TITLE II—CORONAVIRUS LIABILITY RELIEF

SEC. 2001. SHORT TITLE.

This title may be cited as the “Safeguarding America’s Frontline Employees To Offer Work Opportunities Required to Kickstart the Economy Act” or the “SAFE TO WORK Act”.

SEC. 2002. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) The SARS-CoV-2 virus that originated in China and causes the disease COVID-19 has caused untold misery and devastation throughout the world, including in the United States.

(2) For months, frontline health care workers and health care facilities have fought the virus with courage and resolve. They did so at first with very little information about how to treat the virus and developed strategies to save lives of the people of the United States in real time. They risked their personal health and wellbeing to protect and treat their patients.

(3) Businesses in the United States kicked into action to produce and procure personal protective equipment, such as masks, gloves, face shields, and hand sanitizer, and other necessary medical supplies, such as ventilators, at unprecedented rates.

(4) To halt the spread of the disease, State and local governments took drastic measures. They shut down small and large businesses, schools, colleges and universities, religious, philanthropic and other nonprofit institutions, and local government agencies. They ordered people to remain in their homes.

(5) This standstill was needed to slow the spread of the virus. But it devastated the economy of the United States. The sum of hundreds of local-level and State-level decisions to close nearly every space in which people might gather brought interstate commerce nearly to a halt.

(6) This halt led to the loss of millions of jobs. These lost jobs were not a natural consequence of the economic environment, but rather the result of a drastic, though temporary, response to the unprecedented nature of this global pandemic.

(7) Congress passed a series of statutes to address the health care and economic crises—the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; 134 Stat. 146), the Families First Coronavirus Response Act (Public Law 116-127; 134 Stat. 178), the Coronavirus Aid, Relief, and Economic Security Act or the CARES Act (Public Law 116-136), and the Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; 134 Stat. 620). In these laws Congress exercised its power under the Commerce and Spending Clauses of the Constitution of the United States to direct trillions of taxpayer dollars toward efforts to aid workers, businesses, State and local governments, health care workers, and patients.

(8) This legislation provided short-term insulation from the worst of the economic storm, but these laws alone cannot protect the United States from further devastation. Only reopening the economy so that workers can get back to work and students can get back to school can accomplish that goal.

(9) The Constitution of the United States specifically enumerates the legislative powers of Congress. One of those powers is the regulation of interstate commerce. The Government is not a substitute for the economy, but it has the authority and the duty to act when interstate commerce is threatened and damaged. As applied to the present crisis, Congress can deploy its power over interstate commerce to promote a prudent reopening of businesses and other organizations that serve as the foundation and backbone of the national economy and of commerce among the States. These include small and large businesses, schools (which are substantial employers in their own right and provide necessary services to enable parents and other caregivers to return to work), colleges and universities (which are substantial employers and supply the interstate market for higher-education services), religious, philanthropic and other nonprofit institutions (which are substantial employers and provide necessary services to their communities), and local government agencies.

(10) Congress must also ensure that the Nation’s health care workers and health care facilities are able to act fully to defeat the virus.

(11) Congress must also safeguard its investment of taxpayer dollars under the CARES Act and other coronavirus legislation. Congress must ensure that those funds are used to help businesses and workers survive and recover from the economic crisis, and to help health care workers and health care facilities defeat the virus. CARES Act funds cannot be diverted from these important purposes to line the pockets of the trial bar.

(12) One of the chief impediments to the continued flow of interstate commerce as this public-health crisis has unfolded is the risk of litigation. Small and large businesses, schools, colleges and universities, religious, philanthropic and other nonprofit institutions, and local government agencies confront the risk of a tidal wave of lawsuits accusing them of exposing employees, customers, students, and worshipers to coronavirus. Health care workers face the threat of lawsuits arising from their efforts to fight the virus.

(13) They confront this litigation risk even as they work tirelessly to comply with the coronavirus guidance, rules, and regulations

issued by local governments, State governments, and the Federal Government. They confront this risk notwithstanding equipment and staffing shortages. And they confront this risk while also grappling with constantly changing information on how best to protect employees, customers, students, and worshippers from the virus, and how best to treat it.

