the railway crossings program authorized by this section and the effectiveness of such improvements.

“(B) **CONTENTS.**—Each State report under subparagraph (A) shall contain an assessment of the costs of the various treatments employed and subsequent accident experience at improved locations.

“(2) **DEPARTMENTAL REPORT.**—

“(A) **IN GENERAL.**—Not later than 180 days after the deadline for the submission of a report under paragraph (1)(A), the Secretary shall publish on the website of the Department of Transportation a report on the progress being made by the State in implementing projects to improve railway-highway crossings.

“(B) **CONTENTS.**—The report under subparagraph (A) shall include—

“(i) the number of projects undertaken;

“(ii) distribution of such projects by cost range, road system, nature of treatment, and subsequent accident experience at improved locations;

“(iii) an analysis and evaluation of each State program;

“(iv) the identification of any State found not to be in compliance with the schedule of improvements required by subsection (d); and

“(v) recommendations for future implementation of the railway crossings program.”;

(8) in subsection (j)—

(A) in the heading by inserting “AND PEDESTRIAN” after “BICYCLE”; and

(B) by inserting “and pedestrian” after “bicycle”; and

(9) in subsection (l)—

(A) in paragraph (1) by striking “Not later than” and all that follows through “each State” and inserting “Not later than 6 months after a new railway crossing becomes operational, each State”; and

(B) in paragraph (2) by striking “On a periodic” and all that follows through “every year thereafter” and inserting “On or before September 30 of each year”.

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 1 of title 23, United States Code, is amended by amending the item relating to section 130 to read as follows:

“130. Railway crossings.”.

(c) **GAO STUDY.**—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report that includes an analysis of the effectiveness of the railway crossing program under section 130 of title 23, United States Code.

(d) **SENSE OF CONGRESS RELATING TO TRESPASSER DEATHS ALONG RAILROAD RIGHTS-OF-WAY.**—It is the sense of Congress that the Department of Transportation should, where feasible, coordinate departmental efforts to prevent or reduce trespasser deaths along railroad rights-of-way and at or near railway-highway crossings.

#### SEC. 1205. SURFACE TRANSPORTATION PROGRAM.

(a) **IN GENERAL.**—Section 133 of title 23, United States Code, is amended—

(1) in the heading by striking “**block grant**”;

(2) in subsection (a) by striking “block grant”;

(3) in subsection (b)—

(A) by striking “block grant”;

(B) in paragraph (4) by striking “railway-highway grade crossings” and inserting “projects eligible under section 130 and installation of safety barriers and nets on bridges”;

(C) in paragraph (6)—

(i) by striking “Recreational” and inserting “Transportation alternatives projects eligible under subsection (h), recreational”; and

(ii) by striking “1404 of SAFETEA-LU (23 U.S.C. 402 note)” and inserting “211”; and

(D) by adding at the end the following:

“(16) Protective features (including natural infrastructure and vegetation control and clearance) to enhance the resilience of a transportation facility otherwise eligible for assistance under this section.

“(17) Projects to reduce greenhouse gas emissions eligible under section 171, including the installation of electric vehicle charging infrastructure.

“(18) Projects and strategies to reduce vehicle-caused wildlife mortality related to, or to restore and maintain connectivity among terrestrial or aquatic habitats affected by, a transportation facility otherwise eligible for assistance under this section.

“(19) A surface transportation project carried out in accordance with the national travel and tourism infrastructure strategic plan under section 1431(e) of the FAST Act (49 U.S.C. 301 note).”;

(4) in subsection (c)—

(A) by striking “block grant” and inserting “program”;

(B) by striking paragraph (3) and inserting the following:

“(3) for a project described in—

“(A) subsection (h); or

“(B) section 101(a)(29), as in effect on the day before the date of enactment of the FAST Act.”;

(C) by redesignating paragraph (4) as paragraph (5); and

(D) by inserting after paragraph (3) the following:

“(4) for a project described in section 5308 of title 49; and”;

(5) in subsection (d)—

(A) in paragraph (1)—

(i) by inserting “each fiscal year” after “apportioned to a State”;

(ii) by striking “the reservation of” and inserting “setting aside”; and

(iii) in subparagraph (A)—

(I) by striking “the percentage specified in paragraph (6) for a fiscal year” and inserting “57 percent for fiscal year 2022, 58 percent for fiscal year 2023, 59 percent for fiscal year 2024, and 60 percent for fiscal year 2025”;

(II) in clause (i) by striking “of over” and inserting “greater than”; and

(III) by striking clauses (ii) and (iii) and inserting the following:

“(ii) in urbanized areas of the State with an urbanized area population greater than 49,999 and less than 200,001;

“(iii) in urban areas of the State with a population greater than 4,999 and less than 50,000; and

“(iv) in other areas of the State with a population less than 5,000; and”;

(B) by striking paragraph (3) and inserting the following:

“(3) **LOCAL COORDINATION AND CONSULTATION.**—

“(A) **COORDINATION WITH METROPOLITAN PLANNING ORGANIZATIONS.**—For purposes of paragraph (1)(A)(ii), a State shall—

“(i) establish a process to coordinate with all metropolitan planning organizations in the State that represent an urbanized area described in such paragraph; and

“(ii) describe how funds described under paragraph (1)(A)(ii) will be allocated equitably among such urbanized areas during the period of fiscal years 2022 through 2025.

“(B) **JOINT RESPONSIBILITY.**—Each State and the Secretary shall jointly ensure compliance with subparagraph (A).

“(C) **CONSULTATION WITH REGIONAL TRANSPORTATION PLANNING ORGANIZATIONS.**—For purposes of clauses (iii) and (iv) of paragraph (1)(A), before obligating funding attributed to an area with a population less than 50,000, a State shall consult with the regional transportation planning organizations that represent the area, if any.”;

(C) in the heading for paragraph (4) by striking “OVER 200,000” and inserting “GREATER THAN 200,000”;

(D) by striking paragraph (6) and inserting the following:

“(6) **TECHNICAL ASSISTANCE.**—

“(A) **IN GENERAL.**—The State and all metropolitan planning organizations in the State that represent an urbanized area with a population of greater than 200,000 shall jointly establish a program to improve the ability of applicants to deliver projects under this subsection in an efficient and expeditious manner and reduce the period of time between the selection of the project and the obligation of funds for the project by providing—

“(i) technical assistance and training to applicants for projects under this subsection; and

“(ii) funding for 1 or more full-time State employee positions to administer this subsection.

“(B) **ELIGIBLE FUNDS.**—To carry out this paragraph—

“(i) a State shall set aside an amount equal to 1 percent of the funds available under paragraph (1)(A)(i); and

“(ii) at the request of an eligible metropolitan planning organization, the State and metropolitan planning organization may jointly agree to use additional funds available under paragraph (1)(A)(i).

“(C) **USE OF FUNDS.**—Amounts used under this paragraph may be expended—

“(i) directly by the State; or

“(ii) through contracts with State agencies, private entities, or nonprofit organizations.”;

(6) in subsection (e)(1)—

(A) by striking “over 200,000” and inserting “greater than 200,000”; and

(B) by striking “2016 through 2020” and inserting “2022 through 2025”;

(7) by striking subsection (f) and inserting the following:

“(f) **BRIDGES NOT ON FEDERAL-AID HIGHWAYS.**—

“(1) **DEFINITION OF OFF-SYSTEM BRIDGE.**—In this subsection, the term ‘off-system bridge’ means a bridge located on a public road, other than a bridge on a Federal-aid highway.

“(2) **SPECIAL RULE.**—

“(A) **SET ASIDE.**—Of the amounts apportioned to a State for each fiscal year under this section other than the amounts described in subparagraph (C), the State shall obligate for activities described in subsection (b)(2) (as in effect on the day before the date of enactment of the FAST Act) for off-system bridges an amount that is not less than 20 percent of the amounts available to such State under this section in fiscal year 2020, not including the amounts described in subparagraph (C).

“(B) **REDUCTION OF EXPENDITURES.**—The Secretary, after consultation with State and local

officials, may reduce the requirement for expenditures for off-system bridges under subparagraph (A) with respect to the State if the Secretary determines that the State has inadequate needs to justify the expenditure.

“(C) LIMITATIONS.—The following amounts shall not be used for the purposes of meeting the requirements of subparagraph (A):

“(i) Amounts described in section 133(d)(1)(A).

“(ii) Amounts set aside under section 133(h).

“(iii) Amounts described in section 505(a).

“(3) CREDIT FOR BRIDGES NOT ON FEDERAL-AID HIGHWAYS.—Notwithstanding any other provision of law, with respect to any project not on a Federal-aid highway for the replacement of a bridge or rehabilitation of a bridge that is wholly funded from State and local sources, is eligible for Federal funds under this section, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined by the Secretary upon completion to be no longer a deficient bridge—

“(A) any amount expended after the date of enactment of this subsection from State and local sources for the project in excess of 20 percent of the cost of construction of the project may be credited to the non-Federal share of the cost of other bridge projects in the State that are eligible for Federal funds under this section; and

“(B) that crediting shall be conducted in accordance with procedures established by the Secretary.”; and

(8) in subsection (g)(1)—

(A) by striking “subsection (d)(1)(A)(ii) for each of fiscal years 2016 through 2020” and inserting “subsection (d)(1)(A)(iv) for each fiscal year”; and

(B) by inserting “rural” after “functionally classified as”; and

(C) by inserting “or local roads, or on critical rural freight corridors designated under section 167(e)” after “minor collectors”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 133 and inserting the following:

“133. Surface transportation program.”.

(c) CONFORMING AMENDMENTS.—

(1) ADVANCE ACQUISITION OF REAL PROPERTY.—Section 108(c) of title 23, United States Code, is amended—

(A) in paragraph (2)(A) by striking “block grant”; and

(B) in paragraph (3) by striking “block grant”.

(2) PUBLIC TRANSPORTATION.—Section 142(e)(2) of title 23, United States Code, is amended by striking “block grant”.

(3) HIGHWAY USE TAX EVASION PROJECTS.—Section 143(b)(8) of title 23, United States Code, is amended in the heading by striking “BLOCK GRANT”.

(4) CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.—Section 149(d) of title 23, United States Code, is amended—

(A) in paragraph (1)(B) by striking “block grant”; and

(B) in paragraph (2)(A) by striking “block grant”.

(5) TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.—Section 165 of title 23, United States Code, is amended—

(A) in subsection (b)(2)(A)(ii) by striking “block grant” each time such term appears; and

(B) in subsection (c)(6)(A)(i) by striking “block grant”.

(6) MAGNETIC LEVITATION TRANSPORTATION TECHNOLOGY DEPLOYMENT PROGRAM.—Section 322(h)(3) of title 23, United States Code, is amended by striking “block grant”.

(7) TRAINING AND EDUCATION.—Section 504(a)(4) of title 23, United States Code, is amended by striking “block grant”.

## SEC. 1206. TRANSPORTATION ALTERNATIVES PROGRAM.

Section 133(h) of title 23, United States Code, is amended to read as follows:

“(h) TRANSPORTATION ALTERNATIVES PROGRAM SET-ASIDE.—

“(1) SET ASIDE.—For each fiscal year, of the total funds apportioned to all States under section 104(b)(2) for a fiscal year, the Secretary shall set aside an amount such that—

“(A) the Secretary sets aside a total amount under this subsection for a fiscal year equal to 10 percent of such total funds; and

“(B) the State’s share of the amount set aside under subparagraph (A) is determined by multiplying the amount set aside under subparagraph (A) by the ratio that—

“(i) the amount apportioned to the State for the transportation enhancement program for fiscal year 2009 under section 133(d)(2), as in effect on the day before the date of enactment of MAP-21; bears to

“(ii) the total amount of funds apportioned to all States for the transportation enhancements program for fiscal year 2009.

“(2) ALLOCATION WITHIN A STATE.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), funds set aside for a State under paragraph (1) shall be obligated within that State in the manner described in subsections (d) and (e), except that, for purposes of this paragraph (after funds are made available under paragraph (5))—

“(i) for each fiscal year, the percentage referred to in paragraph (1)(A) of subsection (d) shall be deemed to be 66 percent; and

“(ii) paragraph (3) of subsection (d) shall not apply.

“(B) LOCAL CONTROL.—

“(i) IN GENERAL.—A State may make available up to 100 percent of the funds set aside under paragraph (1) to the entities described in subclause (I) if the State submits to the Secretary, and the Secretary approves, a plan that describes—

“(I) how such funds shall be made available to metropolitan planning organizations, regional transportation planning organizations, counties, or other regional transportation authorities;

“(II) how the entities described in subclause (I) shall select projects for funding and how such entities shall report selected projects to the State;

“(III) the legal, financial, and technical capacity of such entities; and

“(IV) the procedures in place to ensure such entities comply with the requirements of this title.

“(ii) REQUIREMENT.—A State that makes funding available under a plan approved under this subparagraph shall make available an equivalent amount of obligation authority to an entity described in clause (i)(I) to whom funds are made available under this subparagraph.

“(3) ELIGIBLE PROJECTS.—Funds set aside under this subsection may be obligated for any of the following projects or activities:

“(A) Construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

“(B) Construction, planning, and design of infrastructure-related projects and systems that will provide safe routes for nondrivers, including children, older adults, and individuals with disabilities to access daily needs.

“(C) Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.

“(D) Construction of turnouts, overlooks, and viewing areas.

“(E) Community improvement activities, including—

“(i) inventory, control, or removal of outdoor advertising;

“(ii) historic preservation and rehabilitation of historic transportation facilities;

“(iii) vegetation management practices in transportation rights-of-way to improve roadway safety, prevent against invasive species, facilitate wildfire control, and provide erosion control; and

“(iv) archaeological activities relating to impacts from implementation of a transportation project eligible under this title.

“(F) Any environmental mitigation activity, including pollution prevention and pollution abatement activities and mitigation to address stormwater management, control, and water pollution prevention or abatement related to highway construction or due to highway runoff, including activities described in sections 328(a) and 329.

“(G) Projects and strategies to reduce vehicle-caused wildlife mortality related to, or to restore and maintain connectivity among terrestrial or aquatic habitats affected by, a transportation facility otherwise eligible for assistance under this subsection.

“(H) The recreational trails program under section 206.

“(I) The safe routes to school program under section 211.

“(J) Activities in furtherance of a vulnerable road user assessment described in section 148.

“(K) Any other projects or activities described in section 101(a)(29) or section 213, as such sections were in effect on the day before the date of enactment of the FAST Act (Public Law 114-94).

“(4) ACCESS TO FUNDS.—

“(A) IN GENERAL.—A State, metropolitan planning organization required to obligate funds in accordance with paragraph (2)(A), or an entity required to obligate funds in accordance with paragraph (2)(B) shall develop a competitive process to allow eligible entities to submit projects for funding that achieve the objectives of this subsection. A metropolitan planning organization for an area described in subsection (d)(1)(A)(i) shall select projects under such process in consultation with the relevant State.

“(B) ELIGIBLE ENTITY DEFINED.—In this paragraph, the term ‘eligible entity’ means—

“(i) a local government, including a county or multi-county special district;

“(ii) a regional transportation authority;

“(iii) a transit agency;

“(iv) a natural resource or public land agency;

“(v) a school district, local education agency, or school;

“(vi) a tribal government;

“(vii) a metropolitan planning organization that serves an urbanized area with a population of 200,000 or fewer;

“(viii) a nonprofit organization carrying out activities related to transportation;

“(ix) any other local or regional governmental entity with responsibility for or oversight of transportation or recreational trails (other than a metropolitan planning organization that serves an urbanized area with a population of over 200,000 or a State agency) that the State determines to be eligible, consistent with the goals of this subsection; and

“(x) a State, at the request of any entity listed in clauses (i) through (ix).

“(5) CONTINUATION OF CERTAIN RECREATIONAL TRAILS PROJECTS.—

“(A) IN GENERAL.—For each fiscal year, a State shall—

“(i) obligate an amount of funds set aside under this subsection equal to 175 percent of the amount of the funds apportioned to the State for fiscal year 2009 under section 104(h)(2), as in effect on the day before the date of enactment of MAP-21, for projects relating to recreational trails under section 206;

“(ii) return 1 percent of the funds described in clause (i) to the Secretary for the administration of such program; and

“(iii) comply with the provisions of the administration of the recreational trails program

under section 206, including the use of apportioned funds described in subsection (d)(3)(A) of such section.

“(B) **STATE FLEXIBILITY.**—A State may opt out of the recreational trails program under this paragraph if the Governor of the State notifies the Secretary not later than 30 days prior to the date on which an apportionment is made under section 104 for any fiscal year.

“(6) **IMPROVING ACCESSIBILITY AND EFFICIENCY.**—

“(A) **IN GENERAL.**—A State may use an amount equal to not more than 5 percent of the funds set aside for the State under this subsection, after allocating funds in accordance with paragraph (2)(A), to improve the ability of applicants to access funding for projects under this subsection in an efficient and expeditious manner by providing—

“(i) to applicants for projects under this subsection application assistance, technical assistance, and assistance in reducing the period of time between the selection of the project and the obligation of funds for the project; and

“(ii) funding for 1 or more full-time State employee positions to administer this subsection.

“(B) **USE OF FUNDS.**—Amounts used under subparagraph (A) may be expended—

“(i) directly by the State; or

“(ii) through contracts with State agencies, private entities, or nonprofit entities.

“(7) **FEDERAL SHARE.**—

“(A) **FLEXIBLE MATCH.**—

“(i) **IN GENERAL.**—Notwithstanding section 120—

“(I) the non-Federal share for a project under this subsection may be calculated on a project, multiple-project, or program basis; and

“(II) the Federal share of the cost of an individual project in this subsection may be up to 100 percent.

“(ii) **AGGREGATE NON-FEDERAL SHARE.**—The average annual non-Federal share of the total cost of all projects for which funds are obligated under this subsection in a State for a fiscal year shall be not less than the non-Federal share authorized for the State under section 120(b).

“(iii) **REQUIREMENT.**—This subparagraph shall only apply to a State if such State has adequate financial controls, as certified by the Secretary, to account for the average annual non-Federal share under this subparagraph.

“(B) **SAFETY PROJECTS.**—Notwithstanding section 120, funds made available to carry out section 148 may be credited toward the non-Federal share of the costs of a project under this subsection if the project—

“(i) is a project described in section 148(e)(1); and

“(ii) is consistent with the State strategic highway safety plan (as defined in section 148(a)).

“(8) **FLEXIBILITY.**—

“(A) **STATE AUTHORITY.**—

“(i) **IN GENERAL.**—A State may use not more than 50 percent of the funds set aside under this subsection that are available for obligation in any area of the State (suballocated consistent with the requirements of subsection (d)(1)(B)) for any purpose eligible under subsection (b).

“(ii) **RESTRICTION.**—Funds may be used as described in clause (i) only if the State demonstrates to the Secretary—

“(I) that the State held a competition in compliance with the requirements of this subsection in such form as the Secretary determines appropriate;

“(II) that the State offered technical assistance to all eligible entities and provided such assistance upon request by an eligible entity; and

“(III) that there were not sufficient suitable applications from eligible entities to use the funds described in clause (i).

“(B) **MPO AUTHORITY.**—

“(i) **IN GENERAL.**—A metropolitan planning organization that represents an urbanized area with a population of greater than 200,000 may

use not more than 50 percent of the funds set aside under this subsection for an urbanized area described in subsection (d)(1)(A)(i) for any purpose eligible under subsection (b).

“(ii) **RESTRICTION.**—Funds may be used as described in clause (i) only if the Secretary certifies that the metropolitan planning organization—

“(I) held a competition in compliance with the requirements of this subsection in such form as the Secretary determines appropriate; and

“(II) demonstrates that there were not sufficient suitable applications from eligible entities to use the funds described in clause (i).

“(9) **ANNUAL REPORTS.**—

“(A) **IN GENERAL.**—Each State or metropolitan planning organization responsible for carrying out the requirements of this subsection shall submit to the Secretary an annual report that describes—

“(i) the number of project applications received for each fiscal year, including—

“(I) the aggregate cost of the projects for which applications are received; and

“(II) the types of projects to be carried out, expressed as percentages of the total apportionment of the State under this subsection; and

“(ii) the list of each project selected for funding for each fiscal year, including specifying the fiscal year for which the project was selected, the fiscal year in which the project is anticipated to be funded, the recipient, the location, the type, and a brief description.

“(B) **PUBLIC AVAILABILITY.**—The Secretary shall make available to the public, in a user-friendly format on the website of the Department of Transportation, a copy of each annual report submitted under subparagraph (A).”

#### **SEC. 1207. BRIDGE INVESTMENT.**

(a) **IN GENERAL.**—Section 144 of title 23, United States Code, is amended—

(1) in the section heading by striking “**National bridge and tunnel inventory and inspection standards**” and inserting “**Bridges and tunnels**”;

(2) in subsection (a)(1)(B) by striking “deficient”;

(3) in subsection (b)(5) by striking “structurally deficient bridge” and inserting “bridge classified as in poor condition”;

(4) in subsection (d)—

(A) in paragraph (2) by striking “Not later than 2 years after the date of enactment of the MAP-21, each” and inserting “Each”; and

(B) by striking paragraph (4);

(5) in subsection (j)—

(A) in paragraph (2) by inserting “, 124,” after “section 119”;

(B) in paragraph (3)(A) by inserting “, 124,” after “section 119”; and

(C) in paragraph (5) by striking “financial characteristics” and all that follows through the end and inserting “Federal share.”; and

(6) by adding at the end the following:

“(1) **HIGHWAY BRIDGE REPLACEMENT AND REHABILITATION.**—

“(I) **GOALS.**—The goals of this subsection shall be to—

“(A) support the achievement of a state of good repair for the Nation’s bridges;

“(B) improve the safety, efficiency, and reliability of the movement of people and freight over bridges; and

“(C) improve the condition of bridges in the United States by reducing—

“(i) the number of bridges—

“(I) in poor condition; or

“(II) in fair condition and at risk of falling into poor condition;

“(ii) the total person miles traveled over bridges—

“(I) in poor condition; or

“(II) in fair condition and at risk of falling into poor condition;

“(iii) the number of bridges that—

“(I) do not meet current geometric design standards; or

“(II) cannot meet the load and traffic requirements typical of the regional transportation network; and

“(iv) the total person miles traveled over bridges that—

“(I) do not meet current geometric design standards; or

“(II) cannot meet the load and traffic requirements typical of the regional transportation network.

“(2) **BRIDGES ON PUBLIC ROADS.**—

“(A) **MINIMUM BRIDGE INVESTMENT.**—Excluding the amounts described in subparagraph (C), of the total funds apportioned to a State under paragraphs (1) and (2) of section 104(b) for fiscal years 2022 to 2025, a State shall obligate not less than 20 percent for projects described in subparagraph (E).

“(B) **PROGRAM FLEXIBILITY.**—A State required to obligate funds under subparagraph (A) may use any combination of funds apportioned to a State under paragraphs (1) and (2) of section 104(b).

“(C) **LIMITATION.**—Amounts described below may not be used for the purposes of calculating or meeting the minimum bridge investment requirement under subparagraph (A)—

“(i) amounts described in section 133(d)(1)(A);

“(ii) amounts set aside under section 133(h); and

“(iii) amounts described in section 505(a).

“(D) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to prohibit the expenditure of funds described in subparagraph (C) for bridge projects eligible under such section.

“(E) **ELIGIBLE PROJECTS.**—Funds required to be obligated in accordance with paragraph (2)(A) may be obligated for projects or activities that—

“(i) are otherwise eligible under either section 119 or section 133, as applicable;

“(ii) support the achievement of performance targets of the State established under section 150 or provide support for the condition and performance of bridges on public roads within the State; and

“(iii) remove a bridge classified as in poor condition in order to improve community connectivity, or replace, reconstruct, rehabilitate, preserve, or protect a bridge included on the national bridge inventory authorized by subsection (b), including through—

“(I) seismic retrofits;

“(II) systematic preventive maintenance;

“(III) installation of scour countermeasures;

“(IV) the use of innovative materials that extend the service life of the bridge and reduce preservation costs, as compared to conventionally designed and constructed bridges;

“(V) the use of nontraditional production techniques, including factory prefabrication;

“(VI) painting for purposes of bridge protection;

“(VII) application of calcium magnesium acetate, sodium acetate/formate, or other environmentally acceptable, minimally corrosive anti-icing and deicing compositions;

“(VIII) corrosion control;

“(IX) construction of protective features (including natural infrastructure) alone or in combination with other activities eligible under this paragraph to enhance resilience of a bridge;

“(X) bridge security countermeasures;

“(XI) impact protection measures for bridges;

“(XII) inspection and evaluation of bridges; and

“(XIII) training for bridge inspectors consistent with subsection (i).

“(F) **BUNDLES OF PROJECTS.**—A State may use a bundle of projects as described in subsection (j) to satisfy the requirements of subparagraph (A), if each project in the bundle is otherwise eligible under subparagraph (E).

“(G) **FLEXIBILITY.**—The Secretary may, at the request of a State, reduce the required obligation under subparagraph (A) if—

“(i) the reduction is consistent with a State’s asset management plan for the National Highway System;

“(ii) the reduction will not limit a State’s ability to meet its performance targets under section 150 or to improve the condition and performance of bridges on public roads within the State; and

“(iii) the State demonstrates that it has inadequate needs to justify the expenditure.

“(H) BRIDGE INVESTMENT REPORT.—The Secretary shall annually publish on the website of the Department of Transportation a bridge investment report that includes—

“(i) the total Federal funding obligated for bridge projects in the most recent fiscal year, on a State-by-State basis and broken out by Federal program;

“(ii) the total Federal funding obligated, on a State-by-State basis and broken out by Federal program, for bridge projects carried out pursuant to the minimum bridge investment requirements under subparagraph (A);

“(iii) the progress made by each State toward meeting the minimum bridge investment requirement under subparagraph (A) for such State, both cumulatively and for the most recent fiscal year;

“(iv) a summary of—

“(I) each request made under subparagraph (G) by a State for a reduction in the minimum bridge investment requirement under subparagraph (A); and

“(II) for each request described in subclause (I) that is granted by the Secretary—

“(aa) the percentage and dollar amount of the reduction; and

“(bb) an explanation of how the State met each of the criteria described in subparagraph (G); and

“(v) a summary of—

“(I) each request made by a State for a reduction in the obligation requirements under section 133(f); and

“(II) for each request that is granted by the Secretary—

“(aa) the percentage and dollar amount of the reduction; and

“(bb) an explanation of how the Secretary made the determination under section 133(f)(2)(B).

“(I) OFF-SYSTEM BRIDGES.—A State may apply amounts obligated under this subsection or section 133(f)(2)(A) to the obligation requirements of both this subsection and section 133(f).

“(J) NHS PENALTY.—A State may apply amounts obligated under this subsection or section 119(f)(2) to the obligation requirements of both this subsection and section 119(f)(2).

“(K) COMPLIANCE.—If a State fails to satisfy the requirements of subparagraph (A) by the end of fiscal year 2025, the Secretary may subject the State to appropriate program sanctions under section 1.36 of title 23, Code of Federal Regulations (or successor regulations).”

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 144 and inserting the following:

“144. Bridges and tunnels.”

#### SEC. 1208. CONSTRUCTION OF FERRY BOATS AND FERRY TERMINAL FACILITIES.

Section 147 of title 23, United States Code, is amended—

(1) by striking subsection (h); and

(2) by redesignating subsections (i) and (j) as subsections (h) and (i), respectively.

#### SEC. 1209. HIGHWAY SAFETY IMPROVEMENT PROGRAM.

(a) IN GENERAL.—Section 148 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (4)(B)—

(i) by striking “only includes a project” and inserting “includes a project”;

(ii) in clause (xiii) by inserting “, including the development of a vulnerable road user safety assessment or a vision zero plan under section 1601 of the INVEST in America Act” after “safety planning”;

(iii) by amending clause (xviii) to read as follows:

“(xviii) Safe routes to school infrastructure-related projects eligible under section 211.”;

(iv) in clause (xvii) by inserting “or leading pedestrian intervals” after “hybrid beacons”; and

(v) by striking clause (xxviii) and inserting the following:

“(xxviii) A pedestrian security feature designed to slow or stop a motor vehicle.

“(xxix) Installation of infrastructure improvements, including sidewalks, crosswalks, signage, and bus stop shelters or protected waiting areas.”;

(b) in paragraph (11)—

(i) in subparagraph (A)—

(I) in clause (ix) by striking “and” at the end;

(II) by redesignating clause (x) as clause (xi); and

(III) by inserting after clause (ix) the following:

“(x) State or local representatives of educational agencies to address safe routes to school and schoolbus safety; and”;

(ii) in subparagraph (E) by inserting “Tribal,” after “State.”;

(iii) by redesignating subparagraphs (G), (H), and (I) as subparagraphs (H), (I), and (J), respectively; and

(iv) by inserting after subparagraph (F) the following:

“(G) includes a vulnerable road user safety assessment described under paragraph (16);”;

(C) by redesignating paragraphs (10), (11), and (12) as paragraphs (12), (13), and (14), respectively;

(D) by inserting after paragraph (9) the following:

“(10) SAFE SYSTEM APPROACH.—The term ‘safe system approach’ means a roadway design that emphasizes minimizing the risk of injury or fatality to road users and that—

“(A) takes into consideration the possibility and likelihood of human error;

“(B) accommodates human injury tolerance by taking into consideration likely crash types, resulting impact forces, and the human body’s ability to withstand such forces; and

“(C) takes into consideration vulnerable road users.

“(11) SPECIFIED SAFETY PROJECT.—

“(A) IN GENERAL.—The term ‘specified safety project’ means a project carried out for the purpose of safety under any other section of this title that is consistent with the State strategic highway safety plan.

“(B) INCLUSION.—The term ‘specified safety project’ includes a project that—

“(i) promotes public awareness and informs the public regarding highway safety matters (including safety for motorcyclists, bicyclists, pedestrians, individuals with disabilities, and other road users);

“(ii) facilitates enforcement of traffic safety laws;

“(iii) provides infrastructure and infrastructure-related equipment to support emergency services;

“(iv) conducts safety-related research to evaluate experimental safety countermeasures or equipment; or

“(v) supports safe routes to school noninfrastructure-related activities described under section 211(e)(2).”;

(E) by adding at the end the following:

“(15) VULNERABLE ROAD USER.—The term ‘vulnerable road user’ means a nonmotorist—

“(A) with a fatality analysis reporting system person attribute code that is included in the definition of the term ‘number of non-motorized fatalities’ in section 490.205 of title 23, Code of Federal Regulations (or successor regulation); or

“(B) described in the term ‘number of non-motorized serious injuries’ in such section.

“(16) VULNERABLE ROAD USER SAFETY ASSESSMENT.—The term ‘vulnerable road user safety assessment’ means an assessment of the safety performance of the State or a metropolitan planning organization within the State with respect

to vulnerable road users and the plan of the State or metropolitan planning organization to improve the safety of vulnerable road users described in subsection (1).”;

(2) in subsection (c)—

(A) in paragraph (1) by striking “(a)(11)” and inserting “(a)(13)”;

(B) in paragraph (2)—

(i) in subparagraph (A)(vi) by inserting “, consistent with the vulnerable road user safety assessment” after “nonmotorized crashes”;

(ii) in subparagraph (B)(i)—

(I) by inserting “, consistent with a safe system approach,” after “identify”;

(II) by inserting “excessive design speeds and speed limits,” after “crossing needs.”;

(III) by striking “motorists (including motorcyclists), bicyclists, pedestrians, and other highway users” and inserting “road users”;

(iii) in subparagraph (D)(iii) by striking “motorists (including motorcyclists), bicyclists, pedestrians, persons with disabilities, and other highway users” and inserting “road users”;

(3) in subsection (d)—

(A) in paragraph (1)—

(i) in subparagraph (A) by striking “Not later than 1 year after the date of enactment of the MAP-21, the” and inserting “The”;

(ii) in subparagraph (B)—

(I) in clause (iv) by inserting “and serious injury” after “fatality”;

(II) in clause (vii) by striking “; and” and inserting a semicolon;

(III) by redesignating clause (viii) as clause (ix); and

(IV) by inserting after clause (vii) the following:

“(viii) the findings of a vulnerable road user safety assessment of the State; and”;

(B) in paragraph (2)(B)(i) by striking “subsection (a)(11)” and inserting “subsection (a)(13)”;

(4) in subsection (e)—

(A) in paragraph (1)(C) by striking “, without regard to whether the project is included in an applicable State strategic highway safety plan”;

and

(B) by adding at the end the following:

“(3) FLEXIBLE FUNDING FOR SPECIFIED SAFETY PROJECTS.—

“(A) IN GENERAL.—To advance the implementation of a State strategic highway safety plan, a State may use not more than 10 percent of the amounts apportioned to the State under section 104(b)(3) for a fiscal year to carry out specified safety projects.

“(B) RULE OF STATUTORY CONSTRUCTION.—Nothing in this paragraph shall be construed to require a State to revise any State process, plan, or program in effect on the date of enactment of this paragraph.

“(C) EFFECT OF PARAGRAPH.—

“(i) REQUIREMENTS.—A project funded under this paragraph shall be subject to all requirements under this section that apply to a highway safety improvement project.

“(ii) OTHER APPORTIONED PROGRAMS.—Subparagraph (A) shall not apply to amounts that may be obligated for noninfrastructure projects apportioned under any other paragraph of section 104(b).”;

(5) in subsection (g)—

(A) by amending paragraph (1) to read as follows:

“(1) HIGH-RISK RURAL ROAD SAFETY.—

“(A) IN GENERAL.—If a State determines that the fatality rate on rural roads in such State for the most recent 2-year period for which data are available exceeds the median fatality rate for rural roads among all States, that State shall be required to—

“(i) obligate over the 2 fiscal years following the fiscal year in which such determination is made for projects on high-risk rural roads an amount not less than 7.5 percent of the amounts apportioned to the State under section 104(b)(3) for fiscal year 2020; and

“(ii) include, in the subsequent update to the State strategic highway safety plan, strategies to reduce the fatality rate.

“(B) **SOURCE OF FUNDS.**—Any amounts obligated under subparagraph (A) shall be from amounts described under section 133(d)(1)(B).

“(C) **ANNUAL DETERMINATION.**—The determination described under subparagraph (A) shall be made on an annual basis.

“(D) **CONSULTATION.**—In carrying out a project with an amount obligated under subparagraph (A), a State shall consult with, as applicable, local governments, metropolitan planning organizations, and regional transportation planning organizations.”;

(B) in paragraph (2)—

(i) in the heading by striking “DRIVERS” and inserting “ROAD USERS”; and

(ii) by striking “address the increases in” and inserting “reduce”; and

(C) by adding at the end the following:

“(3) **VULNERABLE ROAD USER SAFETY.**—

“(A) **IN GENERAL.**—Beginning on the date of enactment of the INVEST in America Act, if a State determines that the number of vulnerable road user fatalities and serious injuries per capita in such State over the most recent 2-year period for which data are available exceeds the median number of such fatalities and serious injuries per capita among all States, that State shall be required to obligate over the 2 fiscal years following the fiscal year in which such determination is made an amount that is not less than 50 percent of the amount set aside in such State under section 133(h)(1) for fiscal year 2020, less any amounts obligated by a metropolitan planning organization in the State as required by subparagraph (D), for—

“(i) in the first fiscal year—

“(I) performing the vulnerable user safety assessment as prescribed by subsection (1);

“(II) providing matching funds for transportation alternatives safety project as identified in section 133(h)(7)(B); and

“(III) projects eligible under section 133(h)(3)(A), (B), (C), or (I); and

“(ii) in each fiscal year thereafter, the program of projects identified in subsection (1)(2)(C).

“(B) **SOURCE OF FUNDS.**—Any amounts obligated under subparagraph (A) shall be from amounts described in section 133(d)(1)(B).

“(C) **ANNUAL DETERMINATION.**—The determination described under subparagraph (A) shall be made on an annual basis.

“(D) **METROPOLITAN PLANNING AREA WITH EXCESSIVE FATALITIES AND SERIOUS INJURIES PER CAPITA.**—

“(i) **ANNUAL DETERMINATION.**—Beginning on the date of enactment of the INVEST in America Act, a metropolitan planning organization representing an urbanized area with a population greater than 200,000 shall annually determine the number of vulnerable user road fatalities and serious injuries per capita in such area over the most recent 2-year period.

“(ii) **REQUIREMENT TO OBLIGATE FUNDS.**—If such a metropolitan planning area organization determines that the number of vulnerable user road fatalities and serious injuries per capita in such area over the most recent 2-year period for which data are available exceeds the median number of such fatalities and serious injuries among all urbanized areas with a population of over 200,000, then there shall be obligated over the 2 fiscal years following the fiscal year in which such determination is made an amount that is not less than 50 percent of the amount set aside for that urbanized area under section 133(h)(2) for fiscal year 2020 for projects identified in the program of projects described in subsection (1)(7)(C).

“(E) **SOURCE OF FUNDS.**—

“(i) **METROPOLITAN PLANNING ORGANIZATION IN STATE REQUIRED TO OBLIGATE FUNDS.**—For a metropolitan planning organization in a State required to obligate funds to vulnerable user safety under subparagraph (A), the State shall be required to obligate from such amounts required to be obligated for vulnerable road user safety under subparagraph (B) for projects described in subsection (1)(7).

“(ii) **OTHER METROPOLITAN PLANNING ORGANIZATIONS.**—For a metropolitan planning organization that is not located within a State required to obligate funds to vulnerable user safety under subparagraph (A), the State shall be required to obligate from amounts apportioned under section 104(b)(3) for projects described in subsection (1)(7).”;

(6) in subsection (h)(1)(A) by inserting “, including any efforts to reduce vehicle speed” after “under this section”; and

(7) by adding at the end the following:

“(1) **VULNERABLE ROAD USER SAFETY ASSESSMENT.**—

“(1) **IN GENERAL.**—Not later than 1 year after date of enactment of the INVEST in America Act, each State shall create a vulnerable road user safety assessment.

“(2) **CONTENTS.**—A vulnerable road user safety assessment required under paragraph (1) shall include—

“(A) a description of the location within the State of each vulnerable road user fatality and serious injury and the design speed of the roadway at any such location;

“(B) a description of any corridors identified by a State, in coordination with local governments, metropolitan planning organizations, and regional transportation planning organizations that pose a high risk of a vulnerable road user fatality or serious injury and the design speeds of such corridors; and

“(C) a program of projects or strategies to reduce safety risks to vulnerable road users in corridors identified under subparagraph (B), in coordination with local governments, metropolitan planning organizations, and regional transportation planning organizations that represent a high-risk area identified under subparagraph (B).

“(3) **ANALYSIS.**—In creating a vulnerable road user safety assessment under this subsection, a State shall assess the last 5 years of available data.

“(4) **REQUIREMENTS.**—In creating a vulnerable road user safety assessment under this subsection, a State shall—

“(A) take into consideration a safe system approach; and

“(B) coordinate with local governments, metropolitan planning organizations, and regional transportation planning organizations that represent a high-risk area identified under paragraph (2)(B).

“(5) **UPDATE.**—A State shall update a vulnerable road user safety assessment on the same schedule as the State updates the State strategic highway safety plan.

“(6) **TRANSPORTATION SYSTEM ACCESS.**—The program of projects developed under paragraph (2)(C) may not degrade transportation system access for vulnerable road users.

“(7) **METROPOLITAN PLANNING AREA ASSESSMENTS.**—A metropolitan planning organization that represents an urbanized area with a population greater than 200,000 shall complete a vulnerable user safety assessment based on the most recent 5 years of available data, unless an assessment was completed in the previous five years, including

“(A) a description of the location within the urbanized area of each vulnerable road user fatality and serious injury and the design speed of the roadway at any such location;

“(B) a description of any corridors that represent a high-risk area identified under paragraph (2)(B) that pose a high risk of a vulnerable road user fatality or serious injury and the design speeds of such corridors; and

“(C) a program of projects or strategies to reduce safety risks to vulnerable road users in corridors identified under subparagraph (B).”.

(b) **TECHNICAL AMENDMENT.**—Section 148 of title 23, United States Code, is amended—

(1) in the heading for subsection (a)(8) by striking “ROAD USERS” and inserting “ROAD USER”; and

(2) in subsection (i)(2)(D) by striking “safety safety” and inserting “safety”.

(c) **HIGH-RISK RURAL ROADS.**—

(1) **STUDY.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall update the study described in paragraph (1) of section 1112(b) of MAP-21 (23 U.S.C. 148 note).

(2) **PUBLICATION OF REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall publish on the website of the Department of Transportation an updated report of the report described in paragraph (2) of section 1112(b) of MAP-21 (23 U.S.C. 148 note).

(3) **BEST PRACTICES MANUAL.**—Not later than 180 days after the date of submission of the report described in paragraph (2), the Secretary shall update the best practices manual described in section 1112(b)(3) of MAP-21 (23 U.S.C. 148 note).

## SEC. 1210. CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM.

Section 149 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (1)(A)(ii) by striking “subsection (h)” and inserting “subsection (i)”; and

(B) in paragraph (7) by inserting “shared micromobility (including bikesharing and shared scooter systems),” after “carsharing,”;

(C) in paragraph (8)(B) by striking “; or” and inserting a semicolon;

(D) in paragraph (9) by striking the period and inserting “; or”; and

(E) by adding at the end the following:

“(10) if the project or program mitigates seasonal or temporary traffic congestion from long-haul travel or tourism.”;

(2) in subsection (c)—

(A) in paragraph (2)—

(i) in the heading by inserting “, HYDROGEN VEHICLE,” after “ELECTRIC VEHICLE”; and

(ii) by inserting “hydrogen or” after “charging stations or”; and

(iii) by inserting “, hydrogen-powered,” after “battery powered”; and

(B) in paragraph (3) by inserting “, and is consistent with section 166” after “travel times”; and

(3) by striking subsection (m) and inserting the following:

“(m) **OPERATING ASSISTANCE.**—

“(1) **PROJECTS.**—A State may obligate funds apportioned under section 104(b)(4) in an area of such State that is otherwise eligible for obligations of such funds for operating costs under chapter 53 of title 49 or on a system for which CMAQ funding was made available, obligated, or expended in fiscal year 2012, or, notwithstanding subsection (b), on a State-supported Amtrak route with a cost-sharing agreement under section 209 of the Passenger Rail Investment and Improvement Act of 2008 or alternative cost allocation under section 24712(g)(3) of title 49.

“(2) **TIME LIMITATION.**—In determining the amount of time for which a State may obligate funds under paragraph (1) for operating assistance for an area of a State or on a system, the Secretary shall allow such obligations to occur, in such area or on such system—

“(A) with a time limitation of not less than 3 years; and

“(B) in the case of projects that demonstrate continued net air quality benefits beyond 3 years, as determined annually by the Secretary in consultation with the Administrator of the Environmental Protection Agency, with no imposed time limitation.”.

## SEC. 1211. ELECTRIC VEHICLE CHARGING STATIONS.

(a) **ELECTRIC VEHICLE CHARGING STATIONS.**—Chapter 1 of title 23, United States Code, is amended by inserting after section 154 the following new section:

### “§ 155. Electric vehicle charging stations

“(a) **IN GENERAL.**—Any electric vehicle charging infrastructure funded under this title shall be subject to the requirements of this section.

“(b) INTEROPERABILITY.—

“(1) IN GENERAL.—Electric vehicle charging stations funded under this title shall provide, at a minimum, two of the following charging connector types at the location:

“(A) CCS.

“(B) CHAdeMO.

“(C) An alternative connector that meets applicable industry safety standards

“(2) SAVINGS CLAUSE.—Nothing in this subsection shall prevent the use of charging types other than the connectors described in paragraph (1) if, at a minimum, such connectors meet applicable industry safety standards and are compatible with a majority of electric vehicles in operation.

“(c) OPEN ACCESS TO PAYMENT.—Electric vehicle charging stations shall provide payment methods available to all members of the public to ensure secure, convenient, and equal access and shall not be limited by membership to a particular payment provider.

“(d) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, any project to install electric vehicle charging infrastructure shall be treated as if the project is located on a Federal-aid highway.”

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 154 the following new item:

“155. Electric vehicle charging stations.”

(c) ELECTRIC VEHICLE CHARGING SIGNAGE.—The Secretary of Transportation shall update the Manual on Uniform Traffic Control Devices to—

(1) ensure uniformity in providing road users direction to electric charging stations that are open to the public; and

(2) allow the use of Specific Service signs for electric vehicle charging station providers.

(d) AGREEMENTS RELATING TO THE USE AND ACCESS OF RIGHTS-OF-WAY OF THE INTERSTATE SYSTEM.—Section 111 of title 23, United States Code, is amended by adding at the end the following:

“(f) INTERSTATE SYSTEM RIGHTS-OF-WAY.—

“(1) IN GENERAL.—Notwithstanding subsections (a) or (b), the Secretary shall permit, consistent with section 155, the charging of electric vehicles on rights-of-way of the Interstate System in—

“(A) a rest area; or

“(B) a fringe or corridor parking facility, including a park and ride facility.

“(2) SAVINGS CLAUSE.—Nothing in this subsection shall permit commercial activities on rights-of-way of the Interstate System, except as necessary for the charging of electric vehicles in accordance with this subsection.”

## SEC. 1212. NATIONAL HIGHWAY FREIGHT PROGRAM.

Section 167 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (6) by striking “; and” and inserting a semicolon; and

(B) by striking paragraph (7) and inserting the following:

“(7) to reduce the environmental impacts of freight movement on the National Highway Freight Network, including—

“(A) greenhouse gas emissions;

“(B) local air pollution;

“(C) minimizing, capturing, or treating stormwater runoff and addressing other adverse impacts to water quality; and

“(D) wildlife habitat loss; and

“(8) to decrease any adverse impact of freight transportation on communities located near freight facilities or freight corridors.”

(2) in subsection (e) by adding at the end the following:

“(3) ADDITIONAL MILEAGE.—Notwithstanding paragraph (2), a State that has designated at least 90 percent of its maximum mileage described in paragraph (2) may designate up to an

additional 150 miles of critical rural freight corridors.”

(3) in subsection (f) by adding at the end the following:

“(5) ADDITIONAL MILEAGE.—Notwithstanding paragraph (4), a State that has designated at least 90 percent of its maximum mileage described in paragraph (4) may designate up to an additional 75 miles of critical urban freight corridors under paragraphs (1) and (2).”

(4) in subsection (h) by striking “Not later than” and all that follows through “shall prepare” and inserting “As part of the report required under section 503(b)(8), the Administrator shall biennially prepare”;

(5) in subsection (i)—

(A) by striking paragraphs (2) and (3);

(B) by amending paragraph (4) to read as follows:

“(4) FREIGHT PLANNING.—Notwithstanding any other provision of law, a State may not obligate funds apportioned to the State under section 104(b)(5) unless the State has developed, updated, or amended, as applicable, a freight plan in accordance with section 70202 of title 49.”

(C) in paragraph (5)—

(i) by striking subparagraph (B) and inserting the following:

“(B) LIMITATION.—The Federal share of a project described in subparagraph (C)(xiii) shall fund only elements of such project that provide public benefits.”; and

(ii) in subparagraph (C)—

(I) in clause (iii) by inserting “and freight management and operations systems” after “freight transportation systems”; and

(II) by amending clause (xiii) to read as follows:

“(xiii) Freight intermodal or freight rail projects, including—

“(I) projects within the boundaries of public or private freight rail or water facilities (including ports);

“(II) projects that provide surface transportation infrastructure necessary to facilitate direct intermodal interchange, transfer, and access into or out of the facility; and

“(III) any other surface transportation project to improve the flow of freight into or out of a facility described in subclause (I) or (II).”

(D) in paragraph (6) by striking “paragraph (5)” and inserting “paragraph (3)”; and

(E) by redesignating paragraphs (4), (5), (6), and (7) as paragraphs (2), (3), (4), and (5), respectively; and

(6) in subsection (k)(1)(A)(ii) by striking “ports-of entry” and inserting “ports-of-entry”.

## SEC. 1213. CARBON POLLUTION REDUCTION.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is amended by adding at the end the following:

### “§ 171. Carbon pollution reduction

“(a) ESTABLISHMENT.—The Secretary shall establish a carbon pollution reduction program to support the reduction of greenhouse gas emissions from the surface transportation system.

“(b) ELIGIBLE PROJECTS.—A project is eligible for funding under this section if such project—

“(1) is expected to yield a significant reduction in greenhouse gas emissions from the surface transportation system;

“(2) will help a State meet the greenhouse gas emissions performance targets established under section 150(c)(7); and

“(3) is—

“(A) eligible for assistance under this title or under chapter 53 of title 49; or

“(B) a capital project, as such term is defined in section 22906 of title 49, to improve intercity rail passenger transportation, provided that the project will yield a significant reduction in single occupant vehicle trips and improve mobility on public roads.

“(c) GUIDANCE.—The Secretary shall issue guidance on methods of determining the reduction of single occupant vehicle trips and im-

provement of mobility on public roads as those factors relate to intercity rail passenger transportation projects under subsection (b)(4).

“(d) OPERATING EXPENSES.—A State may use not more than 10 percent of the funds provided under section 104(b)(9) for the operating expenses of public transportation and passenger rail transportation projects.

“(e) SINGLE-OCCUPANCY VEHICLE HIGHWAY FACILITIES.—None of the funds provided under this section may be used for a project that will result in the construction of new capacity available to single occupant vehicles unless the project consists of a high occupancy vehicle facility and is consistent with section 166.

“(f) EVALUATION.—

“(1) IN GENERAL.—The Secretary shall annually evaluate the progress of each State in carrying out the program under this section by comparing the percent change in carbon dioxide emissions per capita on public roads in the State calculated as—

“(A) the annual carbon dioxide emissions per capita on public roads in the State for the most recent year for which there is data; divided by

“(B) the average annual carbon dioxide emissions per capita on public roads in the State in calendar years 2015 through 2019.

“(2) MEASURES.—In conducting the evaluation under paragraph (1), the Secretary shall—

“(A) prior to the effective date of the greenhouse gas performance measures under section 150(c)(7), use such data as are available, which may include data on motor fuels usage published by the Federal Highway Administration and information on emissions factors or coefficients published by the Energy Information Administration of the Department of Energy; and

“(B) following the effective date of the greenhouse gas performance measures under section 150(c)(7), use such measures.

“(g) PROGRESS REPORT.—The Secretary shall annually issue a carbon pollution reduction progress report, to be made publicly available on the website of the Department of Transportation, that includes—

“(1) the results of the evaluation under subsection (f) for each State; and

“(2) a ranking of all the States by the criteria under subsection (f), with the States that, for the year covered by such report, have the largest percentage reduction in annual carbon dioxide emissions per capita on public roads being ranked the highest.

“(h) HIGH-PERFORMING STATES.—

“(1) DESIGNATION.—For purposes of this section, each State that is 1 of the 15 highest ranked States, as determined under subsection (g)(2), and that achieves a reduction in carbon dioxide emissions per capita on public roads, as determined by the evaluation in subsection (f), shall be designated as a high-performing State for the following fiscal year.

“(2) USE OF FUNDS.—For each State that is designated as a high-performing State under paragraph (1)—

“(A) notwithstanding section 120, the State may use funds made available under this title to pay the non-Federal share of a project under this section during any year for which such State is designated as a high-performing State; and

“(B) notwithstanding section 126, the State may transfer up to 50 percent of funds apportioned under section 104(b)(9) to the program under section 104(b)(2) in any year for which such State is designated as a high-performing State.

“(3) TRANSFER.—For each State that is 1 of the 15 lowest ranked States, as determined under subsection (g)(2), the Secretary shall transfer 10 percent of the amount apportioned to the State under section 104(b)(2) in the fiscal year following the year in which the State is so ranked, not including amounts set aside under section 133(d)(1)(A) and under section 133(h) or 505(a), to the apportionment of the State under section 104(b)(9).

“(4) **LIMITATION.**—The Secretary shall not conduct a transfer under paragraph (3)—

“(A) until the first fiscal year following the effective date of greenhouse gas performance measures under section 150(c)(7); and

“(B) with respect to a State in any fiscal year following the year in which such State achieves a reduction in carbon dioxide emissions per capita on public roads in such year as determined by the evaluation under subsection (f).

“(i) **REPORT.**—Not later than 2 years after the date of enactment of this section and periodically thereafter, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall issue a report—

“(1) detailing, based on the best available science, what types of projects eligible for assistance under this section are expected to provide the most significant greenhouse gas emissions reductions from the surface transportation sector; and

“(2) detailing, based on the best available science, what types of projects eligible for assistance under this section are not expected to provide significant greenhouse gas emissions reductions from the surface transportation sector.”.

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 1 of title 23, United States Code, is amended by adding at the end the following new item:

“171. Carbon pollution reduction.”.

(c) **APPLICABILITY.**—Subsection (b)(2) of section 171 of title 23, United States Code, as added by this section, shall apply to a State beginning on the first fiscal year following the fiscal year in which the State sets greenhouse gas performance targets under section 150(d) of title 23, United States Code.

#### SEC. 1214. RECREATIONAL TRAILS.

Section 206 of title 23, United States Code, is amended by adding at the end the following:

“(j) **USE OF OTHER APPORTIONED FUNDS.**—Funds apportioned to a State under section 104(b) that are obligated for recreational trails and related projects shall be administered as if such funds were made available for purposes described under this section.”.

#### SEC. 1215. SAFE ROUTES TO SCHOOL PROGRAM.

(a) **IN GENERAL.**—Chapter 2 of title 23, United States Code, is amended by inserting after section 210 the following:

##### “§211. Safe routes to school program

“(a) **PROGRAM.**—The Secretary shall carry out a safe routes to school program for the benefit of children in primary, middle, and high schools.

“(b) **PURPOSES.**—The purposes of the program shall be—

“(1) to enable and encourage children, including those with disabilities, to walk and bicycle to school;

“(2) to make bicycling and walking to school a safer and more appealing transportation alternative, thereby encouraging a healthy and active lifestyle from an early age; and

“(3) to facilitate the planning, development, and implementation of projects and activities that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.

“(c) **USE OF FUNDS.**—Amounts apportioned to a State under paragraphs (2) and (3) of section 104(b) may be used to carry out projects, programs, and other activities under this section.

“(d) **ELIGIBLE ENTITIES.**—Projects, programs, and activities funded under this section may be carried out by eligible entities described under section 133(h)(4)(B) that demonstrate an ability to meet the requirements of this section.

“(e) **ELIGIBLE PROJECTS AND ACTIVITIES.**—

“(1) **INFRASTRUCTURE-RELATED PROJECTS.**—

“(A) **IN GENERAL.**—A State may obligate funds under this section for the planning, design, and construction of infrastructure-related projects that will substantially improve the ability of students to walk and bicycle to school, including sidewalk improvements, traffic calming and

speed reduction improvements, pedestrian and bicycle crossing improvements, on-street bicycle facilities, off-street bicycle and pedestrian facilities, secure bicycle parking facilities, and traffic diversion improvements in the vicinity of schools.

“(B) **LOCATION OF PROJECTS.**—Infrastructure-related projects under subparagraph (A) may be carried out on any public road or any bicycle or pedestrian pathway or trail in the vicinity of schools.

“(2) **NONINFRASTRUCTURE-RELATED ACTIVITIES.**—In addition to projects described in paragraph (1), a State may obligate funds under this section for noninfrastructure-related activities to encourage walking and bicycling to school, including—

“(A) public awareness campaigns and outreach to press and community leaders;

“(B) traffic education and enforcement in the vicinity of schools;

“(C) student sessions on bicycle and pedestrian safety, health, and environment;

“(D) programs that address personal safety; and

“(E) funding for training, volunteers, and managers of safe routes to school programs.

“(3) **SAFE ROUTES TO SCHOOL COORDINATOR.**—Each State receiving an apportionment under paragraphs (2) and (3) of section 104(b) shall use a sufficient amount of the apportionment to fund a full-time position of coordinator of the State's safe routes to school program.

“(4) **RURAL SCHOOL DISTRICT OUTREACH.**—A coordinator described in paragraph (3) shall conduct outreach to ensure that rural school districts in the State are aware of such State's safe routes to school program and any funds authorized by this section.

“(f) **FEDERAL SHARE.**—The Federal share of the cost of a project, program, or activity under this section shall be 100 percent.

“(g) **CLEARINGHOUSE.**—

“(1) **IN GENERAL.**—The Secretary shall maintain a national safe routes to school clearinghouse to—

“(A) develop information and educational programs on safe routes to school; and

“(B) provide technical assistance and disseminate techniques and strategies used for successful safe routes to school programs.

“(2) **FUNDING.**—The Secretary shall carry out this subsection using amounts authorized to be appropriated for administrative expenses under section 104(a).

“(h) **TREATMENT OF PROJECTS.**—Notwithstanding any other provision of law, projects carried out under this section shall be treated as projects on a Federal-aid highway under chapter 1 of this title.

“(i) **DEFINITIONS.**—In this section, the following definitions apply:

“(1) **IN THE VICINITY OF SCHOOLS.**—The term ‘in the vicinity of schools’ means, with respect to a school, the area within bicycling and walking distance of the school (approximately 2 miles).

“(2) **PRIMARY, MIDDLE, AND HIGH SCHOOLS.**—The term ‘primary, middle, and high schools’ means schools providing education from kindergarten through twelfth grade.”.

(b) **TECHNICAL AND CONFORMING AMENDMENTS.**—

(1) **REPEAL.**—Section 1404 of SAFETEA-LU (Public Law 109–59; 119 Stat. 1228–1230), and the item relating to such section in the table of contents in section 1(b) of such Act, are repealed.

(2) **ANALYSIS.**—The analysis for chapter 2 of title 23, United States Code, is amended by inserting after the item relating to section 210 the following:

“211. Safe routes to school program.”.

#### SEC. 1216. BICYCLE TRANSPORTATION AND PEDESTRIAN WALKWAYS.

Section 217 of title 23, United States Code, is amended—

(1) in subsection (d)—

(A) by striking “104(b)(3)” and inserting “104(b)(4)”; and

(B) by striking “a position” and inserting “at least one full-time positions”;

(2) in subsection (e) by striking “bicycles” and inserting “pedestrians or bicyclists” each place such term appears; and

(3) in subsection (j) by striking paragraph (2) and inserting the following:

“(2) **ELECTRIC BICYCLE.**—The term ‘electric bicycle’ means a bicycle equipped with fully operable pedals, a saddle or seat for the rider, and an electric motor of less than 750 watts that can safely share a bicycle transportation facility with other users of such facility and meets the requirements of one of the following three classes:

“(A) **CLASS 1 ELECTRIC BICYCLE.**—The term ‘class 1 electric bicycle’ means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 20 miles per hour.

“(B) **CLASS 2 ELECTRIC BICYCLE.**—The term ‘class 2 electric bicycle’ means an electric bicycle equipped with a motor that may be used exclusively to propel the bicycle, and that is not capable of providing assistance when the bicycle reaches the speed of 20 miles per hour.

“(C) **CLASS 3 ELECTRIC BICYCLE.**—The term ‘class 3 electric bicycle’ means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling, and that ceases to provide assistance when the bicycle reaches the speed of 28 miles per hour.”.

#### Subtitle C—Project-Level Investments

#### SEC. 1301. PROJECTS OF NATIONAL AND REGIONAL SIGNIFICANCE.

(a) **IN GENERAL.**—Section 117 of title 23, United States Code, is amended to read as follows:

##### “§117. Projects of national and regional significance

“(a) **ESTABLISHMENT.**—The Secretary shall establish a projects of national and regional significance program under which the Secretary may make grants to, and establish multiyear grant agreements with, eligible entities in accordance with this section.

“(b) **APPLICATIONS.**—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application in such form, in such manner, and containing such information as the Secretary may require.

“(c) **GRANT AMOUNTS AND PROJECT COSTS.**—

“(1) **IN GENERAL.**—Each grant made under this section—

“(A) shall be in an amount that is at least \$25,000,000; and

“(B) shall be for a project that has eligible project costs that are reasonably anticipated to equal or exceed the lesser of—

“(i) \$100,000,000; or

“(ii) in the case of a project—

“(I) located in 1 State or territory, 30 percent of the amount apportioned under this chapter to the State or territory in the most recently completed fiscal year; or

“(II) located in more than 1 State or territory, 50 percent of the amount apportioned under this chapter to the participating State or territory with the largest apportionment under this chapter in the most recently completed fiscal year.

“(2) **LARGE PROJECTS.**—For a project that has eligible project costs that are reasonably anticipated to equal or exceed \$500,000,000, a grant made under this section—

“(A) shall be in an amount sufficient to fully fund the project, or in the case of a public transportation project, a minimum operable segment, in combination with other funding sources, including non-Federal financial commitment, identified in the application; and

“(B) may be awarded pursuant to the process under subsection (d), as necessary based on the amount of the grant.

“(d) **MULTIYEAR GRANT AGREEMENTS FOR LARGE PROJECTS.**—

“(1) *IN GENERAL*.—A large project that receives a grant under this section may be carried out through a multiyear grant agreement in accordance with this subsection.

“(2) *REQUIREMENTS*.—A multiyear grant agreement for a large project shall—

“(A) establish the terms of participation by the Federal Government in the project;

“(B) establish the amount of Federal financial assistance for the project;

“(C) establish a schedule of anticipated Federal obligations for the project that provides for obligation of the full grant amount by not later than 4 fiscal years after the fiscal year in which the initial amount is provided; and

“(D) determine the period of time for completing the project, even if such period extends beyond the period of an authorization.

“(3) *SPECIAL RULES*.—

“(A) *IN GENERAL*.—A multiyear grant agreement under this subsection—

“(i) shall obligate an amount of available budget authority specified in law; and

“(ii) may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law.

“(B) *CONTINGENT COMMITMENT*.—A contingent commitment under this subsection is not an obligation of the Federal Government under section 1501 of title 31.

“(C) *INTEREST AND OTHER FINANCING COSTS*.—

“(i) *IN GENERAL*.—Interest and other financing costs of carrying out a part of the project within a reasonable time shall be considered a cost of carrying out the project under a multiyear grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing.

“(ii) *CERTIFICATION*.—The applicant shall certify to the Secretary that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

“(4) *ADVANCE PAYMENT*.—An eligible entity carrying out a large project under a multiyear grant agreement—

“(A) may use funds made available to the eligible entity under this title or title 49 for eligible project costs of the large project; and

“(B) shall be reimbursed, at the option of the eligible entity, for such expenditures from the amount made available under the multiyear grant agreement for the project in that fiscal year or a subsequent fiscal year.

“(e) *ELIGIBLE PROJECTS*.—

“(1) *IN GENERAL*.—The Secretary may make a grant under this section only for a project that is a project eligible for assistance under this title or chapter 53 of title 49 and is—

“(A) a bridge project carried out on the National Highway System, or that is eligible to be carried out under section 165;

“(B) a project to improve person throughput that is—

“(i) a highway project carried out on the National Highway System, or that is eligible to be carried out under section 165;

“(ii) a public transportation project; or

“(iii) a capital project, as such term is defined in section 22906 of title 49, to improve intercity rail passenger transportation; or

“(C) a project to improve freight throughput that is—

“(i) a highway freight project carried out on the National Highway Freight Network established under section 167 or on the National Highway System;

“(ii) a freight intermodal, freight rail, or railway-highway grade crossing or grade separation project; or

“(iii) within the boundaries of a public or private freight rail, water (including ports), or intermodal facility and that is a surface transportation infrastructure project necessary to facilitate direct intermodal interchange, transfer, or access into or out of the facility.

“(2) *LIMITATION*.—

“(A) *CERTAIN FREIGHT PROJECTS*.—Projects described in clauses (ii) and (iii) of paragraph (1)(C) may receive a grant under this section only if—

“(i) the project will make a significant improvement to the movement of freight on the National Highway System; and

“(ii) the Federal share of the project funds only elements of the project that provide public benefits.

“(B) *CERTAIN PROJECTS FOR PERSON THROUGHPUT*.—Projects described in clauses (ii) and (iii) of paragraph (1)(B) may receive a grant under this section only if the project will make a significant improvement in mobility on public roads.

“(f) *ELIGIBLE PROJECT COSTS*.—An eligible entity receiving a grant under this section may use such grant for—

“(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

“(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements directly related to improving system performance.

“(g) *PROJECT REQUIREMENTS*.—The Secretary may select a project described under this section for funding under this section only if the Secretary determines that the project—

“(1) generates significant regional or national economic, mobility, safety, resilience, or environmental benefits;

“(2) is cost effective;

“(3) is based on the results of preliminary engineering;

“(4) has secured or will secure acceptable levels of non-Federal financial commitments, including—

“(A) 1 or more stable and dependable sources of funding and financing to construct, maintain, and operate the project; and

“(B) contingency amounts to cover unanticipated cost increases;

“(5) cannot be easily and efficiently completed without additional Federal funding or financial assistance available to the project sponsor, beyond existing Federal apportionments; and

“(6) is reasonably expected to begin construction not later than 18 months after the date of obligation of funds for the project.

“(h) *MERIT CRITERIA AND CONSIDERATIONS*.—“(1) *MERIT CRITERIA*.—In awarding a grant under this section, the Secretary shall evaluate the following merit criteria:

“(A) The extent to which the project supports achieving a state of good repair.

“(B) The level of benefits the project is expected to generate, including—

“(i) the costs avoided by the prevention of closure or reduced use of the asset to be improved by the project;

“(ii) reductions in maintenance costs over the life of the asset;

“(iii) safety benefits, including the reduction of accidents and related costs;

“(iv) improved person or freight throughput, including congestion reduction and reliability improvements;

“(v) national and regional economic benefits;

“(vi) resilience benefits;

“(vii) environmental benefits, including reduction in greenhouse gas emissions and air quality benefits; and

“(viii) benefits to all users of the project, including pedestrian, bicycle, nonvehicular, railroad, and public transportation users.

“(C) How the benefits compare to the costs of the project.

“(D) The average number of people or volume of freight, as applicable, supported by the project, including visitors based on travel and tourism.

“(2) *ADDITIONAL CONSIDERATIONS*.—In awarding a grant under this section, the Secretary shall also consider the following:

“(A) Whether the project serves low-income residents of low-income communities, including areas of persistent poverty, while not displacing such residents.

“(B) Whether the project uses innovative technologies, innovative design and construction techniques, or pavement materials that demonstrate reductions in greenhouse gas emissions through sequestration or innovative manufacturing processes and, if so, the degree to which such technologies, techniques, or materials are used.

“(C) Whether the project improves connectivity between modes of transportation moving people or goods in the Nation or region.

“(D) Whether the project provides new or improved connections between at least 2 metropolitan areas with a population of at least 500,000.

“(i) *PROJECT SELECTION*.—

“(1) *EVALUATION*.—To evaluate applications for funding under this section, the Secretary shall—

“(A) determine whether a project is eligible for a grant under this section;

“(B) evaluate, through a methodology that is discernible and transparent to the public, how each application addresses the merit criteria pursuant to subsection (h);

“(C) assign a quality rating for each merit criteria for each application based on the evaluation in subparagraph (B);

“(D) ensure that applications receive final consideration by the Secretary to receive an award under this section only on the basis of such quality ratings and that the Secretary gives final consideration only to applications that meet the minimally acceptable level for each of the merit criteria; and

“(E) award grants only to projects rated highly under the evaluation and rating process.

“(2) *CONSIDERATIONS FOR LARGE PROJECTS*.—In awarding a grant for a large project, the Secretary shall—

“(A) consider the amount of funds available in future fiscal years for the program under this section; and

“(B) assume the availability of funds in future fiscal years for the program that extend beyond the period of authorization based on the amount made available for the program in the last fiscal year of the period of authorization.

“(3) *GEOGRAPHIC DISTRIBUTION*.—In awarding grants under this section, the Secretary shall ensure geographic diversity and a balance between rural and urban communities among grant recipients over fiscal years 2022 through 2025.

“(4) *PUBLICATION OF METHODOLOGY*.—

“(A) *IN GENERAL*.—Prior to the issuance of any notice of funding opportunity for grants under this section, the Secretary shall publish and make publicly available on the Department's website—

“(i) a detailed explanation of the merit criteria developed under subsection (h);

“(ii) a description of the evaluation process under this subsection; and

“(iii) how the Secretary shall determine whether a project satisfies each of the requirements under subsection (g).

“(B) *UPDATES*.—The Secretary shall update and make publicly available on the website of the Department of Transportation such information at any time a revision to the information described in subparagraph (A) is made.

“(C) *INFORMATION REQUIRED*.—The Secretary shall include in the published notice of funding opportunity for a grant under this section detailed information on the rating methodology and merit criteria to be used to evaluate applications, or a reference to the information on the website of the Department of Transportation, as required by subparagraph (A).

“(j) *FEDERAL SHARE*.—

“(1) *IN GENERAL*.—The Federal share of the cost of a project carried out with a grant under this section may not exceed 60 percent.

“(2) MAXIMUM FEDERAL INVOLVEMENT.—Federal assistance other than a grant under this section may be used to satisfy the non-Federal share of the cost of a project for which such a grant is made, except that the total Federal assistance provided for a project receiving a grant under this section may not exceed 80 percent of the total project cost.

“(k) TREATMENT OF PROJECTS.—

“(1) FEDERAL REQUIREMENTS.—The Secretary shall, with respect to a project funded by a grant under this section, apply—

“(A) the requirements of this title to a highway project;

“(B) the requirements of chapter 53 of title 49 to a public transportation project; and

“(C) the requirements of section 22905 of title 49 to a passenger rail or freight rail project.

“(2) MULTIMODAL PROJECTS.—

“(A) IN GENERAL.—Except as otherwise provided in this paragraph, if an eligible project is a multimodal project, the Secretary shall—

“(i) determine the predominant modal component of the project; and

“(ii) apply the applicable requirements of such predominant modal component to the project.

“(B) EXCEPTIONS.—

“(1) PASSENGER OR FREIGHT RAIL COMPONENT.—For any passenger or freight rail component of a project, the requirements of section 22907(j)(2) of title 49 shall apply.

“(ii) PUBLIC TRANSPORTATION COMPONENT.—For any public transportation component of a project, the requirements of section 5333 of title 49 shall apply.

“(C) BUY AMERICA.—In applying the Buy American requirements under section 313 of this title and sections 5320, 22905(a), and 24305(f) of title 49 to a multimodal project under this paragraph, the Secretary shall—

“(i) consider the various modal components of the project; and

“(ii) seek to maximize domestic jobs.

“(3) FEDERAL-AID HIGHWAY REQUIREMENTS.—Notwithstanding any other provision of this subsection, the Secretary shall require recipients of grants under this section to comply with subsection (a) of section 113 with respect to public transportation projects, passenger rail projects, and freight rail projects, in the same manner that recipients of grants are required to comply with such subsection for construction work performed on highway projects on Federal-aid highways.

“(l) TIFIA PROGRAM.—At the request of an eligible entity under this section, the Secretary may use amounts awarded to the entity to pay subsidy and administrative costs necessary to provide the entity Federal credit assistance under chapter 6 with respect to the project for which the grant was awarded.

“(m) ADMINISTRATION.—Of the amounts made available to carry out this section, the Secretary may use up to \$5,000,000 for the costs of administering the program under this section.

“(n) TECHNICAL ASSISTANCE.—Of the amounts made available to carry out this section, the Secretary may reserve up to \$5,000,000 to provide technical assistance to eligible entities.

“(o) CONGRESSIONAL REVIEW.—

“(1) NOTIFICATION.—Not less than 60 days before making an award under this section, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works, the Committee on Banking, Housing, and Urban Affairs, and the Committee on Commerce, Science, and Transportation of the Senate—

“(A) a list of all applications determined to be eligible for a grant by the Secretary;

“(B) the quality ratings assigned to each application pursuant to subsection (i);

“(C) a list of applications that received final consideration by the Secretary to receive an award under this section;

“(D) each application proposed to be selected for a grant award;

“(E) proposed grant amounts, including for each new multiyear grant agreement, the proposed payout schedule for the project; and

“(F) an analysis of the impacts of any large projects proposed to be selected on existing commitments and anticipated funding levels for the next 4 fiscal years, based on information available to the Secretary at the time of the report.

“(2) COMMITTEE REVIEW.—Before the last day of the 60-day period described in paragraph (1), each Committee described in paragraph (1) shall review the Secretary's list of proposed projects.

“(3) CONGRESSIONAL DISAPPROVAL.—The Secretary may not make a grant or any other obligation or commitment to fund a project under this section if a joint resolution is enacted disapproving funding for the project before the last day of the 60-day period described in paragraph (1).

“(p) TRANSPARENCY.—

“(1) IN GENERAL.—Not later than 30 days after awarding a grant for a project under this section, the Secretary shall send to all applicants, and publish on the website of the Department of Transportation—

“(A) a summary of each application made to the program for the grant application period; and

“(B) the evaluation and justification for the project selection, including ratings assigned to all applications and a list of applications that received final consideration by the Secretary to receive an award under this section, for the grant application period.

“(2) BRIEFING.—The Secretary shall provide, at the request of a grant applicant under this section, the opportunity to receive a briefing to explain any reasons the grant applicant was not awarded a grant.

“(q) DEFINITIONS.—In this section:

“(1) AREAS OF PERSISTENT POVERTY.—The term ‘areas of persistent poverty’ has the meaning given such term in section 172(l).

“(2) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

“(A) a State or a group of States;

“(B) a unit of local government, including a metropolitan planning organization, or a group of local governments;

“(C) a political subdivision of a State or local government;

“(D) a special purpose district or public authority with a transportation function, including a port authority;

“(E) a Tribal government or a consortium of Tribal governments;

“(F) a Federal agency eligible to receive funds under section 201, 203, or 204 that applies jointly with a State or group of States;

“(G) a territory; and

“(H) a multistate or multijurisdictional group of entities described in this paragraph.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by striking the item relating to section 117 and inserting the following:

“117. Projects of national and regional significance.”.

#### SEC. 1302. COMMUNITY TRANSPORTATION INVESTMENT GRANT PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, as amended by this title, is further amended by adding at the end the following:

##### “§173. Community transportation investment grant program

“(a) ESTABLISHMENT.—The Secretary shall establish a community transportation investment grant program to improve surface transportation safety, state of good repair, accessibility, and environmental quality through infrastructure investments.

“(b) GRANT AUTHORITY.—

“(1) IN GENERAL.—In carrying out the program established under subsection (a), the Secretary shall make grants, on a competitive basis, to eligible entities in accordance with this section.

“(2) GRANT AMOUNT.—The maximum amount of a grant under this section shall be \$25,000,000.

“(c) APPLICATIONS.—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary may require.

“(d) ELIGIBLE PROJECT COSTS.—Grant amounts for an eligible project carried out under this section may be used for—

“(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

“(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to such land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

“(e) RURAL AND COMMUNITY SETASIDES.—

“(1) IN GENERAL.—The Secretary shall reserve—

“(A) not less than 25 percent of the amounts made available to carry out this section for projects located in rural areas; and

“(B) not less than 25 percent of the amounts made available to carry out this section for projects located in urbanized areas with a population greater than 49,999 individuals and fewer than 200,001 individuals.

“(2) DEFINITION OF RURAL AREA.—In this subsection, the term ‘rural area’ means all areas of a State or territory not included in urbanized areas.

“(3) EXCESS FUNDING.—If the Secretary determines that there are insufficient qualified applicants to use the funds set aside under this subsection, the Secretary may use such funds for grants for any projects eligible under this section.

“(f) EVALUATION.—To evaluate applications under this section, the Secretary shall—

“(1) develop a process to objectively evaluate applications on the benefits of the project proposed in such application—

“(A) to transportation safety, including reductions in traffic fatalities and serious injuries;

“(B) to state of good repair, including improved condition of bridges and pavements;

“(C) to transportation system access, including improved access to jobs and services; and

“(D) in reducing greenhouse gas emissions;

“(2) develop a rating system to assign a numeric value to each application, based on each of the criteria described in paragraph (1);

“(3) for each application submitted, compare the total benefits of the proposed project, as determined by the rating system developed under paragraph (2), with the costs of such project, and rank each application based on the results of the comparison; and

“(4) ensure that only such applications that are ranked highly based on the results of the comparison conducted under paragraph (3) are considered to receive a grant under this section.

“(g) WEIGHTING.—In establishing the evaluation process under subsection (f), the Secretary may assign different weights to the criteria described in subsection (f)(1) based on project type, population served by a project, and other context-sensitive considerations, provided that—

“(1) each application is rated on all criteria described in subsection (f)(1); and

“(2) each application has the same possible minimum and maximum rating, regardless of any differences in the weighting of criteria.

“(h) TRANSPARENCY.—

“(1) PUBLICLY AVAILABLE INFORMATION.—Prior to the issuance of any notice of funding opportunity under this section, the Secretary shall make publicly available on the website of the Department of Transportation a detailed explanation of the evaluation and rating process developed under subsection (f), including any differences in the weighting of criteria pursuant to subsection (g), if applicable, and update such

website for each revision of the evaluation and rating process.

“(2) NOTIFICATIONS TO CONGRESS.—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Environment and Public Works of the Senate, the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Commerce, Science, and Transportation of the Senate the following written notifications:

“(A) A notification when the Secretary publishes or updates the information required under paragraph (1).

“(B) Not later than 30 days prior to the date on which the Secretary awards a grant under this section, a notification that includes—

“(i) the ratings of each application submitted pursuant to subsection (f)(2);

“(ii) the ranking of each application submitted pursuant to subsection (f)(3); and

“(iii) a list of all applications that receive final consideration by the Secretary to receive an award under this section pursuant to subsection (f)(4).

“(C) Not later than 3 business days prior to the date on which the Secretary announces the award of a grant under this section, a notification describing each grant to be awarded, including the amount and the recipient.

“(i) TECHNICAL ASSISTANCE.—Of the amounts made available to carry out this section, the Secretary may reserve up to \$3,000,000 to provide technical assistance to eligible entities.

“(j) ADMINISTRATION.—Of the amounts made available to carry out this section, the Secretary may reserve up to \$5,000,000 for the administrative costs of carrying out the program under this section.

“(k) TREATMENT OF PROJECTS.—

“(1) FEDERAL REQUIREMENTS.—The Secretary shall, with respect to a project funded by a grant under this section, apply—

“(A) the requirements of this title to a highway project;

“(B) the requirements of chapter 53 of title 49 to a public transportation project; and

“(C) the requirements of section 22905 of title 49 to a passenger rail or freight rail project.

“(2) MULTIMODAL PROJECTS.—

“(A) IN GENERAL.—Except as otherwise provided in this paragraph, if an eligible project is a multimodal project, the Secretary shall—

“(i) determine the predominant modal component of the project; and

“(ii) apply the applicable requirements of such predominant modal component to the project.

“(B) EXCEPTIONS.—

“(i) PASSENGER OR FREIGHT RAIL COMPONENT.—For any passenger or freight rail component of a project, the requirements of section 22907(j)(2) of title 49 shall apply.

“(ii) PUBLIC TRANSPORTATION COMPONENT.—For any public transportation component of a project, the requirements of section 5333 of title 49 shall apply.

“(C) BUY AMERICA.—In applying the Buy American requirements under section 313 of this title and sections 5320, 22905(a), and 24305(f) of title 49 to a multimodal project under this paragraph, the Secretary shall—

“(i) consider the various modal components of the project; and

“(ii) seek to maximize domestic jobs.

“(3) FEDERAL-AID HIGHWAY REQUIREMENTS.—Notwithstanding any other provision of this subsection, the Secretary shall require recipients of grants under this section to comply with subsection (a) of section 113 with respect to public transportation projects, passenger rail projects, and freight rail projects, in the same manner that recipients of grants are required to comply with such subsection for construction work performed on highway projects on Federal-aid highways.

“(i) TRANSPARENCY.—

“(1) IN GENERAL.—Not later than 30 days after awarding a grant for a project under this sec-

tion, the Secretary shall send to all applicants, and publish on the website of the Department of Transportation—

“(A) a summary of each application made to the program for the grant application period; and

“(B) the evaluation and justification for the project selection, including ratings and rankings assigned to all applications and a list of applications that received final consideration by the Secretary to receive an award under this section, for the grant application period.

“(2) BRIEFING.—The Secretary shall provide, at the request of a grant applicant under this section, the opportunity to receive a briefing to explain any reasons the grant applicant was not awarded a grant.

“(m) DEFINITIONS.—In this section:

“(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

“(A) a metropolitan planning organization;

“(B) a unit of local government;

“(C) a transit agency;

“(D) a Tribal Government or a consortium of Tribal governments;

“(E) a multijurisdictional group of entities described in this paragraph;

“(F) a special purpose district with a transportation function or a port authority;

“(G) a territory; or

“(H) a State that applies for a grant under this section jointly with an entity described in subparagraphs (A) through (G).

“(2) ELIGIBLE PROJECT.—The term ‘eligible project’ means any project eligible under this title or chapter 53 of title 49.”

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is further amended by adding at the end the following new item:

“173. Community transportation investment grant program.”

#### **SEC. 1303. GRANTS FOR CHARGING AND FUELING INFRASTRUCTURE TO MODERNIZE AND RECONNECT AMERICA FOR THE 21ST CENTURY.**

(a) PURPOSE.—The purpose of this section is to establish a grant program to strategically deploy electric vehicle charging infrastructure, natural gas fueling, propane fueling, and hydrogen fueling infrastructure along designated alternative fuel corridors that will be accessible to all drivers of electric vehicles, natural gas vehicles, propane vehicles, and hydrogen vehicles.

(b) GRANT PROGRAM.—Section 151 of title 23, United States Code, is amended—

(1) in subsection (a) by striking “Not later than 1 year after the date of enactment of the FAST Act, the Secretary shall” and inserting “The Secretary shall periodically”;

(2) in subsection (b)(2) by inserting “previously designated by the Federal Highway Administration or” after “fueling corridors”;

(3) in subsection (d)—

(A) by striking “5 years after the date of establishment of the corridors under subsection (a), and every 5 years thereafter” and inserting “180 days after the date of enactment of the INVEST in America Act”; and

(B) by inserting “establish a recurring process to regularly” after “the Secretary shall”;

(4) in subsection (e)—

(A) in paragraph (1) by striking “; and” and inserting a semicolon;

(B) in paragraph (2)—

(i) by striking “establishes an aspirational goal of achieving” and inserting “describes efforts to achieve”; and

(ii) by striking “by the end of fiscal year 2020.” and inserting a semicolon; and

(C) by adding at the end the following:

“(3) summarizes best practices and provides guidance, developed through consultation with the Secretary of Energy, for project development of electric vehicle charging infrastructure, hydrogen fueling infrastructure, and natural gas fueling infrastructure at the State, tribal, and local level to allow for the predictable deployment of such infrastructure; and

“(4) summarizes the progress and implementation of the grant program under subsection (f), including—

“(A) a description of how funds awarded through the grant program under subsection (f) will aid efforts to achieve strategic deployment of electric vehicle charging infrastructure, natural gas fueling, propane fueling, and hydrogen fueling infrastructure in those corridors;

“(B) the total number and location of charging and fueling stations installed under subsection (f); and

“(C) the total estimated greenhouse gas emissions that have been reduced through the use of electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure funded under subsection (f) using the methodology identified in paragraph (3)(B).”; and

(5) by adding at the end the following:

“(f) ELECTRIC VEHICLE CHARGING, NATURAL GAS FUELING, PROPANE FUELING, AND HYDROGEN FUELING INFRASTRUCTURE GRANTS.—

“(1) ESTABLISHMENT.—Not later than 1 year after the date of enactment of the INVEST in America Act, the Secretary shall establish a grant program to award grants to eligible entities for electric vehicle charging, natural gas fueling, propane fueling, and hydrogen fueling infrastructure projects.

“(2) ELIGIBLE ENTITY.—An entity eligible to receive a grant under this subsection is—

“(A) a State (as such term is defined in section 401) or political subdivision of a State;

“(B) a metropolitan planning organization;

“(C) a unit of local government;

“(D) a special purpose district or public authority with a transportation function, including a port authority;

“(E) a Tribal government;

“(F) an authority, agency, or instrumentality of, or an entity owned by, 1 or more of the entities described in subparagraphs (A) through (E); or

“(G) a group of entities described in subparagraphs (A) through (F).

“(3) APPLICATION.—To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary shall require, including—

“(A) a description of—

“(i) the public accessibility of the charging or fueling infrastructure proposed to be funded with a grant under this subsection, including—

“(I) charging or fueling connector types;

“(II) publicly available information on real-time availability; and

“(III) payment methods available to all members of the public to ensure secure, convenient, fair, and equal access and not limited by membership to a particular provider;

“(ii) collaborative engagement with the entity with jurisdiction over the roadway and any other relevant stakeholders (including automobile manufacturers, utilities, infrastructure providers, technology providers, electric charging, natural gas, propane, and hydrogen fuel providers, metropolitan planning organizations, States, Indian Tribes, units of local government, fleet owners, fleet managers, fuel station owners and operators, labor organizations, infrastructure construction and component parts suppliers, and multistate and regional entities)—

“(I) to foster enhanced, coordinated, public-private or private investment in electric vehicle charging, natural gas fueling, propane fueling, and hydrogen fueling infrastructure;

“(II) to expand deployment of electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure;

“(III) to protect personal privacy and ensure cybersecurity; and

“(IV) to ensure that a properly trained workforce is available to construct and install electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure;

“(iii) the location of the station or fueling site, including consideration of—

“(I) the availability of onsite amenities for vehicle operators, including restrooms or food facilities;

“(II) access in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

“(III) height and fueling capacity requirements for facilities that charge or refuel large vehicles, including semitrailer trucks; and

“(IV) appropriate distribution to avoid redundancy and fill charging or fueling gaps;

“(iv) infrastructure installation that can be responsive to technology advancements, including accommodating autonomous vehicles and future charging methods;

“(v) the long-term operation and maintenance of the electric vehicle charging or hydrogen fueling infrastructure to avoid stranded assets and protect the investment of public funds in such infrastructure; and

“(vi) in the case of an applicant that is not a State department of transportation, the degree of coordination with the applicable State department of transportation; and

“(B) an assessment of the estimated greenhouse gas emissions and air pollution from vehicle emissions that will be reduced through the use of electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure, which shall be conducted using one standardized methodology or tool as determined by the Secretary.

“(4) CONSIDERATIONS.—In selecting eligible entities to receive a grant under this subsection, the Secretary shall—

“(A) consider the extent to which the application of the eligible entity would—

“(i) reduce estimated greenhouse gas emissions and air pollution from vehicle emissions, weighted by the total Federal investment in the project;

“(ii) improve alternative fueling corridor networks by—

“(I) converting corridor-pending corridors to corridor-ready corridors; or

“(II) in the case of corridor-ready corridors, providing additional capacity—

“(aa) to meet excess demand for charging or fueling infrastructure; or

“(bb) to reduce congestion at existing charging or fueling infrastructure in high-traffic locations;

“(iii) meet current or anticipated market demands for charging or fueling infrastructure;

“(iv) enable or accelerate the construction of charging or fueling infrastructure that would be unlikely to be completed without Federal assistance;

“(v) support a long-term competitive market for electric vehicle charging infrastructure, natural gas fueling, propane fueling, or hydrogen fueling infrastructure that does not significantly impair existing electric vehicle charging or hydrogen fueling infrastructure providers; and

“(vi) reduce greenhouse gas emissions in established goods-movement corridors, locations serving first- and last-mile freight near ports and freight hubs, and locations that optimize infrastructure networks and reduce hazardous air pollutants in communities disproportionately impacted by such pollutants; and

“(B) ensure, to the maximum extent practicable, geographic diversity among grant recipients to ensure that electric vehicle charging infrastructure or hydrogen fueling infrastructure is available throughout the United States.

“(5) USE OF FUNDS.—

“(A) IN GENERAL.—Any grant made under this subsection shall be—

“(i) directly related to the charging or fueling of a vehicle; and

“(ii) only for charging or fueling infrastructure that is open to the general public.

“(B) LOCATION OF INFRASTRUCTURE.—

“(i) IN GENERAL.—Any electric vehicle charging, natural gas fueling, propane fueling, or hy-

drogen fueling infrastructure acquired and installed with a grant under this subsection shall be located along an alternative fuel corridor designated under this section or by a State or group of States.

“(ii) EXCEPTION.—Notwithstanding clause (i), the Secretary may make a grant for electric vehicle charging or hydrogen fueling infrastructure not on a designated alternative fuel corridor if the applicant demonstrates that the proposed charging or fueling infrastructure would expand deployment of electric vehicle charging or hydrogen fueling to a greater number of users than investments on such corridor.

“(C) OPERATING ASSISTANCE.—

“(i) IN GENERAL.—Subject to clauses (ii) and (iii), an eligible entity that receives a grant under this subsection may use a portion of the funds for operating assistance for the first 5 years of operations after the installation of electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure while the facility transitions to independent system operations.

“(ii) INCLUSION.—Operating assistance under this subparagraph shall be limited to costs allocable to operating and maintaining the electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure and service.

“(iii) LIMITATION.—Operating assistance under this subparagraph may not exceed the amount of a contract under subparagraph (A) to acquire and install electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure.

“(D) SIGNS.—

“(i) IN GENERAL.—Subject to this paragraph and paragraph (6)(B), an eligible entity that receives a grant under this subsection may use a portion of the funds to acquire and install—

“(I) traffic control devices located in the right-of-way to provide directional information to electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure acquired, installed, or operated with the grant under this subsection; and

“(II) on-premises signs to provide information about electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure acquired, installed, or operated with a grant under this subsection.

“(ii) REQUIREMENT.—Any traffic control device or on-premises sign acquired, installed, or operated with a grant under this subsection shall comply with the Manual on Uniform Traffic Control Devices, if located in the highway right-of-way.

“(E) REVENUE.—An eligible entity receiving a grant under this subsection and a private entity referred to in subparagraph (F) may enter into a cost-sharing agreement under which the private entity submits to the eligible entity a portion of the revenue from the electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure.

“(F) PRIVATE ENTITY.—

“(i) IN GENERAL.—An eligible entity receiving a grant under this subsection may use the funds in accordance with this paragraph to contract with a private entity for installation, operation, or maintenance of electric vehicle charging, natural gas fueling, propane fueling, or hydrogen fueling infrastructure.

“(ii) INCLUSION.—An eligible private entity includes privately, publicly, or cooperatively owned utilities, private electric vehicle service equipment and hydrogen fueling infrastructure providers, and retail fuel stations.

“(6) PROJECT REQUIREMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of law, any project funded by a grant under this subsection shall be treated as a project on a Federal-aid highway.

“(B) ELECTRIC VEHICLE CHARGING PROJECTS.—A project for electric vehicle charging infrastructure funded by a grant under this subsection shall be subject to the requirements of section 155.

“(7) FEDERAL SHARE.—The Federal share of the cost of a project carried out with a grant under this subsection shall not exceed 80 percent of the total project cost.”.

#### SEC. 1304. COMMUNITY CLIMATE INNOVATION GRANTS.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, as amended by this title, is further amended by inserting after section 171 the following:

##### “§ 172. Community climate innovation grants

“(a) ESTABLISHMENT.—The Secretary shall establish a community climate innovation grant program (in this section referred to as the ‘Program’) to make grants, on a competitive basis, for locally selected projects that reduce greenhouse gas emissions while improving the mobility, accessibility, and connectivity of the surface transportation system.

“(b) PURPOSE.—The purpose of the Program shall be to support communities in reducing greenhouse gas emissions from the surface transportation system.

“(c) ELIGIBLE APPLICANTS.—The Secretary may make grants under the Program to the following entities:

“(1) A metropolitan planning organization.

“(2) A unit of local government or a group of local governments, or a county or multi-county special district.

“(3) A subdivision of a local government.

“(4) A transit agency.

“(5) A special purpose district with a transportation function or a port authority.

“(6) A Tribal government or a consortium of tribal governments.

“(7) A territory.

“(8) A multijurisdictional group of entities described in paragraphs (1) through (7).

“(d) APPLICATIONS.—To be eligible for a grant under the Program, an entity specified in subsection (c) shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary determines appropriate.

“(e) ELIGIBLE PROJECTS.—The Secretary may only provide a grant under the Program for a project that is expected to yield a significant reduction in greenhouse gas emissions from the surface transportation system and—

“(1) is a project eligible for assistance under this title or under chapter 53 of title 49 or supports fueling infrastructure for fuels defined under section 9001(5) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8101(5)); or

“(2) is a capital project as defined in section 22906 of title 49 to improve intercity passenger rail that will yield a significant reduction in single occupant vehicle trips and improve mobility on public roads.

“(f) ELIGIBLE USES.—Grant amounts received for a project under the Program may be used for—

“(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

“(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

“(g) PROJECT PRIORITIZATION.—In making grants for projects under the Program, the Secretary shall give priority to projects that are expected to yield the most significant reductions in greenhouse gas emissions from the surface transportation system.

“(h) ADDITIONAL CONSIDERATIONS.—In making grants for projects under the Program, the Secretary shall consider the extent to which—

“(1) a project maximizes greenhouse gas reductions in a cost-effective manner;

“(2) a project reduces dependence on single-occupant vehicle trips or provides additional transportation options;

“(3) a project improves the connectivity and accessibility of the surface transportation system, particularly to low- and zero-emission forms of transportation, including public transportation, walking, and bicycling;

“(4) an applicant has adequately considered or will adequately consider, including through the opportunity for public comment, the environmental justice and equity impacts of the project;

“(5) a project contributes to geographic diversity among grant recipients, including to achieve a balance between urban, suburban, and rural communities;

“(6) a project serves low-income residents of low-income communities, including areas of persistent poverty, while not displacing such residents;

“(7) a project uses pavement materials that demonstrate reductions in greenhouse gas emissions through sequestration or innovative manufacturing processes;

“(8) a project repurposes neglected or underused infrastructure, including abandoned highways, bridges, railways, trail ways, and adjacent underused spaces, into new hybrid forms of public space that support multiple modes of transportation; and

“(9) a project includes regional multimodal transportation system management and operations elements that will improve the effectiveness of such project and encourage reduction of single occupancy trips by providing the ability of users to plan, use, and pay for multimodal transportation alternatives.

“(i) FUNDING.—

“(1) MAXIMUM AMOUNT.—The maximum amount of a grant under the Program shall be \$25,000,000.

“(2) TECHNICAL ASSISTANCE.—Of the amounts made available to carry out the Program, the Secretary may use up to 1 percent to provide technical assistance to applicants and potential applicants.

“(j) TREATMENT OF PROJECTS.—

“(1) FEDERAL REQUIREMENTS.—The Secretary shall, with respect to a project funded by a grant under this section, apply—

“(A) the requirements of this title to a highway project;

“(B) the requirements of chapter 53 of title 49 to a public transportation project; and

“(C) the requirements of section 22905 of title 49 to a passenger rail or freight rail project.

“(2) MULTIMODAL PROJECTS.—

“(A) IN GENERAL.—Except as otherwise provided in this paragraph, if an eligible project is a multimodal project, the Secretary shall—

“(i) determine the predominant modal component of the project; and

“(ii) apply the applicable requirements of such predominant modal component to the project.

“(B) EXCEPTIONS.—

“(i) PASSENGER OR FREIGHT RAIL COMPONENT.—For any passenger or freight rail component of a project, the requirements of section 22907(j)(2) of title 49 shall apply.

“(ii) PUBLIC TRANSPORTATION COMPONENT.—For any public transportation component of a project, the requirements of section 5333 of title 49 shall apply.

“(C) BUY AMERICA.—In applying the Buy American requirements under section 313 of this title and sections 5320, 22905(a), and 24305(f) of title 49 to a multimodal project under this paragraph, the Secretary shall—

“(i) consider the various modal components of the project; and

“(ii) seek to maximize domestic jobs.

“(3) FEDERAL-AID HIGHWAY REQUIREMENTS.—Notwithstanding any other provision of this subsection, the Secretary shall require recipients of grants under this section to comply with subsection (a) of section 113 with respect to public transportation projects, passenger rail projects, and freight rail projects, in the same manner that recipients of grants are required to comply

with such subsection for construction work performed on highway projects on Federal-aid highways.

“(k) SINGLE-OCCUPANCY VEHICLE HIGHWAY FACILITIES.—None of the funds provided under this section may be used for a project that will result in the construction of new capacity available to single occupant vehicles unless the project consists of a high-occupancy vehicle facility and is consistent with section 166.

“(l) DEFINITION OF AREAS OF PERSISTENT POVERTY.—In this section, the term ‘areas of persistent poverty’ means—

“(1) any county that has had 20 percent or more of the population of such county living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates;

“(2) any census tract with a poverty rate of at least 20 percent, as measured by the most recent 5-year data series available from the American Community Survey of the Bureau of the Census for all States and Puerto Rico; or

“(3) any other territory or possession of the United States that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990, 2000, and 2010 island areas decennial censuses, or equivalent data, of the Bureau of the Census.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 1 of title 23, United States Code, is amended by inserting after the item relating to section 171 the following:

“172. Community climate innovation grants.”.

#### SEC. 1305. METRO PERFORMANCE PROGRAM.

(a) ESTABLISHMENT.—The Secretary of Transportation shall directly allocate funds in accordance with this section to enhance local decision making and control in delivering projects to address local transportation needs.

(b) DESIGNATION.—

(1) IN GENERAL.—The Secretary shall designate direct recipients based on the criteria in paragraph (3) to be direct recipients of funds under this section.

(2) RESPONSIBILITIES.—A direct recipient shall be responsible for compliance with any requirements related to the use of Federal funds vested in a State department of transportation under chapter 1 of title 23, United States Code.

(3) CRITERIA.—In designating an applicant under this subsection, the Secretary shall consider—

(A) the legal, financial, and technical capacity of the applicant;

(B) the level of coordination between the applicant and—

(i) the State department of transportation of the State or States in which the metropolitan planning area represented by the applicant is located;

(ii) local governments and providers of public transportation within the metropolitan planning area represented by the applicant; and

(iii) if more than 1 metropolitan planning organization is designated within an urbanized area represented by the applicant, any other such metropolitan planning organization;

(C) in the case of an applicant that represents an urbanized area population of greater than 200,000, the effectiveness of project delivery and timely obligation of funds made available under section 133(d)(1)(A)(i) of title 23, United States Code;

(D) if the applicant or a local government within the metropolitan planning area that the applicant represents has been the recipient of a discretionary grant from the Secretary within the preceding 5 years, the administration of such grant;

(E) the extent to which the planning and decision making process of the applicant, including the long-range transportation plan and the approved transportation improvement program under section 134 of such title, support—

(i) the performance goals established under section 150(b) of such title; and

(ii) the achievement of metropolitan or statewide performance targets established under section 150(d) of such title;

(F) whether the applicant is a designated recipient of funds from the Federal Transit Administration as described under subsections (A) and (B) of section 5302(4) of title 49, United States Code; and

(G) any other criteria established by the Secretary.

(4) REQUIREMENTS.—

(A) CALL FOR NOMINATION.—Not later than February 1, 2022, the Secretary shall publish in the Federal Register a notice soliciting applications for designation under this subsection.

(B) GUIDANCE.—The notification under paragraph (1) shall include guidance on the requirements and responsibilities of a direct recipient under this section, including implementing regulations.

(C) DETERMINATION.—The Secretary shall make all designations under this section for fiscal year 2023 not later than June 1, 2022.

(5) TERM.—Except as provided in paragraph (6), a designation under this subsection shall—

(A) be for a period of not less than 5 years; and

(B) be renewable.

(6) TERMINATION.—

(A) IN GENERAL.—The Secretary shall establish procedures for the termination of a designation under this subsection.

(B) CONSIDERATIONS.—In establishing procedures under subparagraph (A), the Secretary shall consider—

(i) with respect to projects carried out under this section, compliance with the requirements of title 23, United States Code, or chapter 53 of title 49, United States Code; and

(ii) the obligation rate of any funds—

(I) made available under this section; and

(II) in the case of a metropolitan planning organization that represents a metropolitan planning area with an urbanized area population of greater than 200,000, made available under section 133(d)(1)(A)(i) of title 23, United States Code.

(C) USE OF FUNDS.—

(1) ELIGIBLE PROJECTS.—Funds made available under this section may be obligated for the purposes described in section 133(b) of title 23, United States Code.

(2) ADMINISTRATIVE EXPENSES AND TECHNICAL ASSISTANCE.—Of the amounts made available under this section, the Secretary may set aside not more than \$5,000,000 for program management, oversight, and technical assistance to direct recipients.

(d) RESPONSIBILITIES OF DIRECT RECIPIENTS.—

(1) DIRECT AVAILABILITY OF FUNDS.—Notwithstanding title 23, United States Code, the amounts made available under this section shall be allocated to each direct recipient for obligation.

(2) PROJECT DELIVERY.—

(A) IN GENERAL.—The direct recipient may collaborate with a State, unit of local government, regional entity, or transit agency to carry out a project under this section and ensure compliance with all applicable Federal requirements.

(B) STATE AUTHORITY.—The State may exercise, on behalf of the direct recipient, any available decisionmaking authorities or actions assumed from the Secretary.

(C) USE OF FUNDS.—The direct recipient may use amounts made available under this section to compensate a State, unit of local government, regional entity, or transit agency for costs incurred in providing assistance under this paragraph.

(3) DISTRIBUTION OF AMOUNTS AMONG DIRECT RECIPIENTS.—

(A) IN GENERAL.—Subject to subparagraph (B), on the first day of the fiscal year for which funds are made available under this section, the Secretary shall allocate such funds to each direct recipient as the proportion of the population (as determined by data collected by the

Bureau of the Census) of the urbanized area represented by any 1 direct recipient bears to the total population of all of urbanized areas represented by all direct recipients.

(B) **MINIMUM AND MAXIMUM AMOUNTS.**—Of funds allocated to direct recipients under subparagraph (A), each direct recipient shall receive not less than \$10,000,000 and not more than \$50,000,000 each fiscal year.

(C) **MINIMUM GUARANTEED AMOUNT.**—In making a determination whether to designate a metropolitan planning organization as a direct recipient under subsection (b), the Secretary shall ensure that each direct recipient receives the minimum required allocation under subparagraph (B).

(D) **ADDITIONAL AMOUNTS.**—If any amounts remain undistributed after the distribution described in this subsection, such remaining amounts and an associated amount of obligation limitation shall be made available as if suballocated under clauses (i) and (ii) of section 133(d)(1)(A) of title 23, United States Code, and distributed among the States in the proportion that the relative shares of the population (as determined by data collected by the Bureau of the Census) of the urbanized areas of each State bears to the total populations of all urbanized areas across all States.

(4) **ASSUMPTION OF RESPONSIBILITY OF THE SECRETARY.**—

(A) **IN GENERAL.**—For projects carried out with funds provided under this section, the direct recipient may assume the responsibilities of the Secretary under section 106 of title 23, United States Code, for design, plans, specifications, estimates, contract awards, and inspections with respect to the projects unless the Secretary determines that the assumption is not appropriate.

(B) **AGREEMENT.**—The Secretary and the direct recipient shall enter into an agreement relating to the extent to which the direct recipient assumes the responsibilities of the Secretary under this paragraph.

(C) **LIMITATIONS.**—The Secretary shall retain responsibilities described in subparagraph (A) for any project that the Secretary determines to be in a high-risk category, including projects on the National Highway System.

(e) **EXPENDITURE OF FUNDS.**—

(1) **CONSISTENCY WITH METROPOLITAN PLANNING.**—Except as otherwise provided in this section, programming and expenditure of funds for projects under this section shall be consistent with the requirements of section 134 of title 23, United States Code, and section 5303 of title 49, United States Code.

(2) **SELECTION OF PROJECTS.**—

(A) **IN GENERAL.**—Notwithstanding subsections (j)(5) and (k)(4) of section 134 of title 23, United States Code, or subsections (j)(5) and (k)(4) of section 5303 of title 49, United States Code, a direct recipient shall select, from the approved transportation improvement program under such sections, all projects to be funded under this section, including projects on the National Highway System.

(B) **ELIGIBLE PROJECTS.**—The project selection process described in this subsection shall apply to all federally funded projects within the boundaries of a metropolitan planning area served by a direct recipient that are carried out under this section.

(C) **CONSULTATION REQUIRED.**—In selecting a project under this subsection, the metropolitan planning organization shall consult with—

(i) in the case of a highway project, the State and locality in which such project is located; and

(ii) in the case of a transit project, any affected public transportation operator.

(3) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to limit the ability of a direct recipient to partner with a State department of transportation or other recipient of Federal funds under title 23, United States Code, or chapter 53 of title 49, United States Code, to carry out a project.

(f) **TREATMENT OF FUNDS.**—

(1) **IN GENERAL.**—Except as provided in this section, funds made available to carry out this section shall be administered as if apportioned under chapter 1 of title 23, United States Code.

(2) **FEDERAL SHARE.**—The Federal share of the cost of a project carried out under this section shall be determined in accordance with section 120 of title 23, United States Code.

(g) **REPORT.**—

(1) **DIRECT RECIPIENT REPORT.**—Not later than 60 days after the end of each fiscal year, each direct recipient shall submit to the Secretary a report that includes—

(A) a list of projects funded with amounts provided under this section;

(B) a description of any obstacles to complete projects or timely obligation of funds; and

(C) recommendations to improve the effectiveness of the program under this section.

(2) **REPORT TO CONGRESS.**—Not later than October 1, 2024, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that—

(A) summarizes the findings of each direct recipient provided under paragraph (1);

(B) describes the efforts undertaken by both direct recipients and the Secretary to ensure compliance with the requirements of title 23 and chapter 53 of title 49, United States Code;

(C) analyzes the capacity of direct recipients to receive direct allocations of funds under chapter 1 of title 23, United States Code; and

(D) provides recommendations from the Secretary to—

(i) improve the administration, oversight, and performance of the program established under this section;

(ii) improve the effectiveness of direct recipients to complete projects and obligate funds in a timely manner; and

(iii) evaluate options to expand the authority provided under this section, including to allow for the direct allocation to metropolitan planning organizations of funds made available to carry out clause (i) or (ii) of section 133(d)(1)(A) of title 23, United States Code.

(3) **UPDATE.**—Not less frequently than every 2 years, the Secretary shall update the report described in paragraph (2).

(h) **DEFINITIONS.**—

(1) **DIRECT RECIPIENT.**—In this section, the term “direct recipient” means a metropolitan planning organization designated by the Secretary as high-performing under subsection (b) and that was directly allocated funds as described in subsection (d).

(2) **METROPOLITAN PLANNING AREA.**—The term “metropolitan planning area” has the meaning given such term in section 134 of title 23, United States Code.

(3) **METROPOLITAN PLANNING ORGANIZATION.**—The term “metropolitan planning organization” has the meaning given such term in section 134 of title 23, United States Code.

(4) **NATIONAL HIGHWAY SYSTEM.**—The term “National Highway System” has the meaning given such term in section 101 of title 23, United States Code.

(5) **STATE.**—The term “State” has the meaning given such term in section 101 of title 23, United States Code.

(6) **URBANIZED AREA.**—The term “urbanized area” has the meaning given such term in section 134 of title 23, United States Code.

#### **SEC. 1306. GRIDLOCK REDUCTION GRANT PROGRAM.**

(a) **ESTABLISHMENT.**—The Secretary of Transportation shall establish a gridlock reduction program to make grants, on a competitive basis, for projects to reduce, and mitigate the adverse impacts of, traffic congestion.

(b) **APPLICATIONS.**—To be eligible for a grant under this section, an applicant shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary determines appropriate.

(c) **ELIGIBLE APPLICANTS.**—The Secretary may make grants under this section to an applicant that is serving a combined statistical area, as defined by the Office of Management and Budget, with a population of not less than 1,300,000 and that is—

(1) a metropolitan planning organization;

(2) a unit of local government or a group of local governments;

(3) a multijurisdictional group of entities described in paragraphs (1) and (2); or

(4) a State that is in partnership with an entity or group of entities described in paragraph (1), (2), or (3).

(d) **ELIGIBLE PROJECTS.**—The Secretary may award grants under this section to applicants that submit a comprehensive program of surface transportation-related projects to reduce traffic congestion and related adverse impacts, including a project for 1 or more of the following:

(1) Transportation systems management and operations.

(2) Intelligent transportation systems.

(3) Real-time traveler information.

(4) Traffic incident management.

(5) Active traffic management.

(6) Traffic signal timing.

(7) Multimodal travel payment systems.

(8) Transportation demand management, including employer-based commuting programs such as carpool, vanpool, transit benefit, parking cashout, shuttle, or telework programs.

(9) A project to provide transportation options to reduce traffic congestion, including—

(A) a project under chapter 53 of title 49, United States Code;

(B) a bicycle or pedestrian project, including a project to provide safe and connected active transportation networks; and

(C) a surface transportation project carried out in accordance with the national travel and tourism infrastructure strategic plan under section 1431(e) of the FAST Act (49 U.S.C. 301 note).

(10) Any other project, as determined appropriate by the Secretary.

(e) **AWARD PRIORITIZATION.**—

(1) **IN GENERAL.**—In selecting grants under this section, the Secretary shall prioritize applicants serving urbanized areas, as described in subsection (c), that are experiencing a high degree of recurrent transportation congestion, as determined by the Secretary.

(2) **ADDITIONAL CONSIDERATIONS.**—In selecting grants under this section, the Secretary shall also consider the extent to which the project would—

(A) reduce traffic congestion and improve the reliability of the surface transportation system;

(B) mitigate the adverse impacts of traffic congestion on the surface transportation system, including safety and environmental impacts;

(C) maximize the use of existing capacity; and

(D) employ innovative, integrated, and multimodal solutions to the items described in subparagraphs (A), (B), and (C).

(f) **FEDERAL SHARE.**—

(1) **IN GENERAL.**—The Federal share of the cost of a project carried out under this section may not exceed 60 percent.

(2) **MAXIMUM FEDERAL SHARE.**—Federal assistance other than a grant for a project under this section may be used to satisfy the non-Federal share of the cost of such project, except that the total Federal assistance provided for a project receiving a grant under this section may not exceed 80 percent of the total project cost.

(g) **USE OF FUNDS.**—Funds made available for a project under this section may be used for—

(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

## (h) FUNDING.—

(1) GRANT AMOUNT.—A grant under this section shall be in an amount not less than \$10,000,000 and not more than \$50,000,000.

(2) AVAILABILITY.—Funds made available under this program shall be available until expended.

## (i) FREIGHT PROJECT SET-ASIDE.—

(1) IN GENERAL.—The Secretary shall set aside not less than 50 percent of the funds made available to carry out this section for grants for freight projects under this subsection.

(2) ELIGIBLE USES.—The Secretary shall provide funds set aside under this subsection to applicants that submit a comprehensive program of surface transportation-related projects to reduce freight-related traffic congestion and related adverse impacts, including—

- (A) freight intelligent transportation systems;
- (B) real-time freight parking information;
- (C) real-time freight routing information;
- (D) freight transportation and delivery safety projects;
- (E) first-mile and last-mile delivery solutions;
- (F) shifting freight delivery to off-peak travel times;

(G) reducing greenhouse gas emissions and air pollution from freight transportation and delivery, including through the use of innovative vehicles that produce fewer greenhouse gas emissions;

(H) use of centralized delivery locations;

(I) designated freight vehicle parking and staging areas;

(J) curb space management; and

(K) other projects, as determined appropriate by the Secretary.

## (3) AWARD PRIORITIZATION.—

(A) IN GENERAL.—In providing funds set aside under this section, the Secretary shall prioritize applicants serving urbanized areas, as described in subsection (c), that are experiencing a high degree of recurrent congestion due to freight transportation, as determined by the Secretary.

(B) ADDITIONAL CONSIDERATIONS.—In providing funds set aside under this subsection, the Secretary shall consider the extent to which the proposed project—

- (i) reduces freight-related traffic congestion and improves the reliability of the freight transportation system;
- (ii) mitigates the adverse impacts of freight-related traffic congestion on the surface transportation system, including safety and environmental impacts;
- (iii) maximizes the use of existing capacity;
- (iv) employs innovative, integrated, and multimodal solutions to the items described in clauses (i) through (iii);
- (v) leverages Federal funds with non-Federal contributions; and
- (vi) integrates regional multimodal transportation management and operational projects that address both passenger and freight congestion.

(4) FLEXIBILITY.—If the Secretary determines that there are insufficient qualified applicants to use the funds set aside under this subsection, the Secretary may use such funds for grants for any projects eligible under this section.

## (j) REPORT.—

(1) RECIPIENT REPORT.—The Secretary shall ensure that not later than 2 years after the Secretary awards grants under this section, the recipient of each such grant submits to the Secretary a report that contains—

- (A) information on each activity or project that received funding under this section;
- (B) a summary of any non-Federal resources leveraged by a grant under this section;
- (C) any statistics, measurements, or quantitative assessments that demonstrate the congestion reduction, reliability, safety, and environmental benefits achieved through activities or projects that received funding under this section; and
- (D) any additional information required by the Secretary.

(2) REPORT TO CONGRESS.—Not later than 9 months after the date specified in paragraph (1), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works, the Committee on Commerce, Science, and Transportation, and the Committee on Banking, Housing, and Urban Affairs of the Senate, and make publicly available on a website, a report detailing—

(A) a summary of any information provided under paragraph (1); and

(B) recommendations and best practices to—

- (i) reduce traffic congestion, including freight-related traffic congestion, and improve the reliability of the surface transportation system;
- (ii) mitigate the adverse impacts of traffic congestion, including freight-related traffic congestion, on the surface transportation system, including safety and environmental impacts; and
- (iii) employ innovative, integrated, and multimodal solutions to the items described in clauses (i) and (ii).

(k) NOTIFICATION.—Not later than 3 business days before awarding a grant under this section, the Secretary shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works, the Committee on Commerce, Science, and Transportation, and the Committee on Banking, Housing, and Urban Affairs of the Senate of the intention to award such a grant.

## (l) TREATMENT OF PROJECTS.—

(1) FEDERAL REQUIREMENTS.—The Secretary shall, with respect to a project funded by a grant under this section, apply—

(A) the requirements of title 23, United States Code, to a highway project;

(B) the requirements of chapter 53 of title 49, United States Code, to a public transportation project; and

(C) the requirements of section 22905 of title 49, United States Code, to a passenger rail or freight rail project.

## (2) MULTIMODAL PROJECTS.—

(A) IN GENERAL.—Except as otherwise provided in this paragraph, if an eligible project is a multimodal project, the Secretary shall—

- (i) determine the predominant modal component of the project; and
- (ii) apply the applicable requirements of such predominant modal component to the project.

## (B) EXCEPTIONS.—

(i) PASSENGER OR FREIGHT RAIL COMPONENT.—For any passenger or freight rail component of a project, the requirements of section 22907(j)(2) of title 49, United States Code, shall apply.

(ii) PUBLIC TRANSPORTATION COMPONENT.—For any public transportation component of a project, the requirements of section 5333 of title 49, United States Code, shall apply.

(C) BUY AMERICA.—In applying the Buy American requirements under section 313 of title 23, United States Code, and sections 5320, 22905(a), and 24305(f) of title 49, United States Code, to a multimodal project under this paragraph, the Secretary shall—

- (i) consider the various modal components of the project; and
- (ii) seek to maximize domestic jobs.

(3) FEDERAL-AID HIGHWAY REQUIREMENTS.—Notwithstanding any other provision of this subsection, the Secretary shall require recipients of grants under this section to comply with subsection (a) of section 113 of title 23, United States Code, with respect to public transportation projects, passenger rail projects, and freight rail projects, in the same manner that recipients of grants are required to comply with such subsection for construction work performed on highway projects on Federal-aid highways.

(m) TREATMENT OF FUNDS.—Except as provided in subsection (l), funds authorized for the purposes described in this section shall be available for obligation in the same manner as if the funds were apportioned under chapter 1 of title 23, United States Code.

**SEC. 1307. REBUILD RURAL GRANT PROGRAM.**

(a) ESTABLISHMENT.—The Secretary of Transportation shall establish a rebuild rural grant program to improve the safety, state of good repair, and connectivity of transportation infrastructure in rural communities.

## (b) GRANT AUTHORITY.—

(1) IN GENERAL.—In carrying out the program established in subsection (a), the Secretary shall make grants, on a competitive basis, in accordance with this section.

(2) GRANT AMOUNT.—A grant made under this program shall be for no more than \$25,000,000.

(c) ELIGIBLE APPLICANTS.—The Secretary may make a grant under this section to—

- (1) a State;
- (2) a metropolitan planning organization or a regional transportation planning organization;
- (3) a unit of local government;
- (4) a Federal land management agency;
- (5) a Tribal government or a consortium of Tribal governments;
- (6) a territory; and
- (7) a multijurisdictional group of entities described in this subsection.

(d) APPLICATIONS.—To be eligible for a grant under this section, an entity specified under subsection (c) shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary determines is appropriate.

(e) ELIGIBLE PROJECTS.—The Secretary shall provide grants under this section to projects eligible under title 23, United States Code, including projects on and off the Federal-aid highway system, that improve safety, state of good repair, or connectivity in a rural community, including projects to—

- (1) improve transportation safety, including projects on high-risk rural roads and on Federal lands;
- (2) improve state of good repair, including projects to repair and rehabilitate bridges on and off the Federal-aid highway system;
- (3) provide or increase access to jobs and services;

(4) provide or increase access to—

- (A) a grain elevator;
- (B) an agricultural facility;
- (C) a mining facility;
- (D) a forestry facility;
- (E) an intermodal facility;
- (F) travel or tourism destinations; or
- (G) any other facility that supports the economy of a rural community; and

(5) reduce vehicle-wildlife collisions and improve habitat connectivity.

(f) ELIGIBLE PROJECT COSTS.—Grant amounts for a project under this section may be used for—

- (1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and
- (2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

## (g) FEDERAL SHARE.—

(1) IN GENERAL.—The share of the cost of a project provided with a grant under this section may not exceed 80 percent of the total cost of such project.

(2) MAXIMUM FEDERAL ASSISTANCE.—Federal assistance other than a grant under this section may be used to satisfy up to 100 percent of the total cost of such project.

(h) PRIORITY.—In making grants under this section, the Secretary shall prioritize projects that address—

- (1) significant transportation safety challenges;
- (2) state of good repair challenges that pose safety risks or risks to a local economy;
- (3) economic development challenges;

(4) connectivity challenges that limit access to jobs or services; and

(5) coordination of projects in the highway right-of-way with proposed broadband service infrastructure needs.

(i) **NOTIFICATION.**—Not later than 3 business days before awarding a grant under this section, the Secretary of Transportation shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate of the intention to award such a grant.

(j) **TREATMENT OF PROJECTS.**—Notwithstanding any other provision of law, a project carried out under this section shall be treated as if the project is located on a Federal-aid highway.

(k) **DEFINITION OF RURAL COMMUNITY.**—In this section, the term “rural community” means an area that is not an urbanized area, as such term is defined in section 101(a) of title 23, United States Code.

#### **SEC. 1308. PARKING FOR COMMERCIAL MOTOR VEHICLES.**

(a) **ESTABLISHMENT.**—The Secretary of Transportation shall establish a program under which the Secretary shall make grants, on a competitive basis, to eligible entities to address the shortage of parking for commercial motor vehicles to improve the safety of commercial motor vehicle operators.

(b) **APPLICATIONS.**—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary may require.

(c) **ELIGIBLE PROJECTS.**—Projects eligible under this section are projects that—

(1) construct safety rest areas that include parking for commercial motor vehicles;

(2) construct commercial motor vehicle parking facilities—

(A) adjacent to private commercial truckstops and travel plazas;

(B) within the boundaries of, or adjacent to, a publicly owned freight facility, including a port terminal operated by a public authority; and

(C) at existing facilities, including inspection and weigh stations and park-and-ride locations;

(3) open existing weigh stations, safety rest areas, and park-and-ride facilities to commercial motor vehicle parking;

(4) facilitate access to publicly and privately provided commercial motor vehicle parking, such as through the use of intelligent transportation systems;

(5) construct turnouts along a Federal-aid highway for commercial motor vehicles;

(6) make capital improvements to public commercial motor vehicle parking facilities that are closed on a seasonal basis to allow the facilities to remain open year-round;

(7) open existing commercial motor vehicle chain-up areas that are closed on a seasonal basis to allow the facilities to remain open year-round for commercial motor vehicle parking;

(8) address commercial motor vehicle parking and layover needs in emergencies that strain the capacity of existing publicly and privately provided commercial motor vehicle parking; and

(9) make improvements to existing commercial motor vehicle parking facilities, including advanced truckstop electrification systems.

(d) **USE OF FUNDS.**—

(1) **IN GENERAL.**—An eligible entity may use a grant under this section for—

(A) development phase activities, including planning, feasibility analysis, benefit-cost analysis, environmental review, preliminary engineering and design work, and other preconstruction activities necessary to advance a project described in subsection (c); and

(B) construction and operational improvements, as such terms are defined in section 101 of title 23, United States Code.

(2) **PRIVATE SECTOR PARTICIPATION.**—An eligible entity that receives a grant under this sec-

tion may partner with a private entity to carry out an eligible project under this section.

(3) **LIMITATION.**—Not more than 10 percent of the amounts made available to carry out this section may be used to promote the availability of existing commercial motor vehicle parking.

(e) **SELECTION CRITERIA.**—In making grants under this section, the Secretary shall consider—

(1) in the case of construction of new commercial motor vehicle parking capacity, the shortage of public and private commercial motor vehicle parking near the project; and

(2) the extent to which each project—

(A) would increase commercial motor vehicle parking capacity or utilization;

(B) would facilitate the efficient movement of freight;

(C) would improve safety, traffic congestion, and air quality;

(D) is cost effective; and

(E) reflects consultation with motor carriers, commercial motor vehicle operators, and private providers of commercial motor vehicle parking.

(f) **NOTIFICATION OF CONGRESS.**—Not later than 3 business days before announcing a project selected to receive a grant under this section, the Secretary of Transportation shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate of the intention to award such a grant.

(g) **TREATMENT OF FUNDS.**—

(1) **TREATMENT OF PROJECTS.**—Notwithstanding any other provision of law, any project funded by a grant under this section shall be treated as a project on a Federal-aid highway under chapter 1 of title 23, United States Code.

(2) **FEDERAL SHARE.**—The Federal share of the cost of a project under this section shall be determined in accordance with subsections (b) and (c) of section 120 of title 23, United States Code.

(h) **PROHIBITION ON CHARGING FEES.**—To be eligible for a grant under this section, an eligible entity shall certify that no fees will be charged for the use of a project assisted with such grant.

(i) **AMENDMENT TO MAP-21.**—Section 1401(c)(1) of MAP-21 (23 U.S.C. 137 note) is amended—

(1) by inserting “and private providers of commercial motor vehicle parking” after “personnel”; and

(2) in subparagraph (A) by striking “the capability of the State to provide” and inserting “the availability of”.

(j) **SURVEY; COMPARATIVE ASSESSMENT; REPORT.**—

(1) **UPDATE.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall update the survey of each State required under section 1401(c)(1) of the MAP-21 (23 U.S.C. 137 note).

(2) **REPORT.**—Not later than 1 year after the deadline under paragraph (1), the Secretary shall publish on the website of the Department of Transportation a report that—

(A) evaluates the availability of adequate parking and rest facilities for commercial motor vehicles engaged in interstate transportation;

(B) evaluates the effectiveness of the projects funded under this section in improving access to commercial motor vehicle parking; and

(C) reports on the progress being made to provide adequate commercial motor vehicle parking facilities in the State.

(3) **CONSULTATION.**—The Secretary shall prepare the report required under paragraph (2) in consultation with—

(A) relevant State motor carrier safety personnel;

(B) motor carriers and commercial motor vehicle operators; and

(C) private providers of commercial motor vehicle parking.

(k) **DEFINITIONS.**—In this section:

(1) **COMMERCIAL MOTOR VEHICLE.**—The term “commercial motor vehicle” has the meaning

given such term in section 31132 of title 49, United States Code.

(2) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) a State;

(B) a metropolitan planning organization;

(C) a unit of local government;

(D) a political subdivision of a State or local government carrying out responsibilities relating to commercial motor vehicle parking; and

(E) a multistate or multijurisdictional group of entities described in subparagraphs (A) through (D).

(3) **SAFETY REST AREA.**—The term “safety rest area” has the meaning given such term in section 120(c) of title 23, United States Code.

#### **SEC. 1309. ACTIVE TRANSPORTATION CONNECTIVITY GRANT PROGRAM.**

(a) **ESTABLISHMENT.**—The Secretary of Transportation shall establish an active transportation connectivity grant program to provide for safe and connected active transportation facilities.

(b) **GRANT AUTHORITY.**—In carrying out the program established in subsection (a), the Secretary shall make grants, on a competitive basis, in accordance with this section.

(c) **ELIGIBLE APPLICANTS.**—The Secretary may make a grant under this section to—

(1) a State;

(2) a metropolitan planning organization;

(3) a regional transportation authority;

(4) a unit of local government, including a county or multi-county special district;

(5) a Federal land management agency;

(6) a natural resource or public land agency;

(7) a Tribal government or a consortium of Tribal governments;

(8) any local or regional governmental entity with responsibility for or oversight of transportation or recreational trails; and

(9) a multistate or multijurisdictional group of entities described in this subsection.

(d) **APPLICATIONS.**—To be eligible for a grant under this section, an entity specified under subsection (c) shall submit to the Secretary an application in such form, at such time, and containing such information as the Secretary determines is appropriate.

(e) **ELIGIBLE PROJECTS.**—The Secretary shall provide grants under this section to projects that improve the connectivity and the use of active transportation facilities—

(1) including—

(A) active transportation networks;

(B) active transportation spines; and

(C) planning related to the development of—

(i) active transportation networks;

(ii) active transportation spines; and

(iii) complete streets plans to create a connected network of active transportation facilities, including sidewalks, bikeways, or pedestrian and bicycle trails; and

(2) that have—

(A) total project costs of not less than \$15,000,000; or

(B) in the case of planning grants under subsection (f), a total cost of not less than \$100,000.

(f) **PLANNING GRANTS.**—Of the amounts made available to carry out this section, the Secretary may use not more than 10 percent to provide planning grants to eligible applicants for activities under subsection (e)(1)(C).

(g) **CONSIDERATIONS.**—In making grants under this section, the Secretary shall consider the extent to which—

(1) a project is likely to provide substantial additional opportunities for walking and bicycling, including through the creation of—

(A) active transportation networks connecting destinations within or between communities, including schools, workplaces, residences, businesses, recreation areas, and other community areas; and

(B) active transportation spines connecting 2 or more communities, metropolitan areas, or States;

(2) an applicant has adequately considered or will consider, including through the opportunity

for public comment, the environmental justice and equity impacts of the project;

(3) the project would improve safety for vulnerable road users, including through the use of complete street design policies or a safe system approach; and

(4) a project integrates active transportation facilities with public transportation services, where available, to improve access to public transportation.

(h) LIMITATION.—

(1) IN GENERAL.—The share of the cost of a project assisted with a grant under this section may not exceed 80 percent.

(2) MAXIMUM FEDERAL ASSISTANCE.—Federal assistance other than a grant under this section may be used to satisfy up to 100 percent of the total project cost.

(i) ELIGIBLE PROJECT COSTS.—Amounts made available for a project under this section may be used for—

(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

(2) construction, reconstruction, rehabilitation, acquisition of real property (including land related to the project and improvements to the land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

(j) NOTIFICATION.—Not later than 3 business days before awarding a grant under this section, the Secretary of Transportation shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate of the intention to award such a grant.

(k) TREATMENT OF PROJECTS.—Notwithstanding any other provision of law, a project carried out under this section shall be treated in the manner described under section 133(i) of title 23, United States Code.

(l) DEFINITIONS.—In this section:

(1) ACTIVE TRANSPORTATION.—The term “active transportation” means mobility options powered primarily by human energy, including bicycling and walking.

(2) ACTIVE TRANSPORTATION NETWORK.—The term “active transportation network” means facilities built for active transportation, including sidewalks, bikeways, and pedestrian and bicycle trails, that connect destinations within a community, a metropolitan area, or on Federal lands.

(3) ACTIVE TRANSPORTATION SPINE.—The term “active transportation spine” means facilities built for active transportation, including sidewalks, bikeways, and pedestrian and bicycle trails, that connect communities, metropolitan areas, Federal lands, or States.

(4) SAFE SYSTEM APPROACH.—The term “safe system approach” has the meaning given such term in section 148(a) of title 23, United States Code.

(5) VULNERABLE ROAD USER.—The term “vulnerable road user” has the meaning given such term in section 148(a) of title 23, United States Code.

#### **Subtitle D—Planning, Performance Management, and Asset Management**

#### **SEC. 1401. METROPOLITAN TRANSPORTATION PLANNING.**

Section 134 of title 23, United States Code, is amended—

(1) in subsection (a) by striking “resiliency needs while minimizing transportation-related fuel consumption and air pollution” and inserting “resilience and climate change adaptation needs while reducing transportation-related fuel consumption, air pollution, and greenhouse gas emissions”;

(2) in subsection (b)—

(A) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively; and

(B) by inserting after paragraph (5) the following:

“(6) STIP.—The term ‘STIP’ means a statewide transportation improvement program developed by a State under section 135(g).”;

(3) in subsection (c)—

(A) in paragraph (1) by striking “and transportation improvement programs” and inserting “and TIPs”; and

(B) by adding at the end the following:

“(4) CONSIDERATION.—In developing the plans and TIPs, metropolitan planning organizations shall consider direct and indirect emissions of greenhouse gases.”;

(4) in subsection (d)—

(A) in paragraph (2) by striking “Not later than 2 years after the date of enactment of MAP-21, each” and inserting “Each”;

(B) in paragraph (3) by adding at the end the following:

“(D) CONSIDERATIONS.—

“(i) EQUITABLE AND PROPORTIONAL REPRESENTATION.—In designating officials or representatives under paragraph (2), the metropolitan planning organization shall consider the equitable and proportional representation of the population of the metropolitan planning area.

“(ii) SAVINGS CLAUSE.—Nothing in this paragraph shall require a metropolitan planning organization in existence on the date of enactment of this subparagraph to be restructured.

“(iii) REDESIGNATION.—Notwithstanding

clause (ii), the requirements of this paragraph shall apply to any metropolitan planning organization redesignated under paragraph (6).”;

(C) in paragraph (6)(B) by striking “paragraph (2)” and inserting “paragraphs (2) or (3)(D)”;

(D) in paragraph (7)—

(i) by striking “an existing metropolitan planning area” and inserting “an urbanized area”;

(ii) by striking “the existing metropolitan planning area” and inserting “the area”;

(5) in subsection (g)—

(A) in paragraph (1) by striking “a metropolitan area” and inserting “an urbanized area”;

(B) in paragraph (2) by striking “MPOS” and inserting “METROPOLITAN PLANNING AREAS”;

(C) in paragraph (3)(A) by inserting “emergency response and evacuation, climate change adaptation and resilience,” after “disaster risk reduction.”;

(D) by adding at the end the following:

“(4) COORDINATION BETWEEN MPOS.—

“(A) IN GENERAL.—If more than 1 metropolitan planning organization is designated within an urbanized area under subsection (d)(7), the metropolitan planning organizations designated within the area shall ensure, to the maximum extent practicable, the consistency of any data used in the planning process, including information used in forecasting transportation demand.

“(B) SAVINGS CLAUSE.—Nothing in this paragraph requires metropolitan planning organizations designated within a single urbanized area to jointly develop planning documents, including a unified long-range transportation plan or unified TIP.”;

(6) in subsection (h)(1)—

(A) by striking subparagraph (E) and inserting the following:

“(E) protect and enhance the environment, promote energy conservation, reduce greenhouse gas emissions, improve the quality of life and public health, and promote consistency between transportation improvements and State and local planned growth and economic development patterns, including housing and land use patterns.”;

(B) in subparagraph (I)—

(i) by inserting “, sea level rise, extreme weather, and climate change” after “stormwater”;

(ii) by striking “and” at the end;

(C) by redesignating subparagraph (J) as subparagraph (M); and

(D) by inserting after subparagraph (I) the following:

“(J) facilitate emergency management, response, and evacuation and hazard mitigation; “(K) improve the level of transportation system access;”

“(L) support inclusive zoning policies and land use planning practices that incentivize affordable, elastic, and diverse housing supply, facilitate long-term economic growth by improving the accessibility of housing to jobs, and prevent high housing costs from displacing economically disadvantaged households; and”;

(7) in subsection (h)(2) by striking subparagraph (A) and inserting the following:

“(A) IN GENERAL.—Through the use of a performance-based approach, transportation investment decisions made as a part of the metropolitan transportation planning process shall support the national goals described in section 150(b), the achievement of metropolitan and statewide targets established under section 150(d), the improvement of transportation system access (consistent with section 150(f)), and the general purposes described in section 5301 of title 49.”;

(8) in subsection (i)—

(A) in paragraph (2)(D)(i) by inserting “reduce greenhouse gas emissions and” before “restore and maintain”;

(B) in paragraph (2)(G) by inserting “and climate change” after “infrastructure to natural disasters”;

(C) in paragraph (2)(H) by inserting “greenhouse gas emissions,” after “pollution.”;

(D) in paragraph (5)—

(i) in subparagraph (A) by inserting “air quality, public health, housing, transportation, resilience, hazard mitigation, emergency management,” after “conservation.”;

(ii) by striking subparagraph (B) and inserting the following:

“(B) ISSUES.—The consultation shall involve, as appropriate, comparison of transportation plans to other relevant plans, including, if available—

“(i) State conservation plans or maps; and “(ii) inventories of natural or historic resources.”;

(E) by amending paragraph (6)(C) to read as follows:

“(C) METHODS.—

“(i) IN GENERAL.—In carrying out subparagraph (A), the metropolitan planning organization shall, to the maximum extent practicable—

“(I) hold any public meetings at convenient and accessible locations and times;

“(II) employ visualization techniques to describe plans; and

“(III) make public information available in electronically accessible format and means, such as the internet, as appropriate to afford reasonable opportunity for consideration of public information under subparagraph (A).

“(ii) ADDITIONAL METHODS.—In addition to the methods described in clause (i), in carrying out subparagraph (A), the metropolitan planning organization shall, to the maximum extent practicable—

“(I) use virtual public involvement, social media, and other web-based tools to encourage public participation and solicit public feedback; and

“(II) use other methods, as appropriate, to further encourage public participation of historically underrepresented individuals in the transportation planning process.”;

(9) in subsection (j) by striking “transportation improvement program” and inserting “TIP” each place it appears; and

(10) by striking “Federally” each place it appears and inserting “federally”.

#### **SEC. 1402. STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.**

Section 135 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking “statewide transportation improvement program” and inserting “STIP”;

(B) in paragraph (2)—

(i) by striking “The statewide transportation plan and the” and inserting the following:

“(A) IN GENERAL.—The statewide transportation plan and the”;

(ii) by striking “transportation improvement program” and inserting “STIP”; and

(iii) by adding at the end the following:

“(B) CONSIDERATION.—In developing the statewide transportation plans and STIPs, States shall consider direct and indirect emissions of greenhouse gases.”; and

(C) in paragraph (3) by striking “transportation improvement program” and inserting “STIP”;

(2) in subsection (d)—

(A) in paragraph (1)—

(i) in subparagraph (E)—

(I) by inserting “reduce greenhouse gas emissions,” after “promote energy conservation,”;

(II) by inserting “and public health” after “improve the quality of life”; and

(III) by inserting “, including housing and land use patterns” after “economic development patterns”;

(ii) in subparagraph (I)—

(I) by inserting “, sea level rise, extreme weather, and climate change” after “mitigate stormwater”; and

(II) by striking “and” after the semicolon;

(iii) by redesignating subparagraph (J) as subparagraph (M); and

(iv) by inserting after subparagraph (I) the following:

“(J) facilitate emergency management, response, and evacuation and hazard mitigation;

“(K) improve the level of transportation system access;

“(L) support inclusive zoning policies and land use planning practices that incentivize affordable, elastic, and diverse housing supply, facilitate long-term economic growth by improving the accessibility of housing to jobs, and prevent high housing costs from displacing economically disadvantaged households; and”;

(B) in paragraph (2)—

(i) by striking subparagraph (A) and inserting the following:

“(A) IN GENERAL.—Through the use of a performance-based approach, transportation investment decisions made as a part of the statewide transportation planning process shall support—

“(i) the national goals described in section 150(b);

“(ii) the consideration of transportation system access (consistent with section 150(f));

“(iii) the achievement of statewide targets established under section 150(d); and

“(iv) the general purposes described in section 5301 of title 49.”; and

(ii) in subparagraph (D) by striking “statewide transportation improvement program” and inserting “STIP”; and

(C) in paragraph (3) by striking “statewide transportation improvement program” and inserting “STIP”;

(3) in subsection (e)(3) by striking “transportation improvement program” and inserting “STIP”;

(4) in subsection (f)—

(A) in paragraph (2)(D)—

(i) in clause (i) by inserting “air quality, public health, housing, transportation, resilience, hazard mitigation, emergency management,” after “conservation,”; and

(ii) by amending clause (ii) to read as follows:

“(ii) COMPARISON AND CONSIDERATION.—Consultation under clause (i) shall involve the comparison of transportation plans to other relevant plans and inventories, including, if available—

“(I) State and tribal conservation plans or maps; and

“(II) inventories of natural or historic resources.”;

(B) in paragraph (3)(B)—

(i) by striking “In carrying out” and inserting the following:

“(i) IN GENERAL.—in carrying out”;

(ii) by redesignating clauses (i) through (iv) as subclauses (I) through (IV), respectively; and

(iii) by adding at the end the following:

“(ii) ADDITIONAL METHODS.—In addition to the methods described in clause (i), in carrying out subparagraph (A), the State shall, to the maximum extent practicable—

“(I) use virtual public involvement, social media, and other web-based tools to encourage public participation and solicit public feedback; and

“(II) use other methods, as appropriate, to further encourage public participation of historically underrepresented individuals in the transportation planning process.”;

(C) in paragraph (4)(A) by inserting “reduce greenhouse gas emissions and” after “potential to”; and

(D) in paragraph (8) by inserting “greenhouse gas emissions,” after “pollution,”;

(5) in subsection (g)—

(A) in paragraph (1)(A) by striking “statewide transportation improvement program” and inserting “STIP”;

(B) in paragraph (3) by striking “operators,” and inserting “operators.”;

(C) in paragraph (4) by striking “statewide transportation improvement program” and inserting “STIP” each place it appears;

(D) in paragraph (5)—

(i) in subparagraph (E) by striking “transportation improvement program” and inserting “STIP”;

(ii) in subparagraph (B)(ii) by striking “metropolitan transportation improvement program” and inserting “TIP”;

(iii) in subparagraph (C) by striking “transportation improvement program” and inserting “STIP” each place it appears;

(iv) in subparagraph (E) by striking “transportation improvement program” and inserting “STIP”;

(v) in subparagraph (F)(i) by striking “transportation improvement program” and inserting “STIP” each place it appears;

(vi) in subparagraph (G)(ii) by striking “transportation improvement program” and inserting “STIP”; and

(vii) in subparagraph (H) by striking “transportation improvement program” and inserting “STIP”;

(E) in paragraph (6)—

(i) in subparagraph (A)—

(I) by striking “transportation improvement program” and inserting “STIP”; and

(II) by striking “and projects carried out under the bridge program or the Interstate maintenance program”; and

(ii) in subparagraph (B)—

(I) by striking “or under the bridge program or the Interstate maintenance program”;

(II) by striking “5310, 5311, 5316, and 5317” and inserting “5310 and 5311”; and

(III) by striking “statewide transportation improvement program” and inserting “STIP”;

(F) in paragraph (7)—

(i) in the heading by striking “TRANSPORTATION IMPROVEMENT PROGRAM” and inserting “STIP”; and

(ii) by striking “transportation improvement program” and inserting “STIP”;

(G) in paragraph (8) by striking “statewide transportation plans and programs” and inserting “statewide transportation plans and STIPs”; and

(H) in paragraph (9) by striking “transportation improvement program” and inserting “STIP”;

(6) in subsection (h)(2)(A) by striking “Not later than 5 years after the date of enactment of the MAP-21,” and inserting “Not less frequently than once every 4 years,”;

(7) in subsection (k) by striking “transportation improvement program” and inserting “STIP” each place it appears; and

(8) in subsection (m) by striking “transportation improvement programs” and inserting “STIPs”.

## SEC. 1403. NATIONAL GOALS AND PERFORMANCE MANAGEMENT MEASURES.

(a) IN GENERAL.—Section 150 of title 23, United States Code, is amended—

(1) in subsection (b)—

(A) by redesignating paragraph (7) as paragraph (8); and

(B) by inserting after paragraph (6) the following:

“(7) COMBATING CLIMATE CHANGE.—To reduce carbon dioxide and other greenhouse gas emissions and reduce the climate impacts of the transportation system.”;

(2) in subsection (c)—

(A) in paragraph (1) by striking “Not later than 18 months after the date of enactment of the MAP-21, the Secretary” and inserting “The Secretary”; and

(B) by adding at the end the following:

“(7) GREENHOUSE GAS EMISSIONS.—The Secretary shall establish, in consultation with the Administrator of the Environmental Protection Agency, measures for States to use to assess—

“(A) carbon dioxide emissions per capita on public roads; and

“(B) any other greenhouse gas emissions per capita on public roads that the Secretary determines to be appropriate.”;

(3) in subsection (d)—

(A) in paragraph (1)—

(i) by striking “Not later than 1 year after the Secretary has promulgated the final rulemaking under subsection (c), each” and inserting “Each”; and

(ii) by striking “and (6)” and inserting “(6), and (7)”;

(B) by adding at the end the following:

“(3) REGRESSIVE TARGETS.—

“(A) IN GENERAL.—A State may not establish a regressive target for the measures described under paragraph (4) or paragraph (7) of subsection (c).

“(B) REGRESSIVE TARGET DEFINED.—In this paragraph, the term ‘regressive target’ means a target that fails to demonstrate constant or improved performance for a particular measure.”;

(4) in subsection (e)—

(A) by striking “Not later than 4 years after the date of enactment of the MAP-21 and biennially thereafter, a” and inserting “A”; and

(B) by inserting “biennial” after “the Secretary a”; and

(5) by adding at the end the following:

“(f) TRANSPORTATION SYSTEM ACCESS.—

“(I) IN GENERAL.—The Secretary shall establish measures for States and metropolitan planning organizations to use to assess the level of safe, reliable, and convenient transportation system access to—

“(A) employment; and

“(B) services.

“(2) CONSIDERATIONS.—The measures established pursuant to paragraph (1) shall include the ability for States and metropolitan planning organizations to assess—

“(A) the change in the level of transportation system access for various modes of travel, including connection to other modes of transportation, that would result from new transportation investments;

“(B) the level of transportation system access for economically disadvantaged communities, including to affordable housing; and

“(C) the extent to which transportation access is impacted by zoning policies and land use planning practices that effect the affordability, elasticity, and diversity of the housing supply.

“(3) DEFINITION OF SERVICES.—In this subsection, the term ‘services’ includes healthcare facilities, child care, education and workforce training, food sources, banking and other financial institutions, and other retail shopping establishments.”.

(b) METROPOLITAN TRANSPORTATION PLANNING.—Section 134 of title 23, United States Code, is further amended—

(1) in subsection (j)(2)(D)—

(A) by striking “PERFORMANCE TARGET ACHIEVEMENT” in the heading and inserting “PERFORMANCE MANAGEMENT”;

(B) by striking “The TIP” and inserting the following:

“(i) IN GENERAL.—The TIP”; and

(C) by adding at the end the following:

“(ii) TRANSPORTATION MANAGEMENT AREAS.—For metropolitan planning areas that represent an urbanized area designated as a transportation management area under subsection (k), the TIP shall include—

“(I) a discussion of the anticipated effect of the TIP toward achieving the performance targets established in the metropolitan transportation plan, linking investment priorities to such performance targets; and

“(II) a description of how the TIP would improve the overall level of transportation system access, consistent with section 150(f).”;

(2) in subsection (k)—

(A) in paragraph (3)(A)—

(i) by striking “shall address congestion management” and inserting the following: “shall address—

“(i) congestion management”;

(ii) by striking the period at the end and inserting “; and”; and

(iii) by adding at the end the following:

“(ii) the overall level of transportation system access for various modes of travel within the metropolitan planning area, including the level of access for economically disadvantaged communities, consistent with section 150(f), that is based on a cooperatively developed and implemented metropolitan-wide strategy, assessing both new and existing transportation facilities eligible for funding under this title and chapter 53 of title 49.”; and

(B) in paragraph (5)(B)—

(i) in clause (i) by striking “; and” and inserting a semicolon;

(ii) in clause (ii) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(iii) the TIP approved under clause (ii) improves the level of transportation system access, consistent with section 150(f).”; and

(3) in subsection (l)(2)—

(A) by striking “5 years after the date of enactment of the MAP-21” and inserting “2 years after the date of enactment of the INVEST in America Act, and every 2 years thereafter”;

(B) in subparagraph (C) by striking “and whether metropolitan planning organizations are developing meaningful performance targets; and” and inserting a semicolon; and

(C) by striking subparagraph (D) and inserting the following:

“(D) a listing of all metropolitan planning organizations that are establishing performance targets and whether such performance targets established by the metropolitan planning organization are meaningful or regressive (as defined in section 150(d)(3)(B)); and

“(E) the progress of implementing the measure established under section 150(f).”.

(c) STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.—Section 135(g)(4) of title 23, United States Code, is further amended—

(1) by striking “PERFORMANCE TARGET ACHIEVEMENT” in the heading and inserting “PERFORMANCE MANAGEMENT”;

(2) by striking “shall include, to the maximum extent practicable, a discussion” and inserting the following: “shall include—

“(A) a discussion”;

(3) by striking the period at the end and inserting “; and”; and

(4) by adding at the end the following:

“(B) a consideration of how the STIP impacts the overall level of transportation system access, consistent with section 150(f).”.

(d) EFFECTIVE DATE.—The amendment made by subsection (a)(3)(B) shall take effect 1 year before the subsequent State target and reporting deadlines established pursuant to section 150 of title 23, United States Code.

(e) DEVELOPMENT OF GREENHOUSE GAS MEASURE.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transpor-

tation shall issue such regulations as are necessary to carry out paragraph (7) of section 150(c) of title 23, United States Code, as added by this Act.

(f) DEVELOPMENT OF TRANSPORTATION SYSTEM ACCESS MEASURE.—

(1) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this Act, the Secretary of Transportation shall establish a working group to assess the provisions of paragraphs (1) and (2) of section 150(f) and make recommendations regarding the establishment of measures for States and metropolitan planning organizations to use to assess the level of transportation system access for various modes of travel, consistent with section 150(f) of title 23, United States Code.

(2) MEMBERS.—The working group established pursuant to paragraph (1) shall include representatives from—

(A) the Department of Transportation;

(B) State departments of transportation, including representatives that specialize in pedestrian and bicycle safety;

(C) the Bureau of Transportation Statistics;

(D) metropolitan planning organizations representing transportation management areas (as those terms are defined in section 134 of title 23, United States Code);

(E) other metropolitan planning organizations or local governments;

(F) providers of public transportation;

(G) nonprofit entities related to transportation, including relevant safety groups;

(H) experts in the field of transportation access data; and

(I) any other stakeholders, as determined by the Secretary.

(3) REPORT.—

(A) SUBMISSION.—Not later than 1 year after the establishment of the working group pursuant to paragraph (1), the working group shall submit to the Secretary a report of recommendations regarding the establishment of measures for States and metropolitan planning organizations to use to assess the level of transportation system access, consistent with section 150(f) of title 23, United States Code.

(B) PUBLICATION.—Not later than 30 days after the date on which the Secretary receives the report under subparagraph (A), the Secretary shall publish the report on a publicly accessible website of the Department of Transportation.

(4) RULEMAKING.—Not later than 2 years after the date on which the Secretary receives the report under paragraph (3), the Secretary shall issue such regulations as are necessary to implement the requirements of section 150(f) of title 23, United States Code.

(5) TERMINATION.—The Secretary shall terminate the working group established pursuant to paragraph (1) on the date on which the regulation issued pursuant to paragraph (4) takes effect.

(g) TRANSPORTATION SYSTEM ACCESS DATA.—

(1) IN GENERAL.—Not later than 90 days after the date on which the Secretary of Transportation establishes the measure required under section 150(f) of title 23, United States Code, the Secretary shall develop or procure eligible transportation system access data sets and analytical tools and make such data sets and analytical tools available to State departments of transportation and metropolitan planning areas that represent transportation management areas.

(2) REQUIREMENTS.—An eligible transportation system access data set and analytical tool shall have the following characteristics:

(A) The ability to quantify the level of safe, reliable, and convenient transportation system access to—

(i) employment;

(ii) services; and

(iii) connections to other modes of transportation.

(B) The ability to quantify transportation system access for various modes of travel, including—

(i) driving;

(ii) public transportation;

(iii) walking (including conveyance for persons with disabilities); and

(iv) cycling (including micromobility).

(C) The ability to disaggregate the level of transportation system access by various transportation modes by a variety of population categories, including—

(i) low-income populations;

(ii) minority populations;

(iii) age;

(iv) disability; and

(v) geographical location.

(D) The ability to assess the change in the level of transportation system access that would result from new transportation investments.

(3) CONSIDERATION.—An eligible transportation system access data set and analytical tool shall take into consideration safe and connected networks for walking, cycling, and persons with disabilities.

(h) DEFINITIONS.—In this section:

(1) TRANSPORTATION SYSTEM ACCESS.—The term “transportation system access” has the meaning given such term in section 101 of title 23, United States Code.

(2) SERVICES.—The term “services” has the meaning given such term in section 150(f) of title 23, United States Code.

#### SEC. 1404. TRANSPORTATION DEMAND DATA AND MODELING STUDY.

(a) STUDY.—

(1) IN GENERAL.—The Secretary of Transportation shall conduct a study on transportation demand data and modeling, including transportation demand forecasting.

(2) CONTENTS.—In carrying out the study under this section, the Secretary shall—

(A) collect observed transportation demand data and transportation demand forecasts from States and metropolitan planning organizations, including data and forecasts on—

(i) traffic counts;

(ii) transportation mode share and public transportation ridership; and

(iii) vehicle occupancy measures;

(B) compare the transportation demand forecasts with the observed transportation demand data gathered under subparagraph (A); and

(C) use the information described in subparagraphs (A) and (B) to—

(i) develop best practices and guidance for States and metropolitan planning organizations to use in forecasting transportation demand for future investments in transportation improvements;

(ii) evaluate the impact of transportation investments, including new roadway capacity, on transportation behavior and transportation demand, including public transportation ridership, induced highway transportation, and congestion;

(iii) support more accurate transportation demand forecasting by States and metropolitan planning organizations;

(iv) enhance the capacity of States and metropolitan planning organizations to—

(I) forecast transportation demand; and

(II) track observed transportation behavior responses, including induced transportation, to changes in transportation capacity, pricing, and land use patterns; and

(v) develop transportation demand management strategies to maximize the efficiency of the transportation system, improve mobility, reduce congestion, and lower vehicle emissions.

(3) COVERED ENTITIES.—In carrying out the study under this section, the Secretary shall ensure that data and forecasts described in paragraph (2)(A) are collected from—

(A) States;

(B) metropolitan planning organizations that serve an area with a population of 200,000 people or fewer; and

(C) metropolitan planning organizations that serve an area with a population of over 200,000 people.

(4) **WORKING WITH THE PRIVATE SECTOR.**—In carrying out this section, the Secretary may, and is encouraged to, procure additional data as necessary from university transportation centers, private sector providers, and other entities as is needed and may use funds authorized under section 503(b) of title 23, United States Code, for carrying out this paragraph.

(b) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall submit to Congress a report containing the findings of the study conducted under subsection (a).

(c) **SECRETARIAL SUPPORT.**—The Secretary shall seek opportunities to support the transportation planning processes under sections 134 and 135 of title 23, United States Code, through the provision of data to States and metropolitan planning organizations to improve the quality of transportation plans, models, and demand forecasts.

#### **SEC. 1405. FISCAL CONSTRAINT ON LONG-RANGE TRANSPORTATION PLANS.**

Not later than 1 year after the date of enactment of this Act, the Secretary shall amend section 450.324(f)(1)(v) of title 23, Code of Federal Regulations, to ensure that the outer years of a metropolitan transportation plan are defined as “beyond the first 4 years”.

#### **Subtitle E—Federal Lands, Tribes, and Territories**

#### **SEC. 1501. TERRITORIAL AND PUERTO RICO HIGHWAY PROGRAM.**

Section 165 of title 23, United States Code, is amended—

(1) in subsection (a)—  
(A) in paragraph (1) by striking “\$158,000,000” and inserting “\$210,000,000”; and  
(B) in paragraph (2) by striking “\$42,000,000” and inserting “\$100,000,000”;

(2) in subsection (c)(6)(A)(iii) by striking “in accordance with subsections (b) and (c) of section 129” and inserting “including such boats, facilities, and approaches that are privately or majority-privately owned, provided that such boats, facilities, and approaches provide a substantial public benefit”; and

(3) by adding at the end the following:

“(d) **PARTICIPATION OF TERRITORIES IN DISCRETIONARY PROGRAMS.**—For any program in which the Secretary may allocate funds out of the Highway Trust Fund (other than the Mass Transit Account) to a State at the discretion of the Secretary, the Secretary may allocate funds to one or more territory for any project or activity that otherwise would be eligible under such program if such project or activity was being carried out in a State.”.

#### **SEC. 1502. TRIBAL TRANSPORTATION PROGRAM.**

Section 202 of title 23, United States Code, is amended—

(1) in subsection (d)—  
(A) in paragraph (1) by striking “improving deficient” and inserting “the construction and reconstruction of”;

(B) in paragraph (2)—  
(i) in subparagraph (A) by inserting “construct,” after “project to”; and

(ii) in subparagraph (B)—  
(I) by striking “deficient”; and

(II) by inserting “in poor condition” after “facility bridges”; and

(C) in paragraph (3)—  
(i) in the heading by striking “ELIGIBLE BRIDGES” and inserting “ELIGIBILITY FOR EXISTING BRIDGES”;

(ii) by striking “a bridge” and inserting “an existing bridge”; and

(iii) in subparagraph (C) by striking “structurally deficient or functionally obsolete” and inserting “in poor condition”; and

(2) in subsection (e) by striking “for eligible projects described in section 148(a)(4).” and inserting the following: “for—

“(A) eligible projects described in section 148(a)(4);

“(B) projects to promote public awareness and education concerning highway safety matters

(including bicycle, all-terrain, motorcyclist, and pedestrian safety); or

“(C) projects to enforce highway safety laws.”.

#### **SEC. 1503. TRIBAL HIGH PRIORITY PROJECTS PROGRAM.**

(a) **TRIBAL TRANSPORTATION PROGRAM.**—Section 202 of title 23, United States Code, is amended—

(1) by redesignating subsection (f) as subsection (g); and

(2) by inserting after subsection (e) the following:

“(f) **TRIBAL HIGH PRIORITY PROJECTS PROGRAM.**—Before making any distribution under subsection (b), the Secretary shall set aside \$50,000,000 from the funds made available under the tribal transportation program for each fiscal year to carry out the Tribal High Priority Projects program under section 1123 of MAP-21 (23 U.S.C. 202 note).”.

(b) **TRIBAL HIGH PRIORITY PROJECTS PROGRAM.**—Section 1123 of MAP-21 (23 U.S.C. 202 note) is amended—

(1) in subsection (a)(1)(C) by striking “required by that section” and inserting “required under such program”; and

(2) in subsection (b)(1) by striking “use amounts made available under subsection (h) to”;

(3) in subsection (d)—

(A) in paragraph (2) by inserting “, in consultation with the Secretary of the Interior,” after “The Secretary”; and

(B) in paragraph (3) by striking “of the Interior” each place it appears;

(4) in subsection (f) by striking “\$1,000,000” and inserting “\$5,000,000”;

(5) in subsection (g) by striking “and the Secretary” and inserting “or the Secretary”; and

(6) by striking subsection (h) and inserting the following:

“(h) **ADMINISTRATION.**—The funds made available to carry out this section shall be administered in the same manner as funds made available for the Tribal transportation program under section 202 of title 23, United States Code.”.

#### **SEC. 1504. FEDERAL LANDS TRANSPORTATION PROGRAM.**

(a) **IN GENERAL.**—Section 203(a) of title 23, United States Code, is amended by adding at the end the following:

“(6) **TRANSFER FOR HIGH-COMMUTER CORRIDORS.**—

“(A) **REQUEST.**—If the head of a covered agency determines that a high-commuter corridor requires additional investment, based on the criteria described in subparagraph (D), the head of a covered agency, with respect to such corridor, shall submit to the State—

“(i) information on condition of pavements and bridges;

“(ii) an estimate of the amounts needed to bring such corridor into a state of good repair, taking into consideration any planned future investments; and

“(iii) at the discretion of the head of a covered agency, a request that the State transfer to the covered agency, under the authority of section 132 or section 204, or to the Federal Highway Administration, under the authority of section 104, a portion of such amounts necessary to address the condition of the corridor.

“(B) **STATE RESPONSE.**—Not later than 45 days after the date of receipt of the request described in subparagraph (A)(iii), the State shall—

“(i) approve the request;

“(ii) deny the request and explain the reasons for such denial; or

“(iii) request any additional information necessary to take action on the request.

“(C) **NOTIFICATION TO THE SECRETARY.**—The head of a covered agency shall provide to the Secretary a copy of any request described under subparagraph (A)(iii) and response described under subparagraph (B).

“(D) **CRITERIA.**—In making a determination under subparagraph (A), the head of a covered agency, with respect to the corridor, shall consider—

“(i) the condition of roads, bridges, and tunnels; and

“(ii) the average annual daily traffic.

“(E) **DEFINITIONS.**—In this paragraph:

“(i) **COVERED AGENCY.**—The term ‘covered agency’ means a Federal agency eligible to receive funds under this section, section 203, or section 204.

“(ii) **HIGH-COMMUTER CORRIDOR.**—The term ‘high-commuter corridor’ means a Federal lands transportation facility that has average annual daily traffic of not less than 20,000 vehicles.”.

(b) **GAO STUDY REGARDING NPS MAINTENANCE.**—

(1) **STUDY.**—The Comptroller General of the United States shall study the National Park Service maintenance prioritization of Federal lands transportation facilities.

(2) **CONTENTS.**—At minimum, the study under paragraph (1) shall examine—

(A) general administrative maintenance of the National Park Service;

(B) how the National Park Service currently prioritizes maintenance of Federal facilities covered under the Federal Lands Transportation Program;

(C) what kind of maintenance the National Parkway Service is performing;

(D) to what degree does the National Park Service prioritize high-commuter corridors; and

(E) how the National Park Service can better service the needs of high commuter corridors.

(3) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report summarizing the study and the results of such study, including recommendations for addressing the maintenance needs and prioritization of high-commuter corridors.

(4) **DEFINITION OF HIGH-COMMUTER CORRIDOR.**—In this section, the term “high-commuter corridor” means a Federal lands transportation facility that has average annual daily traffic of not less than 20,000 vehicles.

#### **SEC. 1505. FEDERAL LANDS AND TRIBAL MAJOR PROJECTS PROGRAM.**

(a) **IN GENERAL.**—Chapter 2 of title 23, United States Code, is amended by inserting after section 207 the following:

#### **“§208. Federal lands and Tribal major projects program**

“(a) **ESTABLISHMENT.**—The Secretary shall establish a Federal lands and Tribal major projects program (referred to in this section as the ‘program’) to provide funding to construct, reconstruct, or rehabilitate critical Federal lands and Tribal transportation infrastructure.

“(b) **ELIGIBLE APPLICANTS.**—

“(1) **IN GENERAL.**—Except as provided in paragraph (2), entities eligible to receive funds under sections 201, 202, 203, and 204 may apply for funding under the program.

“(2) **SPECIAL RULE.**—A State, county, or unit of local government may only apply for funding under the program if sponsored by an eligible Federal land management agency or Indian Tribe.

“(c) **ELIGIBLE PROJECTS.**—An eligible project under the program shall be on a Federal lands transportation facility, a Federal lands access transportation facility, or a tribal transportation facility, except that such facility is not required to be included in an inventory described in section 202 or 203, and for which—

“(1) the project—

“(A) has completed the activities required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) which has been demonstrated through—

“(i) a record of decision with respect to the project;

“(ii) a finding that the project has no significant impact; or

“(iii) a determination that the project is categorically excluded; or

“(B) is reasonably expected to begin construction not later than 18 months after the date of obligation of funds for the project; and

“(2) the project has an estimated cost equal to or exceeding—

“(A) \$12,500,000 if it is on a Federal lands transportation facility or a Federal lands access transportation facility; and

“(B) \$5,000,000 if it is on a Tribal transportation facility.

“(d) **ELIGIBLE ACTIVITIES.**—Grant amounts received for a project under this section may be used for—

“(1) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

“(2) construction, reconstruction, and rehabilitation activities.

“(e) **APPLICATIONS.**—Eligible applicants shall submit to the Secretary an application at such time, in such form, and containing such information as the Secretary may require.

“(f) **PROJECT REQUIREMENTS.**—The Secretary may select a project to receive funds under the program only if the Secretary determines that the project—

“(1) improves the condition of critical transportation facilities, including multimodal facilities;

“(2) cannot be easily and efficiently completed with amounts made available under section 202, 203, or 204; and

“(3) is cost effective.

“(g) **MERIT CRITERIA.**—In making a grant under this section, the Secretary shall consider whether the project—

“(1) will generate state of good repair, resilience, economic competitiveness, quality of life, mobility, or safety benefits;

“(2) in the case of a project on a Federal lands transportation facility or a Federal lands access transportation facility, has costs matched by funds that are not provided under this section or this title; and

“(3) generates benefits for land owned by multiple Federal land management agencies or Indian Tribes, or which spans multiple States.

“(h) **EVALUATION AND RATING.**—To evaluate applications, the Secretary shall—

“(1) determine whether a project meets the requirements under subsection (f);

“(2) evaluate, through a discernable and transparent methodology, how each application addresses one or more merit criteria established under subsection (g);

“(3) assign a rating for each merit criteria for each application; and

“(4) consider applications only on the basis of such quality ratings and which meet the minimally acceptable level for each of the merit criteria.

“(i) **COST SHARE.**—

“(1) **FEDERAL LANDS PROJECTS.**—

“(A) **IN GENERAL.**—Notwithstanding section 120, the Federal share of the cost of a project on a Federal lands transportation facility or a Federal lands access transportation facility shall be up to 90 percent.

“(B) **NON-FEDERAL SHARE.**—Notwithstanding any other provision of law, any Federal funds may be used to pay the non-Federal share of the cost of a project carried out under this section.

“(2) **TRIBAL PROJECTS.**—The Federal share of the cost of a project on a Tribal transportation facility shall be 100 percent.

“(j) **USE OF FUNDS.**—For each fiscal year, of the amounts made available to carry out this section, not more than 50 percent shall be used for eligible projects on Federal lands transportation facilities or Federal lands access transportation facilities and Tribal transportation facilities, respectively.”

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 2 of title 23, United States Code, is amended by inserting after the item relating to section 207 the following new item:

“208. Federal lands and Tribal major projects program.”

(c) **REPEAL.**—Section 1123 of the FAST Act (23 U.S.C. 201 note), and the item related to such section in the table of contents under section 1(b) of such Act, are repealed.

#### **SEC. 1506. OFFICE OF TRIBAL GOVERNMENT AFFAIRS.**

Section 102 of title 49, United States Code, is amended—

(1) in subsection (e)(1)—

(A) by striking “6 Assistant” and inserting “7 Assistant”;

(B) in subparagraph (C) by striking “; and” and inserting a semicolon;

(C) by redesignating subparagraph (D) as subparagraph (E); and

(D) by inserting after subparagraph (C) the following:

“(D) an Assistant Secretary for Tribal Government Affairs, who shall be appointed by the President; and”; and

(2) in subsection (f)—

(A) in the heading by striking “DEPUTY ASSISTANT SECRETARY FOR TRIBAL GOVERNMENT AFFAIRS” and inserting “OFFICE OF TRIBAL GOVERNMENT AFFAIRS”; and

(B) by striking paragraph (1) and inserting the following:

“(1) **ESTABLISHMENT.**—There is established in the Department an Office of Tribal Government Affairs, under the Assistant Secretary for Tribal Government Affairs, to—

“(A) oversee the Tribal transportation self-governance program under section 207 of title 23;

“(B) plan, coordinate, and implement policies and programs serving Indian Tribes and Tribal organizations;

“(C) coordinate Tribal transportation programs and activities in all offices and administrations of the Department;

“(D) provide technical assistance to Indian Tribes and Tribal organizations; and

“(E) be a participant in any negotiated rulemakings relating to, or having an impact on, projects, programs, or funding associated with the tribal transportation program under section 202 of title 23.”

#### **SEC. 1507. ALTERNATIVE CONTRACTING METHODS.**

(a) **LAND MANAGEMENT AGENCIES AND TRIBAL GOVERNMENTS.**—Section 201 of title 23, United States Code, is amended by adding at the end the following:

“(f) **ALTERNATIVE CONTRACTING METHODS.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary may use a contracting method available to a State under this title on behalf of—

“(A) a Federal land management agency, with respect to any funds available pursuant to section 203 or 204;

“(B) a Federal land management agency, with respect to any funds available pursuant to section 1535 of title 31 for any eligible use described in sections 203(a)(1) and 204(a)(1) of this title; or

“(C) a Tribal Government, with respect to any funds available pursuant to section 202(b)(7)(D).

