

bravely stepping up to the fight against COVID-19 for the past several months, and I pray that he may be granted safety and good health as he continues to serve others. He is a hero in our Brookhaven community, and I am grateful for what he has meant to so many during the pandemic.●

TRIBUTE TO TAMMY LIVINGSTON

● Mrs. HYDE-SMITH. Mr. President, I would like to commend a friend and frontline healthcare worker, Tammy Livingston, who is a nurse at Kings Daughters Medical Center in my hometown of Brookhaven, MS. Rural hospitals like this one, along with their brave staff, are the backbone of healthcare in Mississippi.

Tammy has worked at Kings Daughters Medical Center for over 20 years. While she has served in many positions within the hospital, she is currently the patient care coordinator. In her role, she cares for some of the sickest patients in the hospital by assisting her colleagues with patients in the ICU. Within the dedicated medical unit for COVID patients at Kings Daughters, Tammy monitors patients daily, making sure they are comfortable and cared for at such a difficult time.

Tammy is invaluable to the Kings Daughters Medical Center. Tammy is put in situations every day where she endures heavy stress, heart-wrenching situations, and puts herself in harm's way to care for patients and their families during the COVID-19 pandemic. She is a lifesaver and best friend to all of her patients. Tammy is a healthcare hero. I am thankful for our fighters like Tammy and pray that she may be kept safe while she serves her friends, family, and community through this pandemic.●

TRIBUTE TO CHRISTINA MILLER

● Mrs. HYDE-SMITH. Mr. President, I commend Christina Miller, a healthcare hero and someone who puts her life in danger every day to help save lives. Christina is an emergency room nurse at Kings Daughters Medical Center in Brookhaven, MS.

Christina demonstrates a remarkable selflessness and level of compassion for her patients and coworkers. As more Americans became infected with COVID-19, hospitals began to fill up and staffing became a challenge. Christina immediately stepped up and volunteered to orient on the ICU floor to help with staffing needs to help care and treat the sickest patients.

Not only does Christina give the utmost care to her patients, she also realizes the physical and emotional strain all healthcare workers are feeling during these unprecedented times. Christina wanted to help encourage her colleagues, so she began an employee appreciation program among the emergency room nurses. This gave the nurses something to look forward to when they arrived at work.

Throughout our Nation's history, everyday Americans bravely emerge in times of turmoil to aid their neighbors. In the case of Christina, she has fought on the frontlines as a nurse by stepping into harm's way to provide care for patients affected by the virus.

Mississippi first responders and healthcare providers have experienced a drastic change not only in their professional life but also in their home life. The COVID-19 pandemic has been demanding of their time, taken them away from their loved ones, and caused their worlds to totally change. These heroes, such as Christina, are walking examples of what selfless service looks like.●

TRIBUTE TO DR. JEFFREY ROSS

● Mrs. HYDE-SMITH. Mr. President, I rise today to honor Dr. Jeffrey Ross of Kings Daughters Medical Center in Brookhaven. Dr. Ross has both served and cared for his community since he first started practicing medicine in Brookhaven in 1990 and has risen to the challenge of COVID-19 with great distinction. Doctors like Dr. Jeff Ross are working through both physical and mental exhaustion during this pandemic. They have the burden of having the "final say" and a team of healthcare providers relying on their instruction daily. The stress presented in these situations is not something healthcare providers can simply turn off when they go off the clock. Despite all of this pressure, these doctors continue to do their job, selflessly managing the care of their fellow Mississippians.

Originally from Whitfield, MS, Dr. Ross earned his medical degree in Jackson before pursuing his residency in Kentucky. He returned to Mississippi, where he has dedicated nearly all of his adult life to serving his neighbors. Dr. Ross and his wife, Susan, have raised three children in the Brookhaven community.

I commend Dr. Jeffrey Ross for his personal sacrifice, dedication to his community, and his leadership. My State is fortunate to have doctors such as him who are focused on the health and wellness of all Mississippians.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Roberts, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

In executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

PRESIDENTIAL MESSAGE

REPORT RELATIVE TO THE ISSUANCE OF AN EXECUTIVE ORDER DECLARING A NATIONAL EMERGENCY TO DEAL WITH THE THREAT POSED BY OUR NATION'S UNDUE RELIANCE ON CRITICAL MINERALS, IN PROCESSED OR UNPROCESSED FORM, FROM FOREIGN ADVERSARIES—PM 59

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Energy and Natural Resources:

To the Congress of the United States:

Pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*) (IEEPA), the National Emergencies Act (50 U.S.C. 1601 *et seq.*), and section 301 of title 3, United States Code, I hereby report that I have issued an Executive Order declaring a national emergency to deal with the threat posed by our Nation's undue reliance on critical minerals, in processed or unprocessed form, from foreign adversaries.

A strong America cannot be dependent on imports from foreign adversaries for the critical minerals that are increasingly necessary to maintain our economic and military strength in the 21st century. Because of the national importance of reliable access to critical minerals, I signed Executive Order 13817 of December 20, 2017 (A Federal Strategy To Ensure Secure and Reliable Supplies of Critical Minerals), which required the Secretary of the Interior to identify critical minerals and made it the policy of the Federal Government "to reduce the Nation's vulnerability to disruptions in the supply of critical minerals." The critical minerals identified by the Secretary of the Interior are necessary inputs for the products our military, national infrastructure, and economy depend on the most. Our country needs critical minerals to make airplanes, computers, cell phones, electricity generation and transmission systems, and advanced electronics.

Though these minerals are indispensable to our country, we presently lack the capacity to produce them in processed form in the quantities we need. American producers depend on foreign countries to supply and process them. Whereas the United States recognizes the continued importance of cooperation on supply chain issues with international partners and allies, in many cases, the aggressive economic practices of certain non-market foreign producers of critical minerals have destroyed vital mining and manufacturing jobs in the United States. We must reduce our vulnerability to adverse foreign government action, natural disaster, or other supply disruptions. Our national security, foreign