(14) These lawsuits pose a substantial risk to interstate commerce because they threaten to keep small and large businesses, schools, colleges and universities, religious, philanthropic and other nonprofit institutions, and local government agencies from reopening for fear of expensive litigation that might prove to be meritless. These lawsuits further threaten to undermine the Nation's fight against the virus by exposing our health care workers and health care facilities to liability for difficult medical decisions they have made under trying and uncertain circumstances.

(15) These lawsuits also risk diverting taxpayer money provided under the CARES Act and other coronavirus legislation from its intended purposes to the pockets of opportunistic trial lawyers.

(16) This risk is not purely local. It is necessarily national in scale. A patchwork of local and State rules governing liability in coronavirus-related lawsuits creates tremendous unpredictability for everyone participating in interstate commerce and acts as a significant drag on national recovery. The aggregation of each individual potential liability risk poses a substantial and unprecedented threat to interstate commerce.

(17) The accumulated economic risks for these potential defendants directly and substantially affects interstate commerce. Individuals and entities potentially subject to coronavirus-related liability will structure their decisionmaking to avoid that liability. Small and large businesses, schools, colleges and universities, religious, philanthropic and other nonprofit institutions, and local government agencies may decline to reopen because of the risk of litigation. They may limit their output or engagement with customers and communities to avoid the risk of litigation. These individual economic decisions substantially affect interstate commerce because, as a whole, they will prevent the free and fair exchange of goods and services across State lines. Such economic activity that, individually and in the aggregate, substantially affects interstate commerce is precisely the sort of conduct that should be subject to congressional regulation.

(18) Lawsuits against health care workers and facilities pose a similarly dangerous risk to interstate commerce. Interstate commerce will not truly rebound from this crisis until the virus is defeated, and that will not happen unless health care workers and facilities are free to combat vigorously the virus and treat patients with coronavirus and those otherwise impacted by the response to coronavirus.

(19) Subjecting health care workers and facilities to onerous litigation even as they have done their level best to combat a virus about which very little was known when it arrived in the United States would divert important health care resources from hospitals and providers to courtrooms.

(20) Such a diversion would substantially affect interstate commerce by degrading the national capacity for combating the virus and saving patients, thereby substantially elongating the period before interstate commerce could fully re-engage.

(21) Congress also has the authority to determine the jurisdiction of the courts of the United States, to set the standards for causes of action they can hear, and to establish the rules by which those causes of action

should proceed. Congress therefore must act to set rules governing liability in coronavirus-related lawsuits.

(22) These rules necessarily must be temporary and carefully tailored to the interstate crisis caused by the coronavirus pandemic. They must extend no further than necessary to meet this uniquely national crisis for which a patchwork of State and local tort laws are ill-suited.

(23) Because of the national scope of the economic and health care dangers posed by the risks of coronavirus-related lawsuits, establishing temporary rules governing liability for certain coronavirus-related tort claims is a necessary and proper means of carrying into execution Congress's power to regulate commerce among the several States.

(24) Because Congress must safeguard the investment of taxpayer dollars it made in the CARES Act and other coronavirus legislation, and ensure that they are used for their intended purposes and not diverted for other purposes, establishing temporary rules governing liability for certain coronavirus-related tort claims is a necessary and proper means of carrying into execution Congress's power to provide for the general welfare of the United States.