“(2) **METHODS DESCRIBED.**—The contracting methods referred to in paragraph (1) shall include, at a minimum—

“(A) project bundling;

“(B) bridge bundling;

“(C) design-build contracting;

“(D) 2-phase contracting;

“(E) long-term concession agreements; and

“(F) any method tested, or that could be tested, under an experimental program relating to contracting methods carried out by the Secretary.

“(3) **RULE OF CONSTRUCTION.**—Nothing in this subsection—

“(A) affects the application of the Federal share for a project carried out with a contracting method under this subsection; or

“(B) modifies the point of obligation of Federal salaries and expenses.”

(b) **USE OF ALTERNATIVE CONTRACTING METHOD.**—In carrying out the amendments made by this section, the Secretary shall—

(1) in consultation with the applicable Federal land management agencies, establish procedures that are—

(A) applicable to each alternative contracting method; and

(B) to the maximum extent practicable, consistent with requirements for Federal procurement transactions;

(2) solicit input on the use of each alternative contracting method from any affected industry prior to using such method; and

(3) analyze and prepare an evaluation of the use of each alternative contracting method.

#### **SEC. 1508. DIVESTITURE OF FEDERALLY OWNED BRIDGES.**

(a) **IN GENERAL.**—The Commissioner of the Bureau of Reclamation may transfer ownership of a bridge that is owned by the Bureau of Reclamation if—

(1) the ownership of the bridge is transferred to a State with the concurrence of such State;

(2) the State to which ownership is transferred agrees to operate and maintain the bridge;

(3) the transfer of ownership complies with all applicable Federal requirements, including—

(A) section 138 of title 23, United States Code;

(B) section 306108 of title 54, United States Code; and

(C) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(4) the Bureau of Reclamation and the State to which ownership is being transferred jointly notify the Secretary of Transportation of the intent to conduct a transfer prior to such transfer.

(b) **ACCESS.**—In a transfer of ownership of a bridge under this section, the Commissioner of the Bureau of Reclamation—

(1) shall not be required to transfer ownership of the land on which the bridge is located or any adjacent lands; and

(2) shall make arrangements with the State to which ownership is being transferred to allow for adequate access to such bridge, including for the purposes of construction, maintenance, and bridge inspections pursuant to section 144 of title 23, United States Code.

#### **SEC. 1509. STUDY ON FEDERAL FUNDING AVAILABLE TO INDIAN TRIBES.**

Not later than January 31 of each year, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that—

(1) identifies the number of Indian Tribes that were direct recipients of funds under any discretionary Federal highway, transit, or highway safety program in the prior fiscal year;

(2) lists the total amount of such funds made available directly to such Tribes;

(3) identifies the number and location of Indian Tribes that were indirect recipients of funds under any formula-based Federal highway, transit, or highway safety program in the prior fiscal year; and

(4) lists the total amount of such funds made available indirectly to such tribes through states or other direct recipients of Federal highway, transit or highway safety funding.

#### **SEC. 1510. GAO STUDY.**

(a) **IN GENERAL.**—The Comptroller General of the United States shall conduct a study on the deferred maintenance of United States forest roads, including—

(1) the current backlog;

(2) the current actions on such maintenance and backlog;

(3) the impacts of public safety due to such deferred maintenance; and

(4) recommendations for Congress on ways to address such backlog.

(b) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report containing the results of the study conducted under subsection (a).

#### Subtitle F—Additional Provisions

##### SEC. 1601. VISION ZERO.

(a) **IN GENERAL.**—A local government, metropolitan planning organization, or regional transportation planning organization may develop and implement a vision zero plan to significantly reduce or eliminate transportation-related fatalities and serious injuries within a specified timeframe, not to exceed 20 years.

(b) **USE OF FUNDS.**—Amounts apportioned to a State under paragraph (2) or (3) of section 104(b) of title 23, United States Code, may be used to carry out a vision zero plan under this section.

(c) **CONTENTS OF PLAN.**—A vision zero plan under this section shall include—

(1) a description of programs, strategies, or policies intended to significantly reduce or eliminate transportation-related fatalities and serious injuries within a specified timeframe, not to exceed 20 years, that is consistent with a State strategic highway safety plan and uses existing transportation data and consideration of risk factors;

(2) plans for implementation of, education of the public about, and enforcement of such programs, strategies, or policies;

(3) a description of how such programs, strategies, or policies, and the enforcement of such programs, strategies, or policies will—

(A) equitably invest in the safety needs of low-income and minority communities;

(B) ensure that such communities are not disproportionately targeted by law enforcement; and

(C) protect the rights of members of such communities with respect to title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); and

(4) a description of a mechanism to evaluate progress of the development and implementation of the plan, including the gathering and use of transportation safety and demographic data.

(d) **INCLUSIONS.**—A vision zero plan may include a complete streets prioritization plan that identifies a specific list of projects to—

(1) create a connected network of active transportation facilities, including sidewalks, bikeways, or pedestrian and bicycle trails, to connect communities and provide safe, reliable, affordable, and convenient access to employment, housing, and services, consistent with the goals described in section 150(b) of title 23, United States Code;

(2) integrate active transportation facilities with public transportation service or improve access to public transportation; and

(3) improve transportation options for low-income and minority communities.

(e) **COORDINATION.**—A vision zero plan under this section shall provide for coordination of various subdivisions of a unit of local government in the implementation of the plan, including subdivisions responsible for law enforcement, public health, data collection, and public works.

(f) **SAFETY PERFORMANCE MANAGEMENT.**—A vision zero plan under this section is not sufficient to demonstrate compliance with the safety performance or planning requirements of section 148 or 150 of title 23, United States Code.

##### SEC. 1602. SPEED LIMITS.

(a) **SPEED LIMITS.**—The Secretary of Transportation shall revise the Manual on Uniform Traffic Control Devices to provide for a safe system approach to setting speed limits, consistent with the safety recommendations issued by the National Transportation Safety Board on August 15, 2017, numbered H-17-27 and H-17-028.

(b) **CONSIDERATIONS.**—In carrying out subparagraph (A), the Secretary shall consider—

- (1) crash statistics;
- (2) road geometry characteristics;
- (3) roadside characteristics;
- (4) traffic volume;
- (5) the possibility and likelihood of human error;
- (6) human injury tolerance;
- (7) the prevalence of vulnerable road users; and

(8) any other consideration, consistent with a safe system approach, as determined by the Secretary.

(c) **REPORT ON SPEED MANAGEMENT PROGRAM PLAN.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall update and report on the implementation progress of the Speed Management Program Plan of the Department of Transportation, as described in the safety recommendation issued by the National Transportation Safety Board on August 15, 2017, numbered H-17-018.

(d) **DEFINITIONS.**—In this section, the terms “safe system approach” and “vulnerable road user” have the meanings given such terms in section 148(a) of title 23, United States Code.

##### SEC. 1603. BROADBAND INFRASTRUCTURE DEPLOYMENT.

(a) **DEFINITIONS.**—In this section:

(1) **APPROPRIATE STATE AGENCY.**—The term “appropriate State agency” means a State governmental agency that is recognized by the executive branch of the State as having the experience necessary to evaluate and facilitate the installation and operation of broadband infrastructure within the State.

(2) **BROADBAND.**—The term “broadband” has the meaning given the term “advanced telecommunications capability” in section 706 of the Telecommunications Act of 1996 (47 U.S.C. 1302).

(3) **BROADBAND CONDUIT.**—The term “broadband conduit” means a conduit or innerduct for fiber optic cables (or successor technology of greater quality and speed) that supports the provision of broadband.

(4) **BROADBAND INFRASTRUCTURE.**—The term “broadband infrastructure” means any buried or underground facility and any wireless or wireline connection that enables the provision of broadband.

(5) **BROADBAND PROVIDER.**—The term “broadband provider” means an entity that provides broadband to any person or facilitates provision of broadband to any person, including, with respect to such entity—

(A) a corporation, company, association, firm, partnership, nonprofit organization, or any other private entity;

(B) a State or local broadband provider;

(C) an Indian Tribe; and

(D) a partnership between any of the entities described in subparagraphs (A), (B), and (C).

(6) **COVERED HIGHWAY CONSTRUCTION PROJECT.**—

(A) **IN GENERAL.**—The term “covered highway construction project” means, without regard to ownership of a highway, a project to construct a new highway or an additional lane for an existing highway, to reconstruct an existing highway, or new construction, including for a paved shoulder.

(B) **EXCLUSIONS.**—The term “covered highway construction project” excludes any project—

- (i) awarded before the date on which regulations required under subsection (b) take effect;
- (ii) that does not include work beyond the edge of pavement or current paved shoulder; or
- (iii) that does not require excavation.

(7) **DIG ONCE REQUIREMENT.**—The term “dig once requirement” means a requirement designed to reduce the cost and accelerate the deployment to broadband by minimizing the number and scale of repeated excavations for the installation and maintenance of broadband conduit or broadband infrastructure in rights-of-way.

(8) **INDIAN TRIBE.**—The term “Indian Tribe” has the meaning given such term in section 4(e)

of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304(e)).

(9) **NTIA ADMINISTRATOR.**—The term “NTIA Administrator” means the Assistant Secretary of Commerce for Communications and Information.

(10) **PROJECT.**—The term “project” has the meaning given such term in section 101 of title 23, United States Code.

(11) **SECRETARY.**—The term “Secretary” means the Secretary of Transportation.

(12) **STATE.**—The term “State” has the meaning given such term in section 401 of title 23, United States Code.

(13) **STATE OR LOCAL BROADBAND PROVIDER.**—The term “State or local broadband provider” means a State or political subdivision thereof, or any agency, authority, or instrumentality of a State or political subdivision thereof, that provides broadband to any person or facilitates the provision of broadband to any person in that State.

(14) **TRIBAL GOVERNMENT.**—The term “Tribal government” means the recognized governing body of an Indian Tribe or any agency, authority, or instrumentality of such governing body or such Indian Tribe.

(b) **DIG ONCE REQUIREMENT.**—To facilitate the installation of broadband infrastructure, the Secretary shall, not later than 9 months after the date of enactment of this Act, promulgate regulations to ensure that each State that receives funds under chapter 1 of title 23, United States Code, meets the following requirements:

(1) **BROADBAND PLANNING.**—The State department of transportation, in consultation with appropriate State agencies, shall—

(A) identify a broadband coordinator, who may have additional responsibilities in the State department of transportation or in another State agency, that is responsible for facilitating the broadband infrastructure right-of-way efforts within the State; and

(B) review existing State broadband plans, including existing dig once requirements of the State, municipal governments incorporated under State law, and Tribal governments within the State, to determine opportunities to coordinate projects occurring within or across highway rights-of-way with planned broadband infrastructure projects.

(2) **NOTICE OF PLANNED CONSTRUCTION FOR BROADBAND PROVIDERS.**—

(A) **NOTICE.**—The State department of transportation, in consultation with appropriate State agencies, shall establish a process—

(i) for the registration of broadband providers that seek to be included in the advance notification of, and opportunity to participate in, broadband infrastructure right-of-way facilitation efforts within the State; and

(ii) to electronically notify all broadband providers registered under clause (i)—

(I) of the State transportation improvement program on at least an annual basis; and

(II) of projects within the highway right-of-way for which Federal funding is expected to be obligated in the subsequent fiscal year.

(B) **WEBSITE.**—A State department of transportation shall be considered to meet the requirements of subparagraph (A) if such State department of transportation publishes on a public website—

(i) the State transportation improvement program on at least an annual basis; and

(ii) projects within the highway right-of-way for which Federal funding is expected to be obligated in the subsequent fiscal year.

(C) **COORDINATION.**—The State department of transportation, in consultation with appropriate State agencies, shall establish a process for a broadband provider to commit to installing broadband conduit or broadband infrastructure as part of any project.

(3) **REQUIRED INSTALLATION OF CONDUIT.**—

(A) **IN GENERAL.**—The State department of transportation shall install broadband conduit, in accordance with this paragraph, except as described in subparagraph (F), as part of any

covered highway construction project, unless a broadband provider has committed to install broadband conduit or broadband infrastructure as part of such project in a process described under paragraph (2)(C).

(B) **INSTALLATION REQUIREMENTS.**—The State department of transportation shall ensure that—

(i) an appropriate number of broadband conduits, as determined in consultation with the appropriate State agencies, are installed along the highway of a covered highway construction project to accommodate multiple broadband providers, with consideration given to the availability of existing conduits;

(ii) the size of each such conduit is consistent with industry best practices and is sufficient to accommodate potential demand, as determined in consultation with the appropriate State agencies;

(iii) hand holes and manholes necessary for fiber access and pulling with respect to such conduit are placed at intervals consistent with standards determined in consultation with the appropriate State agencies (which may differ by type of road, topologies, and rurality) and consistent with safety requirements;

(iv) each broadband conduit installed pursuant to this paragraph includes a pull tape and is capable of supporting fiber optic cable placement techniques consistent with best practices; and

(v) is placed at a depth consistent with requirements of the covered highway construction project and best practices and that, in determining the depth of placement, consideration is given to the location of existing utilities and cable separation requirements of State and local electrical codes.

(C) **GUIDANCE FOR THE INSTALLATION OF BROADBAND CONDUIT.**—The Secretary, in consultation with the NTIA Administrator, shall issue guidance for best practices related to the installation of broadband conduit as described in this paragraph and of conduit and similar infrastructure for intelligent transportation systems (as such term is defined in section 501 of title 23, United States Code) that may utilize broadband conduit installed pursuant to this paragraph.

(D) **ACCESS.**—

(i) **IN GENERAL.**—The State department of transportation shall ensure that any requesting broadband provider has access to each broadband conduit installed pursuant to this paragraph, on a competitively neutral and non-discriminatory basis, and in accordance with State permitting, licensing, leasing, or other similar laws and regulations.

(ii) **FEE SCHEDULE.**—The State department of transportation, in consultation with appropriate State agencies, shall publish a fee schedule for a broadband provider to access conduit installed pursuant to this paragraph. Fees in such schedule—

(I) shall be consistent with the fees established pursuant to section 224 of the Communications Act of 1934 (47 U.S.C. 224);

(II) may vary by topography, location, type of road, rurality, and other factors in the determination of the State; and

(III) may be updated not more frequently than annually.

(iii) **IN-KIND COMPENSATION.**—The State department of transportation may negotiate in-kind compensation with any broadband provider requesting access to broadband conduit installed under the provisions of this paragraph as a replacement for part or all of, but not to exceed, the relevant fee in the fee schedule described in clause (ii).

(iv) **SAFETY CONSIDERATIONS.**—The State department of transportation shall require of broadband providers a process for safe access to the highway right-of-way during installation and on-going maintenance of the broadband fiber optic cables including a traffic control safety plan.

(v) **COMMUNICATION.**—A broadband provider with access to the conduit installed pursuant to this subsection shall notify and receive permission from the relevant agencies of State responsible for the installation of such broadband conduit prior to accessing any highway or highway right-of-way, in accordance with applicable Federal requirements.

(E) **TREATMENT OF PROJECTS.**—Notwithstanding any other provision of law, broadband conduit and broadband infrastructure installation projects under this paragraph shall comply with section 113(a) of title 23, United States Code.

(F) **WAIVER AUTHORITY.**—

(i) **IN GENERAL.**—A State department of transportation may waive the required installation of broadband conduit for part or all of any covered highway construction project under this paragraph if, in the determination of the State—

(I) broadband infrastructure, terrestrial broadband infrastructure, aerial broadband fiber cables, or broadband conduit is present near a majority of the length of the covered highway construction project;

(II) the installation of conduit increases overall costs of a covered highway construction project by 1.5 percent or greater;

(III) the installation of broadband conduit associated with covered highway construction project will not be utilized or connected to future broadband infrastructure in the next 20 years, in the determination of the State department of transportation, in consultation with appropriate State agencies and potentially affected local governments and Tribal governments;

(IV) the requirements of this paragraph would require installation of conduit redundant with a dig once requirement of a local or Tribal government;

(V) there exists a circumstance involving force majeure; or

(VI) other relevant factors, as determined by the Secretary in consultation with the NTIA Administrator through regulation, warrant a waiver.

(ii) **CONTENTS OF WAIVER.**—A waiver authorized under this subparagraph shall—

(I) identify the covered highway construction project; and

(II) include a brief description of the determination of the State for issuing such waiver.

(iii) **AVAILABILITY OF WAIVER.**—A waiver authorized under this subparagraph shall be included in the plans, specifications, and estimates for the associated project, as long as such info is publicly available.

(4) **PRIORITY.**—If a State provides for the installation of broadband infrastructure or broadband conduit in the right-of-way of an applicable project under this subsection, the State department of transportation, along with appropriate State agencies, shall carry out appropriate measures to ensure that any existing broadband providers are afforded equal opportunity access, as compared to other broadband providers, with respect to the program under this subsection.

(5) **CONSULTATION.**—

(A) **IN GENERAL.**—In promulgating regulations required by this subsection or to implement any part of this section, the Secretary shall consult—

- (i) the NTIA Administrator;
- (ii) the Federal Communications Commission;
- (iii) State departments of transportation;
- (iv) appropriate State agencies;
- (v) agencies of local governments responsible for transportation and rights-of-way, utilities, and telecommunications and broadband;
- (vi) Tribal governments;
- (vii) broadband providers; and
- (viii) manufacturers of optical fiber, conduit, pull tape, and related items.

(B) **BROADBAND USERS.**—The Secretary shall ensure that the entities consulted under clauses (iii) through (vi) of subparagraph (A) include rural areas and populations with limited access to broadband infrastructure.

(C) **BROADBAND PROVIDERS.**—The Secretary shall ensure that the entities consulted under clause (vi) of subparagraph (A) include entities who provide broadband to rural areas and populations with limited access to broadband infrastructure.

(6) **PROHIBITION ON UNFUNDED MANDATE.**—

(A) **IN GENERAL.**—This subsection shall apply only to projects for which Federal obligations or expenditures are initially approved on or after the date regulations required under this subsection take effect.

(B) **NO MANDATE.**—Absent an available and dedicated Federal source of funding—

(i) nothing in this subsection establishes a mandate or requirement that a State install broadband conduit in a highway right-of-way; and

(ii) nothing in paragraph (3) shall establish any requirement for a State.

(7) **RULES OF CONSTRUCTION.**—

(A) **STATE LAW.**—Nothing in this subsection shall be construed to require a State to install or allow the installation of broadband conduit or broadband infrastructure—

(i) that is otherwise inconsistent with what is allowable under State law; or

(ii) where the State lacks the authority or property easement necessary for such installation.

(B) **NO REQUIREMENT FOR INSTALLATION OF MOBILE SERVICES EQUIPMENT.**—Nothing in this section shall be construed to require a State, a municipal government incorporated under State law, or an Indian Tribe to install or allow for the installation of equipment essential for the provision of commercial mobile services (as defined in section 332(d) of the Communications Act of 1934 (47 U.S.C. 332(d))) or commercial mobile data service (as defined in section 6001 of the Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1401)), other than broadband conduit and associated equipment described in paragraph (3)(B).

(c) **RELATION TO STATE DIG ONCE REQUIREMENTS.**—Nothing in subsection (b) or any regulations promulgated under subsection (b) shall be construed to alter or supersede any provision of a State law or regulation that provides for a dig once requirement that includes similar or more stringent requirements to the provisions of subsection (b) and any regulations promulgated under subsection (b).

(d) **DIG ONCE FUNDING TASK FORCE.**—

(1) **ESTABLISHMENT.**—There is established an independent task force on funding the nationwide dig once requirement described in this section to be known as the “Dig Once Funding Task Force” (hereinafter referred to as the “Task Force”).

(2) **DUTIES.**—The duties of the Task Force shall be to—

(A) estimate the annual cost for implementing and administering a nationwide dig once requirement; and

(B) propose and evaluate options for funding a nationwide dig once requirement described in this section that includes—

(i) a discussion of the role and potential share of costs of—

- (I) the Federal Government;
- (II) State, local, and Tribal governments; and
- (III) broadband providers; and

(ii) consideration of the role of existing dig once requirements of State, local, and Tribal governments and private broadband investment, with a goal to not discourage or disincentivize such dig once requirements or such investment.

(3) **REPORTS.**—

(A) **INTERIM REPORT AND BRIEFING.**—Not later than 9 months after the date of enactment of this Act, the Task Force shall submit an interim report to Congress and provide briefings for Congress on the findings of the Task Force.

(B) **FINAL REPORT.**—Not later than 12 months after the date of enactment of this Act, the Task Force shall submit a final report to Congress on the findings of the Task Force.

(4) MEMBERS.—

(A) APPOINTMENTS.—The Task Force shall consist of 14 members, consisting of—

(i) the 2 co-chairs described in subparagraph (B);

(ii) 6 members jointly appointed by the Speaker and minority leader of the House of Representatives, in consultation with the respective Chairs and Ranking Members of the—

(I) the Committee on Transportation and Infrastructure of the House of Representatives;

(II) the Committee on Energy and Commerce of the House of Representatives; and

(III) the Committee on Appropriations of the House of Representatives; and

(iii) 6 members jointly appointed by the majority leader and minority leader of the Senate, in consultation with the respective Chairs and Ranking Members of the—

(I) the Committee on Environment and Public Works of the Senate;

(II) the Committee on Commerce, Science, and Transportation of the Senate; and

(III) the Committee on Appropriations of the Senate.

(B) CO-CHAIRS.—The Task Force shall be co-chaired by the Secretary and the NTIA Administrator, or their designees.

(C) COMPOSITION.—The Task Force shall include at least—

(i) 1 representative from a State department of transportation;

(ii) 1 representative from a local government;

(iii) 1 representative from a Tribal government;

(iv) 1 representative from a broadband provider;

(v) 1 representative from a State or local broadband provider;

(vi) 1 representative from a labor union; and

(vii) 1 representative from a public interest organization.

(D) APPOINTMENT DEADLINE.—Members shall be appointed to the Task Force not later than 60 days after the date of enactment of this Act.

(E) EFFECT OF LACK OF APPOINTMENT BY APPOINTMENT DATE.—If 1 or more appointments required under subparagraph (A) is not made by the appointment date specified in subparagraph (D), the authority to make such appointment or appointments shall expire and the number of members of the Task Force shall be reduced by the number equal to the number of appointments so expired.

(F) TERMS.—Members shall be appointed for the life of the Task Force. A vacancy in the Task Force shall not affect its powers and shall be filled in the same manner as the initial appointment was made.

(5) CONSULTATIONS.—In carrying out the duties required under this subsection, the Task Force shall consult, at a minimum—

(A) the Federal Communications Commission;

(B) agencies of States including—

(i) State departments of transportation; and

(ii) appropriate State agencies;

(C) agencies of local governments responsible for transportation and rights of way, utilities, and telecommunications and broadband;

(D) Tribal governments;

(E) broadband providers and other telecommunications providers;

(F) labor unions; and

(G) State or local broadband providers and Tribal governments that act as broadband providers.

(6) ADDITIONAL PROVISIONS.—

(A) EXPENSES FOR NON-FEDERAL MEMBERS.—

Non-Federal members of the Task Force shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Task Force.

(B) STAFF.—Staff of the Task Force shall comprise detailees with relevant expertise from the Department of Transportation and the National

Telecommunications and Information Administration, or another Federal agency the co-chairpersons consider appropriate, with the consent of the head of the Federal agency, and such detailee shall retain the rights, status, and privileges of his or her regular employment without interruption.

(C) ADMINISTRATIVE ASSISTANCE.—The Secretary and NTIA Administrator shall provide to the Task Force on a reimbursable basis administrative support and other services for the performance of the functions of the Task Force.

(7) TERMINATION.—The Task Force shall terminate not later than 90 days after issuance of the final report required under paragraph (3)(B).

#### SEC. 1604. BALANCE EXCHANGES FOR INFRASTRUCTURE PROGRAM.

(a) IN GENERAL.—Chapter 1 of title 23, United States Code, is further amended by adding at the end the following:

##### “§174. Balance Exchanges for Infrastructure Program

“(a) DEFINITIONS.—In this section:

“(1) ADMINISTRATIVELY ALLOCATED.—The term ‘administratively allocated’ means the allocation by the Secretary of budget authority for a project under the TIFIA program that occurs when—

“(A) a potential applicant has been invited into the creditworthiness phase for a project under the TIFIA program; or

“(B) the project is subject to a master credit agreement (as defined in section 601(a)), in accordance with section 602(b)(2).

“(2) APPALACHIAN STATE.—The term ‘Appalachian State’ means a State that contains 1 or more counties in the Appalachian region (as defined in section 14102(a) of title 40).

“(3) PROGRAM.—The term ‘program’ means the Balance Exchanges for Infrastructure Program established under subsection (b).

“(4) TIFIA CARRYOVER BALANCE.—

“(A) IN GENERAL.—The term ‘TIFIA carryover balance’ means the amounts made available for the TIFIA program for previous fiscal years that are unobligated and have not been administratively allocated.

“(B) INCLUSION.—The term ‘TIFIA carryover balance’ includes—

“(i) the applicable amount of contract authority for the amounts described in subparagraph (A); and

“(ii) the equivalent amount of obligation limitation for the fiscal year in which the Secretary makes a transfer under subsection (f)(2).

“(5) TIFIA PROGRAM.—The term ‘TIFIA program’ has the meaning given the term in section 601(a).

“(b) ESTABLISHMENT.—The Secretary shall establish a program, to be known as the ‘Balance Exchanges for Infrastructure Program’, in accordance with this section to provide flexibility for the Secretary and States to improve highway infrastructure.

“(c) OFFER TO FUND PROJECTS OR EXCHANGE FUNDS.—

“(1) SOLICITATION.—For each fiscal year for which an amount is reserved under subsection (f)(1), the Secretary shall—

“(A) not later than December 1 of that fiscal year—

“(i) solicit requests from Appalachian States to return amounts under subsection (d)(1)(A); and

“(ii) solicit applications from Appalachian States for grants under subsection (e); and

“(B) require that, not later than 60 days after the date of the solicitations under subparagraph (A), each Appalachian State that elects to participate in the program shall submit to the Secretary either—

“(i) a request that describes the amount that the Appalachian State requests to return under subsection (d)(1)(A); or

“(ii) an application for a grant under subsection (e).

“(d) EXCHANGE AGREEMENTS.—

“(1) IN GENERAL.—The Secretary shall enter into an agreement with each Appalachian State that submits a request under subsection (c)(1)(A)(i) under which—

“(A) the Appalachian State shall return to the Secretary all, or at the discretion of the Appalachian State, a portion of, the unobligated amounts from the Highway Trust Fund (including the applicable amount of contract authority and an equal amount of special no-year obligation limitation associated with that contract authority) apportioned to the Appalachian State for the Appalachian development highway system under section 14501 of title 40 (but not including any amounts made available by an appropriations Act without an initial authorization); and

“(B) the Secretary shall transfer to the Appalachian State, from amounts transferred to the program under subsection (f)(2) for that fiscal year, an amount (including the applicable amount of contract authority and an equal amount of annual obligation limitation) equal to the amount that the Appalachian State returned under subparagraph (A) that shall be used to carry out projects described in paragraph (3).

“(2) STATE LIMITATION.—The amount of contract authority returned by an Appalachian State under paragraph (1)(A) may not exceed the amount of the special no-year obligation limitation available to the Appalachian State prior to the return of the special no-year obligation limitation under that paragraph.

“(3) ELIGIBLE PROJECTS.—

“(A) IN GENERAL.—A project eligible to be carried out using funds transferred to an Appalachian State under paragraph (1)(B) is a project described in subsections (b) and (c) of section 133.

“(B) FEDERAL SHARE.—The Federal share of the cost of a project carried out using funds transferred to an Appalachian State under paragraph (1)(B) shall be up to 100 percent, at the discretion of the Appalachian State.

“(C) APPLICATION OF SECTION 133.—Except as otherwise provided in this paragraph, section 133 shall not apply to a project carried out using funds transferred to an Appalachian State under paragraph (1)(B).

“(4) TOTAL LIMITATION.—For each fiscal year, the total amount exchanged under paragraph (1) shall not exceed the amount available to be transferred to the program under subsection (f).

“(5) AMOUNTS EXCHANGED.—For each fiscal year, if the total amount requested by all Appalachian States to return under paragraph (1)(A) is greater than the amount described in paragraph (4), the Secretary shall exchange amounts under paragraph (1) based on the proportion that—

“(A) the amount requested to be returned for the fiscal year by the Appalachian State; bears to

“(B) the amount requested to be returned for the fiscal year by all Appalachian States.

“(e) APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM CORRIDOR GRANTS.—

“(1) IN GENERAL.—Using amounts returned to the Secretary under subsection (d)(1)(A), the Secretary shall provide grants of contract authority, to remain available until expended, and subject to special no-year obligation limitation, on a competitive basis to Appalachian States for eligible projects described in paragraph (2).

“(2) ELIGIBLE PROJECT.—A project eligible to be carried out with a grant under this subsection is a project that is—

“(A) eligible under section 14501 of title 40 as of the date of enactment of this section; and

“(B) reasonably expected to begin construction by not later than 2 years after the date of obligation of funds provided under this subsection for the project.

“(3) APPLICATION.—To be eligible to receive a grant under this subsection, an Appalachian

State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

“(4) **FEDERAL SHARE.**—The Federal share of the cost of a project carried out using a grant provided under this subsection shall be up to 100 percent, at the discretion of the Appalachian State.

“(5) **LIMITATION.**—An Appalachian State that enters into an agreement to exchange funds under subsection (d) for any fiscal year shall not be eligible to receive a grant under this subsection.

“(f) **TRANSFER FROM TIFIA PROGRAM.**—

“(1) **IN GENERAL.**—On October 1 of each fiscal year, the Secretary shall reserve, for the purpose of funding transfers under paragraph (2) until the transfers are completed, the amount of TIFIA carryover balance that exceeds the amount available to carry out the TIFIA program for that fiscal year.

“(2) **TRANSFERS.**—For each fiscal year, not later than 60 days after the date on which the Secretary receives the responses to the solicitations under subsection (c)(1), the Secretary shall transfer from the TIFIA program to the program an amount of contract authority and equal amount of obligation limitation that is equal to the lesser of—

“(A) the total amount requested by all Appalachian States for the fiscal year under subsection (c)(1)(B)(i);

“(B) the total amount requested by all Appalachian States for grants under subsection (c)(1)(B)(ii); and

“(C) the amount reserved under paragraph (1).”

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 1 of title 23, United States Code, is further amended by adding at the end the following:

“174. Balance Exchanges for Infrastructure Program.”

#### **SEC. 1605. STORMWATER BEST MANAGEMENT PRACTICES.**

(a) **STUDY.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation and the Administrator shall seek to enter into an agreement with the Transportation Research Board of the National Academy of Sciences to under which the Transportation Research Board shall conduct a study—

(A) to estimate pollutant loads from stormwater runoff from highways and pedestrian facilities eligible for assistance under title 23, United States Code, to inform the development of appropriate total maximum daily load requirements;

(B) to provide recommendations (including recommended revisions to existing laws and regulations) regarding the evaluation and selection by State departments of transportation of potential stormwater management and total maximum daily load compliance strategies within a watershed, including environmental restoration and pollution abatement carried out under section 328 of title 23, United States Code;

(C) to examine the potential for the Secretary to assist State departments of transportation in carrying out and communicating stormwater management practices for highways and pedestrian facilities that are eligible for assistance under title 23, United States Code, through information-sharing agreements, database assistance, or an administrative platform to provide the information described in subparagraphs (A) and (B) to entities issued permits under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.); and

(D) to examine the benefit of concentrating stormwater retrofits in impaired watersheds and selecting such retrofits according to a process that depends on a watershed management plan developed in accordance with section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329).

(2) **REQUIREMENTS.**—In conducting the study under the agreement entered into pursuant to paragraph (1), the Transportation Research Board shall—

(A) review and supplement, as appropriate, the methodologies examined and recommended in the 2019 report of the National Academies of Sciences, Engineering, and Medicine titled “Approaches for Determining and Complying with TMDL Requirements Related to Roadway Stormwater Runoff”;

(B) consult with—  
(i) the Secretary of Transportation;  
(ii) the Secretary of Agriculture;  
(iii) the Administrator;  
(iv) the Secretary of the Army, acting through the Chief of Engineers; and

(C) solicit input from—

(i) stakeholders with experience in implementing stormwater management practices for projects; and

(ii) educational and technical stormwater management groups.

(3) **REPORT.**—In carrying out the agreement entered into pursuant to paragraph (1), not later than 18 months after the date of enactment of this Act, the Transportation Research Board shall submit to the Secretary of Transportation, the Administrator, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Environment and Public Works of the Senate a report describing the results of the study.

(b) **STORMWATER BEST MANAGEMENT PRACTICES REPORTS.**—

(1) **REISSUANCE.**—Not later than 180 days after the date of enactment of this Act, the Administrator shall update and reissue the best management practices reports to reflect new information and advancements in stormwater management.

(2) **UPDATES.**—Not less frequently than once every 5 years after the date on which the Secretary reissues the best management practices reports under paragraph (1), the Secretary shall update and reissue the best management practices reports, unless the contents of the best management practices reports have been incorporated (including by reference) into applicable regulations of the Secretary.

(c) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) **BEST MANAGEMENT PRACTICES REPORTS.**—The term “best management practices reports” means—

(A) the 2014 report sponsored by the Department of Transportation titled “Determining the State of the Practice in Data Collection and Performance Measurement of Stormwater Best Management Practices” (FHWA-HEP-16-021); and

(B) the 2000 report sponsored by the Department of Transportation titled “Stormwater Best Management Practices in an Ultra-Urban Setting: Selection and Monitoring”.

(3) **TOTAL MAXIMUM DAILY LOAD.**—The term “total maximum daily load” has the meaning given such term in section 130.2 of title 40, Code of Federal Regulations (or successor regulations).

#### **SEC. 1606. PEDESTRIAN FACILITIES IN THE PUBLIC RIGHT-OF-WAY.**

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Architectural and Transportation Barriers Compliance Board established under section 502(a)(1) of the Rehabilitation Act of 1973 (29 U.S.C. 792), in consultation with the Secretary of Transportation, shall establish accessibility guidelines setting forth minimum standards for pedestrian facilities in the public right-of-way.

(b) **CONTENT OF GUIDANCE.**—The guidelines described in subsection (a) shall be substantially similar to, and carried out under the same statutory authority as—

(1) the notice of proposed rulemaking published on July 26, 2011, titled “Accessibility

Guidelines for Pedestrian Facilities in the Public Right-of-Way” (76 Fed. Reg. 44664); and

(2) the supplemental notice of proposed rulemaking published on February 13, 2013, titled “Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way; Shared Use Paths” (78 Fed. Reg. 10110).

(c) **ADOPTION OF REGULATIONS.**—Not later than 180 days after the establishment of the guidelines pursuant to subsection (a), the Secretary shall issue such regulations as are necessary to adopt such guidelines.

#### **SEC. 1607. HIGHWAY FORMULA MODERNIZATION REPORT.**

(a) **HIGHWAY FORMULA MODERNIZATION STUDY.**—

(1) **IN GENERAL.**—The Secretary of Transportation, in consultation with the State departments of transportation and representatives of local governments (including metropolitan planning organizations), shall conduct a highway formula modernization study to assess the method and data used to apportion Federal-aid highway funds under subsections (b) and (c) of section 104 of title 23, United States Code, and issue recommendations on such method and data.

(2) **ASSESSMENT.**—The highway formula modernization study required under paragraph (1) shall include an assessment of, based on the latest available data, whether the apportionment method under such section results in—

(A) an equitable distribution of funds based on the estimated tax payments attributable to—

(i) highway users in the State that are paid into the Highway Trust Fund; and

(ii) individuals in the State that are paid to the Treasury, based on contributions to the Highway Trust Fund from the general fund of the Treasury; and

(B) the achievement of the goals described in section 101(b)(3) of title 23, United States Code.

(3) **CONSIDERATIONS.**—In carrying out the assessment under paragraph (2), the Secretary shall consider the following:

(A) The factors described in sections 104(b), 104(f)(2), 104(h)(2), 130(f), and 144(e) of title 23, United States Code, as in effect on the date of enactment of SAFETEA-LU (Public Law 109-59).

(B) The availability and accuracy of data necessary to calculate formula apportionments under the factors described in subparagraph (A).

(C) The measures established under section 150 of title 23, United States Code, and whether such measures are appropriate for consideration as formula apportionment factors.

(D) The results of the CMAQ formula modernization study required under subsection (b).

(E) Any other factors that the Secretary determines are appropriate.

(4) **RECOMMENDATIONS.**—The Secretary shall, in consultation with the State departments of transportation and representatives of local governments (including metropolitan planning organizations), develop recommendations on a new apportionment method, including—

(A) the factors recommended to be included in such apportionment method;

(B) the weighting recommended to be applied to the factors under subparagraph (A); and

(C) any other recommendations to ensure that the apportionment method best achieves an equitable distribution of funds described under paragraph (2)(A) and the goals described in paragraph (2)(B).

(b) **CMAQ FORMULA MODERNIZATION STUDY.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation, in consultation with the Administrator of the Environmental Protection Agency, shall conduct an CMAQ formula modernization study to assess whether the apportionment method under section 104(b)(4) of title 23, United States Code, results in a distribution of funds that best achieves the air quality goals of section 149 of such title.

(2) **CONSIDERATIONS.**—In providing consultation under this subsection, the Administrator of the Environmental Protection Agency shall provide to the Secretary an analysis of—

(A) factors that contribute to the apportionment, including population, types of pollutants, and severity of pollutants, as such factors were determined on the date prior to the date of enactment of MAP-21;

(B) the weighting of the factors listed under subparagraph (A); and

(C) the recency of the data used in making the apportionment under section 104(b)(4) of title 23, United States Code.

(3) **RECOMMENDATIONS.**—If, in conducting the study under this subsection, the Secretary finds that modifying the apportionment method under section 104(b)(4) of title 23, United States Code, would best achieve the air quality goals of section 149 of title 23, United States Code, the Secretary shall, in consultation with the Administrator, include in such study recommendations for a new apportionment method, including—

(A) the factors recommended to be included in such apportionment method;

(B) the weighting recommended to be applied to the factors under subparagraph (A); and

(C) any other recommendations to ensure that the apportionment method best achieves the air quality goals section 149 of such title.

(c) **REPORT.**—No later than 2 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report containing the results of the highway formula modernization study and the CMAQ formula modernization study.

#### **SEC. 1608. CONSOLIDATION OF PROGRAMS.**

Section 1519 of MAP-21 (Public Law 112-141) is amended—

(1) in subsection (a)—

(A) by striking “fiscal years 2016 through 2020” and inserting “fiscal years 2022 through 2025”; and

(B) by striking “\$3,500,000” and inserting “\$4,000,000”;

(2) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(3) by inserting after subsection (a) the following:

“(b) **FEDERAL SHARE.**—The Federal share of the cost of a project or activity carried out under subsection (a) shall be 100 percent.”.

#### **SEC. 1609. STUDENT OUTREACH REPORT TO CONGRESS.**

(a) **REPORT.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that describes the efforts of the Department of Transportation to encourage elementary, secondary, and post-secondary students to pursue careers in the surface transportation sector.

(b) **CONTENTS.**—The report required under subsection (a) shall include—

(1) a description of efforts to increase awareness of careers related to surface transportation among elementary, secondary, and post-secondary students;

(2) a description of efforts to prepare and inspire such students for surface transportation careers;

(3) a description of efforts to support the development of a diverse, well-qualified workforce for future surface transportation needs; and

(4) the effectiveness of the efforts described in paragraphs (1) through (3).

#### **SEC. 1610. TASK FORCE ON DEVELOPING A 21ST CENTURY SURFACE TRANSPORTATION WORKFORCE.**

(a) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Secretary of Transportation shall establish a task force on

developing a 21st century surface transportation workforce (in this section referred to as the “Task Force”).

(b) **DUTIES.**—Not later than 12 months after the establishment of the Task Force under subsection (a), the Task Force shall develop and submit to the Secretary recommendations and strategies for the Department of Transportation to—

(1) evaluate the current and future state of the surface transportation workforce, including projected job needs in the surface transportation sector;

(2) identify factors influencing individuals pursuing careers in surface transportation, including barriers to attracting individuals into the workforce;

(3) address barriers to retaining individuals in surface transportation careers;

(4) identify and address potential impacts of emerging technologies on the surface transportation workforce;

(5) increase access for vulnerable or underrepresented populations, especially women and minorities, to high-skill, in-demand surface transportation careers;

(6) facilitate and encourage elementary, secondary, and post-secondary students in the United States to pursue careers in the surface transportation sector; and

(7) identify and develop pathways for students and individuals to secure pre-apprenticeships, registered apprenticeships, and other work-based learning opportunities in the surface transportation sector of the United States.

(c) **CONSIDERATIONS.**—In developing recommendations and strategies under subsection (b), the Task Force shall—

(1) identify factors that influence whether young people pursue careers in surface transportation, especially traditionally underrepresented populations, including women and minorities;

(2) consider how the Department, businesses, industry, labor, educators, and other stakeholders can coordinate efforts to support qualified individuals in pursuing careers in the surface transportation sector;

(3) identify methods of enhancing surface transportation pre-apprenticeships and registered apprenticeships, job skills training, mentorship, education, and outreach programs that are exclusive to youth in the United States; and

(4) identify potential sources of funding, including grants and scholarships, that may be used to support youth and other qualified individuals in pursuing careers in the surface transportation sector.

(d) **CONSULTATION.**—In developing the recommendations and strategies required under subsection (b), the Task Force may consult with—

(1) local educational agencies and institutes of higher education, including community colleges and vocational schools; and

(2) State workforce development boards.

(e) **REPORT.**—Not later than 60 days after the submission of the recommendations and strategies under subsection (b), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report containing such recommendations and strategies.

(f) **COMPOSITION OF TASK FORCE.**—The Secretary shall appoint members to the Task Force whose diverse background and expertise allow such members to contribute balanced points of view and ideas in carrying out this section, comprised of equal representation from each of the following:

(1) Industries in the surface transportation sector.

(2) Surface transportation sector labor organizations.

(3) Such other surface transportation stakeholders and experts as the Secretary considers appropriate.

(g) **PERIOD OF APPOINTMENT.**—Members shall be appointed to the Task Force for the duration of the existence of the Task Force.

(h) **COMPENSATION.**—Task Force members shall serve without compensation.

(i) **SUNSET.**—The Task Force shall terminate upon the submission of the report required under subsection (e).

(j) **DEFINITIONS.**—In this section:

(1) **PRE-APPRENTICESHIP.**—The term “pre-apprenticeship” means a training model or program that prepares individuals for acceptance into a registered apprenticeship and has a demonstrated partnership with 1 or more registered apprenticeships.

(2) **REGISTERED APPRENTICESHIP.**—The term “registered apprenticeship” means an apprenticeship program registered under the Act of August 16, 1937 (29 U.S.C. 50 et seq.; commonly known as the “National Apprenticeship Act”), that satisfies the requirements of parts 29 and 30 of title 29, Code of Federal Regulations (as in effect on January 1, 2020).

#### **SEC. 1611. ON-THE-JOB TRAINING AND SUPPORTIVE SERVICES.**

Section 140(b) of title 23, United States Code, is amended to read as follows:

“(b) **WORKFORCE TRAINING AND DEVELOPMENT.**—

“(1) **IN GENERAL.**—The Secretary, in cooperation with the Secretary of Labor and any other department or agency of the Government, State agency, authority, association, institution, Indian Tribal government, corporation (profit or nonprofit), or any other organization or person, is authorized to develop, conduct, and administer surface transportation and technology training, including skill improvement programs, and to develop and fund summer transportation institutes.

“(2) **STATE RESPONSIBILITIES.**—A State department of transportation participating in the program under this subsection shall—

“(A) develop an annual workforce plan that identifies immediate and anticipated workforce gaps and underrepresentation of women and minorities and a detailed plan to fill such gaps and address such underrepresentation;

“(B) establish an annual workforce development compact with the State workforce development board and appropriate agencies to provide a coordinated approach to workforce training, job placement, and identification of training and skill development program needs, which shall be coordinated to the extent practical with an institution or agency, such as a State workforce development board under section 101 of the Workforce Innovation and Opportunities Act (29 U.S.C. 3111), that has established skills training, recruitment, and placement resources; and

“(C) demonstrate program outcomes, including—

“(i) impact on areas with transportation workforce shortages;

“(ii) diversity of training participants;

“(iii) number and percentage of participants obtaining certifications or credentials required for specific types of employment;

“(iv) employment outcome, including job placement and job retention rates and earnings, using performance metrics established in consultation with the Secretary of Labor and consistent with metrics used by programs under the Workforce Innovation and Opportunity Act (29 U.S.C. 3101 et seq.); and

“(v) to the extent practical, evidence that the program did not preclude workers that participate in training or registered apprenticeship activities under the program from being referred to, or hired on, projects funded under this chapter.

“(3) **FUNDING.**—From administrative funds made available under section 104(a), the Secretary shall deduct such sums as necessary, not to exceed \$10,000,000 in each fiscal year, for the administration of this subsection. Such sums shall remain available until expended.

“(4) **NONAPPLICABILITY OF TITLE 41.**—Subsections (b) through (d) of section 6101 of title 41

shall not apply to contracts and agreements made under the authority granted to the Secretary under this subsection.

“(5) **USE OF SURFACE TRANSPORTATION PROGRAM AND NATIONAL HIGHWAY PERFORMANCE PROGRAM FUNDS.**—Notwithstanding any other provision of law, not to exceed ½ of 1 percent of funds apportioned to a State under paragraph (1) or (2) of section 104(b) may be available to carry out this subsection upon request of the State transportation department to the Secretary.”.

**SEC. 1612. APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM FUNDING FLEXIBILITY.**

(a) **IN GENERAL.**—Any funds made available to a State for the Appalachian development highway system program under subtitle IV of title 40, United States Code, before the date of enactment of this Act may be used, at the request of such State to the Secretary of Transportation, for the purposes described in section 133(b) of title 23, United States Code.

(b) **LIMITATION.**—The authority in subsection (a) may only be used by an Appalachian development highway system State if all of the Appalachian development highway system corridors authorized by subtitle IV of title 40, United States Code, in such State, have been fully completed and are open to traffic prior to the State making a request to the Secretary as described in subsection (a).

**SEC. 1613. TRANSPORTATION EDUCATION DEVELOPMENT PROGRAM.**

Section 504 of title 23, United States Code, is amended—

(1) in subsection (e)(1) by inserting “and (8) through (9)” after “paragraphs (1) through (4)”; and

(2) in subsection (f) by adding at the end the following:

“(4) **REPORTS.**—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate an annual report that includes—

“(A) a list of all grant recipients under this subsection;

“(B) an explanation of why each recipient was chosen in accordance with the criteria under paragraph (2);

“(C) a summary of each recipient’s objective to carry out the purpose described in paragraph (1) and an analysis of progress made toward achieving each such objective;

“(D) an accounting for the use of Federal funds obligated or expended in carrying out this subsection; and

“(E) an analysis of outcomes of the program under this subsection.”.

**SEC. 1614. WORKING GROUP ON CONSTRUCTION RESOURCES.**

(a) **ESTABLISHMENT.**—Not later than 120 days after the date of enactment of this Act, the Secretary of Transportation shall establish a working group (in this section referred to as the “Working Group”) to conduct a study on access to covered resources for infrastructure projects.

(b) **MEMBERSHIP.**—

(1) **APPOINTMENT.**—The Secretary shall appoint to the Working Group individuals with knowledge and expertise in the production and transportation of covered resources.

(2) **REPRESENTATION.**—The Working Group shall include at least 1 representative of each of the following:

(A) State departments of transportation.

(B) State agencies associated with covered resources protection.

(C) State planning and geologic survey and mapping agencies.

(D) Commercial motor vehicle operators, including small business operators and operators who transport covered resources.

(E) Covered resources producers.

(F) Construction contractors.

(G) Metropolitan planning organizations and regional planning organizations.

(H) Indian Tribes, including Tribal elected leadership or Tribal transportation officials.

(I) Any other stakeholders that the Secretary determines appropriate.

(3) **TERMINATION.**—The Working Group shall terminate 6 months after the date on which the Secretary receives the report under subsection (e)(1).

(c) **DUTIES.**—In carrying out the study required under subsection (a), the Working Group shall analyze—

(1) the use of covered resources in transportation projects funded with Federal dollars;

(2) how the proximity of covered resources to such projects affects the cost and environmental impact of such projects;

(3) whether and how State, Tribal, and local transportation and planning agencies consider covered resources when developing transportation projects; and

(4) any challenges for transportation project sponsors regarding access and proximity to covered resources.

(d) **CONSULTATION.**—In carrying out the study required under subsection (a), the Working Group shall consult with, as appropriate—

(1) chief executive officers of States;

(2) State, Tribal, and local transportation and planning agencies;

(3) other relevant State, Tribal, and local agencies, including State agencies associated with covered resources protection;

(4) members of the public with industry experience with respect to covered resources;

(5) other Federal entities that provide funding for transportation projects; and

(6) any other stakeholder the Working Group determines appropriate.

(e) **REPORTS.**—

(1) **WORKING GROUP REPORT.**—Not later than 2 years after the date on which the Working Group is established, the Working Group shall submit to the Secretary a report that includes—

(A) the findings of the study required under subsection (a), including a summary of comments received during the consultation process under subsection (d); and

(B) any recommendations to preserve access to and reduce the costs and environmental impacts of covered resources for infrastructure projects.

(2) **DEPARTMENTAL REPORT.**—Not later than 3 months after the date on which the Secretary receives the report under paragraph (1), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a summary of the findings under such report and any recommendations, as appropriate.

(f) **DEFINITIONS.**—In this section:

(1) **COVERED RESOURCES.**—The term “covered resources” means common variety materials used in transportation infrastructure construction and maintenance, including stone, sand, and gravel.

(2) **STATE.**—The term “State” means each of the several States, the District of Columbia, and each territory or possession of the United States.

**SEC. 1615. NUMBERING SYSTEM OF HIGHWAY INTERCHANGES.**

(a) **IN GENERAL.**—Notwithstanding section 315 of title 23, United States Code, and section 1.36 of title 23, Code of Federal Regulations, the Secretary of Transportation may not impose a penalty on a State that does not comply with section 2E.31 of the Manual on Uniform Traffic Control Devices (or a successor section) with respect to the numbering of highway interchanges.

(b) **APPLICABILITY.**—Subsection (a) shall only apply to a method of numbering of a highway interchange in effect on the date of enactment of this Act.

**SEC. 1616. TOLL CREDITS.**

(a) **PURPOSES.**—The Secretary of Transportation shall—

(1) identify the extent of the demand to purchase toll credits;

(2) identify the expected cash price of toll credits;

(3) analyze the impact of the exchange of toll credits on transportation expenditures; and

(4) identify any other repercussions of establishing a toll credit exchange.

(b) **SOLICITATION.**—To carry out the requirements of this section, the Secretary shall solicit information from States eligible to use a credit under section 120(i) of title 23, United States Code, including—

(1) the amount of unused toll credits, including—

(A) toll revenue generated and the sources of that revenue;

(B) toll revenue used by public, quasi-public, and private agencies to build, improve, or maintain highways, bridges, or tunnels that serve the public purpose of interstate commerce; and

(C) an accounting of any Federal funds used by the public, quasi-public, or private agency to build, improve, or maintain the toll facility, to validate that the credit has been reduced by a percentage equal to the percentage of the total cost of building, improving, or maintaining the facility that was derived from Federal funds;

(2) the documentation of maintenance of effort for toll credits earned by the State; and

(3) the accuracy of the accounting system of the State to earn and track toll credits.

(c) **WEBSITE.**—The Secretary shall make available a publicly accessible website on which a State eligible to use a credit under section 120(i) of title 23, United States Code shall publish the information described under subsection (b)(1).

(d) **EVALUATION AND RECOMMENDATIONS TO CONGRESS.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall provide to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate, and make publicly available on the website of the Department of Transportation—

(1) an evaluation of the accuracy of the accounting and documentation of toll credits earned under section 120(i);

(2) a determination whether a toll credit marketplace is viable and cost effective;

(3) estimates, to the extent possible, of the average sale price of toll credits; and

(4) recommendations on any modifications necessary, including legislative changes, to establish and implement a toll credit exchange program.

(e) **DEFINITION.**—In this section, the term “State” has the meaning given the term in section 101(a) of title 23, United States Code.

**SEC. 1617. TRANSPORTATION CONSTRUCTION MATERIALS PROCUREMENT.**

(a) **ESTABLISHMENT.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall initiate a review of the procurement processes used by State departments of transportation to select construction materials on projects utilizing Federal-aid highway funds.

(b) **CONTENTS.**—The review under subsection (a) shall include—

(1) a review of competitive practices in the bidding process for transportation construction materials;

(2) a list of States that currently issue bids that include flexibility in the type of construction materials used to meet the project specifications;

(3) any information provided by States on considerations that influence the decision to include competition by type of material in transportation construction projects;

(4) any data on whether issuing bids that include flexibility in the type of construction materials used to meet the project specifications will affect project costs over the lifecycle of an asset;

(5) any data on the degree to which competition leads to greater use of sustainable, innovative, or resilient materials; and

(6) an evaluation of any barriers to more widespread use of competitive bidding processes for transportation construction materials.

(c) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate, and make publicly available, a report on the review initiated by the Secretary pursuant to this section.

**SEC. 1618. CONSTRUCTION OF CERTAIN ACCESS AND DEVELOPMENT ROADS.**

Section 118(d) of title 23, United States Code, is amended by striking “and the Commonwealth of Puerto Rico” and inserting “, the Commonwealth of Puerto Rico, and any other territory of the United States”.

**SEC. 1619. NATIONWIDE ROAD SAFETY ASSESSMENT.**

(a) **IN GENERAL.**—The Secretary of Transportation shall, every 2 years, conduct nationwide, on-the-ground road safety assessments focused on pedestrian and bicycle safety in each State.

(b) **REQUIREMENTS.**—The assessments required under subsection (a) shall be conducted—

(1) by Department of Transportation field offices from the Federal Highway Administration, the National Highway Transportation Safety Administration, the Federal Transit Administration, and the Federal Motor Carrier Safety Administration; and

(2) in consultation with—

(A) State and local agencies with jurisdiction over pedestrian and bicycle safety;

(B) pedestrian safety and bicycle safety advocacy organizations; and

(C) other relevant pedestrian and bicycle safety stakeholders.

(c) **PURPOSES.**—The purpose of the assessments under this section is to—

(1) identify and examine specific locations with documented or perceived problems with pedestrian and bicycle safety and access;

(2) examine barriers to providing safe pedestrian and bicycle access to transportation infrastructure; and

(3) develop and issue recommendations designed to effectively address specific safety and access issues and enhance pedestrian and bicycle safety in high risk areas.

(d) **REPORT ON STATE ASSESSMENTS.**—Upon completion of the assessment of a State, the Secretary shall issue, and make available to the public, a report containing the assessment that includes—

(1) a list of locations that have been assessed as presenting a danger to pedestrians or bicyclists; and

(2) recommendations to enhance pedestrian and bicycle safety in those locations.

(e) **REPORT ON NATIONWIDE PROGRAM.**—Upon completion of the biannual assessment nationwide required under this section, the Secretary shall issue, and make available to the public, that covers assessments for all jurisdictions and also present it to the congressional transportation committees.

(f) **NATIONAL PEDESTRIAN AND BICYCLE SAFETY DATABASE.**—The Secretary, in order to enhance pedestrian and bicycle safety and improve information sharing on pedestrian and bicycle safety challenges between the Federal Government and State and local governments, shall maintain a national pedestrian and bicycle safety database that includes—

(1) a list of high-risk intersections, roads, and highways with a documented history of pedestrian or bicycle accidents or fatalities and details regarding those incidents; and

(2) information on corrective measures that have been implemented at the State, local, or Federal level to enhance pedestrian and bicyclist safety at those high risk areas, including details on the nature and date of corrective action.

(g) **STATE DEFINED.**—In this section, the term “State” means each of the States, the District of Columbia, and Puerto Rico.

**SEC. 1620. WILDLIFE CROSSINGS.**

(a) **IN GENERAL.**—

(1) **OBLIGATION REQUIREMENT.**—For each of fiscal years 2022 through 2025, of the amounts apportioned to a State under paragraph (1) of section 104(b) of title 23, United States Code, each State shall obligate amounts distributed to such State under subsection (b) for projects and strategies that reduce vehicle-caused wildlife mortality related to, or to restore and maintain connectivity among terrestrial or aquatic habitats affected by, a transportation facility otherwise eligible for assistance under section 119 of title 23, United States Code.

(2) **TOTAL AMOUNT.**—The total amount to be obligated by all States under paragraph (1) shall equal \$75,000,000 for each of fiscal years 2022 through 2025.

(b) **DISTRIBUTION.**—Each State’s share of the amount described under subsection (a)(2) shall be determined by multiplying the amount described under such subsection by the ratio that—

(1) the amount apportioned in the previous fiscal year to the State under section 104 of title 23, United States Code; bears to

(2) the total amount of funds apportioned to all States in the previous fiscal year.

(c) **STATE FLEXIBILITY.**—

(1) **IN GENERAL.**—A State may opt out of the obligation requirement described under this section if the Governor of the State notifies the Secretary that the State has inadequate needs to justify the expenditure not later than 30 days prior to apportionments being made for any fiscal year.

(2) **USE OF FUNDS.**—A State that exercises the authority under paragraph (1) may use the funds described under this section for any purpose described under section 119 of title 23, United States Code.

**SEC. 1621. CLIMATE RESILIENT TRANSPORTATION INFRASTRUCTURE STUDY.**

(a) **CLIMATE RESILIENT TRANSPORTATION INFRASTRUCTURE STUDY.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall enter into an agreement with the Transportation Research Board of the National Academies to conduct a study of the actions needed to ensure that Federal agencies are taking into account current and future climate conditions in planning, designing, building, operating, maintaining, investing in, and upgrading any federally funded transportation infrastructure investments.

(b) **METHODOLOGIES.**—In conducting the study, the Transportation Research Board shall build on the methodologies examined and recommended in—

(1) the 2018 report issued the American Society of Civil Engineers, titled “Climate-Resilient Infrastructure: Adaptive Design and Risk Management”; and

(2) the report issued by the California Climate-Safe Infrastructure Working Group, titled “Paying it Forward: The Path Toward Climate-Safe Infrastructure in California”.

(c) **CONTENTS OF STUDY.**—The study shall include specific recommendations regarding the following:

(1) Integrating scientific knowledge of projected climate change impacts, and other relevant data and information, into Federal infrastructure planning, design, engineering, construction, operation and maintenance.

(2) Addressing critical information gaps and challenges.

(3) Financing options to help fund climate-resilient infrastructure.

(4) A platform or process to facilitate communication between climate scientists and other experts with infrastructure planners, engineers and other relevant experts.

(5) A stakeholder process to engage with representatives of State, local, tribal and community groups.

(6) A platform for tracking Federal funding of climate-resilient infrastructure.

(d) **CONSIDERATIONS.**—In carrying out the study, the Transportation Research Board shall determine the need for information related to climate resilient transportation infrastructure by considering—

(1) the current informational and institutional barriers to integrating projected infrastructure risks posed by climate change into federal infrastructure planning, design, engineering, construction, operation and maintenance;

(2) the critical information needed by engineers, planners and those charged with infrastructure upgrades and maintenance to better incorporate climate change risks and impacts over the lifetime of projects;

(3) how to select an appropriate, adaptive engineering design for a range of future climate scenarios as related to infrastructure planning and investment;

(4) how to incentivize and incorporate systems thinking into engineering design to maximize the benefits of multiple natural functions and emissions reduction, as well as regional planning;

(5) how to take account of the risks of cascading infrastructure failures and develop more holistic approaches to evaluating and mitigating climate risks;

(6) how to ensure that investments in infrastructure resilience benefit all communities, including communities of color, low-income communities and tribal communities that face a disproportionate risk from climate change and in many cases have experienced long-standing unmet needs and underinvestment in critical infrastructure;

(7) how to incorporate capital assessment and planning training and techniques, including a range of financing options to help local and State governments plan for and provide matching funds; and

(8) how federal agencies can track and monitor federally funded resilient infrastructure in a coordinated fashion to help build the understanding of the cost-benefit of resilient infrastructure and to build the capacity for implementing resilient infrastructure.

(e) **CONSULTATION.**—In carrying out the study, the Transportation Research Board—

(1) shall convene and consult with a panel of national experts, including operators and users of Federal transportation infrastructure and private sector stakeholders; and

(2) is encouraged to consult with—

(A) representatives from the thirteen federal agencies that comprise the United States Global Change Research Program;

(B) representatives from the Department of the Treasury;

(C) professional engineers with relevant expertise in infrastructure design;

(D) scientists from the National Academies with relevant expertise;

(E) scientists, social scientists and experts from academic and research institutions who have expertise in climate change projections and impacts; engineering; architecture; or other relevant areas of expertise;

(F) licensed architects with relevant experience in infrastructure design;

(G) certified planners;

(H) representatives of State, local and Tribal governments; and

(I) representatives of environmental justice groups.

(f) **REPORT.**—Not later than 3 years after the date of enactment of this Act, the Transportation Research Board shall submit to the Secretary, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Environment and Public Works of the Senate a report on the results of the study conducted under this section.

**SEC. 1622. ELIMINATION OF DUPLICATION OF ENVIRONMENTAL REVIEWS AND APPROVALS.**

The Secretary of Transportation shall issue a final rule implementing the program under section 330 of title 23, United States Code.

**SEC. 1623. AMBER ALERTS ALONG MAJOR TRANSPORTATION ROUTES.**

(a) *IN GENERAL.*—Section 303 of the PROTECT Act (34 U.S.C. 20503) is amended—

(1) in the section heading, by inserting “AND MAJOR TRANSPORTATION ROUTES” after “ALONG HIGHWAYS”;

(2) in subsection (a)—

(A) by inserting “(referred to in this section as the ‘Secretary’)” after “Secretary of Transportation”; and

(B) by inserting “and at airports, maritime ports, border crossing areas and checkpoints, and ports of exit from the United States” after “along highways”;

(3) in subsection (b)—

(A) in paragraph (1)—

(i) by striking “other motorist information systems to notify motorists” and inserting “other information systems to notify motorists, aircraft passengers, ship passengers, and travelers”; and

(ii) by inserting “, aircraft passengers, ship passengers, and travelers” after “necessary to notify motorists”; and

(B) in paragraph (2)—

(i) in subparagraph (A), by striking “other motorist information systems to notify motorists” and inserting “other information systems to notify motorists, aircraft passengers, ship passengers, and travelers”;

(ii) in subparagraph (D), by inserting “, aircraft passengers, ship passengers, and travelers” after “support the notification of motorists”;

(iii) in subparagraph (E), by inserting “, aircraft passengers, ship passengers, and travelers” after “motorists”, each place it appears;

(iv) in subparagraph (F), by inserting “, aircraft passengers, ship passengers, and travelers” after “motorists”; and

(v) in subparagraph (G), by inserting “, aircraft passengers, ship passengers, and travelers” after “motorists”;

(4) in subsection (c), by striking “other motorist information systems to notify motorists”, each place it appears, and inserting “other information systems to notify motorists, aircraft passengers, ship passengers, and travelers”;

(5) by amending subsection (d) to read as follows:

“(d) *FEDERAL SHARE.*—

“(1) *IN GENERAL.*—Except as provided in paragraph (2), the Federal share of the cost of any activities funded by a grant under this section may not exceed 80 percent.

“(2) *WAIVER.*—If the Secretary determines that American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, or the Virgin Islands of the United States is unable to comply with the requirement under paragraph (1), the Secretary shall waive such requirement.”;

(6) in subsection (g)—

(A) by striking “In this section” and inserting “In this subtitle”; and

(B) by striking “or Puerto Rico” and inserting “American Samoa, Guam, Puerto Rico, the Northern Mariana Islands, the Virgin Islands of the United States, and any other territory of the United States”.

(b) *TECHNICAL AND CONFORMING AMENDMENT.*—The table of contents in section 1(b) of the PROTECT Act (Public Law 108-21) is amended by striking the item relating to section 303 and inserting the following:

“Sec. 303. Grant program for notification and communications systems along highways and major transportation routes for recovery of abducted children.”.

**SEC. 1624. NATURAL GAS, ELECTRIC BATTERY, AND ZERO EMISSION VEHICLES.**

Subsection (s) of section 127 of title 23, United States Code is amended to read as follows:

“(s) *NATURAL GAS, ELECTRIC BATTERY, AND ZERO EMISSION VEHICLES.*—A vehicle, if operated by an engine fueled primarily by natural

gas, powered primarily by means of electric battery power, or fueled primarily by means of other zero emission fuel technologies, may exceed the weight limit on the power unit by up to 2,000 pounds (up to a maximum gross vehicle weight of 82,000 pounds) under this section.”.

**SEC. 1625. GUIDANCE ON EVACUATION ROUTES.**

(a) *IN GENERAL.*—

(1) *GUIDANCE.*—The Administrator of the Federal Highway Administration, in coordination with the Administrator of the Federal Emergency Management Agency, and consistent with guidance issued by the Federal Emergency Management Agency pursuant to section 1209 of the Disaster Recovery Reform Act of 2018 (Public Law 115-254), shall revise existing guidance or issue new guidance as appropriate for State, local, and Indian Tribal governments regarding the design, construction, maintenance, and repair of evacuation routes.

(2) *CONSIDERATIONS.*—In revising or issuing guidance under subsection (a)(1), the Administrator of the Federal Highway Administration shall consider—

(A) methods that assist evacuation routes to—

(i) withstand likely risks to viability, including flammability and hydrostatic forces;

(ii) improve durability, strength (including the ability to withstand tensile stresses and compressive stresses), and sustainability; and

(iii) provide for long-term cost savings;

(B) the ability of evacuation routes to effectively manage contraflow operations;

(C) for evacuation routes on public lands, the viewpoints of the applicable Federal land management agency regarding emergency operations, sustainability, and resource protection; and

(D) such other items the Administrator of the Federal Highway Administration considers appropriate.

(3) *REPORT.*—In the case in which the Administrator of the Federal Highway Administration, in consultation with the Administrator of the Federal Emergency Management Agency, concludes existing guidance addresses the considerations in paragraph (2), The Administrator of the Federal Highway Administration shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a detailed report describing how existing guidance addresses such considerations.

(b) *STUDY.*—The Administrator of the Federal Highway Administration, in coordination with the Administrator of the Federal Emergency Management Agency and State, local, territorial, and Indian Tribal governments, shall—

(1) conduct a study of the adequacy of available evacuation routes to accommodate the flow of evacuees; and

(2) submit recommendations to Congress on how to help with anticipated evacuation route flow, based on the study conducted under paragraph (1).

**SEC. 1626. HIGH PRIORITY CORRIDORS ON NATIONAL HIGHWAY SYSTEM.**

Section 1105(c) of the Intermodal Surface Transportation Efficiency Act of 1991 is amended by adding at the end the following:

“(92) The Louisiana Capital Region High Priority Corridor, which shall generally follow—

“(A) Interstate 10, between its intersections with Interstate 12 and Louisiana Highway 415;

“(B) Louisiana Highway 415, between its intersections with Interstate 10 and United States route 190;

“(C) United States route 190, between its intersections with Louisiana Highway 415 and intersection with Interstate 110;

“(D) Interstate 110, between its intersections with United States route 190 and Interstate 10;

“(E) Louisiana Highway 30, near St. Gabriel, LA and its intersections with Interstate 10;

“(F) Louisiana Highway 1, near White Castle, LA and its intersection with Interstate 10; and

“(G) A bridge connecting Louisiana Highway 1 with Louisiana Highway 30, south of the Interstate described in subparagraph (A).”.

**SEC. 1627. GUIDANCE ON INUNDATED AND SUBMERGED ROADS.**

Upon issuance of guidance issued pursuant to section 1228 of the Disaster Recovery Reform Act of 2018 (Public Law 115-254), the Administrator of the Federal Highway Administration, in consultation with the Administrator of the Federal Emergency Management Agency, shall review such guidance and issue guidance regarding repair, restoration, and replacement of inundated and submerged roads damaged or destroyed by a major disaster declared pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) with respect to roads eligible for assistance under Federal Highway Administration programs.

**SEC. 1628. DRY BULK WEIGHT TOLERANCE.**

Section 127 of title 23, United States Code, is amended by adding at the end the following:

“(v) *DRY BULK WEIGHT TOLERANCE.*—

“(1) *DEFINITION OF DRY BULK GOODS.*—In this subsection, the term ‘dry bulk goods’ means any homogeneous unmarked nonliquid cargo being transported in a trailer specifically designed for that purpose.

“(2) *WEIGHT TOLERANCE.*—Notwithstanding any other provision of this section, except for the maximum gross vehicle weight limitation, a commercial motor vehicle transporting dry bulk goods may not exceed 110 percent of the maximum weight on any axle or axle group described in subsection (a), including any enforcement tolerance.”.

**SEC. 1629. HIGHWAY USE TAX EVASION PROJECTS.**

Section 143(b)(2)(A) of title 23, United States Code, is amended by striking “2016 through 2020” and inserting “2022 through 2025”.

**SEC. 1630. THE UNITED STATES OPPOSES CHILD LABOR.**

It is the policy of the United States that funds authorized or made available by this Act, or the amendments made by this Act, should not be used to purchase products produced whole or in part through the use of child labor, as such term is defined in Article 3 of the International Labor Organization Convention concerning the prohibition and immediate action for the elimination of the worst forms of child labor (December 2, 2000), or in violation of human rights.

**TITLE II—PUBLIC TRANSPORTATION****Subtitle A—Federal Transit Administration****SEC. 2101. AUTHORIZATIONS.**

(a) *IN GENERAL.*—Section 5338 of title 49, United States Code, is amended to read as follows:

**“§5338. Authorizations**

“(a) *GRANTS.*—

“(1) *IN GENERAL.*—There shall be available from the Mass Transit Account of the Highway Trust Fund to carry out sections 5305, 5307, 5308, 5310, 5311, 5312, 5314, 5318, 5320, 5328, 5335, 5337, 5339, and 5340—

“(A) \$16,185,800,000 for fiscal year 2022;

“(B) \$16,437,600,000 for fiscal year 2023;

“(C) \$16,700,600,000 for fiscal year 2024; and

“(D) \$16,963,600,000 for fiscal year 2025.

“(2) *ALLOCATION OF FUNDS.*—Of the amounts made available under paragraph (1)—

“(A) \$189,879,151 for fiscal year 2022, \$192,841,266 for fiscal year 2023, \$195,926,726 for fiscal year 2024, and \$199,002,776 for fiscal year 2025, shall be available to carry out section 5305;

“(B) \$7,505,830,848 for fiscal year 2022, \$7,622,921,809 for fiscal year 2023, \$7,744,888,558 for fiscal year 2024, and \$7,866,483,309 for fiscal year 2025 shall be allocated in accordance with section 5336 to provide financial assistance for urbanized areas under section 5307;

“(C) \$101,510,000 for fiscal year 2022, \$103,093,556 for fiscal year 2023, \$104,743,053 for fiscal year 2024, and \$106,387,519 for fiscal year 2025 shall be available for grants under section 5308;

“(D) \$434,830,298 for fiscal year 2022, \$441,613,651 for fiscal year 2023, \$448,679,469 for fiscal year 2024, and \$455,723,737 for fiscal year 2025 shall be available to carry out section 5310, of which not less than—

“(i) \$5,075,500 for fiscal year 2022, \$5,154,678 for fiscal year 2023, \$5,237,153 for fiscal year 2024, and \$5,319,376 for fiscal year 2025 shall be available to carry out section 5310(j); and

“(ii) \$20,302,000 for fiscal year 2022, \$20,618,711 for fiscal year 2023, \$20,948,611 for fiscal year 2024, and \$21,277,504 for fiscal year 2025 shall be available to carry out section 5310(k);

“(E) \$1,025,199,724 for fiscal year 2022, \$1,041,192,839 for fiscal year 2023, \$1,057,851,925 for fiscal year 2024, and \$1,074,460,200 for fiscal year 2025 shall be available to carry out section 5311, of which not less than—

“(i) \$55,679,500 for fiscal year 2022, \$56,392,100 for fiscal year 2023, \$57,134,374 for fiscal year 2024, and \$57,874,383 for fiscal year 2025 shall be available to carry out section 5311(c)(1); and

“(ii) \$50,755,000 for fiscal year 2022, \$51,546,778 for fiscal year 2023, \$52,371,526 for fiscal year 2024, and \$53,193,759 for fiscal year 2025 shall be available to carry out section 5311(c)(2);

“(F) \$33,498,300 for fiscal year 2022, \$34,020,873 for fiscal year 2023, \$34,565,207 for fiscal year 2024, and \$35,107,881 for fiscal year 2025 shall be available to carry out section 5312, of which not less than—

“(i) \$5,075,500 for fiscal year 2022, \$5,154,678 for fiscal year 2023, \$5,237,153 for fiscal year 2024, and \$5,319,376 for fiscal year 2025 shall be available to carry out each of sections 5312(d)(3), 5312(d)(4) and 5312(j);

“(ii) \$3,045,300 for fiscal year 2022, \$3,092,807 for fiscal year 2023, \$3,142,292 for fiscal year 2024, and \$3,191,626 for fiscal year 2025 shall be available to carry out section 5312(h); and

“(iii) \$10,151,000 for fiscal year 2022, \$10,309,356 for fiscal year 2023, \$10,474,305 for fiscal year 2024, and \$10,638,752 for fiscal year 2025 shall be available to carry out section 5312(i);

“(G) \$23,347,300 for fiscal year 2022, \$23,711,518 for fiscal year 2023, \$24,090,902 for fiscal year 2024, and \$24,469,129 for fiscal year 2025 shall be available to carry out section 5314, of which not less than—

“(i) \$4,060,400 for fiscal year 2022, \$4,123,742 for fiscal year 2023, \$4,189,722 for fiscal year 2024, and \$4,255,501 for fiscal year 2025 shall be available to carry out section of 5314(a);

“(ii) \$5,075,500 for fiscal year 2022, \$5,154,678 for fiscal year 2023, \$5,237,153 for fiscal year 2024, and \$5,319,376 for fiscal year 2025 shall be available to carry out section 5314(c); and

“(iii) \$12,181,200 for fiscal year 2022, \$12,371,227 for fiscal year 2023, \$12,569,166 for fiscal year 2024, and \$12,766,502 for fiscal year 2025 shall be available to carry out section 5314(b)(2);

“(H) \$5,075,500 for fiscal year 2022, \$5,154,678 for fiscal year 2023, \$5,237,153 for fiscal year 2024, and \$5,319,376 for fiscal year 2025 shall be available to carry out section 5318;

“(I) \$30,453,000 for fiscal year 2022, \$30,928,067 for fiscal year 2023, \$31,422,916 for fiscal year 2024, and \$31,916,256 for fiscal year 2025 shall be available to carry out section 5328, of which not less than—

“(i) \$25,377,500 for fiscal year 2022, \$25,773,389 for fiscal year 2023, \$26,185,763 for fiscal year 2024, and \$26,596,880 for fiscal year 2025 shall be available to carry out section of 5328(b); and

“(ii) \$2,537,750 for fiscal year 2022, \$2,577,339 for fiscal year 2023, \$2,618,576 for fiscal year 2024, and \$2,659,688 for fiscal year 2025 shall be available to carry out section 5328(c);

“(J) \$4,060,400 for fiscal year 2022, \$4,123,742 for fiscal year 2023, \$4,189,722 for fiscal year 2024, and \$4,255,501 for fiscal year 2025 shall be available to carry out section 5335;

“(K) \$4,192,573,361 for fiscal year 2022, \$4,266,448,314 for fiscal year 2023, \$4,344,093,870 for fiscal year 2024, and \$4,422,314,724 for fiscal year 2025 shall be available to carry out section 5337;

“(L) to carry out the bus formula program under section 5339(a)—

“(i) \$1,240,328,213 for fiscal year 2022, \$1,259,667,334 for fiscal year 2023, \$1,279,832,171 for fiscal year 2024, and \$1,299,925,536 for fiscal year 2025; except that

“(ii) 15 percent of the amounts under clause (i) shall be available to carry out 5339(d);

“(M) \$437,080,000 for fiscal year 2022, \$424,748,448 for fiscal year 2023, \$387,944,423 for fiscal year 2024, and \$351,100,151 for fiscal year 2025 shall be available to carry out section 5339(b);

“(N) \$375,000,000 for fiscal year 2022, \$400,000,000 for fiscal year 2023, \$450,000,000 for fiscal year 2024, and \$500,000,000 for fiscal year 2025 shall be available to carry out section 5339(c); and

“(O) \$587,133,905 for each of fiscal years 2022 through 2025 shall be available to carry out section 5340 to provide financial assistance for urbanized areas under section 5307 and rural areas under section 5311, of which—

“(i) \$309,688,908 for each of fiscal years 2022 through 2025 shall be for growing States under section 5340(c); and

“(ii) \$277,444,997 for each of fiscal years 2022 through 2025 shall be for high density States under section 5340(d).

“(b) CAPITAL INVESTMENT GRANTS.—There are authorized to be appropriated to carry out section 5309 \$3,500,000,000 for fiscal year 2022, \$4,250,000,000 for fiscal year 2023, \$5,000,000,000 for fiscal year 2024, and \$5,500,000,000 for fiscal year 2025.

“(c) ADMINISTRATION.—

“(1) IN GENERAL.—There are authorized to be appropriated to carry out section 5334, \$142,060,785 for fiscal year 2022, \$144,191,696 for fiscal year 2023, \$146,412,248 for fiscal year 2024, and \$148,652,356 for fiscal year 2025.

“(2) SECTION 5329.—Of the amounts authorized to be appropriated under paragraph (1), not less than \$6,000,000 for each of fiscal years 2022 through 2025 shall be available to carry out section 5329.

“(3) SECTION 5326.—Of the amounts made available under paragraph (2), not less than \$2,500,000 for each of fiscal years 2022 through 2025 shall be available to carry out section 5326.

“(d) OVERSIGHT.—

“(1) IN GENERAL.—Of the amounts made available to carry out this chapter for a fiscal year, the Secretary may use not more than the following amounts for the activities described in paragraph (2):

“(A) 0.5 percent of amounts made available to carry out section 5305.

“(B) 0.75 percent of amounts made available to carry out section 5307.

“(C) 1 percent of amounts made available to carry out section 5309.

“(D) 1 percent of amounts made available to carry out section 601 of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110–432; 126 Stat. 4968).

“(E) 0.5 percent of amounts made available to carry out section 5310.

“(F) 0.5 percent of amounts made available to carry out section 5311.

“(G) 1 percent of amounts made available to carry out section 5337, of which not less than 25 percent of such amounts shall be available to carry out section 5329 and of which not less than 10 percent of such amounts shall be made available to carry out section 5320.

“(H) 1 percent of amounts made available to carry out section 5339 of which not less than 10 percent of such amounts shall be made available to carry out section 5320.

“(I) 1 percent of amounts made available to carry out section 5308.

“(2) ACTIVITIES.—The activities described in this paragraph are as follows:

“(A) Activities to oversee the construction of a major capital project.

“(B) Activities to review and audit the safety and security, procurement, management, and fi-

nancial compliance of a recipient or subrecipient of funds under this chapter.

“(C) Activities to provide technical assistance generally, and to provide technical assistance to correct deficiencies identified in compliance reviews and audits carried out under this section.

“(3) GOVERNMENT SHARE OF COSTS.—The Government shall pay the entire cost of carrying out a contract under this subsection/activities described in paragraph (2).

“(4) AVAILABILITY OF CERTAIN FUNDS.—Funds made available under paragraph (1)(C) shall be made available to the Secretary before allocating the funds appropriated to carry out any project under a full funding grant agreement.

“(e) GRANTS AS CONTRACTUAL OBLIGATIONS.—

“(1) GRANTS FINANCED FROM HIGHWAY TRUST FUND.—A grant or contract that is approved by the Secretary and financed with amounts made available from the Mass Transit Account of the Highway Trust Fund pursuant to this section is a contractual obligation of the Government to pay the Government share of the cost of the project.

“(2) GRANTS FINANCED FROM GENERAL FUND.—A grant or contract that is approved by the Secretary and financed with amounts appropriated in advance from the general fund of the Treasury pursuant to this section is a contractual obligation of the Government to pay the Government share of the cost of the project only to the extent that amounts are appropriated for such purpose by an Act of Congress.

“(f) AVAILABILITY OF AMOUNTS.—Amounts made available by or appropriated under this section shall remain available until expended.

“(g) LIMITATION ON FINANCIAL ASSISTANCE FOR STATE-OWNED ENTERPRISES.—

“(1) IN GENERAL.—Funds provided under this section may not be used in awarding a contract, subcontract, grant, or loan to an entity that is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

“(A) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this Act;

“(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a priority foreign country under subsection (a)(2) of that section; and

“(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).

“(2) EXCEPTION.—For purposes of paragraph (1), the term ‘otherwise related legally or financially’ does not include a minority relationship or investment.

“(3) INTERNATIONAL AGREEMENTS.—This subsection shall be applied in a manner consistent with the obligations of the United States under international agreements.”

(b) CONFORMING AMENDMENTS.—

(1) Section 5311 of title 49, United States Code, is amended by striking “5338(a)(2)(F)” and inserting “5338(a)(2)(E)”.

(2) Section 5312(i)(1) of title 49, United States Code, is amended by striking “5338(a)(2)(G)(ii)” and inserting “5338(a)(2)(F)(iii)”.

(3) Section 5333(b) of title 49, United States Code, is amended by striking “5328, 5337, and 5338(b)” each place it appears and inserting “and 5337”.

(4) Section 5336 of title 49, United States Code, is amended—

(A) in subsection (d)(1) by striking “5338(a)(2)(C)” and inserting “5338(a)(2)(B)”;

and

(B) in subsection (h) by striking “5338(a)(2)(C)” and inserting “5338(a)(2)(B)”.

(5) Subsections (c) and (d)(1) of section 5327 of title 49, United States Code, are amended by striking “5338(f)” and inserting “5338(d)”.

(6) Section 5340(b) of title 49, United States Code, is amended by striking “5338(b)(2)(N)” and inserting “5338(a)(2)(O)”.

**SEC. 2102. CHAPTER 53 DEFINITIONS.**

Section 5302 of title 49, United States Code, is amended—

(1) in paragraph (1)(E)—  
(A) by striking “and the installation” and inserting “, the installation”; and  
(B) by inserting “, and bikeshare projects” after “public transportation vehicles”;

(2) in paragraph (3)—  
(A) in subparagraph (G) by striking clause (iii) and inserting the following:

“(iii) provides a fair share of revenue established by the Secretary that will be used for public transportation, except for a joint development that is a community service (as defined by the Federal Transit Administration), publicly operated facility, or offers a minimum of 50 percent of units as affordable housing, meaning legally binding affordability restricted housing units available to tenants with incomes below 60 percent of the area median income or owners with incomes below the area median;”; and  
(B) in subparagraph (N)—

(i) by striking “no emission” and inserting “zero emission”; and  
(ii) by striking “(as defined in section 5339(c))”; and

(3) by adding at the end the following:  
“(25) **RESILIENCE.**—

“(A) **IN GENERAL.**—The term ‘resilience’ means, with respect to a facility, the ability to—  
“(i) anticipate, prepare for, or adapt to conditions; or  
“(ii) withstand, respond to, or recover rapidly from disruptions.

“(B) **INCLUSIONS.**—Such term includes, with respect to a facility, the ability to—  
“(i) resist hazards or withstand impacts from disruptions;  
“(ii) reduce the magnitude, duration, or impact of a disruption; or  
“(iii) have the absorptive capacity, adaptive capacity, and recoverability to decrease vulnerability to a disruption.

“(26) **ASSAULT ON A TRANSIT WORKER.**—The term ‘assault on a transit worker’ means any circumstance in which an individual knowingly, without lawful authority or permission, and with intent to endanger the safety of any individual, or with a reckless disregard for the safety of human life, interferes with, disables, or incapacitates any transit worker while the transit worker is performing his or her duties.”.

**SEC. 2103. GENERAL PROVISIONS.**  
Section 5323 of title 49, United States Code, is amended—  
(1) in subsection (d)—  
(A) in paragraph (1) by striking “urban area” and inserting “urbanized area”;  
(B) by adding at the end the following:  
“(3) **EXCEPTIONS.**—This subsection shall not apply to financial assistance under this chapter—  
“(A) in which the non-Federal share of project costs are provided from amounts received under a service agreement with a State or local social service agency or private social service organization pursuant to section 5307(d)(3)(E) or section 5311(g)(3)(C);  
“(B) provided to a recipient or subrecipient whose sole receipt of such assistance derives from section 5310; or  
“(C) provided to a recipient operating a fixed route service that is—  
“(i) for a period of less than 30 days;  
“(ii) accessible to the public;  
“(iii) contracted by a local government entity that provides local cost share to the recipient; and  
“(iv) not contracted for the purposes of a convention or on behalf of a convention and visitors bureau.

“(4) **GUIDELINES.**—The Secretary shall publish guidelines for grant recipients and private bus operators that clarify when and how a transit agency may step back and provide the service in the event a registered charter provider does not

contact the customer, provide a quote, or provide the service.”;

(2) in subsection (h)—  
(A) in paragraph (1) by adding “or” at the end; and  
(B) by striking paragraph (2) and redesignating paragraph (3) as paragraph (2);

(3) by striking subsection (j) and inserting the following:  
“(j) **REPORTING ACCESSIBILITY COMPLAINTS.**—

“(1) **IN GENERAL.**—The Secretary shall ensure that an individual who believes that he or she, or a specific class in which the individual belongs, has been subjected to discrimination on the basis of disability by a State or local governmental entity, private nonprofit organization, or Tribe that operates a public transportation service and is a recipient or subrecipient of funds under this chapter, may, by the individual or by an authorized representative, file a complaint with the Department of Transportation.  
“(2) **PROCEDURES.**—Not later than 1 year after the date of enactment of the INVEST in America Act, the Secretary shall implement procedures that allow an individual to submit a complaint described in paragraph (1) by phone, mail-in form, and online through the website of the Office of Civil Rights of the Federal Transit Administration.  
“(3) **NOTICE TO INDIVIDUALS WITH DISABILITIES.**—Not later than 12 months after the date of enactment of the INVEST in America Act, the Secretary shall require that each public transit provider and contractor providing paratransit services shall include on a publicly available website of the service provider, any related mobile device application, and online service—  
“(A) notice that an individual can file a disability-related complaint with the local transit agency and the process and any timelines for filing such a complaint;  
“(B) the telephone number, or a comparable electronic means of communication, for the disability assistance hotline of the Office of Civil Rights of the Federal Transit Administration;  
“(C) notice that a consumer can file a disability related complaint with the Office of Civil Rights of the Federal Transit Administration; and  
“(D) an active link to the website of the Office of Civil Rights of the Federal Transit Administration for an individual to file a disability-related complaint.

“(4) **INVESTIGATION OF COMPLAINTS.**—Not later than 60 days after the last day of each fiscal year, the Secretary shall publish a report that lists the disposition of complaints described in paragraph (1), including—  
“(A) the number and type of complaints filed with Department of Transportation;  
“(B) the number of complaints investigated by the Department;  
“(C) the result of the complaints that were investigated by the Department including whether the complaint was resolved—  
“(i) informally;  
“(ii) by issuing a violation through a non-compliance Letter of Findings; or  
“(iii) by other means, which shall be described; and  
“(D) if a violation was issued for a complaint, whether the Department resolved the non-compliance by—  
“(i) reaching a voluntary compliance agreement with the entity;  
“(ii) referring the matter to the Attorney General; or  
“(iii) by other means, which shall be described.

“(5) **REPORT.**—The Secretary shall, upon implementation of this section and annually thereafter, submit to the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Banking, Housing, and Urban Affairs of the Senate, and make publicly available a report containing the information collected under this section.”;

(4) by striking subsection (m) and inserting the following:

“(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with bid specifications requirements of grant recipients under this chapter. Under this subsection, grantee inspections and review are required, and a manufacturer certification is not sufficient.”; and  
(5) in subsection (r)—  
(A) by inserting “or beneficial” after “detrimental”;  
(B) by striking the period at the end and inserting “; and”;  
(C) by striking “under this chapter may not deny” and inserting the following: “under this chapter—  
“(1) may not deny”; and  
(D) by adding at the end the following:  
“(2) shall respond to any request for reasonable access within 75 days of the receipt of the request and, if a recipient of assistance under this chapter denies access to a private intercity or charter transportation operator based on the reasonable access standards, provide, in writing, the reasons for the denial.”.

**SEC. 2104. MISCELLANEOUS PROVISIONS.**  
(a) **STATE OF GOOD REPAIR GRANTS.**—Section 5337(e) of title 49, United States Code, is amended by adding at the end the following:  
“(3) **ACCESSIBILITY COSTS.**—Notwithstanding paragraph (1), the Federal share of the net project cost of a project to provide accessibility in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) shall be 90 percent.”.

(b) **APPORTIONMENTS BASED ON GROWING STATES AND HIGH DENSITY STATES FORMULA FACTORS.**—Section 5340(a) of title 49, United States Code, is amended by inserting “and the District of Columbia” after “United States”.

(c) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(B)—  
(A) in clause (i) by striking “; and” and inserting a semicolon;  
(B) in clause (ii) by striking the period and inserting “; and”; and  
(C) by adding at the end the following:  
“(iii) technical assistance to assist recipients with the impacts of a new census count.”; and  
(2) in subsection (c)(4)(A) by inserting “, 5311” after “5307”.

(d) **NATIONAL TRANSIT DATABASE.**—Section 5335 of title 49, United States Code, is amended—

(1) in subsection (a) by inserting “, including information on transit routes and ridership on those routes” after “public sector investment decision”; and  
(2) in subsection (c) by inserting “, any data on each assault on a transit worker, and pedestrian injuries and fatalities as a result of an impact with a bus. Each of the data sets shall be publicly reported without aggregating the data with other safety data” after “by the recipient”.

(e) **URBANIZED AREA FORMULA GRANTS.**—Section 5307 of title 49, United States Code, is amended—

(1) in subsection (a)(2)(A)—  
(A) in clause (i) by striking “or” at the end; and  
(B) by adding at the end the following:  
“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment which is attributable to such systems within the urbanized area, as measured by vehicle revenue hours; or”;

(2) in subsection (a)(2)(B)—  
(A) in clause (i) by striking “or” at the end;

“(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with bid specifications requirements of grant recipients under this chapter. Under this subsection, grantee inspections and review are required, and a manufacturer certification is not sufficient.”; and  
(5) in subsection (r)—  
(A) by inserting “or beneficial” after “detrimental”;  
(B) by striking the period at the end and inserting “; and”;  
(C) by striking “under this chapter may not deny” and inserting the following: “under this chapter—  
“(1) may not deny”; and  
(D) by adding at the end the following:  
“(2) shall respond to any request for reasonable access within 75 days of the receipt of the request and, if a recipient of assistance under this chapter denies access to a private intercity or charter transportation operator based on the reasonable access standards, provide, in writing, the reasons for the denial.”.

**SEC. 2104. MISCELLANEOUS PROVISIONS.**  
(a) **STATE OF GOOD REPAIR GRANTS.**—Section 5337(e) of title 49, United States Code, is amended by adding at the end the following:  
“(3) **ACCESSIBILITY COSTS.**—Notwithstanding paragraph (1), the Federal share of the net project cost of a project to provide accessibility in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) shall be 90 percent.”.

(b) **APPORTIONMENTS BASED ON GROWING STATES AND HIGH DENSITY STATES FORMULA FACTORS.**—Section 5340(a) of title 49, United States Code, is amended by inserting “and the District of Columbia” after “United States”.

(c) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(B)—  
(A) in clause (i) by striking “; and” and inserting a semicolon;  
(B) in clause (ii) by striking the period and inserting “; and”; and  
(C) by adding at the end the following:  
“(iii) technical assistance to assist recipients with the impacts of a new census count.”; and  
(2) in subsection (c)(4)(A) by inserting “, 5311” after “5307”.

(d) **NATIONAL TRANSIT DATABASE.**—Section 5335 of title 49, United States Code, is amended—

(1) in subsection (a) by inserting “, including information on transit routes and ridership on those routes” after “public sector investment decision”; and  
(2) in subsection (c) by inserting “, any data on each assault on a transit worker, and pedestrian injuries and fatalities as a result of an impact with a bus. Each of the data sets shall be publicly reported without aggregating the data with other safety data” after “by the recipient”.

(e) **URBANIZED AREA FORMULA GRANTS.**—Section 5307 of title 49, United States Code, is amended—

(1) in subsection (a)(2)(A)—  
(A) in clause (i) by striking “or” at the end; and  
(B) by adding at the end the following:  
“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment which is attributable to such systems within the urbanized area, as measured by vehicle revenue hours; or”;

(2) in subsection (a)(2)(B)—  
(A) in clause (i) by striking “or” at the end;

“(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with bid specifications requirements of grant recipients under this chapter. Under this subsection, grantee inspections and review are required, and a manufacturer certification is not sufficient.”; and  
(5) in subsection (r)—  
(A) by inserting “or beneficial” after “detrimental”;  
(B) by striking the period at the end and inserting “; and”;  
(C) by striking “under this chapter may not deny” and inserting the following: “under this chapter—  
“(1) may not deny”; and  
(D) by adding at the end the following:  
“(2) shall respond to any request for reasonable access within 75 days of the receipt of the request and, if a recipient of assistance under this chapter denies access to a private intercity or charter transportation operator based on the reasonable access standards, provide, in writing, the reasons for the denial.”.

**SEC. 2104. MISCELLANEOUS PROVISIONS.**  
(a) **STATE OF GOOD REPAIR GRANTS.**—Section 5337(e) of title 49, United States Code, is amended by adding at the end the following:  
“(3) **ACCESSIBILITY COSTS.**—Notwithstanding paragraph (1), the Federal share of the net project cost of a project to provide accessibility in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) shall be 90 percent.”.

(b) **APPORTIONMENTS BASED ON GROWING STATES AND HIGH DENSITY STATES FORMULA FACTORS.**—Section 5340(a) of title 49, United States Code, is amended by inserting “and the District of Columbia” after “United States”.

(c) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(B)—  
(A) in clause (i) by striking “; and” and inserting a semicolon;  
(B) in clause (ii) by striking the period and inserting “; and”; and  
(C) by adding at the end the following:  
“(iii) technical assistance to assist recipients with the impacts of a new census count.”; and  
(2) in subsection (c)(4)(A) by inserting “, 5311” after “5307”.

(d) **NATIONAL TRANSIT DATABASE.**—Section 5335 of title 49, United States Code, is amended—

(1) in subsection (a) by inserting “, including information on transit routes and ridership on those routes” after “public sector investment decision”; and  
(2) in subsection (c) by inserting “, any data on each assault on a transit worker, and pedestrian injuries and fatalities as a result of an impact with a bus. Each of the data sets shall be publicly reported without aggregating the data with other safety data” after “by the recipient”.

(e) **URBANIZED AREA FORMULA GRANTS.**—Section 5307 of title 49, United States Code, is amended—

(1) in subsection (a)(2)(A)—  
(A) in clause (i) by striking “or” at the end; and  
(B) by adding at the end the following:  
“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment which is attributable to such systems within the urbanized area, as measured by vehicle revenue hours; or”;

(2) in subsection (a)(2)(B)—  
(A) in clause (i) by striking “or” at the end;

“(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with bid specifications requirements of grant recipients under this chapter. Under this subsection, grantee inspections and review are required, and a manufacturer certification is not sufficient.”; and  
(5) in subsection (r)—  
(A) by inserting “or beneficial” after “detrimental”;  
(B) by striking the period at the end and inserting “; and”;  
(C) by striking “under this chapter may not deny” and inserting the following: “under this chapter—  
“(1) may not deny”; and  
(D) by adding at the end the following:  
“(2) shall respond to any request for reasonable access within 75 days of the receipt of the request and, if a recipient of assistance under this chapter denies access to a private intercity or charter transportation operator based on the reasonable access standards, provide, in writing, the reasons for the denial.”.

**SEC. 2104. MISCELLANEOUS PROVISIONS.**  
(a) **STATE OF GOOD REPAIR GRANTS.**—Section 5337(e) of title 49, United States Code, is amended by adding at the end the following:  
“(3) **ACCESSIBILITY COSTS.**—Notwithstanding paragraph (1), the Federal share of the net project cost of a project to provide accessibility in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) shall be 90 percent.”.

(b) **APPORTIONMENTS BASED ON GROWING STATES AND HIGH DENSITY STATES FORMULA FACTORS.**—Section 5340(a) of title 49, United States Code, is amended by inserting “and the District of Columbia” after “United States”.

(c) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(B)—  
(A) in clause (i) by striking “; and” and inserting a semicolon;  
(B) in clause (ii) by striking the period and inserting “; and”; and  
(C) by adding at the end the following:  
“(iii) technical assistance to assist recipients with the impacts of a new census count.”; and  
(2) in subsection (c)(4)(A) by inserting “, 5311” after “5307”.

(d) **NATIONAL TRANSIT DATABASE.**—Section 5335 of title 49, United States Code, is amended—

(1) in subsection (a) by inserting “, including information on transit routes and ridership on those routes” after “public sector investment decision”; and  
(2) in subsection (c) by inserting “, any data on each assault on a transit worker, and pedestrian injuries and fatalities as a result of an impact with a bus. Each of the data sets shall be publicly reported without aggregating the data with other safety data” after “by the recipient”.

(e) **URBANIZED AREA FORMULA GRANTS.**—Section 5307 of title 49, United States Code, is amended—

(1) in subsection (a)(2)(A)—  
(A) in clause (i) by striking “or” at the end; and  
(B) by adding at the end the following:  
“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment which is attributable to such systems within the urbanized area, as measured by vehicle revenue hours; or”;

(2) in subsection (a)(2)(B)—  
(A) in clause (i) by striking “or” at the end;

“(m) **PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.**—The Secretary shall prescribe regulations requiring a preaward and postdelivery review of a grant under this chapter to buy rolling stock to ensure compliance with bid specifications requirements of grant recipients under this chapter. Under this subsection, grantee inspections and review are required, and a manufacturer certification is not sufficient.”; and  
(5) in subsection (r)—  
(A) by inserting “or beneficial” after “detrimental”;  
(B) by striking the period at the end and inserting “; and”;  
(C) by striking “under this chapter may not deny” and inserting the following: “under this chapter—  
“(1) may not deny”; and  
(D) by adding at the end the following:  
“(2) shall respond to any request for reasonable access within 75 days of the receipt of the request and, if a recipient of assistance under this chapter denies access to a private intercity or charter transportation operator based on the reasonable access standards, provide, in writing, the reasons for the denial.”.

**SEC. 2104. MISCELLANEOUS PROVISIONS.**  
(a) **STATE OF GOOD REPAIR GRANTS.**—Section 5337(e) of title 49, United States Code, is amended by adding at the end the following:  
“(3) **ACCESSIBILITY COSTS.**—Notwithstanding paragraph (1), the Federal share of the net project cost of a project to provide accessibility in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) shall be 90 percent.”.

(b) **APPORTIONMENTS BASED ON GROWING STATES AND HIGH DENSITY STATES FORMULA FACTORS.**—Section 5340(a) of title 49, United States Code, is amended by inserting “and the District of Columbia” after “United States”.

(c) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314 of title 49, United States Code, is amended—

(1) in subsection (a)(1)(B)—  
(A) in clause (i) by striking “; and” and inserting a semicolon;  
(B) in clause (ii) by striking the period and inserting “; and”; and  
(C) by adding at the end the following:  
“(iii) technical assistance to assist recipients with the impacts of a new census count.”; and  
(2) in subsection (c)(4)(A) by inserting “, 5311” after “5307”.

(d) **NATIONAL TRANSIT DATABASE.**—Section 5335 of title 49, United States Code, is amended—

(1) in subsection (a) by inserting “, including information on transit routes and ridership on those routes” after “public sector investment decision”; and  
(2) in subsection (c) by inserting “, any data on each assault on a transit worker, and pedestrian injuries and fatalities as a result of an impact with a bus. Each of the data sets shall be publicly reported without aggregating the data with other safety data” after “by the recipient”.

(e) **URBANIZED AREA FORMULA GRANTS.**—Section 5307 of title 49, United States Code, is amended—

(1) in subsection (a)(2)(A)—  
(A) in clause (i) by striking “or” at the end; and  
(B) by adding at the end the following:  
“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment which is attributable to such systems within the urbanized area, as measured by vehicle revenue hours; or”;

(2) in subsection (a)(2)(B)—  
(A) in clause (i) by striking “or” at the end;

(B) in clause (ii) by striking the period at the end and inserting “; or”; and

(C) by adding at the end the following:

“(iii) operate a minimum of 101 buses and a maximum of 125 buses in fixed route service or demand response service, excluding ADA complementary paratransit service, during peak service hours, in an amount not to exceed 25 percent of the share of the apportionment allocated to such systems within the urbanized area, as determined by the local planning process and included in the designated recipient’s final program of projects prepared under subsection (b).”; and

(3) in subsection (b)—

(A) in paragraph (6) by striking “and” at the end;

(B) by redesignating paragraph (7) as paragraph (8); and

(C) by inserting after paragraph (6) the following:

“(7) ensure that the proposed program of projects provides improved access to transit for the individuals described in section 5336(j); and”.

(f) **TECHNICAL CORRECTION.**—Section 5307(a)(2)(B)(ii) of title 49, United States Code, is amended by striking “service during peak” and inserting “service, during peak”.

(g) **IMPOSITION OF DEADLINE.**—Section 5324 of title 49, United States Code, is amended by adding at the end the following:

“(f) **IMPOSITION OF DEADLINE.**—

“(1) **IN GENERAL.**—Notwithstanding any other provision of law, the Secretary may not require any project funded under this section to advance to the construction obligation stage before the date that is the last day of the sixth fiscal year after the later of—

“(A) the date on which the Governor declared the emergency, as described in subsection (d)(1)(A); or

“(B) the date on which the President declared the emergency to be a major disaster, as described in such subsection.

“(2) **EXTENSION OF DEADLINE.**—If the Secretary imposes a deadline for advancement to the construction obligation stage pursuant to paragraph (1), the Secretary may, upon the request of the Governor of the State, issue an extension of not more than 1 year to complete such advancement, and may issue additional extensions after the expiration of any extension, if the Secretary determines the Governor of the State has provided suitable justification to warrant such an extension.”.

(h) **TRANSPORTATION DEVELOPMENT CREDITS AS LOCAL MATCH.**—

(1) **SECTION 5307.**—Section 5307(d)(3) of title 49, United States Code, is amended—

(A) in subparagraph (D) by striking “; and” and inserting a semicolon;

(B) in subparagraph (E) by striking the period and inserting “; and”; and

(C) by adding at the end the following:

“(F) transportation development credits.”.

(2) **SECTION 5309.**—Section 5309 of title 49, United States Code, is amended—

(A) in subsection (f) by adding at the end the following:

“(3) **TRANSPORTATION DEVELOPMENT CREDITS.**—For purposes of assessments and determinations under this subsection or subsection (h), transportation development credits that are included as a source of local financing or match shall be treated the same as other sources of local financing.”; and

(B) in subsection (l)(4)—

(i) in subparagraph (B) by striking “; or” and inserting a semicolon;

(ii) in subparagraph (C) by striking the period and inserting “; or”; and

(iii) by adding at the end the following:

“(D) transportation development credits.”.

(3) **SECTION 5339.**—Section 5339(a)(7)(B) of title 49, United States Code, is amended—

(A) in clause (iv) by striking “; or” and inserting a semicolon;

(B) in clause (v) by striking the period and inserting “; or”; and

(C) by adding at the end the following:

“(vi) transportation development credits.”.

**SEC. 2105. POLICIES AND PURPOSES.**

Section 5301(b) of title 49, United States Code, is amended—

(1) in paragraph (7) by striking “; and” and inserting a semicolon;

(2) in paragraph (8) by striking the period and inserting a semicolon; and

(3) by adding at the end the following:

“(9) reduce the contributions of the surface transportation system to the total carbon pollution of the United States; and

“(10) improve the resiliency of the public transportation network to withstand weather events and other natural disasters.”.

**SEC. 2106. FISCAL YEAR 2022 FORMULAS.**

For fiscal year 2022, the Secretary shall apportion and distribute formula funds provided for under chapter 53 of title 49, United States Code, using data submitted to the 2019 National Transit Database.

**SEC. 2107. METROPOLITAN TRANSPORTATION PLANNING.**

Section 5303 of title 49, United States Code, is amended—

(1) by amending subsection (a)(1) to read as follows:

“(1) to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight, foster economic growth and development within and between States and urbanized areas, and take into consideration resiliency and climate change adaptation needs while reducing transportation-related fuel consumption, air pollution, and greenhouse gas emissions through metropolitan and statewide transportation planning processes identified in this chapter; and”.

(2) in subsection (b)—

(A) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively; and

(B) by inserting after paragraph (5) the following:

“(6) **STIP.**—The term ‘STIP’ means a statewide transportation improvement program developed by a State under section 135(g).”;

(3) in subsection (c)—

(A) in paragraph (1) by striking “and transportation improvement programs” and inserting “and TIPs”; and

(B) by adding at the end the following:

“(4) **CONSIDERATION.**—In developing the plans and TIPs, metropolitan planning organizations shall consider direct and indirect emissions of greenhouse gases.”;

(4) in subsection (d)—

(A) in paragraph (2) by striking “Not later than 2 years after the date of enactment of the Federal Public Transportation Act of 2012, each” and inserting “Each”;

(B) in paragraph (3) by adding at the end the following:

“(D) **CONSIDERATIONS.**—

“(i) **EQUITABLE AND PROPORTIONAL REPRESENTATION.**—In designating officials or representatives under paragraph (2), the metropolitan planning organization shall consider the equitable and proportional representation of the population of the metropolitan planning area.

“(ii) **SAVINGS CLAUSE.**—Nothing in this paragraph shall require a metropolitan planning organization in existence on the date of enactment of this subparagraph to be restructured.

“(iii) **REDESIGNATION.**—Notwithstanding clause (ii), the requirements of this paragraph shall apply to any metropolitan planning organization redesignated under paragraph (6).”;

(C) in paragraph (6)(B) by striking “paragraph (2)” and inserting “paragraphs (2) or (3)(D)”; and

(D) in paragraph (7)—

(i) by striking “an existing metropolitan planning area” and inserting “an urbanized area”; and

(ii) by striking “the existing metropolitan planning area” and inserting “the area”;

(5) in subsection (g)—

(A) in paragraph (1) by striking “a metropolitan area” and inserting “an urbanized area”;

(B) in paragraph (2) by striking “MPOS” and inserting “METROPOLITAN PLANNING AREAS”;

(C) in paragraph (3)(A) by inserting “emergency response and evacuation, climate change adaptation and resilience,” after “disaster risk reduction,”; and

(D) by adding at the end the following:

“(4) **COORDINATION BETWEEN MPOS.**—

“(A) **IN GENERAL.**—If more than 1 metropolitan planning organization is designated within an urbanized area under subsection (d)(7), the metropolitan planning organizations designated within the area shall ensure, to the maximum extent practicable, the consistency of any data used in the planning process, including information used in forecasting transportation demand.

“(B) **SAVINGS CLAUSE.**—Nothing in this paragraph requires metropolitan planning organizations designated within a single urbanized area to jointly develop planning documents, including a unified long-range transportation plan or unified TIP.”;

(6) in subsection (h)(1)—

(A) by striking subparagraph (E) and inserting the following:

“(E) protect and enhance the environment, promote energy conservation, reduce greenhouse gas emissions, improve the quality of life and public health, and promote consistency between transportation improvements and State and local planned growth and economic development patterns, including housing and land use patterns;”;

(B) in subparagraph (H) by striking “and” at the end;

(C) in subparagraph (I) by striking the period at the end and inserting “and reduce or mitigate stormwater, sea level rise, extreme weather, and climate change impacts of surface transportation;”;

(D) by inserting after subparagraph (I) the following:

“(J) facilitate emergency management, response, and evacuation and hazard mitigation;

“(K) improve the level of transportation system access; and

“(L) support inclusive zoning policies and land use planning practices that incentivize affordable, elastic, and diverse housing supply, facilitate long-term economic growth by improving the accessibility of housing to jobs, and prevent high housing costs from displacing economically disadvantaged households.”;

(7) in subsection (h)(2) by striking subparagraph (A) and inserting the following:

“(A) **IN GENERAL.**—Through the use of a performance-based approach, transportation investment decisions made as a part of the metropolitan transportation planning process shall support the national goals described in section 150(b), the achievement of metropolitan and statewide targets established under section 150(d), the improvement of transportation system access (consistent with section 150(f)), and the general purposes described in section 5301 of title 49.”;

(8) in subsection (i)—

(A) in paragraph (2)(D)(i) by inserting “reduce greenhouse gas emissions and” before “restore and maintain”;

(B) in paragraph (2)(G) by inserting “and climate change” after “infrastructure to natural disasters”;

(C) in paragraph (2)(H) by inserting “greenhouse gas emissions,” after “pollution,”;

(D) in paragraph (5)—

(i) in subparagraph (A) by inserting “air quality, public health, housing, transportation, resilience, hazard mitigation, emergency management,” after “conservation,”; and

(ii) by striking subparagraph (B) and inserting the following:

“(B) ISSUES.—The consultation shall involve, as appropriate, comparison of transportation plans to other relevant plans, including, if available—

“(i) State conservation plans or maps; and  
“(ii) inventories of natural or historic resources.”; and

(E) by amending paragraph (6)(C) to read as follows:

“(C) METHODS.—

“(i) IN GENERAL.—In carrying out subparagraph (A), the metropolitan planning organization shall, to the maximum extent practicable—

“(I) hold any public meetings at convenient and accessible locations and times;

“(II) employ visualization techniques to describe plans; and

“(III) make public information available in electronically accessible format and means, such as the internet, as appropriate to afford reasonable opportunity for consideration of public information under subparagraph (A).

“(ii) ADDITIONAL METHODS.—In addition to the methods described in clause (i), in carrying out subparagraph (A), the metropolitan planning organization shall, to the maximum extent practicable—

“(I) use virtual public involvement, social media, and other web-based tools to encourage public participation and solicit public feedback; and

“(II) use other methods, as appropriate, to further encourage public participation of historically underrepresented individuals in the transportation planning process.”;

(9) in subsection (j)—

(A) by striking “transportation improvement program” and inserting “TIP” each place it appears; and

(B) in paragraph (2)(D)—

(i) by striking “PERFORMANCE TARGET ACHIEVEMENT” and inserting “PERFORMANCE MANAGEMENT”;

(ii) by striking “The TIP” and inserting the following:

“(i) IN GENERAL.—The TIP”; and

(iii) by adding at the end the following:

“(ii) TRANSPORTATION MANAGEMENT AREAS.—For metropolitan planning areas that represent an urbanized area designated as a transportation management area under subsection (k), the TIP shall include—

“(I) a discussion of the anticipated effect of the TIP toward achieving the performance targets established in the metropolitan transportation plan, linking investment priorities to such performance targets; and

“(II) a description of how the TIP would improve the overall level of transportation system access, consistent with section 150(f) of title 23.”;

(10) in subsection (k)—

(A) in paragraph (3)(A)—

(i) by striking “shall address congestion management” and inserting the following: “shall address—

“(i) congestion management”;

(ii) by striking the period at the end and inserting “; and”; and

(iii) by adding at the end the following:

“(ii) the overall level of transportation system access for various modes of travel within the metropolitan planning area, including the level of access for economically disadvantaged communities, consistent with section 150(f) of title 23, that is based on a cooperatively developed and implemented metropolitan-wide strategy, assessing both new and existing transportation facilities eligible for funding under this chapter and title 23.”; and

(B) in paragraph (5)(B)—

(i) in clause (i) by striking “; and” and inserting a semicolon;

(ii) in clause (ii) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(iii) the TIP approved under clause (ii) improves the level of transportation system access, consistent with section 150(f) of title 23.”;

(11) in subsection (l)(2)—

(A) by striking “5 years after the date of enactment of the Federal Public Transportation Act of 2012” and inserting “2 years after the date of enactment of the INVEST in America Act, and every 2 years thereafter.”;

(B) in subparagraph (C) by striking “and whether metropolitan planning organizations are developing meaningful performance targets; and” and inserting a semicolon; and

(C) by striking subparagraph (D) and inserting the following:

“(D) a listing of all metropolitan planning organizations that are establishing performance targets and whether such performance targets established by the metropolitan planning organization are meaningful or regressive (as defined in section 150(d)(3)(B) of title 23); and

“(E) the progress of implementing the measure established under section 150(f) of title 23.”; and

(12) by striking “Federally” each place it appears and inserting “federally”.

#### SEC. 2108. STATEWIDE AND NONMETROPOLITAN TRANSPORTATION PLANNING.

Section 5304 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking “statewide transportation improvement program” and inserting “STIP”;

(B) in paragraph (2)—

(i) by striking “The statewide transportation plan and the” and inserting the following:

“(A) IN GENERAL.—The statewide transportation plan and the”;

(ii) by striking “transportation improvement program” and inserting “STIP”; and

(iii) by adding at the end the following:

“(B) CONSIDERATION.—In developing the statewide transportation plans and STIPs, States shall consider direct and indirect emissions of greenhouse gases.”; and

(C) in paragraph (3) by striking “transportation improvement program” and inserting “STIP”;

(2) in subsection (d)—

(A) in paragraph (1)—

(i) in subparagraph (E)—

(I) by inserting “reduce greenhouse gas emissions,” after “promote energy conservation.”;

(II) by inserting “and public health” after “improve the quality of life”; and

(III) by inserting “, including housing and land use patterns” after “economic development patterns”;

(ii) in subparagraph (H) by striking “and”;

(iii) in subparagraph (I) by striking the period at the end and inserting “and reduce or mitigate stormwater, sea level rise, extreme weather, and climate change impacts of surface transportation.”; and

(iv) by adding at the end the following:

“(J) facilitate emergency management, response, and evacuation and hazard mitigation;“(K) improve the level of transportation system access; and

“(L) support inclusive zoning policies and land use planning practices that incentivize affordable, elastic, and diverse housing supply, facilitate long-term economic growth by improving the accessibility of housing to jobs, and prevent high housing costs from displacing economically disadvantaged households.”;

(B) in paragraph (2)—

(i) by striking subparagraph (A) and inserting the following:

“(A) IN GENERAL.—Through the use of a performance-based approach, transportation investment decisions made as a part of the statewide transportation planning process shall support—

“(i) the national goals described in section 150(b);

“(ii) the consideration of transportation system access (consistent with section 150(f));

“(iii) the achievement of statewide targets established under section 150(d); and

“(iv) the general purposes described in section 5301 of title 49.”; and

(ii) in subparagraph (D) by striking “statewide transportation improvement program” and inserting “STIP”; and

(C) in paragraph (3) by striking “statewide transportation improvement program” and inserting “STIP”;

(3) in subsection (e)(3) by striking “transportation improvement program” and inserting “STIP”;

(4) in subsection (f)—

(A) in paragraph (2)(D)—

(i) in clause (i) by inserting “air quality, public health, housing, transportation, resilience, hazard mitigation, emergency management,” after “conservation.”; and

(ii) by amending clause (ii) to read as follows:

“(ii) COMPARISON AND CONSIDERATION.—Consultation under clause (i) shall involve the comparison of transportation plans to other relevant plans and inventories, including, if available—

“(I) State and tribal conservation plans or maps; and

“(II) inventories of natural or historic resources.”;

(B) in paragraph (3)(B)—

(i) by striking “In carrying out” and inserting the following:

“(i) IN GENERAL.—in carrying out”;

(ii) by redesignating clauses (i) through (iv) as subclauses (I) through (IV), respectively; and

(iii) by adding at the end the following:

“(ii) ADDITIONAL METHODS.—In addition to the methods described in clause (i), in carrying out subparagraph (A), the State shall, to the maximum extent practicable—

“(I) use virtual public involvement, social media, and other web-based tools to encourage public participation and solicit public feedback; and

“(II) use other methods, as appropriate, to further encourage public participation of historically underrepresented individuals in the transportation planning process.”;

(C) in paragraph (4)(A) by inserting “reduce greenhouse gas emissions and” after “potential to”; and

(D) in paragraph (8) by inserting “including consideration of the role that intercity buses may play in reducing congestion, pollution, greenhouse gas emissions, and energy consumption in a cost-effective manner and strategies and investments that preserve and enhance intercity bus systems, including systems that are privately owned and operated” after “transportation system”;

(5) in subsection (g)—

(A) in paragraph (1)(A) by striking “statewide transportation improvement program” and inserting “STIP”;

(B) in paragraph (4)—

(i) by striking “PERFORMANCE TARGET ACHIEVEMENT” and inserting “PERFORMANCE MANAGEMENT”;

(ii) by striking “shall include, to the maximum extent practicable, a discussion” and inserting the following: “shall include

“(A) a discussion”;

(iii) by striking the period at the end and inserting “; and”;

(iv) by striking “statewide transportation improvement program” and inserting “STIP” each place it appears; and

(v) by adding at the end the following:

“(B) a consideration of how the STIP impacts the overall level of transportation system access, consistent with section 150(f) of title 23.”;

(C) in paragraph (5)—

(i) in subparagraph (A) by striking “transportation improvement program” and inserting “STIP”;

(ii) in subparagraph (B)(ii) by striking “metropolitan transportation improvement program” and inserting “TIP”;

(iii) in subparagraph (C) by striking “transportation improvement program” and inserting “STIP” each place it appears;

(iv) in subparagraph (E) by striking “transportation improvement program” and inserting “STIP”;

(v) in subparagraph (F)(i) by striking “transportation improvement program” and inserting “STIP” each place it appears;

(vi) in subparagraph (G)(ii) by striking “transportation improvement program” and inserting “STIP”; and

(vii) in subparagraph (H) by striking “transportation improvement program” and inserting “STIP”;

(D) in paragraph (6)—

(i) in subparagraph (A)—

(I) by striking “transportation improvement program” and inserting “STIP”; and

(II) by striking “and projects carried out under the bridge program or the Interstate maintenance program under title 23”; and

(ii) in subparagraph (B)—

(I) by striking “or under the bridge program or the Interstate maintenance program”;

(II) by striking “statewide transportation improvement program” and inserting “STIP”;

(E) in paragraph (7)—

(i) in the heading by striking “TRANSPORTATION IMPROVEMENT PROGRAM” and inserting “STIP”; and

(ii) by striking “transportation improvement program” and inserting “STIP”;

(F) in paragraph (8) by striking “statewide transportation plans and programs” and inserting “statewide transportation plans and STIPs”; and

(G) in paragraph (9) by striking “transportation improvement program” and inserting “STIP”;

(6) in subsection (h)(2)(A) by striking “Not later than 5 years after the date of enactment of the Federal Public Transportation Act of 2012,” and inserting “Not less frequently than once every 4 years.”;

(7) in subsection (j) by striking “transportation improvement program” and inserting “STIP” each place it appears;

(8) in subsection (l) by striking “transportation improvement programs” and inserting “STIPs”.

#### SEC. 2109. OBLIGATION LIMITATION.

Notwithstanding any other provision of law, the total of all obligations from amounts made available from the Mass Transit Account of the Highway Trust Fund by subsection (a) of section 5338 of title 49, United States Code, shall not exceed—

(1) \$16,185,800,000 in fiscal year 2022;

(2) \$16,437,600,000 in fiscal year 2023;

(3) \$16,700,600,000 in fiscal year 2024; and

(4) \$16,963,600,000 in fiscal year 2025.

#### SEC. 2110. PUBLIC TRANSPORTATION EMERGENCY RELIEF FUNDS.

Section 5324 of title 49, United States Code, is further amended by adding at the end the following:

“(g) IMPOSITION OF DEADLINE.—

“(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary may not require any project funded pursuant to this section to advance to the construction obligation stage before the date that is the last day of the sixth fiscal year after the later of—

“(A) the date on which the Governor declared the emergency, as described in subsection (a)(2); or

“(B) the date on which the President declared a major disaster, as described in such subsection.

“(2) EXTENSION OF DEADLINE.—If the Secretary imposes a deadline for advancement to the construction obligation stage pursuant to paragraph (1), the Secretary may, upon the request of the Governor of the State, issue an extension of not more than 1 year to complete such advancement, and may issue additional extensions after the expiration of any extension, if the Secretary determines the Governor of the State has provided suitable justification to warrant an extension.”.

#### SEC. 2111. CERTIFICATION REQUIREMENTS.

The certification requirements described in section 661.12 of title 49, Code of Federal Regu-

lations, shall, after the date of enactment of this Act, include a certification that buses or other rolling stock (including train control, communication and traction power equipment) being procured do not contain or use any covered telecommunications equipment or services, as such term is defined by section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232);

#### Subtitle B—Improving Frequency and Ridership

#### SEC. 2201. MULTI-JURISDICTIONAL BUS FREQUENCY AND RIDERSHIP COMPETITIVE GRANTS.

(a) IN GENERAL.—Chapter 53 of title 49, United States Code, is amended by inserting after section 5307 the following new section:

##### “§5308. Multi-jurisdictional bus frequency and ridership competitive grants

“(a) IN GENERAL.—The Secretary shall make grants under this section, on a competitive basis, to eligible recipients to increase the frequency and ridership of public transit buses.

“(b) APPLICATIONS.—To be eligible for a grant under this section, an eligible recipient shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

“(c) APPLICATION TIMING.—Not later than 90 days after amounts are made available to carry out this section, the Secretary shall solicit grant applications from eligible recipients for projects described in subsection (d).

“(d) USES OF FUNDS.—An eligible recipient of a grant under this section shall use such grant for capital projects that—

“(1) increase—

“(A) the frequency of bus service;

“(B) bus ridership; and

“(C) total person throughput; and

“(2) are consistent with, and as described in, the design guidance issued by the National Association of City Transportation Officials and titled ‘Transit Street Design Guide’.

“(e) GRANT CRITERIA.—In making grants under this section, the Secretary shall consider the following:

“(1) Each eligible recipient’s projected increase in bus frequency.

“(2) Each eligible recipient’s projected increase in bus ridership.

“(3) Each eligible recipient’s projected increase in total person throughput.

“(4) The degree of regional collaboration described in each eligible recipient’s application, including collaboration with—

“(A) a local government entity that operates a public transportation service;

“(B) local government agencies that control street design;

“(C) metropolitan planning organizations (as such term is defined in section 5303); and

“(D) State departments of transportation.

“(f) GRANT TIMING.—The Secretary shall award grants under this section not later than 120 days after the date on which the Secretary completes the solicitation described in subsection (c).

“(g) REQUIREMENTS OF THE SECRETARY.—In carrying out the program under this section, the Secretary shall—

“(1) not later than the date described in subsection (c), publish in the Federal Register a list of all metrics and evaluation procedures to be used in making grants under this section; and

“(2) publish in the Federal Register—

“(A) a summary of the final metrics and evaluations used in making grants under this section; and

“(B) a list of the ratings of eligible recipients receiving a grant under this section based on such metrics and evaluations.

“(h) FEDERAL SHARE.—

“(1) IN GENERAL.—The Federal share of the cost of a project carried out under this section shall not exceed 80 percent.

“(2) RESTRICTION ON GRANT AMOUNTS.—The Secretary may make a grant for a project under

this section in an amount up to 150 percent of the amount—

“(A) provided for such project under title 23; and

“(B) provided for such project from non-Federal funds budgeted for roadways.

“(i) REQUIREMENTS OF SECTION 5307.—Except as otherwise provided in this section, a grant under this section shall be subject to the requirements of section 5307.

“(j) AVAILABILITY OF FUNDS.—

“(1) IN GENERAL.—Amounts made available to carry out this section shall remain available for 4 fiscal years after the fiscal year for which the amount was made available.

“(2) UNOBLIGATED AMOUNTS.—After the expiration of the period described in paragraph (1) for an amount made available to carry out this section, any unobligated amounts made available to carry out this section shall be added to the amounts made available for the following fiscal year.

“(k) ELIGIBLE RECIPIENTS.—In this section, the term ‘eligible recipient’ means a recipient of a grant under section 5307 in an urbanized area with a population greater than 500,000.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 53 of title 49, United States Code, is amended by inserting after the item relating to section 5307 the following new item:

“5308. Multi-jurisdictional bus frequency and ridership competitive grants.”.

#### SEC. 2202. INCENTIVIZING FREQUENCY IN THE URBAN FORMULA.

Section 5336 of title 49, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (2)—

(i) in subparagraph (A)—

(I) in the matter preceding clause (i) by striking “95.61 percent” and inserting “95 percent”;

(II) in clause (i) by striking “95.61 percent” and inserting “95 percent”; and

(III) in clause (ii) by striking “95.61 percent” and inserting “95 percent”; and

(ii) in subparagraph (B)—

(I) in the matter preceding clause (i) by striking “4.39 percent” and inserting “5 percent”;

(II) in clause (i)—

(aa) by inserting “in the highest 25 percent of routes by ridership” before “multiplied by”; and

(bb) by striking “vehicle passenger miles traveled for each dollar of operating cost in an area” and inserting “vehicles operating in peak revenue service per hour in the highest 25 percent of routes by ridership”; and

(III) in clause (ii)—

(aa) by inserting “in the highest 25 percent of routes by ridership” before “multiplied by”; and

(bb) by striking “vehicle passenger miles traveled for each dollar of operating cost in all areas” and inserting “vehicles operating in peak revenue service per hour in the highest 25 percent of routes by ridership”; and

(B) by adding at the end the following:

“(3) SPECIAL RULE.—For fiscal year 2022, the percentage—

“(A) in paragraph (2)(A) in the matter preceding clause (i) shall be treated as 100 percent; and

“(B) in paragraph (2)(B) in the matter preceding clause (i) shall be treated as 0 percent.”;

(2) in subsection (c)—

(A) in paragraph (1) by striking “90.8 percent” and inserting “90 percent” each place it appears;

(B) in paragraph (2)—

(i) by striking “9.2 percent” and inserting “8 percent”;

(ii) by striking “200,000” and inserting “500,000”;

(iii) by striking subparagraph (A) and inserting the following:

“(A) the number of bus passenger miles traveled on the highest 25 percent of routes by ridership multiplied by the number of buses operating in peak revenue service per hour on the

highest 25 percent of routes by ridership; divided by"; and

(iv) by striking subparagraph (B) and inserting the following:

"(B) the total number of bus passenger miles traveled on the highest 25 percent of routes by ridership multiplied by the total number of buses operating in peak revenue service per hour on the highest 25 percent of routes by ridership in all areas."; and

(C) by adding at the end the following:

"(3) 2 percent of the total amount apportioned under this subsection shall be apportioned so that each urbanized area with a population of at least 200,000 and less than 500,000 is entitled to receive an amount using the formula in paragraph (1)."

"(4) For fiscal year 2022, the percentage—

"(A) in paragraph (1) in the matter preceding subparagraph (A) shall be treated as 100 percent;

"(B) in paragraph (2) in the matter preceding subparagraph (A) shall be treated as 0 percent; and

"(C) in paragraph (3) shall be treated as 0 percent."; and

(3) by adding at the end the following:

"(k) **PEAK REVENUE SERVICE DEFINED.**—In this section, the term 'peak revenue service' means the time period between the time in the morning that an agency first exceeds the number of midday vehicles in revenue service and the time in the evening that an agency falls below the number of midday vehicles in revenue service."

#### SEC. 2203. MOBILITY INNOVATION.

(a) IN GENERAL.—Chapter 53 of title 49, United States Code, is amended by inserting after section 5315 the following new section:

##### "§5316. Mobility innovation

"(a) IN GENERAL.—Amounts made available to a covered recipient to carry out sections 5307, 5310, and 5311 may be used by such covered recipient under this section to assist in the financing of—

"(1) mobility as a service; and

"(2) mobility on demand services.

"(b) **FEDERAL SHARE.**—

"(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), the Federal share of the net cost of a project carried out under this section shall not exceed 70 percent.

"(2) **INSOURCING INCENTIVE.**—Notwithstanding paragraph (1), the Federal share of the net cost of a project described in paragraph (1) shall not exceed 90 percent for mobility on demand service operated exclusively by personnel employed by the recipient.

"(3) **ZERO EMISSION INCENTIVE.**—Notwithstanding paragraph (1), the Federal share of the net cost of a project described in paragraph (1) shall not exceed 90 percent if such project involves an eligible use that uses a vehicle that produces zero carbon dioxide or particulate matter.

"(c) **ELIGIBLE USES.**—

"(1) IN GENERAL.—The Secretary shall publish guidance describing eligible activities that are demonstrated to—

"(A) increase transit ridership;

"(B) be complementary to fixed route transit service;

"(C) demonstrate meaningful improvements in—

"(i) environmental metrics, including standards established pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and greenhouse gas performance targets established pursuant to section 150(d) of title 23;

"(ii) traffic congestion;

"(iii) compliance with the requirements under the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

"(iv) low-income service to increase access to employment, healthcare, and other essential services;

"(v) service outside of transit agency operating hours, provided that the transit agency operating hours are not reduced;

"(vi) new low density service relative to the higher density urban areas of the agency's service area; or

"(vii) rural service.

"(D) **FARE COLLECTION MODERNIZATION.**—In developing guidance referred to in this section, the Secretary shall ensure that—

"(i) all costs associated with installing, modernizing, and managing fare collection, including touchless payment systems, shall be considered eligible expenses under this title and subject to the applicable Federal share; and

"(ii) such guidance includes guidance on how agencies shall provide unbanked and underbanked users with an opportunity to benefit from mobility as a service platforms.

"(2) **PROHIBITION ON USE OF FUNDS.**—Amounts used by a covered recipient for projects eligible under this section may not be used for—

"(A) single passenger vehicle miles (in a passenger motor vehicle, as such term is defined in section 32101, that carries less than 9 passengers), unless the trip—

"(i) meets the definition of public transportation; and

"(ii) begins or completes a fixed route public transportation trip;

"(B) deadhead vehicle miles; or

"(C) any service considered a taxi service that operates under an exemption from testing requirements under section 5331.

"(d) **FEDERAL REQUIREMENTS.**—A project carried out under this section shall be treated as if such project were carried out under the section from which the funds were provided to carry out such project, including the application of any additional requirements provided for by law that apply to section 5307, 5310, or 5311, as applicable.

"(e) **WAIVER.**—

"(1) **INDIVIDUAL WAIVER.**—Except as provided in paragraphs (2) and (3), the Secretary may waive any requirement applied to a project carried out under this section pursuant to subsection (d) if the Secretary determines that the project would—

"(A) not undermine labor standards;

"(B) increase employment opportunities of the recipient unless the Secretary determines that such a waiver does not affect employment opportunities; and

"(C) be consistent with the public interest.

"(2) **WAIVER UNDER OTHER SECTIONS.**—The Secretary may not waive any requirement under paragraph (1) for which a waiver is otherwise available.

"(3) **PROHIBITION OF WAIVER.**—Notwithstanding paragraph (1), the Secretary may not waive any requirement of—

"(A) section 5333;

"(B) section 5331;

"(C) section 5302(14); and

"(D) chapter 53 that establishes a maximum Federal share for operating costs.

"(4) **APPLICATION OF SECTION 5320.**—Notwithstanding paragraphs (1) and (2), the Secretary may only waive the requirements of section 5320 with respect to—

"(A) a passenger vehicle owned by an individual; and

"(B) subsection (q) of such section for any passenger vehicle not owned by an individual for the period beginning on the date of enactment of this section and ending 3 years after such date.

"(f) **OPEN DATA STANDARDS.**—

"(1) IN GENERAL.—Not later than 90 days after the date of enactment of this section, the Secretary shall initiate procedures under subchapter III of chapter 5 of title 5 to develop an open data standard and an application programming interface necessary to carry out this section.

"(2) **REGULATIONS.**—The regulations required under paragraph (1) shall require public transportation agencies, mobility on demand providers, mobility as a service technology providers, other non-government actors, and local

governments the efficient means to transfer data to—

"(A) foster the efficient use of transportation capacity;

"(B) enhance the management of new modes of mobility;

"(C) enable the use of innovative planning tools;

"(D) enable single payment systems for all mobility on demand services;

"(E) establish metropolitan planning organization, State, and local government access to anonymized data for transportation planning, real time operations data, and rules;

"(F) safeguard personally identifiable information;

"(G) protect confidential business information; and

"(H) enhance cybersecurity protections.

"(3) **PROHIBITION ON FOR PROFIT ACTIVITY.**—Any data received by an entity under this subsection may not be sold, leased, or otherwise used to generate profit, except for the direct provision of the related mobility on demand services and mobility as a service.

"(4) **COMMITTEE.**—A negotiated rulemaking committee established pursuant to section 565 of title 5 to carry out this subsection shall have a maximum of 17 members limited to representatives of the Department of Transportation, State and local governments, metropolitan planning organizations, urban and rural covered recipients, associations that represent public transit agencies, representatives from at least 3 different organizations engaged in collective bargaining on behalf of transit workers in not fewer than 3 States, mobility on demand providers, and mobility as a service technology providers.

"(5) **PUBLICATION OF PROPOSED REGULATIONS.**—Proposed regulations to implement this section shall be published in the Federal Register by the Secretary not later than 18 months after such date of enactment.

"(6) **EXTENSION OF DEADLINES.**—A deadline set forth in paragraph (4) may be extended up to 180 days if the negotiated rulemaking committee referred to in paragraph (5) concludes that the committee cannot meet the deadline and the Secretary so notifies the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

"(g) **APPLICATION OF RECIPIENT REVENUE VEHICLE MILES.**—With respect to revenue vehicle miles with one passenger of a covered recipient using amounts under this section, such miles—

"(1) shall be included in the National Transit Database under section 5335; and

"(2) shall be excluded from vehicle revenue miles data used in the calculation described in section 5336.

"(h) **SAVINGS CLAUSE.**—Subsection (c)(2) and subsection (g) shall not apply to any eligible activities under this section if such activities are—

"(1) being carried out in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.); or

"(2) projects eligible under section 5310 that exceed the requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

"(i) **DEFINITIONS.**—In this section:

"(1) **DEADHEAD VEHICLE MILES.**—The term 'deadhead vehicle miles' means the miles that a vehicle travels when out of revenue service, including leaving or returning to the garage or yard facility, changing routes, when there is no expectation of carrying revenue passengers, and any miles traveled by a private operator without a passenger.

"(2) **MOBILITY AS A SERVICE.**—The term 'mobility as a service' means services that constitute the integration of mobility on demand services and public transportation that are available and accessible to all travelers, provide multimodal trip planning, and a unified payment system.

“(3) **MOBILITY ON DEMAND.**—The term ‘mobility on demand’ means an on-demand transportation service shared among individuals, either concurrently or one after another.

“(4) **COVERED RECIPIENT.**—The term ‘covered recipient’ means a State or local government entity, private nonprofit organization, or Tribe that—

“(A) operates a public transportation service; and

“(B) is a recipient or subrecipient of funds under section 5307, 5310, or 5311.”

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 53 of title 49, United States Code, is amended by inserting after the item relating to section 5315 the following new item:

“5316. Mobility innovation.”

(c) **EFFECTIVE DATE.**—This section and the amendments made by this section shall take effect on the date on which the Secretary has finalized both—

(1) the guidance required under section 5316(c) of title 49, United States Code; and

(2) the regulations required under section 5316(f) of title 49, United States Code.

#### **SEC. 2204. FORMULA GRANTS FOR RURAL AREAS.**

Section 5311 of title 49, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (2) by adding at the end the following:

“(D) **CENSUS DESIGNATION.**—The Secretary may approve a State program that allocates not more than 5 percent of such State’s apportionment to assist rural areas that were redesignated as urban areas not more than 2 fiscal years after the last census designation of urbanized area boundaries.”; and

(B) in paragraph (3) by striking “section 5338(a)(2)(F)” and inserting “section 5338(a)(2)(E)”;

(2) in subsection (c)—

(A) in paragraph (1)—

(i) in the matter preceding subparagraph (A) by striking “section 5338(a)(2)(F)” and inserting “section 5338(a)(2)(E)”;

(ii) in subparagraph (A) by striking “\$5,000,000” and inserting “\$10,000,000”; and

(iii) in subparagraph (B) by striking “\$30,000,000” and inserting “the amount remaining under section 5338(a)(2)(E)(i) after the amount under subparagraph (A) is distributed”;

(B) in paragraph (2)(C) by striking “section 5338(a)(2)(F)” and inserting “section 5338(a)(2)(E)”;

(C) in paragraph (3)—

(i) in subparagraph (A) by striking “section 5338(a)(2)(F)” and inserting “section 5338(a)(2)(E)”;

(ii) by striking subparagraphs (B) and (C) and inserting the following:

“(B) **LAND AREA.**—

“(i) **IN GENERAL.**—Subject to clause (ii), each State shall receive an amount that is equal to 15 percent of the amount apportioned under this paragraph, multiplied by the ratio of the land area in rural areas in that State and divided by the land area in all rural areas in the United States, as shown by the most recent decennial census of population.

“(ii) **MAXIMUM APPORTIONMENT.**—No State shall receive more than 5 percent of the amount apportioned under clause (i).

“(C) **POPULATION.**—Each State shall receive an amount equal to 50 percent of the amount apportioned under this paragraph, multiplied by the ratio of the population of rural areas in that State and divided by the population of all rural areas in the United States, as shown by the most recent decennial census of population.

“(D) **VEHICLE REVENUE MILES.**—

“(i) **IN GENERAL.**—Subject to clause (ii), each State shall receive an amount that is equal to 25 percent of the amount apportioned under this paragraph, multiplied by the ratio of vehicle revenue miles in rural areas in that State and divided by the vehicle revenue miles in all rural

areas in the United States, as determined by national transit database reporting.

“(ii) **MAXIMUM APPORTIONMENT.**—No State shall receive more than 5 percent of the amount apportioned under clause (i).

“(E) **LOW-INCOME INDIVIDUALS.**—Each State shall receive an amount that is equal to 10 percent of the amount apportioned under this paragraph, multiplied by the ratio of low-income individuals in rural areas in that State and divided by the number of low-income individuals in all rural areas in the United States, as shown by the Bureau of the Census.”;

(3) in subsection (f)—

(A) in paragraph (1) by inserting “A State may expend funds to continue service into another State to extend a route.” before “Eligible activities under”; and

(B) in paragraph (2) by inserting “and makes the certification and supporting documents publicly available” before the period at the end; and

(4) in subsection (g) by adding at the end the following:

“(6) **ALLOWANCE FOR VOLUNTEER HOURS.**—

“(A) **APPLICABLE REGULATIONS.**—For any funds provided by a department or agency of the Government under paragraph (3)(D) or by a service agreement under paragraph (3)(C), and such department or agency has regulations in place that provide for the valuation of volunteer hours as allowable in-kind contributions toward the non-Federal share of project costs, such regulations shall be used to determine the allowable valuation of volunteer hours as an in-kind contribution toward the non-Federal remainder of net project costs for a transit project funded under this section.

“(B) **LIMITATIONS.**—Subparagraph (A) shall not apply to the provision of fixed-route bus services funded under this section.”.

#### **SEC. 2205. ONE-STOP PARATRANSIT PROGRAM.**

Section 5310 of title 49, United States Code, is amended by adding at the end the following:

“(j) **ONE-STOP PARATRANSIT PROGRAM.**—

“(1) **IN GENERAL.**—Not later than 6 months after the date of enactment of this subsection, the Secretary shall establish a one-stop paratransit competitive grant program to encourage an extra stop in non-fixed route Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) service for a paratransit rider to complete essential tasks.

“(2) **PREFERENCE.**—The Secretary shall give preference to eligible recipients that—

“(A) have comparable data for the year prior to implementation of the grant program and made available to the Secretary, academic and nonprofit organizations for research purposes; and

“(B) plan to use agency personnel to implement the pilot program.

“(3) **APPLICATION CRITERIA.**—To be eligible to participate in the grant program, an eligible recipient shall submit to the Secretary an application containing such information as the Secretary may require, including information on—

“(A) locations the eligible entity intends to allow a stop at, if stops are limited, including—

“(i) childcare or education facilities;

“(ii) pharmacies;

“(iii) grocery stores; and

“(iv) bank or ATM locations;

“(B) methodology for informing the public of the grant program;

“(C) vehicles, personnel, and other resources that will be used to implement the grant program;

“(D) if the applicant does not intend the grant program to apply to the full area under the jurisdiction of the applicant, a description of the geographic area in which the applicant intends the grant program to apply; and

“(E) the anticipated amount of increased operating costs.

“(4) **SELECTION.**—The Secretary shall seek to achieve diversity of participants in the grant

program by selecting a range of eligible entities that includes at least—

“(A) 5 eligible recipients that serve an area with a population of 50,000 to 200,000;

“(B) 10 eligible recipients that serve an area with a population of over 200,000; and

“(C) 5 eligible recipients that provide transportation for rural communities.

“(5) **DATA-SHARING CRITERIA.**—An eligible recipient in this subsection shall provide data as the Secretary requires, including—

“(A) number of ADA paratransit trips conducted each year;

“(B) requested time of each paratransit trip;

“(C) scheduled time of each paratransit trip;

“(D) actual pickup time for each paratransit trip;

“(E) average length of a stop in the middle of a ride as allowed by this subsection;

“(F) any complaints received by a paratransit rider;

“(G) rider satisfaction with paratransit services; and

“(H) after the completion of the grant, an assessment by the eligible recipient of its capacity to continue a one-stop program independently.

“(6) **REPORT.**—

“(A) **IN GENERAL.**—The Secretary shall make publicly available an annual report on the program carried out under this subsection for each fiscal year, not later than December 31 of the calendar year in which such fiscal year ends.

“(B) **CONTENTS.**—The report required under subparagraph (A) shall include a detailed description of the activities carried out under the program, and an evaluation of the program, including an evaluation of the data shared by eligible recipients under paragraph (5).”.

#### **Subtitle C—Buy America and Other Procurement Reforms**

#### **SEC. 2301. BUY AMERICA.**

(a) **BUY AMERICA.**—

(1) **IN GENERAL.**—Chapter 53 of title 49, United States Code, is amended by inserting before section 5321 the following:

#### **“§5320. Buy America**

“(a) **IN GENERAL.**—The Secretary may obligate an amount that may be appropriated to carry out this chapter for a project only if the steel, iron, and manufactured goods used in the project are produced in the United States.

“(b) **WAIVER.**—The Secretary may waive subsection (a) if the Secretary finds that—

“(1) applying subsection (a) would be inconsistent with the public interest;

“(2) the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality;

“(3) when procuring rolling stock (including train control, communication, traction power equipment, and rolling stock prototypes) under this chapter—

“(A) the cost of components and subcomponents produced in the United States is more than 70 percent of the cost of all components of the rolling stock; and

“(B) final assembly of the rolling stock has occurred in the United States; or

“(4) including domestic material will increase the cost of the overall project by more than 25 percent.

“(c) **WRITTEN WAIVER DETERMINATION AND ANNUAL REPORT.**—

“(1) **WAIVER PROCEDURE.**—Not later than 120 days after the submission of a request for a waiver, the Secretary shall make a determination under subsection (b)(1), (b)(2), or (b)(4) as to whether to waive subsection (a).

“(2) **PUBLIC NOTIFICATION AND COMMENT.**—

“(A) **IN GENERAL.**—Not later than 30 days before making a determination regarding a waiver described in paragraph (1), the Secretary shall provide notification and an opportunity for public comment on the request for such waiver.

“(B) **NOTIFICATION REQUIREMENTS.**—The notification required under subparagraph (A) shall—

“(i) describe whether the application is being made for a waiver described in subsection (b)(1), (b)(2) or (b)(4); and

“(ii) be provided to the public by electronic means, including on the public website of the Department of Transportation.

“(3) DETERMINATION.—Before a determination described in paragraph (1) takes effect, the Secretary shall publish a detailed justification for such determination that addresses all public comments received under paragraph (2)—

“(A) on the public website of the Department of Transportation; and

“(B) if the Secretary issues a waiver with respect to such determination, in the Federal Register.

“(4) ANNUAL REPORT.—Annually, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report listing any waiver issued under paragraph (1) during the preceding year.

“(d) ROLLING STOCK WAIVER CONDITIONS.—

“(1) LABOR COSTS FOR FINAL ASSEMBLY.—In this section, highly skilled labor costs involved in final assembly shall be included as a separate component in the cost of components and sub-components under subsection (b)(3)(A).

“(2) HIGH DOMESTIC CONTENT COMPONENT BONUS.—In this section, in calculating the domestic content of the rolling stock under subsection (b)(3), the percent, rounded to the nearest whole number, of the domestic content in components of such rolling stock, weighted by cost, shall be used in calculating the domestic content of the rolling stock, except—

“(A) with respect to components that exceed—

“(i) 70 percent domestic content, the Secretary shall add 10 additional percent to the component's domestic content when calculating the domestic content of the rolling stock; and

“(ii) 75 percent domestic content, the Secretary shall add 15 additional percent to the component's domestic content when calculating the domestic content of the rolling stock; and

“(B) in no case may a component exceed 100 domestic content when calculating the domestic content of the rolling stock.

“(3) ROLLING STOCK FRAMES OR CAR SHELLS.—

“(A) INCLUSION OF COSTS.—Subject to the substantiation requirement of subparagraph (B), in carrying out, in calculating the cost of the domestic content of the rolling stock under subsection (b)(3), in the case of a rolling stock procurement receiving assistance under this chapter in which the average cost of a rolling stock vehicle in the procurement is more than \$300,000, if rolling stock frames or car shells are not produced in the United States, the Secretary shall include in the calculation of the domestic content of the rolling stock the cost of the steel or iron that is produced in the United States and used in the rolling stock frames or car shells.

“(B) SUBSTANTIATION.—If a rolling stock vehicle manufacturer wishes to include in the calculation of the vehicle's domestic content the cost of steel or iron produced in the United States and used in the rolling stock frames and car shells that are not produced in the United States, the manufacturer shall maintain and provide upon request a mill certification that substantiates the origin of the steel or iron.

“(4) TREATMENT OF WAIVED COMPONENTS AND SUBCOMPONENTS.—In this section, a component or subcomponent waived under subsection (b) shall be excluded from any part of the calculation required under subsection (b)(3)(A).

“(5) ZERO-EMISSION VEHICLE DOMESTIC BATTERY CELL INCENTIVE.—The Secretary shall provide an additional 2.5 percent of domestic content to the total rolling stock domestic content percentage calculated under this section for any zero-emission vehicle that uses only battery cells for propulsion that are manufactured domestically.

“(6) PROHIBITION ON DOUBLE COUNTING.—

“(A) IN GENERAL.—No labor costs included in the cost of a component or subcomponent by the manufacturer of rolling stock may be treated as rolling stock assembly costs for purposes of calculating domestic content.

“(B) VIOLATION.—A violation of this paragraph shall be treated as a false claim under subchapter III of chapter 37 of title 31.

“(7) DEFINITION OF HIGHLY SKILLED LABOR COSTS.—In this subsection, the term ‘highly skilled labor costs’—

“(A) means the apportioned value of direct wage compensation associated with final assembly activities of workers directly employed by a rolling stock original equipment manufacturer and directly associated with the final assembly activities of a rolling stock vehicle that advance the value or improve the condition of the end product;

“(B) does not include any temporary or indirect activities or those hired via a third-party contractor or subcontractor;

“(C) are limited to metalworking, fabrication, welding, electrical, engineering, and other technical activities requiring training;

“(D) are not otherwise associated with activities required under section 661.11 of title 49, Code of Federal Regulations; and

“(E) includes only activities performed in the United States and does not include that of foreign nationals providing assistance at a United States manufacturing facility.

“(e) CERTIFICATION OF DOMESTIC SUPPLY AND DISCLOSURE.—

“(1) CERTIFICATION OF DOMESTIC SUPPLY.—If the Secretary denies an application for a waiver under subsection (b), the Secretary shall provide to the applicant a written certification that—

“(A) the steel, iron, or manufactured goods, as applicable, (referred to in this paragraph as the ‘item’) is produced in the United States in a sufficient and reasonably available amount;

“(B) the item produced in the United States is of a satisfactory quality; and

“(C) includes a list of known manufacturers in the United States from which the item can be obtained.

“(2) DISCLOSURE.—The Secretary shall disclose the waiver denial and the written certification to the public in an easily identifiable location on the website of the Department of Transportation.

“(f) WAIVER PROHIBITED.—The Secretary may not make a waiver under subsection (b) for goods produced in a foreign country if the Secretary, in consultation with the United States Trade Representative, decides that the government of that foreign country—

“(1) has an agreement with the United States Government under which the Secretary has waived the requirement of this section; and

“(2) has violated the agreement by discriminating against goods to which this section applies that are produced in the United States and to which the agreement applies.

“(g) PENALTY FOR MISLABELING AND MISREPRESENTATION.—A person is ineligible under subpart 9.4 of the Federal Acquisition Regulation, or any successor thereto, to receive a contract or subcontract made with amounts authorized under title II of the INVEST in America Act if a court or department, agency, or instrumentality of the Government decides the person intentionally—

“(1) affixed a ‘Made in America’ label, or a label with an inscription having the same meaning, to goods sold in or shipped to the United States that are used in a project to which this section applies but not produced in the United States; or

“(2) represented that goods described in paragraph (1) were produced in the United States.

“(h) STATE REQUIREMENTS.—The Secretary may not impose any limitation on assistance provided under this chapter that restricts a State from imposing more stringent requirements than this subsection on the use of articles, materials, and supplies mined, produced, or manu-

factured in foreign countries in projects carried out with that assistance or restricts a recipient of that assistance from complying with those State-imposed requirements.

“(i) OPPORTUNITY TO CORRECT INADVERTENT ERROR.—The Secretary may allow a manufacturer or supplier of steel, iron, or manufactured goods to correct after bid opening any certification of noncompliance or failure to properly complete the certification (but not including failure to sign the certification) under this subsection if such manufacturer or supplier attests under penalty of perjury that such manufacturer or supplier submitted an incorrect certification as a result of an inadvertent or clerical error. The burden of establishing inadvertent or clerical error is on the manufacturer or supplier.

“(j) ADMINISTRATIVE REVIEW.—A party adversely affected by an agency action under this subsection shall have the right to seek review under section 702 of title 5.

“(k) STEEL AND IRON.—For purposes of this section, steel and iron meeting the requirements of section 661.5(b) of title 49, Code of Federal Regulations, may be considered produced in the United States.

“(l) DEFINITION OF SMALL PURCHASE.—For purposes of determining whether a purchase qualifies for a general public interest waiver under subsection (b)(1), including under any regulation promulgated under such subsection, the term ‘small purchase’ means a purchase of not more than \$150,000.

“(m) PREAWARD AND POSTDELIVERY REVIEW OF ROLLING STOCK PURCHASES.—

“(1) IN GENERAL.—The Secretary shall prescribe regulations requiring a preaward and postdelivery certification of a rolling stock vehicle that meets the requirements of this section and Government motor vehicle safety requirements to be eligible for a grant under this chapter. For compliance with this section—

“(A) Federal inspections and review are required;

“(B) a manufacturer certification is not sufficient; and

“(C) a rolling stock vehicle that has been certified by the Secretary remains certified until the manufacturer makes a material change to the vehicle, or adjusts the cost of all components of the rolling stock, that reduces, by more than half, the percentage of domestic content above 70 percent.

“(2) CERTIFICATION OF PERCENTAGE.—The Secretary may, at the request of a component or subcomponent manufacturer, certify the percentage of domestic content and place of manufacturing for a component or subcomponent.

“(3) FREEDOM OF INFORMATION ACT.—In carrying out this subsection, the Secretary shall consistently apply the provisions of section 552 of title 5, including subsection (b)(4) of such section.

“(4) NONCOMPLIANCE.—The Secretary shall prohibit recipients from procuring rolling stock, components, or subcomponents from a supplier that intentionally provides false information to comply with this subsection.

“(n) SCOPE.—The requirements of this section apply to all contracts for a public transportation project carried out within the scope of the applicable finding, determination, or decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), regardless of the funding source of such contracts, if at least one contract for the public transportation project is funded with amounts made available to carry out this chapter.

“(o) BUY AMERICA CONFORMITY.—The Secretary shall ensure that all Federal funds for new commuter rail projects shall comply with this section and shall not be subject to section 22905(a).

“(p) AUDITS AND REPORTING OF WASTE, FRAUD, AND ABUSE.—

“(1) IN GENERAL.—The Inspector General of the Department of Transportation shall conduct

an annual audit on certifications under subsection (m) regarding compliance with Buy America.

“(2) **REPORT FRAUD, WASTE, AND ABUSE.**—The Secretary shall display a ‘Report Fraud, Waste, and Abuse’ button and link to Department of Transportation’s Office of Inspector General Hotline on the Federal Transit Administration’s Buy America landing page.

“(3) **CONTRACT REQUIREMENT.**—The Secretary shall require all recipients who enter into contracts to purchase rolling stock with funds provided under this chapter to include in such contract information on how to contact the Department of Transportation’s Office of Inspector General Hotline to report suspicions of fraud, waste, and abuse.

“(g) **PASSENGER MOTOR VEHICLES.**—

“(1) **IN GENERAL.**—Any domestically manufactured passenger motor vehicle shall be considered to be produced in the United States under this section.

“(2) **DOMESTICALLY MANUFACTURED PASSENGER MOTOR VEHICLE.**—In this subsection, the term ‘domestically manufactured passenger motor vehicle’ means any passenger motor vehicle, as such term is defined in section 32304(a) that—

“(A) has under section 32304(b)(1)(B) its final assembly place in the United States; and

“(B) the percentage (by value) of passenger motor equipment under section 32304(b)(1)(A) equals or exceeds 60 percent value added.

“(r) **ROLLING STOCK COMPONENTS AND SUBCOMPONENTS.**—No component or subcomponent of rolling stock shall be treated as produced in the United States for purposes of subsection (b)(3) or determined to be of domestic origin under section 661.11 of title 49, Code of Federal Regulations, if the material inputs of such component or subcomponent were imported into the United States and the operations performed in the United States on the imported articles would not result in a change in the article’s classification to chapter 86 or 87 of the Harmonized Tariff Schedule of the United States from another chapter or a new heading of any chapter from the heading under which the article was classified upon entry.

“(s) **TREATMENT OF STEEL AND IRON COMPONENTS AS PRODUCED IN THE UNITED STATES.**—Notwithstanding any other provision of any law or any rule, regulation, or policy of the Federal Transit Administration, steel and iron components of a system, as defined in section 661.3 of title 49, Code of Federal Regulations, and of manufactured end products referred to in Appendix A of such section, may not be considered to be produced in the United States unless such components meet the requirements of section 661.5(b) of title 49, Code of Federal Regulations.

“(t) **REQUIREMENT FOR TRANSIT AGENCIES.**—Notwithstanding the provisions of this section, if a transit agency accepts Federal funds, such agency shall adhere to the Buy America provisions set forth in this section when procuring rolling stock.”

(2) **CLERICAL AMENDMENT.**—The analysis for chapter 53 of title 49, United States Code, is amended by inserting before the item relating to section 5321 the following:

“5320. Buy America.”

(3) **CONFORMING AMENDMENTS.**—

(A) **TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.**—Section 5314(a)(2)(G) of title 49, United States Code, is amended by striking “sections 5323(j) and 5323(m)” and inserting “section 5320”.

(B) **URBANIZED AREA FORMULA GRANTS.**—Section 5307(c)(1)(E) of title 49, United States Code, is amended by inserting “, 5320,” after “5323”.

(C) **INNOVATIVE PROCUREMENT.**—Section 3019(c)(2)(E)(ii) of the FAST Act (49 U.S.C. 5325 note) is amended by striking “5323(j)” and inserting “5320”.

(b) **BUS ROLLING STOCK.**—Not later than 18 months after the date of enactment of this Act,

the Secretary of Transportation shall issue such regulations as are necessary to revise Appendix B and Appendix D of section 661.11 of title 49, Code of Federal Regulations, with respect to bus rolling stock to maximize job creation and align such section with modern manufacturing techniques.

(c) **RAIL ROLLING STOCK.**—Not later than 30 months after the date of enactment of this Act, the Secretary shall issue such regulations as are necessary to revise subsections (t), (u), and (v) of section 661.11 of title 49, Code of Federal Regulations, with respect to rail rolling stock to maximize job creation and align such section with modern manufacturing techniques.

(d) **RULE OF APPLICABILITY.**—

(1) **IN GENERAL.**—Except as otherwise provided in this subsection, the amendments made by this section shall apply to any contract entered into on or after the date of enactment of this Act.

(2) **DELAYED APPLICABILITY OF CERTAIN PROVISIONS.**—Contracts described in paragraph (1) shall be subject to the following delayed applicability requirements:

(A) Section 5320(m)(2) shall apply to contracts entered into on or after the date that is 30 days after the date of enactment of this Act.

(B) Notwithstanding subparagraph (A), section 5320(m) shall apply to contracts for the procurement of bus rolling stock beginning on the earlier of—

(i) 180 days after the date on which final regulations are issued pursuant to subsection (b); or

(ii) the date that is 1 year after the date of enactment of this Act.

(C) Notwithstanding subparagraph (A), section 5320(m) shall apply to contracts for the procurement of rail rolling stock beginning on the earlier of—

(i) 180 days after the date on which final regulations are issued pursuant to subsection (c); or

(ii) the date that is 2 years after the date of enactment of this Act.

(D) Section 5320(p)(1) shall apply on the date that is 1 year after the latest of the application dates described in subparagraphs (A) through (C).

(3) **SPECIAL RULE FOR CERTAIN CONTRACTS.**—For any contract described in paragraph (1) for which the delivery for the first production vehicle occurs before October 1, 2024, paragraphs (1) and (4) of section 5320(d) shall not apply.

(4) **SPECIAL RULE FOR BATTERY CELL INCIDENTS.**—For any contract described in paragraph (1) for which the delivery for the first production vehicle occurs before October 1, 2022, section 5320(d)(5) shall not apply.

(e) **SPECIAL RULE FOR DOMESTIC CONTENT.**—For the calculation of the percent of domestic content calculated under section 5320(d)(2) for a contract for rolling stock entered into on or after October 1, 2020—

(1) if the delivery of the first production vehicle occurs in fiscal year 2022 or fiscal year 2023, for components that exceed 70 percent domestic content, the Secretary shall add 20 additional percent to the component’s domestic content; and

(2) if the delivery of the first production vehicle occurs in fiscal year 2024 or fiscal year 2025—

(A) for components that exceed 70 percent but do not exceed 75 percent domestic content, the Secretary shall add 15 additional percent to the component’s domestic content; or

(B) for components that exceed 75 percent domestic content, the Secretary shall add 20 additional percent to the component’s domestic content.

**SEC. 2302. BUS PROCUREMENT STREAMLINING.**

Section 5323 of title 49, United States Code, as is amended by adding at the end the following:

“(x) **BUS PROCUREMENT STREAMLINING.**—

“(1) **IN GENERAL.**—The Secretary may only obligate amounts for acquisition of buses under

this chapter to a recipient that issues a request for proposals for an open market procurement that meets the following criteria:

“(A) Such request for proposals is limited to performance specifications, except for components or subcomponents identified in the negotiated rulemaking carried out pursuant to this subsection.

“(B) Such request for proposals does not seek any alternative design or manufacture specification of a bus offered by a manufacturer, except to require a component or subcomponent identified in the negotiated rulemaking carried out pursuant to this subsection.

“(2) **SPECIFIC BUS COMPONENT NEGOTIATED RULEMAKING.**—

“(A) **INITIATION.**—Not later than 120 days after the date of enactment of the INVEST in America Act, the Secretary shall initiate procedures under subchapter III of chapter 5 of title 5 to negotiate and issue such regulations as are necessary to establish as limited a list as is practicable of bus components and subcomponents described in subparagraph (B).

“(B) **LIST OF COMPONENTS.**—The regulations required under subparagraph (A) shall establish a list of bus components and subcomponents that may be specified in a request for proposals described in paragraph (1) by a recipient. The Secretary shall ensure the list is limited in scope and limited to only components and subcomponents that cannot be selected with performance specifications to ensure interoperability.

“(C) **PUBLICATION OF PROPOSED REGULATIONS.**—Proposed regulations to implement this section shall be published in the Federal Register by the Secretary not later than 18 months after such date of enactment.

“(D) **COMMITTEE.**—A negotiated rulemaking committee established pursuant to section 565 of title 5 to carry out this paragraph shall have a maximum of 11 members limited to representatives of the Department of Transportation, urban and rural recipients (including State government recipients), and transit vehicle manufacturers.

“(E) **EXTENSION OF DEADLINES.**—A deadline set forth in subparagraph (C) may be extended up to 180 days if the negotiated rulemaking committee referred to in subparagraph (D) concludes that the committee cannot meet the deadline and the Secretary so notifies the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

“(3) **SAVINGS CLAUSE.**—Nothing in this section shall be construed to provide additional authority for the Secretary to restrict what a bus manufacturer offers to sell to a public transportation agency.”

**SEC. 2303. BUS TESTING FACILITY.**

Section 5318 of title 49, United States Code, is amended by adding at the end the following:

“(f) **TESTING SCHEDULE.**—The Secretary shall—

“(1) determine eligibility of a bus manufacturer’s request for testing within 10 business days;

“(2) make publicly available the current backlog (in months) to begin testing a new bus at the bus testing facility; and

“(3) designate The Ohio State University as the autonomous and advanced driver-assistance systems test development facility for all bus testing with autonomous or advanced driver-assistance systems technology and The Ohio State University will also serve as the over-flow new model bus testing facility to Altoona.”

**SEC. 2304. REPAYMENT REQUIREMENT.**

(a) **IN GENERAL.**—A transit agency shall repay into the general fund of the Treasury all funds received from the Federal Transit Administration under the heading “Federal Transit Administration, Transit Infrastructure Grants” under the CARES Act (Public Law 116–136) if any portion of the funding was used to award a contract or subcontract to an entity for the

procurement of rolling stock for use in public transportation if the manufacturer of the rolling stock—

(1) is incorporated in or has manufacturing facilities in the United States; and

(2) is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

(A) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this subsection;

(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a priority foreign country under subsection (a)(2) of that section; and

(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).

(b) **CERTIFICATION.**—Not later than 60 days after the date of enactment of this section, a transit agency that received funds pursuant to the CARES Act (Public Law 116-136) shall certify that the agency has not and shall not use such funds to purchase rolling stock described in subsection (a). Repayment shall also be required for any such agency that fails to certify in accordance with the preceding sentence.

#### **SEC. 2305. DEFINITION OF URBANIZED AREAS FOLLOWING A MAJOR DISASTER.**

(a) **IN GENERAL.**—Section 5323 of title 49, United States Code, is amended by adding at the end the following:

“(y) **URBANIZED AREAS FOLLOWING A MAJOR DISASTER.**—

“(1) **DEFINED TERM.**—In this subsection, the term ‘decennial census date’ has the meaning given the term in section 141(a) of title 13.

“(2) **URBANIZED AREA MAJOR DISASTER POPULATION CRITERIA.**—Notwithstanding section 5302, for purposes of this chapter, the Secretary shall treat an area as an urbanized area for the period described in paragraph (3) if—

“(A) a major disaster was declared by the President under section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170) for the area during the 3-year period preceding the decennial census date for the 2010 decennial census or for any subsequent decennial census;

“(B) the area was defined and designated as an ‘urbanized area’ by the Secretary of Commerce in the decennial census immediately preceding the major disaster described in subparagraph (A); and

“(C) the population of the area fell below 50,000 as a result of the major disaster described in subparagraph (A).

“(3) **COVERED PERIOD.**—The Secretary shall treat an area as an urbanized area under paragraph (2) during the period—

“(A) beginning on—

“(i) in the case of a major disaster described in paragraph (2)(A) that occurred during the 3-year period preceding the decennial census date for the 2010 decennial census, October 1 of the first fiscal year that begins after the date of enactment of this subsection; or

“(ii) in the case of any other major disaster described in paragraph (2)(A), October 1 of the first fiscal year—

“(I) that begins after the decennial census date for the first decennial census conducted after the major disaster; and

“(II) for which the Secretary has sufficient data from that census to determine that the area qualifies for treatment as an urbanized area under paragraph (2); and

“(B) ending on the day before the first fiscal year—

“(i) that begins after the decennial census date for the second decennial census conducted after the major disaster described in paragraph (2)(A); and

“(ii) for which the Secretary has sufficient data from that census to determine which areas are urbanized areas for purposes of this chapter.

“(4) **POPULATION CALCULATION.**—An area treated as an urbanized area under this subsection shall be assigned the population and square miles of the urbanized area designated by the Secretary of Commerce in the most recent decennial census conducted before the major disaster described in paragraph (2)(A).

“(5) **SAVINGS PROVISION.**—Nothing in this subsection may be construed to affect apportionments made under this chapter before the date of enactment of this subsection.”

(b) **AMENDMENT TAKES EFFECT ON ENACTMENT.**—Notwithstanding section 1001, the amendment made by subsection (a) shall take effect on the date of enactment of this Act.

