SUBMITTED RESOLUTIONS

SENATE RESOLUTION 692—DESIGNATING SEPTEMBER 2020 AS “NATIONAL PROSTATE CANCER AWARENESS MONTH”

Mr. MENENDEZ (for himself, Mr. CRAPO, Mr. WYDEN, Mr. MARKEY, Mr. CARDIN, Mr. KING, Mr. BLUMENTHAL, Mr. VAN HOLLEN, Mr. COONS, Mr. BOOKER, and Mr. HAWLEY) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 692

Whereas more than 3,100,000 men in the United States are living with prostate cancer;

Whereas 1 in 9 men in the United States will be diagnosed with prostate cancer in their lifetimes and 1 in 41 men in the United States will die from prostate cancer;

Whereas prostate cancer is the most commonly diagnosed non-skin cancer and the second-leading cause of cancer-related deaths among men in the United States;

Whereas the American Cancer Society estimates that, in 2020, 191,930 men will be diagnosed with, and more than 33,330 men will die of, prostate cancer;

Whereas 40.9 percent of newly diagnosed prostate cancer cases occur in men under the age of 65;

Whereas the odds of developing prostate cancer rise rapidly after age 50;

Whereas African-American men suffer from a prostate cancer incidence rate that is significantly higher than that of White men and have more than double the prostate cancer mortality rate than that of White men;

Whereas having a father or brother with prostate cancer more than doubles the risk of a man developing prostate cancer, with a higher risk for men who have a brother with the disease and the highest risk for men with several affected relatives;

Whereas screening by a digital rectal examination and a prostate-specific antigen blood test can detect the disease at the earlier, more treatable stages, which could increase the chances of survival for more than 5 years to nearly 100 percent;

Whereas only 31 percent of men survive more than 5 years if diagnosed with prostate cancer after the cancer has metastasized;

Whereas there are typically no noticeable symptoms of prostate cancer in the early stages, making appropriate screening critical;

Whereas, in fiscal year 2020, the Director of the National Institutes of Health will support approximately \$287,000,000 in research projects focused specifically on prostate cancer;

Whereas, in fiscal year 2020, Congress appropriated \$110,000,000 for the Prostate Cancer Research Program of the Department of Defense;

Whereas ongoing research promises further improvements in prostate cancer prevention, early detection, and treatment; and

Whereas educating people in the United States, including health care providers, about prostate cancer and early detection strategies is crucial to saving the lives of men and preserving and protecting families: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2020 as “National Prostate Cancer Awareness Month”;

(2) declares that steps should be taken—

(A) to raise awareness about the importance of screening methods for, and treatment of, prostate cancer;

(B) to encourage research—

(i) to improve screening and treatment for prostate cancer;

(ii) to discover the causes of prostate cancer; and

(iii) to develop a cure for prostate cancer; and

(C) to continue to consider ways to improve access to, and the quality of, health care services for detecting and treating prostate cancer; and

(3) calls on the people of the United States, interest groups, and affected persons—

(A) to promote awareness of prostate cancer;

(B) to take an active role in the fight to end the devastating effects of prostate cancer on individuals, families, and the economy; and

(C) to observe National Prostate Cancer Awareness Month with appropriate ceremonies and activities.

SENATE RESOLUTION 693—RECOGNIZING THE DUTY OF THE FEDERAL GOVERNMENT TO IMPLEMENT AN AGENDA TO TRANSFORM, HEAL, AND RENEW BY INVESTING IN A VIBRANT ECONOMY (“THRIVE”)

Mr. MARKEY (for himself, Mr. BOOKER, Mr. SCHUMER, Ms. WARREN, Mrs. GILLIBRAND, Mr. UDALL, Mr. SANDERS, Mr. BLUMENTHAL, Mr. WYDEN, Mr. MERKLEY, and Mr. HEINRICH) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 693

Whereas families and communities throughout the United States share similar hopes and dreams of a good life that is free from worry about meeting basic needs, with reliable and fulfilling work, a dignified and healthy standard of living, and the ability to enjoy time with loved ones;