(b) PURPOSES.—Pursuant to the powers delegated to Congress by article I, section 8, clauses 1, 3, 9, and 18, and article III, section 2, clause 1 of the Constitution of the United States, the purposes of this title are to—

(1) establish necessary and consistent standards for litigating certain claims specific to the unique coronavirus pandemic;

(2) prevent the overburdening of the court systems with undue litigation;

(3) encourage planning, care, and appropriate risk management by small and large businesses, schools, colleges and universities, religious, philanthropic and other nonprofit institutions, local government agencies, and health care providers;

(4) ensure that the Nation's recovery from the coronavirus economic crisis is not burdened or slowed by the substantial risk of litigation;

(5) prevent litigation brought to extract settlements and enrich trial lawyers rather than vindicate meritorious claims;

(6) protect interstate commerce from the burdens of potentially meritless litigation;

(7) ensure the economic recovery proceeds without artificial and unnecessary delay;

(8) protect the interests of the taxpayers by ensuring that emergency taxpayer support continues to aid businesses, workers, and health care providers rather than enrich trial lawyers; and

(9) protect the highest and best ideals of the national economy, so businesses can produce and serve their customers, workers can work, teachers can teach, students can learn, and believers can worship.

(2) STRICTER LAWS NOT PREEMPTED OR SUPERSEDED.—Nothing in this part shall be construed to affect the applicability of any provision of any Federal, State, or Tribal law that imposes stricter limits on damages or liabilities for personal injury caused by, arising out of, or related to an actual, alleged, feared, or potential for exposure to coronavirus, or otherwise affords greater protection to defendants in any coronavirus exposure action, than are provided in this part. Any such provision of Federal, State, or Tribal law shall be applied in addition to the requirements of this part and not in lieu thereof.

SEC. 2122. LIABILITY; SAFE HARBOR.

(a) REQUIREMENTS FOR LIABILITY FOR EXPOSURE TO CORONAVIRUS.—Notwithstanding any other provision of law, and except as otherwise provided in this section, no individual or entity engaged in businesses, services, activities, or accommodations shall be liable in any coronavirus exposure action unless the plaintiff can prove by clear and convincing evidence that—

(2) the individual or entity engaged in gross negligence or willful misconduct that caused an actual exposure to coronavirus; and

(3) the actual exposure to coronavirus caused the personal injury of the plaintiff.

(b) REASONABLE EFFORTS TO COMPLY.—

(1) CONFLICTING APPLICABLE GOVERNMENT STANDARDS AND GUIDANCE.—

(A) IN GENERAL.—If more than 1 government to whose jurisdiction an individual or

(C) ABSENCE OF A WRITTEN OR PUBLISHED POLICY.—The absence of a written or published policy shall not give rise to a presumption that the individual or entity did not make reasonable efforts in light of all the circumstances to comply with the applicable government standards and guidance for purposes of subsection (a)(1).

(3) TIMING.—For purposes of subsection (a)(1), a change to a policy or practice by an individual or entity before or after the actual, alleged, feared, or potential for exposure to coronavirus, shall not be evidence of liability for the actual, alleged, feared, or potential for exposure to coronavirus.

(2) **PROPORTIONATE LIABILITY.**—

(A) **DETERMINATION OF RESPONSIBILITY.**—In any coronavirus-related action, the court shall instruct the jury to answer special interrogatories, or, if there is no jury, the court shall make findings with respect to each defendant, including defendants who have entered into settlements with the plaintiff or plaintiffs, concerning the percentage of responsibility, if any, of each defendant, measured as a percentage of the total fault of all individuals or entities who caused or contributed to the loss incurred by the plaintiff.

(1) the award of compensatory damages shall be limited to economic losses incurred as the result of the personal injury, harm, damage, breach, or tort, except that the court may award damages for noneconomic losses if the trier of fact determines that the personal injury, harm, damage, breach, or tort was caused by the willful misconduct of the individual or entity;

(2) **PUNITIVE DAMAGES.**—

(A) may be awarded only if the trier of fact determines that the personal injury to the plaintiff was caused by the willful misconduct of the individual or entity; and

(B) may not exceed the amount of compensatory damages awarded; and

(f) **INTERLOCUTORY APPEAL AND STAY OF DISCOVERY.**—The courts of appeals of the United States shall have jurisdiction of an appeal from a motion to dismiss that is denied in any coronavirus-related action in a district court of the United States. By Ms. HIRONO (for herself, Mr. BROWN, Mrs. MURRAY, Mr. SANDERS, Mrs. DUCKWORTH, Mr. SCHATZ, Mr. CARDIN, and Ms. WARREN):

S. 4777. A bill to restore leave lost by Federal employees during certain public health emergencies, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Ms. HIRONO. Mr. President, today I rise to introduce a bill that provides fairness to our Federal employees who work day in and day out to help the government function and serve the public. The importance of their role has become even more apparent as our Nation continues to suffer in the midst of a global pandemic.