#### **SEC. 2306. SPECIAL RULE FOR CERTAIN ROLLING STOCK PROCUREMENTS.**

Section 5323(u)(5)(A) of title 49, United States Code, (as redesignated by this Act) is amended by striking “made by a public transportation agency with a rail rolling stock manufacturer described in paragraph (1)” and inserting “as of December 20, 2019, including options and other requirements tied to these contracts or subcontracts, made by a public transportation agency with a restricted rail rolling stock manufacturer”.

#### **SEC. 2307. CERTIFICATION REQUIREMENTS.**

(a) **LIMITATION OF TREATMENT OF DOMESTIC OR U.S. ORIGIN.**—Notwithstanding any other provision of any law or any rule, regulation, or policy of the Administration, including part 661 of title 49, Code of Federal Regulations, no article, material, or supply, shall be treated as a component of “U.S. origin” for purposes of section 661.5 of title 49, Code of Federal Regulations, or a component or subcomponent of domestic origin for purposes of section 661.11 of title 49, Code of Federal Regulations, if—

(1) it contains any material inputs manufactured or supplied by entities that—

(A) are subject to relief authorized under the fair trade laws of the United States, including subtitle B of title VII of the Tariff Act of 1930 (19 U.S.C. 1673 et seq.) and subtitle A of title VII of the Tariff Act of 1930 (19 U.S.C. 1671 et seq.);

(B) are owned or controlled by entities subject to United States sanctions; or

(C) are entities owned by a foreign government, closely linked to or in partnership with a foreign government or whose directors or organizational and board leadership include any person serving in any capacity in the defense apparatus of another nation;

(2) it contains or uses covered telecommunications equipment or services as that term is defined by section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232); or

(3) it is of a class or category of products and was produced by a manufacturer or an affiliate of such a manufacturer found to have violated United States intellectual property laws, including trade secret theft under section 1832(a)(5) of title 18, United States Code, found to have committed economic espionage under section 1831(a)(5) of such title, or deemed to have infringed the intellectual property rights of any person in the United States.

(b) **CERTIFICATION.**—If buses or other rolling stock are being procured, the Administrator of the Federal Transit Administration shall require as a condition of responsiveness that each bidder certify that no component, subcomponent, article, material, or supply described in subparagraphs (A) through (C) of subsection (a)(1) of this section is incorporated in or used by the rolling stock that is offered by the bidder.

#### **Subtitle D—Bus Grant Reforms**

#### **SEC. 2401. FORMULA GRANTS FOR BUSES.**

Section 5339(a) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) by inserting “and subsection (d)” after “In this subsection”;

(B) in subparagraph (A) by striking “term ‘low or no emission vehicle’ has” and inserting “term ‘zero emission vehicle’ has”;

(C) in subparagraph (B) by inserting “and the District of Columbia” after “United States”; and

(D) in subparagraph (C) by striking “the District of Columbia,”;

(2) in paragraph (2)(A) by striking “low or no emission vehicles” and inserting “zero emission vehicles”;

(3) in paragraph (4)—

(A) in subparagraph (A) by inserting “and subsection (d)” after “this subsection”; and

(B) in subparagraph (B) by inserting “and subsection (d)” after “this subsection”;

(4) in paragraph (5)(A)—

(A) by striking “\$90,500,000” and inserting “\$156,750,000”;

(B) by striking “2016 through 2020” and inserting “2022 through 2025”;

(C) by striking “\$1,750,000” and inserting “\$3,000,000”; and

(D) by striking “\$500,000” and inserting “\$750,000”;

(5) in paragraph (7) by adding at the end the following:

“(C) **SPECIAL RULE FOR BUSES AND RELATED EQUIPMENT FOR ZERO EMISSION VEHICLES.**—Notwithstanding subparagraph (A), a grant for a capital project for buses and related equipment for zero emission vehicles under this subsection shall be for 90 percent of the net capital costs of the project. A recipient of a grant under this subsection may provide additional local matching amounts.”;

(6) in paragraph (8) by striking “3 fiscal years” and inserting “4 fiscal years” and by striking “3-fiscal-year period” and inserting “4-fiscal-year period”; and

(7) by striking paragraph (9).

#### **SEC. 2402. BUS FACILITIES AND FLEET EXPANSION COMPETITIVE GRANTS.**

Section 5339(b) of title 49, United States Code, is amended—

(1) in the heading by striking “BUSES AND BUS FACILITIES COMPETITIVE GRANTS” and inserting “BUS FACILITIES AND FLEET EXPANSION COMPETITIVE GRANTS”;

(2) in paragraph (1)—

(A) by striking “buses and”;

(B) by inserting “and certain buses” after “capital projects”;

(C) in subparagraph (A) by striking “buses or related equipment” and inserting “bus-related facilities”; and

(D) by striking subparagraph (B) and inserting the following:

“(B) purchasing or leasing buses that will not replace buses in the applicant’s fleet at the time of application and will be used to—

“(i) increase the frequency of bus service; or

“(ii) increase the service area of the applicant.”;

(3) by striking paragraph (2) and inserting the following:

“(2) **GRANT CONSIDERATIONS.**—In making grants—

“(A) under subparagraph (1)(A), the Secretary shall only consider—

“(i) the age and condition of bus-related facilities of the applicant compared to all applicants and proposed improvements to the resilience (as such term is defined in section 5302) of such facilities;

“(ii) for a facility within or partially within the 100-year floodplain, whether such facility will be at least 2 feet above the base flood elevation; and

“(iii) for a bus station, the degree of multimodal connections at such station; and

“(B) under paragraph (1)(B), the Secretary shall consider the improvements to headway and projected new ridership.”; and

(4) in paragraph (6) by striking subparagraph (B) and inserting the following:

“(B) **GOVERNMENT SHARE OF COSTS.**—

“(i) **IN GENERAL.**—The Government share of the cost of an eligible project carried out under this subsection shall not exceed 80 percent.

“(ii) **SPECIAL RULE FOR BUSES AND RELATED EQUIPMENT FOR ZERO EMISSION VEHICLES.**—Notwithstanding clause (i), the Government share

of the cost of an eligible project for the financing of buses and related equipment for zero emission vehicles shall not exceed 90 percent.”.

#### SEC. 2403. ZERO EMISSION BUS GRANTS.

(a) IN GENERAL.—Section 5339(c) of title 49, United States Code, is amended—

(1) in the heading by striking “LOW OR NO EMISSION GRANTS” and inserting “ZERO EMISSION GRANTS”;

(2) in paragraph (1)—

(A) in subparagraph (B)—

(i) in clause (i) by striking “low or no emission” and inserting “zero emission”;

(ii) in clause (ii) by striking “low or no emission” and inserting “zero emission”;

(iii) in clause (iii) by striking “low or no emission” and inserting “zero emission”;

(iv) in clause (iv) by striking “facilities and related equipment for low or no emission” and inserting “related equipment for zero emission”;

(v) in clause (v) by striking “facilities and related equipment for low or no emission vehicles;” and inserting “related equipment for zero emission vehicles; or”;

(vi) in clause (vii) by striking “low or no emission” and inserting “zero emission”;

(vii) by striking clause (vi); and

(viii) by redesignating clause (vii) as clause (vi);

(B) by striking subparagraph (D) and inserting the following:

“(D) the term ‘zero emission bus’ means a bus that is a zero emission vehicle;”;

(C) by striking subparagraph (E) and inserting the following:

“(E) the term ‘zero emission vehicle’ means a vehicle used to provide public transportation that produces no carbon dioxide or particulate matter;”;

(D) in subparagraph (F) by striking “and” at the end;

(E) by striking subparagraph (G) and inserting the following:

“(G) the term ‘eligible area’ means an area that is—

“(i) designated as a nonattainment area for ozone or particulate matter under section 107(d) of the Clean Air Act (42 U.S.C. 7407(d));

“(ii) a maintenance area, as such term is defined in section 5303, for ozone or particulate matter; or

“(iii) in a State that has enacted a statewide zero emission bus transition requirement, as determined by the Secretary; and”;

(F) by adding at the end the following:

“(H) the term ‘low-income community’ means any population census tract if—

“(i) the poverty rate for such tract is at least 20 percent; or

“(ii) in the case of a tract—

“(I) not located within a metropolitan area, the median family income for such tract does not exceed 80 percent of statewide median family income; or

“(II) located within a metropolitan area, the median family income for such tract does not exceed 80 percent of the greater statewide median family income or the metropolitan area median family income.”; and

(3) by striking paragraph (5) and inserting the following:

“(5) GRANT ELIGIBILITY.—In awarding grants under this subsection, the Secretary shall make grants to eligible projects relating to the acquisition or leasing of zero emission buses or bus facility improvements—

“(A) that procure—

“(i) at least 10 zero emission buses;

“(ii) if the recipient operates less than 50 buses in peak service, at least 5 zero emission buses; or

“(iii) hydrogen buses;

“(B) for which the recipient’s board of directors has approved a long-term integrated fleet management plan that—

“(i) establishes a goal by a set date to convert the entire bus fleet to zero emission buses; or

“(ii) establishes a goal that within 10 years from the date of approval of such plan the recipient will convert a set percentage of the total bus fleet of such recipient to zero emission buses; and

“(C) for which the recipient has performed a fleet transition study that includes optimal route planning and an analysis of how utility rates may impact the recipient’s operations and maintenance budget.

“(7) LOW AND MODERATE COMMUNITY GRANTS.—Not less than 10 percent of the amounts made available under this subsection in a fiscal year shall be distributed to projects serving predominantly low-income communities.”.

(b) METROPOLITAN TRANSPORTATION PLANNING.—Section 5303(b) of title 49, United States Code, is amended by adding at the end the following:

“(9) MAINTENANCE AREA.—The term ‘maintenance area’ has the meaning given the term in sections 171(2) and 175A of the Clean Air Act (42 U.S.C. 7501(2); 7505a).”.

#### SEC. 2404. RESTORATION TO STATE OF GOOD REPAIR FORMULA SUBGRANT.

Section 5339 of title 49, United States Code, is amended by adding at the end the following:

“(d) RESTORATION TO STATE OF GOOD REPAIR FORMULA SUBGRANT.—

“(1) GENERAL AUTHORITY.—The Secretary may make grants under this subsection to assist eligible recipients and subrecipients described in paragraph (2) in financing capital projects to replace, rehabilitate, and purchase buses and related equipment.

“(2) ELIGIBLE RECIPIENTS AND SUBRECIPIENTS.—Not later than September 1 annually, the Secretary shall make public a list of eligible recipients and subrecipients based on the most recent data available in the National Transit Database to calculate the 20 percent of eligible recipients and subrecipients with the highest percentage of asset vehicle miles for buses beyond the useful life benchmark established by the Federal Transit Administration.

“(3) URBAN APPORTIONMENTS.—Funds allocated under section 5338(a)(2)(L)(ii) shall be—

“(A) distributed to—

“(i) designated recipients in an urbanized area with a population of more than 200,000 made eligible by paragraph (1); and

“(ii) States based on subrecipients made eligible by paragraph (1) in an urbanized area under 200,000; and

“(B) allocated pursuant to the formula set forth in section 5336 other than subsection (b), using the data from the 20 percent of eligible recipients and subrecipients.

“(4) RURAL ALLOCATION.—The Secretary shall—

“(A) calculate the percentage of funds under section 5338(a)(2)(L)(ii) to allocate to rural subrecipients by dividing—

“(i) the asset vehicle miles for buses beyond the useful life benchmark (established by the Federal Transit Administration) of the rural subrecipients described in paragraph (2); by

“(ii) the total asset vehicle miles for buses beyond such benchmark of all eligible recipients and subrecipients described in paragraph (2); and

“(B) prior to the allocation described in paragraph (3)(B), apportion to each State the amount of the total rural allocation calculated under subparagraph (A) attributable to such State based the proportion that—

“(i) the asset vehicle miles for buses beyond the useful life benchmark (established by the Federal Transit Administration) for rural subrecipients described in paragraph (2) in such State; bears to

“(ii) the total asset vehicle miles described in subparagraph (A)(i).

“(5) APPLICATION OF OTHER PROVISIONS.—Paragraphs (3), (7), and (8) of subsection (a) shall apply to eligible recipients and subrecipients described in paragraph (2) of a grant under this subsection.

“(6) PROHIBITION.—No eligible recipient or subrecipient outside the top 5 percent of asset vehicle miles for buses beyond the useful life benchmark established by the Federal Transit Administration may receive a grant in both fiscal year 2022 and fiscal year 2023.

“(7) REQUIREMENT.—The Secretary shall require—

“(A) States to expend, to the benefit of the subrecipients eligible under paragraph (2), the apportioned funds attributed to such subrecipients; and

“(B) designated recipients to provide the allocated funds to the recipients eligible under paragraph (2) the apportioned funds attributed to such recipients.”.

#### Subtitle E—Supporting All Riders

#### SEC. 2501. LOW-INCOME URBAN FORMULA FUNDS.

Section 5336(j) of title 49, United States Code, is amended

(1) in paragraph (1) by striking “75 percent” and inserting “50 percent”;

(2) in paragraph (2) by striking “25 percent” and inserting “12.5 percent”; and

(3) by adding at the end the following:

“(3) 30 percent of the funds shall be apportioned among designated recipients for urbanized areas with a population of 200,000 or more in the ratio that—

“(A) the number of individuals in each such urbanized area residing in an urban census tract with a poverty rate of at least 20 percent during the 5 years most recently ending; bears to

“(B) the number of individuals in all such urbanized areas residing in an urban census tract with a poverty rate of at least 20 percent during the 5 years most recently ending; and

“(4) 7.5 percent of the funds shall be apportioned among designated recipients for urbanized areas with a population less than 200,000 in the ratio that—

“(A) the number of individuals in each such urbanized area residing in an urban census tract with a poverty rate of at least 20 percent during the 5 years most recently ending; bears to

“(B) the number of individuals in all such areas residing in an urban census tract with a poverty rate of at least 20 percent during the 5 years most recently ending.”.

#### SEC. 2502. RURAL PERSISTENT POVERTY FORMULA.

Section 5311 of title 49, United States Code, as amended in section 2204, is further amended—

(1) in subsection (a) by adding at the end the following:

“(3) PERSISTENT POVERTY COUNTY.—The term ‘persistent poverty county’ means any county with a poverty rate of at least 20 percent—

“(A) as determined in each of the 1990 and 2000 decennial censuses;

“(B) in the Small Area Income and Poverty Estimates of the Bureau of the Census for the most recent year for which the estimates are available; and

“(C) has at least 25 percent of its population in rural areas.”;

(2) in subsection (b)(2)(C)(i) by inserting “and persistent poverty counties” before the semicolon; and

(3) in subsection (c) by striking paragraph (2) and inserting the following:

“(2) PERSISTENT POVERTY PUBLIC TRANSPORTATION ASSISTANCE PROGRAM.—

“(A) IN GENERAL.—The Secretary shall carry out a public transportation assistance program for areas of persistent poverty.

“(B) APPORTIONMENT.—Of amounts made available or appropriated for each fiscal year under section 5338(a)(2)(E)(ii) to carry out this paragraph, the Secretary shall apportion funds to recipients for service in, or directly benefiting, persistent poverty counties for any eligible purpose under this section in the ratio that—

“(i) the number of individuals in each such rural area residing in a persistent poverty county; bears to

“(ii) the number of individuals in all such rural areas residing in a persistent poverty county.”.

**SEC. 2503. DEMONSTRATION GRANTS TO SUPPORT REDUCED FARE TRANSIT.**

Section 5312 of title 49, United States Code, is amended by adding at the end the following:

“(j) DEMONSTRATION GRANTS TO SUPPORT REDUCED FARE TRANSIT.—

“(1) IN GENERAL.—Not later than 300 days after the date of enactment of the INVEST in America Act, the Secretary shall award grants (which shall be known as ‘Access to Jobs Grants’) to eligible entities, on a competitive basis, to implement reduced fare transit service.

“(2) NOTICE.—Not later than 180 days after the date of enactment of the INVEST in America Act, the Secretary shall provide notice to eligible entities of the availability of grants under paragraph (1).

“(3) APPLICATION.—To be eligible to receive a grant under this subsection, an eligible recipient shall submit to the Secretary an application containing such information as the Secretary may require, including, at a minimum, the following:

“(A) A description of how the eligible entity plans to implement reduced fare transit access with respect to low-income individuals, including any eligibility requirements for such transit access.

“(B) A description of how the eligible entity will consult with local community stakeholders, labor unions, local education agencies and institutions of higher education, public housing agencies, and workforce development boards in the implementation of reduced fares.

“(C) A description of the eligible entity’s current fare evasion enforcement policies, including how the eligible entity plans to use the reduced fare program to reduce fare evasion.

“(D) An estimate of additional costs to such eligible entity as a result of reduced transit fares.

“(4) GRANT DURATION.—Grants awarded under this subsection shall be for a 2-year period.

“(5) SELECTION OF ELIGIBLE RECIPIENTS.—In carrying out the program under this subsection, the Secretary shall award not more than 20 percent of grants to eligible entities located in rural areas.

“(6) USES OF FUNDS.—An eligible entity receiving a grant under this subsection shall use such grant to implement a reduced fare transit program and offset lost fare revenue.

“(7) DEFINITIONS.—In this subsection:

“(A) ELIGIBLE ENTITY.—The term ‘eligible entity’ means a State, local, or Tribal governmental entity that operates a public transportation service and is a recipient or subrecipient of funds under this chapter.

“(B) LOW-INCOME INDIVIDUAL.—The term ‘low-income individual’ means an individual—

“(i) that has qualified for—

“(I) any program of medical assistance under a State plan or under a waiver of the plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.);

“(II) supplemental nutrition assistance program (SNAP) under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.);

“(III) the program of block grants for States for temporary assistance for needy families (TANF) established under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.);

“(IV) the free and reduced price school lunch program established under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.);

“(V) a housing voucher through section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o));

“(VI) benefits under the Low-Income Home Energy Assistance Act of 1981; or

“(VII) special supplemental food program for women, infants and children (WIC) under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786); or

“(ii) whose family income is at or below a set percent (as determined by the eligible recipient) of the poverty line (as that term is defined in section 673(2) of the Community Service Block Grant Act (42 U.S.C. 9902(2)), including any revision required by that section) for a family of the size involved.

“(8) REPORT.—The Secretary shall designate a university transportation center under section 5505 to collaborate with the eligible entities receiving a grant under this subsection to collect necessary data to evaluate the effectiveness of meeting the targets described in the application of such recipient, including increased ridership and progress towards significantly closing transit equity gaps.”.

**Subtitle F—Supporting Frontline Workers and Passenger Safety**

**SEC. 2601. NATIONAL TRANSIT FRONTLINE WORKFORCE TRAINING CENTER.**

Section 5314(b) of title 49, United States Code, is amended—

(1) by striking paragraph (2) and inserting the following:

“(2) NATIONAL TRANSIT FRONTLINE WORKFORCE TRAINING CENTER.—

“(A) ESTABLISHMENT.—The Secretary shall establish a national transit frontline workforce training center (hereinafter referred to as the ‘Center’) and award grants to a nonprofit organization with a demonstrated capacity to develop and provide transit career pathway programs through labor-management partnerships and registered apprenticeships on a nationwide basis, in order to carry out the duties under subparagraph (B). The Center shall be dedicated to the needs of the frontline transit workforce in both rural and urban transit systems by providing standards-based training in the maintenance and operations occupations.

“(B) DUTIES.—

“(i) IN GENERAL.—In cooperation with the Administrator of the Federal Transit Administration, public transportation authorities, and national entities, the Center shall develop and conduct training and educational programs for frontline local transportation employees of recipients eligible for funds under this chapter.

“(ii) TRAINING AND EDUCATIONAL PROGRAMS.—The training and educational programs developed under clause (i) may include courses in recent developments, techniques, and procedures related to—

“(I) developing consensus national training standards, skills, competencies, and recognized postsecondary credentials in partnership with industry stakeholders for key frontline transit occupations with demonstrated skill gaps;

“(II) developing recommendations and best practices for curriculum and recognized postsecondary credentials, including related instruction and on-the-job learning for registered apprenticeship programs for transit maintenance and operations occupations;

“(III) building local, regional, and statewide transit training partnerships to identify and address workforce skill gaps and develop skills, competencies, and recognized postsecondary credentials needed for delivering quality transit service and supporting employee career advancement;

“(IV) developing programs for training of transit frontline workers, instructors, mentors, and labor-management partnership representatives, in the form of classroom, hands-on, on-the-job, and web-based training, delivered at a national center, regionally, or at individual transit agencies;

“(V) developing training programs for skills and competencies related to existing and emerging transit technologies, including zero emission buses;

“(VI) developing improved capacity for safety, security, and emergency preparedness in local transit systems and in the industry as a whole through—

“(aa) developing the role of the transit frontline workforce in building and sustaining safety

culture and safety systems in the industry and in individual public transportation systems; and

“(bb) training to address transit frontline worker roles in promoting health and safety for transit workers and the riding public;

“(VII) developing local transit capacity for career pathways programs with schools and other community organizations for recruiting and training under-represented populations as successful transit employees who can develop careers in the transit industry; and

“(VIII) in collaboration with the Administrator of the Federal Transit Administration, the Bureau of Labor Statistics, the Employment and Training Administration, and organizations representing public transit agencies, conducting and disseminating research to—

“(aa) provide transit workforce job projections and identify training needs and gaps;

“(bb) determine the most cost-effective methods for transit workforce training and development, including return on investment analysis;

“(cc) identify the most effective methods for implementing successful safety systems and a positive safety culture; and

“(dd) promote transit workforce best practices for achieving cost-effective, quality, safe, and reliable public transportation services.

“(C) COORDINATION.—The Secretary shall coordinate activities under this section, to the maximum extent practicable, with the Employment and Training Administration, including the National Office of Apprenticeship of the Department of Labor and the Office of Career, Technical, and Adult Education of the Department of Education.

“(D) AVAILABILITY OF AMOUNTS.—

“(i) IN GENERAL.—Not more than 1 percent of amounts made available to a recipient under sections 5307, 5311, 5337, and 5339 is available for expenditures by the recipient, with the approval of the Secretary, to pay not more than 80 percent of the cost of eligible activities under this subsection.

“(ii) EXISTING PROGRAMS.—A recipient may use amounts made available under clause (i) to carry out existing local education and training programs for public transportation employees supported by the Secretary, the Department of Labor, or the Department of Education.

“(iii) LIMITATION.—Any funds made available under this section that are used to fund an apprenticeship or apprenticeship program shall only be used for, or provided to, a registered apprenticeship program, including any funds awarded for the purposes of grants, contracts, or cooperative agreements, or the development, implementation, or administration, of an apprenticeship or an apprenticeship program.

“(E) DEFINITIONS.—In this paragraph:

“(i) CAREER PATHWAY.—The term ‘career pathway’ has the meaning given such term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

“(ii) RECOGNIZED POSTSECONDARY CREDENTIAL.—The term ‘recognized postsecondary credential’ has the meaning given such term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

“(iii) REGISTERED APPRENTICESHIP PROGRAM.—The term ‘registered apprenticeship program’ means an apprenticeship program registered with the Department of Labor or a Federally-recognized State Apprenticeship Agency and that complies with the requirements under parts 29 and 30 of title 29, Code of Federal Regulations, as in effect on January 1, 2019.”;

(2) in paragraph (3) by striking “or (2)”; and

(3) by striking paragraph (4).

**SEC. 2602. PUBLIC TRANSPORTATION SAFETY PROGRAM.**

Section 5329 of title 49, United States Code, is amended—

(1) in subsection (b)(2)(C)(ii)—

(A) in subclause (I) by striking “and” at the end;

(B) in subclause (II) by striking the semicolon and inserting “; and”; and

(C) by adding at the end the following:

“(III) innovations in driver assistance technologies and driver protection infrastructure where appropriate, and a reduction in visibility impairments that contribute to pedestrian fatalities;”;

(2) in subsection (d)—

(A) in paragraph (1)—

(i) in subparagraph (A) by inserting “the safety committee established under paragraph (4), and subsequently,” before “the board of directors”;

(ii) in subparagraph (C) by striking “public, personnel, and property” and inserting “public and personnel to injuries, assaults, and fatalities, and strategies to minimize the exposure of property”;

(iii) by striking subparagraph (G) and inserting the following:

“(G) a comprehensive staff training program for the operations and maintenance personnel and personnel directly responsible for safety of the recipient that includes—

“(i) the completion of a safety training program;

“(ii) continuing safety education and training; and

“(iii) de-escalation training;

“(H) a requirement that the safety committee only approve a safety plan under subparagraph (A) if such plan stays within such recipient’s fiscal budget; and

“(I) a risk reduction program for transit operations to improve safety by reducing the number and rates of accidents, injuries, and assaults on transit workers using data submitted to the National Transit Database, including—

“(i) a reduction of vehicular and pedestrian accidents involving buses that includes measures to reduce visibility impairments for bus operators that contribute to accidents, including retrofits to buses in revenue service and specifications for future procurements that reduce visibility impairments; and

“(ii) transit worker assault mitigation, including the deployment of assault mitigation infrastructure and technology on buses, including barriers to restrict the unwanted entry of individuals and objects into bus operators’ workstations when a recipient’s risk analysis performed by the safety committee established in paragraph (4) determines that such barriers or other measures would reduce assaults on and injuries to transit workers; and”;

(B) by adding at the end the following:

“(4) SAFETY COMMITTEE.—For purposes of the approval process of an agency safety plan under paragraph (1), the safety committee shall be convened by a joint labor-management process and consist of an equal number of—

“(A) frontline employee representatives, selected by the labor organization representing the plurality of the frontline workforce employed by the recipient or if applicable a contractor to the recipient; and

“(B) employer or State representatives.”; and

(3) in subsection (e)(4)(A)(v) by inserting “, inspection,” after “has investigative”.

#### SEC. 2603. INNOVATION WORKFORCE STANDARDS.

(a) PROHIBITION ON USE OF FUNDS.—No financial assistance under chapter 53 of title 49, United States Code, may be used for—

(1) an automated vehicle providing public transportation unless—

(A) the recipient of such assistance that proposes to deploy an automated vehicle providing public transportation certifies to the Secretary of Transportation that the deployment does not eliminate or reduce the frequency of existing public transportation service; and

(B) the Secretary receives, approves, and publishes the workforce development plan under subsection (b) submitted by the eligible entity when required by subsection (b)(1); and

(2) a mobility on demand service unless—

(A) the recipient of such assistance that proposes to deploy a mobility on demand service

certifies to the Secretary that the service meets the criteria under section 5307, 5310, 5311, 5312, or 5316 of title 49, United States Code; and

(B) the Secretary receives, approves, and publishes the workforce development plan under subsection (b) submitted by the eligible entity when required by subsection (b)(1).

(b) WORKFORCE DEVELOPMENT PLAN.—

(1) IN GENERAL.—A recipient of financial assistance under chapter 53 of title 49, United States Code, proposing to deploy an automated vehicle providing public transportation or mobility on demand service shall submit to the Secretary, prior to implementation of such service, a workforce development plan if such service, combined with any other automated vehicle providing public transportation or mobility on demand service offered by such recipient, would exceed by more than 0.5 percent of the recipient’s total transit passenger miles traveled.

(2) CONTENTS.—The workforce development plan under subsection (a) shall include the following:

(A) A description of services offered by existing conventional modes of public transportation in the area served by the recipient that could be affected by the proposed automated vehicle providing public transportation or mobility on demand service, including jobs and functions of such jobs.

(B) A forecast of the number of jobs provided by existing conventional modes of public transportation that would be eliminated or that would be substantially changed and the number of jobs expected to be created by the proposed automated vehicle providing public transportation or mobility on demand service over a 5-year period from the date of the publication of the workforce development plan.

(C) Identified gaps in skills needed to operate and maintain the proposed automated vehicle providing public transportation or mobility on demand service.

(D) A comprehensive plan to transition, train, or retrain employees that could be affected by the proposed automated vehicle providing public transportation or mobility on demand service.

(E) An estimated budget to transition, train, or retrain employees impacted by the proposed automated vehicle providing public transportation or mobility on demand service over a 5-year period from the date of the publication of the workforce development plan.

(c) NOTICE REQUIRED.—

(1) IN GENERAL.—A recipient of financial assistance under chapter 53 of title 49, United States Code, shall issue a notice to employees who, due to the use of an automated vehicle providing public transportation or mobility on demand service, may be subjected to a loss of employment or a change in responsibilities not later than 60 days before signing a contract for such service or procurement. A recipient shall provide employees copies of a request for a proposal related to an automated vehicle providing public transportation or mobility on demand services at the time such request is issued.

(2) CONTENT.—The notice required in paragraph (1) shall include the following:

(A) A description of the automated vehicle providing public transportation or mobility on demand service.

(B) The impact of the automated vehicle providing public transportation or mobility on demand service on employment positions, including a description of which employment positions will be affected and whether any new positions will be created.

(d) DEFINITIONS.—In this section:

(1) AUTOMATED VEHICLE.—The term “automated vehicle” means a motor vehicle that—

(A) is capable of performing the entire task of driving (including steering, accelerating and decelerating, and reacting to external stimulus) without human intervention; and

(B) is designed to be operated exclusively by a Level 4 or Level 5 automated driving system for all trips according to the recommended practice

standards published on June 15, 2018, by the Society of Automotive Engineers International (J3016\_201806) or equivalent standards adopted by the Secretary with respect to automated motor vehicles.

(2) MOBILITY ON DEMAND.—The term “mobility on demand” has the meaning given such term in section 5316 of title 49, United States Code.

(3) PUBLIC TRANSPORTATION.—The term “public transportation” has the meaning given such term in section 5302 of title 49, United States Code.

(e) SAVINGS CLAUSE.—Nothing in this section shall prohibit the use of funds for an eligible activity or pilot project of a covered recipient authorized under current law prior to the date of enactment of this Act.

#### SEC. 2604. SAFETY PERFORMANCE MEASURES AND SET ASIDES.

Section 5329(d)(2) of title 49, United States Code, is amended to read as follows:

“(2) SAFETY COMMITTEE PERFORMANCE MEASURES.—

“(A) IN GENERAL.—The safety committee described in paragraph (4) shall establish performance measures for the risk reduction program in paragraph (1)(I) using a 3-year rolling average of the data submitted by the recipient to the National Transit Database.

“(B) SAFETY SET ASIDE.—With respect to a recipient serving an urbanized area that receives funds under section 5307, such recipient shall allocate not less than 0.75 percent of such funds to projects eligible under 5307.

“(C) FAILURE TO MEET PERFORMANCE MEASURES.—Any recipient that receives funds under section 5307 that does not meet the performance measures established in subparagraph (A) shall allocate the amount made available in subparagraph (B) in the following fiscal year to projects described in subparagraph (D).

“(D) ELIGIBLE PROJECTS.—Funds set aside under this paragraph shall be used for projects that are reasonably likely to meet the performance measures established in subparagraph (A), including modifications to rolling stock and de-escalation training.”.

#### SEC. 2605. U.S. EMPLOYMENT PLAN.

(a) IN GENERAL.—Chapter 53 of title 49, United States Code, is amended by adding at the end the following:

##### “§5341. U.S. Employment Plan

“(a) DEFINITIONS.—In this section:

“(1) COMMITMENT TO HIGH-QUALITY CAREER AND BUSINESS OPPORTUNITIES.—The term ‘commitment to high-quality career and business opportunities’ means participation in a registered apprenticeship program.

“(2) COVERED INFRASTRUCTURE PROGRAM.—The term ‘covered infrastructure program’ means any activity under program or project under this chapter for the purchase or acquisition of rolling stock.

“(3) U.S. EMPLOYMENT PLAN.—The term ‘U.S. Employment Plan’ means a plan under which an entity receiving Federal assistance for a project under a covered infrastructure program shall—

“(A) include in a request for proposal an encouragement for bidders to include, with respect to the project—

“(i) high-quality wage, benefit, and training commitments by the bidder and the supply chain of the bidder for the project; and

“(ii) a commitment to recruit and hire individuals described in subsection (e) if the project results in the hiring of employees not currently or previously employed by the bidder and the supply chain of the bidder for the project;

“(B) give preference for the award of the contract to a bidder that includes the commitments described in clauses (i) and (ii) of subparagraph (A); and

“(C) ensure that each bidder that includes the commitments described in clauses (i) and (ii) of subparagraph (A) that is awarded a contract complies with those commitments.

“(4) REGISTERED APPRENTICESHIP PROGRAM.—The term ‘registered apprenticeship program’ means an apprenticeship program registered with the Department of Labor or a Federally-recognized State Apprenticeship Agency and that complies with the requirements under parts 29 and 30 of title 29, Code of Federal Regulations, as in effect on January 1, 2019.

“(b) BEST-VALUE FRAMEWORK.—To the maximum extent practicable, a recipient of assistance under a covered infrastructure program is encouraged—

“(1) to ensure that each dollar invested in infrastructure uses a best-value contracting framework to maximize the local value of federally funded contracts by evaluating bids on price and other technical criteria prioritized in the bid, such as—

“(A) equity;  
“(B) environmental and climate justice;  
“(C) impact on greenhouse gas emissions;  
“(D) resilience;  
“(E) the results of a 40-year life-cycle analysis;

“(F) safety;  
“(G) commitment to creating or sustaining high-quality job opportunities affiliated with registered apprenticeship programs (as defined in subsection (a)(3)) for disadvantaged or underrepresented individuals in infrastructure industries in the United States; and

“(H) access to jobs and essential services by all modes of travel for all users, including disabled individuals; and

“(2) to ensure community engagement, transparency, and accountability in carrying out each stage of the project.

“(c) PREFERENCE FOR REGISTERED APPRENTICESHIP PROGRAMS.—To the maximum extent practicable, a recipient of assistance under a covered infrastructure program, with respect to the project for which the assistance is received, shall give preference to a bidder that demonstrates a commitment to high-quality job opportunities affiliated with registered apprenticeship programs.

“(d) USE OF U.S. EMPLOYMENT PLAN.—Notwithstanding any other provision of law, in carrying out a project under a covered infrastructure program, each entity that receives Federal assistance shall use a U.S. Employment Plan for each contract of \$10,000,000 or more for the purchase of manufactured goods or of services, based on an independent cost estimate.

“(e) PRIORITY.—The head of the relevant Federal agency shall ensure that the entity carrying out a project under the covered infrastructure program gives priority to—

“(1) individuals with a barrier to employment (as defined in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102)), including ex-offenders and disabled individuals;  
“(2) veterans; and

“(3) individuals that represent populations that are traditionally underrepresented in the infrastructure workforce, such as women and racial and ethnic minorities.

“(f) REPORT.—Not less frequently than once each fiscal year, the heads of the relevant Federal agencies shall jointly submit to Congress a report describing the implementation of this section.

“(g) INTENT OF CONGRESS.—

“(1) IN GENERAL.—It is the intent of Congress—

“(A) to encourage recipients of Federal assistance under covered infrastructure programs to use a best-value contracting framework described in subsection (b) for the purchase of goods and services;

“(B) to encourage recipients of Federal assistance under covered infrastructure programs to use preferences for registered apprenticeship programs as described in subsection (c) when evaluating bids for projects using that assistance;

“(C) to require that recipients of Federal assistance under covered infrastructure programs

use the U.S. Employment Plan in carrying out the project for which the assistance was provided; and

“(D) that full and open competition under covered infrastructure programs means a procedural competition that prevents corruption, favoritism, and unfair treatment by recipient agencies.

“(2) INCLUSION.—A best-value contracting framework described in subsection (b) is a framework that authorizes a recipient of Federal assistance under a covered infrastructure program, in awarding contracts, to evaluate a range of factors, including price, the quality of products, the quality of services, and commitments to the creation of good jobs for all people in the United States.

“(h) AWARD BASIS.—In awarding grants under this section, the Secretary shall give priority to eligible entities that—

“(1) ensure that not less than 50 percent of the workers hired to participate in the job training program are hired through local hiring in accordance with subsection (e), including by prioritizing individuals with a barrier to employment (including ex-offenders), disabled individuals (meaning an individual with a disability (as defined in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102))), veterans, and individuals that represent populations that are traditionally underrepresented in the infrastructure workforce; or

“(2) ensure the commitments described in clauses (i) and (ii) of subsection (a)(2)(A) with respect to carrying out the job training program.”

(b) CLERICAL AMENDMENT.—The analysis for chapter 53 of title 49, United States Code, is amended by adding at the end the following:

“5341. U.S. Employment Plan.”

#### SEC. 2606. TECHNICAL ASSISTANCE AND WORKFORCE DEVELOPMENT.

(a) IN GENERAL.—Section 5314(a) of title 49, United States Code, is amended—

(1) in paragraph (2)—

(A) in subparagraph (H) by striking “and” at the end;

(B) by redesignating subparagraph (I) as subparagraph (J); and

(C) by inserting after subparagraph (H) the following:

“(I) provide innovation and capacity-building to rural and tribal public transportation recipients but that not to duplicate the activities of sections 5311(b) or 5312; and”

(2) by adding at the end the following:

“(4) AVAILABILITY OF AMOUNTS.—Of the amounts made available to carry out this section under section 5338(c), \$1,500,000 shall be available to carry out activities described in paragraph (2)(I).”

(b) AVAILABILITY OF AMOUNTS.—Section 5314(c)(4)(A) of title 49, United States Code, is amended by inserting “5311.” after “5307.”

#### Subtitle G—Transit-Supportive Communities

##### SEC. 2701. TRANSIT-SUPPORTIVE COMMUNITIES.

(a) IN GENERAL.—Chapter 53 of title 49, United States Code, is amended by inserting after section 5327 the following:

#### “§5328. Transit-supportive communities

“(a) ESTABLISHMENT.—The Secretary shall establish within the Federal Transit Administration, an Office of Transit-Supportive Communities to make grants, provide technical assistance, and assist in the coordination of transit and housing policies within the Federal Transit Administration, the Department of Transportation, and across the Federal Government.

“(b) TRANSIT ORIENTED DEVELOPMENT PLANNING GRANT PROGRAM.—

“(1) DEFINITION.—In this subsection the term ‘eligible project’ means—

“(A) a new fixed guideway capital project or a core capacity improvement project as defined in section 5309;

“(B) an existing fixed guideway system, or an existing station that is served by a fixed guideway system; or

“(C) the immediate corridor along the highest 25 percent of routes by ridership as demonstrated in section 5336(b)(2)(B).

“(2) GENERAL AUTHORITY.—The Secretary may make grants under this subsection to a State, local governmental authority, or metropolitan planning organization to assist in financing comprehensive planning associated with an eligible project that seeks to—

“(A) enhance economic development, ridership, and other goals established during the project development and engineering processes or the grant application;

“(B) facilitate multimodal connectivity and accessibility;

“(C) increase access to transit hubs for pedestrian and bicycle traffic;

“(D) enable mixed-use development;

“(E) identify infrastructure needs associated with the eligible project; and

“(F) include private sector participation.

“(3) ELIGIBILITY.—A State, local governmental authority, or metropolitan planning organization that desires to participate in the program under this subsection shall submit to the Secretary an application that contains at a minimum—

“(A) an identification of an eligible project;

“(B) a schedule and process for the development of a comprehensive plan;

“(C) a description of how the eligible project and the proposed comprehensive plan advance the metropolitan transportation plan of the metropolitan planning organization;

“(D) proposed performance criteria for the development and implementation of the comprehensive plan;

“(E) a description of how the project will reduce and mitigate social and economic impacts on existing residents and businesses vulnerable to displacement; and

“(F) identification of—

“(i) partners;

“(ii) availability of and authority for funding; and

“(iii) potential State, local or other impediments to the implementation of the comprehensive plan.

“(4) COST SHARE.—A grant under this subsection shall not exceed an amount in excess of 80 percent of total project costs, except that a grant that includes an affordable housing component shall not exceed an amount in excess of 90 percent of total project costs.

“(c) TECHNICAL ASSISTANCE.—The Secretary shall provide technical assistance to States, local governmental authorities, and metropolitan planning organizations in the planning and development of transit-oriented development projects and transit supportive corridor policies, including—

“(1) the siting, planning, financing, and integration of transit-oriented development projects;

“(2) the integration of transit-oriented development and transit-supportive corridor policies in the preparation for and development of an application for funding under section 602 of title 23;

“(3) the siting, planning, financing, and integration of transit-oriented development and transit supportive corridor policies associated with projects under section 5309;

“(4) the development of housing feasibility assessments as allowed under section 5309(g)(3)(B);

“(5) the development of transit-supportive corridor policies that promote transit ridership and transit-oriented development;

“(6) the development, implementation, and management of land value capture programs; and

“(7) the development of model contracts, model codes, and best practices for the implementation of transit-oriented development projects and transit-supportive corridor policies.

“(d) VALUE CAPTURE POLICY REQUIREMENTS.—

“(1) VALUE CAPTURE POLICY.—Not later than October 1 of the fiscal year that begins 2 years

after the date of enactment of this section, the Secretary, in collaboration with State departments of transportation, metropolitan planning organizations, and regional council of governments, shall establish voluntary and consensus-based value capture standards, policies, and best practices for State and local value capture mechanisms that promote greater investments in public transportation and affordable transit-oriented development.

“(2) **REPORT.**—Not later than 15 months after the date of enactment of this section, the Secretary shall make available to the public a report cataloging examples of State and local laws and policies that provide for value capture and value sharing that promote greater investment in public transportation and affordable transit-oriented development.

“(d) **EQUITY.**—In providing technical assistance under subsection (c), the Secretary shall incorporate strategies to promote equity for underrepresented and underserved communities, including—

“(1) preventing displacement of existing residents and businesses;

“(2) mitigating rent and housing price increases;

“(3) incorporating affordable rental and ownership housing in transit-oriented development;

“(4) engaging under-served, limited English proficiency, low income, and minority communities in the planning process;

“(5) fostering economic development opportunities for existing residents and businesses; and

“(6) targeting affordable housing that help lessen homelessness.

“(d) **AUTHORITY TO REQUEST STAFFING ASSISTANCE.**—In fulfilling the duties of this section, the Secretary shall, as needed, request staffing and technical assistance from other Federal agencies, programs, administrations, boards, or commissions.

“(e) **REVIEW EXISTING POLICIES AND PROGRAMS.**—Not later than 24 months after the date of enactment of this section, the Secretary shall review and evaluate all existing policies and programs within the Federal Transit Administration that support or promote transit-oriented development to ensure their coordination and effectiveness relative to the goals of this section.

“(f) **REPORTING.**—Not later than February 1 of each year beginning the year after the date of enactment of this section, the Secretary shall prepare a report detailing the grants and technical assistance provided under this section, the number of affordable housing units constructed or planned as a result of projects funded in this section, and the number of affordable housing units constructed or planned as a result of a property transfer under section 5334(h)(1). The report shall be provided to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

“(g) **SAVINGS CLAUSE.**—Nothing in this section authorizes the Secretary to provide any financial assistance for the construction of housing.”

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 53 of title 49, United States Code, is amended by inserting after the item relating to section 5327 the following:

“5328. Transit-supportive communities.”

(c) **TECHNICAL AND CONFORMING AMENDMENT.**—Section 20005 of the MAP-21 (Public Law 112-141) is amended—

(1) by striking “(a) **AMENDMENT.**—”; and

(2) by striking subsection (b).

#### **SEC. 2702. PROPERTY DISPOSITION FOR AFFORDABLE HOUSING.**

Section 5334(h)(1) of title 49, United States Code, is amended to read as follows:

“(1) **IN GENERAL.**—If a recipient of assistance under this chapter decides an asset acquired under this chapter at least in part with that assistance is no longer needed for the purpose for which such asset was acquired, the Secretary

may authorize the recipient to transfer such asset to—

“(A) a local governmental authority to be used for a public purpose with no further obligation to the Government if the Secretary decides—

“(i) the asset will remain in public use for at least 5 years after the date the asset is transferred;

“(ii) there is no purpose eligible for assistance under this chapter for which the asset should be used;

“(iii) the overall benefit of allowing the transfer is greater than the interest of the Government in liquidation and return of the financial interest of the Government in the asset, after considering fair market value and other factors; and

“(iv) through an appropriate screening or survey process, that there is no interest in acquiring the asset for Government use if the asset is a facility or land; or

“(B) a local governmental authority, nonprofit organization, or other third party entity to be used for the purpose of transit-oriented development with no further obligation to the Government if the Secretary decides—

“(i) the asset is a necessary component of a proposed transit-oriented development project;

“(ii) the transit-oriented development project will increase transit ridership;

“(iii) at least 40 percent of the housing units offered in the transit-oriented development, including housing units owned by nongovernmental entities, are legally binding affordability restricted to tenants with incomes at or below 60 percent of the area median income and/or owners with incomes at or below 60 percent the area median income;

“(iv) the asset will remain in use as described in this section for at least 30 years after the date the asset is transferred; and

“(v) with respect to a transfer to a third party entity—

“(I) a local government authority or nonprofit organization is unable to receive the property; and

“(II) the overall benefit of allowing the transfer is greater than the interest of the Government in liquidation and return of the financial interest of the Government in the asset, after considering fair market value and other factors.

“(III) the third party has demonstrated a satisfactory history of construction or operating an affordable housing development.”

#### **SEC. 2703. AFFORDABLE HOUSING INCENTIVES IN CAPITAL INVESTMENT GRANTS.**

Section 5309 of title 49, United States Code, is amended—

(1) in subsection (g)—

(A) in paragraph (2)(B)—

(i) in clause (i) by striking “; and” and inserting a semicolon;

(ii) in clause (ii) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(iii) in the case of a new fixed guideway capital project or a core capacity improvement project, allow a weighting five points greater to the economic development subfactor and five points lesser to the lowest scoring subfactor if the applicant demonstrates substantial efforts to preserve or encourage affordable housing near the project by providing documentation of policies that allow by-right multi-family housing, single room occupancy units, or accessory dwelling units, providing local capital sources for transit-oriented development, or demonstrate other methods as determined by the Secretary.”; and

(B) in paragraph (3), as amended by this Act, by adding at the end the following:

“(B) establish a warrant that applies to the economic development project justification criteria, provided that the applicant that requests a warrant under this process has completed and submitted a housing feasibility assessment.”; and

(2) in subsection (l)(4)—

(A) in subparagraph (B) by striking “; or” and inserting a semicolon;

(B) in subparagraph (C) by striking the period and inserting “; or”; and

(C) by adding at the end the following:

“(D) from grant proceeds distributed under section 103 of the Housing and Community Development Act of 1974 (42 U.S.C. 5303) or section 201 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3141) provided that—

“(i) such funds are used in conjunction with the planning or development of affordable housing; and

“(ii) such affordable housing is located within one-half of a mile of a new station.”.

#### **Subtitle H—Innovation**

#### **SEC. 2801. MOBILITY INNOVATION SANDBOX PROGRAM.**

Section 5312(d) of title 49, United States Code, is amended by adding at the end the following:

“(3) **MOBILITY INNOVATION SANDBOX PROGRAM.**—The Secretary may make funding available under this subsection to carry out research on mobility on demand and mobility as a service activities eligible under section 5316.”

#### **SEC. 2802. TRANSIT BUS OPERATOR COMPARTMENT REDESIGN PROGRAM.**

Section 5312(d) of title 49, United States Code, is further amended by adding at the end the following:

“(4) **TRANSIT BUS OPERATOR COMPARTMENT REDESIGN PROGRAM.**—

“(A) **IN GENERAL.**—The Secretary may make funding available under this subsection to carry out research on redesigning transit bus operator compartments to improve safety, operational efficiency, and passenger accessibility.

“(B) **OBJECTIVES.**—Research objectives under this paragraph shall include—

“(i) increasing bus operator safety from assaults;

“(ii) optimizing operator visibility and reducing operator distractions to improve safety of bus passengers, pedestrians, bicyclists, and other roadway users;

“(iii) expanding passenger accessibility for positive interactions between operators and passengers, including assisting passengers in need of special assistance;

“(iv) accommodating compliance for passenger boarding, alighting, and securement with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.); and

“(v) improving ergonomics to reduce bus operator work-related health issues and injuries, as well as locate key instrument and control interfaces to improve operational efficiency and convenience.

“(C) **ACTIVITIES.**—Eligible activities under this paragraph shall include—

“(i) measures to reduce visibility impairments and distractions for bus operators that contribute to accidents, including retrofits to buses in revenue service and specifications for future procurements that reduce visibility impairments and distractions;

“(ii) the deployment of assault mitigation infrastructure and technology on buses, including barriers to restrict the unwanted entry of individuals and objects into bus operators’ workstations;

“(iii) technologies to improve passenger accessibility, including boarding, alighting, and securement in compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

“(iv) installation of seating and modification to design specifications of bus operator workstations that reduce or prevent injuries from ergonomic risks; or

“(v) other measures that align with the objectives under subparagraph (B).

“(D) **ELIGIBLE ENTITIES.**—Entities eligible to receive funding under this paragraph shall include consortia consisting of, at a minimum:

“(i) recipients of funds under this chapter that provide public transportation services;

“(ii) transit vehicle manufacturers;  
 “(iii) representatives from organizations engaged in collective bargaining on behalf of transit workers in not fewer than 3 States; and  
 “(iv) any nonprofit institution of higher education, as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).”.

**SEC. 2803. FEDERAL TRANSIT ADMINISTRATION EVERY DAY COUNTS INITIATIVE.**

Section 5312 of title 49, United States Code, as amended by section 2503, is further amended by adding at the end the following:

“(k) EVERY DAY COUNTS INITIATIVE.—

“(1) IN GENERAL.—It is in the national interest for the Department of Transportation and recipients of Federal public transportation funds—

“(A) to identify, accelerate, and deploy innovation aimed at expediting project delivery, enhancing the safety of transit systems of the United States, and protecting the environment;

“(B) to ensure that the planning, design, engineering, construction, and financing of transportation projects is done in an efficient and effective manner;

“(C) to promote the rapid deployment of proven solutions that provide greater accountability for public investments; and

“(D) to create a culture of innovation within the transit community.

“(2) FTA EVERY DAY COUNTS INITIATIVE.—To advance the policies described in paragraph (1), the Administrator of the Federal Transit Administration shall adopt the Every Day Counts initiative to work with recipients to identify and deploy the proven innovation practices and products that—

“(A) accelerate innovation deployment;

“(B) expedite the project delivery process;

“(C) improve environmental sustainability;

“(D) enhance transit safety;

“(E) expand mobility; and

“(F) reduce greenhouse gas emissions.

“(3) CONSIDERATION.—In accordance with the Every Day Counts goals described in paragraphs (1) and (2), the Administrator shall consider research conducted through the university transportation centers program in section 5505.

“(4) INNOVATION DEPLOYMENT.—

“(A) IN GENERAL.—At least every 2 years, the Administrator shall work collaboratively with recipients to identify a new collection of innovations, best practices, and data to be deployed to recipients through case studies, webinars, and demonstration projects.

“(B) REQUIREMENTS.—In identifying a collection described in subparagraph (A), the Secretary shall take into account market readiness, impacts, benefits, and ease of adoption of the innovation or practice.

“(5) PUBLICATION.—Each collection identified under paragraph (4) shall be published by the Administrator on a publicly available website.”.

**SEC. 2804. TECHNICAL CORRECTIONS.**

Section 5312 of title 49, United States Code, as amended in section 2503 and 2803, is further amended—

(1) in subsection (e)—

(A) in paragraph (3)(C) by striking “low or no emission vehicles, zero emission vehicles,” and inserting “zero emission vehicles”; and

(B) by striking paragraph (6) and inserting the following:

“(6) ZERO EMISSION VEHICLE DEFINED.—In this subsection, the term ‘zero emission vehicle’ means a passenger vehicle used to provide public transportation that produces no carbon or particulate matter.”;

(2) by redesignating the first subsection (g) as subsection (f); and

(3) in subsection (h)—

(A) in the header by striking “LOW OR NO EMISSION” and inserting “ZERO EMISSION”;

(B) in paragraph (1)—

(i) by striking subparagraph (B) and inserting the following:

“(B) the term ‘zero emission vehicle’ has the meaning given such term in subsection (e)(6);”;

and

(ii) in subparagraph (D) by striking “low or no emission vehicle” and inserting “zero emission vehicle” each place such term appears;

(C) in paragraph (2)—

(i) in the heading by striking “LOW OR NO EMISSION” and inserting “ZERO EMISSION”; and

(ii) by striking “low or no emission” and inserting “zero emission” each place such term appears;

(D) in paragraph (3) by striking “low or no emission” and inserting “zero emission” each place such term appears; and

(E) in paragraph (5)(A) by striking “low or no emission” and inserting “zero emission”.

**SEC. 2805. NATIONAL ADVANCED TECHNOLOGY TRANSIT BUS DEVELOPMENT PROGRAM.**

(a) ESTABLISHMENT.—The Secretary shall establish a national advanced technology transit bus development program to facilitate the development and testing of commercially viable advanced technology transit buses that do not exceed a Level 3 automated driving system and related infrastructure.

(b) AUTHORIZATION.—There shall be available \$20,000,000 for each of fiscal years 2021 through 2025.

(c) GRANTS.—The Secretary may enter into grants, contracts, and cooperative agreements with no more than 3 geographically diverse nonprofit organizations and recipients under chapter 53 of title 49, United States Code, to facilitate the development and testing of commercially viable advanced technology transit buses and related infrastructure.

(d) CONSIDERATIONS.—The Secretary shall consider the applicant’s—

(1) ability to contribute significantly to furthering advanced technologies as it relates to transit bus operations, including advanced driver assistance systems, automatic emergency braking, accessibility, and energy efficiency;

(2) financing plan and cost share potential;

(3) technical experience developing or testing advanced technologies in transit buses;

(4) commitment to frontline worker involvement; and

(5) other criteria that the Secretary determines are necessary to carry out the program.

The Secretary shall not consider applicants working on autonomous vehicles.

(e) COMPETITIVE GRANT SELECTION.—The Secretary shall conduct a national solicitation for applications for grants under the program. Grant recipients shall be selected on a competitive basis. The Secretary shall give priority consideration to applicants that have successfully managed advanced transportation technology projects, including projects related to public transportation operations for a period of not less than 5 years.

(f) CONSORTIA.—As a condition of receiving an award in (c), the Secretary shall ensure—

(1) that the selected non-profit recipients subsequently establish a consortia for each proposal submitted, including representatives from a labor union, transit agency, an FTA-designated university bus and component testing center, a Buy America compliant transit bus manufacturer, and others as determined by the Secretary;

(2) that no proposal selected would decrease workplace or passenger safety; and

(3) that no proposal selected would undermine the creation of high-quality jobs or workforce support and development programs.

(g) FEDERAL SHARE.—The Federal share of costs of the program shall be provided from funds made available to carry out this section. The Federal share of the cost of a project carried out under the program shall not exceed 80 percent of such cost.

**Subtitle I—Other Program Reauthorizations**

**SEC. 2901. REAUTHORIZATION FOR CAPITAL AND PREVENTIVE MAINTENANCE PROJECTS FOR WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY.**

Section 601 of the Passenger Rail Investment and Improvement Act of 2008 (Public Law 110-432) is amended—

(1) in subsection (b) by striking “The Federal” and inserting “Except as provided in subsection (f)(2), the Federal”;

(2) by striking subsections (d) through (f) and inserting the following:

“(d) REQUIRED BOARD APPROVAL.—No amounts may be provided to the Transit Authority under this section until the Transit Authority certifies to the Secretary of Transportation that—

“(1) a board resolution has passed on or before July 1, 2021, and is in effect for the period of July 1, 2022 through June 30, 2031, that—

“(A) establishes an independent budget authority for the Office of Inspector General of the Transit Authority;

“(B) establishes an independent procurement authority for the Office of Inspector General of the Transit Authority;

“(C) establishes an independent hiring authority for the Office of Inspector General of the Transit Authority;

“(D) ensures the Inspector General of the Transit Authority can obtain legal advice from a counsel reporting directly to the Inspector General;

“(E) requires the Inspector General of the Transit Authority to submit recommendations for corrective action to the General Manager and the Board of Directors of the Transit Authority;

“(F) requires the Inspector General of the Transit Authority to publish any recommendation described in subparagraph (E) on the website of the Office of Inspector General of the Transit Authority, except that the Inspector General may redact personally identifiable information and information that, in the determination of the Inspector General, would pose a security risk to the systems of the Transit Authority;

“(G) requires the Board of Directors of the Transit Authority to provide written notice to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate not less than 30 days before the Board of Directors removes the Inspector General of the Transit Authority, which shall include the reasons for removal and supporting documentation; and

“(H) prohibits the Board of Directors from removing the Inspector General of the Transit Authority unless the Board of Directors has provided a 30 day written notification as described in subparagraph (G) that documents—

“(i) a permanent incapacity;

“(ii) a neglect of duty;

“(iii) malfeasance;

“(iv) a conviction of a felony or conduct involving moral turpitude;

“(v) a knowing violation of a law or regulation;

“(vi) gross mismanagement;

“(vii) a gross waste of funds;

“(viii) an abuse of authority; or

“(ix) inefficiency; and

“(2) the Code of Ethics for Members of the WMATA Board of Directors passed on September 26, 2019, remains in effect, or the Inspector General of the Transit Authority has consulted with any modifications to the Code of Ethics by the Board.

“(e) AUTHORIZATIONS.—

“(1) IN GENERAL.—There are authorized to be appropriated to the Secretary of Transportation for grants under this section—

“(A) for fiscal year 2021, \$150,000,000;

“(B) for fiscal year 2022, \$155,000,000;

“(C) for fiscal year 2023, \$160,000,000;“(D) for fiscal year 2024, \$165,000,000;“(E) for fiscal year 2025, \$170,000,000;“(F) for fiscal year 2026, \$175,000,000;“(G) for fiscal year 2027, \$180,000,000;“(H) for fiscal year 2028, \$185,000,000;“(I) for fiscal year 2029, \$190,000,000; and“(J) for fiscal year 2030, \$200,000,000.

“(2) SET ASIDE FOR OFFICE OF INSPECTOR GENERAL OF TRANSIT AUTHORITY.—From the amounts in paragraph (1), the Transit Authority shall provide at least 7 percent for each fiscal year to the Office of Inspector General of the Transit Authority to carry out independent and objective audits, investigations, and reviews of Transit Authority programs and operations to promote economy, efficiency, and effectiveness, and to prevent and detect fraud, waste, and abuse in such programs and operations.”; and

(3) by redesignating subsection (g) as subsection (f).

#### SEC. 2902. OTHER APPORTIONMENTS.

Section 5336 of title 49, United States Code, is amended—

(1) in subsection (h)—

(A) in the matter preceding paragraph (1) by striking “section 5336(a)(2)(C)” and inserting “section 5336(a)(2)(B)”;

(B) by amending paragraph (1) to read as follows:

“(1) to carry out section 5307(h)—

“(A) \$60,906,000 shall be set aside in fiscal year 2022;

“(B) \$61,856,134 shall be set aside in fiscal year 2023;

“(C) \$62,845,832 shall be set aside in fiscal year 2024; and

“(D) \$63,832,511 shall be set aside in fiscal year 2025.”;

(C) in paragraph (2) by striking “3.07 percent” and inserting “6 percent”; and

(D) by amending paragraph (3) to read as follows:

“(3) of amounts not apportioned under paragraphs (1) and (2), 3 percent shall be apportioned to urbanized areas with populations of less than 200,000 in accordance with subsection (i).”; and

(2) in subsection (i) by adding at the end the following:

“(C) CENSUS PHASE-OUT.—Before apportioning funds under subsection (h)(3), for any urbanized area that is no longer an eligible area due to a change in population in the most recent decennial census, the Secretary shall apportion to such urbanized area, for 3 fiscal years, an amount equal to half of the funds apportioned to such urbanized area pursuant to this subsection for the previous fiscal year.”.

#### Subtitle J—Streamlining

#### SEC. 2911. FIXED GUIDEWAY CAPITAL INVESTMENT GRANTS.

Section 5309 of title 49, United States Code, as amended by section 2703 of this Act, is further amended—

(1) in subsection (a)—

(A) by striking paragraph (6);

(B) by redesignating paragraph (7) as paragraph (6); and

(C) in paragraph (6), as so redesignated;

(i) in subparagraph (A) by striking “\$100,000,000” and inserting “\$320,000,000”; and

(ii) in subparagraph (B) by striking “\$300,000,000” and inserting “\$400,000,000”;

(2) in subsection (b)(2) by inserting “expanding station capacity,” after “construction of infill stations.”;

(3) in subsection (d)(1)—

(A) in subparagraph (C)(i) by striking “2 years” and inserting “3 years”; and

(B) by adding at the end the following:

“(D) OPTIONAL PROJECT DEVELOPMENT ACTIVITIES.—An applicant may perform cost and schedule risk assessments with technical assistance provided by the Secretary.

“(E) STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as authorizing

the Secretary to require cost and schedule risk assessments in the project development phase.”;

(4) in subsection (e)(1)—

(A) in subparagraph (C)(i) by striking “2 years” and inserting “3 years”; and

(B) by adding at the end the following:

“(D) OPTIONAL PROJECT DEVELOPMENT ACTIVITIES.—An applicant may perform cost and schedule risk assessments with technical assistance provided by the Secretary.

“(E) STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as authorizing the Secretary to require cost and schedule risk assessments in the project development phase.”;

(5) in subsection (e)(2)(A)(iii)(II) by striking “5 years” and inserting “10 years”;

(6) in subsection (f)—

(A) in paragraph (1) by striking “subsection (d)(2)(A)(v)” and inserting “subsection (d)(2)(A)(iv)”;

(B) in paragraph (2)—

(i) by striking “subsection (d)(2)(A)(v)” and inserting “subsection (d)(2)(A)(iv)”;

(ii) in subparagraph (D) by adding “and” at the end;

(iii) by striking subparagraph (E); and

(iv) by redesignating subparagraph (F) as subparagraph (E); and

(C) by adding at the end the following:

“(3) COST-SHARE INCENTIVES.—For a project for which a lower CIG cost share is elected by the applicant under subsection (l)(1)(C), the Secretary shall apply the following requirements and considerations in lieu of paragraphs (1) and (2):

“(A) REQUIREMENTS.—In determining whether a project is supported by local financial commitment and shows evidence of stable and dependable financing sources for purposes of subsection (d)(2)(A)(iv) or (e)(2)(A)(v), the Secretary shall require that—

“(i) the proposed project plan provides for the availability of contingency amounts that the applicant determines to be reasonable to cover unanticipated cost increases or funding shortfalls;

“(ii) each proposed local source of capital and operating financing is stable, reliable, and available within the proposed project timetable; and

“(iii) an applicant certifies that local resources are available to recapitalize, maintain, and operate the overall existing and proposed public transportation system, including essential feeder bus and other services necessary to achieve the projected ridership levels without requiring a reduction in existing public transportation services or level of service to operate the project.

“(B) CONSIDERATIONS.—In assessing the stability, reliability, and availability of proposed sources of local financing for purposes of subsection (d)(2)(A)(iv) or (e)(2)(A)(v), the Secretary shall consider—

“(i) the reliability of the forecasting methods used to estimate costs and revenues made by the recipient and the contractors to the recipient;

“(ii) existing grant commitments;

“(iii) any debt obligation that exists, or is proposed by the recipient, for the proposed project or other public transportation purpose; and

“(iv) private contributions to the project, including cost-effective project delivery, management or transfer of project risks, expedited project schedule, financial partnering, and other public-private partnership strategies.

(7) in subsection (g)—

(A) in paragraph (2)(A) by striking “degree of local financial commitment” and inserting “criteria in subsection (f)” each place it appears;

(B) in paragraph (3) by striking “The Secretary shall” and all that follows through the end and inserting the following: “The Secretary shall—

“(A) to the maximum extent practicable, develop and use special warrants for making a project justification determination under subsection (d)(2) or (e)(2), as applicable, for a project proposed to be funded using a grant under this section if—

“(i) the share of the cost of the project to be provided under this section—

“(I) does not exceed \$500,000,000 and the total project cost does not exceed \$1,000,000,000; or

“(II) complies with subsection (l)(1)(C);

“(ii) the applicant requests the use of the warrants;

“(iii) the applicant certifies that its existing public transportation system is in a state of good repair; and

“(iv) the applicant meets any other requirements that the Secretary considers appropriate to carry out this subsection; and”;

(C) by striking paragraph (5) and inserting the following:

“(5) POLICY GUIDANCE.—The Secretary shall issue policy guidance on the review and evaluation process and criteria not later than 180 days after the date of enactment of the INVEST in America Act.”;

(D) by striking paragraph (6) and inserting the following:

“(6) TRANSPARENCY.—Not later than 30 days after the Secretary receives a written request from an applicant for all remaining information necessary to obtain 1 or more of the following, the Secretary shall provide such information to the applicant:

“(A) Project advancement.

“(B) Medium or higher rating.

“(C) Warrant.

“(D) Letter of intent.

“(E) Early systems work agreement.”; and

(E) in paragraph (7) by striking “the Federal Public Transportation Act of 2012” and inserting “the INVEST in America Act”;

(8) in subsection (h)—

(A) in paragraph (5) by inserting “, except that for a project for which a lower local cost share is elected under subsection (l)(1)(C), the Secretary shall enter into a grant agreement under this subsection for any such project that establishes contingency amounts that the applicant determines to be reasonable to cover unanticipated cost increases or funding shortfalls” before the period at the end; and

(B) in paragraph (7)(C) by striking “10 days” and inserting “3 days”;

(9) by striking subsection (i) and inserting the following:

“(i) INTERRELATED PROJECTS.—

“(1) RATINGS IMPROVEMENT.—The Secretary shall grant a rating increase of 1 level in mobility improvements to any project being rated under subsection (d), (e), or (h), if the Secretary certifies that the project has a qualifying interrelated project that meets the requirements of paragraph (2).

“(2) INTERRELATED PROJECT.—A qualifying interrelated project is a transit project that—

“(A) is adopted into the metropolitan transportation plan required under section 5303;

“(B) has received a class of action designation under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

“(C) will likely increase ridership on the project being rated in subsection (d), (e), or (h), respectively, as determined by the Secretary; and

“(D) meets 1 of the following criteria:

“(i) Extends the corridor of the project being rated in subsection (d), (e), or (h), respectively.

“(ii) Provides a direct passenger transfer to the project being rated in subsection (d), (e), or (h), respectively.”;

(10) in subsection (k)—

(A) in paragraph (2)(D) by adding at the end the following:

“(v) LOCAL FUNDING COMMITMENT.—For a project for which a lower CIG cost share is elected by the applicant under subsection (l)(1)(C), the Secretary shall enter into a full funding grant agreement that has at least 75 percent of local financial commitment committed and the remaining percentage budgeted for the proposed purposes.”; and

(B) in paragraph (5) by striking “30 days” and inserting “3 days”;

(11) in subsection (l)—

(A) in paragraph (1) by striking subparagraph (B) and inserting the following:

“(B) CAP.—Except as provided in subparagraph (C), a grant for a project under this section shall not exceed 80 percent of the net capital project cost, except that a grant for a core capacity improvement project shall not exceed 80 percent of the net capital project cost of the incremental cost to increase the capacity in the corridor.”

“(C) APPLICANT ELECTION OF LOWER LOCAL CIG COST SHARE.—An applicant may elect a lower local CIG cost share for a project under this section for purposes of application of the cost-share incentives under subsection (f)(3). Such cost share shall not exceed 60 percent of the net capital project cost, except that for a grant for a core capacity improvement project such cost share shall not exceed 60 percent of the net capital project cost of the incremental cost to increase the capacity in the corridor.”;

(B) by striking paragraph (5) and inserting the following:

“(5) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as authorizing the Secretary to require, incentivize (in any manner not specified in this section), or place additional conditions upon a non-Federal financial commitment for a project that is more than 20 percent of the net capital project cost or, for a core capacity improvement project, 20 percent of the net capital project cost of the incremental cost to increase the capacity in the corridor.”; and

(C) by striking paragraph (8) and inserting the following:

“(8) CONTINGENCY SHARE.—The Secretary shall provide funding for the contingency amount equal to the proportion of the CIG cost share. If the Secretary increases the contingency amount after a project has received a letter of no prejudice or been allocated appropriated funds, the federal share of the additional contingency amount shall be 25 percent higher than the original proportion the CIG cost share and in addition to the grant amount set in subsection (k)(2)(C)(ii).”;

(12) in subsection (o) by adding at the end the following:

“(4) CIG PROGRAM DASHBOARD.—Not later than the fifth day of each month, the Secretary shall make publicly available on a website data on, including the status of, each project under this section that is in the project development phase, in the engineering phase, or has received a grant agreement and remains under construction. Such data shall include, for each project—

“(A) the amount and fiscal year of any funding appropriated, allocated, or obligated for the project;

“(B) the date on which the project—

“(i) entered the project development phase;

“(ii) entered the engineering phase, if applicable; and

“(iii) received a grant agreement, if applicable; and

“(C) the status of review by the Federal Transit Administration and the Secretary, including dates of request, dates of acceptance of request, and dates of a decision for each of the following, if applicable:

“(i) A letter of no prejudice.

“(ii) An environmental impact statement notice of intent.

“(iii) A finding of no significant environmental impact.

“(iv) A draft environmental impact statement.

“(v) A final environmental impact statement.

“(vi) A record of decision on the final environmental impact statement; and

“(vii) The status of the applicant in securing the non-Federal match, based on information provided by the applicant, including the amount committed, budgeted, planned, and undetermined.

(13) by striking “an acceptable degree of” and inserting “a” each place it appears; and

(14) by adding at the end the following:

“(r) PUBLICATION.—

“(1) PUBLICATION.—The Secretary shall publish a record of decision on all projects in the New Starts tranche of the program within 2 years of receiving a project's draft environmental impact statement or update or change to such statement.

“(2) FAILURE TO ISSUE RECORD OF DECISION.—For each calendar month beginning on or after the date that is 12 months after the date of enactment of the INVEST in America Act in which the Secretary has not published a record of decision for the final environmental impact statement on projects in the New Starts tranche for at least 1 year, the Secretary shall reduce the full-time equivalent employees within the immediate office of the Secretary by 1.”.

#### SEC. 2912. RURAL AND SMALL URBAN APPORTIONMENT DEADLINE.

Section 5336(d) of title 49, United States Code, is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following:

“(2) notwithstanding paragraph (1), apportion amounts to the States appropriated under section 5338(a)(2) to carry out sections 5307, 5310, and 5311 not later than December 15 for which any amounts are appropriated; and”.

#### SEC. 2913. DISPOSITION OF ASSETS BEYOND USEFUL LIFE.

Section 5334 of title 49, United States Code, is further amended by adding at the end the following:

“(1) DISPOSITION OF ASSETS BEYOND USEFUL LIFE.—

“(1) IN GENERAL.—If a recipient, or subrecipient, for assistance under this chapter disposes of an asset with a current market value, or proceed from the sale of such asset, acquired under this chapter at least in part with such assistance, after such asset has reached the useful life of such asset, the Secretary shall allow the recipient, or subrecipient, to use the proceeds attributable to the Federal share of such asset calculated under paragraph (3) for capital projects under section 5307, 5310, or 5311.

“(2) MINIMUM VALUE.—This subsection shall only apply to assets with a current market value, or proceeds from sale, of at least \$5,000.

“(3) CALCULATION OF FEDERAL SHARE ATTRIBUTABLE.—The proceeds attributable to the Federal share of an asset described in paragraph (1) shall be calculated by multiplying—

“(A) the current market value of, or the proceeds from the disposition of, such asset; by

“(B) the Federal share percentage for the acquisition of such asset at the time of acquisition of such asset.”.

#### SEC. 2914. INNOVATIVE COORDINATED ACCESS AND MOBILITY.

Section 5310 of title 49, United States Code, as amended by section 2205, is further amended by adding at the end the following:

“(k) INNOVATIVE COORDINATED ACCESS AND MOBILITY.—

“(1) START UP GRANTS.—

“(A) IN GENERAL.—The Secretary may make grants under this paragraph to eligible recipients to assist in financing innovative projects for the transportation disadvantaged that improve the coordination of transportation services and non-emergency medical transportation services.

“(B) APPLICATION.—An eligible recipient shall submit to the Secretary an application that, at a minimum, contains—

“(i) a detailed description of the eligible project;

“(ii) an identification of all eligible project partners and the specific role of each eligible project partner in the eligible project, including—

“(I) private entities engaged in the coordination of nonemergency medical transportation services for the transportation disadvantaged;

“(II) nonprofit entities engaged in the coordination of nonemergency medical transportation services for the transportation disadvantaged; or

“(III) Federal and State entities engaged in the coordination of nonemergency medical transportation services for the transportation disadvantaged; and

“(iii) a description of how the eligible project shall—

“(I) improve local coordination or access to coordinated transportation services;

“(II) reduce duplication of service, if applicable; and

“(III) provide innovative solutions in the State or community.

“(C) PERFORMANCE MEASURES.—An eligible recipient shall specify, in an application for a grant under this paragraph, the performance measures the eligible project, in coordination with project partners, will use to quantify actual outcomes against expected outcomes, including—

“(i) changes to transportation expenditures as a result of improved coordination;

“(ii) changes to healthcare expenditures provided by projects partners as a result of improved coordination; and

“(iii) changes to health care metrics, including aggregate health outcomes provided by projects partners.

“(D) ELIGIBLE USES.—Eligible recipients receiving a grant under this section may use such funds for—

“(i) the deployment of coordination technology;

“(ii) projects that create or increase access to community One-Call/One-Click Centers;

“(iii) projects that coordinate transportation for 3 or more of—

“(I) public transportation provided under this section;

“(II) a State plan approved under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.);

“(III) title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.);

“(IV) Veterans Health Administration; or

“(V) private health care facilities; and

“(iv) such other projects as determined appropriate by the Secretary.

“(E) CONSULTATION.—In evaluating the performance metrics described in subparagraph (C), the Secretary shall consult with the Secretary of Health and Human Services.

“(2) INCENTIVE GRANTS.—

“(A) IN GENERAL.—The Secretary may make grants under this paragraph to eligible recipients to incentivize innovative projects for the transportation disadvantaged that improve the coordination of transportation services and non-emergency medical transportation services.

“(B) SELECTION OF GRANT RECIPIENTS.—The Secretary shall distribute grant funds made available to carry out this paragraph as described in subparagraph (E) to eligible recipients that apply and propose to demonstrate improvement in the metrics described in subparagraph (F).

“(C) ELIGIBILITY.—An eligible recipient shall not be required to have received a grant under paragraph (1) to be eligible to receive a grant under this paragraph.

“(D) APPLICATIONS.—Eligible recipients shall submit to the Secretary an application that includes—

“(i) which metrics under subparagraph (F) the eligible recipient intends to improve;

“(ii) the performance data eligible recipients and the Federal, State, nonprofit, and private partners, as described in paragraph (1)(B)(ii), of the eligible recipient will make available; and

“(iii) a proposed incentive formula that makes payments to the eligible recipient based on the proposed data and metrics.

“(E) DISTRIBUTION.—The Secretary shall distribute funds made available to carry out this paragraph based upon the number of grant applications approved by the Secretary, number of

individuals served by each grant, and the incentive formulas approved by the Secretary using the following metrics:

“(i) The reduced transportation expenditures as a result of improved coordination.

“(ii) The reduced Federal and State healthcare expenditures using the metrics described in subparagraph (F).

“(iii) The reduced private healthcare expenditures using the metrics described in subparagraph (F).

“(F) HEALTHCARE METRICS.—Healthcare metrics described in this subparagraph shall be—

“(i) reducing missed medical appointments;

“(ii) the timely discharge of patients from hospitals;

“(iii) preventing hospital admissions and reducing readmissions of patients into hospitals; and

“(iv) other measureable healthcare metrics, as determined appropriate by the Secretary, in consultation with the Secretary of Health and Human Services.

“(G) ELIGIBLE EXPENDITURES.—The Secretary shall allow the funds distributed by this grant program to be expended on eligible activities described in paragraph (1)(D) and any eligible activity under this section that is likely to improve the metrics described in subparagraph (F).

“(H) RECIPIENT CAP.—The Secretary—

“(i) may not provide more than 20 grants under this paragraph; and

“(ii) shall reduce the maximum number of grants under this paragraph to ensure projects are fully funded, if necessary.

“(I) CONSULTATION.—In evaluating the health care metrics described in subparagraph (F), the Secretary shall consult with the Secretary of Health and Human Services.

“(J) ANNUAL GRANTEE REPORT.—Each grantee shall submit a report, in coordination with the project partners of such grantee, that includes an evaluation of the outcomes of the grant awarded to such grantee, including the performance measures.

“(3) REPORT.—The Secretary shall make publicly available an annual report on the program carried out under this subsection for each fiscal year, not later than December 31 of the calendar year in which that fiscal year ends. The report shall include a detailed description of the activities carried out under the program, and an evaluation of the program, including an evaluation of the performance measures used by eligible recipients in consultation with the Secretary of Health and Human Services.

“(4) FEDERAL SHARE.—

“(A) IN GENERAL.—The Federal share of the costs of a project carried out under this subsection shall not exceed 80 percent.

“(B) NON-FEDERAL SHARE.—The non-Federal share of the costs of a project carried out under this subsection may be derived from in-kind contributions.

“(5) RULE OF CONSTRUCTION.—For purposes of this subsection, nonemergency medical transportation services shall be limited to services eligible under Federal programs other than programs authorized under this chapter.”

#### SEC. 2915. PASSENGER FERRY GRANTS.

Section 5307(h) of title 49, United States Code, is amended by adding at the end the following paragraph:

“(4) ZERO-EMISSION OR REDUCED-EMISSION GRANTS.—

“(A) DEFINITIONS.—In this paragraph—

“(i) the term ‘eligible project’ means a project or program of projects in an area eligible for a grant under subsection (a) for—

“(I) acquiring zero- or reduced-emission passenger ferries;

“(II) leasing zero- or reduced-emission passenger ferries;

“(III) constructing facilities and related equipment for zero- or reduced-emission passenger ferries;

“(IV) leasing facilities and related equipment for zero- or reduced-emission passenger ferries;

“(V) constructing new public transportation facilities to accommodate zero- or reduced-emission passenger ferries;

“(VI) constructing shoreside ferry charging infrastructure for zero- or reduced-emission passenger ferries; or

“(VII) rehabilitating or improving existing public transportation facilities to accommodate zero- or reduced-emission passenger ferries;

“(ii) the term ‘zero- or reduced-emission passenger ferry’ means a passenger ferry used to provide public transportation that reduces emissions by utilizing onboard energy storage systems for hybrid-electric or 100 percent electric propulsion, related charging infrastructure, and other technologies deployed to reduce emissions or produce zero onboard emissions under normal operation; and

“(iii) the term ‘recipient’ means a designated recipient, a local government authority, or a State that receives a grant under subsection (a).

“(B) GENERAL AUTHORITY.—The Secretary may make grants to recipients to finance eligible projects under this paragraph.

“(C) GRANT REQUIREMENTS.—A grant under this paragraph shall be subject to the same terms and conditions as a grant under subsection (a).

“(D) COMPETITIVE PROCESS.—The Secretary shall solicit grant applications and make grants for eligible projects under this paragraph on a competitive basis.

“(E) GOVERNMENT SHARE OF COSTS.—

“(i) IN GENERAL.—The Federal share of the cost of an eligible project carried out under this paragraph shall not exceed 80 percent.

“(ii) NON-FEDERAL SHARE.—The non-Federal share of the cost of an eligible project carried out under this subsection may be derived from in-kind contributions.”

#### SEC. 2916. EVALUATION OF BENEFITS AND FEDERAL INVESTMENT.

Section 5309(h)(4) of title 49, United States Code, is amended by inserting “, the extent to which the project improves transportation options to economically distressed areas,” after “public transportation”.

### TITLE III—HIGHWAY TRAFFIC SAFETY

#### SEC. 3001. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following sums are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) HIGHWAY SAFETY PROGRAMS.—For carrying out section 402 of title 23, United States Code—

(A) \$378,400,000 for fiscal year 2022;

(B) \$382,400,000 for fiscal year 2023;

(C) \$386,500,000 for fiscal year 2024; and

(D) \$390,400,000 for fiscal year 2025.

(2) HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.—For carrying out section 403 of title 23, United States Code—

(A) \$182,495,000 for fiscal year 2022;

(B) \$184,795,000 for fiscal year 2023;

(C) \$187,795,000 for fiscal year 2024; and

(D) \$190,695,000 for fiscal year 2025.

(3) NATIONAL PRIORITY SAFETY PROGRAMS.—For carrying out section 405 of title 23, United States Code—

(A) \$384,119,000 for fiscal year 2022;

(B) \$393,205,000 for fiscal year 2023;

(C) \$402,205,000 for fiscal year 2024; and

(D) \$411,388,000 for fiscal year 2025.

(4) NATIONAL DRIVER REGISTER.—For the National Highway Traffic Safety Administration to carry out chapter 303 of title 49, United States Code—

(A) \$5,700,000 for fiscal year 2022;

(B) \$5,800,000 for fiscal year 2023;

(C) \$5,900,000 for fiscal year 2024; and

(D) \$6,000,000 for fiscal year 2025.

(5) HIGH-VISIBILITY ENFORCEMENT PROGRAM.—For carrying out section 404 of title 23, United States Code—

(A) \$60,200,000 for fiscal year 2022;

(B) \$60,600,000 for fiscal year 2023;

(C) \$60,800,000 for fiscal year 2024; and

(D) \$61,200,000 for fiscal year 2025.

(6) ADMINISTRATIVE EXPENSES.—For administrative and related operating expenses of the National Highway Traffic Safety Administration in carrying out chapter 4 of title 23, United States Code—

(A) \$30,586,000 for fiscal year 2022;

(B) \$31,000,000 for fiscal year 2023;

(C) \$31,500,000 for fiscal year 2024; and

(D) \$31,917,000 for fiscal year 2025.

(b) PROHIBITION ON OTHER USES.—Except as otherwise provided in chapter 4 of title 23, United States Code, and chapter 303 of title 49, United States Code, the amounts made available from the Highway Trust Fund (other than the Mass Transit Account) for a program under such chapters—

(1) shall only be used to carry out such program; and

(2) may not be used by States or local governments for construction purposes.

(c) APPLICABILITY OF TITLE 23.—Except as otherwise provided in chapter 4 of title 23, United States Code, and chapter 303 of title 49, United States Code, amounts made available under subsection (a) for fiscal years 2022 through 2025 shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code.

(d) REGULATORY AUTHORITY.—Grants awarded under chapter 4 of title 23, United States Code, including any amendments made by this title, shall be carried out in accordance with regulations issued by the Secretary of Transportation.

(e) STATE MATCHING REQUIREMENTS.—If a grant awarded under chapter 4 of title 23, United States Code, requires a State to share in the cost, the aggregate of all expenditures for highway safety activities made during a fiscal year by the State and its political subdivisions (exclusive of Federal funds) for carrying out the grant (other than planning and administration) shall be available for the purpose of crediting the State during such fiscal year for the non-Federal share of the cost of any other project carried out under chapter 4 of title 23, United States Code (other than planning or administration), without regard to whether such expenditures were made in connection with such project.

(f) GRANT APPLICATION AND DEADLINE.—To receive a grant under chapter 4 of title 23, United States Code, a State shall submit an application, and the Secretary of Transportation shall establish a single deadline for such applications to enable the award of grants early in the next fiscal year.

#### SEC. 3002. HIGHWAY SAFETY PROGRAMS.

Section 402 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (2)(A)—

(i) in clause (ii) by striking “occupant protection devices (including the use of safety belts and child restraint systems)” and inserting “seatbelts”;

(ii) in clause (vii) by striking “; and” and inserting a semicolon; and

(iii) by inserting after clause (viii) the following:

“(ix) to encourage more widespread and proper use of child safety seats (including booster seats) with an emphasis on underserved populations;

“(x) to reduce injuries and deaths resulting from drivers of motor vehicles not moving to another traffic lane or reducing the speed of such driver’s vehicle when law enforcement, fire service, emergency medical services, and other emergency vehicles are stopped or parked on or next to a roadway with emergency lights activated; and

“(xi) to increase driver awareness of the dangers of pediatric vehicular hyperthermia;”;

(B) by adding at the end the following:

“(3) **ADDITIONAL CONSIDERATIONS.**—States which have legalized medicinal or recreational marijuana shall consider programs in addition to the programs described in paragraph (2)(A) to educate drivers on the risks associated with marijuana-impaired driving and to reduce injuries and deaths resulting from individuals driving motor vehicles while impaired by marijuana.”;

(2) in subsection (c)(4)—

(A) by striking subparagraph (C);

(B) by redesignating subparagraph (B) as subparagraph (D); and

(C) by inserting after subparagraph (A) the following:

“(B) **SPECIAL RULE FOR SCHOOL AND WORK ZONES.**—Notwithstanding subparagraph (A), a State may expend funds apportioned to that State under this section to carry out a program to purchase, operate, or maintain an automated traffic system in a work zone or school zone.

“(C) **AUTOMATED TRAFFIC ENFORCEMENT SYSTEM GUIDELINES.**—Any automated traffic enforcement system installed pursuant to subparagraph (B) shall comply with speed enforcement camera systems and red light camera systems guidelines established by the Secretary.”; and

(3) in subsection (n)—

(A) by striking “**PUBLIC TRANSPARENCY**” and all that follows through “**The Secretary**” and inserting the following: “**PUBLIC TRANSPARENCY.**—

“(1) **IN GENERAL.**—The Secretary”; and

(B) by adding at the end the following:

“(2) **STATE HIGHWAY SAFETY PLAN WEBSITE.**—

“(A) **IN GENERAL.**—In carrying out the requirements of paragraph (1), the Secretary shall establish a public website that is easily accessible, navigable, and searchable for the information required under paragraph (1), in order to foster greater transparency in approved State highway safety programs.

“(B) **CONTENTS.**—The website established under subparagraph (A) shall—

“(i) include each State highway safety plan and annual report submitted and approved by the Secretary under subsection (k);

“(ii) provide a means for the public to search such website for State highway safety program content required in subsection (k), including—

“(I) performance measures required by the Secretary under paragraph (3)(A);

“(II) progress made toward meeting the State’s performance targets for the previous year;

“(III) program areas and expenditures; and

“(IV) a description of any sources of funds other than funds provided under this section that the State proposes to use to carry out the State highway safety plan of such State.”.

### SEC. 3003. **TRAFFIC SAFETY ENFORCEMENT GRANTS.**

Section 402 of title 23, United States Code, as amended by section 3002 of this Act, is further amended by inserting after subsection (k) the following:

“(1) **TRAFFIC SAFETY ENFORCEMENT GRANTS.**—

“(1) **GENERAL AUTHORITY.**—Subject to the requirements under this subsection, the Secretary shall award grants to States for the purpose of carrying out top-rated traffic safety enforcement countermeasures to reduce traffic-related injuries and fatalities.

“(2) **EFFECTIVE COUNTERMEASURE DEFINED.**—In this subsection, the term ‘effective countermeasure’ means a countermeasure rated 3, 4, or 5 stars in the most recent edition of the National Highway Traffic Safety Administration’s Countermeasures That Work highway safety guide.

“(3) **FUNDING.**—Notwithstanding the apportionment formula set forth in section 402(c)(2), the Secretary shall set aside \$35,000,000 of the funds made available under this section for each fiscal year to be allocated among up to 10 States.

“(4) **SELECTION CRITERIA.**—The Secretary shall select up to 10 applicants based on the following criteria:

“(A) A preference for applicants who are geographically diverse.

“(B) A preference for applicants with a higher average number of traffic fatalities per vehicle mile traveled.

“(C) A preference for applicants whose activities under subparagraphs (A) and (B) of paragraph (6) are expected to have the greatest impact on reducing traffic-related fatalities and injuries, as determined by the Secretary.

“(5) **ELIGIBILITY.**—A State may receive a grant under this subsection in a fiscal year if the State demonstrates, to the satisfaction of the Secretary, that the State is able to meet the requirements in paragraph (6).

“(6) **REQUIREMENTS.**—In order to receive funds, a State must establish an agreement with the Secretary to—

“(A) identify areas with the highest risk of traffic fatalities and injuries;

“(B) determine the most effective countermeasures to implement in those areas, with priority given to countermeasures rated above 3 stars; and

“(C) report annual data under uniform reporting requirements established by the Secretary, including—

“(i) traffic citations, arrests, and other interventions made by law enforcement, including such interventions that did not result in arrest or citation;

“(ii) the increase in traffic safety enforcement activity supported by these funds; and

“(iii) any other metrics the Secretary determines appropriate to determine the success of the grant.

“(7) **USE OF FUNDS.**—

“(A) **IN GENERAL.**—Grant funds received by a State under this subsection may be used for—

“(i) implementing effective countermeasures determined under paragraph (6); and

“(ii) law enforcement-related expenses, such as officer training, overtime, technology, and equipment, if the Secretary determines effective countermeasures have been implemented successfully and the Secretary provides approval.

“(B) **BROADCAST AND PRINT MEDIA.**—Up to 5 percent of grant funds received by a State under this subsection may be used for the development, production, and use of broadcast and print media advertising in carrying out traffic safety law enforcement efforts under this subsection.

“(8) **ALLOCATION.**—Grant funds allocated to a State under this subsection for a fiscal year shall be in proportion to the State’s apportionment under subsection (c)(2) for the fiscal year.

“(9) **MAINTENANCE OF EFFORT.**—No grant may be made to a State in any fiscal year under this subsection unless the State enters into such an agreement with the Secretary, as the Secretary may require, to ensure that the State will maintain its aggregate expenditures from all State and local sources for activities carried out in accordance with this subsection at or above the average level of expenditures in the 2 fiscal years preceding the date of enactment of this subsection.

“(10) **ANNUAL EVALUATION AND REPORT TO CONGRESS.**—The Secretary shall conduct an annual evaluation of the effectiveness of grants awarded under this subsection and shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate an annual report on the effectiveness of the grants.”.

### SEC. 3004. **HIGHWAY SAFETY RESEARCH AND DEVELOPMENT.**

Section 403 of title 23, United States Code, is amended—

(1) in subsection (b) by inserting “, training,” after “demonstration projects”;

(2) in subsection (f)(1)—

(A) by striking “\$2,500,000” and inserting “\$3,500,000”; and

(B) by striking “subsection 402(c) in each fiscal year ending before October 1, 2015, and \$443,989 of the total amount available for appor-

tionment to the States for highway safety programs under section 402(c) in the period beginning on October 1, 2015, and ending on December 4, 2015,” and inserting “section 402(c)(2) in each fiscal year”; and

(3) by striking subsection (h) and redesignating subsections (i) and (j) as subsections (h) and (i), respectively.

### SEC. 3005. **GRANT PROGRAM TO PROHIBIT RACIAL PROFILING.**

Section 403 of title 23, United States Code, as amended by section 3004 of this Act, is further amended by adding at the end the following:

“(j) **GRANT PROGRAM TO PROHIBIT RACIAL PROFILING.**—

“(1) **GENERAL AUTHORITY.**—Subject to the requirements of this subsection, the Secretary shall make grants to a State that—

“(A) is maintaining and allows public inspection of statistical information for each motor vehicle stop made by a law enforcement officer on a Federal-aid highway in the State regarding the race and ethnicity of the driver; or

“(B) provides assurances satisfactory to the Secretary that the State is undertaking activities to comply with the requirements of subparagraph (A).

“(2) **USE OF GRANT FUNDS.**—A grant received by a State under paragraph (1) shall be used by the State for the costs of—

“(A) collecting and maintaining data on traffic stops; and

“(B) evaluating the results of such data.

“(3) **LIMITATIONS.**—

“(A) **MAXIMUM AMOUNT OF GRANTS.**—The total amount of grants made to a State under this section in a fiscal year may not exceed 5 percent of the amount made available to carry out this section in the fiscal year.

“(B) **ELIGIBILITY.**—On or after October 1, 2022, a State may not receive a grant under paragraph (1)(B) in more than 2 fiscal years.

“(4) **FUNDING.**—

“(A) **IN GENERAL.**—From funds made available under this section, the Secretary shall set aside \$7,500,000 for each fiscal year to carry out this subsection.

“(B) **OTHER USES.**—The Secretary may reallocate, before the last day of any fiscal year, amounts remaining available under subparagraph (A) to increase the amounts made available to carry out any other activities authorized under this section in order to ensure, to the maximum extent possible, that all such amounts are obligated during such fiscal year.”.

### SEC. 3006. **HIGH-VISIBILITY ENFORCEMENT PROGRAM.**

Section 404 of title 23, United States Code, is amended—

(1) in subsection (a) by striking “3 campaigns will be carried out in each of fiscal years 2016 through 2020” and inserting “6 campaigns will be carried out in each of fiscal years 2022 through 2025”;

(2) in subsection (b)—

(A) in paragraph (1) by striking “or drug-impaired”;

(B) in paragraph (2) by striking “Increase use of seatbelts” and inserting “Increase proper use of seatbelts and child restraints”;

(C) by redesignating paragraph (2) as paragraph (3);

(D) by inserting after paragraph (1) the following:

“(2) Reduce drug-impaired operation of motor vehicles.”; and

(E) by adding at the end the following:

“(4) Reduce texting through a personal wireless communications device by drivers while operating a motor vehicle.

“(5) Reduce violations of move over laws of a State that require motorists to change lanes or slow down when law enforcement, fire service, emergency medical services and other emergency vehicles are stopped or parked on or next to a roadway with emergency lights activated.”;

(3) by redesignating subsections (e) and (f) as subsections (g) and (h), respectively;

(4) by inserting after subsection (d) the following:

“(e) **FREQUENCY.**—Each campaign administered under this section shall occur not less than once in each of fiscal years 2022 through 2025 with the exception of campaigns to reduce alcohol-impaired operation of motor vehicles which shall occur not less than twice in each of fiscal years 2022 through 2025.

“(f) **COORDINATION OF DYNAMIC HIGHWAY MESSAGE SIGNS.**—During the time a State is carrying out a campaign, the Secretary shall coordinate with States carrying out the campaigns under this section on the use of dynamic highway message signs to support national high-visibility advertising and education efforts associated with the campaigns.”; and

(5) in subsection (g), as so redesignated—

(A) by redesignating paragraph (2) as paragraph (3);

(B) by inserting after paragraph (1) the following:

“(2) **DYNAMIC HIGHWAY MESSAGE SIGN.**—The term ‘dynamic highway message sign’ means a traffic control device that is capable of displaying one or more alternative messages which convey information to occupants of motor vehicles.”; and

(C) by adding at the end the following:

“(4) **TEXTING.**—The term ‘texting’ has the meaning given such term in section 405(e).”.

#### **SEC. 3007. NATIONAL PRIORITY SAFETY PROGRAMS.**

(a) **IN GENERAL.**—Section 405 of title 23, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking “13 percent” and inserting “12.85 percent”;

(B) in paragraph (2) by striking “14.5 percent” and inserting “14.3 percent”;

(C) in paragraph (3) by striking “52.5 percent” and inserting “51.75 percent”;

(D) in paragraph (4) by striking “8.5 percent” and inserting “8.3 percent”;

(E) in paragraph (6) by striking “5 percent” and inserting “4.9 percent”;

(F) in paragraph (7) by striking “5 percent” and inserting “4.9 percent”;

(G) in paragraph (8)—

(i) by striking “paragraphs (1) through (7)” and inserting “paragraphs (1) through (8)”;

(ii) by striking “subsection (b) through (h)” and inserting “subsections (b) through (i)”;

(iii) by inserting “to carry out any of the other activities described in such subsections, or the amount made available” before “under section 402(c)(2)”;

(H) in paragraph (9)(A) by striking “date of enactment of the FAST Act” and inserting “date of enactment of the INVEST in America Act”;

(I) by redesignating paragraphs (8) and (9) as paragraphs (9) and (10), respectively; and

(J) by inserting after paragraph (7) the following:

“(8) **DRIVER AND OFFICER SAFETY EDUCATION.**—In each fiscal year, 1.5 percent of the funds provided under this section shall be allocated among States that meet the requirements with respect to driver and officer safety education (as described in subsection (i)).”;

(2) in subsection (c)(3)(E) by striking “5” and inserting “10”;

(3) in subsection (b)(4)—

(A) in subparagraph (A) by striking clause (v) and inserting the following:

“(v) implement programs in low-income and underserved populations to—

“(I) recruit and train occupant protection safety professionals, nationally certified child passenger safety technicians, police officers, fire and emergency medical personnel, and educators serving low-income and underserved populations;

“(II) educate parents and caregivers in low-income and underserved populations about the proper use and installation of child safety seats; and

“(III) purchase and distribute child safety seats to low-income and underserved populations; and”;

(B) in subparagraph (B)—

(i) by striking “100 percent” and inserting “90 percent”;

(ii) by adding at the end the following: “The remaining 10 percent of such funds shall be used to carry out subsection (A)(v).”;

(4) by striking subsection (c)(4) and inserting the following:

“(4) **USE OF GRANT AMOUNTS.**—Grant funds received by a State under this subsection shall be used for—

“(A) making data program improvements to core highway safety databases related to quantifiable, measurable progress in any of the 6 significant data program attributes set forth in paragraph (3)(D);

“(B) developing or acquiring programs to identify, collect, and report data to State and local government agencies, and enter data, including crash, citation and adjudication, driver, emergency medical services or injury surveillance system, roadway, and vehicle, into the core highway safety databases of a State;

“(C) purchasing equipment to improve processes by which data is identified, collected, and reported to State and local government agencies;

“(D) linking core highway safety databases of a State with such databases of other States or with other data systems within the State, including systems that contain medical, roadway, and economic data;

“(E) improving the compatibility and interoperability of the core highway safety databases of the State with national data systems and data systems of other States;

“(F) enhancing the ability of a State and the Secretary to observe and analyze local, State, and national trends in crash occurrences, rates, outcomes, and circumstances;

“(G) supporting traffic records-related training and related expenditures for law enforcement, emergency medical, judicial, prosecutorial, and traffic records professionals;

“(H) hiring traffic records professionals, including a Fatality Analysis Reporting System liaison for a State; and

“(I) conducting research on State traffic safety information systems, including developing and evaluating programs to improve core highway safety databases of such State and processes by which data is identified, collected, reported to State and local government agencies, and entered into such core safety databases.”;

(5) by striking subsection (d)(6)(A) and inserting the following:

“(A) **GRANTS TO STATES WITH ALCOHOL-IGNITION INTERLOCK LAWS.**—The Secretary shall make a separate grant under this subsection to each State that—

“(i) adopts and is enforcing a mandatory alcohol-ignition interlock law for all individuals arrested or convicted of driving under the influence of alcohol or of driving while intoxicated;

“(ii) does not allow any individual arrested or convicted of driving under the influence of alcohol or driving while intoxicated to drive a motor vehicle unless such individual installs an ignition interlock for a minimum 6-month interlock period; or

“(iii) has—

“(I) enacted and is enforcing a state law requiring all individuals convicted of, or whose driving privilege is revoked or denied for, refusing to submit to a chemical or other test for the purpose of determining the presence or concentration of any intoxicating substance to install an ignition interlock for a minimum 6-month interlock period; and

“(II) a compliance-based removal program in which an individual arrested or convicted of driving under the influence of alcohol or driving while intoxicated shall install an ignition interlock for a minimum 6-month interlock period and have completed a minimum consecutive period of not less than 40 percent of the required

interlock period immediately preceding the date of release, without a confirmed violation of driving under the influence of alcohol or driving while intoxicated.”;

(6) in subsection (e)—

(A) in paragraph (1) by striking “paragraphs (2) and (3)” and inserting “paragraph (2)”;

(B) in paragraph (4)—

(i) by striking “paragraph (2) or (3)” and inserting “paragraph (3) or (4)”;

(ii) in subparagraph (A) by striking “communications device to contact emergency services” and inserting “communications device during an emergency to contact emergency services or to prevent injury to persons or property”;

(iii) in subparagraph (C) by striking “; and” and inserting a semicolon;

(iv) by redesignating subparagraph (D) as subparagraph (E); and

(v) by inserting after subparagraph (C) the following:

“(D) a driver who uses a personal wireless communication device for navigation; and”;

(C) in paragraph (5)(A)(i) by striking “texting or using a cell phone while” and inserting “distracted”;

(D) in paragraph (7) by striking “Of the amounts” and inserting “In addition to the amounts authorized under section 404 and of the amounts”;

(E) in paragraph (9)—

(i) by striking subparagraph (B) and inserting the following:

“(B) **PERSONAL WIRELESS COMMUNICATIONS DEVICE.**—The term ‘personal wireless communications device’ means—

“(i) until the date on which the Secretary issues a regulation pursuant to paragraph (8)(A), a device through which personal services (as such term is defined in section 332(c)(7)(C)(i) of the Communications Act of 1934 (47 U.S.C. 332(c)(7)(C)(i)) are transmitted, but not including the use of such a device as a global navigation system receiver used for positioning, emergency notification, or navigation purposes; and

“(ii) on and after the date on which the Secretary issues a regulation pursuant to paragraph (8)(A), the definition described in such regulation.”;

(ii) by striking subparagraph (E) and inserting the following:

“(E) **TEXTING.**—The term ‘texting’ means—

“(i) until the date on which the Secretary issues a regulation pursuant to paragraph (8)(A), reading from or manually entering data into a personal wireless communications device, including doing so for the purpose of SMS texting, emailing, instant messaging, or engaging in any other form of electronic data retrieval or electronic data communication; and

“(ii) on and after the date on which the Secretary issues a regulation pursuant to paragraph (8)(A), the definition described in such regulation.”;

(F) by striking paragraphs (2), (3), (6), and (8);

(G) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively;

(H) by inserting after paragraph (1) the following:

“(2) **ALLOCATION.**—

“(A) **IN GENERAL.**—Subject to subparagraphs (B) and (C), the allocation of grant funds to a State under this subsection for a fiscal year shall be in proportion to the State’s apportionment under section 402 for fiscal year 2009.

“(B) **PRIMARY OFFENSE LAWS.**—A State that has enacted and is enforcing a law that meets the requirements set forth in paragraphs (3) and (4) as a primary offense shall be allocated 100 percent of the amount calculated under subparagraph (A).

“(C) **SECONDARY OFFENSE LAWS.**—A State that has enacted and is enforcing a law that meets the requirements set forth in paragraphs (3) and (4) as a secondary offense shall be allocated 50 percent of the amount calculated under subparagraph (A).

“(3) **PROHIBITION ON HANDHELD PERSONAL WIRELESS COMMUNICATION DEVICE USE WHILE DRIVING.**—A State law meets the requirements set forth in this paragraph if the law—

“(A) prohibits a driver from holding or using, including texting, a personal wireless communications device while driving, except for the use of a personal wireless communications device—

“(i) in a hands-free manner or with a hands-free accessory, or

“(ii) to activate or deactivate a feature or function of the personal wireless communications device;

“(B) establishes a fine for a violation of the law; and

“(C) does not provide for an exemption that specifically allows a driver to hold or use a personal wireless communication device while stopped in traffic.

“(4) **PROHIBITION ON PERSONAL WIRELESS COMMUNICATION DEVICE USE WHILE DRIVING OR STOPPED IN TRAFFIC.**—A State law meets the requirements set forth in this paragraph if the law—

“(A) prohibits a driver from holding or using a personal wireless communications device while driving if the driver is—

“(i) younger than 18 years of age; or

“(ii) in the learner's permit or intermediate license stage described in subparagraph (A) or (B) of subsection (g)(2);

“(B) establishes a fine for a violation of the law; and

“(C) does not provide for an exemption that specifically allows a driver to use a personal wireless communication device while stopped in traffic.”; and

(I) by inserting after paragraph (7) the following:

“(8) **RULEMAKING.**—Not later than 1 year after the date of enactment of this paragraph, the Secretary shall issue such regulations as are necessary to account for diverse State approaches to combating distracted driving that—

“(A) defines the terms personal wireless communications device and texting for the purposes of this subsection; and

“(B) determines additional permitted exceptions that are appropriate for a State law that meets the requirements under paragraph (3) or (4).”;

(7) in subsection (g)—

(A) in paragraph (1) by inserting “subparagraphs (A) and (B) of” before “paragraph (2)”; (B) by striking paragraph (2) and inserting the following:

“(2) **MINIMUM REQUIREMENTS.**—

“(A) **TIER 1 STATE.**—A State shall be eligible for a grant under this subsection as a Tier 1 State if such State requires novice drivers younger than 18 years of age to comply with a 2-stage graduated driver licensing process before receiving an unrestricted driver's license that includes—

“(i) a learner's permit stage that—

“(I) is at least 180 days in duration;

“(II) requires that the driver be accompanied and supervised at all times; and

“(III) has a requirement that the driver obtain at least 40 hours of behind-the-wheel training with a supervisor; and

“(ii) an intermediate stage that—

“(I) commences immediately after the expiration of the learner's permit stage;

“(II) is at least 180 days in duration; and

“(III) for the first 180 days of the intermediate stage, restricts the driver from—

“(aa) driving at night between the hours of 11:00 p.m. and at least 4:00 a.m. except—

“(AA) when a parent, guardian, driving instructor, or licensed driver who is at least 21 years of age is in the motor vehicle; and

“(BB) when driving to and from work, school and school-related activities, religious activities, for emergencies, or as a member of voluntary emergency service; and

“(bb) operating a motor vehicle with more than 1 nonfamilial passenger younger than 18

years of age, except when a parent, guardian, driving instructor, or licensed driver who is at least 21 years of age is in the motor vehicle.

“(B) **TIER 2 STATE.**—A State shall be eligible for a grant under this subsection as a Tier 2 State if such State requires novice drivers younger than 18 years of age to comply with a 2-stage graduated driver licensing process before receiving an unrestricted driver's license that includes—

“(i) a learner's permit stage that—

“(I) is at least 180 days in duration;

“(II) requires that the driver be accompanied and supervised at all times; and

“(III) has a requirement that the driver obtain at least 50 hours of behind-the-wheel training, with at least 10 hours at night, with a supervisor; and

“(ii) an intermediate stage that—

“(I) commences immediately after the expiration of the learner's permit stage;

“(II) is at least 180 days in duration; and

“(III) for the first 180 days of the intermediate stage, restricts the driver from—

“(aa) driving at night between the hours of 10:00 p.m. and at least 4:00 a.m. except—

“(AA) when a parent, guardian, driving instructor, or licensed driver who is at least 21 years of age is in the motor vehicle; and

“(BB) when driving to and from work, school and school-related activities, religious activities, for emergencies, or as a member of voluntary emergency service; and

“(bb) operating a motor vehicle with any nonfamilial passenger younger than 18 years of age, except when a parent, guardian, driving instructor, or licensed driver who is at least 21 years of age is in the motor vehicle.”;

(C) in paragraph (3)—

(i) in subparagraph (A) by inserting “subparagraphs (A) and (B) of” before “paragraph (2)”; and

(ii) in subparagraph (B) by inserting “subparagraphs (A) and (B) of” before “paragraph (2)” each place such term appears;

(D) in paragraph (4) by striking “such fiscal year” and inserting “fiscal year 2009”; and

(E) by striking paragraph (5) and inserting the following:

“(5) **USE OF FUNDS.**—

“(A) **TIER 1 STATES.**—A Tier 1 State shall use grant funds provided under this subsection for—

“(i) enforcing a 2-stage licensing process that complies with paragraph (2);

“(ii) training for law enforcement personnel and other relevant State agency personnel relating to the enforcement described in clause (i);

“(iii) publishing relevant educational materials that pertain directly or indirectly to the State graduated driver licensing law;

“(iv) carrying out other administrative activities that the Secretary considers relevant to the State's 2-stage licensing process; or

“(v) carrying out a teen traffic safety program described in section 402(m).

“(B) **TIER 2 STATES.**—Of the grant funds made available to a Tier 2 State under this subsection—

“(i) 25 percent shall be used for any activity described in subparagraph (A); and

“(ii) 75 percent may be used for any project or activity eligible under section 402.”; and

(8) by adding at the end the following:

“(i) **DRIVER AND OFFICER SAFETY EDUCATION.**—

“(I) **GENERAL AUTHORITY.**—Subject to the requirements under this subsection, the Secretary shall award grants to—

“(A) States that enact a commuter safety education program; and

“(B) States qualifying under paragraph (5)(A).

“(2) **FEDERAL SHARE.**—The Federal share of the costs of activities carried out using amounts from a grant awarded under this subsection may not exceed 80 percent.

“(3) **ELIGIBILITY.**—To be eligible for a grant under this subsection, a State shall enact a law or adopt a program that requires the following:

“(A) **DRIVER EDUCATION AND DRIVING SAFETY COURSES.**—Inclusion, in driver education and driver safety courses provided to individuals by educational and motor vehicle agencies of the State, of instruction and testing concerning law enforcement practices during traffic stops, including information on—

“(i) the role of law enforcement and the duties and responsibilities of peace officers;

“(ii) an individual's legal rights concerning interactions with peace officers;

“(iii) best practices for civilians and peace officers during such interactions;

“(iv) the consequences for an individual's or officer's failure to comply with those laws and programs; and

“(v) how and where to file a complaint against or a compliment on behalf of a peace officer.

“(B) **PEACE OFFICER TRAINING PROGRAMS.**—Development and implementation of a training program, including instruction and testing materials, for peace officers and reserve law enforcement officers (other than officers who have received training in a civilian course described in subparagraph (A)) with respect to proper interaction with civilians during traffic stops.

“(4) **GRANT AMOUNT.**—The allocation of grant funds to a State under this subsection for a fiscal year shall be in proportion to the State's apportionment under section 402 for fiscal year 2009.

“(5) **SPECIAL RULE FOR CERTAIN STATES.**—

“(A) **QUALIFYING STATE.**—A State qualifies pursuant to this subparagraph if—

“(i) the Secretary determines such State has taken meaningful steps toward the full implementation of a law or program described in paragraph (3);

“(ii) the Secretary determines such State has established a timetable for the implementation of such a law or program; and

“(iii) such State has received a grant pursuant to this subsection for a period of not more than 5 years.

“(B) **WITHHOLDING.**—With respect to a State that qualifies pursuant to subparagraph (A), the Secretary shall—

“(i) withhold 50 percent of the amount that such State would otherwise receive if such State were a State described in paragraph (1)(A); and

“(ii) direct any such amounts for distribution among the States that are enforcing and carrying out a law or program described in paragraph (3).

“(6) **USE OF GRANT AMOUNTS.**—A State receiving a grant under this subsection may use such grant—

“(A) for the production of educational materials and training of staff for driver education and driving safety courses and peace officer training described in paragraph (3); and

“(B) for the implementation of the law described in paragraph (3).”.

(b) **CONFORMING AMENDMENT.**—Sections 402, 403, and 405 of title 23, United States Code, are amended—

(1) by striking “accidents” and inserting “crashes” each place it appears; and

(2) by striking “accident” and inserting “crash” each place it appears.

#### **SEC. 3008. MINIMUM PENALTIES FOR REPEAT OFFENDERS FOR DRIVING WHILE INTOXICATED OR DRIVING UNDER THE INFLUENCE.**

Section 164(b)(1) of title 23, United States Code, is amended—

(1) in subparagraph (A) by striking “alcohol-impaired” and inserting “alcohol or polysubstance-impaired”; and

(2) in subparagraph (B)—

(A) by striking “alcohol-impaired” and inserting “alcohol or polysubstance-impaired”; and

(B) by striking “or” and inserting a comma; and

(C) by inserting “, or driving while polysubstance-impaired” after “driving under the influence”.

**SEC. 3009. NATIONAL PRIORITY SAFETY PROGRAM GRANT ELIGIBILITY.**

Section 4010(2) of the FAST Act (23 U.S.C. 405 note) is amended by striking “deficiencies” and inserting “all deficiencies”.

**SEC. 3010. IMPLICIT BIAS RESEARCH AND TRAINING GRANTS.**

(a) **IN GENERAL.**—The Secretary of Transportation shall make grants to institutions of higher education (as such term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001) for research and training in the operation or establishment of an implicit bias training program as it relates to racial profiling at traffic stops.

(b) **QUALIFICATIONS.**—To be eligible for a grant under this section, an institution of higher education shall—

(1) have an active research program or demonstrate, to the satisfaction of the Secretary, that the applicant is beginning a research program to study implicit bias as it relates to racial profiling before and during traffic stops; and

(2) partner with State and local police departments to conduct the research described in paragraph (1) and carry out the implementation of implicit bias training with State and local police departments.

(c) **REPORT.**—No later than 1 year after a grant has been awarded under this section, the institution of higher education awarded the grant shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report summarizing the research on implicit bias as it relates to racial profiling before and during traffic stops, and recommendations on effective interventions and trainings.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated \$10,000,000 for each fiscal year to carry out this section.

(e) **DEFINITIONS.**—In this section, the term “implicit bias training program” means a program that looks at the attitudes, stereotypes, and lenses human beings develop through various experiences in life that can unconsciously affect how they interact with one another.

**SEC. 3011. STOP MOTORCYCLE CHECKPOINT FUNDING.**

Section 4007 of the FAST Act (23 U.S.C. 153 note) is amended—

(1) in paragraph (1) by striking “or” at the end;

(2) in paragraph (2) by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following:

“(3) otherwise profile and stop motorcycle operators or motorcycle passengers using as a factor the clothing or mode of transportation of such operators or passengers.”.

**SEC. 3012. ELECTRONIC DRIVER'S LICENSE.**

(a) **REAL ID ACT.**—Section 202(a)(1) of the REAL ID Act of 2005 (49 U.S.C. 30301 note) is amended by striking “a driver's license or identification card” and inserting “a physical or digital driver's license or identification card”.

(b) **TITLE 18.**—Section 1028(d)(7)(A) of title 18, United States Code, is amended by striking “government issued driver's license” and inserting “government issued physical or digital driver's license”.

**SEC. 3013. MOTORCYCLIST ADVISORY COUNCIL.**

(a) **SHORT TITLE.**—This section may be cited as the “Motorcyclist Advisory Council Reauthorization Act”.

(b) **ESTABLISHMENT.**—Not later than 90 days after the date of enactment of this Act, the Secretary of Transportation shall establish a Motorcyclist Advisory Council (in this section referred to as the “Council”).

(c) **DUTIES.**—

(1) **ADVISING.**—The Council shall advise the Secretary, the Administrator of the National Highway Traffic Safety Administration, and the Administrator of the Federal Highway Adminis-

tration on transportation issues of concern to motorcyclists, including—

(A) barrier design;

(B) road design, construction, and maintenance practices; and

(C) the architecture and implementation of intelligent transportation system technologies.

(2) **BIENNIAL COUNCIL REPORT.**—

(A) **IN GENERAL.**—The Council shall submit a report to the Secretary containing the Council's recommendations regarding the issues described in paragraph (1) on which the Council provides advice pursuant to such paragraph.

(B) **TIMING.**—Not later than October 31 of the calendar year following the calendar year in which the Council is established, and by every 2nd October 31 thereafter, the Council shall submit the report required under this paragraph.

(d) **MEMBERSHIP.**—

(1) **IN GENERAL.**—The Council shall be comprised of 12 members appointed by the Secretary as follows:

(A) Five experts from State or local government on highway engineering issues, including—

(i) barrier design;

(ii) road design, construction, and maintenance; or

(iii) intelligent transportation systems.

(B) One State or local traffic and safety engineer, design engineer, or other transportation department official who is a motorcyclist.

(C) One representative from a national association of State transportation officials.

(D) One representative from a national motorcyclist association.

(E) One representative from a national motorcyclist foundation.

(F) One representative from a national motorcycle manufacturing association.

(G) One roadway safety data expert on crash testing and analysis.

(H) One member of a national safety organization that represents the traffic safety systems industry.

(2) **DURATION.**—

(A) **TERM.**—Subject to subparagraphs (B) and (C), each member shall serve one term of 2 years.

(B) **ADDITIONAL TERMS.**—If a successor is not designated for a member before the expiration of the term the member is serving, the member may serve another term.

(C) **APPOINTMENT OF REPLACEMENTS.**—If a member resigns before serving a full 2-year term, the Secretary may appoint a replacement for such member to serve the remaining portion such term. A member may continue to serve after resignation until a successor has been appointed. A vacancy in the Council shall be filled in the manner in which the original appointment was made.

(3) **COMPENSATION.**—Members shall serve without compensation.

(e) **TERMINATION.**—The Council shall terminate 6 years after the date of its establishment.

(f) **DUTIES OF THE SECRETARY.**—

(1) **ACCEPT OR REJECT RECOMMENDATION.**—

(A) **SECRETARY DETERMINES.**—The Secretary shall determine whether to accept or reject a recommendation contained in a Council report.

(B) **TIMING.**—

(i) **MUST ACCEPT OR REJECT.**—The Secretary must indicate in each report submitted under this section the Secretary's acceptance or rejection of each recommendation listed in such report.

(ii) **EXCEPTION.**—The Secretary may indicate in a report submitted under this section that a recommendation is under consideration. If the Secretary does so, the Secretary must accept or reject the recommendation in the next report submitted under this section.

(2) **REPORT.**—

(A) **IN GENERAL.**—Not later than 60 days after the Secretary receives a Council report, the Secretary shall submit a report to the following committees and subcommittees:

(i) The Committee on Transportation and Infrastructure of the House of Representatives.

(ii) The Committee on Environment and Public Works of the Senate.

(iii) The Committee on Commerce, Science, and Transportation of the Senate.

(iv) The Subcommittee on Transportation, and Housing and Urban Development, and Related Agencies of the Committee on Appropriations of the House of Representatives.

(v) The Subcommittee on Transportation, and Housing and Urban Development, and Related Agencies of the Committee on Appropriations of the Senate.

(B) **CONTENTS.**—A report submitted under this subsection shall include—

(i) a list containing—

(I) each recommendation contained in the Council report described in paragraph (1); and

(II) each recommendation indicated as under consideration in the previous report submitted under this subsection; and

(ii) for each such recommendation, whether it is accepted, rejected, or under consideration by the Secretary.

(3) **ADMINISTRATIVE AND TECHNICAL SUPPORT.**—The Secretary shall provide such administrative support, staff, and technical assistance to the Council as the Secretary determines to be necessary for the Council to carry out its duties.

(g) **DEFINITIONS.**—In this section:

(1) **COUNCIL REPORT.**—The term “Council report” means the report described in subsection (f)(2).

(2) **SECRETARY.**—The term “Secretary” means the Secretary of Transportation.

**SEC. 3014. REPORT ON MARIJUANA RESEARCH.**

(a) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation, in consultation with the Attorney General and the Secretary of Health and Human Services, shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make publicly available on the Department of Transportation website, a report and recommendations on—

(1) increasing and improving access, for scientific researchers studying impairment while driving under the influence of marijuana, to samples and strains of marijuana and products containing marijuana lawfully being offered to patients or consumers in a State on a retail basis;

(2) establishing a national clearinghouse to collect and distribute samples and strains of marijuana for scientific research that includes marijuana and products containing marijuana lawfully available to patients or consumers in a State on a retail basis;

(3) facilitating access, for scientific researchers located in States that have not legalized marijuana for medical or recreational use, to samples and strains of marijuana and products containing marijuana from such clearinghouse for purposes of research on marijuana-impaired driving; and

(4) identifying Federal statutory and regulatory barriers to the conduct of scientific research and the establishment of a national clearinghouse for purposes of facilitating research on marijuana-impaired driving.

(b) **DEFINITION OF MARIJUANA.**—In this section, the term “marijuana” has the meaning given such term in section 4008 of the FAST Act (Public Law 114-94).

**TITLE IV—MOTOR CARRIER SAFETY****Subtitle A—Motor Carrier Safety Grants, Operations, and Programs****SEC. 4101. MOTOR CARRIER SAFETY GRANTS.**

(a) **IN GENERAL.**—Section 31104 of title 49, United States Code, is amended—

(1) by striking subsection (a) and inserting the following:

“(a) **FINANCIAL ASSISTANCE PROGRAMS.**—The following sums are authorized to be appropriated from the Highway Trust Fund (other than the Mass Transit Account):

“(1) MOTOR CARRIER SAFETY ASSISTANCE PROGRAM.—Subject to paragraph (2) and subsection (c), to carry out section 31102 (except subsection (l))—

- “(A) \$388,950,000 for fiscal year 2022;
- “(B) \$398,700,000 for fiscal year 2023;
- “(C) \$408,900,000 for fiscal year 2024; and
- “(D) \$418,425,000 for fiscal year 2025.

“(2) HIGH-PRIORITY ACTIVITIES PROGRAM.—Subject to subsection (c), to carry out section 31102(l)—

- “(A) \$72,604,000 for fiscal year 2022;
- “(B) \$74,424,000 for fiscal year 2023;
- “(C) \$76,328,000 for fiscal year 2024; and
- “(D) \$78,106,000 for fiscal year 2025.

“(3) COMMERCIAL MOTOR VEHICLE OPERATORS GRANT PROGRAM.—To carry out section 31103—

- “(A) \$1,037,200 for fiscal year 2022;
- “(B) \$1,063,200 for fiscal year 2023;
- “(C) \$1,090,400 for fiscal year 2024; and
- “(D) \$1,115,800 for fiscal year 2025.

“(4) COMMERCIAL DRIVER'S LICENSE PROGRAM IMPLEMENTATION PROGRAM.—Subject to subsection (c), to carry out section 31313—

- “(A) \$56,008,800 for fiscal year 2022;
- “(B) \$57,412,800 for fiscal year 2023;
- “(C) \$58,881,600 for fiscal year 2024; and
- “(D) \$60,253,200 for fiscal year 2025.”;

(2) by striking subsection (c) and inserting the following:

“(c) PARTNER TRAINING AND PROGRAM SUPPORT.—

“(1) IN GENERAL.—On October 1 of each fiscal year, or as soon after that date as practicable, the Secretary may deduct from amounts made available under paragraphs (1), (2), and (4) of subsection (a) for that fiscal year not more than 1.50 percent of those amounts for partner training and program support in that fiscal year.

“(2) USE OF FUNDS.—The Secretary shall use at least 75 percent of the amounts deducted under paragraph (1) on training and related training materials for non-Federal Government employees.

“(3) PARTNERSHIP.—The Secretary shall carry out the training and development of materials pursuant to paragraph (2) in partnership with one or more nonprofit organizations, selected on a competitive basis, that have—

“(A) expertise in conducting a training program for non-Federal Government employees; and

“(B) a demonstrated ability to involve in a training program the target population of commercial motor vehicle safety enforcement employees.”;

(3) in subsection (f)—

(A) in paragraph (1) by striking “the next fiscal year” and inserting “the following 2 fiscal years”;

(B) in paragraph (2)—

(i) by striking “section 31102(l)(2)” and inserting “paragraphs (2) and (4) of section 31102(l)”;

(ii) by striking “the next 2 fiscal years” and inserting “the following 3 fiscal years”; and

(C) in paragraph (3) by striking “the next 4 fiscal years” and inserting “the following 5 fiscal years”; and

(4) by adding at the end the following:

“(j) TREATMENT OF REALLOCATIONS.—Amounts that are obligated and subsequently, after the date of enactment of this subsection, released back to the Secretary under subsection (i) shall not be subject to limitations on obligations provided under any other provision of law.”.

(b) COMMERCIAL DRIVER'S LICENSE PROGRAM IMPLEMENTATION FINANCIAL ASSISTANCE PROGRAM.—Section 31313(b) of title 49, United States Code, is amended—

(1) by striking the period at the end and inserting “; and”

(2) by striking “A recipient” and inserting the following: “In participating in financial assistance program under this section

“(1) a recipient”;

(3) by adding at the end the following:

“(2) a State may not receive more than \$250,000 in grants under subsection (a)(2) in any fiscal year—

“(A) in which the State prohibits private commercial driving schools or independent commercial driver's license testing facilities from offering a commercial driver's license skills test as a third-party tester; or

“(B) in which a State fails to report to the Administrator of the Federal Motor Carrier Safety Administration, during the previous fiscal year, the average number of days of delays for an initial commercial driver's license skills test or retest within the State.”.

#### SEC. 4102. MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS.

(a) IN GENERAL.—Section 31110 of title 49, United States Code, is amended by striking subsection (a) and inserting the following:

“(a) ADMINISTRATIVE EXPENSES.—There is authorized to be appropriated from the Highway Trust Fund (other than the Mass Transit Account) for the Secretary of Transportation to pay administrative expenses of the Federal Motor Carrier Safety Administration—

- “(1) \$380,500,000 for fiscal year 2022;
- “(2) \$381,500,000 for fiscal year 2023;
- “(3) \$382,500,000 for fiscal year 2024; and
- “(4) \$384,500,000 for fiscal year 2025.”.

(b) ADMINISTRATIVE EXPENSES.—

(1) USE OF FUNDS.—The Administrator of the Federal Motor Carrier Safety Administration shall use funds made available in subsection (a) for—

(A) acceleration of planned investments to modernize the Administration's information technology and information management systems;

(B) completing outstanding mandates;

(C) carrying out a Large Truck Crash Causal Factors Study of the Administration;

(D) construction and maintenance of border facilities; and

(E) other activities authorized under section 31110(b) of title 49, United States Code.

(2) DEFINITION OF OUTSTANDING MANDATE.—In this subsection, the term “outstanding mandate” means a requirement for the Federal Motor Carrier Safety Administration to issue regulations, undertake a comprehensive review or study, conduct a safety assessment, or collect data—

(A) under this Act;

(B) under MAP-21 (Public Law 112-141), that has not been published in the Federal Register, if required, or otherwise completed as of the date of enactment of this Act;

(C) under the FAST Act (Public Law 114-94), that has not been published in the Federal Register, if required, or otherwise completed as of the date of enactment of this Act; and

(D) under any other Act enacted before the date of enactment of this Act that has not been published in the Federal Register by the date required in such Act.

#### SEC. 4103. IMMOBILIZATION GRANT PROGRAM.

Section 31102(l) of title 49, United States Code, is amended—

(1) in paragraph (1) by striking “and (3)” and inserting “, (3), and (4)”;

(2) by adding at the end the following:

“(4) IMMOBILIZATION GRANT PROGRAM.—

“(A) IN GENERAL.—The Secretary shall establish an immobilization grant program to make discretionary grants to States for the immobilization or impoundment of passenger-carrying commercial motor vehicles if such vehicles are found to be unsafe or fail inspection.

“(B) CRITERIA FOR IMMOBILIZATION.—The Secretary, in consultation with State commercial motor vehicle entities, shall develop a list of commercial motor vehicle safety violations and defects that the Secretary determines warrant the immediate immobilization of a passenger-carrying commercial motor vehicle.

“(C) ELIGIBILITY.—A State is only eligible to receive a grant under this paragraph if such State has the authority to require the immobilization or impoundment of a passenger-carrying commercial motor vehicle if such vehicle is

found to have a violation or defect included in the list developed under subparagraph (B).

“(D) USE OF FUNDS.—Grant funds provided under this paragraph may be used for—

“(i) the immobilization or impoundment of passenger-carrying commercial motor vehicles found to have a violation or defect included in the list developed under subparagraph (B);

“(ii) safety inspections of such vehicles; and

“(iii) other activities related to the activities described in clauses (i) and (ii), as determined by the Secretary.

“(E) SECRETARY AUTHORIZATION.—The Secretary is authorized to award a State funding for the costs associated with carrying out an immobilization program with funds made available under section 31104(a)(2).

“(F) DEFINITION OF PASSENGER-CARRYING COMMERCIAL MOTOR VEHICLE.—In this paragraph, the term ‘passenger-carrying commercial motor vehicle’ has the meaning given the term commercial motor vehicle in section 31301.”.

#### Subtitle B—Motor Carrier Safety Oversight

#### SEC. 4201. MOTOR CARRIER SAFETY ADVISORY COMMITTEE.

Section 4144 of SAFETEA-LU (49 U.S.C. 31100 note) is amended—

(1) in subsection (b)(1) by inserting “, including small business motor carriers” after “industry”; and

(2) in subsection (d) by striking “September 30, 2013” and inserting “September 30, 2025”.

#### SEC. 4202. COMPLIANCE, SAFETY, ACCOUNTABILITY.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall implement a revised methodology to be used in the Compliance, Safety, Accountability program of the Federal Motor Carrier Safety Administration to identify and prioritize motor carriers for intervention, using the recommendations of the study required by section 5221(a) of the FAST Act (49 U.S.C. 31100 note).

(b) DATA AVAILABILITY.—The Secretary shall, in working toward implementation of the revised methodology described in subsection (a) prioritize revisions necessary to—

(1) restore the public availability of all relevant safety data under a revised methodology; and

(2) make such safety data publicly available that was made publicly available on the day before the date of enactment of the FAST Act, and make publicly available any safety data that was required to be made available by section 5223 of the FAST Act (49 U.S.C. 31100 note).

(c) IMPLEMENTATION.—

(1) PROGRESS REPORTS.—Not later than 30 days after the date of enactment of this Act, and every 90 days thereafter until the date on which the Secretary implements the revised methodology described in subsection (a), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make publicly available on a website of the Department of Transportation, a progress report on—

(A) the status of the revision of the methodology and related data modifications under subsection (a), a timeline for completion of such revision, and an estimated date for implementation of such revised methodology;

(B) an explanation for any delays in development or implementation of the revised methodology over the reporting period; and

(C) if the Secretary has not resumed making publicly available the data described in subsection (b), an updated timeline for the restoration of the public availability of data and a detailed explanation for why such restoration has not occurred.

(2) PUBLICATION AND NOTIFICATION.—Prior to commencing the use of the revised methodology described in subsection (a) to identify and

prioritize motor carriers for intervention (other than in a testing capacity), the Secretary shall—

(A) publish a detailed summary of the methodology in the Federal Register and provide a period for public comment; and

(B) notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, in writing.

(d) SAFETY FITNESS RULE.—

(1) RULEMAKING.—Not later than 1 year after the date on which the Secretary notifies Congress under subsection (c)(2), the Secretary shall issue final regulations pursuant to section 31144(b) of title 49, United States Code, to revise the methodology for issuance of motor carrier safety fitness determinations.

(2) CONSIDERATIONS.—In issuing the regulations under paragraph (1), the Secretary shall consider the use of all available data to determine the fitness of a motor carrier.

(e) REPEAL.—Section 5223 of the FAST Act (49 U.S.C. 31100 note), and the item related to such section in the table of contents in section 1(b) of such Act, are repealed.

#### SEC. 4203. TERMS AND CONDITIONS FOR EXEMPTIONS.

Section 31315 of title 49, United States Code, is amended—

(1) in subsection (b)—

(A) in paragraph (4)(A) by inserting “, including data submission requirements,” after “terms and conditions”; and

(B) by striking paragraph (8) and inserting the following:

“(8) TERMS AND CONDITIONS.—

“(A) IN GENERAL.—The Secretary shall establish terms and conditions for each exemption to ensure that the exemption will not likely degrade the level of safety achieved by the person or class of persons granted the exemption, and allow the Secretary to evaluate whether an equivalent level of safety is maintained while the person or class of persons is operating under such exemption, including—

“(i) requiring the regular submission of accident and incident data to the Secretary;

“(ii) requiring immediate notification to the Secretary in the event of a crash that results in a fatality or serious bodily injury;

“(iii) for exemptions granted by the Secretary related to hours of service rules under part 395 of title 49, Code of Federal Regulations, requiring that the exempt person or class of persons submit to the Secretary evidence of participation in a recognized fatigue management plan; and

“(iv) providing documentation of the authority to operate under the exemption to each exempt person, to be used to demonstrate compliance if requested by a motor carrier safety enforcement officer during a roadside inspection.

“(B) IMPLEMENTATION.—The Secretary shall monitor the implementation of the exemption to ensure compliance with its terms and conditions.”; and

(2) in subsection (e) by inserting “, based on an analysis of data collected by the Secretary and submitted to the Secretary under subsection (b)(8)” after “safety”.

#### SEC. 4204. SAFETY FITNESS OF MOTOR CARRIERS OF PASSENGERS.

Section 31144(i) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) in subparagraph (A) by striking “who the Secretary registers under section 13902 or 31134”; and

(B) in subparagraph (B) by inserting “to motor carriers of passengers and” after “apply”; and

(2) by adding at the end the following:

“(5) MOTOR CARRIER OF PASSENGERS DEFINED.—In this subsection, the term “motor carrier of passengers” includes an offeror of motorcoach services that sells scheduled transportation of passengers for compensation at fares

and on schedules and routes determined by such offeror, regardless of ownership or control of the vehicles or drivers used to provide the transportation by motorcoach.”.

#### SEC. 4205. PROVIDERS OF RECREATIONAL ACTIVITIES.

Section 13506(b) of title 49, United States Code, is amended—

(1) in paragraph (2) by striking “or” at the end;

(2) in paragraph (3) by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following:

“(4) transportation by a motor vehicle designed or used to transport between 9 and 15 passengers (including the driver), whether operated alone or with a trailer attached for the transport of recreational equipment, that is operated by a person that provides recreational activities if—

“(A) the transportation is provided within a 150 air-mile radius of the location where passengers are boarded; and

“(B) the person operating the motor vehicle, if transporting passengers over a route between a place in a State and a place in another State, is otherwise lawfully providing transportation of passengers over the entire route in accordance with applicable State law.”.

#### SEC. 4206. AMENDMENTS TO REGULATIONS RELATING TO TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE COMMERCE.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATION.—The term “Administration” means the Federal Motor Carrier Safety Administration.

(2) COVERED CARRIER.—The term “covered carrier” means a motor carrier that is—

(A) engaged in the interstate transportation of household goods; and

(B) subject to the requirements of part 375 of title 49, Code of Federal Regulations (as in effect on the effective date of the amendments required by subsection (b)).

(3) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

(b) AMENDMENTS TO REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue a notice of proposed rulemaking to amend regulations related to the interstate transportation of household goods.

(c) CONSIDERATIONS.—In issuing the notice of proposed rulemaking under subsection (b), the Secretary shall consider the following recommended amendments to provisions of title 49, Code of Federal Regulations:

(1) Section 375.207(b) to require each covered carrier to include on the website of the covered carrier a link—

(A) to the publication of the Administration titled “Ready to Move—Tips for a Successful Interstate Move” (ESA 03005) on the website of the Administration; or

(B) to a copy of the publication referred to in subparagraph (A) on the website of the covered carrier.

(2) Subsections (a) and (b)(1) of section 375.213 to require each covered carrier to provide to each individual shipper, with any written estimate provided to the shipper, a copy of the publication described in appendix A of part 375 of such title, entitled “Your Rights and Responsibilities When You Move” (ESA-03-006 (or a successor publication)), in the form of a written copy or a hyperlink on the website of the covered carrier to the location on the website of the Administration containing such publication.

(3) Subsection (e) of section 375.213, to repeal such subsection.

(4) Section 375.401(a), to require each covered carrier—

(A) to conduct a visual survey of the household goods to be transported by the covered carrier—

(i) in person; or

(ii) virtually, using—

(I) a remote camera; or

(II) another appropriate technology;

(B) to offer a visual survey described in subparagraph (A) for all household goods shipments, regardless of the distance between—

(i) the location of the household goods; and

(ii) the location of the agent of the covered carrier preparing the estimate; and

(C) to provide to each shipper a copy of publication of the Administration titled “Ready to Move—Tips for a Successful Interstate Move” (ESA 03005) on receipt from the shipper of a request to schedule, or a waiver of, a visual survey offered under subparagraph (B).

(5) Sections 375.401(b)(1), 375.403(a)(6)(ii), and 375.405(b)(7)(ii), and subpart D of appendix A of part 375, to require that, in any case in which a shipper tenders any additional item or requests any additional service prior to loading a shipment, the affected covered carrier shall—

(A) prepare a new estimate; and

(B) maintain a record of the date, time, and manner in which the new estimate was accepted by the shipper.

(6) Section 375.501(a), to establish that a covered carrier is not required to provide to a shipper an order for service if the covered carrier elects to provide the information described in paragraphs (1) through (15) of such section in a bill of lading that is presented to the shipper before the covered carrier receives the shipment.

(7) Subpart H of part 375, to replace the replace the terms “freight bill” and “expense bill” with the term “invoice”.

#### Subtitle C—Commercial Motor Vehicle Driver Safety

#### SEC. 4301. COMMERCIAL DRIVER'S LICENSE FOR PASSENGER CARRIERS.

Section 31301(4)(B) of title 49, United States Code, is amended to read as follows:

“(B) is designed or used to transport—

“(i) more than 8 passengers (including the driver) for compensation; or

“(ii) more than 15 passengers (including the driver), whether or not the transportation is provided for compensation; or”.

#### SEC. 4302. ALCOHOL AND CONTROLLED SUBSTANCES TESTING.

Section 31306(c)(2) of title 49, United States Code, is amended by striking “, for urine testing,”.

#### SEC. 4303. ENTRY-LEVEL DRIVER TRAINING.

Not later than January 1, 2021, and every 90 days thereafter until the compliance date for the final rule published on December 8, 2016, titled “Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators” (81 Fed. Reg. 88732), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on—

(1) a schedule, including benchmarks, to complete implementation of the requirements under such final rule;

(2) any anticipated delays, if applicable, in meeting the benchmarks described in paragraph (1);

(3) the progress that the Secretary has made in updating the Department of Transportation's information technology infrastructure to support the training provider registry;

(4) a list of States that have adopted laws or regulations to implement such final rule; and

(5) a list of States, if applicable, that are implementing the rule and confirming that an applicant for a commercial driver's license has complied with the requirements.

#### SEC. 4304. DRIVER DETENTION TIME.

(a) DATA COLLECTION.—Not later than 30 days after the date of enactment of this Act, the Secretary shall—

(1) begin to collect data on delays experienced by operators of commercial motor vehicles, as required under section 5501 of the FAST Act (49 U.S.C. 14103 note) and as referenced in the request for information published on June 10,

2019, titled “Request for Information Concerning Commercial Motor Vehicle Driver Detention Times During Loading and Unloading” (84 Fed. Reg. 26932); and

(2) make such data available on a publicly accessible website of the Department of Transportation.

(b) DETENTION TIME LIMITS.—

(1) RULEMAKING.—Not later than 1 year after the date of enactment of this Act, the Secretary shall initiate a rulemaking to establish limits on the amount of time that an operator of a commercial motor vehicle may be reasonably detained by a shipper or receiver before the loading or unloading of the vehicle, if the operator is not compensated for such time detained.

(2) CONTENTS.—As part of the rulemaking conducted pursuant to subsection (a), the Secretary shall—

(A) consider the diverse nature of operations in the movement of goods by commercial motor vehicle;

(B) examine any correlation between time detained and violations of the hours-of-service rules under part 395 of title 49, Code of Federal Regulations;

(C) determine whether the effect of detention time on safety differs based on—

(i) how an operator is compensated; and

(ii) the contractual relationship between the operator and the motor carrier, including whether an operator is an employee, a leased owner-operator, or an owner-operator with independent authority; and

(D) establish a process for a motor carrier, shipper, receiver, broker, or commercial motor vehicle operator to report instances of time detained beyond the Secretary’s established limits.

(3) INCORPORATION OF INFORMATION.—The Secretary shall incorporate information received under paragraph (2)(D) into the process established pursuant to subsection (a) once a final rule takes effect.

(c) DATA PROTECTION.—Data made available pursuant to this section shall be made available in a manner that—

(1) precludes the connection of the data to any individual motor carrier or commercial motor vehicle operator; and

(2) protects privacy and confidentiality of individuals, operators, and motor carriers submitting the data.

(d) COMMERCIAL MOTOR VEHICLE DEFINED.—In this section, the term “commercial motor vehicle” has the meaning given such term in section 31101 of title 49, United States Code.

#### SEC. 4305. TRUCK LEASING TASK FORCE.

(a) ESTABLISHMENT.—Not later than 6 months after the date of enactment of this Act, the Secretary of Transportation, in consultation with the Secretary of Labor, shall establish a Truck Leasing Task Force (hereinafter referred to as the “Task Force”).

(b) MEMBERSHIP.—The Secretary of Transportation shall select not more than 15 individuals to serve as members of the Task Force, including equal representation from each of the following:

(1) Labor organizations.

(2) The motor carrier industry, including independent owner-operators.

(3) Consumer protection groups.

(4) Safety groups.

(5) Members of the legal profession who specialize in consumer finance issues.

(c) DUTIES.—The Task Force shall examine, at a minimum—

(1) common truck leasing arrangements available to commercial motor vehicle drivers, including lease-purchase agreements;

(2) the terms of such leasing agreements;

(3) the prevalence of predatory leasing agreements in the motor carrier industry;

(4) specific agreements available to drayage drivers at ports related to the Clean Truck Program or similar programs to decrease emissions from port operations;

(5) the impact of truck leasing agreements on the net compensation of commercial motor vehicle drivers, including port drayage drivers;

(6) resources to assist commercial motor vehicle drivers in assessing the impacts of leasing agreements; and

(7) the classification of commercial motor vehicle drivers under lease-purchase agreements.

(d) COMPENSATION.—A member of the Task Force shall serve without compensation.

(e) REPORT.—Upon completion of the examination described in subsection (c), the Task Force shall submit to the Secretary of Transportation, Secretary of Labor, and appropriate congressional committees a report containing—

(1) the findings of the Task Force on the matters described in subsection (c);

(2) best practices related to—

(A) assisting a commercial motor vehicle driver in assessing the impacts of leasing agreements prior to entering into such agreements; and

(B) assisting a commercial motor vehicle driver who has entered into a predatory lease agreement; and

(3) recommendations on changes to laws or regulations, as applicable, at the Federal, State, or local level to promote fair leasing agreements under which a commercial motor vehicle driver is able to earn a living wage.

(f) TERMINATION.—Not later than 1 month after the date of submission of the report pursuant to subsection (e), the Task Force shall terminate.

#### SEC. 4306. HOURS OF SERVICE.

(a) AUTHORITY TO ISSUE REGULATIONS.—Notwithstanding the authority of the Secretary of Transportation to issue regulations under section 31502 of title 49, United States Code, the Secretary shall delay the effective date of the final rule published on June 1, 2020, titled “Hours of Service of Drivers” (85 Fed. Reg. 33396) until 60 days after the date on which the Secretary submits the report required under subsection (d).

(b) COMPREHENSIVE REVIEW.—

(1) COMPREHENSIVE REVIEW OF HOURS OF SERVICE RULES.—Not later than 60 days after the date of enactment of this Act, the Secretary shall initiate a comprehensive review of hours of service rules and the impacts of waivers, exemptions, and other allowances that limit the applicability of such rules.

(2) LIST OF EXEMPTIONS.—In carrying out the comprehensive review required under paragraph (1), the Secretary shall—

(A) compile a list of waivers, exemptions, and other allowances—

(i) under which a driver may operate in excess of the otherwise applicable limits on on-duty or driving time in absence of such exemption, waiver, or other allowance;

(ii) under which a driver may operate without recording compliance with hours of service rules through the use of an electronic logging device; and

(iii) applicable—

(I) to specific segments of the motor carrier industry or sectors of the economy;

(II) on a periodic or seasonal basis; and

(III) to specific types of operations, including the short haul exemption under part 395 of title 49, Code of Federal Regulations;

(B) specify whether each such waiver, exemption, or other allowance was granted by the Department of Transportation or enacted by Congress, and how long such waiver, exemption, or other allowance has been in effect; and

(C) estimate the number of motor carriers, motor private carriers, and drivers that may qualify to use each waiver, exemption, or other allowance.

(3) SAFETY IMPACT ANALYSIS.—

(A) IN GENERAL.—In carrying out the comprehensive review under paragraph (1), the Secretary, in consultation with State motor carrier enforcement entities, shall undertake a statistically valid analysis to determine the safety impact, including on enforcement, of the exemptions, waivers, or other allowances compiled under paragraph (2) by—

(i) using available data, or collecting from motor carriers or motor private carriers and drivers operating under an exemption, waiver, or other allowance if the Secretary does not have sufficient data, to determine the incidence of accidents, fatigue-related incidents, and other relevant safety information related to hours of service among motor carriers, private motor carriers, and drivers permitted to operate under each exemption, waiver, or other allowance;

(ii) comparing the data described in subparagraph (A) to safety data from motor carriers, motor private carriers, and drivers that are subject to the hours of service rules and not operating under an exemption, waiver, or other allowance; and

(iii) based on the comparison under subparagraph (B), determining whether waivers, exemptions, and other allowances in effect provide an equivalent level of safety as would exist in the absence of exemptions, waivers, or other allowances.

(B) CONSULTATION.—The Secretary shall consult with State motor carrier enforcement entities in carrying out this paragraph.

(C) EXCLUSIONS.—The Secretary shall exclude data related to exemptions, waivers, or other allowances made pursuant to an emergency declaration under section 390.23 of title 49, Code of Federal Regulations, or extended under section 390.25 of title 49, Code of Federal Regulations, from the analysis required under this paragraph.

(4) DRIVER IMPACT ANALYSIS.—In carrying out the comprehensive review under paragraph (1), the Secretary shall further consider—

(A) data on driver detention collected by the Secretary pursuant to section 4304 of this Act and other conditions affecting the movement of goods by commercial motor vehicle, and how such conditions interact with the Secretary’s regulations on hours of service;

(B) whether exemptions, waivers, or other allowances that permit additional on-duty time or driving time have a deleterious effect on the physical condition of drivers; and

(C) whether differences in the manner in which drivers are compensated result in different levels of burden for drivers in complying with hours of service rules.

(c) PEER REVIEW.—Prior to the publication of the review required under subsection (d), the analyses performed by the Secretary shall undergo an independent peer review.

(d) PUBLICATION.—Not later than 18 months after the date that the Secretary initiates the comprehensive review under subsection (b)(1), the Secretary shall publish the findings of such review in the Federal Register and provide for a period for public comment.

(e) REPORT TO CONGRESS.—Not later than 30 days after the conclusion of the public comment period under subsection (d), the Secretary shall submit to the Committee on Commerce, Science, and Transportation and the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives and make publicly available on a website of the Department of Transportation a report containing the information and analyses required under subsection (b).

(f) REPLACEMENT OF GUIDANCE.—Notwithstanding subsection (a), the Secretary shall replace the Department of Transportation guidance published on June 7, 2018, titled “Hours of Service of Drivers of Commercial Motor Vehicles: Regulatory Guidance Concerning the Use of a Commercial Motor Vehicle for Personal Conveyance” (83 Fed. Reg. 26377) with specific mileage or time limits, or both, for the use of personal conveyance established through a rulemaking.

(g) DEFINITIONS.—In this section:

(1) MOTOR CARRIER; MOTOR PRIVATE CARRIER.—The terms “motor carrier” and “motor private carrier” have the meanings given such terms in section 31501 of title 49, United States Code.

(2) **ON-DUTY TIME; DRIVING TIME; ELECTRONIC LOGGING DEVICE.**—The terms “on-duty time”, “driving time”, and “electronic logging device” have the meanings given such terms in section 395.2 of title 49, Code of Federal Regulations (as in effect on June 1, 2020).

**SEC. 4307. DRIVER RECRUITMENT.**

(a) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the inspector general of the Department of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report examining the operation of commercial motor vehicles in the United States by drivers admitted to the United States under temporary business visas.

(b) **CONTENTS.**—The report under paragraph (1) shall include—

(1) an assessment of—

(A) the prevalence of the operation of commercial motor vehicles in the United States by drivers admitted to the United States under temporary business visas;

(B) the characteristics of motor carriers that recruit and use such drivers, including the country of domicile of the motor carrier or subsidiary;

(C) the demographics of drivers operating in the United States under such visas, including the country of domicile of such drivers; and

(D) the contractual relationship between such motor carriers and such drivers;

(2) an analysis of whether such drivers are required to comply with—

(A) motor carrier safety regulations under subchapter B of chapter III of title 49, Code of Federal Regulations, including—

(i) the English proficiency requirement under section 391.11(2) of title 49, Code of Federal Regulations;

(ii) the requirement for drivers of a motor carrier to report any violations of a regulation to such motor carrier under section 391.27 of title 49, Code of Federal Regulations; and

(iii) driver's licensing requirements under part 383 of title 49, Code of Federal Regulations, including entry-level driver training and drug and alcohol testing under part 382 of such title; and

(B) regulations prohibiting point-to-point transportation in the United States, or cabotage, under part 365 of title 49, Code of Federal Regulations;

(3) an evaluation of the safety record of the operations and drivers described in paragraph (1), including—

(A) violations of the motor carrier safety regulations under subchapter B of chapter III of title 49, Code of Federal Regulations, including applicable requirements described in paragraph (2)(A); and

(B) the number of crashes involving such operations and drivers; and

(4) the impact of such operations and drivers on—

(A) commercial motor vehicle drivers domiciled in the United States, including employment levels and driver compensation of such drivers; and

(B) the competitiveness of motor carriers domiciled in the United States.

(c) **DEFINITIONS.**—In this section:

(1) **COMMERCIAL MOTOR VEHICLE.**—In this section, the term “commercial motor vehicle” has the meaning given such term in section 31101 of title 49, United States Code.

(2) **TEMPORARY BUSINESS VISA.**—The term “temporary business visa” means any driver who is present in the United States with status under section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(i)(b)).

**SEC. 4308. SCREENING FOR OBSTRUCTIVE SLEEP APNEA.**

(a) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Secretary of Transportation shall—

(1) assess the risk posed by untreated obstructive sleep apnea in drivers of commercial motor

vehicles and the feasibility, benefits, and costs associated with establishing screening criteria for obstructive sleep apnea in drivers of commercial motor vehicles;

(2) issue a notice in the Federal Register containing the independently peer-reviewed findings of the assessment required under paragraph (1) not later than 30 days after completion of the assessment and provide an opportunity for public comment; and

(3) if the Secretary contracts with an independent third party to conduct the assessment required under paragraph (1), ensure that the independent third party shall not have any financial or contractual ties or relationship with a motor carrier that transports passengers or property for compensation, the motor carrier industry, or driver advocacy organizations.

(b) **SCREENING CRITERIA.**—

(1) **IN GENERAL.**—Not later than 12 months after the date of enactment of this Act, the Secretary shall publish in the Federal Register a proposed rule to establish screening criteria for obstructive sleep apnea in commercial motor vehicle drivers and provide an opportunity for public comment.

(2) **FINAL RULE.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall issue a final rule to establish screening criteria for obstructive sleep apnea in commercial motor vehicle drivers.

(c) **DEFINITIONS.**—In this section:

(1) **COMMERCIAL MOTOR VEHICLE.**—The term “commercial motor vehicle” has the meaning given such term in section 31132 of title 49, United States Code.

(2) **MOTOR CARRIER.**—The term “motor carrier” has the meaning given such term in section 13102 of title 49, United States Code.

**SEC. 4309. WOMEN OF TRUCKING ADVISORY BOARD.**

(a) **SHORT TITLE.**—This section may be cited as the “Promoting Women in Trucking Workforce Act”.

(b) **FINDINGS.**—Congress finds that—

(1) women make up 47 percent of the workforce of the United States;

(2) women are significantly underrepresented in the trucking industry, holding only 24 percent of all transportation and warehousing jobs and representing only—

(A) 6.6 percent of truck drivers;

(B) 12.5 percent of all workers in truck transportation; and

(C) 8 percent of freight firm owners;

(3) given the total number of women truck drivers, women are underrepresented in the truck-driving workforce; and

(4) women truck drivers have been shown to be 20 percent less likely than male counterparts to be involved in a crash.

(c) **SENSE OF CONGRESS REGARDING WOMEN IN TRUCKING.**—It is the sense of Congress that the trucking industry should explore every opportunity, including driver training and mentorship programs, to encourage and support the pursuit of careers in trucking by women.

(d) **ESTABLISHMENT.**—To encourage women to enter the field of trucking, the Administrator shall establish and facilitate an advisory board, to be known as the “Women of Trucking Advisory Board”, to promote organizations and programs that—

(1) provide education, training, mentorship, or outreach to women in the trucking industry; and

(2) recruit women into the trucking industry.

(e) **MEMBERSHIP.**—

(1) **IN GENERAL.**—The Board shall be composed of not fewer than 7 members whose backgrounds allow those members to contribute balanced points of view and diverse ideas regarding the strategies and objectives described in subsection (f)(2).

(2) **APPOINTMENT.**—Not later than 270 days after the date of enactment of this Act, the Administrator shall appoint the members of the Board, of whom—

(A) not fewer than 1 shall be a representative of large trucking companies;

(B) not fewer than 1 shall be a representative of mid-sized trucking companies;

(C) not fewer than 1 shall be a representative of small trucking companies;

(D) not fewer than 1 shall be a representative of nonprofit organizations in the trucking industry;

(E) not fewer than 1 shall be a representative of trucking business associations;

(F) not fewer than 1 shall be a representative of independent owner-operators; and

(G) not fewer than 1 shall be a woman who is a professional truck driver.

(3) **TERMS.**—Each member shall be appointed for the life of the Board.

(4) **COMPENSATION.**—A member of the Board shall serve without compensation.

(f) **DUTIES.**—

(1) **IN GENERAL.**—The Board shall identify—

(A) industry trends that directly or indirectly discourage women from pursuing careers in trucking, including—

(i) any differences between women minority groups;

(ii) any differences between women who live in rural, suburban, and urban areas; and

(iii) any safety risks unique to the trucking industry;

(B) ways in which the functions of trucking companies, nonprofit organizations, and trucking associations may be coordinated to facilitate support for women pursuing careers in trucking;

(C) opportunities to expand existing opportunities for women in the trucking industry; and

(D) opportunities to enhance trucking training, mentorship, education, and outreach programs that are exclusive to women.

(2) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Board shall submit to the Administrator a report describing strategies that the Administrator may adopt—

(A) to address any industry trends identified under paragraph (1)(A);

(B) to coordinate the functions of trucking companies, nonprofit organizations, and trucking associations in a manner that facilitates support for women pursuing careers in trucking;

(C) to—

(i) take advantage of any opportunities identified under paragraph (1)(C); and

(ii) create new opportunities to expand existing scholarship opportunities for women in the trucking industry; and

(D) to enhance trucking training, mentorship, education, and outreach programs that are exclusive to women.

(g) **REPORT TO CONGRESS.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report describing—

(A) any strategies recommended by the Board under subsection (f)(2); and

(B) any actions taken by the Administrator to adopt the strategies recommended by the Board (or an explanation of the reasons for not adopting the strategies).

(2) **PUBLIC AVAILABILITY.**—The Administrator shall make the report under paragraph (1) publicly available—

(A) on the website of the Federal Motor Carrier Safety Administration; and

(B) in appropriate offices of the Federal Motor Carrier Safety Administration.

(h) **TERMINATION.**—The Board shall terminate on submission of the report to Congress under subsection (g).

(i) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Federal Motor Carrier Safety Administration.

(2) **BOARD.**—The term “Board” means the Women of Trucking Advisory Board established under subsection (d).

(3) **LARGE TRUCKING COMPANY.**—The term “large trucking company” means a motor carrier (as defined in section 13102 of title 49, United States Code) with an annual revenue greater than \$1,000,000,000.

(4) **MID-SIZED TRUCKING COMPANY.**—The term “mid-sized trucking company” means a motor carrier (as defined in section 13102 of title 49, United States Code) with an annual revenue of not less than \$35,000,000 and not greater than \$1,000,000,000.

(5) **SMALL TRUCKING COMPANY.**—The term “small trucking company” means a motor carrier (as defined in section 13102 of title 49, United States Code) with an annual revenue less than \$35,000,000.

**Subtitle D—Commercial Motor Vehicle and Schoolbus Safety**

**SEC. 4401. SCHOOLBUS SAFETY STANDARDS.**

(a) **SCHOOLBUS SEATBELTS.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue a notice of proposed rulemaking to consider requiring large schoolbuses to be equipped with safety belts for all seating positions, if the Secretary determines that such standards meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code.

(2) **CONSIDERATIONS.**—In issuing a notice of proposed rulemaking under paragraph (1), the Secretary shall consider—

(A) the safety benefits of a lap/shoulder belt system (also known as a Type 2 seatbelt assembly);

(B) the recommendations of the National Transportation Safety Board on seatbelts in schoolbuses;

(C) existing experience, including analysis of student injuries and fatalities compared to States without seat belt laws, and seat belt usage rates, from States that require schoolbuses to be equipped with seatbelts, including Type 2 seatbelt assembly; and

(D) the impact of lap/shoulder belt systems on emergency evacuations, with a focus on emergency evacuations involving students below the age of 14, and emergency evacuations necessitated by fire or water submersion; and

(E) the impact of lap/shoulder belt systems on the overall availability of schoolbus transportation.

(3) **REPORT.**—If the Secretary determines that a standard described in paragraph (1) does not meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that describes the reasons for not prescribing such a standard.

(4) **APPLICATION OF REGULATIONS.**—Any regulation issued based on the notice of proposed rulemaking described in paragraph (1) shall apply to schoolbuses manufactured more than 3 years after the date on which the regulation takes effect.

(b) **AUTOMATIC EMERGENCY BRAKING.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall—

(1) prescribe a motor vehicle safety standard under section 30111 of title 49, United States Code, that requires all schoolbuses manufactured after the effective date of such standard to be equipped with an automatic emergency braking system; and

(2) as part of such standard, establish performance requirements for automatic emergency braking systems, including operation of such systems.

(c) **ELECTRONIC STABILITY CONTROL.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall—

(1) prescribe a motor vehicle safety standard under section 30111 of title 49, United States

Code, that requires all schoolbuses manufactured after the effective date of such standard to be equipped with an electronic stability control system (as such term is defined in section 571.136 of title 49, Code of Federal Regulations (as in effect on the date of enactment of this Act)); and

(2) as part of such standard, establish performance requirements for electronic stability control systems, including operation of such systems.

(d) **FIRE PREVENTION AND MITIGATION.**—

(1) **RESEARCH AND TESTING.**—The Secretary shall conduct research and testing to determine the most prevalent causes of schoolbus fires and the best methods to prevent such fires and to mitigate the effect of such fires, both inside and outside the schoolbus. Such research and testing shall consider—

(A) fire suppression systems standards, which at a minimum prevent engine fires;

(B) firewall standards to prevent gas or flames from entering into the passenger compartment in schoolbuses with engines that extend beyond the firewall; and

(C) interior flammability and smoke emissions characteristics standards.

(2) **STANDARDS.**—The Secretary may issue fire prevention and mitigation standards for schoolbuses, based on the results of the Secretary's research and testing under paragraph (1), if the Secretary determines that such standards meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code.

(e) **DEFINITIONS.**—In this section:

(1) **AUTOMATIC EMERGENCY BRAKING.**—The term “automatic emergency braking” means a crash avoidance system installed and operational in a vehicle that consists of—

(A) a forward warning function—

(i) to detect vehicles and objects ahead of the vehicle; and

(ii) to alert the operator of an impending collision; and

(B) a crash-imminent braking function to provide automatic braking when forward-looking sensors of the vehicle indicate that—

(i) a crash is imminent; and

(ii) the operator of the vehicle is not applying the brakes.

(2) **LARGE SCHOOLBUS.**—The term “large schoolbus” means a schoolbus with a gross vehicle weight rating of more than 10,000 pounds.

(3) **SCHOOLBUS.**—The term “schoolbus” has the meaning given such term in section 30125(a) of title 49, United States Code.

**SEC. 4402. ILLEGAL PASSING OF SCHOOLBUSES.**

(a) **REVIEW OF ILLEGAL PASSING LAWS.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall—

(A) prepare a compilation of illegal passing laws in all States, including levels of enforcement and penalties and enforcement issues with such laws and the impact of such laws on illegal passing of schoolbuses in each State;

(B) review existing State laws that may inhibit effective schoolbus loading zone countermeasures, which may include laws requiring camera visibility of a driver's face for enforcement action, laws that may reduce stop-arm camera effectiveness, the need for an officer to witness the event for enforcement, and the lack of primary enforcement for texting and driving;

(C) evaluate methods used by States to review, document, and report to law enforcement schoolbus stop-arm violations; and

(D) following the completion of the compilation, issue recommendations on best practices on the most effective approaches to address illegal passing of schoolbuses.

(2) **PUBLICATION.**—The compilation and recommendations prepared under paragraph (1) shall be made publicly available on the website of the Department of Transportation.

(b) **PUBLIC SAFETY MESSAGING CAMPAIGN.**—

(1) **IN GENERAL.**—Not later than 1 year after the date on which the Secretary makes the com-

pilation and recommendations under subsection (a)(2) publicly available, the Secretary shall create and execute a public safety messaging campaign for distribution to States, divisions of motor vehicles, schools, and other public outlets to highlight the dangers of the illegal passing of schoolbuses, and should include educating students and the public on safe loading and unloading of schoolbuses.

(2) **CONSULTATION.**—The Secretary shall consult with public and private schoolbus industry representatives and States in developing the campaign materials.

(3) **UPDATE.**—The Secretary shall periodically update such materials.

(c) **REVIEW OF TECHNOLOGIES.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall review and evaluate the effectiveness of various technologies to enhance schoolbus safety, including cameras, audible warning systems, enhanced lighting, and other technological solutions.

(2) **CONTENT.**—The review under paragraph (1)—

(A) shall include an evaluation of the costs of new equipment and the potential impact on overall schoolbus ridership;

(B) shall include an evaluation of advanced technologies surrounding loading zone safety;

(C) shall include an evaluation of motion-activated detection systems that are capable of—

(i) detecting pedestrians, bicyclists, and other road users located near the exterior of the schoolbus; and

(ii) alerting the operator of the schoolbus of the road users described in clause (i);

(D) shall include an evaluation of schoolbus lighting systems, to ensure clear communication to surrounding drivers on their appropriate action; and

(E) may include other technological solutions that enhance schoolbus safety.

(3) **CONSULTATION.**—The Secretary shall consult with manufacturers of schoolbus vehicles, manufacturers of various technologies, and school bus industry representatives in conducting the review under paragraph (1).

(4) **PUBLICATION.**—The Secretary shall make the findings of the review under paragraph (1) publicly available on the website of the Department.

(d) **REVIEW OF DRIVER EDUCATION MATERIALS.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall—

(A) review driver education materials across all States to determine whether and how illegal passing of schoolbuses is addressed in driver education materials, manuals, non-commercial driver's license testing, and road tests; and

(B) make recommendations on how States can improve education about illegal passing of schoolbuses, particularly with new drivers.

(2) **CONSULTATION.**—The Secretary shall consult with schoolbus industry representatives, States, motor vehicle administrators, and other appropriate motor vehicle experts in the preparation of the review under paragraph (1).

(3) **PUBLICATION.**—The Secretary shall make the findings of the review under paragraph (1) publicly available on the website of the Department.

(e) **REVIEW OF OTHER SAFETY ISSUES.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall—

(A) research the connections between illegal passing of schoolbuses and other safety issues, including distracted driving, morning darkness, poor visibility, illumination and reach of vehicle headlights, speed limits, and schoolbus stop locations in rural areas; and

(B) create a report containing the findings.

(2) **PUBLICATION.**—The Secretary shall make the report created under paragraph (1)(B) publicly available on the website of the Department.

**SEC. 4403. STATE INSPECTION OF PASSENGER-CARRYING COMMERCIAL MOTOR VEHICLES.**

(a) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall issue a final rule based on the advance notice of proposed rulemaking published on April 27, 2016, titled “State Inspection Programs for Passenger-Carrier Vehicles” (81 Fed. Reg. 24769).

(b) **CONSIDERATIONS.**—In issuing a final rule under subsection (a), the Secretary shall consider the impact of continuing to allow self-inspection as a means to satisfy periodic inspection requirements on the safety of passenger carrier operations.

**SEC. 4404. AUTOMATIC EMERGENCY BRAKING.**

(a) **FEDERAL MOTOR VEHICLE SAFETY STANDARD.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall—

(A) prescribe a motor vehicle safety standard under section 30111 of title 49, United States Code, that requires all commercial motor vehicles manufactured after the effective date of such standard to be equipped with an automatic emergency braking system; and

(B) as part of such standard, establish performance requirements for automatic emergency braking systems, including operation of such systems in a variety of driving conditions.

(2) **CONSIDERATIONS.**—Prior to prescribing the standard required under paragraph (1)(A), the Secretary shall—

(A) conduct a review of automatic emergency braking systems in use in commercial motor vehicles and address any identified deficiencies with such systems in the rulemaking proceeding to prescribe the standard, if practicable;

(B) assess the feasibility of updating the software of emergency braking systems in use in commercial motor vehicles to address any deficiencies and to enable such systems to meet the new standard; and

(C) consult with representatives of commercial motor vehicle drivers regarding the experiences of drivers with automatic emergency braking systems in use in commercial motor vehicles, including malfunctions or unwarranted activations of such systems.

(3) **COMPLIANCE DATE.**—The Secretary shall ensure that the compliance date of the standard prescribed pursuant to paragraph (1) shall be not later than 2 years after the date of publication of the final rule prescribing such standard.

(b) **FEDERAL MOTOR CARRIER SAFETY REGULATION.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue a regulation under section 31136 of title 49, United States Code, that requires that an automatic emergency braking system installed in a commercial motor vehicle that is in operation on or after the effective date of the standard prescribed under subsection (a) be used at any time during which such commercial motor vehicle is in operation.

(c) **DEFINITIONS.**—In this section:

(1) **AUTOMATIC EMERGENCY BRAKING SYSTEM.**—The term “automatic emergency braking system” means a crash avoidance system installed and operational in a vehicle that consists of—

(A) a forward collision warning function—

(i) to detect vehicles and objects ahead of the vehicle; and

(ii) to alert the operator of the vehicle of an impending collision; and

(B) a crash-imminent braking function to provide automatic braking when forward-looking sensors of the vehicle indicate that—

(i) a crash is imminent; and

(ii) the operator of the vehicle is not applying the brakes.