Whereas the United States faces the stress of multiple, overlapping crises—old and new—that prevent the achievement of these fundamental human rights and needs, in which the COVID-19 pandemic has killed over 180,000 United States residents; tens of millions of United States workers remain unemployed; rising economic inequality has made working families vulnerable; tens of millions of individuals do not get the health care they need; and intensifying climate change increases the threats to our health, economy, and livelihoods;

Whereas these health, economic, and climate crises have magnified centuries-old injustices, causing high rates of death and hardship among Black, Brown, and Indigenous communities due to long-standing systemic racism—a fact spotlighted by an emerging, multiracial movement to end violence against Black people;

Whereas these crises are causing the inequitable workloads of women—particularly women of color—to grow, especially as women of color overwhelmingly make up the essential workforce, bearing the weight of the increased care needs of children, the elderly, and the sick;

Whereas, even before the COVID-19 crisis, many rural communities and independent family farmers suffered from poverty, declining economic opportunity, and alarming rates of farm bankruptcy, including loss of land from Black farmers and the exploitation of Black, Brown, and Indigenous farmers caused by predatory and racist public, private, and governmental institutions and policies;

Whereas the root of our interlocking economic and environmental crises is society’s

historical willingness to treat some communities and workers as disposable;

Whereas it is necessary to counteract systemic injustice and value the dignity of all individuals in order to address unemployment, pandemics, or climate change and ensure the survival of the Nation and the planet;

Whereas the choices made in response to these crises will shape the United States’ direction for the 21st century and beyond, offering an opportunity to reshape our society to provide a good life for each of us and for our children and grandchildren; and

Whereas the United States has the means to support fulfilling livelihoods for millions of people—Black, Indigenous, Brown, Latinx, Asian/Pacific Islander, White, immigrant, urban and rural, old and young, of many faiths, genders, abilities, and talents—while working to heal harms, protect communities, and invest in a future that fosters justice, not crisis: Now therefore, be it

Resolved, That it is the sense of the Senate that—

(1) it is the duty of the Federal Government to respond to the crises of racial injustice, mass unemployment, a pandemic, and climate change with a bold and holistic national mobilization, an Agenda to Transform, Heal, and Renew by Investing in a Vibrant Economy (“THRIVE”) (referred to in this resolving clause as the “Agenda”), to build a society that enables—

(A) greater racial, economic, and gender justice;

(B) dignified work;

(C) healthy communities; and

(D) a stable climate; and

(2) such Agenda shall be assessed upon its ability to uphold its foundational pillars, including—

(A) creating millions of good, safe jobs with access to unions by—

(i) investing in projects including—

(I) upgrading our broken infrastructure to expand access to clean and affordable energy, transportation, high-speed broadband, and water, particularly for public systems;

(II) modernizing and retrofitting millions of homes, schools, offices, and industrial buildings to cut pollution and costs;

(III) investing in public health and care work, including by increasing jobs, protections, wages, and benefits for the historically unpaid and undervalued work of caring for children, the elderly, and the sick;

(IV) protecting and restoring wetlands, forests, and public lands, and cleaning up pollution in our communities;

(V) creating opportunities for family farmers and rural communities, including by untangling the hyper-consolidated food supply chain, bolstering regenerative agriculture, and investing in local and regional food systems that support farmers, agricultural workers, healthy soil, and climate resilience; and

(VI) developing and transforming the industrial base of the United States, while creating high-skill, high-wage manufacturing jobs across the country, including by expanding manufacturing of clean technologies, reducing industrial pollution, and prioritizing clean, domestic manufacturing for the aforementioned investments;

(ii) prioritizing the mobilization of direct public investments, while excluding false solutions that—

(I) increase inequality;

(II) privatize public lands, water, or nature;

(III) violate human rights;

(IV) expedite the destruction of ecosystems; or

(V) decrease union density or membership;

(iii) driving investment toward real full employment, where every individual who