In a normal year, the average Federal employee can accumulate up to 240 hours, or 30 days, of annual leave. At the end of the year, if a Federal employee has more than 240 hours, they either have to use the amount of leave over 240 hours or lose it. These excess hours are commonly known as "use or lose" leave.

But these are not normal times. We are in the middle of a global pandemic and we have a President who lies about how dangerous this virus is and does little to address the severity of it. We see the results, nearly seven million people in the United States have contracted COVID-19 and more than 200,000 have died. The United States now has the unenviable distinction of being the Nation with the most COVID-19 cases and the most deaths.

Through all of this, people continue to go to work and try to carry out their duties the best they can. In the Federal Government, there are National Institutes of Health researchers, Internal Revenue Service workers, Social Security staff, law enforcement officers, and others, working each day to provide government services to the American public. Some are not able to take leave because their job is a critical part of the response to the pandemic. Others are simply unable to take leave because they are limiting their exposure to the virus or are following state and local rules to prevent the spread of COVID-19.

To try and address this issue, on August 10, the Office of Personnel Management published an interim rule that recognizes the COVID-19 pandemic as an “exigency of the public business” and allows some federal employees to carry over use or lose leave. However, this policy is limited to employees who are designated as essential by their agency.

This contrasts with the Department of Defense which issued a memo on April 16, allowing all active-duty service members to accrue leave in excess of their 60-day limitation, regardless of job responsibilities or duty station. All Federal employees contribute to their agency’s mission, regardless of the job they hold. No one should lose earned annual leave due to this pandemic.

To resolve this inequity, I am introducing the Federal Worker Leave Fairness Act which will allow all Federal employees to carry over annual leave above the 240 hour cap, regardless of whether they are considered essential. My bill also resolves this issue for future pandemics declared a national public health emergency by allowing “use or lose” leave to be rolled over during the emergency declaration.

This legislation is being introduced in the House by Representatives DEREK KILMER and JENNIFER WEXTON and is supported by the National Treasury Employees Union; American Federation of Government Employees; Federal Law Enforcement Officers Association; International Federation of Professional and Technical Engineers; National Federation of Federal Employees; Federal Managers Association; FAA Managers Association; National Active and Retired Federal Employees Association; and the American Federation of State, County and Municipal Employees.

This bill is a small act of fairness in an otherwise stressful and overwhelming year. I urge my colleagues to support this bill in recognition of our hardworking federal workforce.

I yield the floor.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 727—DESIGNATING SEPTEMBER 2020 AS “NATIONAL OVARIAN CANCER AWARENESS MONTH”

Ms. STABENOW (for herself, Ms. MURKOWSKI, Mrs. FEINSTEIN, Mr. BROWN, Mr. BLUMENTHAL, Mr. PETERS, Mr. MENENDEZ, Mr. VAN HOLLEN, and Mrs. CAPITO) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 727

Whereas ovarian cancer is the fifth leading cause of cancer deaths in women in the United States and accounts for more deaths than any other cancer of the female reproductive system;

Whereas, in the United States, a woman’s lifetime risk of being diagnosed with ovarian cancer is about 1 in 78;

Whereas the American Cancer Society estimates 21,750 new cases of ovarian cancer will be diagnosed in 2020 and 13,940 people will die from the disease nationwide;

Whereas the 5-year survival rate for ovarian cancer is 46.5 percent, and survival rates vary greatly depending on the stage of diagnosis;

Whereas the 5-year survival rate for ovarian cancer is over 90 percent for women diagnosed in early stages;

Whereas, while the mammogram can detect breast cancer and the Pap smear can detect cervical cancer, there is no reliable early detection test for ovarian cancer;

