

Kristina turned her hike into a fundraiser, asking people to donate to the organization that had helped her leave her abusive marriage. It was not until Kristina had successfully completed the hike 36 hours later that she realized the fundraiser had raised more than \$1,000 for Starting Point.

Apart from breaking records, Kristina also owns Rockhopper Races LLC, which hosts races in the White Mountains and raises money for organizations that maintain and preserve New Hampshire's beautiful natural resources.

Kristina not only achieved an incredible athletic feat, but also made a difference in the lives of others by having the courage to speak out about her past trauma. Kristina's strength is an inspiration and reflects the kind of determination to build strength through outreach and mutual support that the Granite State is known for. I am proud to recognize her efforts.●

RECOGNIZING BECKWITH ELECTRIC COMPANY, INC.

● Mr. RUBIO. Mr. President, as chairman of the Senate Committee on Small Business and Entrepreneurship, each week I recognize a small business that exemplifies the American entrepreneurial spirit at the heart of our country. It is my privilege to recognize a family-owned small business with an outstanding record of innovation and industry leadership. This week, it is my pleasure to honor Beckwith Electric Company, Inc., of Largo, FL, as the Senate Small Business of the Week.

In 1967, Robert W. Beckwith established Beckwith Electric in Illinois to provide equipment and services for electric utility providers. Robert, an electric engineer, was a prolific inventor who held more than 30 patents during his lifetime. Under his leadership, Beckwith Electric developed several products integral to electric utilities, including the first solid state tapchanger control in 1968 and microprocessor protective relay in 1981. As the company grew, Robert relocated Beckwith Electric to Largo, FL, in 1974. Like many Floridian small businesses, Beckwith Electric's facilities were completely destroyed by Hurricane Andrew in 1992. Through careful planning, innovation, and an emphasis on customer service, Beckwith Electric rebuilt its facilities and continued to grow.

Today, Beckwith Electric Company is one of the largest manufacturing companies in the Tampa area. Richard's son, Thomas Beckwith, serves as chief executive officer and led the company to a 33-percent increase in growth last year. Beckwith Electric designs and manufactures all of its products, including components for electrical power grids, generators, and protective relays for transformers at its Largo, FL, facility. These items protect, strengthen, and increase the efficiency of electric utility networks. As part of

the U.S. critical industrial base, Beckwith Electric's products are found in military installations, hospitals, and schools. They work with electric utilities, manufacturers, and producers of alternative sources of energy worldwide. They also contributed to rebuilding Iraq's power grid during Operation Iraqi Freedom.

Over the years, Beckwith Electric has been recognized for excellence in their industrial field and for their educational programs. Partnering with St. Petersburg College and Pinellas County Schools, Beckwith Electric regularly hosts educational workshops and technical training programs. In 2012, they earned the Florida Sterling Council Challenger Award. Beckwith has also earned several local and national awards from the Institute of Electrical and Electronics Engineers—IEEE—the industry's professional society. They partner with IEEE in hosting continuing education workshops for industry professionals.

Like many other Floridian small businesses, Beckwith Electric Company was impacted by the coronavirus pandemic. An essential business, they managed to stay open, keep their employees safe, and play a key role in keeping our nation's electrical utilities running smoothly. In April 2020, the U.S. Small Business Administration launched the Paycheck Protection Program, a small business relief program that I was proud to author. The PPP provides forgivable loans to impacted small businesses and nonprofits who maintain their payroll during the COVID-19 pandemic. Thanks to their PPP loan, Beckwith Electric saved 20 jobs, while paying all of their 185 employees.

Beckwith Electric Company demonstrates the key role that small businesses play in our Nation's critical infrastructure and industrial manufacturing base. I commend their innovation, resilience, and high-quality work. Congratulations to Thomas and the entire team at Beckwith Electric Company. I look forward to watching your continued innovation and growth in Florida and beyond.●