(2) **COMMERCIAL MOTOR VEHICLE.**—The term “commercial motor vehicle” has the meaning given such term in section 31101 of title 49, United States Code.

**SEC. 4405. UNDERRIDE PROTECTION.**

(a) **REAR UNDERRIDE GUARDS.**—

(1) **REAR GUARDS ON TRAILERS AND SEMITRAILERS.**—

(A) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall issue such regulations as are necessary to revise motor vehicle safety standards under sections 571.223 and 571.224 of title 49, Code of Federal Regulations, to require trailers and semi-trailers manufactured after the date on which such regulation is issued to be equipped with rear impact guards that are designed to prevent passenger compartment intrusion from a trailer or semitrailer when a passenger vehicle traveling at 35 miles per hour makes—

(i) an impact in which the passenger vehicle impacts the center of the rear of the trailer or semitrailer;

(ii) an impact in which 50 percent the width of the passenger vehicle overlaps the rear of the trailer or semitrailer; and

(iii) an impact in which 30 percent of the width of the passenger vehicle overlaps the rear of the trailer or semitrailer.

(B) **EFFECTIVE DATE.**—The rule issued under subparagraph (A) shall require full compliance with the motor carrier safety standard prescribed in such rule not later than 2 years after the date on which a final rule is issued.

(2) **ADDITIONAL RESEARCH.**—The Secretary shall conduct additional research on the design and development of rear impact guards that can prevent underride crashes and protect motor vehicle passengers against severe injury at crash speeds of up to 65 miles per hour.

(3) **REVIEW OF STANDARDS.**—Not later than 5 years after any revisions to standards or requirements related to rear impact guards pursuant to paragraph (1), the Secretary shall review the standards or requirements to evaluate the need for changes in response to advancements in technology and upgrade such standards accordingly.

(4) **INSPECTIONS.**—

(A) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall issue such regulations as are necessary to amend the regulations on minimum periodic inspection standards under appendix G to subchapter B of chapter III of title 49, Code of Federal Regulations, and driver vehicle inspection reports under section 396.11 of title 49, Code of Federal Regulations, to include rear impact guards and rear end protection (as required by section 393.86 of title 49, Code of Federal Regulations).

(B) **CONSIDERATIONS.**—In updating the regulations described in subparagraph (A), the Secretary shall consider it to be a defect or a deficiency if a rear impact guard is missing or has a corroded or compromised element that affects the structural integrity and protective feature of such guard.

(b) **SIDE UNDERRIDE GUARDS.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall—

(A) complete additional research on side underride guards to better understand the overall effectiveness of such guards;

(B) assess the feasibility, benefits, and costs associated with installing side underride guards on newly manufactured trailers and semitrailers with a gross vehicle weight rating of 10,000 pounds or more; and

(C) if warranted, develop performance standards for such guards.

(2) **INDEPENDENT RESEARCH.**—If the Secretary enters into a contract with a third party to perform the research required under paragraph (1)(A), the Secretary shall ensure that such third party does not have any financial or contractual ties or relationship with a motor carrier that transports passengers or property for compensation, the motor carrier industry, or an entity producing or supplying underride guards.

(3) **PUBLICATION OF ASSESSMENT.**—Not later than 90 days after completing the assessment re-

quired under paragraph (1)(B), the Secretary shall issue a notice in the Federal Register containing the findings of the assessment and provide an opportunity for public comment.

(4) **REPORT TO CONGRESS.**—After the conclusion of the public comment period under paragraph (3), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that provides—

(A) the results of the assessment under this subsection;

(B) a summary of the public comments received by the Secretary under paragraph (3); and

(C) a determination as to whether the Secretary intends to develop performance requirements for side underride guards, including any analysis that led to such determination.

(c) **ADVISORY COMMITTEE ON UNDERRIDE PROTECTION.**—

(1) **ESTABLISHMENT.**—Not later than 30 days after the date of enactment of this Act, the Secretary of Transportation shall establish an Advisory Committee on Underride Protection (in this subsection referred to as the “Committee”) to provide advice and recommendations to the Secretary on safety regulations to reduce crashes and fatalities involving truck underrides.

(2) **REPRESENTATION.**—

(A) **IN GENERAL.**—The Committee shall be composed of not more than 20 members appointed by the Secretary who are not employees of the Department of Transportation and who are qualified to serve because of their expertise, training, or experience.

(B) **MEMBERSHIP.**—Members shall include 2 representatives of each of the following:

(i) Truck and trailer manufacturers.

(ii) Motor carriers, including independent owner-operators.

(iii) Law enforcement.

(iv) Motor vehicle engineers.

(v) Motor vehicle crash investigators.

(vi) Truck safety organizations.

(vii) The insurance industry.

(viii) Emergency medical service providers.

(ix) Families of underride crash victims.

(x) Labor organizations.

(3) **COMPENSATION.**—Members of the Committee shall serve without compensation.

(4) **MEETINGS.**—The Committee shall meet at least annually.

(5) **SUPPORT.**—On request of the Committee, the Secretary shall provide information, administrative services, and supplies necessary for the Committee to carry out the duties described in paragraph (1).

(6) **REPORT.**—The Committee shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a biennial report that shall—

(A) describe the advice and recommendations made to the Secretary; and

(B) include an assessment of progress made by the Secretary in advancing safety regulations.

(d) **DATA COLLECTION.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall implement recommendations 1 and 2 described in the report by the Government Accountability Office published on March 14, 2019, titled “Truck Underride Guards: Improved Data Collection, Inspections, and Research Needed” (GAO-19-264).

**SEC. 4406. TRANSPORTATION OF HORSES.**

Section 80502 of title 49, United States Code, is amended—

(1) in subsection (c) by striking “This section does not” and inserting “Subsections (a) and (b) shall not”;

(2) by redesignating subsection (d) as subsection (e);

(3) by inserting after subsection (c) the following:

“(d) TRANSPORTATION OF HORSES.—

“(1) PROHIBITION.—No person may transport, or cause to be transported, a horse from a place in a State, the District of Columbia, or a territory or possession of the United States through or to a place in another State, the District of Columbia, or a territory or possession of the United States in a motor vehicle containing 2 or more levels stacked on top of each other.

“(2) MOTOR VEHICLE DEFINED.—In this subsection, the term ‘motor vehicle’—

“(A) means a vehicle driven or drawn by mechanical power and manufactured primarily for use on public highways; and

“(B) does not include a vehicle operated exclusively on a rail or rails.”; and

(4) in subsection (e), as redesignated—

(A) by striking “A rail carrier” and inserting the following:

“(1) IN GENERAL.—A rail carrier”;

(B) by striking “this section” and inserting “subsection (a) or (b)”;

(C) by striking “On learning” and inserting the following:

“(2) TRANSPORTATION OF HORSES IN MULTILEVEL TRAILER.—

“(A) CIVIL PENALTY.—A person that knowingly violates subsection (d) is liable to the United States Government for a civil penalty of at least \$100, but not more than \$500, for each violation. A separate violation of subsection (d) occurs for each horse that is transported, or caused to be transported, in violation of subsection (d).

“(B) RELATIONSHIP TO OTHER LAWS.—The penalty imposed under subparagraph (A) shall be in addition to any penalty or remedy available under any other law.

“(3) CIVIL ACTION.—On learning”.

#### SEC. 4407. ADDITIONAL STATE AUTHORITY.

(a) ADDITIONAL AUTHORITY.—Notwithstanding the limitation in section 127(d) of title 23, United States Code, if a State had in effect on or before June 1, 1991 a statute or regulation which placed a limitation on the overall length of a longer combination vehicle consisting of 3 trailers, such State may allow the operation of a longer combination vehicle to accommodate a longer energy efficient truck tractor in such longer combination vehicle under such limitation, if the additional tractor length is the only added length to such longer combination vehicle and does not result in increased cargo capacity in weight or volume.

(b) SAVINGS CLAUSE.—Nothing in this section authorizes a State to allow an increase in the length of a trailer, semitrailer, or other cargo-carrying unit of a longer combination vehicle.

(c) LONGER COMBINATION VEHICLE DEFINED.—The term “longer combination vehicle” has the meaning given such term in section 127 of title 23, United States Code.

#### SEC. 4408. UPDATING THE REQUIRED AMOUNT OF INSURANCE FOR COMMERCIAL MOTOR VEHICLES.

Section 31139(b) of title 49, United States Code, is amended—

(1) in paragraph (2), by striking “\$750,000” and inserting “\$2,000,000”; and

(2) by adding at the end the following:

“(3) ADJUSTMENT.—The Secretary, in consultation with the Bureau of Labor Statistics, shall adjust the minimum level of financial responsibility under paragraph (2) quinquennially for inflation.”.

#### TITLE V—INNOVATION

#### SEC. 5001. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) HIGHWAY RESEARCH AND DEVELOPMENT PROGRAM.—To carry out section 503(b) of title 23, United States Code, \$144,000,000 for each of fiscal years 2022 through 2025.

(2) TECHNOLOGY AND INNOVATION DEPLOYMENT PROGRAM.—To carry out section 503(c) of title

23, United States Code, \$152,000,000 for each of fiscal years 2022 through 2025.

(3) TRAINING AND EDUCATION.—To carry out section 504 of title 23, United States Code, \$26,000,000 for each of fiscal years 2022 through 2025.

(4) INTELLIGENT TRANSPORTATION SYSTEMS PROGRAM.—To carry out sections 512 through 518 of title 23, United States Code, \$100,000,000 for each of fiscal years 2022 through 2025.

(5) UNIVERSITY TRANSPORTATION CENTERS PROGRAM.—To carry out section 5505 of title 49, United States Code, \$96,000,000 for each of fiscal years 2022 through 2025.

(6) BUREAU OF TRANSPORTATION STATISTICS.—To carry out chapter 63 of title 49, United States Code, \$27,000,000 for each of fiscal years 2022 through 2025.

(b) ADDITIONAL PROGRAMS.—The following amounts are authorized to be appropriated out of the Highway Trust Fund (other than the Mass Transit Account):

(1) SAFE, EFFICIENT MOBILITY THROUGH ADVANCED TECHNOLOGIES.—To carry out section 503(c)(4) of title 23, United States Code, \$70,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out section 503(c) of such title.

(2) MATERIALS TO REDUCE GREENHOUSE GAS EMISSIONS PROGRAM.—To carry out section 503(d) of title 23, United States Code, \$10,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out section 503(c) of such title.

(3) NATIONAL HIGHLY AUTOMATED VEHICLE AND MOBILITY INNOVATION CLEARINGHOUSE.—To carry out section 5507 of title 49, United States Code, \$2,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out sections 512 through 518 of title 23, United States Code.

(4) NATIONAL COOPERATIVE MULTIMODAL FREIGHT TRANSPORTATION RESEARCH PROGRAM.—To carry out section 70205 of title 49, United States Code, \$4,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out section 503(b) of title 23, United States Code.

(5) STATE SURFACE TRANSPORTATION SYSTEM FUNDING PILOTS.—To carry out section 6020 of the FAST Act (23 U.S.C. 503 note), \$35,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out section 503(b) of title 23, United States Code.

(6) NATIONAL SURFACE TRANSPORTATION SYSTEM FUNDING PILOT.—To carry out section 5402 of this title, \$10,000,000 for each of fiscal years 2022 through 2025 from funds made available to carry out section 503(b) of title 23, United States Code.

(c) ADMINISTRATION.—The Federal Highway Administration shall—

(1) administer the programs described in paragraphs (1), (2), and (3) of subsection (a) and paragraph (1) of subsection (b); and

(2) in consultation with relevant modal administrations, administer the programs described in subsections (a)(4) and (b)(2).

(d) TREATMENT OF FUNDS.—Funds authorized to be appropriated by subsections (a) and (b) shall—

(1) be available for obligation in the same manner as if those funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of a project or activity carried out using those funds shall be 80 percent, unless otherwise expressly provided by this title (including the amendments by this title) or otherwise determined by the Secretary; and

(2) remain available until expended and not be transferable, except as otherwise provided in this title.

#### Subtitle A—Research and Development

#### SEC. 5101. HIGHWAY RESEARCH AND DEVELOPMENT PROGRAM.

(a) IN GENERAL.—Section 503 of title 23, United States Code, is amended—

(1) in subsection (a)(2) by striking “section 508” and inserting “section 6503 of title 49”; and

(2) in subsection (b)—

(A) in paragraph (3)—

(i) in subparagraph (A)—

(I) in clause (ii) by striking “; and” and inserting a semicolon;

(II) in clause (iii) by striking the period and inserting “; and”; and

(III) by adding at the end the following:

“(iv) to reduce greenhouse gas emissions and limit the effects of climate change.”; and

(ii) by striking subparagraphs (D) and (E);

(B) in paragraph (4)(A)—

(i) in clause (ii) by striking “; and” and inserting a semicolon;

(ii) in clause (iii) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(iv) to reduce greenhouse gas emissions and limit the effects of climate change.”;

(C) in paragraph (5)(A)—

(i) in clause (iv) by striking “; and” and inserting a semicolon;

(ii) in clause (v) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(vi) reducing greenhouse gas emissions and limiting the effects of climate change.”; and

(D) by adding at the end the following:

“(9) ANALYSIS TOOLS.—The Secretary may develop interactive modeling tools and databases that—

“(A) track the condition of highway assets, including interchanges, and the reconstruction history of such assets;

“(B) can be used to assess transportation options;

“(C) allow for the monitoring and modeling of network-level traffic flows on highways; and

“(D) further Federal and State understanding of the importance of national and regional connectivity and the need for long-distance and interregional passenger and freight travel by highway and other surface transportation modes.

“(10) PERFORMANCE MANAGEMENT DATA SUPPORT PROGRAM.—

“(A) PERFORMANCE MANAGEMENT DATA SUPPORT.—The Administrator of the Federal Highway Administration shall develop, use, and maintain data sets and data analysis tools to assist metropolitan planning organizations, States, and the Federal Highway Administration in carrying out performance management analyses (including the performance management requirements under section 150).

“(B) INCLUSIONS.—The data analysis activities authorized under subparagraph (A) may include—

“(i) collecting and distributing vehicle probe data describing traffic on Federal-aid highways;

“(ii) collecting household travel behavior data to assess local and cross-jurisdictional travel, including to accommodate external and through travel;

“(iii) enhancing existing data collection and analysis tools to accommodate performance measures, targets, and related data, so as to better understand trip origin and destination, trip time, and mode;

“(iv) enhancing existing data analysis tools to improve performance predictions and travel models in reports described in section 150(e);

“(v) developing tools—

“(I) to improve performance analysis; and

“(II) to evaluate the effects of project investments on performance;

“(vi) assisting in the development or procurement of the transportation system access data under section 1403(g) of the INVEST in America Act; and

“(vii) developing tools and acquiring data described under paragraph (9).

“(C) FUNDING.—The Administrator of the Federal Highway Administration may use up to \$15,000,000 for each of fiscal years 2022 through 2025 to carry out this paragraph.”.

(b) REPEAL.—Section 6028 of the FAST Act (23 U.S.C. 150 note), and the item relating to such section in the table of contents in section 1(b) of such Act, are repealed.

**SEC. 5102. MATERIALS TO REDUCE GREENHOUSE GAS EMISSIONS PROGRAM.**

Section 503 of title 23, United States Code, as amended by section 5101, is further amended by adding at the end the following:

“(d) MATERIALS TO REDUCE GREENHOUSE GAS EMISSIONS PROGRAM.—

“(1) IN GENERAL.—Not later than 6 months after the date of enactment of this subsection, the Secretary shall establish and implement a program under which the Secretary shall award grants to eligible entities to research and support the development of materials that will reduce or sequester the amount of greenhouse gas emissions generated during the production of highway materials and the construction and use of highways.

“(2) ACTIVITIES.—The Secretary shall ensure that the program, at a minimum—

“(A) carries out research to determine the materials proven to most effectively reduce or sequester greenhouse gas emissions;

“(B) evaluates and improves the ability of materials to most effectively reduce or sequester greenhouse gas emissions; and

“(C) supports the development and deployment of materials that will reduce or sequester greenhouse gas emissions.

“(3) COMPETITIVE SELECTION PROCESS.—

“(A) APPLICATIONS.—To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Secretary an application in such form and containing such information as the Secretary may require.

“(B) CONSIDERATION.—In making grants under this subsection, the Secretary shall consider the degree to which applicants presently carry out research on materials that reduce or sequester greenhouse gas emissions.

“(C) SELECTION CRITERIA.—The Secretary may make grants under this subsection to any eligible entity based on the demonstrated ability of the applicant to fulfill the activities described in paragraph (2).

“(D) TRANSPARENCY.—

“(i) IN GENERAL.—The Secretary shall provide to each eligible entity submitting an application under this subsection, upon request, any materials, including copies of reviews (with any information that would identify a reviewer redacted), used in the evaluation process of the application of such entity.

“(ii) REPORTS.—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report describing the overall review process for a grant under this subsection, including—

“(I) specific criteria of evaluation used in the review;

“(II) descriptions of the review process; and

“(III) explanations of the grants awarded.

“(4) GRANTS.—

“(A) RESTRICTIONS.—

“(i) IN GENERAL.—For each fiscal year, a grant made available under this subsection shall be not greater than \$4,000,000 and not less than \$2,000,000 per recipient.

“(ii) LIMITATION.—An eligible entity may only receive 1 grant in a fiscal year under this subsection.

“(B) MATCHING REQUIREMENTS.—

“(i) IN GENERAL.—As a condition of receiving a grant under this subsection, a grant recipient shall match 50 percent of the amounts made available under the grant.

“(ii) SOURCES.—The matching amounts referred to in clause (i) may include amounts made available to the recipient under—

“(I) section 504(b); or

“(II) section 505.

“(5) PROGRAM COORDINATION.—

“(A) IN GENERAL.—The Secretary shall—

“(i) coordinate the research, education, and technology transfer activities carried out by grant recipients under this subsection;

“(ii) disseminate the results of that research through the establishment and operation of a publicly accessible online information clearinghouse; and

“(iii) to the extent practicable, support the deployment and commercial adoption of effective materials researched or developed under this subsection to relevant stakeholders.

“(B) ANNUAL REVIEW AND EVALUATION.—Not later than 2 years after the date of enactment of this subsection, and not less frequently than annually thereafter, the Secretary shall, consistent with the activities in paragraph (3)—

“(i) review and evaluate the programs carried out under this subsection by grant recipients, describing the effectiveness of the program in identifying materials that reduce or sequester greenhouse gas emissions;

“(ii) submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report describing such review and evaluation; and

“(iii) make the report in clause (ii) available to the public on a website.

“(6) LIMITATION ON AVAILABILITY OF AMOUNTS.—Amounts made available to carry out this subsection shall remain available for obligation by the Secretary for a period of 3 years after the last day of the fiscal year for which the amounts are authorized.

“(7) INFORMATION COLLECTION.—Any survey, questionnaire, or interview that the Secretary determines to be necessary to carry out reporting requirements relating to any program assessment or evaluation activity under this subsection, including customer satisfaction assessments, shall not be subject to chapter 35 of title 44.

“(8) DEFINITION OF ELIGIBLE ENTITY.—In this subsection, the term ‘eligible entity’ means a nonprofit institution of higher education, as such term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).”

**SEC. 5103. TRANSPORTATION RESEARCH AND DEVELOPMENT 5-YEAR STRATEGIC PLAN.**

Section 6503 of title 49, United States Code, is amended—

(1) in subsection (a) by striking “The Secretary” and inserting “For the period of fiscal years 2017 through 2021, and for each 5-year period thereafter, the Secretary”;

(2) in subsection (c)(1)—

(A) in subparagraph (D) by inserting “and the existing transportation system” after “infrastructure”;

(B) in subparagraph (E) by striking “; and” and inserting a semicolon;

(C) by amending subparagraph (F) to read as follows:

“(F) reducing greenhouse gas emissions; and”;

(D) by adding at the end the following:

“(G) developing and maintaining a diverse workforce in transportation sectors;”;

(3) in subsection (d) by striking “not later than December 31, 2016,” and inserting “not later than December 31, 2021,”.

**SEC. 5104. UNIVERSITY TRANSPORTATION CENTERS PROGRAM.**

Section 5505 of title 49, United States Code, is amended—

(1) in subsection (b)(4)—

(A) in subparagraph (A) by striking “research priorities identified in chapter 65.” and inserting the following: “following research priorities:

“(i) Improving the mobility of people and goods.

“(ii) Reducing congestion.

“(iii) Promoting safety.

“(iv) Improving the durability and extending the life of transportation infrastructure and the existing transportation system.

“(v) Preserving the environment.

“(vi) Reducing greenhouse gas emissions.”;

and

(B) in subparagraph (B)—

(i) by striking “Technology and” and inserting “Technology,”; and

(ii) by inserting “, the Associate Administrator for Research, Demonstration, and Innovation and Administrator of the Federal Transit Administration,” after “Federal Highway Administration”;

(2) in subsection (c)—

(A) in paragraph (1)—

(i) by striking “Not later than 1 year after the date of enactment of this section,” and inserting the following:

“(A) SELECTION OF GRANTS.—Not later than 1 year after the date of enactment of the INVEST in America Act,”; and

(ii) by adding at the end the following:

“(B) LIMITATIONS.—A grant under this subsection may not include a cooperative agreement described in section 6305 of title 31.”;

(B) in paragraph (2)—

(i) in subparagraph (A) by striking “5 consortia” and inserting “6 consortia”;

(ii) in subparagraph (B)—

(I) in clause (i) by striking “not greater than \$4,000,000 and not less than \$2,000,000” and inserting “not greater than \$4,250,000 and not less than \$2,250,000”; and

(II) in clause (ii) by striking “section 6503(c)” and inserting “subsection (b)(4)(A)”;

(iii) in subparagraph (C) by striking “100 percent” and inserting “50 percent”; and

(iv) by adding at the end the following:

“(D) REQUIREMENT.—In awarding grants under this section, the Secretary shall award 1 grant to a national consortia for each focus area described in subsection (b)(4)(A).”;

(C) in paragraph (3)—

(i) in subparagraph (C) by striking “not greater than \$3,000,000 and not less than \$1,500,000” and inserting “not greater than \$3,250,000 and not less than \$1,750,000”;

(ii) in subparagraph (D)(i) by striking “100 percent” and inserting “50 percent”; and

(iii) by striking subparagraph (E); and

(D) in paragraph (4)—

(i) in subparagraph (A) by striking “greater than \$2,000,000 and not less than \$1,000,000” and inserting “greater than \$2,250,000 and not less than \$1,250,000”; and

(ii) by striking subparagraph (C) and inserting the following:

“(C) REQUIREMENTS.—In awarding grants under this paragraph, the Secretary shall—

“(i) consider consortia that include institutions that have demonstrated an ability in transportation-related research; and

“(ii) award not less than 2 grants under this section to minority institutions, as such term is defined in section 365 of the Higher Education Act of 1965 (20 U.S.C. 1067k).

“(D) FOCUSED RESEARCH.—

“(i) IN GENERAL.—In awarding grants under this section, the Secretary shall select not less than 1 grant recipient with each of the following focus areas:

“(I) Transit.

“(II) Connected and automated vehicle technology.

“(III) Non-motorized transportation, including bicycle and pedestrian safety.

“(IV) Transportation planning, including developing metropolitan planning practices to meet the considerations described in section 134(c)(4) of title 23 and section 5303(c)(4).

“(V) The surface transportation workforce, including—

“(aa) current and future workforce needs and challenges; and

“(bb) the impact of technology on the transportation sector.

“(VI) Climate change mitigation, including—

“(aa) researching the types of transportation projects that are expected to provide the most significant greenhouse gas emissions reductions from the surface transportation sector; and

“(bb) researching the types of transportation projects that are not expected to provide significant greenhouse gas emissions reductions from the surface transportation sector.

“(VII) Rail.

“(ii) **ADDITIONAL GRANTS.**—In awarding grants under this section and after awarding grants pursuant to clause (i), the Secretary may award any remaining grants to any grant recipient based on the criteria described in subsection (b)(4)(A).

“(E) **CONSIDERATIONS FOR SELECTED INSTITUTIONS.**—

“(i) **IN GENERAL.**—Tier 1 transportation centers awarded a grant under this paragraph with a focus area described in subparagraph (D)(i)(IV) shall consider the following areas for research:

“(I) strategies to address climate change mitigation and impacts described in section 134(i)(2)(I)(ii) of title 23 and the incorporation of such strategies into long range transportation plan; and

“(II) preparation of a vulnerability assessment described in section 134(i)(2)(I)(iii) of title 23.

“(ii) **ACTIVITIES.**—A tier 1 transportation center receiving a grant under this section with a focus area described in subparagraph (D)(i)(IV) may—

“(I) establish best practices;

“(II) develop modeling tools; and

“(III) carry out other activities and develop technology that addresses the planning considerations described in clause (i).

“(iii) **LIMITATION.**—Research under this subparagraph shall focus on metropolitan planning organizations that represent urbanized areas with populations of 200,000 or fewer.”;

(3) in subsection (d)(3) by striking “fiscal years 2016 through 2020” and inserting “fiscal years 2022 through 2025”;

(4) by redesignating subsection (f) as subsection (g); and

(5) by inserting after subsection (e) the following:

“(f) **SURPLUS AMOUNTS.**—

“(1) **IN GENERAL.**—Amounts made available to the Secretary to carry out this section that remain unobligated after awarding grants under subsection (c) shall be made available under the unsolicited research initiative under section 5506.

“(2) **LIMITATION ON AMOUNTS.**—Amounts under paragraph (1) shall not exceed \$2,000,000 for any given fiscal year.”.

#### **SEC. 5105. UNSOLICITED RESEARCH INITIATIVE.**

(a) **IN GENERAL.**—Subchapter I of chapter 55 of title 49, United States Code, is amended by adding at the end the following:

##### **“§5506. Unsolicited research initiative**

“(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this section, the Secretary shall establish a program under which an eligible entity may at any time submit unsolicited research proposals for funding under this section.

“(b) **CRITERIA.**—A research proposal submitted under subsection (a) shall meet the purposes of the Secretary’s 5-year transportation research and development strategic plan described in section 6503(c)(1).

“(c) **PROJECT REVIEW.**—Not later than 90 days after an eligible entity submits a proposal under subsection (a), the Secretary shall—

“(1) review the research proposal submitted under subsection (a);

“(2) evaluate such research proposal relative to the criteria described in subsection (b);

“(3) provide to such eligible entity a written notice that—

“(A) if the research proposal is not selected for funding under this section—

“(i) notifies the eligible entity that the research proposal has not been selected for funding;

“(ii) provides an explanation as to why the research proposal was not selected, including if

the research proposal does not cover an area of need; and

“(iii) if applicable, recommends that the research proposal be submitted to another research program; and

“(B) if the research proposal is selected for funding under this section, notifies the eligible entity that the research proposal has been selected for funding; and

“(4) fund the proposals described in paragraph (3)(B).

“(d) **REPORT.**—Not later than 18 months after the date of enactment of this section, and annually thereafter, the Secretary shall make available to the public on a public website a report on the progress and findings of the program established under subsection (a).

“(e) **FEDERAL SHARE.**—

“(1) **IN GENERAL.**—The Federal share of the cost of an activity carried out under this section may not exceed 50 percent.

“(2) **NON-FEDERAL SHARE.**—All costs directly incurred by the non-Federal partners, including personnel, travel, facility, and hardware development costs, shall be credited toward the non-Federal share of the cost of an activity carried out under this section.

“(f) **FUNDING.**—

“(1) **IN GENERAL.**—Of the funds made available to carry out the university transportation centers program under section 5505, \$2,000,000 shall be available for each of fiscal years 2022 through 2025 to carry out this section.

“(2) **FUNDING FLEXIBILITY.**—

“(A) **IN GENERAL.**—For fiscal years 2022 through 2025, funds made available under paragraph (1) shall remain available until expended.

“(B) **UNCOMMITTED FUNDS.**—If the Secretary determines, at the end of a fiscal year, funds under paragraph (1) remain unexpended as a result of a lack of meritorious projects under this section, the Secretary may, for the following fiscal year, make remaining funds available under either this section or under section 5505.

“(g) **ELIGIBLE ENTITY DEFINED.**—In this section, the term ‘eligible entity’ means

“(1) a State;

“(2) a unit of local government;

“(3) a transit agency;

“(4) any nonprofit institution of higher education, including a university transportation center under section 5505; and

“(5) a nonprofit organization.”.

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 55 of title 49, United States Code, is amended by inserting after the item relating to section 5505 the following new item:

“5506. Unsolicited research initiative.”.

#### **SEC. 5106. NATIONAL COOPERATIVE MULTIMODAL FREIGHT TRANSPORTATION RESEARCH PROGRAM.**

(a) **IN GENERAL.**—Chapter 702 of title 49, United States Code, is amended by adding at the end the following:

##### **“§70205. National cooperative multimodal freight transportation research program**

“(a) **ESTABLISHMENT.**—Not later than 1 year after the date of enactment of this section, the Secretary shall establish and support a national cooperative multimodal freight transportation research program.

“(b) **AGREEMENT.**—Not later than 6 months after the date of enactment of this section, the Secretary shall seek to enter into an agreement with the National Academy of Sciences to support and carry out administrative and management activities relating to the governance of the national cooperative multimodal freight transportation research program.

“(c) **ADVISORY COMMITTEE.**—In carrying out the agreement described in subsection (b), the National Academy of Sciences shall select a multimodal freight transportation research advisory committee consisting of multimodal freight stakeholders, including, at a minimum—

“(1) a representative of the Department of Transportation;

“(2) representatives of any other Federal agencies relevant in supporting the nation’s multimodal freight transportation research needs;

“(3) a representative of a State department of transportation;

“(4) a representative of a local government (other than a metropolitan planning organization);

“(5) a representative of a metropolitan planning organization;

“(6) a representative of the trucking industry;

“(7) a representative of the railroad industry;

“(8) a representative of the port industry;

“(9) a representative of logistics industry;

“(10) a representative of shipping industry;

“(11) a representative of a safety advocacy group with expertise in freight transportation;

“(12) an academic expert on multimodal freight transportation;

“(13) an academic expert on the contributions of freight movement to greenhouse gas emissions; and

“(14) representatives of labor organizations representing workers in freight transportation.

“(d) **ELEMENTS.**—The national cooperative multimodal freight transportation research program established under this section shall include the following elements:

“(1) **NATIONAL RESEARCH AGENDA.**—The advisory committee under subsection (c), in consultation with interested parties, shall recommend a national research agenda for the program established in this section.

“(2) **INVOLVEMENT.**—Interested parties may—

“(A) submit research proposals to the advisory committee;

“(B) participate in merit reviews of research proposals and peer reviews of research products; and

“(C) receive research results.

“(3) **OPEN COMPETITION AND PEER REVIEW OF RESEARCH PROPOSALS.**—The National Academy of Sciences may award research contracts and grants under the program through open competition and merit review conducted on a regular basis.

“(4) **EVALUATION OF RESEARCH.**—

“(A) **PEER REVIEW.**—Research contracts and grants under the program may allow peer review of the research results.

“(B) **PROGRAMMATIC EVALUATIONS.**—The National Academy of Sciences shall conduct periodic programmatic evaluations on a regular basis of research contracts and grants.

“(5) **DISSEMINATION OF RESEARCH FINDINGS.**—

“(A) **IN GENERAL.**—The National Academy of Sciences shall disseminate research findings to researchers, practitioners, and decisionmakers, through conferences and seminars, field demonstrations, workshops, training programs, presentations, testimony to government officials, a public website for the National Academy of Sciences, publications for the general public, and other appropriate means.

“(B) **REPORT.**—Not more than 18 months after the date of enactment of this section, and annually thereafter, the Secretary shall make available on a public website a report that describes the ongoing research and findings of the program.

“(e) **CONTENTS.**—The national research agenda under subsection (d)(1) shall include—

“(1) techniques and tools for estimating and identifying both quantitative and qualitative public benefits derived from multimodal freight transportation projects, including—

“(A) greenhouse gas emissions reduction;

“(B) congestion reduction; and

“(C) safety benefits;

“(2) the impact of freight delivery vehicles, including trucks, railcars, and non-motorized vehicles, on congestion in urban and rural areas;

“(3) the impact of both centralized and disparate origins and destinations on freight movement;

“(4) the impacts of increasing freight volumes on transportation planning, including—

“(A) first-mile and last-mile challenges to multimodal freight movement;

“(B) multimodal freight travel in both urban and rural areas; and

“(C) commercial motor vehicle parking and rest areas;

“(5) the effects of Internet commerce and accelerated delivery speeds on freight movement and increased commercial motor vehicle volume, including impacts on—

“(A) safety on public roads;

“(B) congestion in both urban and rural areas;

“(C) first-mile and last-mile challenges and opportunities;

“(D) the environmental impact of freight transportation, including on air quality and on greenhouse gas emissions; and

“(E) vehicle miles-traveled by freight-delivering vehicles;

“(6) the impacts of technological advancements in freight movement, including impacts on—

“(A) congestion in both urban and rural areas;

“(B) first-mile and last-mile challenges and opportunities; and

“(C) vehicle miles-traveled;

“(7) methods and best practices for aligning multimodal infrastructure improvements with multimodal freight transportation demand, including improvements to the National Multimodal Freight Network under section 70103; and

“(8) other research areas to identify and address current, emerging, and future needs related to multimodal freight transportation.

“(f) FUNDING.—

“(1) FEDERAL SHARE.—The Federal share of the cost of an activity carried out under this section shall be 100 percent.

“(2) PERIOD OF AVAILABILITY.—Amounts made available to carry out this section shall remain available until expended.

“(g) DEFINITION OF GREENHOUSE GAS.—In this section, the term ‘greenhouse gas’ has the meaning given such term in section 211(o)(1) of the Clean Air Act (42 U.S.C. 7545(o)(1)).”

(b) CLERICAL AMENDMENT.—The analysis for chapter 702 of title 49, United States Code, is amended by adding at the end the following new item:

“70205. National cooperative multimodal freight transportation research program.”

#### **SEC. 5107. WILDLIFE-VEHICLE COLLISION REDUCTION AND HABITAT CONNECTIVITY IMPROVEMENT.**

(a) STUDY.—

(1) IN GENERAL.—The Secretary of Transportation shall conduct a study examining methods to reduce collisions between motorists and wildlife (referred to in this section as “wildlife-vehicle collisions”).

(2) CONTENTS.—

(A) AREAS OF STUDY.—The study required under paragraph (1) shall—

(i) update and expand on, as appropriate—

(I) the report titled “Wildlife Vehicle Collision Reduction Study: 2008 Report to Congress”; and

(II) the document titled “Wildlife Vehicle Collision Reduction Study: Best Practices Manual” and dated October 2008; and

(ii) include—

(I) an assessment, as of the date of the study, of—

(aa) the causes of wildlife-vehicle collisions;

(bb) the impact of wildlife-vehicle collisions on motorists and wildlife; and

(cc) the impacts of roads and traffic on habitat connectivity for terrestrial and aquatic species; and

(II) solutions and best practices for—

(aa) reducing wildlife-vehicle collisions; and

(bb) improving habitat connectivity for terrestrial and aquatic species.

(B) METHODS.—In carrying out the study required under paragraph (1), the Secretary shall—

(i) conduct a thorough review of research and data relating to—

(I) wildlife-vehicle collisions; and

(II) habitat fragmentation that results from transportation infrastructure;

(ii) survey current practices of the Department of Transportation and State departments of transportation to reduce wildlife-vehicle collisions; and

(iii) consult with—

(I) appropriate experts in the field of wildlife-vehicle collisions; and

(II) appropriate experts on the effects of roads and traffic on habitat connectivity for terrestrial and aquatic species.

(3) REPORT.—

(A) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Secretary shall submit to Congress a report on the results of the study required under paragraph (1).

(B) CONTENTS.—The report required under subparagraph (A) shall include—

(i) a description of—

(I) the causes of wildlife-vehicle collisions;

(II) the impacts of wildlife-vehicle collisions; and

(III) the impacts of roads and traffic on—

(aa) species listed as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(bb) species identified by States as species of greatest conservation need;

(cc) species identified in State wildlife plans; and

(dd) medium and small terrestrial and aquatic species;

(ii) an economic evaluation of the costs and benefits of installing highway infrastructure and other measures to mitigate damage to terrestrial and aquatic species, including the effect on jobs, property values, and economic growth to society, adjacent communities, and landowners;

(iii) recommendations for preventing wildlife-vehicle collisions, including recommended best practices, funding resources, or other recommendations for addressing wildlife-vehicle collisions; and

(iv) guidance to develop, for each State that agrees to participate, a voluntary joint statewide transportation and wildlife action plan.

(C) PURPOSES.—The purpose of the guidance described in subparagraph (B)(iv) shall be—

(i) to address wildlife-vehicle collisions; and

(ii) to improve habitat connectivity for terrestrial and aquatic species.

(D) CONSULTATION.—The Secretary shall develop the guidance described under subparagraph (B)(iv) in consultation with—

(i) Federal land management agencies;

(ii) State departments of transportation;

(iii) State fish and wildlife agencies; and

(iv) Tribal governments.

(b) STANDARDIZATION OF WILDLIFE COLLISION AND CARCASS DATA.—

(1) STANDARDIZATION METHODOLOGY.—

(A) IN GENERAL.—The Secretary of Transportation, acting through the Administrator of the Federal Highway Administration, shall develop a quality standardized methodology for collecting and reporting spatially accurate wildlife collision and carcass data for the National Highway System, taking into consideration the practicability of the methodology with respect to technology and cost.

(B) METHODOLOGY.—In developing the standardized methodology under subparagraph (A), the Secretary shall—

(i) survey existing methodologies and sources of data collection, including the Fatality Analysis Reporting System, the General Estimates System of the National Automotive Sampling System, and the Highway Safety Information System; and

(ii) to the extent practicable, identify and correct limitations of such existing methodologies and sources of data collection.

(C) CONSULTATION.—In developing the standardized methodology under subparagraph (A), the Secretary shall consult with—

(i) the Secretary of the Interior;

(ii) the Secretary of Agriculture, acting through the Chief of the Forest Service;

(iii) Tribal, State, and local transportation and wildlife authorities;

(iv) metropolitan planning organizations (as such term is defined in section 134(b) of title 23, United States Code);

(v) members of the American Association of State Highway and Transportation Officials;

(vi) members of the Association of Fish and Wildlife Agencies;

(vii) experts in the field of wildlife-vehicle collisions;

(viii) nongovernmental organizations; and

(ix) other interested stakeholders, as appropriate.

(2) STANDARDIZED NATIONAL DATA SYSTEM WITH VOLUNTARY TEMPLATE IMPLEMENTATION.—The Secretary shall—

(A) develop a template for State implementation of a standardized national wildlife collision and carcass data system for the National Highway System that is based on the standardized methodology developed under paragraph (1); and

(B) encourage the voluntary implementation of the template developed under subparagraph (A) for States, metropolitan planning organizations, and additional relevant transportation stakeholders.

(3) REPORTS.—

(A) METHODOLOGY.—The Secretary shall submit to Congress a report describing the development of the standardized methodology required under paragraph (1) not later than—

(i) the date that is 18 months after the date of enactment of this Act; and

(ii) the date that is 180 days after the date on which the Secretary completes the development of such standardized methodology.

(B) IMPLEMENTATION.—Not later than 3 years after the date of enactment of this Act, the Secretary shall submit to Congress a report describing—

(i) the status of the voluntary implementation of the standardized methodology developed under paragraph (1) and the template developed under paragraph (2)(A);

(ii) whether the implementation of the standardized methodology developed under paragraph (1) and the template developed under paragraph (2)(A) has impacted efforts by States, units of local government, and other entities—

(I) to reduce the number of wildlife-vehicle collisions; and

(II) to improve habitat connectivity;

(iii) the degree of the impact described in clause (ii); and

(iv) the recommendations of the Secretary, including recommendations for further study aimed at reducing motorist collisions involving wildlife and improving habitat connectivity for terrestrial and aquatic species on the National Highway System, if any.

(c) NATIONAL THRESHOLD GUIDANCE.—The Secretary of Transportation shall—

(1) establish guidance, to be carried out by States on a voluntary basis, that contains a threshold for determining whether a highway shall be evaluated for potential mitigation measures to reduce wildlife-vehicle collisions and increase habitat connectivity for terrestrial and aquatic species, taking into consideration—

(A) the number of wildlife-vehicle collisions on the highway that pose a human safety risk;

(B) highway-related mortality and effects of traffic on the highway on—

(i) species listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(ii) species identified by a State as species of greatest conservation need;

(iii) species identified in State wildlife plans; and

(iv) medium and small terrestrial and aquatic species; and

(C) habitat connectivity values for terrestrial and aquatic species and the barrier effect of the

highway on the movements and migrations of those species.

(d) **WORKFORCE DEVELOPMENT AND TECHNICAL TRAINING.**—

(1) **IN GENERAL.**—Not later than 3 years after the date of enactment of this Act, the Secretary shall, based on the study conducted under subsection (a), develop a series of in-person and online workforce development and technical training courses—

(A) to reduce wildlife-vehicle collisions; and  
(B) to improve habitat connectivity for terrestrial and aquatic species.

(2) **AVAILABILITY.**—The Secretary shall—

(A) make the series of courses developed under paragraph (1) available for transportation and fish and wildlife professionals; and

(B) update the series of courses not less frequently than once every 2 years.

(e) **WILDLIFE HABITAT CONNECTIVITY AND NATIONAL BRIDGE AND TUNNEL INVENTORY AND INSPECTION STANDARDS.**—Section 144 of title 23, United States Code, is amended in subsection (a)(2)—

(1) in subparagraph (B) by inserting “, resilience,” after “safety”;

(2) in subparagraph (D) by striking “and” at the end;

(3) in subparagraph (E) by striking the period at the end and inserting “; and”; and

(4) by adding at the end the following:

“(F) to ensure adequate passage of aquatic and terrestrial species, where appropriate.”;

#### **SEC. 5108. RESEARCH ACTIVITIES.**

Section 330(g) of title 49, United States Code, is amended by striking “each of fiscal years 2016 through 2020” and inserting “each of fiscal years 2022 through 2025”.

#### **SEC. 5109. INNOVATIVE MATERIAL INNOVATION HUBS.**

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—The Secretary of Transportation shall carry out a program to enhance the development of innovative materials in the United States by making awards to consortia for establishing and operating Hubs (to be known as “Innovative Material Innovation Hubs”) to conduct and support multidisciplinary, collaborative research, development, demonstration, standardized design development, and commercial application of innovative materials.

(2) **COORDINATION.**—The Secretary shall ensure the coordination of, and avoid duplication of, the activities of each Hub with the activities of—

(A) other research entities of the Department of Transportation, including the Federal Highway Administration; and

(B) research entities of other Federal agencies, as appropriate.

(b) **COMPETITIVE SELECTION PROCESS.**—

(1) **ELIGIBILITY.**—To be eligible to receive an award for the establishment and operation of a Hub under subsection (a)(1), a consortium shall—

(A) be composed of not fewer than 2 qualifying entities;

(B) operate subject to a binding agreement, entered into by each member of the consortium, that documents—

(i) the proposed partnership agreement, including the governance and management structure of the Hub;

(ii) measures the consortium will undertake to enable cost-effective implementation of activities under the program described in subsection (a)(1); and

(iii) a proposed budget, including financial contributions from non-Federal sources; and

(C) operate as a nonprofit organization.

(2) **APPLICATION.**—

(A) **IN GENERAL.**—A consortium seeking to establish and operate a Hub under subsection (a)(1) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a detailed description of—

(i) each element of the consortium agreement required under paragraph (1)(B); and

(ii) any existing facilities the consortium intends to use for Hub activities.

(B) **REQUIREMENT.**—If the consortium members will not be located at 1 centralized location, the application under subparagraph (A) shall include a communications plan that ensures close coordination and integration of Hub activities.

(3) **SELECTION.**—

(A) **IN GENERAL.**—The Secretary shall select consortia for awards for the establishment and operation of Hubs through a competitive selection process.

(B) **CONSIDERATIONS.**—In selecting consortia under subparagraph (A), the Secretary shall consider—

(i) any existing facilities a consortium has identified to be used for Hub activities;

(ii) maintaining geographic diversity in locations of selected Hubs;

(iii) the demonstrated ability of the recipient to conduct and support multidisciplinary, collaborative research, development, demonstration, standardized design development, and commercial application of innovative materials;

(iv) the demonstrated research, technology transfer, and education resources available to the recipient to carry out this section;

(v) the ability of the recipient to provide leadership in solving immediate and long-range national and regional transportation problems related to innovative materials;

(vi) the demonstrated ability of the recipient to disseminate results and spur the implementation of transportation research and education programs through national or statewide continuing education programs;

(vii) the demonstrated commitment of the recipient to the use of peer review principles and other research best practices in the selection, management, and dissemination of research projects;

(viii) the performance metrics to be used in assessing the performance of the recipient in meeting the stated research, technology transfer, education, and outreach goals; and

(ix) the ability of the recipient to implement the proposed program in a cost-efficient manner, including through cost sharing and overall reduced overhead, facilities, and administrative costs.

(4) **TRANSPARENCY.**—

(A) **IN GENERAL.**—The Secretary shall provide to each applicant, upon request, any materials, including copies of reviews (with any information that would identify a reviewer redacted), used in the evaluation process of the proposal of the applicant.

(B) **REPORTS.**—The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report describing the overall review process under paragraph (2), given the considerations under paragraph (3), that includes—

(i) specific criteria of evaluation used in the review;

(ii) descriptions of the review process; and

(iii) explanations of the selected awards.

(C) **AUTHORIZATION.**—There is authorized to be appropriated to carry out this section such sums as may be necessary and such sums shall remain available for a period of 3 years after the last day of the fiscal year in which such sums were made available.

(d) **HUB OPERATIONS.**—

(1) **IN GENERAL.**—Each Hub shall conduct, or provide for, multidisciplinary, collaborative research, development, demonstration, and commercial application of innovative materials.

(2) **ACTIVITIES.**—Each Hub shall—

(A) encourage collaboration and communication among the member qualifying entities of the consortium, as described in subsection (b)(1), and awardees;

(B) develop and publish proposed plans and programs on a publicly accessible website;

(C) submit to the Department of Transportation an annual report summarizing the activities of the Hub, including information—

(i) detailing organizational expenditures; and

(ii) describing each project undertaken by the Hub, as it relates to conducting and supporting multidisciplinary, collaborative research, development, demonstration, standardized design development, and commercial application of innovative materials; and

(D) monitor project implementation and coordination.

(3) **CONFLICTS OF INTEREST.**—Each Hub shall maintain conflict of interest procedures, consistent with the conflict of interest procedures of the Department of Transportation.

(4) **PROHIBITION ON CONSTRUCTION AND RENOVATION.**—

(A) **IN GENERAL.**—No funds provided under this section may be used for construction or renovation of new buildings, test beds, or additional facilities for Hubs.

(B) **NON-FEDERAL SHARE.**—Construction of new buildings or facilities shall not be considered as part of the non-Federal share of a Hub cost-sharing agreement.

(e) **APPLICABILITY.**—The Secretary shall administer this section in accordance with section 330 of title 49, United States Code.

(f) **DEFINITIONS.**—In this section:

(1) **HUB.**—The term “Hub” means an Innovative Material Innovation Hub established under this section.

(2) **QUALIFYING ENTITY.**—The term “qualifying entity” means—

(A) an institution of higher education (as such term is defined in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a))); and

(B) an appropriate Federal or State entity, including a federally funded research and development center of the Department of Transportation;

(C) a university transportation center under section 5505 of title 49, United States Code; and

(D) a research and development entity in existence on the date of enactment of this Act focused on innovative materials that the Secretary determines to be similar in scope and intent to a Hub under this section.

(3) **INNOVATIVE MATERIAL.**—The term “innovative material”, with respect to an infrastructure project, includes materials or combinations and processes for use of materials that enhance the overall service life, sustainability, and resiliency of the project or provide ancillary benefits relative to widely adopted state of practice technologies, as determined by the Secretary.

#### **SEC. 5110. STRATEGIC TRANSPORTATION RESEARCH AGENDA.**

(a) **IN GENERAL.**—Subchapter 1 of chapter 55 of title 49, United States Code, as amended, is further amended by adding at the end the following:

#### **“SEC. 5509. STRATEGIC TRANSPORTATION RESEARCH AGENDA.**

“(a) **IN GENERAL.**—Not later than 1 year after the date of enactment of this section, the Secretary shall enter into an agreement with the National Academies to undertake a study of the research needs of the surface transportation system to fully adapt and integrate advanced technologies and innovation. The focus areas of the study shall include—

“(1) connected and autonomous technologies;

“(2) incorporating safety-related technologies;

“(3) addressing infrastructure resiliency;

“(4) multimodal connectivity;

“(5) data gathering of travel behavior, including the public’s short and long-term responses to transformational technologies;

“(6) impacts of private-sector transportation product development on society and the traditional research enterprise;

“(7) support for a public-sector culture of transportation innovation and acceleration of

federally funded research into practice, codes, and standards; and

“(b) fostering development of transportation educators and transportation professionals.

“(b) REPORT.—The agreement entered into under this section shall require the National Academies to submit to Congress a report containing the results of the study not later than 2 years after the date of enactment of this section.

“(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,500,000 for fiscal year 2022.”.

(b) CONFORMING AMENDMENT.—The analysis for chapter 55 of title 49, United States Code, is further amended by adding at the end the following:

“5509. Strategic transportation research agenda.”.

#### **SEC. 5111. ADVANCED TRANSPORTATION RESEARCH AND INNOVATION PROGRAM.**

(a) IN GENERAL.—Subchapter I of chapter 55 of title 49, United States Code, as amended, is further amended by adding at the end the following:

#### **“§5510. Advanced transportation research and innovation program.**

“(a) ESTABLISHMENT.—The Secretary of Transportation shall establish an advanced transportation research and innovation program, to be administered by the Assistant Secretary of Research and Technology, to—

“(1) support research that addresses the long-term barriers to development of advanced transportation technologies with the potential to meet the Nation’s long-term safety, competitiveness, and transportation goals;

“(2) support high-risk research and development to accelerate transformational transportation innovations and emerging technology development;

“(3) advance research and development that improves the resilience of regions of the United States to natural disasters, extreme weather, and the effects of climate change on modal and multimodal transportation and infrastructure;

“(4) leverage Federal interagency research mechanisms and the academic research enterprise;

“(5) educate and train students in science, technology, engineering, and mathematics fields to conduct research and standards development relevant to transportation technologies, materials, systems, operations, processes, and policies; and

“(6) fostering collaboration among federal researchers and academic researchers.

“(b) COLLABORATION.—

“(1) INTERAGENCY COLLABORATION.—In carrying out this section, the Secretary shall collaborate on, identify, and disseminate within the Department, as appropriate, advanced transportation research, development, and other activities of other Federal agencies, including the Office of Science and Technology Policy, the National Science Foundation, the Department of Energy, the National Institute of Standards and Technology, the Department of Homeland Security, the National Aeronautics and Space Administration, the National Oceanic and Atmospheric Administration, and the Department of Defense to ensure the Department’s research investments are making the best possible contribution to the Nation’s goals of public health and safety, economic prosperity, national security, environmental quality, and a diverse transportation workforce.

“(2) NON-GOVERNMENTAL COLLABORATION.—In carrying out this section, the Secretary shall collaborate with labor organizations, as appropriate.

“(c) RESEARCH GRANTS.—In carrying out this section, the Secretary may carry out the activities described under subsection (a) through—

“(1) competitive, merit-based basic research grants to individual investigators and teams of investigators; and

“(2) centers of excellence selected through a competitive, merit-based process.

“(d) APPLICATION.—

“(1) IN GENERAL.—An investigator, team of investigators, or an institution of higher education (or consortium thereof) seeking funding under this section shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

“(2) RESEARCH CENTERS.—Each application under paragraph (1) from an institution of higher education (or consortium thereof) shall include a description of how the Center will promote multidisciplinary transportation research and development collaboration.

“(e) RESEARCH.—At a minimum, the Secretary shall award 75 percent of awards under this program to projects for basic research.

“(f) REVIEW.—Not later than September 30, 2025, the Secretary shall enter into an agreement with the National Academies to conduct a review of the research and activities carried out under this program and assess whether such activities are consistent with subsection (a). Members of the review panel shall represent, at a minimum, multimodal surface transportation researchers and practitioners.

“(g) REPORT.—Not later than 1 year after the date of enactment of the INVEST in America Act, and biennially thereafter, the Secretary shall provide to the Committee on Commerce, Science, and Transportation and Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure and the Committee on Science, Space, and Technology of the House of Representatives a report on implementation of the program under this section and research areas that the program will support.

“(h) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$25,000,000 for each of fiscal years 2022 through 2025.”.

(b) CONFORMING AMENDMENT.—The analysis for chapter 55 of title 49, United States Code, is further amended by adding at the end the following:

“5510. Advanced transportation research and innovation program.”.

#### **Subtitle B—Technology Deployment**

#### **SEC. 5201. TECHNOLOGY AND INNOVATION DEPLOYMENT PROGRAM.**

Section 503(c) of title 23, United States Code, is amended—

(1) in paragraph (1)—

(A) in subparagraph (A) by inserting “, while considering the impacts on jobs” after “transportation community”;

(B) in subparagraph (D) by striking “; and” and inserting a semicolon;

(C) in subparagraph (E) by striking the period and inserting “; and”; and

(D) by adding at the end the following:

“(F) reducing greenhouse gas emissions and limiting the effects of climate change.”; and

(2) in paragraph (2)(A) by striking the period and inserting “and findings from the materials to reduce greenhouse gas emissions program under subsection (d).”.

#### **SEC. 5202. ACCELERATED IMPLEMENTATION AND DEPLOYMENT OF PAVEMENT TECHNOLOGIES.**

Section 503(c)(3) of title 23, United States Code, is amended—

(1) in subparagraph (B)—

(A) in clause (v) by striking “; and” and inserting a semicolon;

(B) in clause (vi) by striking the period and inserting “; and”; and

(C) by adding at the end the following:

“(vii) the deployment of innovative pavement designs, materials, and practices that reduce or sequester the amount of greenhouse gas emissions generated during the production of highway materials and the construction of highways, with consideration for findings from the

materials to reduce greenhouse gas emissions program under subsection (d).”;

(2) in subparagraph (C) by striking “fiscal years 2016 through 2020” and inserting “fiscal years 2022 through 2025”; and

(3) in subparagraph (D)(ii)—

(A) in subclause (III) by striking “; and” and inserting a semicolon;

(B) in subclause (IV) by striking the period and inserting a semicolon; and

(C) by adding at the end the following:

“(V) pavement monitoring and data collection practices;

“(VI) pavement durability and resilience;

“(VII) stormwater management;

“(VIII) impacts on vehicle efficiency;

“(IX) the energy efficiency of the production of paving materials and the ability of paving materials to enhance the environment and promote sustainability;

“(X) integration of renewable energy in pavement designs; and

“(XI) greenhouse gas emissions reduction, including findings from the materials to reduce greenhouse gas emissions program under subsection (d).”.

#### **SEC. 5203. FEDERAL HIGHWAY ADMINISTRATION EVERY DAY COUNTS INITIATIVE.**

(a) IN GENERAL.—Chapter 5 of title 23, United States Code, is amended by adding at the end the following:

#### **“§520. Every Day Counts initiative**

“(a) IN GENERAL.—It is in the national interest for the Department of Transportation, State departments of transportation, and all other recipients of Federal surface transportation funds—

“(1) to identify, accelerate, and deploy innovation aimed at expediting project delivery;

“(2) enhancing the safety of the roadways of the United States, and protecting the environment;

“(3) to ensure that the planning, design, engineering, construction, and financing of transportation projects is done in an efficient and effective manner;

“(4) to promote the rapid deployment of proven solutions that provide greater accountability for public investments and encourage greater private sector involvement; and

“(5) to create a culture of innovation within the highway community.

“(b) EVERY DAY COUNTS INITIATIVE.—To advance the policy described in subsection (a), the Administrator of the Federal Highway Administration shall continue the Every Day Counts initiative to work with States, local transportation agencies, all other recipients of Federal surface transportation funds, and industry stakeholders, including labor representatives, to identify and deploy proven innovative practices and products that—

“(1) accelerate innovation deployment;

“(2) expedite the project delivery process;

“(3) improve environmental sustainability;

“(4) enhance roadway safety;

“(5) reduce congestion; and

“(6) reduce greenhouse gas emissions.

“(c) CONSIDERATIONS.—In carrying out the Every Day Counts initiative, the Administrator shall consider any innovative practices and products in accordance with subsections (a) and (b), including—

“(1) research results from the university transportation centers program under section 5505 of title 49; and

“(2) results from the materials to reduce greenhouse gas emissions program in section 503(d).

“(d) INNOVATION DEPLOYMENT.—

“(1) IN GENERAL.—At least every 2 years, the Administrator shall work collaboratively with stakeholders to identify a new collection of innovations, best practices, and data to be deployed to highway stakeholders through case studies, outreach, and demonstration projects.

“(2) REQUIREMENTS.—In identifying a collection described in paragraph (1), the Secretary

shall take into account market readiness, impacts, benefits, and ease of adoption of the innovation or practice.

“(e) PUBLICATION.—Each collection identified under subsection (d) shall be published by the Administrator on a publicly available website.

“(f) FUNDING.—The Secretary may use funds made available to carry out section 503(c) to carry out this section.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 5 of title 23, United States Code, is amended by adding at the end the following new item:

“520. Every Day Counts initiative.”.

(c) REPEAL.—Section 1444 of the FAST Act (23 U.S.C. 101 note), and the item related to such section in the table of contents in section 1(b) of such Act, are repealed.

### Subtitle C—Emerging Technologies

#### SEC. 5301. SAFE, EFFICIENT MOBILITY THROUGH ADVANCED TECHNOLOGIES.

Section 503(c)(4) of title 23, United States Code, is amended—

(1) in subparagraph (A)—

(A) by striking “Not later than 6 months after the date of enactment of this paragraph, the” and inserting “The”;

(B) by striking “establish an advanced transportation and congestion management technologies deployment” and inserting “establish a safe, efficient mobility through advanced technologies”;

(C) by inserting “mobility,” before “efficiency,”; and

(D) by inserting “environmental impacts,” after “system performance,”;

(2) in subparagraph (B)—

(A) by striking clause (i) and inserting the following:

“(i) reduce costs, improve return on investments, and improve person throughput and mobility, including through the optimization of existing transportation capacity;”;

(B) in clause (iv) by inserting “bicyclist and” before “pedestrian”;

(C) in clause (vii) by striking “; or” and inserting a semicolon;

(D) in clause (viii)—

(i) by striking “accelerate” and inserting “prepare for”; and

(ii) by striking the period and inserting “; or”; and

(E) by adding at the end the following:

“(ix) reduce greenhouse gas emissions and limit the effects of climate change.”;

(3) in subparagraph (C)—

(A) in clause (ii)(I)(aa) by striking “congestion” and inserting “congestion and delays, greenhouse gas emissions”; and

(B) by adding at the end the following:

“(iii) CONSIDERATIONS.—An application submitted under this paragraph may include a description of how the proposed project would support the national goals described in section 150(b), the achievement of metropolitan and statewide targets established under section 150(d), or the improvement of transportation system access consistent with section 150(f), including through—

“(I) the congestion and on-road mobile-source emissions performance measure established under section 150(c)(5); or

“(II) the greenhouse gas emissions performance measure established under section 150(c)(7).”;

(4) in subparagraph (D) by adding at the end the following:

“(iv) PRIORITIZATION.—In awarding a grant under this paragraph, the Secretary shall prioritize projects that, in accordance with the criteria described in subparagraph (B)—

“(I) improve person throughput and mobility, including through the optimization of existing transportation capacity;

“(II) deliver environmental benefits;

“(III) reduce the number and severity of traffic accidents and increase driver, passenger, and bicyclist and pedestrian safety; or

“(IV) reduce greenhouse gas emissions.

“(v) GRANT DISTRIBUTION.—The Secretary shall award not fewer than 3 grants under this paragraph based on the potential of the project to reduce the number and severity of traffic crashes and increase, driver, passenger, and bicyclist and pedestrian safety.”;

(5) in subparagraph (E)—

(A) in clause (vi)—

(i) by inserting “, vehicle-to-pedestrian,” after “vehicle-to-vehicle”; and

(ii) by inserting “systems to improve vulnerable road user safety,” before “technologies associated with”; and

(B) in clause (ix) by inserting “, including activities under section 5316 of title 49” after “disabled individuals”;

(6) by striking subparagraph (G) and inserting the following:

“(G) REPORTING.—

“(i) APPLICABILITY OF LAW.—The program under this paragraph shall be subject to the accountability and oversight requirements in section 106(m).

“(ii) REPORT.—Not later than 1 year after the date that the first grant is awarded under this paragraph, and each year thereafter, the Secretary shall make available to the public on a website a report that describes the effectiveness of grant recipients in meeting their projected deployment plans, including data provided under subparagraph (F) on how the program has—

“(I) reduced traffic-related fatalities and injuries;

“(II) reduced traffic congestion and improved travel time reliability;

“(III) reduced transportation-related emissions;

“(IV) optimized multimodal system performance;

“(V) improved access to transportation alternatives;

“(VI) provided the public with access to real-time integrated traffic, transit, and multimodal transportation information to make informed travel decisions;

“(VII) provided cost savings to transportation agencies, businesses, and the traveling public;

“(VIII) created or maintained transportation jobs and supported transportation workers; or

“(IX) provided other benefits to transportation users and the general public.

“(iii) CONSIDERATIONS.—If applicable, the Secretary shall ensure that the activities described in subclauses (I) and (IV) of clause (ii) reflect—

“(I) any information described in subparagraph (C)(iii) that is included by an applicant; or

“(II) the project prioritization guidelines under subparagraph (D)(iv).”;

(7) in subparagraph (I) by striking “(i) IN GENERAL” and all that follows through “the Secretary may set aside” and inserting “Of the amounts made available to carry out this paragraph, the Secretary may set aside”;

(8) in subparagraph (J) by striking the period at the end and inserting “, except that the Federal share of the cost of a project for which a grant is awarded under this paragraph shall not exceed 80 percent.”;

(9) in subparagraph (K) by striking “amount described under subparagraph (I)” and inserting “funds made available to carry out this paragraph”;

(10) by striking subparagraph (M) and inserting the following:

“(M) GRANT FLEXIBILITY.—If, by August 1 of each fiscal year, the Secretary determines that there are not enough grant applications that meet the requirements described in subparagraph (C) to carry out this paragraph for a fiscal year, the Secretary shall transfer to the technology and innovation deployment program—

“(i) any of the funds made available to carry out this paragraph in a fiscal year that the Secretary has not yet awarded under this paragraph; and

“(ii) an amount of obligation limitation equal to the amount of funds that the Secretary transfers under clause (i).”;

(11) in subparagraph (N)—

(A) in clause (i) by inserting “an urbanized area with” before “a population of”; and

(B) in clause (iii) by striking “a any” and inserting “any”.

#### SEC. 5302. INTELLIGENT TRANSPORTATION SYSTEMS PROGRAM.

(a) USE OF FUNDS FOR ITS ACTIVITIES.—Section 513(c)(1) of title 23, United States Code, is amended by inserting “greenhouse gas emissions reduction,” before “and congestion management”.

(b) GOALS AND PURPOSES.—Section 514(a) of title 23, United States Code, is amended—

(1) in paragraph (6) by striking “national freight policy goals” and inserting “national multimodal freight policy goals and activities described in subtitle IX of title 49”;

(2) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively; and

(3) by inserting after paragraph (3) the following:

“(4) reduction of greenhouse gas emissions and mitigation of the effects of climate change;”.

(c) GENERAL AUTHORITIES AND REQUIREMENTS.—Section 515(h) of title 23, United States Code, is amended—

(1) in paragraph (2)—

(A) by striking “20 members” and inserting “25 members”;

(B) in subparagraph (A) by striking “State highway department” and inserting “State department of transportation”;

(C) in subparagraph (B) by striking “local highway department” and inserting “local department of transportation”;

(D) by striking subparagraphs (E), (F), (G), (H), (I), and (J) and inserting the following:

“(E) a private sector representative of the intelligent transportation systems industry;

“(F) a representative from an advocacy group concerned with safety, including bicycle and pedestrian interests;

“(G) a representative from a labor organization; and”;

(E) by redesignating subparagraph (K) as subparagraph (H); and

(F) by striking subparagraph (L);

(2) in paragraph (3)—

(A) in subparagraph (A) by striking “section 508” and inserting “section 6503 of title 49”;

(B) in subparagraph (B)—

(i) in clause (ii)—

(I) by inserting “in both urban and rural areas” after “by users”; and

(II) by striking “; and” and inserting a semicolon;

(ii) in clause (iii) by striking the period and inserting “; and”; and

(iii) by adding at the end the following:

“(iv) assess how Federal transportation resources, including programs under this title, are being used to advance intelligent transportation systems.”; and

(C) by adding at the end the following:

“(C) Convene not less frequently than twice each year, either in person or remotely.”;

(3) in paragraph (4) by striking “May 1” and inserting “April 1”; and

(4) in paragraph (5) by inserting “, except that section 14 of such Act shall not apply” before the period at the end.

(d) RESEARCH AND DEVELOPMENT.—Section 516(b) of title 23, United States Code, is amended—

(1) by redesignating paragraphs (5), (6), and (7) as paragraphs (6), (7), and (8), respectively; and

(2) by inserting after paragraph (4) the following:

“(5) demonstrate reductions in greenhouse gas emissions.”.

**SEC. 5303. NATIONAL HIGHLY AUTOMATED VEHICLE AND MOBILITY INNOVATION CLEARINGHOUSE.**

(a) *IN GENERAL.*—Subchapter I of chapter 55 of title 49, United States Code, is further amended by adding at the end the following:

**“§5507. National highly automated vehicle and mobility innovation clearinghouse**

“(a) *IN GENERAL.*—The Secretary shall make a grant to an institution of higher education engaged in research on the secondary impacts of highly automated vehicles and mobility innovation to—

“(1) operate a national highly automated vehicle and mobility innovation clearinghouse;

“(2) collect, conduct, and fund research on the secondary impacts of highly automated vehicles and mobility innovation;

“(3) make such research available on a public website; and

“(4) conduct outreach and dissemination of the information described in this subsection to assist communities.

“(b) *DEFINITIONS.*—In this section:

“(1) **HIGHLY AUTOMATED VEHICLE.**—The term ‘highly automated vehicle’ means a motor vehicle that—

“(A) is capable of performing the entire task of driving (including steering, accelerating and decelerating, and reacting to external stimulus) without human intervention; and

“(B) is designed to be operated exclusively by a Level 3, Level 4, or Level 5 automated driving system for all trips according to the recommended practice standards published on June 15, 2018, by the Society of Automotive Engineers International (J3016 201806) or equivalent standards adopted by the Secretary with respect to automated motor vehicles.

“(2) **MOBILITY INNOVATION.**—The term ‘mobility innovation’ means an activity described in section 5316, including mobility on demand and mobility as a service (as such terms are defined in such section).

“(3) **INSTITUTION OF HIGHER EDUCATION.**—The term ‘institution of higher education’ has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

“(4) **SECONDARY IMPACTS.**—The term ‘secondary impacts’ means the impacts on land use, urban design, transportation, real estate, accessibility, municipal budgets, social equity, availability and quality of jobs, and the environment.”.

(b) **CLERICAL AMENDMENT.**—The analysis for chapter 55 of title 49, United States Code, is amended by inserting after the item relating to section 5506, as added by this Act, the following: “5507. National highly automated vehicle and mobility innovation clearinghouse.”.

(c) **DEADLINE FOR CLEARINGHOUSE.**—The Secretary of Transportation shall ensure that the institution of higher education that receives the grant described in section 5507(a)(1) of title 49, United States Code, as added by subsection (a), shall establish the national highly automated vehicle clearinghouse described in such section not later than 180 days after the date of enactment of this Act.

**SEC. 5304. STUDY ON SAFE INTERACTIONS BETWEEN AUTOMATED VEHICLES AND ROAD USERS.**

(a) **PURPOSE.**—The purpose of this section shall be to ensure that the increasing deployment of automated vehicles does not jeopardize the safety of road users.

(b) **STUDY.**—

(1) **ESTABLISHMENT.**—Not later than 9 months after the date of enactment of this Act, the Secretary of Transportation shall initiate a study on the ability of automated vehicles to safely interact with other road users.

(2) **CONTENTS.**—In carrying out the study under paragraph (1), the Secretary shall—

(A) examine the ability of automated vehicles to safely interact with general road users, including vulnerable road users;

(B) identify barriers to improving the safety of interactions between automated vehicles and general road users; and

(C) issue recommendations to improve the safety of interactions between automated vehicles and general road users, including, at a minimum—

(i) technology advancements with the potential to facilitate safer interactions between automated vehicles and general road users given the safety considerations in paragraph (3);

(ii) road user public awareness; and

(iii) improvements to transportation planning and road design.

(3) **CONSIDERATIONS.**—In carrying out the study under paragraph (1), the Secretary shall take into consideration whether automated vehicles can safely operate within the surface transportation system, including—

(A) the degree to which ordinary human behaviors make it difficult for an automated vehicle to safely, reliably predict human actions;

(B) unique challenges for automated vehicles in urban and rural areas;

(C) the degree to which an automated vehicle is capable of uniformly recognizing and responding to individuals with disabilities and individuals of different sizes, ages, races, and other varying characteristics;

(D) for bicyclist, motorcyclist, and pedestrian road users—

(i) the varying and non-standardized nature of bicyclist and pedestrian infrastructure in different locations;

(ii) the close proximity to motor vehicles within which bicyclists often operate, including riding in unprotected bike lanes and crossing lanes to make a left turn, and the risk of such close proximity; and

(iii) roadways that lack marked bicyclist infrastructure, particularly in mid-sized and rural areas, on which bicyclists often operate;

(E) for motorcyclist road users, the close proximity to other motor vehicles within which motorcyclists operate, including lane splitting; and

(F) depending on the level of automation of the vehicle, the degree to which human intervention remains necessary to safely operate an automated vehicle to ensure the safety of general road users in circumstances including—

(i) dangerous weather;

(ii) an electronic or system malfunction of the automated vehicle; and

(iii) a cybersecurity threat to the operation of the vehicle.

(4) **PUBLIC COMMENT.**—Before conducting the study under paragraph (1), the Secretary shall provide an opportunity for public comment on the study proposal.

(c) **WORKING GROUP.**—

(1) **ESTABLISHMENT.**—Not later than 6 months after the date of enactment of this Act, the Secretary of Transportation shall establish a working group to assist in the development of the study and recommendations under subsection (b).

(2) **MEMBERSHIP.**—The working group established under paragraph (1) shall include representation from—

(A) the National Highway Traffic Safety Administration;

(B) State departments of transportation;

(C) local governments (other than metropolitan planning organizations, as such term is defined in section 134(b) of title 23, United States Code);

(D) transit agencies;

(E) metropolitan planning organizations (as such term is defined in section 134(b) of title 23, United States Code);

(F) bicycle and pedestrian safety groups;

(G) highway and automobile safety groups;

(H) truck safety groups;

(I) law enforcement officers and first responders;

(J) motor carriers and independent owner-operators;

(K) the road construction industry;

(L) labor organizations;

(M) academic experts on automated vehicle technologies;

(N) manufacturers and developers of both passenger and commercial automated vehicles;

(O) a motorcyclist rights group; and

(P) other industries and entities as the Secretary determines appropriate.

(3) **DUTIES.**—The working group established under paragraph (1) shall assist the Secretary by, at a minimum—

(A) assisting in the development of the scope of the study under subsection (b);

(B) reviewing the data and analysis from such study;

(C) provide ongoing recommendations and feedback to ensure that such study reflects the contents described in paragraphs (2) and (3) of subsection (b); and

(D) providing input to the Secretary on recommendations required under subsection (b)(2)(C).

(4) **APPLICABILITY OF THE FEDERAL ADVISORY COMMITTEE ACT.**—The working group under this subsection shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.), except that section 14 of such Act shall not apply.

(d) **REPORT.**—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make publicly available, the study initiated under subsection (b), including recommendations for ensuring that automated vehicles safely interact with general road users.

(e) **DEFINITIONS.**—In this section:

(1) **AUTOMATED VEHICLE.**—The term “automated vehicle” means a motor vehicle equipped with Level 3, Level 4, or Level 5 automated driving systems for all trips according to the recommended practice standards published on June 15, 2018 by the Society of Automotive Engineers International (J3016 201806) or equivalent standards adopted by the Secretary with respect to automated motor vehicles.

(2) **GENERAL ROAD USERS.**—The term “general road users” means—

(A) motor vehicles driven by individuals;

(B) bicyclists and pedestrians;

(C) motorcyclists;

(D) workers in roadside construction zones;

(E) emergency response vehicles, including first responders;

(F) vehicles providing local government services, including street sweepers and waste collection vehicles;

(G) law enforcement officers;

(H) personnel who manually direct traffic, including crossing guards;

(I) users of shared micromobility (including bikesharing and shared scooter systems); and

(J) other road users that may interact with automated vehicles, as determined by the Secretary of Transportation.

(3) **VULNERABLE ROAD USER.**—The term “vulnerable road user” has the meaning given such term in section 148(a) of title 23, United States Code.

**SEC. 5305. NONTRADITIONAL AND EMERGING TRANSPORTATION TECHNOLOGY COUNCIL.**

(a) *IN GENERAL.*—Chapter 1 of title 49, United States Code, is amended by adding at the end the following:

**“§118. Nontraditional and Emerging Transportation Technology Council**

“(a) **ESTABLISHMENT.**—The Secretary of Transportation shall establish a Nontraditional and Emerging Transportation Technology Council (hereinafter referred to as the ‘Council’) in accordance with this section.

“(b) **MEMBERSHIP.**—

“(1) *IN GENERAL.*—The Council shall be composed of the following officers of the Department of Transportation:

“(A) The Secretary of Transportation.  
 “(B) The Deputy Secretary of Transportation.  
 “(C) The Under Secretary of Transportation for Policy.  
 “(D) The General Counsel of the Department of Transportation.  
 “(E) The Chief Information Officer of the Department of Transportation.  
 “(F) The Assistant Secretary for Research and Technology.  
 “(G) The Assistant Secretary for Budget and Programs.  
 “(H) The Administrator of the Federal Aviation Administration.  
 “(I) The Administrator of the Federal Highway Administration.  
 “(J) The Administrator of the Federal Motor Carrier Safety Administration.  
 “(K) The Administrator of the Federal Railroad Administration.  
 “(L) The Administrator of the Federal Transit Administration.  
 “(M) The Administrator of the Federal Maritime Administration.  
 “(N) The Administrator of the National Highway Traffic Safety Administration.  
 “(O) The Administrator of the Pipeline and Hazardous Materials Safety Administration.  
 “(2) **ADDITIONAL MEMBERS.**—The Secretary may designate additional members of the Department to serve as at-large members of the Council.  
 “(3) **CHAIR AND VICE CHAIR.**—The Secretary may designate officials to serve as the Chair and Vice Chair of the Council and of any working groups of the Council.  
 “(c) **DUTIES.**—The Council shall—  
 “(1) identify and resolve any jurisdictional or regulatory gaps or inconsistencies associated with nontraditional and emerging transportation technologies, modes, or projects pending or brought before the Department to eliminate, so far as practicable, impediments to the prompt and safe deployment of new and innovative transportation technology, including with respect to safety regulation and oversight, environmental review, and funding issues;  
 “(2) coordinate the Department’s internal oversight of nontraditional and emerging transportation technologies, modes, or projects and engagement with external stakeholders;  
 “(3) within applicable statutory authority other than this paragraph, develop and establish department-wide processes, solutions, and best practices for identifying, managing and resolving issues regarding emerging transportation technologies, modes, or projects pending or brought before the Department; and  
 “(4) carry out such additional duties as the Secretary may prescribe, to the extent consistent with this title, including subsections (f)(2) and (g) of section 106.”.  
 (b) **CLERICAL AMENDMENT.**—The analysis for chapter 1 of title 49, United States Code, is amended by adding at the end the following:  
 “118. Nontraditional and Emerging Transportation Technology Council.”.

#### SEC. 5306. HYPERLOOP TRANSPORTATION.

(a) **IN GENERAL.**—Not later than 6 months after the date of enactment of this Act, the Secretary of Transportation, acting through the Nontraditional and Emerging Transportation Technology Council of the Department of Transportation, shall issue guidance to provide a clear regulatory framework for the safe deployment of hyperloop transportation.  
 (b) **ELEMENTS.**—In developing the guidance under subsection (a), the Council shall—  
 (1) consider safety, oversight, environmental, project delivery, and other regulatory requirements prescribed by various modal administrations in the Department;  
 (2) clearly delineate between relevant authorities with respect to hyperloop transportation in the Department and provide project sponsors with a single point of access to the Department to inquire about projects, plans, and proposals;

(3) establish clear, coordinated procedures for the regulation of hyperloop transportation projects; and  
 (4) develop and establish department-wide processes, solutions, and best practices for identifying, managing, and resolving matters regarding hyperloop transportation subject to the Department’s jurisdiction.

#### SEC. 5307. SURFACE TRANSPORTATION WORKFORCE RETRAINING GRANT PROGRAM.

(a) **ESTABLISHMENT.**—The Secretary of Transportation shall establish a program to make grants to eligible entities to develop a curriculum for and establish transportation workforce training programs in urban and rural areas to train, upskill, and prepare surface transportation workers, whose jobs may be changed or worsened by automation, who have been separated from their jobs, or who have received notice of impending job loss, as a result of being replaced by automated driving systems.  
 (b) **ELIGIBLE ENTITIES.**—The following entities shall be eligible to receive grants under this section:  
 (1) Institutions of higher education.  
 (2) Consortia of institutions of higher education.  
 (3) Trade associations.  
 (4) Nongovernmental stakeholders.  
 (5) Organizations with a demonstrated capacity to develop and provide career pathway programs through labor-management partnerships and apprenticeships on a nationwide basis.  
 (c) **LIMITATION ON AWARDS.**—An entity may only receive one grant per fiscal year under this section for an amount determined appropriate by the Secretary.  
 (d) **USE OF FUNDS.**—  
 (1) **IN GENERAL.**—A recipient of a grant under this section may only use grant amounts for developing and carrying out direct surface transportation workforce retraining programs, including—  
 (A) testing of new roles for existing jobs, including mechanical work, diagnostic work, and fleet operations management;  
 (B) coursework or curricula through which participants may pursue a degree or certification;  
 (C) direct worker training or train-the-trainer type programs in support of surface transportation workers displaced by automated vehicles; or  
 (D) training and upskilling workers, including current drivers and maintenance technicians, for positions directly related to automated vehicle operations.  
 (2) **LIMITATION.**—Funds made available under this section may not be used in support of programs to evaluate the effectiveness of automated vehicle technologies.  
 (e) **SELECTION CRITERIA.**—The Secretary shall select recipients of grants under this section based on the following criteria:  
 (1) Demonstrated research resources available to the applicant for carrying out this section.  
 (2) Capability of the applicant to develop curricula in the training or retraining of individuals described in subsection (a) as a result of automated vehicles.  
 (3) Demonstrated commitment of the recipient to carry out a surface transportation workforce development program through degree-granting programs or programs that provide other industry-recognized credentials.  
 (4) The ability of the applicant to fulfill the purposes under subsection (a).  
 (f) **ELIGIBILITY.**—An applicant is only eligible for a grant under this section if such applicant—  
 (1) has an established surface transportation workforce development program;  
 (2) has expertise in solving surface transportation problems through research, training, education, and technology;  
 (3) actively shares information and results with other surface transportation workforce development programs with similar objectives;

(4) has experience in establishing, developing and administering a surface transportation-related apprenticeship or training program with at least 5 years of demonstrable results; and  
 (5) agrees to make all curricula, research findings, or other materials developed using grant funding under this section publicly available.

#### (g) FEDERAL SHARE.—

(1) **IN GENERAL.**—The Federal share of a grant under this section shall be a dollar for dollar match of the costs of establishing and administering the retraining program and related activities carried out by the grant recipient or consortium of grant recipients.

(2) **AVAILABILITY OF FUNDS.**—For a recipient of a grant under this section carrying out activities under such grant in partnership with a public transportation agency that is receiving funds under sections 5307, 5337, or 5339 of title 49, United States Code, not more than 0.5 percent of amounts made available under any such section may qualify as the non-Federal share under paragraph (1).

(h) **REPORTING.**—Not later than 60 days after grants are awarded in any fiscal year under this section, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committees on Commerce, Science, and Transportation, Banking, Housing, and Urban Affairs, and Environment and Public Works of the Senate, and make publicly available, a report describing the activities and effectiveness of the program under this section.

(i) **TRANSPARENCY.**—The report under this subsection shall include the following information on activities carried out under this section:

(A) A list of all grant recipients under this section.

(B) An explanation of why each recipient was chosen in accordance with the selection criteria under subsection (e) and the eligibility requirements under subsection (f).

(C) A summary of activities carried out by each recipient and an analysis of the progress of such activities toward achieving the purposes under subsection (a).

(D) An accounting for the use of Federal funds expended in carrying out this section.

(E) An analysis of outcomes of the program under this section.

(2) **TRAINING INFORMATION.**—The report shall include the following data on surface transportation workforce training:

(A) The sectors of the surface transportation system from which workers are being displaced.

(B) The skills and professions for which workers are being retrained.

(C) How many workers have benefitted from the grant award.

(D) Relevant demographic information of impacted workers.

(i) **DEFINITIONS.**—For the purposes of this section, the following definitions apply:

(1) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(2) **AUTOMATED VEHICLE.**—The term “automated vehicle” means a motor vehicle that—

(A) is capable of performing the entire task of driving (including steering, accelerating, and decelerating, and reacting to external stimulus) without human intervention; and

(B) is designed to be operated exclusively by a Level 4 or Level 5 automated driving system for all trips according to the recommended practice standards published on June 15, 2018, by the Society of Automotive Engineers International (J3016\_201806) or equivalent standards adopted by the Secretary with respect to automated motor vehicles.

(3) **PUBLIC TRANSPORTATION.**—The term “public transportation” has the meaning given such term in section 5302 of title 49, United States Code.

#### (j) AUTHORIZATION OF APPROPRIATIONS.—

(1) **IN GENERAL.**—There is authorized to be appropriated \$50,000,000 for each of fiscal years 2022 through 2025 to carry out this section.

(2) **AVAILABILITY OF AMOUNTS.**—Amounts made available to the Secretary to carry out this section shall remain available for a period of 3 years after the last day of the fiscal year for which the amounts are authorized.

**SEC. 5308. THIRD-PARTY DATA INTEGRATION PILOT PROGRAM.**

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall establish and implement a pilot program (in this section referred to as the “program”) to leverage anonymous crowdsourced data from third-party entities to improve transportation management capabilities and efficiency on Federal-aid highways.

(b) **GOALS.**—The goals of the program include the utilization of anonymous crowdsourced data from third parties to implement integrated traffic management systems which leverage real-time data to provide dynamic and efficient traffic-flow management for purposes of—

(1) adjusting traffic light cycle times to optimize traffic management and decrease congestion;

(2) expanding or contracting lane capacity to meet traffic demand;

(3) enhancing traveler notification of service conditions;

(4) prioritizing high-priority vehicles such as emergency response and law enforcement within the transportation system; and

(5) any other purposes which the Secretary deems an appropriate use of anonymous user data.

(c) **PARTNERSHIP.**—In carrying out the program, the Secretary is authorized to enter into agreements with public and private sector entities to accomplish the goals listed in subsection (b).

(d) **DATA PRIVACY AND SECURITY.**—The Secretary shall ensure the protection of privacy for all sources of data utilized in the program, promoting cybersecurity to prevent hacking, spoofing, and disruption of connected and automated transportation systems.

(e) **PROGRAM LOCATIONS.**—In carrying out the program, the Secretary shall initiate programs in a variety of areas, including urban, suburban, rural, tribal, or any other appropriate settings.

(f) **BEST PRACTICES.**—Not later than 3 years after date of enactment of this Act, the Secretary shall publicly make available best practices to leverage private user data to support improved transportation management capabilities and efficiency, including—

(1) legal considerations when acquiring private user data for public purposes; and

(2) protecting privacy and security of individual user data.

(g) **REPORT.**—The Secretary shall annually submit a report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report detailing—

(1) a description of the activities carried out under the pilot program;

(2) an evaluation of the effectiveness of the pilot program in meeting goals described in subsection (b);

(3) policy recommendations to improve integration of systems between public and private entities; and

(4) a description of costs associated with equipping and maintaining systems.

(h) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated such sums as are necessary to carry out the program.

(i) **SUNSET.**—On a date that is 5 years after the enactment of this Act, this program shall cease to be effective.

**SEC. 5309. THIRD-PARTY DATA PLANNING INTEGRATION PILOT PROGRAM.**

(a) **IN GENERAL.**—Not later than 180 days after enactment of this Act, the Secretary of Transportation shall establish and implement a

pilot program (in this section referred to as the “program”) to leverage anonymous crowdsourced data from third-party entities to improve transportation management capabilities and efficiency on Federal-aid highways.

(b) **GOALS.**—The goals of the program include the utilization of anonymous crowdsourced data from third parties to—

(1) utilize private-user data to inform infrastructure planning decisions for the purposes of—

(A) reducing congestion;

(B) decreasing miles traveled;

(C) increasing safety;

(D) improving freight efficiency;

(E) enhancing environmental conditions; and

(F) other purposes as the Secretary deems necessary.

(c) **PARTNERSHIP.**—In carrying out the program, the Secretary is authorized to enter into agreements with public and private sector entities to accomplish the goals listed in subsection (b).

(d) **DATA PRIVACY AND SECURITY.**—The Secretary shall ensure the protection of privacy for all sources of data utilized in the program, promoting cybersecurity to prevent hacking, spoofing, and disruption of connected and automated transportation systems.

(e) **PROGRAM LOCATIONS.**—In carrying out the program, the Secretary shall initiate programs in a variety of areas, including urban, suburban, rural, tribal, or any other appropriate settings.

(f) **BEST PRACTICES.**—Not later than 3 years after date of enactment of this Act, the Secretary shall publicly make available best practices to leverage private user data to support improved transportation management capabilities and efficiency, including—

(1) legal considerations when acquiring private user data for public purposes; and

(2) protecting privacy and security of individual user data.

(g) **REPORT.**—The Secretary shall annually submit a report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report detailing—

(1) a description of the activities carried out under the pilot program;

(2) an evaluation of the effectiveness of the pilot program in meeting goals described in subsection (b);

(3) policy recommendations to improve the implementation of anonymous crowdsourced data into planning decisions.

(h) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated such sums as are necessary to carry out the program.

(i) **SUNSET.**—On a date that is 5 years after the enactment of this Act, this program shall cease to be effective.

**SEC. 5310. MULTIMODAL TRANSPORTATION DEMONSTRATION PROGRAM.**

(a) **IN GENERAL.**—Subchapter 1 of chapter 55 of title 49, United States Code is amended by adding at the end the following:

**“SEC. 5511. MULTIMODAL TRANSPORTATION DEMONSTRATION PROGRAM.**

“(a) **ESTABLISHMENT.**—The Secretary of Transportation may establish a pilot program for the demonstration of advanced transportation technologies for surface transportation modes in small- and mid-sized communities by providing grants to entities to achieve the purposes of the national transportation research and development program described in section 6503.

“(b) **ELIGIBLE ACTIVITIES.**—Activities eligible for funding under this section include data interoperability, mobility-on-demand, and micro-mobility projects to demonstrate first-mile transportation, last-mile transportation, and any other activity as determined appropriate by the Secretary.

“(c) **JOINT INTERAGENCY FUNDING.**—If determined appropriate by the Secretary, joint inter-agency funding for projects is authorized to support multimodal projects.

“(d) **ELIGIBILITY.**—Entities eligible to receive grants under this program include local transportation organizations and transit agencies serving a population of not more than 200,000 individuals, including communities of economic hardship and communities that experience transportation equity and accessibility issues.

“(e) **APPLICATION.**—

“(1) **IN GENERAL.**—An entity seeking funding under this section shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

“(2) **COLLABORATION.**—Each application submitted under this section shall describe how the applying entity will collaborate, as appropriate, with institutions of higher education, State and local governments, regional transportation organizations, nonprofit organizations, labor organizations, and private sector entities.

“(f) **AUTHORIZATION.**—There is authorized to be appropriated to carry out activities under this section \$30,000,000 for each of fiscal years 2022 through 2025.”.

(b) **CONFORMING AMENDMENT.**—The analysis for chapter 55 of title 49, United States Code, is further amended by adding at the end the following:

“5511. Multimodal transportation demonstration program.”.

**SEC. 5311. AUTOMATED COMMERCIAL VEHICLE REPORTING.**

(a) **ESTABLISHMENT.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall establish a repository for motor carriers, shippers, technology companies, and other entities to submit information to the Secretary on testing, demonstrations, or commercial operations of an automated commercial motor vehicle on public roads.

(b) **INFORMATION REQUIRED.**—

(1) **SUBMISSIONS.**—Prior to the performance of any tests, demonstrations, or commercial operations of automated commercial motor vehicles on public roads, the Secretary shall require an entity performing such tests, demonstrations, or commercial operations to provide the following information:

(A) The name of the entity responsible for the operation of the automated commercial motor vehicles to be used in the test, demonstration, or commercial operation.

(B) The make and model of such vehicle or vehicles.

(C) The level of automation of such vehicle or vehicles, according to the standards described in subsection (e)(1).

(D) The expected weight of such vehicle during the test, demonstration, or operation.

(E) The Department of Transportation number or operating authority assigned to the entity described in subparagraph (A), if applicable.

(F) The location of the testing, demonstration, or commercial operation, including the anticipated route of such vehicle, planned stops, and total anticipated miles traveled.

(G) Any cargo or passengers to be transported in such vehicle or vehicles, including whether the entity is transporting such cargo or passengers under contract with another entity.

(H) Documentation of training or certifications provided to any drivers, monitors, or others involved in the operation or control of the vehicle.

(I) Any fatigue management plans or work hour limitations applicable to drivers or monitors.

(J) Notices provided to local law enforcement, State departments of transportation, and related entities, if applicable.

(K) Proof of insurance coverage.

(2) **UPDATES.**—If an entity responsible for the operation of an automated commercial motor vehicle submits incomplete or inaccurate information pursuant to subsection (d), the entity shall

be given an opportunity to amend or correct the submission within a reasonable timeframe.

(3) **NOTIFICATION.**—Upon submission of the information under paragraph (1), the Secretary shall provide written notification acknowledging receipt of the information and acknowledging that the submitting entity will perform tests, demonstrations, or commercial operations on public roads, as applicable.

(c) **PUBLIC AVAILABILITY OF INFORMATION.**—

(1) **IN GENERAL.**—The Secretary shall make available information on the prevalence of, characteristics of, and geographic location of testing, demonstration, and commercial operations of automated commercial motor vehicles on a publicly accessible website of the Department of Transportation.

(2) **PROTECTION OF INFORMATION.**—Any data collected under subsection (b) and made publicly available pursuant to this subsection shall be made available in a manner that—

(A) precludes the connection of the data to any individual motor carrier, shipper, company, or other entity submitting data; and

(B) protects the privacy and confidentiality of individuals, operators, and entities submitting the data.

(d) **CRASH DATA.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall require entities to submit information regarding safety incidents which occur during the testing, demonstration, or commercial operation of an automated commercial motor vehicle on public roads, including—

(A) injuries and fatalities involving the automated commercial motor vehicle;

(B) collisions or damage to persons or property as a result of an automated commercial motor vehicle test, demonstration, or commercial operation;

(C) any malfunction or issue with a safety critical element of an automated commercial motor vehicle which compromises the safety of the automated commercial motor vehicle or other road users; and

(D) the mode of transportation used by any road users involved in a safety critical incident, including general road users as defined under section 5304 of this Act.

(2) **DATA AVAILABILITY.**—The Secretary shall ensure that any entity described under this section that has a Department of Transportation number or operating authority from the Federal Motor Carrier Safety Administration—

(A) shall be subject to safety monitoring and oversight under the Compliance, Safety, and Accountability program of the Federal Motor Carrier Safety Administration; and

(B) shall be included when the Secretary restores the public availability of relevant safety data under such program under section 4202(b) of this Act.

(e) **DEFINITIONS.**—In this section:

(1) **AUTOMATED COMMERCIAL MOTOR VEHICLE.**—The term “automated commercial motor vehicle” means a commercial motor vehicle as such term is defined in section 31101 of title 49, United States Code, that is designed to be operated exclusively by a Level 3, Level 4, or Level 5 automated driving system for all trips according to the recommended practice standards published on June 15, 2018, by the Society of Automotive Engineers International (J3016\_201806) or equivalent standards adopted by the Secretary with respect to automated motor vehicles, while operating on public roads.

(2) **SAFETY CRITICAL ELEMENT.**—The term “safety critical element” means both the hardware and software designed to prevent, limit, control, mitigate, or respond to a change in the vehicle’s environment thereby allowing the vehicle to prevent, avoid, or minimize a potential collision or other safety incident on an automated commercial motor vehicle.

## Subtitle D—Surface Transportation Funding Pilot Programs

### SEC. 5401. STATE SURFACE TRANSPORTATION SYSTEM FUNDING PILOTS.

Section 6020 of the FAST Act (23 U.S.C. 503 note) is amended—

(1) by striking subsection (b) and inserting the following:

“(b) **ELIGIBILITY.**—

“(1) **APPLICATION.**—To be eligible for a grant under this section, a State or group of States shall submit to the Secretary an application in such form and containing such information as the Secretary may require.

“(2) **ELIGIBLE PROJECTS.**—The Secretary may provide grants to States or a group of States under this section for the following projects:

“(A) **STATE PILOT PROJECTS.**—

“(i) **IN GENERAL.**—A pilot project to demonstrate a user-based alternative revenue mechanism in a State.

“(ii) **LIMITATION.**—If an applicant has previously been awarded a grant under this section, such applicant’s proposed pilot project must be comprised of core activities or iterations not substantially similar in manner or scope to activities previously carried out by the applicant with a grant for a project under this section.

“(B) **STATE IMPLEMENTATION PROJECTS.**—A project—

“(i) to implement a user-based alternative revenue mechanism that collects revenue to be expended on projects for the surface transportation system of the State; or

“(ii) that demonstrates progress towards implementation of a user-based alternative revenue mechanism, with consideration for previous grants awarded to the applicant under this section.”;

(2) in subsection (c)—

(A) in paragraph (1) by striking “2 or more future”; and

(B) by adding at the end the following:

“(6) To test solutions to ensure the privacy and security of data collected for the purpose of implementing a user-based alternative revenue mechanism.”;

(3) in subsection (d) by striking “to test the design, acceptance, and implementation of a user-based alternative revenue mechanism” and inserting “to test the design and acceptance of, or implement, a user-based alternative revenue mechanism”;

(4) in subsection (g) by striking “50 percent” and inserting “80 percent”;

(5) in subsection (i)—

(A) in the heading by striking “BIENNIAL” and inserting “ANNUAL”;

(B) by striking “2 years after the date of enactment of this Act” and inserting “1 year after the date of enactment of the INVEST in America Act”;

(C) by striking “every 2 years thereafter” and inserting “every year thereafter”; and

(D) by inserting “and containing a determination of the characteristics of the most successful mechanisms with the highest potential for future widespread deployment” before the period at the end; and

(6) by striking subsections (j) and (k) and inserting the following:

“(j) **FUNDING.**—Of amounts made available to carry out this section—

“(1) for fiscal year 2022, \$17,500,000 shall be used to carry out projects under subsection (b)(2)(A) and \$17,500,000 shall be used to carry out projects under subsection (b)(2)(B);

“(2) for fiscal year 2023, \$15,000,000 shall be used to carry out projects under subsection (b)(2)(A) and \$20,000,000 shall be used to carry out projects under subsection (b)(2)(B);

“(3) for fiscal year 2024, \$12,500,000 shall be used to carry out projects under subsection (b)(2)(A) and \$22,500,000 shall be used to carry out projects under subsection (b)(2)(B); and

“(4) for fiscal year 2025, \$10,000,000 shall be used to carry out projects under subsection

(b)(2)(A) and \$25,000,000 shall be used to carry out projects under subsection (b)(2)(B).

“(k) **FUNDING FLEXIBILITY.**—Funds made available in a fiscal year for making grants for projects under subsection (b)(2) that are not obligated in such fiscal year may be made available in the following fiscal year for projects under such subsection or for the national surface transportation system funding pilot under section 5402 of the INVEST in America Act.”.

### SEC. 5402. NATIONAL SURFACE TRANSPORTATION SYSTEM FUNDING PILOT.

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—The Secretary of Transportation, in coordination with the Secretary of the Treasury, shall establish a pilot program to demonstrate a national motor vehicle per-mile user fee to restore and maintain the long-term solvency of the Highway Trust Fund and achieve and maintain a state of good repair in the surface transportation system.

(2) **OBJECTIVES.**—The objectives of the pilot program are to—

(A) test the design, acceptance, implementation, and financial sustainability of a national per-mile user fee;

(B) address the need for additional revenue for surface transportation infrastructure and a national per-mile user fee; and

(C) provide recommendations regarding adoption and implementation of a national per-mile user fee.

(b) **PARAMETERS.**—In carrying out the pilot program established under subsection (a), the Secretary of Transportation, in coordination with the Secretary of the Treasury, shall—

(1) provide different methods that volunteer participants can choose from to track motor vehicle miles traveled;

(2) solicit volunteer participants from all 50 States and the District of Columbia;

(3) ensure an equitable geographic distribution by population among volunteer participants;

(4) include commercial vehicles and passenger motor vehicles in the pilot program; and

(5) use components of, and information from, the States selected for the State surface transportation system funding pilot program under section 6020 of the FAST Act (23 U.S.C. 503 note).

(c) **METHODS.**—

(1) **TOOLS.**—In selecting the methods described in subsection (b)(1), the Secretary of Transportation shall coordinate with entities that voluntarily provide to the Secretary for use in the program any of the following vehicle-miles-traveled collection tools:

(A) Third-party on-board diagnostic (OBD-II) devices.

(B) Smart phone applications.

(C) Telemetric data collected by automakers.

(D) Motor vehicle data obtained by car insurance companies.

(E) Data from the States selected for the State surface transportation system funding pilot program under section 6020 of the FAST Act (23 U.S.C. 503 note).

(F) Motor vehicle data obtained from fueling stations.

(G) Any other method that the Secretary considers appropriate.

(2) **COORDINATION.**—

(A) **SELECTION.**—The Secretary shall determine which methods under paragraph (1) are selected for the pilot program.

(B) **VOLUNTEER PARTICIPANTS.**—In a manner that the Secretary considers appropriate, the Secretary shall provide each selected method to each volunteer participant.

(d) **PER-MILE USER FEES.**—For the purposes of the pilot program established in subsection (a), the Secretary of the Treasury shall establish on an annual basis—

(1) for passenger vehicles and light trucks, a per-mile user fee that is equivalent to—

(A) the average annual taxes imposed by sections 4041 and 4081 of the Internal Revenue

Code of 1986 with respect to gasoline or any other fuel used in a motor vehicle (other than aviation gasoline or diesel), divided by

(B) the total vehicle miles traveled by passenger vehicles and light trucks; and

(2) for medium- and heavy-duty trucks, a per-mile user fee that is equivalent to—

(A) the average annual taxes imposed by sections 4041 and 4081 of such Code with respect to diesel fuel, divided by

(B) the total vehicle miles traveled by medium- and heavy-duty trucks.

Taxes shall only be taken into account under the preceding sentence to the extent taken into account in determining appropriations to the Highway Trust Fund under section 9503(b) of such Code, and the amount so determined shall be reduced to account for transfers from such fund under paragraphs (3), (4), and (5) of section 9503(c) of such Code.

(e) **VOLUNTEER PARTICIPANTS.**—The Secretary of Transportation, in coordination with the Secretary of the Treasury, shall—

(1) ensure, to the extent practicable, that an appropriate number of volunteer participants participate in the pilot program; and

(2) issue policies to—

(A) protect the privacy of volunteer participants; and

(B) secure the data provided by volunteer participants.

(f) **ADVISORY BOARD.**—

(1) **IN GENERAL.**—The Secretary shall establish an advisory board to assist with—

(A) advancing and implementing the pilot program under this section;

(B) carrying out the public awareness campaign under subsection (g); and

(C) developing the report under subsection (m).

(2) **MEMBERS.**—The advisory board shall, at a minimum, include the following entities, to be appointed by the Secretary—

(A) State departments of transportation;

(B) any public or nonprofit entity that led a surface transportation system funding alternatives pilot project under section 6020 of the FAST Act (23 U.S.C. 503 note; Public Law 114-94) (as in effect on the day before the date of enactment of this Act);

(C) representatives of the trucking industry, including owner-operator independent drivers;

(D) data security experts; and

(E) academic experts on surface transportation.

(g) **PUBLIC AWARENESS CAMPAIGN.**—

(1) **IN GENERAL.**—The Secretary of Transportation, with guidance from the advisory board under subsection (f), may carry out a public awareness campaign to increase public awareness regarding a national per-mile user fee, including distributing information related to the pilot program carried out under this section, information from the State surface transportation system funding pilot program under section 6020 of the FAST Act (23 U.S.C. 503 note).

(2) **CONSIDERATIONS.**—In carrying out the public awareness campaign under this subsection, the Secretary shall consider issues unique to each State.

(h) **REVENUE COLLECTION.**—The Secretary of the Treasury, in coordination with the Secretary of Transportation, shall establish a mechanism to collect per-mile user fees established under subsection (d) from volunteer participants. Such mechanism—

(1) may be adjusted as needed to address technical challenges; and

(2) may allow third-party vendors to collect the per-mile user fees and forward such fees to the Treasury.

(i) **AGREEMENT.**—The Secretary of Transportation may enter into an agreement with a volunteer participant containing such terms and conditions as the Secretary considers necessary for participation in the pilot program.

(j) **LIMITATION.**—Any revenue collected through the mechanism established in sub-

section (h) shall not be considered a toll under section 301 of title 23, United States Code.

(k) **HIGHWAY TRUST FUND.**—The Secretary of the Treasury shall ensure that any revenue collected under subsection (h) is deposited into the Highway Trust Fund.

(l) **REFUND.**—Not more than 45 days after the end of each calendar quarter in which a volunteer participant has participated in the pilot program, the Secretary of the Treasury shall calculate and issue an equivalent refund to volunteer participants for applicable Federal motor fuel taxes under section 4041 and section 4081 of the Internal Revenue Code of 1986, the applicable battery tax under section 4111 of such Code, or both, if applicable.

(m) **REPORT TO CONGRESS.**—Not later than 1 year after the date on which volunteer participants begin participating in the pilot program, and each year thereafter for the duration of the pilot program, the Secretary of Transportation and the Secretary of the Treasury shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes an analysis of—

(1) whether the objectives described in subsection (a)(2) were achieved;

(2) how volunteer protections in subsection (e)(2) were complied with; and

(3) whether per-mile user fees can maintain the long-term solvency of the Highway Trust Fund and achieve and maintain a state of good repair in the surface transportation system.

(n) **SUNSET.**—The pilot program established under this section shall expire on the date that is 4 years after the date on which volunteer participants begin participating in such program.

(o) **DEFINITIONS.**—In this section, the following definitions apply:

(1) **COMMERCIAL VEHICLE.**—The term “commercial vehicle” has the meaning given the term commercial motor vehicle in section 31101 of title 49, United States Code.

(2) **HIGHWAY TRUST FUND.**—The term “Highway Trust Fund” means the Highway Trust Fund established under section 9503 of the Internal Revenue Code of 1986.

(3) **LIGHT TRUCK.**—The term “light truck” has the meaning given the term in section 523.2 of title 49, Code of Federal Regulations.

(4) **MEDIUM- AND HEAVY-DUTY TRUCK.**—The term “medium- and heavy-duty truck” has the meaning given the term “commercial medium- and heavy-duty on-highway vehicle” in section 32901(a) of title 49, United States Code.

(5) **PER-MILE USER FEE.**—The term “per-mile user fee” means a revenue mechanism that—

(A) is applied to road users operating motor vehicles on the surface transportation system; and

(B) is based on the number of vehicle miles traveled by an individual road user.

(6) **VOLUNTEER PARTICIPANT.**—The term “volunteer participant” means—

(A) an owner or lessee of an individual private motor vehicle who volunteers to participate in the pilot program;

(B) a commercial vehicle operator who volunteers to participate in the pilot program; or

(C) an owner of a motor vehicle fleet who volunteers to participate in the pilot program.

#### Subtitle E—Miscellaneous

#### SEC. 5501. **ERGONOMIC SEATING WORKING GROUP.**

(a) **IN GENERAL.**—

(1) **ESTABLISHMENT.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall convene a working group to examine the seating standards for commercial drivers.

(2) **MEMBERS.**—At a minimum, the working group shall include—

(A) seat manufacturers;

(B) commercial vehicle manufacturers;

(C) transit vehicle manufacturers;

(D) labor representatives for the trucking industry;

(E) representatives from organizations engaged in collective bargaining on behalf of transit workers in not fewer than 3 States; and

(F) musculoskeletal health experts.

(b) **OBJECTIVES.**—The Secretary shall pursue the following objectives through the working group:

(1) To identify health issues, including musculoskeletal health issues, that afflict commercial drivers due to sitting for long periods of time while on duty.

(2) To identify research topics for further development and best practices to improve seating.

(3) To determine ways to incorporate improved seating into manufacturing standards for public transit vehicles and commercial vehicles.

(c) **REPORT.**—

(1) **SUBMISSION.**—Not later than 18 months after the date of enactment of this Act, the working group shall submit to the Secretary, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs and the Committee on Commerce, Science, and Transportation of the Senate a report on the findings of the working group under this section and any recommendations for the adoption of better ergonomic seating for commercial drivers.

(2) **PUBLICATION.**—Upon receipt of the report in paragraph (1), the Secretary shall publish the report on a publicly accessible website of the Department.

(d) **APPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.**—The Advisory Committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

#### SEC. 5502. **REPEAL OF SECTION 6314 OF TITLE 49, UNITED STATES CODE.**

(a) **IN GENERAL.**—Section 6314 of title 49, United States Code, is repealed.

(b) **CONFORMING AMENDMENTS.**—

(1) **TITLE ANALYSIS.**—The analysis for chapter 63 of title 49, United States Code, is amended by striking the item relating to section 6314.

(2) **SECTION 6307.**—Section 6307(b) of title 49, United States Code, is amended—

(A) in paragraph (1)—

(i) in subparagraph (A) by striking “or section 6314(b)”;

(ii) in subparagraph (B) by striking “or section 6314(b)”;

(iii) in subparagraph (C) by striking “or section 6314(b)”;

(B) in paragraph (2)(A) by striking “or section 6314(b)”.

#### SEC. 5503. **TRANSPORTATION WORKFORCE OUTREACH PROGRAM.**

(a) **IN GENERAL.**—Subchapter I of chapter 55 of title 49, United States Code, is further amended by adding at the end the following:

#### “§5508. **Transportation workforce outreach program**

“(a) **IN GENERAL.**—The Secretary shall establish and administer a transportation workforce outreach program that carries out a series of public service announcement campaigns during fiscal years 2022 through 2026.

“(b) **PURPOSE.**—The purpose of each campaign carried out under the program shall be to achieve the following objectives:

“(1) Increase awareness of career opportunities in the transportation sector, including aviation pilots, safety inspectors, mechanics and technicians, maritime transportation workers, air traffic controllers, flight attendants, truck drivers, engineers, transit workers, railroad workers, and other transportation professionals.

“(2) Increase diversity, including race, gender, ethnicity, and socioeconomic status, of professionals in the transportation sector.

“(c) **ADVERTISING.**—The Secretary may use, or authorize the use of, funds available to carry out the program for the development, production, and use of broadcast, digital, and print

media advertising and outreach in carrying out campaigns under this section.

“(d) **AUTHORIZATION OF APPROPRIATIONS.**—To carry out this section, there are authorized to be appropriated \$5,000,000 for each fiscal years 2022 through 2026.”.

(b) **CLERICAL AMENDMENT.**—The table of sections for chapter 55 of subchapter I of title 49, United States Code, is further amended by inserting after the item relating to section 5507, as added by this Act, the following:

“5508. Transportation workforce outreach program.”.

**SEC. 5504. ADVISORY COUNCIL ON TRANSPORTATION STATISTICS.**

Section 6305 of title 49, United States Code, is amended—

(1) in subsection (a), by striking “The Director” and all that follows to the period and inserting “Notwithstanding section 418 of the FAA Reauthorization Act of 2018 (Public Law 115-254), not later than 6 months after the date of enactment of the INVEST in America Act, the Director shall establish and consult with an advisory council on transportation statistics.”; and

(2) by striking subsection (d)(3).

**TITLE VI—MULTIMODAL TRANSPORTATION**

**SEC. 6001. NATIONAL MULTIMODAL FREIGHT POLICY.**

Section 70101(b) of title 49, United States Code, is amended—

(1) in paragraph (2) by inserting “in rural and urban areas” after “freight transportation”;

(2) in paragraph (7)—

(A) in subparagraph (B) by striking “; and” and inserting a semicolon;

(B) by redesignating subparagraph (C) as subparagraph (D); and

(C) by inserting after subparagraph (B) the following:

“(C) travel within population centers; and”;

(3) in paragraph (9) by striking “; and” and inserting the following: “including—

“(A) greenhouse gas emissions;

“(B) local air pollution;

“(C) minimizing, capturing, or treating stormwater runoff or other adverse impacts to water quality; and

“(D) wildlife habitat loss.”;

(4) by redesignating paragraph (10) as paragraph (11); and

(5) by inserting after paragraph (9) the following:

“(10) to decrease any adverse impact of freight transportation on communities located near freight facilities or freight corridors; and”.

**SEC. 6002. NATIONAL FREIGHT STRATEGIC PLAN.**

Section 70102(c) of title 49, United States Code, is amended by striking “shall” and all that follows through the end and inserting the following: “shall—

“(1) update the plan and publish the updated plan on the public website of the Department of Transportation; and

“(2) include in the update described in paragraph (1)—

“(A) each item described in subsection (b); and

“(B) best practices to reduce the adverse environmental impacts of freight-related—

“(i) greenhouse gas emissions;

“(ii) local air pollution;

“(iii) stormwater runoff or other adverse impacts to water quality; and

“(iv) wildlife habitat loss.”.

**SEC. 6003. NATIONAL MULTIMODAL FREIGHT NETWORK.**

Section 70103 of title 49, United States Code, is amended—

(1) in subsection (b)(2)(C) by striking “of the United States that have” and inserting the following: “of the United States that—

“(i) have a total annual value of cargo of at least \$1,000,000,000, as identified by United

States Customs and Border Protection and reported by the Bureau of the Census; or

“(ii) have”;

(2) in subsection (c)—

(A) in paragraph (1) by striking “Not later than 1 year after the date of enactment of this section,” and inserting the following:

“(A) **REPORT TO CONGRESS.**—Not later than 30 days after the date of enactment of the INVEST in America Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report detailing a plan to designate a final National Multimodal Freight Network, including a detailed summary of the resources within the Office of the Secretary that will be dedicated to carrying out such plan.

“(B) **DESIGNATION OF NATIONAL MULTIMODAL FREIGHT NETWORK.**—Not later than 60 days after the submission of the report described in subparagraph (A),”;

(B) in paragraph (3)(C)—

(i) by inserting “and metropolitan planning organizations” after “States”; and

(ii) by striking “paragraph (4)” and inserting “paragraphs (4) and (5)”;

(C) in paragraph (4)—

(i) in the header by inserting “AND METROPOLITAN PLANNING ORGANIZATION” after “STATE”;

(ii) by redesignating subparagraph (D) as subparagraph (E); and

(iii) by striking subparagraph (C) and inserting the following:

“(C) **CRITICAL URBAN FREIGHT FACILITIES AND CORRIDORS.**—

“(i) **AREA WITH A POPULATION OF OVER 500,000.**—In an urbanized area with a population of 500,000 or more individuals, the representative metropolitan planning organization, in consultation with the State, may designate a freight facility or corridor within the borders of the State as a critical urban freight facility or corridor.

“(ii) **AREA WITH A POPULATION OF LESS THAN 500,000.**—In an urbanized area with a population of less than 500,000 individuals, the State, in consultation with the representative metropolitan planning organization, may designate a freight facility or corridor within the borders of the State as a critical urban freight corridor.

“(iii) **DESIGNATION.**—A designation may be made under subparagraph (i) or (ii) if the facility or corridor is in an urbanized area, regardless of population, and such facility or corridor—

“(I) provides access to the primary highway freight system, the Interstate system, or an intermodal freight facility;

“(II) is located within a corridor of a route on the primary highway freight system and provides an alternative option important to goods movement;

“(III) serves a major freight generator, logistics center, or manufacturing and warehouse industrial land;

“(IV) connects to an international port of entry;

“(V) provides access to a significant air, rail, water, or other freight facility in the State; or

“(VI) is important to the movement of freight within the region, as determined by the metropolitan planning organization or the State.

“(D) **LIMITATION.**—A State may propose additional designations to the National Multimodal Freight Network in the State in an amount that is—

“(i) for a highway project, not more than 20 percent of the total mileage designated by the Under Secretary in the State; and

“(ii) for a non-highway project, using a limitation determined by the Under Secretary.”; and

(D) by adding at the end the following:

“(5) **REQUIRED NETWORK COMPONENTS.**—In designating or redesignating the National Multimodal Freight Network, the Under Sec-

retary shall ensure that the National Multimodal Freight Network includes the components described in subsection (b)(2).”.

**SEC. 6004. STATE FREIGHT ADVISORY COMMITTEES.**

Section 70201(a) of title 49, United States Code, is amended by striking “and local governments” and inserting “local governments, metropolitan planning organizations, and the departments with responsibility for environmental protection and air quality of the State”.

**SEC. 6005. STATE FREIGHT PLANS.**

Section 70202(b) of title 49, United States Code, is amended—

(1) in paragraph (3)(A) by inserting “and urban” after “rural”;

(2) in paragraph (9) by striking “; and” and inserting a semicolon;

(3) by redesignating paragraph (10) as paragraph (12); and

(4) by inserting after paragraph (9) the following:

“(10) strategies and goals to decrease freight-related—

“(A) greenhouse gas emissions;

“(B) local air pollution;

“(C) stormwater runoff or other adverse impacts to water quality; and

“(D) wildlife habitat loss;

“(11) strategies and goals to decrease any adverse impact of freight transportation on communities located near freight facilities or freight corridors; and”.

**SEC. 6006. STUDY OF FREIGHT TRANSPORTATION FEE.**

(a) **STUDY.**—Not later than 90 days after the date of enactment of this Act, the Secretary of Transportation, in consultation with the Secretary of the Treasury and the Commissioner of the Internal Revenue Service, shall establish a joint task force to study the establishment and administration of a fee on multimodal freight surface transportation services.

(b) **CONTENTS.**—The study required under subsection (a) shall include the following:

(1) An estimation of the revenue that a fee of up to 1 percent on freight transportation services would raise.

(2) An identification of the entities that would be subject to such a fee paid by the owners or suppliers of cargo.

(3) An analysis of the administrative capacity of Federal agencies and freight industry participants to collect such a fee and ensure compliance with fee requirements.

(4) Policy options to prevent avoidance of such a fee, including diversion of freight services to foreign countries.

(c) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure and the Committee on Ways and Means of the House of Representatives and the Committee on Environment and Public Works and the Committee on Finance of the Senate the study required under subsection (a).

**SEC. 6007. NATIONAL SURFACE TRANSPORTATION AND INNOVATIVE FINANCE BUREAU.**

Section 116 of title 49, United States Code, is amended—

(1) in subsection (b) by striking paragraph (1) and inserting the following:

“(1) to provide assistance and communicate best practices and financing and funding opportunities to eligible entities for the programs referred to in subsection (d)(1), including by—

“(A) conducting proactive outreach to communities located outside of metropolitan or micropolitan statistical areas (as such areas are defined by the Office of Management and Budget) using data from the most recent decennial Census; and

“(B) coordinating with the Office of Rural Development of the Department of Agriculture, the Office of Community Revitalization of the Environmental Protection Agency, and any

other agencies that provide technical assistance for rural communities, as determined by the Executive Director;”;

(2) by redesignating subsection (j) as subsection (k); and

(3) by inserting after subsection (i) the following:

“(j) ANNUAL PROGRESS REPORT.—Not later than 1 year after the date of enactment of this subsection, and annually thereafter, the Executive Director shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report detailing—

“(1) the use of funds authorized under section 605(f) of title 23; and

“(2) the progress of the Bureau in carrying out the purposes described in subsection (b).”.

#### SEC. 6008. LOCAL HIRE.

(a) ESTABLISHMENT.—The Secretary of Transportation shall immediately reinstate the local labor hiring pilot program containing the contracting initiative established by the Secretary and published in the Federal Register on March 6, 2015 (80 Fed. Reg. 12257), under the same terms, conditions, and requirements as so published.

(b) DURATION.—The Secretary shall continue the local labor hiring pilot program reinstated under this section through September 30, 2025.

#### SEC. 6009. FTE CAP.

The Secretary of Transportation may not employ more than 15 full-time equivalent positions in any fiscal year in the Immediate Office of the Secretary.

#### SEC. 6010. IDENTIFICATION OF COVID-19 TESTING NEEDS OF CRITICAL INFRASTRUCTURE EMPLOYEES.

(a) IN GENERAL.—The Secretary of Transportation shall—

(1) adopt, for use by the Department of Transportation in carrying out response efforts relating to, and operations during, the Coronavirus Disease 2019 (COVID-19) pandemic, the categorization of “essential critical infrastructure workers” identified in the Guidance on the Essential Critical Infrastructure Workforce published by the Department of Homeland Security on March 28, 2020 (or a subsequent version of such guidance); and

(2) coordinate with the Director of the Centers for Disease Control and Prevention and the Administrator of the Federal Emergency Management Agency to support efforts of State and local governments to provide for—

(A) priority testing of essential critical infrastructure workers (as such term is used in paragraph (1)) with respect to COVID-19; and

(B) priority access to personal protective equipment, sanitizers, nonmedical-grade facial coverings, and other health-related or protective supplies necessary to safely perform essential critical infrastructure work.

(b) APPLICATION.—Nothing in this section requires the provision of priority testing or priority access to personal protective equipment for essential critical infrastructure workers (as such term is used in subsection (a)(1)) to be prioritized over the provision of that testing or access to personal protective equipment for other individuals who are identified by the Centers for Disease Control and Prevention or any other relevant Federal, State, or local agency as having a higher priority for that testing or access to personal protective equipment, including—

- (1) patients;
- (2) healthcare workers; and
- (3) first responders.

#### TITLE VII—TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION ACT

##### SEC. 7001. TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION ACT.

(a) CREDITWORTHINESS.—Section 602(a)(2) of title 23, United States Code, is amended—

- (1) in subparagraph (A)(iv)—

(A) by striking “a rating” and inserting “an investment grade rating”; and

(B) by striking “\$75,000,000” and inserting “\$150,000,000”; and

(2) in subparagraph (B)—

(A) by striking “the senior debt” and inserting “senior debt”; and

(B) by striking “credit instrument is for an amount less than \$75,000,000” and inserting “total amount of other senior debt and the Federal credit instrument is less than \$150,000,000”.

(b) NON-FEDERAL SHARE.—Section 603(b) of title 23, United States Code, is amended by striking paragraph (8) and inserting the following:

“(8) NON-FEDERAL SHARE.—Notwithstanding paragraph (9) and section 117(j)(2), the proceeds of a secured loan under the TIFIA program shall be considered to be part of the non-Federal share of project costs required under this title or chapter 53 of title 49, if the loan is repayable from non-Federal funds.”.

(c) EXEMPTION OF FUNDS FROM TIFIA FEDERAL SHARE REQUIREMENT.—Section 603(b)(9) of title 23, United States Code, is amended by adding at the end the following:

“(C) TERRITORIES.—Funds provided for a territory under section 165(c) shall not be considered Federal assistance for purposes of subparagraph (A).”.

(d) STREAMLINED APPLICATION PROCESS.—Section 603(f) of title 23, United States Code, is amended by adding at the end the following:

“(3) ADDITIONAL TERMS FOR EXPEDITED DECISIONS.—

“(A) IN GENERAL.—Not later than 120 days after the date of enactment of this paragraph, the Secretary shall implement an expedited decision timeline for public agency borrowers seeking secured loans that meet—

- “(i) the terms under paragraph (2); and
- “(ii) the additional criteria described in subparagraph (B).

“(B) ADDITIONAL CRITERIA.—The additional criteria referred to in subparagraph (A)(ii) are the following:

“(i) The secured loan is made on terms and conditions that substantially conform to the conventional terms and conditions established by the National Surface Transportation Innovative Finance Bureau.

“(ii) The secured loan is rated in the A category or higher.

“(iii) The TIFIA program share of eligible project costs is 33 percent or less.

“(iv) The applicant demonstrates a reasonable expectation that the contracting process for the project can commence by not later than 90 days after the date on which a Federal credit instrument is obligated for the project under the TIFIA program.

“(v) The project has received a categorical exclusion, a finding of no significant impact, or a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(C) WRITTEN NOTICE.—The Secretary shall provide to an applicant seeking a secured loan under the expedited decision process under this paragraph a written notice informing the applicant whether the Secretary has approved or disapproved the application by not later than 180 days after the date on which the Secretary submits to the applicant a letter indicating that the National Surface Transportation Innovative Finance Bureau has commenced the creditworthiness review of the project.”.

(e) ASSISTANCE TO SMALL PROJECTS.—Section 605(f)(1) of title 23, United States Code, is amended by striking “\$2,000,000” and inserting “\$3,000,000”.

(f) APPLICATION PROCESS REPORT.—Section 609(b)(2)(A) of title 23, United States Code, is amended—

- (1) in clause (iv) by striking “and”;
- (2) in clause (v) by striking the period at the end and inserting “; and”; and
- (3) by adding at the end the following:

“(vi) whether the project is located in a metropolitan statistical area, micropolitan statistical

area, or neither (as such areas are defined by the Office of Management and Budget).”.

(g) STATUS REPORTS.—Section 609 of title 23, United States Code, is amended by adding at the end the following:

“(c) STATUS REPORTS.—

“(1) IN GENERAL.—The Secretary shall publish on the website for the TIFIA program—

“(A) on a monthly basis, a current status report on all submitted letters of interest and applications received for assistance under the TIFIA program; and

“(B) on a quarterly basis, a current status report on all approved applications for assistance under the TIFIA program.

“(2) INCLUSIONS.—Each monthly and quarterly status report under paragraph (1) shall include, at a minimum, with respect to each project included in the status report—

“(A) the name of the party submitting the letter of interest or application;

“(B) the name of the project;

“(C) the date on which the letter of interest or application was received;

“(D) the estimated project eligible costs;

“(E) the type of credit assistance sought; and

“(F) the anticipated fiscal year and quarter for closing of the credit assistance.”.

#### DIVISION C—HAZARDOUS MATERIALS TRANSPORTATION

##### SEC. 8001. SHORT TITLE.

This division may be cited as the “Improving Hazardous Materials Safety Act of 2020”.

#### TITLE I—AUTHORIZATIONS

##### SEC. 8101. AUTHORIZATION OF APPROPRIATIONS.

Section 5128 of title 49, United States Code, is amended—

(1) in subsection (a) by striking paragraphs (1) through (5) and inserting the following:

“(1) \$67,000,000 for fiscal year 2021;

“(2) \$68,000,000 for fiscal year 2022;

“(3) \$69,000,000 for fiscal year 2023;

“(4) \$71,000,000 for fiscal year 2024; and

“(5) \$72,000,000 for fiscal year 2025;”;

(2) in subsection (b)—

(A) by striking “fiscal years 2016 through 2020” and inserting “fiscal years 2021 through 2025”; and

(B) by striking “\$21,988,000” and inserting “\$24,025,000”;

(3) in subsection (c) by striking “\$4,000,000 for each of fiscal years 2016 through 2020” and inserting “\$5,000,000 for each of fiscal years 2021 through 2025”; and

(4) in subsection (d) by striking “\$1,000,000 for each of fiscal years 2016 through 2020” and inserting “\$4,000,000 for each of fiscal years 2021 through 2025”; and

(5) by redesignating subsection (e) as subsection (f); and

(6) by inserting after subsection (d) the following:

“(e) ASSISTANCE WITH LOCAL EMERGENCY RESPONDER TRAINING GRANTS.—From the Hazardous Materials Emergency Preparedness Fund established under section 5116(h), the Secretary may expend \$1,800,000 for each of fiscal years 2021 through 2025 to carry out the grant program under section 5107(j).”.

#### TITLE II—HAZARDOUS MATERIALS SAFETY AND IMPROVEMENT

##### SEC. 8201. REPEAL OF CERTAIN REQUIREMENTS RELATED TO LITHIUM CELLS AND BATTERIES.

(a) REPEAL.—Section 828 of the FAA Modernization and Reform Act of 2012 (49 U.S.C. 44701 note), and the item relating to such section in the table of contents in section 1(b) of such Act, are repealed.

(b) CONFORMING AMENDMENTS.—Section 333 of the FAA Reauthorization Act of 2018 (49 U.S.C. 44701 note) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking “(A) IN GENERAL.—” and all that follows through “the Secretary” and inserting “The Secretary”; and

(ii) by striking subparagraph (B); and  
(B) in paragraph (2) by striking “Pursuant to section 828 of the FAA Modernization and Reform Act of 2012 (49 U.S.C. 44701 note), the Secretary” and inserting “The Secretary”;

(2) by striking paragraph (4) of subsection (b); and

(3) by striking paragraph (1) of subsection (h) and inserting the following:

“(1) ICAO TECHNICAL INSTRUCTIONS.—The term ‘ICAO Technical Instructions’ means the International Civil Aviation Organization Technical Instructions for the Safe Transport of Dangerous Goods by Air.”.

#### SEC. 8202. TRANSPORTATION OF LIQUEFIED NATURAL GAS BY RAIL TANK CAR.

(a) EVALUATION.—Not later than 120 days after the date of enactment of this Act, the Administrator of the Federal Railroad Administration, in coordination with the Administrator of the Pipeline and Hazardous Materials Safety Administration, shall initiate an evaluation of the safety, security, and environmental risks of transporting liquefied natural gas by rail.

(b) TESTING.—In conducting the evaluation under subsection (a), the Administrator of the Federal Railroad Administration shall—

(1) perform physical testing of rail tank cars, including, at a minimum, the DOT-113 specification, to evaluate the performance of such rail tank cars in the event of an accident or derailment, including evaluation of the extent to which design and construction features such as steel thickness and valve protections prevent or mitigate the release of liquefied natural gas;

(2) analyze multiple release scenarios, including derailments, front-end collisions, rear-end collisions, side-impact collisions, grade-crossing collisions, punctures, and impact of an incendiary device, at a minimum of 3 speeds of travel with a sufficient range of speeds to evaluate the safety, security, and environmental risks posed under real-world operating conditions; and

(3) examine the effects of exposure to climate conditions across rail networks, including temperature, humidity, and any other factors that the Administrator of the Federal Railroad Administration determines could influence performance of rail tank cars and components of such rail tank cars.

(c) OTHER FACTORS TO CONSIDER.—In conducting the evaluation under subsection (a), the Administrator of the Federal Railroad Administration shall evaluate the impact of a discharge of liquefied natural gas from a rail tank car on public safety and the environment, and consider—

(1) the benefits of route restrictions, speed restrictions, enhanced brake requirements, personnel requirements, rail tank car technological requirements, and other operating controls;

(2) the advisability of consist restrictions, including limitations on the arrangement and quantity of rail tank cars carrying liquefied natural gas in any given consist;

(3) the identification of potential impact areas, and the number of homes and structures potentially endangered by a discharge in rural, suburban, and urban environments;

(4) the impact of discharge on the environment, including air quality impacts;

(5) the benefits of advanced notification to the Department of Transportation, State Emergency Response Commissions, and Tribal Emergency Response Commissions of routes for moving liquefied natural gas by rail tank car;

(6) how first responders respond to an incident, including the extent to which specialized equipment or training would be required and the cost to communities for acquiring any necessary equipment or training;

(7) whether thermal radiation could occur from a discharge;

(8) an evaluation of the rail tank car authorized by the Secretary of Transportation for liquefied natural gas or similar cryogenic liquids, and a determination of whether specific safety enhancements or new standards are necessary

to ensure the safety of rail transport of liquefied natural gas; and

(9) the risks posed by the transportation of liquefied natural gas by International Organization for Standardization containers authorized by the Federal Railroad Administration.

(d) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make available to the public—

(1) a report based on the evaluation and testing conducted under subsections (a) and (b), which shall include the results of the evaluation and testing and recommendations for mitigating or eliminating the safety, security, environmental, and other risks of an accident or incident involving the transportation of liquefied natural gas by rail; and

(2) a complete list of all research related to the transportation of liquefied natural gas by rail conducted by the Federal Railroad Administration, the Pipeline and Hazardous Materials Safety Administration, or any other entity of the Federal Government since 2010 that includes, for each research item—

(A) the title of any reports or studies produced with respect to the research;

(B) the agency, entity, or organization performing the research;

(C) the names of all authors and co-authors of any report or study produced with respect to the research; and

(D) the date any related report was published or is expected to publish.

(e) DATA COLLECTION.—The Administrator of the Federal Railroad Administration and the Administrator of the Pipeline and Hazardous Materials Safety Administration shall collect any relevant data or records necessary to complete the evaluation required by subsection (a).

(f) GAO REPORT.—After the evaluation required by subsection (a) has been completed, the Comptroller General of the United States shall conduct an independent evaluation to verify that the Federal Railroad Administration and the Pipeline and Hazardous Materials Safety Administration complied with the requirements of this Act, and transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the findings of such independent evaluation.

(g) RULEMAKINGS.—

(1) IN GENERAL.—Any regulation authorizing the transportation of liquefied natural gas by rail tank car issued before the date of enactment of this Act shall be stayed until the Secretary conducts the evaluation, testing, and analysis required in subsections (a), (b), and (c), issues the report required by subsection (d), and the Comptroller General completes the evaluation and report required under subsection (f).

(2) PERMIT OR APPROVAL.—The Secretary of Transportation shall rescind any special permit or approval for the transportation of liquefied natural gas by rail tank car issued before the date of enactment of this Act.

#### SEC. 8203. HAZARDOUS MATERIALS TRAINING REQUIREMENTS AND GRANTS.

Section 5107 of title 49, United States Code, is amended by adding at the end the following:

“(j) ASSISTANCE WITH LOCAL EMERGENCY RESPONDER TRAINING.—The Secretary shall make grants to nonprofit organizations to develop hazardous materials response training for emergency responders and make such training available electronically or in person.”.

#### DIVISION D—RAIL

##### SEC. 9001. SHORT TITLE.

This division may be cited as the “Transforming Rail by Accelerating Investment Nationwide Act” or the “TRAIN Act”.

#### TITLE I—AUTHORIZATIONS

##### SEC. 9101. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF GRANTS TO AMTRAK.—  
(1) NORTHEAST CORRIDOR.—There are authorized to be appropriated to the Secretary for the use of Amtrak for activities associated with the Northeast Corridor the following amounts:

(A) For fiscal year 2021, \$2,900,000,000.

(B) For fiscal year 2022, \$2,700,000,000.

(C) For fiscal year 2023, \$2,500,000,000.

(D) For fiscal year 2024, \$2,500,000,000.

(E) For fiscal year 2025, \$2,500,000,000.

(2) NATIONAL NETWORK.—There are authorized to be appropriated to the Secretary for the use of Amtrak for activities associated with the National Network the following amounts:

(A) For fiscal year 2021, \$3,500,000,000.

(B) For fiscal year 2022, \$3,300,000,000.

(C) For fiscal year 2023, \$3,100,000,000.

(D) For fiscal year 2024, \$2,900,000,000.

(E) For fiscal year 2025, \$2,900,000,000.

(b) PROJECT MANAGEMENT OVERSIGHT.—The Secretary may withhold up to \$15,000,000 for each of fiscal years 2021 through 2025 from the amounts made available under subsection (a) for Amtrak grant expenditure oversight.

(c) AMTRAK COMMON BENEFIT COSTS FOR STATE-SUPPORTED ROUTES.—For any fiscal year in which funds are made available under subsection (a)(2) in excess of the amounts authorized for fiscal year 2020 under section 11101(b) of the FAST Act (114–94), Amtrak shall use up to \$300,000,000 of the excess funds to defray the share of operating costs of Amtrak’s national assets (as such term is defined in section 24320(c)(5) of title 49, United States Code) and corporate services (as such term is defined pursuant to section 24317(b) of title 49, United States Code) that is allocated to the State-supported services.

(d) STATE-SUPPORTED ROUTE COMMITTEE.—Of the funds made available under subsection (a)(2), the Secretary may make available up to \$3,000,000 for each fiscal year for the State-Supported Route Committee established under section 24712 of title 49, United States Code.

(e) NORTHEAST CORRIDOR COMMISSION.—Of the funds made available under subsection (a)(1), the Secretary may make available up to \$6,000,000 for each fiscal year for the Northeast Corridor Commission established under section 24905 of title 49, United States Code.

(f) AUTHORIZATION OF APPROPRIATIONS FOR AMTRAK OFFICE OF INSPECTOR GENERAL.—There are authorized to be appropriated to the Office of Inspector General of Amtrak the following amounts:

(1) For fiscal year 2021, \$26,500,000.

(2) For fiscal year 2022, \$27,000,000.

(3) For fiscal year 2023, \$27,500,000.

(4) For fiscal year 2024, \$28,000,000.

(5) For fiscal year 2025, \$28,500,000.

(g) PASSENGER RAIL IMPROVEMENT, MODERNIZATION, AND ENHANCEMENT GRANTS.—There are authorized to be appropriated to the Secretary to carry out section 22906 of title 49, United States Code, the following amounts:

(1) For fiscal year 2021, \$3,800,000,000.

(2) For fiscal year 2022, \$3,800,000,000.

(3) For fiscal year 2023, \$3,800,000,000.

(4) For fiscal year 2024, \$3,800,000,000.

(5) For fiscal year 2025, \$3,800,000,000.

(h) CONSOLIDATED RAIL INFRASTRUCTURE AND SAFETY IMPROVEMENTS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary to carry out section 22907 of title 49, United States Code, the following amounts:

(A) For fiscal year 2021, \$1,400,000,000.

(B) For fiscal year 2022, \$1,400,000,000.

(C) For fiscal year 2023, \$1,400,000,000.

(D) For fiscal year 2024, \$1,400,000,000.

(E) For fiscal year 2025, \$1,400,000,000.

(2) PROJECT MANAGEMENT OVERSIGHT.—The Secretary may withhold up to 1 percent from the amount appropriated under paragraph (1) for the costs of project management oversight of

grants carried out under section 22907 of title 49, United States Code.

**(i) RAILROAD REHABILITATION AND IMPROVEMENT FINANCING.—**

**(1) IN GENERAL.**—There are authorized to be appropriated to the Secretary for payment of credit risk premiums in accordance with section 9104 of this division and section 502 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822) \$130,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

**(2) REFUND OF PREMIUM.**—There are authorized to be appropriated to the Secretary \$70,000,000 to repay the credit risk premium under section 502 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822) in accordance with section 9104.

**(j) RESTORATION AND ENHANCEMENT GRANTS.—**

**(1) IN GENERAL.**—There are authorized to be appropriated to the Secretary to carry out section 22908 of title 49, United States Code, \$20,000,000 for each of fiscal years 2021 through 2025.

**(2) PROJECT MANAGEMENT OVERSIGHT.**—The Secretary may withhold up to 1 percent from the amount appropriated under paragraph (1) for the costs of project management oversight of grants carried out under section 22908 of title 49, United States Code.

**(k) GRADE CROSSING SEPARATION GRANTS.—**

**(1) IN GENERAL.**—There are authorized to be appropriated to the Secretary to carry out section 20171 of title 49, United States Code, (as added by section 9551 of this Act) the following amounts:

- (1) For fiscal year 2021, \$450,000,000.
- (2) For fiscal year 2022, \$475,000,000.
- (3) For fiscal year 2023, \$500,000,000.
- (4) For fiscal year 2024, \$525,000,000.
- (5) For fiscal year 2025, \$550,000,000.

**(2) PROJECT MANAGEMENT OVERSIGHT.**—The Secretary may withhold up to 1 percent from the amount appropriated under paragraph (1) for the costs of project management oversight of grants carried out under section 20171 of title 49, United States Code.

**(l) RAIL SAFETY PUBLIC AWARENESS GRANTS.**—Of the amounts made available under subsection (k), the Secretary shall make available \$5,000,000 for each of fiscal years 2021 through 2025 to carry out section 20172 of title 49, United States Code, (as added by section 9552 of this Act).

**(m) AUTHORIZATION OF APPROPRIATIONS TO THE FEDERAL RAILROAD ADMINISTRATION.**—Section 20117 of title 49, United States Code, is amended to read as follows:

**“§20117. Authorization of appropriations**

**“(a) SAFETY AND OPERATIONS.—**

**“(1) IN GENERAL.**—There are authorized to be appropriated to the Secretary of Transportation for the operations of the Federal Railroad Administration and to carry out railroad safety activities authorized or delegated to the Administrator—

- “(A) \$229,000,000 for fiscal year 2021.
- “(B) \$231,000,000 for fiscal year 2022;
- “(C) \$233,000,000 for fiscal year 2023;
- “(D) \$235,000,000 for fiscal year 2024; and
- “(E) \$237,000,000 for fiscal year 2025.

**“(2) AUTOMATED TRACK INSPECTION PROGRAM AND DATA ANALYSIS.**—From the funds made available under paragraph (1) for each of fiscal years 2021 through 2025, not more than \$17,000,000 may be expended for the Automated Track Inspection Program and data analysis related to track inspection. Such funds shall remain available until expended.

**“(3) STATE PARTICIPATION GRANTS.**—Amounts made available under paragraph (1) for grants under section 20105(e) shall remain available until expended.

**“(b) RAILROAD RESEARCH AND DEVELOPMENT.—**

**“(1) AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the

Secretary of Transportation for necessary expenses for carrying out railroad research and development activities the following amounts which shall remain available until expended:

- “(A) \$42,000,000 for fiscal year 2021.
- “(B) \$44,000,000 for fiscal year 2022.
- “(C) \$46,000,000 for fiscal year 2023.
- “(D) \$48,000,000 for fiscal year 2024.
- “(E) \$50,000,000 for fiscal year 2025.

**“(2) STUDY ON LNG BY RAIL.**—From the amounts made available for fiscal years 2021 through 2025 under paragraph (1), the Secretary shall expend not less than \$6,000,000 and not more than \$8,000,000 to carry out the evaluation of transporting liquefied natural gas by rail under section 8202 of the TRAIN Act.

**“(3) STUDY ON SAFETY CULTURE ASSESSMENTS.**—From the amounts made available for fiscal year 2021 under paragraph (1), the Secretary shall expend such sums as are necessary to carry out the study on safety culture assessments under section 9517 of the TRAIN Act.

**“(4) SHORT LINE SAFETY.**—From funds made available under paragraph (1) for each of fiscal years 2021 through 2025, the Secretary may expend not more than \$4,000,000—

**“(A) for grants to improve safety practices and training for Class II and Class III freight railroads; and**

**“(B) to develop safety management systems for Class II and Class III freight railroads through safety culture assessments, training and education, outreach activities, and technical assistance.”.**

**(n) FATIGUE REDUCTION PILOT PROJECTS.**—There are authorized to be appropriated to the Secretary for costs associated with carrying out section 21109(e) of title 49, United States Code, \$200,000 to remain available until expended.

**(o) LIMITATION ON FINANCIAL ASSISTANCE FOR STATE-OWNED ENTERPRISES.—**

**(1) IN GENERAL.**—Funds provided under this section and the amendments made by this section may not be used in awarding a contract, subcontract, grant, or loan to an entity that is owned or controlled by, is a subsidiary of, or is otherwise related legally or financially to a corporation based in a country that—

**(A) is identified as a nonmarket economy country (as defined in section 771(18) of the Tariff Act of 1930 (19 U.S.C. 1677(18))) as of the date of enactment of this Act;**

**(B) was identified by the United States Trade Representative in the most recent report required by section 182 of the Trade Act of 1974 (19 U.S.C. 2242) as a priority foreign country under subsection (a)(2) of that section; and**

**(C) is subject to monitoring by the Trade Representative under section 306 of the Trade Act of 1974 (19 U.S.C. 2416).**

**(2) EXCEPTION.**—For purposes of paragraph (1), the term “otherwise related legally or financially” does not include a minority relationship or investment.

**(3) INTERNATIONAL AGREEMENTS.**—This subsection shall be applied in a manner consistent with the obligations of the United States under international agreements.

**SEC. 9102. PASSENGER RAIL IMPROVEMENT, MODERNIZATION, AND EXPANSION GRANTS.**

**(a) IN GENERAL.**—Section 22906 of title 49, United States Code, is amended to read as follows:

**“§22906. Passenger rail improvement, modernization, and expansion grants**

**“(a) ESTABLISHMENT.**—The Secretary of Transportation shall establish a program to make grants for capital projects that improve the state of good repair, operational performance, or growth of intercity rail passenger transportation.

**“(b) PROJECT SELECTION CRITERIA.—**

**“(1) IN GENERAL.**—Capital projects eligible for a grant under this section include—

**“(A) a project to replace, rehabilitate, or repair a major infrastructure asset used for pro-**

**viding passenger rail service to bring such infrastructure asset into a state of good repair;**

**“(B) a project to improve passenger rail performance, including congestion mitigation, reliability improvements, achievement of on-time performance standards established under section 207 of the Rail Safety Improvement Act of 2008 (49 U.S.C. 24101 note), reduced trip times, increased train frequencies, higher operating speeds, electrification, and other improvements, as determined by the Secretary; and**

**“(C) a project to repair, rehabilitate, replace, or build infrastructure to expand or establish intercity rail passenger transportation and facilities, including high-speed rail.**

**“(2) REQUIREMENTS.**—To be eligible for a grant under this section, an applicant shall have, or provide documentation of a credible plan to achieve—

**“(A) the legal, financial, and technical capacity to carry out the project;**

**“(B) satisfactory continuing control over the use of the equipment or facilities that are the subject of the project; and**

**“(C) an agreement in place for maintenance of such equipment or facilities.**

**“(3) PRIORITY.**—In selecting an applicant for a grant under this section, the Secretary shall give preference to capital projects that—

**“(A) are supported by multiple States or are included in a regional planning process; or**

**“(B) achieve environmental benefits such as a reduction in greenhouse gas emissions or an improvement in local air quality.**

**“(4) ADDITIONAL CONSIDERATIONS.**—In selecting an applicant for a grant under this section, the Secretary shall consider—

**“(A) the cost-benefit analysis of the proposed project, including anticipated public benefits relative to the costs of the proposed project, including—**

- “(i) effects on system and service performance;**
- “(ii) effects on safety, competitiveness, reliability, trip or transit time, and resilience;**
- “(iii) impacts on the overall transportation system, including efficiencies from improved integration with other modes of transportation or benefits associated with achieving modal shifts; and**

**“(iv) the ability to meet existing or anticipated passenger or service demand;**

**“(B) the applicant's past performance in developing and delivering similar projects;**

**“(C) if applicable, the consistency of the project with planning guidance and documents set forth by the Secretary or required by law; and**

**“(D) if applicable, agreements between all stakeholders necessary for the successful delivery of the project.**

**“(c) NORTHEAST CORRIDOR PROJECTS.**—Of the funds made available to carry out this section, not less than 40 percent shall be made available for projects included in the Northeast Corridor investment plan required under section 24904.

**“(d) NATIONAL PROJECTS.**—Of the funds made available to carry out this section, not less than 40 percent shall be made available for—

- “(1) projects on the National Network;**
- “(2) high-speed rail projects; and**

**“(3) the establishment of new passenger rail corridors not located on the Northeast Corridor.**

**“(e) FEDERAL SHARE OF TOTAL PROJECT COSTS.—**

**“(1) TOTAL PROJECT COST ESTIMATE.**—The Secretary shall estimate the total cost of a project under this section based on the best available information, including engineering studies, studies of economic feasibility, environmental analyses, and information on the expected use of equipment or facilities.

**“(2) FEDERAL SHARE.**—The Federal share of total costs for a project under this section shall not exceed 90 percent.

**“(3) TREATMENT OF REVENUE.**—Applicants may use ticket and other revenues generated from operations and other sources to satisfy the non-Federal share requirements.

“(f) LETTERS OF INTENT.—

“(1) IN GENERAL.—The Secretary shall, to the maximum extent practicable, issue a letter of intent to a recipient of a grant under this section that—

“(A) announces an intention to obligate, for a major capital project under this section, an amount that is not more than the amount stipulated as the financial participation of the Secretary in the project; and

“(B) states that the contingent commitment—

“(i) is not an obligation of the Federal Government; and

“(ii) is subject to the availability of appropriations for grants under this section and subject to Federal laws in force or enacted after the date of the contingent commitment.

“(2) CONGRESSIONAL NOTIFICATION.—

“(A) IN GENERAL.—Not later than 3 days before issuing a letter of intent under paragraph (1), the Secretary shall submit written notification to—

“(i) the Committee on Transportation and Infrastructure of the House of Representatives;

“(ii) the Committee on Appropriations of the House of Representatives;

“(iii) the Committee on Appropriations of the Senate; and

“(iv) the Committee on Commerce, Science, and Transportation of the Senate.

“(B) CONTENTS.—The notification submitted under subparagraph (A) shall include—

“(i) a copy of the letter of intent;

“(ii) the criteria used under subsection (b) for selecting the project for a grant; and

“(iii) a description of how the project meets such criteria.

“(g) APPROPRIATIONS REQUIRED.—An obligation or administrative commitment may be made under this section only when amounts are appropriated for such purpose.

“(h) GRANT ADMINISTRATION.—The Secretary may withhold up to 1 percent of the total amount made available to carry out this section for program oversight and management, including providing technical assistance and project planning guidance.

“(i) REGIONAL PLANNING GUIDANCE.—The Secretary may withhold up to half a percent of the total amount made available to carry out this section to facilitate and provide guidance for regional planning processes.

“(j) AVAILABILITY.—Amounts made available to carry out this section shall remain available until expended.

“(k) GRANT CONDITIONS.—Except as specifically provided in this section, the use of any amounts appropriated for grants under this section shall be subject to the grant conditions under section 22905, except that the domestic buying preferences of section 24305(f) shall apply to grants provided to Amtrak in lieu of the requirements of section 22905(a).

“(l) DEFINITIONS.—In this section:

“(1) APPLICANT.—The term ‘applicant’ means—

“(A) a State;

“(B) a group of States;

“(C) an Interstate Compact;

“(D) a public agency or publicly chartered authority established by 1 or more States;

“(E) a political subdivision of a State; or

“(F) Amtrak, acting on its own behalf or under a cooperative agreement with 1 or more States.

“(2) CAPITAL PROJECT.—The term ‘capital project’ means—

“(A) acquisition, construction, replacement, rehabilitation, or repair of major infrastructure assets or equipment that benefit intercity rail passenger transportation, including tunnels, bridges, stations, track, electrification, grade crossings, passenger rolling stock, and other assets, as determined by the Secretary;

“(B) projects that ensure service can be maintained while existing assets are rehabilitated or replaced; and

“(C) project planning, development, design, and environmental analysis related to projects under subsections (A) and (B).

“(3) INTERCITY RAIL PASSENGER TRANSPORTATION.—The term ‘intercity rail passenger transportation’ has the meaning given such term in section 24102.

“(4) HIGH-SPEED RAIL.—The term ‘high-speed rail’ has the meaning given such term in section 26106(b).

“(5) NORTHEAST CORRIDOR.—The term ‘Northeast Corridor’ has the meaning given such term in section 24102.

“(6) NATIONAL NETWORK.—The term ‘National Network’ has the meaning given such term in section 24102.

“(7) STATE.—The term ‘State’ means each of the 50 States and the District of Columbia.”

(b) CLERICAL AMENDMENT.—The item relating to section 22906 in the analysis for chapter 229 of title 49, United States Code, is amended to read as follows:

“22906. Passenger rail improvement, modernization, and expansion grants.”

#### **SEC. 9103. CONSOLIDATED RAIL INFRASTRUCTURE AND SAFETY IMPROVEMENT GRANTS.**

Section 22907 of title 49, United States Code, is amended—

(1) in subsection (b) by adding at the end the following:

“(12) A commuter authority (as such term is defined in section 24102).

“(13) The District of Columbia.”;

(2) in subsection (c)—

(A) in paragraph (1) by inserting “, maintenance, and upgrades” after “Deployment”;

(B) in paragraph (2) by striking “as defined in section 22901(2), except that a project shall not be required to be in a State rail plan developed under chapter 227”;

(C) in paragraph (3) by inserting “or safety” after “address congestion”;

(D) in paragraph (4) by striking “identified by the Secretary” and all that follows through “rail transportation” and inserting “to reduce congestion, improve service, or facilitate ridership growth in intercity rail passenger transportation and commuter rail passenger transportation (as such term is defined in section 24102)”;

(E) in paragraph (5) by inserting “or to establish new quiet zones” before the period at the end; and

(F) in paragraph (9) by inserting “or commuter rail passenger transportation (as such term is defined in section 24102)” after “between intercity rail passenger transportation”;

(3) in subsection (e)—

(A) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—In selecting a recipient of a grant for an eligible project, the Secretary shall give preference to—

“(A) projects that will maximize the net benefits of the funds made available for use under this section, considering the cost-benefit analysis of the proposed project, including anticipated private and public benefits relative to the costs of the proposed project and factoring in the other considerations described in paragraph (2); and

“(B) projects that benefit a station that—

“(i) serves Amtrak and commuter rail;

“(ii) is listed amongst the 25 stations with highest ridership in the most recent Amtrak Company Profile; and

“(iii) has support from both Amtrak and the provider of commuter rail passenger transportation servicing the station.”; and

(B) in paragraph (3) by striking “paragraph (1)(B)” and inserting “paragraph (1)(A)”;

(4) in subsection (l) by striking “Secretary shall” and inserting “Secretary may”;

(5) by redesignating subsections (i), (j), (k), and (l) as subsections (l), (m), (n), and (o), respectively; and

(6) by inserting after subsection (h) the following:

“(i) LARGE PROJECTS.—Of the amounts made available under this section, at least 50 percent

shall be for projects that have total project costs of greater than \$100,000,000.

“(j) COMMUTER RAIL.—

“(1) ADMINISTRATION OF FUNDS.—The amounts awarded under this section for commuter rail passenger transportation projects shall be transferred by the Secretary, after selection, to the Federal Transit Administration for administration of funds in accordance with chapter 53.

“(2) GRANT CONDITION.—

“(A) IN GENERAL.—As a condition of receiving a grant under this section that is used to acquire, construct, or improve railroad right-of-way or facilities, any employee covered by the Railway Labor Act (45 U.S.C. 151 et seq.) and the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.) who is adversely affected by actions taken in connection with the project financed in whole or in part by such grant shall be covered by employee protective arrangements established under section 22905(e).

“(B) APPLICATION OF PROTECTIVE ARRANGEMENT.—The grant recipient and the successors, assigns, and contractors of such recipient shall be bound by the protective arrangements required under subparagraph (A). Such recipient shall be responsible for the implementation of such arrangement and for the obligations under such arrangement, but may arrange for another entity to take initial responsibility for compliance with the conditions of such arrangement.

“(3) APPLICATION OF LAW.—Subsections (g) and (f)(1) of section 22905 shall not apply to grants awarded under this section for commuter rail passenger transportation projects.

“(k) DEFINITION OF CAPITAL PROJECT.—In this section, the term ‘capital project’ means a project or program for—

“(1) acquiring, constructing, improving, or inspecting equipment, track and track structures, or a facility, expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, environmental studies, and acquiring rights-of-way), payments for the capital portions of rail track-age rights agreements, highway-rail grade crossing improvements, mitigating environmental impacts, communication and signalization improvements, relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating, and rehabilitating replacement housing;

“(2) rehabilitating, remanufacturing, or overhauling rail rolling stock and facilities;

“(3) costs associated with developing State rail plans; and

“(4) the first-dollar liability costs for insurance related to the provision of intercity passenger rail service under section 22904.”

#### **SEC. 9104. RAILROAD REHABILITATION AND IMPROVEMENT FINANCING.**

Section 502 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 822) is amended—

(1) in subsection (b)—

(A) in paragraph (1)—

(i) in subparagraph (A) by inserting “civil works such as cuts and fills, stations, tunnels,” after “components of track,”; and

(ii) in subparagraph (D) by inserting “, permitting,” after “reimburse planning”; and

(B) by striking paragraph (3);

(2) in subsection (f)—

(A) in paragraph (3) by adding at the end the following:

“(D) A projection of freight or passenger demand for the project based on regionally developed economic forecasts, including projections of any modal diversion resulting from the project.”; and

(B) in paragraph (4)—

(i) by inserting “In the case of an applicant seeking a loan that is less than 50 percent of the total cost of the project, half of the credit risk premiums under this subsection shall be paid to the Secretary before the disbursement of loan amounts and the remaining half shall be paid to

the Secretary in equal amounts semiannually and fully paid not later than 10 years after the first loan disbursement is executed.” after “modifications thereof.”;

(ii) by striking “Credit risk premiums” and inserting “(A) TIMING OF PAYMENT.—Credit risk premiums”; and

(iii) by adding at the end the following:

“(B) PAYMENT OF CREDIT RISK PREMIUMS.—

“(i) IN GENERAL.—In granting assistance under this section, the Secretary may pay credit risk premiums required under paragraph (3) for entities described in paragraphs (1) through (3) of subsection (a), in whole or in part, with respect to a loan or loan guarantee.

“(ii) SET-ASIDE.—Of the amounts made available for payments for a fiscal year under clause (i), the Secretary shall reserve \$125,000,000 for payments for passenger rail projects, to remain available until expended.

“(C) REFUND OF PREMIUM.—The Secretary shall repay the credit risk premium of each loan in cohort 3, as defined by the memorandum to the Office of Management and Budget of the Department of Transportation dated November 5, 2018, with interest accrued thereon, not later than 60 days after the date on which all obligations attached to each such loan have been satisfied. For each such loan for which obligations have been satisfied as of the date of enactment of the TRAIN Act, the Secretary shall repay the credit risk premium of each such loan, with interest accrued thereon, not later than 60 days after the date of the enactment of such Act.”; and

(3) by adding at the end the following:

“(n) NON-FEDERAL SHARE.—The proceeds of a loan provided under this section may be used as the non-Federal share of project costs under this title or chapter 53 of title 49 if such loan is repayable from non-Federal funds.”.

#### SEC. 9105. BUY AMERICA.

Section 22905(a) of title 49, United States Code, is amended—

(1) in paragraph (2)—

(A) in subparagraph (B) by adding “or” at the end;

(B) by striking subparagraph (C); and

(C) by redesignating subparagraph (D) as subparagraph (C);

(2) by striking paragraph (4) and inserting the following:

“(4)(A) If the Secretary receives a request for a waiver under paragraph (2), the Secretary shall provide notice of and an opportunity for public comment on the request at least 30 days before making a finding based on the request.

“(B) A notice provided under subparagraph (A) shall—

“(i) include the information available to the Secretary concerning the request, including whether the request is being made under subparagraph (A), (B), or (C) of paragraph (2); and

“(ii) be provided by electronic means, including on the official public website of the Department of Transportation.”;

(3) in paragraph (5)—

(A) by striking “2012” and inserting “2020, and each year thereafter”; and

(B) by inserting “during the preceding fiscal year” before the period; and

(4) by adding at the end the following:

“(12) The requirements of this subsection apply to all contracts for a project carried out within the scope of the applicable finding, determination, or decisions under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), regardless of the funding source for activities carried out pursuant to such contracts, if at least 1 contract for the project is funded with amounts made available to carry out a provision specified in paragraph (1).”.

#### SEC. 9106. RAIL NETWORK CLIMATE CHANGE VULNERABILITY ASSESSMENT.

(a) IN GENERAL.—The Secretary of Transportation shall sponsor a study by the National Academies to conduct an assessment of the po-

tential impacts of climate change on the national rail network.

(b) ASSESSMENT.—At a minimum, the assessment conducted pursuant to subsection (a) shall—

(1) cover the entire freight and intercity passenger rail network of the United States;

(2) evaluate risk to the network over 5-, 30-, and 50-year outlooks;

(3) examine and describe potential effects of climate change and extreme weather events on passenger and freight rail infrastructure, trackage, and facilities, including facilities owned by rail shippers;

(4) identify and categorize the assets described in paragraph (3) by vulnerability level and geographic area; and

(5) recommend strategies or measures to mitigate any adverse impacts of climate change, including emergency preparedness measures and resiliency best practices for infrastructure planning.

(c) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing the findings of the assessment conducted pursuant to subsection (a).

(d) FURTHER COORDINATION.—The Secretary shall make the report publicly available on the website of the Department of Transportation and communicate the results of the assessment with stakeholders.

(e) REGULATORY AUTHORITY.—If the Secretary finds in the report required under subsection (c) that regulatory measures are warranted and such measures are otherwise under the existing authority of the Secretary, the Secretary may issue such regulations as are necessary to implement such measures.

(f) FUNDING.—From the amounts made available for fiscal year 2021 under section 20117(a) of title 49, United States Code, the Secretary shall expend not less than \$1,000,000 to carry out the study required under subparagraph (a).

#### TITLE II—AMTRAK REFORMS

##### SEC. 9201. AMTRAK FINDINGS, MISSION, AND GOALS.

Section 24101 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking “, to the extent its budget allows,”; and

(ii) by striking “between crowded urban areas and in other areas of” and inserting “throughout”;

(B) in paragraph (2) by striking the period and inserting “, thereby providing additional capacity for the traveling public and widespread air quality benefits.”;

(C) in paragraph (4)—

(i) by striking “greater” and inserting “high”; and

(ii) by striking “to Amtrak to achieve a performance level sufficient to justify expending public money” and inserting “in order to meet the intercity passenger rail needs of the United States”;

(D) in paragraph (5)—

(i) by inserting “intercity and” after “efficient”; and

(ii) by striking “the energy conservation and self-sufficiency” and inserting “addressing climate change, energy conservation, and self-sufficiency”;

(E) in paragraph (6) by striking “through its subsidiary, Amtrak Commuter,”; and

(F) by adding at the end the following:

“(9) Long-distance intercity passenger rail is an important part of the national transportation system.

“(10) Investments in intercity and commuter rail passenger transportation support jobs that provide a pathway to the middle class.”;

(2) in subsection (b) by striking “The” and all that follows through “consistent” and inserting “The mission of Amtrak is to provide a safe, efficient, and high-quality national intercity passenger rail system that is trip-time competitive with other intercity travel options, consistent”;

(3) in subsection (c)—

(A) by striking paragraph (1) and inserting the following:

“(1) use its best business judgment in acting to maximize the benefits of public funding.”;

(B) in paragraph (2)—

(i) by striking “minimize Government subsidies by encouraging” and inserting “work with”; and

(ii) by striking the semicolon and inserting “and improvements to service.”;

(C) by striking paragraph (3) and inserting the following:

“(3) manage the passenger rail network in the interest of public transportation needs, including current and future Amtrak passengers.”;

(D) in paragraph (7) by striking “encourage” and inserting “work with”;

(E) in paragraph (11) by striking “and” the last place it appears; and

(F) by striking paragraph (12) and inserting the following:

“(12) utilize and manage resources with a long-term perspective, including sound investments that take into account the overall lifecycle costs of an asset;

“(13) ensure that service is accessible and accommodating to passengers with disabilities; and

“(14) maximize the benefits Amtrak generates for the United States by creating quality jobs and supporting the domestic workforce.”; and

(4) by striking subsection (d).

#### SEC. 9202. AMTRAK STATUS.

Section 24301(a) of title 49, United States Code, is amended—

(1) in paragraph (1) by striking “2010(2)” and inserting “20102”; and

(2) in paragraph (2) by inserting “serving the public interest in reliable passenger rail service” after “for-profit corporation”.

#### SEC. 9203. BOARD OF DIRECTORS.

(a) IN GENERAL.—Section 24302 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking subparagraph (C) and inserting the following:

“(C) 8 individuals appointed by the President of the United States, by and with the advice and consent of the Senate, with a record of support for national passenger rail service, general business and financial experience, and transportation qualifications or expertise. Of the individuals appointed—

“(i) 1 shall be a Mayor or Governor of a location served by a regularly scheduled Amtrak service on the Northeast Corridor;

“(ii) 1 shall be a Mayor or Governor of a location served by a regularly scheduled Amtrak service that is not on the Northeast Corridor;

“(iii) 1 shall be a labor representative of Amtrak employees; and

“(iv) 2 shall be individuals with a history of regular Amtrak ridership and an understanding of the concerns of rail passengers.”;

(B) in paragraph (2) by inserting “users of Amtrak, including the elderly and individuals with disabilities, and” after “and balanced representation of”;

(C) in paragraph (3) by adding at the end the following: “A member of the Board appointed under clause (i) or (ii) of paragraph (1)(C) shall serve for a term of 5 years or until such member leaves the elected office such member occupied at the time such member was appointed, whichever is first.”; and

(D) by striking paragraph (5) and inserting the following:

“(5) The Secretary and any Governor of a State may be represented at a Board meeting by a designee.”;

(2) in subsection (b)—  
(A) by striking “PAY AND EXPENSES” and inserting “DUTIES, PAY, AND EXPENSES”; and

(B) by inserting “Each director must consider the well-being of current and future Amtrak passengers, and the public interest in sustainable national passenger rail service.” before “Each director not employed by the United States Government or Amtrak”; and

(3) by adding at the end the following:

“(g) GOVERNOR DEFINED.—In this section, the term ‘Governor’ means the Governor of a State or the Mayor of the District of Columbia and includes the designee of the Governor.”.

(b) TIMING OF NEW BOARD REQUIREMENTS.—

(1) IN GENERAL.—The appointment and membership requirements under section 24302 of title 49, United States Code (as amended by this Act), shall apply to any member of the Board appointed pursuant to subsection (a)(1)(C) of such section who is appointed on or after the date of enactment of this Act.

(2) REAPPOINTMENT.—Any member described under paragraph (1) who is serving on such Board as of the date of enactment of this Act may be reappointed on or after such date of enactment, subject to the advice and consent of the Senate, if such member meets the requirements of such section.

(3) TERMINATION OF TERM.—The term of any member described under paragraph (1) who is serving on such Board as of the date of enactment of this Act who is not reappointed under paragraph (2) before the date that is 60 days after the date of enactment of this Act, shall cease on such date.

#### SEC. 9204. AMTRAK PREFERENCE ENFORCEMENT.

(a) IN GENERAL.—Section 24308(c) of title 49, United States Code, is amended by adding at the end the following: “Notwithstanding section 24103(a) and section 24308(f), Amtrak shall have the right to bring an action for equitable or other relief in the United States District Court for the District of Columbia to enforce the preference rights granted under this subsection.”.

(b) CONFORMING AMENDMENT.—Section 24103 of title 49, United States Code, is amended by inserting “and section 24308(c)” before “, only the Attorney General”.

#### SEC. 9205. USE OF FACILITIES AND PROVIDING SERVICES TO AMTRAK.

Section 24308(e) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting the following:

“(1)(A) When a rail carrier does not agree to allow Amtrak to operate additional trains over any rail line of the carrier on which Amtrak is operating or seeks to operate, Amtrak may submit an application to the Board for an order requiring the carrier to allow for the operation of the requested trains. Within 90 days of receipt of such application, the Board shall determine whether the additional trains would unreasonably impair freight transportation and—

“(i) for a determination that such trains do not unreasonably impair freight transportation, order the rail carrier to allow for the operation of such trains on a schedule established by the Board; or

“(ii) for a determination that such trains do unreasonably impair freight transportation, initiate a proceeding to determine any additional infrastructure investments required by, or on behalf of, Amtrak.

“(B) If Amtrak seeks to resume operation of a train that Amtrak operated during the 5-year period preceding an application described in subparagraph (A), the Board shall apply a presumption that the resumed operation of such train will not unreasonably impair freight transportation unless the Board finds that there are substantially changed circumstances.”;

(2) in paragraph (2)—

(A) by striking “The Board shall consider” and inserting “The Board shall”;

(B) by striking subparagraph (A) and inserting the following:

“(A) in making the determination under paragraph (1), take into account any infrastructure investments proposed in Amtrak’s application, with the rail carrier having the burden of demonstrating that the additional trains will unreasonably impair the freight transportation; and”;

(C) in subparagraph (B) by inserting “consider investments described in subparagraph (A) and” after “times,”; and

(3) by adding at the end the following:

“(4) In a proceeding initiated by the Board under paragraph (1)(B), the Board shall solicit the views of the parties and require the parties to provide any necessary data or information. Not later than 180 days after the date on which the Board makes a determination under paragraph (1)(B), the Board shall issue an order requiring the rail carrier to allow for the operation of the requested trains conditioned upon additional infrastructure or other investments needed to mitigate the unreasonable interference. In determining the necessary level of additional infrastructure or other investments, the Board shall use any criteria, assumptions, and processes it considers appropriate.