Whereas, in June 2007, the first national consensus statement on ovarian cancer symptoms was developed to provide consistency in describing symptoms and make it easier for women to learn and remember those symptoms;

Whereas too many people remain unaware that the symptoms of ovarian cancer often include bloating, pelvic or abdominal pain, difficulty eating or feeling full quickly, urinary symptoms, and several other vague symptoms that are often easily confused with other diseases;

Whereas improved awareness of the symptoms of ovarian cancer by the public and health care providers can lead to a quicker diagnosis;

Whereas the lack of an early detection test for ovarian cancer, combined with its vague symptoms, mean that approximately 80 percent of cases of ovarian cancer are detected at an advanced stage;

Whereas all women are at risk for ovarian cancer, but approximately 20 percent of women who are diagnosed with ovarian cancer have a hereditary predisposition to ovarian cancer, which places them at even higher risk;

Whereas scientists and physicians have uncovered changes in the BRCA genes that some women inherit from their parents, which may make those women 30 times more likely to develop ovarian cancer;

Whereas the family history of a woman has been found to play an important role in accurately assessing a woman’s risk of developing ovarian cancer, and medical experts believe that family history should be taken into consideration during the annual well-woman visit of any woman;

Whereas women who know that they are at high risk of ovarian cancer may undertake prophylactic measures to help reduce the risk of developing this disease;

Whereas guidelines issued by the National Comprehensive Cancer Network (NCCN) and the Society of Gynecologic Oncology (SGO)

recommend that all individuals diagnosed with ovarian cancer receive genetic counseling and genetic testing regardless of their family history;

Whereas studies consistently show that compliance with such guidelines is alarmingly low, with recently published National Cancer Institute-funded research finding that in 2013 and 2014, only 1/3 of ovarian cancer survivors had undergone such testing;

Whereas, according to a 2016 consensus report by the National Academy of Medicine, “there remain surprising gaps in the fundamental knowledge about and understanding of ovarian cancer” across all aspects of the disease;

Whereas ongoing investments in ovarian cancer research and education and awareness efforts are critical to closing these gaps and improving survivorship for women with ovarian cancer;

Whereas, each year during the month of September, the Ovarian Cancer Research Alliance (OCRA) and its community partners hold a number of events to increase public awareness of ovarian cancer and its symptoms; and

Whereas September 2020 should be designated as “National Ovarian Cancer Awareness Month” to increase public awareness of ovarian cancer: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2020 as “National Ovarian Cancer Awareness Month”; and

(2) supports the goals and ideals of National Ovarian Cancer Awareness Month.

SENATE RESOLUTION 728—RECOGNIZING THE INSTRUMENTAL ROLE UNITED STATES GLOBAL FOOD SECURITY PROGRAMS, PARTICULARLY THE FEED THE FUTURE PROGRAM, HAVE PLAYED IN REDUCING GLOBAL POVERTY, BUILDING RESILIENCE AND TACKLING HUNGER AND MALNUTRITION AROUND THE WORLD, AND CALLING FOR CONTINUED INVESTMENT IN GLOBAL FOOD SECURITY IN THE FACE OF THE ECONOMIC IMPACT OF COVID-19

Mr. CASEY (for himself and Mr. RISCH) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 728

Whereas food security and nutrition are fundamental to human development, particularly in the critical 1,000 day window until a child’s second birthday, and persistent hunger and malnutrition stunt children’s mental and physical development and hinder the health, prosperity, and security of societies;

Whereas food insecurity and malnutrition in low- and middle-income countries force tens of millions of people into poverty, contribute to political and social instability, and erode economic growth;

Whereas in its 2014 Worldwide Threat Assessment of the United States, the United States intelligence community reported that the “lack of adequate food will be a destabilizing factor in countries important to United States national security” and has since consistently linked global food insecurity to broader instability;

Whereas, despite decades of progress, the State of Food Security and Nutrition in the World report for 2020 indicates that global hunger has increased since 2014, with 2,000,000,000 people worldwide currently experiencing food insecurity, of which nearly
