

organizations can adopt to improve their cybersecurity and protect everyone they serve. Specifically, H.R. 8379 directs the Cybersecurity and Infrastructure Security Agency (CISA) to issue guidance that documents and promotes evidence-based cybersecurity policies and controls for small organizations (i.e., small businesses, nonprofits, and local governments); requires CISA, the Small Business Administration (SBA), and the Minority Business Development Agency to promote the cybersecurity guidance; requires the Secretary of Commerce to submit to Congress a report describing methods to incent small organizations to improve their cybersecurity; and requires the SBA to report on the state of small business cybersecurity every two years.

I thank Congressman JOHN KATKO, Senator JACKY ROSEN, and Senator JOHN CORNYN for partnering with me to introduce this bipartisan, bicameral bill, and I urge the House to take up this legislation in a timely fashion and ask my colleagues to support it.

**HONORING DR. MONIQUE BUTLER,
CHIEF MEDICAL OFFICER OF
SWEDISH MEDICAL CENTER**

HON. JASON CROW

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 29, 2020

Mr. CROW. Madam Speaker, it is my honor today to recognize the accomplishments of Dr. Monique Butler who will be honored by The Chamber of Northwest Douglas County as a "Woman Who Soars."

Dr. Butler has been the Chief Medical Officer for Swedish Medical Center since 2018 and her career is an inspiration to all aspiring female doctors. A board-certified internist, Dr. Butler graduated from the University of Michigan, Ann Arbor, and received her medical training at Wayne State University School of Medicine.

Dr. Butler also completed a Master of Business Administration from the University of Tennessee Physician Executive MBA program and holds a clinical assistant professorship at Michigan State University's College of Osteopathic Medicine.

Prior to joining Swedish Medical Center, Dr. Butler came from the Children's Hospital of Michigan—Detroit Medical Center, where she was the Chief Operating Officer. Previously she held positions as the Chief Medical Officer at Detroit Receiving Hospital and Sinai-Grace Hospital.

Dr. Butler was voted A Woman of Excellence in STEM careers in Michigan, was recognized as one of the Michigan Chronicle's 40 under 40, and most recently was identified in Becker's Hospital Review as one of the 50 great African American leaders in healthcare to know in the nation. She is the co-founder of the Young Doctors of Detroit program and founder of The Women Physicians Network.

A dedicated leader who brings an exceptional background, knowledge, expertise, and record of success to our community, there are few others deserving of such an honor. I congratulate Dr. Butler for receiving recognition as a "Woman Who Soars."

PERSONAL EXPLANATION

HON. JOE WILSON

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 29, 2020

Mr. WILSON of South Carolina. Madam Speaker, on September 15, I joined President Trump for the historic signing ceremony at the White House. For this purpose, I was absent from votes.

Had I been present, I would have voted Nay on Roll Call No. 185, and Nay on Roll Call No. 186.

**SALUTING AMERICAN PATRIOTS
OF WWII FOR SERVICE WITH THE
CANADIAN AND BRITISH ARMED
FORCES**

HON. TIM RYAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 29, 2020

Mr. RYAN. Madam Speaker, I rise today to formally honor the legacy of the Ohioans and all other Americans who volunteered to defend democracy, our nation, and our allies during the Second World War. These individuals joined the military by the thousands prior to the December 7, 1941 attack on Pearl Harbor, Hawaii. President Franklin Delano Roosevelt encouraged the volunteerism through words and initiatives, and Hollywood supported these efforts in feature films.

Notably, the responding patriots proactively fought the forces of Nazism and fascism before the U.S. was officially a combatant, which helped provide time for the United States to prepare. The practical skills and knowledge obtained through Canadian and British training and operations proved invaluable once our nation officially took up arms in Europe and Asia.

The intrepid volunteers from the State of Ohio included Edward Tracey of Cortland, Donald James Matthew "Don" Blakeslee of Fairport Harbor, and Dominic Salvatore "Don" Gentile of Piqua. Gentile has been often referred to as a "One Man Air Force" and the "Ace of Aces." I would be remiss if I did not mention Frank Zavakos of Dayton, who was a member of the famous No. 71 (Eagle) Squadron of the Royal Air Force, a unit largely comprised of American pilots, who gave his life.

Madam Speaker, those American women who served in the British Air Transport Auxiliary are also deserving of recognition. Among this group was Bessie Lee Pittman, more commonly known as Jacqueline "Jackie" Cochran. Cochran was a pioneer of women's aviation and the first woman to fly a bomber across the Atlantic. She was the wartime leader of the Women Airforce Service Pilots and in the postwar era the first female to make a supersonic flight. Another was Helen Richey, who in 1934 won the premier air race in Dayton, Ohio, during the first National Air Meet for women. Richey was the first female pilot to be hired by a commercial airline in the United States. Ann Wood-Kelly was also an ATA standout, receiving the King's Medal for Service in the Cause of Freedom and eventually becoming an assistant to the U.S. air attaché in London, a public relations manager for Northeast Airlines, and the first female vice-president of Pan American Airways.

There are certainly more heroes to note. Kermit Roosevelt, the son of President Theodore Roosevelt, Jr., secured a commission in the British Army. John Gillespie Magee, Jr., enlisted in the Royal Canadian Air Force and subsequently composed the immortal sonnet High Flight. William Meade Lindsley "Billy" Fiske III, who was the youngest gold medalist in any winter sport until 1992, died as a Royal Air Force aviator. Joseph Charles "Big Joe" McCarthy of the Royal Canadian Air Force flew on Operation Chastise, the famous Dams Raid. William Robert "Poppy" Dunn, either the first or second American ace of the conflict, served in the Canadian Army and Royal Air Force. William J. Vanderkloot, Jr., Prime Minister Winston Churchill's personal pilot, flew for the Royal Air Force Ferry Command. Chesley Gordon "Pete" Peterson earned a Distinguished Flying Cross while flying with the Royal Air Force. Last but not least was the inspirational Vernon Charles "Shorty" Keough, who flew many missions during the Battle of Britain. Keough was the most diminutive aviator in the Royal Air Force; yet his legacy is lofty in the annals of history.

This year, 2020, marks the 75th anniversary of the formal ending of World War II. The bravery and foresight displayed by the volunteers from my state and the rest of the United States represent a largely unrecognized story of valor. Therefore, I ask you and my other distinguished colleagues to join me in saluting them.

**EXPANDING ACCESS TO SUSTAINABLE
ENERGY ACT OF 2019**

SPEECH OF

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 23, 2020

Ms. LEE of California. Madam Speaker, I rise in support of H.R. 4447, the Clean Economy Jobs and Innovation Act.

As we know from the devastating wildfires in my state, the reality of the climate crisis is here. The planet we are leaving to our children is different from the one we were born on, and we have to reverse course now before it is too late.

I want to thank my colleagues who offered amendments to make this an even stronger green bill. In particular, I thank my friend Representative BARRAGÁN for offering an amendment I co-sponsored to invest in helping seaports to make their operations more efficient and less polluting. And I thank the environmental groups who gave critical input on this legislation and on the urgent need for our country and for the world to close the chapter on the era of fossil fuels.

During this year's unprecedented wildfires, smoke has been at unhealthy and even hazardous levels for weeks on end in my district. Wildfire smoke is especially damaging to vulnerable populations, for example unsheltered people. H.R. 4447 includes the Smoke Planning and Research Act to help state and local governments protect their communities from wildfire smoke. I believe we have a critical need for this legislation to respond to a serious threat to public health—for example by creating shelters for at-risk populations or retrofitting schools with air filters so students can safely attend school.