“(5) The provisions of this subsection shall be in addition to any other statutory or contractual remedies Amtrak may have to obtain the right to operate the additional trains.”.

#### SEC. 9206. PROHIBITION ON MANDATORY ARBITRATION.

(a) IN GENERAL.—Section 28103 of title 49, United States Code, is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following:

“(e) PROHIBITION ON CHOICE-OF-FORUM CLAUSE.—

“(1) IN GENERAL.—Amtrak may not impose a choice-of-forum clause that attempts to preclude a passenger, or a person who purchases a ticket for rail transportation on behalf of a passenger, from bringing a claim against Amtrak in any court of competent jurisdiction, including a court within the jurisdiction of the residence of such passenger in the United States (provided that Amtrak does business within that jurisdiction).

“(2) COURT OF COMPETENT JURISDICTION.—Under this subsection, a court of competent jurisdiction may not include an arbitration forum.”.

(b) EFFECTIVE DATE.—This section, and the amendments made by this section, shall apply to any claim that arises on or after the date of enactment of this Act.

#### SEC. 9207. AMTRAK ADA ASSESSMENT.

(a) ASSESSMENT.—Amtrak shall conduct an assessment and review of all Amtrak policies, procedures, protocols, and guidelines for compliance with the requirements of the Americans With Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, Amtrak shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the assessment conducted under subsection (a).

(c) CONTENTS.—The report required under subsection (b) shall include—

(1) a summary of the policies, procedures, protocols, and guidelines reviewed;

(2) any necessary changes to such policies, procedures, protocols, and guidelines to ensure compliance with the Americans With Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), including full compliance under such Act for stations and facilities for which Amtrak has responsibility under such Act and consideration of the needs of individuals with disabilities when procuring rolling stock; and

(3) an implementation plan and timeline for making any such necessary changes.

(d) ENGAGEMENT.—Amtrak is encouraged to engage with a range of advocates for individuals with disabilities during the assessment conducted under subsection (a), and develop an ongoing and standardized process for engagement with advocates for individuals with disabilities.

(e) PERIODIC EVALUATION.—At least once every 2 years, Amtrak shall review and update, as necessary, Amtrak policies, procedures, protocols, and guidelines to ensure compliance with the Americans With Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

#### SEC. 9208. PROHIBITION ON SMOKING ON AMTRAK TRAINS.

(a) IN GENERAL.—Chapter 243 of title 49, United States Code, is amended by adding at the end the following:

##### “§24323. Prohibition on smoking on Amtrak trains

“(a) PROHIBITION.—Beginning on the date of enactment of the TRAIN Act, Amtrak shall prohibit smoking on board Amtrak trains.

“(b) ELECTRONIC CIGARETTES.—

“(1) INCLUSION.—The use of an electronic cigarette shall be treated as smoking for purposes of this section.

“(2) ELECTRONIC CIGARETTE DEFINED.—In this section, the term ‘electronic cigarette’ means a device that delivers nicotine or other substances to a user of the device in the form of a vapor that is inhaled to simulate the experience of smoking.”.

(b) CONFORMING AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is amended by adding at the end the following:

“24323. Prohibition on smoking on Amtrak trains.”.

#### SEC. 9209. STATE-SUPPORTED ROUTES OPERATED BY AMTRAK.

(a) IN GENERAL.—Section 24712 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (4) by striking the first sentence and inserting “The Committee shall define and periodically update the rules and procedures governing the Committee’s proceedings.”; and

(B) in paragraph (6)—

(i) by striking subparagraph (B) and inserting the following:

“(B) PROCEDURES.—The rules and procedures implemented under paragraph (4) shall include—

“(i) procedures for changing the cost allocation methodology, notwithstanding section 209(b) of the Passenger Rail Investment and Improvement Act (49 U.S.C. 24101 note); and

“(ii) procedures or broad guidelines for conducting financial planning, including operating and capital forecasting, reporting, and data sharing and governance.”;

(ii) in subparagraph (C)—

(I) in clause (i) by striking “and” at the end;

(II) in clause (ii) by striking the period at the end and inserting “; and”;

(III) by adding at the end the following:

“(iii) promote increased efficiency in Amtrak’s operating and capital activities.”; and

(iii) by adding at the end the following:

“(D) ANNUAL REVIEW.—Not later than June 30 of each year, the Committee shall prepare an evaluation of the cost allocation methodology and procedures under subparagraph (B) and transmit such evaluation to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.”;

(2) in subsection (b)—

(A) by inserting “and to the Committee” before “, as well as the planning”; and

(B) by inserting before the period at the end the following: “and the Committee. Not later than 180 days after the date of enactment of the TRAIN Act, the Committee shall develop a report that contains the general ledger data and operating statistics from Amtrak’s accounting

systems used to calculate payments to States. Amtrak shall provide to the States and the Committee the report for the prior month not later than 30 days after the last day of each month";

(3) in subsection (e) by inserting "including incentives to increase revenue, reduce costs, finalize contracts by the beginning of the fiscal year, and require States to promptly make payments for services delivered" before the period;

(4) in subsection (f)—

(A) in paragraph (1)—

(i) by inserting "and annually review and update, as necessary," after "shall develop"; and

(ii) by inserting before "The Committee may consult" the following: "The statement shall include a list of capital projects, including infrastructure, fleet, station, and facility initiatives, needed to support the growth of State-supported routes.";

(B) in paragraph (2) by striking "Not later than 2 years" and all that follows through "transmit the statement" and inserting "The Committee shall transmit, not later than March 31 of each year, the most recent annual update to the statement"; and

(C) by adding at the end the following:

"(3) SENSE OF CONGRESS.—It is the sense of Congress that the Committee shall be the forum where Amtrak and States collaborate on the planning, improvement, and development of corridor routes across the National Network. The Committee shall identify obstacles to intercity passenger rail growth and identify solutions to overcome such obstacles.";

(5) by redesignating subsections (g) and (h) as subsections (j) and (k), respectively; and

(6) by inserting after subsection (f) the following:

"(g) NEW STATE-SUPPORTED ROUTES.—

"(1) CONSULTATION.—In developing a new State-supported route, Amtrak shall consult with the following:

"(A) The State or States and local municipalities where such new service would operate.

"(B) Commuter authorities and regional transportation authorities (as such terms are defined in section 24102) in the areas that would be served by the planned route.

"(C) Host railroads.

"(D) Administrator of the Federal Railroad Administration.

"(E) Other stakeholders, as appropriate.

"(2) STATE COMMITMENTS.—Notwithstanding any other provision of law, before beginning construction necessary for, or beginning operation of, a State-supported route that is initiated on or after the date of enactment of the TRAIN Act, Amtrak shall enter into a memorandum of understanding, or otherwise secure an agreement, with the State in which such route will operate for sharing—

"(A) ongoing operating costs and capital costs in accordance with the cost allocation methodology described under subsection (a); or

"(B) ongoing operating costs and capital costs in accordance with the alternative cost allocation schedule described in paragraph (3).

"(3) ALTERNATIVE COST ALLOCATION.—Under the alternative cost allocation schedule described in this paragraph, with respect to costs not covered by revenues for the operation of the new State-supported route, Amtrak shall pay—

"(A) the share Amtrak otherwise would have paid under the cost allocation methodology under subsection (a); and

"(B) a percentage of the share that the State otherwise would have paid under the cost allocation methodology under subsection (a) according to the following:

"(i) Amtrak shall pay up to 100 percent of the capital costs necessary to initiate a new State-supported route, including planning and development, design, and environmental analysis, prior to beginning operations on the new route.

"(ii) For the first 2 years of operation, Amtrak shall pay for 100 percent of operating costs and capital costs.

"(iii) For the third year of operation, Amtrak shall pay 90 percent of operating costs and capital costs and the State shall pay the remainder.

"(iv) For the fourth year of operation, Amtrak shall pay 80 percent of operating costs and capital costs and the State shall pay the remainder.

"(v) For the fifth year of operation, Amtrak shall pay 50 percent of operating costs and capital costs and the State shall pay the remainder.

"(vi) For the sixth year of operation and thereafter, operating costs and capital costs shall be allocated in accordance with the cost allocation methodology described under subsection (a), as applicable.

"(4) APPLICATION OF TERMS.—In this subsection, the terms 'capital cost' and 'operating cost' shall apply in the same manner as such terms apply under the cost allocation methodology developed under subsection (a).

"(h) COST ALLOCATION METHODOLOGY AND IMPLEMENTATION REPORT.—

"(1) IN GENERAL.—Not later than 18 months after the date of enactment of the TRAIN Act, the Committee shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report assessing potential improvements to the cost allocation methodology required and approved under section 209 of the Passenger Rail Investment and Improvement Act of 2008 (49 U.S.C. 24101 note).

"(2) REPORT CONTENTS.—The report required under paragraph (1) shall—

"(A) identify improvements to the cost allocation methodology that would promote—

"(i) transparency of route and train costs and revenues;

"(ii) facilitation of service and network growth;

"(iii) improved services for the traveling public;

"(iv) maintenance or achievement of labor collective bargaining agreements;

"(v) increased revenues; and

"(vi) reduced costs;

"(B) describe the various contracting approaches used in State-supported services between States and Amtrak, including the method, amount, and timeliness of payments for each State-supported service;

"(C) evaluate the potential benefits and feasibility, including identifying any necessary statutory changes, of implementing a service pricing model for State-supported routes in lieu of a cost allocation methodology and how such a service pricing model would advance the priorities described in subparagraph (A); and

"(D) summarize share of costs from the cost allocation methodology that are—

"(i) assigned;

"(ii) allocated regionally or locally; and

"(iii) allocated nationally.

"(3) UPDATE TO THE METHODOLOGY.—Not later than 2 years after the implementation of the TRAIN Act, the Committee shall update the methodology, if necessary, based on the findings of the report required under paragraph (1).

"(i) IDENTIFICATION OF STATE-SUPPORTED ROUTE CHANGES.—Amtrak shall provide an update in the general and legislative annual report under section 24315(b) of planned or proposed changes to State-supported routes, including the introduction of new State-supported routes. In identifying routes to be included in such request, Amtrak shall—

"(1) identify the timeframe in which such changes could take effect and whether Amtrak has entered into a commitment with a State under subsection (g)(2); and

"(2) consult with the Committee and any additional States in which proposed routes may operate, not less than 120 days before the annual grant request is transmitted to the Secretary."

(b) CONFORMING AMENDMENT.—Section 24315(b)(1) of title 49, United States Code, is amended—

(1) by redesignating subparagraph (B) as subparagraph (C);

(2) in subparagraph (A) by striking "section 24902(b) of this title; and" and inserting "section 24902(a) of this title;"; and

(3) by inserting after subparagraph (A) the following:

"(B) shall identify the planned or proposed State-supported routes, as required under section 24712(i); and".

#### SEC. 9210. AMTRAK POLICE DEPARTMENT.

(a) DEPARTMENT MISSION.—Not later than 180 days after the date of enactment of this Act, Amtrak shall identify the mission of the Amtrak Police Department (in this section referred to as the "Department"), including the scope and priorities of the Department, in mitigating risks to and ensuring the safety and security of Amtrak passengers, employees, trains, stations, facilities, and other infrastructure. In identifying such mission, Amtrak shall consider—

(1) the unique needs of maintaining the safety and security of Amtrak's network; and

(2) comparable passenger rail systems and the mission of the police departments of such rail systems.

(b) WORKFORCE PLANNING PROCESS.—Not later than 120 days after identifying the mission of the Department under subsection (a), Amtrak shall develop a workforce planning process that—

(1) ensures adequate employment levels and allocation of sworn and civilian personnel, including patrol officers, necessary for fulfilling the Department's mission; and

(2) sets performance goals and metrics for the Department and monitors and evaluates the Department's progress toward such goals and metrics.

(c) CONSIDERATIONS.—In developing the workforce planning process under subsection (b), Amtrak shall—

(1) identify critical positions, skills, and competencies necessary for fulfilling the Department's mission;

(2) analyze employment levels and ensure that—

(A) an adequate number of civilian and sworn personnel are allocated across the Department's 6 geographic divisions, including patrol officers, detectives, canine units, special operations unit, strategic operations, intelligence, corporate security, the Office of Professional Responsibilities, and the Office of Chief of Polices; and

(B) patrol officers have an adequate presence on trains and route segments, and in stations, facilities, and other infrastructure;

(3) analyze workforce gaps and develop strategies to address any such gaps;

(4) consider the risks identified by Amtrak's triannual risk assessments;

(5) consider variables, including ridership levels, miles of right-of-way, crime data, call frequencies, interactions with vulnerable populations, and workload, that comparable passenger rail systems with similar police departments consider in the development of the workforce plans of such systems; and

(6) consider collaboration or coordination with local, State, Tribal, and Federal agencies, and public transportation agencies to support the safety and security of the Amtrak network.

(d) CONSULTATION.—In carrying out this section, Amtrak shall consult with the Amtrak Police Department Labor Committee, public safety experts, foreign or domestic entities providing passenger rail service comparable to Amtrak, and any other relevant entities, as determined by Amtrak.

(e) REPORTS.—

(1) REPORT ON MISSION OF DEPARTMENT.—Not later than 10 days after Amtrak identifies the mission of the Department under subsection (a), Amtrak shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing a description of the mission of the Department and the reasons for the content of such mission.

(2) Report on workforce planning process—Not later than 10 days after Amtrak completes the

workforce planning process under subsection (b), Amtrak shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report containing the workforce planning process, the underlying data used to develop such process, and how such process will achieve the Department's mission.

**SEC. 9211. AMTRAK FOOD AND BEVERAGE.**

(a) **AMTRAK FOOD AND BEVERAGE.**—Section 24321 of title 49, United States Code, is amended to read as follows:

**“§24321. Amtrak food and beverage**

**“(a) ENSURING ACCESS TO FOOD AND BEVERAGE SERVICES.**—On all long-distance routes, Amtrak shall ensure that all passengers who travel overnight on such route shall have access to purchasing the food and beverages that are provided to sleeping car passengers on such route.

**“(b) FOOD AND BEVERAGE WORKFORCE.**—

**“(1) WORKFORCE REQUIREMENT.**—Amtrak shall ensure that any individual onboard a train who prepares food and beverages is an Amtrak employee.

**“(2) SAVINGS CLAUSE.**—No Amtrak employee holding a position as of the date of enactment of the TRAIN Act may be involuntarily separated because of any action taken by Amtrak to implement this section, including any employees who are furloughed as a result of the COVID-19 pandemic.

**“(c) SAVINGS CLAUSE.**—Amtrak shall ensure that no Amtrak employee holding a position as of the date of enactment of the Passenger Rail Reform and Investment Act of 2015 is involuntarily separated because of the development and implementation of the plan required by the amendments made by section 11207 of such Act.”.

(b) **TECHNICAL AND CONFORMING AMENDMENTS.**—

(1) **ANALYSIS.**—The item relating to section 24321 in the analysis for chapter 243 of title 49, United States Code, is amended to read as follows:

“24321. Amtrak food and beverage.”.

(2) **AMTRAK AUTHORITY.**—Section 24305(c)(4) of title 49, United States Code, is amended by striking “only if revenues from the services each year at least equal the cost of providing the services”.

(3) **CONTRACTING OUT.**—Section 121(c) of the Amtrak Reform and Accountability Act of 1997 (49 U.S.C. 24312 note; 111 Stat. 2574) is amended by striking “, other than work related to food and beverage service,”.

(c) **AMTRAK FOOD AND BEVERAGE WORKING GROUP.**—

(1) **ESTABLISHMENT.**—Not later than 90 days after the date of enactment of this Act, Amtrak shall establish a working group (in this subsection referred to as the “Working Group”) to provide recommendations on Amtrak onboard food and beverage services.

(2) **MEMBERSHIP.**—The Working Group shall consist of individuals representing—

(A) Amtrak;

(B) the labor organizations representing Amtrak employees who prepare or provide onboard food and beverage services; and

(C) nonprofit organizations representing Amtrak passengers.

(3) **RECOMMENDATIONS.**—

(A) **IN GENERAL.**—The Working Group shall develop recommendations to increase ridership and improve customer satisfaction by—

(i) promoting collaboration and engagement between Amtrak, Amtrak passengers, and Amtrak employees preparing or providing onboard food and beverage services, prior to Amtrak implementing changes to onboard food and beverage services;

(ii) improving onboard food and beverage services; and

(iii) improving solicitation, reception, and consideration of passenger feedback regarding onboard food and beverage services.

(B) **CONSIDERATIONS.**—In developing the recommendations under subparagraph (A), the Working Group shall consider—

(i) the healthfulness of onboard food and beverages offered, including the ability of passengers to address dietary restrictions;

(ii) the preparation and delivery of onboard food and beverages;

(iii) the differing needs of passengers traveling on long-distance routes, State-supported routes, and the Northeast Corridor;

(iv) the reinstatement of the dining car service on long-distance routes;

(v) Amtrak passenger survey data about the food and beverages offered on Amtrak trains; and

(vi) any other issue the Working Group determines appropriate.

(4) **REPORTS.**—

(A) **INITIAL REPORT.**—Not later than 1 year after the date on which the Working Group is established, the Working Group shall submit to the Board of Directors of Amtrak, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate a report containing the recommendations developed under paragraph (3).

(B) **SUBSEQUENT REPORT.**—Not later than 30 days after the date on which the Working Group submits the report required under subparagraph (A), Amtrak shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on whether Amtrak agrees with the recommendations of the Working Group and describing any plans to implement such recommendations.

(5) **PROHIBITION ON FOOD AND BEVERAGE SERVICE CHANGES.**—During the period beginning on the date of enactment of this Act and ending 30 days after the date on which Amtrak submits the report required under paragraph (4)(B), Amtrak may not make large-scale, structural changes to existing onboard food and beverage services, except that Amtrak shall reverse any changes to onboard food and beverage service made in response to the COVID-19 pandemic as Amtrak service is restored.

(6) **TERMINATION.**—The Working Group shall terminate on the date on which Amtrak submits the report required under paragraph (4)(B), except that Amtrak may extend such date by up to 1 year if Amtrak determines that the Working Group is beneficial to Amtrak in making decisions related to onboard food and beverage services. If Amtrak extends such date, Amtrak shall include notification of the extension in the report required under paragraph (4)(B).

(7) **NONAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.**—The Federal Advisory Committee Act (5 U.S.C. App) does not apply to the Working Group established under this section.

(8) **LONG-DISTANCE ROUTE; NORTHEAST CORRIDOR; AND STATE-SUPPORTED ROUTE DEFINED.**—In this subsection, the terms “long-distance route”, “Northeast Corridor”, and “State-supported route” have the meaning given those terms in section 24102 of title 49, United States Code.

**SEC. 9212. CLARIFICATION ON AMTRAK CONTRACTING OUT.**

Section 121 of the Amtrak Reform and Accountability Act of 1997 (49 U.S.C. 24312 note; 111 Stat. 2574) is amended by striking subsection (d) and inserting the following:

**“(d) FURLOUGHED WORK.**—Amtrak may not contract out work within the scope of work performed by an employee in a bargaining unit covered by a collective bargaining agreement entered into between Amtrak and an organization representing Amtrak employees during the period of time such employee has been laid off and has not been recalled to perform such work.

**“(e) AGREEMENT PROHIBITIONS ON CONTRACTING OUT.**—This section does not—

**“(1) supersede a prohibition or limitation on contracting out work covered by a collective**

bargaining agreement entered into between Amtrak and an organization representing Amtrak employees; or

**“(2) prohibit Amtrak and an organization representing Amtrak employees from entering into a collective bargaining agreement that allows for contracting out the work of a furloughed employee that would otherwise be prohibited under subsection (d).”.**

**SEC. 9213. AMTRAK STAFFING.**

Section 24312 of title 49, United States Code, is amended by adding at the end the following:

**“(c) CALL CENTER STAFFING.**—

**“(1) OUTSOURCING.**—Amtrak may not renew or enter into a contract to outsource call center customer service work on behalf of Amtrak, including through a business process outsourcing group.

**“(2) TRAINING.**—Amtrak shall make available appropriate training programs to any Amtrak call center employee carrying out customer service activities using telephone or internet platforms.

**“(d) STATION AGENT STAFFING.**—

**“(1) IN GENERAL.**—Beginning on the date that is 1 year after the date of enactment of the TRAIN Act, Amtrak shall ensure that at least 1 Amtrak ticket agent is employed at each station building where at least 1 Amtrak ticket agent was employed on or after October 1, 2017.

**“(2) LOCATIONS.**—Notwithstanding section (1), beginning on the date that is 1 year after the date of enactment of the TRAIN Act, Amtrak shall ensure that at least 1 Amtrak ticket agent is employed at each station building—

**“(A) that Amtrak owns, or operates service through, as part of a passenger service route; and**

**“(B) for which the number of passengers boarding or deboarding an Amtrak long-distance train in the previous fiscal year exceeds the average of at least 40 passengers per day over all days in which the station was serviced by Amtrak, regardless of the number of Amtrak vehicles servicing the station per day. For fiscal year 2021, ridership from fiscal year 2019 shall be used to determine qualifying stations.**

**“(3) EXCEPTION.**—This subsection does not apply to any station building in which a commuter rail ticket agent has the authority to sell Amtrak tickets.

**“(4) AMTRAK TICKET AGENT.**—For purposes of this section, the term ‘Amtrak ticket agent’ means an Amtrak employee with authority to sell Amtrak tickets onsite and assist in the checking of Amtrak passenger baggage.”.

**SEC. 9214. SPECIAL TRANSPORTATION.**

Section 24307(a) of title 49, United States Code, is amended—

(1) in the matter preceding paragraph (1) by striking “for the following:” and inserting “of at least a 10 percent discount on full-price coach class rail fares for, at a minimum—”;

(2) in paragraph (1) by striking the period at the end and inserting a semicolon; and

(3) by striking paragraph (2) and inserting the following:

**“(2) individuals of 12 years of age or younger;**

**“(3) individuals with a disability, as such term is defined in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102);**

**“(4) members of the Armed Forces on active duty (as those terms are defined in section 101 of title 10) and their spouses and dependents with valid identification;**

**“(5) veterans (as that term is defined in section 101 of title 38) with valid identification; and**

**“(6) individuals attending federally-accredited postsecondary education institutions with valid student identification cards.”.**

**SEC. 9215. DISASTER AND EMERGENCY RELIEF PROGRAM.**

(a) **IN GENERAL.**—Chapter 243 of title 49, United States Code, is further amended by adding at the end the following:

**“§24324. Disaster and emergency relief program**

**“(a) IN GENERAL.**—The Secretary of Transportation may make grants to Amtrak for—

“(1) capital projects to repair, reconstruct, or replace equipment, infrastructure, stations, and other facilities that the Secretary determines are in danger of suffering serious damage, or have suffered serious damage, as a result of an emergency event;

“(2) offset revenue lost as a result of such an event; and

“(3) support continued operations following emergency events.

“(b) COORDINATION OF EMERGENCY FUNDS.—Funds made available to carry out this section shall be in addition to any other funds available and shall not affect the ability of Amtrak to use any other funds otherwise authorized by law.

“(c) GRANT CONDITIONS.—Grants made under this subsection (a) shall be subject to section 22905(c)(2)(A) and other such terms and conditions as the Secretary determines necessary.

“(d) DEFINITION OF EMERGENCY EVENT.—In this section, the term ‘emergency event’ has the meaning given such term in section 20103.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is further amended by adding at the end the following:

“24324. Disaster and emergency relief program.”.

#### SEC. 9216. RECREATIONAL TRAIL ACCESS.

Section 24315 of title 49, United States Code, is amended by adding at the end the following:

“(i) RECREATIONAL TRAIL ACCESS.—At least 30 days before implementing a new policy, structure, or operation that impedes recreational trail access, Amtrak shall work with potentially affected communities, making a good-faith effort to address local concerns about such recreational trail access. Not later than February 15 of each year, Amtrak shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on any such engagement in the preceding calendar year, and any changes to policies, structures, or operations affecting recreational trail access that were considered or made as a result. Such report shall include Amtrak’s plans to mitigate the impact to such recreational trail access.”.

#### SEC. 9217. INVESTIGATION OF SUBSTANDARD PERFORMANCE.

Section 24308(f) of title 49, United States Code, is amended—

(1) in paragraph (1)—

(A) by striking “If the on-time” and inserting “If either the on-time”;

(B) by inserting “, measured at each station on its route based upon the arrival times plus 15 minutes shown in schedules Amtrak and the host railroad have agreed to or have been determined by the Surface Transportation Board pursuant to section 213 of the Passenger Rail Investment and Improvement Act of 2008 as of or subsequent to the date of enactment of the TRAIN Act,” after “intercity passenger train” the first place it appears; and

(C) by striking “or the service quality of” and inserting “or the on-time performance of”;

(2) in paragraph (2) by striking “minimum standards investigated under paragraph (1)” and inserting “either performance standard under paragraph (1)”;

(3) in paragraph (4) by striking “or failures to achieve minimum standards” and inserting “or failure to achieve either performance standard under paragraph (1)”.

#### SEC. 9218. AMTRAK CYBERSECURITY ENHANCEMENT GRANT PROGRAM.

(a) IN GENERAL.—Chapter 243 of title 49, United States Code, is further amended by adding at the end the following:

##### “§24325. Amtrak cybersecurity enhancement grant program

“(a) IN GENERAL.—The Secretary of Transportation shall make grants to Amtrak for improvements in information technology systems, in-

cluding cyber resiliency improvements for Amtrak information technology assets.

“(b) APPLICATION OF BEST PRACTICES.—Any cyber resiliency improvements carried out with a grant under this section shall be consistent with the principles contained in the special publication numbered 800-160 issued by the National Institute of Standards and Technology Special and any other applicable security controls published by the Institute.

“(c) COORDINATION OF CYBERSECURITY FUNDS.—Funds made available to carry out this section shall be in addition to any other Federal funds and shall not affect the ability of Amtrak to use any other funds otherwise authorized by law for purposes of enhancing the cybersecurity architecture of Amtrak.

“(d) GRANT CONDITIONS.—Grants made under this section shall be subject to such terms and conditions as the Secretary determines necessary.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is further amended by adding at the end the following:

“24325. Amtrak cybersecurity enhancement grant program.

#### SEC. 9219. AMTRAK AND PRIVATE CARS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that private cars and charter trains can—

(1) improve Amtrak’s financial performance, particularly on the long-distance routes;

(2) have promotional value for Amtrak that results in future travel on Amtrak trains by passengers made aware of Amtrak as a result;

(3) support private-sector jobs, including for mechanical work and on-board services; and

(4) provide good-will benefits to Amtrak.

(b) POLICY REVIEW.—Amtrak shall review the policy changes since January 1, 2018, that have caused significant changes to the relationship between Amtrak and private car owners and charter train services and evaluate opportunities to strengthen these services, including by reinstating some access points and restoring flexibility to charter-train policies. For charter trains, private cars, and package express carried on regular Amtrak trains, consistent with sound business practice, Amtrak should recover direct costs plus a reasonable profit margin.

#### SEC. 9220. AMTRAK OFFICE OF COMMUNITY OUTREACH.

(a) IN GENERAL.—Chapter 243 of title 49, United States Code, is further amended by adding at the end the following new section:

##### “§24326. Amtrak Office of Community Outreach

“(a) IN GENERAL.—Not later than 180 days after the date of enactment of the TRAIN Act, Amtrak shall establish an Office of Community Outreach to engage with communities impacted by Amtrak operations.

“(b) RESPONSIBILITIES.—The Office of Community Outreach shall be responsible for—

“(1) outreach and engagement with—

“(A) local officials before capital improvement project plans are finalized; and

“(B) local stakeholders and relevant organizations on projects of community significance;

“(2) clear explanation and publication of how community members can communicate with Amtrak;

“(3) the use of virtual public involvement, social media, and other web-based tools to encourage public participation and solicit public feedback; and

“(4) making publicly available on the website of Amtrak, planning documents for proposed and implemented capital improvement projects.

“(c) REPORT TO CONGRESS.—Not later than 1 year after the establishment of the Office of Community Outreach, and annually thereafter, Amtrak shall submit to the Committee on Transportation and Infrastructure in the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that—

“(1) describes the community outreach efforts undertaken by the Amtrak Office of Community Outreach for the previous year; and

“(2) identifies changes Amtrak made to capital improvement project plans after engagement with affected communities.”.

(b) CLERICAL AMENDMENT.—The analysis for chapter 243 of title 49, United States Code, is further amended by adding at the end the following:

“24326. Amtrak Office of Community Outreach.”.

### TITLE III—INTERCITY PASSENGER RAIL POLICY

#### SEC. 9301. NORTHEAST CORRIDOR COMMISSION.

Section 24905 of title 49, United States Code, is amended—

(1) in subsection (a)(1)—

(A) in subparagraph (A) by striking “members” and inserting “4 members”;

(B) in subparagraph (B) by striking “members” and inserting “5 members”;

(C) in subparagraph (D) by striking “and commuter railroad carriers using the Northeast Corridor selected by the Secretary” and inserting “railroad carriers and commuter authorities using the Northeast Corridor, as determined by the Commission”;

(2) by striking paragraph (2) of subsection (a) and inserting the following:

“(2) At least 2 of the members described in paragraph (1)(B) shall be career appointees, as such term is defined in section 3132(a) of title 5.”;

(3) in subsection (b)(3)(B)—

(A) in clause (i) by inserting “, including ridership trends,” before “along the Northeast Corridor”;

(B) in clause (ii) by striking “capital investment plan described in section 24904.” and inserting “first year of the capital investment plan described in section 24904; and”;

(C) by adding at the end the following:

“(iii) progress in assessing and eliminating the state-of-good-repair backlog.”;

(4) in subsection (c)—

(A) by striking “(1) DEVELOPMENT” and all that follows through “standardized policy” and inserting the following:

“(1) POLICY.—The Commission shall—

“(A) maintain and update, as appropriate, the ‘Northeast Corridor Commuter and Intercity Rail Cost Allocation Policy’ approved on September 17, 2015.”;

(B) in paragraph (1)—

(i) in subparagraph (B) by striking “a proposed timetable for implementing” and inserting “timetables for implementing and maintaining”;

(ii) in subparagraph (C) by striking “the policy and the timetable” and inserting “updates to the policy and the timetables”;

(iii) by striking subparagraph (D) and inserting the following:

“(D) support the efforts of the members of the Commission to implement the policy in accordance with such timetables; and”;

(C) in paragraph (2)—

(i) by striking the first sentence and inserting “In accordance with the timetable developed in paragraph (1), Amtrak and commuter authorities on the Northeast Corridor shall implement the policy developed under paragraph (1) in agreements for usage of facilities or services.”;

(ii) by striking “fail to implement such new agreements” and inserting “fail to implement the policy”;

(iii) by striking “paragraph (1)(A), as applicable” and inserting “paragraph (1)”;

(D) in paragraph (4) by striking “public authorities providing commuter rail passenger transportation” and inserting “commuter authorities”;

(5) by striking subsection (d);

(6) by redesignating subsection (e) as subsection (d); and

(7) in paragraph (1)(D) of subsection (d) (as redesignated by paragraph (6)) by striking

“commuter rail agencies” and inserting “commuter authorities”.

**SEC. 9302. NORTHEAST CORRIDOR PLANNING.**

(a) IN GENERAL.—Section 24904 of title 49, United States Code, is amended—

(1) by redesignating subsection (e) as subsection (f);

(2) by striking subsection (c);

(3) by redesignating subsections (a) and (b) as subsections (b) and (c), respectively;

(4) by inserting before subsection (b), as so redesignated, the following:

“(a) STRATEGIC DEVELOPMENT PLAN.—

“(1) REQUIREMENT.—Not later than December 31, 2021, the Northeast Corridor Commission established under section 24905 (referred to in this section as the ‘Commission’) shall submit to Congress a strategic development plan that identifies key state-of-good-repair, capacity expansion, and capital improvement projects planned for the Northeast Corridor, to upgrade aging infrastructure and improve the reliability, capacity, connectivity, performance, and resiliency of passenger rail service on the Northeast Corridor.

“(2) CONTENTS.—The strategic development plan required under paragraph (1) shall—

“(A) provide a coordinated and consensus-based plan covering a period of 15 years;

“(B) identify service objectives and capital investments needs;

“(C) provide a delivery-constrained strategy that identifies capital investment phasing, an evaluation of workforce needs, and strategies for managing resources and mitigating construction impacts on operations;

“(D) include a financial strategy that identifies funding needs and potential sources and includes an economic impact analysis; and

“(E) be updated at least every 5 years.”;

(5) in subsection (b) (as redesignated by paragraph (3))—

(A) by striking “Not later than” and all that follows through “shall” and inserting “Not later than November 1 of each year, the Commission shall”;

(B) in paragraph (1)(A) by striking “a capital investment plan” and inserting “an annual capital investment plan”;

(C) in paragraph (2)—

(i) in subparagraph (A) by striking “and network optimization”;

(ii) in subparagraph (B) by striking “and service”;

(iii) in subparagraph (C) by striking “first fiscal year after the date on which” and inserting “fiscal year during which”;

(iv) in subparagraph (D) by striking “identify, prioritize,” and all that follows through “and consider” and inserting “document the projects and programs being undertaken to achieve the service outcomes identified in the Northeast Corridor strategic development plan, once available, and the asset condition needs identified in the Northeast Corridor asset management plans and consider”; and

(v) in subparagraph (E)(i) by striking “normalized capital replacement and”; and

(D) in paragraph (3)(B) by striking “expected allocated shares of costs” and inserting “status of cost sharing agreements”;

(6) in subsection (c) (as redesignated by paragraph (3)) by striking “may be spent only on” and all that follows through the end and inserting “may be spent only on capital projects and programs contained in the Commission’s capital investment plan from the previous year.”; and

(7) by striking subsection (d) and inserting the following:

“(d) REVIEW AND COORDINATION.—The Commission shall gather information from Amtrak, the States in which the Northeast Corridor is located, and commuter rail authorities to support development of the capital investment plan. The Commission may specify a format and other criteria for the information submitted. Submissions to the plan from Amtrak, States in which the

Northeast Corridor are located, and commuter rail authorities shall be provided to the Commission in a manner that allows for a reasonable period of review by, and coordination with, affected agencies.

“(e) NORTHEAST CORRIDOR ASSET MANAGEMENT.—With regard to existing infrastructure, Amtrak and other infrastructure owners that provide or support intercity rail passenger transportation on the Northeast Corridor shall develop an asset management system, and use and update such system as necessary, to develop submissions to the Northeast Corridor capital investment plan described in subsection (b). Such system shall—

“(1) be consistent with the Federal Transit Administration process, as authorized under section 5326, when implemented; and

“(2) include, at a minimum—

“(A) an inventory of all capital assets owned by the developer of the plan;

“(B) an assessment of asset condition;

“(C) a description of the resources and processes necessary to bring or maintain those assets in a state of good repair; and

“(D) a description of changes in asset condition since the previous version of the plan.”.

(b) CONFORMING AMENDMENTS.—

(1) ACCOUNTS.—Section 24317(d)(1) of title 49, United States Code, is amended—

(A) in subparagraph (B) by striking “24904(a)(2)(E)” and inserting “24904(b)(2)(E)”; and

(B) in subparagraph (F) by striking “24904(b)” and inserting “24904(c)”.

(2) FEDERAL-STATE PARTNERSHIP FOR STATE OF GOOD REPAIR.—Section 24911(e)(2) of title 49, United States Code, is amended by striking “24904(a)” and inserting “24904(b)”.

**SEC. 9303. PROTECTIVE ARRANGEMENTS.**

Section 22905 of title 49, United States Code, is amended—

(1) in subsection (c)(2)(B) by striking “that are equivalent to the protective arrangements established under section 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 836)” and inserting “established by the Secretary under subsection (e)(1)”;

(2) by redesignating subsections (e) and (f) as subsections (f) and (g), respectively; and

(3) by inserting after subsection (d) the following:

“(e) EQUIVALENT EMPLOYEE PROTECTIONS.—

“(1) ESTABLISHMENT.—Not later than 90 days after the date of enactment of this subsection, the Administrator of the Federal Railroad Administration shall establish protective arrangements equivalent to those established under section 504 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 836), and require such protective arrangements to apply to employees described under subsection (c)(2)(B) and as required under subsection (j) of section 22907.

“(2) PUBLICATION.—The Administrator shall make available on a publicly available website the protective arrangements established under paragraph (1).”.

**SEC. 9304. HIGH-SPEED RAIL FUNDS.**

(a) IN GENERAL.—Notwithstanding any other provision of law and not later than 90 days after the date of enactment of this Act, the Secretary of Transportation shall reinstate any cooperative agreement terminated after January 1, 2019 that was originally entered into under the heading “Capital Assistance for High Speed Rail Corridors and Intercity Passenger Rail Service” in the Department of Transportation Appropriations Act, 2010 (Public Law 111–117).

(b) INCLUSION.—The reinstatement under subsection (a) shall include the obligation to such agreement of all of the funds obligated to such agreement as of the date of termination of such agreement.

(c) GRANT CONDITIONS.—The reinstatement under subsection (a) shall include all grant conditions required under such agreement, includ-

ing section 22905(c)(2)(A) of title 49, United States Code, as of the date of termination of such agreement.

**TITLE IV—COMMUTER RAIL POLICY**

**SEC. 9401. SURFACE TRANSPORTATION BOARD MEDIATION OF TRUCKAGE USE REQUESTS.**

Section 28502 of title 49, United States Code, is amended to read as follows:

**“§28502. Surface Transportation Board mediation of trackage use requests**

“A rail carrier shall provide good faith consideration to a reasonable request from a provider of commuter rail passenger transportation for access to trackage and provision of related services. If, after a reasonable period of negotiation, a public transportation authority cannot reach agreement with a rail carrier to use trackage of, and have related services provided by, the rail carrier for purposes of commuter rail passenger transportation, the public transportation authority or the rail carrier may apply to the Board for nonbinding mediation. In any case in which dispatching for the relevant trackage is controlled by a rail carrier other than the trackage owner, both shall be subject to the requirements of this section and included in the Board’s mediation process. The Board shall conduct the nonbinding mediation in accordance with the mediation process of section 1109.4 of title 49, Code of Federal Regulations, as in effect on the date of enactment of the TRAIN Act.”.

**SEC. 9402. SURFACE TRANSPORTATION BOARD MEDIATION OF RIGHTS-OF-WAY USE REQUESTS.**

Section 28503 of title 49, United States Code, is amended to read as follows:

**“§28503. Surface Transportation Board mediation of rights-of-way use requests**

“A rail carrier shall provide good faith consideration to a reasonable request from a provider of commuter rail passenger transportation for access to rail right-of-way for the construction and operation of a segregated fixed guideway facility. If, after a reasonable period of negotiation, a public transportation authority cannot reach agreement with a rail carrier to acquire an interest in a railroad right-of-way for the construction and operation of a segregated fixed guideway facility to provide commuter rail passenger transportation, the public transportation authority or the rail carrier may apply to the Board for nonbinding mediation. In any case in which dispatching for the relevant trackage is controlled by a rail carrier other than the right-of-way owner, both shall be subject to the requirements of this section and included in the Board’s mediation process. The Board shall conduct the nonbinding mediation in accordance with the mediation process of section 1109.4 of title 49, Code of Federal Regulations, as in effect on the date of enactment of the TRAIN Act.”.

**SEC. 9403. CHICAGO UNION STATION IMPROVEMENT PLANS.**

(a) ONE-YEAR CAPITAL IMPROVEMENT PLAN.—

(1) IN GENERAL.—Not later than 90 days after the conclusion of the Surface Transportation Board proceeding in the petition by Amtrak for a proceeding pursuant to section 24903(c)(2) of title 49, United States Code (Docket No. FD 36332), Amtrak and Metra shall enter into an agreement for a one-year capital improvement plan for Chicago Union Station.

(2) EXTENSION.—The deadline under paragraph (1) may be extended with the consent of both Amtrak and Metra.

(3) SUBMISSION OF PLAN.—Amtrak and Metra shall transmit the one-year capital improvement plan to the Committee on Transportation and Infrastructure of the House of Representatives and Committee on Commerce, Science, and Transportation of the Senate.

(b) FIVE-YEAR CAPITAL IMPROVEMENT PLAN.—

(1) IN GENERAL.—Not later than 180 days after the date on which Amtrak and Metra enter into

the agreement under subsection (a), Amtrak shall enter into an agreement with Metra for a five-year capital improvement plan for Chicago Union Station.

(2) **EXTENSION.**—The deadline required under paragraph (1) may be extended with the consent of both Amtrak and Metra.

(3) **SUBMISSION OF PLAN.**—Amtrak and Metra shall transmit the five-year capital improvement plan to the Committee on Transportation and Infrastructure of the House of Representatives and Committee on Commerce, Science, and Transportation of the Senate.

(c) **CONTENTS.**—The capital improvement plans required under subsections (a) and (b) shall identify the projects that Amtrak and Metra agree to implement at Chicago Union Station within the timeframe of each such plan, including projects that improve—

(1) areas considered outside the glass such as tracks, platform switches, and other rail infrastructure;

(2) facilities for Amtrak and Metra crew; and

(3) the operations of Chicago Union Station, such as the dispatching of commuter and intercity passenger trains out of Chicago Union Station.

(d) **ANNUAL PROGRESS REPORT.**—Not later than 1 year after the date on which Amtrak and Metra enter into an agreement required under subsection (b), and annually thereafter for 5 years, Amtrak and Metra shall jointly submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the progress Amtrak and Metra have made in implementing the plan required under subsection (b).

(e) **DEFINITIONS.**—In this section:

(1) **CHICAGO UNION STATION.**—The term “Chicago Union Station” means the passenger train station located at 225 South Canal Street, Chicago, Illinois 60606, and its associated facilities.

(2) **METRA.**—The term “Metra” means the Northeast Illinois Regional Commuter Railroad Corporation.

## TITLE V—RAIL SAFETY

### Subtitle A—Passenger and Freight Safety

#### SEC. 9501. NATIONAL ACADEMIES STUDY ON SAFETY IMPACT OF TRAINS LONGER THAN 7,500 FEET.

(a) **STUDY.**—The Secretary of Transportation shall seek to enter into an agreement with the National Academies to conduct a study and issue to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the safety impacts of freight trains longer than 7,500 feet.

(b) **CONTENTS.**—The study conducted pursuant to subsection (a) shall include—

(1) an examination of any potential risks of the operation of such trains and recommendations on mitigation of such risks;

(2) among other safety factors with respect to such trains, an evaluation of—

(A) any increased risk of loss of communications between the end of train device and the locomotive cab, including communications over differing terrains and conditions;

(B) any increased risk of loss of communications between crewmembers, including communications over differing terrains and conditions;

(C) any increased risk of derailments, including risks associated with in-train compressive forces and slack action or other safety risks in the operations of such trains in differing terrains and conditions;

(D) safety risks associated with the deployment of multiple distributed power units in the consists of such trains; and

(E) impacts of the length of trains on braking and locomotive performance and track wear and tear; and

(3) an evaluation of whether additional engineer and conductor training is required for safely operating such trains.

(c) **REPORT.**—Not later than 24 months after the date of enactment of this Act, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

(d) **FUNDING.**—From the amounts made available for fiscal year 2021 to carry out section 20117(a) of title 49, United States Code, the Secretary shall expend not less than \$1,000,000 and not more than \$2,000,000 to carry out the study required under subsection (a).

#### SEC. 9502. GAO STUDY ON CHANGES IN FREIGHT RAILROAD OPERATING AND SCHEDULING PRACTICES.

(a) **STUDY.**—The Comptroller General of the United States shall study the impact on freight rail shippers, Amtrak, commuter railroads, railroad employees, and other affected parties of changes in freight railroad operating and scheduling practices as a result of the implementation of the precision scheduled railroading model.

(b) **CONTENTS.**—At minimum, the study shall examine—

(1) the impacts of the operation of longer trains;

(2) safety impacts of reduction in workforce, including occupational injury rates, impacts to inspection frequencies and repair quality, and changes in workforce demands;

(3) the elimination or downsizing of yards, repair facilities, and other operational facilities;

(4) increases in demurrage or accessorial charges or other costs to shippers;

(5) capital expenditures for rail infrastructure; and

(6) the effect of changes to dispatching practices and locations of dispatching centers on—

(A) the on-time performance of passenger trains, and

(B) the quality and reliability of service to freight shippers.

(c) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report summarizing the study and the results of such study, including recommendations for addressing any negative impacts of precision scheduled railroading on freight shippers or passenger railroads.

#### SEC. 9503. FRA SAFETY REPORTING.

(a) **IN GENERAL.**—Section 20901 of title 49, United States Code, is amended by inserting “(including the train length, the number of crew members on board the train, and the duties of such crew members)” after “reported accident or incident”.

(b) **REGULATIONS.**—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall issue such regulations as are necessary to carry out the amendment made by subsection (a).

#### SEC. 9504. WAIVER NOTICE REQUIREMENTS.

Section 20103(d) of title 49, United States Code, is amended to read as follows:

“(d) **NONEMERGENCY WAIVERS.**—

“(1) **IN GENERAL.**—The Secretary may waive compliance with any part of a regulation prescribed or order issued under this chapter if the waiver is in the public interest and consistent with railroad safety.

“(2) **NOTICE REQUIRED.**—The Secretary shall—

“(A) provide timely public notice of any request for a waiver under this subsection;

“(B) make the application for such waiver and any related underlying data available to interested parties;

“(C) provide the public with notice and a reasonable opportunity to comment on a proposed waiver under this subsection before making a final decision; and

“(D) make public the reasons for granting a waiver under this subsection.

“(3) **INFORMATION PROTECTION.**—Nothing in this subsection shall be construed to require the release of information protected by law from public disclosure.”.

#### SEC. 9505. NOTICE OF FRA COMPREHENSIVE SAFETY ASSESSMENTS.

(a) **INITIAL NOTICE.**—Not later than 10 business days after the Federal Railroad Administration initiates a comprehensive safety assessment of an entity providing regularly scheduled intercity or commuter rail passenger transportation, the Federal Railroad Administration shall notify in electronic format the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and each member of Congress representing a State in which the service that is the subject of the assessment being conducted is located, of the initiation of such assessment.

(b) **FINDINGS.**—Not later than 90 days after completion of a comprehensive safety assessment described in subsection (a), the Federal Railroad Administration shall transmit in electronic format to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and to each member of Congress representing a State in which the service that is the subject of the assessment being conducted is located, the findings of such assessment, including identified defects and any recommendations.

(c) **DEFINITION OF COMPREHENSIVE SAFETY ASSESSMENT.**—In this section, the term “comprehensive safety assessment” means a focused review of the safety-related processes and procedures, compliance with safety regulations and requirements, and overall safety culture of an entity providing regularly scheduled intercity or commuter rail passenger transportation.

#### SEC. 9506. FRA ACCIDENT AND INCIDENT INVESTIGATIONS.

Section 20902 of title 49, United States Code, is amended—

(1) in subsection (b) by striking “subpena” and inserting “subpoena”; and

(2) by adding at the end the following:

“(d) **GATHERING INFORMATION AND TECHNICAL EXPERTISE.**—

“(1) **IN GENERAL.**—The Secretary shall create a standard process for investigators to use during accident and incident investigations conducted under this section for determining when it is appropriate to, and how to—

“(A) gather information about an accident or incident under investigation from railroad carriers, contractors or employees of railroad carriers or representatives of employees of railroad carriers, and others, as determined relevant by the Secretary; and

“(B) consult with railroad carriers, contractors or employees of railroad carriers or representatives of employees of railroad carriers, and others, as determined relevant by the Secretary, for technical expertise on the facts of the accident or incident under investigation.

“(2) **CONFIDENTIALITY.**—In developing the process under paragraph (1), the Secretary shall factor in ways to maintain the confidentiality of any entity identified under paragraph (1) if—

“(A) such entity requests confidentiality;

“(B) such entity was not involved in the accident or incident; and

“(C) maintaining such entity’s confidentiality does not adversely affect an investigation of the Federal Railroad Administration.

“(3) **APPLICATION OF LAW.**—This subsection shall not apply to any investigation carried out by the National Transportation Safety Board.”.

#### SEC. 9507. RAIL SAFETY IMPROVEMENTS.

(a) **FEDERAL RAILROAD ADMINISTRATION REQUIREMENTS.**—Not later than 18 months after the date of enactment of this Act, the Secretary of Transportation shall carry out the following:

(1) Complete a study on how signage can be used to improve safety in the rail industry that includes—

(A) a review of how signs used for other modes of transportation may be effectively used in the rail industry;

(B) a review of how signs used in the railroad industry differ; and

(C) an analysis of whether a uniform system for speed signs across the United States rail system would benefit the railroad industry and improve safety.

(2) Reevaluate seat securement mechanisms and the susceptibility of such mechanisms to inadvertent rotation, and identify a means to prevent the failure of such mechanisms to maintain seat securement.

(3) Conduct research to evaluate the causes of passenger injuries in passenger railcar derailments and overturns and evaluate potential methods for mitigating such injuries.

(4) Based on the research conducted under paragraph (3), develop occupant protection standards for passenger railcars that will mitigate passenger injuries likely to occur during derailments and overturns.

(5) Develop policies for the safe use of child seats to prevent uncontrolled or unexpected movements in intercity passenger trains from disrupting the secure position of such seats.

(b) **REQUIREMENTS FOR AMTRAK.**—Not later than 18 months after the date of enactment of this Act, Amtrak shall—

(1) ensure operating crewmembers demonstrate proficiency, under daylight and nighttime conditions, on the physical characteristics of a territory by using all resources available, including in-cab instruments, observation rides, throttle time, signage, signals, and landmarks;

(2) ensure the proficiency required under paragraph (1) is demonstrated on written examinations;

(3) revise classroom and road training programs to ensure that operating crews fully understand all locomotive operating characteristics, alarms, and the appropriate response to abnormal conditions;

(4) when possible, require that all engineers undergo simulator training—

(A) before operating new or unfamiliar equipment (at a minimum, experience and respond properly to all alarms); and

(B) to experience normal and abnormal conditions on new territory before operating in revenue service on such new territory;

(5) ensure that simulator training specified in paragraph (4) supplements the hours engineers spend training on new equipment before becoming certified on such equipment and performing runs on new territory before becoming qualified on such territory;

(6) implement a formal, systematic approach to developing training and qualification programs to identify the most effective strategies for preparing crewmembers to safely operate new equipment on new territories;

(7) work in consultation with host railroad carriers and States that own infrastructure over which Amtrak operates to complete a comprehensive assessment of the territories to ensure that necessary wayside signs and plaques are identified, highly noticeable, and strategically located to provide operating crews the information needed to safely operate trains;

(8) update the safety review process to ensure that all operating documents are up to date and accurate before initiating new or revised revenue operations;

(9) incorporate all preventive service planning, construction, and route verification work into the scope of a corporate-wide system safety plan, including through rules and policies, risk assessment analyses, safety assurances, and safety promotions; and

(10) conduct risk assessments on all new or upgraded services that occur on Amtrak-owned territory, host railroads, or in States that own infrastructure over which Amtrak operates.

(c) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Secretary and Amtrak shall submit to the Committee on

Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on their progress on meeting the requirements under subsections (a) and (b), respectively, including a description of all completed elements of the requirements.

#### **SEC. 9508. ANNUAL REVIEW OF SPEED LIMIT ACTION PLANS.**

Section 11406 of the FAST Act (Public Law 114–94) is amended—

(1) in subsection (c) by inserting “or subsection (d)(2)” after “subsection (b)”;

(2) by redesignating subsections (d) through (f) as subsections (e) through (g), respectively;

(3) by inserting after subsection (c) the following:

“(d) **PERIODIC REVIEWS AND UPDATES.**—Each railroad carrier that files an action plan under subsection (b) shall—

“(1) not later than 1 year after the date of enactment of the TRAIN Act, and annually thereafter, review such plan to ensure the effectiveness of actions taken to enable warning and enforcement of the maximum authorized speed for passenger trains at each location identified under subsection (b)(1); and

“(2) not later than 90 days prior to implementing any operational or territorial operating change, including initiating a new service or route, submit to the Secretary a revised action plan that addresses such operational or territorial operating change.”; and

(4) by adding at the end the following:

“(h) **PROHIBITION.**—No new intercity rail passenger transportation or commuter rail passenger service may begin operation unless the railroad carrier providing such service is in compliance with this section.”.

#### **SEC. 9509. FREIGHT TRAIN CREW SIZE SAFETY STANDARDS.**

(a) **IN GENERAL.**—Subchapter II of chapter 201 of title 49, United States Code, is amended by adding at the end the following:

“**§20169. Freight train crew size safety standards**

“(a) **MINIMUM CREW SIZE.**—No freight train may be operated unless such train has a crew of at least 1 appropriately qualified and certified conductor and 1 appropriately qualified and certified engineer.

“(b) **EXCEPTIONS.**—Except as provided in subsection (d), the prohibition in subsection (a) shall not apply in any of the following circumstances:

“(1) Train operations within a rail yard or terminal area or on auxiliary or industry tracks.

“(2) A train operated—

“(A) by a railroad carrier that has fewer than 400,000 total employee work hours annually and less than \$40,000,000 annual revenue (adjusted for inflation as measured by the Surface Transportation Board Railroad Inflation-Adjusted Index);

“(B) at a speed of not more than 25 miles per hour; and

“(C) on a track with an average track grade of less than 2 percent for any segment of track that is at least 2 continuous miles.

“(3) Locomotives performing assistance to a train that has incurred mechanical failure or lacks the power to traverse difficult terrain, including traveling to or from the location where assistance is provided.

“(4) Locomotives that—

“(A) are not attached to any equipment or attached only to a caboose; and

“(B) do not travel farther than 30 miles from a rail yard.

“(5) Train operations staffed with fewer than a 2-person crew at least 1 year prior to the date of enactment of this section, if the Secretary determines that the operation achieves an equivalent level of safety.

“(c) **TRAINS INELIGIBLE FOR EXCEPTION.**—The exceptions under subsection (b) may not be applied to—

“(1) a train transporting 1 or more loaded cars carrying material toxic by inhalation, as defined in section 171.8 of title 49, Code of Federal Regulations;

“(2) a train carrying 20 or more loaded tank cars of a Class 2 material or a Class 3 flammable liquid in a continuous block or a single train carrying 35 or more loaded tank cars of a Class 2 material or a Class 3 flammable liquid throughout the train consist; and

“(3) a train with a total length of 7,500 feet or greater.

“(d) **WAIVER.**—A railroad carrier may seek a waiver of the requirements of this section pursuant to section 20103(d).”.

(b) **CLERICAL AMENDMENT.**—The analysis for subchapter II of chapter 201 of title 49, United States Code, is amended by adding at the end the following:

“20169. Freight train crew size safety standards.”.

#### **SEC. 9510. SAFE CROSS BORDER OPERATIONS.**

(a) **IN GENERAL.**—Section 416 title IV of division A of the Rail Safety Improvement Act of 2008 (49 U.S.C. 20107 note) is amended—

(1) by striking “Mechanical and brake” and inserting “(a) **IN GENERAL.**—Mechanical and brake”; and

(2) by adding at the end the following:

“(b) **WAIVER.**—The Secretary may not grant any waiver or waiver modification that provides for the ability to perform mechanical or brake inspections of rail cars in Mexico in lieu of complying with the certification requirements of this section.”.

(b) **SAFETY STANDARDS FOR CERTAIN RAIL CREWS.**—

(1) **IN GENERAL.**—Title IV of division A of the Rail Safety Improvement Act of 2008 (Public Law 110–432) is amended by adding at the end the following:

“**SEC. 421. SAFETY STANDARDS FOR CERTAIN RAIL CREWS.**

“(a) **IN GENERAL.**—The Secretary of Transportation may not permit covered rail employees to enter the United States to perform train or dispatching service unless the Secretary certifies that—

“(1) Mexico has adopted and is enforcing safety standards for covered rail employees that are equivalent to, or greater than, those applicable to railroad employees whose primary reporting point is in the United States, including qualification and certification requirements under parts 240 and 242 of title 49, Code of Federal Regulations;

“(2) covered rail employees are subject to the alcohol and drug testing requirements in part 219 of title 49, Code of Federal Regulations, including the requirements of subparts F, G, and H of such part, to the same extent as such requirements apply to railroad employees whose primary reporting point is in the United States and who are subject to such part;

“(3) covered rail employees are subject to hours of service requirements under section 21103 of title 49, United States Code, at all times any such employee is on duty, regardless of location;

“(4) covered rail employees are subject to the motor vehicle driving record evaluation requirements in section 240.115 of title 49, Code of Federal Regulations, to the same extent as such requirements apply to railroad employees whose primary reporting point is in the United States and are subject to such section, and that such evaluation includes driving records from the same country as the employee's primary reporting point; and

“(5) the Federal Railroad Administration is permitted to perform onsite inspections of rail facilities in Mexico to ensure compliance with paragraphs (1) and (2).

“(b) **NOTICE REQUIRED.**—

“(1) **IN GENERAL.**—Not later than 5 days after the date on which the Secretary certifies each of the requirements under paragraphs (1) through

(5) of subsection (a), the Secretary shall publish in the Federal Register—

“(A) notice of each such certification; and

“(B) documentation supporting each such certification.

“(2) PUBLIC COMMENT.—To ensure compliance with the requirements of this section and any other applicable safety requirements, the Secretary shall—

“(A) allow for public comment on the notice required under paragraph (1); and

“(B) hold a public hearing on such notice.

“(3) CONGRESSIONAL NOTICE.—On the date on which each publication required under paragraph (1) is published in the Federal Register, the Secretary shall notify the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate of such publication.

“(c) DRUG AND ALCOHOL TESTING.—

“(1) NONAPPLICATION OF EXEMPTION.—For purposes of compliance with subsection (a)(2), the exemption contained in part 219.3(d)(2) of title 49, Code of Federal Regulations, shall not apply.

“(2) AUDIT BY OFFICE OF DRUG AND ALCOHOL COMPLIANCE.—To ensure compliance with the drug and alcohol testing programs described in subsection (a)(2), the Office of Drug and Alcohol Compliance in the Department of Transportation shall conduct an annual audit of such programs and recommend enforcement actions as needed.

“(d) DEFINITION OF COVERED RAIL EMPLOYEE.—In this section, the term ‘covered rail employee’ means a railroad employee whose primary reporting point is in Mexico.”

(2) CLERICAL AMENDMENT.—The table of contents in section 1(b) of the Rail Safety Improvement Act of 2008 (Public Law 110-432), is amended by inserting after the item relating to section 420 the following:

“Sec. 421. Safety standards for certain rail crews.”

#### SEC. 9511. YARDMASTERS HOURS OF SERVICE.

(a) LIMITATIONS ON DUTY HOURS OF YARDMASTER EMPLOYEES.—Section 21103 of title 49, United States Code, is amended—

(1) in the section heading by inserting “**AND YARDMASTER EMPLOYEES**” after “**TRAIN EMPLOYEES**”;

(2) by inserting “or yardmaster employee” after “train employee” each place it appears; and

(3) in subsection (e) by inserting “or yardmaster employee’s” after “During a train employee’s”.

(b) DEFINITIONS.—Section 21101 of title 49, United States Code, is amended—

(1) in paragraph (3) by inserting “a yardmaster employee,” after “dispatching service employee,”; and

(2) by adding at the end the following:

“(6) ‘yardmaster employee’ means an individual responsible for supervising and coordinating the control of trains and engines operating within a rail yard.”

(c) CONFORMING AMENDMENT.—The analysis for chapter 211 of title 49, United States Code, is amended by striking the item relating to section 21103 and inserting the following:

“21103. Limitations on duty hours of train employees and yardmaster employees.”

#### SEC. 9512. LEAKING BRAKES.

(a) IN GENERAL.—The Administrator of the Federal Railroad Administration shall take such actions as are necessary to ensure that no air brake control valve (defined in this section as an air brake control valve that was subject to the circular letter issued by the Association of American Railroads issued on October 25, 2013 (C-12027)) manufactured before January 1, 2006, is equipped on a rail car operating on—

(1) a unit train north of the 37th parallel on or after August 1, 2022; or

(2) a non-unit train north of the 37th parallel on or after August 1, 2024.

(b) REPORTS.—Not later than 1 year after the date of enactment of this Act, and every year thereafter until brake valves described in subsection (a) are no longer operating on rail cars as required under subsection (a), the Administrator shall transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that identifies—

(1) the estimated number of such brake valves on rail cars operating on—

(A) unit trains north of the 37th parallel; and

(B) non-unit trains north of the 37th parallel;

(2) any issues affecting the industry’s progress toward ensuring that such brake valves are phased out in accordance with the requirements of subsection (a); and

(3) efforts the Administrator has taken since the previous report to ensure such brake valves are phased out in accordance with the requirements of subsection (a).

(c) ADDITIONAL VALVES.—If the Administrator determines that air brake control valves not covered under subsection (a) demonstrate leakage in low temperatures similar to the leakage exhibited by the air brake control valve identified in subsection (a), the Administrator shall ensure that the air brake control valves determined to be demonstrating leakage under this subsection are phased out in accordance with the requirements of subsection (a).

#### SEC. 9513. ANNUAL REPORT ON PTC SYSTEM FAILURES.

Section 20157 of title 49, United States Code, is amended by adding at the end the following:

“(m) ANNUAL REPORT OF SYSTEM FAILURES.—Not later than April 16 of each calendar year following the date of an implementation deadline under subsection (a)(1), each railroad shall submit to the Secretary a report containing the number of positive train control system failures, separated by each major hardware category, that occurred during the previous calendar year.”

#### SEC. 9514. FATIGUE REDUCTION PILOT PROJECTS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) maintaining the highest level of safety across the nation’s railroad network is of critical importance;

(2) ensuring the safety of rail transportation requires the full attention of all workers engaged in safety-critical functions;

(3) fatigue degrades an individual’s ability to stay awake, alert, and attentive to the demands of safe job performance;

(4) the cognitive impairments to railroad workers that result from fatigue can cause dangerous situations that put workers and communities at risk;

(5) the Rail Safety Improvement Act of 2008 mandated that the Federal Railroad Administration conduct two pilot projects to analyze specific practices that may be used to reduce fatigue in employees and as of the date of enactment of this Act, neither pilot project has commenced; and

(6) the Federal Railroad Administration should coordinate with the industry and the workforce to commence and complete the fatigue pilot projects mandated in 2008.

(b) PILOT PROJECTS.—Section 21109(e) of title 49, United States Code, is amended—

(1) by striking “Not later than 2 years after the date of enactment of the Rail Safety Improvement Act of 2008” and inserting “Not later than 1 year after the date of enactment of the TRAIN Act”; and

(2) by adding at the end the following:

“(3) COORDINATION.—The pilot projects required under paragraph (1) shall be developed and evaluated in coordination with the labor organization representing the class or craft of employees impacted by the pilot projects.”

(c) REIMBURSEMENT.—The Secretary of Transportation may reimburse railroads participating in the pilot projects under 21109(e) of title 49, United States Code, a share of the costs associated with the pilot projects, as determined by the Secretary.

(d) REPORT.—

(1) IN GENERAL.—If the pilot projects required under section 21109(e) of title 49, United States Code, have not commenced on the date that is 1 year after the date of enactment of this Act, the Secretary shall, not later than 1 year and 30 days after the date of enactment of this Act, transmit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing—

(A) the status of the pilot projects;

(B) actions the Federal Railroad Administration has taken to commence the pilot projects, including efforts to recruit participant railroads;

(C) any challenges impacting the commencement of the pilot projects; and

(D) any other details associated with the development of the pilot projects that affect the progress toward meeting the mandate of such section.

#### SEC. 9515. ASSAULT PREVENTION AND RESPONSE PLANS.

(a) AMENDMENT.—Subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

#### “§20170. Assault prevention and response plans

“(a) IN GENERAL.—Not later than 180 days after the date of enactment of the TRAIN Act, any entity that provides regularly scheduled intercity or commuter rail passenger transportation shall submit to the Secretary of Transportation for review and approval an assault prevention and response plan (in this section referred to as the ‘Plan’) to address transportation assaults.

“(b) CONTENTS OF PLAN.—The Plan required under subsection (a) shall include—

“(1) procedures that—

“(A) facilitate the reporting of a transportation assault, including the notification of on-site personnel, rail law enforcement, and local law enforcement;

“(B) personnel should follow up on the reporting of a transportation assault, including actions to protect affected individuals from continued assault;

“(C) may be taken to remove the passenger or personnel who has committed a transportation assault from the train or related area or facility as soon as practicable when appropriate;

“(D) include protections and safe reporting practices for passengers who may have been assaulted by personnel; and

“(E) may limit or prohibit, to the extent practicable, future travel with the entity described in subsection (a) by any passenger or personnel who commits a transportation assault against personnel or passengers;

“(2) a policy that ensures an employee who is a victim or witness of a transportation assault may participate in the prosecution of a criminal offense of such assault without any adverse effect on the victim’s or witnesses’ employment status; and

“(3) a process and timeline for conducting an annual review and update of the Plan.

“(c) NOTICE TO PASSENGERS.—An entity described under subsection (a) shall display on-board trains and in boarding areas, as appropriate, a notice stating the entity’s abilities to restrict future travel under subsection (b)(1)(E).

“(d) PERSONNEL TRAINING.—An entity described under subsection (a) shall provide initial and annual training for all personnel on the contents of the Plan, including training regarding—

“(1) the procedures described in subsection (b);

“(2) methods for responding to hostile situations, including de-escalation training; and

“(3) rights and responsibilities of personnel with respect to a transportation assault on themselves, other personnel, or passengers.

“(e) PERSONNEL PARTICIPATION.—The Plan required under subsection (a) shall be developed and implemented with the direct participation of personnel, and, as applicable, labor organizations representing personnel.

“(f) REPORTING.—

“(1) INCIDENT NOTIFICATION.—

“(A) IN GENERAL.—Not later than 10 days after a transportation assault incident, the applicable entity described in subsection (a) shall notify personnel employed at the location in which the incident occurred. In the case of an incident on a vehicle, such entity shall notify personnel regularly scheduled to carry out employment activities on the service route on which the incident occurred.

“(B) CONTENT OF INCIDENT REPORT.—The notification required under paragraph (1) shall—

“(i) include a summary of the incident; and

“(ii) be written in a manner that protects the confidentiality of individuals involved in the incident.

“(2) ANNUAL REPORT.—For each calendar year, each entity with respect to which a transportation assault incident has been reported during such year shall submit to the Secretary report that describes—

“(A) the number of assault incidents reported to the entity, including—

“(i) the number of incidents committed against passengers; and

“(ii) the number of incidents committed against personnel; and

“(B) the number of assault incidents reported to rail or local law enforcement by personnel of the entity.

“(3) PUBLICATION.—The Secretary shall make available to the public on the primary website of the Federal Railroad Administration the data collected under paragraph (2).

“(4) DATA PROTECTION.—Data made available under this subsection shall be made available in a manner that protects the confidentiality of individuals involved in transportation assault incidents.

“(g) DEFINITION OF TRANSPORTATION ASSAULT.—In this section, the term ‘transportation assault’ means the occurrence, or reasonably suspected occurrence, of an act that—

“(1) constitutes assault;

“(2) is committed by a passenger or member of personnel of an entity that provides regularly scheduled intercity or commuter rail passenger transportation against another passenger or member of personnel of such entity; and

“(3) takes place—

“(A) within a vehicle of such entity; or

“(B) in an area in which passengers are entering or exiting a vehicle described in subparagraph (A); or

“(C) a station or facility where such entity operates, regardless of ownership of the station or facility.”

(b) CONFORMING AMENDMENT.—The analysis for subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

“20170. Assault prevention and response plans.”

#### SEC. 9516. CRITICAL INCIDENT STRESS PLANS.

The Secretary of Transportation shall issue such regulations as are necessary to amend part 272 of title 49, Code of Federal Regulations, to ensure that—

(1) the coverage of a critical incident stress plan under section 272.7 of such part includes employees of commuter railroads and intercity passenger railroads, as such terms are defined in section 272.9 of such part, who directly interact with passengers; and

(2) assault and the witnessing of an assault against an employee or train passenger is in-

cluded in the definition of critical incident under section 272.9 of such part.

#### SEC. 9517. STUDY ON SAFETY CULTURE ASSESSMENTS.

(a) IN GENERAL.—The Administrator of the Federal Railroad Administration shall conduct a study on the feasibility of expanding railroad safety culture assessments and training to include assessments and training for workers employed by tourist railroads, passenger railroads, and commuter railroads.

(b) CONTENTS OF STUDY.—The study required under subsection (a) shall include—

(1) an analysis on the need for the expansion;

(2) the resources required to carry out the additional assessments and training; and

(3) other potential safety challenges the initiative could address.

(c) REPORT.—The Federal Railroad Administration shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study conducted under subsection (a).

#### Subtitle B—Grade Crossing Safety

#### SEC. 9551. GRADE CROSSING SEPARATION GRANTS.

(a) IN GENERAL.—Subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

##### “§20171. Grade crossing separation grants

“(a) GENERAL AUTHORITY.—The Secretary of Transportation shall make grants under this section to eligible entities to assist in financing the cost of highway-rail grade separation projects.

“(b) APPLICATION REQUIREMENTS.—To be eligible for a grant under this section, an eligible entity shall submit to the Secretary an application in such form, in such manner, and containing such information as the Secretary may require, including—

“(1) an agreement between the entity that owns or controls the right-of-way and the applicant addressing access to right-of-way throughout the project; and

“(2) a cost-sharing agreement with the funding amounts that the entity that owns or controls the right-of-way shall contribute to the project, which shall be not less than 10 percent of the total project cost.

“(c) ELIGIBLE PROJECTS.—The following projects are eligible to receive a grant under this section:

“(1) Installation, repair, or improvement of grade crossing separations.

“(2) Grade crossing elimination incidental to eligible grade crossing separation projects.

“(3) Project planning, development, and environmental work related to a project described in paragraph (1) or (2).

“(d) PROJECT SELECTION CRITERIA.—

“(1) LARGE PROJECTS.—Of amounts made available to carry out this section, not more than 50 percent shall be available for projects with total costs of \$100,000,000 or greater.

“(2) CONSIDERATIONS.—In awarding grants under this section, the Secretary—

“(A) shall give priority to projects that maximize the safety benefits of Federal funding; and

“(B) may evaluate applications on the safety profile of the existing crossing, 10-year history of accidents at such crossing, inclusion of the proposed project on a grade crossing safety action plan, average automobile traffic, freight and passenger train traffic, average daily number of crossing closures, and proximity of community resources, including schools, hospitals, fire stations, police stations, and emergency medical service facilities.

“(e) FEDERAL SHARE OF TOTAL PROJECT COSTS.—

“(1) TOTAL PROJECT COSTS.—The Secretary shall estimate the total costs of a project under this section based on the best available informa-

tion, including any available engineering studies, studies of economic feasibility, environmental analysis, and information on the expected use of equipment or facilities.

“(2) FEDERAL SHARE.—The Federal share for a project carried out under this section shall not exceed 85 percent.

“(f) GRANT CONDITIONS.—An eligible entity may not receive a grant for a project under this section unless such project is in compliance with section 22905, except that 22905(b) shall only apply to a person that conducts rail operations.

“(g) TWO YEAR LETTERS OF INTENT.—

“(1) IN GENERAL.—The Secretary shall, to the maximum extent practicable, issue a letter of intent to a recipient of a grant under subsection (d)(1) that—

“(A) announces an intention to obligate for no more than 2 years, for a major capital project under subsection (d)(1), an amount that is not more than the amount stipulated as the financial participation of the Secretary for the project; and

“(B) states that the contingent commitment—

“(i) is not an obligation of the Federal Government; and

“(ii) is subject to the availability of appropriations for grants under this section and subject to Federal laws in force or enacted after the date of the contingent commitment.

“(2) CONGRESSIONAL NOTIFICATION.—

“(A) IN GENERAL.—Not later than 3 days before issuing a letter of intent under paragraph (1), the Secretary shall submit written notification to—

“(i) the Committee on Transportation and Infrastructure of the House of Representatives;

“(ii) the Committee on Appropriations of the House of Representatives;

“(iii) the Committee on Appropriations of the Senate; and

“(iv) the Committee on Commerce, Science, and Transportation of the Senate.

“(B) CONTENTS.—The notification submitted under subparagraph (A) shall include—

“(i) a copy of the letter of intent;

“(ii) the criteria used under subsection (b) for selecting the project for a grant; and

“(iii) a description of how the project meets such criteria.

“(h) APPROPRIATIONS REQUIRED.—An obligation or administrative commitment may be made under subsection (g) only after amounts are appropriated for such purpose.

“(i) DEFINITIONS.—In this section:

“(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

“(A) a State;

“(B) a public agency or publicly chartered authority;

“(C) a metropolitan planning organization;

“(D) a political subdivision of a State; and

“(E) a Tribal government.

“(2) METROPOLITAN PLANNING ORGANIZATION.—The term ‘metropolitan planning organization’ has the meaning given such term in section 134(b) of title 23.

“(3) STATE.—The term ‘State’ means a State of the United States or the District of Columbia.”

(b) CLERICAL AMENDMENT.—The analysis for subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

“20171. Grade crossing separation grants.”

#### SEC. 9552. RAIL SAFETY PUBLIC AWARENESS GRANTS.

(a) IN GENERAL.—Subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

##### “§20172. Rail safety public awareness grants

“(a) GRANT.—The Administrator of the Federal Railroad Administration shall make grants to eligible entities to carry out public information and education programs to help prevent and reduce rail-related pedestrian, motor vehicle, and other accidents, incidents, injuries, and

fatalities, and to improve awareness along railroad rights-of-way and at railway-highway grade crossings.

“(b) APPLICATION.—To be eligible to receive a grant under this section, an eligible entity shall submit to the Administrator an application in such form, in such manner, and containing such information as the Secretary may require.

“(c) CONTENTS.—Programs eligible for a grant under this section—

“(1) shall include, as appropriate—

“(A) development, placement, and dissemination of public service announcements in appropriate media;

“(B) school presentations, driver safety education, materials, and public awareness campaigns; and

“(C) disseminating information to the public on how to identify and report to the appropriate authorities unsafe or malfunctioning highway-rail grade crossings; and

“(2) may include targeted and sustained outreach in communities at greatest risk to develop measures to reduce such risk.

“(d) COORDINATION.—Eligible entities shall coordinate program activities with local communities, law enforcement and emergency responders, and rail carriers, as appropriate, and ensure consistency with State highway-rail grade crossing action plans required under section 11401(b) of the FAST Act (49 U.S.C. 22501 note) and the report titled ‘National Strategy to Prevent Trespassing on Railroad Property’ issued by the Federal Railroad Administration in October 2018.

“(e) PRIORITIZATION.—In awarding grants under this section, the Administrator shall give priority to applications for programs that—

“(1) are nationally recognized;

“(2) are targeted at schools in close proximity to railroad rights-of-way;

“(3) partner with nearby railroad carriers; or

“(4) focus on communities with a recorded history of repeated pedestrian and motor vehicle accidents, incidents, injuries, and fatalities at highway-rail grade crossings and along railroad rights-of-way.

“(f) DEFINITIONS.—In this section:

“(1) ELIGIBLE ENTITY.—the term ‘eligible entity’ means—

“(A) a nonprofit organization;

“(B) a State;

“(C) a political subdivision of a State; and

“(D) a public law enforcement agency or emergency response organization.

“(2) STATE.—The term ‘State’ means a State of the United States, the District of Columbia, and Puerto Rico.”

(b) CLERICAL AMENDMENT.—The analysis for subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

“20172. Rail safety public awareness grants.”

#### SEC. 9553. ESTABLISHMENT OF 10-MINUTE TIME LIMIT FOR BLOCKING PUBLIC GRADE CROSSINGS.

(a) IN GENERAL.—Subchapter II of chapter 201 of title 49, United States Code, as amended by this division, is further amended by adding at the end the following:

#### “§20173. Time limit for blocking a rail crossing

“(a) TIME LIMIT.—A train, locomotive, railroad car, or other rail equipment is prohibited from blocking a crossing for more than 10 minutes, unless the train, locomotive, or other equipment is directly delayed by—

“(1) a casualty or serious injury;

“(2) an accident;

“(3) a track obstruction;

“(4) an act of God; or

“(5) a derailment or a major equipment failure that prevents the train from advancing.

“(b) CIVIL PENALTY.—The Secretary of Transportation may issue civil penalties for violations of subsection (a) in accordance with section 21301.

“(c) DELEGATION.—The Secretary may delegate enforcement actions under subsection (b) to States either through a State inspector certified by the Federal Railroad Administration, or other law enforcement officials as designated by the States and approved by the Administration. The Secretary shall issue guidance or regulations not later than 1 year after the date of enactment on the criteria and process for States to gain approval under this section.

“(d) APPLICATION TO AMTRAK AND COMMUTER RAILROADS.—This section shall not apply to Amtrak or commuter authorities, including Amtrak and commuter authorities’ operations run or dispatched by a Class I railroad.

“(e) DEFINITIONS.—In this section:

“(1) CROSSING.—The term ‘crossing’ means a location within a State in which a public highway, road, or street, including associated sidewalks and pathways, crosses 1 or more railroad tracks either at grade or grade-separated.

“(2) BLOCKED CROSSING.—The term ‘blocked crossing’ means a circumstance in which a train, locomotive, railroad car, or other rail equipment is stopped in a manner that obstructs public travel at a crossing.”

(b) CLERICAL AMENDMENT.—The analysis for subchapter II of chapter 201 of title 49, United States Code, is further amended by adding at the end the following new item:

“20173. Time limit for blocking a rail crossing.”

#### SEC. 9554. NATIONAL STRATEGY TO ADDRESS BLOCKED CROSSINGS.

(a) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Secretary of Transportation shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make publicly available on the website of the Department of Transportation, a report containing a national strategy to address blocked crossings.

(b) PUBLIC LAW 116–94.—The strategy required under subsection (a) shall incorporate the recommendations and briefing described in the report accompanying the Department of Transportation Appropriations Act, 2020 (Public Law 116–94) with respect to the amounts provided under the heading “Federal Railroad Administration—Safety and Operations”.

(c) REPORT CONTENTS.—The strategy required under subsection (a) shall include an analysis of the following topics, including any specific legislative or regulatory recommendations:

(1) How best to engage the public, representatives of labor organizations representing railroad employees, law enforcement officers, highway traffic officials, or other employees of a public agency acting in an official capacity to identify and address blocked crossings.

(2) How technology and positive train control system data can be used to identify and address instances of blocked crossings.

(3) How to identify and address instances of blocked crossings at crossings with passive or no warning devices.

(4) How best to use the data collected under a webpage established by the Secretary for the public and law enforcement to report instances of blocked crossings, including whether such data should be verified by each rail carrier or incorporated into the national crossing inventory established under section 20160 of title 49, United States Code.

(d) UPDATING STRATEGY.—The Secretary shall evaluate the strategy developed under this section not less than every 5 years, and update it as needed.

(e) DEFINITIONS.—In this section:

(1) BLOCKED CROSSING.—The term “blocked crossing” means a circumstance in which a train, locomotive, railroad car, or other rail equipment is stopped in a manner that obstructs public travel at a crossing.

(2) POSITIVE TRAIN CONTROL SYSTEM.—The term “positive train control system” has the

meaning given the term in section 20157(i) of title 49, United States Code.

#### SEC. 9555. RAILROAD POINT OF CONTACT FOR BLOCKED CROSSING MATTERS.

Section 20152 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) in subparagraph (C) by striking “or” at the end;

(ii) by redesignating subparagraph (D) as subparagraph (E); and

(iii) by inserting the following after subparagraph (C):

“(D) blocked crossings; or”;

(B) in paragraph (4)—

(i) by striking “paragraph (1)(C) or (D)” and inserting “subparagraph (C), (D), or (E) of paragraph (1)”;

(ii) by striking “and” at the end;

(C) in paragraph (5) by striking the period at the end and inserting “; and”;

(D) by adding at the end the following:

“(6) promptly inform the Secretary if the number required to be established under subsection (a) has changed and report the new number to the Secretary.”; and

(2) by adding at the end the following:

“(c) PUBLICATION OF TELEPHONE NUMBERS.—The Secretary shall make any telephone number established under subsection (a) publicly available on the website of the Department of Transportation.”

#### SEC. 9556. NATIONAL HIGHWAY-RAIL CROSSING INVENTORY REVIEW.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall expend such sums as are necessary to conduct a comprehensive review of the national highway-rail crossing inventory of the Department of Transportation established under section 20160 of title 49, United States Code.

(b) CONTENTS.—In conducting the review required under subsection (a), the Secretary shall—

(1) verify the accuracy of the data contained in the inventory described in subsection (a) using mapping technologies and other methods; and

(2) correct erroneous data in such inventory.

(c) REPORT.—Not later than 30 days after the completion of the review required under subsection (a), the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report detailing corrections made to the inventory described in subsection (a) and the Secretary’s plans to ensure continued accuracy of such inventory.

#### SEC. 9557. COUNTING RAILROAD SUICIDES.

(a) IN GENERAL.—Not less than 180 days after the enactment of this Act, the Secretary of Transportation shall revise any regulations, guidance, or other relevant agency documents to count suicides on a railroad crossing or railroad right-of-way as trespassing deaths.

(b) AUTHORITY OF THE SECRETARY.—In carrying out subsection (a), the Secretary may require Federal, State, and local agencies, railroads, or other entities to submit such data as necessary.

(c) APPLICABILITY OF RULEMAKING REQUIREMENTS.—The requirements of section 553 of title 5, United States Code, shall not apply to the modification required by subsection (a).

### DIVISION E—AVIATION

#### TITLE I—AIRPORT AND AIRWAY INFRASTRUCTURE

#### SEC. 10101. AIRPORT PLANNING AND DEVELOPMENT AND NOISE COMPATIBILITY PLANNING AND PROGRAMS.

(a) AUTHORIZATION.—Section 48103(a) of title 49, United States Code, is amended by striking paragraphs (4), (5), and (6) and inserting the following:

- “(4) \$4,000,000,000 for fiscal year 2021;
- “(5) \$4,000,000,000 for fiscal year 2022;
- “(6) \$4,000,000,000 for fiscal year 2023;
- “(7) \$4,000,000,000 for fiscal year 2024; and
- “(8) \$4,000,000,000 for fiscal year 2025.”.

(b) **OBLIGATION AUTHORITY.**—Section 47104(c) of title 49, United States Code, is amended in the matter preceding paragraph (1) by striking “2023,” and inserting “2025.”.

(c) **MAINTAINING PRECRISIS AIRPORT IMPROVEMENT PROGRAM LEVELS.**—Section 47114(c)(1) of title 49, United States Code, is amended by adding at the end the following:

“(J) **SPECIAL RULE FOR FISCAL YEARS 2021 THROUGH 2025.**—Notwithstanding subparagraph (A), the Secretary shall apportion to a sponsor of an airport under such subparagraph for each of fiscal years 2021 through 2025 an amount based on the number of passenger boardings at the airport during calendar year 2019, if the number of passenger boardings at the airport during calendar year 2019 is greater than the number of passenger boardings that would be otherwise calculated under subparagraph (A).”.

**SEC. 10102. SUPPLEMENTAL FUNDING FOR AIRPORTS.**

(a) **IN GENERAL.**—In addition to the amounts made available under section 48103(a) of title 49, United States Code, there are authorized to be appropriated from the general fund of the Treasury for the Secretary of Transportation to make grants for eligible uses under subsection (e)—

- (1) \$3,000,000,000 for fiscal year 2021;
- (2) \$3,250,000,000 for fiscal year 2022;
- (3) \$3,500,000,000 for fiscal year 2023;
- (4) \$3,750,000,000 for fiscal year 2024; and
- (5) \$4,000,000,000 for fiscal year 2025.

(b) **DISTRIBUTION OF FUNDS.**—Amounts made available under subsection (a) shall be distributed as follows:

(1) After setting aside amounts under subsection (c), remaining funds shall be distributed to all sponsors of commercial service airports, as such term is defined in section 47102 of title 49, United States Code, based on each such airport's passenger enplanements compared to total passenger enplanements for all commercial service airports, for calendar year 2019 or the most recent calendar year, whichever year has the greater total enplanements. If calendar year 2019 enplanements are used, a proportional adjustment (using enplanements for the most recent calendar year) shall be made for any airport that becomes a commercial service airport after calendar year 2019.

(2) An airport sponsor that was allocated more than 4 times such sponsor's annual operating expenses under the CARES Act (Public Law 116-136) may not receive supplemental funding under subsection (a) for fiscal years 2021 or 2022.

(c) **SET ASIDES.**—For each fiscal year, of the total funds appropriated pursuant to subsection (a), the Secretary shall set aside—

(1) 3.5 percent of such funds to make grants to the sponsors of cargo airports, as described in section 47114(c)(2)(A) of title 49, United States Code;

(2) 4 percent of such funds to make grants to general aviation, reliever, and nonprimary commercial service airports, as such terms are defined in section 47102 of title 49, United States Code, based on capacity needs or the needs of the aviation system; and

(3) 4.5 percent of such funds to make grants to any airport sponsor for—

(A) airport emission reduction projects described in subparagraph (K), (L), or (O) of section 47102(3) of title 49, United States Code, or section 47136(a) of title 49, United States Code;

(B) airport resiliency projects described in section 47102(3)(S) of title 49, United States Code, as added by this Act;

(C) airport noise compatibility and mitigation planning, programs, and projects, including planning, programs, and projects described in sections 47504 or 47505 of title 49, United States Code; and

(D) other airport projects that reduce the adverse effects of airport operations on the environment and surrounding communities, as determined appropriate by the Administrator.

(d) **APPORTIONMENT FOR ENVIRONMENTAL PROJECTS.**—Of the funds set aside under subsection (c)(3), not less than 50 percent of such funds shall be applied to projects described in subparagraph (A) of such subsection.

(e) **ELIGIBLE USES.**—The following rules shall apply to grants provided under subsection (a):

(1) Grants provided in fiscal year 2021 may be used for eligible projects under chapter 471 of title 49, United States Code, terminal development projects, operations, ensuring public health, cleaning, sanitization, janitorial services, refurbishing or replacing systems and technologies to combat the spread of pathogens, staffing, workforce retention, paid leave, procurement of protective health equipment and training for employees and contractors on use of such equipment, debt service payments, and rent and fee waivers to airport concessionaires and other lessees.

(2) Grants provided in fiscal years 2022 through 2025 may be used for—

(A) eligible projects under chapter 471 of title 49, United States Code;

(B) any eligible airport-related projects defined under section 40117(a)(3) of title 49, United States Code;

(C) any development project of an airport, local airport system, or other local facilities—

(i) owned or operated by the airport owner or operator; and

(ii) directly and substantially related to the air transportation of passengers or property; and

(D) debt service or other financing costs related to such projects.

(3) Funds provided under this section may not be used for any purposes not directly related to the airport for which such grant is provided.

(f) **FEDERAL SHARE.**—Notwithstanding section 47109 of title 49, United States Code, the Federal share of the costs of a project for carried out using a grant provided under this section shall be 100 percent.

(g) **REQUIREMENTS AND ASSURANCES.**—Except for project eligibility under this section, the requirements and grant assurances applicable to sponsors receiving grants under chapter 471 of title 49, United States Code, shall apply to any sponsor awarded a grant for an eligible project under subsection (e)(2)(A), eligible airport-related project under subsection (e)(2)(B), a development project under subsection (e)(2)(C), or eligible project or terminal development project listed under subsection (e)(1).

(h) **AVAILABILITY.**—Funds made available under subsection (a) shall remain available for 3 fiscal years.

(i) **ADMINISTRATION.**—Of the amounts made available to carry out this section, the Secretary may reserve up to \$8,000,000 for each of fiscal years 2021 through 2025 for the administrative costs of carrying out this section.

**SEC. 10103. AIRPORT RESILIENCY PROJECTS.**

Section 47102 of title 49, United States Code, is amended—

(1) in paragraph (3) by adding at the end the following:

“(S) improvement of any critical airport infrastructure at a nonhub, small hub, medium hub, or large hub airport to increase resiliency for the purpose of resuming flight operations under visual flight rules following a natural disaster.”;

(2) by redesignating paragraphs (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), (25), (26), (27), and (28) as paragraphs (16), (17), (18), (19), (20), (21), (22), (23), (24), (25), (26), (27), (28), (29), and (30), respectively;

(3) by redesignating paragraphs (8), (9), (10), (11), (12), and (13) as paragraphs (9), (10), (11), (12), (13), and (14), respectively;

(4) by inserting after paragraph (14), as so redesignated, the following:

“(15) ‘natural disaster’ means earthquake, flooding, high water, hurricane, storm surge, tidal wave, tornado, tsunami or wind driven water.”; and

(5) by inserting after paragraph (7) the following:

“(8) ‘critical airport infrastructure’ means runways, taxiways, and aprons necessary to sustain commercial service flight operations.”.

**SEC. 10104. FAA AIR TRAFFIC CONTROL FACILITIES.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated from the general fund of the Treasury to the Administrator of the Federal Aviation Administration \$1,000,000,000 to be used exclusively to bring air traffic control facilities of the Administration into acceptable condition, including sustaining, rehabilitating, replacing, or modernizing such facilities and associated costs.

(b) **CONSULTATION.**—Before taking any action under this section, the Administrator shall consult with the exclusive bargaining representatives of air traffic controllers and airway transportation system specialists certified under section 7111 of title 5, United States Code.

**SEC. 10105. AIRPORT INNOVATIVE FINANCING TECHNIQUES.**

(a) **IN GENERAL.**—Section 47135 of title 49, United States Code, is amended to read as follows:

**“§47135. Innovative financing techniques**

“(a) **IN GENERAL.**—The Secretary of Transportation may approve an application by an airport sponsor to use grants received under this subchapter for innovative financing techniques related to an airport development project. Such projects shall be located at airports that are not large hub airports. The Secretary may not approve more than 30 applications under this section in a fiscal year.

“(b) **PURPOSES.**—The purpose of grants made under this section shall be—

“(1) to provide information on using innovative financing techniques for airport development projects;

“(2) to lower the total cost of an airport development project; or

“(3) to safely expedite the delivery or completion of an airport development project.

“(c) **LIMITATIONS.**—

“(1) **NO GUARANTEES.**—In no case shall the implementation of an innovative financing technique under this section be used in a manner giving rise to a direct or indirect guarantee of any airport debt instrument by the United States Government.

“(2) **TYPES OF TECHNIQUES.**—In this section, innovative financing techniques are limited to—

“(A) payment of interest;

“(B) commercial bond insurance and other credit enhancement associated with airport bonds for eligible airport development;

“(C) flexible non-Federal matching requirements;

“(D) use of funds apportioned under section 47114 for the payment of principal and interest of terminal development for costs incurred before the date of the enactment of this section; and

“(E) such other techniques that the Secretary approves as consistent with the purposes of this section.”.

(b) **IMMEDIATE APPLICABILITY.**—Section 1001 of this division shall not apply to this section and the amendments made by this section.

**SEC. 10106. SMALL AIRPORT LETTERS OF INTENT.**

(a) **IN GENERAL.**—Section 47110(e) of title 49, United States Code, is amended—

(1) in paragraph (1) by striking “at a primary or reliever airport”;

(2) in paragraph (2) by—

(A) redesignating subparagraphs (A) through (C) as subparagraphs (B) through (D), respectively; and

(B) inserting after the matter preceding subparagraph (B) (as redesignated by this section) the following:

“(A) at an airport that is—  
 “(i) a medium or large hub airport;  
 “(ii) a small or nonhub airport; or  
 “(iii) an airport that is not a primary airport and is not listed as having an unclassified status under the most recent plan described under section 47103.”;

(3) in paragraph (2)(D) (as redesignated by this section) by striking “47115(d)” and all that follows through the end of the subparagraph and inserting “47115(d).”;

(4) by striking paragraph (5) and inserting the following:

“(5) REQUIREMENTS.—

“(A) IN GENERAL.—The Secretary may not require an eligible agency to impose a passenger facility charge under section 40117 in order to obtain a letter of intent under this section.

“(B) REQUIREMENTS.—For sponsors of airports described in clauses (ii) and (iii) of paragraph (2)(A), prior to issuing a letter of intent under this paragraph, the Secretary—

“(i) may not schedule reimbursements to more than 20 sponsors for any fiscal year;

“(ii) may permit allowable project costs under paragraph (1) to include costs associated with making payments for debt service on indebtedness incurred to carry out the project;

“(iii) may not obligate more than the total amount reasonably expected to be apportioned to the airport under section 47114 over the following 10 fiscal years;

“(iv) shall consider the sponsor’s grant performance history;

“(v) shall require the sponsor to provide a certificate affirming the sponsor has the legal ability and capacity to incur debt; and

“(vi) may consider other factors, as considered appropriate by the Secretary.”; and

(5) in the heading of paragraph (7) by striking “PARTNERSHIP PROGRAM AIRPORTS” and inserting “PARTNERSHIP PROGRAM AIRPORTS”.

(b) IMMEDIATE APPLICABILITY.—Section 1001 of this division shall not apply to this section and the amendments made by this section.

#### SEC. 10107. MINORITY AND DISADVANTAGED BUSINESS SIZE STANDARDS.

Section 47113(a)(1) of title 49, United States Code, is amended to read as follows:

“(1) ‘small business concern’ has the meaning given the term in section 3 of the Small Business Act (15 U.S.C. 632).”.

### TITLE II—ENVIRONMENT

#### SEC. 10201. ALTERNATIVE FUEL AND LOW-EMISSION AVIATION TECHNOLOGY PROGRAM.

(a) IN GENERAL.—The Secretary of Transportation, in consultation with the Administrator of the Environmental Protection Agency, shall establish and carry out a competitive grant and cost-sharing agreement program for eligible entities to carry out projects located in the United States that—

(1) develop, demonstrate, or apply low-emission aviation technologies; and

(2) produce, transport, blend, or store sustainable aviation fuels that would reduce greenhouse gas emissions attributable to the operation of aircraft that have fuel uplift in the United States.

(b) SELECTION.—In carrying out subsection (a), the Secretary shall consider—

(1) the anticipated public benefits of the project;

(2) the potential to increase the domestic production and deployment of sustainable aviation fuels or the use of low emission aviation technologies among the United States commercial aviation and aerospace industry;

(3) the potential greenhouse gas emissions from the project, including emissions resulting from the development of the project;

(4) the potential for creating new jobs in the United States;

(5) the potential the project has to reduce or displace, on a lifecycle basis, United States greenhouse gas emissions associated with air travel;

(6) the proposed utilization of non-Federal contributions; and

(7) for projects related to the production of sustainable aviation fuel, the potential net greenhouse gas emissions impact of such fuel on a lifecycle basis, which shall include potential direct and indirect greenhouse gas emissions (including resulting from changes in land use).

(c) ADDITIONAL CONSIDERATIONS.—In evaluating projects under subsection (a), the Secretary shall consider—

(1) the benefits of ensuring a variety of feedstocks for sustainable aviation fuels;

(2) the use of direct air capture;

(3) aeronautical construction and design improvements that result in more efficient aircraft, including high-performance lightweight materials;

(4) more efficient aircraft engines, including hybrid engines and electric engines suitable for fully or partially powering aircraft operations; and

(5) air traffic management and navigation technologies that permit more efficient flight patterns.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$200,000,000 for each of fiscal years 2021 through 2025 to carry out this section.

(e) FUNDING DISTRIBUTION.—Of the amount made available under subsection (d), 50 percent of such amount shall be awarded for projects described in subsection (a)(1) and 50 percent shall be awarded for projects described in subsection (a)(2).

(f) REPORT.—Not later than October 1, 2026, the Secretary shall submit to the Committee on Commerce, Science, and Transportation and the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives a report describing the results of the grant program under this section. The report shall include the following:

(1) A description of the entities and projects that received grants or other cost-sharing agreements under this section.

(2) A detailed explanation of why each entity received the type of funding disbursement such entity did.

(3) A description of whether the program is leading to an increase in the production and deployment of sustainable aviation fuels and use of low-emission aviation technologies by United States aviation and aerospace industry stakeholders.

(4) A description of the economic impacts resulting from the funding to and operation of the project.

(g) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term “eligible entity” means—

(A) a State or local government other than an airport sponsor;

(B) an air carrier;

(C) an airport sponsor;

(D) an accredited institution of higher education;

(E) a person or entity engaged in the production, transportation, blending or storage of sustainable aviation fuels or feedstocks that could be used to produce sustainable aviation fuels;

(F) a person or entity engaged in the development, demonstration, or application of low-emission aviation technologies; or

(G) nonprofit entities or nonprofit consortia with experience in sustainable aviation fuels, low-emission technology, or other clean transportation research programs.

(2) LOW-EMISSION AVIATION TECHNOLOGY.—The term “low-emission aviation technology” means technologies that significantly—

(A) improve aircraft fuel efficiency;

(B) increase utilization of sustainable aviation fuel; or

(C) reduce greenhouse gas emissions produced during operation of civil aircraft.

(3) SUSTAINABLE AVIATION FUEL.—The term “sustainable aviation fuel” means liquid fuel consisting of synthesized hydrocarbons that—

(A) meets the requirements of ASTM International Standard D7566;

(B) is derived from biomass (as such term is defined in section 45K(c)(3) of the Internal Revenue Code of 1986), waste streams, renewable energy sources or gaseous carbon oxides;

(C) conforms to the standards, recommended practices, requirements and criteria, supporting documents, implementation elements, and any other technical guidance for sustainable aviation fuels that are adopted by the International Civil Aviation Organization with the agreement of the United States;

(D) achieves at least a 50 percent reduction in lifecycle greenhouse gas emissions under the standards and related materials specified in subparagraph (C) compared to conventional jet fuel;

(E) is not derived from feedstocks that are developed through practices that threaten mass deforestation, harm biodiversity, or otherwise promote environmentally unsustainable processes; and

(F) is produced in the United States.

#### SEC. 10202. EXPANSION OF VOLUNTARY AIRPORT LOW EMISSION PROGRAM.

(a) PASSENGER FACILITY CHARGE ELIGIBILITY.—Section 40117(a)(3)(G) of title 49, United States Code, is amended by striking “if the airport is located in an air quality nonattainment area (as defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2)) or a maintenance area referred to in section 175A of such Act (42 U.S.C. 7505a)).”.

(b) AIRPORT IMPROVEMENT PROGRAM ELIGIBILITY.—

(1) EXPANSION.—

(A) AIRPORT FACILITIES.—Section 47102(3)(K) of title 49, United States Code, is amended by striking “if the airport is located in an air quality nonattainment or maintenance area (as defined in sections 171(2) and 175A of the Clean Air Act (42 U.S.C. 7501(2); 7505a)).”.

(B) ACQUISITION OF VEHICLES.—Section 47102(3)(L) of title 49, United States Code, is amended by striking “if the airport is located in an air quality nonattainment or maintenance area (as defined in sections 171(2) and 175A of the Clean Air Act (42 U.S.C. 7501(2); 7505a)).”.

(2) PRIORITY OF VALE PROJECTS.—Chapter 471 of title 49, United States Code, is amended by adding at the end the following:

#### “§47145. Priority of vale projects

“In considering applications for projects described in section subparagraphs (K) and (L) of section 47102(3), the Secretary shall prioritize Federal funding for airports in areas located in an air quality nonattainment area (as such term is defined in section 171(2) of the Clean Air Act (42 U.S.C. 7501(2)) or maintenance area (as such term is defined in sections 175A of the Clean Air Act (42 U.S.C. 7505a)).”.

(3) CONFORMING AMENDMENT.—The analysis for chapter 471 of title 49, United States Code, is amended by adding at the end the following:

“47145. Priority of vale projects.”.

#### SEC. 10203. STUDY AND DEVELOPMENT OF SUSTAINABLE AVIATION FUELS.

There is authorized to be appropriated from the general fund of the Treasury to the Administrator of the Federal Aviation Administration \$30,000,000 for each of fiscal years 2021 through 2025 for the study and development of sustainable aviation fuels.

#### SEC. 10204. CENTER OF EXCELLENCE FOR ALTERNATIVE JET FUELS AND ENVIRONMENT.

There is authorized to be appropriated from the general fund of the Treasury to the Administrator of the Federal Aviation Administration \$5,000,000 for each of fiscal years 2021 through 2025 to be used exclusively for work performed by the Center of Excellence for Alternative Jet Fuels and Environment, including programs to

assess and reduce the environmental impacts of aviation and to improve the health and quality of life of individuals living in and around airport communities.

**SEC. 10205. NATIONAL EVALUATION OF AVIATION AND AEROSPACE SOLUTIONS TO CLIMATE CHANGE.**

(a) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Secretary of Transportation shall seek to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine to conduct a study on climate change mitigation efforts with respect to the civil aviation and aerospace industries.

(b) **STUDY CONTENTS.**—In conducting the study under subsection (a), the National Academies shall—

(1) identify climate change mitigation efforts, including efforts relating to emerging technologies, in the civil aviation and aerospace industries;

(2) develop and apply an appropriate indicator for assessing the effectiveness of such efforts;

(3) identify gaps in such efforts;

(4) identify barriers preventing expansion of such efforts; and

(5) develop recommendations with respect to such efforts.

(c) **REPORTS.**—

(1) **FINDINGS OF STUDY.**—Not later than 1 year after the date on which the Secretary enters into an agreement for a study pursuant to subsection (a), the Secretary shall submit to the appropriate congressional committees the findings of the study.

(2) **ASSESSMENT.**—Not later than 180 days after the date on which the Secretary submits the findings pursuant to paragraph (1), the Secretary, acting through the Administrator of the Federal Aviation Administration, shall submit to the appropriate congressional committees a report that contains an assessment of the findings.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated from the general fund of the Treasury to the Secretary to carry out this section \$1,500,000.

(e) **DEFINITIONS.**—In this section:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means the Committee on Transportation and Infrastructure of the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and other congressional committees determined appropriate by the Secretary.

(2) **CLIMATE CHANGE MITIGATION EFFORTS.**—The term “climate change mitigation efforts” means efforts, including the use of technologies, materials, processes, or practices, that contribute to the reduction of greenhouse gas emissions.

**DIVISION F—INVESTMENT IN WATER RESOURCES AND WATER-RELATED INFRASTRUCTURE**

**SEC. 20001. SHORT TITLE.**

This division may be cited as the “Water Infrastructure Investment, Job Creation, and Economic Stability Act”.

**TITLE I—CRITICAL WATER RESOURCES INVESTMENTS**

**SEC. 21001. USE OF HARBOR MAINTENANCE TRUST FUND TO SUPPORT NAVIGATION.**

Section 210 of the Water Resources Development Act of 1986 (33 U.S.C. 2238) is amended—

(1) in the section heading, by striking “**AUTHORIZATION OF APPROPRIATIONS**” and inserting “**FUNDING FOR NAVIGATION**”; and

(2) by adding at the end the following:

“(g) **ADJUSTMENTS TO DISCRETIONARY SPENDING LIMITS.**—Amounts made available from the Harbor Maintenance Trust Fund under this section or section 9505 of the Internal Revenue

Code of 1986 shall be made available in accordance with section 14003 of division B of the Coronavirus Aid, Relief, and Economic Security Act (Public Law 116-136).”.

**SEC. 21002. ANNUAL REPORT TO CONGRESS.**

Section 330 of the Water Resources Development Act of 1992 (26 U.S.C. 9505 note; 106 Stat. 4851) is amended—

(1) in subsection (a)—

(A) by striking “and annually thereafter,” and inserting “and annually thereafter concurrent with the submission of the President’s annual budget request to Congress,”; and

(B) by striking “Public Works and Transportation” and inserting “Transportation and Infrastructure”; and

(2) in subsection (b)(1) by adding at the end the following:

“(D) A description of the expected expenditures from the trust fund to meet the needs of navigation for the fiscal year of the budget request.”.

**SEC. 21003. HARBOR MAINTENANCE TRUST FUND DISCRETIONARY SPENDING LIMIT ADJUSTMENT.**

(a) **IN GENERAL.**—Section 14003 of division B of the CARES Act (Public Law 116-136) is amended to read as follows:

“SEC. 14003. Section 251(b)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(b)(2)) is amended by adding at the end the following:

“(H) **HARBOR MAINTENANCE ACTIVITIES.**—If, for any fiscal year, appropriations for the Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts of the Corps of Engineers are enacted that are derived from the Harbor Maintenance Trust Fund established under section 9505(a) of the Internal Revenue Code of 1986 and that the Congress designates in statute as being for harbor operations and maintenance activities, then the adjustment for that fiscal year shall be the total of such appropriations that are derived from such Fund and designated as being for harbor operations and maintenance activities.”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect as if included in the enactment of the CARES Act (Public Law 116-136).

**SEC. 21004. APPROPRIATIONS FOR CONSTRUCTION, INLAND WATERWAYS, OPERATION AND MAINTENANCE.**

The following sums are hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2020, and for other purposes, namely:

(1) For an additional amount for “Corps of Engineers—Civil—Department of the Army—Construction”, \$10,000,000,000, to remain available until expended: Provided, That not more than \$3,000,000,000 shall be available for costs of construction, replacement, rehabilitation, and expansion of inland waterways projects, with one-half of such costs paid from the Inland Waterways Trust Fund and one-half from the general fund of the Treasury; Provided further, That not less than \$500,000,000 shall be available for water-related environmental infrastructure assistance.

(2) For an additional amount for “Corps of Engineers—Civil—Department of the Army—Operation and Maintenance”, \$5,000,000,000, to remain available until expended.

**TITLE II—CRITICAL CLEAN WATER INVESTMENTS**

**Subtitle A—Water Quality Protection and Job Creation Act**

**SEC. 22101. SHORT TITLE.**

This subtitle may be cited as the “Water Quality Protection and Job Creation Act of 2020”.

**SEC. 22102. WASTEWATER INFRASTRUCTURE WORKFORCE INVESTMENT.**

Section 104(g) of the Federal Water Pollution Control Act (33 U.S.C. 1254(g)) is amended—

(1) in paragraph (1), by striking “manpower” each place it appears and inserting “workforce”; and

(2) by amending paragraph (4) to read as follows:

“(4) **REPORT TO CONGRESS ON PUBLICLY OWNED TREATMENT WORKS WORKFORCE DEVELOPMENT.**—Not later than 2 years after the date of enactment of the Water Quality Protection and Job Creation Act of 2020, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report containing—

“(A) an assessment of the current and future workforce needs for publicly owned treatment works, including an estimate of the number of future positions needed for such treatment works and the technical skills and education needed for such positions;

“(B) a summary of actions taken by the Administrator, including Federal investments under this chapter, that promote workforce development to address such needs; and

“(C) any recommendations of the Administrator to address such needs.”.

**SEC. 22103. STATE MANAGEMENT ASSISTANCE.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—Section 106(a) of the Federal Water Pollution Control Act (33 U.S.C. 1256(a)) is amended—

(1) by striking “and” at the end of paragraph (1); and

(2) by inserting after paragraph (2) the following:

“(3) such sums as may be necessary for each of fiscal years 1991 through 2020;

“(4) \$300,000,000 for fiscal year 2021;

“(5) \$300,000,000 for fiscal year 2022;

“(6) \$300,000,000 for fiscal year 2023;

“(7) \$300,000,000 for fiscal year 2024; and

“(8) \$300,000,000 for fiscal year 2025.”.

(b) **TECHNICAL AMENDMENT.**—Section 106(e) of the Federal Water Pollution Control Act (33 U.S.C. 1256(e)) is amended by striking “Beginning in fiscal year 1974 the” and inserting “The”.

**SEC. 22104. WATERSHED, WET WEATHER, AND RESILIENCY PROJECTS.**

(a) **INCREASED RESILIENCY OF TREATMENT WORKS.**—Section 122(a)(6) of the Federal Water Pollution Control Act (33 U.S.C. 1274(a)(6)) is amended to read as follows:

“(6) **INCREASED RESILIENCY OF TREATMENT WORKS.**—Efforts—

“(A) to assess future risks and vulnerabilities of publicly owned treatment works to manmade or natural disasters, including extreme weather events and sea level rise; and

“(B) to carry out the planning, designing, or constructing of projects, on a systemwide or areawide basis, to increase the resiliency of publicly owned treatment works through—

“(i) the conservation of water or the enhancement of water use efficiency;

“(ii) the enhancement of wastewater (including stormwater) management by increasing watershed preservation and protection, including through—

“(I) the use of green infrastructure; or

“(II) the reclamation and reuse of wastewater (including stormwater), such as through aquifer recharge zones;

“(iii) the modification or relocation of an existing publicly owned treatment works at risk of being significantly impaired or damaged by a manmade or natural disaster; or

“(iv) the enhancement of energy efficiency, or the use or generation of recovered or renewable energy, in the management, treatment, or conveyance of wastewater (including stormwater).”.

(b) **REQUIREMENTS; AUTHORIZATION OF APPROPRIATIONS.**—Section 122 of the Federal Water Pollution Control Act (33 U.S.C. 1274) is amended by striking subsection (c) and inserting the following:

“(c) **REQUIREMENTS.**—The requirements of section 608 shall apply to any construction, alteration, maintenance, or repair of treatment works receiving a grant under this section.

“(d) ASSISTANCE.—The Administrator shall use not less than 15 percent of the amounts appropriated pursuant to this section in a fiscal year to provide assistance to municipalities with a population of less than 10,000, to the extent there are sufficient eligible applications.

“(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,000,000,000, to remain available until expended.”.

(c) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) WATERSHED PILOT PROJECTS.—Section 122 of the Federal Water Pollution Control Act (33 U.S.C. 1274) is amended—

(A) in the section heading, by striking “**WATERSHED PILOT PROJECTS**” and inserting “**WATERSHED, WET WEATHER, AND RESILIENCY PROJECTS**”; and

(B) by striking “pilot” each place it appears.

(2) WATER POLLUTION CONTROL REVOLVING LOAN FUNDS.—Section 603(c)(7) of the Federal Water Pollution Control Act (33 U.S.C. 1383(c)(7)) is amended by striking “watershed”.

**SEC. 22105. PILOT PROGRAM FOR ALTERNATIVE WATER SOURCE PROJECTS.**

(a) SELECTION OF PROJECTS.—Section 220(d) of the Federal Water Pollution Control Act (33 U.S.C. 1300(d)) is amended—

(1) by amending paragraph (1) to read as follows:

“(1) LIMITATION ON ELIGIBILITY.—A project that has received construction funds under the Reclamation Projects Authorization and Adjustment Act of 1992 shall not be eligible for grant assistance under this section.”; and

(2) by striking paragraph (2) and redesignating paragraph (3) as paragraph (2).

(b) COMMITTEE RESOLUTION PROCEDURE; ASSISTANCE.—Section 220 of the Federal Water Pollution Control Act (33 U.S.C. 1300) is amended by striking subsection (e) and inserting the following:

“(e) ASSISTANCE.—The Administrator shall use not less than 15 percent of the amounts appropriated pursuant to this section in a fiscal year to provide assistance to eligible entities for projects designed to serve fewer than 10,000 individuals, to the extent there are sufficient eligible applications.”.

(c) COST SHARING.—Section 220(g) of the Federal Water Pollution Control Act (33 U.S.C. 1300(g)) is amended—

(1) by striking “The Federal share” and inserting the following:

“(1) IN GENERAL.—Except as provided in paragraph (2), the Federal share”; and

(2) by adding at the end the following:

“(2) RECLAMATION AND REUSE PROJECTS.—For an alternative water source project that has received funds under the Reclamation Projects Authorization and Adjustment Act of 1992 (other than funds referred to in subsection (d)(1)), the total Federal share of the costs of the project shall not exceed 25 percent or \$20,000,000, whichever is less.”.

(d) REQUIREMENTS.—Section 220 of the Federal Water Pollution Control Act (33 U.S.C. 1300) is amended by redesignating subsections (i) and (j) as subsections (j) and (k), respectively, and inserting after subsection (h) the following:

“(i) REQUIREMENTS.—The requirements of section 608 shall apply to any construction of an alternative water source project carried out using assistance made available under this section.”.

(e) DEFINITIONS.—Section 220(j)(1) of the Federal Water Pollution Control Act (as redesignated by subsection (d) of this section) is amended by striking “or wastewater or by treating wastewater” and inserting “, wastewater, or stormwater or by treating wastewater or stormwater”.

(f) AUTHORIZATION OF APPROPRIATIONS.—Section 220(k) of the Federal Water Pollution Control Act (as redesignated by subsection (d) of this section) is amended by striking “\$75,000,000 for fiscal years 2002 through 2004” and inserting “\$600,000,000”.

## **SEC. 22106. SEWER OVERFLOW AND STORMWATER REUSE MUNICIPAL GRANTS.**

Section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301) is amended—

(1) in subsection (c), by striking “subsection (b),” each place it appears and inserting “this section.”;

(2) in subsection (d)—

(A) by striking “The Federal share” and inserting the following:

“(1) FEDERAL SHARE.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the Federal share”; and

(B) by striking “The non-Federal share” and inserting the following:

“(B) FINANCIALLY DISTRESSED COMMUNITIES.—The Federal share of the cost of activities carried out using amounts from a grant made to a financially distressed community under subsection (a) shall be not less than 75 percent of the cost.

“(2) NON-FEDERAL SHARE.—The non-Federal share”; and

(3) in subsection (e), by striking “section 513” and inserting “section 513, or the requirements of section 608.”; and

(4) in subsection (f)—

(A) in paragraph (1), by inserting “, and \$400,000,000 for each of fiscal years 2021 through 2025” before the period at the end; and

(B) by adding at the end the following:

“(3) ASSISTANCE.—In carrying out subsection (a), the Administrator shall ensure that, of the amounts granted to municipalities in a State, not less than 20 percent is granted to municipalities with a population of less than 20,000, to the extent there are sufficient eligible applications.”.

## **SEC. 22107. REPORTS TO CONGRESS.**

Section 516(b)(1) of the Federal Water Pollution Control Act (33 U.S.C. 1375(b)(1)) is amended—

(1) by striking “, of the cost of construction” and inserting “, of (i) the cost of construction”; and

(2) by striking “each of the States,” and inserting “each of the States, and (ii) the costs to implement measures necessary to address the resilience and sustainability of publicly owned treatment works to manmade or natural disasters.”.

## **SEC. 22108. INDIAN TRIBES.**

Section 518(c) of the Federal Water Pollution Control Act (33 U.S.C. 1377(c)) is amended—

(1) by striking paragraphs (1) and (2) and inserting the following:

“(1) IN GENERAL.—For each fiscal year, the Administrator shall reserve, of the funds made available to carry out title VI (before allotments to the States under section 604(a)), the greater of—

“(A) 2 percent of such funds; or

“(B) \$30,000,000.

“(2) USE OF FUNDS.—

“(A) GRANTS.—Funds reserved under this subsection shall be available only for grants to entities described in paragraph (3) for—

“(i) projects and activities eligible for assistance under section 603(c); and

“(ii) training, technical assistance, and educational programs relating to the operation and management of treatment works eligible for assistance pursuant to section 603(c).

“(B) LIMITATION.—Not more than \$2,000,000 of the reserved funds may be used for grants under subparagraph (A)(ii).”; and

(2) in paragraph (3)—

(A) in the header, by striking “USE OF FUNDS” and inserting “ELIGIBLE ENTITIES”; and

(B) by striking “for projects and activities eligible for assistance under section 603(c) to serve” and inserting “to”.

## **SEC. 22109. CAPITALIZATION GRANTS.**

Section 602(b) of the Federal Water Pollution Control Act (33 U.S.C. 1382(b)) is amended—

(1) in paragraph (13)(B)—

(A) in the matter preceding clause (i), by striking “and energy conservation” and insert-

ing “and efficient energy use (including through the implementation of technologies to recapture and reuse energy produced in the treatment of wastewater)”;

(B) in clause (iii), by striking “; and” and inserting a semicolon;

(2) in paragraph (14), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(15) to the extent there are sufficient projects or activities eligible for assistance from the fund, with respect to funds for capitalization grants received by the State under this title and section 205(m), the State will use not less than 15 percent of such funds for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities.”.

## **SEC. 22110. WATER POLLUTION CONTROL REVOLVING LOAN FUNDS.**

Section 603(i) of the Federal Water Pollution Control Act (33 U.S.C. 1383(i)) is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A), by striking “, including forgiveness of principal and negative interest loans” and inserting “(including in the form of forgiveness of principal, negative interest loans, or grants)”;

(B) in subparagraph (A)—

(i) in the matter preceding clause (i), by striking “in assistance”; and

(ii) in clause (ii)(III), by striking “to such ratepayers” and inserting “to help such ratepayers maintain access to wastewater and stormwater treatment services”; and

(2) by amending paragraph (3) to read as follows:

“(3) SUBSIDIZATION AMOUNTS.—

“(A) IN GENERAL.—A State may use for providing additional subsidization in a fiscal year under this subsection an amount that does not exceed the greater of—

“(i) 30 percent of the total amount received by the State in capitalization grants under this title for the fiscal year; or

“(ii) the annual average over the previous 10 fiscal years of the amounts deposited by the State in the State water pollution control revolving fund from State moneys that exceed the amounts required to be so deposited under section 602(b)(2).

“(B) MINIMUM.—For each of fiscal years 2021 through 2025, to the extent there are sufficient applications for additional subsidization under this subsection that meet the criteria under paragraph (1)(A), a State shall use for providing additional subsidization in a fiscal year under this subsection an amount that is not less than 10 percent of the total amount received by the State in capitalization grants under this title for the fiscal year.”.

## **SEC. 22111. ALLOTMENT OF FUNDS.**

(a) FORMULA.—Section 604(a) of the Federal Water Pollution Control Act (33 U.S.C. 1384(a)) is amended by striking “each of fiscal years 1989 and 1990” and inserting “each fiscal year”.

(b) WASTEWATER INFRASTRUCTURE WORKFORCE DEVELOPMENT.—Section 604 of the Federal Water Pollution Control Act (33 U.S.C. 1384) is amended by adding at the end the following:

“(d) WASTEWATER INFRASTRUCTURE WORKFORCE DEVELOPMENT.—A State may reserve each fiscal year up to 1 percent of the sums allotted to the State under this section for the fiscal year to carry out workforce development, training, and retraining activities described in section 104(g).”.

## **SEC. 22112. RESERVATION OF FUNDS FOR TERRITORIES OF THE UNITED STATES.**

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.) is amended by striking section 607 and inserting the following:

## **“SEC. 607. RESERVATION OF FUNDS FOR TERRITORIES OF THE UNITED STATES.**

“(a) IN GENERAL.—

“(1) RESERVATION.—For each fiscal year, the Administrator shall reserve 1.5 percent of available funds, as calculated in accordance with paragraph (2).

“(2) **CALCULATION OF AVAILABLE FUNDS.**—The amount of available funds shall be calculated by subtracting the amount of any funds reserved under section 518(c) from the amount of funds made available to carry out this title (before allotments to the States under section 604(a)).

“(b) **USE OF FUNDS.**—Funds reserved under this section shall be available only for grants to American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the Virgin Islands for projects and activities eligible for assistance under section 603(c).

“(c) **LIMITATION.**—American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the Virgin Islands may not receive funds allotted under section 604(a).”.

#### **SEC. 22113. AUTHORIZATION OF APPROPRIATIONS.**

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.) is amended by adding at the end the following:

#### **“SEC. 609. AUTHORIZATION OF APPROPRIATIONS.**

“There are authorized to be appropriated to carry out this title the following sums:

“(1) \$8,000,000,000 for fiscal year 2021.

“(2) \$8,000,000,000 for fiscal year 2022.

“(3) \$8,000,000,000 for fiscal year 2023.

“(4) \$8,000,000,000 for fiscal year 2024.

“(5) \$8,000,000,000 for fiscal year 2025.”.

#### **SEC. 22114. TECHNICAL ASSISTANCE BY MUNICIPAL OMBUDSMAN.**

Section 4(b)(1) of the Water Infrastructure Improvement Act (42 U.S.C. 4370j(b)(1)) is amended to read as follows:

“(1) technical and planning assistance to support municipalities, including municipalities that are rural, small, and tribal communities, in achieving and maintaining compliance with enforceable deadlines, goals, and requirements of the Federal Water Pollution Control Act; and”.

#### **SEC. 22115. REPORT ON FINANCIAL CAPABILITY OF MUNICIPALITIES.**

(a) **REVIEW.**—The Administrator of the Environmental Protection Agency shall conduct a review of existing implementation guidance of the Agency for evaluating the financial resources a municipality has available to implement the requirements of the Federal Water Pollution Control Act to determine whether, and if so, how, such guidance needs to be revised.

(b) **CONSIDERATIONS.**—In conducting the review under subsection (a), the Administrator shall consider—

(1) the report by the National Academy of Public Administration prepared for the Environmental Protection Agency entitled “Developing a New Framework for Community Affordability of Clean Water Services”, dated October 2017;

(2) the report developed by the National Environmental Justice Advisory Council entitled “EPA’s Role in Addressing the Urgent Water Infrastructure Needs of Environmental Justice Communities”, dated August 2018, and made available on the website of the Administrator in March 2019;

(3) the report prepared for the American Water Works Association, the National Association of Clean Water Agencies, and the Water Environment Federation entitled “Developing a New Framework for Household Affordability and Financial Capability Assessment in the Water Sector”, dated April 17, 2019;

(4) the recommendations of the Environmental Financial Advisory Board related to municipal financial capability assessments, prepared at the request of the Administrator; and

(5) any other information the Administrator considers appropriate.

(c) **ENGAGEMENT AND TRANSPARENCY.**—In conducting the review under subsection (a), the Administrator shall—

(1) after providing public notice, consult with, and solicit advice and recommendations from, State and local governmental officials and other stakeholders, including nongovernmental organizations; and

(2) ensure transparency in the consultation process.

(d) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate, and make publicly available, a report on the results of the review conducted under subsection (a), including any recommendations for revisions to the guidance.

#### **SEC. 22116. EMERGING CONTAMINANTS.**

(a) **IN GENERAL.**—The Administrator of the Environmental Protection Agency shall award grants to owners and operators of publicly owned treatment works to be used for the implementation of a pretreatment standard or effluent limitation developed by the Administrator for the introduction or discharge of a perfluoroalkyl or polyfluoroalkyl substance or other pollutant identified by the Administrator as a potential contaminant of emerging concern.

(b) **DEFINITIONS.**—In this section:

(1) **DISCHARGE.**—The term “discharge” has the meaning given that term in section 502 of the Federal Water Pollution Control Act (33 U.S.C. 1362).

(2) **EFFLUENT LIMITATION.**—The term “effluent limitation” means an effluent limitation under section 301(b) of the Federal Water Pollution Control Act (33 U.S.C. 1311).

(3) **INTRODUCTION.**—The term “introduction” means the introduction of pollutants into treatment works, as described in section 307(b) of the Federal Water Pollution Control Act (33 U.S.C. 1317).

(4) **PRETREATMENT STANDARD.**—The term “pretreatment standard” means a pretreatment standard under section 307(b) of the Federal Water Pollution Control Act (33 U.S.C. 1317).

(5) **TREATMENT WORKS.**—The term “treatment works” has the meaning given that term in section 212 of the Federal Water Pollution Control Act (33 U.S.C. 1292).

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section the following sums:

(1) \$200,000,000 for fiscal year 2021.

(2) \$200,000,000 for fiscal year 2022.

(3) \$200,000,000 for fiscal year 2023.

(4) \$200,000,000 for fiscal year 2024.

(5) \$200,000,000 for fiscal year 2025.

#### **Subtitle B—Local Water Protection**

#### **SEC. 22201. NONPOINT SOURCE MANAGEMENT PROGRAMS.**

Section 319(j) of the Federal Water Pollution Control Act (33 U.S.C. 1329(j)) is amended by striking “subsections (h) and (i) not to exceed” and all that follows through “fiscal year 1991” and inserting “subsections (h) and (i) \$200,000,000 for each of fiscal years 2021 through 2025”.

#### **Subtitle C—Critical Regional Infrastructure Investments**

#### **SEC. 22301. REAUTHORIZATION OF CHESAPEAKE BAY PROGRAM.**

Section 117(j) of the Federal Water Pollution Control Act (33 U.S.C. 1267(j)) is amended by striking “\$40,000,000 for each of fiscal years 2001 through 2005” and inserting “\$90,000,000 for fiscal year 2021, \$90,500,000 for fiscal year 2022, \$91,000,000 for fiscal year 2023, \$91,500,000 for fiscal year 2024, and \$92,000,000 for fiscal year 2025”.

#### **SEC. 22302. SAN FRANCISCO BAY RESTORATION GRANT PROGRAM.**

Title I of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) is amended by adding at the end the following:

#### **“SEC. 124. SAN FRANCISCO BAY RESTORATION GRANT PROGRAM.**

“(a) **DEFINITIONS.**—In this section:

“(1) **ESTUARY PARTNERSHIP.**—The term ‘Estuary Partnership’ means the San Francisco Estuary Partnership, designated as the management conference for the San Francisco Bay under section 320.

“(2) **SAN FRANCISCO BAY PLAN.**—The term ‘San Francisco Bay Plan’ means—

“(A) until the date of the completion of the plan developed by the Director under subsection (d), the comprehensive conservation and management plan approved under section 320 for the San Francisco Bay estuary; and

“(B) on and after the date of the completion of the plan developed by the Director under subsection (d), the plan developed by the Director under subsection (d).

“(b) **PROGRAM OFFICE.**—

“(1) **ESTABLISHMENT.**—The Administrator shall establish in the Environmental Protection Agency a San Francisco Bay Program Office. The Office shall be located at the headquarters of Region 9 of the Environmental Protection Agency.

“(2) **APPOINTMENT OF DIRECTOR.**—The Administrator shall appoint a Director of the Office, who shall have management experience and technical expertise relating to the San Francisco Bay and be highly qualified to direct the development and implementation of projects, activities, and studies necessary to implement the San Francisco Bay Plan.

“(3) **DELEGATION OF AUTHORITY; STAFFING.**—The Administrator shall delegate to the Director such authority and provide such staff as may be necessary to carry out this section.

“(c) **ANNUAL PRIORITY LIST.**—

“(1) **IN GENERAL.**—After providing public notice, the Director shall annually compile a priority list, consistent with the San Francisco Bay Plan, identifying and prioritizing the projects, activities, and studies to be carried out with amounts made available under subsection (e).

“(2) **INCLUSIONS.**—The annual priority list compiled under paragraph (1) shall include the following:

“(A) Projects, activities, and studies, including restoration projects and habitat improvement for fish, waterfowl, and wildlife, that advance the goals and objectives of the San Francisco Bay Plan, for—

“(i) water quality improvement, including the reduction of marine litter;

“(ii) wetland, riverine, and estuary restoration and protection;

“(iii) nearshore and endangered species recovery; and

“(iv) adaptation to climate change.

“(B) Information on the projects, activities, and studies specified under subparagraph (A), including—

“(i) the identity of each entity receiving assistance pursuant to subsection (e); and

“(ii) a description of the communities to be served.

“(C) The criteria and methods established by the Director for identification of projects, activities, and studies to be included on the annual priority list.

“(3) **CONSULTATION.**—In compiling the annual priority list under paragraph (1), the Director shall consult with, and consider the recommendations of—

“(A) the Estuary Partnership;

“(B) the State of California and affected local governments in the San Francisco Bay estuary watershed;

“(C) the San Francisco Bay Restoration Authority; and

“(D) any other relevant stakeholder involved with the protection and restoration of the San Francisco Bay estuary that the Director determines to be appropriate.

“(d) **SAN FRANCISCO BAY PLAN.**—

“(1) **IN GENERAL.**—Not later than 5 years after the date of enactment of this section, the Director, in conjunction with the Estuary Partnership, shall review and revise the comprehensive conservation and management plan approved under section 320 for the San Francisco Bay estuary to develop a plan to guide the projects, activities, and studies of the Office to address the restoration and protection of the San Francisco Bay.

“(2) REVISION OF SAN FRANCISCO BAY PLAN.—Not less often than once every 5 years after the date of the completion of the plan described in paragraph (1), the Director shall review, and revise as appropriate, the San Francisco Bay Plan.

“(3) OUTREACH.—In carrying out this subsection, the Director shall consult with the Estuary Partnership and Indian tribes and solicit input from other non-Federal stakeholders.

“(e) GRANT PROGRAM.—

“(1) IN GENERAL.—The Director may provide funding through cooperative agreements, grants, or other means to State and local agencies, special districts, and public or nonprofit agencies, institutions, and organizations, including the Estuary Partnership, for projects, activities, and studies identified on the annual priority list compiled under subsection (c).

“(2) MAXIMUM AMOUNT OF GRANTS; NON-FEDERAL SHARE.—

“(A) MAXIMUM AMOUNT OF GRANTS.—Amounts provided to any entity under this section for a fiscal year shall not exceed an amount equal to 75 percent of the total cost of any projects, activities, and studies that are to be carried out using those amounts.

“(B) NON-FEDERAL SHARE.—Not less than 25 percent of the cost of any project, activity, or study carried out using amounts provided under this section shall be provided from non-Federal sources.

“(f) FUNDING.—

“(1) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$25,000,000 for each of fiscal years 2021 through 2025.

“(2) ADMINISTRATIVE EXPENSES.—Of the amount made available to carry out this section for a fiscal year, the Director may not use more than 5 percent to pay administrative expenses incurred in carrying out this section.

“(3) PROHIBITION.—No amounts made available under this section may be used for the administration of a management conference under section 320.

“(g) ANNUAL BUDGET PLAN.—In each of fiscal years 2021 through 2025, the President, as part of the annual budget submission of the President to Congress under section 1105(a) of title 31, United States Code, shall submit information regarding each Federal department and agency involved in San Francisco Bay protection and restoration, including—

“(1) a report that displays for each Federal agency—

“(A) the amounts obligated in the preceding fiscal year for protection and restoration projects, activities, and studies relating to the San Francisco Bay; and

“(B) the proposed budget for protection and restoration projects, activities, and studies relating to the San Francisco Bay; and

“(2) a description and assessment of the Federal role in the implementation of the San Francisco Bay Plan and the specific role of each Federal department and agency involved in San Francisco Bay protection and restoration, including specific projects, activities, and studies conducted or planned to achieve the identified goals and objectives of the San Francisco Bay Plan.”.

#### SEC. 22303. PUGET SOUND COORDINATED RECOVERY.

Title I of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) is further amended by adding at the end the following:

##### “SEC. 125. PUGET SOUND.

“(a) DEFINITIONS.—In this section, the following definitions apply:

“(1) COASTAL NONPOINT POLLUTION CONTROL PROGRAM.—The term ‘Coastal Nonpoint Pollution Control Program’ means the State of Washington’s Coastal Nonpoint Pollution Control Program approved by the Secretary of Commerce as required under section 6217 of the Coastal Zone Act Reauthorization Amendments of 1990.

“(2) DIRECTOR.—The term ‘Director’ means the Director of the Program Office.

“(3) FEDERAL ACTION PLAN.—The term ‘Federal Action Plan’ means the plan developed under subsection (d)(2)(B).

“(4) INTERNATIONAL JOINT COMMISSION.—The term ‘International Joint Commission’ means the International Joint Commission established by the United States and Canada under the International Boundary Waters Treaty of 1909 (36 Stat. 2448).

“(5) PACIFIC SALMON COMMISSION.—The term ‘Pacific Salmon Commission’ means the Pacific Salmon Commission established by the United States and Canada under the Treaty between the Government of the United States of America and the Government of Canada Concerning Pacific Salmon, signed at Ottawa, January 28, 1985 (commonly known as the ‘Pacific Salmon Treaty’).

“(6) PROGRAM OFFICE.—The term ‘Program Office’ means the Puget Sound Recovery National Program Office established by subsection (c).

“(7) PUGET SOUND ACTION AGENDA; ACTION AGENDA.—The term ‘Puget Sound Action Agenda’ or ‘Action Agenda’ means the most recent plan developed by the Puget Sound National Estuary Program Management Conference, in consultation with the Puget Sound Tribal Management Conference, and approved by the Administrator as the comprehensive conservation and management plan for Puget Sound under section 320.

“(8) PUGET SOUND FEDERAL LEADERSHIP TASK FORCE.—The term ‘Puget Sound Federal Leadership Task Force’ means the Puget Sound Federal Leadership Task Force established under subsection (d).

“(9) PUGET SOUND FEDERAL TASK FORCE.—The term ‘Puget Sound Federal Task Force’ means the Puget Sound Federal Task Force established in 2016 under a memorandum of understanding among 9 Federal agencies.

“(10) PUGET SOUND NATIONAL ESTUARY PROGRAM MANAGEMENT CONFERENCE; MANAGEMENT CONFERENCE.—The term ‘Puget Sound National Estuary Program Management Conference’ or ‘Management Conference’ means the management conference for Puget Sound convened pursuant to section 320.

“(11) PUGET SOUND PARTNERSHIP.—The term ‘Puget Sound Partnership’ means the State agency that is established under the laws of the State of Washington (section 90.71.210 of the Revised Code of Washington), or its successor agency, that has been designated by the Administrator as the lead entity to support the Puget Sound National Estuary Program Management Conference.

“(12) PUGET SOUND REGION.—

“(A) IN GENERAL.—The term ‘Puget Sound region’ means the land and waters in the northwest corner of the State of Washington from the Canadian border to the north to the Pacific Ocean on the west, including Hood Canal and the Strait of Juan de Fuca.

“(B) INCLUSION.—The term ‘Puget Sound region’ includes all of the water that falls on the Olympic and Cascade Mountains and flows to meet Puget Sound’s marine waters.

“(13) PUGET SOUND TRIBAL MANAGEMENT CONFERENCE.—The term ‘Puget Sound Tribal Management Conference’ means the 20 treaty Indian tribes of western Washington and the Northwest Indian Fisheries Commission.

“(14) SALISH SEA.—The term ‘Salish Sea’ means the network of coastal waterways on the west coast of North America that includes the Puget Sound, the Strait of Georgia, and the Strait of Juan de Fuca.

“(15) SALMON RECOVERY PLANS.—The term ‘Salmon Recovery Plans’ means the recovery plans for salmon and steelhead species approved by the Secretary of the Interior under section 4(f) of the Endangered Species Act of 1973.

“(16) STATE ADVISORY COMMITTEE.—The term ‘State Advisory Committee’ means the advisory committee established by subsection (e).

“(17) TREATY RIGHTS AT RISK INITIATIVE.—The term ‘Treaty Rights at Risk Initiative’ means the report from the treaty Indian tribes of western Washington entitled ‘Treaty Rights at Risk: Ongoing Habitat Loss, the Decline of the Salmon Resource, and Recommendations for Change’ and dated July 14, 2011, or its successor report, which outlines issues and offers solutions for the protection of Tribal treaty rights, recovery of salmon habitat, and management of sustainable treaty and nontreaty salmon fisheries, including through tribal salmon hatchery programs.

“(b) CONSISTENCY.—All Federal agencies represented on the Puget Sound Federal Leadership Task Force shall act consistently with the protection of Tribal, treaty-reserved rights and, to the greatest extent practicable given such agencies’ existing obligations under Federal law, act consistently with the objectives and priorities of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program, when—

“(1) conducting Federal agency activities within or outside Puget Sound that affect any land or water use or natural resources of Puget Sound and its tributary waters, including activities performed by a contractor for the benefit of a Federal agency;

“(2) interpreting and enforcing regulations that impact the restoration and protection of Puget Sound;

“(3) issuing Federal licenses or permits that impact the restoration and protection of Puget Sound; and

“(4) granting Federal assistance to State, local, and Tribal governments for activities related to the restoration and protection of Puget Sound.

“(c) PUGET SOUND RECOVERY NATIONAL PROGRAM OFFICE.—

“(1) ESTABLISHMENT.—There is established in the Environmental Protection Agency a Puget Sound Recovery National Program Office to be located in the State of Washington.

“(2) DIRECTOR.—

“(A) IN GENERAL.—The Director of the Program Office shall be a career reserved position, as such term is defined in section 3132(a)(8) of title 5, United States Code.

“(B) QUALIFICATIONS.—The Director of the Program Office shall have leadership and project management experience and shall be highly qualified to—

“(i) direct the integration of multiple project planning efforts and programs from different agencies and jurisdictions; and

“(ii) align numerous, and often conflicting, needs toward implementing a shared Action Agenda with visible and measurable outcomes.

“(3) DELEGATION OF AUTHORITY; STAFFING.—Using amounts made available pursuant to subsection (i), the Administrator shall delegate to the Director such authority and provide such staff as may be necessary to carry out this section.

“(4) DUTIES.—The Director shall—

“(A) coordinate and manage the timely execution of the requirements of this section, including the formation and meetings of the Puget Sound Federal Leadership Task Force;

“(B) coordinate activities related to the restoration and protection of Puget Sound across the Environmental Protection Agency;

“(C) coordinate and align the activities of the Administrator with the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program;

“(D) promote the efficient use of Environmental Protection Agency resources in pursuit of Puget Sound restoration and protection;

“(E) serve on the Puget Sound Federal Leadership Task Force and collaborate with, help coordinate, and implement activities with other Federal agencies that have responsibilities involving Puget Sound restoration and protection;

“(F) provide or procure such other advice, technical assistance, research, assessments, monitoring, or other support as is determined by the Director to be necessary or prudent to most efficiently and effectively fulfill the objectives and priorities of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program consistent with the best available science and to ensure the health of the Puget Sound ecosystem;

“(G) track the progress of the Environmental Protection Agency towards meeting the Agency’s specified objectives and priorities within the Action Agenda and the Federal Action Plan;

“(H) implement the recommendations of the Comptroller General, set forth in the report entitled ‘Puget Sound Restoration: Additional Actions Could Improve Assessments of Progress’ and dated July 19, 2018;

“(I) serve as liaison and coordinate activities for the restoration and protection of the Salish Sea, with Canadian authorities, the Pacific Salmon Commission, and the International Joint Commission; and

“(J) carry out such additional duties as the Administrator determines necessary and appropriate.

“(d) **PUGET SOUND FEDERAL LEADERSHIP TASK FORCE.**—

“(1) **ESTABLISHMENT.**—There is established a Puget Sound Federal Leadership Task Force.

“(2) **DUTIES.**—

“(A) **GENERAL DUTIES.**—The Puget Sound Federal Leadership Task Force shall—

“(i) uphold Federal trust responsibilities to restore and protect resources crucial to Tribal treaty rights, including by carrying out government-to-government consultation with Indian tribes when requested by such tribes;

“(ii) provide a venue for dialogue and coordination across all Federal agencies on the Puget Sound Federal Leadership Task Force to align Federal resources for the purposes of carrying out the requirements of this section and all other Federal laws that contribute to the restoration and protection of Puget Sound, including by—

“(I) enabling and encouraging the Federal agencies represented on the Puget Sound Federal Leadership Task Force to act consistently with the objectives and priorities of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program;

“(II) facilitating the coordination of Federal activities that impact the restoration and protection of Puget Sound;

“(III) facilitating the delivery of feedback given by Federal agencies to the Puget Sound Partnership during the development of the Action Agenda;

“(IV) facilitating the resolution of inter-agency conflicts associated with the restoration and protection of Puget Sound among the agencies represented on the Puget Sound Federal Leadership Task Force;

“(V) providing a forum for exchanging information among agencies regarding activities being conducted, including obstacles or efficiencies found, during Puget Sound restoration and protection activities; and

“(VI) promoting the efficient use of government resources in pursuit of Puget Sound restoration and protection through coordination and collaboration, including by ensuring that the Federal efforts relating to the science necessary for restoration and protection of Puget Sound are consistent, and not duplicative, across the Federal Government;

“(iii) catalyze public leaders at all levels to work together toward shared goals by demonstrating interagency best practices coming from the members of the Puget Sound Federal Leadership Task Force;

“(iv) provide advice and support on scientific and technical issues and act as a forum for the exchange of scientific information about Puget Sound;

“(v) identify and inventory Federal environmental research and monitoring programs related to Puget Sound, and provide such inventory to the Puget Sound National Estuary Program Management Conference;

“(vi) ensure that Puget Sound restoration and protection activities are as consistent as practicable with ongoing restoration and protection and related efforts in the Salish Sea that are being conducted by Canadian authorities, the Pacific Salmon Commission, and the International Joint Commission;

“(vii) establish any necessary working groups or advisory committees necessary to assist the Puget Sound Federal Leadership Task Force in its duties, including public policy and scientific issues;

“(viii) raise national awareness of the significance of Puget Sound;

“(ix) work with the Office of Management and Budget to give input on the crosscut budget under subsection (h); and

“(x) submit a biennial report under subsection (g) on the progress made toward carrying out the Federal Action Plan.

“(B) **PUGET SOUND FEDERAL ACTION PLAN.**—

“(i) **IN GENERAL.**—Not later than 5 years after the date of enactment of this section, the Puget Sound Federal Leadership Task Force shall develop and approve a Federal Action Plan that leverages Federal programs across agencies and serves to coordinate diverse programs on a specific suite of priorities on Puget Sound recovery.

“(ii) **REVISION OF PUGET SOUND FEDERAL ACTION PLAN.**—Not less often than once every 5 years after the date of completion of the Federal Action Plan described in clause (i), the Puget Sound Federal Leadership Task Force shall review, and revise as appropriate, the Federal Action Plan.

“(C) **FEEDBACK BY FEDERAL AGENCIES.**—In facilitating feedback under subparagraph (A)(ii)(III), the Puget Sound Federal Leadership Task Force shall request Federal agencies to consider, at a minimum, possible Federal actions designed to—

“(i) further the goals, targets, and actions of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program;

“(ii) implement and enforce this Act, the Endangered Species Act of 1973, and all other Federal laws that contribute to the restoration and protection of Puget Sound, including those that protect Tribal treaty rights;

“(iii) prevent the introduction and spread of invasive species;

“(iv) prevent the destruction of marine and wildlife habitats;

“(v) protect, restore, and conserve forests, wetlands, riparian zones, and nearshore waters that provide marine and wildlife habitat;

“(vi) promote resilience to climate change and ocean acidification effects;

“(vii) conserve and recover endangered species under the Endangered Species Act of 1973;

“(viii) restore fisheries so that they are sustainable and productive;

“(ix) preserve biodiversity;

“(x) restore and protect ecosystem services that provide clean water, filter toxic chemicals, and increase ecosystem resilience; and

“(xi) improve water quality and restore wildlife habitat, including by preventing and managing stormwater runoff, incorporating erosion control techniques and trash capture devices, using sustainable stormwater practices, and mitigating and minimizing nonpoint source pollution, including marine litter.

“(3) **PARTICIPATION OF STATE ADVISORY COMMITTEE AND PUGET SOUND TRIBAL MANAGEMENT CONFERENCE.**—

“(A) **IN GENERAL.**—The Puget Sound Federal Leadership Task Force shall carry out its duties with input from, and in collaboration with, the State Advisory Committee and Puget Sound Tribal Management Conference.

“(B) **SPECIFIC ADVICE AND RECOMMENDATIONS.**—The Puget Sound Federal Leadership

Task Force shall seek the advice and recommendations of the State Advisory Committee and Puget Sound Tribal Management Conference on the actions, progress, and issues pertaining to restoration and protection of Puget Sound.

“(4) **MEMBERSHIP.**—

“(A) **QUALIFICATIONS.**—Members appointed under this paragraph shall have experience and expertise in matters of restoration and protection of large watersheds and bodies of water or related experience that will benefit the restoration and protection effort of Puget Sound.

“(B) **COMPOSITION.**—The Puget Sound Federal Leadership Task Force shall be composed of the following members:

“(i) **SECRETARY OF AGRICULTURE.**—The following individuals appointed by the Secretary of Agriculture:

“(I) A representative of the National Forest Service.

“(II) A representative of the Natural Resources Conservation Service.

“(ii) **SECRETARY OF COMMERCE.**—A representative of the National Oceanic and Atmospheric Administration appointed by the Secretary of Commerce.

“(iii) **SECRETARY OF DEFENSE.**—The following individuals appointed by the Secretary of Defense:

“(I) A representative of the Corps of Engineers.

“(II) A representative of the Joint Base Lewis-McChord.

“(III) A representative of the Navy Region Northwest.

“(iv) **DIRECTOR.**—The Director of the Program Office.

“(v) **SECRETARY OF HOMELAND SECURITY.**—The following individuals appointed by the Secretary of Homeland Security:

“(I) A representative of the Coast Guard.

“(II) A representative of the Federal Emergency Management Agency.

“(vi) **SECRETARY OF THE INTERIOR.**—The following individuals appointed by the Secretary of the Interior:

“(I) A representative of the Bureau of Indian Affairs.

“(II) A representative of the United States Fish and Wildlife Service.

“(III) A representative of the United States Geological Survey.

“(IV) A representative of the National Park Service.

“(vii) **SECRETARY OF TRANSPORTATION.**—The following individuals appointed by the Secretary of Transportation:

“(I) A representative of the Federal Highway Administration.

“(II) A representative of the Federal Transit Administration.

“(viii) **ADDITIONAL MEMBERS.**—Representatives of such other agencies, programs, and initiatives as the Puget Sound Federal Leadership Task Force determines necessary.

“(5) **LEADERSHIP.**—The Co-Chairs shall ensure the Puget Sound Federal Leadership Task Force completes its duties through robust discussion of all relevant issues. The Co-Chairs shall share leadership responsibilities equally.

“(6) **CO-CHAIRS.**—The following members of the Puget Sound Federal Leadership Task Force appointed under paragraph (5) shall serve as Co-Chairs of the Puget Sound Federal Leadership Task Force:

“(A) The representative of the National Oceanic and Atmospheric Administration.

“(B) The representative of the Puget Sound Recovery National Program Office.

“(C) The representative of the Corps of Engineers.

“(7) **MEETINGS.**—

“(A) **INITIAL MEETING.**—The Puget Sound Federal Leadership Task Force shall meet not later than 180 days after the date of enactment of this section—

“(i) to determine if all Federal agencies are properly represented;

“(ii) to establish the bylaws of the Puget Sound Federal Leadership Task Force;

“(iii) to establish necessary working groups or committees; and

“(iv) to determine subsequent meeting times, dates, and logistics.

“(B) **SUBSEQUENT MEETINGS.**—After the initial meeting, the Puget Sound Federal Leadership Task Force shall meet, at a minimum, twice per year to carry out the duties of the Puget Sound Federal Leadership Task Force.

“(C) **WORKING GROUP MEETINGS.**—Meetings of any established working groups or committees of the Puget Sound Federal Leadership Task Force shall not be considered a biannual meeting for purposes of subparagraph (B).

“(D) **JOINT MEETINGS.**—The Puget Sound Federal Leadership Task Force shall offer to meet jointly with the Puget Sound National Estuary Program Management Conference and the Puget Sound Tribal Management Conference, at a minimum, once per year. A joint meeting under this subparagraph may be considered a biannual meeting of the Puget Sound Federal Leadership Task Force for purposes of subparagraph (B), if agreed upon.

“(E) **QUORUM.**—A majority number of the members of the Puget Sound Federal Leadership Task Force shall constitute a quorum.

“(F) **VOTING.**—For the Puget Sound Federal Leadership Task Force to pass a measure, a two-thirds percentage of the quorum must vote in the affirmative.

“(G) **PUGET SOUND FEDERAL LEADERSHIP TASK FORCE PROCEDURES AND ADVICE.**—

“(A) **ADVISORS.**—The Puget Sound Federal Leadership Task Force, and any working group of the Puget Sound Federal Leadership Task Force, may seek advice and input from any interested, knowledgeable, or affected party as the Puget Sound Federal Leadership Task Force or working group, respectively, determines necessary to perform its duties.

“(B) **COMPENSATION.**—A member of the Puget Sound Federal Leadership Task Force shall receive no additional compensation for service as a member on the Puget Sound Federal Leadership Task Force.

“(C) **TRAVEL EXPENSES.**—Travel expenses incurred by a member of the Puget Sound Federal Leadership Task Force in the performance of service on the Puget Sound Federal Leadership Task Force may be paid by the agency or department that the member represents.

“(G) **PUGET SOUND FEDERAL TASK FORCE.**—

“(A) **IN GENERAL.**—On the date of enactment of this section, the 2016 memorandum of understanding establishing the Puget Sound Federal Task Force shall cease to be effective.

“(B) **USE OF PREVIOUS WORK.**—The Puget Sound Federal Leadership Task Force shall, to the extent practicable, use the work product produced, relied upon, and analyzed by the Puget Sound Federal Task Force in order to avoid duplicating the efforts of the Puget Sound Federal Task Force.

“(e) **STATE ADVISORY COMMITTEE.**—

“(1) **ESTABLISHMENT.**—There is established a State Advisory Committee.

“(2) **MEMBERSHIP.**—The committee shall consist of up to seven members designated by the governing body of the Puget Sound Partnership, in consultation with the Governor of Washington, who will represent Washington State agencies that have significant roles and responsibilities related to Puget Sound recovery.

“(f) **FEDERAL ADVISORY COMMITTEE ACT.**—The Puget Sound Federal Leadership Task Force, State Advisory Committee, and any working group of the Puget Sound Federal Leadership Task Force, shall not be considered an advisory committee under the Federal Advisory Committee Act (5 U.S.C. App.).

“(g) **PUGET SOUND FEDERAL LEADERSHIP TASK FORCE BIENNIAL REPORT ON PUGET SOUND RECOVERY ACTIVITIES.**—

“(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this section, and biennially thereafter, the Puget Sound Federal

Leadership Task Force, in collaboration with the Puget Sound Tribal Management Conference and the State Advisory Committee, shall submit to the President, Congress, the Governor of Washington, and the governing body of the Puget Sound Partnership a report that summarizes the progress, challenges, and milestones of the Puget Sound Federal Leadership Task Force on the restoration and protection of Puget Sound.

“(2) **CONTENTS.**—The report under paragraph (1) shall include a description of the following:

“(A) The roles and progress of each State, local government entity, and Federal agency that has jurisdiction in the Puget Sound region toward meeting the identified objectives and priorities of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program;

“(B) If available, the roles and progress of Tribal governments that have jurisdiction in the Puget Sound region toward meeting the identified objectives and priorities of the Action Agenda, Salmon Recovery Plans, the Treaty Rights at Risk Initiative, and the Coastal Nonpoint Pollution Control Program.

“(C) A summary of specific recommendations concerning implementation of the Action Agenda and Federal Action Plan, including challenges, barriers, and anticipated milestones, targets, and timelines.

“(D) A summary of progress made by Federal agencies toward the priorities identified in the Federal Action Plan.

“(h) **CROSSCUT BUDGET REPORT.**—

“(1) **FINANCIAL REPORT.**—Not later than 1 year after the date of enactment of this section, and every 5 years thereafter, the Director of the Office of Management and Budget, in consultation with the Puget Sound Federal Leadership Task Force, shall, in conjunction with the annual budget submission of the President to Congress for the year under section 1105(a) of title 31, United States Code, submit to Congress and make available to the public, including on the internet, a financial report that is certified by the head of each agency represented by the Puget Sound Federal Leadership Task Force.

“(2) **CONTENTS.**—The report shall contain an interagency crosscut budget relating to Puget Sound restoration and protection activities that displays—

“(A) the proposed funding for any Federal restoration and protection activity to be carried out in the succeeding fiscal year, including any planned interagency or intra-agency transfer, for each of the Federal agencies that carry out restoration and protection activities;

“(B) the estimated expenditures for Federal restoration and protection activities from the preceding 2 fiscal years, the current fiscal year, and the succeeding fiscal year; and

“(C) the estimated expenditures for Federal environmental research and monitoring programs from the preceding 2 fiscal years, the current fiscal year, and the succeeding fiscal year.

“(3) **INCLUDED RECOVERY ACTIVITIES.**—With respect to activities described in the report, the report shall only describe activities that have funding amounts more than \$100,000.

“(4) **SUBMISSION TO CONGRESS.**—The Director of the Office of Management and Budget shall submit the report to—

“(A) the Committee on Appropriations, the Committee on Natural Resources, the Committee on Energy and Commerce, and the Committee on Transportation and Infrastructure of the House of Representatives; and

“(B) the Committee on Appropriations, the Committee on Environment and Public Works, and the Committee on Commerce, Science, and Transportation of the Senate.

“(i) **AUTHORIZATION OF APPROPRIATIONS.**—In addition to any other funds authorized to be appropriated for activities related to Puget Sound, there is authorized to be appropriated to carry

out this section \$50,000,000 for each of fiscal years 2021 through 2025.

“(j) **PRESERVATION OF TREATY OBLIGATIONS AND EXISTING FEDERAL STATUS.**—

“(1) **TRIBAL TREATY RIGHTS.**—Nothing in this section affects, or is intended to affect, any right reserved by treaty between the United States and one or more Indian tribes.

“(2) **OTHER FEDERAL LAW.**—Nothing in this section affects the requirements and procedures of other Federal law.

“(k) **CONSISTENCY.**—Actions authorized or implemented under this section shall be consistent with—

“(1) the Endangered Species Act of 1973 and the Salmon Recovery Plans of the State of Washington;

“(2) the Coastal Zone Management Act of 1972 and the Coastal Nonpoint Pollution Control Program;

“(3) the water quality standards of the State of Washington approved by the Administrator under section 303; and

“(4) other applicable Federal requirements.”.

#### **SEC. 22304. GREAT LAKES RESTORATION INITIATIVE REAUTHORIZATION.**

Section 118(c)(7)(J)(i) of the Federal Water Pollution Control Act (33 U.S.C. 1268(c)(7)(J)(i)) is amended—

(1) by striking “is authorized” and inserting “are authorized”;

(2) by striking the period at the end and inserting a semicolon;

(3) by striking “this paragraph \$300,000,000” and inserting the following: “this paragraph—

“(I) \$300,000,000”; and

(4) by adding at the end the following:

“(II) \$375,000,000 for fiscal year 2022;

“(III) \$400,000,000 for fiscal year 2023;

“(IV) \$425,000,000 for fiscal year 2024;

“(V) \$450,000,000 for fiscal year 2025; and

“(VI) \$475,000,000 for fiscal year 2026.”.

#### **SEC. 22305. NATIONAL ESTUARY PROGRAM REAUTHORIZATION.**

(a) **MANAGEMENT CONFERENCE.**—Section 320(a)(2)(B) of the Federal Water Pollution Control Act (33 U.S.C. 1330(a)(2)(B)) is amended by striking “and Peconic Bay, New York” and inserting “Peconic Bay, New York; Casco Bay, Maine; Tampa Bay, Florida; Coastal Bend, Texas; San Juan Bay, Puerto Rico; Tillamook Bay, Oregon; Piscataqua Region, New Hampshire; Barnegat Bay, New Jersey; Maryland Coastal Bays, Maryland; Charlotte Harbor, Florida; Mobile Bay, Alabama; Morro Bay, California; and Lower Columbia River, Oregon and Washington”.

(b) **PURPOSES OF CONFERENCE.**—Section 320(b)(4) of the Federal Water Pollution Control Act (33 U.S.C. 1330(b)(4)) is amended—

(1) by striking “management plan that recommends” and inserting “management plan that—

“(A) recommends”; and

(2) by adding at the end the following:

“(B) addresses the effects of recurring extreme weather events on the estuary, including the identification and assessment of vulnerabilities in the estuary and the development and implementation of adaptation strategies; and

“(C) increases public education and awareness of the ecological health and water quality conditions of the estuary.”.

(c) **MEMBERS OF CONFERENCE.**—Section 320(c)(5) of the Federal Water Pollution Control Act (33 U.S.C. 1330(c)(5)) is amended by inserting “nonprofit organizations,” after “educational institutions.”.

(d) **GRANTS.**—Section 320(g)(4)(C) of the Federal Water Pollution Control Act (33 U.S.C. 1330(g)(4)(C)) is amended—

(1) in the matter preceding clause (i)—

(A) by inserting “, emerging,” after “urgent”; and

(B) by striking “coastal areas” and inserting “the estuaries selected by the Administrator under subsection (a)(2), or that relate to the coastal resiliency of such estuaries”;

(2) by redesignating clauses (vi) and (vii) as clauses (viii) and (ix), respectively, and inserting after clause (v) the following:

“(vi) stormwater runoff;

“(vii) accelerated land loss;”; and

(3) in clause (viii), as so redesignated, by inserting “, extreme weather,” after “sea level rise”.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—Section 320(i)(1) of the Federal Water Pollution Control Act (33 U.S.C. 1330(i)(1)) is amended by inserting “, and \$50,000,000 for each of fiscal years 2022 through 2026,” after “2021”.

**SEC. 22306. LAKE PONTCHARTRAIN BASIN RESTORATION PROGRAM REAUTHORIZATION.**

(a) **REVIEW OF COMPREHENSIVE MANAGEMENT PLAN.**—Section 121 of the Federal Water Pollution Control Act (33 U.S.C. 1273) is amended—

(1) in subsection (c)—

(A) in paragraph (5), by striking “; and” and inserting a semicolon;

(B) in paragraph (6), by striking the period and inserting “; and”; and

(C) by adding at the end the following:

“(7) ensure that the comprehensive conservation and management plan approved for the Basin under section 320 is reviewed and revised in accordance with section 320 not less often than once every 5 years, beginning on the date of enactment of this paragraph.”; and

(2) in subsection (d), by striking “recommended by a management conference convened for the Basin under section 320” and inserting “identified in the comprehensive conservation and management plan approved for the Basin under section 320”.

(b) **DEFINITIONS.**—Section 121(e)(1) of the Federal Water Pollution Control Act (33 U.S.C. 1273(e)(1)) is amended by striking “, a 5,000 square mile”.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—Section 121(f) of the Federal Water Pollution Control Act (33 U.S.C. 1273(f)) is amended—

(1) in paragraph (1), by striking “2001 through 2012 and the amount appropriated for fiscal year 2009 for each of fiscal years 2013 through 2017” and inserting “2021 through 2025”; and

(2) by adding at the end the following:

“(3) **ADMINISTRATIVE EXPENSES.**—The Administrator may use for administrative expenses not more than 5 percent of the amounts appropriated to carry out this section.”.

**SEC. 22307. LONG ISLAND SOUND PROGRAM REAUTHORIZATION.**

Section 119(h) of the Federal Water Pollution Control Act (33 U.S.C. 1269(h)) is amended by striking “2023” and inserting “2025”.

**SEC. 22308. COLUMBIA RIVER BASIN RESTORATION PROGRAM REAUTHORIZATION.**

Section 123(d)(6) of the Federal Water Pollution Control Act (33 U.S.C. 1275(d)(6)) is amended by striking “2021” and inserting “2025”.

**TITLE III—RESILIENCE REVOLVING LOAN FUND**

**SEC. 23001. SHORT TITLE.**

This title may be cited as the “Resilience Revolving Loan Fund Act of 2020”.

**SEC. 23002. GRANTS TO ENTITIES FOR ESTABLISHMENT OF HAZARD MITIGATION REVOLVING LOAN FUNDS.**

Title II of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5131 et seq.) is amended by adding at the end the following:

**“SEC. 205 GRANTS TO ENTITIES FOR ESTABLISHMENT OF HAZARD MITIGATION REVOLVING LOAN FUNDS.**

“(a) **GENERAL AUTHORITY.**—

“(1) **IN GENERAL.**—The Administrator may enter into agreements with eligible entities to make capitalization grants to such entities for the establishment of hazard mitigation revolving loan funds (referred to in this section as ‘entity loan funds’) for providing funding assistance to local governments to carry out eligible projects

under this section to reduce disaster risks for homeowners, businesses, nonprofit organizations, and communities in order to decrease—

“(A) the loss of life and property;

“(B) the cost of insurance claims; and

“(C) Federal disaster payments.

“(2) **AGREEMENTS.**—Any agreement entered into under this section shall require the participating entity to—

“(A) comply with the requirements of this section; and

“(B) use accounting, audit, and fiscal procedures conforming to generally accepted accounting standards.

“(b) **APPLICATION.**—

“(1) **IN GENERAL.**—To be eligible to receive a capitalization grant under this section, an eligible entity shall submit to the Administrator an application that includes the following:

“(A) Project proposals comprised of local government hazard mitigation projects, on the condition that the entity provides public notice not less than 6 weeks prior to the submission of an application.

“(B) An assessment of recurring major disaster vulnerabilities impacting the entity that demonstrates an escalating risk to life and property.

“(C) A description of how the hazard mitigation plan of the entity has or has not taken the vulnerabilities described in paragraph (2) into account.

“(D) A description about how the projects described in paragraph (1) could conform with the hazard mitigation plans of the entity and local governments.

“(E) A proposal of the systematic and regional approach to achieve resilience in a vulnerable area, including impacts to river basins, river corridors, watersheds, estuaries, bays, coastal regions, micro-basins, micro-watersheds, ecosystems, and areas at risk of earthquakes, tsunamis, droughts, and wildfires, including the wildland-urban interface.

“(2) **TECHNICAL ASSISTANCE.**—The Administrator shall provide technical assistance to eligible entities for applications under this section.

“(c) **ENTITY LOAN FUND.**—

“(1) **ESTABLISHMENT OF FUND.**—An entity that receives a capitalization grant under this section shall establish an entity loan fund that complies with the requirements of this subsection.

“(2) **FUND MANAGEMENT.**—Except as provided in paragraph (3), an entity loan fund shall be administered by the agency responsible for emergency management for such entity and shall include only—

“(A) funds provided by a capitalization grant under this section;

“(B) repayments of loans under this section to the entity loan fund; and

“(C) interest earned on amounts in the entity loan fund.

“(3) **ADMINISTRATION.**—A participating entity may combine the financial administration of the entity loan fund of such entity with the financial administration of any other revolving fund established by such entity if the Administrator determines that—

“(A) the capitalization grant, entity share, repayments of loans, and interest earned on amounts in the entity loan fund are accounted for separately from other amounts in the revolving fund; and

“(B) the authority to establish assistance priorities and carry out oversight activities remains in the control of the agency responsible for emergency management for the entity.

“(4) **ENTITY SHARE OF FUNDS.**—On or before the date on which a participating entity receives a capitalization grant under this section, the entity shall deposit into the entity loan fund of such entity, an amount equal to not less than 10 percent of the amount of the capitalization grant.

“(d) **APPORTIONMENT.**—

“(1) **IN GENERAL.**—Except as otherwise provided by this subsection, the Administrator shall

apportion funds made available to carry out this section to entities that have entered into an agreement under subsection (a)(2) in amounts as determined by the Administrator.

“(2) **RESERVATION OF FUNDS.**—The Administrator shall reserve not more than 2.5 percent of the amount made available to carry out this section for—

“(A) administrative costs incurred in carrying out this section; and

“(B) providing technical assistance to participating entities under subsection (b)(2).

“(3) **PRIORITY.**—In the apportionment of capitalization grants under this subsection, the Administrator shall give priority to entity applications under subsection (b) that—

“(A) propose projects increasing resilience and reducing risk of harm to natural and built infrastructure;

“(B) involve a partnership between 2 or more eligible entities to carry out a project or similar projects;

“(C) take into account regional impacts of hazards on river basins, river corridors, micro-watersheds, macro-watersheds, estuaries, bays, coastal regions, and areas vulnerable to earthquake, drought, tsunamis and wildfire, including the wildland-urban interface; or

“(D) propose projects for the resilience of major economic sectors or critical national infrastructure, including ports, global commodity supply chain assets (located within an entity or within the jurisdiction of local governments and tribal governments), capacity, power and water production and distribution centers, and bridges and waterways essential to interstate commerce.

“(e) **USE OF FUNDS.**—

“(1) **TYPES OF ASSISTANCE.**—Amounts deposited in an entity loan fund, including loan repayments and interest earned on such amounts, may be used—

“(A) to make loans, on the condition that—

“(i) such loans are made at an interest rate of not more than 1.5 percent;

“(ii) annual principal and interest payments will commence not later than 1 year after completion of any project and all loans will be fully amortized—

“(I) not later than 20 years after the date on which the project is completed; or

“(II) for projects in a low-income geographic area, not later than 30 years after the date on which the projects is completed and not longer than the expected design life of the project;

“(iii) the local government receiving a loan establishes a dedicated source of revenue for repayment of the loan;

“(iv) the local government receiving a loan has a hazard mitigation plan that has been approved by the participating entity; and

“(v) the entity loan fund will be credited with all payments of principal and interest on all loans;

“(B) for mitigation planning, not to exceed 10 percent of the capitalization grants made to the participating entity in a fiscal year;

“(C) for the reasonable costs of administering the fund and conducting activities under this section, except that such amounts shall not exceed \$100,000 per year, 2 percent of the capitalization grants made to the participating entity in a fiscal year, or 1 percent of the value of the entity loan fund, whichever amount is greatest, plus the amount of any fees collected by the entity for such purpose regardless of the source; and

“(D) to earn interest on the entity loan fund.

“(2) **PROHIBITION ON DETERMINATION THAT LOAN IS A DUPLICATION.**—In carrying out this section, Administrator may not determine that a loan is a duplication of assistance or a duplication of programs.

“(3) **PROJECTS AND ACTIVITIES ELIGIBLE FOR ASSISTANCE.**—Except as provided in this subsection, a participating entity may use funds in the entity loan fund to provide financial assistance for projects or activities that mitigate the impacts of hazards, including—

“(A) drought and prolonged episodes of intense heat;

“(B) severe storms, including tornados, wind storms, cyclones, and severe winter storms;

“(C) wildfires;

“(D) earthquakes;

“(E) flooding, including the construction, repair, or replacement of a non-Federal levee or other flood control structure, provided the Administrator, in consultation with the Corps of Engineers (if appropriate), requires an eligible entity to determine that such levee or structure is designed, constructed, and maintained in accordance with sound engineering practices and standards equivalent to the purpose for which such levee or structure is intended;

“(F) storm surges;

“(G) chemical spills that present an imminent threat to life and property;

“(H) seepage resulting from chemical spills and flooding; and

“(I) any catastrophic event that the entity determines appropriate.

