

number of eligible projects. Notably, our own San Francisco Bay estuary faces a number of issues associated with resiliency and sustainability, and the reuse of dredged material can be enormously helpful in addressing these critical issues around the Bay. In its report for WRDA 2020, the Committee highlighted Richmond Outer Harbor, Pinole Shoal, and the San Francisco Bay as priorities for consideration in the next round of pilot projects.

This year's bill also highlights the role and value of alternative dredging methods and equipment to beneficial reuse of dredged material. Specifically, I am encouraged that the Committee clarifies that the use of alternative dredging methods and equipment must be part of the overall beneficial use program. This is important as, too often, we find that the old ways utilized by the Corps for maintaining navigation channels will not meet modern day demands to protect our natural resources and build a resilient future through reliable strategic management plans that allow annual dredging.

This bill will go a long way toward improving our environment, providing much-needed direction to the Army Corps, and supporting California's 11th District.

Ms. JOHNSON of Texas. Mr. Speaker, I rise in strong support of H.R. 7575, the Water Resources Development Act of 2020. I would like to thank Chairman DEFazio and my fellow colleagues on the House Transportation and Infrastructure Committee for their diligent work to produce this much needed water resources bill. Everyone in the U.S. is impacted by the need for clean water and I believe this bill takes a giant step forward to ensuring this becomes a reality for every American.

Within my district, The City of Dallas is appreciative to the U.S. Army Corps of Engineers (Corps) for their funding of the Dallas Floodway, Dallas Floodway Extension flood risk management projects and Lewisville Dam repairs and their continued efforts to complete these projects quickly. I look forward to continuing to hear good reports on the progress of these projects. I am pleased that the Corps is moving forward with these projects.

Please allow me to note that it is helpful for the Corps to accept input from non-federal sponsors in the development of WRDA guidance. The Corps, working with local non-federal sponsors instead of developing guidance independently, will result in more resilient projects with multiple benefits. The role of resiliency in the construction, operation and maintenance of projects carried out by the U.S. Army Corps of Engineers (Corps) must continue to be a priority.

The Dallas area falls within the Southwestern Division of the Army Corps of Engineers. Flooding and flood control continue to be issues that are ever-present on the minds of residents along the Trinity River. I have held several meetings on flooding in the Dallas area to address this issue and hope to continue to work with the Corps to combat flooding in Dallas.

Other parts of North Texas have also benefited from projects included in previous versions of WRDA legislation. The projects addressing pump stations and levy heights in Dallas, along with bridge projects in Ft. Worth would not be where they are today without the Corps and this legislation.

Mr. Speaker, the Dallas-Fort Worth metroplex is growing at a quite rapid pace and

this updated legislation will help to provide adequate water and wastewater infrastructure to meet the demands, given the rapid pace of growth and development in our area. Furthermore, the bill will help in addressing maintenance needs, replacing aging infrastructure, and help in accounting for human behavior in all aspects of our water system—from sewer overflows, to promoting water conservation through drought tolerant outdoor landscaping.

Lastly, I want to thank the committee for working with me to include language in the bill regarding the embankment of Lake Waco, on which Lake Shore Drive is located, so that we may keep the public safe from danger. I understand that there is also language in the Senate bill on the Lakeshore Drive issue that may be more direct. As we move through completion of this bill in conference, I hope to continue to work with the committee to ensure that Lakeshore Drive is not a safety hazard.

Mr. Speaker, the projects I just mentioned are a tiny piece of the multitude of projects the Army Corps of Engineers works on to help address the water needs of the United States and its residents. Every American is impacted by this legislation and I urge my colleagues to support it.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. DEFazio) that the House suspend the rules and pass the bill, H.R. 7575, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for a period of less than 15 minutes.

Accordingly (at 3 o'clock and 12 minutes p.m.), the House stood in recess.

□ 1523

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. COURTNEY) at 3 o'clock and 23 minutes p.m.

#### PROVIDING FOR CONSIDERATION OF H.R. 7617, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2021

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the vote on ordering the previous question on the resolution (H. Res. 1067) providing for consideration of the bill (H.R. 7617) making appropriations for the Department of Defense for the fiscal year ending September 30, 2021, and for other purposes, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The vote was taken by electronic device, and there were—yeas 230, nays 181, not voting 19, as follows:

[Roll No. 168]