“(4) ZONING AND LAND USE PLANNING CHANGES.—A participating entity may use not more than 10 percent of the entity loan fund in a fiscal year to provide financial assistance for zoning and land use planning changes focused on—

“(A) the development and improvement of zoning and land use codes that incentivize and encourage low-impact development, resilient wildland-urban interface land management and development, natural infrastructure, green stormwater management, conservation areas adjacent to floodplains, implementation of watershed or greenway master plans, and reconnection of floodplains;

“(B) the study and creation of land use incentives that reward developers for greater reliance on low impact development stormwater best management practices, exchange density increases for increased open space and improvement of neighborhood catch basins to mitigate urban flooding, reward developers for including and augmenting natural infrastructure adjacent to and around building projects without reliance on increased sprawl, and reward developers for addressing wildfire ignition; and

“(C) the study and creation of an erosion response plan that accommodates river, lake, forest, plains, and ocean shoreline retreating or bluff stabilization due to increased flooding and disaster impacts.

“(5) ADMINISTRATIVE AND TECHNICAL COSTS.—For each fiscal year, a participating entity may use the amount described in paragraph (1)(C) to—

“(A) pay the reasonable costs of administering the programs under this section, including the cost of establishing an entity loan fund;

“(B) provide technical assistance to recipients of financial assistance from the entity loan fund, on the condition that such technical assistance does not exceed 5 percent of the capitalization grant made to such entity.

“(6) LIMITATION FOR SINGLE PROJECTS.—A participating entity may not provide an amount equal to or more than \$5,000,000 to a single hazard mitigation project.

“(7) REQUIREMENTS.—For fiscal year 2020 and each fiscal year thereafter, the requirements of subchapter IV of chapter 31 of title 40, United States Code, shall apply to the construction of projects carried out in whole or in part with assistance made available by an entity loan fund authorized by this section.

“(f) INTENDED USE PLANS.—

“(1) IN GENERAL.—After providing for public comment and review, and consultation with appropriate agencies in an entity, Federal agencies, and interest groups, each participating entity shall annually prepare and submit to the Administrator a plan identifying the intended uses of the entity loan fund.

“(2) CONTENTS OF PLAN.—An entity intended use plan prepared under paragraph (1) shall include—

“(A) the integration of entity planning efforts, including entity hazard mitigation plans and other programs and initiatives relating to mitigation of major disasters carried out by such entity;

“(B) an explanation of the mitigation and resiliency benefits the entity intends to achieve by—

“(i) reducing future damage and loss associated with hazards;

“(ii) reducing the number of severe repetitive loss structures and repetitive loss structures in the entity;

“(iii) decreasing the number of insurance claims in the entity from injuries resulting from major disasters or other hazards; and

“(iv) increasing the rating under the community rating system under section 1315(b) of the Housing and Urban Development Act of 1968 (42 U.S.C. 4022(b)) for communities in the entity;

“(C) information on the availability of, and application process for, financial assistance from the entity loan fund of such entity;

“(D) the criteria and methods established for the distribution of funds;

“(E) the amount of financial assistance that the entity anticipates apportioning;

“(F) the expected terms of the assistance provided from the entity loan fund; and

“(G) a description of the financial status of the entity loan fund, including short-term and long-term goals for the fund.

“(g) AUDITS, REPORTS, PUBLICATIONS, AND OVERSIGHT.—

“(1) BIENNIAL ENTITY AUDIT AND REPORT.—Beginning not later than the last day of the second fiscal year after the receipt of payments under this section, and biennially thereafter, any participating entity shall—

“(A) conduct an audit of such fund established under subsection (b); and

“(B) provide to the Administrator a report including—

“(i) the result of any such audit; and

“(ii) a review of the effectiveness of the entity loan fund of the entity with respect to meeting the goals and intended benefits described in the intended use plan submitted by the entity under subsection (e).

“(2) PUBLICATION.—A participating entity shall publish and periodically update information about all projects receiving funding from the entity loan fund of such entity, including—

“(A) the location of the project;

“(B) the type and amount of assistance provided from the entity loan fund;

“(C) the expected funding schedule; and

“(D) the anticipated date of completion of the project.

“(3) OVERSIGHT.—

“(A) IN GENERAL.—The Administrator shall, at least every 4 years, conduct reviews and audits as may be determined necessary or appropriate by the Administrator to carry out the objectives of this section and determine the effectiveness of the fund in reducing hazard risk.

“(B) GAO REQUIREMENTS.—The entity shall conduct audits under paragraph (1) in accordance with the auditing procedures of the Government Accountability Office, including chapter 75 of title 31.

“(C) RECOMMENDATIONS BY ADMINISTRATOR.—The Administrator may at any time make recommendations for or require specific changes to an entity's loan fund in order to improve the effectiveness of the fund.

“(h) REGULATIONS OR GUIDANCE.—The Administrator shall issue such regulations or guidance as are necessary to—

“(1) ensure that each participating entity uses funds as efficiently as possible; and

“(2) reduce waste, fraud, and abuse to the maximum extent possible.

“(i) WAIVER AUTHORITY.—Until such time as the Administrator issues regulations to implement this section, the Administrator may—

“(1) waive notice and comment rulemaking, if the Administrator determines the waiver is nec-

essary to expeditiously implement this section; and

“(2) provide capitalization grants under this section as a pilot program.

“(j) DEFINITIONS.—In this section, the following definitions apply:

“(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means a State or an Indian tribal government (as such terms are defined in section 102 of this Act (42 U.S.C. 5122)).

“(2) HAZARD MITIGATION PLAN.—The term ‘hazard mitigation plan’ means a mitigation plan submitted under section 322 and approved by the Administrator.

“(3) LOW-INCOME GEOGRAPHIC AREA.—The term ‘low-income geographic area’ means an area described in paragraph (1) or (2) of section 301(a) of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3161(a)).

“(4) PARTICIPATING ENTITY.—The term ‘participating entity’ means an eligible entity that has entered into an agreement under this section.

“(5) REPETITIVE LOSS STRUCTURE.—The term ‘repetitive loss structure’ has the meaning given the term in section 1370 of the National Flood Insurance Act (42 U.S.C. 4121).

“(6) SEVERE REPETITIVE LOSS STRUCTURE.—The term ‘severe repetitive loss structure’ has the meaning given the term in section 1366(h) of the National Flood Insurance Act (42 U.S.C. 4104(h)).

“(7) WILDLAND-URBAN INTERFACE.—The term ‘wildland-urban interface’ has the meaning given the term in section 101 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6511).

“(k) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$100,000,000 for each of fiscal years 2021 and 2022.”.

#### TITLE IV—SPORTS FISHING

##### SEC. 24001. SHORT TITLE.

This title may be cited as the “Sport Fish Restoration, Recreational Boating Safety, and Wildlife Restoration Act of 2020”.

##### SEC. 24002. DIVISION OF ANNUAL APPROPRIATIONS.

(a) IN GENERAL.—Section 4 of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777c) is amended—

(1) in subsection (a), by striking “2021” and inserting “2025”;

(2) in subsection (b)—

(A) in paragraph (1)—

(i) in subparagraph (A), by striking “2021” and inserting “2025”; and

(ii) by amending subparagraph (B) to read as follows—

“(B) AVAILABLE AMOUNTS.—The available amount referred to in subparagraph (A) is—

“(i) for fiscal year 2021, \$12,625,419; and

“(ii) for fiscal year 2022 and each fiscal year thereafter, the sum of—

“(I) the available amount for the preceding fiscal year; and

“(II) the amount determined by multiplying—

“(aa) the available amount for the preceding fiscal year; and

“(bb) the change, relative to the preceding fiscal year, in the Consumer Price Index for All Urban Consumers published by the Department of Labor.”; and

(B) in paragraph (2)—

(i) in subparagraph (A), by striking “2016 through 2021” and inserting “2022 through 2025”; and

(ii) by amending subparagraph (B) to read as follows—

“(B) AVAILABLE AMOUNTS.—The available amount referred to in subparagraph (A) is—

“(i) for fiscal year 2021, \$8,988,700; and

“(ii) for fiscal year 2022 and each fiscal year thereafter, the sum of—

“(I) the available amount for the preceding fiscal year; and

“(II) the amount determined by multiplying—

“(aa) the available amount for the preceding fiscal year; and

“(bb) the change, relative to the preceding fiscal year, in the Consumer Price Index for All Urban Consumers published by the Department of Labor.”; and

(3) in subsection (e)(2), by striking “\$900,000” and inserting “\$1,300,000”.

(b) **ADMINISTRATION.**—Section 9(a) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777h(a)) is amended—

(1) in paragraph (1), by striking “on a full-time basis”;

(2) by striking paragraph (2) and redesignating paragraphs (3) through (12) as paragraphs (2) through (11), respectively;

(3) by striking “paragraphs (1) and (2)” and inserting “paragraph (1)” each place it appears;

(4) in paragraph (4)(B), as so redesignated, by striking “full-time equivalent”; and

(5) in paragraph (8)(A), as so redesignated, by striking “on a full-time basis”.

(c) **OTHER ACTIVITIES.**—Section 14(e) of the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777m(e)) is amended by adding at the end the following:

“(3) A portion, as determined by the Sport Fishing and Boating Partnership Council, of funds disbursed for the purposes described in paragraph (2) but remaining unobligated prior to fiscal year 2020 shall be used to study—

“(A) the impact of derelict recreational vessels on recreational boating safety and recreational fishing; and

“(B) identify options and methods for recycling for recreational vessels.”.

#### **SEC. 24003. RECREATIONAL BOATING ACCESS.**

(a) **IN GENERAL.**—The Comptroller General of the United States shall conduct a study on recreational boating access. In carrying out such study, the Comptroller General shall consult with the Sport Fishing and Boating Partnership Council and the National Boating Safety Advisory Council on the design, scope, and priorities of such study.

(b) **CONTENTS.**—To the extent practicable, the study required under subsection (a) shall contain a description of—

(1) the use of nonmotorized vessels in each State and how the increased use of nonmotorized vessels is impacting motorized and nonmotorized vessel access to waterway entry points;

(2) recreational fishing and boating user conflicts concerning motorized and nonmotorized vessels at waterway access points; and

(3) the use of funds provided under the Dingell-Johnson Sport Fish Restoration Act (16 U.S.C. 777 et seq.) for—

(A) the sport fish restoration program to improve nonmotorized vessel access at waterway entry points and the reasons for providing such access; and

(B) the Recreational Boating Safety Program funds for nonmotorized boating safety programs.

(c) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to the Sport Fishing and Boating Partnership Council, the Committees on Natural Resources and Transportation and Infrastructure of the House of Representatives, and the Committees on Commerce, Science, and Transportation and Environment and Public Works of the Senate a report containing the study required under this section.

(d) **STATE DEFINED.**—In this section, the term “State” means any State, the District of Columbia, the Commonwealths of Puerto Rico and the Northern Mariana Islands, and the territories of Guam, the U.S. Virgin Islands, and American Samoa.

#### **SEC. 24004. WILDLIFE RESTORATION FUND ADMINISTRATION.**

(a) **ALLOCATION AND APPORTIONMENT OF AVAILABLE AMOUNTS.**—Section 4 of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669c), is amended—

(1) in subsection (a)(1)(B)—

(A) in clause (i) by striking “for each of fiscal years 2001 and 2002, \$9,000,000;” and inserting the following: “for fiscal year 2021, the sum of—

“(I) the amount made available under this paragraph for the previous fiscal year adjusted to reflect the change in the Consumer Price Index for All Urban Consumers relative to such previous fiscal year; and

“(II) \$979,500; and”;

(B) by striking clause (ii) and redesignating clause (iii) as clause (ii); and

(C) in clause (ii), as so redesignated, by striking “fiscal year 2004”; and

(2) in subsection (a)(2) by striking “the end of the fiscal year” and inserting “the end of the subsequent fiscal year”.

(b) **AUTHORIZED EXPENSES FOR ADMINISTRATION.**—Section 9(a) of the Pittman-Robertson Wildlife Restoration Act (16 U.S.C. 669h(a)) is amended—

(1) in paragraph (1) by striking “who directly administer this Act on a full-time basis” and inserting “for the work hours such employees spend directly administering this Act, as such hours are certified by the supervisor of the employee”; and

(2) by striking “paragraphs (1) and (2)” and inserting “paragraph (1)” each place it appears;

(3) by striking paragraph (2) and redesignating paragraphs (3) through (12) as paragraphs (2) through (11), respectively; and

(4) in paragraph (10), as so redesignated—

(A) by inserting “or part-time” after “on a full-time”; and

(B) by striking “expenses are incurred” and inserting “expenses are incurred, provided that the percentage of relocation expenses paid such amounts do not exceed the percentage of work hours the member of personnel spends administering this chapter”.

#### **SEC. 24005. SPORT FISH RESTORATION AND BOATING TRUST FUND.**

Section 13107(c)(2) of title 46, United States Code, is amended by striking “No funds available” and inserting “On or after October 1, 2023 no funds available.”.

### **TITLE V—CLIMATE SMART PORTS**

#### **SEC. 25001. SHORT TITLE.**

This title may be cited as the “Climate Smart Ports Act”.

#### **SEC. 25002. CLIMATE SMART PORTS GRANT PROGRAM.**

(a) **ESTABLISHMENT OF PROGRAM.**—Section 50302 of title 46, United States Code, is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following:

“(d) **CLIMATE SMART PORTS GRANT PROGRAM.**—

“(1) **ESTABLISHMENT.**—Not later than 6 months after the date of enactment of the Climate Smart Ports Act, the Secretary shall establish a program to award grants to eligible entities to purchase, and as applicable install, zero emissions port equipment and technology.

“(2) **PROCEDURAL SAFEGUARDS.**—The Secretary shall issue guidelines to establish appropriate accounting, reporting, and review procedures to ensure that—

“(A) grant funds are used for the purposes for which those funds were made available;

“(B) each grantee properly accounts for all expenditures of grant funds; and

“(C) grant funds not used for such purposes and amounts not obligated or expended are returned.

“(3) **GRANT CONDITIONS.**—

“(A) **IN GENERAL.**—The Secretary shall require as a condition of making a grant under this subsection that a grantee—

“(i) maintain such records as the Secretary considers necessary;

“(ii) make the records described in clause (i) available for review and audit by the Secretary; and

“(iii) periodically report to the Secretary such information as the Secretary considers necessary to assess progress.

“(B) **REQUIREMENT.**—The Secretary shall require recipients of assistance under this subsection (d) to comply with section 113(a) of title 23 with respect to all construction, alteration, installation, or repair work, in the same manner that recipients of assistance under chapter 1 of such title are required to comply with such section for construction work performed on highway projects on Federal-aid highways. With regard to the construction, alteration, or repair of vessels, the same requirements of such section shall apply regardless of whether the location of contract performance is known when bids for such work are solicited.

“(4) **PROHIBITED USE.**—

“(A) **IN GENERAL.**—An eligible entity may not use a grant awarded under this subsection to purchase or install fully automated cargo handling equipment or terminal infrastructure that is designed for fully automated cargo handling equipment.

“(B) **HUMAN-OPERATED ZERO EMISSIONS PORT EQUIPMENT AND TECHNOLOGY.**—Nothing in subparagraph (A) prohibits an eligible entity from using a grant awarded under this subsection to purchase human-operated zero emissions port equipment and technology or infrastructure that supports such human-operated zero emissions port equipment and technology.

“(5) **COST SHARE.**—

“(A) **IN GENERAL.**—Except as provided in subparagraph (B), an eligible entity may not use a grant awarded under this subsection to cover more than 70 percent of the cost of purchasing, and as applicable installing, zero emissions port equipment and technology.

“(B) **CERTAIN GRANTS.**—With respect to a grant in an amount equal to or greater than \$3,000,000, an eligible entity may use such grant to cover not more than 85 percent of the cost of purchasing and installing zero emissions port equipment and technology if such eligible entity certifies to the Secretary that—

“(i) such grant will be used, at least in part, to employ laborers or mechanics to install zero emissions port equipment and technology; and

“(ii) such eligible entity is a party to a project labor agreement or requires that each subgrantee of such eligible entity, and any subgrantee thereof at any tier, that performs such installation participate in a project labor agreement.

“(6) **PROJECT LABOR.**—An eligible entity that uses a grant awarded under this subsection to install zero emissions port equipment and technology shall ensure, to the greatest extent practicable, that any subgrantee of such eligible entity, and any subgrantee thereof at any tier, that carries out such installation employs laborers or mechanics for such installation that—

“(A) are domiciled not further than 50 miles from such installation;

“(B) are members of the Armed Forces serving on active duty, separated from active duty, or retired from active duty;

“(C) have been incarcerated or served time in a juvenile detention facility; or

“(D) have a disability.

“(7) **APPLICATION.**—

“(A) **IN GENERAL.**—To be eligible to be awarded a grant under this subsection, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

“(B) **PRIORITY.**—The Secretary shall prioritize awarding grants under this subsection to eligible entities based on the following:

“(i) The degree to which the proposed use of the grant will—

“(I) reduce greenhouse gas emissions;

“(II) reduce emissions of any criteria pollutant and precursor thereof;

“(III) reduce hazardous air pollutant emissions; and

“(IV) reduce public health disparities in communities that receive a disproportionate quantity of air pollution from a port.

“(ii) The amount of matching, non-Federal funds expected to be used by an applicant to purchase, and as applicable install, zero emissions port equipment and technology.

“(iii) Whether the applicant will use such grant to purchase, and as applicable install, zero emissions port equipment and technology that is produced in the United States.

“(iv) As applicable, whether the applicant will recruit and retain skilled workers through a Department of Labor approved or State-approved joint labor management apprenticeship program.

“(8) OUTREACH.—

“(A) IN GENERAL.—Not later than 90 days after funds are made available to carry out this subsection, the Secretary shall develop and carry out an educational outreach program to promote and explain the grant program established under paragraph (1) to prospective grant recipients.

“(B) PROGRAM COMPONENTS.—In carrying out the outreach program developed under subparagraph (A), the Secretary shall—

“(i) inform prospective grant recipients how to apply for a grant awarded under this subsection;

“(ii) describe to prospective grant recipients the benefits of available zero emissions port equipment and technology;

“(iii) explain to prospective grant recipients the benefits of participating in the grant program established under this subsection; and

“(iv) facilitate the sharing of best practices and lessons learned between grant recipients and prospective grant recipients with respect to how to apply for and use grants awarded under this subsection.

“(9) REPORTS.—

“(A) REPORT TO SECRETARY.—Not later than 90 days after the date on which an eligible entity uses a grant awarded under this subsection, such eligible entity shall submit to the Secretary a report containing such information as the Secretary shall require.

“(B) BIENNIAL REPORT TO CONGRESS.—Not later than January 31, 2021, and biennially thereafter, the Secretary shall submit to Congress and make available on the website of the Maritime Administration a report that includes, with respect to each grant awarded under this subsection during the preceding calendar years—

“(i) the name and location of the eligible entity that was awarded such grant;

“(ii) the amount of such grant that the eligible entity was awarded;

“(iii) the name and location of the port where the zero emissions port equipment and technology that was purchased, and as applicable installed, with such grant is used;

“(iv) an estimate of the impact of such zero emissions port equipment and technology on reducing—

“(I) greenhouse gas emissions;

“(II) emissions of criteria pollutants and precursors thereof;

“(III) hazardous air pollutant emissions; and

“(IV) public health disparities in surrounding local communities; and

“(v) any other information the Secretary determines necessary to understand the impact of grants awarded under this subsection.

“(10) AUTHORIZATION OF APPROPRIATIONS.—

“(A) IN GENERAL.—There is authorized to be appropriated to carry out this subsection \$500,000,000 for each of fiscal years 2021 through 2030.

“(B) NONATTAINMENT AREAS.—To the extent practicable, at least 25 percent of amounts made available to carry out this subsection in each fiscal year shall be used to award grants to eligible entities to provide zero emissions port equipment and technology to ports that are in nonattainment areas.

“(C) ADMINISTRATION.—

“(i) ADMINISTRATIVE AND OVERSIGHT COSTS.—The Secretary may retain not more than 2 percent of the amounts appropriated for each fiscal

year under this subsection for the administrative and oversight costs incurred by the Secretary to carry out this subsection.

“(ii) AVAILABILITY.—

“(I) IN GENERAL.—Amounts appropriated for carrying out this subsection shall remain available until expended.

“(II) UNEXPENDED FUNDS.—Amounts awarded as a grant under this subsection that are not expended by the grantee during the 5-year period following the date of the award shall remain available to the Secretary for use for grants under this subsection in a subsequent fiscal year.

“(11) DEFINITIONS.—In this subsection:

“(A) ACTIVE DUTY.—The term ‘active duty’ has the meaning given such term in section 101 of title 10, United States Code.

“(B) ALTERNATIVE EMISSIONS CONTROL TECHNOLOGY.—The term ‘alternative emissions control technology’ means a technology, technique, or measure that—

“(i) captures the emissions of nitrogen oxide, particulate matter, reactive organic compounds, and greenhouse gases from the auxiliary engine and auxiliary boiler of an ocean-going vessel at berth;

“(ii) is verified or approved by a State or Federal air quality regulatory agency;

“(iii) the use of which achieves at least the equivalent reduction of emissions as the use of shore power for an ocean-going vessel at berth;

“(iv) the use of which results in reducing emissions of the auxiliary engine of an ocean-going vessel at berth to a rate of less than—

“(I) 2.8 g/kW-hr for nitrogen oxide;

“(II) 0.03 g/kW-hr for particulate matter 2.5; and

“(III) 0.1 g/kW-hr for reactive organic compounds; and

“(v) reduces the emissions of the auxiliary engine and boiler of an ocean-going vessel at berth by at least 80 percent of the default emissions rate, which is 13.8 g.

“(C) CRITERIA POLLUTANT.—The term ‘criteria pollutant’ means each of the following:

“(i) Ground-level ozone.

“(ii) Particulate matter.

“(iii) Carbon monoxide.

“(iv) Lead.

“(v) Sulfur dioxide.

“(vi) Nitrogen dioxide.

“(D) DISTRIBUTED ENERGY RESOURCE.—

“(i) IN GENERAL.—The term ‘distributed energy resource’ means an energy resource that—

“(I) is located on or near a customer site;

“(II) is operated on the customer side of the electric meter; and

“(III) is interconnected with the electric grid.

“(ii) INCLUSIONS.—The term ‘distributed energy resource’ includes—

“(I) clean electric generation;

“(II) customer electric efficiency measures;

“(III) electric demand flexibility; and

“(IV) energy storage.

“(E) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

“(i) a port authority;

“(ii) a State, regional, local, or Tribal agency that has jurisdiction over a port authority or a port;

“(iii) an air pollution control district or air quality management district; or

“(iv) a private or nonprofit entity, applying for a grant awarded under this subsection in collaboration with another entity described in clauses (i) through (iii), that owns or uses cargo or transportation equipment at a port.

“(F) ENERGY STORAGE SYSTEM.—The term ‘energy storage system’ means a system, equipment, facility, or technology that—

“(i) is capable of absorbing energy, storing energy for a period of time, and dispatching the stored energy; and

“(ii) uses a mechanical, electrical, chemical, electrochemical, or thermal process to store energy that—

“(I) was generated at an earlier time for use at a later time; or

“(II) was generated from a mechanical process, and would otherwise be wasted, for delivery at a later time.

“(G) FULLY AUTOMATED CARGO HANDLING EQUIPMENT.—The term ‘fully automated cargo handling equipment’ means cargo handling equipment that—

“(i) is remotely operated or remotely monitored; and

“(ii) with respect to the use of such equipment, does not require the exercise of human intervention or control.

“(H) NONATTAINMENT AREA.—The term ‘non-attainment area’ has the meaning given such term in section 171 of the Clean Air Act (42 U.S.C. 7501).

“(I) PORT.—The term ‘port’ includes a maritime port and an inland port.

“(J) PORT AUTHORITY.—The term ‘port authority’ means a governmental or quasi-governmental authority formed by a legislative body to operate a port.

“(K) PROJECT LABOR AGREEMENT.—The term ‘project labor agreement’ means a pre-hire collective bargaining agreement with one or more labor organization that establishes the terms and conditions of employment for a specific construction project and is described in section 8(f) of the National Labor Relations Act (29 U.S.C. 158(f)).

“(L) APPRENTICESHIP PROGRAM.—The term ‘apprenticeship program’ means an apprenticeship program registered under the Act of August 16, 1937 (commonly known as the ‘National Apprenticeship Act’; 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.), including any requirement, standard, or rule promulgated under such Act, as such requirement, standard, or rule was in effect on December 30, 2019.

“(M) SHORE POWER.—The term ‘shore power’ means the provision of shoreside electrical power to a ship at berth that has shut down main and auxiliary engines.

“(N) STATE APPRENTICESHIP AGENCY.—The term ‘State Apprenticeship Agency’ has the meaning given such term in section 29.2 of title 29, Code of Federal Regulations (as in effect on January 1, 2020).

“(O) ZERO EMISSIONS PORT EQUIPMENT AND TECHNOLOGY.—

“(i) IN GENERAL.—The term ‘zero emissions port equipment and technology’ means equipment and technology, including the equipment and technology described in clause (ii), that—

“(I) is used at a port; and

“(II)(aa) produces zero exhaust emissions of—

“(AA) any criteria pollutant and precursor thereof; and

“(BB) any greenhouse gas, other than water vapor; or

“(bb) captures 100 percent of the exhaust emissions produced by an ocean-going vessel at berth.

“(ii) EQUIPMENT AND TECHNOLOGY DESCRIBED.—The equipment and technology described in this clause is the following:

“(I) Any equipment that handles cargo.

“(II) A drayage truck that transports cargo.

“(III) A train that transports cargo.

“(IV) Port harbor craft.

“(V) A distributed energy resource.

“(VI) An energy storage system.

“(VII) Electrical charging infrastructure.

“(VIII) Shore power or an alternative emissions control technology.

“(IX) An electric transport refrigeration unit.”

(b) TECHNICAL ASSISTANCE.—Paragraph (3) of subsection (e) of section 50302 of title 46, United States Code, as redesignated by subsection (a)(1) of this section, is amended—

(1) by inserting “or (d)” after “subsection (c)”; and

(2) by striking “such”.

**SEC. 25003. ENERGY POLICY ACT OF 2005 AUTHORIZATION OF APPROPRIATIONS FOR PORT AUTHORITIES.**

Section 797 of the Energy Policy Act of 2005 (42 U.S.C. 16137) is amended by adding at the end the following:

“(c) PORT AUTHORITIES.—There is authorized to be appropriated \$50,000,000 for each of fiscal years 2021 through 2025 to award grants, rebates, or loans, under section 792, to eligible entities to carry out projects that reduce emissions at ports.”.

## **DIVISION G—ENERGY AND COMMERCE**

### **TITLE I—BROADBAND INFRASTRUCTURE**

#### **SEC. 31001. DEFINITIONS.**

In this title:

(1) **AGING INDIVIDUAL.**—The term “aging individual” has the meaning given the term “older individual” in section 102 of the Older Americans Act of 1965 (42 U.S.C. 3002).

(2) **APPROPRIATE COMMITTEES OF CONGRESS.**—The term “appropriate committees of Congress” means—

(A) the Committee on Appropriations of the Senate;

(B) the Committee on Commerce, Science, and Transportation of the Senate;

(C) the Committee on Appropriations of the House of Representatives; and

(D) the Committee on Energy and Commerce of the House of Representatives.

(3) **ASSISTANT SECRETARY.**—The term “Assistant Secretary” means the Assistant Secretary of Commerce for Communications and Information.

(4) **COMMISSION.**—The term “Commission” means the Federal Communications Commission.

(5) **COVERED HOUSEHOLD.**—The term “covered household” means a household the income of which does not exceed 150 percent of the poverty threshold, as determined by using criteria of poverty established by the Bureau of the Census, for a household of the size involved.

(6) **COVERED POPULATIONS.**—The term “covered populations” means—

(A) individuals who are members of covered households;

(B) aging individuals;

(C) incarcerated individuals, other than individuals who are incarcerated in a Federal correctional facility (including a private facility operated under contract with the Federal Government);

(D) veterans;

(E) individuals with disabilities;

(F) individuals with a language barrier, including individuals who—

(i) are English learners; or

(ii) have low levels of literacy;

(G) individuals who are members of a racial or ethnic minority group; and

(H) individuals who primarily reside in a rural area.

(7) **DIGITAL LITERACY.**—The term “digital literacy” means the skills associated with using technology to enable users to find, evaluate, organize, create, and communicate information.

(8) **DISABILITY.**—The term “disability” has the meaning given the term in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102).

(9) **FEDERAL AGENCY.**—The term “Federal agency” has the meaning given the term “agency” in section 551 of title 5, United States Code.

(10) **INDIAN TRIBE.**—The term “Indian Tribe” has the meaning given the term “Indian tribe” in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304(e)).

(11) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education”—

(A) has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001); and

(B) includes a postsecondary vocational institution.

(12) **POSTSECONDARY VOCATIONAL INSTITUTION.**—The term “postsecondary vocational institution” has the meaning given the term in section 102(c) of the Higher Education Act of 1965 (20 U.S.C. 1002(c)).

(13) **RURAL AREA.**—The term “rural area” has the meaning given the term in section 13 of the Rural Electrification Act of 1936 (7 U.S.C. 913).

(14) **STATE.**—The term “State” has the meaning given the term in section 3 of the Communications Act of 1934 (47 U.S.C. 153).

(15) **VETERAN.**—The term “veteran” has the meaning given the term in section 101 of title 38, United States Code.

#### **SEC. 31002. SENSE OF CONGRESS.**

(a) **IN GENERAL.**—It is the sense of Congress that—

(1) a broadband service connection and digital literacy are increasingly critical to how individuals—

(A) participate in the society, economy, and civic institutions of the United States; and

(B) access health care and essential services, obtain education, and build careers;

(2) digital exclusion—

(A) carries a high societal and economic cost;

(B) materially harms the opportunity of an individual with respect to the economic success, educational achievement, positive health outcomes, social inclusion, and civic engagement of that individual;

(C) materially harms the opportunity of areas where it is especially widespread with respect to economic success, educational achievement, positive health outcomes, social cohesion, and civic institutions; and

(D) exacerbates existing wealth and income gaps, especially those experienced by covered populations and between regions;

(3) achieving accessible and affordable access to broadband service, as well as digital literacy, for all people of the United States requires additional and sustained research efforts and investment;

(4) the Federal Government, as well as State, Tribal, and local governments, have made social, legal, and economic obligations that necessarily extend to how the citizens and residents of those governments access and use the internet; and

(5) achieving accessible and affordable access to broadband service is a matter of social and economic justice and is worth pursuing.

(b) **BROADBAND SERVICE DEFINED.**—In this section, the term “broadband service” has the meaning given the term “broadband internet access service” in section 8.1(b) of title 47, Code of Federal Regulations, or any successor regulation.

#### **SEC. 31003. SEVERABILITY.**

If any provision of this title, an amendment made by this title, or the application of such provision or amendment to any person or circumstance is held to be invalid, the remainder of this title and the amendments made by this title, and the application of such provision or amendment to any other person or circumstance, shall not be affected thereby.

### **Subtitle A—Digital Equity**

#### **SEC. 31100. DEFINITIONS.**

In this subtitle:

(1) **ADOPTION OF BROADBAND SERVICE.**—The term “adoption of broadband service” means the process by which an individual obtains daily access to broadband service—

(A) with a download speed of at least 25 megabits per second, an upload speed of at least 3 megabits per second, and a latency that is sufficiently low to allow real-time, interactive applications;

(B) with the digital skills that are necessary for the individual to participate online; and

(C) on a—

(i) personal device; and

(ii) secure and convenient network.

(2) **ANCHOR INSTITUTION.**—The term “anchor institution” means a public or private school, a library, a medical or healthcare provider, a museum, a public safety entity, a public housing agency, a community college, an institution of higher education, a religious organization, or any other community support organization or agency.

(3) **ASSISTANT SECRETARY.**—Except in section 31101, the term “Assistant Secretary” means the Assistant Secretary, acting through the Office.

(4) **BROADBAND SERVICE.**—The term “broadband service” has the meaning given the term “broadband internet access service” in section 8.1(b) of title 47, Code of Federal Regulations, or any successor regulation.

(5) **COVERED PROGRAMS.**—The term “covered programs” means the State Digital Equity Capacity Grant Program established under section 31121 and the Digital Equity Competitive Grant Program established under section 31122.

(6) **DIGITAL EQUITY.**—The term “digital equity” means the condition in which individuals and communities have the information technology capacity that is needed for full participation in the society and economy of the United States.

(7) **DIGITAL INCLUSION ACTIVITIES.**—The term “digital inclusion activities”—

(A) means the activities that are necessary to ensure that all individuals in the United States have access to, and the use of, affordable information and communication technologies, such as—

(i) reliable broadband service;

(ii) internet-enabled devices that meet the needs of the user; and

(iii) applications and online content designed to enable and encourage self-sufficiency, participation, and collaboration; and

(B) includes—

(i) the provision of digital literacy training;

(ii) the provision of quality technical support; and

(iii) promoting basic awareness of measures to ensure online privacy and cybersecurity.

(8) **ELIGIBLE STATE.**—The term “eligible State” means—

(A) with respect to planning grants made available under section 31121(c)(3), a State with respect to which the Assistant Secretary has approved an application submitted to the Assistant Secretary under section 31121(c)(3)(C); and

(B) with respect to capacity grants awarded under section 31121(d), a State with respect to which the Assistant Secretary has approved an application submitted to the Assistant Secretary under section 31121(d)(2), including approval of the State Digital Equity Plan developed by the State under section 31121(c).

(9) **FEDERAL BROADBAND SERVICE SUPPORT PROGRAM.**—The term “Federal broadband service support program” does not include any Universal Service Fund program and means any of the following programs (or any other similar Federal program) to the extent the program offers broadband service or programs for promoting access to broadband service and adoption of broadband service for various demographic communities through various media for residential, commercial, or community providers or anchor institutions:

(A) The Telecommunications and Technology Program of the Appalachian Regional Commission.

(B) The Telecommunications Infrastructure Loans and Loan Guarantees, the Rural Broadband Access Loans and Loan Guarantees, the Substantially Underserved Trust Areas Provisions, the Community Connect Grant Program, and the Distance Learning and Telemedicine Grant Program of the Rural Utilities Service of the Department of Agriculture.

(C) The Public Works and Economic Adjustment Assistance Programs and the Planning and Local Technical Assistance Programs of the Economic Development Administration of the Department of Commerce.

(D) The Community Development Block Grants and Section 108 Loan Guarantees, the Funds for Public Housing Authorities: Capital Fund and Operating Fund, the Multifamily Housing, the Indian Community Development Block Grant Program, the Indian Housing Block Grant Program, the Title VI Loan Guarantee Program, Choice Neighborhoods, the HOME Investment Partnerships Program, the Housing Trust Fund, and the Housing Opportunities for Persons with AIDS of the Department of Housing and Urban Development.

(E) The American Job Centers of the Employment and Training Administration of the Department of Labor.

(F) The Library Services and Technology Grant Programs of the Institute of Museum and Library Services.

(G) The State Digital Equity Capacity Grant Program established under section 31121.

(H) The Digital Equity Competitive Grant Program established under section 31122.

(I) The program established under section 723 of the Communications Act of 1934 (relating to expansion of access to broadband service for unserved areas, areas with low-tier service, areas with mid-tier service, and unserved anchor institutions), as added by section 31301.

(J) The broadband infrastructure finance and innovation program established under chapter 2 of subtitle C.

(10) **GENDER IDENTITY.**—The term “gender identity” has the meaning given the term in section 249(c) of title 18, United States Code.

(11) **LOCAL EDUCATIONAL AGENCY.**—The term “local educational agency” has the meaning given the term in section 8101(30) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801(30)).

(12) **MEDICAID ENROLLEE.**—The term “Medicaid enrollee” means, with respect to a State, an individual enrolled in the State plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) or a waiver of that plan.

(13) **NATIONAL LIFELINE ELIGIBILITY VERIFIER.**—The term “National Lifeline Eligibility Verifier” has the meaning given such term in section 54.400 of title 47, Code of Federal Regulations (or any successor regulation).

(14) **OFFICE.**—The term “Office” means the Office of Internet Connectivity and Growth established pursuant to section 31101.

(15) **PUBLIC HOUSING AGENCY.**—The term “public housing agency” has the meaning given the term in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)).

(16) **SNAP PARTICIPANT.**—The term “SNAP participant” means an individual who is a member of a household that participates in the supplemental nutrition assistance program under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.).

(17) **SOCIALLY AND ECONOMICALLY DISADVANTAGED SMALL BUSINESS CONCERN.**—The term “socially and economically disadvantaged small business concern” has the meaning given the term in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

(18) **TRIBALLY DESIGNATED ENTITY.**—The term “tribally designated entity” means an entity designated by an Indian Tribe to carry out activities under this subtitle.

(19) **UNIVERSAL SERVICE FUND PROGRAM.**—The term “Universal Service Fund program” means any program authorized under section 254 of the Communications Act of 1934 (47 U.S.C. 254), to the extent such program provides support for broadband service deployment.

(20) **UNIVERSAL SERVICE MECHANISM.**—The term “universal service mechanism” means any funding stream provided by a Universal Service Fund program to support broadband service deployment.

(21) **WORKFORCE DEVELOPMENT PROGRAM.**—The term “workforce development program” has the meaning given the term in section 3 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3102).

## CHAPTER 1—OFFICE OF INTERNET CONNECTIVITY AND GROWTH

### SEC. 31101. ESTABLISHMENT OF THE OFFICE OF INTERNET CONNECTIVITY AND GROWTH.

Not later than 180 days after the date of the enactment of this Act, the Assistant Secretary shall establish the Office of Internet Connectivity and Growth within the National Telecommunications and Information Administration.

### SEC. 31102. DUTIES.

(a) **OUTREACH.**—The Office shall—

(1) connect with communities that need access to broadband service and improved digital inclusion activities through various forms of outreach and communication techniques;

(2) hold regional workshops across the country to share best practices and effective strategies for promoting access to broadband service and adoption of broadband service;

(3) develop targeted broadband service training and presentations for various demographic communities through various media; and

(4) develop and distribute publications (including toolkits, primers, manuals, and white papers) providing guidance, strategies, and insights to communities as the communities develop strategies to expand access to broadband service and adoption of broadband service.

(b) **TRACKING OF FEDERAL DOLLARS.**—

(1) **BROADBAND SERVICE INFRASTRUCTURE.**—The Office shall track the construction and use of and access to any broadband service infrastructure built using any Federal support in a central database.

(2) **ACCOUNTING MECHANISM.**—The Office shall develop a streamlined accounting mechanism by which any Federal agency offering a Federal broadband service support program, and the Commission with respect to the Universal Service Fund programs, shall provide the information described in paragraph (1) in a standardized and efficient fashion.

(3) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, and every year thereafter, the Office shall make public on the website of the Office and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the following:

(A) A description of the work of the Office for the previous year and the number of residents of the United States that received broadband service as result of Federal broadband service support programs and the Universal Service Fund programs.

(B) A description of how many residents of the United States were provided broadband service by which universal service mechanism or which Federal broadband service support program.

(C) An estimate of the economic impact of such broadband service deployment efforts on the local economy, including any effect on small businesses or jobs.

(D) A description of any non-economic benefits of such broadband service deployment efforts, including any effect on civic engagement.

(c) **STUDY AND REPORT ON AFFORDABILITY OF ADOPTION OF BROADBAND SERVICE.**—

(1) **STUDY.**—The Office, in consultation with the Commission, the Department of Agriculture, the Department of the Treasury, and such other Federal agencies as the Office considers appropriate, shall, not later than 1 year after the date of the enactment of this Act, and biennially thereafter, conduct a study that examines the following:

(A) The number of households for which cost is a barrier to the adoption of broadband service, the financial circumstances of such households, and whether such households are eligible for the broadband benefit under section 31141.

(B) The extent to which the cost of adoption of broadband service is a financial burden to households that have adopted broadband service, the financial circumstances of such financially burdened households, and whether such households are receiving the broadband benefit under section 31141.

(C) The appropriate standard to determine whether adoption of broadband service is affordable for households, given the financial circumstances of such households.

(D) The feasibility of providing additional Federal subsidies, including expanding the eligibility for or increasing the amount of the

broadband benefit under section 31141, to households to cover the difference between the cost of adoption of broadband service (determined before applying such additional Federal subsidies) and the price at which adoption of broadband service would be affordable.

(E) How a program to provide additional Federal subsidies as described in subparagraph (D) should be administered to most effectively facilitate adoption of broadband service at the lowest overall expense to the Federal Government, including measures that would ensure that the availability of the subsidies does not result in providers raising the price of broadband service for households receiving subsidies.

(F) How participation in the Lifeline program of the Commission has changed in the 5 years prior to the date of the enactment of this Act, including—

(i) geographic information at the census-block level depicting the scale of change in participation in each area; and

(ii) information on changes in participation by specific types of Lifeline-supported services, including fixed voice telephony service, mobile voice telephony service, fixed broadband service, and mobile broadband service and, in the case of any Lifeline-supported services provided as part of a bundle of services to which a Lifeline discount is applied, which Lifeline-supported services are part of such bundle and whether or not each Lifeline-supported service in such bundle meets Lifeline minimum service standards.

(G) How competition impacts the price of broadband service.

(2) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, and biennially thereafter, the Office shall submit to Congress a report on the results of the study conducted under paragraph (1).

(3) **COST DEFINED.**—In this subsection, the term “cost” means, with respect to adoption of broadband service, the cost of adoption of broadband service to a household after applying any subsidies that reduce such cost.

### SEC. 31103. STREAMLINED APPLICATIONS FOR SUPPORT.

(a) **FEDERAL AGENCY CONSULTATION.**—The Office shall consult with any Federal agency offering a Federal broadband service support program to streamline and standardize the application process for financial assistance for such program.

(b) **FEDERAL AGENCY STREAMLINING.**—Any Federal agency offering a Federal broadband service support program shall amend the applications of such agency for broadband service support, to the extent practicable and as necessary, to streamline and standardize applications for Federal broadband service support programs across the Government.

(c) **SINGLE APPLICATION.**—To the greatest extent practicable, the Office shall seek to create one application that may be submitted to apply for all, or substantially all, Federal broadband service support programs.

(d) **WEBSITE REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Office shall create a central website through which potential applicants can learn about and apply for support through any Federal broadband service support program.

### SEC. 31104. COORDINATION OF SUPPORT.

The Office, any Federal agency that offers a Federal broadband service support program, and the Commission with respect to the Universal Service Fund programs shall coordinate to ensure that support is being distributed in an efficient, technology-neutral, and financially sustainable manner, with the goals of achieving universal access to affordable broadband service and promoting the most job and economic growth for all residents of the United States.

### SEC. 31105. RULE OF CONSTRUCTION.

Nothing in this chapter is intended to alter or amend any provision of section 254 of the Communications Act of 1934 (47 U.S.C. 254).

**SEC. 31106. FUNDING.**

(a) **APPROPRIATION.**—There are appropriated to the Assistant Secretary, out of any money in the Treasury not otherwise appropriated, \$26,000,000 to carry out this chapter for fiscal year 2021, to remain available until expended.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Assistant Secretary \$26,000,000 to carry out this chapter for fiscal year 2022 and each fiscal year thereafter, to remain available until expended.

**CHAPTER 2—DIGITAL EQUITY PROGRAMS**  
**SEC. 31121. STATE DIGITAL EQUITY CAPACITY GRANT PROGRAM.**

(a) **ESTABLISHMENT; PURPOSE.**—

(1) **IN GENERAL.**—The Assistant Secretary shall establish in the Office the State Digital Equity Capacity Grant Program (referred to in this section as the “Program”)—

(A) the purpose of which is to promote the achievement of digital equity, support digital inclusion activities, and build capacity for efforts by States relating to the adoption of broadband service by residents of those States;

(B) through which the Assistant Secretary shall make grants to States in accordance with the requirements of this section; and

(C) which shall ensure that States have the capacity to promote the achievement of digital equity and support digital inclusion activities.

(2) **CONSULTATION WITH OTHER FEDERAL AGENCIES; NO CONFLICT.**—In establishing the Program under paragraph (1), the Assistant Secretary shall—

(A) consult with—

- (i) the Secretary of Agriculture;
- (ii) the Secretary of Housing and Urban Development;
- (iii) the Secretary of Education;
- (iv) the Secretary of Labor;
- (v) the Secretary of Health and Human Services;
- (vi) the Secretary of Veterans Affairs;
- (vii) the Secretary of the Interior;
- (viii) the Assistant Secretary for Indian Affairs of the Department of the Interior;
- (ix) the Commission;
- (x) the Federal Trade Commission;
- (xi) the Director of the Institute of Museum and Library Services;
- (xii) the Administrator of the Small Business Administration;
- (xiii) the Federal Cochairman of the Appalachian Regional Commission; and
- (xiv) the head of any other Federal agency that the Assistant Secretary determines to be appropriate; and

(B) ensure that the Program complements and enhances, and does not conflict with, other Federal broadband service support programs and Universal Service Fund programs.

(b) **ADMINISTERING ENTITY.**—

(1) **SELECTION; FUNCTION.**—The governor (or equivalent official) of a State that wishes to be awarded a grant under this section shall, from among entities that are eligible under paragraph (2), select an administering entity for that State, which shall—

(A) serve as the recipient of, and administering agent for, any grant awarded to the State under this section;

(B) develop, implement, and oversee the State Digital Equity Plan for the State described in subsection (c);

(C) make subgrants to any of the entities described in clauses (i) through (xi) of subsection (c)(1)(D) that is located in the State in support of—

(i) the State Digital Equity Plan for the State; and

(ii) digital inclusion activities in the State generally; and

(D) serve as—

(i) an advocate for digital equity policies and digital inclusion activities; and

(ii) a repository of best practice materials regarding the policies and activities described in clause (i).

(2) **ELIGIBLE ENTITIES.**—Any of the following entities may serve as the administering entity for a State for the purposes of this section if the entity has demonstrated a capacity to administer the Program on a statewide level:

(A) The State.

(B) A political subdivision, agency, or instrumentality of the State.

(C) An Indian Tribe located in the State, a tribally designated entity located in the State, or a Native Hawaiian organization located in the State.

(c) **STATE DIGITAL EQUITY PLAN.**—

(1) **DEVELOPMENT; CONTENTS.**—A State that wishes to be awarded a grant under subsection (d) shall develop a State Digital Equity Plan for the State, which shall include—

(A) an identification of the barriers to digital equity faced by covered populations in the State;

(B) measurable objectives for documenting and promoting, among each group described in subparagraphs (A) through (H) of section 31001(6) located in that State—

(i) the availability of, and affordability of access to, broadband service and technology needed for the use of broadband service;

(ii) public awareness of such availability and affordability and of subsidies available to increase such affordability (including subsidies available through the Lifeline program of the Commission), including objectives to—

(I) inform Medicaid enrollees and SNAP participants, and organizations that serve Medicaid enrollees and SNAP participants, of potential eligibility for the Lifeline program; and

(II) provide Medicaid enrollees and SNAP participants with information about the Lifeline program, including—

(aa) how to apply for the Lifeline program; and

(bb) a description of the prohibition on more than one subscriber in each household receiving a service provided under the Lifeline program;

(iii) the online accessibility and inclusivity of public resources and services;

(iv) digital literacy;

(v) awareness of, and the use of, measures to secure the online privacy of, and cybersecurity with respect to, an individual; and

(vi) the availability and affordability of consumer devices and technical support for those devices;

(C) an assessment of how the objectives described in subparagraph (B) will impact and interact with the State’s—

(i) economic and workforce development goals, plans, and outcomes;

(ii) educational outcomes;

(iii) health outcomes;

(iv) civic and social engagement; and

(v) delivery of other essential services;

(D) in order to achieve the objectives described in subparagraph (B), a description of how the State plans to collaborate with key stakeholders in the State, which may include—

(i) anchor institutions;

(ii) county and municipal governments;

(iii) local educational agencies;

(iv) where applicable, Indian Tribes, tribally designated entities, or Native Hawaiian organizations;

(v) nonprofit organizations;

(vi) organizations that represent—

(I) individuals with disabilities, including organizations that represent children with disabilities;

(II) aging individuals;

(III) individuals with a language barrier, including individuals who—

(aa) are English learners; or

(bb) have low levels of literacy;

(IV) veterans;

(V) individuals residing in rural areas; and

(VI) incarcerated individuals in that State, other than individuals who are incarcerated in a Federal correctional facility (including a private facility operated under contract with the Federal Government);

(vii) civil rights organizations;

(viii) entities that carry out workforce development programs;

(ix) agencies of the State that are responsible for administering or supervising adult education and literacy activities in the State;

(x) public housing agencies whose jurisdictions are located in the State; and

(xi) a consortium of any of the entities described in clauses (i) through (x); and

(E) a list of organizations with which the administering entity for the State collaborated in developing and implementing the Plan.

(2) **PUBLIC AVAILABILITY.**—

(A) **IN GENERAL.**—The administering entity for a State shall make the State Digital Equity Plan of the State available for public comment for a period of not less than 30 days before the date on which the State submits an application to the Assistant Secretary under subsection (d)(2).

(B) **CONSIDERATION OF COMMENTS RECEIVED.**—The administering entity for a State shall, with respect to an application submitted to the Assistant Secretary under subsection (d)(2)—

(i) before submitting the application—

(I) consider all comments received during the comment period described in subparagraph (A) with respect to the application (referred to in this subparagraph as the “comment period”); and

(II) make any changes to the plan that the administering entity determines to be appropriate; and

(ii) when submitting the application—

(I) describe any changes pursued by the administering entity in response to comments received during the comment period; and

(II) include a written response to each comment received during the comment period.

(3) **PLANNING GRANTS.**—

(A) **IN GENERAL.**—Beginning in the first fiscal year that begins after the date of the enactment of this Act, the Assistant Secretary shall, in accordance with the requirements of this paragraph, award planning grants to States for the purpose of developing the State Digital Equity Plans of those States under this subsection.

(B) **ELIGIBILITY.**—In order to be awarded a planning grant under this paragraph, a State—

(i) shall submit to the Assistant Secretary an application under subparagraph (C); and

(ii) may not have been awarded, at any time, a planning grant under this paragraph.

(C) **APPLICATION.**—A State that wishes to be awarded a planning grant under this paragraph shall, not later than 60 days after the date on which the notice of funding availability with respect to the grant is released, submit to the Assistant Secretary an application, in a format to be determined by the Assistant Secretary, that contains the following materials:

(i) A description of the entity selected to serve as the administering entity for the State, as described in subsection (b).

(ii) A certification from the State that, not later than 1 year after the date on which the Assistant Secretary awards the planning grant to the State, the administering entity for that State will submit to the Assistant Secretary a State Digital Equity Plan developed under this subsection, which will comply with the requirements of this subsection, including the requirements of paragraph (2).

(iii) The assurances required under subsection (e).

(D) **AWARDS.**—

(i) **AMOUNT OF GRANT.**—The amount of a planning grant awarded to an eligible State under this paragraph shall be determined according to the formula under subsection (d)(3)(A)(i).

(ii) **DURATION.**—

(I) **IN GENERAL.**—Except as provided in subclause (II), with respect to a planning grant awarded to an eligible State under this paragraph, the State shall expend the grant funds during the 1-year period beginning on the date on which the State is awarded the grant funds.

(II) **EXCEPTION.**—The Assistant Secretary may grant an extension of not longer than 180 days with respect to the requirement under subclause (I).

(iii) **CHALLENGE MECHANISM.**—The Assistant Secretary shall ensure that any eligible State to which a planning grant is awarded under this paragraph may appeal or otherwise challenge in a timely fashion the amount of the grant awarded to the State, as determined under clause (i).

(E) **USE OF FUNDS.**—An eligible State to which a planning grant is awarded under this paragraph shall, through the administering entity for that State, use the grant funds only for the following purposes:

(i) To develop the State Digital Equity Plan of the State under this subsection.

(ii)(I) Subject to subclause (II), to make subgrants to any of the entities described in clauses (i) through (xi) of paragraph (1)(D) to assist in the development of the State Digital Equity Plan of the State under this subsection.

(II) If the administering entity for a State makes a subgrant described in subclause (I), the administering entity shall, with respect to the subgrant, provide to the State the assurances required under subsection (e).

(d) **STATE CAPACITY GRANTS.**—

(1) **IN GENERAL.**—Beginning not later than 2 years after the date on which the Assistant Secretary begins awarding planning grants under subsection (c)(3), the Assistant Secretary shall each year award grants to eligible States to support—

(A) the implementation of the State Digital Equity Plans of those States; and

(B) digital inclusion activities in those States.

(2) **APPLICATION.**—A State that wishes to be awarded a grant under this subsection shall, not later than 60 days after the date on which the notice of funding availability with respect to the grant is released, submit to the Assistant Secretary an application, in a format to be determined by the Assistant Secretary, that contains the following materials:

(A) A description of the entity selected to serve as the administering entity for the State, as described in subsection (b).

(B) The State Digital Equity Plan of that State, as described in subsection (c).

(C) A certification that the State, acting through the administering entity for the State, shall—

(i) implement the State Digital Equity Plan of the State; and

(ii) make grants in a manner that is consistent with the aims of the Plan described in clause (i).

(D) The assurances required under subsection (e).

(E) In the case of a State to which the Assistant Secretary has previously awarded a grant under this subsection, any amendments to the State Digital Equity Plan of that State, as compared with the State Digital Equity Plan of the State previously submitted.

(3) **AWARDS.**—

(A) **AMOUNT OF GRANT.**—

(i) **FORMULA.**—Subject to clauses (ii), (iii), and (iv), the Assistant Secretary shall calculate the amount of a grant awarded to an eligible State under this subsection in accordance with the following criteria, using the best available data for all States for the fiscal year in which the grant is awarded:

(I) 50 percent of the total grant amount shall be based on the population of the eligible State in proportion to the total population of all eligible States.

(II) 25 percent of the total grant amount shall be based on the number of individuals in the eligible State who are members of covered populations in proportion to the total number of individuals in all eligible States who are members of covered populations.

(III) 25 percent of the total grant amount shall be based on the lack of availability of broadband service and lack of adoption of broadband service in the eligible State in pro-

portion to the lack of availability of broadband service and lack of adoption of broadband service in all eligible States, which shall be determined according to data collected—

(aa) from the annual inquiry of the Commission conducted under section 706(b) of the Telecommunications Act of 1996 (47 U.S.C. 1302(b));

(bb) from the American Community Survey or, if necessary, other data collected by the Bureau of the Census;

(cc) from the Internet and Computer Use Supplement to the Current Population Survey of the Bureau of the Census;

(dd) by the Commission pursuant to the rules issued under section 802 of the Communications Act of 1934 (47 U.S.C. 642); and

(ee) from any other source that the Assistant Secretary, after appropriate notice and opportunity for public comment, determines to be appropriate.

(ii) **MINIMUM AWARD.**—The amount of a grant awarded to an eligible State under this subsection in a fiscal year shall be not less than 0.5 percent of the total amount made available to award grants to eligible States for that fiscal year.

(iii) **ADDITIONAL AMOUNTS.**—If, after awarding planning grants to States under subsection (c)(3) and capacity grants to eligible States under this subsection in a fiscal year, there are amounts remaining to carry out this section, the Assistant Secretary shall distribute those amounts—

(I) to eligible States to which the Assistant Secretary has awarded grants under this subsection for that fiscal year; and

(II) in accordance with the formula described in clause (i).

(iv) **DATA UNAVAILABLE.**—If, in a fiscal year, the Commonwealth of Puerto Rico (referred to in this clause as “Puerto Rico”) is an eligible State and specific data for Puerto Rico is unavailable for a factor described in subclause (I), (II), or (III) of clause (i), the Assistant Secretary shall use the median data point with respect to that factor among all eligible States and assign it to Puerto Rico for the purposes of making any calculation under that clause for that fiscal year.

(B) **DURATION.**—With respect to a grant awarded to an eligible State under this subsection, the eligible State shall expend the grant funds during the 5-year period beginning on the date on which the eligible State is awarded the grant funds.

(C) **CHALLENGE MECHANISM.**—The Assistant Secretary shall ensure that any eligible State to which a grant is awarded under this subsection may appeal or otherwise challenge in a timely fashion the amount of the grant awarded to the State, as determined under subparagraph (A).

(D) **USE OF FUNDS.**—The administering entity for an eligible State to which a grant is awarded under this subsection shall use the grant amounts for the following purposes:

(i)(I) Subject to subclause (II), to update or maintain the State Digital Equity Plan of the State.

(II) An administering entity for an eligible State to which a grant is awarded under this subsection may use not more than 20 percent of the amount of the grant for the purpose described in subclause (I).

(ii) To implement the State Digital Equity Plan of the State.

(iii)(I) Subject to subclause (II), to award a grant to any entity that is described in section 31122(b) and is located in the eligible State in order to—

(aa) assist in the implementation of the State Digital Equity Plan of the State;

(bb) pursue digital inclusion activities in the State consistent with the State Digital Equity Plan of the State; and

(cc) report to the State regarding the digital inclusion activities of the entity.

(II) Before an administering entity for an eligible State may award a grant under subclause

(I), the administering entity shall require the entity to which the grant is awarded to certify that—

(aa) the entity shall carry out the activities required under items (aa), (bb), and (cc) of that subclause;

(bb) the receipt of the grant shall not result in unjust enrichment of the entity; and

(cc) the entity shall cooperate with any evaluation—

(AA) of any program that relates to a grant awarded to the entity; and

(BB) that is carried out by or for the administering entity, the Assistant Secretary, or another Federal official.

(iv)(I) Subject to subclause (II), to evaluate the efficacy of the efforts funded by grants made under clause (iii).

(II) An administering entity for an eligible State to which a grant is awarded under this subsection may use not more than 5 percent of the amount of the grant for a purpose described in subclause (I).

(v)(I) Subject to subclause (II), for the administrative costs incurred in carrying out the activities described in clauses (i) through (iv).

(II) An administering entity for an eligible State to which a grant is awarded under this subsection may use not more than 3 percent of the amount of the grant for the purpose described in subclause (I).

(e) **ASSURANCES.**—When applying for a grant under this section, a State shall include in the application for that grant assurances that—

(I) if any of the entities described in clauses (i) through (xi) of subsection (c)(1)(D) or section 31122(b) is awarded grant funds under this section (referred to in this subsection as a “covered recipient”), provide that—

(A) the covered recipient shall use the grant funds in accordance with any applicable statute, regulation, or application procedure;

(B) the administering entity for that State shall adopt and use proper methods of administering any grant that the covered recipient is awarded, including by—

(i) enforcing any obligation imposed under law on any agency, institution, organization, or other entity that is responsible for carrying out the program to which the grant relates;

(ii) correcting any deficiency in the operation of a program to which the grant relates, as identified through an audit or another monitoring or evaluation procedure; and

(iii) adopting written procedures for the receipt and resolution of complaints alleging a violation of law with respect to a program to which the grant relates; and

(C) the administering entity for that State shall cooperate in carrying out any evaluation—

(i) of any program that relates to a grant awarded to the covered recipient; and

(ii) that is carried out by or for the Assistant Secretary or another Federal official;

(2) the administering entity for that State shall—

(A) use fiscal control and fund accounting procedures that ensure the proper disbursement of, and accounting for, any Federal funds that the State is awarded under this section;

(B) submit to the Assistant Secretary any reports that may be necessary to enable the Assistant Secretary to perform the duties of the Assistant Secretary under this section;

(C) maintain any records and provide any information to the Assistant Secretary, including those records, that the Assistant Secretary determines is necessary to enable the Assistant Secretary to perform the duties of the Assistant Secretary under this section; and

(D) with respect to any significant proposed change or amendment to the State Digital Equity Plan for the State, make the change or amendment available for public comment in accordance with subsection (c)(2); and

(3) the State, before submitting to the Assistant Secretary the State Digital Equity Plan of

the State, has complied with the requirements of subsection (c)(2).

(f) **TERMINATION OF GRANT.**—

(1) **IN GENERAL.**—In addition to other authority under applicable law, the Assistant Secretary shall terminate a grant awarded to an eligible State under this section if, after notice to the State and opportunity for a hearing, the Assistant Secretary determines, and presents to the State a rationale and supporting information that clearly demonstrates, that—

(A) the grant funds are not contributing to the development or implementation of the State Digital Equity Plan of the State, as applicable;

(B) the State is not upholding assurances made by the State to the Assistant Secretary under subsection (e); or

(C) the grant is no longer necessary to achieve the original purpose for which the Assistant Secretary awarded the grant.

(2) **REDISTRIBUTION.**—If the Assistant Secretary, in a fiscal year, terminates a grant under paragraph (1) or under other authority under applicable law, the Assistant Secretary shall redistribute the unspent grant amounts—

(A) to eligible States to which the Assistant Secretary has awarded grants under subsection (d) for that fiscal year; and

(B) in accordance with the formula described in subsection (d)(3)(A)(i).

(g) **REPORTING AND INFORMATION REQUIREMENTS; INTERNET DISCLOSURE.**—The Assistant Secretary—

(1) shall—

(A) require any entity to which a grant, including a subgrant, is awarded under this section to publicly report, for each year during the period described in subsection (c)(3)(D)(ii) or (d)(3)(B), as applicable, with respect to the grant, and in a format specified by the Assistant Secretary, on—

(i) the use of that grant by the entity;

(ii) the progress of the entity towards fulfilling the objectives for which the grant was awarded; and

(iii) the implementation of the State Digital Equity Plan of the State;

(B) establish appropriate mechanisms to ensure that any entity to which a grant, including a subgrant, is awarded under this section—

(i) uses the grant amounts in an appropriate manner; and

(ii) complies with all terms with respect to the use of the grant amounts; and

(C) create and maintain a fully searchable database, which shall be accessible on the internet at no cost to the public, that contains, at a minimum—

(i) the application of each State that has applied for a grant under this section;

(ii) the status of each application described in clause (i);

(iii) each report submitted by an entity under subparagraph (A);

(iv) a record of public comments received during the comment period described in subsection (c)(2)(A) regarding the State Digital Equity Plan of a State, as well as any written responses to or actions taken as a result of those comments; and

(v) any other information that the Assistant Secretary considers appropriate to ensure that the public has sufficient information to understand and monitor grants awarded under this section; and

(2) may establish additional reporting and information requirements for any recipient of a grant under this section.

(h) **SUPPLEMENT NOT SUPPLANT.**—A grant or subgrant awarded under this section shall supplement, not supplant, other Federal or State funds that have been made available to carry out activities described in this section.

(i) **SET ASIDES.**—From amounts made available in a fiscal year to carry out the Program, the Assistant Secretary shall reserve—

(1) not more than 5 percent for the implementation and administration of the Program, which shall include—

(A) providing technical support and assistance, including ensuring consistency in data reporting;

(B) providing assistance to—

(i) States, or administering entities for States, to prepare the applications of those States; and

(ii) administering entities with respect to grants awarded under this section; and

(C) developing the report required under section 31123(a); and

(2) not less than 5 percent to award grants directly to Indian Tribes, tribally designated entities, and Native Hawaiian organizations to allow those Tribes, entities, and organizations to carry out the activities described in this section.

(j) **RULES.**—The Assistant Secretary may prescribe such rules as may be necessary to carry out this section.

(k) **APPROPRIATION.**—There are appropriated to the Assistant Secretary, out of any money in the Treasury not otherwise appropriated—

(1) for the award of grants under subsection (c)(3), \$60,000,000 for fiscal year 2021, to remain available until expended; and

(2) for the award of grants under subsection (d)—

(A) \$125,000,000 for fiscal year 2021, to remain available until expended;

(B) \$125,000,000 for fiscal year 2022, to remain available until expended;

(C) \$125,000,000 for fiscal year 2023, to remain available until expended;

(D) \$125,000,000 for fiscal year 2024, to remain available until expended; and

(E) \$125,000,000 for fiscal year 2025, to remain available until expended.

**SEC. 31122. DIGITAL EQUITY COMPETITIVE GRANT PROGRAM.**

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—Not later than 30 days after the date on which the Assistant Secretary begins awarding grants under section 31121(d), and not before that date, the Assistant Secretary shall establish in the Office the Digital Equity Competitive Grant Program (referred to in this section as the “Program”), the purpose of which is to award grants to support efforts to achieve digital equity, promote digital inclusion activities, and spur greater adoption of broadband service among covered populations.

(2) **CONSULTATION; NO CONFLICT.**—In establishing the Program under paragraph (1), the Assistant Secretary—

(A) may consult a State with respect to—

(i) the identification of groups described in subparagraphs (A) through (H) of section 31001(6) located in that State; and

(ii) the allocation of grant funds within that State for projects in or affecting the State; and

(B) shall—

(i) consult with—

(I) the Secretary of Agriculture;

(II) the Secretary of Housing and Urban Development;

(III) the Secretary of Education;

(IV) the Secretary of Labor;

(V) the Secretary of Health and Human Services;

(VI) the Secretary of Veterans Affairs;

(VII) the Secretary of the Interior;

(VIII) the Assistant Secretary for Indian Affairs of the Department of the Interior;

(IX) the Commission;

(X) the Federal Trade Commission;

(XI) the Director of the Institute of Museum and Library Services;

(XII) the Administrator of the Small Business Administration;

(XIII) the Federal Cochairman of the Appalachian Regional Commission; and

(XIV) the head of any other Federal agency that the Assistant Secretary determines to be appropriate; and

(ii) ensure that the Program complements and enhances, and does not conflict with, other Federal broadband service support programs and Universal Service Fund programs.

(b) **ELIGIBILITY.**—The Assistant Secretary may award a grant under the Program to any of the following entities if the entity is not serving, and has not served, as the administering entity for a State under section 31121(b):

(1) A political subdivision, agency, or instrumentality of a State, including an agency of a State that is responsible for administering or supervising adult education and literacy activities in the State.

(2) An Indian Tribe, a tribally designated entity, or a Native Hawaiian organization.

(3) An entity that is—

(A) a not-for-profit entity; and

(B) not a school.

(4) An anchor institution.

(5) A local educational agency.

(6) An entity that carries out a workforce development program.

(7) A consortium of any of the entities described in paragraphs (1) through (6).

(8) A consortium of—

(A) an entity described in any of paragraphs (1) through (6); and

(B) an entity that—

(i) the Assistant Secretary, by rule, determines to be in the public interest; and

(ii) is not a school.

(c) **APPLICATION.**—An entity that wishes to be awarded a grant under the Program shall submit to the Assistant Secretary an application—

(1) at such time, in such form, and containing such information as the Assistant Secretary may require; and

(2) that—

(A) provides a detailed explanation of how the entity will use any grant amounts awarded under the Program to carry out the purposes of the Program in an efficient and expeditious manner;

(B) identifies the period in which the applicant will expend the grant funds awarded under the Program;

(C) includes—

(i) a justification for the amount of the grant that the applicant is requesting; and

(ii) for each fiscal year in which the applicant will expend the grant funds, a budget for the activities that the grant funds will support;

(D) demonstrates to the satisfaction of the Assistant Secretary that the entity—

(i) is capable of carrying out the project or function to which the application relates and the activities described in subsection (h)—

(I) in a competent manner; and

(II) in compliance with all applicable Federal, State, and local laws; and

(ii) if the applicant is an entity described in subsection (b)(1), will appropriate or otherwise unconditionally obligate from non-Federal sources funds that are necessary to meet the requirements of subsection (e);

(E) discloses to the Assistant Secretary the source and amount of other Federal, State, or outside funding sources from which the entity receives, or has applied for, funding for activities or projects to which the application relates; and

(F) provides—

(i) the assurances that are required under subsection (f); and

(ii) an assurance that the entity shall follow such additional procedures as the Assistant Secretary may require to ensure that grant funds are used and accounted for in an appropriate manner.

(d) **AWARD OF GRANTS.**—

(1) **FACTORS CONSIDERED IN AWARD OF GRANTS.**—In deciding whether to award a grant under the Program, the Assistant Secretary shall, to the extent practicable, consider—

(A) whether—

(i) an application will, if approved—

(I) increase access to broadband service and the adoption of broadband service among covered populations to be served by the applicant; and

(II) not result in unjust enrichment; and

(ii) the applicant is, or plans to subcontract with, a socially and economically disadvantaged small business concern;

(B) the comparative geographic diversity of the application in relation to other eligible applications; and

(C) the extent to which an application may duplicate or conflict with another program.

(2) USE OF FUNDS.—

(A) IN GENERAL.—In addition to the activities required under subparagraph (B), an entity to which the Assistant Secretary awards a grant under the Program shall use the grant amounts to support not less than 1 of the following activities:

(i) To develop and implement digital inclusion activities that benefit covered populations.

(ii) To facilitate the adoption of broadband service by covered populations, including by raising awareness of subsidies available to increase affordability of such service (including subsidies available through the Lifeline program of the Commission), in order to provide educational and employment opportunities to those populations.

(iii) To implement, consistent with the purposes of this chapter—

(I) training programs for covered populations that cover basic, advanced, and applied skills; or

(II) other workforce development programs.

(iv) To make available equipment, instrumentation, networking capability, hardware and software, or digital network technology for broadband service to covered populations at low or no cost.

(v) To construct, upgrade, expend, or operate new or existing public access computing centers for covered populations through anchor institutions.

(vi) To undertake any other project or activity that the Assistant Secretary finds to be consistent with the purposes for which the Program is established.

(B) EVALUATION.—

(i) IN GENERAL.—An entity to which the Assistant Secretary awards a grant under the Program shall use not more than 10 percent of the grant amounts to measure and evaluate the activities supported with the grant amounts.

(ii) SUBMISSION TO ASSISTANT SECRETARY.—An entity to which the Assistant Secretary awards a grant under the Program shall submit to the Assistant Secretary each measurement and evaluation performed under clause (i)—

(I) in a manner specified by the Assistant Secretary;

(II) not later than 15 months after the date on which the entity is awarded the grant amounts; and

(III) annually after the submission described in subclause (II) for any year in which the entity expends grant amounts.

(C) ADMINISTRATIVE COSTS.—An entity to which the Assistant Secretary awards a grant under the Program may use not more than 10 percent of the amount of the grant for administrative costs in carrying out any of the activities described in subparagraph (A).

(D) TIME LIMITATIONS.—With respect to a grant awarded to an entity under the Program, the entity—

(i) except as provided in clause (ii), shall expend the grant amounts during the 4-year period beginning on the date on which the entity is awarded the grant amounts; and

(ii) during the 1-year period beginning on the date that is 4 years after the date on which the entity is awarded the grant amounts, may continue to measure and evaluate the activities supported with the grant amounts, as required under subparagraph (B).

(E) CONTRACTING REQUIREMENTS.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work carried out, in whole or in part, with a grant under the Program shall be paid wages at rates not less than

those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this subparagraph, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(F) NEUTRALITY REQUIREMENT.—An employer to which the Assistant Secretary awards a grant under the Program shall remain neutral with respect to the exercise of employees and labor organizations of the right to organize and bargain under the National Labor Relations Act (29 U.S.C. 151 et seq.).

(G) REFERRAL OF ALLEGED VIOLATIONS OF APPLICABLE FEDERAL LABOR AND EMPLOYMENT LAWS.—The Assistant Secretary shall refer any alleged violation of an applicable labor and employment law to the appropriate Federal agency for investigation and enforcement, any alleged violation of subparagraph (E) or (F) to the National Labor Relations Board for investigation and enforcement, utilizing all appropriate remedies up to and including debarment from the Program.

(e) FEDERAL SHARE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the Federal share of any project for which the Assistant Secretary awards a grant under the Program may not exceed 90 percent.

(2) EXCEPTION.—The Assistant Secretary may grant a waiver with respect to the limitation on the Federal share of a project described in paragraph (1) if—

(A) the applicant with respect to the project petitions the Assistant Secretary for the waiver; and

(B) the Assistant Secretary determines that the petition described in subparagraph (A) demonstrates financial need.

(f) ASSURANCES.—When applying for a grant under this section, an entity shall include in the application for that grant assurances that the entity will—

(1) use any grant funds that the entity is awarded in accordance with any applicable statute, regulation, or application procedure;

(2) adopt and use proper methods of administering any grant that the entity is awarded, including by—

(A) enforcing any obligation imposed under law on any agency, institution, organization, or other entity that is responsible for carrying out a program to which the grant relates;

(B) correcting any deficiency in the operation of a program to which the grant relates, as identified through an audit or another monitoring or evaluation procedure; and

(C) adopting written procedures for the receipt and resolution of complaints alleging a violation of law with respect to a program to which the grant relates;

(3) cooperate with respect to any evaluation—

(A) of any program that relates to a grant awarded to the entity; and

(B) that is carried out by or for the Assistant Secretary or another Federal official;

(4) use fiscal control and fund accounting procedures that ensure the proper disbursement of, and accounting for, any Federal funds that the entity is awarded under the Program;

(5) submit to the Assistant Secretary any reports that may be necessary to enable the Assistant Secretary to perform the duties of the Assistant Secretary under the Program; and

(6) maintain any records and provide any information to the Assistant Secretary, including those records, that the Assistant Secretary determines is necessary to enable the Assistant Secretary to perform the duties of the Assistant Secretary under the Program.

(g) TERMINATION OF GRANT.—In addition to other authority under applicable law, the Assistant Secretary shall—

(1) terminate a grant awarded to an entity under this section if, after notice to the entity

and opportunity for a hearing, the Assistant Secretary determines, and presents to the entity a rationale and supporting information that clearly demonstrates, that—

(A) the grant funds are not being used in a manner that is consistent with the application with respect to the grant submitted by the entity under subsection (c);

(B) the entity is not upholding assurances made by the entity to the Assistant Secretary under subsection (f); or

(C) the grant is no longer necessary to achieve the original purpose for which the Assistant Secretary awarded the grant; and

(2) with respect to any grant funds that the Assistant Secretary terminates under paragraph (1) or under other authority under applicable law, competitively award the grant funds to another applicant (if such an applicant exists), consistent with the requirements of this section.

(h) REPORTING AND INFORMATION REQUIREMENTS; INTERNET DISCLOSURE.—The Assistant Secretary—

(1) shall—

(A) require any entity to which the Assistant Secretary awards a grant under the Program to, for each year during the period described in clause (i) of subsection (d)(2)(D) with respect to the grant and during the period described in clause (ii) of such subsection with respect to the grant if the entity continues to measure and evaluate the activities supported with the grant amounts during such period, submit to the Assistant Secretary a report, in a format specified by the Assistant Secretary, regarding—

(i) the use by the entity of the grant amounts; and

(ii) the progress of the entity towards fulfilling the objectives for which the grant was awarded;

(B) establish mechanisms to ensure appropriate use of, and compliance with respect to all terms regarding, grant funds awarded under the Program;

(C) create and maintain a fully searchable database, which shall be accessible on the internet at no cost to the public, that contains, at a minimum—

(i) a list of each entity that has applied for a grant under the Program;

(ii) a description of each application described in clause (i), including the proposed purpose of each grant described in that clause;

(iii) the status of each application described in clause (i), including whether the Assistant Secretary has awarded a grant with respect to the application and, if so, the amount of the grant;

(iv) each report submitted by an entity under subparagraph (A); and

(v) any other information that the Assistant Secretary considers appropriate to ensure that the public has sufficient information to understand and monitor grants awarded under the Program; and

(D) ensure that any entity with respect to which an award is terminated under subsection (g) may, in a timely manner, appeal or otherwise challenge that termination; and

(2) may establish additional reporting and information requirements for any recipient of a grant under the Program.

(i) SUPPLEMENT NOT SUPPLANT.—A grant awarded to an entity under the Program shall supplement, not supplant, other Federal or State funds that have been made available to the entity to carry out activities described in this section.

(j) SET ASIDES.—From amounts made available in a fiscal year to carry out the Program, the Assistant Secretary shall reserve—

(1) not more than 5 percent for the implementation and administration of the Program, which shall include—

(A) providing technical support and assistance, including ensuring consistency in data reporting;

(B) providing assistance to entities to prepare the applications of those entities with respect to grants awarded under this section;

(C) developing the report required under section 31123(a); and

(D) conducting outreach to entities that may be eligible to be awarded a grant under the Program regarding opportunities to apply for such a grant; and

(2) not less than 5 percent to award grants directly to Indian Tribes, tribally designated entities, and Native Hawaiian organizations to allow those Tribes, entities, and organizations to carry out the activities described in this section.

(k) **RULES.**—The Assistant Secretary may prescribe such rules as may be necessary to carry out this section.

(l) **APPROPRIATION.**—There are appropriated to the Assistant Secretary, out of any money in the Treasury not otherwise appropriated, \$625,000,000 to carry out this section for fiscal year 2021, to remain available until expended.

**SEC. 31123. POLICY RESEARCH, DATA COLLECTION, ANALYSIS AND MODELING, EVALUATION, AND DISSEMINATION.**

(a) **REPORTING REQUIREMENTS.**—

(1) **IN GENERAL.**—Not later than 1 year after the date on which the Assistant Secretary begins awarding grants under section 31121(d), and annually thereafter, the Assistant Secretary shall—

(A) submit to the appropriate committees of Congress a report that documents, for the year covered by the report—

(i) the findings of each evaluation conducted under subparagraph (B);

(ii) a list of each grant awarded under each covered program, which shall include—

(I) the amount of each such grant;

(II) the recipient of each such grant; and

(III) the purpose for which each such grant was awarded;

(iii) any termination or modification of a grant awarded under the covered programs, which shall include a description of the subsequent usage of any funds to which such an action applies; and

(iv) each challenge made by an applicant for, or a recipient of, a grant under the covered programs and the outcome of each such challenge; and

(B) conduct evaluations of the activities carried out under the covered programs, which shall include an evaluation of—

(i) whether eligible States to which grants are awarded under the program established under section 31121 are—

(I) abiding by the assurances made by those States under subsection (e) of that section;

(II) meeting, or have met, the stated goals of the State Digital Equity Plans developed by the States under subsection (c) of that section;

(III) satisfying the requirements imposed by the Assistant Secretary on those States under subsection (g) of that section; and

(IV) in compliance with any other rules, requirements, or regulations promulgated by the Assistant Secretary in implementing that program; and

(ii) whether entities to which grants are awarded under the program established under section 31122 are—

(I) abiding by the assurances made by those entities under subsection (f) of that section;

(II) meeting, or have met, the stated goals of those entities with respect to the use of the grant amounts;

(III) satisfying the requirements imposed by the Assistant Secretary on those entities under subsection (h) of that section; and

(IV) in compliance with any other rules, requirements, or regulations promulgated by the Assistant Secretary in implementing that program.

(2) **PUBLIC AVAILABILITY.**—The Assistant Secretary shall make each report submitted under paragraph (1)(A) publicly available in an online format that—

(A) facilitates access and ease of use;

(B) is searchable; and

(C) is accessible—

(i) to individuals with disabilities; and

(ii) in languages other than English.

(b) **AUTHORITY TO CONTRACT AND ENTER INTO OTHER ARRANGEMENTS.**—The Assistant Secretary may award grants and enter into contracts, cooperative agreements, and other arrangements with Federal agencies, public and private organizations, and other entities with expertise that the Assistant Secretary determines appropriate in order to—

(1) evaluate the impact and efficacy of activities supported by grants awarded under the covered programs; and

(2) develop, catalog, disseminate, and promote the exchange of best practices, both with respect to and independent of the covered programs, in order to achieve digital equity.

(c) **CONSULTATION AND PUBLIC ENGAGEMENT.**—In carrying out subsection (a), and to further the objectives described in paragraphs (1) and (2) of subsection (b), the Assistant Secretary shall conduct ongoing collaboration and consult with—

(1) the Secretary of Agriculture;

(2) the Secretary of Housing and Urban Development;

(3) the Secretary of Education;

(4) the Secretary of Labor;

(5) the Secretary of Health and Human Services;

(6) the Secretary of Veterans Affairs;

(7) the Secretary of the Interior;

(8) the Assistant Secretary for Indian Affairs of the Department of the Interior;

(9) the Commission;

(10) the Federal Trade Commission;

(11) the Director of the Institute of Museum and Library Services;

(12) the Administrator of the Small Business Administration;

(13) the Federal Cochairman of the Appalachian Regional Commission;

(14) State agencies and governors of States (or equivalent officials);

(15) entities serving as administering entities for States under section 31121(b);

(16) national, State, Tribal, and local organizations that conduct digital inclusion activities, promote digital equity, or provide digital literacy services;

(17) researchers, academics, and philanthropic organizations; and

(18) other agencies, organizations (including international organizations), entities (including entities with expertise in the fields of data collection, analysis and modeling, and evaluation), and community stakeholders, as determined appropriate by the Assistant Secretary.

(d) **TECHNICAL SUPPORT AND ASSISTANCE.**—The Assistant Secretary shall provide technical support and assistance to potential applicants for the covered programs and entities awarded grants under the covered programs, to ensure consistency in data reporting and to meet the objectives of this section.

**SEC. 31124. GENERAL PROVISIONS.**

(a) **NONDISCRIMINATION.**—

(1) **IN GENERAL.**—No individual in the United States may, on the basis of actual or perceived race, color, religion, national origin, sex, gender identity, sexual orientation, age, or disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that is funded in whole or in part with funds made available under this chapter.

(2) **ENFORCEMENT.**—The Assistant Secretary shall effectuate paragraph (1) with respect to any program or activity described in that paragraph by issuing regulations and taking actions consistent with section 602 of the Civil Rights Act of 1964 (42 U.S.C. 2000d–1).

(3) **JUDICIAL REVIEW.**—Judicial review of an action taken by the Assistant Secretary under paragraph (2) shall be available to the extent provided in section 603 of the Civil Rights Act of 1964 (42 U.S.C. 2000d–2).

(b) **TECHNOLOGICAL NEUTRALITY.**—The Assistant Secretary shall, to the extent practicable, carry out this chapter in a technologically neutral manner.

(c) **AUDIT AND OVERSIGHT.**—There are appropriated to the Office of Inspector General of the Department of Commerce, out of any money in the Treasury not otherwise appropriated, for audits and oversight of funds made available to carry out this chapter, \$5,000,000 for fiscal year 2021, to remain available until expended.

**CHAPTER 3—BROADBAND SERVICE FOR LOW-INCOME CONSUMERS**

**SEC. 31141. ADDITIONAL BROADBAND BENEFIT.**

(a) **PROMULGATION OF REGULATIONS REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Commission shall promulgate regulations implementing this section.

(b) **REQUIREMENTS.**—The regulations promulgated pursuant to subsection (a) shall establish the following:

(1) **BROADBAND BENEFIT.**—A provider shall provide an eligible household with an internet service offering, upon request by a member of such household. Such provider shall discount the price charged to such household for such internet service offering in an amount equal to the broadband benefit for such household.

(2) **VERIFICATION OF ELIGIBILITY.**—To verify whether a household is an eligible household, a provider shall either—

(A) use the National Lifeline Eligibility Verifier; or

(B) rely upon an alternative verification process of the provider, if the Commission finds such process to be sufficient to avoid waste, fraud, and abuse.

(3) **USE OF NATIONAL LIFELINE ELIGIBILITY VERIFIER.**—The Commission shall—

(A) expedite the ability of all providers to access the National Lifeline Eligibility Verifier for purposes of determining whether a household is an eligible household; and

(B) ensure that the National Lifeline Eligibility Verifier approves an eligible household to receive the broadband benefit not later than ten days after the date of the submission of information necessary to determine if such household is an eligible household.

(4) **REIMBURSEMENT.**—From the Broadband Connectivity Fund established in subsection (g), the Commission shall reimburse a provider in an amount equal to the broadband benefit with respect to an eligible household that receives such benefit from such provider.

(5) **REIMBURSEMENT FOR CONNECTED DEVICE.**—A provider that, in addition to providing the broadband benefit to an eligible household, supplies such household with a connected device may be reimbursed up to \$100 from the Broadband Connectivity Fund established in subsection (g) for such connected device, if the charge to such eligible household is more than \$10 but less than \$50 for such connected device, except that a provider may receive reimbursement for no more than one connected device per eligible household.

(6) **CERTIFICATION REQUIRED.**—To receive a reimbursement under paragraph (4) or (5), a provider shall certify to the Commission the following:

(A) That the amount for which the provider is seeking reimbursement from the Broadband Connectivity Fund for an internet service offering to an eligible household is not more than the normal rate.

(B) That each eligible household for which the provider is seeking reimbursement for providing an internet service offering discounted by the broadband benefit—

(i) has not been and will not be charged—

(I) for such offering, if the normal rate for such offering is less than or equal to the amount of the broadband benefit for such household; or

(II) more for such offering than the difference between the normal rate for such offering and

the amount of the broadband benefit for such household;

(ii) will not be required to pay an early termination fee if such eligible household elects to enter into a contract to receive such internet service offering if such household later terminates such contract; and

(iii) was not subject to a mandatory waiting period for such internet service offering based on having previously received broadband service from such provider.

(C) That each eligible household for which the provider is seeking reimbursement for supplying such household with a connected device has not been and will not be charged \$10 or less or \$50 or more for such device.

(D) A description of the process used by the provider to verify that a household is an eligible household, if the provider elects an alternative verification process under paragraph (2)(B), and that such verification process was designed to avoid waste, fraud, and abuse.

(7) **AUDIT REQUIREMENTS.**—The Commission shall adopt audit requirements to ensure that providers are in compliance with the requirements of this section and to prevent waste, fraud, and abuse in the broadband benefit program established under this section.

(c) **ELIGIBLE PROVIDERS.**—Notwithstanding subsection (e) of this section, the Commission shall provide a reimbursement to a provider under this section without requiring such provider to be designated as an eligible telecommunications carrier under section 214(e) of the Communications Act of 1934 (47 U.S.C. 214(e)).

(d) **RULE OF CONSTRUCTION.**—Nothing in this section shall affect the collection, distribution, or administration of the Lifeline Assistance Program governed by the rules set forth in subpart E of part 54 of title 47, Code of Federal Regulations (or any successor regulation).

(e) **PART 54 REGULATIONS.**—Nothing in this section shall be construed to prevent the Commission from providing that the regulations in part 54 of title 47, Code of Federal Regulations (or any successor regulation), shall apply in whole or in part to support provided under the regulations required by subsection (a), shall not apply in whole or in part to such support, or shall be modified in whole or in part for purposes of application to such support.

(f) **ENFORCEMENT.**—A violation of this section or a regulation promulgated under this section, including the knowing or reckless denial of an internet service offering discounted by the broadband benefit to an eligible household that requests such an offering, shall be treated as a violation of the Communications Act of 1934 (47 U.S.C. 151 et seq.) or a regulation promulgated under such Act. The Commission shall enforce this section and the regulations promulgated under this section in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Communications Act of 1934 were incorporated into and made a part of this section.

(g) **BROADBAND CONNECTIVITY FUND.**—

(1) **ESTABLISHMENT.**—There is established in the Treasury of the United States a fund to be known as the Broadband Connectivity Fund.

(2) **APPROPRIATION.**—There are appropriated to the Broadband Connectivity Fund, out of any money in the Treasury not otherwise appropriated, \$9,000,000,000 for fiscal year 2021, to remain available until expended.

(3) **USE OF FUNDS.**—Amounts in the Broadband Connectivity Fund shall be available to the Commission for reimbursements to providers under the regulations required by subsection (a).

(4) **RELATIONSHIP TO UNIVERSAL SERVICE CONTRIBUTIONS.**—Reimbursements provided under the regulations required by subsection (a) shall be provided from amounts made available under this subsection and not from contributions under section 254(d) of the Communications Act

of 1934 (47 U.S.C. 254(d)), except the Commission may use such contributions if needed to offset expenses associated with the reliance on the National Lifeline Eligibility Verifier to determine eligibility of households to receive the broadband benefit.

(5) **LACK OF AVAILABILITY OF FUNDS.**—The regulations required by subsection (a) shall provide that a provider is not required to provide an eligible household with an internet service offering under subsection (b)(1) for any month for which there are insufficient amounts in the Broadband Connectivity Fund to reimburse the provider under subsection (b)(4) for providing the broadband benefit to such eligible household.

(h) **DEFINITIONS.**—In this section:

(1) **BROADBAND BENEFIT.**—The term “broadband benefit” means a monthly discount for an eligible household applied to the normal rate for an internet service offering, in an amount equal to such rate, but not more than \$50, or, if an internet service offering is provided to an eligible household on Tribal land, not more than \$75.

(2) **CONNECTED DEVICE.**—The term “connected device” means a laptop or desktop computer or a tablet.

(3) **ELIGIBLE HOUSEHOLD.**—The term “eligible household” means, regardless of whether the household or any member of the household receives support under subpart E of part 54 of title 47, Code of Federal Regulations (or any successor regulation), and regardless of whether any member of the household has any past or present arrearages with a provider, a household in which—

(A) at least one member of the household meets the qualifications in subsection (a) or (b) of section 54.409 of title 47, Code of Federal Regulations (or any successor regulation);

(B) at least one member of the household has applied for and been approved to receive benefits under the free and reduced price lunch program under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) or the school breakfast program under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773); or

(C) at least one member of the household has experienced a substantial loss of income for at least the two consecutive months immediately preceding the month for which eligibility for the broadband benefit is being determined, documented by layoff or furlough notice, application for unemployment insurance benefits, or similar documentation.

(4) **INTERNET SERVICE OFFERING.**—The term “internet service offering” means, with respect to a provider, broadband service provided by such provider to a household, offered in the same manner, and on the same terms, as described in any of such provider’s advertisements for broadband service to such household, on May 1, 2020 (or such later date as the Commission may by rule determine, if the Commission considers it necessary).

(5) **NORMAL RATE.**—The term “normal rate” means, with respect to an internet service offering by a provider, the advertised monthly retail rate, on May 1, 2020 (or such later date as the Commission may by rule determine, if the Commission considers it necessary), including any applicable promotions and excluding any taxes or other governmental fees.

(6) **PROVIDER.**—The term “provider” means a provider of broadband service.

#### **SEC. 31142. GRANTS TO STATES TO STRENGTHEN NATIONAL LIFELINE ELIGIBILITY VERIFIER.**

(a) **IN GENERAL.**—From amounts appropriated under subsection (d), the Commission shall, not later than 30 days after the date of the enactment of this Act, make a grant to each State, in an amount in proportion to the population of such State, for the purpose of connecting the database used by such State for purposes of the supplemental nutrition assistance program under the Food and Nutrition Act of 2008 (7

U.S.C. 2011 et seq.) to the National Lifeline Eligibility Verifier, so that the receipt by a household of benefits under such program is reflected in the National Lifeline Eligibility Verifier.

(b) **DISBURSEMENT OF GRANT FUNDS.**—Funds under each grant made under subsection (a) shall be disbursed to the State receiving such grant not later than 60 days after the date of the enactment of this Act.

(c) **CERTIFICATION TO CONGRESS.**—Not later than 90 days after the date of the enactment of this Act, the Commission shall certify to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate that the grants required by subsection (a) have been made and that funds have been disbursed as required by subsection (b).

(d) **APPROPRIATION.**—There are appropriated to the Commission, out of any money in the Treasury not otherwise appropriated, \$200,000,000 to carry out this section for fiscal year 2021, to remain available until expended.

#### **SEC. 31143. FEDERAL COORDINATION BETWEEN LIFELINE AND SNAP VERIFICATION.**

(a) **IN GENERAL.**—Notwithstanding section 11(x)(2)(C)(i) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020(x)(2)(C)(i)), not later than 180 days after the date of the enactment of this Act, the Commission shall, in coordination with the Secretary of Agriculture, establish an automated connection, to the maximum extent practicable, between the National Lifeline Eligibility Verifier and the National Accuracy Clearinghouse established under section 11(x) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020(x)) for the supplemental nutrition assistance program.

(b) **DEFINITION.**—In this section, the term “automated connection” means a connection between two or more information systems where the manual input of information in one system leads to the automatic input of the same information any other connected system.

#### **CHAPTER 4—E-RATE SUPPORT FOR WI-FI HOTSPOTS, OTHER EQUIPMENT, AND CONNECTED DEVICES**

##### **SEC. 31161. E-RATE SUPPORT FOR WI-FI HOTSPOTS, OTHER EQUIPMENT, AND CONNECTED DEVICES.**

(a) **REGULATIONS REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Commission shall promulgate regulations providing for the provision, from amounts made available from the Connectivity Fund established under subsection (h)(1), of support under section 254(h)(1)(B) of the Communications Act of 1934 (47 U.S.C. 254(h)(1)(B)) to an elementary school, secondary school, or library (including a Tribal elementary school, Tribal secondary school, or Tribal library) eligible for support under such section, for the purchase of equipment described in subsection (c), advanced telecommunications and information services, or equipment described in such subsection and advanced telecommunications and information services, for use by—

(1) in the case of a school, students and staff of such school at locations that include locations other than such school; and

(2) in the case of a library, patrons of such library at locations that include locations other than such library.

(b) **TRIBAL ISSUES.**—

(1) **SET ASIDE FOR TRIBAL LANDS.**—The Commission shall reserve not less than 5 percent of the amounts available to the Commission under subsection (h)(3) to provide support under the regulations required by subsection (a) to schools and libraries that serve persons who are located on Tribal lands.

(2) **ELIGIBILITY OF TRIBAL LIBRARIES.**—For purposes of determining the eligibility of a Tribal library for support under the regulations required by subsection (a), the portion of paragraph (4) of section 254(h) of the Communications Act of 1934 (47 U.S.C. 254(h)) relating to

eligibility for assistance from a State library administrative agency under the Library Services and Technology Act shall not apply.

(c) **EQUIPMENT DESCRIBED.**—The equipment described in this subsection is the following:

- (1) Wi-Fi hotspots.
- (2) Modems.
- (3) Routers.
- (4) Devices that combine a modem and router.
- (5) Connected devices.

(d) **PRIORITIZATION OF SUPPORT.**—The Commission shall provide in the regulations required by subsection (a) for a mechanism to require a school or library to prioritize the provision of equipment described in subsection (c), advanced telecommunications and information services, or equipment described in such subsection and advanced telecommunications and information services, for which support is received under such regulations, to students and staff or patrons (as the case may be) that the school or library believes do not have access to equipment described in subsection (c), do not have access to advanced telecommunications and information services, or have access to neither equipment described in subsection (c) nor advanced telecommunications and information services, at the residences of such students and staff or patrons.

(e) **PERMISSIBLE USES OF EQUIPMENT.**—The Commission shall provide in the regulations required by subsection (a) that, in the case of a school or library that purchases equipment described in subsection (c) using support received under such regulations, such school or library—

- (1) may use such equipment for such purposes as such school or library considers appropriate, subject to any restrictions provided in such regulations (or any successor regulation); and
- (2) may not sell or otherwise transfer such equipment in exchange for any thing (including a service) of value, except that such school or library may exchange such equipment for up-graded equipment of the same type.

(f) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to affect any authority the Commission may have under section 254(h)(1)(B) of the Communications Act of 1934 (47 U.S.C. 254(h)(1)(B)) to allow support under such section to be used for the purposes described in subsection (a) other than as required by such subsection.

(g) **PART 54 REGULATIONS.**—Nothing in this section shall be construed to prevent the Commission from providing that the regulations in part 54 of title 47, Code of Federal Regulations (or any successor regulation), shall apply in whole or in part to support provided under the regulations required by subsection (a), shall not apply in whole or in part to such support, or shall be modified in whole or in part for purposes of application to such support.

(h) **CONNECTIVITY FUND.**—

(1) **ESTABLISHMENT.**—There is established in the Treasury of the United States a fund to be known as the Connectivity Fund.

(2) **APPROPRIATION.**—There are appropriated to the Connectivity Fund, out of any money in the Treasury not otherwise appropriated, \$5,000,000,000 for fiscal year 2021, to remain available until expended.

(3) **USE OF FUNDS.**—Amounts in the Connectivity Fund shall be available to the Commission to provide support under the regulations required by subsection (a).

(4) **RELATIONSHIP TO UNIVERSAL SERVICE CONTRIBUTIONS.**—Support provided under the regulations required by subsection (a) shall be provided from amounts made available under paragraph (3) and not from contributions under section 254(d) of the Communications Act of 1934 (47 U.S.C. 254(d)).

(i) **DEFINITIONS.**—In this section:

(1) **ADVANCED TELECOMMUNICATIONS AND INFORMATION SERVICES.**—The term “advanced telecommunications and information services” means advanced telecommunications and information services, as such term is used in section 254(h) of the Communications Act of 1934 (47 U.S.C. 254(h)).

(2) **CONNECTED DEVICE.**—The term “connected device” means a laptop computer, tablet computer, or similar device that is capable of connecting to advanced telecommunications and information services.

(3) **LIBRARY.**—The term “library” includes a library consortium.

(4) **TRIBAL LAND.**—The term “Tribal land” means—

(A) any land located within the boundaries of—

- (i) an Indian reservation, pueblo, or rancheria; or
  - (ii) a former reservation within Oklahoma;
- (B) any land not located within the boundaries of an Indian reservation, pueblo, or rancheria, the title to which is held—

- (i) in trust by the United States for the benefit of an Indian Tribe or an individual Indian;
- (ii) by an Indian Tribe or an individual Indian, subject to restriction against alienation under laws of the United States; or
- (iii) by a dependent Indian community;

(C) any land located within a region established pursuant to section 7(a) of the Alaska Native Claims Settlement Act (43 U.S.C. 1606(a));

(D) Hawaiian Home Lands, as defined in section 801 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4221); or

(E) those areas or communities designated by the Assistant Secretary of Indian Affairs of the Department of the Interior that are near, adjacent, or contiguous to reservations where financial assistance and social service programs are provided to Indians because of their status as Indians.

(5) **WI-FI.**—The term “Wi-Fi” means a wireless networking protocol based on Institute of Electrical and Electronics Engineers standard 802.11 (or any successor standard).

(6) **WI-FI HOTSPOT.**—The term “Wi-Fi hotspot” means a device that is capable of—

- (A) receiving mobile advanced telecommunications and information services; and
- (B) sharing such services with another device through the use of Wi-Fi.

#### Subtitle B—Broadband Transparency

##### SEC. 31201. DEFINITIONS.

In this subtitle:

(1) **BROADBAND INTERNET ACCESS SERVICE.**—The term “broadband internet access service” has the meaning given the term in section 8.1(b) of title 47, Code of Federal Regulations, or any successor regulation.

(2) **FIXED WIRELESS BROADBAND.**—The term “fixed wireless broadband” means broadband internet access service that serves end users primarily at fixed endpoints through stationary equipment connected by the use of radio, such as by the use of unlicensed spectrum.

(3) **MOBILE BROADBAND.**—The term “mobile broadband”—

(A) means broadband internet access service that serves end users primarily using mobile stations;

(B) includes services that use smartphones or mobile network-enabled tablets as the primary endpoints for connection to the internet; and

(C) includes mobile satellite broadband internet access services.

(4) **PROVIDER.**—The term “provider” means a provider of fixed or mobile broadband internet access service.

(5) **SATELLITE BROADBAND.**—The term “satellite broadband” means broadband internet access service that serves end users primarily at fixed endpoints through stationary equipment connected by the use of orbital satellites.

(6) **TERRESTRIAL FIXED BROADBAND.**—The term “terrestrial fixed broadband” means broadband internet access service that serves end users primarily at fixed endpoints through stationary equipment connected by wired technology such as cable, DSL, and fiber.

##### SEC. 31202. BROADBAND TRANSPARENCY.

(a) **RULES.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, the Commission shall issue final rules that include a requirement for the annual collection by the Commission of data relating to the price and subscription rates of terrestrial fixed broadband, fixed wireless broadband, satellite broadband, and mobile broadband.

(2) **UPDATES.**—Not later than 90 days after the date on which rules are issued under paragraph (1), and when determined to be necessary by the Commission thereafter, the Commission shall revise such rules to verify the accuracy of data submitted pursuant to such rules.

(3) **REDUNDANCY AVOIDANCE.**—Nothing in this section shall be construed to require the Commission, in order to meet a requirement of this section, to duplicate an activity that the Commission is undertaking as of the date of the enactment of this Act, if the Commission refers to such activity in the rules issued under paragraph (1), such activity meets the requirements of this section, and the Commission discloses such activity to the public.

(b) **CONTENT OF RULES.**—The rules issued by the Commission under subsection (a)(1) shall require the Commission to collect from each provider of terrestrial fixed broadband, fixed wireless broadband, mobile broadband, or satellite broadband, data that includes—

(1) either the weighted average of the monthly prices charged to subscribed households within each census block for each distinct broadband internet access service plan or tier of standalone broadband internet access service, including mandatory equipment charges, usage-based fees, and fees for early termination of required contracts, or the monthly price charged to each subscribed household, including such charges and fees;

(2) either the mean monthly price within the duration of subscription contracts offered within each census block for each distinct broadband internet access service plan or tier of standalone broadband internet access service, including mandatory equipment charges, usage-based fees, and fees for early termination of required contracts, or the mean monthly price within the duration of subscription contracts offered to each household, including such charges and fees;

(3) either the subscription rate within each census block for each distinct broadband internet access service plan or tier of standalone broadband internet access service, or information regarding the subscription status of each household to which a subscription is offered;

(4) data necessary to demonstrate the actual price paid by subscribers of broadband internet access service at each tier for such service in a manner that—

(A) takes into account any discounts (or similar price concessions); and

(B) identifies any additional taxes and fees (including for the use of equipment related to the use of a subscription for such service), any monthly data usage limitation at the stated price, and the extent to which the price of the service reflects inclusion within a product bundle; and

(5) data necessary to assess the resiliency of the broadband internet access service network in the event of a natural disaster or emergency.

(c) **TECHNICAL ASSISTANCE.**—The Commission shall provide technical assistance to small providers (as defined by the Commission) of broadband internet access service, to ensure such providers can fulfill the requirements of this section.

##### SEC. 31203. DISTRIBUTION OF DATA.

(a) **AVAILABILITY OF DATA.**—Subject to subsection (b), the Commission shall make all data relating to broadband internet access service collected under rules required by this subtitle available in a commonly used electronic format to—

(1) other Federal agencies, including the National Telecommunications and Information Administration, to assist that agency in conducting the study required by section 31102(c);

(2) a broadband office, public utility commission, broadband mapping program, or other broadband program of a State, in the case of data pertaining to the needs of that State;

(3) a unit of local government, in the case of data pertaining to the needs of that locality; and

(4) an individual or organization conducting research for noncommercial purposes or public interest purposes.

**(b) PROTECTION OF DATA.—**

(1) **IN GENERAL.**—The Commission may not share any data described in subsection (a) with an entity or individual described in that subsection unless the Commission has determined that the receiving entity or individual has the capability and intent to protect any personally identifiable information contained in the data.

(2) **DETERMINATION OF PERSONALLY IDENTIFIABLE INFORMATION.**—The Commission—

(A) shall define the term “personally identifiable information”, for purposes of paragraph (1), through notice and comment rulemaking; and

(B) may not share any data under subsection (a) before completing the rulemaking under subparagraph (A).

(c) **BALANCING ACCESS AND PROTECTION.**—If the Commission is unable to determine under subsection (b)(1) that an entity or individual requesting access to data under subsection (a) has the capability to protect personally identifiable information contained in the data, the Commission shall make as much of the data available as possible in a format that does not compromise personally identifiable information, through methods such as anonymization.

**SEC. 31204. COORDINATION WITH CERTAIN OTHER FEDERAL AGENCIES.**

Section 804(b)(2) of the Communications Act of 1934 (47 U.S.C. 644(b)(2)), as added by the Broadband DATA Act (Public Law 116–130), is amended—

(1) in subparagraph (A)(ii), by striking the semicolon at the end and inserting “; and”;

(2) by amending subparagraph (B) to read as follows:

“(B) coordinate with the Postmaster General, the heads of other Federal agencies that operate delivery fleet vehicles, and the Director of the Bureau of the Census for assistance with data collection whenever coordination could feasibly yield more specific geographic data.”; and

(3) by striking subparagraph (C).

**SEC. 31205. BROADBAND CONSUMER LABELS.**

(a) **RULES.**—Not later than 1 year after the date of the enactment of this Act, the Commission shall issue final rules to promote and incentivize widespread adoption of the broadband consumer labels referred to in the Public Notice of the Commission released on April 4, 2016 (DA 16–357).

(b) **HEARINGS.**—The Commission shall conduct a series of public hearings in the rulemaking proceeding required by subsection (a) to assess how consumers currently evaluate internet service plans and whether existing disclosures are available, effective, and sufficient.

**SEC. 31206. APPROPRIATION FOR BROADBAND DATA ACT.**

There are appropriated to the Commission, out of any money in the Treasury not otherwise appropriated, \$24,000,000 to carry out title VIII of the Communications Act of 1934 (47 U.S.C. 641 et seq.), as added by the Broadband DATA Act (Public Law 116–130), for fiscal year 2021, to remain available until expended.

**Subtitle C—Broadband Access**  
**CHAPTER 1—EXPANSION OF BROADBAND ACCESS**

**SEC. 31301. EXPANSION OF BROADBAND ACCESS IN UNSERVED AREAS AND AREAS WITH LOW-TIER OR MID-TIER SERVICE.**

Title VII of the Communications Act of 1934 (47 U.S.C. 601 et seq.) is amended by adding at the end the following new section:

**“SEC. 723. EXPANSION OF BROADBAND ACCESS IN UNSERVED AREAS AND AREAS WITH LOW-TIER OR MID-TIER SERVICE.**

“(a) **PROGRAM ESTABLISHED.**—Not later than 180 days after the date of the enactment of this section, the Commission, in consultation with the Assistant Secretary, shall establish a program to expand access to broadband service for unserved areas, areas with low-tier service, areas with mid-tier service, and unserved anchor institutions in accordance with the requirements of this section that—

“(1) is separate from any universal service program established pursuant to section 254; and

“(2) does not require funding recipients to be designated as eligible telecommunications carriers under section 214(e).

“(b) **USE OF PROGRAM FUNDS.**—

“(1) **EXPANDING ACCESS TO BROADBAND SERVICE THROUGH NATIONAL SYSTEM OF COMPETITIVE BIDDING.**—Not later than 18 months after the date of the enactment of this section, the Commission shall award 75 percent of the amounts appropriated under subsection (g) through national systems of competitive bidding to funding recipients only to expand access to broadband service in unserved areas and areas with low-tier service.

“(2) **EXPANDING ACCESS TO BROADBAND SERVICE THROUGH STATES.**—

“(A) **DISTRIBUTION OF FUNDS TO STATES.**—Not later than 255 days after the date of the enactment of this section, the Commission shall distribute 25 percent of the amounts appropriated under subsection (g) among the States, in direct proportion to the population of each State.

“(B) **PUBLIC NOTICE.**—Not later than 195 days after the date of the enactment of this section, the Commission shall issue a public notice informing each State and the public of the amounts to be distributed under this paragraph. The notice shall include—

“(i) the manner in which a State shall inform the Commission of that State’s acceptance or acceptance in part of the amounts to be distributed under this paragraph;

“(ii) the date (which is 30 days after the date on which the public notice is issued) by which such acceptance or acceptance in part is due; and

“(iii) the requirements as set forth under this section and as may be further prescribed by the Commission.

“(C) **ACCEPTANCE BY STATES.**—Not later than 30 days after the date on which a public notice is issued under subparagraph (B), each State accepting amounts to be distributed under this paragraph shall inform the Commission of the acceptance or acceptance in part by the State of the amounts to be distributed under this paragraph in the manner described by the Commission in the public notice.

“(D) **REQUIREMENTS FOR STATE RECEIPT OF AMOUNTS DISTRIBUTED.**—Each State accepting amounts distributed under this paragraph—

“(i) shall only award such amounts through statewide systems of competitive bidding, in the manner prescribed by the State but subject to the requirements as set forth under this section and as may be further prescribed by the Commission;

“(ii) shall make such awards only—

“(1) to funding recipients to expand access to broadband service in unserved areas and areas with low-tier service;

“(II) to funding recipients to expand access to broadband service to unserved anchor institutions; or

“(III) to funding recipients to expand access to broadband service in areas with mid-tier service, but only if a State does not have, or no longer has, any unserved areas or areas with low-tier service;

“(iii) shall conduct separate systems of competitive bidding for awards made to unserved anchor institutions under clause (ii)(II), if a State awards any amounts distributed under this paragraph to unserved anchor institutions;

“(iv) shall return any unused portion of amounts distributed under this paragraph to the Commission within 10 years after the date of the enactment of this section and shall submit a certification to the Commission before receiving such amounts that the State will return such amounts; and

“(v) may not use more than 5 percent of the amounts distributed under this paragraph to administer a system or systems of competitive bidding authorized by this paragraph.

“(3) **COORDINATION OF FEDERAL AND STATE FUNDING.**—The Commission, in consultation with the Office of Internet Connectivity and Growth, shall establish processes through the rulemaking under subsection (e) to—

“(A) enable States to conduct statewide systems of competitive bidding as part of, or in coordination with, national systems of competitive bidding;

“(B) assist States in conducting statewide systems of competitive bidding;

“(C) ensure that program funds awarded by the Commission and program funds awarded by the States are not used in the same areas; and

“(D) ensure that program funds and funds awarded through other Federal programs to expand broadband service with a download speed of at least 100 megabits per second, an upload speed of at least 100 megabits per second, and a latency that is sufficiently low to allow real-time, interactive applications, are not used in the same areas.

“(c) **PROGRAM REQUIREMENTS.**—

“(1) **TECHNOLOGY NEUTRALITY REQUIRED.**—The entity administering a system of competitive bidding (either a State or the Commission) in making awards may not favor a project using any particular technology.

“(2) **GIGABIT PERFORMANCE FUNDING.**—The Commission shall reserve 20 percent of the amounts to be awarded by the Commission under subsection (b)(1), and each State shall reserve 20 percent of the amounts distributed to such State under subsection (b)(2), for bidders committing (with respect to any particular project by such a bidder) to offer, not later than the date that is 5 years after the date on which funding is provided under this section for such project, broadband service with a download speed of at least 1 gigabit per second and an upload speed of at least 1 gigabit per second or, in the case of a project to provide broadband service to an unserved anchor institution, broadband service with a download speed of at least 10 gigabits per second per 1,000 users and an upload speed of at least 10 gigabits per second per 1,000 users.

“(3) **SYSTEM OF COMPETITIVE BIDDING PROCESS.**—The entity administering a system of competitive bidding (either a State or the Commission) shall structure the system of competitive bidding process to—

“(A) first hold a system of competitive bidding only for bidders committing (with respect to any particular project by such a bidder) to offer, not later than the date that is 5 years after the date on which funding is provided under this section for such project, broadband service with a download speed of at least 1 gigabit per second and an upload speed of at least 1 gigabit per second or, in the case of a project to provide broadband service to an unserved anchor institution, broadband service with a download speed of at least 10 gigabits per second per 1,000 users and an upload speed of at least 10 gigabits per second per 1,000 users; and

“(B) after holding the system of competitive bidding required by subparagraph (A), hold one

or more systems of competitive bidding, in areas not receiving awards under subparagraph (A), to award funds for projects in areas that are estimated to remain unserved areas, areas with low-tier service, or (to the extent permitted under this section) areas with mid-tier service, or (to the extent permitted under this section) for projects to offer broadband service to anchor institutions that are estimated to remain unserved anchor institutions, after the completion of the projects for which funding is awarded under the system of competitive bidding required by subparagraph (A) or any previous system of competitive bidding under this subparagraph.

“(4) FUNDS PRIORITY PREFERENCE.—There shall be a preference in a system of competitive bidding for projects that would expand access to broadband service in areas where at least 90 percent of the population has no access to broadband service or does not have access to broadband service offered with a download speed of at least 25 megabits per second, with an upload speed of at least 3 megabits per second, and with latency that is sufficiently low to allow real-time, interactive applications. Such projects shall be given priority in such system of competitive bidding over all other projects, regardless of how many preferences under paragraph (5) for which such other projects qualify.

“(5) FUNDS PREFERENCE.—There shall be a preference in a system of competitive bidding, as determined by the entity administering the system of competitive bidding (either a State or the Commission), for any of the following projects:

“(A) Projects with at least 20 percent matching funds from non-Federal sources.

“(B) Projects that would expand access to broadband service on Tribal lands, as defined by the Commission.

“(C) Projects that would provide broadband service with higher speeds than those specified in subsection (d)(2), except in the case of funds awarded under subparagraph (A) of paragraph (3).

“(D) Projects that would expand access to broadband service in advance of the time specified in subsection (e)(5), except in the case of funds awarded under subparagraph (A) of paragraph (3).

“(E) Projects that would expand access to broadband service to persistent poverty counties or high-poverty areas at subsidized rates.

“(F) Projects that, at least until the date that is 10 years after the date of the enactment of this section, would provide broadband service with comparable speeds to those provided in areas that, on the day before such date of enactment, were not unserved areas, areas with low-tier service, or areas with mid-tier service, with minimal future investment.

“(G) Projects that would provide broadband service consistent with consumer preferences based on data and analysis conducted by the Commission.

“(H) Projects that would provide for the deployment of open-access broadband service networks.

“(6) UNSERVED AREAS AND AREAS WITH LOW-TIER OR MID-TIER SERVICE.—In determining whether an area is an unserved area, an area with low-tier service, or an area with mid-tier service or whether an anchor institution is an unserved anchor institution for any system of competitive bidding authorized under this section, the Commission shall implement the following requirements through the rulemaking described in subsection (e):

“(A) DATA FOR INITIAL DETERMINATION.—To make an initial determination as to whether an area is an unserved area, an area with low-tier service, or an area with mid-tier service or whether an anchor institution is an unserved anchor institution, the Commission shall—

“(i) use the most accurate and granular data on the map created by the Commission under section 802(c)(1)(B);

“(ii) refine the data described in clause (i) by using—

“(I) other data on access to broadband service obtained or purchased by the Commission;

“(II) other publicly available data or information on access to broadband service; and

“(III) other publicly available data or information on State broadband service deployment programs; and

“(iii) not determine an area is not an unserved area, an area with low-tier service, or an area with mid-tier service on the basis that one location within such area does not meet the definition of an unserved area, an area with low-tier service, or an area with mid-tier service.

“(B) INITIAL DETERMINATION.—The Commission shall make an initial determination of the areas that are unserved areas, areas with low-tier service, and areas with mid-tier service and which anchor institutions are unserved anchor institutions not later than 270 days after the date of the enactment of this section.

“(C) CHALLENGE OF DETERMINATION.—

“(i) IN GENERAL.—The Commission shall provide for a process for challenging any initial determination regarding whether an area is an unserved area, an area with low-tier service, or an area with mid-tier service or whether an anchor institution is an unserved anchor institution that, at a minimum, provides not less than 45 days for a person to voluntarily submit information concerning—

“(I) the broadband service offered in the area, or a commitment to offer broadband service in the area that is subject to legal sanction if not performed; or

“(II) the broadband service offered to the anchor institution.

“(ii) STREAMLINED PROCESS.—The Commission shall ensure that such process is sufficiently streamlined such that a reasonably prudent person may easily participate to challenge such initial determination with little burden on such person.

“(D) FINAL DETERMINATION.—The Commission shall make a final determination of the areas that are unserved areas, areas with low-tier service, or areas with mid-tier service and which anchor institutions are unserved anchor institutions within 1 year after the date of the enactment of this section.

“(7) NOTICE, TRANSPARENCY, ACCOUNTABILITY, AND OVERSIGHT REQUIRED.—The program shall contain sufficient notice, transparency, accountability, and oversight measures to provide the public with notice of the assistance provided under this section, and to deter waste, fraud, and abuse of program funds.

“(8) COMPETENCE.—The program shall contain sufficient processes and requirements, as established by an entity administering a system of competitive bidding (either a State or the Commission), to ensure that, prior to bidding in such system of competitive bidding, a provider of broadband service seeking to participate in such system of competitive bidding—

“(A) is capable of carrying out the project in a competent manner in compliance with all applicable Federal, State, and local laws;

“(B) has the financial capacity to meet the buildout obligations of the project and requirements as set forth under this section and as may be further prescribed by the Commission; and

“(C) has the technical and operational capability to provide broadband services in the manner contemplated by the provider's bid in the system of competitive bidding, including a detailed consideration of the provider's prior performance in delivering services as contemplated in the bid and the capabilities of the provider's proposed network to deliver the contemplated services in the area in question.

“(9) CONTRACTING REQUIREMENTS.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work carried out, in whole or in part, with assistance made available under this section shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined

by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this paragraph, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

“(10) RULE OF CONSTRUCTION REGARDING ENVIRONMENTAL LAWS.—Nothing in this section shall be construed to affect—

“(A) the Clean Air Act (42 U.S.C. 7401 et seq.);

“(B) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.; commonly referred to as the ‘Clean Water Act’);

“(C) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

“(D) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

“(E) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.; commonly referred to as the ‘Resource Conservation and Recovery Act’); or

“(F) any State or local law that is similar to a law listed in subparagraphs (A) through (E).

“(11) REFERRAL OF ALLEGED VIOLATIONS OF APPLICABLE FEDERAL LABOR AND EMPLOYMENT LAWS.—The Commission shall refer any alleged violation of an applicable labor and employment law to the appropriate Federal agency for investigation and enforcement, and any alleged violation of paragraph (9) or (12) to the National Labor Relations Board for investigation and enforcement, utilizing all appropriate remedies up to and including debarment from the program.

“(12) LABOR ORGANIZATION.—

“(A) IN GENERAL.—Notwithstanding the National Labor Relations Act (29 U.S.C. 151 et seq.), subparagraphs (B) through (F) shall apply with respect to any funding recipient who is an employer and any labor organization who represents employees of a funding recipient.

“(B) NEUTRALITY REQUIREMENT.—An employer shall remain neutral with respect to the exercise of employees and labor organizations of the right to organize and bargain under the National Labor Relations Act (29 U.S.C. 151 et seq.).

“(C) COMMENCEMENT OF COLLECTIVE BARGAINING.—Not later than 10 days after receiving a written request for collective bargaining from a labor organization that has been newly recognized or certified as a representative under section 9(a) of the National Labor Relations Act (29 U.S.C. 159(a)), or within such further period as the parties agree upon, the parties shall meet and commence to bargain collectively and shall make every reasonable effort to conclude and sign a collective bargaining agreement.

“(D) MEDIATION AND CONCILIATION FOR FAILURE TO REACH A COLLECTIVE BARGAINING AGREEMENT.—

“(i) IN GENERAL.—If the parties have failed to reach an agreement before the date that is 90 days after the date on which bargaining is commenced under subparagraph (C), or any later date agreed upon by both parties, either party may notify the Federal Mediation and Conciliation Service of the existence of a dispute and request mediation.

“(ii) FEDERAL MEDIATION AND CONCILIATION SERVICE.—Whenever a request is received under clause (i), the Director of the Federal Mediation and Conciliation Service shall promptly communicate with the parties and use best efforts, by mediation and conciliation, to bring them to agreement.

“(E) TRIPARTITE ARBITRATION PANEL.—

“(i) IN GENERAL.—If the Federal Mediation and Conciliation Service is not able to bring the parties to agreement by mediation or conciliation before the date that is 30 days after the date on which such mediation or conciliation is commenced, or any later date agreed upon by both parties, the Service shall refer the dispute to a tripartite arbitration panel established in accordance with such regulations as may be

prescribed by the Service, with one member selected by the labor organization, one member selected by the employer, and one neutral member mutually agreed to by the parties.

“(ii) **DISPUTE SETTLEMENT.**—A majority of the tripartite arbitration panel shall render a decision settling the dispute and such decision shall be binding upon the parties for a period of two years, unless amended during such period by written consent of the parties. Such decision shall be based on—

“(I) the employer’s financial status and prospects;

“(II) the size and type of the employer’s operations and business;

“(III) the employees’ cost of living;

“(IV) the employees’ ability to sustain themselves, their families, and their dependents on the wages and benefits they earn from the employer; and

“(V) the wages and benefits that other employers in the same business provide their employees.

“(F) **PROHIBITION ON SUBCONTRACTING FOR CERTAIN PURPOSES.**—A funding recipient may not engage in subcontracting for the purpose of circumventing the terms of a collective bargaining agreement with respect to wages, benefits, or working conditions.

“(G) **PARTIES DEFINED.**—In this paragraph, the term ‘parties’ means a labor organization that is newly recognized or certified as a representative under section 9(a) of the National Labor Relations Act (29 U.S.C. 159(a)) and the employer of the employees represented by such organization.

“(d) **PROJECT REQUIREMENTS.**—Any project funded through the program shall meet the following requirements:

“(1) The project shall adhere to quality-of-service standards as established by the Commission.

“(2) Except as provided in paragraphs (2) and (3) of subsection (c), the project shall offer broadband service with a download speed of at least 100 megabits per second, an upload speed of at least 100 megabits per second, and a latency that is sufficiently low to allow real-time, interactive applications.

“(3) The project shall offer broadband service at prices that are comparable to, or lower than, the prices charged for comparable levels of service in areas that were not unserved areas, areas with low-tier service, or areas with mid-tier service on the day before the date of the enactment of this section.

“(4) For any project that involves laying fiber-optic cables along a roadway, the project shall include interspersed conduit access points at regular and short intervals.

“(5) The project shall incorporate prudent cybersecurity and supply chain risk management practices, as specified by the Commission through the rulemaking described in subsection (e), in consultation with the Director of the National Institute of Standards and Technology and the Assistant Secretary.

“(6) The project shall incorporate best practices, as defined by the Commission, for ensuring reliability and resiliency of the network during disasters.

“(7) Any funding recipient must agree to have the project meet the requirements established under section 224, as if the project were classified as a ‘utility’ under such section. The preceding sentence shall not apply to those entities or persons excluded from the definition of the term ‘utility’ by the second sentence of subsection (a)(1) of such section.

“(8) The project shall offer an affordable option for a broadband service plan under which broadband service is provided—

“(A) with a download speed of at least 50 megabits per second;

“(B) with an upload speed of at least 50 megabits per second; and

“(C) with latency that is sufficiently low to allow multiple, simultaneous, real-time, interactive applications.

“(e) **RULEMAKING AND DISTRIBUTION AND AWARD OF FUNDS.**—Not later than 180 days after the date of the enactment of this section, the Commission, in consultation with the Assistant Secretary, shall promulgate rules—

“(1) that implement the requirements of this section, as appropriate;

“(2) that establish the design of and rules for the national systems of competitive bidding;

“(3) that establish notice requirements for all systems of competitive bidding authorized under this section that, at a minimum, provide the public with notice of—

“(A) the initial determination of which areas are unserved areas, areas with low-tier service, or areas with mid-tier service;

“(B) the final determination of which areas are unserved areas, areas with low-tier service, or areas with mid-tier service after the process for challenging the initial determination has concluded;

“(C) which entities have applied to bid for funding; and

“(D) the results of any system of competitive bidding, including identifying the funding recipients, which areas each project will serve, the nature of the service that will be provided by the project in each of those areas, and how much funding the funding recipients will receive in each of those areas;

“(4) that establish broadband service buildout milestones and periodic certification by funding recipients to ensure compliance with the broadband service buildout milestones for all systems of competitive bidding authorized under this section;

“(5) that, except as provided in paragraphs (2) and (3) of subsection (c), establish a maximum buildout timeframe of four years beginning on the date on which funding is provided under this section for a project;

“(6) that establish periodic reporting requirements for funding recipients and that identify, at a minimum, the nature of the service provided in each area for any system of competitive bidding authorized under this section;

“(7) that establish standard penalties for the noncompliance of funding recipients or projects with the requirements as set forth under this section and as may be further prescribed by the Commission for any system of competitive bidding authorized under this section;

“(8) that establish procedures for recovery of funds, in whole or in part, from funding recipients in the event of the default or noncompliance of the funding recipient or project with the requirements established under this section for any system of competitive bidding authorized under this section; and

“(9) that establish mechanisms to reduce waste, fraud, and abuse within the program for any system of competitive bidding authorized under this section.

“(f) **REPORTS REQUIRED.**—

“(1) **INSPECTOR GENERAL AND COMPTROLLER GENERAL REPORT.**—Not later than June 30 and December 31 of each year following the awarding of the first funds under the program, the Inspector General of the Commission and the Comptroller General of the United States shall submit to the Committees on Energy and Commerce of the House of Representatives and Commerce, Science, and Transportation of the Senate a report for the previous 6 months that reviews the program. Such report shall include any recommendations to address waste, fraud, and abuse.

“(2) **STATE REPORTS.**—Any State that receives funds under the program shall submit an annual report to the Commission on how such funds were spent, along with a certification of compliance with the requirements as set forth under this section and as may be further prescribed by the Commission, including a description of each service provided and the number of individuals to whom the service was provided.

“(g) **APPROPRIATION.**—There are appropriated to the Commission, out of any money in the

Treasury not otherwise appropriated, \$80,000,000,000 to carry out the program for fiscal year 2021, to remain available until expended.

“(h) **DEFINITIONS.**—In this section:

“(1) **AFFORDABLE OPTION.**—The term ‘affordable option’ means, with respect to a broadband service plan, that broadband service is provided under such plan at a rate that is determined by the Commission, in coordination with the Office of Internet Connectivity and Growth, to be affordable for a household with an income of 136 percent of the poverty threshold, as determined by using criteria of poverty established by the Bureau of the Census, for a 4-person household that includes 2 dependents under the age of 18.

“(2) **ANCHOR INSTITUTION.**—The term ‘anchor institution’ means a public or private school, a library, a medical or healthcare provider, a museum, a public safety entity, a public housing agency (as defined in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b))), a community college, an institution of higher education, a religious organization, or any other community support organization or agency.

“(3) **AREA.**—The term ‘area’ means the geographic unit of measurement with the greatest level of granularity reasonably feasible for the Commission to use in making eligibility determinations under this section and in meeting the requirements and deadlines of this section.

“(4) **AREA WITH LOW-TIER SERVICE.**—The term ‘area with low-tier service’ means an area where at least 90 percent of the population has access to broadband service offered—

“(A) with a download speed of at least 25 megabits per second but less than 100 megabits per second;

“(B) with an upload speed of at least 25 megabits per second but less than 100 megabits per second; and

“(C) with latency that is sufficiently low to allow multiple, simultaneous, real-time, interactive applications.

“(5) **AREA WITH MID-TIER SERVICE.**—The term ‘area with mid-tier service’ means an area where at least 90 percent of the population has access to broadband service offered—

“(A) with a download speed of at least 100 megabits per second but less than 1 gigabit per second;

“(B) with an upload speed of at least 100 megabits per second but less than 1 gigabit per second; and

“(C) with latency that is sufficiently low to allow multiple, simultaneous, real-time, interactive applications.

“(6) **ASSISTANT SECRETARY.**—The term ‘Assistant Secretary’ means the Assistant Secretary of Commerce for Communications and Information.

“(7) **BROADBAND SERVICE.**—The term ‘broadband service’—

“(A) means broadband internet access service that is a mass-market retail service, or a service provided to an anchor institution, by wire or radio that provides the capability to transmit data to and receive data from all or substantially all internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service;

“(B) includes any service that is a functional equivalent of the service described in subparagraph (A); and

“(C) does not include dial-up internet access service.

“(8) **COLLECTIVE BARGAINING.**—The term ‘collective bargaining’ means performance of the mutual obligation described in section 8(d) of the National Labor Relations Act (29 U.S.C. 158(d)).

“(9) **COLLECTIVE BARGAINING AGREEMENT.**—The term ‘collective bargaining agreement’ means an agreement reached through collective bargaining.

“(10) **FUNDING RECIPIENT.**—The term ‘funding recipient’ means an entity that receives funding for a project under this section, including a private entity, public-private partnership, cooperative, or municipal broadband service provider.

“(11) **HIGH-POVERTY AREA.**—The term ‘high-poverty area’ means a census tract with a poverty rate of at least 20 percent, as measured by the most recent 5-year data series available from the American Community Survey of the Bureau of the Census as of the year before the date of the enactment of this section.

“(12) **INSTITUTION OF HIGHER EDUCATION.**—The term ‘institution of higher education’—

“(A) has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001); and

“(B) includes a postsecondary vocational institution.

“(13) **LABOR ORGANIZATION.**—The term ‘labor organization’ has the meaning given the term in section 2 of the National Labor Relations Act (29 U.S.C. 152).

“(14) **PERSISTENT POVERTY COUNTY.**—The term ‘persistent poverty county’ means any county with a poverty rate of at least 20 percent, as determined in each of the 1990 and 2000 decennial censuses and in the Small Area Income and Poverty Estimates of the Bureau of the Census for the most recent year for which the Estimates are available.

“(15) **POSTSECONDARY VOCATIONAL INSTITUTION.**—The term ‘postsecondary vocational institution’ has the meaning given the term in section 102(c) of the Higher Education Act of 1965 (20 U.S.C. 1002(c)).

“(16) **PROGRAM.**—Unless otherwise indicated, the term ‘program’ means the program established under subsection (a).

“(17) **PROJECT.**—The term ‘project’ means an undertaking by a funding recipient under this section to construct and deploy infrastructure for the provision of broadband service.

“(18) **UNSERVED ANCHOR INSTITUTION.**—The term ‘unserved anchor institution’ means an anchor institution that has no access to broadband service or does not have access to broadband service offered—

“(A) with a download speed of at least 1 gigabit per second per 1,000 users;

“(B) with an upload speed of at least 1 gigabit per second per 1,000 users; and

“(C) with latency that is sufficiently low to allow multiple, simultaneous, real-time, interactive applications.

“(19) **UNSERVED AREA.**—The term ‘unserved area’ means an area where at least 90 percent of the population has no access to broadband service or does not have access to broadband service offered—

“(A) with a download speed of at least 25 megabits per second;

“(B) with an upload speed of at least 25 megabits per second; and

“(C) with latency that is sufficiently low to allow real-time, interactive applications.”.

## **CHAPTER 2—BROADBAND INFRASTRUCTURE FINANCE AND INNOVATION**

### **SEC. 31321. DEFINITIONS.**

In this chapter:

(1) **BIFIA PROGRAM.**—The term “BIFIA program” means the broadband infrastructure finance and innovation program established under this chapter.

(2) **BROADBAND SERVICE.**—The term “broadband service”—

(A) means broadband internet access service that is a mass-market retail service, or a service provided to an entity described in paragraph (11)(B)(ii), by wire or radio that provides the capability to transmit data to and receive data from all or substantially all internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service;

(B) includes any service that is a functional equivalent of the service described in subparagraph (A); and

(C) does not include dial-up internet access service.

(3) **ELIGIBLE PROJECT COSTS.**—The term “eligible project costs” means amounts substantially

all of which are paid by, or for the account of, an obligor in connection with a project, including the cost of—

(A) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, historic preservation review, permitting, preliminary engineering and design work, and other preconstruction activities;

(B) construction and deployment phase activities, including—

(i) construction, reconstruction, rehabilitation, replacement, and acquisition of real property (including land relating to the project and improvements to land), equipment, instrumentation, networking capability, hardware and software, and digital network technology;

(ii) environmental mitigation; and

(iii) construction contingencies; and

(C) capitalized interest necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs during construction and deployment.

(4) **FEDERAL CREDIT INSTRUMENT.**—The term “Federal credit instrument” means a secured loan, loan guarantee, or line of credit authorized to be made available under the BIFIA program with respect to a project.

(5) **INVESTMENT-GRADE RATING.**—The term “investment-grade rating” means a rating of BBB minus, Baa3, bbb minus, BBB (low), or higher assigned by a rating agency to project obligations.

(6) **LENDER.**—The term “lender” means any non-Federal qualified institutional buyer (as defined in section 230.144A(a) of title 17, Code of Federal Regulations (or any successor regulation), known as Rule 144A(a) of the Securities and Exchange Commission and issued under the Securities Act of 1933 (15 U.S.C. 77a et seq.)), including—

(A) a qualified retirement plan (as defined in section 4974(c) of the Internal Revenue Code of 1986) that is a qualified institutional buyer; and

(B) a governmental plan (as defined in section 414(d) of the Internal Revenue Code of 1986) that is a qualified institutional buyer.

(7) **LETTER OF INTEREST.**—The term “letter of interest” means a letter submitted by a potential applicant prior to an application for credit assistance in a format prescribed by the Assistant Secretary on the website of the BIFIA program that—

(A) describes the project and the location, purpose, and cost of the project;

(B) outlines the proposed financial plan, including the requested credit assistance and the proposed obligor;

(C) provides a status of environmental review; and

(D) provides information regarding satisfaction of other eligibility requirements of the BIFIA program.

(8) **LINE OF CREDIT.**—The term “line of credit” means an agreement entered into by the Assistant Secretary with an obligor under section 31324 to provide a direct loan at a future date upon the occurrence of certain events.

(9) **LOAN GUARANTEE.**—The term “loan guarantee” means any guarantee or other pledge by the Assistant Secretary to pay all or part of the principal of and interest on a loan or other debt obligation issued by an obligor and funded by a lender.

(10) **OBLIGOR.**—The term “obligor” means a party that—

(A) is primarily liable for payment of the principal of or interest on a Federal credit instrument; and

(B) may be a corporation, company, partnership, joint venture, trust, or governmental entity, agency, or instrumentality.

(11) **PROJECT.**—The term “project” means a project—

(A) to construct and deploy infrastructure for the provision of broadband service; and

(B) that the Assistant Secretary determines will—

(i) provide access or improved access to broadband service to consumers residing in areas of the United States that have no access to broadband service or do not have access to broadband service offered—

(I) with a download speed of at least 100 megabits per second;

(II) with an upload speed of at least 20 megabits per second; and

(III) with latency that is sufficiently low to allow real-time, interactive applications; or

(ii) provide access or improved access to broadband service to—

(I) schools, libraries, medical and healthcare providers, community colleges and other institutions of higher education, museums, religious organizations, and other community support organizations and entities to facilitate greater use of broadband service by or through such organizations;

(II) organizations and agencies that provide outreach, access, equipment, and support services to facilitate greater use of broadband service by low-income, unemployed, aged, and otherwise vulnerable populations;

(III) job-creating strategic facilities located within a State-designated economic zone, Economic Development District designated by the Department of Commerce, Empowerment Zone designated by the Department of Housing and Urban Development, or Enterprise Community designated by the Department of Agriculture; or

(IV) public safety agencies.

(12) **PROJECT OBLIGATION.**—The term “project obligation” means any note, bond, debenture, or other debt obligation issued by an obligor in connection with the financing of a project, other than a Federal credit instrument.

(13) **PUBLIC AUTHORITY.**—The term “public authority” means a Federal, State, county, town, or township, Indian Tribe, municipal or other local government or instrumentality with authority to finance, build, operate, or maintain infrastructure for the provision of broadband service.

(14) **RATING AGENCY.**—The term “rating agency” means a credit rating agency registered with the Securities and Exchange Commission as a nationally recognized statistical rating organization (as defined in section 3(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a))).

(15) **SECURED LOAN.**—The term “secured loan” means a direct loan or other debt obligation issued by an obligor and funded by the Assistant Secretary in connection with the financing of a project under section 31323.

(16) **SMALL PROJECT.**—The term “small project” means a project having eligible project costs that are reasonably anticipated not to equal or exceed \$20,000,000.

(17) **SUBSIDY AMOUNT.**—The term “subsidy amount” means the amount of budget authority sufficient to cover the estimated long-term cost to the Federal Government of a Federal credit instrument—

(A) calculated on a net present value basis; and

(B) excluding administrative costs and any incidental effects on governmental receipts or outlays in accordance with the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.).

(18) **SUBSTANTIAL COMPLETION.**—The term “substantial completion” means, with respect to a project receiving credit assistance under the BIFIA program—

(A) the commencement of the provision of broadband service using the infrastructure being financed; or

(B) a comparable event, as determined by the Assistant Secretary and specified in the credit agreement.

### **SEC. 31322. DETERMINATION OF ELIGIBILITY AND PROJECT SELECTION.**

(a) **ELIGIBILITY.**—

(1) **IN GENERAL.**—A project shall be eligible to receive credit assistance under the BIFIA program if—

(A) the entity proposing to carry out the project submits a letter of interest prior to submission of a formal application for the project; and

(B) the project meets the criteria described in this subsection.

(2) CREDITWORTHINESS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), to be eligible for assistance under the BIFIA program, a project shall satisfy applicable creditworthiness standards, which, at a minimum, shall include—

(i) adequate coverage requirements to ensure repayment;

(ii) an investment-grade rating from at least 2 rating agencies on debt senior to the Federal credit instrument; and

(iii) a rating from at least 2 rating agencies on the Federal credit instrument.

(B) SMALL PROJECTS.—In order for a small project to be eligible for assistance under the BIFIA program, such project shall satisfy alternative creditworthiness standards that shall be established by the Assistant Secretary under section 31325 for purposes of this paragraph.

(3) APPLICATION.—A State, local government, agency or instrumentality of a State or local government, public authority, public-private partnership, or any other legal entity undertaking the project and authorized by the Assistant Secretary shall submit a project application that is acceptable to the Assistant Secretary.

(4) ELIGIBLE PROJECT COST PARAMETERS FOR INFRASTRUCTURE PROJECTS.—Eligible project costs shall be reasonably anticipated to equal or exceed \$2,000,000 in the case of a project or program of projects—

(A) in which the applicant is a local government, instrumentality of local government, or public authority (other than a public authority that is a Federal or State government or instrumentality);

(B) located on a facility owned by a local government; or

(C) for which the Assistant Secretary determines that a local government is substantially involved in the development of the project.

(5) DEDICATED REVENUE SOURCES.—The applicable Federal credit instrument shall be repayable, in whole or in part, from—

(A) amounts charged to—

(i) subscribers of broadband service for such service; or

(ii) subscribers of any related service provided over the same infrastructure for such related service;

(B) user fees;

(C) payments owing to the obligor under a public-private partnership; or

(D) other dedicated revenue sources that also secure or fund the project obligations.

(6) APPLICATIONS WHERE OBLIGOR WILL BE IDENTIFIED LATER.—A State, local government, agency or instrumentality of a State or local government, or public authority may submit to the Assistant Secretary an application under paragraph (3), under which a private party to a public-private partnership will be—

(A) the obligor; and

(B) identified later through completion of a procurement and selection of the private party.

(7) BENEFICIAL EFFECTS.—The Assistant Secretary shall determine that financial assistance for the project under the BIFIA program will—

(A) foster, if appropriate, partnerships that attract public and private investment for the project;

(B) enable the project to proceed at an earlier date than the project would otherwise be able to proceed or reduce the lifecycle costs (including debt service costs) of the project; and

(C) reduce the contribution of Federal grant assistance for the project.

(8) PROJECT READINESS.—To be eligible for assistance under the BIFIA program, the applicant shall demonstrate a reasonable expectation that the contracting process for the construction and deployment of infrastructure for the provi-

sion of broadband service through the project can commence by no later than 90 days after the date on which a Federal credit instrument is obligated for the project under the BIFIA program.

(9) PUBLIC SPONSORSHIP OF PRIVATE ENTITIES.—

(A) IN GENERAL.—If an eligible project is carried out by an entity that is not a State or local government or an agency or instrumentality of a State or local government or a Tribal Government or consortium of Tribal Governments, the project shall be publicly sponsored.

(B) PUBLIC SPONSORSHIP.—For purposes of this chapter, a project shall be considered to be publicly sponsored if the obligor can demonstrate, to the satisfaction of the Assistant Secretary, that the project applicant has consulted with the State, local, or Tribal Government in the area in which the project is located, or that is otherwise affected by the project, and that such Government supports the proposal.

(b) SELECTION AMONG ELIGIBLE PROJECTS.—

(1) ESTABLISHMENT OF APPLICATION PROCESS.—The Assistant Secretary shall establish a rolling application process under which projects that are eligible to receive credit assistance under subsection (a) shall receive credit assistance on terms acceptable to the Assistant Secretary, if adequate funds are available to cover the subsidy costs associated with the Federal credit instrument.

(2) PRELIMINARY RATING OPINION LETTER.—The Assistant Secretary shall require each project applicant to provide—

(A) a preliminary rating opinion letter from at least 1 rating agency—

(i) indicating that the senior obligations of the project, which may be the Federal credit instrument, have the potential to achieve an investment-grade rating; and

(ii) including a preliminary rating opinion on the Federal credit instrument; or

(B) in the case of a small project, alternative documentation that the Assistant Secretary shall require in the standards established under section 31325 for purposes of this paragraph.

(3) TECHNOLOGY NEUTRALITY REQUIRED.—In selecting projects to receive credit assistance under the BIFIA program, the Assistant Secretary may not favor a project using any particular technology.

(4) PREFERENCE FOR OPEN-ACCESS NETWORKS.—In selecting projects to receive credit assistance under the BIFIA program, the Assistant Secretary shall give preference to projects providing for the deployment of open-access broadband service networks.

(c) FEDERAL REQUIREMENTS.—

(1) IN GENERAL.—The following provisions of law shall apply to funds made available under the BIFIA program and projects assisted with those funds:

(A) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

(B) The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(C) 54 U.S.C. 300101 et seq. (commonly referred to as the “National Historic Preservation Act”).

(D) The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.).

(2) NEPA.—No funding shall be obligated for a project that has not received an environmental categorical exclusion, a finding of no significant impact, or a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(3) TITLE VI OF THE CIVIL RIGHTS ACT OF 1964.—For purposes of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), any project that receives credit assistance under the BIFIA program shall be considered a program or activity within the meaning of section 606 of such title (42 U.S.C. 2000d-4a).

(4) CONTRACTING REQUIREMENTS.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction,

alteration, or repair work carried out, in whole or in part, with assistance made available through a Federal credit instrument shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this paragraph, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(5) NEUTRALITY REQUIREMENT.—An employer receiving assistance made available through a Federal credit instrument under this chapter shall remain neutral with respect to the exercise of employees and labor organizations of the right to organize and bargain under the National Labor Relations Act (29 U.S.C. 151 et seq.).

(6) REFERRAL OF ALLEGED VIOLATIONS OF APPLICABLE FEDERAL LABOR AND EMPLOYMENT LAWS.—The Assistant Secretary shall refer any alleged violation of an applicable labor and employment law to the appropriate Federal agency for investigation and enforcement, and any alleged violation of paragraph (4) or (5) to the National Labor Relations Board for investigation and enforcement, utilizing all appropriate remedies up to and including debarment from the BIFIA program.

(d) APPLICATION PROCESSING PROCEDURES.—

(1) NOTICE OF COMPLETE APPLICATION.—Not later than 30 days after the date of receipt of an application under this section, the Assistant Secretary shall provide to the applicant a written notice to inform the applicant whether—

(A) the application is complete; or

(B) additional information or materials are needed to complete the application.

(2) APPROVAL OR DENIAL OF APPLICATION.—Not later than 60 days after the date of issuance of the written notice under paragraph (1), the Assistant Secretary shall provide to the applicant a written notice informing the applicant whether the Assistant Secretary has approved or disapproved the application.

(3) APPROVAL BEFORE NEPA REVIEW.—Subject to subsection (c)(2), an application for a project may be approved before the project receives an environmental categorical exclusion, a finding of no significant impact, or a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(e) DEVELOPMENT PHASE ACTIVITIES.—Any credit instrument secured under the BIFIA program may be used to finance up to 100 percent of the cost of development phase activities as described in section 31321(3)(A).

SEC. 31323. SECURED LOANS.

(a) IN GENERAL.—

(1) AGREEMENTS.—Subject to paragraphs (2) and (3), the Assistant Secretary may enter into agreements with one or more obligors to make secured loans, the proceeds of which shall be used—

(A) to finance eligible project costs of any project selected under section 31322;

(B) to refinance interim construction financing of eligible project costs of any project selected under section 31322; or

(C) to refinance long-term project obligations or Federal credit instruments, if the refinancing provides additional funding capacity for the completion, enhancement, or expansion of any project that—

(i) is selected under section 31322; or

(ii) otherwise meets the requirements of section 31322.

(2) LIMITATION ON REFINANCING OF INTERIM CONSTRUCTION FINANCING.—A loan under paragraph (1) shall not refinance interim construction financing under paragraph (1)(B)—

(A) if the maturity of such interim construction financing is later than 1 year after the substantial completion of the project; and

(B) later than 1 year after the date of substantial completion of the project.

(3) **RISK ASSESSMENT.**—Before entering into an agreement under this subsection, the Assistant Secretary, in consultation with the Director of the Office of Management and Budget, shall determine an appropriate capital reserve subsidy amount for each secured loan, taking into account each rating letter provided by a rating agency under section 31322(b)(2)(A)(ii) or, in the case of a small project, the alternative documentation provided under section 31322(b)(2)(B).

(b) **TERMS AND LIMITATIONS.**—

(1) **IN GENERAL.**—A secured loan under this section with respect to a project shall be on such terms and conditions and contain such covenants, representations, warranties, and requirements (including requirements for audits) as the Assistant Secretary determines to be appropriate.

(2) **MAXIMUM AMOUNT.**—The amount of a secured loan under this section shall not exceed the lesser of 49 percent of the reasonably anticipated eligible project costs or, if the secured loan is not for a small project and does not receive an investment-grade rating, the amount of the senior project obligations.

(3) **PAYMENT.**—A secured loan under this section—

(A) shall—

(i) be payable, in whole or in part, from—

(I) amounts charged to—

(aa) subscribers of broadband service for such service; or

(bb) subscribers of any related service provided over the same infrastructure for such related service;

(II) user fees;

(III) payments owing to the obligor under a public-private partnership; or

(IV) other dedicated revenue sources that also secure the senior project obligations; and

(ii) include a coverage requirement or similar security feature supporting the project obligations; and

(B) may have a lien on revenues described in subparagraph (A), subject to any lien securing project obligations.

(4) **INTEREST RATE.**—The interest rate on a secured loan under this section shall be not less than the yield on United States Treasury securities of a similar maturity to the maturity of the secured loan on the date of execution of the loan agreement.

(5) **MATURITY DATE.**—The final maturity date of the secured loan shall be the lesser of—

(A) 35 years after the date of substantial completion of the project; and

(B) if the useful life of the infrastructure for the provision of broadband service being financed is of a lesser period, the useful life of the infrastructure.

(6) **NONSUBORDINATION.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), the secured loan shall not be subordinated to the claims of any holder of project obligations in the event of bankruptcy, insolvency, or liquidation of the obligor.

(B) **PREEXISTING INDENTURE.**—

(i) **IN GENERAL.**—The Assistant Secretary shall waive the requirement under subparagraph (A) for a public agency borrower that is financing ongoing capital programs and has outstanding senior bonds under a preexisting indenture, if—

(I) the secured loan—

(aa) is rated in the A category or higher; or

(bb) in the case of a small project, meets an alternative standard that the Assistant Secretary shall establish under section 31325 for purposes of this subclause;

(II) the secured loan is secured and payable from pledged revenues not affected by project performance, such as a tax-backed revenue pledge or a system-backed pledge of project revenues; and

(III) the BIFIA program share of eligible project costs is 33 percent or less.

(ii) **LIMITATION.**—If the Assistant Secretary waives the nonsubordination requirement under this subparagraph—

(1) the maximum credit subsidy to be paid by the Federal Government shall be not more than 10 percent of the principal amount of the secured loan; and

(II) the obligor shall be responsible for paying the remainder of the subsidy cost, if any.

(7) **FEES.**—The Assistant Secretary may establish fees at a level sufficient to cover all or a portion of the costs to the Federal Government of making a secured loan under this section.

(8) **NON-FEDERAL SHARE.**—The proceeds of a secured loan under the BIFIA program, if the loan is repayable from non-Federal funds—

(A) may be used for any non-Federal share of project costs required under this chapter; and

(B) shall not count toward the total Federal assistance provided for a project for purposes of paragraph (9).

(9) **MAXIMUM FEDERAL INVOLVEMENT.**—The total Federal assistance provided for a project receiving a loan under the BIFIA program shall not exceed 80 percent of the total project cost.

(c) **REPAYMENT.**—

(1) **SCHEDULE.**—The Assistant Secretary shall establish a repayment schedule for each secured loan under this section based on—

(A) the projected cash flow from project revenues and other repayment sources; and

(B) the useful life of the infrastructure for the provision of broadband service being financed.

(2) **COMMENCEMENT.**—Scheduled loan repayments of principal or interest on a secured loan under this section shall commence not later than 5 years after the date of substantial completion of the project.

(3) **DEFERRED PAYMENTS.**—

(A) **IN GENERAL.**—If, at any time after the date of substantial completion of the project, the project is unable to generate sufficient revenues to pay the scheduled loan repayments of principal and interest on the secured loan, the Assistant Secretary may, subject to subparagraph (C), allow the obligor to add unpaid principal and interest to the outstanding balance of the secured loan.

(B) **INTEREST.**—Any payment deferred under subparagraph (A) shall—

(i) continue to accrue interest in accordance with subsection (b)(4) until fully repaid; and

(ii) be scheduled to be amortized over the remaining term of the loan.

(C) **CRITERIA.**—

(i) **IN GENERAL.**—Any payment deferral under subparagraph (A) shall be contingent on the project meeting criteria established by the Assistant Secretary.

(ii) **REPAYMENT STANDARDS.**—The criteria established pursuant to clause (i) shall include standards for reasonable assurance of repayment.

(4) **PREPAYMENT.**—

(A) **USE OF EXCESS REVENUES.**—Any excess revenues that remain after satisfying scheduled debt service requirements on the project obligations and secured loan and all deposit requirements under the terms of any trust agreement, bond resolution, or similar agreement securing project obligations may be applied annually to prepay the secured loan without penalty.

(B) **USE OF PROCEEDS OF REFINANCING.**—The secured loan may be prepaid at any time without penalty from the proceeds of refinancing from non-Federal funding sources.

(d) **SALE OF SECURED LOANS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), as soon as practicable after substantial completion of a project and after notifying the obligor, the Assistant Secretary may sell to another entity or reoffer into the capital markets a secured loan for the project if the Assistant Secretary determines that the sale or reoffering can be made on favorable terms.

(2) **CONSENT OF OBLIGOR.**—In making a sale or reoffering under paragraph (1), the Assistant Secretary may not change the original terms and conditions of the secured loan without the written consent of the obligor.

(e) **LOAN GUARANTEES.**—

(1) **IN GENERAL.**—The Assistant Secretary may provide a loan guarantee to a lender in lieu of making a secured loan under this section if the Assistant Secretary determines that the budgetary cost of the loan guarantee is substantially the same as that of a secured loan.

(2) **TERMS.**—The terms of a loan guarantee under paragraph (1) shall be consistent with the terms required under this section for a secured loan, except that the rate on the guaranteed loan and any prepayment features shall be negotiated between the obligor and the lender, with the consent of the Assistant Secretary.

(f) **STREAMLINED APPLICATION PROCESS.**—

(1) **IN GENERAL.**—The Assistant Secretary shall develop one or more expedited application processes, available at the request of entities seeking secured loans under the BIFIA program, that use a set or sets of conventional terms established pursuant to this section.

(2) **TERMS.**—In establishing the streamlined application process required by this subsection, the Assistant Secretary may allow for an expedited application period and include terms such as those that require—

(A) that the project be a small project;

(B) the secured loan to be secured and payable from pledged revenues not affected by project performance, such as a tax-backed revenue pledge, tax increment financing, or a system-backed pledge of project revenues; and

(C) repayment of the loan to commence not later than 5 years after disbursement.

## SEC. 31324. LINES OF CREDIT.

(a) **IN GENERAL.**—

(1) **AGREEMENTS.**—Subject to paragraphs (2) through (4), the Assistant Secretary may enter into agreements to make available to one or more obligors lines of credit in the form of direct loans to be made by the Assistant Secretary at future dates on the occurrence of certain events for any project selected under section 31322.

(2) **USE OF PROCEEDS.**—The proceeds of a line of credit made available under this section shall be available to pay debt service on project obligations issued to finance eligible project costs, extraordinary repair and replacement costs, operation and maintenance expenses, and costs associated with unexpected Federal or State environmental restrictions.

(3) **RISK ASSESSMENT.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), before entering into an agreement under this subsection, the Assistant Secretary, in consultation with the Director of the Office of Management and Budget and each rating agency providing a preliminary rating opinion letter under section 31322(b)(2)(A), shall determine an appropriate capital reserve subsidy amount for each line of credit, taking into account the rating opinion letter.

(B) **SMALL PROJECTS.**—Before entering into an agreement under this subsection to make available a line of credit for a small project, the Assistant Secretary, in consultation with the Director of the Office of Management and Budget, shall determine an appropriate capital reserve subsidy amount for each such line of credit, taking into account the alternative documentation provided under section 31322(b)(2)(B) instead of preliminary rating opinion letters provided under section 31322(b)(2)(A).

(4) **INVESTMENT-GRADE RATING REQUIREMENT.**—The funding of a line of credit under this section shall be contingent on—

(A) the senior obligations of the project receiving an investment-grade rating from 2 rating agencies; or

(B) in the case of a small project, the project meeting an alternative standard that the Assistant Secretary shall establish under section 31325 for purposes of this paragraph.

(b) **TERMS AND LIMITATIONS.**—

(1) **IN GENERAL.**—A line of credit under this section with respect to a project shall be on such terms and conditions and contain such covenants, representations, warranties, and requirements (including requirements for audits)

as the Assistant Secretary determines to be appropriate.

(2) **MAXIMUM AMOUNTS.**—The total amount of a line of credit under this section shall not exceed 33 percent of the reasonably anticipated eligible project costs.

(3) **DRAWS.**—Any draw on a line of credit under this section shall—

(A) represent a direct loan; and

(B) be made only if net revenues from the project (including capitalized interest, but not including reasonably required financing reserves) are insufficient to pay the costs specified in subsection (a)(2).

(4) **INTEREST RATE.**—The interest rate on a direct loan resulting from a draw on the line of credit shall be not less than the yield on 30-year United States Treasury securities, as of the date of execution of the line of credit agreement.

(5) **SECURITY.**—A line of credit issued under this section—

(A) shall—

(i) be payable, in whole or in part, from—

(I) amounts charged to—

(aa) subscribers of broadband service for such service; or

(bb) subscribers of any related service provided over the same infrastructure for such related service;

(II) user fees;

(III) payments owing to the obligor under a public-private partnership; or

(IV) other dedicated revenue sources that also secure the senior project obligations; and

(ii) include a coverage requirement or similar security feature supporting the project obligations; and

(B) may have a lien on revenues described in subparagraph (A), subject to any lien securing project obligations.

(6) **PERIOD OF AVAILABILITY.**—The full amount of a line of credit under this section, to the extent not drawn upon, shall be available during the 10-year period beginning on the date of substantial completion of the project.

(7) **RIGHTS OF THIRD-PARTY CREDITORS.**—

(A) **AGAINST FEDERAL GOVERNMENT.**—A third-party creditor of the obligor shall not have any right against the Federal Government with respect to any draw on a line of credit under this section.

(B) **ASSIGNMENT.**—An obligor may assign a line of credit under this section to—

(i) one or more lenders; or

(ii) a trustee on the behalf of such a lender.

(8) **NONSUBORDINATION.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), a direct loan under this section shall not be subordinated to the claims of any holder of project obligations in the event of bankruptcy, insolvency, or liquidation of the obligor.

(B) **PRE-EXISTING INDENTURE.**—

(i) **IN GENERAL.**—The Assistant Secretary shall waive the requirement of subparagraph (A) for a public agency borrower that is financing ongoing capital programs and has outstanding senior bonds under a preexisting indenture, if—

(I) the line of credit—

(aa) is rated in the A category or higher; or

(bb) in the case of a small project, meets an alternative standard that the Assistant Secretary shall establish under section 31325 for purposes of this subclause;

(II) the BIFIA program loan resulting from a draw on the line of credit is payable from pledged revenues not affected by project performance, such as a tax-backed revenue pledge or a system-backed pledge of project revenues; and

(III) the BIFIA program share of eligible project costs is 33 percent or less.

(ii) **LIMITATION.**—If the Assistant Secretary waives the nonsubordination requirement under this subparagraph—

(I) the maximum credit subsidy to be paid by the Federal Government shall be not more than 10 percent of the principal amount of the secured loan; and

(II) the obligor shall be responsible for paying the remainder of the subsidy cost.

(9) **FEES.**—The Assistant Secretary may establish fees at a level sufficient to cover all or a portion of the costs to the Federal Government of providing a line of credit under this section.

(10) **RELATIONSHIP TO OTHER CREDIT INSTRUMENTS.**—A project that receives a line of credit under this section also shall not receive a secured loan or loan guarantee under section 31323 in an amount that, combined with the amount of the line of credit, exceeds 49 percent of eligible project costs.

(c) **REPAYMENT.**—

(1) **TERMS AND CONDITIONS.**—The Assistant Secretary shall establish repayment terms and conditions for each direct loan under this section based on—

(A) the projected cash flow from project revenues and other repayment sources; and

(B) the useful life of the infrastructure for the provision of broadband service being financed.

(2) **TIMING.**—All repayments of principal or interest on a direct loan under this section shall be scheduled—

(A) to commence not later than 5 years after the end of the period of availability specified in subsection (b)(6); and

(B) to conclude, with full repayment of principal and interest, by the date that is 25 years after the end of the period of availability specified in subsection (b)(6).

#### **SEC. 31325. ALTERNATIVE PRUDENTIAL LENDING STANDARDS FOR SMALL PROJECTS.**

Not later than 180 days after the date of the enactment of this Act, the Assistant Secretary shall establish alternative, streamlined prudential lending standards for small projects receiving credit assistance under the BIFIA program to ensure that such projects pose no additional risk to the Federal Government, as compared with projects that are not small projects.

#### **SEC. 31326. PROGRAM ADMINISTRATION.**

(a) **REQUIREMENT.**—The Assistant Secretary shall establish a uniform system to service the Federal credit instruments made available under the BIFIA program.

(b) **FEES.**—The Assistant Secretary may collect and spend fees, contingent on authority being provided in appropriations Acts, at a level that is sufficient to cover—

(1) the costs of services of expert firms retained pursuant to subsection (d); and

(2) all or a portion of the costs to the Federal Government of servicing the Federal credit instruments.

(c) **SERVICER.**—

(1) **IN GENERAL.**—The Assistant Secretary may appoint a financial entity to assist the Assistant Secretary in servicing the Federal credit instruments.

(2) **DUTIES.**—A servicer appointed under paragraph (1) shall act as the agent for the Assistant Secretary.

(3) **FEE.**—A servicer appointed under paragraph (1) shall receive a servicing fee, subject to approval by the Assistant Secretary.

(d) **ASSISTANCE FROM EXPERT FIRMS.**—The Assistant Secretary may retain the services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments.

(e) **EXPEDITED PROCESSING.**—The Assistant Secretary shall implement procedures and measures to economize the time and cost involved in obtaining approval and the issuance of credit assistance under the BIFIA program.

(f) **ASSISTANCE TO SMALL PROJECTS.**—Of the amount appropriated under section 31329(a), and after the set-aside for administrative expenses under section 31329(b), not less than 20 percent shall be made available for the Assistant Secretary to use in lieu of fees collected under subsection (b) for small projects.

#### **SEC. 31327. STATE AND LOCAL PERMITS.**

The provision of credit assistance under the BIFIA program with respect to a project shall not—

(1) relieve any recipient of the assistance of any obligation to obtain any required State or local permit or approval with respect to the project;

(2) limit the right of any unit of State or local government to approve or regulate any rate of return on private equity invested in the project; or

(3) otherwise supersede any State or local law (including any regulation) applicable to the construction or operation of the project.

#### **SEC. 31328. REGULATIONS.**

The Assistant Secretary may promulgate such regulations as the Assistant Secretary determines to be appropriate to carry out the BIFIA program.

#### **SEC. 31329. FUNDING.**

(a) **APPROPRIATION.**—There are appropriated to the Assistant Secretary, out of any money in the Treasury not otherwise appropriated, \$5,000,000,000 to carry out this chapter for fiscal year 2021, to remain available until expended.

(b) **ADMINISTRATIVE EXPENSES.**—Of the amount appropriated under subsection (a), the Assistant Secretary may use not more than 5 percent for the administration of the BIFIA program.

#### **SEC. 31330. REPORTS TO CONGRESS.**

(a) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, and every 2 years thereafter, the Assistant Secretary shall submit to Congress a report summarizing the financial performance of the projects that are receiving, or have received, assistance under the BIFIA program, including a recommendation as to whether the objectives of the BIFIA program are best served by—

(1) continuing the program under the authority of the Assistant Secretary; or

(2) establishing a Federal corporation or federally sponsored enterprise to administer the program.

(b) **APPLICATION PROCESS REPORT.**—

(1) **IN GENERAL.**—Not later than 1 year after the date of the enactment of this Act, and annually thereafter, the Assistant Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that includes a list of all of the letters of interest and applications received for assistance under the BIFIA program during the preceding fiscal year.

(2) **INCLUSIONS.**—

(A) **IN GENERAL.**—Each report under paragraph (1) shall include, at a minimum, a description of, with respect to each letter of interest and application included in the report—

(i) the date on which the letter of interest or application was received;

(ii) the date on which a notification was provided to the applicant regarding whether the application was complete or incomplete;

(iii) the date on which a revised and completed application was submitted (if applicable);

(iv) the date on which a notification was provided to the applicant regarding whether the project was approved or disapproved; and

(v) if the project was not approved, the reason for the disapproval.

(B) **CORRESPONDENCE.**—Each report under paragraph (1) shall include copies of any correspondence provided to the applicant in accordance with section 31322(d).

#### **CHAPTER 3—WI-FI ON SCHOOL BUSES**

#### **SEC. 31341. E-RATE SUPPORT FOR SCHOOL BUS WI-FI.**

(a) **RULEMAKING.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Commission shall commence a rulemaking to make the provision of Wi-Fi access on school buses eligible for support under the E-rate program of the Commission set forth under subpart F of part 54 of title 47, Code of Federal Regulations.

(2) **ELIGIBLE RECIPIENTS.**—Notwithstanding section 254(h)(1)(B) of the Communications Act

of 1934 (47 U.S.C. 254(h)(1)(B)), the Commission shall provide in the rulemaking under paragraph (1) for State educational agencies, educational service agencies, and local educational agencies to be eligible to receive the support described in such paragraph.

(b) DEFINITIONS.—In this section:

(1) SCHOOL BUS.—The term “school bus” means a passenger motor vehicle that is—

(A) designed to carry a driver and not less than 5 passengers; and

(B) used significantly to transport—

(i) children enrolled in an early childhood education program to or from such program or an event related to such program; or

(ii) students enrolled in an elementary school or secondary school to or from such school or an event related to such school.

(2) TERMS DEFINED IN ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965.—The terms “early childhood education program”, “educational service agency”, “elementary school”, “local educational agency”, “secondary school”, and “State educational agency” have the meanings given such terms in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

#### Subtitle D—Community Broadband

#### SEC. 31401. STATE, LOCAL, PUBLIC-PRIVATE PARTNERSHIP, AND CO-OP BROADBAND SERVICES.

Section 706 of the Telecommunications Act of 1996 (47 U.S.C. 1302) is amended—

(1) by redesignating subsection (d) as subsection (e) and inserting after subsection (c) the following:

“(d) STATE, LOCAL, PUBLIC-PRIVATE PARTNERSHIP, AND CO-OP ADVANCED TELECOMMUNICATIONS CAPABILITY AND SERVICES.—

“(1) IN GENERAL.—No State statute, regulation, or other State legal requirement may prohibit or have the effect of prohibiting any public provider, public-private partnership provider, or cooperatively organized provider from providing, to any person or any public or private entity, advanced telecommunications capability or any service that utilizes the advanced telecommunications capability provided by such provider.

“(2) ANTIDISCRIMINATION SAFEGUARDS.—

“(A) PUBLIC PROVIDERS.—To the extent any public provider regulates competing private providers of advanced telecommunications capability or services that utilize advanced telecommunications capability, such public provider shall apply its ordinances and rules without discrimination in favor of itself or any provider that it owns of services that utilize advanced telecommunications capability.

“(B) PUBLIC-PRIVATE PARTNERSHIP PROVIDERS.—To the extent any State or local entity that is part of a public-private partnership provider regulates competing private providers of advanced telecommunications capability or services that utilize advanced telecommunications capability, such State or local entity shall apply its ordinances and rules without discrimination in favor of such public-private partnership provider or any provider that such State or local entity or public-private partnership provider owns of services that utilize advanced telecommunications capability.

“(3) SAVINGS CLAUSE.—Nothing in this subsection shall exempt a public provider, public-private partnership provider, or cooperatively organized provider from any Federal or State telecommunications law or regulation that applies to all providers of advanced telecommunications capability or services that utilize such advanced telecommunications capability.”; and

(2) in subsection (e), as redesignated—

(A) in the matter preceding paragraph (1), by striking “this subsection” and inserting “this section”;

(B) by redesignating paragraph (2) as paragraph (3);

(C) by inserting after paragraph (1) the following:

“(2) COOPERATIVELY ORGANIZED PROVIDER.—The term ‘cooperatively organized provider’ means an entity that is treated as a cooperative under Federal tax law and that provides advanced telecommunications capability, or any service that utilizes such advanced telecommunications capability, to any person or public or private entity.”; and

(D) by adding at the end the following:

“(4) PUBLIC PROVIDER.—The term ‘public provider’ means a State or local entity that provides advanced telecommunications capability, or any service that utilizes such advanced telecommunications capability, to any person or public or private entity.

“(5) PUBLIC-PRIVATE PARTNERSHIP PROVIDER.—The term ‘public-private partnership provider’ means a public-private partnership, between a State or local entity and a private entity, that provides advanced telecommunications capability, or any service that utilizes such advanced telecommunications capability, to any person or public or private entity.

“(6) STATE OR LOCAL ENTITY.—The term ‘State or local entity’ means a State or political subdivision thereof, any agency, authority, or instrumentality of a State or political subdivision thereof, or an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304(e))).”.

#### Subtitle E—Repeal of Rule and Prohibition on Use of NPRM

#### SEC. 31501. REPEAL OF RULE AND PROHIBITION ON USE OF NPRM.

(a) REPEAL OF RULE.—The Fourth Report and Order, Order on Reconsideration, Memorandum Opinion and Order, Notice of Proposed Rulemaking, and Notice of Inquiry in the matter of bridging the digital divide for low-income consumers, lifeline and link up reform and modernization, telecommunications carriers eligible for universal service support that was adopted by the Commission on November 16, 2017 (FCC 17–155) shall have no force or effect.

(b) RULEMAKING IN RELIANCE ON UNIVERSAL SERVICE CONTRIBUTION METHODOLOGY NPRM PROHIBITED.—Beginning on the date of the enactment of this Act, the Commission may not rely on the Notice of Proposed Rulemaking in the matter of universal service contribution methodology that was adopted by the Commission on May 15, 2019 (FCC 19–46), to satisfy the requirements of section 553 of title 5, United States Code, for adopting, amending, revoking, or otherwise modifying any rule (as defined in section 551 of such title) of the Commission.

#### Subtitle F—Next Generation 9–1–1

#### SEC. 31601. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the 9–1–1 professionals in the United States perform important and lifesaving work every day, and need the tools and communications technologies to perform the work effectively in a world with digital communications technologies;

(2) the transition from the legacy communications technologies used in the 9–1–1 systems of the United States to Next Generation 9–1–1 is a national priority and a national imperative;

(3) the United States should complete the transition described in paragraph (2) as soon as practicable;

(4) the United States should develop a nationwide framework that facilitates cooperation among Federal, State, and local officials on deployment of Next Generation 9–1–1 in order to meet that goal;

(5) the term “Public Safety Answering Point” becomes outdated in a broadband environment and 9–1–1 centers are increasingly and appropriately being referred to as emergency communications centers; and

(6) 9–1–1 authorities and emergency communications centers should have sufficient resources to implement Next Generation 9–1–1, including resources to support associated geographic information systems (commonly known as “GIS”), and cybersecurity measures.

#### SEC. 31602. STATEMENT OF POLICY.

It is the policy of the United States that—

(1) Next Generation 9–1–1 should be technologically and competitively neutral;

(2) Next Generation 9–1–1 should be interoperable;

(3) the governance and control of the 9–1–1 systems of the United States, including Next Generation 9–1–1, should remain at the State, regional, and local level; and

(4) individuals in the United States should receive information on how to best utilize Next Generation 9–1–1 and on its capabilities and usefulness.

#### SEC. 31603. COORDINATION OF NEXT GENERATION 9–1–1 IMPLEMENTATION.

Part C of title I of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 901 et seq.) is amended by adding at the end the following:

#### “SEC. 159. COORDINATION OF NEXT GENERATION 9–1–1 IMPLEMENTATION.

“(a) ADDITIONAL FUNCTIONS OF 9–1–1 IMPLEMENTATION COORDINATION OFFICE.—

“(1) AUTHORITY.—The Office shall implement the provisions of this section.

“(2) MANAGEMENT PLAN.—

“(A) DEVELOPMENT.—The Assistant Secretary and the Administrator shall develop and may modify a management plan for the grant program established under this section, including by developing—

“(i) plans related to the organizational structure of such program; and

“(ii) funding profiles for each fiscal year of the duration of such program.

“(B) SUBMISSION TO CONGRESS.—Not later than 90 days after the date of the enactment of this section or 90 days after the date on which the plan is modified, as applicable, the Assistant Secretary and the Administrator shall submit the management plan developed under subparagraph (A) to—

“(i) the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and

“(ii) the Committees on Energy and Commerce and Appropriations of the House of Representatives.

“(3) PURPOSE OF OFFICE.—The Office shall—

“(A) take actions, in concert with coordinators designated in accordance with subsection (b)(3)(A)(ii), to improve coordination and communication with respect to the implementation of Next Generation 9–1–1;

“(B) develop, collect, and disseminate information concerning practices, procedures, and technology used in the implementation of Next Generation 9–1–1;

“(C) advise and assist eligible entities in the preparation of implementation plans required under subsection (b)(3)(A)(iii);

“(D) receive, review, and recommend the approval or disapproval of applications for grants under subsection (b); and

“(E) oversee the use of funds provided by such grants in fulfilling such implementation plans.

“(4) REPORTS.—The Assistant Secretary and the Administrator shall provide an annual report to Congress by the first day of October of each year on the activities of the Office to improve coordination and communication with respect to the implementation of Next Generation 9–1–1.

“(b) NEXT GENERATION 9–1–1 IMPLEMENTATION GRANTS.—

“(1) MATCHING GRANTS.—The Assistant Secretary and the Administrator, acting through the Office, shall provide grants to eligible entities for—

“(A) the implementation of Next Generation 9–1–1;

“(B) establishing and maintaining Next Generation 9–1–1;

“(C) training directly related to Next Generation 9–1–1;

“(D) public outreach and education on how best to use Next Generation 9–1–1 and on its capabilities and usefulness; and

“(E) administrative costs associated with planning and implementation of Next Generation 9–1–1, including costs related to planning for and preparing an application and related materials as required by this section, if—

“(i) such costs are fully documented in materials submitted to the Office; and

“(ii) such costs are reasonable and necessary and do not exceed 5 percent of the total grant award.

“(2) MATCHING REQUIREMENT.—The Federal share of the cost of a project eligible for a grant under this section shall not exceed 80 percent.

“(3) COORDINATION REQUIRED.—In providing grants under paragraph (1), the Assistant Secretary and the Administrator shall require an eligible entity to certify in its application that—

“(A) in the case of an eligible entity that is a State, the entity—

“(i) has coordinated the application with the emergency communications centers located within the jurisdiction of such entity;

“(ii) has designated a single officer or governmental body to serve as the State point of contact to coordinate the implementation of Next Generation 9–1–1 for that State, except that such designation need not vest such coordinator with direct legal authority to implement Next Generation 9–1–1 or to manage emergency communications operations; and

“(iii) has developed and submitted a State plan for the coordination and implementation of Next Generation 9–1–1 that—

“(I) ensures interoperability by requiring the use of commonly accepted standards;

“(II) enables emergency communications centers to process, analyze, and store multimedia, data, and other information;

“(III) incorporates the use of effective cybersecurity resources;

“(IV) uses open and competitive request for proposal processes, or the applicable State equivalent, for deployment of Next Generation 9–1–1;

“(V) includes input from relevant emergency communications centers, regional authorities, local authorities, and Tribal authorities; and

“(VI) includes a governance body or bodies, either by creation of new or use of existing body or bodies, for the development and deployment of Next Generation 9–1–1 that—

“(aa) includes relevant stakeholders; and

“(bb) consults and coordinates with the State point of contact required by clause (ii); or

“(B) in the case of an eligible entity that is not a State, the entity has complied with clauses (i) and (iii) of subparagraph (A), and the State in which the entity is located has complied with clause (ii) of such subparagraph.

“(4) CRITERIA.—

“(A) IN GENERAL.—Not later than 9 months after the date of enactment of this section, the Assistant Secretary and the Administrator shall issue regulations, after providing the public with notice and an opportunity to comment, prescribing the criteria for selection for grants under this section.

“(B) REQUIREMENTS.—The criteria shall—

“(i) include performance requirements and a schedule for completion of any project to be financed by a grant under this section; and

“(ii) specifically permit regional or multi-State applications for funds.

“(C) UPDATES.—The Assistant Secretary and the Administrator shall update such regulations as necessary.

“(5) GRANT CERTIFICATIONS.—Each applicant for a grant under this section shall certify to the Assistant Secretary and the Administrator at the time of application, and each applicant that receives such a grant shall certify to the Assistant Secretary and the Administrator annually thereafter during any period of time the funds from the grant are available to the applicant, that—

“(A) no portion of any designated 9–1–1 charges imposed by a State or other taxing jurisdiction within which the applicant is located

are being obligated or expended for any purpose other than the purposes for which such charges are designated or presented during the period beginning 180 days immediately preceding the date on which the application was filed and continuing through the period of time during which the funds from the grant are available to the applicant;

“(B) any funds received by the applicant will be used to support deployment of Next Generation 9–1–1 that ensures interoperability by requiring the use of commonly accepted standards;

“(C) the State in which the applicant resides has established, or has committed to establish no later than 3 years following the date on which the funds are distributed to the applicant, a sustainable funding mechanism for Next Generation 9–1–1 to be deployed pursuant to the grant;

“(D) the applicant will promote interoperability between Next Generation 9–1–1 emergency communications centers and emergency response providers including users of the nationwide public safety broadband network implemented by the First Responder Network Authority;

“(E) the applicant has or will take steps to coordinate with adjoining States to establish and maintain Next Generation 9–1–1; and

“(F) the applicant has developed a plan for public outreach and education on how to best use Next Generation 9–1–1 and on its capabilities and usefulness.

“(6) CONDITION OF GRANT.—Each applicant for a grant under this section shall agree, as a condition of receipt of the grant, that if the State or other taxing jurisdiction within which the applicant is located, during any period of time during which the funds from the grant are available to the applicant, fails to comply with the certifications required under paragraph (5), all of the funds from such grant shall be returned to the Office.

“(7) PENALTY FOR PROVIDING FALSE INFORMATION.—Any applicant that provides a certification under paragraph (5) knowing that the information provided in the certification was false shall—

“(A) not be eligible to receive the grant under this subsection;

“(B) return any grant awarded under this subsection during the time that the certification was not valid; and

“(C) not be eligible to receive any subsequent grants under this subsection.

“(8) PROHIBITION.—No grant funds under this subsection may be used—

“(A) for any component of the Nationwide Public Safety Broadband Network; or

“(B) to make any payments to a person who has been, for reasons of national security, prohibited by any entity of the Federal Government from bidding on a contract, participating in an auction, or receiving a grant.

“(9) CONTRACTING REQUIREMENTS.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work carried out, in whole or in part, with a grant under this section shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this paragraph, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

“(c) FUNDING AND TERMINATION.—

“(1) IN GENERAL.—In addition to any funds authorized for grants under section 158, there is authorized to be appropriated \$12,000,000,000 for fiscal years 2021 through 2025.

“(2) ADMINISTRATIVE COSTS.—The Office may use up to 5 percent of the funds authorized under this subsection for reasonable and nec-

essary administrative costs associated with the grant program.

“(d) DEFINITIONS.—In this section:

“(1) 9–1–1 REQUEST FOR EMERGENCY ASSISTANCE.—The term ‘9–1–1 request for emergency assistance’ means a communication, such as voice, text, picture, multimedia, or any other type of data that is sent to an emergency communications center for the purpose of requesting emergency assistance.

“(2) COMMONLY ACCEPTED STANDARDS.—The term ‘commonly accepted standards’ means—

“(A) the technical standards followed by the communications industry for network, device, and Internet Protocol connectivity, including but not limited to, standards developed by the Third Generation Partnership Project (3GPP), the Institute of Electrical and Electronics Engineers (IEEE), the Alliance for Telecommunications Industry Solutions (ATIS), the Internet Engineering Taskforce (IETF), and the International Telecommunications Union (ITU); and

“(B) standards that are accredited by a recognized authority such as the American National Standards Institute (ANSI).

“(3) DESIGNATED 9–1–1 CHARGES.—The term ‘designated 9–1–1 charges’ means any taxes, fees, or other charges imposed by a State or other taxing jurisdiction that are designated or presented as dedicated to deliver or improve 9–1–1 services, E9–1–1 services, or Next Generation 9–1–1.

“(4) ELIGIBLE ENTITY.—The term ‘eligible entity’—

“(A) means a State, local government, or a tribal organization (as defined in section 4(l) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(1)));

“(B) includes public authorities, boards, commissions, and similar bodies created by one or more eligible entities described in subparagraph (A) to coordinate or provide Next Generation 9–1–1; and

“(C) does not include any entity that has failed to submit—

“(i) the certifications required under subsection (b)(5); and

“(ii) the most recently required certification under subsection (c) within 30 days after the date on which such certification is due.

“(5) EMERGENCY COMMUNICATIONS CENTER.—The term ‘emergency communications center’ means a facility that is designated to receive a 9–1–1 request for emergency assistance and perform one or more of the following functions:

“(A) Process and analyze 9–1–1 requests for emergency assistance and other gathered information.

“(B) Dispatch appropriate emergency response providers.

“(C) Transfer or exchange 9–1–1 requests for emergency assistance and other gathered information with other emergency communications centers and emergency response providers.

“(D) Analyze any communications received from emergency response providers.

“(E) Support incident command functions.

“(6) EMERGENCY RESPONSE PROVIDER.—The term ‘emergency response provider’ has the meaning given that term under section 2 of the Homeland Security Act (47 U.S.C. 101(6)), emergency response providers includes Federal, State, and local governmental and nongovernmental emergency public safety, fire, law enforcement, emergency response, emergency medical (including hospital emergency facilities), and related personnel, agencies, and authorities.

“(7) INTEROPERABLE.—The term ‘interoperable’ or ‘interoperability’ means the capability of emergency communications centers to receive 9–1–1 requests for emergency assistance and related data such as location information and callback numbers from the public, then process and share the 9–1–1 requests for emergency assistance and related data with other emergency communications centers and emergency response providers, regardless of jurisdiction, equipment,

device, software, service provider, or other relevant factors, and without the need for proprietary interfaces.

“(8) **NATIONWIDE.**—The term ‘nationwide’ means all states of the United States, the District of Columbia, Puerto Rico, American Samoa, Guam, the United States Virgin Islands, the Northern Mariana Islands, any other territory or possession of the United States, and each federally recognized Indian Tribe.

“(9) **NATIONWIDE PUBLIC SAFETY BROADBAND NETWORK.**—The term ‘nationwide public safety broadband network’ has the meaning given the term in section 6001 of the Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1401).

“(10) **NEXT GENERATION 9–1–1.**—The term Next Generation 9–1–1 means an interoperable, secure, Internet Protocol-based system that—

“(A) employs commonly accepted standards;

“(B) enables the appropriate emergency communications centers to receive, process, and analyze all types of 9–1–1 requests for emergency assistance;

“(C) acquires and integrates additional information useful to handling 9–1–1 requests for emergency assistance; and

“(D) supports sharing information related to 9–1–1 requests for emergency assistance among emergency communications centers and emergency response providers.

“(11) **OFFICE.**—The term ‘Office’ means the Next Generation 9–1–1 Implementation Coordination Office established under section 158 of this title.

“(12) **STATE.**—The term ‘State’ means any State of the United States, the District of Columbia, Puerto Rico, American Samoa, Guam, the United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession of the United States.

“(13) **SUSTAINABLE FUNDING MECHANISM.**—The term ‘sustainable funding mechanism’ means a funding mechanism that provides adequate revenues to cover ongoing expenses, including operations, maintenance, and upgrades.”.

#### SEC. 31604. SAVINGS PROVISION.

Nothing in this subtitle or any amendment made by this subtitle shall affect any application pending or grant awarded under section 158 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 942) prior to date of the enactment of this Act.

### TITLE II—MOTOR VEHICLE SAFETY

#### SEC. 32001. SAFETY WARNING FOR OCCUPANTS OF HOT CARS.

##### (a) OCCUPANT SAFETY.—

(1) **IN GENERAL.**—Chapter 301 of title 49, United States Code, is amended by inserting after section 30128 the following:

##### “§30129. Occupant safety

“(a) **DEFINITIONS.**—In this section:

“(1) **PASSENGER MOTOR VEHICLE.**—The term ‘passenger motor vehicle’ has the meaning given that term in section 32101.

“(2) **SECRETARY.**—The term ‘Secretary’ means the Secretary of Transportation.

“(b) **RULEMAKING.**—Not later than 2 years after the date of the enactment of this section, the Secretary shall issue a final rule prescribing a motor vehicle safety standard that requires all new passenger motor vehicles with a gross vehicle weight of 10,000 pounds or less to be equipped with a system to detect the presence of an occupant in the passenger compartment of the vehicle when the vehicle engine or motor is deactivated and engage a warning.

“(c) **LIMITATION ON CAPABILITY OF BEING DISABLED.**—The motor vehicle safety standard prescribed under subsection (b) shall require that the system installed in a new passenger motor vehicle cannot be disabled, overridden, reset, or recalibrated in such a way that the system will no longer detect the presence of an occupant in the passenger compartment of the vehicle when

the vehicle engine or motor is deactivated and engage a warning.

“(d) **MEANS.**—

“(1) **IN GENERAL.**—The warning required under the motor vehicle safety standard prescribed under subsection (b)—

“(A) shall include a distinct auditory and visual warning to notify individuals inside and outside of the vehicle of the presence of an occupant, which shall be combined with an interior haptic warning; and

“(B) shall be activated when the vehicle engine or motor is deactivated and the presence of an occupant is detected.

“(2) **CONSIDERATION.**—In developing such warning, the Secretary shall also consider including a secondary additional alert to notify operators that are not in close proximity to the vehicle.

“(e) **COMPLIANCE.**—The rule issued under subsection (b) shall require full compliance with the motor vehicle safety standard prescribed in the rule not later than 2 years after the date on which the final rule is issued.”.

(2) **CLERICAL AMENDMENT.**—The table of sections for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30128 the following:

“30129. Occupant safety.”.

(b) **STUDY.**—

(1) **INDEPENDENT STUDY.**—

(A) **CONTRACT.**—Not later than 90 days after issuing the final rule under section 30129(b) of title 49, United States Code, as added by subsection (a)(1), the Secretary shall enter into a contract with an independent third party to perform the services under this subparagraph.

(B) **STUDY.**—

(i) **IN GENERAL.**—Under the contract between the Secretary and an independent third party under this subparagraph, the independent third party shall carry out a study on retrofitting existing passenger motor vehicles with technology that meets the safety need addressed by the motor vehicle safety standard prescribed under such section 30129(b) of title 49, United States Code, as added by subsection (a)(1).

(ii) **ELEMENTS.**—In carrying out the study required under clause (i), the independent third party shall—

(I) survey and evaluate a variety of methods used by current and emerging technology or products to solve the problem of occupants being left unattended in vehicles and occupants independently accessing unoccupied vehicles;

(II) make recommendations for manufacturers of such technology or products to undergo a functional safety performance assessment to ensure that the products perform as designed by the manufacturer under a variety of real-world conditions; and

(III) provide recommendations for consumers on how to select such technology or products in order to retrofit existing vehicles.

(iii) **AVAILABILITY THROUGH NHTSA WEBSITE.**—The Secretary shall make the recommendations provided under clause (ii)(III) available to the public through the website of the National Highway Traffic Safety Administration.

(2) **PUBLICATION; PUBLIC COMMENT.**—Not later than 2 years after the date on which the Secretary issues the final rule under section 30129(b) of title 49, United States Code, as added by subsection (a)(1), the Secretary shall—

(A) publish the study required under paragraph (1)(B) in the Federal Register; and

(B) provide a period for public comment of not longer than 90 days after the study is published under subparagraph (A).

(3) **SUBMISSION TO CONGRESS.**—Not later than 90 days after the conclusion of the public comment period under paragraph (2)(B), the Secretary shall publish in the Federal Register and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives the study required by para-

graph (1)(B). The submission shall include all public comments in response to the study received by the Secretary upon publication in the Federal Register.

(4) **DEFINITIONS.**—In this paragraph—

(A) the term “child restraint system” has the meaning given that term in section 571.213 of title 49, Code of Federal Regulations (or any successor regulation);

(B) the term “independent third party” means a person who does not have any financial or contractual ties with any person producing or supplying equipment for occupant detection or reminder warning systems, child restraint systems, or passenger motor vehicles;

(C) the term “passenger motor vehicle” has the meaning given that term in section 32101 of title 49, United States Code; and

(D) the term “Secretary” means the Secretary of Transportation.

#### SEC. 32002. PROTECTING AMERICANS FROM THE RISKS OF KEYLESS IGNITION TECHNOLOGY.

(a) **DEFINITIONS.**—In this section—

(1) the term “electric vehicle”—

(A) means a vehicle that does not include an engine and is powered solely by an external source of electricity, solar power, or both; and

(B) does not include an electric hybrid vehicle that uses a chemical fuel such as gasoline or diesel fuel;

(2) the term “key” has the meaning given the term in section 571.114 of title 49, Code of Federal Regulations (or successor regulations);

(3) the term “manufacturer” has the meaning given the term in section 30102(a) of title 49, United States Code;

(4) the term “motor vehicle”—

(A) has the meaning given the term in section 30102(a) of title 49, United States Code; and

(B) does not include—

(i) a motorcycle or trailer (as those terms are defined in section 571.3 of title 49, Code of Federal Regulations) (or successor regulations);

(ii) any motor vehicle that is rated at more than 10,000 pounds gross vehicular weight; or

(iii) an electric vehicle.

(5) The term “Secretary” means the Secretary of Transportation.

(b) **AUTOMATIC SHUTOFF SYSTEMS FOR MOTOR VEHICLES.**—

(1) **FINAL RULE.**—

(A) **IN GENERAL.**—Not later than 2 years after the date of enactment of this section, the Secretary shall issue a final rule amending section 571.114 of title 49, Code of Federal Regulations (relating to Federal Motor Vehicle Safety Standard Number 114), to require manufacturers to install technology in each motor vehicle equipped with a keyless ignition device and an internal combustion engine to automatically shut off the motor vehicle after the motor vehicle has idled for the period designated under subparagraph (B).

(B) **PERIOD DESCRIBED.**—

(i) **IN GENERAL.**—The period referred to in subparagraph (A) is the period designated by the Administrator of the National Highway Traffic Safety Administration as necessary to prevent carbon monoxide poisoning.

(ii) **DIFFERENT PERIODS.**—The Administrator of the National Highway Traffic Safety Administration may designate different periods under clause (i) for different types of motor vehicles, depending on the rate at which the motor vehicle emits carbon monoxide, if—

(I) the Administrator determines a different period is necessary for a type of motor vehicle for purposes of section 30111 of title 49, United States Code; and

(II) requiring a different period for a type of motor vehicle is consistent with the prevention of carbon monoxide poisoning.

(2) **DEADLINE.**—The rule under paragraph (1) shall become effective not later than 2 years after the date on which the Secretary issues the rule.

(c) **PREVENTING MOTOR VEHICLES FROM ROLLING AWAY.**—

(1) **REQUIREMENT.**—Not later than 2 years after the date of enactment of this section, the Secretary shall issue a final rule amending part 571 of title 49, Code of Federal Regulations, requiring manufacturers to install technology in motor vehicles equipped with keyless ignition devices and automatic transmissions to prevent movement of the motor vehicle if—

(A) the transmission of the motor vehicle is not in the park setting;

(B) the motor vehicle does not exceed the speed determined by the Secretary under paragraph (2);

(C) the door for the operator of the motor vehicle is open;

(D) the seat belt of the operator of the motor vehicle is unbuckled; and

(E) the service brake of the motor vehicle is not engaged.

(2) **DETERMINATION.**—The Secretary shall determine the maximum speed at which a motor vehicle may be safely locked in place under the conditions described in subparagraphs (A), (C), (D), and (E) of paragraph (1) to prevent vehicle rollaways.

(3) **DEADLINE.**—The rule under paragraph (1) shall become effective not later than 2 years after the date on which the Secretary issues such rule.

#### SEC. 32003. 21ST CENTURY SMART CARS.

(a) **CRASH AVOIDANCE RULEMAKING.**—

(1) **IN GENERAL.**—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

##### “§30130. Crash avoidance rulemaking

“(a) **IN GENERAL.**—Not later than 2 years after the date of enactment of this section, the Secretary shall issue final rules prescribing Federal motor vehicle safety standards that—

“(1) establish minimum performance requirements for the crash avoidance technologies described in subsection (b); and

“(2) require all new passenger motor vehicles manufactured for sale in the United States, introduced or delivered for introduction in interstate commerce, or imported into the United States to be equipped with the crash avoidance technologies described in subsection (b).

“(b) **CRASH AVOIDANCE TECHNOLOGIES.**—The Secretary shall issue Federal motor vehicle safety standards for each of the following crash avoidance technologies—

“(1) forward collision warning and automatic emergency braking, including crash imminent braking and dynamic brake support, that detects potential collisions with a vehicle, object, pedestrian, bicyclist, and other vulnerable road user while the vehicle is traveling forward, provides a warning to the driver, and automatically applies the brakes to avoid or mitigate the severity of an impact;

“(2) rear automatic emergency braking that detects a potential collision with a vehicle, object, pedestrian, bicyclist, and other vulnerable road user while a vehicle is moving in reverse and automatically applies the brakes to avoid or mitigate the severity of an impact;

“(3) rear cross traffic warning that detects vehicles, objects, pedestrians, bicyclists, and other vulnerable road users approaching from the side and rear of a vehicle as it moves in reverse and alerts the driver;

“(4) lane departure warning that monitors a vehicle's position in its lane and alerts the driver as the vehicle approaches or crosses lane markers; and

“(5) blind spot warning that detects a vehicle, object, pedestrian, bicyclist, and other vulnerable road user to the side or rear of a vehicle and alerts the driver to their presence, including when a driver attempts to change the course of travel toward another vehicle or road user in the blind zone of the vehicle.

“(c) **CONSIDERATIONS.**—In prescribing the Federal motor vehicle safety standards required in subsection (a), the Secretary shall ensure that the crash avoidance technologies perform

effectively at speeds for which a passenger motor vehicle is reasonably expected to operate, including on city streets and highways.

“(d) **COMPLIANCE DATE.**—The compliance date of the standards prescribed under subsection (a) shall not exceed more than 2 model years from the date final rules are issued.

“(e) **HEADLAMPS.**—

“(1) Not later than 2 years after the date of enactment of this section, the Secretary shall issue a final rule that revises Federal motor vehicle safety standard 108 to—

“(A) improve illumination of the roadway;

“(B) prevent glare;

“(C) establish minimum performance standards for—

“(i) semi-automatic headlamp beam switching; and

“(ii) curve adaptive headlamps.

“(2) The compliance date of the revised standard prescribed under paragraph (1) shall not exceed more than 2 model years from the effective date.

“(3) Not later than 1 year after the date of enactment of this section, the Secretary shall finalize the Rulemaking (83 Fed. Reg. 51766) to permit the certification of adaptive driving beam headlighting systems.

“(f) **DEFINITIONS.**—In this section:

“(1) **CRASH AVOIDANCE.**—The term ‘crash avoidance’ has the meaning given that term in section 32301.

“(2) **PASSENGER MOTOR VEHICLE.**—The term ‘passenger motor vehicle’ has the meaning given to that term in section 32101.”.

(2) **CONFORMING AMENDMENT.**—The table of sections for subchapter II of chapter 301 of title 49, United States Code, is further amended by adding after the item relating to section 30129 (as added by section 32002(a)(2)) the following:

“30130. Crash avoidance rulemaking.”.

(b) **RESEARCH OF ADVANCED CRASH SYSTEMS.**—

(1) **IN GENERAL.**—Subchapter II of chapter 301 of title 49, United States Code, as amended by section(a)(1), is further amended by adding at the end the following:

##### “§30131. Advanced crash systems research and consumer education

“(a) **ADVANCED CRASH SYSTEMS RESEARCH.**—

“(1) Not later than 2 years after the date of enactment of this section, the Secretary shall complete research into the following:

“(A) Driver monitoring systems that will minimize driver disengagement, prevent automation complacency, and account for foreseeable misuse of the automation.

“(B) Lane keeping assistance that assists with steering to keep a vehicle within its driving lane.

“(C) Automatic crash data notification systems that—

“(i) notify emergency responders that a crash has occurred and provide the geographical location of the vehicle and crash data in a manner that allows for assessment of potential injuries and emergency response; and

“(ii) transfer to the Secretary anonymized automatic crash data for the purposes of safety research and statistical analysis.

“(2) **REQUIREMENTS.**—In conducting the research required under subsection (a), the Secretary shall—

“(A) develop one or more tests to evaluate the performance of the system;

“(B) determine metrics that would be most effective at evaluating the performance of the system; and

“(C) determine fail, pass, or advanced pass criteria to assure the systems are performing their intended function.

“(3) **REPORT.**—The Secretary shall submit a report detailing findings from the research required under subsection (a) to the House Energy and Commerce Committee and the Senate Commerce, Science, and Transportation Committee not later than 3 years after the date of enactment of this Act.

“(4) **RULEMAKING.**—Not later than 4 years after the date of enactment of this section, the Secretary shall issue final rules to establish Federal motor vehicle safety standards for the advanced crash systems described in this subsection and to require all new passenger motor vehicles manufactured for sale in the United States produced after the effective date of such standards to be equipped with advanced crash systems described in this subsection.

“(b) **RULEMAKING ON POINT OF SALE INFORMATION.**—Not later than 18 months after the date of enactment of this section, the Secretary shall issue a final rule to require clear and concise information about the capabilities and limitations of an advanced driver assistance system to be provided to a consumer at the point of sale and in the vehicle owner's manual, including a publicly accessible electronic owner's manual.”.

(2) **CONFORMING AMENDMENT.**—The table of section for subchapter II of chapter 301 of title 49, United States Code, is further amended by adding after the item relating to section 30129, as added by section 2(b), the following:

“30131. Advanced crash systems research and consumer education”.

#### SEC. 32004. UPDATING THE 5-STAR SAFETY RATING SYSTEM.

(a) **AMENDMENT.**—Section 32302 of title 49, United States Code, is amended by adding at the end the following:

“(e) **ROADMAP.**—

“(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this subsection and every 2 years thereafter, the Secretary shall publish a clear and concise report on a publicly accessible website detailing efforts over the next five-year period to improve the passenger motor vehicle information developed under subsection (a).

“(2) **ELEMENTS.**—The report required under paragraph (1) shall include—

“(A) descriptions of actions that will be taken to update the passenger motor vehicle information developed under subsection (a), including the development of test procedures, test devices, test fixtures, and safety performance metrics;

“(B) key milestones, including the anticipated start of an action, completion of an action, and effective date of an update; and

“(C) descriptions of how an update will improve the passenger motor vehicle information developed under subsection (a).

“(3) **REQUIREMENTS.**—In developing, implementing, and updating the report required under paragraph (1), the Secretary shall—

“(A) identify and prioritize features and systems that meet a known safety need and for which objective rating tests and evaluation criteria exists;

“(B) when reasonable and in the interest of improving the safety of passenger motor vehicles, harmonize the passenger motor vehicle information developed under subsection (a) with other safety information programs, including those administered internationally or by private organizations, that provide comparisons of safety characteristics of passenger motor vehicles;

“(C) establish objective criteria, including effectiveness in reducing traffic accidents and deaths and injuries resulting from traffic accidents, for the selection of safety technologies to be rated;

“(D) conduct a review not less frequently than once every 2 years to evaluate effectiveness of the passenger motor vehicle information produced under subsection (a) at improving the safety of passenger motor vehicles; and

“(E) adhere to all deadlines established under subsection (f).

“(4) **PUBLIC COMMENT.**—The Secretary shall provide for a period of public comment and review in developing the plan required under paragraph (1).

“(f) **IMMEDIATE UPDATES TO THE 5-STAR SAFETY RATING SYSTEM.**—

“(1) **IN GENERAL.**—Not later than 1 year after the date of enactment of this section, the Secretary shall finalize the proceeding entitled New

Car Assessment Program (80 Fed. Reg. 78521) to update the passenger motor vehicle information required under subsection (a).

“(2) CRASHWORTHINESS.—In carrying out paragraph (1), the Secretary shall—

“(A) update the test procedures and devices, including anthropomorphic test devices, used in crashworthiness tests;

“(B) establish new or refine injury criteria, including head, neck, chest, abdomen, pelvis, upper leg and lower leg injury criteria, based on real-world injuries and the greatest potential to increase safety;

“(C) establish rear seat crashworthiness tests for adult (men and women) occupants in all designated seating positions;

“(D) establish crashworthiness tests for elderly occupants in all designated seating positions;

“(E) establish crashworthiness tests for children in all rear designated seating positions and ratings;

“(F) establish crashworthiness tests for seating system performance for occupants in all designated seating positions; and

“(G) ensure that crashworthiness tests account for occupancy of all designated seating positions, as applicable.

“(3) CRASH AVOIDANCE.—In carrying out paragraph (1), the Secretary shall update and create, as applicable, crash avoidance tests, which shall include forward automatic emergency braking, lane departure warning, blind spot warning, rear cross traffic warning, and rear automatic emergency braking.

“(4) VULNERABLE ROAD USER SAFETY.—In carrying out paragraph (1), the Secretary shall—

“(A) establish crash avoidance tests to evaluate crash avoidance systems, including automatic emergency braking and rear automatic emergency braking, for crashes between a passenger motor vehicle and a pedestrian, bicyclist, or other vulnerable road user;

“(B) establish crashworthiness tests to prevent and mitigate injury and death caused by a collision between a passenger motor vehicle and a pedestrian, bicyclist, or other vulnerable road user, including the potential risks of injuries to the head, pelvis, upper, and lower leg.

“(5) ENHANCING MOTOR VEHICLE INFORMATION.—

“(A) In carrying out paragraph (1), the Secretary shall—

“(i) create a combined overall five-star vehicle rating; and

“(ii) create separate five-star ratings for—

“(I) crashworthiness for adults (women and men);

“(II) crashworthiness for elderly occupants;

“(III) crashworthiness for children;

“(IV) crash avoidance; and

“(V) pedestrian and bicyclist crashworthiness and crash avoidance.

“(B) In developing the ratings under subparagraph (A), the Secretary shall require that a vehicle can only achieve the highest rating if the systems are standard for the model.

“(C) The Secretary shall—

“(i) require manufacturers to prominently display the five-star ratings described in subparagraph (A) on Monroney labels (as required by section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232)); and

“(ii) publish the five-star safety ratings for a passenger motor vehicle on a publicly available and easily accessible (including on mobile devices) website not later than 30 days after the Secretary has provided a safety rating for a passenger motor vehicle to the manufacturer.

“(D) The ratings created under this subsection shall—

“(i) provide consumers with easy-to-understand information about vehicle safety;

“(ii) provide meaningful comparative information about the safety of vehicles; and

“(iii) provide incentives for the design of safer vehicles.

“(6) POST-CRASH SAFETY.—

“(A) Not later than 2 years after the date of enactment of this section, the Secretary shall

complete research into the development of tests for the following systems—

“(i) automatic collision notification; and

“(ii) advanced automatic collision notification.

“(B) After completion of the research required under subparagraph (A), the Secretary shall include each of the systems in the passenger motor vehicle information developed under subsection (a) not later than 3 years after the date of enactment of this section unless the Secretary determines that doing so will not improve such information.

“(C) If the Secretary determines that including one or more of the systems in subparagraph (A) will not improve the passenger motor vehicle safety information developed under subsection (a), the Secretary shall submit a report describing the reasons for not including any such system or systems to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate not later than 3 years after the date of enactment of this section. If one or more of the systems is included in another safety information program, including those administered by international or private organizations, the Secretary shall detail why the tests, or substantively similar tests, from such other safety information program were not adopted.

“(7) ADVANCED CRASH AVOIDANCE SYSTEMS.—

“(A) Not later than 2 years after the date of enactment of this section, the Secretary shall complete research into the development of tests for the following systems—

“(i) lane keeping assistance;

“(ii) traffic jam assistance;

“(iii) driver distraction prevention, including systems to maintain driver engagement and methods for mitigating distraction from in-vehicle electronic devices;

“(iv) driver monitoring; and

“(v) intelligent speed assistance.

“(B) After completion of the research required under subparagraph (A), the Secretary shall include each of the safety systems in the crash avoidance rating not later than 3 years after the date of enactment of this section unless the Secretary determines that doing so will not improve the passenger motor vehicle safety information developed under subsection (a).

“(C) If the Secretary determines that including one or more of the safety systems in the crash avoidance rating required will not improve the passenger motor vehicle safety information developed under subsection (a), the Secretary shall, not later than 3 years after the date of enactment of this section, submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, describing the reasons for not including each of the safety systems in the crash avoidance rating. If one or more of the safety systems is included in another safety information program, including those administered by international or private organizations, the Secretary shall detail why the tests, or substantively similar tests, from such other safety information program were not adopted.

“(8) ADVANCED DRUNK DRIVING PREVENTION TECHNOLOGY.—

“(A) Not later than 3 years after the date of enactment of this section, the Secretary shall complete research into the development of tests for advanced drunk driving prevention technology.

“(B) After completion of the research required under subparagraph (A), the Secretary shall include advanced drunk driving prevention technology in the crash avoidance rating not later than 5 years after the date of enactment of this section unless the Secretary determines that doing so will not improve the passenger motor vehicle safety information developed under subsection (a).

“(C) If the Secretary determines that including advanced drunk driving prevention tech-

nology in the crash avoidance rating will not improve the passenger motor vehicle safety information developed under subsection (a), the Secretary shall, not later than 4 years after the date of enactment of this section submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate describing the reasons for not including such technology in the crash avoidance rating. If advanced drunk driving prevention technology is included in another safety information program, including those administered by international or private organizations, the Secretary shall detail why the tests, or substantively similar tests, from such other safety information program were not adopted.

“(9) CONTINUOUS UPDATES.—

“(A) Not later than 2 years after completing the updates required under this subsection and every 2 years thereafter, the Secretary shall—

“(i) update the passenger motor vehicle information program developed under subsection (a) to expand consumer access to vehicles with improved safety in accordance with the roadmap required under subsection (e); and

“(ii) update a test or rating established pursuant to this section unless the Secretary makes a determination that updating the test or rating will not improve the safety of passenger motor vehicles.

“(B) If the Secretary makes a determination that a test or rating established pursuant to this section no longer improves the safety of passenger motor vehicles, the Secretary shall replace or eliminate that test or rating, only if the Secretary determines that a replacement test will not improve the safety of passenger motor vehicles. Should the Secretary make such a determination, the Secretary shall, within 30 days of making such a determination, complete and submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, providing an explanation for such a determination.

“(10) REPORTING REQUIREMENT.—Should the Secretary fail to meet a deadline set forth in this subsection, the Secretary shall complete and submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate within 30 days of such deadline, providing an explanation for why the deadline was not met and a detailed plan and projected timeline for completing the requirement.”.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of Transportation \$75,000,000 for each of fiscal years 2021 through 2026 to carry out this section and the amendments made by this section.

#### SEC. 32005. ADVANCED DRUNK DRIVING PREVENTION TECHNOLOGY.

(a) REQUIREMENTS.—

(1) MOTOR VEHICLE SAFETY STANDARD.—Not later than 18 months after the date of enactment of this section, the Secretary of Transportation shall issue an advanced notice of proposed rulemaking to initiate a rulemaking to prescribe a motor vehicle safety standard under section 30111 of title 49, United States Code, that requires passenger motor vehicles manufactured after the effective date of such standard to be equipped with advanced drunk driving prevention technology.

(2) NOTICE AND COMMENT.—Not later than 3 years after the date of enactment of this section, the Secretary of Transportation shall issue a notice of proposed rulemaking in order to continue the rulemaking proceeding required by paragraph (1).

(3) FINAL RULE.—

(A) Not later than 5 years after the date of enactment of this section, the Secretary shall prescribe a final rule containing the motor vehicle safety standard required under this subsection.

The final rule shall specify an effective date that provides at least 2 years, and no more than 3 year, to allow for manufacturing compliance.

(B) If the Secretary determines that a new motor vehicle safety standard required under this subsection cannot meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code, the Secretary shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science and Transportation of the Senate describing the reasons for not prescribing such a standard.

(b) DEVELOPMENT.—The Secretary shall work directly with manufacturers of passenger motor vehicles, suppliers, safety advocates, and other interested parties, including universities with expertise in automotive engineering, to—

(1) accelerate the development of the advanced drunk driving prevention technology required to prescribe a motor vehicle safety standard described in subsection (a); and

(2) ensure the integration of such technology into passenger motor vehicles available for sale at the earliest practicable date.

(c) DEFINITIONS.—In this section—

(1) the term “advanced drunk driving prevention technology” means a passive system which—

(A) monitors a driver’s performance to identify impairment of a driver;

(B) a system which passively detects a blood alcohol level equal to and exceeding .08 blood alcohol content; or

(C) a similar system which detects impairment and prevents or limits vehicle operation.

(2) the term “motor vehicle safety standard” has the meaning given such term in section 30102 of title 49, United States Code; and

(3) the term “passenger motor vehicle” has the meaning given such term in section 32101 of title 49, United States Code.

#### **SEC. 32006. LIMOUSINE COMPLIANCE WITH FEDERAL SAFETY STANDARDS.**

(a) LIMOUSINE STANDARDS.—

(1) SAFETY BELT AND SEATING SYSTEM STANDARDS FOR LIMOUSINES.—Not later than 2 years after the date of enactment of this section, the Secretary shall prescribe a final rule—

(A) that amends Federal Motor Vehicle Safety Standard Numbers 208, 209, and 210 to require to be installed in limousines at each designated seating position, including on side-facing seats—

(i) an occupant restraint system consisting of integrated lap shoulder belts; or

(ii) an occupant restraint system consisting of a lap belt if the occupant protection system described in clause (i) does not meet the need for motor vehicle safety; and

(B) that amends Federal Motor Vehicle Safety Standard Number 207 to require limousines to meet standards for seats (including side-facing seats), attachment assemblies, and installation to minimize the possibility of their failure by forces acting on them as a result of vehicle impact.

(2) REPORT ON RETROFIT ASSESSMENT FOR LIMOUSINES.—Not later than 2 years after the date of enactment of this section, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report that assesses the feasibility, benefits, and costs with respect to the application of any requirement established under paragraph (1) to a limousine introduced into interstate commerce before the date on which the requirement applies to a limousine.

(b) SAFETY REGULATIONS OF LIMOUSINES.—Section 30102(a)(6) of title 49, United States Code, is amended—

(1) in subparagraph (A), by striking “or” at the end;

(2) in subparagraph (B), by striking the period and inserting “; or”; and

(3) by inserting at the end the following new subparagraph:

“(C) modifying a passenger motor vehicle that has already been purchased by the first purchaser (as such term is defined in subsection (b)) by increasing the wheelbase of the vehicle so that the vehicle has increased seating capacity.”.

(c) DEFINITIONS.—In this section the following definitions apply:

(1) CERTIFIED PASSENGER MOTOR VEHICLE.—The term “certified passenger motor vehicle” means a passenger motor vehicle that has been certified in accordance with section 30115 of title 49, United States Code, to meet all applicable Federal Motor Vehicle Safety Standards.

(2) LIMOUSINE.—The term “limousine” means a motor vehicle—

(A) that has a seating capacity of 9 or more persons (including the driver);

(B) with a gross vehicle weight greater than 10,000 pounds but not greater than 26,000 pounds; and

(C) that the Secretary has decided by regulation has physical characteristics resembling a passenger car or multipurpose passenger vehicle.

(3) LIMOUSINE OPERATOR.—The term “limousine operator” means a person who owns or leases, and uses, the limousine to transport passengers for compensation.

(4) LIMOUSINE REMODELER.—The term “limousine remodeler” means a person who alters or modifies by addition, substitution, or removal of components (other than readily attachable components) an incomplete vehicle, a vehicle manufactured in two or more stages, or a certified motor vehicle before or after the first purchase of the vehicle to manufacture a limousine.

(5) MOTOR VEHICLE.—The term “motor vehicle” has the meaning given that term in section 30102(a) of title 49, United States Code.

(6) PASSENGER MOTOR VEHICLE.—The term “passenger motor vehicle” has the meaning given that term in section 32101 of title 49, United States Code.

(7) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

(d) LIMOUSINE COMPLIANCE WITH FEDERAL SAFETY STANDARDS.—

(1) IN GENERAL.—Chapter 301 of subtitle VI of title 49, United States Code, is amended by section 32003, is further amended by inserting after section 30131 the following new section:

#### **“§30132. Limousine compliance with Federal Safety Standards**

“(a) REQUIREMENT.—Not later than 1 year after the date of enactment of this section, a limousine remodeler may not offer for sale, lease, or rent, introduce or deliver for introduction into interstate commerce, or import into the United States a new limousine unless the limousine remodeler has provided a vehicle remodeler plan, in accordance with this section, to the Secretary that describes how the remodeler is addressing the safety of the limousine. A vehicle remodeler plan shall include the following:

“(1) Verification and validation of compliance with applicable Federal Motor Vehicle Safety Standards.

“(2) Design, quality control, manufacturing, and training practices adopted by a manufacturer, limousine remodeler, incomplete vehicle manufacturer, intermediate manufacturer, or final-stage manufacturer.

“(3) Customer support guidelines, including instructions for limousine occupants to wear seatbelts and limousine operators to notify occupants of the date and results of the most recent inspection of the limousine.

“(b) UPDATES.—Each manufacturer, limousine remodeler, incomplete vehicle manufacturer, intermediate manufacturer, or final-stage manufacturer shall submit an updated vehicle remodeler plan to the Secretary each year.

“(c) PUBLICLY AVAILABLE.—The Secretary shall make any vehicle remodeler plan submitted pursuant to subsection (a) or (b) publicly available not later than 60 days after the date on which the plan is received, except the Secretary

may not make publicly available any information relating to a trade secret or other confidential business information as defined in part 512 of title 49, Code of Federal Regulations.

“(d) REVIEW.—The Secretary may inspect any vehicle remodeler plan developed by a manufacturer, limousine remodeler, incomplete vehicle manufacturer, intermediate manufacturer, or final-stage manufacturer under this section to enable the Secretary to decide whether the manufacturer, limousine remodeler, incomplete vehicle manufacturer, intermediate manufacturer, or final-stage manufacturer has complied, or is complying, with this chapter or a regulation prescribed or order issued pursuant to this chapter.

“(e) RULE OF CONSTRUCTION.—Nothing in this section may be construed to affect discovery, subpoena, other court order, or any other judicial process otherwise allowed under applicable Federal or State law.

“(f) DEFINITIONS.—In this section the following definitions apply:

“(1) LIMOUSINE.—The term ‘limousine’ means a motor vehicle—

“(A) that has a seating capacity of 9 or more persons (including the driver);

“(B) with a gross vehicle weight greater than 10,000 pounds but not greater than 26,000 pounds; and

“(C) that the Secretary has decided by regulation has physical characteristics resembling a passenger car or multipurpose passenger vehicle.

“(2) LIMOUSINE REMODELER.—The term ‘limousine remodeler’ means a person who alters or modifies by addition, substitution, or removal of components (other than readily attachable components) an incomplete vehicle, a vehicle manufactured in two or more stages, or a certified motor vehicle before or after the first purchase of the vehicle to manufacture a limousine.

“(3) MOTOR VEHICLE.—The term ‘motor vehicle’ has the meaning given that term in section 32101.”.

(2) ENFORCEMENT.—Section 30165(a)(1) of title 49, United States Code, is amended by inserting “30132,” after “30127.”.

(3) CONFORMING AMENDMENT.—The table of section for subchapter II of chapter 301 of title 49, United States Code, is further amended by adding after the item relating to section 30131, as added by section 2(b), the following:

“30132. Limousine compliance with federal safety standards”.

(e) LIMOUSINE CRASHWORTHINESS.—

(1) RESEARCH.—Not later than 4 years after the date of enactment of this section, the Secretary shall complete research into the development of Federal Motor Vehicle Safety Standards for side impact protection, roof crush resistance, and air bag systems for the protection of occupants for limousines with perimeter seating positions, including perimeter seating arrangements.

(2) RULEMAKING OR REPORT.—

(A) CRASHWORTHINESS STANDARDS.—Not later than 2 years after the completion of the research required pursuant to paragraph (1), the Secretary shall prescribe final Federal Motor Vehicle Safety Standards for side impact protection, roof crush resistance, and air bag systems for the protection of occupants for limousines with alternative seating positions if the Secretary determines that such a standard or standards meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code.

(B) REPORT.—If the Secretary determines that a standard or standards described in subparagraph (A) does not meet the requirements and considerations set forth in subsections (a) and (b) of section 30111 of title 49, United States Code, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the reasons for not prescribing the standard or standards and publish the report in the Federal Register.

(f) LIMOUSINE EVACUATION.—

(1) RESEARCH.—Not later than 2 years after the date of enactment of this section, the Secretary shall complete research into safety features and standards that aid evacuation in the event that one exit in the passenger compartment of a limousine is blocked.

(2) STANDARDS.—Not later than 3 years after the date of enactment of this section, the Secretary shall issue Federal Motor Vehicle Safety Standards based on the results of the research under paragraph (1).

(g) LIMOUSINE INSPECTION DISCLOSURE.—

(1) LIMOUSINE INSPECTION DISCLOSURE.—A limousine operator may not introduce a limousine into interstate commerce unless the limousine operator has prominently disclosed in a clear and conspicuous notice, including on the website of the operator if the operator has a website, that includes—

(A) the date of the most recent inspection of the limousine required under State or Federal law;

(B) the results of the inspection; and

(C) any corrective action taken by the limousine operator to ensure the limousine passed inspection.

(2) FEDERAL TRADE COMMISSION ENFORCEMENT.—The Commission shall enforce this subsection in the same manner, by the same means, and with the same jurisdiction, powers, and duties as though all applicable terms and provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.) were incorporated into and made a part of this section. Any person who violates this subsection shall be subject to the penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(3) SAVINGS PROVISION.—Nothing in this subsection shall be construed to limit the authority of the Federal Trade Commission under any other provision of law.

(4) EFFECTIVE DATE.—This subsection shall take effect 180 days after the date of enactment of this section.

(h) EVENT DATA RECORDERS FOR LIMOUSINES.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this section, the Secretary, acting through the Administrator of the National Highway Traffic Safety Administration, shall issue a final rule requiring the use of event data recorders for limousines.

(2) PRIVACY PROTECTIONS.—Any standard promulgated under paragraph (1) pertaining to event data recorder information shall comply with the collection and sharing requirements under the FAST Act (Public Law 114-94) and any other applicable law.

### TITLE III—ENERGY AND ENVIRONMENT INFRASTRUCTURE

#### Subtitle A—Infrastructure

#### CHAPTER 1—DRINKING WATER

##### Subchapter A—PFAS Infrastructure Grant Program

#### SEC. 33101. ESTABLISHMENT OF PFAS INFRASTRUCTURE GRANT PROGRAM.

Part E of the Safe Drinking Water Act (42 U.S.C. 300j et seq.) is amended by adding at the end the following new section:

##### “SEC. 1459E. ASSISTANCE FOR COMMUNITY WATER SYSTEMS AFFECTED BY PFAS.

“(a) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this section, the Administrator shall establish a program to award grants to affected community water systems to pay for capital costs associated with the implementation of eligible treatment technologies.

“(b) APPLICATIONS.—

“(1) GUIDANCE.—Not later than 12 months after the date of enactment of this section, the Administrator shall publish guidance describing the form and timing for community water systems to apply for grants under this section.

“(2) REQUIRED INFORMATION.—The Administrator shall require a community water system applying for a grant under this section to submit—

“(A) information showing the presence of PFAS in water of the community water system; and

“(B) a certification that the treatment technology in use by the community water system at the time of application is not sufficient to remove all detectable amounts of PFAS.

“(c) LIST OF ELIGIBLE TREATMENT TECHNOLOGIES.—Not later than 150 days after the date of enactment of this section, and every two years thereafter, the Administrator shall publish a list of treatment technologies that the Administrator determines are effective at removing all detectable amounts of PFAS from drinking water.

“(d) PRIORITY FOR FUNDING.—In awarding grants under this section, the Administrator shall prioritize affected community water systems that—

“(1) serve a disadvantaged community;

“(2) will provide at least a 10 percent cost share for the cost of implementing an eligible treatment technology; or

“(3) demonstrate the capacity to maintain the eligible treatment technology to be implemented using the grant.

“(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section not more than \$500,000,000 for each of the fiscal years 2021 through 2025.

“(f) DEFINITIONS.—In this section:

“(1) AFFECTED COMMUNITY WATER SYSTEM.—The term ‘affected community water system’ means a community water system that is affected by the presence of PFAS in the water in the community water system.

“(2) DISADVANTAGED COMMUNITY.—The term ‘disadvantaged community’ has the meaning given that term in section 1452.

“(3) ELIGIBLE TREATMENT TECHNOLOGY.—The term ‘eligible treatment technology’ means a treatment technology included on the list published under subsection (c).”.

#### SEC. 33102. DEFINITION.

Section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f) is amended by adding at the end the following:

“(17) PFAS.—The term ‘PFAS’ means a perfluoroalkyl or polyfluoroalkyl substance with at least one fully fluorinated carbon atom.”.

#### Subchapter B—Extensions

#### SEC. 33103. FUNDING.

(a) STATE REVOLVING LOAN FUNDS.—Section 1452(m)(1) of the Safe Drinking Water Act (42 U.S.C. 300j-12(m)(1)) is amended—

(1) in subparagraph (B), by striking “and”;

(2) in subparagraph (C), by striking “2021.” and inserting “2021;”;

(3) by adding at the end the following:

“(D) \$4,140,000,000 for fiscal year 2022;

“(E) \$4,800,000,000 for fiscal year 2023; and

“(F) \$5,500,000,000 for each of fiscal years 2024 and 2025.”.

(b) INDIAN RESERVATION DRINKING WATER PROGRAM.—Section 2001(d) of America’s Water Infrastructure Act of 2018 (Public Law 115-270) is amended by striking “2022” and inserting “2025”.

(c) VOLUNTARY SCHOOL AND CHILD CARE PROGRAM LEAD TESTING GRANT PROGRAM.—Section 1464(d)(8) of the Safe Drinking Water Act (42 U.S.C. 300j-24(d)(8)) is amended by striking “2021” and inserting “2025”.

(d) DRINKING WATER FOUNTAIN REPLACEMENT FOR SCHOOLS.—Section 1465(d) of the Safe Drinking Water Act (42 U.S.C. 300j-25(d)) is amended by striking “2021” and inserting “2025”.

(e) TECHNICAL ASSISTANCE AND GRANTS.—Section 1433(g)(6) of the Safe Drinking Water Act (42 U.S.C. 300i-2(g)(6)) is amended by striking “2021” and inserting “2025”.

(f) GRANTS FOR STATE PROGRAMS.—Section 1443(a)(7) of the Safe Drinking Water Act (42 U.S.C. 300j-2(a)(7)) is amended by striking “2021” and inserting “2025”.

#### SEC. 33104. AMERICAN IRON AND STEEL PRODUCTION.

Section 1452(a)(4)(A) of the Safe Drinking Water Act (42 U.S.C. 300j-12(a)(4)(A)) is amended by striking “During fiscal years 2019 through 2023, funds” and inserting “Funds”.

#### CHAPTER 2—GRID SECURITY AND MODERNIZATION

#### SEC. 33111. 21ST CENTURY POWER GRID.

(a) IN GENERAL.—The Secretary of Energy shall establish a program to provide financial assistance to eligible partnerships to carry out projects related to the modernization of the electric grid, including—

(1) projects for the deployment of technologies to improve monitoring of, advanced controls for, and prediction of performance of, a distribution system; and

(2) projects related to transmission system planning and operation.

(b) ELIGIBLE PROJECTS.—Projects for which an eligible partnership may receive financial assistance under subsection (a)—

(1) shall be designed to improve the resiliency, performance, or efficiency of the electric grid, while ensuring the continued provision of safe, secure, reliable, and affordable power;

(2) may be designed to deploy a new product or technology that could be used by customers of an electric utility; and

(3) shall demonstrate—

(A) secure integration and management of energy resources, including through distributed energy generation, combined heat and power, microgrids, energy storage, electric vehicles, energy efficiency, demand response, or controllable loads; or

(B) secure integration and interoperability of communications and information technologies related to the electric grid.

(c) CYBERSECURITY PLAN.—Each project carried out with financial assistance provided under subsection (a) shall include the development of a cybersecurity plan written in accordance with guidelines developed by the Secretary of Energy.

(d) PRIVACY EFFECTS ANALYSIS.—Each project carried out with financial assistance provided under subsection (a) shall include a privacy effects analysis that evaluates the project in accordance with the Voluntary Code of Conduct of the Department of Energy, commonly known as the “DataGuard Energy Data Privacy Program”, or the most recent revisions to the privacy program of the Department.

(e) DEFINITIONS.—In this section:

(1) ELIGIBLE PARTNERSHIP.—The term “eligible partnership” means a partnership consisting of two or more entities, which—

(A) may include—

(i) any institution of higher education;

(ii) a National Laboratory;

(iii) a State or a local government or other public body created by or pursuant to State law;

(iv) an Indian Tribe;

(v) a Federal power marketing administration;

or

(vi) an entity that develops and provides technology; and

(B) shall include at least one of any of—

(i) an electric utility;

(ii) a Regional Transmission Organization; or

(iii) an Independent System Operator.

(2) ELECTRIC UTILITY.—The term “electric utility” has the meaning given that term in section 3(22) of the Federal Power Act (16 U.S.C. 796(22)), except that such term does not include an entity described in subparagraph (B) of such section.

(3) FEDERAL POWER MARKETING ADMINISTRATION.—The term “Federal power marketing administration” means the Bonneville Power Administration, the Southeastern Power Administration, the Southwestern Power Administration, or the Western Area Power Administration.

(4) **INDEPENDENT SYSTEM OPERATOR; REGIONAL TRANSMISSION ORGANIZATION.**—The terms “Independent System Operator” and “Regional Transmission Organization” have the meanings given those terms in section 3 of the Federal Power Act (16 U.S.C. 796).

(5) **INSTITUTION OF HIGHER EDUCATION.**—The term “institution of higher education” has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary of Energy to carry out this section \$700,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

#### **SEC. 33112. ENERGY EFFICIENT TRANSFORMER REBATE PROGRAM.**

(a) **DEFINITIONS.**—In this section:

(1) **QUALIFIED ENERGY EFFICIENT TRANSFORMER.**—The term “qualified energy efficient transformer” means a transformer that meets or exceeds the applicable energy conservation standards described in the tables in subsection (b)(2) and paragraphs (1) and (2) of subsection (c) of section 431.196 of title 10, Code of Federal Regulations (as in effect on the date of enactment of this Act).

(2) **QUALIFIED ENERGY INEFFICIENT TRANSFORMER.**—The term “qualified energy inefficient transformer” means a transformer with an equal number of phases and capacity to a transformer described in any of the tables in subsection (b)(2) and paragraphs (1) and (2) of subsection (c) of section 431.196 of title 10, Code of Federal Regulations (as in effect on the date of enactment of this Act) that—

(A) does not meet or exceed the applicable energy conservation standards described in paragraph (1); and

(B)(i) was manufactured between January 1, 1985, and December 31, 2006, for a transformer with an equal number of phases and capacity as a transformer described in the table in subsection (b)(2) of section 431.196 of title 10, Code of Federal Regulations (as in effect on the date of enactment of this Act); or

(ii) was manufactured between January 1, 1990, and December 31, 2009, for a transformer with an equal number of phases and capacity as a transformer described in the table in paragraph (1) or (2) of subsection (c) of that section (as in effect on the date of enactment of this Act).

(3) **QUALIFIED ENTITY.**—The term “qualified entity” means an owner of industrial or manufacturing facilities, commercial buildings, or multifamily residential buildings, a utility, or an energy service company, that fulfills the requirements of subsection (c).

(b) **ESTABLISHMENT.**—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy shall establish a program to provide rebates to qualified entities for expenditures made by the qualified entity for the replacement of a qualified energy inefficient transformer with a qualified energy efficient transformer.

(c) **REQUIREMENTS.**—To be eligible to receive a rebate under this section, an entity shall submit to the Secretary of Energy an application in such form, at such time, and containing such information as the Secretary may require, including demonstrated evidence—

(1) that the entity purchased a qualified energy efficient transformer;

(2) of the core loss value of the qualified energy efficient transformer;

(3) of the age of the qualified energy inefficient transformer being replaced;

(4) of the core loss value of the qualified energy inefficient transformer being replaced—

(A) as measured by a qualified professional or verified by the equipment manufacturer, as applicable; or

(B) for transformers described in subsection (a)(2)(B)(i), as selected from a table of default values as determined by the Secretary in consultation with applicable industry; and

(5) that the qualified energy inefficient transformer has been permanently decommissioned and scrapped.

(d) **AUTHORIZED AMOUNT OF REBATE.**—The amount of a rebate provided under this section shall be—

(1) for a 3-phase or single-phase transformer with a capacity of not less than 10 and not greater than 2,500 kilovolt-amperes, twice the amount equal to the difference in watts between the core loss value (as measured in accordance with paragraphs (2) and (4) of subsection (c)) of—

(A) the qualified energy inefficient transformer; and

(B) the qualified energy efficient transformer; or

(2) for a transformer described in subsection (a)(2)(B)(i), the amount determined using a table of default rebate values by rated transformer output, as measured in kilovolt-amperes, as determined by the Secretary in consultation with applicable industry.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$10,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

#### **SEC. 33113. INTERREGIONAL TRANSMISSION PLANNING REPORT.**

Not later than 6 months after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a report that—

(1) examines the effectiveness of interregional transmission planning processes for identifying transmission projects across regions that provide economic, reliability, or operational benefits, taking into consideration the public interest, the integrity of markets, and the protection of consumers;

(2) evaluates the current architecture of regional electricity grids (including international transmission connections of such grids) that together comprise the Nation’s electricity grid, with respect to—

(A) potential growth in renewable energy generation, including energy generation from offshore wind;

(B) potential growth in electricity demand; and

(C) retirement of existing electricity generation assets;

(3) analyzes—

(A) the range of benefits that interregional transmission provides;

(B) the impact of basing transmission project approvals on a comprehensive assessment of the multiple benefits provided;

(C) synchronization of processes described in paragraph (1) among neighboring regions;

(D) how often interregional transmission planning should be completed;

(E) whether voltage, size, or cost requirements should be a factor in the approval of interregional transmission projects;

(F) cost allocation methodologies for interregional transmission projects; and

(G) current barriers and challenges to construction of interregional transmission projects; and

(4) identifies potential changes, based on the analysis under paragraph (3), to the processes described in paragraph (1) to ensure the most efficient, cost effective, and broadly beneficial transmission projects are selected for construction.

#### **SEC. 33114. PROMOTING GRID STORAGE.**

(a) **DEFINITIONS.**—In this section:

(1) **ENERGY STORAGE SYSTEM.**—The term “energy storage system” means equipment or facilities relating to the electric grid that are capable of absorbing and converting energy, as applicable, storing the energy for a period of time, and dispatching the energy, that—

(A) use mechanical, electrochemical, biochemical, or thermal processes, to convert and store energy that was generated at an earlier time for use at a later time;

(B) use mechanical, electrochemical, biochemical, or thermal processes to convert and store energy generated from mechanical processes that would otherwise be wasted for delivery at a later time; or

(C) convert and store energy in an electric, thermal, or gaseous state for direct use for heating or cooling at a later time in a manner that avoids the need to use electricity or other fuel sources at that later time, as is offered by grid-enabled water heaters.

(2) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) a State, territory, or possession of the United States;

(B) a State energy office (as defined in section 124(a) of the Energy Policy Act of 2005 (42 U.S.C. 15821(a)));;

(C) a tribal organization (as defined in section 3765 of title 38, United States Code);

(D) an institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001));

(E) an electric utility, including—

(i) a rural electric cooperative;

(ii) a political subdivision of a State, such as a municipally owned electric utility, or any agency, authority, corporation, or instrumentality of one or more State political subdivisions; and

(iii) an investor-owned utility; and

(F) a private energy storage company that is a small business concern (as defined in section 3 of the Small Business Act (15 U.S.C. 632)).

(3) **ISLAND MODE.**—The term “island mode” means a mode in which a distributed generator or energy storage system continues to power a location in the absence of electric power from the primary source.

(4) **MICROGRID.**—The term “microgrid” means an integrated energy system consisting of interconnected loads and distributed energy resources, including generators and energy storage systems, within clearly defined electrical boundaries that—

(A) acts as a single controllable entity with respect to the electric grid; and

(B) can connect to, and disconnect from, the electric grid to operate in both grid-connected mode and island mode.

(5) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(b) **ENERGY STORAGE RESEARCH PROGRAM.**—

(1) **IN GENERAL.**—The Secretary shall establish a cross-cutting national program within the Department of Energy for the research of energy storage systems, including components and materials of such systems.

(2) **ADDITIONAL REQUIREMENTS.**—In establishing the program under paragraph (1), the Secretary shall—

(A) identify and coordinate across all relevant program offices throughout the Department of Energy key areas of existing and future research with respect to a portfolio of technologies and approaches; and

(B) adopt long-term cost, performance, and implementation targets for specific applications of energy storage systems.

(c) **TECHNICAL ASSISTANCE AND GRANT PROGRAM.**—

(1) **ESTABLISHMENT.**—

(A) **IN GENERAL.**—The Secretary shall establish a technical assistance and grant program (referred to in this subsection as the “program”)—

(i) to disseminate information and provide technical assistance directly to eligible entities so the eligible entities can identify, evaluate, plan, design, and develop processes to procure energy storage systems; and

(ii) to make grants to eligible entities so that the eligible entities may contract to obtain technical assistance to identify, evaluate, plan, design, and develop processes to procure energy storage systems.

(B) **TECHNICAL ASSISTANCE.**—

(i) *IN GENERAL.*—The technical assistance described in subparagraph (A) shall include assistance with one or more of the following activities relating to energy storage systems:

(I) Identification of opportunities to use energy storage systems.

(II) Assessment of technical and economic characteristics.

(III) Utility interconnection.

(IV) Permitting and siting issues.

(V) Business planning and financial analysis.

(VI) Engineering design.

(ii) *EXCLUSION.*—The technical assistance described in subparagraph (A) shall not include assistance relating to modification of Federal, State, or local regulations or policies relating to energy storage systems.

(C) *INFORMATION DISSEMINATION.*—The information dissemination under subparagraph (A)(i) shall include dissemination of—

(i) information relating to the topics described in subparagraph (B), including case studies of successful examples;

(ii) computer software for assessment, design, and operation and maintenance of energy storage systems; and

(iii) public databases that track the operation of existing and planned energy storage systems.

(2) *APPLICATIONS.*—

(A) *IN GENERAL.*—An eligible entity desiring technical assistance or grants under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(B) *APPLICATION PROCESS.*—The Secretary shall seek applications for technical assistance and grants under the program—

(i) on a competitive basis; and

(ii) on a periodic basis, but not less frequently than once every 12 months.

(C) *PRIORITIES.*—In selecting eligible entities for technical assistance and grants under the program, the Secretary shall give priority to eligible entities with projects that have the greatest potential for—

(i) strengthening the reliability of energy infrastructure and the resilience of energy infrastructure to the effects of extreme weather events, power grid failures, and interruptions in supply of fossil fuels;

(ii) reducing the cost of energy storage systems;

(iii) facilitating the use of renewable energy resources;

(iv) minimizing environmental impact, including regulated air pollutants and greenhouse gas emissions;

(v) improving the feasibility of microgrids or islanding, particularly in rural areas, including rural areas with high energy costs; and

(vi) maximizing local job creation.

(3) *GRANTS.*—On application by an eligible entity, the Secretary may award grants to the eligible entity to provide funds to cover not more than—

(A) 100 percent of the costs of carrying out an initial assessment to identify net system benefits of using energy storage systems;

(B) 75 percent of the cost of obtaining guidance relating to methods to assess energy storage in long-term resource planning and resource procurement;

(C) 60 percent of the cost of carrying out studies to assess the cost-benefit ratio of energy storage systems; and

(D) 50 percent of the cost of obtaining guidance on complying with State and local regulatory technical standards, including siting and permitting standards.

(4) *RULES AND PROCEDURES.*—

(A) *RULES.*—Not later than 180 days after the date of enactment of this Act, the Secretary shall, by rule, establish procedures for carrying out the program.

(B) *GRANTS.*—Not later than 120 days after the date on which the Secretary establishes procedures for the program under subparagraph

(A), the Secretary shall issue grants under this subsection.

(5) *REPORTS.*—The Secretary shall submit to Congress and make available to the public—

(A) not less frequently than once every 2 years, a report describing the performance of the program under this subsection, including a synthesis and analysis of any information the Secretary requires grant recipients to provide to the Secretary as a condition of receiving a grant; and

(B) on termination of the program under this subsection, an assessment of the success of, and education provided by, the measures carried out by eligible entities under the program.

(d) *DEPARTMENT OF ENERGY WORKSHOPS.*—The Secretary shall hold one or more workshops during each of calendar years 2021 and 2023 to facilitate the sharing, across the Department of Energy, the States, local and Tribal governments, industry, and the academic research community, of research developments and new technical knowledge gained in carrying out subsections (b) and (c).

(e) *ENERGY STORAGE SYSTEM DEMONSTRATION PROGRAM.*—

(1) *ENERGY STORAGE GRANT PROGRAM.*—

(A) *ESTABLISHMENT.*—The Secretary shall establish a competitive grant program for pilot energy storage systems, as identified by the Secretary, that use either—

(i) a single system; or

(ii) aggregations of multiple systems.

(B) *SELECTION REQUIREMENTS.*—In selecting eligible entities to receive a grant under this subsection, the Secretary shall, to the maximum extent practicable—

(i) ensure regional diversity among eligible entities that receive the grants, including participation by rural States and small States;

(ii) ensure that specific projects selected for grants—

(I) expand on the existing technology demonstration programs of the Department of Energy; and

(II) are designed to achieve one or more of the objectives described in subparagraph (C);

(iii) prioritize projects from eligible entities that do not have an energy storage system;

(iv) give consideration to proposals from eligible entities for securing energy storage through competitive procurement or contracts for service;

(v) prioritize projects that coordinate with the local incumbent electric utility for in-front-of-the-meter projects that do not formally involve an electric utility; and

(vi) prioritize projects that leverage matching funds from non-Federal sources.

(C) *OBJECTIVES.*—Each demonstration project selected for a grant under subparagraph (A) shall include one or more of the following objectives:

(i) To improve the security and resiliency of critical infrastructure and emergency response systems.

(ii) To improve the reliability of the electricity transmission and distribution system, particularly in rural areas, including rural areas with high energy costs.

(iii) To optimize electricity transmission or distribution system operation and power quality to defer or avoid costs of replacing or upgrading electric grid infrastructure, including transformers and substations.

(iv) To supply energy at peak periods of demand on the electric grid or during periods of significant variation of electric grid supply.

(v) To reduce peak residential and commercial loads, particularly to defer or avoid investments in new electric grid capacity.

(vi) To advance power conversion systems to make the systems internet-connected, more efficient, able to communicate with other inverters, and able to control voltage.

(vii) To provide ancillary services for grid stability and management.

(viii) To integrate a renewable energy resource production source into the grid at the source or away from the source.

(ix) To increase the feasibility of microgrids or islanding.

(x) To enable the use of stored energy in forms other than electricity to support the natural gas system and other industrial processes.

(D) *RESTRICTION ON USE OF FUNDS.*—Any eligible entity that receives a grant under subparagraph (A) may only use the grant to fund programs relating to the demonstration of energy storage systems connected to the electric grid, including energy storage systems sited behind a customer revenue meter.

(E) *FUNDING LIMITATIONS.*—

(i) *FEDERAL COST SHARE.*—The Federal cost share of a project carried out with a grant under subparagraph (A) shall be not more than 50 percent of the total costs incurred in connection with the development, construction, acquisition of components for, or engineering of a demonstration project.

(ii) *MAXIMUM GRANT.*—The maximum amount of a grant awarded under subparagraph (A) shall be \$5,000,000.

(F) *NO PROJECT OWNERSHIP INTEREST.*—The United States shall hold no equity or other ownership interest in an energy storage system for which a grant is provided under subparagraph (A).

(G) *COMPARABLE WAGE RATES.*—Each laborer and mechanic employed by a contractor or subcontractor in performance of construction work financed, in whole or in part, by the grant shall be paid wages at rates not less than the rates prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code.

(2) *RULES AND PROCEDURES; AWARDING OF GRANTS.*—

(A) *RULES AND PROCEDURES.*—Not later than 180 days after the date of enactment of this Act, the Secretary shall, by rule, establish procedures for carrying out the grant program under paragraph (1).

(B) *AWARDING OF GRANTS.*—Not later than 1 year after the date on which the Secretary establishes procedures under subparagraph (A), the Secretary shall award the initial grants provided under this subsection.

(3) *REPORTS.*—The Secretary shall submit to Congress and make publicly available—

(A) not less frequently than once every 2 years for the duration of the grant program under paragraph (1), a report describing the performance of the grant program, including a synthesis and analysis of any information the Secretary requires grant recipients to provide to the Secretary as a condition of receiving a grant; and

(B) on termination of the grant program under paragraph (1), an assessment of the success of, and education provided by, the measures carried out by grant recipients under the grant program.

(f) *AUTHORIZATION OF APPROPRIATIONS.*—There are authorized to be appropriated—

(1) for each of fiscal years 2021 through 2025, \$175,000,000 to carry out subsection (b);

(2) for the period of fiscal years 2021 through 2025, \$100,000,000 to carry out subsection (c), to remain available until expended; and

(3) for the period of fiscal years 2021 through 2025, \$150,000,000 to carry out subsection (e), to remain available until expended.

## SEC. 33115. EXPANDING ACCESS TO SUSTAINABLE ENERGY.

(a) *DEFINITIONS.*—In this section:

(1) *ELIGIBLE ENTITY.*—The term “eligible entity” means—

(A) a rural electric cooperative; or

(B) a nonprofit organization working with at least 6 or more rural electric cooperatives.

(2) *ENERGY STORAGE.*—The term “energy storage” means the use of equipment or facilities relating to the electric grid that are capable of absorbing and converting energy, as applicable, storing the energy for a period of time, and dispatching the energy, that—

(A) use mechanical, electrochemical, biochemical, or thermal processes, to convert and store energy that was generated at an earlier time for use at a later time;

(B) use mechanical, electrochemical, biochemical, or thermal processes to convert and store energy generated from mechanical processes that would otherwise be wasted for delivery at a later time; or

(C) convert and store energy in an electric, thermal, or gaseous state for direct use for heating or cooling at a later time in a manner that avoids the need to use electricity or other fuel sources at that later time, as is offered by grid-enabled water heaters.

(3) **ISLAND.**—The term “island mode” means a mode in which a distributed generator or energy storage device continues to power a location in the absence of electric power from the primary source.

(4) **MICROGRID.**—The term “microgrid” means an interconnected system of loads and distributed energy resources, including generators and energy storage devices, within clearly defined electrical boundaries that—

(A) acts as a single controllable entity with respect to the electric grid; and

(B) can connect to, and disconnect from, the electric grid to operate in both grid-connected mode and island mode.

(5) **RENEWABLE ENERGY SOURCE.**—The term “renewable energy source” has the meaning given the term in section 609(a) of the Public Utility Regulatory Policies Act of 1978 (7 U.S.C. 918c(a)).

(6) **RURAL ELECTRIC COOPERATIVE.**—The term “rural electric cooperative” means an electric cooperative (as defined in section 3 of the Federal Power Act (16 U.S.C. 796)) that sells electric energy to persons in rural areas.

(7) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(b) **ENERGY STORAGE AND MICROGRID ASSISTANCE PROGRAM.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall establish a program under which the Secretary shall—

(A) provide grants to eligible entities under paragraph (3);

(B) provide technical assistance to eligible entities under paragraph (4); and

(C) disseminate information to eligible entities on—

(i) the activities described in paragraphs (3)(A) and (4); and

(ii) potential and existing energy storage and microgrid projects.

(2) **COOPERATIVE AGREEMENT.**—The Secretary may enter into a cooperative agreement with an eligible entity to carry out paragraph (1).

(3) **GRANTS.**—

(A) **IN GENERAL.**—The Secretary shall award grants to eligible entities for identifying, evaluating, designing, and demonstrating energy storage and microgrid projects that utilize energy from renewable energy sources.

(B) **APPLICATION.**—To be eligible to receive a grant under subparagraph (A), an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(C) **USE OF GRANT.**—An eligible entity that receives a grant under subparagraph (A)—

(i) shall use the grant—

(I) to conduct feasibility studies to assess the potential for implementation or improvement of energy storage or microgrid projects;

(II) to analyze and implement strategies to overcome barriers to energy storage or microgrid project implementation, including financial, contracting, siting, and permitting barriers;

(III) to conduct detailed engineering of energy storage or microgrid projects;

(IV) to perform a cost-benefit analysis with respect to an energy storage or microgrid project;

(V) to plan for both the short- and long-term inclusion of energy storage or microgrid projects

into the future development plans of the eligible entity; or

(VI) to purchase and install necessary equipment, materials, and supplies for demonstration of emerging technologies; and

(ii) may use the grant to obtain technical assistance from experts in carrying out the activities described in clause (i).

(D) **CONDITION.**—As a condition of receiving a grant under subparagraph (A), an eligible entity shall—

(i) implement a public awareness campaign, in coordination with the Secretary, about the project implemented under the grant in the community in which the eligible entity is located;

(ii) submit to the Secretary, and make available to the public, a report that describes—

(I) any energy cost savings and environmental benefits achieved under the project; and

(II) the results of the project, including quantitative assessments to the extent practicable, associated with each activity described in subparagraph (C)(i); and

(iii) create and disseminate tools and resources that will benefit other rural electric cooperatives, which may include cost calculators, guidebooks, handbooks, templates, and training courses.

(E) **COST-SHARE.**—Activities under this paragraph shall be subject to the cost-sharing requirements of section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352).

(4) **TECHNICAL ASSISTANCE.**—

(A) **IN GENERAL.**—In carrying out the program established under paragraph (1), the Secretary shall provide eligible entities with technical assistance relating to—

(i) identifying opportunities for energy storage and microgrid projects;

(ii) understanding the technical and economic characteristics of energy storage or microgrid projects;

(iii) understanding financing alternatives;

(iv) permitting and siting issues;

(v) obtaining case studies of similar and successful energy storage or microgrid projects;

(vi) reviewing and obtaining computer software for assessment, design, and operation and maintenance of energy storage or microgrid systems; and

(vii) understanding and utilizing the reliability and resiliency benefits of energy storage and microgrid projects.

(B) **EXTERNAL CONTRACTS.**—In carrying out subparagraph (A), the Secretary may enter into contracts with third-party experts, including engineering, finance, and insurance experts, to provide technical assistance to eligible entities relating to the activities described in such subparagraph, or other relevant activities, as determined by the Secretary.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—There is authorized to be appropriated to carry out this section \$5,000,000 for each of fiscal years 2021 through 2025.

(2) **ADMINISTRATIVE COSTS.**—Not more than 5 percent of the amount appropriated under paragraph (1) for each fiscal year shall be used for administrative expenses.

## **SEC. 33116. INTERREGIONAL TRANSMISSION PLANNING RULEMAKING.**

(a) **IN GENERAL.**—Not later than 6 months after the date of the enactment of this section, the Federal Energy Regulatory Commission (hereinafter referred to as “the Commission”) shall initiate a rulemaking to increase the effectiveness of the interregional transmission planning process.

(b) **ASSESSMENT.**—In conducting the rulemaking under subsection (a), the Commission shall assess—

(1) the effectiveness of interregional transmission planning processes for identifying transmission planning solutions that provide economic, reliability, operation, and public policy benefits, taking into consideration—

(A) the public interest;

(B) the integrity of markets; and

(C) the protection of consumers; and

(2) proposed changes to the processes described in paragraph (1) to ensure that efficient, cost-effective, and broadly beneficial transmission solutions are selected for construction, taking into consideration—

(A) the public interest;

(B) the integrity of markets;

(C) the protection of consumers; and

(D) the range of benefits that interregional transmission provides.

(c) **EMPHASIS.**—In conducting the rulemaking under subsection (a), the Commission shall develop rules that emphasize—

(1) the need for a solution to secure approval based on a comprehensive assessment of the multiple benefits the solution is expected to provide;

(2) that interregional benefit analyses made between multiple regions should not be subject to reassessment by a single regional entity;

(3) the importance of synchronizing the planning processes between regions that neighbor one another, including using one timeline with a single set of needs, input assumptions, and benefit metrics;

(4) that evaluation of long-term scenarios should align with the expected life of an interregional transmission solution;

(5) that transmission planning authorities should allow for the identification and joint evaluation between regions of alternative proposals;

(6) that the interregional transmission planning process should take place not less frequently than once every 3 years;

(7) the elimination of arbitrary voltage, size, or cost requirements for an interregional transmission solution; and

(8) cost allocation methodologies that reflect the multiple benefits provided by an interregional transmission solution.

(d) **TIMING.**—Not later than 18 months after the date of the enactment of this section, the Commission shall complete the rulemaking initiated under subsection (a).

(e) **DEFINITIONS.**—In this section:

(1) **INTERREGIONAL BENEFIT ANALYSIS.**—The term “interregional benefit analysis” means the identification and evaluation of the estimated benefits of interregional transmission facilities in two or more neighboring transmission planning regions to meet the needs for transmission system reliability, resilience, economic, and public policy requirements.

(2) **INTERREGIONAL TRANSMISSION PLANNING PROCESS.**—The term “interregional transmission planning process” means an evaluation of transmission needs established by public utility transmission providers in two or more neighboring transmission planning regions that are jointly evaluated by those regions.

(3) **INTERREGIONAL TRANSMISSION SOLUTION.**—The term “interregional transmission solution” means an interregional transmission facility that is evaluated by two or more neighboring transmission planning regions and determined by each of those regions for the ability of the project to efficiently or cost effectively meet regional transmission needs or to provide substantial benefits that are not addressed in either of the region’s regional planning processes.

(4) **TRANSMISSION PLANNING AUTHORITY.**—The term “transmission planning authority” means the public utility transmission provider within a transmission planning region that is required to create a regional transmission plan that identifies transmission facilities and nontransmission alternatives needed to meet regional needs.

(5) **TRANSMISSION PLANNING REGIONS.**—The term “transmission planning regions” means the transmission planning regions recognized by the Commission as compliant with the final rule entitled “Transmission Planning and Cost Allocation by Transmission Owning and Operating Public Utilities” located at part 35 of title 18, Code of Federal Regulations (or any successor regulation).

### CHAPTER 3—CONTROLLING METHANE LEAKS FROM PIPELINES

#### SEC. 33121. IMPROVING THE NATURAL GAS DISTRIBUTION SYSTEM.

(a) **PROGRAM.**—The Secretary of Energy shall establish a grant program to provide financial assistance to States to offset the incremental rate increases paid by low-income households resulting from the implementation of State-approved infrastructure replacement, repair, and maintenance programs designed to accelerate the necessary replacement, repair, or maintenance of natural gas distribution systems.

(b) **DATE OF ELIGIBILITY.**—Awards may be provided under this section to offset rate increases described in subsection (a) occurring on or after the date of enactment of this Act.

(c) **PRIORITIZATION.**—The Secretary shall collaborate with States to prioritize the distribution of grants made under this section. At a minimum, the Secretary shall consider prioritizing the distribution of grants to States which have—

(1) authorized or adopted enhanced infrastructure replacement programs or innovative rate recovery mechanisms, such as infrastructure cost trackers and riders, infrastructure base rate surcharges, deferred regulatory asset programs, and earnings stability mechanisms; and

(2) a viable means for delivering financial assistance to low-income households.

(d) **AUDITING AND REPORTING REQUIREMENTS.**—The Secretary shall establish auditing and reporting requirements for States with respect to the performance of eligible projects funded pursuant to grants awarded under this section.

(e) **PREVAILING WAGES.**—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration, or repair work assisted, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40. With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40.

(f) **DEFINITIONS.**—In this section:

(1) **INNOVATIVE RATE RECOVERY MECHANISMS.**—The term “innovative rate recovery mechanisms” means rate structures that allow State public utility commissions to modify tariffs and recover costs of investments in utility replacement incurred between rate cases.

(2) **LOW-INCOME HOUSEHOLD.**—The term “low-income household” means a household that is eligible to receive payments under section 2605(b)(2) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8624(b)(2)).

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary \$250,000,000 to carry out this section in each fiscal year beginning in fiscal year 2021 and ending in fiscal year 2025.

### CHAPTER 4—RENEWABLE ENERGY

#### SEC. 33131. GRANT PROGRAM FOR SOLAR INSTALLATIONS LOCATED IN, OR THAT SERVE, LOW-INCOME AND UNDERSERVED AREAS.

(a) **DEFINITIONS.**—In this section:

(1) **BENEFICIARY.**—The term “beneficiary” means a low-income household or a low-income household in an underserved area.

(2) **COMMUNITY SOLAR FACILITY.**—The term “community solar facility” means a solar generating facility that—

(A) through a voluntary program, has multiple subscribers that receive financial benefits that are directly attributable to the facility;

(B) has a nameplate rating of 5 megawatts AC or less; and

(C) is located in the utility distribution service territory of subscribers.

(3) **COMMUNITY SOLAR SUBSCRIPTION.**—The term “community solar subscription” means a

share in the capacity, or a proportional interest in the electricity generation, of a community solar facility.

(4) **COVERED FACILITY.**—The term “covered facility” means—

(A) a community solar facility—

(i) that is located in an underserved area; or

(ii) at least 50 percent of the capacity of which is reserved for low-income households;

(B) a solar generating facility located at a residence of a low-income household; or

(C) a solar generating facility located at a multi-family affordable housing complex.

(5) **COVERED STATE.**—The term “covered State” means a State with processes in place to ensure that covered facilities deliver financial benefits to low-income households.

(6) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) a nonprofit organization that provides services to low-income households or multi-family affordable housing complexes;

(B) a developer, owner, or operator of a community solar facility that reserves a portion of the capacity of the facility for subscribers who are members of low-income households or for low-income households that otherwise financially benefit from the facility;

(C) a covered State, or political subdivision thereof;

(D) an Indian Tribe or a tribally owned electric utility;

(E) a Native Hawaiian community-based organization;

(F) any other national or regional entity that has experience developing or installing solar generating facilities for low-income households that maximize financial benefits to those households; and

(G) an electric cooperative or municipal electric utility (as such terms are defined in section 3 of the Federal Power Act).

(7) **ELIGIBLE INSTALLATION PROJECT.**—The term “eligible installation project” means a project to install a covered facility in a covered State.

(8) **ELIGIBLE PLANNING PROJECT.**—The term “eligible planning project” means a project to carry out pre-installation activities for the development of a covered facility in a covered State.

(9) **ELIGIBLE PROJECT.**—The term “eligible project” means—

(A) an eligible planning project; or

(B) an eligible installation project.

(10) **FEASIBILITY STUDY.**—The term “feasibility study” means any activity to determine the feasibility of a specific solar generating facility, including a customer interest assessment and a siting assessment, as determined by the Secretary.

(11) **INDIAN TRIBE.**—The term “Indian Tribe” means any Indian Tribe, band, nation, or other organized group or community, including any Alaska Native village, Regional Corporation, or Village Corporation (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(12) **INTERCONNECTION SERVICE.**—The term “interconnection service” has the meaning given such term in section 111(d)(15) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)(15)).

(13) **LOW-INCOME HOUSEHOLD.**—The term “low-income household” means that income in relation to family size which—

(A) is at or below 200 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget, except that the Secretary may establish a higher level if the Secretary determines that such a higher level is necessary to carry out the purposes of this section;

(B) is the basis on which cash assistance payments have been paid during the preceding 12-

month period under titles IV and XVI of the Social Security Act (42 U.S.C. 601 et seq., 1381 et seq.) or applicable State or local law; or

(C) if a State elects, is the basis for eligibility for assistance under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621 et seq.), provided that such basis is at least 200 percent of the poverty level determined in accordance with criteria established by the Director of the Office of Management and Budget.

(14) **MULTI-FAMILY AFFORDABLE HOUSING COMPLEX.**—The term “multi-family affordable housing complex” means any federally subsidized affordable housing complex in which at least 50 percent of the units are reserved for low-income households.

(15) **NATIVE HAWAIIAN COMMUNITY-BASED ORGANIZATION.**—The term “Native Hawaiian community-based organization” means any organization that is composed primarily of Native Hawaiians from a specific community and that assists in the social, cultural, and educational development of Native Hawaiians in that community.

(16) **PROGRAM.**—The term “program” means the program established under subsection (b).

(17) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(18) **SOLAR GENERATING FACILITY.**—The term “solar generating facility” means—

(A) a generator that creates electricity from light photons; and

(B) the accompanying hardware enabling that electricity to flow—

(i) onto the electric grid;

(ii) into a facility or structure; or

(iii) into an energy storage device.

(19) **STATE.**—The term “State” means each of the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the Virgin Islands, and American Samoa.

(20) **SUBSCRIBER.**—The term “subscriber” means a person who—

(A) owns a community solar subscription, or an equivalent unit or share of the capacity or generation of a community solar facility; or

(B) financially benefits from a community solar facility, even if the person does not own a community solar subscription for the facility.

(21) **UNDERSERVED AREA.**—The term “underserved area” means—

(A) a geographical area with low or no photovoltaic solar deployment, as determined by the Secretary;

(B) a geographical area that has low or no access to electricity, as determined by the Secretary;

(C) a geographical area with an average annual residential retail electricity price that exceeds the national average annual residential retail electricity price (as reported by the Energy Information Agency) by 50 percent or more; or

(D) trust land, as defined in section 3765 of title 38, United States Code.

(b) **ESTABLISHMENT.**—The Secretary shall establish a program to provide financial assistance to eligible entities—

(1) carry out planning projects that are necessary to establish the feasibility, obtain required permits, identify beneficiaries, or secure subscribers to install a covered facility; or

(2) install a covered facility for beneficiaries in accordance with this section.

(c) **APPLICATIONS.**—

(1) **IN GENERAL.**—To be eligible to receive assistance under the program, an eligible entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) **INCLUSION FOR INSTALLATION ASSISTANCE.**—

(A) **REQUIREMENTS.**—For an eligible entity to receive assistance for a project to install a covered facility, the Secretary shall require the eligible entity to include—

(i) information in the application that is sufficient to demonstrate that the eligible entity has

obtained, or has the capacity to obtain, necessary permits, subscribers, access to an installation site, and any other items or agreements necessary to comply with an agreement under subsection (g)(1) and to complete the installation of the applicable covered facility;

(ii) a description of the mechanism through which financial benefits will be distributed to beneficiaries or subscribers; and

(iii) an estimate of the anticipated financial benefit for beneficiaries or subscribers.

(B) **CONSIDERATION OF PLANNING PROJECTS.**—The Secretary shall consider the successful completion of an eligible planning project pursuant to subsection (b)(1) by the eligible entity to be sufficient to demonstrate the ability of the eligible entity to meet the requirements of subparagraph (A)(i).

(d) **SELECTION.**—

(1) **IN GENERAL.**—In selecting eligible projects to receive assistance under the program, the Secretary shall—

(A) prioritize—

(i) eligible installation projects that will result in the most financial benefit for subscribers, as determined by the Secretary;

(ii) eligible installation projects that will result in development of covered facilities in underserved areas; and

(iii) eligible projects that include apprenticeship, job training, or community participation as part of their application; and

(B) ensure that such assistance is provided in a manner that results in eligible projects being carried out on a geographically diverse basis within and among covered States.

(2) **DETERMINATION OF FINANCIAL BENEFIT.**—In determining the amount of financial benefit for low-income households of an eligible installation project, the Secretary shall ensure that all calculations for estimated household energy savings are based solely on electricity offsets from the applicable covered facility and use formulas established by the State or local government with jurisdiction over the applicable covered facility for verifiable household energy savings estimates that accrue to low-income households.

(e) **ASSISTANCE.**—

(1) **FORM.**—The Secretary may provide assistance under the program in the form of a grant (which may be in the form of a rebate) or a low-interest loan.

(2) **MULTIPLE PROJECTS FOR SAME FACILITY.**—

(A) **IN GENERAL.**—An eligible entity may apply for assistance under the program for an eligible planning project and an eligible installation project for the same covered facility.

(B) **SEPARATE SELECTIONS.**—Selection by the Secretary for assistance under the program of an eligible planning project does not require the Secretary to select for assistance under the program an eligible installation project for the same covered facility.

(f) **USE OF ASSISTANCE.**—

(1) **ELIGIBLE PLANNING PROJECTS.**—An eligible entity receiving assistance for an eligible planning project under the program may use such assistance to pay the costs of pre-installation activities associated with an applicable covered facility, including—

(A) feasibility studies;

(B) permitting;

(C) site assessment;

(D) on-site job training, or other community-based activities directly associated with the eligible planning project; or

(E) such other costs determined by the Secretary to be appropriate.

(2) **ELIGIBLE INSTALLATION PROJECTS.**—An eligible entity receiving assistance for an eligible installation project under the program may use such assistance to pay the costs of—

(A) installation of a covered facility, including costs associated with materials, permitting, labor, or site preparation;

(B) storage technology sited at a covered facility;

(C) interconnection service expenses;

(D) on-site job training, or other community-based activities directly associated with the eligible installation project;

(E) offsetting the cost of a subscription for a covered facility described in subparagraph (A) of subsection (a)(4) for subscribers that are members of a low income household; or

(F) such other costs determined by the Secretary to be appropriate.

(g) **ADMINISTRATION.**—

(1) **AGREEMENTS.**—

(A) **IN GENERAL.**—As a condition of receiving assistance under the program, an eligible entity shall enter into an agreement with the Secretary.

(B) **REQUIREMENTS.**—An agreement entered into under this paragraph—

(i) shall require the eligible entity to maintain such records and adopt such administrative practices as the Secretary may require to ensure compliance with the requirements of this section and the agreement;

(ii) with respect to an eligible installation project shall require that any solar generating facility installed using assistance provided pursuant to the agreement comply with local building and safety codes and standards; and

(iii) shall contain such other terms as the Secretary may require to ensure compliance with the requirements of this section.

(C) **TERM.**—An agreement under this paragraph shall be for a term that begins on the date on which the agreement is entered into and ends on the date that is 2 years after the date on which the eligible entity receives assistance pursuant to the agreement, which term may be extended once for a period of not more than 1 year if the eligible entity demonstrates to the satisfaction of the Secretary that such an extension is necessary to complete the activities required by the agreement.

(2) **USE OF FUNDS.**—Of the funds made available to provide assistance to eligible installation projects under this section over the period of fiscal years 2021 through 2025, the Secretary shall use—

(A) not less than 50 percent to provide assistance for eligible installation projects with respect to which low-income households make up at least 50 percent of the subscribers to the project; and

(B) not more than 50 percent to provide assistance for eligible installation projects with respect to which low-income households make up at least 25 percent of the subscribers to the project.

(3) **REGULATIONS.**—Not later than 120 days after the date of enactment of this Act, the Secretary shall publish in the Federal Register regulations to carry out this section, which shall take effect on the date of publication.

(h) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—There is authorized to be appropriated to the Secretary to carry out this section \$200,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

(2) **AMOUNTS FOR PLANNING PROJECTS.**—Of the amounts appropriated pursuant to this section over the period of fiscal years 2021 through 2025, the Secretary shall use not more than 15 percent of funds to provide assistance to eligible planning projects.

(i) **RELATIONSHIP TO OTHER ASSISTANCE.**—The Secretary shall, to the extent practicable, encourage eligible entities that receive assistance under this section to leverage such funds by seeking additional funding through federally or locally subsidized weatherization and energy efficiency programs.

## CHAPTER 5—SMART COMMUNITIES

### SEC. 33141. 3C ENERGY PROGRAM.

(a) **ESTABLISHMENT.**—The Secretary of Energy shall establish a program to be known as the Cities, Counties, and Communities Energy Program (or the 3C Energy Program) to provide

technical assistance and competitively awarded grants to local governments, public housing authorities, nonprofit organizations, and other entities the Secretary determines to be eligible, to incorporate clean energy into community development and revitalization efforts.

(b) **BEST PRACTICE MODELS.**—The Secretary of Energy shall—

(1) provide a recipient of technical assistance or a grant under the program established under subsection (a) with best practice models that are used in jurisdictions of similar size and situation; and

(2) assist such recipient in developing and implementing strategies to achieve its clean energy technology goals.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section \$50,000,000 for each of fiscal years 2021 through 2025.

### SEC. 33142. FEDERAL TECHNOLOGY ASSISTANCE.

(a) **SMART CITY OR COMMUNITY ASSISTANCE PILOT PROGRAM.**—

(1) **IN GENERAL.**—The Secretary of Energy shall develop and implement a pilot program under which the Secretary shall contract with the national laboratories to provide technical assistance to cities and communities, to improve the access of such cities and communities to expertise, competencies, and infrastructure of the national laboratories for the purpose of promoting smart city or community technologies.

(2) **PARTNERSHIPS.**—In carrying out the program under this subsection, the Secretary of Energy shall prioritize assistance for cities and communities that have partnered with small business concerns.

(b) **TECHNOLOGIST IN RESIDENCE PILOT PROGRAM.**—

(1) **IN GENERAL.**—The Secretary of Energy shall expand the Technologist in Residence pilot program of the Department of Energy to include partnerships between national laboratories and local governments with respect to research and development relating to smart cities and communities.

(2) **REQUIREMENTS.**—For purposes of the partnerships entered into under paragraph (1), technologists in residence shall work with an assigned unit of local government to develop an assessment of smart city or community technologies available and appropriate to meet the objectives of the city or community, in consultation with private sector entities implementing smart city or community technologies.

(c) **GUIDANCE.**—The Secretary of Energy, in consultation with the Secretary of Commerce, shall issue guidance with respect to—

(1) the scope of the programs established and implemented under subsections (a) and (b); and

(2) requests for proposals from local governments interested in participating in such programs.

(d) **CONSIDERATIONS.**—In establishing and implementing the programs under subsections (a) and (b), the Secretary of Energy shall seek to address the needs of small- and medium-sized cities.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section \$20,000,000 for each of fiscal years 2021 through 2025.

### SEC. 33143. TECHNOLOGY DEMONSTRATION GRANT PROGRAM.

(a) **IN GENERAL.**—The Secretary of Commerce shall establish a smart city or community regional demonstration grant program under which the Secretary shall conduct demonstration projects focused on advanced smart city or community technologies and systems in a variety of communities, including small- and medium-sized cities.

(b) **GOALS.**—The goals of the program established under subsection (a) are—

(1) to demonstrate—

(A) potential benefits of concentrated investments in smart city or community technologies

relating to public safety that are repeatable and scalable; and

(B) the efficiency, reliability, and resilience of civic infrastructure and services;

(2) to facilitate the adoption of advanced smart city or community technologies and systems; and

(3) to demonstrate protocols and standards that allow for the measurement and validation of the cost savings and performance improvements associated with the installation and use of smart city or community technologies and practices.

**(c) DEMONSTRATION PROJECTS.—**

(1) **ELIGIBILITY.**—Subject to paragraph (2), a unit of local government shall be eligible to receive a grant for a demonstration project under this section.

(2) **COOPERATION.**—To qualify for a demonstration project under this section, a unit of local government shall agree to follow applicable best practices identified by the Secretary of Commerce and the Secretary of Energy, in consultation with industry entities, to evaluate the effectiveness of the implemented smart city or community technologies to ensure that—

(A) technologies and interoperability can be assessed;

(B) best practices can be shared; and

(C) data can be shared in a public, interoperable, and transparent format.

(3) **FEDERAL SHARE OF COST OF TECHNOLOGY INVESTMENTS.**—The Secretary of Commerce—

(A) subject to subparagraph (B), shall provide to a unit of local government selected under this section for the conduct of a demonstration project a grant in an amount equal to not more than 50 percent of the total cost of technology investments to incorporate and assess smart city or community technologies in the applicable jurisdiction; but

(B) may waive the cost-share requirement of subparagraph (A) as the Secretary determines to be appropriate.

(d) **REQUIREMENT.**—In conducting demonstration projects under this section, the Secretary shall—

(1) develop competitive, technology-neutral requirements;

(2) seek to leverage ongoing or existing civic infrastructure investments; and

(3) take into consideration the non-Federal cost share as a competitive criterion in applicant selection in order to leverage non-Federal investment.

(e) **PUBLIC AVAILABILITY OF DATA AND REPORTS.**—The Secretary of Commerce shall ensure that reports, public data sets, schematics, diagrams, and other works created using a grant provided under this section are—

(1) available on a royalty-free, non-exclusive basis; and

(2) open to the public to reproduce, publish, or otherwise use, without cost.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out subsection (c) \$100,000,000 for each of fiscal years 2021 through 2025.

**SEC. 33144. SMART CITY OR COMMUNITY.**

(a) **IN GENERAL.**—In this chapter, the term “smart city or community” means a community in which innovative, advanced, and trustworthy information and communication technologies and related mechanisms are applied—

(1) to improve the quality of life for residents;

(2) to increase the efficiency and cost effectiveness of civic operations and services;

(3) to promote economic growth; and

(4) to create a community that is safer and more secure, sustainable, resilient, livable, and workable.

(b) **INCLUSIONS.**—The term “smart city or community” includes a local jurisdiction that—

(1) gathers and incorporates data from systems, devices, and sensors embedded in civic systems and infrastructure to improve the effectiveness and efficiency of civic operations and services;

(2) aggregates and analyzes gathered data;

(3) communicates the analysis and data in a variety of formats;

(4) makes corresponding improvements to civic systems and services based on gathered data; and

(5) integrates measures—

(A) to ensure the resilience of civic systems against cybersecurity threats and physical and social vulnerabilities and breaches;

(B) to protect the private data of residents; and

(C) to measure the impact of smart city or community technologies on the effectiveness and efficiency of civic operations and services.

**SEC. 33145. CLEAN CITIES COALITION PROGRAM.**

(a) **IN GENERAL.**—The Secretary shall carry out a program to be known as the Clean Cities Coalition Program.

(b) **PROGRAM ELEMENTS.**—In carrying out the program under subsection (a), the Secretary shall—

(1) establish criteria for designating local and regional Clean Cities Coalitions;

(2) designate local and regional Clean Cities Coalitions that the Secretary determines meet the criteria established under paragraph (1);

(3) make awards to each designated Clean Cities Coalition for administrative and program expenses of the coalition;

(4) make competitive awards to designated Clean Cities Coalitions for projects and activities described in subsection (c);

(5) provide technical assistance and training to designated Clean Cities Coalitions;

(6) provide opportunities for communication and sharing of best practices among designated Clean Cities Coalitions; and

(7) maintain, and make available to the public, a centralized database of information included in the reports submitted under subsection (d).

(c) **PROJECTS AND ACTIVITIES.**—Projects and activities eligible for awards under subsection (b)(4) are projects and activities that reduce petroleum consumption, improve air quality, promote energy and economic security, and encourage deployment of a diverse, domestic supply of alternative fuels in the transportation sector by—

(1) encouraging the purchase and use of alternative fuel vehicles and alternative fuels, including by fleet managers;

(2) expediting the establishment of local, regional, and national infrastructure to fuel alternative fuel vehicles;

(3) advancing the use of other petroleum fuel reduction technologies and strategies;

(4) conducting outreach and education activities to advance the use of alternative fuels and alternative fuel vehicles;

(5) providing training and technical assistance and tools to users that adopt petroleum fuel reduction technologies; or

(6) collaborating with and training officials and first responders with responsibility for permitting and enforcing fire, building, and other safety codes related to the deployment and use of alternative fuels or alternative fuel vehicles.

(d) **ANNUAL REPORT.**—Each designated Clean Cities Coalition shall submit an annual report to the Secretary on the activities and accomplishments of the coalition.

(e) **DEFINITIONS.**—In this section:

(1) **ALTERNATIVE FUEL.**—The term “alternative fuel” has the meaning given such term in section 32901 of title 49, United States Code.

(2) **ALTERNATIVE FUEL VEHICLE.**—The term “alternative fuel vehicle” means any vehicle that is capable of operating, partially or exclusively, on an alternative fuel.

(3) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(f) **FUNDING.**—

(1) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section—

(A) \$50,000,000 for fiscal year 2021;

(B) \$60,000,000 for fiscal year 2022;

(C) \$75,000,000 for fiscal year 2023;

(D) \$90,000,000 for fiscal year 2024; and

(E) \$100,000,000 for fiscal year 2025.

(2) **ALLOCATIONS.**—The Secretary shall allocate funds made available to carry out this section in each fiscal year as follows:

(A) Thirty percent of such funds shall be distributed as awards under subsection (b)(3).

(B) Fifty percent of such funds shall be distributed as competitive awards under subsection (b)(4).

(C) Twenty percent of such funds shall be used to carry out the duties of the Secretary under this section.

**CHAPTER 6—BROWNFIELDS**

**SEC. 33151. BROWNFIELDS FUNDING.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—Section 104(k)(13) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9604(k)(13)) is amended to read as follows:

“(13) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this subsection—

“(A) \$350,000,000 for fiscal year 2021;

“(B) \$400,000,000 for fiscal year 2022;

“(C) \$450,000,000 for fiscal year 2023;

“(D) \$500,000,000 for fiscal year 2024; and

“(E) \$550,000,000 for fiscal year 2025.”

(b) **STATE RESPONSE PROGRAMS.**—Section 128(a)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9628(a)(3)) is amended to read as follows:

“(3) **FUNDING.**—There are authorized to be appropriated to carry out this subsection—

“(A) \$70,000,000 for fiscal year 2021;

“(B) \$80,000,000 for fiscal year 2022;

“(C) \$90,000,000 for fiscal year 2023;

“(D) \$100,000,000 for fiscal year 2024; and

“(E) \$110,000,000 for fiscal year 2025.”

**CHAPTER 7—INDIAN ENERGY**

**SEC. 33161. INDIAN ENERGY.**

(a) **DEFINITION OF INDIAN LAND.**—Section 2601(2) of the Energy Policy Act of 1992 (25 U.S.C. 3501(2)) is amended—

(1) in subparagraph (B)(iii), by striking “and”;

(2) in subparagraph (C), by striking “land.” and inserting “land; and”; and

(3) by adding at the end the following subparagraph:

“(D) any land in a census tract in which the majority of the residents are Natives (as defined in section 3(b) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b))).”

(b) **REDUCTION OF COST SHARE.**—Section 2602(b)(5) of the Energy Policy Act of 1992 (25 U.S.C. 3502(b)(5)) is amended by adding at the end the following subparagraph:

“(D) The Director may reduce any applicable cost share required of an Indian tribe, intertribal organization, or tribal energy development organization in order to receive a grant under this subsection to not less than 10 percent if the Indian tribe, intertribal organization, or tribal energy development organization meets criteria developed by the Director, including financial need.

“(E) Section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352) shall not apply to grants provided under this subsection.”

(c) **AUTHORIZATION.**—Section 2602(b)(7) of the Energy Policy Act of 1992 (25 U.S.C. 3502(b)(7)) is amended by striking “\$20,000,000 for each of fiscal years 2006 through 2016” and inserting “\$50,000,000 for each of fiscal years 2021 through 2025”.

**SEC. 33162. REPORT ON ELECTRICITY ACCESS AND RELIABILITY.**

(a) **ASSESSMENT.**—The Secretary of Energy shall conduct an assessment of the status of access to electricity by households residing in Tribal communities or on Indian land, and the

reliability of electric service available to households residing in Tribal communities or on Indian land, as compared to the status of access to and reliability of electricity within neighboring States or within the State in which Indian land is located.

(b) **CONSULTATION.**—The Secretary of Energy shall consult with Indian Tribes, Tribal organizations, the North American Electricity Reliability Corporation, and the Federal Energy Regulatory Commission in the development and conduct of the assessment under subsection (a). Indian Tribes and Tribal organizations shall have the opportunity to review and make recommendations regarding the development of the assessment and the findings of the assessment, prior to the submission of the report under subsection (c).

(c) **REPORT.**—Not later than 18 months after the date of enactment of this Act, the Secretary of Energy shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of the assessment conducted under subsection (a), which shall include—

(1) a description of generation, transmission, and distribution assets available to provide electricity to households residing in Tribal communities or on Indian land;

(2) a survey of the retail and wholesale prices of electricity available to households residing in Tribal communities or on Indian land;

(3) a description of participation of Tribal members in the electric utility workforce, including the workforce for construction and maintenance of renewable energy resources and distributed energy resources;

(4) the percentage of households residing in Tribal communities or on Indian land that do not have access to electricity;

(5) the potential of distributed energy resources to provide electricity to households residing in Tribal communities or on Indian land;

(6) the potential for tribally-owned electric utilities or electric utility assets to participate in or benefit from regional electricity markets;

(7) a description of the barriers to providing access to electric service to households residing in Tribal communities or on Indian land; and

(8) recommendations to improve access to and reliability of electric service for households residing in Tribal communities or on Indian land.

(d) **DEFINITIONS.**—In this section:

(1) **TRIBAL MEMBER.**—The term “Tribal member” means a person who is an enrolled member of a federally recognized Tribe or village.

(2) **TRIBAL COMMUNITY.**—The term “Tribal community” means a community in a United States census tract in which the majority of residents are persons who are enrolled members of a federally recognized Tribe or village.

## CHAPTER 8—HYDROPOWER AND DAM SAFETY

### SEC. 33171. HYDROELECTRIC PRODUCTION INCENTIVES AND EFFICIENCY IMPROVEMENTS.

(a) **HYDROELECTRIC PRODUCTION INCENTIVES.**—Section 242 of the Energy Policy Act of 2005 (42 U.S.C. 15881) is amended—

(1) in subsection (b), by striking paragraph (1) and inserting the following:

“(1) **QUALIFIED HYDROELECTRIC FACILITY.**—The term ‘qualified hydroelectric facility’ means a turbine or other generating device owned or solely operated by a non-Federal entity—

“(A) that generates hydroelectric energy for sale; and

“(B)(i) that is added to an existing dam or conduit; or

“(ii)(I) that has a generating capacity of not more than 10 megawatts;

“(II) for which the non-Federal entity has received a construction authorization from the Federal Energy Regulatory Commission, if applicable; and

“(III) that is constructed in a region in which there is inadequate electric service, as determined by the Secretary.”;

(2) in subsection (c), by striking “10” and inserting “22”;

(3) in subsection (e)(2), by striking “section 29(d)(2)(B)” and inserting “section 45K(d)(2)(B)”;

(4) in subsection (f), by striking “20” and inserting “32”; and

(5) in subsection (g), by striking “each of the fiscal years 2006 through 2015” and inserting “each of fiscal years 2019 through 2036”.

(b) **HYDROELECTRIC EFFICIENCY IMPROVEMENT.**—Section 243(c) of the Energy Policy Act of 2005 (42 U.S.C. 15882(c)) is amended by striking “each of the fiscal years 2006 through 2015” and inserting “each of fiscal years 2019 through 2036”.

### SEC. 33172. FERC BRIEFING ON EDENVILLE DAM AND SANFORD DAM FAILURES.

Not later than 90 days after the date on which the Forensic Investigation Team submits to the Federal Energy Regulatory Commission the reports on the root causes, and any other contributing causes, of the Edenville Dam and Sanford Dam failures, the Federal Energy Regulatory Commission shall conduct a briefing for, and submit a report summarizing such briefing to, the Committee on Energy and Commerce of the House of Representatives that includes—

(1) an explanation of the findings of the Forensic Investigation Team reports on the root causes, and any other contributing causes, of the Edenville Dam and Sanford Dam failures;

(2) a determination of whether the dam safety procedures of the Federal Energy Regulatory Commission should be revised in light of the lessons learned from such reports;

(3) a determination of whether additional safety inspections of dams should be required after large storms;

(4) a determination of whether the safety requirements and testing protocols for dams adequately account for the projected effects of climate change and atmospheric rivers on dams; and

(5) a determination of whether additional actions should be taken to ensure the safety of dams that operate without an emergency spillway.

### SEC. 33173. DAM SAFETY CONDITIONS.

Section 10 of the Federal Power Act (16 U.S.C. 803) is amended by adding at the end the following:

“(k) That the dam and other project works meet the Commission’s dam safety requirements and that the licensee shall continue to manage, operate, and maintain the dam and other project works in a manner that ensures dam safety and public safety under the operating conditions of the license.”.

### SEC. 33174. DAM SAFETY REQUIREMENTS.

Section 15 of the Federal Power Act (16 U.S.C. 808) is amended by adding at the end the following:

“(g) The Commission may issue a new license under this section only if the Commission determines that the dam and other project works covered by the license meet the Commission’s dam safety requirements and that the licensee can continue to manage, operate, and maintain the dam and other project works in a manner that ensures dam safety and public safety under the operating conditions of the new license.”.

### SEC. 33175. VIABILITY PROCEDURES.

The Federal Energy Regulatory Commission shall establish procedures to assess the financial viability of an applicant for a license under the Federal Power Act to meet applicable dam safety requirements and to operate the dam and project works under the license.

### SEC. 33176. FERC DAM SAFETY TECHNICAL CONFERENCE WITH STATES.

(a) **TECHNICAL CONFERENCE.**—Not later than April 1, 2021, the Federal Energy Regulatory Commission, acting through the Office of Energy Projects, shall hold a technical conference with the States to discuss and provide information on—

(1) dam maintenance and repair;

(2) Risk Informed Decision Making (RIDM);

(3) climate and hydrological regional changes that may affect the structural integrity of dams; and

(4) high hazard dams.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$1,000,000 for fiscal year 2021.

(c) **STATE DEFINED.**—In this section, the term “State” has the meaning given such term in section 3 of the Federal Power Act (16 U.S.C. 796).

### SEC. 33177. REQUIRED DAM SAFETY COMMUNICATIONS BETWEEN FERC AND STATES.

(a) **IN GENERAL.**—The Commission, acting through the Office of Energy Projects, shall notify a State within which a project is located when—

(1) the Commission issues a finding, following a dam safety inspection, that requires the licensee for such project to take actions to repair the dam and other project works that are the subject of such finding;

(2) after a period of 5 years starting on the date a finding under paragraph (1) is issued, the licensee has failed to take actions to repair the dam and other project works, as required by such finding; and

(3) the Commission initiates a non-compliance proceeding or otherwise takes steps to revoke a license issued under section 4 of the Federal Power Act (16 U.S.C. 797) due to the failure of a licensee to take actions to repair a dam and other project works.

(b) **NOTICE UPON REVOCATION, SURRENDER, OR IMPLIED SURRENDER OF A LICENSE.**—If the Commission issues an order to revoke a license or approve the surrender or implied surrender of a license under the Federal Power Act (16 U.S.C. 792 et seq.), the Commission shall provide to the State within which the project that relates to such license is located—

(1) all records pertaining to the structure and operation of the applicable dam and other project works, including, as applicable, any dam safety inspection reports by independent consultants, specifications for required repairs or maintenance of such dam and other project works that have not been completed, and estimates of the costs for such repairs or maintenance;

(2) all records documenting the history of maintenance or repair work for the applicable dam and other project works;

(3) information on the age of the dam and other project works and the hazard classification of the dam and other project works;

(4) the most recent assessment of the condition of the dam and other project works by the Commission;

(5) as applicable, the most recent hydrologic information used to determine the potential maximum flood for the dam and other project works; and

(6) the results of the most recent risk assessment completed on the dam and other project works.

(c) **DEFINITION.**—In this section:

(1) **COMMISSION.**—The term “Commission” means the Federal Energy Regulatory Commission.

(2) **LICENSEE.**—The term “licensee” has the meaning given such term in section 3 of the Federal Power Act (16 U.S.C. 796).

(3) **PROJECT.**—The term “project” has the meaning given such term in section 3 of the Federal Power Act (16 U.S.C. 796).

## CHAPTER 9—LOAN PROGRAM OFFICE REFORM

### SEC. 33181. LOAN PROGRAM OFFICE TITLE XVII REFORM.

(a) **TERMS AND CONDITIONS.**—Section 1702 of the Energy Policy Act of 2005 (42 U.S.C. 16512) is amended—

(1) by amending subsection (b) to read as follows:

“(b) **SPECIFIC APPROPRIATION OR CONTRIBUTION.**—

“(1) *IN GENERAL*.—Except as provided in paragraph (2), the cost of a guarantee shall be paid by the Secretary using an appropriation made for the cost of the guarantee, subject to the availability of such an appropriation.

“(2) *INSUFFICIENT APPROPRIATIONS*.—If sufficient appropriated funds to pay the cost of a guarantee are not available, then the guarantee shall not be made unless—

“(A) the Secretary has received from the borrower a payment in full for the cost of the guarantee and deposited the payment into the Treasury; or

“(B) a combination of one or more appropriations and one or more payments from the borrower under this subsection has been made that is sufficient to cover the cost of the guarantee.”;

(2) in subsection (h)(1), by striking “charge and collect fees” and inserting “charge, and collect at the financial close of the obligation, fees”; and

(3) by adding at the end the following:

“(1) *APPLICATION STATUS*.—

“(1) *REQUEST*.—If the Secretary does not make a final decision on an application for a guarantee under this section by the date that is 270 days after receipt of the application by the Secretary, on that date and every 90 days thereafter until the final decision is made, the applicant may request that the Secretary provide to the applicant a description of the status of the application.

“(2) *RESPONSE*.—Not later than 10 days after receiving a request from an applicant under paragraph (1), the Secretary shall provide to the applicant a response that includes—

“(A) a summary of any factors that are delaying a final decision on the application; and

“(B) an estimate of when review of the application will be completed.”.

(b) *PROJECT ELIGIBILITY EXPANSION*.—Section 1703 of the Energy Policy Act of 2005 (42 U.S.C. 16513) is amended—

(1) in subsection (a)—

(A) in paragraph (1), by inserting “, utilize” after “reduce”; and

(B) in paragraph (2), by striking “.” and inserting the following: “which may include—

“(A) a system of technologies that combine existing technologies in an innovative manner;

“(B) projects containing elements of commercial technologies in combination with new or significantly improved technologies; or

“(C) projects that incorporate new and innovative platform technologies developed outside the energy sector that enable modernization of existing energy infrastructure and systems.”;

(2) in subsection (b)—

(A) in paragraph (5)—

(i) by adding “, utilization,” after “capture”; and

(ii) by inserting “and technologies that capture greenhouse gases already airborne” after “sequester carbon”; and

(B) by adding at the end the following:

“(11) Energy storage technologies for residential, industrial, and transportation applications.

“(12) Technologies and systems for reducing high global warming potential pollutants, including methane leakage from natural gas transmission and distribution infrastructure.

“(13) Manufacturing and deployment of nuclear supply components for advanced nuclear reactors.

“(14) System-level energy management solutions.

“(15) Application of platform technologies, including data analytics, artificial intelligence, and other software to improve the energy efficiency and effectiveness of energy infrastructure, including electric grid operations.

“(16) Energy-water use efficiency in water resources infrastructure and water-using technologies.

“(17) Innovative technologies for improving the resilience or reliability of existing energy infrastructure.”; and

(3) by adding at the end the following:

“(f) *REGIONAL VARIATION*.—The Secretary shall account for regional variation in commercial technology deployment such that no project shall be ineligible for assistance under this title because a similar project exists in a different region than the proposed project.”.

(c) *STATE LOAN ELIGIBILITY*.—

(1) *DEFINITIONS*.—Section 1701 of the Energy Policy Act of 2005 (42 U.S.C. 16511) is amended by adding at the end the following:

“(6) *STATE*.—The term ‘State’ has the meaning given the term in section 202 of the Energy Conservation and Production Act (42 U.S.C. 6802).

“(7) *STATE ENERGY FINANCING INSTITUTION*.—

“(A) *IN GENERAL*.—The term ‘State energy financing institution’ means a quasi-independent entity or an entity within a State agency or financing authority established by a State—

“(i) to provide financing support or credit enhancements, including loan guarantees and loan loss reserves, for eligible projects; and

“(ii) to create liquid markets for eligible projects, including warehousing and securitization, or take other steps to reduce financial barriers to the deployment of existing and new eligible projects.

“(B) *INCLUSION*.—The term ‘State energy financing institution’ includes an entity or organization established to achieve the purposes described in clauses (i) and (ii) of subparagraph (A) by an Indian tribal entity or an Alaska Native Corporation.”.

(2) *ELIGIBILITY*.—Section 1702 of the Energy Policy Act of 2005 (42 U.S.C. 16512) is amended—

(A) in subsection (a), by inserting “, including projects receiving financial support or credit enhancements from a State energy financing institution,” after “for projects”; and

(B) in subsection (d)(1), by inserting “, including a guarantee for a project receiving financial support or credit enhancements from a State energy financing institution,” after “No guarantee”; and

(C) by adding at the end the following:

“(m) *STATE ENERGY FINANCING INSTITUTIONS*.—

“(1) *ELIGIBILITY*.—To be eligible for a guarantee under this title, a project receiving financial support or credit enhancements from a State energy financing institution—

“(A) shall meet the requirements of section 1703(a)(1); and

“(B) shall not be required to meet the requirements of section 1703(a)(2).

“(2) *PARTNERSHIPS AUTHORIZED*.—In carrying out a project receiving a guarantee under this title, State energy financing institutions may enter into partnerships with private entities, Tribal entities, and Alaska Native corporations.”.

## Subtitle B—Energy Efficiency CHAPTER 1—ENERGY EFFICIENCY RETROFITS

### Subchapter A—HOMES

#### SEC. 33201. DEFINITIONS.

In this subchapter:

(1) *ENERGY AUDIT*.—The term “energy audit” means an inspection, survey, and analysis of the energy use of a building, including the building envelope and HVAC system.

(2) *HOME*.—The term “home” means a residential dwelling unit in a building with no more than 4 dwelling units that—

(A) is located in the United States;

(B) was constructed before the date of enactment of this Act; and

(C) is occupied at least six months out of the year.

(3) *HOME ENERGY SAVINGS RETROFIT REBATE PROGRAM*.—The term “Home Energy Savings Retrofit Rebate Program” means the Home Energy Savings Retrofit Rebate Program established under section 33202.

(4) *HOMEOWNER*.—The term “homeowner” means the owner of an owner-occupied home or a tenant-occupied home.

(5) *HVAC SYSTEM*.—The term “HVAC system” means a system—

(A) consisting of a heating component, a ventilation component, and an air-conditioning component; and

(B) which components may include central air conditioning, a heat pump, a furnace, a boiler, a rooftop unit, a window unit, and a chiller.

(6) *MEASURED PERFORMANCE REBATE*.—The term “measured performance rebate” means a rebate provided in accordance with section 33204 and described in subsection (e) of that section.

(7) *MODELED PERFORMANCE REBATE*.—The term “modeled performance rebate” means a rebate provided in accordance with section 33204 and described in subsection (d) of that section.

(8) *PARTIAL SYSTEM REBATE*.—The term “partial system rebate” means a rebate provided in accordance with section 33203.

(9) *SECRETARY*.—The term “Secretary” means the Secretary of Energy.

(10) *STATE*.—The term “State” includes—

(A) a State;

(B) the District of Columbia;

(C) the Commonwealth of Puerto Rico;

(D) Guam;

(E) American Samoa;

(F) the Commonwealth of the Northern Mariana Islands;

(G) the United States Virgin Islands; and

(H) any other territory or possession of the United States.

(11) *STATE ENERGY OFFICE*.—The term “State energy office” means the office or agency of a State responsible for developing the State energy conservation plan for the State under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322).

#### SEC. 33202. ESTABLISHMENT OF HOME ENERGY SAVINGS RETROFIT REBATE PROGRAM.

The Secretary shall establish a program, to be known as the Home Energy Savings Retrofit Rebate Program, to—

(1) provide rebates in accordance with section 33203; and

(2) provide grants to States to carry out programs to provide rebates in accordance with section 33204.

#### SEC. 33203. PARTIAL SYSTEM REBATES.

(a) *AMOUNT OF REBATE*.—In carrying out the Home Energy Savings Retrofit Rebate Program, and subject to the availability of appropriations for such purpose, the Secretary shall provide a homeowner a rebate, to be known as a partial system rebate, of up to—

(1) \$800 for the installation of insulation and air sealing within a home of the homeowner; or

(2) \$1,500 for the installation of insulation and air sealing within a home of the homeowner and replacement of an HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system, of such home.

(b) *SPECIFICATIONS*.—

(1) *COST*.—The amount of a partial system rebate provided under this section shall not exceed 30 percent of cost of installation of insulation and air sealing under subsection (a)(1), or installation of insulation and air sealing and replacement of an HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system, under subsection (a)(2). Labor may be included in such cost but may not exceed—

(A) in the case of a rebate under subsection (a)(1), 50 percent of such cost; and

(B) in the case of a rebate under subsection (a)(2), 25 percent of such cost.

(2) *REPLACEMENT OF AN HVAC SYSTEM, THE HEATING COMPONENT OF AN HVAC SYSTEM, OR THE COOLING COMPONENT OF AN HVAC SYSTEM*.—In order to qualify for a partial system rebate described in subsection (a)(2)—

(A) any HVAC system, heating component of an HVAC system, or cooling component of an HVAC system installed shall be Energy Star Most Efficient certified;

(B) installation of such an HVAC system, the heating component of an HVAC system, or the

cooling component of an HVAC system, shall be completed in accordance with standards specified by the Secretary that are at least as stringent as the applicable guidelines of the Air Conditioning Contractors of America that are in effect on the date of enactment of this Act;

(C) if ducts are present, replacement of an HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system shall include duct sealing; and

(D) the installation of insulation and air sealing shall occur within 6 months of the replacement of the HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system.

(c) **ADDITIONAL INCENTIVES FOR CONTRACTORS.**—In carrying out the Home Energy Savings Retrofit Rebate Program, the Secretary may provide a \$250 payment to a contractor per home for which—

(1) a partial system rebate is provided under this section for the installation of insulation and air sealing, or installation of insulation and air sealing and replacement of an HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system, by the contractor;

(2) the applicable homeowner has signed and submitted to the Secretary a release form made available pursuant to section 33206(c) authorizing the contractor access to information in the utility bills of the homeowner; and

(3) the contractor inputs, into the Department of Energy's Building Performance Database—

(A) the energy usage for the home for the 12 months preceding, and the 24 months following, the installation of insulation and air sealing or installation of insulation and air sealing and replacement of an HVAC system, the heating component of an HVAC system, or the cooling component of an HVAC system;

(B) a description of such installation or installation and replacement; and

(C) the total cost to the homeowner for such installation or installation and replacement.

(d) **PROCESS.**—

(1) **FORMS; REBATE PROCESSING SYSTEM.**—Not later than 90 days after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Treasury, shall—

(A) develop and make available rebate forms required to receive a partial system rebate under this section;

(B) establish a Federal rebate processing system which shall serve as a database and information technology system that will allow homeowners to submit required rebate forms; and

(C) establish a website that provides information on partial system rebates provided under this section, including how to determine whether particular measures qualify for a rebate under this section and how to receive such a rebate.

(2) **SUBMISSION OF FORMS.**—In order to receive a partial system rebate under this section, a homeowner shall submit the required rebate forms, and any other information the Secretary determines appropriate, to the Federal rebate processing system established pursuant to paragraph (1).

(e) **FUNDING.**—

(1) **LIMITATION.**—For each fiscal year, to carry out this section, the Secretary may not use more than 50 percent of the amounts made available to carry out this subchapter.

(2) **ALLOCATION.**—The Secretary shall allocate amounts made available to carry out this section for partial system rebates in States using the same formula as is used to allocate funds for States under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.).

#### SEC. 33204. STATE ADMINISTERED REBATES.

(a) **FUNDING.**—In carrying out the Home Energy Savings Retrofit Rebate Program, and subject to the availability of appropriations for such purpose, the Secretary shall provide grants

to States to carry out programs to provide rebates in accordance with this section.

(b) **STATE PARTICIPATION.**—

(1) **PLAN.**—In order to receive a grant under this section a State shall submit to the Secretary an application that includes a plan to implement a State program that meets the minimum criteria under subsection (c).

(2) **APPROVAL.**—Not later than 60 days after receipt of a completed application for a grant under this section, the Secretary shall either approve the application or provide to the applicant an explanation for denying the application.

(c) **MINIMUM CRITERIA FOR STATE PROGRAMS.**—Not later than 6 months after the date of enactment of this Act, the Secretary shall establish minimum criteria for a State program to meet to qualify for funding under this section, including—

(1) that the State program be carried out by the applicable State energy office;

(2) that a rebate be provided under a State program only for a home energy efficiency retrofit that—

(A) is completed by a contractor who meets minimum training requirements and certification requirements set forth by the Secretary;

(B) includes installation of one or more home energy efficiency retrofit measures for a home that together are modeled to achieve, or are shown to achieve, a reduction in home energy use of 20 percent or more from the baseline energy use of the home;

(C) does not include installation of any measure that the Secretary determines does not improve the thermal energy usage of the home, such as a pool pump, pool heater, spa, or EV charger; and

(D) includes, after installation of the applicable home energy efficiency retrofit measures, a test-out procedure conducted in accordance with guidelines issued by the Secretary of such measures to ensure—

(i) the safe operation of all systems post retrofit; and

(ii) that all improvements are included in, and have been installed according to—

(1) manufacturers installation specifications; and

(II) all applicable State and local codes or equivalent standards approved by the Secretary;

(3) that the State program utilizes—

(A) for purposes of modeled performance rebates, modeling software approved by the Secretary for determining and documenting the baseline energy use of a home and the reductions in home energy use resulting from the implementation of a home energy efficiency retrofit; and

(B) for purposes of measured performance rebates, methods and procedures approved by the Secretary for determining and documenting the baseline energy use of a home and the reductions in home energy use resulting from the implementation of a home energy efficiency retrofit, including methods and procedures for use of advanced metering infrastructure, weather-normalized data, and open source standards, to measure such baseline energy use and such reductions in home energy use;

(4) that the State program includes implementation of a quality assurance program—

(A) to ensure that home energy efficiency retrofits are achieving the stated level of energy savings, that efficiency measures were installed correctly, and that work is performed in accordance with procedures developed by the Secretary, including through quality-control inspections for a portion of home energy efficiency retrofits completed by each applicable contractor; and

(B) under which a quality-control inspection of a home energy efficiency retrofit is performed by a quality assurance provider who—

(i) is independent of the contractor for such retrofit; and

(ii) will confirm that such contractor is a contractor who meets minimum training require-

ments and certification requirements set forth by the Secretary;

(5) that the State program includes requirements for a homeowner, contractor, or rebate aggregator to claim a rebate, including that the homeowner, contractor, or rebate aggregator submit any applicable forms approved by the Secretary to the State, including a copy of the certificate provided by the applicable contractor certifying projected or measured reduction of home energy use;

(6) that the State program may include requirements for an entity to be eligible to serve as a rebate aggregator to facilitate the delivery of rebates to homeowners or contractors;

(7) that the State program includes procedures for a homeowner to transfer the right to claim a rebate to the contractor performing the applicable home energy efficiency retrofit or to a rebate aggregator that works with the contractor; and

(8) that the State program provides that a homeowner, contractor, or rebate aggregator may claim more than one rebate under the State program, and may claim a rebate under the State program after receiving a partial system rebate under section 33203, provided that no 2 rebates may be provided with respect to a home using the same baseline energy use of such home.

(d) **MODELED PERFORMANCE REBATES.**—

(1) **IN GENERAL.**—In carrying out a State program under this section, a State may provide a homeowner, contractor, or rebate aggregator a rebate, to be known as a modeled performance rebate, for an energy audit of a home and a home energy efficiency retrofit that is projected, using modeling software approved by the Secretary, to reduce home energy use by at least 20 percent.

(2) **AMOUNT.**—

(A) **IN GENERAL.**—Subject to subparagraph (B), the amount of a modeled performance rebate provided under a State program shall be equal to 50 percent of the cost of the applicable energy audit of a home and home energy efficiency retrofit, including the cost of diagnostic procedures, labor, reporting, and modeling.

(B) **LIMITATION.**—With respect to an energy audit and home energy efficiency retrofit that is projected to reduce home energy use by—

(i) at least 20 percent, but less than 40 percent, the maximum amount of a modeled performance rebate shall be \$2,000; and

(ii) at least 40 percent, the maximum amount of a modeled performance rebate shall be \$4,000.

(c) **MEASURED PERFORMANCE REBATES.**—

(1) **IN GENERAL.**—In carrying out a State program under this section, a State may provide a homeowner, contractor, or rebate aggregator a rebate, to be known as a measured performance rebate, for a home energy efficiency retrofit that reduces home energy use by at least 20 percent as measured using methods and procedures approved by the Secretary.

(2) **AMOUNT.**—

(A) **IN GENERAL.**—Subject to subparagraph (B), the amount of a measured performance rebate provided under a State program shall be equal to 50 percent of the cost, including the cost of diagnostic procedures, labor, reporting, and energy measurement, of the applicable home energy efficiency retrofit.

(B) **LIMITATION.**—With respect to a home energy efficiency retrofit that is measured as reducing home energy use by—

(i) at least 20 percent, but less than 40 percent, the maximum amount of a measured performance rebate shall be \$2,000; and

(ii) at least 40 percent, the maximum amount of a measured performance rebate shall be \$4,000.

(f) **COORDINATION OF REBATE AND EXISTING STATE-SPONSORED OR UTILITY-SPONSORED PROGRAMS.**—A State that receives a grant under this section is encouraged to work with State agencies, utilities, State-sponsored nonprofits, and other entities—

(1) to assist in marketing the availability of the rebates under the applicable State program;

(2) to coordinate with utility or State managed financing programs;

(3) to assist in implementation of the applicable State program, including installation of home energy efficiency retrofits; and

(4) to coordinate with existing quality assurance programs.

(g) ADMINISTRATION AND OVERSIGHT.—

(1) REVIEW OF APPROVED MODELING SOFTWARE.—The Secretary shall, on an annual basis, list and review all modeling software approved for use in determining and documenting the reductions in home energy use for purposes of modeled performance rebates under subsection (d). In approving such modeling software each year, the Secretary shall ensure that modeling software approved for a year will result in modeling of energy efficiency gains for any type of home energy efficiency retrofit that is at least as substantial as the modeling of energy efficiency gains for such type of home energy efficiency retrofit using the modeling software approved for the previous year.

(2) OVERSIGHT.—If the Secretary determines that a State is not implementing a State program that was approved pursuant to subsection (b) and that meets the minimum criteria under subsection (c), the Secretary may, after providing the State a period of at least 90 days to meet such criteria, withhold grant funds under this section from the State.

#### SEC. 33205. EVALUATION REPORTS TO CONGRESS.

(a) IN GENERAL.—Not later than 3 years after the date of enactment of this Act and annually thereafter until the termination of the Home Energy Savings Retrofit Rebate Program, the Secretary shall submit to Congress a report on the use of funds made available to carry out this subchapter.

(b) CONTENTS.—Each report submitted under subsection (a) shall include—

(1) how many home energy efficiency retrofits have been completed during the previous year under the Home Energy Savings Retrofit Rebate Program;

(2) an estimate of how many jobs have been created through the Home Energy Savings Retrofit Rebate Program, directly and indirectly;

(3) a description of what steps could be taken to promote further deployment of energy efficiency and renewable energy retrofits;

(4) a description of the quantity of verifiable energy savings, homeowner energy bill savings, and other benefits of the Home Energy Savings Retrofit Rebate Program;

(5) a description of any waste, fraud, or abuse with respect to funds made available to carry out this subchapter; and

(6) any other information the Secretary considers appropriate.

#### SEC. 33206. ADMINISTRATION.

(a) IN GENERAL.—The Secretary shall provide such administrative and technical support to contractors, rebate aggregators, States, and Indian Tribes as is necessary to carry out this subchapter.

(b) APPOINTMENT OF PERSONNEL.—Notwithstanding the provisions of title 5, United States Code, regarding appointments in the competitive service and General Schedule classifications and pay rates, the Secretary may appoint such professional and administrative personnel as the Secretary considers necessary to carry out this subchapter.

(c) INFORMATION COLLECTION.—The Secretary shall establish, and make available to a homeowner, or the homeowner's designated representative, seeking a rebate under this subchapter, release forms authorizing access by the Secretary, or a designated third-party representative to information in the utility bills of the homeowner with appropriate privacy protections in place.

#### SEC. 33207. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to the Secretary to carry out this

subchapter \$1,000,000,000 for each of fiscal years 2021 through 2025, to remain available until expended.

(b) MAINTENANCE OF FUNDING.—Each State receiving Federal funds pursuant to this subchapter shall provide reasonable assurances to the Secretary that it has established policies and procedures designed to ensure that Federal funds provided under this subchapter will be used to supplement, and not to supplant, State and local funds.

(c) TRIBAL ALLOCATION.—Of the amounts made available pursuant to subsection (a) for a fiscal year, the Secretary shall work with Indian Tribes and use 2 percent of such amounts to carry out a program or programs that as close as possible reflect the goals, requirements, and provisions of this subchapter, taking into account any factors that the Secretary determines to be appropriate.

#### Subchapter B—Public Buildings

#### SEC. 33211. ENERGY EFFICIENT PUBLIC BUILDINGS.

(a) GRANTS.—Section 125(a) of the Energy Policy Act of 2005 (42 U.S.C. 15822(a)) is amended—

(1) in paragraph (1)—

(A) by inserting “Standard 90.1 of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers,” after “the International Energy Conservation Code,”; and

(B) by striking “; or” and inserting a semicolon;

(2) in paragraph (2), by striking the period at the end and inserting “; or”; and

(3) by adding at the end the following:

“(3) through benchmarking programs to enable use of building performance data to evaluate the performance of energy efficiency investments over time.”.

(b) ASSURANCE OF IMPROVEMENT.—Section 125 of the Energy Policy Act of 2005 (42 U.S.C. 15822) is amended by redesignating subsections (b) and (c) as subsections (c) and (d), respectively, and inserting after subsection (a) the following:

“(b) ASSURANCE OF IMPROVEMENT.—

“(1) VERIFICATION.—A State agency receiving a grant for activities described in paragraph (1) or (2) of subsection (a) shall ensure, as a condition of eligibility for assistance pursuant to such grant, that a unit of local government receiving such assistance obtain third-party verification of energy efficiency improvements in each public building with respect to which such assistance is used.

“(2) GUIDANCE.—The Secretary may provide guidance to State agencies to comply with paragraph (1). In developing such guidance, the Secretary shall consider available third-party verification tools for high-performing buildings and available third-party verification tools for energy efficiency retrofits.”.

(c) ADMINISTRATION.—Section 125(c) of the Energy Policy Act of 2005, as so redesignated, is amended—

(1) in the matter preceding paragraph (1), by striking “State energy offices receiving grants” and inserting “A State agency receiving a grant”;;

(2) in paragraph (2), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(3) ensure that all laborers and mechanics employed by contractors and subcontractors in the performance of construction, alteration, or repair work financed in whole or in part with assistance received pursuant to this section shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code (and with respect to such labor standards, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code).”.

(d) AUTHORIZATION OF APPROPRIATIONS.—Section 125(d) of the Energy Policy Act of 2005, as so redesignated, is amended by striking “\$30,000,000 for each of fiscal years 2006 through 2010” and inserting “\$100,000,000 for each of fiscal years 2021 through 2025”.

#### Subchapter C—Schools

#### SEC. 33221. ENERGY RETROFITTING ASSISTANCE FOR SCHOOLS.

Section 392 of the Energy Policy and Conservation Act (42 U.S.C. 6371a) is amended by adding at the end the following:

“(e) COORDINATION OF ENERGY RETROFITTING ASSISTANCE FOR SCHOOLS.—

“(1) DEFINITION OF SCHOOL.—Notwithstanding section 391(6), for the purposes of this subsection, the term ‘school’ means—

“(A) an elementary school or secondary school (as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801));

“(B) an institution of higher education (as defined in section 102(a) of the Higher Education Act of 1965 (20 U.S.C. 1002(a)));

“(C) a school of the defense dependents’ education system under the Defense Dependents’ Education Act of 1978 (20 U.S.C. 921 et seq.) or established under section 2164 of title 10, United States Code;

“(D) a school operated by the Bureau of Indian Affairs;

“(E) a tribally controlled school (as defined in section 5212 of the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2511)); and

“(F) a Tribal College or University (as defined in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b))).

“(2) ESTABLISHMENT OF CLEARINGHOUSE.—The Secretary, acting through the Office of Energy Efficiency and Renewable Energy, shall establish a clearinghouse to disseminate information regarding available Federal programs and financing mechanisms that may be used to help initiate, develop, and finance energy efficiency, distributed generation, and energy retrofitting projects for schools.

“(3) REQUIREMENTS.—In carrying out paragraph (2), the Secretary shall—

“(A) consult with appropriate Federal agencies to develop a list of Federal programs and financing mechanisms that are, or may be, used for the purposes described in paragraph (2); and

“(B) coordinate with appropriate Federal agencies to develop a collaborative education and outreach effort to streamline communications and promote available Federal programs and financing mechanisms described in subparagraph (A), which may include the development and maintenance of a single online resource that includes contact information for relevant technical assistance in the Office of Energy Efficiency and Renewable Energy that States, local education agencies, and schools may use to effectively access and use such Federal programs and financing mechanisms.”.

#### SEC. 33222. GRANTS FOR ENERGY EFFICIENCY IMPROVEMENTS AND RENEWABLE ENERGY IMPROVEMENTS AT PUBLIC SCHOOL FACILITIES.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term “eligible entity” means a consortium of—

(A) one local educational agency; and

(B) one or more—

(i) schools;

(ii) nonprofit organizations;

(iii) for-profit organizations; or

(iv) community partners that have the knowledge and capacity to partner and assist with energy improvements.

(2) ENERGY IMPROVEMENTS.—The term “energy improvements” means—

(A) any improvement, repair, or renovation, to a school that will result in a direct reduction in school energy costs including but not limited to improvements to building envelope, air conditioning, ventilation, heating system, domestic

hot water heating, compressed air systems, distribution systems, lighting, power systems and controls;

(B) any improvement, repair, renovation, or installation that leads to an improvement in teacher and student health including but not limited to indoor air quality, daylighting, ventilation, electrical lighting, and acoustics; and

(C) the installation of renewable energy technologies (such as wind power, photovoltaics, solar thermal systems, geothermal energy, hydrogen-fueled systems, biomass-based systems, biofuels, anaerobic digesters, and hydropower) involved in the improvement, repair, or renovation to a school.

(b) **AUTHORITY.**—From amounts made available for grants under this section, the Secretary of Energy shall provide competitive grants to eligible entities to make energy improvements authorized by this section.

(c) **PRIORITY.**—In making grants under this subsection, the Secretary shall give priority to eligible entities that have renovation, repair, and improvement funding needs and are—

(1) a high-need local educational agency, as defined in section 2102 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6602); or

(2) a local educational agency designated with a metrocentric locale code of 41, 42, or 43 as determined by the National Center for Education Statistics (NCES), in conjunction with the Bureau of the Census, using the NCES system for classifying local educational agencies.

(d) **COMPETITIVE CRITERIA.**—The competitive criteria used by the Secretary shall include the following:

(1) The fiscal capacity of the eligible entity to meet the needs for improvements of school facilities without assistance under this section, including the ability of the eligible entity to raise funds through the use of local bonding capacity and otherwise.

(2) The likelihood that the local educational agency or eligible entity will maintain, in good condition, any facility whose improvement is assisted.

(3) The potential energy efficiency and safety benefits from the proposed energy improvements.

(e) **APPLICATIONS.**—To be eligible to receive a grant under this section, an applicant must submit to the Secretary an application that includes each of the following:

(1) A needs assessment of the current condition of the school and facilities that are to receive the energy improvements.

(2) A draft work plan of what the applicant hopes to achieve at the school and a description of the energy improvements to be carried out.

(3) A description of the applicant's capacity to provide services and comprehensive support to make the energy improvements.

(4) An assessment of the applicant's expected needs for operation and maintenance training funds, and a plan for use of those funds, if any.

(5) An assessment of the expected energy efficiency and safety benefits of the energy improvements.

(6) A cost estimate of the proposed energy improvements.

(7) An identification of other resources that are available to carry out the activities for which funds are requested under this section, including the availability of utility programs and public benefit funds.

(f) **USE OF GRANT AMOUNTS.**—

(1) **IN GENERAL.**—The recipient of a grant under this section shall use the grant amounts only to make the energy improvements contemplated in the application, subject to the other provisions of this subsection.

(2) **OPERATION AND MAINTENANCE TRAINING.**—The recipient may use up to 5 percent for operation and maintenance training for energy efficiency and renewable energy improvements (such as maintenance staff and teacher training, education, and preventative maintenance training).

(3) **AUDIT.**—The recipient may use funds for a third-party investigation and analysis for energy improvements (such as energy audits and existing building commissioning).

(4) **CONTINUING EDUCATION.**—The recipient may use up to 1 percent of the grant amounts to develop a continuing education curriculum relating to energy improvements.

(g) **CONTRACTING REQUIREMENTS.**—

(1) **DAVIS-BACON.**—Any laborer or mechanic employed by any contractor or subcontractor in the performance of work on any energy improvements funded by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor under subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the Davis-Bacon Act).

(2) **COMPETITION.**—Each applicant that receives funds shall ensure that, if the applicant carries out repair or renovation through a contract, any such contract process—

(A) ensures the maximum number of qualified bidders, including small, minority, and women-owned businesses, through full and open competition; and

(B) gives priority to businesses located in, or resources common to, the State or the geographical area in which the project is carried out.

(h) **REPORTING.**—Each recipient of a grant under this section shall submit to the Secretary, at such time as the Secretary may require, a report describing the use of such funds for energy improvements, the estimated cost savings realized by those energy improvements, the results of any audit, the use of any utility programs and public benefit funds and the use of performance tracking for energy improvements (such as the Department of Energy: Energy Star program or LEED for Existing Buildings).

(i) **BEST PRACTICES.**—The Secretary shall develop and publish guidelines and best practices for activities carried out under this section.

(j) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$100,000,000 for each of fiscal years 2021 through 2025.

## CHAPTER 2—WEATHERIZATION

### SEC. 33231. WEATHERIZATION ASSISTANCE PROGRAM.

(a) **REAUTHORIZATION OF WEATHERIZATION ASSISTANCE PROGRAM.**—Section 422 of the Energy Conservation and Production Act (42 U.S.C. 6872) is amended by striking paragraphs (1) through (5) and inserting the following:

“(1) \$350,000,000 for fiscal year 2021;

“(2) \$500,000,000 for fiscal year 2022;

“(3) \$650,000,000 for fiscal year 2023;

“(4) \$800,000,000 for fiscal year 2024; and

“(5) \$1,000,000,000 for fiscal year 2025.”.

(b) **MODERNIZING THE DEFINITION OF WEATHERIZATION MATERIALS.**—Section 412(9)(J) of the Energy Conservation and Production Act (42 U.S.C. 6862(9)(J)) is amended—

(1) by inserting “, including renewable energy technologies and other advanced technologies,” after “devices or technologies”; and

(2) by striking “, after consulting with the Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Director of the Community Services Administration”.

(c) **CONSIDERATION OF HEALTH BENEFITS.**—Section 413(b) of the Energy Conservation and Production Act (42 U.S.C. 6863(b)) is amended—

(1) in paragraph (1), by striking “Health, Education, and Welfare” and inserting “Health and Human Services”; and

(2) in paragraph (2)(A), by striking “Health, Education, and Welfare” and inserting “Health and Human Services”; and

(3) in paragraph (3)—

(A) by striking “and with the Director of the Community Services Administration”; and

(B) by inserting “and by” after “in carrying out this part,”; and

(C) by striking “, and the Director of the Community Services Administration in carrying out weatherization programs under section 222(a)(12) of the Economic Opportunity Act of 1964”;

(4) by redesignating paragraphs (4) through (6) as paragraphs (5) through (7), respectively; and

(5) by inserting after paragraph (3), the following:

“(4) The Secretary may amend the regulations prescribed under paragraph (1) to provide that the standards described in paragraph (2)(A) take into consideration improvements in the health and safety of occupants of dwelling units, and other non-energy benefits, from weatherization.”.

(d) **CONTRACTOR OPTIMIZATION.**—

(1) **IN GENERAL.**—The Energy Conservation and Production Act is amended by inserting after section 414B (42 U.S.C. 6864b) the following:

#### “SEC. 414C. CONTRACTOR OPTIMIZATION.

“(a) **IN GENERAL.**—The Secretary may request that entities receiving funding from the Federal Government or from a State through a weatherization assistance program under section 413 or section 414 perform periodic reviews of the use of private contractors in the provision of weatherization assistance, and encourage expanded use of contractors as appropriate.

“(b) **USE OF TRAINING FUNDS.**—Entities described in subsection (a) may use funding described in such subsection to train private, non-Federal entities that are contracted to provide weatherization assistance under a weatherization program, in accordance with rules determined by the Secretary.”.

(2) **TABLE OF CONTENTS AMENDMENT.**—The table of contents for the Energy Conservation and Production Act is amended by inserting after the item relating to section 414B the following:

“Sec. 414C. Contractor optimization.”.

(e) **FINANCIAL ASSISTANCE FOR WAP ENHANCEMENT AND INNOVATION.**—

(1) **IN GENERAL.**—The Energy Conservation and Production Act is amended by inserting after section 414C (as added by subsection (d) of this section) the following:

#### “SEC. 414D. FINANCIAL ASSISTANCE FOR WAP ENHANCEMENT AND INNOVATION.

“(a) **PURPOSES.**—The purposes of this section are—

“(1) to expand the number of dwelling units that are occupied by low-income persons that receive weatherization assistance by making such dwelling units weatherization-ready;

“(2) to promote the deployment of renewable energy in dwelling units that are occupied by low-income persons;

“(3) to ensure healthy indoor environments by enhancing or expanding health and safety measures and resources available to dwellings that are occupied by low-income persons;

“(4) to disseminate new methods and best practices among entities providing weatherization assistance; and

“(5) to encourage entities providing weatherization assistance to hire and retain employees who are individuals—

“(A) from the community in which the assistance is provided; and

“(B) from communities or groups that are underrepresented in the home energy performance workforce, including religious and ethnic minorities, women, veterans, individuals with disabilities, and individuals who are socioeconomically disadvantaged.

“(b) **FINANCIAL ASSISTANCE.**—The Secretary shall, to the extent funds are made available, award financial assistance, on an annual basis, through a competitive process to entities receiving funding from the Federal Government or from a State, tribal organization, or unit of general purpose local government through a weatherization program under section 413 or section

414, or to nonprofit entities, to be used by such an entity—

“(1) with respect to dwelling units that are occupied by low-income persons, to—

“(A) implement measures to make such dwelling units weatherization-ready by addressing structural, plumbing, roofing, and electrical issues, environmental hazards, or other measures that the Secretary determines to be appropriate;

“(B) install energy efficiency technologies, including home energy management systems, smart devices, and other technologies the Secretary determines to be appropriate;

“(C) install renewable energy systems (as defined in section 415(c)(6)(A)); and

“(D) implement measures to ensure healthy indoor environments by improving indoor air quality, accessibility, and other healthy homes measures as determined by the Secretary;

“(2) to improve the capability of the entity—

“(A) to significantly increase the number of energy retrofits performed by such entity;

“(B) to replicate best practices for work performed pursuant to this section on a larger scale;

“(C) to leverage additional funds to sustain the provision of weatherization assistance and other work performed pursuant to this section after financial assistance awarded under this section is expended; and

“(D) to hire and retain employees who are individuals described subsection (a)(5);

“(3) for innovative outreach and education regarding the benefits and availability of weatherization assistance and other assistance available pursuant to this section;

“(4) for quality control of work performed pursuant to this section;

“(5) for data collection, measurement, and verification with respect to such work;

“(6) for program monitoring, oversight, evaluation, and reporting regarding such work;

“(7) for labor, training, and technical assistance relating to such work;

“(8) for planning, management, and administration (up to a maximum of 15 percent of the assistance provided); and

“(9) for such other activities as the Secretary determines to be appropriate.

“(c) AWARD FACTORS.—In awarding financial assistance under this section, the Secretary shall consider—

“(1) the applicant's record of constructing, renovating, repairing, or making energy efficient single-family, multifamily, or manufactured homes that are occupied by low-income persons, either directly or through affiliates, chapters, or other partners (using the most recent year for which data are available);

“(2) the number of dwelling units occupied by low-income persons that the applicant has built, renovated, repaired, weatherized, or made more energy efficient in the 5 years preceding the date of the application;

“(3) the qualifications, experience, and past performance of the applicant, including experience successfully managing and administering Federal funds;

“(4) the strength of an applicant's proposal to achieve one or more of the purposes under subsection (a);

“(5) the extent to which such applicant will utilize partnerships and regional coordination to achieve one or more of the purposes under subsection (a);

“(6) regional and climate zone diversity;

“(7) urban, suburban, and rural localities; and

“(8) such other factors as the Secretary determines to be appropriate.

“(d) APPLICATIONS.—

“(1) ADMINISTRATION.—To be eligible for an award of financial assistance under this section, an applicant shall submit to the Secretary an application in such manner and containing such information as the Secretary may require.

“(2) AWARDS.—Subject to the availability of appropriations, not later than 270 days after the

date of enactment of this section, the Secretary shall make a first award of financial assistance under this section.

“(e) MAXIMUM AMOUNT AND TERM.—

“(1) IN GENERAL.—The total amount of financial assistance awarded to an entity under this section shall not exceed \$2,000,000.

“(2) TECHNICAL AND TRAINING ASSISTANCE.—The total amount of financial assistance awarded to an entity under this section shall be reduced by the cost of any technical and training assistance provided by the Secretary that relates to such financial assistance.

“(3) TERM.—The term of an award of financial assistance under this section shall not exceed 3 years.

“(4) RELATIONSHIP TO FORMULA GRANTS.—An entity may use financial assistance awarded to such entity under this section in conjunction with other financial assistance provided to such entity under this part.

“(f) REQUIREMENTS.—Not later than 90 days after the date of enactment of this section, the Secretary shall issue requirements to implement this section, including, for entities receiving financial assistance under this section—

“(1) standards for allowable expenditures;

“(2) a minimum saving-to-investment ratio; and

“(3) standards for—

“(A) training programs;

“(B) energy audits;

“(C) the provision of technical assistance;

“(D) monitoring activities carried out using such financial assistance;

“(E) verification of energy and cost savings;

“(F) liability insurance requirements; and

“(G) recordkeeping and reporting requirements, which shall include reporting to the Office of Weatherization and Intergovernmental Programs of the Department of Energy applicable data on each dwelling unit retrofitted or otherwise assisted pursuant to this section.

“(g) COMPLIANCE WITH STATE AND LOCAL LAW.—Nothing in this section supersedes or otherwise affects any State or local law, to the extent that the State or local law contains a requirement that is more stringent than the applicable requirement of this section.

“(h) REVIEW AND EVALUATION.—The Secretary shall review and evaluate the performance of each entity that receives an award of financial assistance under this section (which may include an audit).

“(i) ANNUAL REPORT.—The Secretary shall submit to Congress an annual report that provides a description of—

“(1) actions taken under this section to achieve the purposes of this section; and

“(2) accomplishments as a result of such actions, including energy and cost savings achieved.

“(j) FUNDING.—

“(1) AMOUNTS.—

“(A) IN GENERAL.—For each of fiscal years 2021 through 2025, of the amount made available under section 422 for such fiscal year to carry out the weatherization program under this part (not including any of such amount made available for Department of Energy headquarters training or technical assistance), not more than—

“(i) 2 percent of such amount (if such amount is \$225,000,000 or more but less than \$260,000,000) may be used to carry out this section;

“(ii) 4 percent of such amount (if such amount is \$260,000,000 or more but less than \$300,000,000) may be used to carry out this section; and

“(iii) 6 percent of such amount (if such amount is \$300,000,000 or more) may be used to carry out this section.

“(B) MINIMUM.—For each of fiscal years 2021 through 2025, if the amount made available under section 422 (not including any of such amount made available for Department of Energy headquarters training or technical assistance) for such fiscal year is less than \$225,000,000, no funds shall be made available to carry out this section.

“(2) LIMITATION.—For any fiscal year, the Secretary may not use more than \$25,000,000 of the amount made available under section 422 to carry out this section.

“(k) TERMINATION.—The Secretary may not award financial assistance under this section after September 30, 2024.”

(2) TABLE OF CONTENTS.—The table of contents for the Energy Conservation and Production Act is amended by inserting after the item relating to section 414C the following:

“Sec. 414D. Financial assistance for WAP enhancement and innovation.”

(f) HIRING.—

(1) IN GENERAL.—The Energy Conservation and Production Act is amended by inserting after section 414D (as added by subsection (e) of this section) the following:

“SEC. 414E. HIRING.

“The Secretary may, as the Secretary determines appropriate, encourage entities receiving funding from the Federal Government or from a State through a weatherization program under section 413 or section 414, to prioritize the hiring and retention of employees who are individuals described in section 414D(a)(5).”

(2) TABLE OF CONTENTS.—The table of contents for the Energy Conservation and Production Act is amended by inserting after the item relating to section 414D the following:

“Sec. 414E. Hiring.”

(g) INCREASE IN ADMINISTRATIVE FUNDS.—Section 415(a)(1) of the Energy Conservation and Production Act (42 U.S.C. 6865(a)(1)) is amended by striking “10 percent” and inserting “15 percent”.

(h) AMENDING RE-WEATHERIZATION DATE.—Paragraph (2) of section 415(c) of the Energy Conservation and Production Act (42 U.S.C. 6865(c)) is amended to read as follows:

“(2) Dwelling units weatherized (including dwelling units partially weatherized) under this part, or under other Federal programs (in this paragraph referred to as ‘previous weatherization’), may not receive further financial assistance for weatherization under this part until the date that is 15 years after the date such previous weatherization was completed. This paragraph does not preclude dwelling units that have received previous weatherization from receiving assistance and services (including the provision of information and education to assist with energy management and evaluation of the effectiveness of installed weatherization materials) other than weatherization under this part or under other Federal programs, or from receiving non-Federal assistance for weatherization.”

(i) ANNUAL REPORT.—Section 421 of the Energy Conservation and Production Act (42 U.S.C. 6871) is amended by inserting “the number of multifamily buildings in which individual dwelling units were weatherized during the previous year, the number of individual dwelling units in multifamily buildings weatherized during the previous year,” after “the average size of the dwellings being weatherized.”

**SEC. 33232. REPORT ON WAIVERS.**

Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a report on the status of any request made after September 30, 2010, for a waiver of any requirement under section 200.313 of title 2, Code of Federal Regulations, as such requirement applies with respect to the weatherization assistance program under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.), including a description of any such waiver that has been granted and any such request for a waiver that has been considered but not granted.

### CHAPTER 3—ENERGY EFFICIENT CONSERVATION BLOCK GRANTS

**SEC. 33241. ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT PROGRAM.**

(a) PURPOSE.—Section 542(b)(1) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17152(b)(1)) is amended—

(1) in subparagraph (A), by striking “; and” and inserting a semicolon;

(2) in subparagraph (B), by striking the semicolon and inserting “; and”; and

(3) by adding at the end the following:

“(C) diversifies energy supplies, including by facilitating and promoting the use of alternative fuels;”.

(b) **USE OF FUNDS.**—Section 544(9) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17154(9)) is amended to read as follows:

“(9) deployment of energy distribution technologies that significantly increase energy efficiency or expand access to alternative fuels, including—

“(A) distributed resources;

“(B) district heating and cooling systems; and

“(C) infrastructure for delivering alternative fuels;”.

(c) **COMPETITIVE GRANTS.**—Section 546(c)(2) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17156(c)(2)) is amended by inserting “, including projects to expand the use of alternative fuels” before the period at the end.

(d) **FUNDING.**—Section 548(a) of the Energy Independence and Security Act of 2007 (42 U.S.C. 17158(a)) is amended to read as follows:

“(a) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **GRANTS.**—There is authorized to be appropriated to the Secretary to carry out the program \$3,500,000,000 for each of fiscal years 2021 through 2025.

“(2) **ADMINISTRATIVE COSTS.**—The Secretary may use for administrative expenses of the program not more than 1 percent of the amounts made available under paragraph (1) in each of fiscal years 2021 through 2025.”.

(e) **TECHNICAL AMENDMENTS.**—Section 543 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17153) is amended—

(1) in subsection (c), by striking “subsection (a)(2)” and inserting “subsection (a)(3)”; and

(2) in subsection (d), by striking “subsection (a)(3)” and inserting “subsection (a)(4)”.

#### **CHAPTER 4—FEDERAL ENERGY AND WATER MANAGEMENT PERFORMANCE**

##### **SEC. 33251. ENERGY AND WATER PERFORMANCE REQUIREMENT FOR FEDERAL FACILITIES.**

(a) **IN GENERAL.**—Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is amended—

(1) in the section heading, by inserting “AND WATER” after “ENERGY”; and

(2) in subsection (a)—

(A) in the subsection heading, by striking “ENERGY PERFORMANCE REQUIREMENT FOR FEDERAL BUILDINGS” and inserting “ENERGY AND WATER PERFORMANCE REQUIREMENT FOR FEDERAL FACILITIES”; and

(B) by striking paragraph (1) and inserting the following:

“(1) **IN GENERAL.**—Subject to paragraph (2), the head of each agency shall—

“(A) for each of fiscal years 2020 through 2030, reduce average facility energy intensity (as measured in British thermal units per gross square foot) at facilities of the agency by 2.5 percent each fiscal year relative to the average facility energy intensity of the facilities of the agency in fiscal year 2018;

“(B) for each of fiscal years 2020 through 2030, improve water use efficiency and management, including stormwater management, at facilities of the agency by reducing agency water consumption intensity—

“(i) by reducing the potable water consumption by 54 percent by fiscal year 2030, relative to the potable water consumption at facilities of the agency in fiscal year 2007, through reductions of 2 percent each fiscal year (as measured in gallons per gross square foot);

“(ii) by reducing the industrial, landscaping, and agricultural water consumption of the agency, as compared to a baseline of that consumption at facilities of the agency in fiscal year 2010, through reductions of 2 percent each fiscal year (as measured in gallons); and

“(iii) by installing appropriate infrastructure features at facilities of the agency to improve stormwater and wastewater management; and

“(C) to the maximum extent practicable, in carrying out subparagraphs (A) and (B), take measures that are life cycle cost-effective.”;

(C) in paragraph (2)—

(i) by striking “(2) An agency” and inserting the following:

“(2) **ENERGY AND WATER INTENSIVE FACILITY EXCLUSION.**—An agency”; and

(ii) by striking “building” and inserting “facility”;

(iii) by inserting “and water” after “energy” each place it appears; and

(iv) by striking “buildings” and inserting “facilities”; and

(D) by striking paragraph (3) and inserting the following:

“(3) **RECOMMENDATIONS.**—Not later than December 31, 2029, the Secretary shall—

“(A) review the results of the implementation of the energy and water performance requirements established under paragraph (1); and

“(B) submit to Congress recommendations concerning energy and water performance requirements for fiscal years 2031 through 2040.”;

(3) in subsection (b)—

(A) in the subsection heading, by inserting “AND WATER” after “ENERGY”; and

(B) by striking paragraph (1) and inserting the following:

“(1) **IN GENERAL.**—Each agency shall—

“(A) not later than October 1, 2020, to the maximum extent practicable, begin installing in facilities owned by the United States all energy and water conservation measures determined by the Secretary to be life cycle cost-effective; and

“(B) complete the installation described in subparagraph (A) as soon as practicable after the date referred to in that subparagraph.”;

(4) in subsection (c)—

(A) in paragraph (1)—

(i) by striking “Federal building or collection of Federal buildings” each place it appears and inserting “Federal facility”; and

(ii) in subparagraph (A)—

(I) in the matter preceding clause (i), by striking “An agency” and inserting “The head of each agency”; and

(II) by inserting “or water” after “energy” each place it appears; and

(iii) in subparagraph (B)(i), by inserting “or water” after “energy”; and

(B) in paragraph (2)—

(i) by striking “buildings” and inserting “facilities”; and

(ii) by striking “building” and inserting “facility”; and

(C) in paragraph (3), by adding at the end the following: “Not later than one year after the date of enactment of the Moving Forward Act, the Secretary shall issue guidelines to establish criteria for exclusions to water performance requirements under paragraph (1). The Secretary shall update the criteria for exclusions under this subsection as appropriate to reflect changing technology and other conditions.”;

(5) in subsection (d)(2)—

(A) by inserting “and water” after “energy”; and

(B) by striking “buildings” and inserting “facilities”; and

(6) in subsection (e)—

(A) in the subsection heading, by inserting “AND WATER” after “ENERGY”; and

(B) in paragraph (1)—

(i) by striking “By October 1” and inserting the following:

“(A) **ENERGY.**—By October 1”; and

(ii) by striking “buildings” each place it appears and inserting “facilities”; and

(iii) by adding at the end the following:

“(B) **WATER.**—By February 1, 2025, in accordance with guidelines established by the Secretary under paragraph (2), each agency shall use water meters at facilities of the agency where doing so will assist in reducing the cost of water used at such facilities.”;

(C) in paragraph (2)—

(i) in subparagraph (A)—

(I) by striking “and” before “Federal”; and

(II) by inserting “and any other person the Secretary deems necessary,” before “shall”; and

(III) by striking “paragraph (1).” and inserting “paragraph (1)(A). Not later than 180 days after the date of enactment of the Moving Forward Act, the Secretary, in consultation with such departments and entities, shall establish guidelines for agencies to carry out paragraph (1)(B).”;

(ii) in subparagraph (B)—

(I) by amending clause (i)(II) to read as follows:

“(II) the extent to which metering is expected to result in increased potential for energy and water management, increased potential for energy and water savings, energy and water efficiency improvements, and cost savings due to utility contract aggregation; and”; and

(II) in clause (ii), by inserting “and water” after “energy”; and

(III) in clause (iii), by striking “buildings” and inserting “facilities”; and

(IV) in clause (iv), by striking “energy use of a Federal building” and inserting “energy and water use of a Federal facility”; and

(D) in paragraph (4)—

(i) in subparagraph (A)—

(I) by striking “this paragraph” and inserting “the Moving Forward Act”; and

(II) by inserting “and water” before “use in”; and

(ii) in subparagraph (B)—

(I) by striking “buildings” each place it appears and inserting “facilities”; and

(II) in clause (ii), in the matter preceding subclause (I), by inserting “and water” after “energy”; and

(7) in subsection (f)—

(A) in the subsection heading, by striking “BUILDINGS” and inserting “FACILITIES”; and

(B) in paragraph (1)—

(i) in the matter preceding subparagraph (A), by striking “In this subsection” and inserting “In this section”; and

(ii) in subparagraph (B)(i)(II), by inserting “and water” after “energy”; and

(iii) in subparagraph (C)(i), by inserting “that consumes energy or water and is” before “owned or operated”; and

(C) in paragraph (2)—

(i) in subparagraph (A), by inserting “and water” before “use”; and

(ii) in subparagraph (B)—

(I) by striking “energy” before “efficiency”; and

(II) by inserting “or water” before “use”; and

(D) in paragraph (7)(B)(ii)(II), by inserting “and water” after “energy”; and

(E) in paragraph (8)—

(i) by striking “building” each place it appears and inserting “facility”; and

(ii) in subparagraph (A), by adding at the end the following: “The energy manager shall enter water use data for each metered facility that is (or is a part of) a facility that meets the criteria established by the Secretary under paragraph (2)(B) into a facility water use benchmarking system.”; and

(iii) in subparagraph (B), by striking “this subsection” and inserting “the date of enactment of the Moving Forward Act”; and

(F) in paragraph (9)(A), in the matter preceding clause (i), by inserting “and water” after “energy”; and

(8) in subsection (g)(1)—

(A) by striking “building” and inserting “facility”; and

(B) by striking “energy efficient” and inserting “energy and water efficient”.

(b) **CONFORMING AMENDMENT.**—The table of contents for the National Energy Conservation Policy Act (Public Law 95-619; 92 Stat. 3206) is amended by striking the item relating to section 543 and inserting the following:

“Sec. 543. Energy and water management requirements.”.

**SEC. 33252. FEDERAL ENERGY MANAGEMENT PROGRAM.**

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is amended by adding at the end the following:

“(h) **FEDERAL ENERGY MANAGEMENT PROGRAM.**—

“(1) **IN GENERAL.**—The Secretary shall carry out a program, to be known as the ‘Federal Energy Management Program’ (referred to in this subsection as the ‘Program’), to facilitate the implementation by the Federal Government of cost-effective energy and water management and energy-related investment practices—

“(A) to coordinate and strengthen Federal energy and water resilience; and

“(B) to promote environmental stewardship.

“(2) **FEDERAL DIRECTOR.**—The Secretary shall appoint an individual to serve as the director of the Program (referred to in this subsection as the ‘Federal Director’), which shall be a career position in the Senior Executive service, to administer the Program.

“(3) **PROGRAM ACTIVITIES.**—

“(A) **STRATEGIC PLANNING AND TECHNICAL ASSISTANCE.**—In administering the Program, the Federal Director shall—

“(i) provide technical assistance and project implementation support and guidance to agencies to identify, implement, procure, and track energy and water conservation measures required under this Act and under other provisions of law;

“(ii) in coordination with the Administrator of the General Services Administration, establish appropriate procedures, methods, and best practices for use by agencies to select, monitor, and terminate contracts entered into pursuant to a utility incentive program under section 546(c) with utilities;

“(iii) carry out the responsibilities of the Secretary under section 801, as determined appropriate by the Secretary;

“(iv) establish and maintain internet-based information resources and project tracking systems and tools for energy and water management;

“(v) coordinate comprehensive and strategic approaches to energy and water resilience planning for agencies; and

“(vi) establish a recognition program for Federal achievement in energy and water management, energy-related investment practices, environmental stewardship, and other relevant areas, through events such as individual recognition award ceremonies and public announcements.

“(B) **ENERGY AND WATER MANAGEMENT AND REPORTING.**—In administering the Program, the Federal Director shall—

“(i) track and report on the progress of agencies in meeting the requirements of the agency under this section;

“(ii) make publicly available agency performance data required under—

“(I) this section and sections 544, 546, 547, and 548; and

“(II) section 203 of the Energy Policy Act of 2005 (42 U.S.C. 15852);

“(iii)(I) collect energy and water use and consumption data from each agency; and

“(II) based on that data, submit to each agency a report that will facilitate the energy and water management, energy-related investment practices, and environmental stewardship of the agency in support of Federal goals under this Act and under other provisions of law;

“(iv) carry out the responsibilities of the Secretary under section 305 of the Energy Conservation and Production Act (42 U.S.C. 6834); and

“(v) in consultation with the Administrator of the General Services Administration, acting through the head of the Office of High-Performance Green Buildings, establish and implement sustainable design principles for Federal facilities;

“(vi) designate products that meet the highest energy conservation standards for categories not

covered under the Energy Star program established under section 324A of the Energy Policy and Conservation Act (42 U.S.C. 6294a).

“(C) **FEDERAL INTERAGENCY COORDINATION.**—In administering the Program, the Federal Director shall—

“(i) develop and implement accredited training consistent with existing Federal programs and activities—

“(I) relating to energy and water use, management, and resilience in Federal facilities, energy-related investment practices, and environmental stewardship; and

“(II) that includes in-person training, internet-based programs, and national in-person training events;

“(ii) carry out the functions of the Secretary with respect to the Interagency Energy Management Task Force under section 547; and

“(iii) report on the implementation of the priorities of the President, including Executive Orders, relating to energy and water use in Federal facilities, in coordination with—

“(I) the Office of Management and Budget;

“(II) the Council on Environmental Quality; and

“(III) any other entity, as considered necessary by the Federal Director.

“(D) **FACILITY AND FLEET OPTIMIZATION.**—In administering the Program, the Federal Director shall develop guidance, supply assistance to, and track the progress of agencies—

“(i) in conducting portfolio-wide facility energy and water resilience planning and project integration;

“(ii) in building new construction and major renovations to meet the sustainable design and energy and water performance standards required under this section;

“(iii) in developing guidelines for—

“(I) facility commissioning; and

“(II) facility operations and maintenance; and

“(iv) in coordination with the Administrator of the General Services Administration, in meeting statutory and agency goals for Federal fleet vehicles.

“(4) **MANAGEMENT COUNCIL.**—The Federal Director shall establish a management council to advise the Federal Director that shall—

“(A) convene not less frequently than once every quarter; and

“(B) consist of representatives from—

“(i) the Council on Environmental Quality;

“(ii) the Office of Management and Budget; and

“(iii) the Office of Federal High-Performance Green Buildings in the General Services Administration.

“(5) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the Secretary to carry out this subsection \$36,000,000 for each of fiscal years 2021 through 2025.”

**Subtitle C—Vehicles****CHAPTER 1—DERA****SEC. 33301. REAUTHORIZATION OF DIESEL EMISSIONS REDUCTION PROGRAM.**

Section 797(a) of the Energy Policy Act of 2005 (42 U.S.C. 16137(a)) is amended by striking “\$100,000,000 for each of fiscal years 2012 through 2016” and inserting “\$500,000,000 for each of fiscal years 2021 through 2025”.

**CHAPTER 2—CLEAN COMMUTE FOR KIDS****SEC. 33311. REAUTHORIZATION OF CLEAN SCHOOL BUS PROGRAM.**

(a) **DEFINITIONS.**—

(1) **ALTERNATIVE FUEL.**—Section 741(a)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16091(a)) is amended—

(A) in subparagraph (B), by striking “or” after the semicolon;

(B) in subparagraph (C), by striking the period at the end and inserting “; or”; and

(C) by adding at the end the following new subparagraph:

“(D) electricity.”

(2) **CLEAN SCHOOL BUS.**—Paragraph (3) of section 741(a) of the Energy Policy Act of 2005 (42 U.S.C. 16091(a)) is amended to read as follows:

“(3) **CLEAN SCHOOL BUS.**—The term ‘clean school bus’ means—

“(A) a school bus with a gross vehicle weight of greater than 14,000 pounds that—

“(i) is powered by a heavy duty engine; and

“(ii) is operated solely on an alternative fuel or ultra-low sulfur diesel fuel; or

“(B) a vehicle designed to carry more than 10 passengers that—

“(i) complies with Federal motor vehicle safety standards for school buses; and

“(ii) meets or exceeds Federal vehicle emission standards for medium-duty passenger vehicles for model year 2016.”

(b) **PROGRAM FOR RETROFIT OR REPLACEMENT OF CERTAIN EXISTING SCHOOL BUSES WITH CLEAN SCHOOL BUSES.**—

(1) **NATIONAL GRANT, REBATE, AND LOAN PROGRAMS.**—

(A) **IN GENERAL.**—Section 741(b)(1)(A) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)(1)(A)) is amended by inserting after “awarding grants” the following: “, rebates, and low-cost revolving loans, as determined by the Administrator, including through contracts pursuant to subsection (d).”

(B) **CONFORMING CHANGES.**—Section 741 of the Energy Policy Act of 2005 (42 U.S.C. 16091) is amended—

(i) in subsection (a)(4)(B), by striking “grant funds” and inserting “award funds”;

(ii) in subsection (b)(1)(B), by striking “awarding grants” each place it appears and inserting “making awards”;

(iii) in the heading of subsection (b)(2), by striking “GRANT APPLICATIONS” and inserting “AWARD APPLICATIONS”;

(iv) in subsection (b)(2)(A), by striking “grant applications” and inserting “award applications”;

(v) in subsection (b)(3)(A), by striking “grant” and insert “award”;

(vi) and (b)(4)—

(I) in the paragraph heading, by striking “GRANTS” and inserting “AWARDS”;

(II) by striking “award grants” and inserting “make awards”;

(vii) in subsection (b)(7)—

(I) by striking “grant awards” and inserting “awards”; and

(II) by striking “grant funding” and inserting “funding”;

(viii) in subsection (b)(8)(A)(ii)—

(I) in subclauses (I) and (II), by striking “grant applications” each place it appears and inserting “award applications”; and

(II) in subclause (III)—

(aa) by striking “grants awarded” and inserting “awards made”; and

(bb) by striking “grant recipients” and inserting “award recipients”; and

(ix) in subsection (c)(3)—

(I) in subparagraph (A)—

(aa) by striking “grant recipients” and inserting “award recipients”; and

(bb) by striking “grants” and inserting “awards”; and

(II) in subparagraph (C), by striking “grant program” and inserting “award program”.

(2) **PRIORITY OF AWARD APPLICATIONS.**—Section 741(b)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)(2)) is amended—

(A) in subparagraph (A)—

(i) by striking “1977” and inserting “2007”; and

(ii) by inserting before the period at the end “with clean school buses with low or zero emissions”; and

(B) by amending subparagraph (B) to read as follows:

“(B) **RETROFITTING.**—In the case of award applications to retrofit school buses, the Administrator shall give highest priority to applicants that propose to retrofit school buses manufactured in or after model year 2010 to become clean school buses.”

(3) **USE OF SCHOOL BUS FLEET.**—Section 741(b)(3)(B) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)(3)(B)) is amended by inserting “charged,” after “operated.”.

(4) **REPLACEMENT AWARDS.**—Paragraph (5) of section 741(b) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)) is amended to read as follows:

“(5) **REPLACEMENT AWARDS.**—In the case of awards to replace school buses—

“(A) the Administrator may make awards for up to 60 percent of the replacement costs; and

“(B) such replacement costs may include the costs of acquiring the clean school buses and charging and fueling infrastructure.”.

(5) **ULTRA LOW-SULFUR DIESEL FUEL.**—Section 741(b) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)) is amended—

(A) by striking paragraph (6); and

(B) by redesignating paragraph (7) as paragraph (6).

(6) **SCRAPPAGE.**—Section 741(b) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)) is further amended by inserting after paragraph (6), as redesignated, the following new paragraph:

“(7) **SCRAPPAGE.**—In the case of an award under this section for the replacement of a school bus or a retrofit including installation of a new engine, the Administrator shall require the recipient of the award to verify that the replaced bus, or the engine of a retrofitted bus that was removed, was returned to the supplier for remanufacturing to a more stringent set of engine emissions standards or for scrappage.”.

(c) **EDUCATION.**—Paragraph (1) of section 741(c) of the Energy Policy Act of 2005 (42 U.S.C. 16091(c)) is amended to read as follows:

“(1) **IN GENERAL.**—Not later than 90 days after the date of enactment of the Clean Commute for Kids Act of 2020, the Administrator shall develop an education outreach program to promote and explain the award program under subsection (b), as amended by such Act.”.

(d) **CONTRACT PROGRAMS; ADMINISTRATIVE COSTS.**—Section 741 of the Energy Policy Act of 2005 (42 U.S.C. 16091) is amended—

(1) by redesignating subsection (d) as subsection (f); and

(2) by inserting after subsection (c) the following new subsections:

“(d) **CONTRACT PROGRAMS.**—

“(1) **AUTHORITY.**—In addition to the use of contracting authority otherwise available to the Administrator, the Administrator may enter into contracts with eligible contractors described in paragraph (2) for awarding rebates and low-cost revolving loans pursuant to subsection (b)(1).

“(2) **ELIGIBLE CONTRACTORS.**—A contractor is an eligible contractor described in this paragraph if the contractor is a for-profit, not-for-profit, or nonprofit entity that has the capacity—

“(A) to sell clean school buses or equipment to, or to arrange financing for, individuals or entities that own a school bus or fleet of school buses; or

“(B) to upgrade school buses or their equipment with verified or Environmental Protection Agency-certified engines or technologies, or to arrange financing for such upgrades.

“(e) **ADMINISTRATIVE COSTS.**—The Administrator may not use, for the administrative costs of carrying out this section, more than one percent of the amounts made available to carry out this section for any fiscal year.”.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—Subsection (f), as redesignated, of section 741 of the Energy Policy Act of 2005 (42 U.S.C. 16091) is amended to read as follows:

“(f) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—There is authorized to be appropriated to the Administrator to carry out this section, to remain available until expended, \$65,000,000 for each of fiscal years 2021 through 2025, of which not less than \$15,000,000 each such fiscal year shall be used for grants under this section to eligible recipients proposing to replace or retrofit school buses to serve an underserved or disadvantaged community.

“(2) **DEFINITION.**—In this subsection, the term ‘underserved or disadvantaged community’ means a community located in a zip code within a census tract that is identified as—

“(A) a low-income community;

“(B) an urban community of color; or

“(C) any other urban community that the Administrator determines is disproportionately vulnerable to, or bears a disproportionate burden of, any combination of economic, social, and environmental stressors.”.

## CHAPTER 3—REFRIGERATED VEHICLES

### SEC. 33321. PILOT PROGRAM FOR THE ELECTRIFICATION OF CERTAIN REFRIGERATED VEHICLES.

(a) **ESTABLISHMENT OF PILOT PROGRAM.**—The Administrator shall establish and carry out a pilot program to award funds, in the form of grants, rebates, and low-cost revolving loans, as determined appropriate by the Administrator, on a competitive basis, to eligible entities to carry out projects described in subsection (b).

(b) **PROJECTS.**—An eligible entity receiving an award of funds under subsection (a) may use such funds only for one or more of the following projects:

(1) **TRANSPORT REFRIGERATION UNIT REPLACEMENT.**—A project to retrofit a heavy-duty vehicle by replacing or retrofitting the existing diesel-powered transport refrigeration unit in such vehicle with an electric transport refrigeration unit and retiring the replaced unit for scrappage.

(2) **SHORE POWER INFRASTRUCTURE.**—A project to purchase and install shore power infrastructure or other equipment that enables transport refrigeration units to connect to electric power and operate without using diesel fuel.

(c) **MAXIMUM AMOUNTS.**—The amount of an award of funds under subsection (a) shall not exceed—

(1) for the costs of a project described in subsection (b)(1), 75 percent of such costs; and

(2) for the costs of a project described in subsection (b)(2), 55 percent of such costs.

(d) **APPLICATIONS.**—To be eligible to receive an award of funds under subsection (a), an eligible entity shall submit to the Administrator—

(1) a description of the air quality in the area served by the eligible entity, including a description of how the air quality is affected by diesel emissions from heavy-duty vehicles;

(2) a description of the project proposed by the eligible entity, including—

(A) any technology to be used or funded by the eligible entity; and

(B) a description of the heavy-duty vehicle or vehicles of the eligible entity, that will be retrofitted, if any, including—

(i) the number of such vehicles;

(ii) the uses of such vehicles;

(iii) the locations where such vehicles dock for the purpose of loading or unloading; and

(iv) the routes driven by such vehicles, including the times at which such vehicles are driven;

(3) an estimate of the cost of the proposed project;

(4) a description of the age and expected lifetime control of the equipment used or funded by the eligible entity; and

(5) provisions for the monitoring and verification of the project including to verify scrappage of replaced units.

(e) **PRIORITY.**—In awarding funds under subsection (a), the Administrator shall give priority to proposed projects that, as determined by the Administrator—

(1) maximize public health benefits;

(2) are the most cost-effective; and

(3) will serve the communities that are most polluted by diesel motor emissions, including communities that the Administrator identifies as being in either nonattainment or maintenance of the national ambient air quality standards for a criteria pollutant, particularly for—

(A) ozone; and

(B) particulate matter.

(f) **DATA RELEASE.**—Not later than 120 days after the date on which an award of funds is made under this section, the Administrator shall publish on the website of the Environmental Protection Agency, on a downloadable electronic database, information with respect to such award of funds, including—

(1) the name and location of the recipient;

(2) the total amount of funds awarded;

(3) the intended use or uses of the awarded funds;

(4) the date on which the award of funds was approved;

(5) where applicable, an estimate of any air pollution or greenhouse gas emissions avoided as a result of the project funded by the award; and

(6) any other data the Administrator determines to be necessary for an evaluation of the use and effect of awarded funds provided under this section.

(g) **REPORTS TO CONGRESS.**—

(1) **ANNUAL REPORT TO CONGRESS.**—Not later than 1 year after the date of the establishment of the pilot program under this section, and annually thereafter until amounts made available to carry out this section are expended, the Administrator shall submit to Congress and make available to the public a report that describes, with respect to the applicable year—

(A) the number of applications for awards of funds received under such program;

(B) all awards of funds made under such program, including a summary of the data described in subsection (f);

(C) the estimated reduction of annual emissions of air pollutants regulated under section 109 of the Clean Air Act (42 U.S.C. 7409), and the estimated reduction of greenhouse gas emissions, associated with the awards of funds made under such program;

(D) the number of awards of funds made under such program for projects in communities described in subsection (e)(3); and

(E) any other data the Administrator determines to be necessary to describe the implementation, outcomes, or effectiveness of such program.

(2) **FINAL REPORT.**—Not later than 1 year after amounts made available to carry out this section are expended, or 5 years after the pilot program is established, whichever comes first, the Administrator shall submit to Congress and make available to the public a report that describes—

(A) all of the information collected for the annual reports under paragraph (1);

(B) any benefits to the environment or human health that could result from the widespread application of electric transport refrigeration units for short-haul transportation and delivery of perishable goods or other goods requiring climate-controlled conditions, including in low-income communities and communities of color;

(C) any challenges or benefits that recipients of awards of funds under such program reported with respect to the integration or use of electric transport refrigeration units and associated technologies;

(D) an assessment of the national market potential for electric transport refrigeration units;

(E) an assessment of challenges and opportunities for widespread deployment of electric transport refrigeration units, including in urban areas; and

(F) recommendations for how future Federal, State, and local programs can best support the adoption and widespread deployment of electric transport refrigeration units.

(h) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) **DIESEL-POWERED TRANSPORT REFRIGERATION UNIT.**—The term “diesel-powered transport refrigeration unit” means a transport refrigeration unit that is powered by an independent diesel internal combustion engine.

(3) **ELECTRIC TRANSPORT REFRIGERATION UNIT.**—The term “electric transport refrigeration

unit” means a transport refrigeration unit in which the refrigeration or climate-control system is driven by an electric motor when connected to shore power infrastructure or other equipment that enables transport refrigeration units to connect to electric power, including all-electric transport refrigeration units, hybrid electric transport refrigeration units, and stand-by electric transport refrigeration units.

(4) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) a regional, State, local, or Tribal agency, or port authority, with jurisdiction over transportation or air quality;

(B) a nonprofit organization or institution that—

(i) represents or provides pollution reduction or educational services to persons or organizations that own or operate heavy-duty vehicles or fleets of heavy-duty vehicles; or

(ii) has, as its principal purpose, the promotion of air quality;

(C) an individual or entity that is the owner of record of a heavy-duty vehicle or a fleet of heavy-duty vehicles that operates for the transportation and delivery of perishable goods or other goods requiring climate-controlled conditions;

(D) an individual or entity that is the owner of record of a facility that operates as a warehouse or storage facility for perishable goods or other goods requiring climate-controlled conditions; or

(E) a hospital or public health institution that utilizes refrigeration for storage of perishable goods or other goods requiring climate-controlled conditions.

(5) **HEAVY-DUTY VEHICLE.**—The term “heavy-duty vehicle” means—

(A) a commercial truck or van—

(i) used for the primary purpose of transporting perishable goods or other goods requiring climate-controlled conditions; and

(ii) with a gross vehicle weight rating greater than 6,000 pounds; or

(B) an insulated cargo trailer used in transporting perishable goods or other goods requiring climate-controlled conditions when mounted on a semitrailer.

(6) **SHORE POWER INFRASTRUCTURE.**—The term “shore power infrastructure” means electrical infrastructure that provides power to the electric transport refrigeration unit of a heavy-duty vehicle when such vehicle is stationary on a property where such vehicle is parked or loaded, including a food distribution center or other location where heavy-duty vehicles congregate.

(7) **TRANSPORT REFRIGERATION UNIT.**—The term “transport refrigeration unit” means a climate-control system installed on a heavy-duty vehicle for the purpose of maintaining the quality of perishable goods or other goods requiring climate-controlled conditions.

(i) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—There is authorized to be appropriated to carry out this section \$10,000,000, to remain available until expended.

(2) **ADMINISTRATIVE EXPENSES.**—The Administrator may use not more than 1 percent of amounts made available pursuant to paragraph (1) for administrative expenses to carry out this section.

## CHAPTER 4—EV INFRASTRUCTURE

### SEC. 33331. DEFINITIONS.

In this chapter:

(1) **ELECTRIC VEHICLE SUPPLY EQUIPMENT.**—The term “electric vehicle supply equipment” means any conductors, including ungrounded, grounded, and equipment grounding conductors, electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatuses installed specifically for the purpose of delivering energy to an electric vehicle.

(2) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(3) **UNDERSERVED OR DISADVANTAGED COMMUNITY.**—The term “underserved or disadvantaged community” means—

(A) a community located in a ZIP code that includes a census tract that is identified as—

(i) a low-income community; or

(ii) a community of color; or

(B) any other community that the Secretary determines is disproportionately vulnerable to, or bears a disproportionate burden of, any combination of economic, social, and environmental stressors.

### SEC. 33332. ELECTRIC VEHICLE SUPPLY EQUIPMENT REBATE PROGRAM.

(a) **REBATE PROGRAM.**—Not later than January 1, 2021, the Secretary shall establish a rebate program to provide rebates for covered expenses associated with publicly accessible electric vehicle supply equipment (in this section referred to as the “rebate program”).

(b) **REBATE PROGRAM REQUIREMENTS.**—

(1) **ELIGIBLE ENTITIES.**—A rebate under the rebate program may be made to an individual, a State, local, Tribal, or Territorial government, a private entity, a not-for-profit entity, a nonprofit entity, or a metropolitan planning organization.

(2) **ELIGIBLE EQUIPMENT.**—

(A) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall publish and maintain on the Department of Energy internet website a list of electric vehicle supply equipment that is eligible for the rebate program.

(B) **UPDATES.**—The Secretary may, by regulation, add to, or otherwise revise, the list of electric vehicle supply equipment under subparagraph (A) if the Secretary determines that such addition or revision will likely lead to—

(i) greater usage of electric vehicle supply equipment;

(ii) greater access to electric vehicle supply equipment by users; or

(iii) an improved experience for users of electric vehicle supply equipment.

(C) **LOCATION REQUIREMENT.**—To be eligible for the rebate program, the electric vehicle supply equipment described in subparagraph (A) shall be installed—

(i) in the United States;

(ii) on property—

(I) owned by the eligible entity under paragraph (1); or

(II) on which the eligible entity under paragraph (1) has authority to install electric vehicle supply equipment; and

(iii) at a location that is—

(I) a multi-unit housing structure;

(II) a workplace;

(III) a commercial location; or

(IV) open to the public for a minimum of 12 hours per day;

(3) **APPLICATION.**—

(A) **IN GENERAL.**—An eligible entity under paragraph (1) may submit to the Secretary an application for a rebate under the rebate program. Such application shall include—

(i) the estimated cost of covered expenses to be expended on the electric vehicle supply equipment that is eligible under paragraph (2);

(ii) the estimated installation cost of the electric vehicle supply equipment that is eligible under paragraph (2);

(iii) the global positioning system location, including the integer number of degrees, minutes, and seconds, where such electric vehicle supply equipment is to be installed, and identification of whether such location is—

(I) a multi-unit housing structure;

(II) a workplace;

(III) a commercial location; or

(IV) open to the public for a minimum of 12 hours per day;

(iv) the technical specifications of such electric vehicle supply equipment, including the maximum power voltage and amperage of such equipment; and

(v) any other information determined by the Secretary to be necessary for a complete application.

(B) **REVIEW PROCESS.**—The Secretary shall review an application for a rebate under the re-

bate program and approve an eligible entity under paragraph (1) to receive such rebate if the application meets the requirements of the rebate program under this subsection.

(C) **NOTIFICATION TO ELIGIBLE ENTITY.**—Not later than 1 year after the date on which the eligible entity under paragraph (1) applies for a rebate under the rebate program, the Secretary shall notify the eligible entity whether the eligible entity will be awarded a rebate under the rebate program following the submission of additional materials required under paragraph (5).

(4) **REBATE AMOUNT.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), the amount of a rebate made under the rebate program for each charging unit shall be the lesser of—

(i) 75 percent of the applicable covered expenses;

(ii) \$2,000 for covered expenses associated with the purchase and installation of non-networked level 2 charging equipment;

(iii) \$4,000 for covered expenses associated with the purchase and installation of networked level 2 charging equipment; or

(iv) \$75,000 for covered expenses associated with the purchase and installation of networked direct current fast charging equipment.

(B) **REBATE AMOUNT FOR REPLACEMENT EQUIPMENT.**—A rebate made under the rebate program for replacement of pre-existing electric vehicle supply equipment at a single location shall be the lesser of—

(i) 75 percent of the applicable covered expenses;

(ii) \$1,000 for covered expenses associated with the purchase and installation of non-networked level 2 charging equipment;

(iii) \$2,000 for covered expenses associated with the purchase and installation of networked level 2 charging equipment; or

(iv) \$25,000 for covered expenses associated with the purchase and installation of networked direct current fast charging equipment.

(5) **DISBURSEMENT OF REBATE.**—

(A) **IN GENERAL.**—The Secretary shall disburse a rebate under the rebate program to an eligible entity under paragraph (1), following approval of an application under paragraph (3), if such entity submits the materials required under subparagraph (B).

(B) **MATERIALS REQUIRED FOR DISBURSEMENT OF REBATE.**—Not later than one year after the date on which the eligible entity under paragraph (1) receives notice under paragraph (3)(C) that the eligible entity has been approved for a rebate, such eligible entity shall submit to the Secretary the following—

(i) a record of payment for covered expenses expended on the installation of the electric vehicle supply equipment that is eligible under paragraph (2);

(ii) a record of payment for the electric vehicle supply equipment that is eligible under paragraph (2);

(iii) the global positioning system location of where such electric vehicle supply equipment was installed and identification of whether such location is—

(I) a multi-unit housing structure;

(II) a workplace;

(III) a commercial location; or

(IV) open to the public for a minimum of 12 hours per day;

(iv) the technical specifications of the electric vehicle supply equipment that is eligible under paragraph (2), including the maximum power voltage and amperage of such equipment; and

(v) any other information determined by the Secretary to be necessary.

(C) **AGREEMENT TO MAINTAIN.**—To be eligible for a rebate under the rebate program, an eligible entity under paragraph (1) shall enter into an agreement with the Secretary to maintain the electric vehicle supply equipment that is eligible under paragraph (2) in a satisfactory manner for not less than 5 years after the date on which the eligible entity under paragraph (1) receives the rebate under the rebate program.

(D) **EXCEPTION.**—The Secretary shall not disburse a rebate under the rebate program if materials submitted under subparagraph (B) do not meet the same global positioning system location and technical specifications for the electric vehicle supply equipment that is eligible under paragraph (2) provided in an application under paragraph (3).

(6) **MULTI-PORT CHARGERS.**—An eligible entity under paragraph (1) shall be awarded a rebate under the rebate program for covered expenses relating to the purchase and installation of a multi-port charger based on the number of publicly accessible charging ports, with each subsequent port after the first port being eligible for 50 percent of the full rebate amount.

(7) **HYDROGEN FUEL CELL REFUELING INFRASTRUCTURE.**—Hydrogen fuel cell refueling equipment shall be eligible for a rebate under the rebate program. All requirements related to public accessibility of installed locations shall apply. Of the amounts appropriated to carry out the rebate program, not more than 25 percent may be used for rebates for hydrogen fuel cell refueling equipment.

(8) **REPORT.**—Not later than 3 years after the first date on which the Secretary awards a rebate under the rebate program, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report of the number of rebates awarded for electric vehicle supply equipment and hydrogen fuel cell refueling equipment in each of the location categories described in paragraph (2)(C)(iii).

(c) **DEFINITIONS.**—In this section:

(1) **COVERED EXPENSES.**—The term “covered expenses” means an expense that is associated with the purchase and installation of electric vehicle supply equipment, including—

(A) the cost of electric vehicle supply equipment;

(B) labor costs associated with the installation of such electric vehicle supply equipment, only if wages for such labor are paid at rates not less than those prevailing on similar labor in the locality of installation, as determined by the Secretary of Labor under subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the “Davis-Bacon Act”);

(C) material costs associated with the installation of such electric vehicle supply equipment, including expenses involving electrical equipment and necessary upgrades or modifications to the electrical grid and associated infrastructure required for the installation of such electric vehicle supply equipment;

(D) permit costs associated with the installation of such electric vehicle supply equipment; and

(E) the cost of an on-site energy storage system.

(2) **ELECTRIC VEHICLE.**—The term “electric vehicle” means a vehicle that derives all or part of its power from electricity.

(3) **MULTI-PORT CHARGER.**—The term “multi-port charger” means electric vehicle supply equipment capable of charging more than one electric vehicle.

(4) **LEVEL 2 CHARGING EQUIPMENT.**—The term “level 2 charging equipment” means electric vehicle supply equipment that provides an alternating current power source at a minimum of 240 volts.

(5) **NETWORKED DIRECT CURRENT FAST CHARGING EQUIPMENT.**—The term “networked direct current fast charging equipment” means electric vehicle supply equipment that provides a direct current power source at a minimum of 50 kilowatts and is enabled to connect to a network to facilitate data collection and access.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section \$100,000,000 for each of fiscal years 2021 through 2025.

## SEC. 33333. EXPANDING ACCESS TO ELECTRIC VEHICLES IN UNDERSERVED COMMUNITIES.

(a) **ASSESSMENT.**—

(1) **IN GENERAL.**—

(A) **ASSESSMENT.**—The Secretary shall conduct an assessment of the state of, challenges to, and opportunities for the deployment of electric vehicle charging infrastructure in underserved or disadvantaged communities located in major urban areas and rural areas throughout the United States.

(B) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of the assessment conducted under subparagraph (A), which shall—

(i) describe the state of deployment of electric vehicle charging infrastructure in underserved or disadvantaged communities located in major urban areas and rural areas by providing—

(I) the number of existing and planned Level 2 charging stations and DC FAST charging stations per capita in each State for charging individually owned light-duty and medium-duty electric vehicles;

(II) the number of existing and planned Level 2 charging stations and DC FAST charging stations for charging public and private fleet electric vehicles and medium- and heavy-duty electric equipment and electric vehicles;

(III) the number of Level 2 charging stations and DC FAST charging stations installed in or available to occupants of publicly owned and privately owned multi-unit dwellings;

(IV) information pertaining to policies, plans, and programs that cities, States, utilities, and private entities are using to encourage greater deployment and usage of electric vehicles and the associated electric vehicle charging infrastructure, including programs to encourage deployment of charging stations available to residents in publicly owned and privately owned multi-unit dwellings;

(V) information pertaining to ownership models for Level 2 charging stations and DC FAST charging stations located in publicly owned and privately owned residential multi-unit dwellings, commercial buildings, public and private parking areas, and curb-side locations; and

(VI) information pertaining to how charging stations are financed and the rates charged for the use of Level 2 charging stations and DC FAST charging stations;

(ii) describe the methodology used to obtain the information provided in the report;

(iii) identify the barriers to expanding deployment of electric vehicle charging infrastructure in underserved or disadvantaged communities in major urban areas and rural areas, including any challenges relating to such deployment in multi-unit dwellings;

(iv) compile and provide an analysis of the best practices and policies used by State and local governments and private entities to increase deployment of electric vehicle charging infrastructure in underserved or disadvantaged communities in major urban areas and rural areas, including best practices with respect to—

(I) public outreach and engagement; and

(II) increasing deployment of electric vehicle charging infrastructure in publicly owned and privately owned multi-unit dwellings; and

(v) enumerate and identify the number of electric vehicle charging stations per capita at locations within each major urban area and rural area throughout the United States with detail at the level of ZIP Codes and census tracts.

(2) **FIVE-YEAR UPDATE ASSESSMENT.**—Not later than 5 years after the date of the enactment of this Act, the Secretary shall—

(A) update the assessment conducted under paragraph (1)(A); and

(B) make public and submit to the Committee on Energy and Commerce of the House of Rep-

resentatives and the Committee on Energy and Natural Resources of the Senate a report, which shall—

(i) update the information required by paragraph (1)(B); and

(ii) include a description of case studies and key lessons learned after the date on which the report under paragraph (1)(B) was submitted with respect to expanding the deployment of electric vehicle charging infrastructure in underserved or disadvantaged communities in major urban areas and rural areas.

(b) **DEFINITIONS.**—In this section:

(1) **ELECTRIC VEHICLE CHARGING INFRASTRUCTURE.**—The term “electric vehicle charging infrastructure” means electric vehicle supply equipment and other physical assets that provide for the distribution of and access to electricity for the purpose of charging an electric vehicle or a plug-in hybrid electric vehicle.

(2) **MAJOR URBAN AREA.**—The term “major urban area” means a metropolitan statistical area within the United States with an estimated population that is greater than or equal to 1,500,000.

## SEC. 33334. ENSURING PROGRAM BENEFITS FOR UNDERSERVED AND DISADVANTAGED COMMUNITIES.

In carrying out this chapter, and the amendments made by this chapter, the Secretary shall provide, to the extent practicable access to electric vehicle charging infrastructure, address transportation needs, and provide improved air quality in underserved or disadvantaged communities.

## SEC. 33335. MODEL BUILDING CODE FOR ELECTRIC VEHICLE SUPPLY EQUIPMENT.

(a) **REVIEW.**—The Secretary shall review proposed or final model building codes for—

(1) integrating electric vehicle supply equipment into residential and commercial buildings that include space for individual vehicle or fleet vehicle parking; and

(2) integrating onsite renewable power equipment and electric storage equipment (including electric vehicle batteries to be used for electric storage) into residential and commercial buildings.

(b) **TECHNICAL ASSISTANCE.**—The Secretary shall provide technical assistance to stakeholders representing the building construction industry, manufacturers of electric vehicles and electric vehicle supply equipment, State and local governments, and any other persons with relevant expertise or interests to facilitate understanding of the model code and best practices for adoption by jurisdictions.

## SEC. 33336. ELECTRIC VEHICLE SUPPLY EQUIPMENT COORDINATION.

(a) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Secretary, acting through the Assistant Secretary of the Office of Electricity Delivery and Energy Reliability (including the Smart Grid Task Force), shall convene a group to assess progress in the development of standards necessary to—

(1) support the expanded deployment of electric vehicle supply equipment;

(2) develop an electric vehicle charging network to provide reliable charging for electric vehicles nationwide; and

(3) ensure the development of such network will not compromise the stability and reliability of the electric grid.

(b) **REPORT TO CONGRESS.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall provide to the Committee on Energy and Commerce of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate a report containing the results of the assessment carried out under subsection (a) and recommendations to overcome any barriers to standards development or adoption identified by the group convened under such subsection.

## SEC. 33337. STATE CONSIDERATION OF ELECTRIC VEHICLE CHARGING.

(a) **CONSIDERATION AND DETERMINATION RESPECTING CERTAIN RATEMAKING STANDARDS.**—

Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

“(20) ELECTRIC VEHICLE CHARGING PROGRAMS.—

“(A) IN GENERAL.—Each State shall consider measures to promote greater electrification of the transportation sector, including—

“(i) authorizing measures to stimulate investment in and deployment of electric vehicle supply equipment and to foster the market for electric vehicle charging;

“(ii) authorizing each electric utility of the State to recover from ratepayers any capital, operating expenditure, or other costs of the electric utility relating to load management, programs, or investments associated with the integration of electric vehicle supply equipment into the grid; and

“(iii) allowing a person or agency that owns and operates an electric vehicle charging facility for the sole purpose of recharging an electric vehicle battery to be excluded from regulation as an electric utility pursuant to section 3(4) when making electricity sales from the use of the electric vehicle charging facility, if such sales are the only sales of electricity made by the person or agency.

“(B) DEFINITION.—For purposes of this paragraph, the term ‘electric vehicle supply equipment’ means conductors, including ungrounded, grounded, and equipment grounding conductors, electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatuses installed specifically for the purpose of delivering energy to an electric vehicle.”.

(b) OBLIGATIONS TO CONSIDER AND DETERMINE.—

(1) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(7)(A) Not later than 1 year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated utility shall commence the consideration referred to in section 111, or set a hearing date for consideration, with respect to the standards established by paragraph (20) of section 111(d).

“(B) Not later than 2 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraph (20) of section 111(d).”.

(2) FAILURE TO COMPLY.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by striking “(19)” and inserting “(20)”.

(3) PRIOR STATE ACTIONS.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

“(g) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (20) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard);

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility;

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility; or

“(4) the State has taken action to implement incentives or other steps to strongly encourage the deployment of electric vehicles.”.

#### SEC. 33338. STATE ENERGY PLANS.

(a) STATE ENERGY CONSERVATION PLANS.—Section 362(d) of the Energy Policy and Conservation Act (42 U.S.C. 6322(d)) is amended—

(1) in paragraph (16), by striking “; and” and inserting a semicolon;

(2) by redesignating paragraph (17) as paragraph (18); and

(3) by inserting after paragraph (16) the following:

“(17) a State energy transportation plan developed in accordance with section 367; and”.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended to read as follows:

“(f) AUTHORIZATION OF APPROPRIATIONS.—

“(1) STATE ENERGY CONSERVATION PLANS.—For the purpose of carrying out this part, there are authorized to be appropriated \$100,000,000 for each of fiscal years 2021 through 2025.

“(2) STATE ENERGY TRANSPORTATION PLANS.—In addition to the amounts authorized under paragraph (1), for the purpose of carrying out section 367, there are authorized to be appropriated \$25,000,000 for each of fiscal years 2021 through 2025.”.

(c) STATE ENERGY TRANSPORTATION PLANS.—Part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.) is amended by adding at the end the following:

#### “SEC. 367. STATE ENERGY TRANSPORTATION PLANS.

“(a) IN GENERAL.—The Secretary may provide financial assistance to a State to develop a State energy transportation plan, for inclusion in a State energy conservation plan under section 362(d), to promote the electrification of the transportation system, reduced consumption of fossil fuels, and improved air quality.

“(b) DEVELOPMENT.—A State developing a State energy transportation plan under this section shall carry out this activity through the State energy office that is responsible for developing the State energy conservation plan under section 362.

“(c) CONTENTS.—A State developing a State energy transportation plan under this section shall include in such plan a plan to—

“(1) deploy a network of electric vehicle supply equipment to ensure access to electricity for electric vehicles; and

“(2) promote modernization of the electric grid to accommodate demand for power to operate electric vehicle supply equipment and to utilize energy storage capacity provided by electric vehicles.

“(d) COORDINATION.—In developing a State energy transportation plan under this section, a State shall coordinate, as appropriate, with—

“(1) State regulatory authorities (as defined in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602));

“(2) electric utilities;

“(3) regional transmission organizations or independent system operators;

“(4) private entities that provide electric vehicle charging services;

“(5) State transportation agencies, metropolitan planning organizations, and local governments;

“(6) electric vehicle manufacturers;

“(7) public and private entities that manage vehicle fleets; and

“(8) public and private entities that manage ports, airports, or other transportation hubs.

“(e) TECHNICAL ASSISTANCE.—Upon request of the Governor of a State, the Secretary shall provide information and technical assistance in the development, implementation, or revision of a State energy transportation plan.

“(f) ELECTRIC VEHICLE SUPPLY EQUIPMENT DEFINED.—For purposes of this section, the term ‘electric vehicle supply equipment’ means conductors, including ungrounded, grounded, and equipment grounding conductors, electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatuses

installed specifically for the purpose of delivering energy to an electric vehicle.”.

#### SEC. 33339. TRANSPORTATION ELECTRIFICATION.

Section 131 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17011) is amended—

(1) in subsection (a)(6)—

(A) in subparagraph (A), by inserting “, including ground support equipment at ports” before the semicolon;

(B) in subparagraph (E), by inserting “and vehicles” before the semicolon;

(C) in subparagraph (H), by striking “and” at the end;

(D) in subparagraph (I)—

(i) by striking “battery chargers,”; and

(ii) by striking the period at the end and inserting a semicolon; and

(E) by adding at the end the following:

“(J) installation of electric vehicle supply equipment for recharging plug-in electric drive vehicles, including such equipment that is accessible in rural and urban areas and in underserved or disadvantaged communities; and

“(K) multi-use charging hubs used for multiple forms of transportation.”;

(2) in subsection (b)—

(A) in paragraph (3)(A)—

(i) in clause (i), by striking “and” at the end; and

(ii) in clause (ii), by inserting “, components for such vehicles, and charging equipment for such vehicles” after “vehicles”; and

(B) in paragraph (6), by striking “\$90,000,000 for each of fiscal years 2008 through 2012” and inserting “\$2,000,000,000 for each of fiscal years 2021 through 2025”;

(3) in subsection (c)—

(A) in the header, by striking “NEAR-TERM” and inserting “LARGE-SCALE”; and

(B) in paragraph (4), by striking “\$95,000,000 for each of fiscal years 2008 through 2013” and inserting “\$2,500,000,000 for each of fiscal years 2021 through 2025”; and

(4) by redesignating subsection (d) as subsection (e) and inserting after subsection (c) the following:

“(d) PRIORITY.—In providing grants under subsections (b) and (c), the Secretary shall give priority consideration to applications that contain a written assurance that all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant provided under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40, United States Code (and the Secretary of Labor shall, with respect to the labor standards described in this clause, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40, United States Code).”.

#### SEC. 33340. FEDERAL FLEETS.

(a) MINIMUM FEDERAL FLEET REQUIREMENT.—Section 303 of the Energy Policy Act of 1992 (42 U.S.C. 13212) is amended—

(1) by striking subsection (b) and inserting the following:

“(b) PERCENTAGE REQUIREMENTS.—

“(1) IN GENERAL.—

“(A) LIGHT-DUTY VEHICLES.—Beginning in fiscal year 2025, 100 percent of the total number of light-duty vehicles acquired by a Federal entity for a Federal fleet shall be alternative fueled vehicles, of which—

“(i) at least 50 percent shall be zero emission vehicles or plug-in hybrids in fiscal years 2025 through 2034;

“(ii) at least 75 percent shall be zero emission vehicles or plug-in hybrids in fiscal years 2035 through 2049; and

“(iii) 100 percent shall be zero emission vehicles in fiscal year 2050 and thereafter.

“(B) MEDIUM- AND HEAVY-DUTY VEHICLES.—The following percentages of the total number of medium- and heavy-duty vehicles acquired by a Federal entity for a Federal fleet shall be alternative fueled vehicles:

“(i) At least 20 percent in fiscal years 2025 through 2029.

“(ii) At least 30 percent in fiscal years 2030 through 2039.

“(iii) At least 40 percent in fiscal years 2040 through 2049.

“(iv) At least 50 percent in fiscal year 2050 and thereafter.

“(2) EXCEPTION.—The Secretary, in consultation with the Administrator of General Services where appropriate, may permit a Federal entity to acquire for a Federal fleet a smaller percentage than is required in paragraph (1) for a fiscal year, so long as the aggregate percentage acquired for each class of vehicle for all Federal fleets in the fiscal year is at least equal to the required percentage.

“(3) DEFINITIONS.—In this subsection:

“(A) FEDERAL FLEET.—The term ‘Federal fleet’ means a fleet of vehicles that are centrally fueled or capable of being centrally fueled and are owned, operated, leased, or otherwise controlled by or assigned to any Federal executive department, military department, Government corporation, independent establishment, or executive agency, the United States Postal Service, the Congress, the courts of the United States, or the Executive Office of the President. Such term does not include—

“(i) motor vehicles held for lease or rental to the general public;

“(ii) motor vehicles used for motor vehicle manufacturer product evaluations or tests;

“(iii) law enforcement vehicles;

“(iv) emergency vehicles; or

“(v) motor vehicles acquired and used for military purposes that the Secretary of Defense has certified to the Secretary must be exempt for national security reasons.

“(B) FLEET.—The term ‘fleet’ means—

“(i) 20 or more light-duty vehicles, located in a metropolitan statistical area or consolidated metropolitan statistical area, as established by the Bureau of the Census, with a 1980 population of more than 250,000; or

“(ii) 10 or more medium- or heavy-duty vehicles, located at a Federal facility or located in a metropolitan statistical area or consolidated metropolitan statistical area, as established by the Bureau of the Census, with a 1980 population of more than 250,000.”; and

(2) in subsection (f)(2)(B)—

(A) by striking “, either”; and

(B) in clause (i), by striking “or” and inserting “and”.

(b) FEDERAL FLEET CONSERVATION REQUIREMENTS.—Section 400FF(a) of the Energy Policy and Conservation Act (42 U.S.C. 6374e) is amended—

(1) in paragraph (1)—

(A) by striking “18 months after the date of enactment of this section” and inserting “12 months after the date of enactment of the Moving Forward Act”; and

(B) by striking “2010” and inserting “2022”; and

(C) by striking “and increase alternative fuel consumption” and inserting “, increase alternative fuel consumption, and reduce vehicle greenhouse gas emissions”; and

(2) by striking paragraph (2) and inserting the following:

“(2) GOALS.—The goals of the requirements under paragraph (1) are that each Federal agency shall—

“(A) reduce fleet-wide per-mile greenhouse gas emissions from agency fleet vehicles, relative to a baseline of emissions in 2015, by—

“(i) not less than 30 percent by the end of fiscal year 2025;

“(ii) not less than 50 percent by the end of fiscal year 2030; and

“(iii) 100 percent by the end of fiscal year 2050; and

“(B) increase the annual percentage of alternative fuel consumption by agency fleet vehicles as a proportion of total annual fuel consumption by Federal fleet vehicles, to achieve—

“(i) 25 percent of total annual fuel consumption that is alternative fuel by the end of fiscal year 2025;

“(ii) 50 percent of total annual fuel consumption that is alternative fuel by the end of fiscal year 2035; and

“(iii) at least 85 percent of total annual fuel consumption that is alternative fuel by the end of fiscal year 2050.”.

#### SEC. 33341. DOMESTIC MANUFACTURING CONVERSION GRANT PROGRAM.

(a) HYBRID VEHICLES, ADVANCED VEHICLES, AND FUEL CELL BUSES.—Subtitle B of title VII of the Energy Policy Act of 2005 (42 U.S.C. 16061 et seq.) is amended—

(1) in the subtitle header, by inserting “**Plug-In Electric Vehicles**,” before “**Hybrid Vehicles**”; and

(2) in part 1, in the part header, by striking “**HYBRID**” and inserting “**PLUG-IN ELECTRIC**”.

(b) PLUG-IN ELECTRIC VEHICLES.—Section 711 of the Energy Policy Act of 2005 (42 U.S.C. 16061) is amended to read as follows:

#### “SEC. 711. PLUG-IN ELECTRIC VEHICLES.

“The Secretary shall accelerate efforts, related to domestic manufacturing, that are directed toward the improvement of batteries, power electronics, and other technologies for use in plug-in electric vehicles.”.

(c) EFFICIENT HYBRID AND ADVANCED DIESEL VEHICLES.—Section 712 of the Energy Policy Act of 2005 (42 U.S.C. 16062) is amended—

(1) in subsection (a)—

(A) in paragraph (1), by inserting “, plug-in electric,” after “efficient hybrid”; and

(B) by amending paragraph (3) to read as follows:

“(3) PRIORITY.—Priority shall be given to—

“(A) the refurbishment or retooling of manufacturing facilities that have recently ceased operation or would otherwise cease operation in the near future; and

“(B) applications containing a written assurance that—

“(i) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, retooling, or repair that is financed, in whole or in part, by a grant under this subsection shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40, United States Code;

“(ii) all laborers and mechanics employed by the owner or operator of a manufacturing facility that is financed, in whole or in part, by a grant under this subsection shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40, United States Code; and

“(iii) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40, United States Code.”; and

(2) by striking subsection (c) and inserting the following:

“(c) COST SHARE AND GUARANTEE OF OPERATION.—

“(1) CONDITION.—A recipient of a grant under this section shall pay the Secretary the full amount of the grant if the facility financed in whole or in part under this subsection fails to manufacture goods for a period of at least 10 years after the completion of construction.

“(2) COST SHARE.—Section 988(c) shall apply to a grant made under this subsection.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the

Secretary to carry out this section \$2.5 billion for each of fiscal years 2021 through 2025.

“(e) PERIOD OF AVAILABILITY.—An award made under this section after the date of enactment of this subsection shall only be available with respect to facilities and equipment placed in service before December 30, 2035.”.

#### SEC. 33342. ADVANCED TECHNOLOGY VEHICLES MANUFACTURING INCENTIVE PROGRAM.

Section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by redesignating subparagraphs (A) through (C) as clauses (i) through (iii), respectively, and indenting appropriately;

(ii) by striking “(1) ADVANCED TECHNOLOGY VEHICLE.—” and all that follows through “meets—” and inserting the following:

“(1) ADVANCED TECHNOLOGY VEHICLE.—The term ‘advanced technology vehicle’ means—

“(A) an ultra efficient vehicle;

“(B) a light duty vehicle or medium duty passenger vehicle that meets—”; and

(iii) by amending subparagraph (B)(iii) (as so redesignated) to read as follows:

“(iii)(I) for vehicles produced in model years 2021 through 2025, the applicable regulatory standards for emissions of greenhouse gases for model year 2021 through 2025 vehicles promulgated by the Administrator of the Environmental Protection Agency on October 15, 2012 (77 Fed. Reg. 62624); or

“(II) emits zero emissions of greenhouse gases; or”; and

(iv) by adding at the end the following:

“(C) a heavy-duty vehicle (excluding a medium-duty passenger vehicle), as defined in section 86.1803–01 of title 40, Code of Federal Regulations (or successor regulations), that—

“(i) complies early with and demonstrates achievement below the applicable regulatory standards for emissions of greenhouse gases for model year 2027 vehicles promulgated by the Administrator on October 25, 2016 (81 Fed. Reg. 73478); or

“(ii) emits zero emissions of greenhouse gases.”;

(B) by striking paragraph (2) and redesignating paragraphs (3) through (5) as paragraphs (2) through (4), respectively;

(C) by amending paragraph (3) (as so redesignated) to read as follows:

“(4) QUALIFYING COMPONENTS.—The term ‘qualifying components’ means materials, technology, components, systems, or groups of subsystems in an advanced technology vehicle, including ultra efficient components, which include—

“(A) EV battery cells, fuel cells, batteries, battery technologies, and thermal control systems;

“(B) automotive semiconductors and computers;

“(C) electric motors, axles, and components; and

“(D) advanced lightweight, high strength, and high performance materials.”; and

(D) in paragraph (4) (as so redesignated)—

(i) in subparagraph (B), by striking “or” at the end;

(ii) in subparagraph (C), by striking the period at the end and inserting “; or”; and

(iii) by adding at the end the following:

“(D) at least 75 miles per gallon equivalent while operating as a hydrogen fuel cell electric vehicle.”;

(2) by amending subsection (b) to read as follows:

“(b) ADVANCED VEHICLES MANUFACTURING FACILITY.—

“(1) IN GENERAL.—The Secretary shall provide facility funding awards under this section to advanced technology vehicle manufacturers and component suppliers to pay not more than 50 percent of the cost of—

“(A) reequipping, expanding, or establishing a manufacturing facility in the United States to produce—

“(i) advanced technology vehicles; or  
 “(ii) qualifying components; and  
 “(B) engineering integration performed in the United States of advanced technology vehicles and qualifying components.”

“(2) **ULTRA EFFICIENT COMPONENTS COST SHARE.**—The facility funding awards authorized in paragraph (1) may pay not more than 80 percent of the cost if the proposed project is to reequip, expand, or establish a manufacturing facility in the United States to produce ultra efficient components.”;

(3) in subsection (c), by striking “2020” and inserting “2030” each place it appears;

(4) in subsection (d)—

(A) by amending paragraph (2) to read as follows:

“(2) **APPLICATION.**—An applicant for a loan under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including—

“(A) a written assurance that—

“(i) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair, or at any manufacturing operation, that is financed, in whole or in part, by a loan under this section shall be paid wages at rates not less than those prevailing in a similar firm or on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40;

“(ii) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40; and

“(iii) the applicant will remain neutral in any union organizing effort;

“(B) a disclosure of whether there has been any administrative merits determination, arbitral award or decision, or civil judgment, as defined in guidance issued by the Secretary of Labor, rendered against the applicant in the preceding 3 years for violations of applicable labor, employment, civil rights, or health and safety laws; and

“(C) specific information regarding the actions the applicant will take to demonstrate compliance with, and where possible exceedance of, requirements under applicable labor, employment, civil rights, and health and safety laws, and actions the applicant will take to ensure that its direct suppliers demonstrate compliance with applicable labor, employment, civil rights, and health and safety laws.”;

(B) by amending paragraph (3) to read as follows:

“(3) **SELECTION OF ELIGIBLE PROJECTS.**—The Secretary shall select eligible projects to receive loans under this subsection in cases in which the Secretary determines—

“(A) the award recipient—

“(i) has a reasonable prospect of repaying the principal and interest on the loan;

“(ii) will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively; and

“(ii) has met such other criteria as may be established and published by the Secretary; and

“(B) the amount of the loan (when combined with amounts available to the borrower from other sources) will be sufficient to carry out the project.”; and

(C) in paragraph (4)—

(i) in subparagraph (B)(i), by striking “; and” and inserting “; or”;

(ii) in subparagraph (C), by striking “; and” and inserting a semicolon;

(iii) in subparagraph (D), by striking the period at the end and inserting “; and”; and

(iv) by adding at the end the following:

“(E) shall be subject to the condition that the loan is not subordinate to other financing.”;

(5) in subsection (f)—

(A) by striking “point” and inserting “points”; and

(B) by inserting “and may not be collected prior to financial closing” after “loan”;

(6) by amending subsection (g) to read as follows:

“(g) **PRIORITY.**—The Secretary shall, in making awards or loans to those manufacturers that have existing facilities, give priority to those facilities, which can currently be sitting idle, that are or would be—

“(1) oldest or have been in existence for at least 20 years;

“(2) utilized primarily for the manufacture of ultra efficient vehicles;

“(3) utilized primarily for the manufacture of medium-duty passenger vehicles or heavy-duty vehicles that emit zero greenhouse gas emissions; or

“(4) utilized primarily for the manufacture of ultra efficient components.”;

(7) in subsection (h)—

(A) in the header, by striking “AUTOMOBILE” and inserting “ADVANCED TECHNOLOGY VEHICLE”; and

(B) in paragraph (1)(B), by striking “automobiles, or components of automobiles” and inserting “advanced technology vehicles, or components of advanced technology vehicles”; and

(8) in subsection (i), by striking “2008 through 2012” and inserting “2021 through 2025”.

#### **Subtitle D—Buy American and Wage Rate Requirements**

#### **SEC. 33401. USE OF AMERICAN IRON, STEEL, AND MANUFACTURED GOODS.**

(a) None of the funds made available pursuant to this title, or provisions of law added or amended by this title, may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States.

(b) Subsection (a) shall not apply in any case or category of cases in which the head of the Federal department or agency involved finds that—

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron, steel, and manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the head of a Federal department or agency determines that it is necessary to waive the application of subsection (a) based on a finding under subsection (b), the head of the department or agency shall publish in the Federal Register a detailed written justification as to why the provision is being waived.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements.

#### **SEC. 33402. WAGE RATE REQUIREMENTS.**

Notwithstanding any other provision of law and in a manner consistent with other provisions in this title, all laborers and mechanics employed by contractors and subcontractors on projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to this title, or provisions of law added or amended by this title, shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards specified in this section, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

#### **TITLE IV—HEALTH CARE INFRASTRUCTURE**

#### **SEC. 34101. HOSPITAL INFRASTRUCTURE.**

(a) **IN GENERAL.**—Section 1610(a) of the Public Health Service Act (42 U.S.C. 300r(a)) is amended—

(1) in paragraph (1)(A)—

(A) in clause (i), by striking “or” at the end; and

(B) in clause (ii), by striking the period at the end and inserting “; or”; and

(C) by adding at the end the following:

“(iii) increase capacity and update hospitals and other medical facilities in order to better serve communities in need.”; and

(2) by striking paragraph (3) and inserting the following paragraphs:

“(3) **PRIORITY.**—In awarding grants under this subsection, the Secretary shall give priority to applicants whose projects will include, by design, public health emergency preparedness or cybersecurity against cyber threats.

“(4) **AMERICAN IRON AND STEEL PRODUCTS.**—

“(A) **IN GENERAL.**—As a condition on receipt of a grant under this subsection for a project, an entity shall ensure that all of the iron and steel products used in the project are produced in the United States.

“(B) **APPLICATION.**—Subparagraph (A) shall be waived in any case or category of cases in which the Secretary finds that—

“(i) applying subparagraph (A) would be inconsistent with the public interest;

“(ii) iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

“(iii) inclusion of iron and steel products produced in the United States will increase the cost of the overall project by more than 25 percent.

“(C) **WAIVER.**—If the Secretary receives a request for a waiver under this paragraph, the Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

“(D) **INTERNATIONAL AGREEMENTS.**—This paragraph shall be applied in a manner consistent with United States obligations under international agreements.

“(E) **MANAGEMENT AND OVERSIGHT.**—The Secretary may retain up to 0.25 percent of the funds appropriated for this subsection for management and oversight of the requirements of this paragraph.

“(F) **EFFECTIVE DATE.**—This paragraph does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency's capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this paragraph.

“(5) **ENERGY EFFICIENCY.**—

“(A) **IN GENERAL.**—As a condition on receipt of a grant under this subsection for a project, a grant recipient shall ensure that the project increases—

“(i) energy efficiency;

“(ii) energy resilience; or

“(iii) the use of renewable energy.

“(B) **APPLICATION.**—Subparagraph (A) shall be waived in any case or category of cases in which the Secretary finds that applying subparagraph (A)—

“(i) would be inconsistent with the public interest; or

“(ii) will increase the cost of the overall project by more than 25 percent.

“(C) **WAIVER.**—If the Secretary receives a request for a waiver under this paragraph, the

Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

“(D) MANAGEMENT AND OVERSIGHT.—The Secretary may retain up to 0.25 percent of the funds appropriated for this subsection for management and oversight of the requirements of this paragraph.

“(E) EFFECTIVE DATE.—This paragraph does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency’s capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this paragraph.

“(6) AUTHORIZATION OF APPROPRIATIONS.—To carry out this subsection, there is authorized to be appropriated \$2,000,000,000 for each of fiscal years 2021 through 2025.”.

(b) TECHNICAL UPDATE.—Section 1610(b) of the Public Health Service Act (42 U.S.C. 300r(b)) is amended by striking paragraph (3).

**SEC. 34102. COMMUNITY HEALTH CENTER CAPITAL PROJECT FUNDING.**

Section 10503 of the Patient Protection and Affordable Care Act (42 U.S.C. 254b–2) is amended by striking subsection (c) and inserting the following:

“(c) CAPITAL PROJECTS.—

“(1) IN GENERAL.—There is authorized to be appropriated to the CHC Fund to be transferred to the Secretary of Health and Human Services for capital projects of the community health center program under section 330 of the Public Health Service Act, \$10,000,000,000 for the period of fiscal years 2021 through 2025.

“(2) ENERGY EFFICIENCY.—

“(A) IN GENERAL.—As a condition on receipt of a grant for a capital project pursuant to paragraph (1), a grant recipient shall ensure that the capital project increases—

“(i) energy efficiency;

“(ii) energy resilience; or

“(iii) the use of renewable energy.

“(B) APPLICATION.—Subparagraph (A) shall be waived in any case or category of cases in which the Secretary finds that applying subparagraph (A)—

“(i) would be inconsistent with the public interest; or

“(ii) will increase the cost of the overall project by more than 25 percent.

“(C) WAIVER.—If the Secretary receives a request for a waiver under this subsection, the Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

“(D) MANAGEMENT AND OVERSIGHT.—The Secretary may retain up to 0.25 percent of the funds appropriated for this subsection for management and oversight of the requirements of this paragraph.

“(E) EFFECTIVE DATE.—This paragraph does not apply with respect to a capital project if a State agency approves the engineering plans and specifications for the capital project, in that agency’s capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this paragraph.

“(4) APPLICABILITY OF DAVIS-BACON ACT.—

“(A) IN GENERAL.—The Secretary shall require that each entity applying for a grant for any

capital project pursuant to paragraph (1), funded in whole or in part with funds made available under this subsection, shall include in such application written assurance that all laborers and mechanics employed by contractors or subcontractors in the performance of construction, alternation or repair, as part of such project, shall be paid wages at rates not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of part A of subtitle II of title 40, United States Code (commonly referred to (and referred to in this section) as the ‘Davis-Bacon Act’).

“(B) AUTHORITY TO ENFORCE.—With respect to the labor standards specified in the Davis-Bacon Act, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 Fed. Reg. 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c).”.

**SEC. 34103. PILOT PROGRAM TO IMPROVE LABORATORY INFRASTRUCTURE.**

(a) IN GENERAL.—The Secretary of Health and Human Services shall award grants to States and political subdivisions of States to support the improvement, renovation, or modernization of infrastructure at clinical laboratories (as defined in section 353 of the Public Health Service Act (42 U.S.C. 263a)) that will help to improve SARS-CoV-2 and COVID-19 testing and response activities, including the expansion and enhancement of testing capacity at such laboratories.

(b) ENERGY EFFICIENCY.—

(1) IN GENERAL.—As a condition on receipt of a grant under this section for a project, a grant recipient shall ensure that the project increases—

(A) energy efficiency;

(B) energy resilience; or

(C) the use of renewable energy.

(2) APPLICATION.—Paragraph (1) shall be waived in any case or category of cases in which the Secretary finds that applying paragraph (1)—

(A) would be inconsistent with the public interest; or

(B) will increase the cost of the overall project by more than 25 percent.

(3) WAIVER.—If the Secretary receives a request for a waiver under this subsection, the Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

(4) MANAGEMENT AND OVERSIGHT.—The Secretary may retain up to 0.25 percent of the funds appropriated for this section for management and oversight of the requirements of this subsection.

(5) EFFECTIVE DATE.—This subsection does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency’s capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this subsection.

(c) APPLICABILITY OF DAVIS-BACON ACT.—

(1) IN GENERAL.—The Secretary shall require that each State or political subdivision of a State applying for a grant, with respect to a project for the improvement, renovation, or modernization of infrastructure at clinical laboratories under this section, funded in whole or in part with funds made available under this section, shall include in such application written assurance that all laborers and mechanics employed by contractors or subcontractors in the performance of construction, alternation, or repair, as part of such project, shall be paid wages

at rates not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of part A of subtitle II of title 40, United States Code (commonly referred to (and referred to in this section) as the ‘Davis-Bacon Act’).

(2) AUTHORITY TO ENFORCE.—With respect to the labor standards specified in the Davis-Bacon Act, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 Fed. Reg. 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c).

(d) AUTHORIZATION OF APPROPRIATIONS.—To carry out this section, there is authorized to be appropriated \$4,500,000,000 for the period of fiscal years 2021 through 2025.

**SEC. 34104. 21ST CENTURY INDIAN HEALTH PROGRAM HOSPITALS AND OUTPATIENT HEALTH CARE FACILITIES.**

The Indian Health Care Improvement Act is amended by inserting after section 301 of such Act (25 U.S.C. 1631) the following:

**“SEC. 301A. ADDITIONAL FUNDING FOR PLANNING, DESIGN, CONSTRUCTION, MODERNIZATION, AND RENOVATION OF HOSPITALS AND OUTPATIENT HEALTH CARE FACILITIES.**

“(a) ADDITIONAL FUNDING.—For the purpose described in subsection (b), in addition to any other funds available for such purpose, there is authorized to be appropriated \$5,000,000,000 for the period of fiscal years 2021 through 2025.

“(b) PURPOSE.—The purpose described in this subsection is the planning, design, construction, modernization, and renovation of hospitals and outpatient health care facilities that are funded, in whole or part, by the Service through, or provided for in, a contract or compact with the Service under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5301 et seq.), including to address COVID-19 and other subsequent public health crises.

“(c) TRIBAL CONSULTATION.—The Secretary shall engage in consultation with Indian Tribes and Tribal organizations to receive guidance and recommendations from Tribal officials before initiating any construction projects under this section on federally-operated facilities of the Service.

“(d) ENERGY EFFICIENCY.—

“(1) IN GENERAL.—As a condition on receipt of funding under this section for a project, the recipient of such funding shall ensure that the project increases—

“(A) energy efficiency;

“(B) energy resilience; or

“(C) the use of renewable energy.

“(2) APPLICATION.—Paragraph (1) shall be waived in any case or category of cases in which the Secretary finds that applying paragraph (1)—

“(A) would be inconsistent with the public interest; or

“(B) will increase the cost of the overall project by more than 25 percent.

“(3) WAIVER.—If the Secretary receives a request for a waiver under this subsection, the Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

“(4) MANAGEMENT AND OVERSIGHT.—The Secretary may retain up to 0.25 percent of the funds appropriated for this section for management and oversight of the requirements of this subsection.

“(5) EFFECTIVE DATE.—This subsection does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency’s capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this subsection.”.

**SEC. 34105. PILOT PROGRAM TO IMPROVE COMMUNITY-BASED CARE INFRASTRUCTURE.**

(a) *IN GENERAL.*—The Secretary of Health and Human Services may award grants to qualified teaching health centers (as defined in section 340H of the Public Health Service Act (42 U.S.C. 256h)) and behavioral health care centers (as defined by the Secretary, to include both substance abuse and mental health care facilities) to support the improvement, renovation, or modernization of infrastructure at such centers, including to address COVID-19 and other subsequent public health crises.

(b) *ENERGY EFFICIENCY.*—

(1) *IN GENERAL.*—As a condition on receipt of a grant under this section for a project, a grant recipient shall ensure that the project increases—

- (A) energy efficiency;
- (B) energy resilience; or
- (C) the use of renewable energy.

(2) *APPLICATION.*—Paragraph (1) shall be waived in any case or category of cases in which the Secretary finds that applying paragraph (1)—

- (A) would be inconsistent with the public interest; or
- (B) will increase the cost of the overall project by more than 25 percent.

(3) *WAIVER.*—If the Secretary receives a request for a waiver under this subsection, the Secretary shall make available to the public, on an informal basis, a copy of the request and information available to the Secretary concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Secretary shall make the request and accompanying information available by electronic means, including on the official public internet site of the Department of Health and Human Services.

(4) *MANAGEMENT AND OVERSIGHT.*—The Secretary may retain up to 0.25 percent of the funds appropriated for this section for management and oversight of the requirements of this subsection.

(5) *EFFECTIVE DATE.*—This subsection does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency's capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of enactment of this subsection.

(c) *APPLICABILITY OF DAVIS-BACON ACT.*—

(1) *IN GENERAL.*—The Secretary shall require that each qualified teaching health center or behavioral health care center applying for a grant, with respect to a project for the improvement, renovation, or modernization of infrastructure at a qualified teaching health center or behavioral health care center under this section, funded in whole or in part with funds made available under this section, shall include in such application written assurance that all laborers and mechanics employed by contractors or subcontractors in the performance of construction, alternation, or repair, as part of such project, shall be paid wages at rates not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of part A of subtitle II of title 40, United States Code (commonly referred to (and referred to in this section) as the "Davis-Bacon Act").

(2) *AUTHORITY TO ENFORCE.*—With respect to the labor standards specified in the Davis-Bacon Act, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 Fed. Reg. 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c).

(d) *AUTHORIZATION OF APPROPRIATIONS.*—To carry out this section, there is authorized to be appropriated \$500,000,000, to remain available until expended.

**DIVISION H—ADDITIONAL PROGRAMS**

**SEC. 40001. NATIONAL SCENIC BYWAYS PROGRAM.**

There are authorized to be appropriated out of the general fund of the Treasury, for the national scenic byways program under section 162 of title 23, United States Code—

- (1) \$55,000,000 for fiscal year 2021;
- (2) \$60,000,000 for fiscal year 2022;
- (3) \$65,000,000 for fiscal year 2023;
- (4) \$70,000,000 for fiscal year 2024; and
- (5) \$75,000,000 for fiscal year 2025.

**SEC. 40002. AUTHORIZATION OF APPROPRIATIONS FOR DEPARTMENT OF VETERANS AFFAIRS.**

(a) *IN GENERAL.*—There is authorized to be appropriated for the Department of Veterans Affairs \$3,396,000,000 to carry out subsection (b). Amounts appropriated pursuant to this section shall remain available for obligation or expenditure without fiscal year limitation.

(b) *USE OF AMOUNTS.*—The amount authorized to be appropriated under subsection (a) shall be used by the Secretary of Veterans Affairs as follows:

- (1) \$750,000,000 for minor construction.
- (2) \$750,000,000 for non-recurring maintenance.
- (3) \$1,350,000,000 for major construction projects that are partially funded for fiscal year 2021.
- (4) \$546,000,000 for grants under subchapter III of chapter 81 of title 38, United States Code.

(c) *CONTRACTING GOALS.*—The contracting goals under section 15(g)(1) and (2) of the Small Business Act (15 U.S.C. 644) shall apply to a contract entered into using amounts authorized to be appropriated under this section and used pursuant to subsection (b)(1) and (2).

**DIVISION I—ZERO-EMISSION POSTAL FLEET AND OTHER MATTERS**

**SEC. 50001. AUTHORIZATION OF APPROPRIATION FOR UNITED STATES POSTAL SERVICE FOR MODERNIZATION OF POSTAL INFRASTRUCTURE.**

There is authorized to be appropriated to the United States Postal Service for the modernization of postal infrastructure and operations, including through capital expenditures to purchase delivery vehicles, processing equipment, trailers, and other goods, \$25,000,000,000, to remain available until expended. Of the amount authorized to be appropriated under this subsection, \$6,000,000,000 shall be for the purchase of vehicles. Any amount appropriated under this subsection shall be deposited into the Postal Service Fund established under section 2003 of title 39, United States Code.

**SEC. 50002. ELECTRIC OR ZERO-EMISSION VEHICLES FOR UNITED STATES POSTAL SERVICE FLEET.**

(a) *IN GENERAL.*—Any next generation delivery vehicle purchased by the United States Postal Service using the funds appropriated under section 50001 shall, to the greatest extent practicable, be an electric or zero-emission vehicle, and the Postal Service shall ensure that at least 75 percent of the total number of vehicles purchased using such funds shall be electric or zero emission vehicles. In this subsection, the term "next generation delivery vehicle" means a vehicle purchased to replace a right-hand-drive, long-life vehicle in use by the Postal Service.

(b) *MEDIUM AND HEAVY-DUTY VEHICLES.*—

(1) *DATE OF ENACTMENT AND 2030.*—Between the period beginning on the date of enactment of this Act and ending on December 31, 2029, not less than 50 percent of the total number of new medium or heavy-duty vehicles purchased by the Postal Service during such period shall be electric or zero-emission vehicles.

(2) *AFTER 2030.*—Beginning on January 1, 2040, the Postal Service may not purchase any new medium or heavy-duty vehicle that is not an electric or zero-emission vehicle.

(c) *COMPLIANCE.*—In carrying out subsections (a) and (b), the Postal Service shall comply with chapter 83 of title 41, United States Code (popu-

larly known as the Buy American Act) and any applicable Federal labor or civil rights laws.

(d) *CHARGING STATIONS.*—

(1) *IN GENERAL.*—Not later than January 1, 2026, the Postal Service shall provide, at each postal facility accessible to the public, not less than 1 electric vehicle charging station for use by the public or officers and employees of the Postal Service.

(2) *FLEET OPERATION.*—The Postal Service shall ensure that adequate charging stations are available at Postal Service facilities to keep the Postal Service fleet operational.

(e) *PLAN AND UPDATE.*—Not later than 180 days after the date of enactment of this Act, the Postmaster General shall submit a plan to carry out this section to the Committee on Oversight and Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Committees on Appropriations of the House of Representatives and the Senate. The Postmaster General shall submit an update and progress report on implementing such plan to such committees not less than once every 2 years beginning on the date the plan is submitted under the previous sentence and ending on the day that is 6 years after such date.

(f) *CONTINGENT ON APPROPRIATION.*—The requirements of subsections (a) through (e) of this section shall not apply unless the funds authorized for vehicles under section 50001 are appropriated.

**SEC. 50003. CLARIFICATION OF AUTHORITY OF DISTRICT OF COLUMBIA TO CARRY OUT LONG BRIDGE PROJECT.**

(a) *CLARIFICATION OF AUTHORITY.*—Section 244 of the Revised Statutes of the United States relating to the District of Columbia (sec. 9-1201.03, D.C. Official Code) does not apply with respect to any railroads installed pursuant to the Long Bridge Project.

(b) *LONG BRIDGE PROJECT DEFINED.*—In this section, the term "Long Bridge Project" means the project carried out by the District of Columbia and the Commonwealth of Virginia to construct a new Long Bridge adjacent to the existing Long Bridge over the Potomac River, including related infrastructure and other related projects, to expand commuter and regional passenger rail service and to provide bike and pedestrian access crossings over the Potomac River.

**DIVISION II—COMMITTEE ON FINANCIAL SERVICES**

**SECTION 60001. SHORT TITLE.**

This division may be cited as the "Housing is Infrastructure Act of 2020".

**SEC. 60002. FINDINGS.**

The Congress finds the following:

(1) Residential segregation and systemic community disinvestment continue to disproportionately affect the well-being and socioeconomic opportunity of children, low-income residents, and people of color.

(2) Affordable and accessible housing allows people with disabilities to live independent lives and supports aging in place, yet less than 2 percent of the housing stock in the United States is accessible for individuals with disabilities.

(3) Affordable housing is a critical part of the national infrastructure of the United States but there is a severe shortage of affordable housing in the United States and the existing stock is badly in need of repair.

(4) According to a 2010 study sponsored by the Department of Housing and Urban Development, there was a \$26 billion backlog of capital needs for public housing; that figure is likely higher today, with some groups estimating the backlog of capital needs for public housing to be as high as \$70 billion.

(5) There are 14,000 units supported by Rural Rental Housing Loans under section 515 of the Housing Act of 1949 and Farm Labor Housing Loans under section 514 of the Housing Act of 1949. According to National Rural Housing Coalition, it would take an estimated \$1 billion in

the Multi-Family Housing Revitalization Demonstration Program (MPR) funding to fully address the capital backlog for rural housing properties.

(6) Federal investment in housing helps to create jobs and stimulate the economy.

(7) When the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) was enacted, which included funding for public housing, researchers found that for each \$1.00 in direct spending on public housing, there was an additional \$2.12 of indirect and induced economic activity nationwide for a total economic impact of \$3.12 for each \$1.00 in direct spending on public housing.

(8) According to the National Association of Home Builders, building 100 affordable rental homes generates \$11.7 million in local income, \$2,200,000 in taxes and revenue for local governments, and 161 local jobs.

(9) Researchers estimate that the growth in the gross domestic product from 1964–2009 would have been 13.5 percent higher if families had better access to affordable housing, which in turn could have led to an additional \$1.7 trillion increase in income, equivalent to \$8,775 in additional wages for each worker.

#### SEC. 60003. PUBLIC HOUSING CAPITAL FUND.

(a) IN GENERAL.—There is authorized to be appropriated for the Capital Fund under section 9(d) of the United States Housing Act of 1937 (42 U.S.C. 1437g(d)) \$70,000,000,000 and any amounts appropriated pursuant to this subsection shall remain available until the expiration of the 7-year period beginning upon the date of such appropriation.

(b) REQUIREMENTS.—The Secretary of Housing and Urban Development (in this division referred to as the “Secretary”) shall—

(1) distribute not less than 35 percent and not more than 75 percent of any amounts appropriated pursuant to subsection (a) under the same formula used for amounts made available for the Capital Fund for fiscal year 2020; and

(2) make available all remaining amounts by competition for priority investments, including investments that address lead hazards, other urgent health and safety concerns, and such other priorities as the Secretary may identify.

(c) TIMING.—The Secretary shall obligate amounts—

(1) made available under subsection (b)(1) within 30 days of enactment of the Act appropriating such funds; and

(2) made available under subsection (b)(2) within 12 months of enactment of the Act appropriating such funds.

(d) LIMITATION.—Amounts provided pursuant to this section may not be used for operating costs or rental assistance.

(e) USE OF FUNDS.—Not more than 0.5 percent of any amount appropriated pursuant to this section shall be used by the Secretary for costs associated with staff, training, technical assistance, technology, monitoring, travel, enforcement, research, and evaluation.

(f) SUPPLEMENT NOT SUPPLANT.—The Secretary shall ensure that amounts provided pursuant to this section shall serve to supplement and not supplant other amounts generated by a recipient of such amounts or amounts provided by other Federal, State, or local sources.

(g) WATER AND ENERGY EFFICIENCY.—In distributing any amounts pursuant to subsection (b), the Secretary shall give priority to public housing agencies located in States and localities that have a plan to increase water and energy efficiency when developing or rehabilitating public housing using any amounts distributed.

#### SEC. 60004. RURAL MULTIFAMILY PRESERVATION AND REVITALIZATION DEMONSTRATION PROGRAM.

(a) IN GENERAL.—There is authorized to be appropriated for carrying out the Multifamily Preservation and Revitalization Demonstration program of the Rural Housing Service (as authorized under sections 514, 515, and 516 of the

Housing Act of 1949 (42 U.S.C. 1484; 1485; 1486)) \$1,000,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(b) WATER AND ENERGY EFFICIENCY.—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the discretion of the Secretary of Agriculture, other strategies to enhance the environmental sustainability of housing production and design.

#### SEC. 60005. FLOOD MITIGATION ASSISTANCE GRANT PROGRAM.

(a) IN GENERAL.—There is authorized to be appropriated for carrying out the Flood Mitigation Assistance Grant Program under section 1366 of the National Flood Insurance Act of 1968 (42 U.S.C. 4104c) \$1,000,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(b) MULTIFAMILY RESIDENCES AND ATTACHED AND SEMI-ATTACHED HOMES.—With regard to any structure that is a multifamily residence or an attached or semi-attached residence, the Administrator of the Federal Emergency Management Agency shall consult with the Secretary of Housing and Urban Development and establish alternative forms of mitigation.

(c) DEFINITIONS.—For the purposes of this section, the term “multifamily residence” has the same meaning as in the Flood Disaster Protection Act of 1973 and the National Flood Insurance Act of 1968.

(d) STANDARDS.—

(1) IN GENERAL.—All laborers and mechanics employed by contractors or subcontractors in the performance of construction, alteration or repair work carried out, in whole or in part, with assistance made available through this section shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code. With respect to the labor standards in this paragraph, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40, United States Code.

(2) EXCEPTION BASED ON NUMBER OF UNITS.—Paragraph (1) shall not apply to single-family homes or residential properties of less than 5 units.

(3) EXCEPTION FOR CERTAIN INDIVIDUALS.—Paragraph (1) shall not apply to any individual that—

(A) performs services for which the individual volunteered;

(B) does not receive compensation for such services or is paid expenses, reasonable benefits, or a nominal fee for such services; and

(C) is not otherwise employed at any time in the construction work.

#### SEC. 60006. HOUSING TRUST FUND.

(a) IN GENERAL.—There is authorized to be appropriated for the Housing Trust Fund under section 1338 of the Housing and Urban Development Act of 1992 (12 U.S.C. 4568) \$5,000,000,000 and any amounts appropriated pursuant to this subsection shall remain available until expended. The Secretary shall ensure that priority for occupancy in dwelling units assisted with amounts made available pursuant to this section that become available for occupancy shall be given to persons and households who are homeless (as such term is defined in section 103 of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11302)) or at risk of homelessness (as such term is defined in section 401 of such Act (42 U.S.C. 11360)).

(b) WATER AND ENERGY EFFICIENCY.—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the Secretary's discretion, other strate-

gies to enhance the environmental sustainability of housing production and design.

(c) APPLICABILITY OF DAVIS-BACON ACT.—

(1) IN GENERAL.—All laborers and mechanics employed by contractors and subcontractors in the performance of construction work financed in whole or in part with amounts made available pursuant to this section shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5). The preceding sentence shall apply to the rehabilitation of residential property only if such property contains not less than 12 units. The Secretary of Labor shall have, with respect to such labor standards, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267) and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276(c)).

(2) EXCEPTION.—Paragraph (1) shall not apply to any individual that—

(A) performs services for which the individual volunteered;

(B) does not receive compensation for such services or is paid expenses, reasonable benefits, or a nominal fee for such services; and

(C) is not otherwise employed at any time in the construction work.

#### SEC. 60007. SINGLE-FAMILY HOUSING REPAIR LOANS AND GRANTS.

(a) IN GENERAL.—There is authorized to be appropriated for carrying out single family housing repair loans and grants under section 504 of the Housing Act of 1949 (42 U.S.C. 1474) \$100,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(b) WATER AND ENERGY EFFICIENCY.—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the discretion of the Secretary of Agriculture, other strategies to enhance the environmental sustainability of housing production and design.

#### SEC. 60008. NATIVE AMERICAN HOUSING BLOCK GRANT PROGRAM.

(a) IN GENERAL.—There is authorized to be appropriated for carrying out the Native American housing block grant program under title I of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4111 et seq.) \$1,000,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(b) WATER AND ENERGY EFFICIENCY.—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the Secretary's discretion, other strategies to enhance the environmental sustainability of housing production and design.

#### SEC. 60009. HOME INVESTMENT PARTNERSHIPS PROGRAM.

(a) IN GENERAL.—There is authorized to be appropriated for carrying out the HOME Investment Partnership Program under title II of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12721 et seq.) \$5,000,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(b) WATER AND ENERGY EFFICIENCY.—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the Secretary's discretion, other strategies to enhance the environmental sustainability of housing production and design.

#### SEC. 60010. PROGRAM FOR SUPPORTIVE HOUSING FOR PERSONS WITH DISABILITIES.

(a) IN GENERAL.—There is authorized to be appropriated \$2,500,000,000 for project rental assistance under the program for supportive housing for persons with disabilities under section 811(b)(3) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013(b)(3)) for

State housing finance agencies and any amounts appropriated pursuant to this section shall remain available until expended.

(b) **WATER AND ENERGY EFFICIENCY.**—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the Secretary's discretion, other strategies to enhance the environmental sustainability of housing production and design.

**SEC. 60011. PROGRAM FOR SUPPORTIVE HOUSING FOR THE ELDERLY.**

(a) **IN GENERAL.**—There is authorized to be appropriated \$2,500,000,000 for—

(1) capital advances pursuant to section 202(c)(1) of the Housing Act of 1959 (12 U.S.C. 1701(c)(1)), including amendments to capital advance contracts for housing for the elderly as authorized by section 202 of such Act;

(2) project rental assistance for the elderly under section 202(c)(2) of such Act, including amendments to contracts for such assistance and renewal of expiring contracts for such assistance for up to a 1-year term;

(3) senior preservation rental assistance contracts, including renewals, as authorized by section 811(e) of the American Housing and Economic Opportunity Act of 2000 (12 U.S.C. 1701g note); and

(4) supportive services associated with housing assisted under paragraph (1), (2), or (3).

(b) **AVAILABILITY OF AMOUNTS.**—Any amounts appropriated pursuant to this section shall remain available until September 30, 2023.

(c) **WATER AND ENERGY EFFICIENCY.**—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the Secretary's discretion, other strategies to enhance the environmental sustainability of housing production and design.

**SEC. 60012. CAPITAL MAGNET FUND.**

(a) There is authorized to be appropriated for the Capital Magnet Fund under section 1339 of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (12 U.S.C. 4569) \$2,500,000,000 and any amounts appropriated pursuant to this subsection shall remain available until expended.

(b) **WATER AND ENERGY EFFICIENCY.**—Not less than 10 percent of all amounts made available pursuant to this section shall be used only for activities relating to water and energy efficiency and, at the discretion of the Secretary of the Treasury, other strategies to enhance the environmental sustainability of housing production and design.

(c) **APPLICABILITY OF DAVIS-BACON ACT.**—

(1) **IN GENERAL.**—All laborers and mechanics employed by contractors and subcontractors in the performance of construction work financed in whole or in part with amounts made available pursuant to this section shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5). The preceding sentence shall apply to the rehabilitation of residential property only if such property contains not less than 12 units. The Secretary of Labor shall have, with respect to such labor standards, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267) and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276(c)).

(2) **EXCEPTION.**—Paragraph (1) shall not apply to any individual that—

(A) performs services for which the individual volunteered;

(B) does not receive compensation for such services or is paid expenses, reasonable benefits, or a nominal fee for such services; and

(C) is not otherwise employed at any time in the construction work.

**SEC. 60013. COMMUNITY DEVELOPMENT BLOCK GRANT FUNDING FOR AFFORDABLE HOUSING AND INFRASTRUCTURE.**

(a) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) **IN GENERAL.**—Subject to the provisions of this section, there is authorized to be appropriated for assistance under the community development block grant program under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) \$10,000,000,000 and any amounts appropriated pursuant to this section shall remain available until expended.

(2) **ADMINISTRATIVE AND PLANNING COSTS.**—Not more than 15 percent of any amounts appropriated pursuant to paragraph (1) may be used for administrative and planning costs.

(b) **ELIGIBLE ACTIVITIES.**—Amounts made available for assistance under this section may be used only for—

(1) the development and preservation of qualified affordable housing, including the construction of such housing;

(2) the responsible elimination or waiving of zoning requirements and other requirements that limit affordable housing development, including high density and multifamily development restrictions, off-street parking requirements, and height limitations; or

(3) any project or entity eligible for a discretionary grant provided by the Department of Transportation.

(c) **LIMITATION.**—With respect to amounts used pursuant to subsection (b)(2), the Secretary shall ensure that recipients of amounts provided pursuant to this section are not incentivized or otherwise rewarded for eliminating or undermining the intent of the zoning regulations or other regulations or policies that—

(1) establish fair wages for laborers;

(2) ensure the health and safety of buildings for residents and the general public;

(3) protect fair housing;

(4) provide environmental protections;

(5) prevent tenant displacement; or

(6) protect any other interest that the Secretary determines is in the public interest to preserve.

(d) **COMPETITION.**—Amounts made available for assistance under this section shall be awarded to States, units of general local government, and Indian tribes on a competitive basis, based on the extent to which the applicant—

(1) demonstrates that the applicant is responsibly streamlining the process for development of qualified affordable housing;

(2) is eliminating or reducing impact fees for housing within boundaries of the State, unit of local government, or Indian tribe, as applicable, and other assessments by State or local governments upon the owners of new housing development projects that offset governmental capital expenditures for infrastructure required to serve or made necessary by the new housing developments, except for fees that are invested exclusively for housing; and

(3) provides assurances that the applicant will supplement assistance provided under this section with amounts from non-Federal sources for costs of the qualified affordable housing or infrastructure eligible under subsection (b) to be funded with assistance under this section, and the extent of such supplemental assistance to be provided.

(e) **WATER AND ENERGY EFFICIENCY.**—Not less than 10 percent of all amounts made available for assistance pursuant to this section shall be used only for eligible activities relating to water and energy efficiency and, at the Secretary's discretion, other strategies to enhance the environmental sustainability of housing production and design.

(f) **QUALIFIED AFFORDABLE HOUSING.**—For purposes of this section, the term “qualified affordable housing” means a housing development that—

(1) is either—

(A) funded in any part by assistance provided by the Department of Housing and Urban Development or the Rural Housing Service of the Department of Agriculture; or

(B) includes a qualified low income building as such term is defined in section 42 of the Internal Revenue Code of 1986; or

(2) consists of 5 or more dwelling units of which 20 percent or more are made available—  
(A) for rental only by a low-income family (as defined in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)));

(B) at a monthly rent amount that does not exceed 30 percent of the monthly adjusted income (as defined in such section 3(b)) of the tenant low-income family; and

(C) maintains affordability for residents who are low-income families for a period of not less than 30 years.

**SEC. 60014. INCLUSION OF MINORITY AND WOMEN'S BUSINESS ENTERPRISES.**

(a) **DUTY.**—It shall be the duty of each relevant agency head—

(1) to consult and cooperate with grantees and recipients, when utilizing funds made available pursuant to this division, to promote the inclusion of minority and women's business enterprises, as defined in subsection (b) including to establish—

(A) special consideration to increasing grantee and recipient outreach to minority and women's business enterprises to inform such businesses of hiring opportunities created through such funds; and

(B) procurement goals for the utilization of minority and women's business enterprises; and

(2) to convene meetings with leaders and officials of State and local governments, tribal entities, and public housing authorities for the purpose of recommending and promoting funding opportunities and initiatives needed to advance the position of minority and women's business enterprises when competing for funds provided in this division.

(b) **DEFINITIONS.**—For the purposes of this section, the following definitions shall apply:

(1) **MINORITY.**—The term “minority” has the meaning given such term in section 308(b) of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (12 U.S.C. 1463 note) and also includes any indigenous person in the United States or its territories.

(2) **MINORITY AND WOMEN'S BUSINESS ENTERPRISE.**—The term “minority and women's business enterprise” means a business at least 51 percent owned and controlled by minority group members or women.

(3) **RELEVANT AGENCY HEAD.**—The term “relevant agency head” means, with respect to funds made available pursuant to any section of this division, the head of the Federal agency responsible for administering the program under which such funds are to be expended.

**SEC. 60015. REPORTS ON OUTCOMES.**

The Secretary of Housing and Urban Development, in coordination with the Secretary of the Treasury, the Administrator of the Federal Emergency Management Agency, and the Secretary of Agriculture shall submit a report to the Congress on an annual basis until all funds made available pursuant to this Act (but not including funds made available pursuant to section 60009) are expended, that provides a summary of outcomes for each program for which such funds were made available (but not including funds made available pursuant to section 60009), disaggregated at the census tract level, or block group level when available, that shall include, to the maximum extent possible, identification for the preceding year of—

(1) the total number of housing units produced, rehabilitated, or mitigated using such funds;

(2) the percentage of such housing units that are affordable to low-, to very low-, and to extremely low-income households;

(3) the number of such housing units that are located in high-poverty census tracts;

(4) the number of such housing units that are located in low-poverty census tracts;

(5) the number of such housing units located in areas where the percentage of households in a racial or ethnic minority group—

(A) is at least 20 percentage points higher than the percentage of that minority group for the Metropolitan Statistical Area;

(B) is at least 20 percentage points higher than the percentage of all minorities for the Metropolitan Statistical Area; or

(C) exceeds 50 percent of the population;

(6) the number of such housing units with three or more bedrooms;

(7) the number of such housing units located in qualified opportunity zones designated pursuant to section 1400Z-1 of the Internal Revenue Code of 1986;

(8) the number of such housing units that are in compliance with the design and construction requirements of the Department of Housing and Urban Development under section 100.205 of title 24 of the Code of Federal Regulations; and

(9) any other information that the Secretary of Housing and Urban Development considers appropriate to illustrate the number of housing units made available and accessible to protected classes under the Fair Housing Act (42 U.S.C. 3601 et seq.), disaggregated by protected class.

Sec. 70205. Sense of Congress on Opportunity Zones.

#### **TITLE III—IMPACT AID CONSTRUCTION**

Sec. 70301. Temporary increase in funding for impact aid construction.

#### **TITLE IV—ASSISTANCE FOR REPAIR OF SCHOOL FOUNDATIONS AFFECTED BY PYRRHOTITE**

Sec. 70401. Allocations to States.

Sec. 70402. Grants to local educational agencies.

Sec. 70403. Definitions.

Sec. 70404. Authorization of appropriations.

#### **SEC. 70001. DEFINITIONS.**

In this division:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means the Committee on Education and Labor of the House of Representatives and the Committee on Health, Education, Labor and Pensions of the Senate.

(2) **BUREAU-FUNDED SCHOOL.**—The term “Bureau-funded school” has the meaning given that term in section 1141 of the Education Amendments of 1978 (25 U.S.C. 2021).

(3) **COVERED FUNDS.**—The term “covered funds” means funds received under title I of this division.

(4) **ESEA TERMS.**—The terms “elementary school”, “outlying area”, and “secondary school” have the meanings given those terms in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(5) **LOCAL EDUCATIONAL AGENCY.**—The term “local educational agency” has the meaning given that term in section 8101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801) except that such term does not include a Bureau-funded school.

(6) **PUBLIC SCHOOL FACILITIES.**—The term “public school facilities” means the facilities of a public elementary school or a public secondary school.

(7) **QUALIFIED LOCAL EDUCATIONAL AGENCY.**—The term “qualified local educational agency” means a local educational agency that receives funds under part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.).

(8) **SECRETARY.**—The term “Secretary” means the Secretary of Education.

(9) **STATE.**—The term “State” means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

(10) **ZERO ENERGY SCHOOL.**—The term “zero energy school” means a public elementary school or public secondary school that—

(A) generates renewable energy on-site; and

(B) on an annual basis, exports an amount of such renewable energy that equals or exceeds the total amount of renewable energy that is delivered to the school from outside sources.

#### **TITLE I—GRANTS FOR THE LONG-TERM IMPROVEMENT OF PUBLIC SCHOOL FACILITIES**

##### **Subtitle A—Reservation and Allocation of Funds**

#### **SEC. 70101. PURPOSE AND RESERVATION.**

(a) **PURPOSE.**—Funds made available under this title shall be for the purpose of supporting long-term improvements to public school facilities in accordance with this division.

(b) **RESERVATION FOR OUTLYING AREAS AND BUREAU-FUNDED SCHOOLS.**—

(1) **IN GENERAL.**—For each of fiscal years 2020 through 2024, the Secretary shall reserve, from the amount appropriated to carry out this title—

(A) one-half of 1 percent, to make allocations to the outlying areas in accordance with paragraph (3); and

(B) one-half of 1 percent, for payments to the Secretary of the Interior to provide assistance to Bureau-funded schools.

(2) **USE OF RESERVED FUNDS.**—

(A) **IN GENERAL.**—Funds reserved under paragraph (1) shall be used in accordance with sections 70112 through 70116.

(B) **SPECIAL RULES FOR BUREAU-FUNDED SCHOOLS.**—

(i) **APPLICABILITY.**—Sections 70112 through 70116 shall apply to a Bureau-funded school that receives assistance under paragraph (1)(B) in the same manner that such sections apply to a qualified local educational agency that receives covered funds. The facilities of a Bureau-funded school shall be treated as public school facilities for purposes of the application of such sections.

(ii) **TREATMENT OF TRIBALLY OPERATED SCHOOLS.**—The Secretary of the Interior shall provide assistance to Bureau-funded schools under paragraph (1)(B) without regard to

whether such schools are operated by the Bureau of Indian Education or by an Indian Tribe. In the case of a Bureau-funded school that is a contract or grant school (as that term is defined in section 1141 of the Education Amendments of 1978 (25 U.S.C. 2021)) operated by an Indian Tribe, the Secretary of the Interior shall provide assistance under such paragraph to the Indian Tribe concerned.

(3) **ALLOCATION TO OUTLYING AREAS.**—From the amount reserved under paragraph (1)(A) for a fiscal year, the Secretary shall allocate to each outlying area an amount in proportion to the amount received by the outlying area under part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) for the previous fiscal year relative to the total such amount received by all outlying areas for such previous fiscal year.

#### **SEC. 70102. ALLOCATION TO STATES.**

(a) **ALLOCATION TO STATES.**—

(1) **STATE-BY-STATE ALLOCATION.**—

(A) **IN GENERAL.**—Subject to subparagraph (B), of the amount appropriated to carry out this title for each fiscal year and not reserved under section 70101(b), each State that has a plan approved by the Secretary under subsection (b) shall be allocated an amount in proportion to the amount received by all local educational agencies in the State under part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) for the previous fiscal year relative to the total such amount received by all local educational agencies in every State that has a plan approved by the Secretary under subsection (b).

(B) **FISCAL YEAR 2020.**—Of the amount appropriated to carry out this title for fiscal year 2020 and not reserved under section 70101(b), not later than 30 days after such funds are appropriated, each State that provides an assurance to the Secretary that the State will comply with the requirements of section 70111(c)(2) shall be allocated an amount in proportion to the amount received by all local educational agencies in the State under part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) for the previous fiscal year relative to the total such amount received by all local educational agencies in every State that provides such an assurance to the Secretary.

(2) **STATE RESERVATION.**—A State may reserve not more than 1 percent of its allocation under paragraph (1) to carry out its responsibilities under this division, which—

(A) shall include—

(i) providing technical assistance to local educational agencies, including by—

(I) identifying which State agencies have programs, resources, and expertise relevant to the activities supported by the allocation under this section; and

(II) coordinating the provision of technical assistance across such agencies;

(ii) in accordance with the guidance issued by the Secretary under section 70203, developing an online, publicly searchable database that contains an inventory of the infrastructure of all public school facilities in the State (including the facilities of Bureau-funded schools, as appropriate), including, with respect to each such facility, an identification of—

(I) the information described in subclauses (I) through (VII) of clause (vi);

(II) the age (including an identification of the date of any retrofits or recent renovations) of—

(aa) the facility;

(bb) its roof;

(cc) its lighting system;

(dd) its windows;

(ee) its ceilings;

(ff) its plumbing; and

(gg) its heating, ventilation, and air conditioning system;

(III) fire safety inspection results;

(IV) the proximity of the facilities to toxic sites or the vulnerability of the facilities to natural disasters, including the extent to which facilities that are vulnerable to seismic natural disasters are seismically retrofitted;

(V) any previous inspections showing the presence of toxic substances; and

(VI) any improvements to support indoor and outdoor social distancing, personal hygiene, and building hygiene (including with respect to HVAC usage and ventilation) in schools, consistent with guidance issued by the Centers for Disease Control and Prevention;

(iii) updating the database developed under clause (ii) not less frequently than once every 2 years;

(iv) ensuring that the information in the database developed under clause (ii)—

(I) is posted on a publicly accessible State website; and

(II) is regularly distributed to local educational agencies and Tribal governments in the State;

(v) issuing and reviewing regulations to ensure the health and safety of students and staff during construction or renovation projects; and

(vi) issuing or reviewing regulations to ensure safe, healthy, and high-performing school buildings, including regulations governing—

(I) indoor environmental quality and ventilation, including exposure to carbon monoxide, carbon dioxide, lead-based paint, and other combustion by-products such as oxides of nitrogen;

(II) mold, mildew, and moisture control;

(III) the safety of drinking water at the tap and water used for meal preparation, including regulations that—

(aa) address the presence of lead and other contaminants in such water; and

(bb) require the regular testing of the potability of water at the tap;

(IV) energy and water efficiency;

(V) excessive classroom noise due to activities allowable under section 70112;

(VI) the levels of maintenance work, operational spending, and capital investment needed to maintain the quality of public school facilities; and

(VII) the construction or renovation of such facilities, including applicable building codes; and

(vii) creating a plan to reduce or eliminate exposure to toxic substances, including mercury, radon, PCBs, lead, vapor intrusions, and asbestos; and

(B) may include the development of a plan to increase the number of zero energy schools in the State.

(b) STATE PLAN.—

(I) IN GENERAL.—To be eligible to receive an allocation under this section, a State shall submit to the Secretary a plan that—

(A) describes how the State will use the allocation to make long-term improvements to public school facilities;

(B) explains how the State will carry out each of its responsibilities under subsection (a)(2);

(C) explains how the State will make the determinations under subsections (b) and (c) of section 70111;

(D) identifies how long, and at what levels, the State will maintain fiscal effort for the activities supported by the allocation after the State no longer receives the allocation; and

(E) includes such other information as the Secretary may require.

(2) APPROVAL AND DISAPPROVAL.—The Secretary shall have the authority to approve or disapprove a State plan submitted under paragraph (1).

(c) CONDITIONS.—As a condition of receiving an allocation under this section, a State shall agree to the following:

(1) MATCHING REQUIREMENT.—

(A) IN GENERAL.—The State shall contribute, from non-Federal sources, an amount equal to 10 percent of the amount of the allocation re-

ceived under this section to carry out the activities supported by the allocation.

(B) DEADLINE.—The State shall provide any contribution required under subparagraph (A) not later than September 30, 2029.

(C) CERTAIN FISCAL YEARS.—With respect to a fiscal year for which more than \$7,000,000,000 are appropriated to carry out this title, subparagraph (A) shall be applied as if “, from non-Federal sources,” were struck.

(2) MAINTENANCE OF EFFORT.—The State shall provide an assurance to the Secretary that the combined fiscal effort or the aggregate expenditures of the State with respect to the activities supported by the allocation under this section for fiscal years beginning with the fiscal year for which the allocation is received will be not less than 90 percent of the 5 year average for total capital outlay of the combined fiscal effort or aggregate expenditures by the State for the purposes for which the allocation is received.

(3) SUPPLEMENT NOT SUPPLANT.—The State shall use an allocation under this section only to supplement the level of Federal, State, and local public funds that would, in absence of such allocation, be made available for the activities supported by the allocation, and not to supplant such funds.

#### Subtitle B—Grants to Local Educational Agencies

##### SEC. 70111. NEED-BASED GRANTS TO QUALIFIED LOCAL EDUCATIONAL AGENCIES.

(a) GRANTS TO LOCAL EDUCATIONAL AGENCIES.—

(1) IN GENERAL.—Subject to paragraph (2), from the amounts allocated to a State under section 70102(a) and contributed by the State under section 70102(c)(1), the State shall award grants to qualified local educational agencies, on a competitive basis, to carry out the activities described in section 70112(a).

(2) ALLOWANCE FOR DIGITAL LEARNING.—A State may use up to 10 percent of the amount described in paragraph (1) to make grants to qualified local educational agencies carry out activities to improve digital learning in accordance with section 70112(b).

(b) ELIGIBILITY.—

(1) IN GENERAL.—To be eligible to receive a grant under this section a qualified local educational agency—

(A) shall be among the local educational agencies in the State with the highest numbers or percentages of students counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c));

(B) shall agree to prioritize the improvement of the facilities of public schools that serve the highest percentages of students who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) (which, in the case of a high school, may be calculated using comparable data from the schools that feed into the high school), as compared to other public schools in the jurisdiction of the agency; and

(C) may be among the local educational agencies in the State—

(i) with the greatest need to improve public school facilities, as determined by the State, which may include consideration of threats posed by the proximity of the facilities to toxic sites or brownfield sites or the vulnerability of the facilities to natural disasters; and

(ii) with the most limited capacity to raise funds for the long-term improvement of public school facilities, as determined by an assessment of—

(I) the current and historic ability of the agency to raise funds for construction, renovation, modernization, and major repair projects for schools;

(II) whether the agency has been able to issue bonds or receive other funds to support school construction projects; and

(III) the bond rating of the agency.

(2) GEOGRAPHIC DISTRIBUTION.—The State shall ensure that grants under this section are

awarded to qualified local educational agencies that represent the geographic diversity of the State.

(3) STATEWIDE THRESHOLDS.—The State shall establish reasonable thresholds for determining whether a local educational agency is among agencies in the State with the highest numbers or percentages of students counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c)) as required under paragraph (1)(A).

(c) PRIORITY OF GRANTS.—In awarding grants under this section, the State—

(1) subject to paragraph (2), shall give priority to qualified local educational agencies that—

(A) demonstrate the greatest need for such a grant, as determined by a comparison of the factors described in subsection (b)(1) and other indicators of need in the public school facilities of such local educational agencies, including—

(i) the median age of facilities;

(ii) the extent to which student enrollment exceeds physical and instructional capacity;

(iii) the condition of major building systems such as heating, ventilation, air conditioning, electrical, water, and sewer systems;

(iv) the condition of roofs, windows, and doors; and

(v) other critical health and safety conditions; and

(B) will use the grant to improve the facilities of—

(i) elementary schools or middle schools that have an enrollment of students who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) that constitutes not less than 40 percent of the total student enrollment at such schools; or

(ii) high schools that have an enrollment of students who are eligible for a free or reduced price lunch under such Act that constitutes not less than 30 percent of the total student enrollment at such schools (which may be calculated using comparable data from the schools that feed into the high school); and

(C) operate public school facilities that pose a severe health and safety threat to students and staff, which may include a threat posed by the proximity of the facilities to toxic sites or the vulnerability of the facilities to natural disasters;

(2) with respect to grants awarded for fiscal year 2020, shall give priority to local educational agencies described in paragraph (1) that will use the grant to improve the facilities of schools described in paragraph (1)(B) to support indoor and outdoor social distancing, personal hygiene, and building hygiene (including with respect to HVAC usage and ventilation) in schools, consistent with guidance issued by the Centers for Disease Control and Prevention; and

(3) may give priority to qualified local educational agencies that—

(A) will use the grant to improve access to high-speed broadband sufficient to support digital learning accordance with section 70112(b);

(B) serve elementary schools or secondary schools, including rural schools, that lack such access; and

(C) meet one or more of the requirements set forth in subparagraphs (A) through (C) of paragraph (1).

(d) APPLICATION.—To be considered for a grant under this section, a qualified local educational agency shall submit an application to the State at such time, in such manner, and containing such information as the State may require. Such application shall include, at minimum—

(1) the information necessary for the State to make the determinations under subsections (b) and (c);

(2) a description of the projects that the agency plans to carry out with the grant;

(3) an explanation of how such projects will reduce risks to the health and safety of staff and students at schools served by the agency; and

(4) in the case of a local educational agency that proposes to fund a repair, renovation, or construction project for a public charter school, the extent to which—

(A) the public charter school lacks access to funding for school repair, renovation, and construction through the financing methods available to other public schools or local educational agencies in the State; and

(B) the charter school operator owns or has care and control of the facility that is to be repaired, renovated, or constructed.

(e) **FACILITIES MASTER PLAN.**—

(1) **PLAN REQUIRED.**—Not later than 180 days after receiving a grant under this section, a qualified local educational agency shall submit to the State a comprehensive 10-year facilities master plan.

(2) **ELEMENTS.**—The facilities master plan required under paragraph (1) shall include, with respect to all public school facilities of the qualified local educational agency, a description of—

(A) the extent to which public school facilities meet students' educational needs and support the agency's educational mission and vision;

(B) the physical condition of the public school facilities;

(C) the current health, safety, and environmental conditions of the public school facilities, including—

(i) indoor air quality;

(ii) the presence of toxic substances;

(iii) the safety of drinking water at the tap and water used for meal preparation, including the level of lead and other contaminants in such water;

(iv) energy and water efficiency;

(v) excessive classroom noise; and

(vi) other health, safety, and environmental conditions that would impact the health, safety, and learning ability of students;

(D) how the local educational agency will address any conditions identified under subparagraph (C);

(E) the impact of current and future student enrollment levels (as of the date of application) on the design of current and future public school facilities, as well as the financial implications of such enrollment levels;

(F) the dollar amount and percentage of funds the local educational agency will dedicate to capital construction projects for public school facilities, including—

(i) any funds in the budget of the agency that will be dedicated to such projects; and

(ii) any funds not in the budget of the agency that will be dedicated to such projects, including any funds available to the agency as the result of a bond issue; and

(G) the dollar amount and percentage of funds the local educational agency will dedicate to the maintenance and operation of public school facilities, including—

(i) any funds in the budget of the agency that will be dedicated to the maintenance and operation of such facilities; and

(ii) any funds not in the budget of the agency that will be dedicated to the maintenance and operation of such facilities.

(3) **CONSULTATION.**—In developing the facilities master plan required under paragraph (1)—

(A) a qualified local educational agency shall consult with teachers, principals and other school leaders, custodial and maintenance staff, emergency first responders, school facilities directors, students and families, community residents, and Indian Tribes; and

(B) in addition to the consultation required under subparagraph (A), a Bureau-funded school shall consult with the Bureau of Indian Education.

(f) **SUPPLEMENT NOT SUPPLANT.**—A qualified local educational agency shall use a grant received under this section only to supplement the level of Federal, State, and local public funds that would, in the absence of such grant, be made available for the activities supported by the grant, and not to supplant such funds.

#### **SEC. 70112. ALLOWABLE USES OF FUNDS.**

(a) **IN GENERAL.**—Except as provided in section 70113, a local educational agency that receives covered funds may use such funds to—

(1) develop the facilities master plan required under section 70111(e);

(2) construct, modernize, renovate, or retrofit public school facilities, which may include seismic retrofitting for schools vulnerable to seismic natural disasters;

(3) carry out major repairs of public school facilities;

(4) install furniture or fixtures with at least a 10-year life in public school facilities;

(5) construct new public school facilities;

(6) acquire and prepare sites on which new public school facilities will be constructed;

(7) extend the life of basic systems and components of public school facilities;

(8) ensure current or anticipated enrollment does not exceed the physical and instructional capacity of public school facilities;

(9) ensure the building envelopes and interiors of public school facilities protect occupants from natural elements and human threats, and are structurally sound and secure;

(10) compose building design plans that strengthen the safety and security on school premises by utilizing design elements, principles, and technology that—

(A) guarantee layers of security throughout the school premises; and

(B) uphold the aesthetics of the school premises as a learning and teaching environment;

(11) improve energy and water efficiency to lower the costs of energy and water consumption in public school facilities;

(12) improve indoor air quality in public school facilities;

(13) reduce or eliminate the presence of—

(A) toxic substances, including mercury, radon, PCBs, lead, and asbestos;

(B) mold and mildew; or

(C) rodents and pests;

(14) ensure the safety of drinking water at the tap and water used for meal preparation in public school facilities, which may include testing of the potability of water at the tap for the presence of lead and other contaminants;

(15) bring public school facilities into compliance with applicable fire, health, and safety codes;

(16) make public school facilities accessible to people with disabilities through compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794);

(17) provide instructional program space improvements (including through the construction of outdoor instructional space) for programs relating to early learning (including early learning programs operated by partners of the agency), special education, science, technology, career and technical education, physical education, music, the arts, and literacy (including library programs);

(18) increase the use of public school facilities for the purpose of community-based partnerships that provide students with academic, health, and social services;

(19) ensure the health of students and staff during the construction or modernization of public school facilities; or

(20) reduce or eliminate excessive classroom noise due to activities allowable under this section.

(b) **ALLOWANCE FOR DIGITAL LEARNING.**—A local educational agency may use funds received under section 70111(a)(2) to leverage existing public programs or public-private partnerships to expand access to high-speed broadband sufficient for digital learning.

#### **SEC. 70113. PROHIBITED USES.**

A local educational agency that receives covered funds may not use such funds for—

(1) payment of routine and predictable maintenance costs and minor repairs;

(2) any facility that is primarily used for athletic contests or exhibitions or other events for which admission is charged to the general public;

(3) vehicles; or

(4) central offices, operation centers, or other facilities that are not primarily used to educate students.

#### **SEC. 70114. REQUIREMENTS FOR HAZARD-RESISTANCE, ENERGY AND WATER CONSERVATION, AND AIR QUALITY.**

(a) **REQUIREMENTS.**—A local educational agency that receives covered funds shall ensure that any new construction, modernization, or renovation project carried out with such funds meets or exceeds the requirements of the following:

(1) Requirements for such projects set forth in the most recent published edition of a nationally recognized, consensus-based model building code.

(2) Requirements for such projects set forth in the most recent published edition of a nationally recognized, consensus-based energy conservation standard or model code.

(3) Performance criteria under the WaterSense program, established under section 324B of the Energy Policy and Conservation Act (42 U.S.C. 6294b), applicable to such projects within a nationally recognized, consensus-based model code.

(4) Indoor environmental air quality requirements applicable to such projects as set forth in the most recent published edition of a nationally-recognized, consensus-based standard.

(b) **ADDITIONAL USE OF FUNDS.**—A local educational agency that uses covered funds for a new construction project or renovation project may use such funds to assess vulnerabilities, risks, and hazards, to address and mitigate such vulnerabilities, risks and hazards, to enhance resilience, and to provide for passive survivability.

#### **SEC. 70115. GREEN PRACTICES.**

(a) **IN GENERAL.**—In a given fiscal year, a local educational agency that uses covered funds for a new construction project or renovation project shall use not less than the applicable percentage (as described in subsection (b)) of the funds used for such project for construction or renovation that is certified, verified, or consistent with the applicable provisions of—

(1) the United States Green Building Council Leadership in Energy and Environmental Design green building rating standard (commonly known as the "LEED Green Building Rating System");

(2) the Living Building Challenge developed by the International Living Future Institute;

(3) a green building rating program developed by the Collaborative for High-Performance Schools (commonly known as "CHPS") that is CHPS-verified; or

(4) a program that—

(A) has standards that are equivalent to or more stringent than the standards of a program described in paragraphs (1) through (3);

(B) is adopted by the State or another jurisdiction with authority over the agency; and

(C) includes a verifiable method to demonstrate compliance with such program.

(b) **APPLICABLE PERCENTAGE.**—The applicable percentage described in this subsection is—

(1) for fiscal year 2020, 60 percent;

(2) for fiscal year 2021, 70 percent;

(3) for fiscal year 2022, 80 percent;

(4) for fiscal year 2023, 90 percent; and

(5) for fiscal year 2024, 100 percent.

#### **SEC. 70116. USE OF AMERICAN IRON, STEEL, AND MANUFACTURED PRODUCTS.**

(a) **IN GENERAL.**—A local educational agency that receives covered funds shall ensure that any iron, steel, and manufactured products used in projects carried out with such funds are produced in the United States.

(b) **WAIVER AUTHORITY.**—

(1) **IN GENERAL.**—The Secretary may waive the requirement of subsection (a) if the Secretary determines that—

(A) applying subsection (a) would be inconsistent with the public interest;

(B) iron, steel, and manufactured products produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality; or

(C) using iron, steel, and manufactured products produced in the United States will increase the cost of the overall project by more than 25 percent.

(2) **PUBLICATION.**—Before issuing a waiver under paragraph (1), the Secretary shall publish in the Federal Register a detailed written explanation of the waiver determination.

(c) **CONSISTENCY WITH INTERNATIONAL AGREEMENTS.**—This section shall be applied in a manner consistent with the obligations of the United States under international agreements.

(d) **DEFINITIONS.**—In this section:

(1) **PRODUCED IN THE UNITED STATES.**—The term “produced in the United States” means the following:

(A) When used with respect to a manufactured product, the product was manufactured in the United States and the cost of the components of such product that were mined, produced, or manufactured in the United States exceeds 60 percent of the total cost of all components of the product.

(B) When used with respect to iron or steel products, or an individual component of a manufactured product, all manufacturing processes for such iron or steel products or components, from the initial melting stage through the application of coatings, occurred in the United States, except that the term does not include—

(i) steel or iron material or products manufactured abroad from semi-finished steel or iron from the United States; and

(ii) steel or iron material or products manufactured in the United States from semi-finished steel or iron of foreign origin.

(2) **MANUFACTURED PRODUCT.**—The term “manufactured product” means any construction material or end product (as such terms are defined in part 25.003 of the Federal Acquisition Regulation) that is not an iron or steel product, including—

(A) electrical components; and

(B) non-ferrous building materials, including, aluminum and polyvinylchloride (PVC), glass, fiber optics, plastic, wood, masonry, rubber, manufactured stone, any other non-ferrous metals, and any unmanufactured construction material.

#### **SEC. 70117. PROHIBITION ON USE OF FUNDS FOR FACILITIES OF FOR-PROFIT CHARTER SCHOOLS.**

No covered funds may be used for the facilities of a public charter school that is operated by a for-profit entity.

#### **SEC. 70118. PROHIBITION ON USE OF FUNDS FOR CERTAIN CHARTER SCHOOLS.**

No covered funds may be used for the facilities of a public charter school if—

(1) the school leases the facilities from an individual or private sector entity; and

(2) such individual, or an individual with a direct or indirect financial interest in such entity, has a management or governance role in such school.

#### **Subtitle C—Annual Report and Authorization of Appropriations**

#### **SEC. 70121. ANNUAL REPORT ON GRANT PROGRAM.**

(a) **IN GENERAL.**—Not later than September 30 of each fiscal year beginning after the date of the enactment of this division, the Secretary shall submit to the appropriate congressional committees a report on the projects carried out with funds made available under this title.

(b) **ELEMENTS.**—The report under subsection (a) shall include, with respect to the fiscal year preceding the year in which the report is submitted, the following:

(1) An identification of each local educational agency that received a grant under this title.

(2) With respect to each such agency, a description of—

(A) the demographic composition of the student population served by the agency, disaggregated by—

(i) race;

(ii) the number and percentage of students counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c)); and

(iii) the number and percentage of students who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.);

(B) the population density of the geographic area served by the agency;

(C) the projects for which the agency used the grant received under this title, described using measurements of school facility quality from the most recent available version of the Common Education Data Standards published by the National Center for Education Statistics;

(D) the demonstrable or expected benefits of the projects; and

(E) the estimated number of jobs created by the projects.

(3) The total dollar amount of all grants received by local educational agencies under this title.

(c) **LEA INFORMATION COLLECTION.**—A local educational agency that receives a grant under this title shall—

(1) annually compile the information described in subsection (b)(2);

(2) make the information available to the public, including by posting the information on a publicly accessible agency website; and

(3) submit the information to the State.

(d) **STATE INFORMATION DISTRIBUTION.**—A State that receives information from a local educational agency under subsection (c) shall—

(1) compile the information and report it annually to the Secretary at such time and in such manner as the Secretary may require;

(2) make the information available to the public, including by posting the information on a publicly accessible State website; and

(3) regularly distribute the information to local educational agencies and Tribal governments in the State.

#### **SEC. 70122. AUTHORIZATION OF APPROPRIATIONS.**

There are authorized to be appropriated \$20,000,000,000 for each of fiscal years 2020 through 2024 to carry out this title. Amounts so appropriated are authorized to remain available through fiscal year 2029.

#### **TITLE II—OTHER REPORTS, DEVELOPMENT OF STANDARDS, AND INFORMATION CLEARINGHOUSE**

##### **SEC. 70201. COMPTROLLER GENERAL REPORT.**

(a) **IN GENERAL.**—Not later than 2 years after the date of the enactment of this division, the Comptroller General of the United States shall submit to the appropriate congressional committees a report on the projects carried out with covered funds.

(b) **ELEMENTS.**—The report under subsection (a) shall include an assessment of—

(1) State activities, including—

(A) the types of public school facilities data collected by each State, if any;

(B) technical assistance with respect to public school facilities provided by each State, if any;

(C) future plans of each State with respect to public school facilities;

(D) criteria used by each State to determine high-need students and facilities for purposes of the projects carried out with covered funds; and

(E) whether the State issued new regulations to ensure the health and safety of students and staff during construction or renovation projects or to ensure safe, healthy, and high-performing school buildings;

(2) the types of projects carried out with covered funds, including—

(A) the square footage of the improvements made with covered funds;

(B) the total cost of each such project; and

(C) the cost described in subparagraph (B), disaggregated by, with respect to such project, the cost of planning, design, construction, site purchase, and improvements;

(3) the geographic distribution of the projects;

(4) the demographic composition of the student population served by the projects, disaggregated by—

(A) race;

(B) the number and percentage of students counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c)); and

(C) the number and percentage of students who are eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.);

(5) an assessment of the impact of the projects on the health and safety of school staff and students; and

(6) how the Secretary or States could make covered funds more accessible—

(A) to schools with the highest numbers and percentages of students counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(c)); and

(B) to schools with fiscal challenges in raising capital for school infrastructure projects.

(c) **UPDATES.**—The Comptroller General shall update and resubmit the report to the appropriate congressional committees—

(1) on a date that is between 5 and 6 years after the date of the enactment of this division; and

(2) on a date that is between 10 and 11 years after such date of enactment.

#### **SEC. 70202. STUDY AND REPORT PHYSICAL CONDITION OF PUBLIC SCHOOLS.**

(a) **STUDY AND REPORT.**—Not less frequently than once in each 5-year period beginning after the date of the enactment of this division, the Secretary, acting through the Director of the Institute of Education Sciences, shall—

(1) carry out a comprehensive study of the physical conditions of all public schools in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands; and

(2) submit a report to the appropriate congressional committees that includes the results of the study.

(b) **ELEMENTS.**—Each study and report under subsection (a) shall include—

(1) an assessment of—

(A) the effect of school facility conditions on student and staff health and safety;

(B) the effect of school facility conditions on student academic outcomes;

(C) the condition of school facilities, set forth separately by geographic region;

(D) the condition of school facilities for economically disadvantaged students as well as students from major racial and ethnic subgroups;

(E) the accessibility of school facilities for students and staff with disabilities;

(F) the prevalence of school facilities at which student enrollment exceeds the physical and instructional capacity of the facility and the effect of such excess enrollment on instructional quality and delivery of school wraparound services;

(G) the condition of school facilities affected by natural disasters;

(H) the effect that projects carried out with covered funds have on the communities in which such projects are conducted, including the vitality, jobs, population, and economy of such communities; and

(I) the ability of building envelopes and interiors of public school facilities to protect occupants from natural elements and human threats;

(2) an explanation of any differences observed with respect to the factors described in subparagraphs (A) through (H) of paragraph (1); and

(3) a cost estimate for bringing school facilities to a state of good repair, as determined by the Secretary.

#### SEC. 70203. DEVELOPMENT OF DATA STANDARDS.

(a) DATA STANDARDS.—Not later than 120 days after the date of the enactment of this division, the Secretary, in consultation with the officials described in subsection (b), shall—

(1) identify the data that States should collect and include in the databases developed under section 70102(a)(2)(A)(ii);

(2) develop standards for the measurement of such data; and

(3) issue guidance to States concerning the collection and measurement of such data.

(b) OFFICIALS.—The officials described in this subsection are—

(1) the Administrator of the Environmental Protection Agency;

(2) the Secretary of Energy;

(3) the Director of the Centers for Disease Control and Prevention; and

(4) the Director of the National Institute for Occupational Safety and Health.

#### SEC. 70204. INFORMATION CLEARINGHOUSE.

(a) IN GENERAL.—Not later than 120 days after the date of the enactment of this division, the Secretary shall establish a clearinghouse to disseminate information on Federal programs and financing mechanisms that may be used to assist schools in initiating, developing, and financing—

(1) energy efficiency projects;

(2) distributed generation projects; and

(3) energy retrofitting projects.

(b) ELEMENTS.—In carrying out subsection (a), the Secretary shall—

(1) consult with the officials described in section 70203(b) to develop a list of Federal programs and financing mechanisms to be included in the clearinghouse; and

(2) coordinate with such officials to develop a collaborative education and outreach effort to streamline communications and promote the Federal programs and financing mechanisms included in the clearinghouse, which may include the development and maintenance of a single online resource that includes contact information for relevant technical assistance that may be used by States, outlying areas, local educational agencies, and Bureau-funded schools effectively access and use such Federal programs and financing mechanisms.

#### SEC. 70205. SENSE OF CONGRESS ON OPPORTUNITY ZONES.

(a) FINDINGS.—The Congress finds as follows:

(1) Opportunity Zones were championed by prominent leaders of both parties as an innovative way to tackle longstanding challenges.

(2) As of December 2018, 8,763 low-income communities had been designated as Opportunity Zones, representing all 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and American Samoa.

(3) Schools are integral parts of communities, and a key part of communities' economic and work force development efforts could be modernizing school facilities.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that opportunity zones, when combined with public infrastructure investment, can provide an innovative approach to capital financing that has the potential to unleash creativity and help local communities rebuild schools, rebuild economics, and get people back to work.

### TITLE III—IMPACT AID CONSTRUCTION

#### SEC. 70301. TEMPORARY INCREASE IN FUNDING FOR IMPACT AID CONSTRUCTION.

Section 7014(d) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7714(d)) is amended to read as follows:

“(d) CONSTRUCTION.—For the purpose of carrying out section 7007, there are authorized to be appropriated \$100,000,000 for each of fiscal years 2020 through 2024.”.

### TITLE IV—ASSISTANCE FOR REPAIR OF SCHOOL FOUNDATIONS AFFECTED BY PYRRHOTITE

#### SEC. 70401. ALLOCATIONS TO STATES.

(a) IN GENERAL.—Beginning not later than 180 days after the date of the enactment of this division, the Secretary shall carry out a program under which the Secretary makes allocations to States to pay the Federal share of the costs of making grants to local educational agencies under section 70402.

(b) WEBSITE.—Not later than 180 days after the date of enactment of this division, the Secretary shall publish, on a publicly accessible website of the Department of Education, instructions describing how a State may receive an allocation under this section.

#### SEC. 70402. GRANTS TO LOCAL EDUCATIONAL AGENCIES.

(a) IN GENERAL.—From the amounts allocated to a State under section 70401(a) and contributed by the State under subsection (e)(2), the State shall award grants to local educational agencies—

(1) to pay the future costs of repairing concrete school foundations damaged by the presence of pyrrhotite; or

(2) to reimburse such agencies for costs incurred by the agencies in making such repairs in the five-year period preceding the date of enactment of this division.

(b) LOCAL EDUCATIONAL AGENCY ELIGIBILITY.—

(1) ELIGIBILITY FOR GRANTS FOR FUTURE REPAIRS.—To be eligible to receive a grant under subsection (a)(1), a local educational agency shall—

(A) with respect to each school for which the agency seeks to use grant funds, demonstrate to the State that—

(i) the school is a pyrrhotite-affected school; and

(ii) any laboratory tests, core tests, and visual inspections of the school's foundation used to determine that the school is a pyrrhotite-affected school were conducted—

(I) by a professional engineer licensed in the State in which the school is located; and

(II) in accordance with applicable State standards or standards approved by any independent, non-profit, or private entity authorized by the State to oversee construction, testing, or financial relief efforts for damaged building foundations; and

(B) provide an assurance that—

(i) the local educational agency will use the grant only for the allowable uses described in subsection (f)(1); and

(ii) all work funded with the grant will be conducted by a qualified contractor or architect licensed in the State.

(2) ELIGIBILITY FOR REIMBURSEMENT GRANTS.—To be eligible to receive a grant under subsection (a)(2), a local educational agency shall demonstrate that it met the requirements of paragraph (1) at the time it carried out the project for which the agency seeks reimbursement.

(c) APPLICATION.—

(1) IN GENERAL.—A local educational agency that seeks a grant under this section shall submit to the State an application at such time, in such manner, and containing such information as the State may require, which upon approval by the State under subsection (d)(1)(A), the State shall submit to the Secretary for approval under subsection (d)(1)(B).

(2) CONTENTS.—At minimum, each application shall include—

(A) information and documentation sufficient to enable the State to determine if the local educational agency meets the eligibility criteria under subsection (b);

(B) in the case of an agency seeking a grant under subsection (a)(1), an estimate of the costs of carrying out the activities described in subsection (f);

(C) in the case of an agency seeking a grant under subsection (a)(2)—

(i) an itemized explanation of—

(I) the costs incurred by the agency in carrying out any activities described subsection (f);

(II) any amounts contributed from other Federal, State, local, or private sources for such activities; and

(ii) the amount for which the local educational agency seeks reimbursement; and

(D) the percentage of any costs described in subparagraph (B) or (C) that are covered by an insurance policy.

(d) APPROVAL AND DISBURSEMENT.—

(1) APPROVAL.—

(A) STATE.—The State shall approve the application of each local educational agency for submission to the Secretary that—

(i) submits a complete and correct application under subsection (c); and

(ii) meets the criteria for eligibility under subsection (b).

(B) SECRETARY.—Not later than 60 days after receiving an application of a local educational agency submitted by a State under subsection (c)(1), the Secretary shall—

(i) approve such application, in a case in which the Secretary determines that such application meets the requirements of subparagraph (A); or

(ii) deny such application, in the case of an application that does not meet such requirements.

(2) DISBURSEMENT.—

(A) ALLOCATION.—The Secretary shall disburse an allocation to a State not later than 60 days after the date on which the Secretary approves an application under paragraph (1)(B).

(B) GRANT.—The State shall disburse grant funds to a local educational agency not later than 60 days after the date on which the State receives an allocation under subparagraph (A).

(e) FEDERAL AND STATE SHARE.—

(1) FEDERAL SHARE.—The Federal share of each grant under this section shall be an amount that is not more than 50 percent of the total cost of the project for which the grant is awarded.

(2) STATE SHARE.—

(A) IN GENERAL.—Subject to subparagraph (B), the State share of each grant under this section shall be an amount that is not less than 40 percent of the total cost of the project for which the grant is awarded, which the State shall contribute from non-Federal sources.

(B) SPECIAL RULE FOR REIMBURSEMENT GRANTS.—In the case of a reimbursement grant made to a local educational agency under subsection (a)(2) a State shall be treated as meeting the requirement of subparagraph (A) if the State demonstrates that it contributed, from non-Federal sources, not less than 40 percent of the total cost of the project for which the reimbursement grant is awarded.

(f) USES OF FUNDS.—

(1) ALLOWABLE USES OF FUNDS.—A local educational agency that receives a grant under this section shall use such grant only for costs associated with—

(A) the repair or replacement of the concrete foundation or other affected areas of a pyrrhotite-affected school in the jurisdiction of such agency to the extent necessary—

(i) to restore the structural integrity of the school to the safety and health standards established by the professional licensed engineer or architect associated with the project; and

(ii) to restore the school to the condition it was in before the school's foundation was damaged due to the presence of pyrrhotite; and

(B) engineering reports, architectural design, core tests, and other activities directly related to the repair or replacement project.

(2) PROHIBITED USES OF FUNDS.—A local educational agency that receives a grant under this section may not use the grant for any costs associated with—

(A) work done to outbuildings, sheds, or barns, swimming pools (whether in-ground or

above-ground), playgrounds or ballfields, or any ponds or water features;

(B) the purchase of items not directly associated with the repair or replacement of the school building or its systems, including items such as desks, chairs, electronics, sports equipment, or other school supplies; or

(C) any other activities not described in paragraph (1).

(g) **LIMITATION.**—A local educational agency may not, for the same project, receive a grant under both—

- (1) this section; and
- (2) title I.

#### **SEC. 70403. DEFINITIONS.**

In this title:

(1) **PYRRHOTITE-AFFECTED SCHOOL.**—The term “pyrrhotite-affected school” means an elementary school or a secondary school that meets the following criteria:

(A) The school has a concrete foundation.

(B) Pyrrhotite is present in the school’s concrete foundation, as demonstrated by a petrographic or other type of laboratory core analysis or core inspection.

(C) A visual inspection of the school’s concrete foundation indicates that the presence of pyrrhotite is causing the foundation to deteriorate at an unsafe rate.

(D) A qualified engineer determined that the deterioration of the school’s foundation, due to the presence of pyrrhotite—

(i) caused the school to become structurally unsound; or

(ii) will result in the school becoming structurally unsound within the next five years.

(2) **QUALIFIED CONTRACTOR.**—The term “qualified contractor” means a contractor who is qualified under State law, or approved by any State agency or other State-sanctioned independent or nonprofit entity, to repair or replace residential or commercial building foundations that are deteriorating due to the presence of pyrrhotite.

#### **SEC. 70404. AUTHORIZATION OF APPROPRIATIONS.**

There are authorized to be appropriated to carry out this title such sums as may be necessary for fiscal year 2020 and each fiscal year thereafter.

### **DIVISION IV—PUBLIC LANDS, TRIBAL COMMUNITIES, AND RESILIENT NATURAL INFRASTRUCTURE**

#### **SEC. 80000. TABLE OF CONTENTS.**

The table of contents for this division is as follows:

Sec. 80000. Table of contents.

#### **TITLE I—WATER RESOURCES INFRASTRUCTURE**

##### **Subtitle A—Water Settlements Infrastructure**

Sec. 81101. Reclamation water settlements fund.

Sec. 81102. Conveyance capacity correction project.

Sec. 81103. Funding parity for water management goals and restoration goals.

##### **Subtitle B—FUTURE Western Water Infrastructure and Drought Resiliency**

Sec. 81201. Short title.

Sec. 81202. Definitions.

#### **CHAPTER 1—INFRASTRUCTURE DEVELOPMENT**

Sec. 81211. Competitive grant program for the funding of water recycling and reuse projects.

Sec. 81212. Storage project development reports to congress.

Sec. 81213. Funding for storage and supporting projects.

Sec. 81214. Extension of existing requirements for grandfathered storage projects.

Sec. 81215. Desalination project development.

Sec. 81216. Assistance for disadvantaged communities without adequate drinking water.

#### **CHAPTER 2—IMPROVED TECHNOLOGY AND DATA**

Sec. 81221. Reauthorization of water availability and use assessment program.

Sec. 81222. Renewal of advisory committee on water information.

Sec. 81223. Desalination technology development.

Sec. 81224. X-prize for water technology breakthroughs.

Sec. 81225. Study examining sediment transport.

Sec. 81226. Determination of water supply allocations.

Sec. 81227. Federal priority streamgages.

Sec. 81228. Study examining climate vulnerabilities at federal dams.

Sec. 81229. Innovative technology adoption.

#### **CHAPTER 3—ECOSYSTEM PROTECTION AND RESTORATION**

Sec. 81231. Waterbird habitat creation program.

Sec. 81232. Cooperative watershed management program.

Sec. 81233. Competitive grant program for the funding of watershed health projects.

Sec. 81234. Support for refuge water deliveries.

Sec. 81235. Drought planning and preparedness for critically important fisheries.

Sec. 81236. Aquatic ecosystem restoration.

Sec. 81237. Reauthorization of the Fisheries Restoration and Irrigation Mitigation Act of 2000.

#### **CHAPTER 4—WATER JOB TRAINING AND EDUCATION**

Sec. 81241. Water resource education.

Sec. 81242. Water sector career grant programs.

#### **CHAPTER 5—MISCELLANEOUS**

Sec. 81251. Offset.

Sec. 81252. Delayed water project recommendations.

##### **Subtitle C—Western Water Security**

Sec. 81301. Definitions.

#### **CHAPTER 1—INFRASTRUCTURE AND WATER MANAGEMENT IMPROVEMENT**

Sec. 81311. Watersmart extension and expansion.

Sec. 81312. Emergency drought funding.

Sec. 81313. Rio Grande Pueblo Irrigation Infrastructure Reauthorization.

#### **CHAPTER 2—GROUNDWATER MANAGEMENT**

Sec. 81321. Reauthorization and expansion of the Transboundary Aquifer Assessment Program.

Sec. 81322. Groundwater management assessment and improvement.

Sec. 81323. Surface and groundwater water availability and the energy nexus.

#### **CHAPTER 3—WATER CONSERVATION AND ENVIRONMENTAL RESTORATION**

Sec. 81331. Definitions.

Sec. 81332. Water acquisition program.

Sec. 81333. Middle Rio Grande Water Conservation.

Sec. 81334. Sustaining biodiversity during droughts.

Sec. 81335. Reauthorization of cooperative watershed management program.

#### **CHAPTER 4—EFFECT ON EXISTING LAW**

Sec. 81341. Effect on existing law.

##### **Subtitle D—Water Resources Research Amendments**

Sec. 81411. Water Resources Research Act amendments.

##### **Subtitle E—Ground Water Recharge Planning**

Sec. 81511. Ground water recharge planning.

##### **Subtitle F—Tribal Water Infrastructure**

Sec. 81611. Finding.

Sec. 81612. Indian Health Services Sanitation Facilities Construction Program funding.

##### **Subtitle G—Navajo Utah Water Rights Settlement**

Sec. 81711. Purposes.

Sec. 81712. Definitions.

Sec. 81713. Ratification of agreement.

Sec. 81714. Navajo water rights.

Sec. 81715. Navajo trust accounts.

Sec. 81716. Authorization of appropriations.

Sec. 81717. Conditions precedent.

Sec. 81718. Waivers and releases.

Sec. 81719. Miscellaneous provisions.

Sec. 81720. Relation to allottees.

Sec. 81721. Antideficiency.

#### **TITLE II—NATIONAL PARKS, FORESTS, AND PUBLIC LANDS**

##### **Subtitle A—Public Lands Telecommunications**

Sec. 82101. Definitions.

Sec. 82102. Collection and retention of rental fees associated with communications use authorizations on Federal lands and Federal land management agency support for communication site programs.

Sec. 82103. Cooperative agreement authority.

Sec. 82104. Clarification of cooperative agreement authority of the Secretary of Agriculture.

##### **Subtitle B—Outdoors for All**

Sec. 82201. Definitions.

Sec. 82202. Grants authorized.

Sec. 82203. Eligible uses.

Sec. 82204. National park service requirements.

Sec. 82205. Reporting.

Sec. 82206. Revenue sharing.

##### **Subtitle C—Updated Borrowing Authority**

Sec. 82301. Presidio Trust borrowing authority.

##### **Subtitle D—Forest Service Legacy Roads and Trails Remediation Program**

Sec. 82401. Forest Service Legacy Roads and Trails Remediation Program.

#### **TITLE III—OCEANS AND WILDLIFE**

Subtitle A—Coastal and Great Lakes Resiliency and Restoration

Sec. 83101. Shovel-Ready Restoration and Resiliency Grant Program.

Sec. 83102. Living Shoreline Grant Program.

##### **Subtitle B—Wildlife Corridors Conservation Act**

Sec. 83201. Definitions.

#### **CHAPTER 1—NATIONAL WILDLIFE CORRIDOR SYSTEM ON FEDERAL LAND AND WATER**

Sec. 83211. National wildlife corridors.

Sec. 83212. Administrative designation of national wildlife corridors.

Sec. 83213. Management of national wildlife corridors.

#### **CHAPTER 2—WILDLIFE CORRIDORS CONSERVATION**

##### **SUBCHAPTER A—NATIONAL WILDLIFE CORRIDOR SYSTEM ON FEDERAL LAND AND WATER**

Sec. 83311. Collaboration and coordination.

Sec. 83312. Effect.

##### **SUBCHAPTER B—TRIBAL WILDLIFE CORRIDORS**

Sec. 83321. Tribal Wildlife Corridors.

Sec. 83322. Protection of Indian Tribes.

##### **SUBCHAPTER C—WILDLIFE MOVEMENT GRANT PROGRAM ON NON-FEDERAL LAND AND WATER**

Sec. 83331. Wildlife movements grant program.

Sec. 83332. National Coordination Committee.

Sec. 83333. Regional wildlife movement councils.

##### **SUBCHAPTER D—NATIONAL WILDLIFE CORRIDORS DATABASE**

Sec. 83341. National wildlife corridors database.

#### **CHAPTER 3—FUNDING**

Sec. 83401. Wildlife corridors stewardship fund.

Sec. 83402. Authorization of appropriations.

#### **TITLE IV—ENERGY**

Subtitle A—Establishment of Federal Orphaned Well Remediation Program

Sec. 84101. Establishment of federal orphaned well remediation program.

Sec. 84102. Federal bonding reform.

##### **Subtitle B—Surface Mining Control and Reclamation Act Amendments**

Sec. 84201. Abandoned Mine Land Reclamation Fund.

Sec. 84202. Emergency Powers.

Sec. 84203. Reclamation fee.

Subtitle C—Revitalizing the Economy of Coal Communities by Leveraging Local Activities and Investing More

Sec. 84301. Economic revitalization for coal country.

Sec. 84302. Technical and conforming amendments.

Sec. 84303. Minimum State payments.

Sec. 84304. GAO study of use of funds.

Sec. 84305. Payments to certified States not affected.

Subtitle D—Public Land Renewable Energy Development

Sec. 84401. Definitions.

Sec. 84402. Land use planning; supplements to programmatic environmental impact statements.

Sec. 84403. Environmental review on covered land.

Sec. 84404. Program to improve renewable energy project permit coordination.

Sec. 84405. Increasing economic certainty.

Sec. 84406. Limited grandfathering.

Sec. 84407. Renewable energy goal.

Sec. 84408. Disposition of revenues.

Sec. 84409. Promoting and enhancing development of geothermal energy.

Sec. 84410. Facilitation of coproduction of geothermal energy on oil and gas leases.

Sec. 84411. Noncompetitive leasing of adjoining areas for development of geothermal resources.

Sec. 84412. Savings clause.

Subtitle E—Offshore Wind Jobs and Opportunity

Sec. 84501. Offshore Wind Career Training Grant Program.

Subtitle F—Community Reclamation Partnerships

Sec. 84601. Reference.

Sec. 84602. State memoranda of understanding for certain remediation.

Sec. 84603. Clarifying State liability for mine drainage projects.

Sec. 84604. Conforming amendments.

## TITLE I—WATER RESOURCES INFRASTRUCTURE

### Subtitle A—Water Settlements Infrastructure

#### SEC. 81101. RECLAMATION WATER SETTLEMENTS FUND.

Section 10501 of the Omnibus Public Land Management Act of 2009 (43 U.S.C. 407) is amended—

(1) in subsection (b)(1), by inserting “and for fiscal year 2031 and each fiscal year thereafter” after “For each of fiscal years 2020 through 2029”;

(2) in subsection (c)—

(A) in paragraph (1)(A), by striking “for each of fiscal years 2020 through 2034” and inserting “for fiscal year 2020 and each fiscal year thereafter”; and

(B) in paragraph (3)(C), by striking “for any authorized use” and all that follows through the period at the end and inserting “for any use authorized under paragraph (2).”; and

(3) by striking subsection (f).

#### SEC. 81102. CONVEYANCE CAPACITY CORRECTION PROJECT.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary of the Interior, \$200,000,000 for fiscal years 2020 through 2023, in the aggregate, for the acceleration and completion of repairs to water conveyance facilities at transferred works in Reclamation States.

(b) ELIGIBILITY.—A project eligible for funding under this section is a project where—

(1) repairs are major, non-recurring maintenance of a mission critical asset;

(2) the Secretary determines that the project has lost 50 percent or more of its designed carrying capacity along some portion of the facility; and

(3) the additional water made available for conveyance through the project would be used primarily for groundwater recharge to assist in meeting groundwater sustainability goals defined under State law.

(c) COST SHARING.—

(1) FEDERAL SHARE.—The Federal share of the cost of carrying out an activity described in this section shall not be more than 50 percent.

(2) NON-FEDERAL SHARE.—The non-Federal share of the cost of carrying out an activity described in the section—

(A) shall be not less than 50 percent; and

(B) may be provided in cash or in-kind.

(d) RESTRICTIONS.—Funds authorized to be appropriated under this section may not be used to build new surface storage, raise existing reservoirs, or enlarge the carrying capacity of a canal beyond the project's capacity as previously constructed by the Bureau of Reclamation.

(e) ENVIRONMENTAL COMPLIANCE.—In carrying out projects under this section, the Secretary of the Interior shall comply with all applicable environmental laws, including—

(1) the National Environmental Policy Act of 1969;

(2) the Endangered Species Act of 1973; and

(3) other applicable State law.

(f) SAVINGS.—Federal funds provided under this section shall be in addition to any and all Federal funding authorized in statute for such purposes and shall be non-reimbursable.

#### SEC. 81103. FUNDING PARITY FOR WATER MANAGEMENT GOALS AND RESTORATION GOALS.

In addition to the funding authorized in section 10009 of Public Law 111-11, there are authorized to be appropriated an additional \$200,000,000 (at October 2019 price levels) to implement the Restoration Goal of the Settlement described in section 10004 of Public Law 111-11.

### Subtitle B—FUTURE Western Water Infrastructure and Drought Resiliency

#### SEC. 81202. DEFINITIONS.

In this subtitle:

(1) RELEVANT COMMITTEES OF CONGRESS.—The term “relevant committees of Congress” means—

(A) the Committee on Natural Resources of the House of Representatives; and

(B) the Committee on Energy and Natural Resources of the Senate.

(2) RECLAMATION STATE.—The term “Reclamation State” means a State or territory described in the first section of the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 391).

(3) SECRETARY.—The term “Secretary” means the Secretary of the Interior, unless otherwise defined in a particular provision.

(4) INDIAN TRIBE.—The term “Indian Tribe” has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

## CHAPTER 1—INFRASTRUCTURE DEVELOPMENT

#### SEC. 81211. COMPETITIVE GRANT PROGRAM FOR THE FUNDING OF WATER RECYCLING AND REUSE PROJECTS.

(a) COMPETITIVE GRANT PROGRAM FOR THE FUNDING OF WATER RECYCLING AND REUSE PROJECTS.—Section 1602(f) of the Reclamation Wastewater and Groundwater Study and Facilities Act (title XVI of Public Law 102-575; 43 U.S.C. 390h et seq.) is amended by striking paragraphs (2) and (3) and inserting the following:

“(2) PRIORITY.—When funding projects under paragraph (1), the Secretary shall give funding priority to projects that meet one or more of the following criteria:

“(A) Projects that are likely to provide a more reliable water supply for States and local governments.

“(B) Projects that are likely to increase the water management flexibility and reduce impacts on environmental resources from projects operated by Federal and State agencies.

“(C) Projects that are regional in nature.

“(D) Projects with multiple stakeholders.

“(E) Projects that provide multiple benefits, including water supply reliability, eco-system benefits, groundwater management and enhancements, and water quality improvements.”.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 1602(g) of the Reclamation Wastewater and Groundwater Study and Facilities Act (title XVI of Public Law 102-575; 43 U.S.C. 390h et seq.) is amended—

(1) by striking “\$50,000,000” and inserting “\$500,000,000 through fiscal year 2025”; and

(2) by striking “if enacted appropriations legislation designates funding to them by name.”.

(c) DURATION.—Section 4013 of the WIIN Act (43 U.S.C. 390b(2)) is amended—

(1) in paragraph (1), by striking “and”; and

(2) in paragraph (2), by striking the period and inserting “; and”; and

(3) by adding at the end the following:

“(3) section 4009(c).”.

(d) LIMITATION ON FUNDING.—Section 1631(d) of the Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h-13(d)) is amended by striking “\$20,000,000 (October 1996 prices)” and inserting “\$30,000,000 (January 2019 prices)”.

#### SEC. 81212. STORAGE PROJECT DEVELOPMENT REPORTS TO CONGRESS.

(a) DEFINITIONS.—In this section:

(1) NON-FEDERAL INTEREST.—The term “Non-Federal interest” means an eligible entity or a qualified partner (as defined in section 81213(a)).

(2) PROJECT REPORT.—The term “project report” means the following documents prepared for a Federal storage project or major federally assisted storage project (as defined in section 81213(a)):

(A) A feasibility study carried out pursuant to the Act of June 17, 1902 (32 Stat. 388, chapter 1093), and Acts supplemental to and amendatory of that Act (43 U.S.C. 371 et seq.) including any feasibility or equivalent studies prepared for a project pursuant to section 81213(c)(7)(B) or section 81213(d)(7)(B)(i) of this subtitle.

(B) The Fish and Wildlife Coordination Act report described in section 81213(g) of this subtitle prepared for a project.

(C) Any final document prepared for a project pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(D) A brief description of any completed environmental permits, approvals, reviews, or studies required for a project under any Federal law other than the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(E) A description of any determinations made by the Secretary under section 81213(d)(7)(A)(ii) for each project and the basis for such determinations.

(3) PROJECT STUDY.—

(A) FEDERAL STORAGE PROJECT.—With respect to a Federal storage project (as defined in section 81213(a)), the term “project study” means a feasibility study carried out pursuant to the Act of June 17, 1902 (32 Stat. 388, chapter 1093), and Acts supplemental to and amendatory of that Act (43 U.S.C. 371 et seq.) including a feasibility study prepared pursuant to section 81213(c)(7)(B) of this subtitle.

(B) MAJOR FEDERALLY ASSISTED STORAGE PROJECT.—With respect to a major federally assisted storage project (as defined in section 81213(a)), the term “project study” means the feasibility or equivalent studies prepared pursuant to section 81213(d)(7)(B)(i) of this subtitle.

(b) ANNUAL REPORTS.—Not later than February 1 of each year, the Secretary shall develop and submit to the relevant committees of Congress an annual report, to be entitled “Report to Congress on Future Storage Project Development”, that identifies the following:

(1) PROJECT REPORTS.—Each project report that meets the criteria established in subsection (d)(1)(A).

(2) PROPOSED PROJECT STUDIES.—Any proposed project study submitted to the Secretary

by a non-Federal interest pursuant to subsection (c) that meets the criteria established in subsection (d)(1)(A).

(3) **PROPOSED MODIFICATIONS.**—Any proposed modification to an authorized project or project study that meets the criteria established in subsection (d)(1)(A) that—

(A) is submitted to the Secretary by a non-Federal interest pursuant to subsection (c); or

(B) is identified by the Secretary for authorization.

(c) **REQUESTS FOR PROPOSALS.**—

(1) **PUBLICATION.**—Not later than May 1 of each year, the Secretary shall publish in the Federal Register a notice requesting proposals from non-Federal interests for project reports, proposed project studies, and proposed modifications to authorized projects and project studies to be included in the annual report.

(2) **DEADLINE FOR REQUESTS.**—The Secretary shall include in each notice required by this subsection a requirement that non-Federal interests submit to the Secretary any proposals described in paragraph (1) by not later than 120 days after the date of publication of the notice in the Federal Register in order for the proposals to be considered for inclusion in the annual report.

(3) **NOTIFICATION.**—On the date of publication of each notice required by this subsection, the Secretary shall—

(A) make the notice publicly available, including on the internet; and

(B) provide written notification of the publication to the relevant committees of Congress.

(d) **CONTENTS.**—

(1) **PROJECT REPORTS, PROPOSED PROJECT STUDIES, AND PROPOSED MODIFICATIONS.**—

(A) **CRITERIA FOR INCLUSION IN REPORT.**—The Secretary shall include in the annual report only those project reports, proposed project studies, and proposed modifications to authorized projects and project studies that—

(i) are related to the missions and authorities of the Department of the Interior;

(ii) require specific congressional authorization, including by an Act of Congress;

(iii) have not been congressionally authorized;

(iv) have not been included in any previous annual report; and

(v) if authorized, could be carried out by the Department of the Interior or a non-Federal entity eligible to carry out a major federally assisted storage project under section 81213.

(B) **DESCRIPTION OF BENEFITS.**—

(i) **DESCRIPTION.**—The Secretary shall describe in the annual report, to the extent applicable and practicable, for each proposed project study and proposed modification to an authorized project or project study included in the annual report, the benefits, as described in clause (ii), of each such study or proposed modification.

(ii) **BENEFITS.**—The benefits (or expected benefits, in the case of a proposed project study) described in this clause are benefits to—

(I) water supply and water management;

(II) the environment, including fish and wildlife benefits estimated under section 81213(g) for a project report or proposed modification to an authorized project;

(III) the protection of human life and property;

(IV) the national economy; or

(V) the national security interests of the United States.

(C) **IDENTIFICATION OF OTHER FACTORS.**—The Secretary shall identify in the annual report, to the extent practicable—

(i) for each proposed project study included in the annual report, the non-Federal interest that submitted the proposed project study pursuant to subsection (c); and

(ii) for each proposed project study and proposed modification to a project or project study included in the annual report, whether the non-Federal interest has demonstrated—

(I) that local support exists for the proposed project study or proposed modification to an au-

thorized project or project study (including the project that is the subject of the proposed project study or the proposed modification to an authorized project study); and

(II) the financial ability to provide the required non-Federal cost share.

(2) **TRANSPARENCY.**—The Secretary shall include in the annual report, for each project report, proposed project study, and proposed modification to a project or project study included under paragraph (1)(A)—

(A) the name of the associated non-Federal interest, including the name of any non-Federal interest that has contributed, or is expected to contribute, a non-Federal share of the cost of—

(i) the project report;

(ii) the proposed project study;

(iii) the authorized project study for which the modification is proposed; or

(iv) construction of—

(I) the project that is the subject of—

(aa) the project report;

(bb) the proposed project study; or

(cc) the authorized project study for which a modification is proposed; or

(II) the proposed modification to a project;

(B) a letter or statement of support for the project report, proposed project study, or proposed modification to a project or project study from each associated non-Federal interest;

(C) the purpose of the project report, proposed project study, or proposed modification to a project or project study;

(D) an estimate, to the extent practicable, of the Federal, non-Federal, and total costs of—

(i) the proposed modification to an authorized project study; and

(ii) construction of—

(I) the project that is the subject of—

(aa) the project report; or

(bb) the authorized project study for which a modification is proposed, with respect to the change in costs resulting from such modification; or

(II) the proposed modification to an authorized project; and

(E) an estimate, to the extent practicable, of the monetary and nonmonetary benefits of—

(i) the project that is the subject of—

(I) the project report; or

(II) the authorized project study for which a modification is proposed, with respect to the benefits of such modification; or

(ii) the proposed modification to an authorized project.

(3) **CERTIFICATION.**—The Secretary shall include in the annual report a certification stating that each project report, proposed project study, and proposed modification to a project or project study included in the annual report meets the criteria established in paragraph (1)(A).

(4) **APPENDIX.**—The Secretary shall include in the annual report an appendix listing the proposals submitted under subsection (c) that were not included in the annual report under paragraph (1)(A) and a description of why the Secretary determined that those proposals did not meet the criteria for inclusion under such paragraph.

(e) **SPECIAL RULE FOR INITIAL ANNUAL REPORT.**—Notwithstanding any other deadlines required by this section, the Secretary shall—

(1) not later than 60 days after the date of the enactment of this Act, publish in the Federal Register a notice required by subsection (c)(1); and

(2) include in such notice a requirement that non-Federal interests submit to the Secretary any proposals described in subsection (c)(1) by not later than 120 days after the date of publication of such notice in the Federal Register in order for such proposals to be considered for inclusion in the first annual report developed by the Secretary under this section.

(f) **PUBLICATION.**—Upon submission of an annual report to Congress, the Secretary shall make the annual report publicly available, including through publication on the Internet.

(g) **CONSULTATION.**—The Secretary, acting through the Commissioner of Reclamation, shall confer with the relevant committees of Congress before submitting each annual report prepared under subsection (b).

(h) **SUBMISSION OF INDIVIDUAL PROJECT REPORTS.**—Upon completion, project reports, including all required documents and reports under subsection (b), shall—

(1) be submitted to the relevant committees of Congress; and

(2) include discussion of the following findings by the Secretary—

(A) whether the project is deemed to be feasible in accordance with the applicable feasibility standards under section 81213 and the reclamation laws;

(B) The degree to which the project will provide benefits (or expected benefits, in the case of a proposed project study) as described in subsection (d)(1)(B)(ii) and other benefits under the reclamation laws; and

(C) whether the project complies with Federal, State, and local laws.

## SEC. 81213. FUNDING FOR STORAGE AND SUPPORTING PROJECTS.

(a) **DEFINITIONS.**—In this section:

(1) **DESIGN; STUDY.**—

(A) **IN GENERAL.**—The terms “design” and “study” include any design, permitting, study (including a feasibility study), materials engineering or testing, surveying, or preconstruction activity relating to a Federal storage project, a major federally assisted storage project, a natural water storage project, or a standard federally assisted storage project as defined in this subsection.

(B) **EXCLUSIONS.**—The terms “design” and “study” do not include an appraisal study or other preliminary review intended to determine whether further study is appropriate for a Federal storage project, a major federally assisted storage project, a natural water storage project, or a standard federally assisted storage project as defined in this subsection.

(2) **ELIGIBLE ENTITY.**—The term “eligible entity” means—

(A) any State, political subdivision of a State, department of a State, or public agency organized pursuant to State law;

(B) an Indian Tribe or an entity controlled by an Indian Tribe;

(C) a water users’ association;

(D) an agency established by an interstate compact; and

(E) an agency established under State law for the joint exercise of powers.

(3) **FEDERAL STORAGE PROJECT.**—The term “Federal storage project” means—

(A) any project in a Reclamation State that involves the construction, expansion, upgrade, or capital repair of a water storage facility or a facility conveying water to or from a surface or groundwater storage facility—

(i) to which the United States holds title; and

(ii) that was authorized to be constructed, operated, and maintained pursuant to—

(I) the reclamation laws; or

(II) the Act of August 11, 1939 (commonly known as the Water Conservation and Utilization Act (16 U.S.C. 590y et seq.)); or

(B) an ecosystem restoration project for watershed function, including a forest or watershed restoration project, that reduces the risk of water storage loss by reducing the risk of erosion or sediment loading into a water storage facility in a Reclamation State—

(i) to which the United States holds title; and

(ii) that was authorized to be constructed, operated, and maintained pursuant to—

(I) the reclamation laws; or

(II) the Act of August 11, 1939 (commonly known as the Water Conservation and Utilization Act (16 U.S.C. 590y et seq.)).

(4) **FISH AND WILDLIFE BENEFITS.**—The term “fish and wildlife benefits” means overall benefits or improvements to aquatic ecosystems and native fish and wildlife within a Reclamation

State, including benefits for a wildlife refuge, that are in excess of—

(A) existing fish and wildlife mitigation or compliance obligations under—

(i) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(ii) the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.);

(iii) the Water Resources Development Act of 1986 (Public Law 99-662; 100 Stat. 4082);

(iv) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(v) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(vi) any other Federal law, State law or other existing requirement in regulations, permits, contracts, licenses, grants, or orders and decisions from courts or State or Federal agencies; or

(B) existing environmental mitigation or compliance obligations as defined in section 6001(a)(32) of title 23 of the California Code of Regulations, with respect to benefits and improvements to aquatic ecosystems and native fish and wildlife within the State of California, in recognition of the State of California's existing prohibitions against the use of public funds for environmental mitigation required under Federal and State law.

(5) MAJOR FEDERALLY ASSISTED STORAGE PROJECT.—The term “major federally assisted storage project” means any project in a Reclamation State that—

(A) involves the construction, expansion, upgrade, or capital repair by an eligible entity or qualified partner of—

(i) a surface or groundwater storage facility that is not federally owned; or

(ii) a facility that is not federally owned conveying water to or from a surface or groundwater storage facility; or

(B) is an ecosystem restoration project for watershed function, including a forest or watershed restoration project, that reduces the risk of water storage loss by reducing the risk of erosion or sediment loading for a project described in subparagraph (A); and

(C) provides benefits described in section 81212(d)(1)(B)(ii); and

(D) has a total estimated cost of more than \$250,000,000.

(6) NATURAL WATER STORAGE PROJECT.—The term “natural water storage project” means a single project, a number of distributed projects across a watershed, or the redesign and replacement, or removal, of built infrastructure to incorporate elements, where the project or elements have the following characteristics:

(A) Uses primarily natural materials appropriate to the specific site and landscape setting.

(B) Largely relies on natural riverine, wetland, hydrologic, or ecological processes.

(C) Results in aquifer recharge, transient floodplain water retention, or reconnection of historic floodplains to their stream channels with water retention benefits within a Reclamation State.

(D) Is designed to produce two or more of the following environmental benefits—

(i) stream flow changes beneficial to watershed health.

(ii) fish and wildlife habitat or migration corridor restoration.

(iii) floodplain reconnection and inundation.

(iv) riparian or wetland restoration and improvement.

(7) STANDARD FEDERALLY ASSISTED STORAGE PROJECT.—The term “standard federally assisted storage project” means any project in a Reclamation State that—

(A) involves the construction, expansion, upgrade, or capital repair by an eligible entity or qualified partner of—

(i) a surface or groundwater storage facility that is not federally owned; or

(ii) a facility that is not federally owned conveying water to or from a surface or groundwater storage facility; or

(B) is an ecosystem restoration project for watershed function, including a forest or watershed restoration project, that reduces the risk of water storage loss by reducing the risk of erosion or sediment loading for a project described in subparagraph (A); and

(C) provides benefits described in section 81212(d)(1)(B)(ii); and

(D) has a total estimated cost of \$250,000,000 or less.

(8) QUALIFIED PARTNER.—The term “qualified partner” means a non-profit organization operating in a Reclamation State.

(9) RECLAMATION LAWS.—The term “reclamation laws” means Federal reclamation law (the Act of June 17, 1902 (32 Stat. 388; chapter 1093)), and Acts supplemental to and amendatory of that Act.

(b) STORAGE PROJECT FUNDING.—There is authorized to be appropriated a total of \$750 million for use by the Secretary through fiscal year 2026 to advance—

(1) Federal storage projects within a Reclamation State in accordance with subsection (c);

(2) major federally assisted storage projects within a Reclamation State in accordance with subsection (d);

(3) natural water storage projects within a Reclamation State in accordance with subsection (e);

(4) standard federally assisted storage projects within a Reclamation State in accordance with subsection (f); or

(5) grandfathered storage projects in accordance with section 81214.

(c) FEDERAL STORAGE PROJECTS.—

(1) AGREEMENTS.—On request of an eligible entity or qualified partner and in accordance with this subsection, the Secretary may negotiate and enter into an agreement on behalf of the United States for the design, study, construction, expansion, upgrade, or capital repair of a Federal storage project located in a Reclamation State.

(2) FEDERAL SHARE.—Subject to the requirements of this subsection, the Secretary may fund up to 50 percent of the design and study costs of a Federal storage project and up to 50 percent of the construction costs of a Federal storage project.

(3) CONDITIONS FOR FEDERAL DESIGN AND STUDY FUNDING.—Funding provided under this subsection may be made available for the design and study of a Federal storage project if—

(A) the Secretary secures a cost share agreement for design and study costs providing sufficient upfront funding to pay the non-Federal share of the design and study costs of the Federal storage project; and

(B) the feasibility study for the Federal storage project is congressionally authorized by reference to the annual Report to Congress on Future Storage Project Development prepared under section 81212.

(4) CONDITIONS FOR FEDERAL CONSTRUCTION FUNDING.—Funding provided under this subsection for the construction of a Federal storage project may be made available to a project if—

(A) the project has been authorized by name in a Federal statute;

(B) the project is a multi-benefit project that would, at a minimum, provide water supply reliability benefits (including additional storage, conveyance, or new firm yield) and fish and wildlife benefits as determined by the final estimate prepared pursuant to subsection (g);

(C) construction funding for the project is congressionally approved by reference to the annual Report to Congress on Future Storage Project Development prepared under section 81212;

(D) the Secretary secures an agreement providing sufficient upfront funding to pay the non-Federal share of the construction costs of the Federal storage project; and

(E) The Secretary determines—

(i) the project is technically and financially feasible;

(ii) the project provides water supply reliability benefits for a State or local government and fish and wildlife benefits; and

(iii) in return for the Federal cost-share investment in the project, at least a proportionate share of the project benefits are for—

(I) fish and wildlife benefits as determined under subsection (g); or

(II) non-reimbursable expenses authorized under the reclamation laws other than fish and wildlife expenses.

(5) NOTIFICATION.—The Secretary shall submit to the relevant committees of Congress and make publicly available on the internet a written notification of the Secretary's determinations regarding the satisfaction of the requirements under paragraphs (3) and (4) by not later than 30 days after the date of the determinations.

(6) ENVIRONMENTAL LAWS.—In participating in a Federal storage project under this subsection, the Secretary shall comply with all applicable Federal environmental laws, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), and all State environmental laws of the Reclamation State in which the project is located involving the construction, expansion or operation of a water storage project or fish and wildlife protection, provided that no law or regulation of a State or political subdivision of a State relieve the Secretary of any Federal requirement otherwise applicable under this section.

(7) ADDITIONAL GUIDELINES FOR RESTORATION PROJECTS THAT REDUCE THE RISK OF WATER STORAGE LOSSES.—

(A) REQUIREMENTS.—A restoration project described in section 81213(a)(3)(B) that receives funding under this subsection must—

(i) have the potential to reduce the risk of water storage losses for a Federal storage project described in subsection (a)(3)(A) by reducing the risk of erosion or sediment loading; and

(ii) be designed to result in fish and wildlife benefits.
